collimators for plutonium—beryllium and polonium—beryllium, effective source center for alignment of fast current from, (E/T), 22:53070
collimators for, design of, 22:18123(R) (RLO-1925-11)
comparison of DFR, EBR-2, FFTF, and ING facilities, 23:21447 (AECL-3251)
conference on high-intensity, 21:44499 (CONF-660925)
conference on uses of, 21:45447
conference on uses of, 21:45448
construction, calibration, and testing of, book on, 21:27928
container design for radioisotope, for irradiation of samples, 24:14150(P)
contamination from tritium target, vacuum cartridge for containing, 22:48393 (ORO-3346-29)
contamination hazards near accelerator, tritium, 22:43310 (PHS-999-RH-29)
control devices design for, 21:16056(P)
cooling of, design of 500 W hydrogen refrigerator for, 24:4404
correlation techniques for use at pulsed reactor, time-of-flight, 25:59672 (KFKI-71-45)
costs of, method for evaluating isotopic, 25:50606 (CONF-710402-(Vol.2), pp I.142-6)
data acquisition systems for pulsed, resolving time of kinetic, 21:10707
description and review of high-flux, 21:33861
description and uses in nuclear chemistry, 21:42545
description and uses of 14-MeV, for education, 25:3526 (CONF-700322-, pp 33-47)
description and uses of pulsed 14-MeV, 22:39564
description for use in neutron studies of condensed matter, (E/T), 22:1570
description of 14-MeV T(d,n), 25:59676
description of 14-MeV, for uranium analysis in scrap recovery plant, 25:8447(R) (BHO-65-1)
description of americium—beryllium, for use as standard neutron flux in calibration of activation detectors, 23:45503 (BARC-388)
description of californium-252, 25:57661
description of cold-neutron facility, 21:7644
description of D(γ,n), using low-energy electron linear accelerator, 24:15867 (GA-9614)
description of d-d fast, using heavy water vapor target, 24:20300
description of Dynamitron, 25:42048 (ANL-7710, pp 263-364)
description of EURACOS fast, in Ispra-1 Reactor, 23:2079
description of experimental facilities of Argonne Advanced Research Reactor, 21:44503 (CONF-660925, pp 215-59)
description of Franco-German high-flux reactor for beam-tube experiments, 21:44505 (CONF-660925, pp 281-310)
description of high-flux 14-MeV, using T(d,n) reactions, 22:37248
description of high-flux reactors for use as, 21:44502 (CONF-660925, pp 119-55)
description of high-flux research reactor, for fast and thermal neutron experiments, 21:44504 (CONF-660925, pp 261-79)
description of high-flux, using proton-beam reactions with flowing liquid bismuth-lead eutectic target, 22:20432(P)
description of liquid pulsed, for research reactors, 22:6134(P)
description of mobile D-T, for neutron interrogation and nondestructive analysis, 25:48776 (CONF-710402-(Vol.2), pp I.61-71)
description of NBS research reactor as, 25:50594 (CONF-710402-(Vol.2), pp I.10-17)
description of paraffin-moderated radioisotope thermal, for detector calibration, 25:54892 (LA-4745)
description of polarized, using underground nuclear explosion, 25:5475 (LA-4465, pp 7.1-2)
description of S-band 14-MeV electron linear accelerator, for pulsing Zebra reactor, 23:52030 (AEEW-M-896)
description of TRIGA-type reactor for pulsed, 21:44508 (CONF-660925, pp 413-24)
description of UCD 76-inch isochronous cyclotron lithium-7-target, for medium-energy neutrons, 25:12331
description of vertically constructed, using helium-3 (d,n) reactions, 21:17289(P)
design, 21:4191(P)
design, 21:7685(P)
design, 21:42544
design and core location of, for approach to power testing of Peach Bottom, 21:23600(R) (GA-7830)
design and development of intense, 21:2580 (AECL-2600)
design and fabrication of d-T tubes, technology of, 22:18085
design and improvement of, for use in activation analysis, 22:14614
design and operation for activation analysis, 21:38152 (EUR-3210.f(Vol.3))
design and operation of 14-MeV pulsed, 22:22538
design and operation of high-intensity spallation-type, for thermal neutrons, 21:44516 (CONF-660925, pp 637-60)
design and operation of portable neutron generator, 23:2692 (GEPP-43)
design and operation of UNG-1 tube-type, for well logging, 24:8829
design and operation of UNG-1 tube-type, for well logging, 25:20228(T) (CSIRO-Trans-10095)
design and operation using multiplying assembly with accelerator booster, 21:44509 (CONF-660925, pp 431-49)
design and operation using research reactor with accelerator booster, 21:44510 (CONF-660925, pp 451-84)
design and performance of 4π, for scattering cross section measurements, 21:40359
design and performance of americium-241—beryllium, for activation analysis, 24:41707
design and performance of d—T, using Cockcroft—Walton accelerator with duoplasmatron ion source, 22:11886
design and performance of graphite-reflected BOREAL, for determining boron content of small slabs, 24:29440 (CEA-N-1284)
design and performance of high-output, 24:57
design and performance of howitzer-type thermal, by moderation of fast neutrons from accelerator or isotope sources, 25:45886
design and performance of mechanical, for cold neutrons, 25:43774

design and performance of miniature, for well logging, 23:29247
design and performance of paraffin-moderated and -shielded plutonium—beryllium, 21:4183
design and performance of plasma focus, 21:29317(T) (LA-tr-67-42)
design and performance of pulsed 14-MeV, using T(d,n) reaction, 23:34704 (GEPP-63)
design and performance of pulsed tritium (d,n), for producing neutrons at 200 keV, 24:15771
design and performance of shield-experimental facility for californium-252, 25:50614 (CONF-710402-(Vol.2), pp I.196-203)
design and performance of tube, for 10^{11} neutrons/second, 24:56
design and use for therapy, 21:39462
design and uses of accelerator, review on, 24:20284
design concept for EDNA electron generator and multiplying medium combination, 24:11249 (CONF-690102-, pp 403-26)
design concepts for pulsed neutron experiments, technical progress review on, 22:35207
design for activation analysis incorporated in on-line process control equipment, 22:21236 (ORO-2980-16)
design for EBR-II fuel cycle facility, 22:4370
design for experiments on liquid hydrogen isotopes and helium-3, 23:25801
design for fast neutrons, 21:5481(P)
design for fast neutrons, 21:7686(P)
design for fast neutrons, 21:7684(P)
design for generating nanosecond pulses, 21:44526
design for high-frequency wave propagation experiments, using positive-ion electrostatic accelerators, 23:10922
design for neutron radiography, 22:4372
design for polarized neutrons, 21:13789
design for producing polarized thermal neutrons, (E), 25:31180
design for pulsed fast reactors, 21:30217(P)
design for pulsed fast reactors, 21:30218(P)
design for radiography applications, moderator arrangement in, 24:10893 (DR/SAR-G-67-45)
design for radiography of objects in hot cells, 22:4371
design for U.S.S.R. IBR-2 Reactor, 25:54189 (A/CONF.49/P-774)
design modification and operation of automated fast, for bulk analysis, 21:40784
design modification and performance of pulsed, 21:7608
design modifications for portable sealed tube, 24:6807
design of, 21:39096(P)
design of, 21:32302(P)
design of (α,n), using alpha-emitting radioisotope, 24:20307(P)
design of 14-MeV, for well logging, 22:28189
design of accelerator target, for uniform sample exposure, 21:28141(P)
design of accelerator—target, 24:45719(P)
design of accelerator—target T(d,n) pulsed, 25:31178
design of accelerator—target, at 14 MeV, 24:33079
design of accelerator—target—rotator for uniform exposure, 21:19817(P)
design of americium—beryllium, for use as epithermal standard flux, 24:10892 (CONF-680461-4)
design of americium—beryllium, standard thermal flux density, 23:49313
design of americium-241—beryllium—curium-242, for radiography, 24:5835
design of antimony-124—beryllium thermal, 22:44587
design of arc discharge type, (E), 22:15939(P)
design of auxiliary equipment for high-flux research reactors, 21:44518 (CONF-660925, pp 701-30)
design of beryllium—plutonium rod, 25:41372(P)
design of C. O. I. N. arrangement for open channel irradiation, 22:12937 (CONF-660344-1)
design of californium-252, for calibration of survey detectors, 25:44587 (UCRL-51049)
design of californium-252, for isotopic analysis of fissionable materials, 23:9680 (LA-DC-10032)
design of circular target, 23:9630(P)
design of cold, 24:1730(P)
design of cold, for MIT reactor, 25:41162
design of cold, using liquid hydrogen moderator with DIDO reactor, 22:13894 (AERE-M-1690)
design of collimated fast monoenergetic, using D(d,n) associated particle method, 24:8828
design of D(d,n), for fast neutrons, 21:44474 (UCRL-17675)
design of D—D and D—T type, (E), 22:22541(P)
design of d—T, for industrial radiography using 14 MeV neutrons, 23:33362
design of d-D and d-T, 23:42810(P)
design of d-D and d-T generator tubes, with sealed-in gas replenisher, 22:26785(P)
design of d-T, using target shielding as support structure, 22:26784(P)
design of d-T, with automatic flux control for well logging, 22:26786(P)
design of deuterium (d,n) and tritium (d,n), 22:50509
design of discharge-tube-type, 21:5480(P)
design of electrostatic generator, 23:24495(P)
design of electrostatic generator, 23:24496(P)
design of fast pulsed generator for well logging, 23:39920
design of fast, for use in well logging, 22:43134
design of fast, using spherical lead electron target, 21:40346 (RPI-328-87, pp 22-59)
design of fast, using T(d,n) reaction, 22:24757
design of fission, using californium-252, (E), 22:7620
design of gas-target, for 10^{13}n/sec flux, 25:26883
design of generator, 23:39877(P)
design of generator tubes for activation analysis and geophysical research, 23:3916
design of helium cooled liquid hydrogen moderated thermal, 25:28767
design of high-flux, with gas-discharge generator, 21:46658(P)
design of high-intensity pulsed d-D, using low-pressure high-voltage discharge, 22:41930
design of high-intensity, for irradiation of biological material, 21:1486 (AD-637458)
design of high-yield, using uranium target with electron linac, 22:37250
design of intense, 25:36656(P)
design of Intense Neutron Generator, using flowing liquid metal as proton-beam target, 22:26769(P)
design of intense thermal, based on proton reactions with liquid metals, 25:56624(P)
design of intense, using electron linear accelerator with fast reactor modules, for time-of-flight beam experiments, 25:9954
design of intense, using low-energy high-power accelerators, 25:45865
design of ion accelerating tubes for portable tube-type, 24:8794
design of linear accelerator, 21:25367
design of liquid methane cold, 24:38060 (IJS-574)
design of low-cost howitzer, (E), 21:8503
design of neutron generating tube with Penning ion source, 23:13165
design of neutron generating tubes, 22:32361 (IFA-AL-1)
design of neutron generator, 23:42809(P)
design of plate-type, for irradiation facilities, 23:9632(P)
design of plutonium-239—beryllium, for calibration of radiation detectors, 23:33386 (LA-4090)
design of polarized, at WWR-S reactor, 21:21784
design of portable generator, engineering drawings for, 23:26613
design of portable pulsed, 22:43134
design of portable pulsed, for fast neutrons, 21:46650
design of portable pulsed, with variable potential control grid, 23:6333(P)
design of pulsed d—D, using high-voltage low-pressure discharge, 22:44576 (IPP-1/74)
design of pulsed d—T, for research in reactor physics, 23:19089
design of pulsed d-T, for measurements in multiplying media, 23:34680 (KFKI-5/1969)
design of pulsed D-T, for use in making multiplier-system measurements, 24:38063(T) (SC-T-70-4021)
design of pulsed high-flux D(d,n) or T(d,n), using laser-produced deuteron beam, 24:6818(P)
design of pulsed laser-bombarded hydrogen plasma, 23:37073(P)
design of pulsed linac, for powder diffraction, 22:45327
design of pulsed T(d,n), using seven-electrode duoplasmatron deuteron source, 24:6819(P)
design of pulsed thermal, 21:31685
design of pulsed, for well logging, 23:7883(P)
design of pulsed, for well logging, 23:22110(P)
design of pulsed, using Cockcroft—Walton accelerators, 22:7618
design of pulsed, using laser-heated deuterium and tritium plasma, 22:29893(P)
design of pulsed, using magnetized ferrite crystals, (E), 22:24803
design of pulsed, using reactions between hydrogen isotopes, 22:15940(P)
design of pulsed, using rotating shutter between alpha sources and targets, 22:44583(P)
design of pulsed, using T(d,n) reactions, 23:7787
design of pulsed-beam, 21:17290(P)
design of rotating target assembly for high-flux 14-MeV, 22:37253
design of sealed gas discharge tube with target for pulsed, 23:13188(P)
design of sealed tube accelerator—target, 25:43778(P)
design of sealed-tube d—T, 22:9757 (AERE-R-5616)
design of sealed-tube, for use in radiography of fuel elements, 23:38214
design of sealed-tube, incorporating cylindrical graphite moderator and collimator, 25:51743
design of short-burst, 21:38225
design of sinusoidal, using pulse frequency modulation of pulsed neutron sources, (E), 25:7797
design of SORA reactor for cold and thermal neutron experiments using time-of-flight method, 21:44507 (CONF-660925, pp 373-411)
design of standard fission, 21:25412
design of Superbooster, for thermal and low epithermal region, 23:32890
design of thermal, for miniature-lattice experiments, 21:29831 (MIT-2344-08)
design of thick targets for electron linac, 24:52247 (IAE-1737)
design of tritium (d,n), for calibration of detectors, 25:9940 (BARC-499)
design of tritium gas target for, for fast-neutron cancer therapy, 25:50599 (CONF-710402-(Vol.2), pp I.56-60)
design of tube-type, 22:46701(P)
design of tube-type, for simultaneous production of neutrons and x rays at opposite ends of tube, 24:49690(P)
design of tube-type, for well logging, 23:44782(P)
design of tube-type, optimization of target distance for, 24:13264
design of tube-type, with gas target for well logging, 24:30672(P)
design of tube-type, with permanent magnet, 24:45718(P)
design of UHTREX high temperature plutonium—beryllium, 22:39881 (LA-3953)
design of ultracold, using moving reflectors, 23:37075
design of variable-intensity, using intermeshed helical beryllium and radium-impregnated gold foils, 23:1773(P)
design of variable-rate, based on (α,n) reaction using radioisotope source, 25:36657(P)
design of very intense thermal, using fast reactor fuel elements, 23:35424
design of, using (α,n) reactions, 22:5754(P)
design of, with liquid metal target, 24:30680(P)
design parameters for monoenergetic, using carbon-13 (α,n) reaction, 23:3915
design parameters for neutron howitzers using polonium—beryllium source with paraffin moderator, (E), 22:39560
design parameters for rod type antimony—beryllium, analysis of optimum, 24:38610
design parameters for, using deuteron beams from Penning ion source, 22:35204
design parameters of cyclotron, using beryllium (d,n) reactions, 25:17646
design parameters of Lattice Experimental Facility, 24:26742 (GA-9658(Vol.1))
design parameters of liquid deuterium cold, for high flux reactors, 25:37087
design study for deuterium gas target, using rotating foil, 22:37246
design study of high flux, by (γ,n) reactions using intense laser-accelerated electrons, feasibility, 22:32234 (BNWL-684)
design using ion-beam switching, 21:25421(P)
design using regenerative ion-beam targets, 21:25420(P)
design using tritium (d,n) reactions, 21:11960(P)
design using tritium (d,n) reactions, high-voltage insulator for, 23:6327(P)
design, development, and handling of isotopic, for use in nuclear materials safeguards assay, 25:18619 (BNL-50267)
design, with plasma ion sources, (E), 21:46657(P)
detection and location underwater, Cherenkov radiation detection equipment and methods for, 23:24432 (UCRL-50007-68-2, pp 8-20)
development and availability of, review of, 21:8544
development and performance of, for reactor materials neutron cross section evaluations, 21:23659
development and selection for radiography, review on, 23:2534 (ORNL-IIC-16)
development and testing of monolayer ceramic-microsphere polonium-210—beryllium plate, having variable output, 25:50592 (CONF-710402-(Vol.2), pp 117-27)
development and uses of high-intensity, conference on, 21:44522 (EANDC-63(U))
development and uses of NA-2, 22:3577
development and uses of, ANS Topical Meeting on, Augusta, Georgia, April 19 to 21, 1971, 25:50615 (CONF-710402-(Vol.3))
development and uses of, at Institute for Research, Production, and Uses of Radioisotopes, Prague, 21:34413
development and uses of, conference on, Augusta, Georgia, April 19 to 21, 1971, 25:50591 (CONF-710402-(Vol.2))
development at Idaho Nuclear Corp., 1970, 25:46650 (IN-1407, pp 255-415)
development for activation analysis, review on, 25:3527 (CONF-700322-, pp 185-204)
development for cold neutron production by filtering reactor spectra, 22:7623
development for fast neutron radiotherapy, 23:26852 (CONF-661131-)
development for neutron radiography, 23:33342
development for nondestructive analysis of fissionable materials, 25:23755(R) (LA-4605)
development for petroleum prospecting, 22:11754
development for polarization and cross-section measurements using d-d reactions, 22:7621
development for radiography, review on, 25:26439 (UJV-2545-R,T)
development for therapy using mixed deuterium—tritium beam and bare copper drive-in target, 25:52164
development for use in activation analysis, 22:14433 (ORNL-4196, pp 66-89)
development for use in industrial activation analysis, 22:18691 (KN-68-71(R))
development for use in radiotherapy, 21:28538
development of (α,n), with specialized configurations and properties, 25:50602 (CONF-710402-(Vol.2), pp I.90-9)
development of (d,T), for activation analysis, 24:43984
development of (d,xn) and (p,xn), for nuclear power technology, 25:20191
development of 14-MeV sealed-tube, producing 10^{11} n/sec for neutron radiography, 25:45887
development of 14-MeV, at Tunisian CEA 1966-1967, 22:14875(R) (NP-17229)
development of accelerator, 22:11859(P)
development of accelerator, for fast reactor physics measurements, 24:13212 (AWRE-O-50/69)
development of accelerator, for radiography, 23:43483
development of accelerator, for radiotherapy, review on, 25:3473 (CONF-700322-, pp 407-29)
development of accelerator—target, 23:42822
development of accelerator-pulsed fast reactor Very Intense Neutron Source, 24:30667 (IN-1304)
development of antimony—beryllium, for activation analysis and tracer production, 21:36215
development of aqueous, 22:43629(R) (LA-3933)
development of californium-252, for activation analysis of ocean floor, 25:48469 (CONF-710402-(Vol.3), pp III.20-9)
development of californium-252, for well logging, 25:48602 (CONF-710402-(Vol.3), pp III.30-42)
development of cold, from stationary reactors, 25:20232 (JINR-P3-5392)
development of dense plasma focus, 24:18901(R) (LA-4320)
development of deuterium-loaded targets for, (E), 21:13785 (NP-16486)
development of focused, for use in therapy, progress in, 25:39891
development of high-flux research reactors for, limitations to, 21:44506 (CONF-660925, pp 319-70)
development of high-flux, (E), 21:4316
development of high-intensity 2-, 24.5-, and 144-keV, using thick scandium, iron, and silicon filters in reactor beam holes, 25:31166 (CONF-710301-8)
development of high-intensity thermal, 23:5796

development of high-intensity thermal, 22:9921 (JUL-Conf-1)
development of high-intensity, for Spert IV, 21: 27801(R) (IDO-17228)
development of hot, in reactor beam port, 25:18186
development of implantable californium-252, for use in therapy, 21:39464
development of intense monochromatic, using hydrogen ion accelerator, 21:1002
development of intense pulsed 14-MeV, using dense plasma focus, 25:50597 (CONF-710402-(Vol.2), pp I.39-49)
development of intense pulsed, for simulating nuclear explosions for studying transient radiation effects on electronics, 25:29410
development of LAMPF as intense pulsed, using (p,xn) reaction, proposal for, 25:50598 (CONF-710402-(Vol.2), pp I.50-5)
development of linear-accelerator-based ING, technological aspects of, 22:20389
development of miniaturized borehole, for well logging, 24:43093(T) (CSIRO-Trans-9991)
development of miniaturized borehole, for well logging, 23:35536
development of nanosecond-pulse 14-MeV, 25:25579 (UCRL-50935)
development of nuclear explosions as, advantages of, 25: 50596 (CONF-710402-(Vol.2), pp I.33-8)
development of polarized tritium (d,n), with compression ionizer, 25:53508
development of polarized, review on, 25:53506
development of polarized, using underground nuclear explosion, 25:53509
development of portable antimony—beryllium, for production of short-lived radioisotopes, 22:14699
development of portable californium-252, for use in medicine, 25:48463 (CONF-710402-(Vol.2), pp II.61-6)
development of pulsed 14-MeV, using D(d,n) reactions, 22:32388
development of radioisotope, for on-stream activation analysis, 25:44351
development of randomly pulsed, using californium-252, (E), 24:52571
development of reactor-core, for radiography, 21:12264
development of small californium-252, for industrial radiography, 24:7604
development of small-diameter, with ferromagnetic probe electrode and permanent-magnet electrode for well logging, 25:25625(P)
development of standard, (E), 22:7617
development of super high flux, review of, 21:42500
development of TRIGA reactors as, 25:50593 (CONF-710402-(Vol.2), pp I.1-9)
development of vanadium-51 (p,n), feasibility of, 24: 5382
development of Very Intense Neutron Source, 24:39207 (IN-1317, pp 233-381)
development of, based on proton or deuteron bombardment, 25:17607 (JINR-P9-5285)
development of, for use in activation analysis, 21:2997
development of, review on, 24:18901(R) (LA-4320)
development of, using pulse accelerator voltage source, 21:13788
development permitting external variation of energy of neutrons from reactor core, 24:52374(P)
development, fabrication, and uses of, 23:2519 (ORNL-4329)
developments in, 25:18870
distributions for fast reactor physics calculations, development of Monte Carlo technique for generating spatial, 23:37461(R) (AI-AEC-12815)
dose conversion factors for isotopic, 23:48058
dose distribution in atmosphere from 14 MeV, as function of altitude, (E), 24:31513
dose from plutonium—beryllium, use of time-of-flight method for determining, 23:32888
dose rate and spectra from moderated californium-252, 25:16143(R) (UCRL-50007-70-2)
dose rates for californium-252, antimony-124—beryllium, and plutonium-239—beryllium, calculations of attenuation in shielding for neutron and capture-gamma, (T), 25:50612 (CONF-710402-(Vol.2), pp I.182-6)
dose rates for californium-252, in various shielded casks, (E/T), 25:50613 (CONF-710402-(Vol.2), pp I.187-95)
dosimetry for use in therapy, 22:43351
dosimetry in standard man, flux-to-dose conversion factors for, 24:6037
dosimetry of californium-252 applicators, 24:32015
economics and research uses of ING, 21:7583 (AECL-2818)
economics of actinides for, 24:18667
economics of small uranium subcritical assemblies using radioisotopes for flux enhancement for, 25:39667
effects on soil moisture measurements, 21:36417
electric field in high-voltage gap of tube-type, calculation of, 24:13263
electron-beam targets for, development of lead and lead-tantalum, 21:42524 (RPI-328-97, pp 35-95)
emission rates of radioisotope, methods for measuring, (E), 25:34879
emission rates of radium—beryllium, international comparison of, 21:29834 (NP-16703)
encapsulation of californium-252, method for, 23:35425
energy and angular distribution measurements in air from operation HENRE, 24:39221 (ORNL-4446, pp 242-50)
energy distributions from sealed deuterium—tritium generator tube, 25:50618
energy resolution function of nuclear explosion, time dependence of, (E), 24:43183 (CONF-700101-(Vol.2), pp 1257-68)
energy spectra of isotopic, use of stilbene crystal, fast neutron spectrometer for measuring, 21:40959(R) (MLM-1399)
evaluation for medical radiography, 25:19034(T) (AEC-tr-7219)
evaluation for use for radiography, 25:32490
evaluation for use in industrial radiography in France, 22:16790
evaluation of antimony—beryllium, for neutron radiography, (E/T), 22:26770
evaluation of californium-252, 25:4218
evaluation of californium-252, 25:6473
evaluation of californium-252, 25:15850
evaluation of californium-252, 25:6475
evaluation of californium-252, 25:6474
evaluation of californium-252, for use in well logging, 25:6473
evaluation of fission, for detection of land mines, 25: 15841 (ORNL-TM-3305)
evaluation of pulsed reactor, for use in activation analysis, 25:10489 (KFKI-70-25-NAC)
evaluation of radioisotope, for industrial radiography, 25:44561
evaluation of, for use in radiotherapy, 21:8926
fabrication and operation of neutron generator tubes, 23: 30914
fabrication and testing of californium-252, for industrial applications, 25:50600 (CONF-710402-(Vol.2), pp I.72-83)
fabrication and testing of cerium-144 and ruthenium-106, 21:16070 (EUR-3252.f)
fabrication and testing of curium-244—beryllium, for activation analysis, 25:50604 (CONF-710402-(Vol.2), pp I.112-16)
fabrication at TRU, 25:10654(R) (ORNL-4588)
fabrication of californium, 25:2294 (ORNL-4572, pp 109-34)
fabrication of californium-252, 25:54671 (ORNL-4682, pp 114-32)
fabrication of curium-244—beryllium, 25:14872
fabrication of plutonium—beryllium, 22:5707 (BARC-294)
fabrication of weld-sealed 4π radium-beryllium, equipment and method for, 24:46437 (ZJE-80)
failure of SAFARI-1 plutonium-beryllium startup, health physics aspects of, 22:16291 (PEL-154)
flux calculations as function of targets and position in moderator for ING, computer program for, 22:32374
flux data shielding data for design of californium-252, (T), 22:29839
flux depression in ING target moderator, 21:40473(R) (PR-P-74)
flux distribution around target of 14-MeV, measurement of, 23:10888
flux distribution from californium-252, thermal, (E), 23: 32926 (CONF-681032-, pp 347-62)
flux distribution from intense thermal, computer program for calculating, 22:41920 (ORNL-TM-2206)
flux distribution from tritium (d,n), 21:19155
flux distribution from water-moderated californium-252, effects of encapsulation materials on thermal-neutron, 25:50601 (CONF-710402-(Vol.2), pp I.84-9)
flux distribution of 14-MeV, methods for improving spatial and temporal characteristics of, 25:45885
flux distribution on axis of 14-MeV, using tritium targets, (E), 21:42536
flux enhancement using uranium-233—water and uranium-235—water solutions with californium-252 source, discrete-ordinates calculation of, (T), 25:50605 (CONF-710402-(Vol.2), pp I.136-41)
flux from deuterium (d,n), measurement of, 21:21432
flux generation by high-energy proton bombardment of thick targets with water moderator, thermal, (T), 23: 1767
flux generation using proton reactions with thick targets at high energy, thermal, (T), 23:7281(R) (ORNL-4280)
flux measurement for accelerator-type, geometry calculation for, 22:49037
flux measurement of Ra—Be photo-, 25:38855
flux ratios for activation analysis, measurement of relative thermal/fast, (E), 22:46699
flux variations in attenuating medium from point fast, theoretical method for calculating thermal, 22:28102
fluxes from (α,n) and (p,n) reactions, method for measuring, (E), 22:11948(R) (NP-17216)
gamma angular distribution from graphite block containing polonium—beryllium, (E/T), 22:48420(T) (RFP-Trans-51)
gamma flash suppression for ORELA pulsed, 25:17621
gamma flux from plutonium-238 dioxide, 23:32883 (NUS-TM-S-49)
gamma/neutron ratio from, effects of indium, rhodium, and sulfur foils on, 25:27062 (IAEA-R-459)
gamma-to-neutron ratios for americium—beryllium and plutonium—beryllium, 24:35803
handling and shipping of californium-252, shielded container for, 25:48602 (CONF-710402-(Vol.3), pp III.30-42)
handling and storage problems in gas and oil well logging, 22:40696
handling of large californium-252, 25:6475
handling, shipping, and storage of californium-252, 25: 15850
handling, shipping, and storage of californium-252, 25: 4218
hazards during operation of high-yield, 25:18982 (CEX-65.05)
hazards from use of, for radiometric gages for oil well logging, 22:28489
heat generation in target tube of Intense Neutron Generator, (T), 22:20497(R) (AECL-3009)
impurity effects in paraboloidal deuterium plasma focus, 24:15757 (AD-687874)
insertion in low-power reactors, reactivity effects of step-, (E/T), 25:51157 (CONF-710402-(Vol.3), pp IV.105-16)
inspection of beryllium—curium-244, neutron radiographic method for, 25:4253
installation in LACBWR of antimony—beryllium, 22: 7786 (ACNP-67533)
intensity estimations for (p,n) and (d,n) type, for biological and medical applications, 25:31174 (UCRL-19715)
intensity of plutonium—beryllium, effect of moderator on, 24:35802
intensity of tritium (d,n), differential, 25:9957
ion beam focusing characteristics of neutron generating tubes, 22:35364 (GEPP-34)
ion source for deuterium—tritium, control circuit for, 25:56605(P)
ion source for sealed tube, mass spectrometric characteristics of, 24:6809
ion source for tube-type, for well logging, design of small, 24:8793
ion sources for T(d,n), rf, 25:20150
isodose curves for californium-252, 25:55002 (NYO-2740-8, pp 7-146)
location in Peach Bottom core for approach to power tests, 21:25624(R) (GA-7595)
moderator studies for Repetitively Pulsed Test Facility, 23:8916
moderators for cold, performance of, 25:3904 (IJS-571)
modification of, using Cockcroft-Walton accelerators, 22:9802(R) (NYO-1082-9)
monitoring of various, response of selected instruments for, 21:26191
neutron angular distribution from electron reactions with spherical lead targets, fast, 21:19152(R) (TID-23685)
neutron angular distribution from Phillips Neutron Generator PW 5300, fast, 22:35210
neutron angular distribution from tritium (d,n), associated particle system for measuring polarized, 25: 34901
neutron beam production from radioisotope, method for, 25:59690
neutron distribution from 14 MeV point, calculation of thermal, 24:39504 (ORNL-4446, pp 225-41)
neutron distribution in water from tritium (p,n) reaction, (E), 22:1581
neutron dosimetry and dose transmission factors for concrete near fast, 21:11936
neutron emission from interacting Oralloy spheres, (E), 21:40351
neutron emission from oxygen-18 (α,n) reactions in thoria-urania and urania-zirconia, (E/T), 21:27506 (WAPD-TM-601)
neutron emission from standard californium-252, angular distribution of, 21:29858
neutron emission rate of radium—beryllium, international comparison of, 21:44539
neutron emission rates of plutonium—beryllium, containing plutonium-241, (T), 22:1580
neutron energies and flux from beryllium (α,n), low-energy groups in, (E), 25:1705
neutron energy from antimony-beryllium photo-, (E), 21:17286
neutron energy spectra and dose conversion factors for americium-241—beryllium and plutonium-239—beryllium, 23:15929(R) (MLM-1526)
neutron energy spectra and yield from californium-252, (E), 23:42835
neutron energy spectra and yield from oxygen-18 (p,n), 24:6821
neutron energy spectra and yields from thick-target, 24: 28680
neutron energy spectra for plutonium-239-beryllium, plutonium-238-fluorine, and plutonium-238-oxygen-18, (E), 22:3590 (MLM-1422)
neutron energy spectra from americium—beryllium and plutonium—beryllium, (E/T), 23:15344
neutron energy spectra from americium—beryllium, (E), 22:37340(R) (EANDC(E)-89(U))
neutron energy spectra from plutonium-239—beryllium, effect of source size on, (E), 23:9511(R) (MLM-1520)
neutron energy spectra from plutonium-beryllium and radium-beryllium, 21:40421(R) (COO-1549-3)
neutron energy spectra of Am—Be, 23:49312
neutron energy spectra of californium-252, 23:49312
neutron energy spectra of plutonium-239—beryllium, of different size, (E), 23:3900
neutron energy spectrum for lead-210—beryllium, (E), 22:48430
neutron energy spectrum of americium-241—beryllium, simulation using accelerator α beam, 24:38075
neutron energy spectrum of radium—beryllium, measurement of, 24:44276
neutron flux calculation near target of, 24:26579
neutron flux density standards for, international intercomparison using 4π β-γ coincidence technique, 25:50624
neutron flux determination for deuterium (d,n) type, using helium-3 counting, 25:34113
neutron flux distribution around disk-shaped targets in accelerator-type, (E/T), 22:48427
neutron flux distribution from californium-252 spontaneous-fission, thermal, (E), 23:1760 (Y-DR-1)
neutron flux distribution in the vicinity of the target for, (T), 25:50616
neutron flux distribution near beam targets in, (T), 21: 11937
neutron flux from californium-252 subcritically enhanced, thermal, 25:38843 (DP-1250)
neutron flux from generator using tritium (d,n) reactions, monoenergetic, 23:15345
neutron flux from plutonium-238 dioxide, 23:32883 (NUS-TM-S-49)
neutron flux from proton reactions with lead target in water at 0.9 GeV, thermal, (T), 23:1881 (ORNL-TM-2364)
neutron flux from subcritically-enhanced californium-252, 25:41163
neutron flux from tritium (d,n), effect of source dimensions on, 23:44807
neutron flux measurements for 14-MeV, determination of best activation reaction for, 24:33124

neutron flux measurements in vicinity of simulated ING targets, 21:7582 (AECL-2635)
neutron flux measurements of d—T, method for thermal and indium resonance, 23:2624
neutron flux near disk target, method for calculation of, (T), 24:35800
neutron flux of curium-244—beryllium, 25:14872
neutron leakage spectrum from the APFA facility, (E), 21:7628(R) (GA-7283)
neutron multiplication in beryllium annulus around ING target, 21:40473(R) (PR-P-74)
neutron polarization from d—D, angular distribution of, (E), 23:15355
neutron polarization from deuterium (d,n) and tritium (d, n) and (p,n) reactions, 21:38159 (LA-DC-8858)
neutron polarization from deuterium (d,n), (E), 25: 43789
neutron polarization from deuterium (t,n) and tritium (d, n) reactions, (T), 22:9777
neutron producing lifetimes of water-cooled lithium fluoride, 21:19095 (NYO-3822-1)
neutron production using deuterium (d,n), tritium (d,n), and tritium (p,n) reactions, (T), 22:39554 (SC-RR-68-19)
neutron production using positive ion-induced reactions, (T), 22:32479 (BNL-50083, pp 179-91)
neutron pulse shapes from injection of fast bursts into moderator configurations, thermal and cold, 23:19115 (EUR-4081)
neutron radiography using californium-252, optimization of source-collimator geometry for, 25:48759 (CONF-710402-(Vol.3), pp IV.47-54)
neutron spectra and yields from deuterium (d,n), (T), 23:42845
neutron spectra and yields from tritium (d,n) and (p,n), (T), 23:42845
neutron spectra from americium—beryllium, plutonium—beryllium, and polonium—beryllium, measurement using NE-213 scintillator, (E), 21:46643(R) (ORNL-4134)
neutron spectra from americium—beryllium, polonium—beryllium, and plutonium—beryllium, behind hydrogen-bearing shielding, (E), 22:39563
neutron spectra from americium-241—beryllium with paraffin and water moderators, 23:17064
neutron spectra from graphite moderator up to 2200°K in reactor reflector, time-of-flight measurements on, (E), 23:23601 (CEA-R-3613)
neutron spectra from isotropic point, in infinite homogeneous absorbing and scattering media, epithermal, 21:35395 (USNRDL-TR-67-57)
neutron spectra from liquid hydrogen and deuterium, in high flux reactors, 23:9199(T) (NP-tr-1712)
neutron spectra from lithium-7 (p,n) reactions at 8.3 to 9.1 MeV, (E), 22:37347
neutron spectra from moderated and unmoderated proton synchrocyclotron targets, 22:35285(R) (AERE-PR/NP-13)
neutron spectra from plutonium fluoride, (E), 22:41921
neutron spectra from plutonium—beryllium, (E), 21: 4184
neutron spectra from plutonium-238 fluoride, (E), 22: 32461
neutron spectra from plutonium-fluoride, plutonium-dioxide, and plutonium-beryllium, (E), 21:7668
neutron spectra from, computer program for estimation of, 25:38839 (AERE-R-6622)
neutron spectra from, iterative technique for unfolding, 23:3922
neutron spectra of americium-241—lithium and polonium-210—lithium, 25:53501
neutron spectra of californium-252, effects of moderators on, 25:48727 (CONF-710402-(Vol.3), pp IV.99-104)
neutron spectra of californium-252, quality of multielement neutron radiographs as function of, 25: 48761 (CONF-710402-(Vol.3), pp IV.69-77)
neutron spectrum above 1 MeV from americium—beryllium (E), 24:35806
neutron spectrum above 1 MeV from radium—beryllium, (E), 24:35806
neutron spectrum below 1 MeV of americium—beryllium, (E), 24:33934
neutron spectrum below 1 MeV of radium—beryllium, (E), 24:33934
neutron spectrums from antimony—beryllium, (E), 24: 40543
neutron yield and spectra from photo-, (E), 24:10903
neutron yield measurements using semiconductor detectors, (E), 21:1582
neutron yields at 14.5 MeV from d—T, measurements using activation and associated-particle methods, (E), 23:13194
neutron yields of d-t, measurement using auxiliary annihilation source, 21:38164
nuclear safeguards applications of californium-252, 22: 35199 (LA-DC-9552)
nuclear safeguards uses for, at Los Alamos Scientific Laboratory, 24:39172(R) (LA-4457)
nuclear safeguards uses for, at Los Alamos Scientific Laboratory, 24:7611(R) (LA-4315)
nuclear safeguards uses for, at Los Alamos Scientific Laboratory, 24:29482(R) (LA-4368)
operating parameters for high-intensity, table of, 21: 44521 (CONF-660925, pp 819-34)
operating parameters of, using (α,n) reactions, 21:15470
operation in medical schools, regulations for, 22:499
operation of 14-MeV, design of miniature plastic scintillation detector for verifying correct, 23:6286 (SCL-DC-68-27)
operation of 4-mA Dynamitron as monoenergetic, at 30 to 500 keV, 23:27967
operation of Cockcroft—Walton-type, evaluation of health and safety hazards of tritium release during, 21: 21367 (CONF-650616-25)
operation of Dynamitron monoenergetic 30- to 500-keV, 23:32884 (NYO-3822-9)
operation of miniaturized borehole pulsed, for well logging in oil fields of Tatary, USSR, 24:9507
operation of pulsed, miniature neutron detector for testing, 23:14019
operation of small fast, with gas-filled tubes, effects of time distribution of pulses on, 21:40322
operation of, principles of, 21:45528
optimization of pulsed, moderator characteristics for, (E), 25:48333
oscillator for, design of very-high-frequency, (E), 25: 28161
performance analysis of thermal and cold, for use in fast pulsed reactors, 23:2078
performance for duplicating 14-MeV neutron fluxes in fusion reactors, 25:45503 (LA-4709)
performance for ground water exploration, 25:48603 (CONF-710402-(Vol.3), pp III.48-58)
performance for radiography, 24:46449
performance of 1-mg californium-252, for neutron activation analysis of steels, 25:48473 (CONF-710402-(Vol.3), pp IV.30-9)
performance of 14-MeV, in monitoring of leached fuel elements, 22:14433 (ORNL-4196, pp 66-89)
performance of accelerator type, in silver prospecting, 23:31482 (CONF-681032-, pp 321-46)
performance of americium-241—curium-242—beryllium, in activation analysis, 21:5796
performance of antimony-124—beryllium, in EBR-II radiographic facility, 24:5842
performance of beryllium—antimony-124 and beryllium—yttrium-88, for nondestructive analysis of fissionable materials, 25:48726 (CONF-710402-(Vol.3) , pp IV.94-8)
performance of beryllium—plutonium-238, with uranium subcritical assembly for radiography, 24:5836
performance of beryllium—polonium, in surveying oil wells for hydrogenous materials, 25:32138
performance of californium-252, for activation analysis, 25:48470 (CONF-710402-(Vol.3), pp IV.1-10)
performance of californium-252, for on-stream activation analysis, 25:48472 (CONF-710402-(Vol.3), pp IV.18-29)
performance of californium-252, for radiographic testing of aircraft materials, 25:48760 (CONF-710402-(Vol.3), pp IV.55-68)
performance of californium-252, for radiography, 23: 31481 (CONF-681032-, pp 303-19)
performance of californium-252, in silver prospecting, 23:31482 (CONF-681032-, pp 321-46)
performance of continuous and pulsed, in neutron diffraction analysis, 22:11490 (CONF-661216-4)
performance of electron linac, for neutron capture gamma spectroscopy, 24:52339
performance of electron Linac, for radiography, 24:5837
performance of high-yield, sealed-tube, 24:55
performance of portable californium-252, for radiography, 25:29286 (BNWL-1329)
performance of pulsed and steady-state, for high-resolution radiography, 21:36304
performance of pulsed low-energy, using deuterium and tritium targets, 22:37251
performance of pulsed T(d,n), with plasma accelerator, 23:49310
performance of radioisotope, for on-stream slow-neutron transmission analysis of hydrocarbons for hydrogen, 25:4035
performance of radioisotope, for radiography, 24: 36528(T) (NP-tr-1900)
performance of reactor, accelerator, and isotope, for neutron radiography, 24:16813
performance of repetitively pulsed, using multiplying assemblies with accelerator boosters, 21:44511 (CONF-660925, pp 491-508)
performance of sealed-tube graphite moderated, for radiography, 25:42027 (RFP-1706)
performance of T(d,n), used in operation HENRE, (E), 25:31165 (CEX-65.04)
performance of TRIGA NEUTROVISION, for radiography, 25:48762 (CONF-710402-(Vol.3), pp IV.78-86)
photoneutron yields in resonance region from electron bombardment of lead, tantalum, uranium, and composite tantalum—uranium targets, 23:13265 (RPI-328-142, pp 1-67)
physics aspects of Harwell Neutron Booster, 22:5680 (AERE-R-5205)
physics measurements of integrated cold, for heavy water moderated reactor, 25:26045
physics parameters of CO-1 subcritical assembly, 24: 18736
polarization measurements for deuterium (d,n) and tritium (d,n), using associated particle method, 25: 53507
polarization measurements for, review of research on, 24:28683
positioning in SHE critical assembly for minimum harmonic effects, (T), 21:23737
postirradiation examination of EBR-2 tantalum clad antimony, 24:33234
preparation of californium-252, 24:20792(R) (ORNL-4447)
preparation of californium-252, for industrial applications, 25:38859
preparation of californium-252, self-transfer properties for, 25:18596
preparation of curium-242—beryllium and plutonium-238—beryllium, 25:59669 (CEA-R-4172)
production and testing of high-intensity (α,n), review of, 25:50603 (CONF-710402-(Vol.2), pp I.100-11)
production and uses of californium-252, 23:31363 (CONF-681032-, pp 201-11)
production and uses of californium-252, 23:31480 (CONF-681032-, pp 225-56)
production at TRU, 25:44403(R) (ORNL-4666)
production at TRU, July—Dec., 1969, 24:36269(R) (ORNL-4540)
production by reaction of laser pulse on compound target, (T), 25:40691
production of americium—beryllium, 24:4733 (CEA-R-3875)
production of radioisotopes for (γ,n), at LAMPF, 25: 50197 (CONF-710402-(Vol.2), pp I.128-35)
production of, design of tritium target for, 23:49311(P)
properties and uses of californium-252, 24:11742
properties for biological use, 22:16997
properties for oil field well logging, 23:35431
properties for use in nondestructive testing, table of, 22: 23242
properties of antimony—beryllium, for nondestructive fuel assay, 24:31254
properties of beryllium—plutonium, for whole-body in vivo activation determination of calcium, 25:39450
properties of californium-252, americium-242—beryllium, and americium-242—beryllium—curium-242, for radiography, 24:5839
properties of californium-252, for nondestructive assay of fissionable materials, 25:39464
properties of californium-252, for radiography, 23:17706
properties of dense deuterium plasma accelerator, 21: 35166 (LA-DC-8124)
properties of intense plasma discharge, scintillation detector system measurement of, 24:10891 (AD-694513)
properties of isotopic, for use in industry, 25:44558
properties of Mk-1A plasma focus, 23:25381 (AD-678506)
properties of multikilocurie antimony-124—beryllium, for on-stream elemental analysis, 23:49756
properties of radioisotope, for nondestructive analysis of fissionable materials, 25:51767 (LA-DC-12294)
properties of radioisotope, review on, 25:54507
properties of targets for high-flux, at JINR 660-MeV proton synchrocyclotron, 24:47543
properties of, design of graphite prism for determining, 23:19120 (NP-17787)
properties of, lectures on, 24:10214 (CERN-69-12)
pulse generator for fast, for investigation of short-lived nuclei, 23:50221
pulsed, description of research reactor for use as, 23: 28568(P)
pulsed, use of nuclear explosions for, 21:5461 (LA-DC-8148)
pulser for (d,n), mechanical deuteron beam, 24:40549
radiation dose measurements in environs of d—T, 22: 35179
radiation hazards at accelerator—target, safety procedures for protection against, 22:50487 (CONF-680411)
radiation hazards of detached particles from zirconium—tritium targets for, 24:30610 (KFKI-70-9)
radiography with low-intensity, emulsion failure observations in, 24:5840
radioinduced strength increase of beryllium—radium, in-pile, 24:5811
reactor response to oscillating, 21:30091(R) (ANL-7210)
research at Univ. of Calcutta electrostatic, 1969, 25: 34079(R) (NP-18683)
sample rotator for irradiation with 14-MeV, 22:14433 (ORNL-4196, pp 66-89)
shielding design for, 23:38151
shielding for californium-252, 25:6475
shielding materials for californium-252, for neutron capture gamma spectroscopy, 25:8537
shielding of 14-MeV deuterium—tritium, 22:13530
shielding of californium-252 spontaneous fission, modular, (E), 22:31886 (UCRL-18093)
shielding of californium-252, materials for, 25:15849
shielding of californium-252, materials for, 25:15850
shielding of californium-252, materials for, 25:4218
shielding of high-flux 14-MeV HENRE, problems associated with, 21:31647 (ANS-SD-3, Session 2, Paper 2)
shielding requirements for, 21:2281 (ORNL-TM-1655)
shielding, recent developments in, 25:43418 (ORNL-RSIC-32)
shipping of californium-252, design of shielded container for, 25:51799
shipping of, design of shielded container for, 25:48814 (CONF-710801-(Vol.1), pp 125-37)
slowing-down calculations for, 21:23599(R) (GA-7562)
source strength calibration using reactor kinetics method, 25:59688
spectra and dose-fluence conversion factors for standard radioisotope, 25:57676
spectra from beryllium—plutonium, using stilbene scintillation spectrometer, 22:19141
spectra from plutonium—beryllium, (E), 25:2407
spectra from plutonium-238 tetrafluorides, (E), 23:30915
spectra from polonium—beryllium and polonium—boron, neutron and gamma, (E), 21:1044
spectra from pulsed, measurement of, 21:23711(R) (BNWL-340)
spectra from typical, (E), 25:34879
spectra measurements of 10-keV to 10-MeV radioisotope, using proton-recoil proportional detectors, 24:41685 (NP-18359)
spectra measurements of accelerator—target, time-of-flight system for, 25:10861
spectra of 14-MeV, Monte Carlo techniques for prediction of, 23:35422
spectra of americium—beryllium, use of nuclear emulsions and proton recoil spectrometer for measurement of, 25:18761
spectra of americium-241—beryllium-9, (E), 21:4229
spectra of beryllium, 22:25860 (UCLA-12-668, pp 29-36)
spectra of californium-252, emission anisotropy in, 25: 6474
spectra of californium-252, proton-recoil proportional detector measurement of, 25:15917(T) (ORNL-tr-2415)

spectra of polonium-210—lithium (α,n), determined from proportional and scintillation counters and lithium-7 (α,n) reaction, (E/T), 25:50610 (CONF-710402-(Vol.2), pp I.166-9)
spectra of stellar magnesium-26 (γ,n), (E), 23:46964
spectra of, containing americium and beryllium, proton-recoil proportional detector measurements of, 25: 15917(T) (ORNL-tr-2415)
spectra of, efficiency of semiconductor detectors for measuring, 22:36090
spectrum from 40 to 800 keV of 5-Ci plutonium—beryllium, (E), 25:50607 (CONF-710402-(Vol.2), pp I.147-53)
spectrum from beryllium—plutonium, use of stilbene scintillation spectrometer for measuring, 21:24225
spectrum of americium—beryllium, (E), 22:26775
spectrum of polonium—beryllium, approximation to fission spectrum by, (E), 24:1725
spectrum produced by paraffin howitzer with 14-MeV neutrons, activation measurements of, 23:44816
spontaneous fission, for water-moderated natural-uranium rod exponential piles, 22:30334
standardization using manganese and vanadium bath activation methods, 25:51852 (CONF-701002-, pp 470-80)
strength determination of californium-252, methods for, 24:43102
survey of, for neutron spectroscopy, 22:9951
survey of, for nuclear physics research, 22:39565
target alignment technique for Cockcroft—Walton accelerator, 23:13176
target design for ORELA, 24:26546 (ORNL-TM-2925)
target design for, deuterium- or tritium-evolving hydride, 21:28142(P)
target films for, analysis of microstructure of erbium deuteride, 22:20384
target for CBNM linac, development of uranium, 22: 39522
target for cyclotron, design of beryllium, 22:37249
target for D(p,n), design of liquid deuterium, 25:20187
target for fast, design and performance of beryllium-9 cyclotron, 22:37257
target for monoenergetic tritium (p,n), design of gas, 25: 36633
target for T(d,n), development of tritium, 25:5503(P)
target for, design of, 22:9769(P)
target material for tritium (t,2n), 24:1740
target performance for 14-MeV, tritiated polyphenyl, 24: 30629
target performance in sealed-tube 14-MeV, using T(d,n) reactions, 22:37247
target preparation for, deuterated palladium and titanium, 22:11746 (CEA-R-3065)
targets for (d,n), fabrication of metallic hydride, 23: 52058(P)
targets for accelerator development of, 22:37245
targets for accelerator, conference on, 22:37239
targets for accelerator, device for cooling, 22:11855(P)
targets for D(d,n), deuterated plastic, 24:3822
targets for D(d,n), yields of deuterium-enriched metal film, 22:37244
targets for d—T and p—T generators, operational characteristics of, 24:47555
targets for d—T generators, description of solid multilayer tritium,, 23:3881
targets for deuteron—tritium, high yield long-lived, 25: 50472
targets for high-yield T(d,n), fabrication of tritium, 25: 59670 (CONF-711002-, pp 166-80)
targets for medium- and high-power accelerators, design of rotating and stationary, 25:3474 (CONF-700322-, pp 431-9)
targets for pulsed, optimization of moderators for, 22: 37256
targets for T (d,n), development of, 25:20134 (ORNL-4584, pp 187-97)
targets for T(d,n) reactions for, lifetime of tritium—titanium, 23:3871
targets for T(d,n), properties of tritiated titanium, 25: 14840 (EUR-4286(Pt.2))
targets for, design and performance of tritium (d,n), 22: 37243
targets for, design of absorbed deuterium—tritium, 25: 56626(P)
targets for, ion sputtering method for regeneration in accelerator, 24:28646 (N-70-17605)
targets for, lattice parameters of tritium-impregnated metal, 22:26762(R) (NP-17412)
targets for, tritium loss rates in titanium, 25:3542
targets for, use of beryllium-9, 22:37255
testing of liquid hydrogen and liquid deuterium cold, in high flux reactor core, 23:31196 (CEA-R-3505)
testing of, description of automatic self-check system for, 22:28204 (GEPP-27)
testing of, for reactivity measurements in NORA, 21: 8042(R) (IAEA-3498-12)
testing Spert IV, 21:19464(R) (IDO-17207)
theory of, pulsed, in heterogeneous media, 25:22957
titanium tritide targets for, total output from, 25:20955
transfer between hot cells, design of hermetically sealed enclosure for, 22:51211(P)
transfer of californium-252, design of pneumatic system for, 25:51792
transformer for, design of 200-kV, 2-mA, insulating-core, 22:10639
tritium release from d—T, 25:53441
tube for pulsed fast, for lunar analysis, design and performance of gas-filled, 22:26763 (SC-4797(RR))
use for determining moisture content of materials, 22: 43145
use for determining water content in various media, 22: 25686
use for industrial chemical analysis, 22:4494
use in activation analysis, characteristics of, 22:33252
use in industrial radiography for nondestructive testing, review of, 24:396
use in method for measuring fluid flow, 25:57667(P)
use in production of stereoscopic radiographs, 23: 16059(P)
use in radiometric hygrometers for automatic control and regulation of humidity of sintering charge, 22:2441
use in reflection technique for checking internal configuration of operating petroleum cracking tower, 24:39152 (PRNC-135, pp 475-80)
use in soil-moisture gage, 22:6667
use in thermal neutron radiography, 22:35984
use in well logging for anhydrites, 23:7631(P)
use of 10 mCi radon-beryllium, with boron trifluoride proportional detectors for measuring calorific values of heavy oils, 23:47868(T) (NSJ-tr-152)
use of accelerator—target, for activation analysis, 22: 50487 (CONF-680411)
use of actinium—beryllium and boron—polonium, in well logging, 24:41421(T) (CSIRO-Trans-10085)
use of actinium—beryllium and polonium—boron, in well logging, 24:9522
use of californium-252, 23:38019
use of californium-252, as randomly pulsed source in nuclear engineering courses, 25:41161
use of californium-252, as randomly pulsed source for prompt neutron decay measurements, 25:56639
use of californium-252, for activation analysis and radiotherapy, 23:13178 (CONF-671111-, pp 545-58)
use of californium-252, in nuclear engineering educational programs, 24:31622
use of dense plasma focus, for fusion blanket studies, 25: 30592 (EUR-4593, pp 525-31)
use of deuterium—tritium generator as, for radiotherapy, 22:36299
use of fast thermal, in well logging, 23:29101(P)
use of fast, in moisture gage, 22:10620(P)
use of filtered-beam techniques in, 25:53486 (CONF-701002-, pp 362-76)
use of nuclear explosion, in nuclear studies, 24:41532 (CONF-700101-(Vol.2), pp 1246-52)
use of plutonium—beryllium, as calibrated gamma sources, 22:36007
use of plutonium—beryllium, for calibration of standard thermal neutron flux facility, 23:21851 (AAEC/TM-488)
use of pulsed californium-252, for prompt neutron decay measurements, 25:33949 (Y-DR-41)
use of pulsed neutron generating tube, for oil well logging, 23:47867(T) (NSJ-tr-146)
use of pulsed, for determining self-diffusion in zirconium hydride, 22:2690
use of pulsed, in radiometric well logging for oil exploration, 23:7630(P)
use of reactors as, in medicine, 23:6505
use of small accelerator for, in thermal neutron radiography, 24:5844
use of small isotopic, for nondestructive analysis of fissionable materials, 25:48790 (CONF-710617-20)
use of small, in television system for radiography, 24: 5841
use with boron trifluoride proportional detectors for measuring calorific values of heavy oils, 22:30885
use with proportional detectors for moisture measurements, effects of ignition noise on, 22:4492
use with radiation detectors for determining moisture in soils, 23:16171(P)
use with scintillation detectors for determining carbon content in coal, fly ash, and iron ore, 22:386
uses for radiography in industry and medicine, 25:32489
uses in analytical chemistry, 24:18916
uses in industrial radiography in France, 23:11731 (CEA-CONF-1075)
uses in neutron physics and reactor measurements, 25: 50609 (CONF-710402-(Vol.2), pp I.160-5)
uses of 14-MeV, nonnuclear, 22:37211 (AD-660658)
uses of accelerator, for fast neutron radiography, 24: 8790
uses of ampule, in activation analysis, 24:20728
uses of californium-252, 22:32477
uses of californium-252, in activation analysis, 24:65
uses of californium-252, in nondestructive assay of uranium-235, 25:39465
uses of subcritically-enhanced californium-252, 25:41163
uses of T(d,n), in undergraduate teaching, 25:45888
vacuum system for generator, tritium content in pump oil of, 24:6030
yield for plutonium-238—beryllium, (E), 23:37090
yield from lithium target, pulsed, 22:20387
yield increases in plutonium—beryllium, from americium-241 buildup, 22:18095
yield of (He-3,n) reactions with beryllium-9, 22:37238
yield of, determination of 14-MeV, 22:23292
yield of, error analysis of methods for absolute measurements of, 21:21393
yield of, graphite prism for determining, 23:9811
yields and spectra of spherical photoproduction, corrections to, 24:33083
yields from mixtures of beryllium powder and polonium-impregnated microspheres, 21:36586
yields from moderated alpha—beryllium, determination of thermal neutron, 22:46708
yields of Po—Be, thick-target, (E), 25:38852
yields of, manganese bath method for measurement of, 24:33880
Neutron Spectrographic Analysis
see Neutron Spectroscopy
NEUTRON SPECTROMETERS
amplifier channel of fast, stabilization circuit for, 21: 32384(T) (AEC-tr-6719, pp 115-17)
amplifier overloads in proton-recoil, effects on spectrum distortion from, 23:29217
background in associated-particle time-of-flight, 25: 37630
background reduction in time-of-flight, dynamic biasing method for, 25:37637
beam of crystal, design and performance of neutron monochromator for, 22:6640
bibliography on proton-recoil, 25:23831 (AAEC/LIB/Bib-270)
book: Neutron Spectrometers and their Applications, 24: 19212
boundary perturbations in sodium, 24:49862(R) (RPI-328-187)
calibration and performance of proton-recoil proportional, 24:39207 (IN-1317, pp 233-381)
calibration for in-pile inspection and measurement, 22: 20578 (WASH-1079)
calibration of NE-213 liquid scintillation fast, inter-,, 25: 48955 (COO-2049-3)
calibration of proton recoil scintillation, 21:6256
calibration of proton-recoil organic liquid scintillation, for fast neutrons, 21:46643(R) (ORNL-4134)
calibration of proton-recoil proportional, 24:29552
calibration of proton-recoil, for measurement of fast-neutron spectra, 21:17270(R) (RPI-328-71)
calibration of time analyzer in time-of-flight, dependence of start pulse position on rotor speed for, 22:19139
calibration of time-of-flight, 21:6212
calibration, electronics, and operation of, for measurement of neutron emission from SNAP-19 fuel capsules, 22:10502 (MND-3607-173)
characteristic of stilbene and NE 213 scintillation, 24: 39339
charged-particle converter design for, 23:13997(P)
circuit design for scintillation, two-parameter, 24:36602
circuit for proton-recoil, performance of gamma discriminating, 25:42105 (JAERI-13561)
circuits for converting time-of-flight measurements to energy spectra, 24:48303(P)
circuits for coupling boron trifluoride counters in time-of-flight, transistorized mixer, 22:38067 (EUR-3942)
circuits for light transit-time compensation in large plastic scintillation, 23:29218
circuits for time-of-flight, fast electronics for, 23:30853 (IFA-CRD-37)
computer interface for triple-axis crystal time-of-flight, design and operation of PDP-9, 23:38297 (IN-1294)
control and data acquisition for triple-axis, interface design for PDP-8 computer, 22:49097 (ORNL-TM-2246)
control and data acquisition for triple-axis, interface for PDP-8 computer for, engineering drawings for, 23: 14030
control of HFIR triple-axis, use of PDP-8 computer for, 22:27521(R) (ORNL-4236)
control of polarized, system for automatic, 23:43567 (RT/EL-(68)12)
control of triple-axis crystal, computer program for, 21: 2651(R) (AECL-2612)
control of triple-axis, on-line computer, 24:4475
control of triple-axis, use of PDP-8 computer for, 21: 34520 (ORNL-4091, pp 68-81)
control of, use of SDS 910 computer linked to magnetic disks by IBM 1401 computer for, 22:340 (IS-1701)
control system for boron trifluoride proportional, automatic, 25:2475 (INP-707)
control system for triple axis, interface for computer, 25: 23835 (RT/EL-70-1)
control system for triple-axis, 25:42114
control system for, design of digital, 23:688
crystals for triple-axis, vertically bent pyrolytic graphite, 25:48971
crystals for, reflective properties of metallic, 21:3237 (AEET-259)
data acquisition and analysis system for time-of-flight, computer-based, 22:38066 (EUR-3933)
data acquisition and analysis system for time-of-flight, 21:27574(R) (NYO-GEN-72-132)
data acquisition and control system for triple axis, program for computer-based, 25:23836 (RT/EL-70-2)
data acquisition from time-of-flight and triple-axis crystal, computer program for simultaneous, 23:41045 (IN-1287)
data acquisition system for proton-recoil proportional, 25:10848 (ANL-7704)
data acquisition system for time-of-flight, computer-based, 24:39335
data acquisition systems for time-of-flight, development of computer-based, 23:22131
data analysis for organic scintillation fast, computer program for pulse-height, 22:19135 (ORNL-TM-2112)
data analysis of time-of-flight cold, using fast Fourier transformation for obtaining intermediate scattering functions, 25:32267
data analysis of time-of-flight, computer program for, 25:32262 (PEL-207)
data collection system for time-of-flight, 25:18765
data from Ispra-1 double chopper, computer program for correction and calibration of neutron inelastic scattering, 25:23837 (EUR-4599)
data from recoil-proton proportional detector, decomposition of empirical functions applied to, 23: 26563
data from single-crystal fast, method for analysis of, 21: 32375(T) (AEC-tr-6719, pp 50-3)
data from time-of-flight, cross-correlation techniques for analysis of, 23:33489
data from time-of-flight, methods for analysis of, 21: 32374(T) (AEC-tr-6719, pp 44-9)
data handling system for time-of-flight, on-line computer, 24:22033 (NBS-TN-515)
data printing system for, design of high-speed, 21:39255
data processing for single-crystal scintillation, 21: 25399(T) (ANL-Trans-168)
data processing for time-of-flight, for inelastic neutron scattering, 25:51884
data processing for, computer program for, 25:55036 (HASL-244)
data processing system for proportional proton-recoil, block diagram of on-line computer, 23:24426 (IN-1218, pp 181-316)
data processing system for, description of Harwell neutron project computer-based, 21:20006
data recording system for time-of-flight, design of magnetic drum, 22:19131 (AERE-M-2016)

data unfolding for proton-recoil proportional, expansion method for, 24:33927
data unfolding of Bonner multisphere lithium fluoride, computer method for, 24:44243 (CONF-691101-, pp 516-36)
data unfolding of nuclear emulsion, computer method for, 24:44243 (CONF-691101-, pp 516-36)
data unfolding technique for, 25:55038 (LA-DC-12314)
description and performance of modified Chalk River rotating-crystal, 24:9681
description of coincidence scintillation fast, with gamma discrimination, 25:39742
description of HFIR computer-controlled triple-axis, 24:9679
description of high-resolution backscattering crystal, 24:9684
description of high-sensitivity organic-scintillator, for measuring background neutrons produced by cosmic rays in atmosphere, 21:12669
description of inverted-geometry time-of-flight, used at IBR pulsed reactor, 24:9683
description of IRIG compatible, for airborne nuclear pulse height analysis, 21:3282
description of Ispra double-chopper, 24:9682
description of lithium-6—semiconductor sandwich, for operation in high gamma background, 25:39732
description of magnetic, 21:35705 (BRL-MR-1841)
description of McMaster University and NRU crystal, 24:9680
description of plastic scintillation time-of-flight fast, for deuteron reactions (d,n) with tritium, 22:19137
description of polarization-sensitive triple-axis, 23:39909
description of proton recoil, for keV range measurements in STEK, 25:1937 (RCN-122, pp 157-65)
description of proton-recoil proportional, 25:51885
description of proton-recoil semiconductor telescope detector, for fast neutrons, 24:33920
description of rotating crystal, for slow neutron scattering studies, 22:12145
description of SLEEP Reactor and Swedish Reactors (R-2) monochromator, 22:12131
description of three axis crystal, for measuring phonons in metals, 22:28161
description of time-focused crystal, for measuring time-dependent spectra in pulsed moderators, 25:56629
description of time-focused crystal, for pulsed moderator studies, 24:48309
description of time-of-flight fast, for (p,n) and (d,n) reactions, 24:27393
description of time-of-flight for cross section measurements, 22:49101
description of time-of-flight scintillation, at 10 to 100 MeV, 22:28134 (NYO-3914-1)
description of time-of-flight thermal, using neutron chopper at UTR-100, 22:14821 (NP-17261)
description of time-of-flight, for measurement of scattering cross sections, 24:27395
description of time-of-flight, for measuring neutron flux spectra in undermoderated beryllium and graphite exponential piles, 21:19960
description of use in reactor beam experiments, 22:12125
design and calibration of high-efficiency boron trifluoride 4π fast, 24:4464
design and construction of time-of-flight fast, 21:17878
design and fabrication of triple-axis, for studying neutron inelastic scattering, 22:28140
design and operation of multi-angle time-of-flight, for fast-neutron scattering, 21:26175
design and operation of proton-recoil proportional, 25:51879 (CONF-701002-, pp 385-400)
design and operation of synchronized chopper time-of-flight, at IBR-30 reactor, 25:34916 (JINR-E14-5731)
design and operation of time-of-flight, for structure studies, 23:41054
design and operation, (E), 22:11874(R) (JUL-463-NP)
design and performance for 2- to 17-MeV neutrons, 21:28236
design and performance of Bonner activation, for intermediate neutrons, 25:4364
design and performance of correlation-type time-of-flight, for pulsed polarized neutrons, 22:12602
design and performance of crystal backscattering, with high energy resolution, 25:48970
design and performance of crystal, for polarized thermal neutrons, 24:9670(T) (UCRL-Trans-10421)
design and performance of cylindrical moderated lithium fluoride thermoluminescent, at thermal to 14 MeV, 24:33918 (RD/B/N-1416)
design and performance of DIN-1 double, at IBR-1 reactor, 23:22056 (FEI-129)
design and performance of double time-of-flight, for studying neutron reactions (n,2np) with deuterium at 14 MeV, 23:24457 (CEA-CONF-1250)
design and performance of double-scatter time-of-flight, 22:38077
design and performance of europium-activated lithium-6 iodide scintillation fast, 24:4473
design and performance of Fourier correlation time-of-flight, for thermal neutrons, 25:18738 (RISO-229)
design and performance of helium-3 and lithium-6 semiconductor, 21:5679 (AERE-R-5183)
design and performance of helium-3 or lithium-6 sandwich semiconductor detector, for fast neutrons, 24:25295 (KURRI-TR-67)
design and performance of high-resolution helium-3-filled gridded ionization chamber, 23:35510
design and performance of liquid organic scintillation, for fast neutrons, 23:11825
design and performance of lithium-6-sandwiched semiconductor detector, for energy range 1.0 to 100 keV, 24:2488
design and performance of lithium-6-sandwiched semiconductor detector, 23:26564
design and performance of medium-energy time-of-flight scintillation, for accelerator targets, 24:48307
design and performance of multisphere moderated scintillation, using Block—Shon technique, 22:47384 (UR-49-894)
design and performance of neutron—gamma discrimination system for recoil-proton proportional, 24:2477 (CEA-R-3823)
design and performance of paraffin-moderated boron trifluoride, for measuring spectrum of evaporation neutrons produced by cosmic rays in lead, 23:9739
design and performance of polarized, for magnetic scattering studies, 25:418
design and performance of proportional detector, with pulse shape discrimination, for core neutron spectra measurements in reactors, 22:33659 (IN-1054)
design and performance of proportional proton-recoil, 23:24426 (IN-1218, pp 181-316)
design and performance of proton recoil, using thin radiator and semiconductor detectors, 25:2480
design and performance of proton-recoil, 21:14027
design and performance of proton-recoil fast, 24:4470
design and performance of proton-recoil proportional, for in-core fast neutrons, 25:2472 (AEEW-M-905)
design and performance of proton-recoil spark chamber, for studying neutron cascade in iron, 23:22078
design and performance of rotating crystal time-of-flight thermal, for scattering law measurements, 21:17850
design and performance of rotating-crystal, 21:39198
design and performance of rotating-crystal, for analysis of cold neutron scattering by cyclic hydrocarbons, 22:45329
design and performance of scintillation time-of-flight, 25:10856
design and performance of scintillation time-of-flight fast, 24:4462
design and performance of semiconductor, using charged-particle collimation, 22:19144
design and performance of single crystal slow, for pulsed reactor at Dubna, 21:39212
design and performance of single-crystal thermal, for pulsed reactor in Dubna, 22:341 (KFKI-8/1967)
design and performance of stilbene, 21:6191 (BRL-R-1335)
design and performance of stilbene scintillation, for studying photonuclear reactions, 21:34492
design and performance of stilbene scintillation, for simultaneous neutron and gamma spectroscopy, 22:19141
design and performance of telescope detector, using two radiators, 25:21423
design and performance of thallium-activated sodium iodide time-of-flight fast, 21:16195
design and performance of thick radiator, fast-, with organic scintillator and proton-recoil counter, 23:17796
design and performance of time-of-flight, 24:14292 (RISO-M-995)
design and performance of time-of-flight fast, using plastic or stilbene scintillators, 21:41235
design and performance of time-of-flight fast, with scintillation detectors, 24:11833
design and performance of time-of-flight thermal, 21:6197 (IS-1449)
design and performance of time-of-flight thermal, for scattering experiments, 22:23310 (IEA-136)
design and performance of time-of-flight thermal, for inelastic scattering studies, 24:33915 (AERE-R-6246)
design and performance of time-of-flight, for cross section measurements with 50 psec linac beam, 24:13249
design and performance of time-of-flight, for high resolution cross-section measurements, 21:16141 (KFK-453)
design and performance of time-of-flight, for studying (n, γ) and (n,n'γ) reactions, 24:27382 (CEA-R-3981)
design and performance of time-of-flight, for thermal neutron studies on DIDO 6H hole, 23:26603 (AERE-R-6035)
design and performance of time-of-flight, using proton-recoil plastic scintillation detectors, 22:6635
design and performance of triple-axis crystal, for thermal neutrons, 25:18738 (RISO-229)
design and performance of twin-scintillation fast-, 22:2425
design and testing of helium-3 sandwiched, for critical assemblies, 21:14430(R) (IITRI-578-P-31-1)
design and testing of helium-3-sandwiched, for critical assemblies, 22:47360 (IITRI-578-P-31-2)
design and testing of proton-recoil proportional, for critical assemblies, 22:47360 (IITRI-578-P-31-2)
design and testing of proton-recoil proportional, for critical assemblies, 21:14430(R) (IITRI-578-P-31-1)
design and use of time-of-flight, for quasi-elastic neutron scattering experiments, 23:41038 (EUR-4289, pp 111-17)
design and uses of high-resolution crystal, 24:19233
design and uses of lead slowing-down-time, 25:15921
design based on neutron decay and incorporating two silicon surface-barrier detectors, 23:9732
design for cold neutrons, 21:7644
design for measurements at 2 to 40 MeV in upper atmosphere, 23:7281(R) (ORNL-4280)
design for use with x-ray goniometers, (E), 21:285
design improvements on time-of-flight, using associated particle method for d + T neutrons, 25:51883
design improvements to JAERI time-of-flight, 25:42107 (JAERI-13771)
design modification of time-of-flight fast, 25:46630
design of 0.025- to 6-eV crystal, using boron-trifluoride proportional counter, 21:43224 (CNAEM-33)
design of 250-meter time-of-flight, with liquid scintillation detector, 25:18742
design of 90° fast, using ^{3}He(n,p)T reaction free of recoil spectrum effects, 22:28143
design of 90° helium-3, without recoil spectrum effects, 22:2395 (LA-3752)
design of associated gamma-ray time-of-flight scintillation, for measuring fast neutron—gamma ray angular correlations, 23:43535
design of cadmium-loaded liquid scintillation time-of-flight, for measuring average number of neutrons per fission, 25:55039(T) (LB/G-3040)
design of computer-controlled, for high fluxes, 23:19993(P)
design of correlation-type time-of-flight, with magnetically chopped polarized neutron beams, 22:30849 (KFKI-7/1968)
design of crystal thermal, for reactor materials analysis, 23:45534 (CNM-R-2(Vol.2), pp 879-98)
design of crystal, for producing polarized neutrons, 21:19905 (UJV-1562)
design of defocusing, rotating-crystal, high-resolution, for neutrons in MeV range, 22:348
design of double-axis crystalline, for neutron inelastic scattering spectra, 21:6290
design of double-crystal, for polarized neutrons, 21:14429 (CONF-660221-, pp 366-70)
design of dual space—time fast, 23:684
design of dual-disk chopper, 21:19152(R) (TID-23685)
design of eight-channel detection scintillation, for angular distribution measurements, 23:47789
design of fast, for reactor environments, 21:8613
design of fast, using proton-recoil polyethylene target and semiconductor detector, 24:36606
design of fast, utilizing lithium-6 and lithium-7 in films for eliminating background, 21:3312(P)
design of fixed-scattering-angle, for neutron diffraction of powdered samples, 22:14822 (RISO-164)
design of foil converter and semiconductor telescope, 25:44670(P)
design of Giles gas recoil, for eliminating effects of wide-angle recoils, 25:37640(P)
design of helium-3-sandwiched proportional fast, 23:26560 (N-69-15750)
design of hexapole-magnet, for detection of cold neutrons, 25:15935
design of high-resolution cold, for use with high flux reactors, 22:8368(T) (AERE-Trans-1080)
design of intermediate, using magnetic analysis of recoil protons, 22:6652 (ORNL-4168, pp 183-230)
design of JINR, for microdynamics of condensed matter, 25:18734 (INP-727)
design of liquid boron scintillation detector for time-of-flight thermal, 25:42104 (FEI-208)
design of lithium fluoride crystal, equations and calculations for, 23:33479 (TUBIK-11)
design of lithium-6-sandwich silicon, for measuring fast neutron spectra, 23:7784
design of lithium-glass time-of-flight, for use at JAERI electron linac, 21:43226 (JAERI-1138)
design of low-resolution, using fission thermocouples for pulsed neutron environment, 22:30838
design of magnetically pulsed time-of-flight, 24:48305(P)
design of multipurpose crystal, 24:19236
design of organic scintillation, for neutrons at 10 to 100 MeV, 22:28135 (NYO-3914-2)
design of proton recoil proportional counter for use at ZEBRA reactor, 24:22445 (AEEW-R-651)
design of proton recoil, for neutron spectra from 50 to 450 MeV, 21:6224
design of proton-recoil proportional, with electronic collimation, 24:36575
design of proton-recoil, for measuring spectra of fast neutrons produced by accelerators, 22:4456 (JUL-499-RX)
design of proton-recoil, using foil and semiconductor telescope detector, 25:39741(P)
design of proton-recoil, using hydrogen-rich foil and semiconductor telescope detector, 25:42134(P)
design of proton-recoil, with microsecond resolution, 23:45542(P)
design of rotating-disc thermal, 25:10854(P)
design of scintillation time-of-flight, for 10- to 100-MeV neutrons, 22:40447
design of scintillation, for measuring direction and energy of 1.0- to 15-MeV neutrons, 21:32448
design of scintillation, with gamma background discrimination based on time of luminescence, 22:2409
design of semiconductor-sandwiched fast, using helium-3 or lithium-6 reactions, 21:32447
design of semiconductor-sandwiched, using helium-3 reactions, 21:32452
design of single-crystal, 22:24408 (IA-1128, pp 21-54)
design of spark chamber, using recoil protons, 22:21339 (TID-24308)
design of stilbene and lithium-6-glass scintillation coincidence, 25:10862
design of time-of-flight, 21:34515 (ORNL-4091, pp 1-14)
design of time-of-flight 14-MeV, 21:3257
design of time-of-flight fast, for Karlruhe isochronous cyclotron, 22:45330
design of time-of-flight fast, using NE 213 scintillation detector with neutron—gamma discrimination, 23:29216
design of time-of-flight fast, using neutron—gamma discriminating scintillation detectors, 22:6630
design of time-of-flight for pulsed source, 24:50580
design of time-of-flight, for determining nuclear energy levels according to orbital momentum of incoming neutrons, 21:16183
design of time-of-flight, for differential elastic and inelastic cross section measurements, 25:37629
design of time-of-flight, for neutron inelastic scattering studies, 25:29362
design of time-of-flight, for polycrystalline diffraction, 22:45327
design of time-of-flight, for prompt neutrons, 22:21336 (PINSTECH/PHY-6)
design of time-of-flight, for studying inelastic scattering of thermal neutrons by single crystals, 22:40438 (INR-P-898/II/PS)

design of time-of-flight, for thermal neutrons, (E), 23: 32889
design of time-of-flight, for total cross section measurements, 25:53408 (CONF-701002-, pp 377-84)
design of time-of-flight, using neutron—gamma discriminating scintillation detectors, 22:49098
design of time-of-flight, with pulsed source, 23:7787
design of total-reflecting cold, for reactor beam holes, 25:8536
design of transistorized proportional detector, for thermal neutron spectroscopy, 24:2478 (INP-676)
design of triple-axis, 23:41048
design of triple-axis, 21:17318(R) (AECL-2659)
design of triple-axis and pulse-type, 21:16138 (JAERI-1113, pp 72-5)
design of, composed of integral Geiger—Mueller counters, ionization chambers, and proportional counters, 21:28278(P)
design proposal for NAL Synchrotron facility, 24:52328 (TID-25473(Vol.3), pp 335-43)
design using (n,f) and (n,α) reactions and dielectric track detectors, 23:47761
design using energy dependence of neutron reaction angular parameters, 21:28192 (AERE-M-1850)
design using lithium-6 fluoride and silicon surface-barrier detector for detecting tritons from lithium-6 (n,t) reaction, for neutron spectroscopy, 25:34925
design using NE 102 plastic scintillator, 21:40421(R) (COO-1549-3)
design utilizing two parallel reflecting copper crystals, 23:14100
design, fabrication, performance, and uses of polarized, 23:6324
detector for fast, use of 4π-recoil proportional, 21:32366 (ANS-SD-2, Paper 4)
detectors for time-of-flight diffraction experiments, use of extended, 21:6263
development, 23:16090 (ORNL-4335, pp 2-11)
development and performance of liquid organic scintillation detector as fast, 24:9675
development at Ispra for reactor physics studies, 23: 24458 (EUR-3940-1, pp 129-58)
development for inelastic scattering research, conference on, 25:15918 (STI/PUB-275)
development for measurement of cosmic-ray produced neutrons, 25:51887
development for use in fast reactor cores, 23:43189 (BNL-50149, pp 1-14)
development of 0.1 atm hydrogen-filled diffusion cloud chamber, for thermal neutrons, 22:23316
development of 250-m time-of-flight, 24:49862(R) (RPI-328-187)
development of 4π anticoincidence, for use in mixed radiation fields, 21:4707
development of activation detector, using lithium-drifted germanium detector for gamma spectral analysis, 23: 38299 (UCRL-18514)
development of activation foil, below 14 MeV, 24:31732
development of activation foil, for 14-MeV range, 24: 31733
development of Bonner multisphere, 25:10811 (CEA-CONF-1685)
development of detector with flat energy response for time-of-flight, 25:51880 (CONF-701002-, pp 401-9)
development of fast chopper, 21:40473(R) (PR-P-74)
development of fast, for measurement of spectra transmitted through iron slabs, (E), 25:44205
development of fast, using activation detectors, 22: 19146
development of fast, using semiconductor detectors, 21: 10660
development of fast, using thick organic scintillators, 21: 19963
development of gas recoil fast, with electronic collimation by rise-time discrimination, 25:18749
development of gas-recoil proportional, with fast coincidence electronic collimation, 25:13232
development of high-resolution, for inelastic scattering studies using vibrating crystal for beam bunching, 25: 26493
development of leakage, using polyethylene-moderated activation detectors, 25:23840 (UCRL-20148)
development of liquid scintillation time-of-flight, for measuring fission parameters at 0.7 to 7 MeV, 24: 27390
development of low background fast, consisting of three carbon dioxide flow detectors and one silicon detector, 23:38311
development of magnetically pulsed time-of-flight, for inelastic scattering studies, 25:15928
development of medium fast time-of-flight, operated on-line with computers, 21:32439
development of NE-213 scintillation, 25:55002 (NYO-2740-8, pp 7-146)
development of NE-213 scintillation, for operation in aqueous media, 25:55034 (COO-2049-7)
development of NE-213 scintillation, using off-line gamma-ray discrimination, 25:55033 (COO-2049-6)
development of nuclear emulsion, at low and intermediate energies, 24:33916 (HASL-230)
development of proportional—surface-barrier coincidence, for in-core spectrum measurements, 25: 18741
development of proton-recoil, 21:30093(R) (ANL-7317)
development of proton-recoil ionization, for delayed neutrons, 24:48302(R) (RLO-2225-T-17-1)
development of proton-recoil proportional, 24:7646(R) (IITRI-578-P-33-12)
development of proton-recoil proportional, 25:42106 (JAERI-13580)
development of proton-recoil proportional, 25:42048 (ANL-7710, pp 263-364)
development of proton-recoil scintillation telescope, for 50- to 450-keV neutrons, 24:494 (ORNL-TM-2707)
development of proton-recoil time-of-flight, 21:35437(R) (EANDC(E)-76(U))
development of proton-recoil, for critical assemblies, 24: 14288(R) (IITRI-578-P-33-15)
development of proton-recoil, for fast reactor neutrons in direct beams, 22:9921 (JUL-Conf-1)
development of proton-recoil, using anthracene radiator and zinc sulfide scintillation detector, 25:51886
development of scintillation, using octadeuterated naphthalene crystals for fast, 21:4702
development of simultaneous time-of-flight and pulse-height unfolding, 25:4366
development of small spherical, with epithermal resonance absorbers in boron covered polyethylene spheres, (E/T), 23:33088(R) (UCB-34-P-161-2)
development of small spherical, with epithermal resonance absorbers in boron covered polyethylene spheres, (E/T), 23:33087(R) (UCB-34-P-161-1)
development of spin-flip-chopper, 25:15929
development of time-of-flight, 22:9802(R) (NYO-1082-9)
development of time-of-flight, 22:37340(R) (EANDC(E)-89(U))
development of time-of-flight fast, using natural burst width of cyclotron beam, 23:10936(R) (COO-535-591)
development of time-of-flight, for neutron scattering studies, 25:15930
development of time-of-flight, for proton beam experiments at 25 and 60 MeV, 23:7281(R) (ORNL-4280)
development of time-of-flight, using correlation method, 21:283
development of time-of-flight, using pulse-height spectrum from recoil protons in liquid scintillator, 23: 10936(R) (COO-535-591)
development of two-axis crystal, 24:31725
development of wall-less proportional detector, 23: 26558(R) (IITRI-578-P-33-6)
development of wall-less proportional detector, for use at critical assemblies, 23:16134(R) (IITRI-578-P-33-3)
development of wall-less proton-recoil proportional, for critical assemblies, 24:48301(R) (IITRI-578-P-33-18)
development of, review of, 21:40363
development using boron-10-sodium iodide detectors, for fast neutrons, 21:42524 (RPI-328-97, pp 35-95)
development using bright line technique for measuring thermal scattering cross sections, 22:2406
development using surface barrier detectors and fission chambers, 21:6201 (RT/FI-(66)17)
discriminator circuit for proton-recoil scintillation, design of pulse-shape, 21:32368 (ANS-SD-2, Paper 9)
discriminator for stilbene scintillation, design and performance of double delay line pulse shape, 21: 32437
discriminator for time-of-flight fast, design with compensation of rise time and threshold, 21:45412
Doppler effect in neutron reflection by rotating-crystal, use in time focusing of reflected neutrons, 22:347
efficiency and resolution of time-of-flight, computer simulation studies of, 23:1821(R) (COO-1549-10)
efficiency of correlation-type time-of-flight, 24:9687
efficiency of crystal, at 4 to 10 A, 25:15926
efficiency of double scintillator time-of-flight, 23: 1821(R) (COO-1549-10)
efficiency of helium-3-sandwiched semiconductor, 23: 2631 (JUL-522-RG)
efficiency of lithium-6—semiconductor detector sandwich, calculation of geometric, 25:2473 (AERE-R-6318)
efficiency of lithium-6-sandwiched semiconductor, for coincidence measurements, calculation of geometric, 23:43564 (BLG-428)
efficiency of lithium-6-sandwiched semiconductor, calculation of geometrical, 22:21342
efficiency of NE-213 scintillation, at 1 to 9 MeV, 23: 2635
efficiency of organic liquid scintillation, at 0.2 to 22 MeV, absolute differential, 23:682
efficiency of plastic scintillation detectors for medium-energy time-of-flight, 24:48308
efficiency of polarized, operating with scattering vectors not normal to the direction of the magnetic field, 22: 43087
efficiency of semiconductor, 22:36090
efficiency of time-of-flight fast, random beam pulsing method for improving, 23:26566
efficiency of time-of-flight, for 15-MeV neutrons, 21: 41224
energy limits for proton-recoil, at high energy, 24:31729
energy limits for proton-recoil, at low energy, 24:31728
error reduction in pulsed time-of-flight, using velocity-dependent detectors, 24:4472
errors in hydrogen- and methane-filled proton-recoil proportional, due to energy dependence of energy loss per ion pair formed, 24:5918
errors in time-of-flight, analysis of, 24:46499 (IAE-1908)
errors in time-of-flight, correction of neutron emission time and detector efficiency, 24:9676
fabrication and performance of germanium, 21:16196
fabrication and testing of time-of-flight fast, 23:33488
fabrication of rotating crystal, for ISPRA-1 research reactor, 22:28162
focusing conditions of triple-axis, for phonon measurements, 21:19909
focusing of triple-axis, computer program for, 21: 17318(R) (AECL-2659)
gamma background discrimination circuit for scintillation, development of, 21:326
gamma background suppression in proton-recoil time-of-flight, 23:1821(R) (COO-1549-10)
geometrical effects in proton-recoil, correction for, 24: 5919
installation of magnetically pulsed time-of-flight HFIR, 25:33402(R) (ORNL-4669)
isotropy of helium-3 sandwich-type, (E), 22:5735
memories for time-of-flight, design of buffer, 22:28144
neutron time—energy distributions in lead slowing down, calculations of, 25:3541
operation of double statistical chopper for elimination of inelastic scattering in time-of-flight, 25:34929
operation of lithium fluoride crystal, equations and error calculations for, 23:33479 (TUBIK-11)
operation of time bunching, using bent rotating crystal, 25:29359
operation of time of flight, for cyclotron target, 24: 45655 (PTB-2/70)
operation of time-of-flight, for measuring polarization of thermal neutrons, theory of, 22:30847 (EUR-3910)
operation of time-of-flight, for photoneutron angular distribution measurements, 24:27401
operation of triaxial, for measuring polarization of thermal neutrons, theory of, 22:30847 (EUR-3910)
operation of triple-axis polarization thermal, theory of, 24:29564
optical characteristics of crystal and time of flight, for scattering experiments in gases and liquids, 22:12128
performance for inelastic scattering studies, review on, 25:15922
performance for neutron scattering studies, comparison of, 25:15924
performance for studies of neutron scattering in liquids, comparison of, 25:15923
performance in STSF-1 of lithium glass, analysis of, 22: 27462(R) (GA-8543)
performance of banks of boron trifluoride counters, reproducibility of, 22:49112
performance of Bonner multisphere scintillation, for stray neutrons at accelerator, 24:44291 (CONF-691101-, pp 552-65)
performance of Bonner polyethylene-moderated proportional, for spectra measurements near RHEL PLA linear accelerator, 23:30923(R) (RHEL/R-170)
performance of Bonner sphere, for measurement of dose conversion factors for isotopic neutron sources, 23: 48058
performance of boron trifluoride, for total cross-section measurements of below 10^{-3} eV, 24:46510
performance of crystal, at ISPRA-1 reactor, review of, 22:12130
performance of deuterium-containing scintillation detector, for fast neutrons, 23:11831
performance of fast and slow choppers, comparison of, 21:44660 (CONF-660925, pp 789-818)
performance of fast chopper time-of-flight, 24:23014
performance of gaseous scintillation, for fast neutrons, 21:325
performance of helium-3 proportional detector, 22:10576 (CEA-R-3310)
performance of helium-3 proportional, in fast subcritical assemblies, (E), 25:15388(R) (GULF-RT-10421)
performance of helium-3 solid state, for fast neutron spectra in heavy water reactors, 25:26038
performance of helium-3 solid state, for STSF background measurements, (E), 25:48306(R) (GULF-RT-10655)
performance of helium-3 solid state, for time-and energy-dependent spectra measurements, (E), 25:60156(R) (GULF-RT-A-10800)
performance of helium-3-filled fast, with extended range, 21:32367 (ANS-SD-2, Paper 8)
performance of helium-3-sandwiched silicon, for determining energy distributions in Am—Be and californium-252, 23:49312
performance of liquid organic, 24:47891 (ANL-7610, pp 369-464)
performance of lithium fluoride, 25:55043 (RD/B/N-2034)
performance of lithium-6 fluoride sandwich semiconductor, 25:42119
performance of lithium-6 sandwich semiconductor, for fast neutrons, 24:46496 (AERE-R-6060)
performance of lithium-6-sandwich semiconductor, 23: 38307
performance of lithium-6-sandwich semiconductor, at 1 to 100 keV, 24:33926
performance of lithium-6-sandwiched semiconductor, for fast neutron dosimetry in swimming pool reactor subcore facility, 24:16895
performance of organic liquid scintillation, at 0.5 to 15 MeV, 24:31734
performance of organic scintillation, for intermediate neutrons, 24:44302
performance of ORTEC type 525 helium-3, (E), 24: 50185(R) (GA-10280)
performance of proton-recoil proportional, 25:15917(T) (ORNL-tr-2415)
performance of proton-recoil proportional counter, wall effect corrections for, 21:19940
performance of proton-recoil proportional, at 200 eV to 1 MeV, 25:2481
performance of proton-recoil proportional, for fast neutron spectra distribution in water, 25:26037
performance of proton-recoil proportional, for fast neutron spectroscopy, 23:43584
performance of proton-recoil proportional, for measurements in water behind iron slabs, 24:31730
performance of proton-recoil proportional, for neutron spectra measurements of radioisotope sources at 10 keV to 10 MeV, 24:41685 (NP-18359)
performance of rotating-crystal, 22:9921 (JUL-Conf-1)
performance of rotating-crystal time-of-flight, 22:19133 (BNWL-SA-1536)
performance of rotating-crystal time-of-flight thermal, with phased chopper, 25:8533
performance of small differentiable liquid scintillation, 25:415 (N-70-30593)
performance of stilbene, 22:33208(R) (MLM-1456)
performance of stilbene scintillation, 25:34920 (UARAEE-91)
performance of stilbene-crystal combination gamma—, 23:26561
performance of stilbene-crystal combination gamma—, 23:26562
performance of surface-barrier silicon fast, 23:22060

performance of time-of-flight fast, using associated-particle method, 22:9758 (CEA-R-3254)
performance of time-of-flight scintillation, at 10 to 100 MeV, 24:44290 (CONF-691101-, pp 537-51)
performance of time-of-flight, for accelerator—target neutron source, 25:10861
performance of time-of-flight, for slow neutrons, 22:28132 (NIJS-R-515)
performance of time-of-flight, for thermal neutrons in reactors, 21:6269
performance of time-of-flight, using sector-focused cyclotron source, 21:44513 (CONF-660925, pp 589-98)
performance of, for pseudostatistical time of flight measurement of thermal neutron scattering, 24:52363 (KFK-1126)
performance of, using stilbene crystal, 22:1956(R) (MLM-1405)
phosphors for single-crystal fast, estimation of optimal size of, 21:32383(T) (AEC-tr-6719, pp 111-12)
photomultiplier design for time-of-flight, 23:32902(R) (RLO-1925-20)
preamplifier for proton-recoil proportional detector, wide-band charge-sensitive, 23:29206 (ANL-7517)
preamplifiers for proportional, design of wide-band FET charge-sensitive, 21:45345(R) (IDO-17234)
properties of fast time-of-flight, 21:26189
proton energy loss in hydrogen-filled proportional slowing-down time, 23:29215
proton recoil spectra from, least-squares method for unfolding, 22:33662
pulse amplifier for proton-recoil in-pile, design and performance of current, 25:37627
pulse analysis of proton-recoil proportional, analog computer for gamma discrimination in, 25:4362 (CEA-N-1314)
pulse analysis of proton-recoil stilbene, 24:2479
pulse analyzers for time-of-flight, design of time-interval multichannel, 23:17793(P)
pulse discriminator for liquid scintillation time-of-flight, design and performance of, 25:8507
pulse height spectrum of charged particles from neutron reactions in stilbene scintillation, 25:32265
pulse rise-time discrimination for electronic collimation in proton-recoil proportional, 25:6553
pulse risetime discrimination for helium-3 proportional, 24:4479
pulse shape discriminator for time-of-flight fast, design and performance of, 22:10591
pulse shape discriminator for time-of-flight, using NE 213 organic scintillator, 23:7281(R) (ORNL-4280)
pulse shape discriminators for, 24:16876
pulse shaper for proportional, design of rise-time, 21:36362
pulse-height analysis of organic scintillation, 25:18766
pulse-height discriminator for time-of-flight, design of fast, 24:21002(T) (ORNL-tr-1871)
pulse-height risetime analysis for helium-3-filled ionization and proportional, methods for optimizing, 23:35509
pulse-height spectrum unfolding for NE-213 scintillation, 25:4365
pulse-shape discriminator for proton-recoil scintillation, 24:29548
pulse-shape discriminator for stilbene scintillation, 22:28159
pulse-shape discriminators for gamma discrimination in proton-recoil proportional, 25:10857
radiation effects on scintillation detector, radioisotope power source, 24:31765(R) (N-70-14572)
reaction kinetics data for lithium-6-sandwiched semiconductor, 23:43564 (BLG-428)
reflection in triple-axis crystal, elimination of second order, 21:16196
resolution and intensity of Bragg-reflected beam in, determination by Monte Carlo simulation, 22:25662
resolution and minimal representation of liquid scintillation proton recoil, 25:39753
resolution for inelastic scattering studies, review on, 25:15925
resolution function for mechanical time-of-flight, calculation of, 25:34919 (UARAEE-61)
resolution function of crystal, 24:7645 (IEA-150)
resolution function of twin-rotor time-of-flight, 24:46503
resolution of double-axis and time-of-flight, for neutron diffraction, 22:45319 (IA-1166)
resolution of helium-3, improvement in, 25:39755
resolution of lithium-6-sandwiched, (E/T), 23:43564 (BLG-428)
resolution of three-axis crystal, for measuring 1 phonon resonances in neutron inelastic scattering by crystals, 22:28223
resolution of triple-axis, with vertically bent pyrolytic graphite crystals, 25:48971
resolution of, method for determining, 23:31545
response function calculations for proton recoil, with active radiator, 24:3953(R) (ORNL-4433)
response function of proton-recoil, calculation of, 23:11826
response functions for NE-213 scintillation, at 1 to 9 MeV, 23:2635
response functions of helium-3 filled proportional, 24:2483
response of boron-filtered, computer program for simulating, 21:46643(R) (ORNL-4134)
response of helium-3, optimization of energy, 25:39754
scintillators for, use of single crystals of deuterated naphthalene as, 21:36377
sensitivity of lithium-6 and helium-3 semiconductor, corrections for, 21:32419
simulation of time-of-flight, computer program for, 21:40421(R) (COO-1549-3)
spectra from, computer program for separation of gamma and neutron, 25:51881 (N-71-17323)
spectra measurements with lithium-6 fast, analysis of, 21:13947(R) (ANL-7286)
spectra unfolding for multisphere, Monte Carlo method for, 25:18740
spectra unfolding for, Monte Carlo method for, 25:4367
spectrum unfolding for, methods for, 25:39749
spectrum unfolding of proton-recoil NE-213 scintillation, 25:39750
spectrum unfolding of proton-recoil, iterative techniques for, 25:39747
spectrum unfolding of, development of system for, 25:39752
stability of stilbene crystal, at 12 to 132°F, 21:19894 (BRL-MR-1808)
stabilization of amplification coefficient of scintillation, 23:38304
stabilization of time-of-flight fast, digital, 24:4474
stabilization system for nine-detector scintillation, design and performance of, 23:33480
survey of, for neutron spectroscopy, 22:9951
theory of correlation time-of-flight, 25:15927
time analyzer for time-of-flight, used at Nevis synchrocyclotron, 23:49393(R) (NYO-72-227)
time delay circuit for EIR time-of-flight, up to 8.6 ms, 22:16929 (EIR-130)
time spread in on-line time-of-flight fast, reduction of, 22:45326
time-channel response functions for time-of-flight fast, 21:36340 (ORNL-4114)
time-of-flight experiments with, conditioner with integrated circuits for, 22:45377
transport equations for fast media for slowing-down, 25:3535
use in geophysics, 22:51248
use in USSR research reactors, description of, 22:12129
use of crystal, for thermal spectra and temperature measurements, 22:49102
use of lead slowing-down time, for measurement of mean free path, 22:29851
use of lithium iodide, for Operation HENRE, 22:6652 (ORNL-4168, pp 183-230)
use of lithium-6-sandwiched, for neutron spectrum measurements in SNEAK, 22:4432
use of multisphere-moderated, for inferring quality factor of mixed radiation near accelerators, 22:8364 (CONF-670305-, pp 255-68)
use of Perlow-type proton-recoil, for continuous spectral measurements, 22:345 (RT/FI-(66)36)
use of rotating-crystal time-of-flight, for inelastic scattering experiments, 22:9921 (JUL-Conf-1)
use of slowing down time, for fissionable material determination in reactor fuel pins, 23:2710
use of time-of-flight, for neutron spectrum measurements in SUAK, 22:4432
use of two-axis, for mosaic spread measurements for large lead single crystals, 22:2408
wall effect calculations for helium-3-filled ionization and proportional, 23:35533
wall effect corrections for proton-recoil, 21:34464 (ANL-7320, pp 490-500)
NEUTRON SPECTROSCOPY
activation measurements in, mathematical techniques for unfolding neutron spectra from, 24:10945 (UCRL-19375)
area analysis of neutron resonances including effects of Doppler broadening, (T), 21:5469
beam modulation for efficiency in time-of-flight, Fourier continuous, 24:9689
book: Neutron Spectrometers and their Applications, 24:19212
calculations for cross correlation for pseudorandom time-of-flight, 24:493 (KFK-981)
computer control of experiments in, 24:28433(R) (ORO-3674-3)
conference on fast, 21:32362 (ANS-SD-2)
correlation technique using random-modulated beam in time-of-flight, efficiency, 24:9687
data acquisition and analysis system for time-of-flight, 24:8765 (CONF-690301-, pp 299-304)
data analysis for activation, computer program for, 22:21338 (SC-RR-67-746)
data analysis for time-of-flight, Fourier method for, 23:43581
data handling problems in fast, 21:19965
data processing method in time-of-flight fast, 23:47788
equipment for thermal, design and performance of mechanical correlation chopper, 22:36081
equipment for time-of-flight, design of pulsed Van de Graaff accelerator for, 23:47802
improvement in time-of-flight techniques for cold, (E), 22:26778
intensity and resolutions in time-of-flight powder diffractometry, 22:44251
measurements using boron filters, 21:19957
method for fast, using random drift sampling in nuclear emulsions, 23:629
method for multisphere scintillation and activation, at 0.025 eV to 25 GeV, iterative unfolding, 22:12596 (RHEL/R-154)
method for particle track analysis in nuclear emulsions for, use of automatic microscope random-drift, 22:16895
method for studying intramolecular vibrations, small-kappa, 24:10376
method for studying iron and iron/paraffin shield assemblies, 23:48956 (N-69-32341)
method for thermal time-of-flight, Fourier synthesis, 24:9677
method for time-of-flight thermal, with pseudo-random input signal, 24:4469
method for time-of-flight, Fourier synthesis, 24:5925
method for, using lithium-6 (n,t) reactions, 21:21469
method using statistical chopper for separation of elastic and inelastic scattered neutrons in time-of-flight, 25:18764
methods development for, review of, 21:40363
methods for cold, 24:21010
methods for intermediate, integral, 25:44671
methods for measuring energy levels and intensity of reactor radiation, 21:42830
methods for smoothing of spectra in, 23:28319 (CEA-R-3662)
methods for structure analysis of solids, 23:16142
methods for studying crystal lattice dynamics, 23:16142
methods for studying reactor shielding, review of, 21:32363 (ANS-SD-2, Paper 1)
methods for time-of-flight, efficiency of cross-correlation and Fourier synthesis, 23:19995
methods for, use of nuclear emulsion, 21:1630
methods in mixed gamma-neutron radiation fields, 21:328
methods used in neutron inelastic scattering studies, conference on, 24:10610 (STI/PUB-187(Vol.2))
methods using corpuscular and wave properties of radiation, 23:16142
neutron groups in associated gamma time-of-flight, spurious, 23:43580
nuclear structure research with, survey of, 24:24655
performance in fuel assay for nuclear materials management, 22:18705
photopeak location and area determination in, method for automatic, 24:33925
probability for missing levels in slow, method for calculating, (T), 23:7356
pulse effects from Philips 58 AVP photomultiplier on time-of-flight, secondary, 22:10588
pulse-height spectra unfolding techniques for, 25:54436 (ORNL-TM-3463)
resolution correction on VERA reactor by pulsed-source time-of-flight technique, 22:2388 (AWRE-O-8/67)
resolution techniques in keV region, with windowless gas targets, 24:6821
review of heavy nuclei, (E/T), 25:1735(T) (BNL-tr-351)
scattering experiments using time-of-flight and conventional continuous source techniques, evaluation of, 23:10907 (AERE-R-5896)
shape analysis for determining slow-neutron resonance parameters, 22:6628
theory of correlation time-of-flight, 25:10850 (JUL-684-FF)
time-channel response function in time-of-flight, computer program package for calculating, 21:43229 (ORNL-TM-1836)
use for calculation of multi-charge core effects on RBI research reactor reactivity, description of, 22:47015(T) (N-68-24522)
use for research on highly excited nuclear states, 25:34156 (JINR-E4-5711)
use of polarized targets in, review on, 23:47037 (BNL-13624)
use of threshold detector activations in fast, (E/T), 22:26779
uses in study of properties of solids, survey, 21:15230

gravitational redshifts in, (T), 25:55808
heating in, frictional, (T), 25:52541
helium abundance in atmospheres of, (T), 22:38652 (N-68-16276)
hydrogen abundance in atmosphere of, 22:38652 (N-68-16276)
identification of, optical, (E), 22:19718
interactions in, weak, (T), 24:27927
ionization zones around, (T), 25:19324
light delays near, (T), 23:51183
low-temperature phenomena in, (T), 25:58520
luminosity of old, due to accretion of interstellar matter, (T), 24:51253
luminosity of, (T), 25:58433
magnetic fields in,), 25:24745
magnetic fields in, (T), 24:23611
magnetic fields in, (T), 24:6305
magnetic fields in, detection of, (E/T), 25:834
magnetic fields in, origin of intense, (T), 24:10234
magnetic fields in, origin of, (T), 25:35621
magnetic fields in, origin of, (T), 25:52510
magnetic fields of, decay due to Ohmic dissipation, (T), 24:18046
magnetic fields of, relativistic treatment of hydrogen atom in, (T), 25:17328
magnetic flux and energy in rotating, generation of, (T), 23:34183
magnetic models of, (T), 23:25059
magnetic susceptibility, (T), 24:10256
magnetic-field decay in, (T), 24:3082
magnetic-field decay in, (T), 25:27344
magnetic-field decay in, (T), 23:44087
magnetic-field decay in, (T), 24:4935
magnetic-field effects in, (T), 25:24729
magnetic-field generation in, (T), 25:11591
magnetohydrodynamics of, (T), 25:35601
magnetosphere of, plasma oscillations in, (T), 22:38673
mass and central density of, (T), 25:45173
mass and core radius of, (T), 22:8963
mass ejection from, in binary systems, (T), 25:58424
mass limit for, (T), 25:58432
mass loss from pulsating, (T), 23:39150
mass losses from, (T), 24:1152
mass of, limits of, (T), 25:58564
mass of, maximum, (T), 25:45178
mass of, upper limit to, (T), 25:52506
masses of, 24:39743
masses of, nuclear-matter calculations of, (T), 24:23576
masses of, stable, 24:8261
matter accretion by, (T), 25:19324
matter accretion by, in nuclei of galaxies and quasars, (T), 25:30247
matter accretion by, interstellar, (T), 24:35080
matter accretion by, magnetic funneling for, (T), 24:17518
matter in, mass formula and properties of, (T), 25:55678
matter in, properties of low-density, (T), 25:40203
matter in, properties of, (T), 25:22245
matter in, properties of, (T), 24:23548(R) (NYO-3962-2)
matter states in, (T), 22:5027
model featuring explosions of, supernova, (T), 25:19326
model for cosmic x-ray sources featuring, (T), 23:51237
model for Crab Nebula featuring rotating, (T), 24:37058 (N-70-17456)
model for pulsars featuring, (T), 23:12484
model for rotating, (E), 24:42385(T) (CSIRO-Trans-10121)
model for Sco X-1 featuring, (E/T), 24:27958
model for, (T), 25:45233
model for, (T), 23:14456
model for, oblique-rotator, (T), 25:30052
model of pulsating, (T), 24:1184
model of rotating, with satellites, (T), 22:34188
models for, 24:12518
models for pulsars featuring, (T), 24:35088
models for rotating, in nonrelativistic gravitational theory, (T), 25:16660
models for slowly rotating, supermassive, and white-dwarf, (T), 22:49926
models for, (T), 25:49615
models for, (T), 25:11596
models for, (T), 25:55715
models for, based on improved equation of state, (T), 24:19597
models for, densities and masses in, 25:58493
models for, general relativistic rotational properties of, 24:19595
models for, nonradial quasi-normal pulsations of fully relativistic, 24:1124
models for, nuclear physics in, (T), 24:42384
models for, relativistic sphere, (T), 22:15271 (NEIC-RR-28)
models of static configurations, (T), 25:9008
models of, effects of nuclear forces on, (T), 22:15319
models of, exact solutions of Einstein's equations for, (T), 25:40330
models of, in generalized Newtonian theory of gravitation, (T), 24:46854
models of, including effects of hyperon formation, (T), 25:30080
models of, rotational properties of, (T), 24:4928
molecule formation in, (T), 25:35645
neutrino emission from, (T), 25:47248
neutrino luminosity by URCA process in intense magnetic fields of, (T), 25:30081
neutrino luminosity of, (T), 25:6931
neutrino retention by, (T), 22:34170
neutron beta decay in, effect of magnetic field on, (T), 23:42523
NP 0532, rotational energy conversion into energy of relativistic neutrons, (T), 23:14507
nuclear ferromagnetism in, calculated with realistic forces, 24:17492
nuclear reactions in, (T), 23:41771(R) (NYO-3962-1)
nuclei in, calculations of amounts of, (T), 25:27311 (CERN-70-30(Vol.2), pp 759-68)
nuclei in, existence of, (T), 24:44879
nucleogenesis in atmospheres of, (T), 24:1152
nucleon clustering in low-density matter of, (T), 25:13819
observation of, (T), 22:49927
occurrence in spectroscopic single-line binaries, (T), 23:36301
opacity in, conductive, (T), 24:15025
optical and radio emissions from, nature of, (T), 23:14487
origin of rapidly pulsating radio source, (T), 22:34191
oscillations in rotating, long-period, (T), 24:17495
oscillations in, torsional, (T), 22:38697
oscillations of cold nonrotating, stability of nonradial, (T), 25:38046
oscillations of, due to gravitational fields, (T), 25:32886
oscillations of, magnetohydrodynamic, (T), 25:19312
oscillations of, possible unstable, (T), 23:32084
oscillations of, self-excited low-frequency, (T), 25:24782
particle acceleration by electromagnetic fields around, (T), 25:52550
period—age distribution of, (E/T), 25:55687
periods of, (T), 24:39743
photon propagation and splitting in external fields, 24:42843 (NYO-3829-54)
physics of rotating magnetic, (T), 24:27979
physics of, (T), 24:32559
plasma configuration in rotating, (T), 24:42412
production from supernovae, planet or companion star occurrence during, (T), 24:12534
production of, by supernova explosions, (T), 22:41211
properties and origin of, (T), 25:30127
properties of crustal, (T), 24:23628
properties of, (T), 22:924

properties of, (T), 24:23582
properties of, exact static solutions for Einstein field equations for general, 24:1660
properties of, review of, 24:44876
properties of, review of, (T), 25:32894
properties of, review on, (T), 24:17493
properties of, review on, (T), 25:19375
proton—proton interactions in, (T), 25:30050
pulsar model featuring rotating magnetic, (T), 23:44043
pulsar model featuring, (T), 23:27260
pulsar model featuring, (T), 23:36335
pulsar model featuring, (T), 23:39180
pulsar model featuring, (T), 23:48643
pulsar model of, featuring volcanic action, (T), 23:41811
pulsar models featuring rotating and precessing, (T), 24:37064
pulsar models featuring, (T), 24:1188
pulsation damping by nonleptonic interaction in, (T), 24:12552
pulsations of, radial, (T), 24:27997
radiation emission from surfaces of, (T), 24:42399
radiation emission mechanism for, (T), 25:30149
radii of, (T), 24:8261
radii of, (T), 24:19621
radio emission from expanding charge sheets associated with, (T), 25:58549
radio emission from magnetic, pulsar model featuring, (T), 23:18329
radio emission from magnetosphere of, (T), 25:24777
radio emissions from, in white dwarf region, (T), 22:28997
radio pulse emission from rotating, (T), 22:28986
radius of, (T), 24:12517
relation to antimatter, (T), 25:22378
relation to bright companion in binary systems, (T), 25:24748
relation to GX 340 + 0, (E), 25:58534
relation to pulsars and supernovae, (T), 24:10230
relation to quasars, (T), 24:1194
relativistic effects in rapidly rotating, (t), 25:43093
rotation in, differential, (T), 23:30253
rotation of, (T), 23:20596
rotation of, as a model for pulsar NP 0532, (E), 23:14481
rotation of, as model for pulsars, (T), 23:14483
rotation of, pulsar model featuring oblique, (T), 23:14512
rotation period of, effects on luminosity of supernova remnants, (T), 24:12570
rotational braking of, (T), 24:23628
seismic activity in, (E/T), 24:21472
seismicity in, (T), 24:10227
shock waves at high density in, (T), 22:2738
solid states in interiors of, physics of, (T), 25:58448
solidification pressure of matter in, (T), 25:45174
spectral redshifts of, maximal, 24:19593
spin-down effects in, (T), 23:30253
stability of, 24:39743
stability of binary systems containing, (T), 25:45196
stability of nonrotating, (T), 24:48920
stability of rotating magnetic, low-frequency, (T), 24:44862
stability of slowly rotating, static criterion for, (T), 24:4878
stability of stars intermediate between, and white dwarfs, (T), 23:14448
stability of, dynamical, (T), 25:45233
stability of, general relativistic models for, (T), 23:51188
structure of, (T), 25:24729
structure of, (T), 22:15318
structure of, (T), 24:10227
structure of, (T), 25:58520
structure of, equation of state for calculating, 25:45178
structure of, method for calculating internal, (T), 24:17498
superconducting state of, 24:15049
superconductivity in, (T), 24:4934
superconductivity in, (T), 24:4935
superconductivity in, (T), 25:24745
superconductivity in, (T), 25:24778
superfluid state in, (T), 25:55714
superfluid turbulence in, (T), 24:44868
superfluidity in, (T), 24:4934
superfluidity in, (T), 24:26103
superfluidity in, (T), 25:11545
superfluidity in, (T), 25:24745
superfluidity in, (T), 25:19348 (NP-18666)
superfluidity in, (T), 25:24778
superfluidity in, (T), 25:55715
superfluidity in, anisotropic, 24:32783
superfluidity in, due to pairing effect of L—S force, (T), 24:48945
superfluidity in, vortices in, (T), 25:40226
supernovae from, (T), 23:44035
temperatures in, (T), 25:24745
theory for small, tidal gravitational accelerations near arbitrary timelike geodesic in Schwarzschild space in, (T), 25:17580
theory for, linearized, 24:37899 (NYO-2262-TA-218)
theory of, (T), 25:49621 (AD-716800)
thermal conductivity in deep interior of, (T), 24:44856
thermal conductivity in outer layers, (T), 24:42319
thermodynamics of totally degenerate, (T), 25:58521
transactinide element formation during cooling of, (T), 24:42541
transport coefficients of a relativistic quantum gas, (T), 25:2873
ultraviolet emission from ionization zones around, (T), 25:19324
velocity speedup in, (T), 24:6310
vibrations of, effects of hyperons and resonance particles on, (T), 24:6297
vibrations of, effects of hyperons and resonance particles on, (T), 24:1150
vulcanism in, (T), 24:10227
x-ray emission due to accretion of interstellar matter, (T), 23:12467
x-ray emission from, (T), 25:47248
x-ray emission from, following gas accretion, (T), 23:51220
x-ray emission from, in binary systems, (T), 25:27342
x-ray emission from, in Cas A and SN 1572, (E), 24:21488
x-ray emission from, mechanism for, (T), 24:15069
x-ray emission from, models for, (T), 23:18339
x-ray emission from, plasma model for, (T), 25:40245

absorbers for, bibliography on ceramic, 21:21665

absorbers for, reactivity worth measurements in subcritical assemblies of rod-type, 22:27471
absorbing liquid for, use in reactor shut-down system, 21:38612
absorbing materials for, description of ceramic, 21:5023(P)
absorption and capture resonance integrals and self-shielding factors for uranium-236, (E), 22:24876
absorption by A = 242 to 252 nuclei in thermalized reactor spectrum, cross sections for, (E), 22:20566 (DP-MS-67-111)
absorption by boron and cadmium, 21:1544(T) (JPRS-36824)
absorption by boron, self-shielding corrected cross section for, (E), 23:37068 (RT/FI-(69)2)
absorption by boron-10 at 10.7 to 247-keV, cross-section measurement using shell transmission method, (E), 21:31720
absorption by boron-10 below 500 keV, cross section for, (E), 22:37289 (AERE-R-5224)
absorption by erbium, cross sections for, (E), 22:5740
absorption by fertile isotopes in reactors, maximum Doppler effect for resonance, (T), 21:27616
absorption by fissile materials, resonance integrals for, 21:1115
absorption by fission products in thermal reactors, (E/T), 22:18289
absorption by gases, uses in reactor control, 21:15808(P)
absorption by gold, temperature dependence of Doppler coefficient in, (E/T), 22:5742
absorption by heavy nuclei, comparison of calculative methods for rates of resonance, 21:29955 (AAEC/TM-362)
absorption by heterogeneous depleted urania lattices, resonances, 21:35701(R) (BNL-50023)
absorption by in-core thermionic reactor materials, Doppler coefficients for, (E), 22:5743
absorption by materials with anisotropic effective macroscopic cross sections, rate predictions for, 21:38181
absorption by metallic polyethylene sulfonates, 23:26241(P)
absorption by multi-nuclide systems, intermediate resonance theory of, (T), 22:1589
absorption by neptunium-237 and uranium-236 in high-temperature gas-cooled reactors, reduction of, 21:27672 (GAMD-4583)
absorption by nuclei in unresolved resonance region, artificial resonance structure for statistical calculation of, (T), 24:15908
absorption by nuclei, calculation of Doppler-broadened functions for resonance, (T), 21:27648
absorption by nuclei, temperature dependence of resonance profiles for, (T), 21:27647
absorption by plutonium-239 and -241, eta measurements using reactivity data, 21:42610 (IN-1060)
absorption by plutonium-239 at 0.01 eV to 30 keV, cross section for, (E), 23:7281(R) (ORNL-4280)
absorption by plutonium-239 at 0.02 eV to 30 keV, cross section for, (E), 24:35868
absorption by plutonium-239, uranium-235, and uranium-238 in Doppler resonance regions, shielding factors for, (T), 25:10038
absorption by plutonium-240 in heterogeneous systems, resonance, (T), 21:11921 (EUR-3151.e)
absorption by plutonium-240, effects of Doppler broadening on resonance integrals for, (T), 21:31787
absorption by plutonium-241 at 0 to 2000°C, g-factors for cross sections of, 21:31803
absorption by plutonium-241 at 0.0060 to 0.260 eV, eta factor for, (E), 25:48069 (BNL-50276)
absorption by plutonium-241, uranium-233, and uranium-235 at 0.06 to 0.26 eV, neutron yields from, (E), 25:48073 (IN-1407, pp 1-82)
absorption by reactor materials with anisotropic microscopic self-shielding factors, (T), 21:35390 (KAPL-P-3340)
absorption by solids, reaction heat measurement for interpretation of irradiation parameters, 24:33831
absorption by thorium dioxide rods, temperature dependence of, 22:17190
absorption by thorium-232 and uranium-238 in thorium dioxide—uranium dioxide mixtures, (E/T), 21:11956
absorption by thorium-232 and uranium-238, effect of scattering interference on resonance integrals for, (T), 23:40078
absorption by thorium-232, temperature-dependent cross sections and resonance integrals for, (T), 21:15566 (CONF-660221-, pp 307-11)
absorption by thorium-dioxide rods, effective resonance integrals and Doppler coefficients for, (E), 21:15469 (WAPD-TM-627)
absorption by titanium layers in water, cross sections for, (E), 21:21037
absorption by trace elements in rocks, induced radioactivity calculations for, 22:21187
absorption by tungsten, Monte Carlo analysis of resonance, (T), 22:37345 (N-68-21924)
absorption by tungsten-186, dependence of Doppler resonance broadening on sample thickness, (E), 21:38310
absorption by uranium-233 at 0.02 to 1 eV, average fission neutron number (eta) for, (E), 23:23675 (ORNL-TM-2353)
absorption by uranium-233 at 0.02 to 1 eV, eta factor for, (E), 25:5702
absorption by uranium-233 at 0.025 eV, measurement of eta value for, (E), 23:4004 (WAPD-TM-772)
absorption by uranium-238 at resonance energies, effects of resonance scattering by sodium on, (T), 22:18247
absorption by uranium-238 in critical assemblies, resonance, 21:12232(R) (BAW-3647-2)
absorption by uranium-238 in uranium dioxide target, crystal binding effects on Doppler broadening of resonances in, (T), 24:26573(R) (GA-9753)
absorption by uranium-238, crystal-binding effects on Doppler broadening of resonance, (T), 24:40656
absorption cross section for uranium-237, (E), 22:9876
absorption cross section measurements in well logging, use of gamma and thermal neutron logs for correcting pulsed, 23:14061(P)
absorption cross sections and resonance integrals for arsenic-75, boron, indium, and manganese-55 at 0.025 eV, measurements using pile oscillator technique, (E), 23:28209 (AE-351)
absorption cross sections for gadolinium-154 and gadolinium-156 in reactor spectra, (E), 21:30019
absorption cross sections for moderators, pulsed-source technique for evaluating, 23:13179 (IEA-129)
absorption cross sections for plutonium-239 and uranium-235, determination using calculated spectrum of NRU reactor, 24:49849 (AECL-3519)
absorption cross sections for uranium-233 at 0.01 to 0.5 eV, (E), 21:25518 (WASH-1071)
absorption during reactor startup by moderator compensation, 21:44860 (UJV-1828)
absorption for 1.05 eV plutonium-240 resonance, 24:7216
absorption in a lump surrounded by a homogeneous medium containing the same resonance absorber, resonance integrals for, (T), 22:46703
absorption in aqueous manganese sulfate solutions, resonance self-shielding correction for, (T), 21:42538
absorption in atmosphere, differential energy spectra from 500 to 1000 GeV for, 24:21933
absorption in bakelite at 0.01 to 10 eV, total cross section for, (E), 23:46901
absorption in black rods, effective boundary conditions at surfaces for, (T), 23:13187
absorption in cadmium, effect of thermalization on cutoff energies for, (T), 23:37082
absorption in cadmium, neutron energy discrimination by, 23:49301
absorption in closely spaced fuel particles, calculation of self-shielding factors for, (T), 22:5720
absorption in crystalline targets, crystal binding effects on Doppler broadening of resonances in, (T), 24:26573(R) (GA-9753)
absorption in cylindrical phantoms, Monte Carlo studies of absorbed dose, dose equivalent, and LET distribution in collimated-beam, 25:46852
absorption in Doppler resonance regions, accuracy of analytical treatments for resonance, 25:10038
absorption in fuel-rod arrays, Dancoff effect determination from, 21:8104
absorption in gas-cooled heavy water-moderated reactor, effects of lattice parameters on resonance, 22:10003 (ITEF-518)
absorption in graphite moderated homogeneous reactors, interference effects of thorium-232 and protactinium-233 on resonance, 25:5958
absorption in heterogeneous fuel—moderator systems, analysis using Kantovorich variational method for resonance, (T), 23:49303
absorption in heterogeneous systems, calculation of materials constants for resonance, 22:44901 (UJV-2010)
absorption in hexagonal and square reactor fuel lattices, Dancoff correction for resonance, 21:13941 (AE-257)
absorption in infinite cylinders surrounded by moderator regions, P, blackness theory for, 25:54270
absorption in materials, lead slowing-down-time spectrometer for measuring resonance, 25:15921
absorption in multiregion unit cells, use of Nordheim's integration method for resonance, 22:22804(R) (BNWL-685)
absorption in plutonium—uranium alloys, equivalent sample method for oscillation experiments on, 25:34402 (CEA-R-4152)
absorption in plutonium-239 and uranium-238, resonance shielding factors for, (T), 23:46907
absorption in reactor lattices, computer calculations of resonance, 21:21369 (IDO-17212)
absorption in reactor materials, dissertation summary on, 23:23613
absorption in reactors, effect of resonance width on, (E/T), 22:26768
absorption in reactors, effects of interference and resonance asymmetry on, (T), 21:33864
absorption in reactors, use of Boltzmann integral equation for calculation of resonance, 22:12147
absorption in rod lattices, Dancoff correction factor for resonance, 21:42825
absorption in rods in two-region circularized cell, resonance, (T), 21:5476
absorption in samples in activation analysis, errors from, 22:40005
absorption in shielding materials, POPOP4 calculation of secondary γ production cross sections for, 24:6581
absorption in slab geometry, resonance, (T), 21:7676
absorption in solutions of fissionable materials by borosilicate-glass Raschig rings, Monte Carlo studies of, 23:2364
absorption in two-region cylindrical fuel cells, computer programs for calculation of resonance integrals and cross sections for, 25:3528 (KFKI-70-12-RPT)
absorption in unresolved resonance region, statistical treatment of, (T), 22:32455
absorption in uranium oxide at resonance energies, calculations including interference scattering and temperature dependence, (T), 23:46898
absorption in uranium-238, approximation of self-shielding data for GYMEA library, 24:49671 (AAEC/TM-539)
absorption integrals of natural hafnium and hafnium isotopes, measurements using reactivity technique for resonance, (E), 22:46794
absorption of 1/E/sup μ/, calculation of 1/τ absorber slabs, (T), 23:17270
absorption of, bibliography on resonance, 21:19360 (IFA-FR-49)
absorption of, conference on resonance, 21:25392 (BNL-50004(Add.))
absorption of, Doppler-broadened line-shape functions for p-wave resonances in, (T), 21:38313
absorption of, effect of resonance width on resonance, (E), 22:5716
absorption of, iterative method for intermediate resonance approximation, 21:44533
absorption of, lethargy and space-dependent flux calculation for resonance, 22:20950
absorption of, method of calculating Doppler functions for resonance, (T), 22:22529 (UJV-1932)
absorption of, operational formulation of resonance, (T), 25:12338 (CNEA-266)
absorption of, operator formulation of resonance, (T), 24:24493
absorption of, preparation of boron-containing material for, 24:10217(P)
absorption perturbations in multiplying lattice, propagation of periodic, (E/T), 23:26122 (RT/FI-(68)41)
absorption probability for mixtures of absorber and moderator in unresolved region, (T), 23:13190
absorption probability for uniform slab with uniform isotropic source, calculations using space-angle synthesis, (T), 22:32434
absorption rates from activation rate measurements, determination of, (T), 23:3921
absorption resonance escape probabilities for, calculation using Monte Carlo method with superposition principle, (T), 21:7675
absorption resonance escape probabilities for, computer program for calculations using Monte Carlo method, 21:33969 (WAPD-TM-665)
absorption resonance escape probability calculations for heavy-water-moderated lattices, RESCUE method for, (T), 22:1578
absorption resonance in heterogeneous systems, digital calculation with Doppler broadening for, 21:40582 (WAPD-TM-675)
absorption resonance integral and s-wave strength function at 0.008 to 8000 eV, (E), 22:37341 (IN-1132)
absorption resonance integral correlation for uranium carbide rods, (E/T), 21:11947
absorption resonance integral for lutetium-176, (E), 21:40675(R) (IN-1083)
absorption resonance integral for rhenium, (E), 22:3689(R) (GA-7820)
absorption resonance integrals and Doppler coefficients for tungsten, tungsten-182, tungsten-184, and tungsten-186 at 300 to 2300°K, (E), 21:38311
absorption resonance integrals and parameters in region of unresolved resonances, computer program for calculation of, 21:5458 (GA-7136)
absorption resonance integrals for fission-product nuclei, data evaluation using single-level resonance parameters, 21:35463 (RT/FI-(67)4)
absorption resonance integrals for hafnium-176, hafnium-177, hafnium-178, hafnium-179, and hafnium-180, from pile oscillator measurements, (E), 23:5894
absorption resonance integrals for homogeneous mixtures of nuclides, iterative methods for calculating, (T), 23:21224
absorption resonance integrals for nuclei in multiregion lattices, computer program for calculating, 21:46642 (JAERI-1134)
absorption resonance integrals for rhenium, rhenium-185, and rhenium-187, (E), 21:38309
absorption resonance integrals for tungsten isotopes, calculation using Monte Carlo method, (T), 21:7673
absorption resonance integrals for tungsten-184 and tungsten-186, effective, (E), 22:18271
absorption resonance integrals for uranium dioxide, crystal binding effects on, (T), 21:17271
absorption resonance integrals for uranium-236, (E), 21:38312
absorption resonance integrals for uranium-238 at surface/mass ratios of 1 to 10, Doppler effect on, (E), 22:32587
absorption resonance integrals for Z = 33 to 93 nuclei, (E), 21:38308
absorption resonance integrals for zirconium slabs at 300°K, (T), 21:38314
absorption resonance integrals for, analytic approximation for calculation of, (T), 21:11946
absorption resonance integrals for, calculation using two-level formalism, (T), 23:5751 (RT/FIMA-(68)2)
absorption resonance integrals for, measurements using Advanced Reactivity Measurement Facility, 22:35198 (IN-1195)
absorption resonance integrals in intermediate resonance approximation, parameters for calculating, (T), 22:35330
absorption resonance integrals of, effect of source distribution on, (T), 21:7677
absorption resonance normalization for uranium-235, (E), 24:49862(R) (RPI-328-187)
absorption resonance self-shielding factor for uranium-238 near sodium resonance, effect of 1/E spectrum on effective, (T), 22:32620
absorption resonance self-shielding factors for detector materials with dominant scattering resonances, method for calculating, (T), 23:3920
absorption theorem for poison-bearing moderators, explanation of apparent violation of maximum, (T), 23:3908
absorption time distribution in slabs of boron-bearing water, (T), 22:44572(T) (ANL-Trans-638)
absorption time distribution in strongly absorbing media, (T), 22:20406 (FEI-85)
absorption with spatially dependent asymptotic fluxes, resonance, (T), 21:46652
abundance in matter at high temperatures and densities, (T), 23:41786
abundance in solar corona, (T), 25:40276
abundance in stellar objects exploding from very high temperature, (T), 23:34152
activation by, computer program CONVRT for analysis of data from, 21:30103(R) (BNWL-400)

activation by, description of computer program for calculating probability of, (E/T), 22:35666 (N-68-10023)
activation rates for reactor, computer program for, 21:7636 (ORNL-TM-1674)
activation rates in reactors, use of invariant imbedding method to calculate local, 24:7274
activation ratios for uranium oxide (UO_2) fueled—water moderated assemblies, modified equations for subcadmium and thermal, 23:49580 (ANL-7410, pp 47-72)
activation ratios for uranium-235/238, 22:14255 (BNWL-CC-886)
activation reactions with dysprosium nitrate in water, use in determining water flow and mixing, 22:4344
age calculations for, computer program for, 24:38067 (WAPD-TM-822(Add.1))
age equations for, first-flight corrections in, (T), 23:39908
age in aluminum—water mixtures up to indium resonance, (E), 21:46651
age in biphenyl, HB-40, terphenyl, and water, static measurements of, (E/T), 23:15683
age in infinite homogeneous media, computer program for calculation of, 24:15769
age in moderators, Monte Carlo code for calculation of, 23:30907 (AEEW-M-833)
age in water, (T), 24:15769
age in water, effects of empty channels on, (E), 22:15933
age measurements in uranium tetrafluoride—paraffin mixtures, 23:4449
age of, first and last collision effects in analytical model for, 25:41191
ages in hydrocarbons, tables of calculated values for, (T), 22:32466
ages in tungsten—water systems, from plutonium-beryllium sources, (E), 21:7634 (NASA-TN-D-3695)
ages in water and tungsten—water mixtures, from d—D and d—T sources, (E/T), 22:48417 (N-68-25058)
albedo boundary conditions between breeding and absorbing cylindrical reactor zones, Monte Carlo method for, 24:36087
albedo calculations for semiinfinite plane using Kaper's expansion for solution of one-speed three-dimensional transport equation, (T), 23:23605 (INR-966)
albedo flux measurements between 400 and 1100 km, altitude- and latitude-dependent cosmic-ray, 24:45068
albedo matrices for, calculation using Peierls method, (T), 23:28227
albedos for concretes in incident energy range 0.5 eV to 200 keV, differential, (E/T), 21:18781 (ORNL-3967(Vol.1))
albedos for concretes in incident energy range 0.5 eV to 200 keV at 0°, differential, 21:18782 (ORNL-3967(Vol.2))
albedos for concretes in incident energy range 0.5 eV to 200 keV at 60°, differential, 21:18784 (ORNL-3967(Vol.4))
albedos for concretes in incident energy range 0.5 eV to 200 keV at 85°, differential, 21:18786 (ORNL-3967(Vol.6))
albedos for concretes in incident energy range 0.5 eV to 200 KeV at 45°, differential, 21:18783 (ORNL-3967(Vol.3))
albedos for concretes in incident energy range 0.5 eV to 200 keV at 75° differential, 21:18785 (ORNL-3967(Vol.5))
albedos for, in shielding materials, 22:31885 (ORNL-RSIC-21)
angular density calculations, use of NP/sub L/ formulism for unified modal-nodal, 23:37728
angular distribution analysis in exponential piles of, description of moments method for, 22:22857 (MIT-2344-11)
angular distribution at ground-level and mountain altitudes of atmospheric, from 80 to 300 MeV, (E), 25:30374
angular distribution behind curved totally reflecting collimator slit, 21:26306
angular distribution from plane source in infinite cylinder, calculations using one-speed transport theory, (T), 23:5758
angular distribution in one dimensional spherical or cylindrical reactors, (T), 23:47331
angular distribution in unreflected slabs, calculation of, 21:21736
angular distribution measurements of, design of multiangular time-of-flight device for, 23:47789
angular distribution of polarized, from tritium (d,n) reactions, associated particle system for measuring, 25:34901
angular distributions from meson (μ^-) nuclear capture, 23:15062
angular flux spectra in graphite, measurements using time-of-flight method with pulsed source, (E), 22:37274(R) (AD-664790)
anisotropy of cosmic, (T), 22:9125
asymptotic behavior of pulsed, use of Fredholm integral equation for describing, 23:4435
attenuation by air ducts in shields, (T), 22:31910
attenuation by air ducts in shields, (T), 23:30607
attenuation by air, from monoenergetic sources, (T), 21:17284
attenuation by concrete containing embedded steel, (E), 21:9644
attenuation by concrete, measurement by foil activation, 21:21366 (AD-646630)
attenuation by concrete, measurement of, 22:49369
attenuation by iron-water layered shielding, model of, 21:15778
attenuation by shielding materials, 22:3157
attenuation by shielding, computation of thickness required for, 25:43416 (NP-18863)
attenuation by shielding, from alpha reactions (α,n) with tantalum at 180 MeV, (E), 21:31735 (ANS-SD-3, Session 2, Paper 5)
attenuation by shielding, handbook on methods for calculating, 22:32424 (DASA-1892-3)
attenuation by sodium in fast reactor shielding, (E/T), 23:13460 (AERE-R-5773(Vol.2), pp 483-514)
attenuation by various thicknesses of concrete, 21:7307
attenuation by water-extended polyester resin, 25:7439
attenuation coefficients for concrete, 21:21362
attenuation in boiling water, use in void fraction measurements, 21:43188(P)
attenuation in carbon and iron, Monte Carlo calculations of, (T), 25:31164 (CEA-N-825)
attenuation in composite shields of lead, lithium hydride, and uranium, 22:2613 (NAA-SR-Memo-12440)
attenuation in concrete shielding, 24:1112
attenuation in copper, lead, and heavy concrete, (E), 21:42239
attenuation in cross section measurements, computer program for calculation of sample, (E), 25:31172 (NBS-TN-499)
attenuation in duct filled with helical steel plug, 21:21027
attenuation in ducts with helical plugs, (E), 21:13782 (AE-261)
attenuation in fast reactor shielding, effects of material heterogeneity on, (E/T), 23:13496 (AERE-R-5773(Vol.2), pp 554-70)
attenuation in fast reactor sodium, discrete ordinates study of, 23:4199
attenuation in heat-resistant concretes, (E), 23:46542
attenuation in hematite and ordinary concrete, measurement of, 25:3480
attenuation in hematite and ordinary concretes, calculation and measurement of, 23:8870(T) (ORNL-tr-2030)
attenuation in iron and water slabs, (E), 21:21003
attenuation in lithium hydride and tungsten spherical media, transport study of, 23:30601 (N-69-15375)
attenuation in lithium-hydride vessel, meteoroid puncture effect on, 21:5315 (NAA-SR-Memo-11790)
attenuation in medium of moving heavy nuclei, velocity spectrum of, (T), 25:5492
attenuation in nonhydrogenous media, 24:1467 (GA-9438)
attenuation in reactor shielding, effects of configuration on, (T), 24:50096 (CEA-CONF-1566)
attenuation in resonant absorbing media, exact and approximate calculations of, (T), 25:12346
attenuation in shielding concretes, 21:13301
attenuation in shielding ducts and voids, 23:16859
attenuation in shielding materials in basic geometries, description of measurement program for fission-spectrum, 23:12945 (AERE-R-5773(Vol.1), pp 319-35)
attenuation in shielding materials of monoenergetic, at 0.5 to 18 MeV, 25:33399
attenuation in shielding materials, (E/T), 25:9948
attenuation in shielding materials, flux density and dose-rate removal cross sections from, (E), 21:27224 (JUL-435-ST)
attenuation in shielding of californium-252, antimony-124—beryllium, and plutonium-239—beryllium sources, calculations of, (T), 25:50612 (CONF-710402-(Vol.2), pp I.182-6)
attenuation in shielding, review of, 23:16856
attenuation in shielding, review of methods of calculating, 23:16854
attenuation in slabs, computer program for calculating resonance absorption, cross sections, and foil reaction rates, (T), 25:12336 (ANL-7645)
attenuation in sodium shields, (E/T), 22:9409 (NAA-SR-Memo-12467)
attenuation in sodium, measurement for FFTF program of, 23:37461(R) (AI-AEC-12815)
attenuation in spherical materials from monoenergetic isotropic point sources, Monte Carlo calculations of, 23:12940 (AERE-R-5773(Vol.1), pp 205-18)
attenuation in Type 304 and Type 316 stainless steels, comparison of, 24:31041(R) (BNWL-1381-1)
attenuation in upper shielding of liquid metal cooled fast reactors, comparison of calculation methods for, 24:47849 (CEA-N-1351)
attenuation in water shields, (T), 21:7661
attenuation in water, activation detector measurements and Monte Carlo analysis of, 25:36652 (WAPD-TM-991)
attenuation in water, ages and slowing-down spectra from fission and D—T sources, (T), 25:12348
attenuation lengths for accelerator-produced, in all-concrete, iron-faced-concrete, and uranium-faced-concrete shields, (E), 22:31906
attenuation of cosmic, atmospheric water vapor effect on, 21:2068
attenuation of cosmic, in atmosphere as function of geomagnetic cutoff, (E), 25:47351 (LA-DC-12693)
attenuation of high-energy, by soils, use in soil moisture measurements, 23:433(T) (AEC-tr-6977)
attenuation of high-energy, in cylindrical duct, (E/T), 25:22945
attenuation of, methods development for calculating, (T), 22:37281(R) (NYO-72-191)
attenuation properties of concretes, for energies to 15 MeV, (T), 24:45300 (ORNL-RSIC-26)
attenuation through liquid sodium of, calculation of, 23:13539(R) (BNWL-921)
balance in equilibrium cycle of Fort St. Vrain Reactor, 21:38447(R) (GA-6830)
beam measurements in Ames Research Reactor using modified x-ray diffraction camera, 21:42813 (IS-1600, Paper 7)
behavior in multiplying media, use of macroscopic-stochastic methods for determining, 22:3937
behavior in reflected reactors, interpretation of pulsed, (E/T), 22:5753
behavior in subcritical assemblies, procedure for evaluating pulsed, (T), 22:7628
behavior in water—moderated reactor lattices, evaluation of uncertainties in, 21:27731
beta decay coupling constants for, determination of ratio of axial vector and vector, (T), 22:18308 (SGAE-PH-56/1967)
beta decay kinematics, 21:2729
beta decay of polarized, research progress on, (E), 22:5809(R) (ANL-7354)
beta decay of polarized, spin correlation coefficients for, (E), 24:38087
beta decay of, coupling constants and charge-dependent effects in, (E/T), 22:27383
beta decay of, effects of constant magnetic field on, (T), 23:30290
beta decay of, radiative corrections to axial-vector coupling constants in, 22:48285
beta decay of, relativistic corrections to recoil spectrum in, (T), 22:50356
beta decay of, research at Seibersdorf reactor center, 24:8892 (SGAE-G-14/1969)
beta decay of, review of research on, 25:5536
beta decay rate for, second-order radiative corrections to Fermi, (T), 22:12002
beta decay rate in completely degenerate electron gas, effect of constant magnetic field on, (T), 23:42523
binding to F centers in lithium fluoride, (T), 25:5154
binding to trapped electrons in irradiated lithium fluoride crystal, search for, 24:26316
biophysical aspects of D-T, 23:26852 (CONF-661131-)
Boltzmann nonhomogeneous equation for, solution using Mullikin method, 24:28679
Boltzmann transport equation for monoenergetic, solution of two-dimensional, 24:20314

branching processes in transport theory for, review on, 24:8804 (ORO-3858-1, pp 119b-36)
buckling and lattice parameter measurements in PDP thorium—heavy water organic, 22:33026
buckling as function of coolant density in ZED-2, description of measurement of, 23:37633
buckling calculations for cylindrical geometry, Bessel functions for, 21:42753
buckling calculations for fast reactor lattices, 22:7892(R) (DPST-67-83-10)
buckling calculations for, computer program for two-dimensional four-group partial, 23:6036 (KURRI-TR-33)
buckling calculations in heavy water moderated annular fuel elements, WELWING computer program for, 24:28994 (PEL-183)
buckling calculations in HWOCR, effects of hydrogen scattering kernel on, 22:3813(R) (AI-CE-54)
buckling corrections in exponential piles, calculational methods for, 22:22831
buckling derivation from integral transport equation for moderating media, 21:31965
buckling determination in reflected reactors, importance—shape method for geometric, (T), 22:14296 (RPI-328-100, pp 140-87)
buckling determination in two-dimensional homogeneous reactors, one group method for critical, 22:35725
buckling determinations for polygonal reactor cores, geometric, 22:48800
buckling determinations for reflected-reactor, use of neutron-importance-shape method for geometric, 22:6110
buckling in 2.1 wt percent enriched uranium tubes in light water, measurement of material, 23:15689
buckling in Agesta, measurement of, 21:23585 (AE-269)
buckling in AGR-type assemblies, axial, (E/T), 25:28806 (RD/B/N-1837)
buckling in air-filled and water-moderated lattices, calculation of, 21:2873 (AE-248)
buckling in enriched uranium oxide (UO_2) fueled heavy-water moderated lattices, FRAMA code for material, 22:25084 (IEA-128)
buckling in enriched uranium oxide (UO_2) fueled heavy-water—water moderated lattices in NORA, progressive substitution measurements of material, (E/T), 22:25086 (IEA-139)

buckling in fast critical assemblies, method for analysis of heterogeneity effects on, (T), 22:35645
buckling in heavy water moderated Agesta fuel clusters, 21:14061 (AE-254)
buckling in heavy water moderated lattices of natural uranium oxide (UO_2) cluster fuel elements, (E/T), 23:23973 (EIR-143)
buckling in heavy water-moderated uranium oxide (UO_2) -fueled lattices, (E/T), 22:32976(R) (MIT-2344-12)
buckling in homogeneous water—uranium-235 lattices, effects in eigenvalues of variation of, 22:33015
buckling in reactors, effects of spatial distribution on, (T), 22:3865
buckling in reflected subcritical assemblies, effects of cooling channel diameter on, (E/T), 24:18732
buckling in simulated boiling water cooled heavy water moderated 28 element uranium oxide (UO_2) lattice, effects of coolant density on, (E/T), 24:28992 (AECL-3513)
buckling in single- and multi-region lattices, material, (E/T), 21:38666 (NP-16873)
buckling in thoria—uranium-233 lattices, measurements of, 21:19457 (BNL-50012)
buckling in truncated fuel spheres, TRUNK code for, 21:21798 (BNWL-330)
buckling in uniform rod lattices, analysis of material, 21:10200 (AECL-2579)
buckling in uranium dioxide—water lattices, measurement of effects of voids on, 23:37744
buckling in ZED-2 air—urania, and urania—water lattices, 21:35666 (AECL-2691)
buckling measurement in heavy water moderated superlattice in ZED-2, 22:33047
buckling measurements for heavy water moderated exponential piles, (E/T), 24:50179 (AEEW-R-352)
buckling measurements in Anna, differential reactivity method for material, (E), 22:37543
buckling measurements in beryllium oxide moderated plutonium-239-fueled assemblies, materials, 21:35663 (AAEC/E-177)
buckling measurements in critical assemblies, ratio of fast to thermal, 22:32997
buckling measurements in DIMPLE, 22:3885 (AEEW-R-502)
buckling measurements in exponential piles, method for prediction analysis of axial, 22:33045
buckling measurements in homogeneous reflected plutonium oxide (PuO_2)—polystyrene, 22:33062
buckling measurements in large void subcritical assemblies, comparison of homogeneous and heterogeneous methods for analyzing, 23:37764
buckling measurements in plutonia—urania fueled lattices, 21:38672 (WCAP-3726-1)
buckling measurements in simulated burned-up natural uranium oxide (UO_2) clusters in ZED-2 Reactor, substitution, 22:33046
buckling measurements in uranium oxide (UO_2)—plutonium oxide (PuO_2) fueled heavy water moderated exponential piles, effects of coolants on, 22:33027
buckling measurements in water moderated subcritical assembly, effects of void fraction on, (E/T), 25:34429
buckling measurements in water-moderated tubular enriched uranium fuel elements, 21:38715
buckling measurements in water-moderated water-reflected reactors, 21:40595
buckling of pulsed decay constants, complex, 24:3826
calculation of J(theta,β) function, (T), 24:4142
calculation of nodal model space-dependent reactor kinetics, finite difference approximation technique for, (T), 23:24011
californium-252, for use in medical diagnosis and therapy, 23:45801
capture and fission cross sections for plutonium-239 at 0.025 to 15 MeV, evaluation for ENDF/B library, 24:15871 (ORNL-TM-2797)
capture and fission cross sections for, scintillation detector system for measurement of, 23:29186
capture and scattering cross sections for neodymium, (E), 23:42932
capture at 300° and 1500°K of 1 eV resonance, calculation methods for beryllium oxide (BeO) moderated plutonium-240, (E/T), 24:11312 (AEEW-M-154)
capture at stellar temperatures, correlation of cross sections with elemental abundances, (E/T), 21:35438 (ORNL-P-3052)
capture by 13-year isomer of europium-152, gamma spectra from, 24:46501
capture by 2s1d-shell nuclei, gamma spectra from resonance, (E), 21:35444
capture by 60 < A < 247 nuclei, empirical dependence for total radiation widths from, 24:40613 (JINR-P3-4929)
capture by 65 fission product nuclides, multigroup constants for, (T), 25:46018 (JAERI-13669)
capture by A = 102 to 195 nuclei, spectroscopic analysis of, (E), 25:12586
capture by A = 103 to 238 nuclei, partial widths for resonance, (E), 23:28304 (WASH-1124)
capture by A = 115 to 238 nuclei at 30 to 1400 keV, cross sections, excitation functions, and gamma spectra from, (E/T), 25:31303 (INR-1271)
capture by A = 63 to 193 nuclei at 10 to 350 keV, cross-section calculations and measurements for, (E), 24:10973
capture by aligned cobalt-59 and samarium-149 at 0.05 eV, directional anisotropy of γ spectra from, (E), 24:8858 (CONF-691019-1)
capture by aligned neodymium-143 and samarium-149 at 0.047 eV, gamma energies and intensities from, (E), 25:3651 (NP-18485)
capture by aligned neodynmium-143 and neodymium-145 nuclei at 0.05 eV, angular distribution of γ rays from, (E), 23:15456
capture by aluminum at 0 to 600 keV, Doppler widths of resonances in, (E/T), 21:40430 (RPI-328-87, pp 1-21)
capture by aluminum, iron, nickel, and sodium at 0 to 150 keV, resonance widths for, (E), 21:42615 (RPI-328-97, pp 1-34)
capture by aluminum-27 and iodine-127 at 14 MeV, reaction mechanism of, (E/T), 22:27119
capture by aluminum-27 at 39 keV, gamma spectrum from, (T), 22:5884
capture by aluminum-27, copper, iron, lead, and nickel, analysis of secondary γ-ray spectra from, (E/T), 24:49778 (CTC-20)
capture by aluminum-27, iron isotopes, nickel isotopes, and sodium-23, resonance parameters for, (E), 22:14001 (RPI-328-100, pp 1-56)
capture by aluminum-27, iron, nickel, and sodium-23 at 0.2 to 300 keV, resonance areas and parameters for, (E), 23:5855
capture by aluminum-27, iron-56, tin-118, tin-124, and titanium-48, gamma spectra from resonance, (E), 21:31834(R) (ORNL-4082)
capture by americium-241 at 0 to 6.5 MeV, cross section for production of spontaneously fissioning isomeric americium-242 by, (E), 22:3691 (IFA-CRD-34)
capture by americium-241 at 0 to 6.5 MeV, production of spontaneously fissioning americium-242 isomer by, (E), 21:44731
capture by americium-241, americium-242, and curium-242, resonance integrals for, (E), 24:40607 (IN-1317, pp 1-63)
capture by americium-241, production of isomeric americium-242 by, (E), 22:27198
capture by americium-241, production of spontaneously fissioning isomeric americium-242 by, (E), 22:13997 (JINR-P15-3618)
capture by americium-241, spin of spontaneously fissioning isomer of americium-242 from, (E/T), 22:20615
capture by americium-243, production of spontaneously fissioning americium-244 isomer by, (E), 21:44731
capture by ammonium perrhenate and rhenium oxides, effects of annealing on distribution of rhenium-186 and rhenium-188 recoil atoms formed from, 23:47567
capture by anions, effects of cations on distribution of oxidation states following, 22:45093 (COO-1618-9)
capture by antimony and copper at 0.005 to 100 keV, cross section for, (E), 22:35285(R) (AERE-PR/NP-13)
capture by antimony, gamma spectra from resonance, (E), 24:47617
capture by antimony-121 and cesium-134, γ spectra from resonance, 25:14982 (NCSAC-31)
capture by antimony-124 in reactors, cross sections for, (E), 21:10015
capture by barium, γ spectra from, (E), 22:35350
capture by barium, γ spectra from, (E), 25:25750
capture by barium-135 and praseodymium-141, γ spectra from resonance, (E), 22:22580 (JINR-P3-3696)
capture by barium-135 and praseodymium-141, γ spectra from resonance, (E), 22:29988(T) (ANL-Trans-605)
capture by barium-135, erbium-167, hafnium-177, hafnium-179, palladium-105, and tungsten-183, resonance spin assignments for, (E), 23:17103(R) (ANL-7481)
capture by barium-137, γ singles and coincidence spectra for, (E), 22:53202
capture by barium-138, cerium-140, and neodymium-142, correlations with (d,p) reactions, 23:15476
capture by bound atoms, effective temperature of, 21:25712(R) (BAW-3647-3)
capture by bromine-79 and bromine-81 in bromine—carbon tetrachloride systems, reactions of recoils from, 25:32031
capture by cadmium-110, cadmium-111, and cadmium-112, cross sections for, 21:2707 (ORNL-3994, pp 1-26)
capture by cadmium-111 at resonance energies, γ spectra from, (E), 24:43118(R) (ANL-7620)
capture by cadmium-113 and samarium-149, γ spectra from, (E), 23:28304 (WASH-1124)
capture by cadmium-113, cadmium-114 conversion-electron and gamma spectra from, (E), 21:27610
capture by cadmium-113, cadmium-114 K-conversion coefficients from, (E), 21:38348
capture by cadmium-113, γ angular asymmetry in, (E), 22:35311
capture by cadmium-113, γ spectra from, (E), 22:11945(R) (ANL-7384)
capture by cadmium-113, γ spectral measurements using lithium-drifted germanium detectors, (E), 22:11950(R) (ORO-3624-1)
capture by cadmium-113, internal conversion coefficients of high-energy γ rays for, (E), 22:50623
capture by cadmium-113, parity-violating weak N + N interactions from asymmetry coefficient in γ angular distribution from, (E), 24:3720
capture by cadmium-113, study of parity non-conserving internucleon potentials by, 21:42651
capture by carbon-12, neutron separation energy in, (E), 21:44592
capture by carbon-13 and oxygen-16 at resonance energies, cross sections and radiative widths for, (E), 25:45924
capture by cesium-133, γ spectra from resonance, (E), 22:22581 (JINR-P3-3697)
capture by cesium-133, γ spectra from resonance, (E), 22:29989(T) (ANL-Trans-604)
capture by chlorine-35, copper-63, gold-197, mercury-199, platinum-195, and tungsten-183, γ spectra from resonance, (E), 23:5897
capture by chlorine-35, γ circular polarization from, (E), 21:40398 (RISO-157)
capture by chlorine-35, γ spectra from, (E), 25:56690 (RT/FI-(70)47)
capture by chlorine-35, γ spectra from, (E), 25:10009
capture by chlorine-35, M1 transitions in, (T), 21:44604 (ZFK-122, pp 275-8)
capture by chlorine-37, rubidium-87, and iridium-193 at 0.15 to 1.4 MeV, cross sections for, (E/T), 22:3648
capture by chromium isotopes, nickel-60, and vanadium at 0.1 to 200 keV, cross sections for, (E), 25:43857
capture by chromium-50, -52, -53, and -54, nickel-60, and natural vanadium at 0.1 to 200 keV, average cross sections, radiation widths, and resonance integrals from, (E), 24:52478 (RPI-328-199)
capture by chromium-50, chromium-52, chromium-53, chromium-54, nickel-60, and vanadium at 0.1 to 200 keV, γ yield from, (E), 25:34047
capture by chromium-50, chromium-54, nickel-60, and vanadium-51 at 0.1 to 200 keV, cross sections for, (E), 25:14982 (NCSAC-31)
capture by chromium-50, cobalt-58 and -59, and iron-58, cross sections for, 21:26865(R) (HW-74679)
capture by cobalt-59 and manganese-55, partial radiative widths in, (E), 21:30023(R) (ANL-7284)
capture by cobalt-59, copper-63, and manganese-55 at low energies, cross sections for direct, (E), 24:24547
capture by cobalt-59, copper-63, and manganese-55, search for direct, (E), 23:28304 (WASH-1124)
capture by cobalt-59, cross section for, (E), 22:53160
capture by cobalt-59, γ spectra for, (E), 23:34736 (ANL-7282, pp 28-33)
capture by cobalt-59, γ spectra from, (E), 24:20348
capture by cobalt-59, magnesium-26, manganese-55, potassium-41, and sodium-23, resonances integrals and partial widths of resonances in, (E), 25:20359
capture by copper, gamma spectra from, (E), 21:33937
capture by copper, γ spectra from resonance, (E), 22:20578 (WASH-1079)
capture by copper-64 and scandium-46, effective cross sections for, (E), 22:44674
capture by curium, cross sections for, (E), 25:15090
capture by curium-244 at 20 eV to 10 keV, cross section for, (E), 25:38987 (LA-4566)
capture by curium-246 and -248, cross sections for resonance, (E), 25:38987 (LA-4566)
capture by curium-249 in high-flux reactor spectrum, cross section for, (E), 21:38296 (ANL-7330)
capture by deuterium and heavy water at 0.025 eV, cross section for, (E), 24:13271
capture by deuterium and helium-3, cross sections for n + p $\rightarrow$ d + 2γ interactions at 0.025 eV for cross sections for two-quantum radiative, (T), 25:59527
capture by deuterium, effect of deuteron-neutron interaction on, (T), 22:20444
capture by deuterium, γ spectra and neutron separation energy for, (E), 23:37106
capture by dysprosium-162, conversion-electron and γ, 21:38302 (TID-23909)
capture by dysprosium-162, conversion-electron spectra from, (E), 22:5821
capture by dysprosium-162, dysprosium-163 energy levels from, (E), 21:19271
capture by dysprosium-163 up to 325 eV, nonstatistical effects in resonance, (E), 25:48069 (BNL-50276)
capture by dysprosium-163 up to 360 eV, γ spectra and resonance spin assignments for, (E), 25:14982 (NCSAC-31)
capture by dysprosium-163, correlations between partial radiative widths and reduced neutron widths in, (E), 25:10047
capture by dysprosium-163, gadolinium-155, and tungsten-183, γ spectra from resonance, (E), 22:20578 (WASH-1079)
capture by dysprosium-163, gamma spectra from resonance, (E), 24:47618
capture by dysprosium-163, gamma spectra from, (E), 25:10047
capture by dysprosium-164, dysprosium-165 energy levels from, (E), 22:9862
capture by dysprosium-164, γ coincidence spectra from, 22:9921 (JUL-Conf-1)
capture by dysprosium-164, iron-57, and ytterbium-168, γ spectra from, (E), 21:44667 (KFK-562)
capture by erbium and ytterbium isotopes, resonance integrals for, (E/T), 24:33156
capture by erbium isotopes and neodymium isotopes, resonance parameters for, (E), 22:27219
capture by erbium-166, direct, (E/T), 21:40432 (WASH-1074)
capture by erbium-166, Monte Carlo analysis of partial radiative widths for, (E), 23:1882 (WASH-1093)
capture by erbium-167 and palladium-105, γ spectra for, (E), 22:20578 (WASH-1079)
capture by erbium-167 at thermal and resonance energies, conversion electron spectra from, (E), 25:25766
capture by erbium-167, average γ spectra from resonance, (E), 23:17103(R) (ANL-7481)
capture by erbium-167, gamma spectra from, (E), 24:47593
capture by europium, europium-153, holmium-165, and lutetium at 0 to 500 keV, cross sections for, (E), 21:40423 (JINR-P3-3417)
capture by europium, iron, samarium, and technetium-99 at 1 eV to 50 keV, cross sections, resonance parameters, and strength functions for, (E), 25:34081 (NP-18773)
capture by europium, lutetium, and holmium-165 below 50 keV, strength functions from energy dependence of cross section for, (E), 22:32592
capture by europium-151, europium-153, and lutetium, at 0.025 to 10 keV, time-of-flight measurements of cross sections for, using nuclear explosion, (E), 22:22585 (LA-DC-9182)
capture by europium-151, europium-153, samarium-152, and samarium-154 at 1 eV to 8 keV, resonance parameters and integrals for, (E), 24:6918
capture by europium-151, gamma spectra from, 24:46501
capture by fermium-255, cross section for, (E), 21:7773 (UCID-15036)
capture by fission products in unresolved resonance region, pseudo-fission product formalism for calculations on, (T), 23:5780

capture by fission products, cross sections for, (E), 25: 41222 (CEA-N-1423)
capture by fissionable materials, solution of rate equations for formation of transuranic elements by, (T), 22:39663
capture by fluorine, lead, lead-206, lead-207, magnesium, and sulfur at 1 to 300 keV, resonance, (E), 21:40432 (WASH-1074)
capture by fluorine-19, lead, lead-206, lead-207, magnesium, and sulfur at 1 to 100 keV, resonance, (E), 22:20578 (WASH-1079)
capture by fluorine-19, magnesium, and sulfur at 10 to 130 keV, yield curves for, (E), 23:28304 (WASH-1124)
capture by gadolinium, gadolinium-155, and gadolinium-157 at 1 to 750 keV, cross sections and resonance parameters for, (E), 24:43325
capture by gadolinium, gold-197, rhenium, and tungsten at 1 to 700 keV, average cross sections for, (E), 23: 28304 (WASH-1124)
capture by gadolinium-155 at 0.02 to 63 eV, gamma spectra for resonance, (E), 22:46764 (IAE-1443)
capture by gadolinium-155, conversion electron and gamma spectra from, (E), 24:47580
capture by gadolinium-155, partial radiative widths for resonances in, (E), 22:22610
capture by gaseous argon, neon, and nitrogen in reactors, gamma spectra from, 21:35435 (BMwF-FBK-67-25)
capture by gases, γ beam production by, (E), 22:9921 (JUL-Conf-1)
capture by germanium-70 and thorium-232 at 0 to 1 MeV, radiative strength function and width for, 23: 11041 (AAEC/TM-467)
capture by germanium-70, gamma spectra from, (E), 24: 47589
capture by germanium-76 and selenium-82, isomer production in, (E), 21:17340(R) (AEET-267)
capture by germanium-76 and selenium-82, production of isomeric germanium-77 and selenium-83 in, (E), 21: 15534
capture by gold-197 and uranium-233, comparison of absolute cross-section measurements of, 25:53737 (CONF-701002-, pp 320-6)
capture by gold-197 and uranium-238 at 1 keV to 1 MeV, cross section for, (E), 25:48069 (BNL-50276)
capture by gold-197 and uranium-238 at 25 keV to 1 MeV, evaluated cross sections for, 25:53602 (CONF-701002-, pp 331-40)
capture by gold-197 and uranium-238, calibration of Moxon—Rae detector for cross section measurements of, 25:29326 (LA-4445)
capture by gold-197 at 0.01 eV to 20 MeV, excitation functions for, (E), 25:36741 (WHAN-SA-107)
capture by gold-197 at 0.6 to 400 eV, γ spectra for, (E), 22:20578 (WASH-1079)
capture by gold-197 at 10 to 5400 keV, best fit of cross-section data on, 25:48069 (BNL-50276)
capture by gold-197 at 30 keV to 1 MeV, γ spectra from, (E), 25:38995 (RISO-M-1308)
capture by gold-197 at energies below 400 eV, γ spectra for and resonance widths for, (E), 22:50610
capture by gold-197 up to 1 MeV, cross section for, (E), 25:14982 (NCSAC-31)
capture by gold-197, gamma spectra from, (E), 21:19282
capture by gold-197, gamma spectra from, (E), 24:43336
capture by gold-197, holmium-165, and tantalum, measurement of γ spectra using lead spectrometers, (E) , 22:32628
capture by gold-197, iodine-127, rhodium-103, and tantalum-181, effect of pigmy resonance in calculations using compound nucleus model, (T), 25:38977 (INR-P-967)
capture by gold-197, iodine-127, rhodium-103, and tantalum-181, effects of pigmy resonance on cross-section calculations for, (T), 24:8919
capture by gold-197, range of recoil atoms from, 25: 56269
capture by hafnium-177 up to 300 eV, γ spectra and resonance spin assignments for, (E), 25:56751 (RT/FI-(70)55)
capture by hafnium-177, conversion electron and gamma spectra from, (E), 24:47581
capture by hafnium-177, conversion electron spectra from, (E), 23:15458
capture by hafnium-177, γ spectra from resonance, (E), 22:5809(R) (ANL-7354)
capture by hafnium-177, molybdenum-95, molybdenum-97, palladium-105, ruthenium-99, and ruthenium-101, s-wave resonance spin assignments from, (E), 23:5889
capture by hafnium-177, spins of resonances from, (E), 21:23314 (BNL-994, pp 70-102)
capture by hafnium-178, hafnium-179 energy levels from, (E), 21:5553
capture by hafnium-179, γ spectra from, (E), 22: 5809(R) (ANL-7354)
capture by helium-3 up to 8 MeV, cross section for, (E), 24:40550 (WASH-1136)
capture by holmium-165 and thulium-169 at resonance energies, γ-ray intensities and resonance spin assignments for, (E), 24:40550 (WASH-1136)
capture by holmium-165 at 0.001 to 10 keV, cross section for, (E), 22:20578 (WASH-1079)
capture by holmium-165 at 2.5 eV to 100 keV, spins and parameters of resonances in, (E), 22:16048
capture by holmium-165, γ spectra from, (E), 21:40432 (WASH-1074)
capture by holmium-165, resonance spin assignments for, (E), 25:43884 (ANL-7710, pp 1-52)
capture by holmium-165, tantalum-181, and thulium-169, resonance widths for, (E), 23:28304 (WASH-1124)
capture by hydrogen at 0.025 eV, cross sections and photon angular and spectral distributions for two-quantum radiative, (T), 25:59527
capture by hydrogen at 10^{-3} to 10^{7} eV, cross section evaluation for ENDF/B, 25:36660 (LA-4574)
capture by I-127 in meteorites, (T), 22:38685
capture by indium, manganese, and tungsten, ratio to uranium-235 fissions in thoria blankets, 21:17533 (WAPD-TM-615)
capture by indium-115 at 40 eV to 1 keV, structure in gamma yield from, (E), 24:52638
capture by indium-115 up to 50 eV, γ spectra from, (E), 25:20410
capture by indium-115, cross-section calculations using level spacings from Fermi gas model, (T), 22:1712
capture by indium-115, gamma spectra from resonance, 24:47612
capture by indium-115, gamma spectra from resonance, (E), 25:15008
capture by indium-115, iodine-127, and silver-107 and -109, cross sections for, (E), 25:5789
capture by indium-115, lead, manganese-55, niobium-93, sulfur-32, and zirconium, activation cross sections for, 22:24862 (WANL-TME-1746)
capture by indium-115, lutetium-175, thulium-169, and uranium-238, cross-section calculations for, (E), 25: 14982 (NCSAC-31)
capture by iodine and iodine chlorides in 2,2-dimethylbutane, hexane, and 3-methylpentane at 77°K, aggregation, clustering, and isotopic yields from, 23: 40747
capture by iodine-127 and indium-115 at keV energies, cross sections for, (E/T), 22:5826
capture by iodine-127, statistical calculation of excitation function for, (T), 24:1914
capture by iridium-191 and iridium-193, gamma spectra from, (E), 24:47600
capture by iridium-191, molybdenum-98, and rhodium-103 in FRM spectrum, activation resonance integrals for, (E), 22:37340(R) (EANDC(E)-89(U))
capture by iron and nickel at 40 to 200 keV, yields of, (E), 21:40430 (RPI-328-87, pp 1-21)
capture by iron and nickel, resonances in, (E), 21: 19152(R) (TID-23685)
capture by iron at 0 to 70 keV, Doppler widths of resonances in, (E/T), 21:40430 (RPI-328-87, pp 1-21)
capture by iron up to 1 MeV, calculation of γ-ray yields using spin-dependent cascade model, (T), 25:41217
capture by iron, γ energies and intensities from, (E), 23: 1882 (WASH-1093)
capture by iron-56 and -58 in iron oxalate and sulfate, correlation of Moessbauer and radiochemical studies on yields of iron ions produced by, 23:11546
capture by iron-56 and lead-207, cross sections for nonresonant, (E), 25:56702
capture by iron-56 at 1167 eV, gamma spectrum from resonant, (E), 24:38163
capture by iron-56, γ spectra from, (E), 22:20578 (WASH-1079)
capture by iron-56, nickel-58, -60, and -61, and titanium-47 at 7 to 200 keV, radiation widths of s-wave resonances from, (E), 24:52469 (EURFNR-809)
capture by iron-56, temperature dependence of self-indication ratio for 1.15-keV resonance in, (T), 24: 6576
capture by iron-57, γ coincidence spectra from, (E), 22: 9921 (JUL-Conf-1)
capture by krypton-80, cross section for resonance, (E), 25:56691
capture by lanthanum and praseodymium, upper limit for strength functions of d-neutrons in, (T), 22:32592
capture by lanthanum-138, gamma spectra from, (E), 24: 47604
capture by lanthanum-139 and molybdenum-95, -96, -97, -98, -100, p-wave radiation widths for resonance, (E), 22:5809(R) (ANL-7354)
capture by lanthanum-139, osmium-189, and uranium-235, γ spectra from resonance, (E), 24:7643 (BNL-14110)
capture by lead-206 and lead-207, lead-207 and lead-208 energy-level spins and transitions from resonance, (E), 21:19269
capture by lead-207, conversion electron spectrum from, (E), 24:43338
capture by lead-207, determination of nonresonant cross section from lead-208 photoneutron cross section, (E), 24:1839
capture by lead-208, activation cross section for, (E), 22: 20578 (WASH-1079)
capture by lead-208, calculation of cross section for, including spin-orbit interactions, (E), 22:9977
capture by lead-208, cross section for, (T), 22:42132
capture by lead-210, γ spectra from, (E), 23:1882 (WASH-1093)
capture by light and medium-weight nuclei at 1 eV to 1 MeV, cross sections for, (E), 21:7755
capture by light- and medium-weight nuclei at 2.8 MeV, gamma energies and differential cross sections for, (E/T), 22:5793
capture by lithium-7, cross-section calculations using single-particle model, (T), 24:40568
capture by lutetium-175 and plutonium-239 at resonance energies, γ spectra from, (E), 24:40550 (WASH-1136)
capture by lutetium-176, gamma spectra from, 24:47582
capture by lutetium-176, internal conversion electron spectra from, (E), 22:50640
capture by magnesium, phosphorus, silicon, and sulfur, gamma spectra from resonance, (E), 24:47619
capture by manganese-55 and vanadium, average radiative widths from resonance, (E), 23:17103(R) (ANL-7481)
capture by manganese-55 at 0.0253 eV, cross section and resonance integral for, (T), 22:32550
capture by manganese-55 at resonance energies, evidence for channel mechanism in, (E), 24:43305
capture by manganese-55 up to 9 keV, γ spectra from, (E), 23:28304 (WASH-1124)
capture by manganese-55, direct reaction mechanism in, (E), 22:24843
capture by manganese-55, energy dependence of partial cross sections for resonance, (T), 21:15535
capture by manganese-55, resonance integral for, 23: 5746 (AEEW-M-790)
capture by manganese-55, transition widths in resonance, (E), 21:23534(R) (ANL-7246)
capture by materials, gamma production in, 23:21609(R) (SRRC-14/67)
capture by medium-weight and heavy nuclei, γ cascade simulation for resonance, (T), 23:4002 (RT/FI-(68)20)
capture by mercury isotopes and tungsten isotopes, gamma spectra from, (E), 21:17270(R) (RPI-328-71)
capture by mercury-196, calculations of isomer ratios for, (T), 22:32690
capture by mercury-199 at 0.15 to 8.04 MeV, γ spectra from, 22:9902
capture by mercury-199, conversion-electron spectrum from, (E), 23:7284
capture by mercury-199, mercury-200 conversion-electron spectra from, 25:39041
capture by mercury-199, mercury-200 energy levels from resonance and thermal, (E), 21:23529
capture by molybdenum at 0 to 100 keV, cross sections for, 21:35437(R) (EANDC(E)-76(U))
capture by molybdenum at 10 eV to 25 keV, cross sections for, (E), 22:3723
capture by molybdenum-92 and -98, gamma spectra from, (E), 25:39054
capture by molybdenum-95 and -96, resonance spins and parities in, (E), 22:20578 (WASH-1079)
capture by molybdenum-95 and yttrium-89, γ—γ angular correlation coefficients for, (E), 24:26596(R) (BARC-401)
capture by molybdenum-98 at 12 to 818 eV, nonstatistical effects at p-wave resonances in, (E), 25: 17886
capture by natural molybdenum, tantalum-181, and uranium-238 at 1 to 1000 keV, cross sections for, (E), 25:36729(R) (N-70-41999)
capture by neodymium-145, conversion electron spectra from, (E), 25:25764
capture by neptunium isotopes and uranium isotopes in thermonuclear explosions, cross sections for, (T), 22: 14003(T) (BNL-tr-174)
capture by nickel at 0 to 600 keV, Doppler widths of resonances in, (E/T), 21:40430 (RPI-328-87, pp 1-21)
capture by nickel, effectiveness of shielding materials for gamma radiation from, (E/T), 21:21041
capture by nickel-64, yields of nickel-66 from double, 25:32012(P)
capture by niobium-93, evidence for doorway-state effects in γ spectra from resonance, (E/T), 24:5424
capture by niobium-93, γ spectra from resonance, (E), 25:46033
capture by niobium-93, rhodium-103, and zirconium-91 at resonance energies, s-wave and p-wave components in, (E), 25:23043
capture by niobium-93, silver-107, and silver-109, time-of-flight spectrometer for determining energy levels from, 21:16183
capture by nitrogen-14 and sodium-23, calibration of gamma spectra from, (E), 24:47565
capture by nitrogen-14, γ energies from, (E), 23:1882 (WASH-1093)
capture by nitrogen-14, γ energies in, (E), 21:40675(R) (IN-1083)
capture by nitrogen-14, γ spectra and Q-value for, (E), 22:44616
capture by nitrogen-14, γ spectra from, (E), 22:20578 (WASH-1079)
capture by nuclei at 0.01 eV to 1 MeV, time-of-flight facility for cross section measurements for, 25:37633
capture by nuclei at 0.06 to 12 MeV, design and performance of coincidence spectrometer consisting of germanium and sodium iodide detectors for studying gamma rays from, 23:43575
capture by nuclei at 10 to 100 keV, compilation of gamma spectra and intensities for, (E), 25:56655 (ORNL-TM-3379)
capture by nuclei at 15 keV to 15 MeV, gamma spectra from, (E/T), 22:16100
capture by nuclei at 5 keV to 3 MeV, cross sections for, 21:36073(R) (ANL-7350)
capture by nuclei at high density, (T), 23:41785
capture by nuclei at resonance energies, analysis of correlations in, (T), 24:30926
capture by nuclei in keV range, fast—slow coincidence system for liquid scintillation detector for studying, 24:14293 (RPI-328-175)
capture by nuclei in nuclear explosions, survey on multiple, 25:41236
capture by nuclei in polyatomic molecules, 21:30484
capture by nuclei in resonant region, review of theory of, (T), 23:34806 (ANL-7282, pp 417-25)
capture by nuclei in the resonance region, mechanism for channel, (E), 24:26627(T) (ANL-Trans-811)
capture by nuclei with A < 220, review of cross sections for non-resonance, 25:15120
capture by nuclei, accuracy of cross section measurements using scintillation tanks, 25:31173(R) (RPI-328-200)
capture by nuclei, analysis and interpretation of isomer ratios in, (T), 22:32690
capture by nuclei, analysis of gamma spectra from, 23: 34803 (ANL-7282, pp 245-54)
capture by nuclei, analysis of gamma spectra from, 23: 34804 (ANL-7282, pp 255-63)
capture by nuclei, analysis of gamma spectra from, 23: 34916 (ANL-7282, pp 1-13)
capture by nuclei, analysis of γ spectra from, 23:34918 (ANL-7282, pp 449-58)
capture by nuclei, analysis of γ spectra from, 23:34917 (ANL-7282, pp 43-55)
capture by nuclei, analysis of isomer ratios for level densities and transition strengths, (T), 22:27370
capture by nuclei, analysis of reaction mechanisms in, 24:47679
capture by nuclei, angle measuring device for Cauchois gamma spectrometer for measuring, 22:14827
capture by nuclei, calculation of gamma spectra from, (T) , 22:5884

capture by nuclei, cascade model for calculation of γ spectra from, (T), 23:30953
capture by nuclei, channel coupling in resonance, (E/T), 23:44817
capture by nuclei, comparison of gamma spectra from, (E/T), 23:3546
capture by nuclei, Compton spectrometer for spectroscopy of gamma rays from, 25:39739 (NP-18923)
capture by nuclei, computer-based multiparameter magnetic tape recording system for gamma ray measurements in resonance, 21:32540
capture by nuclei, conversion electron spectra from, 24:47668
capture by nuclei, conversion-electron spectra following, (T), 23:34805 (ANL-7282, pp 265-78)
capture by nuclei, correlation between reduced neutron and radiative widths for resonance, 25:56818 (JINR-E4-5880)
capture by nuclei, crystal and semiconductor spectrometers for measuring spectra from, 21:14423 (BNL-10991)
capture by nuclei, crystal diffraction monochromator for studying, 24:21004
capture by nuclei, design of bent-crystal spectrometers for gamma spectroscopy in, 23:33472 (ANL-7282, pp 89-102)
capture by nuclei, determination of parity nonconserving admixtures from polarized, 23:49319
capture by nuclei, Doppler effect in resonant, (T), 22:32696
capture by nuclei, effect of doorway-state resonances in, (T), 25:36834
capture by nuclei, energy dependence of partial cross sections for, (T), 21:15535
capture by nuclei, evaluation of cross sections for use as standards, 25:53735 (CONF-701002-, pp 285-312)
capture by nuclei, facility using electron linear accelerator and scintillation—semiconductor detector system for measuring gamma spectra from, 23:21182 (GA-9221)
capture by nuclei, few-group formalism for resonance, (T), 21:9904 (AEEW-R-489)
capture by nuclei, gamma spectra from channel, (T), 24:47672
capture by nuclei, gamma spectroscopic studies on statistical properties of, 24:47613
capture by nuclei, γ spectroscopy using resonance, 23:11045 (BNL-12965)
capture by nuclei, linac facility for studying, 24:52339
capture by nuclei, lithium-drifted germanium spectrometers for high-resolution gamma spectroscopy during, 22:45315 (AAEC/TM-462)
capture by nuclei, measurement of gamma ray intensities from, 23:24426 (IN-1218, pp 181-316)
capture by nuclei, method for calculating gamma spectra from, 21:46643(R) (ORNL-4134)
capture by nuclei, method for calculating gamma spectra from, 21:31836 (ORNL-TM-1867)
capture by nuclei, method for calculating γ spectra from, 21:40471 (ORNL-P-3299)
capture by nuclei, method for determining average widths for high-energy radiative transitions from, 21:31804
capture by nuclei, method for measuring average γ spectra from resonance, 23:17103(R) (ANL-7481)
capture by nuclei, method of calculating gamma spectra from, (T), 22:24915
capture by nuclei, nuclear structure research with, 24:38324
capture by nuclei, pair formation spectrometer for studying gamma transitions in, 22:10590
capture by nuclei, performance of liquid scintillation detectors for measurement of cross sections for, 25:2435 (RPI-328-202)
capture by nuclei, performance of lithium-drifted germanium gamma spectrometers for studying, 21:17871
capture by nuclei, reactor facility for gamma production by, 22:25085 (IEA-133)
capture by nuclei, references for conversion-electron measurements in, 25:1725
capture by nuclei, resolution of lithium-drifted germanium and diffraction-type spectrometers for analysis of gamma rays from, 23:47797
capture by nuclei, review of energy-level transitions from keV, 25:20227 (AAEC/TM-565)
capture by nuclei, review of gamma spectroscopy of, 25:20447
capture by nuclei, review of theory and experimental methods for studying, (E/T), 22:53236
capture by nuclei, semidirect capture-analysis of gamma spectra from, (E/T), 25:31332
capture by nuclei, slowing-down-time lead gamma spectrometer for measuring resonance parameters for, 22:14828
capture by nuclei, statistical calculations of gamma spectra from, (T), 24:47607
capture by nuclei, survey on internal conversion in, 23:21404
capture by nuclei, use of germanium detectors in Compton-suppression technique for γ-spectroscopic studies of, (E/T), 24:47577
capture by nuclei, use with nuclear resonance fluorescence to produce high-energy monoenergetic gamma radiation, (E), 22:5832
capture by nuclei, width correlations and distributions in resonance, (T), 23:42996
capture by oriented nuclei, method for calculation of disorientation parameters in, (T), 24:28832
capture by palladium-105 and tungsten-183, γ spectra from resonance, (E), 22:5809(R) (ANL-7354)
capture by palladium-105 at 11 to 355 eV, γ spectra from, (E), 25:46042
capture by palladium-105, gamma spectra from resonance, (E), 24:47620
capture by palladium-108 and platinum-198, scintillation spectrometer for measuring gamma rays from, 22:6626
capture by phosphorus-31, gamma spectra and widths for, (E), 21:44655
capture by platinium-195 and uranium-238, gamma spectra from resonance, (E), 21:23534(R) (ANL-7246)
capture by platinum-195 and -198, gamma spectra from, (E), 21:35437(R) (EANDC(E)-76(U))
capture by platinum-195 at 10 to 700 eV, partial widths for resonance, (E), 22:18284
capture by platinum-195, average widths for high-energy radiative transitions from, (E), 21:31804
capture by platinum-195, γ spectra and transition widths for, (E), 21:40432 (WASH-1074)
capture by platinum-195, radiative strength function for, (E), 22:53174
capture by platinum-196, gamma spectra from, (E), 22:14834
capture by plutonium-239 and uranium-233, cross sections for, (E), 23:1882 (WASH-1093)
capture by plutonium-239 and uranium-235, cross sections for, (E), 24:38210 (JINR-P3-4992)
capture by plutonium-239 and uranium-235, γ spectra from, (E), 25:14982 (NCSAC-31)
capture by plutonium-239 at 0.02 to 30 keV, cross sections for, (E), 25:56746 (ORNL-4707)
capture by plutonium-239 at 0.1 to 30 keV, ratio of cross sections for fission and radiative, (E), 25:56734(T) (BNL-tr-446)
capture by plutonium-239 at resonance energies, low-energy γ-ray intensities from, (E), 25:48069 (BNL-50276)
capture by plutonium-239 up to 30 keV, cross sections for, (E), 23:1882 (WASH-1093)
capture by plutonium-239, production of californium-252 in, 23:31359 (CONF-681032-, pp 11-21)
capture by plutonium-239, uranium-233, and uranium-235, interference effects in average cross sections for, (T), 25:12608
capture by plutonium-240 and uranium-238, review of cross-section data on, 24:15868 (KFK-966)
capture by plutonium-242 and uranium-238 in nuclear explosion experiments, heavy element yields for multiple, (E), 23:13302
capture by plutonium-244 up to 0.5 eV, cross section and resonance integral for, (E), 24:40607 (IN-1317, pp 1-63)
capture by praseodymium-141, fluctuation of partial widths from resonance, (E), 24:47616
capture by promethium-147 at 5 to 316 eV, resonance parameters for, (E), 24:28738(R) (RPI-328-171)
capture by promethium-147, resonance integral for, (E), 23:5902
capture by protactinium-233, resonance integral for, (E), 22:3701 (WAPD-TM-612)
capture by protactinium-233, resonance integrals for, (E), 24:22152 (WAPD-TM-814)
capture by rare earths, cross sections for, (E), 21:4317
capture by reactor structural materials, evaluation of cross sections for, 25:14971
capture by rhenium-185 and -187 at 0.01 to 10 eV, cross sections for, (E), 22:3689(R) (GA-7820)
capture by rhenium-185 and rhenium-187 at 0.01 eV to 30 keV, cross sections and resonance parameters, (E), 22:30014
capture by rhodium-103 at 1 eV to 1 MeV, cross section for, (E), 25:41238
capture by rhodium-103 up to 1 MeV, cross section and resonance parameters for, (E), 25:48069 (BNL-50276)
capture by rhodium-103, γ spectra from resonance, (E), 25:12561
capture by rhodium-103, isomeric cross-section ratio for, (E), 23:28304 (WASH-1124)
capture by rhodium-105, cross sections for, 21:2707 (ORNL-3994, pp 1-26)
capture by rubidium at 0.058 eV, γ spectra from, (E), 23:21309
capture by ruthenium-102, activation cross section for, (E), 24:5613
capture by samarium-149 at 0.02 to 50 eV, γ intensity variations and resonance spin assignments for, (E), 25:48069 (BNL-50276)
capture by samarium-149, directional anisotropy of gamma rays from, (E), 24:47595
capture by samarium-149, gamma energy dependence of K-conversion coefficients from, (E), 24:43118(R) (ANL-7620)
capture by samarium-149, interference effects in cross sections for, (E), 24:28774(T) (KAPL-Trans-1)
capture by samarium-149, samarium-150 energy levels from, (E), 22:11955
capture by samarium-152, conversion electron and gamma spectra from, (E), 24:47594
capture by samarium-152, conversion-electron and γ spectra for, (E), 22:20578 (WASH-1079)
capture by samarium-152, γ spectra from resonance, (E), 22:5809(R) (ANL-7354)
capture by scandium-45, gamma spectra from, (E), 21:27546
capture by scandium-45, scandium-46 gamma spectrum for, 22:14827
capture by scandium-46 in reactor spectrum, cross section for, (E), 22:20501 (SGAE-PH-61/1967)
capture by selenium isotopes up to 20 keV, cross sections for, (E), 23:40026
capture by selenium-76 and natural selenium, γ spectra from, (E), 25:38955
capture by selenium-80 at 0.01 to 3 MeV, Fermi-gas-model calculations of isomeric-cross-section ratios for, (T), 25:25688
capture by selenium-80, analysis for reaction mechanism in, (E), 25:38955
capture by shielding materials, coefficient for secondary gamma emission from, (E/T), 21:21042
capture by silicon, gamma spectra from, (E), 24:47566
capture by silver-107 and -109 up to 1 keV, (E), 21:4318
capture by silver-109, conversion-electron and gamma spectra from, (E), 21:34007
capture by silver-109, γ spectra from, (E), 25:14982 (NCSAC-31)
capture by sodium-23 at 0.2 to 100 keV, cross sectin for, (E), 22:18193
capture by sodium-23, γ energies in, (E), 21:40675(R) (IN-1083)
capture by strontium at 0.058 eV, gamma spectra from, (E), 22:32546
capture by strontium-87, γ-γ angular correlations in, (E), 22:26999
capture by strontium-90 in reactors, effective cross section for, (E), 21:42663
capture by tantalum-181 and natural tungsten at thermal energies to 907 keV, gamma-ray yields from, (T), 25:43890 (ORNL-TM-3436)
capture by tantalum-181 and uranium-238 at thermal to 1 MeV energies, energy dependence of γ-ray yields for, (T), 25:5777
capture by tantalum-181 at 2 keV, energy levels of tantalum-182 from, (E), 24:47615
capture by tantalum-181, γ spectra from, (E), 22:20578 (WASH-1079)
capture by technetium-99 at 1 keV to 3 MeV, excitation functions for, (T), 25:36720 (CONF-710301-4)
capture by tellurium, γ spectra from resonance, (E), 23:28304 (WASH-1124)
capture by tellurium-123, γ spectra for, (E), 22:20578 (WASH-1079)
capture by thorium-232 at 0 to 15 MeV, cross sections and resonance integrals for, (E/T), 25:20377 (WAPD-TM-971)
capture by thorium-232 at resonance energies, radiative widths for, (E), 25:48069 (BNL-50276)
capture by thorium-232 in 30-mil wires, resonance integral for, (E), 21:33968 (WAPD-TM-622)
capture by thorium-232, γ spectra from, (E), 22:9921 (JUL-Conf-1)
capture by thorium-232, radiative widths for resonance, (E), 23:1882 (WASH-1093)
capture by thulium, spin and width of resonances from, (E), 21:23314 (BNL-994, pp 70-102)
capture by thulium-169 below 136 eV, partial radiative widths for, (E), 22:53206
capture by thulium-169, γ spectra and resonance widths for, (E), 21:40432 (WASH-1074)
capture by thulium-169, γ spectra from, (E), 21:40446
capture by thulium-169, low-energy γ spectra and resonance spin assignments for resonance, (E), 25:12589
capture by thulium-169, search for direct effect in resonance, (E), 23:17103(R) (ANL-7481)
capture by thulium-169, spin of resonances in, (E), 21:23314 (BNL-994, pp 70-102)
capture by thulium-169, thulium-170 energy-level transitions from, (E), 21:21540
capture by tin isotopes at 40 to 200 eV, γ spectra and partial widths for resonance, (E), 23:8995
capture by tin-118, -120, and -124 at low energies, energy levels from, (E), 22:16018
capture by transuranium elements, effects of optical anisotropy on, (T), 22:32569 (JINR-P2-3738)
capture by tungsten at 3 to 500 eV, γ spectra from, (E), 23:5912
capture by tungsten isotopes at 0.01 to 10 eV, cross sections for, (E), 21:13886
capture by tungsten-182 and tungsten-186 at resonance energies, gamma spectra from, (E), 21:40454
capture by tungsten-182, -183, -184, and -186 at 0.1 to 20 keV, resonances in, (E), 22:22592 (RPI-328-112, pp 1-15)
capture by tungsten-182, -184, and -186, transition strengths in, (E), 21:40432 (WASH-1074)
capture by tungsten-182, transition widths in resonance, (E), 21:23534(R) (ANL-7246)
capture by tungsten-183, gamma spectra from, (E), 21:25518 (WASH-1071)
capture by tungsten-183, tungsten-184 energy level transiaions from, (E), 21:23314 (BNL-994, pp 70-102)
capture by tungsten-184 at 0 to 3.5 MeV, Doppler widths of resonances in, (E/T), 21:40430 (RPI-328-87, pp 1-21)
capture by tungsten-184 in reactors, production of isomeric tungsten-185 by, (E), 21:13885
capture by tungsten-186 to produce tungsten-188 generator for rhenium-188, 23:31382
capture by uranium-233 and uranium-235, multilevel analysis of cross sections for, 25:15130
capture by uranium-233 at 0.02 to 1 eV, cross section for, (E), 25:5702
capture by uranium-233 at 0.02 to 1 eV, cross section for, (E), 23:23675 (ORNL-TM-2353)
capture by uranium-233 at 0.02 to 4 eV, cross section for, (E), 23:7281(R) (ORNL-4280)
capture by uranium-233 at 0.4 to 100 eV, cross sections for, (E), 22:18298
capture by uranium-233 at 0.4 to 1000 eV, cross sections and resonance integrals for, (E), 22:14001 (RPI-328-100, pp 1-56)
capture by uranium-233 at 20 eV to 1 MeV, cross sections for, (E), 22:18230
capture by uranium-233 below 60 eV, Adler—Adler multilevel formalism for cross sections for, 24:10986 (ORNL-TM-2745)
capture by uranium-233 up to 15 MeV, evaluation of cross sections for, 24:6920
capture by uranium-233, uranium-235, uranium-238, plutonium-239, plutonium-240, and plutonium-242, EBR-II integral measurements of, 25:56982 (ANL-7791)
capture by uranium-235 at 0.0004 to 3 keV, cross section for, (E), 22:3699 (ORNL-TM-1804)
capture by uranium-235 at 0.075 to 2.04 eV, spin dependence of total cross section for, (E), 21:23314 (BNL-994, pp 70-102)

capture by uranium-235 at resonance energies, γ-ray intensities from, (E), 25:48069 (BNL-50276)
capture by uranium-235, conversion electron and gamma spectra from, (E), 24:47640
capture by uranium-235, gamma spectra from resonance, (E), 24:47643
capture by uranium-236 at 0.01 eV to 20 keV, cross section for, (E), 23:28304 (WASH-1124)
capture by uranium-236 at 0.01 to 20 keV, cross section for, (E), 24:22164
capture by uranium-236 at 5 to 124 eV, cross section and resonance parameters for, (E), 22:20578 (WASH-1079)
capture by uranium-237, cross sections for, 21:2707 (ORNL-3994, pp 1-26)
capture by uranium-238 and plutonium-240, cross section calculation in the unresolved resonance region, (T), 24:22205
capture by uranium-238 at 0 to 25 keV, Doppler effect on, (E/T), 21:10014
capture by uranium-238 at 0 to 54 keV in uranium and uranium dioxide at high temperature, Doppler effect on, (E), 22:14027
capture by uranium-238 at 0.0001 to 20 MeV, evaluation of cross sections for, (E/T), 25:15127
capture by uranium-238 at 0.002 to 120 eV, cross section and radiative widths for, (E), 23:7286
capture by uranium-238 at 0.005 to 30 keV, energy dependence of cross sections for, (E), 25:15105
capture by uranium-238 at 0.03 to 2.05 keV, measurement of cross section for, using time-of-flight method with nuclear explosion, (E), 22:22584 (LA-DC-9181)
capture by uranium-238 at 0.04 to 1.90 keV, radiative widths for, (E), 21:40432 (WASH-1074)
capture by uranium-238 at 1 eV to 15 MeV, cross sections for, (E/T), 25:15125
capture by uranium-238 at 1 eV to 15 MeV, evaluation of cross sections for, 25:34073(T) (INDC(CCP)-11/U)
capture by uranium-238 at 24 to 145 keV, cross sections for, (E), 25:15106
capture by uranium-238 at 6 to 600 eV, γ spectra from, (E), 25:48069 (BNL-50276)
capture by uranium-238 at resonance energies, cross-section calculations using GRISM and MC² codes, (T), 24:33152
capture by uranium-238 at resonance energies, effect of 2.85-keV sodium-23 resonance on multigroup average cross sections for, 25:41239
capture by uranium-238 at resonance energies, effect of crystal binding on Doppler-broadened cross sections for, 21:38318
capture by uranium-238 at resonance energies, γ spectra from, (E), 25:48069 (BNL-50276)
capture by uranium-238 below 600 eV, γ spectra and distribution of partial radiation widths in, (E), 25:56790
capture by uranium-238 in uranium and uranyl acetates and sulfates, chemical states of recoil uranium-239 from, 25:57488
capture by uranium-238 in uranium dioxide, effect of self-shielding of scattering transfer arrays on, 24:33161
capture by uranium-238 in uranium oxides U_3O_8 at 300 to 2000°K, Doppler effect for, (E), 23:1765
capture by uranium-238 up to 100 keV, cross section for, (E), 25:25722(R) (ORNL-4592)
capture by uranium-238 up to 9 eV, γ spectra from, (E), 24:40550 (WASH-1136)
capture by uranium-238, cross sections for, 22:1873
capture by uranium-238, cross sections for, (E/T), 25:23029(T) (JPRS-52290, pp 109-24)
capture by uranium-238, epithermal-to-thermal ratios, 21:25712(R) (BAW-3647-3)
capture by uranium-238, γ spectra and resonance widths for, (E), 21:40432 (WASH-1074)
capture by uranium-238, low-energy γ spectra from, (E), 25:15077
capture by uranium-238, method for determining epicadmium to subcadmium ratio for, 21:21789
capture by uranium-238, potential, (E), 22:3686 (BNL-11903)
capture by uranium-238, ratio of epithermal to thermal, (E/T), 24:22501
capture by uranium-238, resonance parameters for, (E), 22:20578 (WASH-1079)
capture by uranium-238, sources of systematic error in cadmium ratio method for measuring resonance, 24:52609
capture by vanadium at 0.115 eV, spin dependence of cross section for, 25:20335
capture by xenon-124, -126, -132, and -134, isomeric cross section ratios for, (E), 23:47025
capture by ytterbium-170 at 8.1 to 73 eV, γ spectra from resonance, (E), 25:56802
capture by ytterbium-172 at 140 to 202 eV, γ spectra from resonance, (E), 25:56802
capture by ytterbium-174 at 26 keV to 1.5 MeV, γ spectra from, (E), 25:38995 (RISO-M-1308)
capture by ytterbium-174 at 26 to 1500 keV, γ spectra from, 25:39040
capture by yttrium-89, γ spectra from, (E), 22:9910
capture by Z = 11 to 83 nuclei, high-resolution γ spectra for, (E), 23:10993
capture by Z = 24 to 79 nuclei at 8 to 120 keV, cross sections for, (E), 23:7250
capture by Z = 40 to 69 nuclei, M1 radiative widths from average γ spectra for resonance, (E), 23:17103(R) (ANL-7481)
capture by Z = 41 to 75, nuclei at 10 to 150 keV, cross sections for, (E), 21:17353 (KFK-455)
capture by Z = 49 to 92 nuclei at 30 keV to 1.4 MeV, compound-nucleus-model analysis of cross sections and gamma spectra from, (E/T), 25:59801
capture by zinc-67, gamma spectra from, (E), 24:47588
capture by zirconium-91 at 0.01 to 1 eV, cross section for, (E), 23:28304 (WASH-1124)
capture calculations for gas-cooled reactors, model for resonance, 21:1116
capture calculations using Monte Carlo method, efficiency of Σ/sub a//Σ/sub t/ estimator in, (T), 21:7638 (WAPD-TM-609)
capture cross section for promethium-146 in reactor spectrum, (E), 21:42639
capture cross section measurements, timing circuits for large liquid scintillation detector for, 24:4446
capture cross sections for A = 51 to 204 nuclei at 30 to 220 keV, (E), 21:38365
capture cross sections for europium-151, europium-152, europium-153, europium-154, and europium-155 at 1 to 30 keV, (T), 21:23482 (LA-3643)
capture cross sections for fermium-255, (E), 21:25518 (WASH-1071)
capture cross sections for uranium-233 at 0.4 to 1000 eV, (E), 21:25515 (ORNL-TM-1751)
capture cross sections for uranium-233 at 0.4 to 1000 eV, (E), 21:38305
capture cross sections for, calculation using statistical model, (T), 22:9938
capture cross sections of nuclei above iron abundance peak, (T), 24:27922
capture cross sections of, effects of energy on, 21:25935(R) (ANL-7225)
capture distribution measurements as a function of height in fast oxide Assembly 6 of ZPR-6, uranium-238 spatial, 23:49581 (ANL-7410, pp 73-227)
capture distributions in thick layers of resonance absorbers in moderating media, estimation of spatial, (T), 25:1967 (N-70-24799)
capture in 30-mil thorium wire, use of cadmium ratio comparison in determination of resonance integral for, 21:42752
capture in gadolinium, measurement of conversion electrons formed in, 21:6222
capture in high-density matter, heavy element synthesis by, (T), 21:44718
capture in multiple layer shielding of space vehicle reactors, spatial distributions of, (T), 24:33472
capture in reactors, method for measuring rate of, 21:21810
capture in reactors, Westcott formalism for, (T), 25:15405 (LFEN-NL-45-a)
capture in stars after core helium burning, (T), 22:52403
capture in stars, calculations of elemental abundances from r-process, (T), 23:5972
capture in stars, cross-section data requirements for calculations of nucleosynthesis by multiple, 23:5784
capture in stars, heavy-element synthesis by, (T), 22:5905
capture in supernova explosions, (T), 22:19710
capture in thermonuclear explosions, production of heavy nuclei by multiple, (T), 21:35480
capture in uranium-238, pulsed-activation technique for measuring Doppler effect from, (E/T), 24:33552
capture integral in thorium oxide rods, temperature dependence to 1550°C of effective resonance, (E), 21:12267
capture integral of, measurement by reactor oscillation, 21:19426
capture of A = 24 to 239 nuclei, tables of gamma rays from, (E), 25:36718 (AAEC/TM-585)
capture of polarized, nuclear orientation by, (T), 21:21616
capture of resonance, by antimony-121 and antimony-123, (E), 25:5724
capture of resonance, by isotopes, (E), 25:1739(R) (NYO-73-293)
capture of resonance, by samarium-147 and samarium-149, (E), 24:52626
capture of resonance, by uranium-238 in uranium carbide, 21:17534 (EUR-3152.e)
capture of, calculation of material dependent correction factor for mean chord length for resonance, (T), 25:10310
capture of, correlations of partial widths for resonance, (T), 22:20578 (WASH-1079)
capture of, design of linac experimental facility for studying gamma spectra from resonance, 23:38308
capture of, energy dependence of γ production cross sections for resonance, (T), 23:7281(R) (ORNL-4280)
capture of, synthesis of heavy elements in stars by, (T), 21:28948
capture on surfaces of peculiar A stars, r-process elements from, (E/T), 25:58462
capture probability in man, use of, for calculation of accidental dose, 22:6799 (LA-3721)
capture rate for uranium-238 in fuel rods, method for determining epicadmium/subcadmium ratio for, (E), 23:23725
capture rate for uranium-238, determination from neptunium-239 activity, (E), 23:47033
capture rate in heavy water moderated lattices of natural uranium oxide (UO_2) cluster fuel elements, ratio of uranium-238 to copper-63, (E/T), 23:23973 (EIR-143)
capture rate measurements in Agesta fuel, epithermal-to-thermal, 22:3807 (AE-299)
capture rates for actinides, activation methods for determining, (E), 23:49315 (ANL-7410, pp 1-46)
capture rates for uniform and nonuniform lattices, numerical comparison of, 23:49651 (ANL-7410, pp 387-442)
capture rates in ZPR-6 Assembly 6, comparison of measured and calculated values for uranium-235 and uranium-238, 23:49581 (ANL-7410, pp 73-227)
capture reactions in early solar system, (T), 25:32998
capture reactions in stellar nucleogenesis, (T), 21:24861 (N-67-11353)
capture resonance integral for manganese-55 at infinite dilution, measurements using cadmium ratio method, (E), 23:5857
capture resonance integral for protactinium-233, (E), 21:42620
capture resonance integral for uranium-237, (E), 23:1879 (ORNL-4306, pp 1-21)
capture resonance integrals for elements, measurements using cadmium ratio method, (E), 21:34011
capture resonance integrals for thorium-dioxide rods at 300 and 1200°K, (E), 21:35490
capture resonance integrals for uranium-238 in three different clustered fuel elements, (E/T), 24:18782 (RISO-M-1204)
capture resonance integrals for uranium-238 in uranium oxide (UO_2), uranium carbide, and uranium rods, effective, (E), 24:20637 (DP-1203)
capture resonance self-shielding factors for uranium-238 at 300, 900, 1500, and 2100°K, calculations using ladder method, (T), 23:3906
capture to absorption ratio for uranium-233 in circulating molten salt reactor fuel, (E/T), 25:18101 (ORNL-4622, pp 7-59)
capture to absorption ratios in MSRE, comparison of measured and calculated values for uranium-235, 24:7240
capture to fission cross sections for plutonium-239 at 0.009 to 15 MeV, (E/T), 25:23361
capture to fission ratio in plutonium-239 and uranium-235, null-reactivity measurements of, (E/T), 24:22502
capture-to-fission ratio and resonance integrals at 20 to 600 keV, (E), 22:18298
capture-to-fission ratio for plutonium-239 at 0.01 to 30 keV, (E), 22:35285(R) (AERE-PR/NP-13)
capture-to-fission ratio for plutonium-239 at 10 to 1000 keV, (E), 22:18298
capture-to-fission ratio for plutonium-239 up to 30 keV, (E), 23:7281(R) (ORNL-4280)
capture-to-fission ratio for plutonium-239, accuracy of values for, 25:15072
capture-to-fission ratio for uranium-235 at 0.3 to 5000 eV, (E), 25:34072 (IAE-1985)
capture-to-fission ratio for uranium-235 at intermediate energies, (E), 21:38320
capture-to-fission ratio for uranium-235 in uranium dioxide, Doppler effect on, (E), 21:42616 (WAPD-TM-625)
capture-to-fission ratio for uranium-235, epicadmium, (E), 22:16044
capture-to-fission ratio in plutonium-239, development of fission chamber for measuring, 21:28191 (AEEW-R-514)
capture-to-fission ratio measurements for uranium-235 in ZPR-7, method for direct, 21:12248
capture-to-fission ratio measurements in plutonium-239, 22:53454 (BNWL-828)
capture-to-fission ratios for plutonium-239 and -241, (E), 25:41243
capture-to-fission ratios for plutonium-239 and uranium-235, calculation using channel theory, (T), 22:20655
capture-to-fission ratios for plutonium-239 and uranium-233, (E), 23:1882 (WASH-1093)
capture-to-fission ratios for plutonium-239 at 20 to 600 keV, (E), 21:5535 (ORNL-P-2599)
capture-to-fission ratios for uranium-233, uranium-235, uranium-238, plutonium-239, plutonium-240, and plutonium-242, EBR-II integral measurements of, 25:56982 (ANL-7791)
capture-to-fission ratios for uranium-235 and plutonium-239 in ZPR-9 Assembly 24, use of null-reactivity and reaction rates for measuring, 23:49581 (ANL-7410, pp 73-227)
cascade calculations using Passow's approximation, 23:30746
cavitation nucleation in bubble chambers by, (T), 21:39175 (AERE-R-5486)
characteristics of free, (T), 22:27500
charge form factor from pion electroproduction near threshold, (E), 25:38641
charge of, beam-deflection study of cesium and potassium atomic charge for upper limits to, (E), 23:42600
charge of, experimental limit for, 21:15288
charge radius of, mass-degenerate SU(3) solution for effects of mass splitting on saturation of collinearized algebra of vector charge densities for, (T), 25:45689
chemical binding in crystals, (T), 24:42825
chemical binding in irradiated crystals, attempts to demonstrate, 25:6344 (ANL-7729)
chemical binding to electrons in fast neutron and γ-irradiated lithium fluoride crystals containing defect centers at 4°K, 25:17858(R) (COO-1716-11)
chemical binding to electrons in lithium fluoride, negative results of search for, 24:21860
chemical bonding to electrons in lithium fluoride crystals, search for, 24:40619(R) (RLO-2060-8)
chemical bonding to trapped electrons in lithium fluoride, negative results of search for, 24:15387
chemical bonding to trapped electrons in lithium fluoride, evidence for, from irradiation experiments, 23:44501
coincidence measurements, 24:40253
collimator for LEF, efficiency of, 21:44936(R) (GA-8114)
collimator for, design of, 23:7678(P)
collimators for, description of variable taper passage sawtooth-positioned opposing block, 22:25201(P)
collision densities in fast reactors, analyses of effects of resonances of moderating elements on, 23:49581 (ANL-7410, pp 73-227)
collision density in fast reactors, effects of elastic slowing down in Doppler region on, 23:49581 (ANL-7410, pp 73-227)
collision density spectrum for superheating steam-cooled fast reactors, KFK-SNEAK 26-group set analysis of, 23:9131(T) (EURFNR-533)
collision histories of, determination of statistical errors in Monte Carlo calculations of, 25:12839
collision probabilities calculation and use in reactor physics analysis, 23:4402 (AEEW-M-677)
collision probabilities for annular or cylinder shaped coated particle fuel elements, calculation of first flight, (T), 24:36086

collision probabilities for cylindrical and slab lattices, methods for calculating first-flight, (T), 23:23995 (AAEC/TM-489)
collision probabilities for finite cylinders and cuboids, equations for, (T), 21:44535
collision probabilities for finite cylinders and other convex solids, method for calculating, (T), 22:1573
collision probabilities for finite homogeneous cylinders and cuboids, analytical equations for, 21:33848 (AE-281)
collision probabilities for reactor lattices, method for calculating, 23:4446
collision probabilities for three-dimensional cell geometry, computer program for calculation of, 21:7637 (ORNL-TM-1699)
collision probabilities for various curved bodies, (T), 21:44531
collision probabilities for, calculation of asymptotic, (T), 25:5480
collision probabilities for, methods for approximation of, (T), 24:6802 (CISE-R-124)
collision probabilities in cluster-type fuel lattices, (T), 25:60231
collision probabilities in cylinders of, analysis of spherical harmonics method for, (T), 22:39898 (EUR-3937)
collision probabilities in infinite slab geometry, summing exponential integral functions in calculations of, 24:47934 (ANL-7610, pp 465-537)
collision probabilities in natural uranium fueled heavy water lattices, effects of axial leakage on, (T), 25:48328 (AAEC/E-215)
collision probabilities in nonuniform lattices, calculation of multigroup two dimensional, (T), 25:41608
collision probabilities in reactor fuel elements, semianalytical method for calculating, 24:7295
collision probabilities in reactor lattice cells, coarse mesh correction for, 23:52440 (AEEW-M-889)
collision probabilities in reactors, bibliography on, 21:32032 (IFA-FR-50)
collision probability calculations for purely absorbing cylinders, 22:6153
collision probability in a lattice system, approximation for first-flight, 21:5475
collision probability in reactors, calculation of two dimensional, (T), 25:41607
collision probability matrices for complicated geometries in reactors, description of method for combining, 23:37686 (AEEW-M-857)
collision probability matrices in reactor lattice cells, MINOS code for production of, 22:14317
collision probability theory of, in reactor cell parameters, 21:5611 (EUR-3075.e)
collision processes for, first-collision probability method for stochastic formulation of multiple, 22:42533
collision sequences in irradiated materials, SPECTRA computer program for, 24:24487 (GEMP-728)
collisions along flight paths with continuously varying cross sections, Monte Carlo sampling method for, 25:57164 (CONF-710302-(Vol.2), pp 871-6)
compositeness of, point-source limit in static model for, 24:37891
conference on dosimetry of, for radiobiology, 25:6689 (CONF-691106)
conference on inelastic scattering of, fourth IAEA, Copenhagen, 5/68, 24:10610 (STI/PUB-187(Vol.2))
conference on inelastic scattering of, fourth IAEA, Copenhagen, 5/68, 24:10609 (STI/PUB-187(Vol.1))
conference on neutron capture gamma spectroscopy, Studsvik, Sweden, August 11—15, 1969, 24:47575 (STI/PUB-235)
conference on noise, pulse propagation, and waves, 21:30111 (CONF-660206)
content in stellar interiors of free, equilibrium, (T), 21:28904
converter development for use in ALRR, 23:2066 (IS-1900, Paper 7)
correlations n—p in light nuclei, 24:11035
correlations p—n in complex nuclei, effects on cross section for meson (π) reactions (π^+,π^0) and (π^-,π^0), 22:3460
count distribution probability for, use of p-method for, (T), 23:11331 (RCN-98, pp 63-70)
counting statistics for reactor noise measurements, interval distributions in, 21:25723
counting statistics for, short time interval, 22:19121
coupling constants for, decay n $\rightarrow$ p + e + τ for ratio of axial-vector to vector, (E), 25:50054 (RISO-226)
coupling effects in clustered rocket reactors, 21:40659
coupling effects in reactors, analysis using time distribution functions, 21:40608
coupling in reactors, analysis using transport theory, 21:40606
coupling to meson resonances from on- and off-shell methods for n + p $\rightarrow$ n + p and p + p $\rightarrow$ p + p interactions below 750 MeV/c, (T), 25:30903
coupling with protons, mixed representations in U(3) x U(3) for parameters of axial-vector, 22:24704
critical parameters for, use of Legendre polynomial method for determining monoenergetic, 22:14306
cross sections for moderators, few-speed model for calculation of, (T), 23:42832 (UCRL-71645)
current distributions for one dimensional lattices, derivation of angular and surface, 23:19570 (CONF-680909-, pp 30-41)
current spectra in fast reactors, effects of core diluents and multigroup cross section averaging on, 23:49581 (ANL-7410, pp 73-227)
currents in heavy water moderated TOPLESS critical assembly, calculated values for, 24:7170 (CISE-R-165)
data acquisition and analysis in dynamic experiments on, pulse rate correlation technique for, 24:3834
data acquisition system for time-of-flight experiments with, design of PDP-8-based, 23:26601 (AERE-R-5962)
data analysis of cosmic-ray, from AECL monitors, (E), 22:7179 (AECL-2785)
data on, effectiveness of acquisition and processing systems for, 24:52359 (FOA-4-4433-22)
data on, meeting for collection, compilation, and dissemination of, 24:26574 (NP-18161)
data processing for Monte Carlo calculations, DICE MARK VI system for, 21:21394
data-acquisition system for, development of digital, 21:30127 (CONF-660206, pp 333-42)
decay amplitude, current algebra for radiative corrections to, 21:29612
decay and thermalization in crystals and water, models of, 21:35701(R) (BNL-50023)
decay constant and diffusion length for beryllium, calculations using diffusion theory and transport theory with isotropic scattering, (T), 22:13911
decay constant for pulsed beam injected into homogeneous reactor, mathematical development for, 21:23642
decay constant measurement by pulse method, effect of time of flight on, (E/T), 22:13922
decay constant measurements in two interacting polyethylene discs, pulsed neutron method for, (E/T), 24:36089
decay constants and diffusion parameters for small blocks of beryllium and beryllium oxide, (E), 22:20422(T) (JPRS-43682, pp 179-98)
decay constants for beryllium in pulsed experiments, (T), 21:42540
decay constants for homogeneous water—uranium-235 lattices, calculation of pulsed, 22:33015
decay constants for polyethylene and water at various bucklings, (T), 22:29868
decay constants for polyethylene, determination using simultaneous pulse-height and time analysis, (E), 23:28210 (CTH-RF-16)
decay constants for pulsed, complex, 24:3826
decay constants for spheres containing central black region, (T), 24:3828
decay constants for water systems in spherical geometry, calculation for pulsed-neutron experiments, 21:38195
decay constants for water, effects of sample geometry on, (E), 21:21407
decay constants for, method for transformation into reactivity of prompt, 22:14301
decay constants for, optimization in pulsed experiments on, (T), 23:37767
decay constants for, optimization of experimental parameters in measurements for, 24:6816
decay constants for, use of harmonic free transfer functions for analysis of prompt, (E/T), 22:35706
decay constants for, use of Legendre polynomial method for determining monoenergetic, 22:14306
decay constants in beryllium oxides, buckling and temperature dependence of, (E), 21:25407
decay constants in beryllium oxides, calculation using multigroup diffusion theory, (T), 24:52379
decay constants in graphite for pulsed, (E), 23:39916
decay constants in graphite, measurement using pulsed source technique, (E), 22:26783
decay constants in hydrogenous media, interpretation of, (E/T), 22:39559
decay constants in incoherent solid moderators, (T), 21:13791
decay constants in interacting moderators, use of pulsed neutron method for determination of, (E/T), 24:2066 (CTH-RF-17)
decay constants in moderating assemblies, effects of detector location on measurement of, 22:22531
decay constants in reactors, comparison of waiting-time alpha and Rossi-alpha techniques for measuring prompt-mode, (E/T), 22:5731
decay constants in small blocks of beryllium and beryllium oxide, (E), 22:29885
decay constants in small blocks of beryllium and beryllium oxide, measurement using pulsed-source technique, (E), 22:13901 (IAE-1362)
decay constants in small nonmultiplying systems, analysis of time-dependent variations in pulsed, 23:47303 (CNM-R-2(Vol.2), pp 1015-30)
decay constants in spheres of depleted uranium and uranium-238, (E/T), 22:20409(R) (GA-8449)
decay constants in subcritical reactors, theory of pulsed-source experiments for reactivity measurement, 21:40687
decay constants in water and Perspex, shape effect in pulsed experiments on, (E), 23:37698
decay in 3 Cen A, 22:819
decay in heavy water moderated sphere shaped assemblies of pulsed, (E/T), 24:33412
decay in infinite homogeneous multiplying media, 21:15774
decay in quark model, contribution of meson exchange currents to, 22:52968
decay in sphere shaped noncrystalline moderators of pulsed, Monte Carlo analysis of, (T), 24:7318
decay in strong quantizing magnetic field, 24:13021
decay measurements in fast critical assemblies using fission probes and boron trifluoride chambers, pulsed, 21:35699 (ANL-7320, pp 706-13)
decay modes for, calculation for disappearance of discrete, (T), 23:37087
decay n $\rightarrow$ H + anti τ, asymmetry parameter, branching ratio, and coupling constants for, 21:31571
decay n $\rightarrow$ p + e + anti τ, angular correlation between neutron spin and antineutrino momentum in polarized, (E), 25:5258
decay n $\rightarrow$ p + e + anti τ, angular correlations of neutron spin and antineutrino momentum in, (E), 25:36385 (IAE-1947)
decay n $\rightarrow$ p + e + anti τ, C/sub A//C/sub V/ ratio and T invariance in, (T), 21:29602
decay n $\rightarrow$ p + e + anti τ, field and quark algebra predictions from identity for relation of current commutator with rate of, (T), 25:17455
decay n $\rightarrow$ p + e + anti τ, neutron spin from anti τ momentum correlation in, (E), 25:7543
decay n $\rightarrow$ p + e + anti τ, radiative corrections to, 22:41790
decay n $\rightarrow$ p + e + anti τ, radiative corrections to, 23:34557
decay n $\rightarrow$ p + e + τ, electromagnetic corrections to weak $\Delta S = 0$ vector coupling constant for, 21:25265
decay n $\rightarrow$ p + e + τ, field-theoretical basis for weak-interaction theory for, (T), 25:59397
decay n $\rightarrow$ p + e + τ, half-life determination from, (E), 25:50054 (RISO-226)
decay n $\rightarrow$ p + e + τ, limiting relations for correlation averages for, (T), 25:9734 (ITF-70-53)
decay n $\rightarrow$ p + e + τ, method of broken symmetries for composite states for, (T), 25:1437
decay n $\rightarrow$ p + e + τ, preliminary investigations for determination of angular correlation constant and coupling constant ratio for, (E), 25:45646 (AD-716464)
decay n $\rightarrow$ p + e + τ, test of SU(3) X SU(3) chiral symmetry breaking from sum rules for, 24:18262
decay n $\rightarrow$ p + e + τ, three-vector correlation in, (E), 24:35601
decay n $\rightarrow$ p + e + τ, three-vector correlations in, (E), 24:51903(T) (AEC-tr-7156)
decay n $\rightarrow$ p + e^- + anti τ, nucleon form factor effects on radiative corrections for, 21:18959
decay n $\rightarrow$ p + e^- + anti τ, second-order radiative corrections for, 23:44614 (IC-69/85)
decay n $\rightarrow$ p + e^- + anti τ/sub e/, parity violation in, (T), 21:21199
decay n $\rightarrow$ p + e^- + τ, angular correlation coefficient for, preparations for, (E), 23:44585 (AD-685789)
decay n $\rightarrow$ p + e^- + τ, current algebra for radiative corrections to Fermi, 21:46523 (SLAC-PUB-338)
decay n $\rightarrow$ p + e^- + τ, e—τ angular correlation from free, (E/T), 21:44258
decay n $\rightarrow$ p + e^- + τ, limiting relations for correlation averages for, (T), 25:3332 (ITF-70-59)
decay n $\rightarrow$ p + e^- + τ, limits for parameters for interaction Hamiltonian in general form for, 24:10730
decay n $\rightarrow$ p + e^- + τ, S-matrix formulation of current algebra for, 23:39682
decay n $\rightarrow$ p + rho$^-$, parity-violating internucleon potential from Schwinger terms for, 24:13013
decay n $\rightarrow$ p, chiral SU(3) algebra and SU(6) for, 21:33739
decay of beryllium-reflected photo-, 21:30237 (NAA-SR-Memo-12347)
decay of free, electron—neutrino angular correlation for, (E), 21:42247 (NP-16947)
decay of polarized, angular correlation between neutron spin and electron momentum in, 25:43532
decay of polarized, in constant uniform magnetic field, 23:32690
decay of polarized, measurement of asymmetry coefficients in, (E), 23:13025
decay of polarized, nonconservation of time reversal in β, (E), 22:52929
decay of polarized, symmetry properties of, (E), 23:17103(R) (ANL-7481)
decay of polarized, time-parity violation in, (E), 22:50286
decay of prompt, statistical technique for measurement of, 21:25671
decay of pulsed, in crystalline moderators, (T), 22:5749
decay of pulses of, in low-temperature beryllium, (T), 21:33869
decay of pulses of, synthesis method for, (T), 22:24801
decay of solar, as coronal energy source, (T), 25:52559
decay of, axial vector renormalization constant of, 21:17102
decay of, beta—recoil proton coincidence spectra from, 21:7452(R) (AD-637480)
decay of, calculation of electromagnetic T-violating effects in leptonic, 22:32190
decay of, coincidence spectrometer for measurement of, 23:33485
decay of, current algebra for radiative corrections in intermediate boson theory for, 21:9757
decay of, development of detector for measuring protons from, 25:32271 (SGAE-PH-103/1970)
decay of, differential probability for, 21:33740
decay of, experimental tests of baryon conservation in, 21:37694
decay of, half-life for, (E), 23:30932
decay of, kinetic momenta conservation for four-fermion interaction in, 21:27344
decay of, proposed experiment for determination of axial vector/vector coupling constant ratio by measuring proton spectrum from, (T), 23:14958
decay of, quasi-independent quark model for coupling constant for beta, 23:21078
decay of, radiative corrections to intermediate vector boson theory of, 21:21186
decay of, renormalizable weak interaction model for vector constants of, 23:25580 (ITEF-635)
decay of, renormalization of axial vector coupling constant for, 21:4091
decay of, review of calculation of radiative corrections for, 21:15283
decay of, review of time reversal invariance in, 21:42417
decay of, second-order electromagnetic corrections to axial—vector matrix elements for, 23:15055
decay of, time reversal invariance in, 22:33187 (ISS-66/50)
decay of, time-of-flight proton-recoil spectrometer for measurement of, 23:33471 (AD-680817)
decay states in uncrystalline reactor moderators, energy dependent transport theory for determining unstable pulsed, 22:33155
deceleration and diffusion of, design of high-speed time analyzer for measurement of, 22:14612
density distribution function for, calculation of moments of, 25:38854
density fine structure in heavy water moderated lattices of natural uranium oxide (UO_2) cluster fuel elements, (E/T), 23:23973 (EIR-143)

density from pulsed source in finite moderating volumes, time-dependent, (T), 22:29882
density function calculations for bare cube reactors, 21: 30122 (CONF-660206, pp 623-48)
density in CANDU-BLW lattices, effects of fuel cell replacement by light water on, 21:30246 (AECL-2667)
density in multiplying media, spectral function representation of time- and energy-dependent, 25: 56625
density in near-earth space, 21:18469(R) (AD-635525)
density in reactor cells of 0 to 10 MeV, KINF computer program for two dimensional Monte Carlo calculation of, 23:33040(T) (ORNL-tr-2115)
density in reactors, spatial and angular effects of time moments of, 23:37734
density in SUR-100-BE Reactor, stochastic method for treating transport equations determining, 22:6099 (TUBIK-5)
density in two-region spherical reactors, solution to integral transport equation for, 23:4416
density microdistribution in water moderated aluminum—uranium oxide (UO_2) tube type fuel elements, (E/T), 24:26816
depolarization in ferromagnetic material, (T), 24:22062
depth-dose curves for high-energy, in relation to problems of radiation protection, calculation of, 23: 24668
detection aboard sounding rocket, design of directional scintillation detectors for, 22:36032(R) (N-68-16913)
detection and criticality alarm system for, design of boron trifluoride, 21:45344 (BNWL-481-4, pp 46)
detection and discrimination from gamma radiation in proportional counters for reactor noise analysis, 22: 49084
detection and discrimination from gamma radiation, space-charge circuits for photomultipliers for, 23: 26611
detection and discrimination from gamma radiation, scintillation detector with pulse discriminator for, 25: 32255
detection and discrimination from gamma radiation, liquid scintillation system for, 24:2459
detection and discrimination from gamma rays according to pulse shape, use of liquid scintillation detectors for, 23:11772
detection and discrimination from gamma rays, high-resolution discriminator for scintillation detector for, 23:17778
detection and discrimination in liquid scintillation detectors, 25:8506
detection and discrimination of, photomultiplier space charge method with scintillation detector for, 23: 17767
detection and discrimination of, pulse discriminator for scintillation counter for, 23:13982 (CEA-CONF-1203)
detection and discrimination of, pulse shape discrimination in stilbene and NE 213 liquid scintillation detectors for, 24:48270
detection and discrimination of, rise time-to-amplitude converter for proportional counter for, 23:13978 (CEA-CONF-1151)
detection and discrimination of, scintillation detector pulse shape discriminator for, 24:16856
detection and identification of, pulse discriminator for scintillation detector for, 24:11802
detection and imaging equipment for, development of, 21:21755(R) (ANL-7302)
detection and measurement around shielding of JINR synchrocyclotron, 24:3800 (JINR-P16-4727)
detection and measurement around shielding of JINR synchrocyclotron, 24:18320(T) (ORNL-tr-2277)
detection and measurement at fuel plate surfaces, monitor design for, 22:15153 (ANL-7313)
detection and measurement by reactions with boron-10 and gamma counting, 23:21668(T) (NP-tr-1747)
detection and measurement cosmic, multiplicity distribution at low latitudes, 21:41839
detection and measurement in JRR-3 irradiation capsule by counting activation-induced nitrogen-14 in water coolant, 21:38677
detection and measurement in plutonium passive analysis system, design of equipment for, 25:6515(R) (BHO-66-1)
detection and measurement in shields, instruments for, 22:15003(T) (AD-662586)
detection and measurement in space, equipment and methods for, 22:49093
detection and measurement in the presence of γ, performance of chemical dosimeters for, 22:38331
detection and measurement of, 23:28719(R) (GA-9331)
detection and measurement of absorbed, mixed with gamma rays by cellulose acetate films, 23:35223
detection and measurement of activation equations for continuous flow manganese bath for, 24:9649
detection and measurement of atmospheric and earth leakage flux of cosmic, design and calibration of boron—plastic scintillation detectors for, 23:11816
detection and measurement of cosmic, at Chacaltaya, Bolivia, Oct. 1966 to Dec. 1967, 23:8482 (AECL-3162)
detection and measurement of cosmic, coincidence-effect-compensated recording multiplicity in, (E/T), 25:16855
detection and measurement of cosmic, design and performance of White Mountain multiplicity monitor for, 23:21963
detection and measurement of cosmic, design and performance of lead and paraffin lined boron trifluoride proportional counters for, 21:17867
detection and measurement of cosmic, differential response and specific yield functions of monitors for, 21:31278
detection and measurement of cosmic, mass absorption coefficients for, 22:2864
detection and measurement of cosmic, OGO satellite monitoring system for, 23:48766
detection and measurement of cosmic, results from IQSY network, (E), 23:46314
detection and measurement of low-energy cosmic, by Simpson Pile, (E), 23:18459(T) (SC-T-69-1009)
detection and measurement of low-level environmental, uranium foil—mica track detectors for, 24:31714
detection and measurement of mean energy of, boron trifluoride ionization detector for, 25:34906
detection and measurement of reactor, survey of detector instrumentation for, 23:38246 (KAPL-M-6961)
detection and measurement of slow, boron-impregnated 1/v dielectric detectors for, 25:10820
detection and measurement of, analytical applications of, 22:7994(T) (ANL-Trans-543)
detection and measurement of, based on the lithium-6 (n, α)t and oxygen-16 (t,n) fluorine-18 reaction sequence, (E), 22:5736
detection and measurement of, calibration of Geiger—Mueller detector for, 23:38275
detection and measurement of, characteristics of moderating spheres and precision long counters for, 24:19199 (HASL-222)
detection and measurement of, conference on, 25:4320 (KURRI-TR-59)
detection and measurement of, current-density measuring device for, 21:28275(P)
detection and measurement of, design and performance of semiconductor detector which permits observation of form of current pulses produced, 21:10643
detection and measurement of, design of boron trifluoride proportional detector for, 21:30719
detection and measurement of, design of detector using boron-10- or lithium-6-doped nickel oxide as sensing element for, 21:14470(P)
detection and measurement of, design of fission chamber for, 21:30719
detection and measurement of, design of short boron trifluoride counters for, 21:1633
detection and measurement of, development of detectors based on Campbell's theorem for, 21:32440
detection and measurement of, development of fission couples for, 24:16832 (CONF-690910-, pp 366-77)
detection and measurement of, development of self-powered detectors for in-core, 25:34877
detection and measurement of, dielectric track detectors for, 23:50117 (INR-1097)
detection and measurement of, dosimeter for, 21:22182
detection and measurement of, ORELA large liquid scintillation detector for, 24:5900
detection and measurement of, performance of digitized gas-discharge detector for, (E), 21:43235
detection and measurement of, polyethylene-moderated helium-3-filled proportional counter for, 23:43525
detection and measurement of, proton-recoil telescope for, 21:3245 (ORO-2791-19, pp 1-31)
detection and measurement of, research programs on, 23:5749 (KURRI-TR-40)
detection and measurement of, resolution of boron- and cadmium-loaded polyethylene spheres for, 21:10606 (LA-3595)
detection and measurement of, response of liquid hexane ionization chamber for, 21:12668
detection and measurement of, self-powered detectors for, 25:57777
detection and measurement of, semiconductor detector calibration for, 24:51813
detection and measurement of, use of lithium-6 fluoride—zinc sulfide sandwiched scintillation detectors for, 21:24222
detection and measurement of, using nickel-58 foils, (E), 21:38162 (UJV-1600)
detection and measurement using 1/v foil detectors, 23: 21231
detection and measurement using fission fragment registration in mica and Mylar, 21:6204 (UCRL-17075)
detection and measurement using high-voltage ionization chamber, 21:39261(P)
detection and measurement using proportional counter spectrometers, wall effect corrections for, 21:19940
detection and measurement using semiconductor detectors, (E), 21:1582
detection and measurement, six-foot long scintillation detector for time-of-flight, 24:29532
detection and monitoring of cosmic, mode lifetimes in, 21:3286
detection and use of sub-MeV, in nondestructive method for determining fissionable material content in reactor fuel elements, 25:32177 (CONF-700541-, pp 349-62)
detection at 0.025 eV to 15 MeV, design of scintillation detector for, 24:11786(P)
detection at 1 to 100 keV, sensitivity of dosimeters for, 25:37650
detection at 100 to 700 keV with flat energy response, vaseline—boron-10 sphere with scintillation detector system for, 25:13215
detection at 25 km in atmosphere, high-energy solar flare-associated, (E), 25:35772
detection at 300-GeV accelerator, bubble chamber for, 22:13874 (CERN-67-26(Vol.1), pp 49-71)
detection at high counting rates, long proportional detector for, 25:4354
detection at high temperatures, corrugated-electrode spark chamber with boron converter for, 23:45513 (TID-25196)
detection at high temperatures, design of ionization chamber for, 22:38014(P)
detection at high temperatures, development of spark chambers using boron converter for, 22:10542(R) (TID-24212)
detection at high temperatures, spark chamber for in-core, 25:2459
detection at sea level from July 7, 1966, proton flare, (E) , 23:22812
detection at temperatures up to 650°C, testing of high-temperature fission chambers for, 23:2559 (LA-DC-9611)
detection at thermal energies to 10 MeV, sensitivity of spherical polyethylene-moderated scintillation detectors for, 25:8522
detection by lithium glass and boron-loaded liquid scintillator, effects of elastic scattering on efficiency of, 25:18716
detection by thallium-activated sodium iodide scintillation spectrometers, 22:8379
detection for determining moisture content in soils, calibration of probe for, 21:28292
detection from 14-MeV neutron generator, design of miniature plastic scintillation detector for, 23:6286 (SCL-DC-68-27)
detection from concrete shielding of LRL Van de Graaff accelerator, use of gold activation detectors for, 22: 9720 (UCID-15235)
detection from fission of californium-252, design of boron trifluoride proportional counter for, 21:32428
detection from focused z-pinch devices, 22:34726 (AD-665416)
detection from $A^0 \rightarrow n + \pi^0$ decays, polyethylene-loaded spark chamber for, 23:22094
detection from underground nuclear explosions, design of recording system for detectors used for, 23:22040
detection in coincidence with charged particles, method for, 24:5908
detection in electron reactions (e,e'n) with nuclei at 600 MeV/c, 22:21313 (ISS-67/18)
detection in four-meter flight path using proportional and scintillation detectors, (T), 21:29828(R) (GA-7683)
detection in gamma background, performance of lithium-6- and uranium-235-sandwiched silicon surface-barrier detectors for, 23:4820
detection in gamma background, scintillation detector circuits for, 25:18667
detection in gamma field, operation of helium-3-filled ionization detector for, 24:46469 (FEI-178)
detection in gamma fields using narrow-band and wide-band detectors, 21:30128 (CONF-660206, pp 413-38)
detection in gamma fields, peak—trough ratio of lithium-glass scintillators for, 23:2565
detection in high gamma field, performance of fission chamber for, 24:46485
detection in high gamma field, performance of fission chamber for, 24:46484
detection in high gamma fluxes, design and performance of boron trifluoride ionization chamber for, 22: 36051(P)
detection in high temperature reactor environments, performance of fission chambers and proportional counters for, 23:23881
detection in in-pile noise experiments, efficiency of adjoint-weighted detector for, 22:30833
detection in intense gamma fields, performance of fission foil—silicon detector, fission chamber, and boron-10-coated ionization chamber for, 23:2573
detection in laser-produced plasma as indication of temperature, 21:37422
detection in missing mass studies, performance of large plastic scintillation detector for, 23:47821
detection in missing-mass studies, design and performance of array of plastic scintillation detectors for, 23:29199
detection in mixed gamma—neutron fields, performance of plastic scintillation detectors for, 23:11763
detection in mixed gamma—neutron fields, response of boron trifluoride proportional detectors for, 24:2474
detection in mixed radiation field, development of gamma-compensated ionization chamber for, 21: 22167(P)
detection in moderating nonmultiplying assemblies, energy correlation in, 22:21329
detection in multiplying medium, time-dependent count probability in, (T), 22:44590
detection in paraffin-moderated boron trifluoride proportional counters, sensitivity of, (E/T), 21:8615
detection in plutonium critical facilities, amplifier for proton-recoil proportional counter for, 23:2572
detection in radiography, sensitivity of proton-recoil zinc sulfide scintillation detectors for, 21:41223
detection in reactor cores, accuracy of activation foils for, 24:11334
detection in reactor environment, logarithmic scintillation rate meter for, 24:2446 (INR-P-1074)
detection in reactors, design of ionization chamber for, 21:1638(P)
detection in reactors, design of ionization chamber and proportional detector for, 23:24449
detection in space, scintillation detector for, 22:28095
detection in strong gamma—neutron field, sensitivity of boron-10-lined and boron trifluoride-filled proportional detectors for, 21:45333 (AD-634621)
detection in variable gamma fields, sensitivity variation of ionization chambers for, 25:51854 (FEI-212)
detection near Savannah River Production Reactor, design and performance of apparatus for, 23:36823(R) (SRO-143)
detection of 0.3- to 3.8-MeV, response of NE213 organic liquid phosphors for, 22:12581
detection of 0- to 14-MeV, description of boron trifluoride proportional detectors for, 22:4445
detection of 1.0- to 14-MeV, pulse-height response function for various organic scintillation detectors for, 23:38249 (UCRL-50653)
detection of 2.5-MeV, from deuteron reactions (d,n) with deuterium, associated particle method for determining efficiency of silicon surface-barrier detectors for, 23: 29176
detection of 20- to 170-MeV, efficiency of plastic scintillation detectors for, 23:19980
detection of 20-keV to 70-MeV monoenergetic, computer program using Monte Carlo method for determining scintillator pulse-height distributions for, 22:14750 (ORNL-4160)
detection of 5-eV to 17-MeV, efficiency of scintillation detector with spherical moderator for, 21:16181

detection of 5-eV to 5-MeV, design and performance of collimated detector for, 21:45396
detection of cosmic, description of recording system for monitor for, 22:23300
detection of cosmic, fabrication and testing of intensity monitor for, 21:1577
detection of cosmic, lifetime in boron trifluoride counters, 22:12576
detection of cosmic, method for calibration of high-precision monitors for, 23:41008
detection of fast, design of cellulose nitrate dielectric track detectors for, 25:34875(P)
detection of gamma radiation and, combined proportional—scintillation detector for simultaneous, 25:23783(P)
detection of gamma-compensated self-powered detector for in-core, 25:26458
detection of high fluxes of, axial variation in sensitivity of 1/4-inch fission chamber for, 23:19927 (AEEW-M-788)
detection of high-energy, cross sections for $\gamma + N \rightarrow \Delta(1236)$ Coulomb interactions in lead nuclear field for, (T), 24:21955 (UR-875-295)
detection of high-flux, at high temperatures, spark chamber for, 23:40996 (TID-25164)
detection of intermediate-energy, design of detector for, 22:6603
detection of low fluxes of, centrifugal spinner detector for, 22:21341
detection of low-energy, using glass detectors with liquid scintillators, 21:19152(R) (TID-23685)
detection of multiple, development of spatial detector for, 21:3280
detection of photo-, design of gadolinium-loaded liquid scintillation detector for, 23:47752
detection of pulse shape discriminator system with stilbene scintillation detector for gamma discrimination for, 25:8525
detection of pulsed, Cherenkov detector using extended recording method for, 24:16861
detection of pulsed, development of silver foil-wrapped Geiger-Mueller detectors for, 21:26158 (UCRL-50007-66-2, pp 12-21)
detection of reactor, fission foil—Lexan track detector for, 24:11769
detection of slow, in presence of γ radiation, liquid scintillator for, 22:21330(P)
detection of solar and atmospheric, at 50 to 150 MeV, design of neutron scattering spark chamber using Monte Carlo calculations for, 23:43548
detection of solar, (E), 25:49640 (AD-722467)
detection of solar, at 20 to 120 MeV, (E), 23:25089
detection of solar, in Earth's atmosphere, (T), 22:41265
detection of solar, instruments for, (E), 25:49638 (AD-719944)
detection of solar, near top of atmosphere, (E), 23:44212
detection of solar, satellite protons as test for, 21:31339
detection of thermal to 25-MeV, response of europium-activated lithium iodide scintillation detector in polyethylene sphere for, 22:19101 (UR-49-903)
detection of, analysis of Campbell circuits for, 24:39269
detection of, boron-coated ionization chamber and circuitry for, 22:16890(P)
detection of, burnup correction for neutron-sensitive materials for, 24:25291
detection of, by measuring conversion electrons formed during capture in gadolinium, 21:6222
detection of, calculation of recoil proton energy loss distribution in stilbene scintillation detector for, 24:50564
detection of, calibration and use of lithium-6 glass scintillation detectors for, 23:11758 (GA-9048)
detection of, calibration of Bonner ball boron trifluoride detectors for, 25:42055 (ORNL-TM-3465)
detection of, calibration of radiometric devices using, 23:11893
detection of, characteristics of lithium glass scintillation detectors for, 22:33644
detection of, computer program for evaluating efficiency of boron—sodium iodide scintillation detector for, 25:32214 (KFK-1182)
detection of, computer program for generation of organic scintillator response functions for, 24:9640 (ORNL-TM-2594)
detection of, computer simulation of random-drift sampling method for analyzing nuclear emulsions for, 23:629
detection of, criticality alarm system for, 25:21408
detection of, criticality alarm system for, 25:32219
detection of, description of gas-discharge detector for, 25:51871(P)
detection of, design and performance of Campbelling system for, 22:6605
detection of, design and performance of helium-3-filled multiple proportional counters for, 23:2571
detection of, design and performance of image brightness intensifiers for, 21:32521
detection of, design and performance of mica- and glass-sandwiched, 22:40434
detection of, design and performance of Moxon—Rae capture scintillation detectors for, 23:37138(R) (RPI-328-160)
detection of, design and performance of multiple polyethylene-moderated helium-3 proportional detectors for, 23:24428 (LA-DC-9761)
detection of, design and performance of proportional counters with boron deposits for, 23:41016
detection of, design and performance of stilbene crystal scintillation detectors for, 21:39252
detection of, design concepts of self-powered detectors for, 23:16076 (AECL-3224)
detection of, design criteria for radiation resistant silicon detectors for, 25:57746
detection of, design of activation detector based on electron current measurement from beta decay for, 23:644(P)
detection of, design of activation detector for in-core, 22:10572(P)
detection of, design of activation detectors for, 23:2563(P)
detection of, design of amplifier—discriminator for proportional detectors used in, 21:28190 (AECL-2680)
detection of, design of boron trifluoride ionization chamber for, 25:55014(P)
detection of, design of boron- or lithium-containing plastic track detectors for, 25:23787(P)
detection of, design of detector for, 21:8623
detection of, design of fast, plutonium 239-lined fission chamber for, 23:45511 (FEI-143)
detection of, design of fission foil detectors for, 22:40370
detection of, design of fission foil—semiconductor detector for, 21:45428(P)
detection of, design of graphite moderated counter for, 22:40373
detection of, design of graphite-moderated boron trifluoride proportional detectors for, 22:38044
detection of, design of large 2000 x 150 mm boron trifluoride proportional detectors for, 23:41006
detection of, design of low-noise scintillation detectors which operate at wide temperature variations for, 23:9710(P)
detection of, design of monitor for, 21:16203(P)
detection of, design of pulse transformer links in measuring lines for, 21:28327
detection of, design of resonance-scattering facility at Argonne CP-5 reactor for calibration of detectors for, 23:14011
detection of, design of scintillation detector for, 25:55012(P)
detection of, design of self-powered detectors for, 22:36073
detection of, design of short boron trifluoride proportional detectors with spherical moderators for, 21:43240
detection of, design of silicon surface-barrier monitor for, 21:32424
detection of, design of spherical dose-equivalent detector for, 21:3265
detection of, detector circuits for gamma-flash cancellation for, 24:9645
detection of, determination and removal of radioactive impurities in lithium-loaded cerium scintillators for, 23:29147 (AWRE-O-15/69)
detection of, development of fission chamber and proportional detector for, 23:33383 (CEA-CONF-1235)
detection of, development of thermometers for, 21:31943(R) (NP-16803)
detection of, discriminator circuit for lithium fluoride—zinc sulfide scintillation detectors for, 21:36383
detection of, dose sensitivity of fission foil—dielectric track detectors for, 24:22997
detection of, effective cadmium cutoff energies for finite-size detectors for, 22:10544 (WAPD-TM-670)
detection of, effects of dead time instability on performance of NM-64 supermonitor for, 21:45407
detection of, effects of high-level gamma radiation on sensitivity of fission chambers and proportional detectors for, 23:35486
detection of, effects of trigger count on correlation amplitude in Rossi-α technique for, (E/T), 23:9233
detection of, efficiency calculations for organic scintillation detectors for, 23:637
detection of, efficiency of bare and moderated boron trifluoride gas-filled proportional counters for, 21:1609
detection of, efficiency of boron-10 carbide sodium iodide scintillation detectors for, 23:37138(R) (RPI-328-160)
detection of, efficiency of granular and glass scintillation detectors for, 24:4445
detection of, efficiency of lithium-6 glass scintillators for, (E), 25:41213
detection of, efficiency of moderated sodium iodide scintillation detector for, 23:29195
detection of, efficiency of scintillation detectors with spherical polyethylene moderators for, 21:43239
detection of, efficiency of silver-activated zinc sulfide scintillators for, 24:46477
detection of, emitted by theta-pinch devices, 21:42149
detection of, energy response of air-filled parallel plate cavity for, 25:8677 (NYO-2740-7, pp 5-51)
detection of, energy response of water-moderated boron trifluoride proportional detector for, 23:29156
detection of, energy threshold of Makrofol dielectric track detectors for, 25:34902
detection of, engineering drawings for criticality alarm system for, 24:31708
detection of, evaluation of equipment for, 24:18901(R) (LA-4320)
detection of, fabrication and performance of n-type silicon detectors for, 21:280
detection of, fabrication of activation detectors for, 22:19128(P)
detection of, fabrication of ionization chambers and proportional detectors using beryllium for, 23:35456 (AERE-M-2193)
detection of, fission foil—solid-state track detectors for, 23:4825
detection of, for international safeguards and arms control applications, design of coincidence radiation detectors for, 23:47729 (AD-689733)
detection of, for radiography, 22:10618
detection of, frequency response of detectors for, 23:9700 (RCN-98, pp 161-80)
detection of, from laser-produced lithium deuteride plasma, (E), 22:50198
detection of, from solar flare of Jan. 28, 1967, (E), 24:10291
detection of, gadolinium-loaded liquid scintillation system for, 23:11786
detection of, gadolinium-loaded mineral oil scintillation detector for, 24:39234
detection of, instruments, measurement techniques, and standards for, 25:35137
detection of, ionization measurements for calibration of proton-recoil detectors for, 25:46620 (IN-1407, pp 83-95)
detection of, liquid—plastic phoswich scintillation detector for, 25:29339
detection of, measurement of proton-recoil tracks in nuclear emulsions for, 25:18728
detection of, method for increasing lifetime of (n,α) conversion layers for, 24:29534
detection of, Monte Carlo calculation of response of silicon detectors for, 25:4351
detection of, multigroup scattering calculation of response of Bramblett—Bonner polyethylene spheres for, 25:381
detection of, performance of liquid helium scintillation detector for, 25:4321 (LA-4465, pp 31.1-2)
detection of, performance of NE 213 scintillation detector for, 25:25724(R) (RLO-1388-121)
detection of, performance of scintillation detector system for, 25:21395
detection of, position-sensitive array of boron trifluoride proportional detectors for, 25:8473 (JUL-CONF-4, pp 30-47)
detection of, position-sensitive system of boron trifluoride proportional detectors for, 24:36565
detection of, produced by proton flare of July 7, 1966, (E), 23:22809
detection of, produced in pulsed electron linear accelerators, operation of fission chambers and proportional detectors in gamma cancellation mode for, 23:35485
detection of, programs for calculating efficiency of lithium-6-loaded glass scintillation detectors for, 22:319
detection of, properties of fissionable material-doped dielectric track detectors for, 24:31691
detection of, properties of self-powered detectors for, 24:48278
detection of, pulse delay time in helium-3-filled ionization detectors for, 25:29338
detection of, pulse discriminator for NE-213 liquid scintillation detector for gamma discrimination in, 24:50572
detection of, pulse shape discriminator for NE213 and stilbene scintillation detectors used for, 22:40405
detection of, radiator foil converter with diamond crystal detector for, 25:55009(P)
detection of, response functions for boron trifluoride proportional Bonner detectors for, 25:39709 (ORNL-TM-3451)
detection of, response of boron trifluoride proportional detector system for, 23:19983
detection of, response of bubble chamber for, 23:38245 (JLI-3506-41)
detection of, response of position-sensitive scintillation detector for, 23:43542
detection of, review of detector development for, 23:2622
detection of, scattering and self-shielding corrections in bare and cadmium-covered activation detectors for, 21:34489
detection of, scintillation detector circuit for gamma discrimination in, 23:47751
detection of, scintillation detector using FEU-49 photomultiplier for, 25:48911
detection of, secondary emission target with scintillation detector for, 23:19986(P)
detection of, self-powered detector for, 25:57728(P)
detection of, semiconductor detectors using self-activation for, 24:11811
detection of, sensitivity of boron-containing plastic scintillation detectors for, 23:31531
detection of, silicon surface barrier detectors with sputtered boron films for, 21:26188
detection of, temperature effects on organic plastic scintillation counters for, 23:7734 (GEPP-44)
detection of, temperature effects on performance of ionization detector for, 24:44255 (INR-1184)
detection of, temperature effects on signal output of boron-10 moderated zinc sulfide scintillation detectors for, 21:22150
detection of, testing of high temperature detectors for, 21:22128 (LA-DC-8634)
detection of, theoretical efficiency of systems for, 22:10537 (AAEC/TM-403)
detection of, thermoluminescent response of Con-Rad type N and type 7 lithium fluorides for, 21:6300
detection of, use of balanced tissue equivalent ionization chambers for, 21:3253
detection of, use of polyvinyl alcohols for preparation of films of gold, lanthanum, and sulfur for, 22:14814
detection of, use of quantimet for evaluation of photographic film for, 23:47845 (KFK-845, pp 2.1-4)
detection of, use of rate-burst detectors for, 21:6200 (ORNL-TM-1668)
detection of, use of semiconductor diode detectors for, 21:12636 (NP-16489)
detection of, use of titanium in boron trifluoride proportional detectors for, 21:22166(P)
detection of, with boron-10 coated parallel plate ionization chamber, 21:8621
detection outside of chromatographic column, design of scanning semiconductor detectors for, 23:16110(P)
detection up to 50 MeV, efficiency of paraffin-embedded boron trifluoride detectors for, 25:48928
detection using capture in magnesium, (E), 21:17270(R) (RPI-328-71)
detection using cellulose radiographic film, 21:36303
detection using gadolinium-loaded scintillator, Monte Carlo calculation of efficiency of, 22:14788
detection using proton-recoil telescope, efficiency equation for, (T), 23:28304 (WASH-1124)
detection using scintillation counters, for time-of-flight experiments, 21:31710 (RHEL/R-136, pp 52-88)

detection using silicon-28 (n,α) reactions, (E), 21: 38377(R) (PUC-937-260)
detection using solid-state track detectors, development of energy-threshold, 22:6652 (ORNL-4168, pp 183-230)
detection using stilbene scintillators in small-angle scattering experiments, 22:5809(R) (ANL-7354)
detection with magnetic counter, (T), 21:3251
die-away experiments in large uranium dioxide—water assemblies, formulation of dispersion law for, 23:37706
diffraction and reflection in crystals, polarization effects in, (T), 23:32882(T) (BNL-tr-272)
diffraction by bismuth iron oxides, results using continuous and pulsed sources, 22:11490 (CONF-661216-4)
diffraction by copper single crystals, crystal binding effects on, (E), 21:1058
diffraction by crystals near the Curie point, study of magnetic properties by, (E/T), 22:24807
diffraction by crystals, computer program for calculating intensities in, (T), 22:44575 (IA-1169)
diffraction by dialuminides of praseodymium and erbium, 22:48197
diffraction by helimagnetic solids, polarized, 21:31492
diffraction by liquid gallium at 45°C, (E), 22:24835(R) (BARC-305)
diffraction by polarized crystals, temperature dependence of neutron spin precession frequency in, (T), 22:39568
diffraction by silicon, atomic scattering amplitude from Pendelloesung fringe structure in, (E/T), 23:5479
diffraction by single crystals of gadolinium-160 at 80 to 300°K, (E), 23:5454
diffraction by vibrating crystals, 24:6817
diffraction in holmium, study of magnetization by, 21: 33524
diffraction in media with various refraction indices, 23: 23606 (JINR-P4-4202)
diffraction intensities from vitreous silica, calculation from random-network model, 21:40078
diffraction of electron linac time-of-flight system for studying, 24:18344
diffraction of, influence of collimators on measured line intensity in, (T), 25:25607 (INR-1220)
diffraction of, use in structural studies of lithium niobates, 21:5011
diffraction on crystal containing paramagnetic center of polarized, structural amplitudes in, (T), 25:30663 (JINR-P3-5554)
diffraction, table of antiferromagnetic materials studied by, 23:39562 (BNL-13822)
diffusion across interface in beryllium—graphite moderator, (T), 24:6820
diffusion and diffusion cooling coefficients for ice at 21 to 273°K, calculation for pulsed, 24:24491
diffusion and loss in reactor cores, calculation using PDQ-5 code, 21:13991 (WAPD-TM-639)
diffusion and scattering in homogeneous thermal reactors, effects on reactor operation, (T), 21:13994
diffusion and slowing down in soils, Monte Carlo model for analyzing, 23:35534 (RISO-M-896)
diffusion and thermalization parameters for graphite, (E), 21:31685
diffusion and transport calculations, input specifications for CDC-3600, 21:2819 (ANL-7194)
diffusion approximation for regions with steep flux gradients, (T), 22:20424(T) (ORNL-tr-1849)
diffusion approximation for solution of transport equations for, (T), 22:24791 (TRG-Report-1568)
diffusion approximations for wave propagation through interfaces, (T), 23:3896
diffusion calculation for beryllium at 100 and 300°K, steady-state, (T), 21:9909
diffusion calculations for beryllium and graphite with temperature discontinuity, (T), 22:14300
diffusion calculations for fuel burnup in pressurized-water reactors, one-group, 21:15712
diffusion calculations for reactors, comparison of nodal calculations with, 21:40603
diffusion calculations for reactors, method for phase space reduction in, 25:12853
diffusion calculations for reactors, self-initializing version of WIGL2 code for, 25:60209 (DUN-7538)
diffusion calculations for, approximate eigenvalue structures in, (T), 25:41170
diffusion calculations for, boundary conditions at nondiffusion surfaces in multigroup, 22:33137
diffusion calculations for, last overtone mode in, (T), 25: 41169
diffusion calculations for, simplified eigenvalue problem solutions in, (T), 25:6173
diffusion calculations for, spatially discontinuous trial functions for space-energy flux synthesis in, (T), 25: 41167
diffusion calculations in reactors, PERDIF computer code for multigroup, multiregion, 21:23744 (IA-1069)
diffusion coefficient calculations in plutonium-fueled water-moderated reactor systems, Battelle Revised Thermos code for, 22:27481 (BNWL-634, pp 2.1-8)
diffusion coefficient for uniform water moderated lattice, (T), 25:51230 (CISE-N-146)
diffusion coefficient formulation for inhomogeneous media including effects of thin regions, 22:37619
diffusion coefficient in cylindrical cores, use of first collision probabilities for deriving Benoist's formula for, 22:53477
diffusion coefficients for AGR type reactors, corrections to Benoist, (T), 24:38622 (RD/B/N-1645)
diffusion coefficients for beryllium and beryllium oxide, (E), 22:29885
diffusion coefficients for cylindrical voids in reactor cores, 21:29835 (RT/FI-(66)44)
diffusion coefficients for graphite assemblies with cylindrical void channels, pulsed-source measurements on, (E), 22:32454
diffusion coefficients for graphite slab systems with transverse gaps, measurement using pulsed-source technique, (E/T), 23:13191
diffusion coefficients for heterogeneous media, pulsed neutron techniques for determination of, (E/T), 24: 15768
diffusion coefficients for heterogeneous reactors, use of first flight probability theory for determining, 23: 11340
diffusion coefficients for heterogeneous reactors, integral transport theory and P/sub N/ approximation methods for calculation of, (T), 25:54272
diffusion coefficients for moderators with cylindrical void channels, pulsed-source measurements on, (E), 23: 13192
diffusion coefficients for plutonium recycle reactors, computer programs for, 22:24955 (EUR-3891)
diffusion coefficients for reactor lattices, methods for calculating, (T), 23:4446
diffusion coefficients for reactor moderators, energy-dependent, (T), 21:5457 (CEA-R-3010)
diffusion coefficients for reactor, modified Benoist formula for, (T), 25:41609
diffusion coefficients for slab systems with transverse and void gaps, pulsed-source measurements on, (E/T), 23: 13191
diffusion coefficients for water and water-d_2, temperature-dependent thermal, (T), 25:17676
diffusion coefficients for, average scattering angle for evaluation of, (T), 22:39551 (RPI-328-123, pp 39-52)
diffusion coefficients in heterogeneous systems with periodic structure, effect of anisotropic scattering on, (E/T), 23:39904 (NIJS-P-235)
diffusion coefficients in reactor lattice cells, unified theory calculations of radial, 25:51239
diffusion coefficients in water—aluminum slab lattices, anisotropic, (E/T), 25:23359
diffusion constant and extrapolation length for water at 18 to 280°C, measurements using pulsed-source technique, (E), 23:21229
diffusion constants for aluminum—hydrogen lattice, (T), 25:59687
diffusion constants for slabs of aluminum and polyethylene, measurements using pulsed-source technique, (E), 23:3924
diffusion difference equations for, solution using Wielandt method, 21:42529
diffusion equation for coupled-core reactor, 21:19154
diffusion equation for fast reactors, spectral-synthesis method for solution of, 25:23263
diffusion equation for monoenergetic, Green's function solution of one-dimensional steady-state, (T), 22:37275 (AD-665378)
diffusion equation for one-dimensional geometry, solution using Green's function, 21:21379
diffusion equation for reactor physics, 21:27663 (AD-634843)
diffusion equation for spherical geometry, boundary conditions for P_3 approximation, 21:40350
diffusion equation for, HYBSHOV program for solving space-time dependent, 24:22055 (IA-1191 and Add.)
diffusion equation for, solution by space-energy factorization of, (T), 25:6169
diffusion equation for, solution using successive overrelaxation iterative method, 21:13787 (WAPD-TM-592)
diffusion equation for, stable methods of matrix factorization for block-tri-diagonal matrices for solving multigroup, 21:25394 (GA-7164(Pt.2))
diffusion equation for, variational method for solution using discontinuous trial functions, 21:7639 (WAPD-TM-610)
diffusion equation in circular cylindrical coordinates, solution using Fourier transform and replication properties, (T), 23:5758
diffusion equation in two-space dimensions, numerical solution of few-group, 23:4402 (AEEW-M-677)
diffusion equation solution for one-group one-dimension media, computer program for, 22:35671 (PNR/SETR-R.-014)
diffusion equations for computer solution using collision probabilities, 22:14317
diffusion equations for continuously refueled reactors, use of elliptic functions for determination of axial flux distributions for, 23:11337
diffusion equations for cylindrical or slab geometry, computer program for solution of few-group, 21:29830 (JAERI-1127)
diffusion equations for fast reactors, development of synthetic scattering kernel for solution to multigroup, 23:37713
diffusion equations for fast sodium- and steam-cooled reactors, 26-group constants for, (T), 22:53066 (KFK-770)
diffusion equations for heterogeneous systems, iterative-variational techniques for solution to elliptical, 22: 50863
diffusion equations for large reactor cores, solution method for multigroup space-time, 23:47301 (CNM-R-2(Vol.2), pp 960-82)
diffusion equations for multiple heterogeneous cylinders, methods for solving, (T), 23:7417
diffusion equations for reactor, derivation for space-time expression for transfer functions with feedback for, 22: 12143 (WCAP-2873)
diffusion equations for reactors, comparison of alternating time differencing methods with other implicit methods for solution to, 23:37720
diffusion equations for reactors, computer program for solution of one-dimensional, 21:7627 (ANL-7223)
diffusion equations for reactors, development and application of consistent P_L, 23:37724
diffusion equations for reactors, illustration and analysis of anomaly encountered in flux weighted collapsed group synthesis solution to, 23:28611
diffusion equations for reactors, use of splitting techniques for solution to two-dimensional multigroup, 23:34935 (MIT-3903-2)
diffusion equations for reactors, variational iterative method for solution of energy dependent, 23:37716
diffusion equations for square lattice power reactor, SQUIFID computer program for solution of, 23:31234 (TRG-Report-1761)
diffusion equations for stability analysis of equilibrium state reactors, solution of one-group approximation, (T) , 22:30359
diffusion equations for time-dependent, numerical methods for solutions to, 22:14304
diffusion equations for two-dimensional group, neutron flux synthesis using Green's function in, 22:14318
diffusion equations for two-group reflected slab reactors, Green's function formulation of Laplace-transformed multigroup, 25:6176
diffusion equations for two-group solution of buckling in pulsed finite beryllium oxide (BeO) assembly, analysis of, 22:30315
diffusion equations for, Benchmark Problem Book for solutions of, (T), 22:46693 (ANL-7416)
diffusion equations for, calculation using space and time dependent group, 21:42756
diffusion equations for, coarse mesh acceleration of iterative solution of, 25:12838
diffusion equations for, comparison of computer codes for solution of stationary multigroup, 24:45717 (RT/FIMA-(69)2)
diffusion equations for, comparison of finite differences and differential equations solutions to, 22:14321
diffusion equations for, computer program for solution of two-dimensional multigroup, 21:5463 (WANL-TNR-189)
diffusion equations for, computer program for solution of one-, two-, or three-dimensional, 21:29839 (WAPD-TM-678)
diffusion equations for, computer program for solution by method of solution functions, 21:7973
diffusion equations for, computer program for solution with criticality searches, 22:20665 (EUR-3882)
diffusion equations for, computer program for solving few-group time-independent two-dimensional, (T), 22: 13903 (IDO-17257)
diffusion equations for, computer program for solving one-dimensional multigroup, (T), 22:15916 (GA-7543)
diffusion equations for, computer program for solving one-dimensional time-dependent, (T), 22:32428 (KAPL-M-6728)
diffusion equations for, computer program for solving two-dimensional, (T), 22:15914 (ANL-7305)
diffusion equations for, computer program for solving multigroup, (T), 22:32421 (AAEC/TM-429)
diffusion equations for, computer program for solving two-dimensional few-group, (T), 22:32425 (GA-8307)
diffusion equations for, computer program for solving two-dimensional multigroup, (T), 23:8915
diffusion equations for, computer program for solving two-dimensional time-independent multigroup, (T), 22: 15917 (GA-8188)
diffusion equations for, computer program for solving multigroup one-dimensional, 22:20407 (GA-8286)
diffusion equations for, CRAM code for solving multigroup, 21:29836 (SC-RR-66-150)
diffusion equations for, description of computer codes which utilize finite differences and iterative methods for solving, 23:40445 (RT/FIMA-(69)1)
diffusion equations for, error bounds for approximate solutions of, (T), 21:7662
diffusion equations for, error determination using reciprocal variational principles for, 22:14320
diffusion equations for, existence theorems for discrete form of multigroup, 22:6156
diffusion equations for, finite element methods for, (T), 25:41164
diffusion equations for, finite-difference approximation to, 21:12152 (ORNL-TM-1729)
diffusion equations for, finite-difference solutions of nonlinear time-dependent, (T), 21:42549
diffusion equations for, iterative solution of space—time, (T), 23:46903
diffusion equations for, line inversion technique for solution to two-dimensional fast reactor multigroup, 23:26107 (BNWL-SA-2164)
diffusion equations for, matrix methods for solution to, 22:50864
diffusion equations for, method for numerical solution of multidimensional, 21:38206
diffusion equations for, methods for solution of multigroup, (T), 21:7664
diffusion equations for, methods for solution to homogeneous and nonhomogeneous, 22:50862
diffusion equations for, numerical method for solution of time-dependent, (T), 22:13898 (EUR-3742)
diffusion equations for, numerical method for solution of three-dimensional multigroup, 21:38207
diffusion equations for, numerical methods for solution of, 21:23394 (EUR-3262.e)
diffusion equations for, numerical solution of time- and space-dependent multigroup, (T), 24:22060
diffusion equations for, optimum acceleration parameters in SIP method for, (T), 25:41168
diffusion equations for, positivity theorems for discrete form of steady-state multigroup, (T), 22:48801
diffusion equations for, solution by time-discontinuous synthesis method, (T), 21:7652
diffusion equations for, solution of space- and time-dependent, (T), 24:45721
diffusion equations for, solution using EXTERMINATOR-2 code, 21:25631 (ORNL-4078)
diffusion equations for, solution using perturbation theory, 22:1585
diffusion equations for, solution using variational method for time-dependent multigroup, (T), 21:46656
diffusion equations for, space-time synthesis method for solution of time-dependent, (T), 23:2118
diffusion equations for, synthesis method for solution of multigroup, (T), 23:52103 (CEA-R-3713)
diffusion equations for, use of prompt-jump approximation for solution to two-group time-dependent, 22:1882 (KAPL-P-3392)

diffusion equations for, variational rebalancing method for linear iterative convergence schemes of, 24:11308
diffusion equations in hexagonal geometry, difference equations for, 21:7640 (WAPD-TM-645)
diffusion equations in rectangular or cylindrical geometry in presence of temperature feedback, TWIGL solution to two-dimensional two-group space—time, 22:46710
diffusion equations in triangular geometry with arbitrary group scattering, computer program for solution of, 23:44803 (GA-9201)
diffusion equations of few-group, analysis of interface conditions with flux-adjoint weight constants for, (T), 22:25140
diffusion equations with flux-adjoint weighted constants, interface conditions for few-group, (T), 22:39556 (WAPD-TM-733)
diffusion equations with temperature feedback, computer program for solving two-dimensional two-group space-time, (T), 22:29834 (WAPD-TM-743)
diffusion from MPBE reactor core, reactor room heat load from, 21:17522 (LA-3606)
diffusion in a lattice with cavities, variational calculations of, (T), 22:1586
diffusion in aluminum—water lattices, measurements in continuous eigenvalue region of anisotropic, 23:28627
diffusion in an absorbing semi-infinite medium, Milne problem and albedo for, 21:38173
diffusion in axially symmetric reactor assemblies, multigroup calculations of, 22:18089
diffusion in benzene, heavy water, and light water, diffusion constant and cooling coefficients for, (T), 25:56631
diffusion in biphenyl and water, temperature dependence on geometric parameter in, (E), 23:39911
diffusion in core-and-blanket configurations, spectra for fast-reactor applications, (T), 25:18232
diffusion in cylinders, plates, and spheres, computer program for solving one-dimensional, (T), 25:12335 (AECL-3671)
diffusion in exponential piles, two group theory for, (T), 24:24904 (LFEN-NI.-42-a)
diffusion in finite media, (E/T), 21:42535
diffusion in finite moderating systems, iterative multipole source-sink calculations of, 21:33868
diffusion in finite slabs, Markov matrix calculation of, 21:29322 (NP-16791)
diffusion in gaseous, liquid, and solid homogeneous finite moderators, eigenvalues of transport operator for, 21:27509
diffusion in heavy moderators, time-energy distributions of, (T), 25:3541
diffusion in heavy water, age and fast-effect for monoenergetic, (T), 22:11878
diffusion in heavy water—light water mixtures at 253 to 294°K, parameters for, 22:1861(R) (TID-24098)
diffusion in heavy-water-moderated enriched-uranium lattices, (E/T), 21:29832(R) (MIT-2344-09)
diffusion in heterogeneous media with cylindrical holes, (T), 21:7649
diffusion in heterogeneous medium with slugs of small dimensions, Green function in, (T), 25:56636
diffusion in heterogeneous periodic media, tensor, (T), 21:17283
diffusion in heterogeneous systems, solution using Green's function method, 24:10897
diffusion in heterogeneous water moderated lattices, pulsed method for determination of, (E/T), 25:12861
diffusion in homogeneous media, calculation of Doppler temperature coefficient for, 21:7681
diffusion in homogeneous slab geometry, computer program for estimating effect of re-entrant hole in asymptotic-decay pulsed, 24:28677 (RPI-328-126)
diffusion in infinite and finite media, approximations to energy-dependent Boltzmann equation for, (T), 25:3539
diffusion in infinite media, approximation for synthetic scattering kernel for, (T), 25:5482
diffusion in infinite medium with isotropic scattering, solution for, (T), 23:28226
diffusion in infinite medium, direct operational calculation of age and flux for, (T), 25:45880
diffusion in lead, research using pulsed-source technique, (E), 22:39539 (AEET/NP-16)
diffusion in medium with duct, accuracy of P_1 approximation for, 24:49239
diffusion in movable reactor materials, improved spatial differencing for, (T), 25:6177
diffusion in multiregion systems, Laplace-transform solution of one-dimensional group equation for, (T), 22:1571
diffusion in nonlinear multiplicative media, calculations using eigenfunction-expansion method, 24:6805
diffusion in one-dimensional one-region systems, linearly anisotropic extensions of asymptotic, (T), 24:43850
diffusion in plane layers, solutions for quasi-linear steady state equations for, 23:40449
diffusion in polarizing media, kinetic equations for, 21:33860(T) (AEC-tr-6719, pp 29-43)
diffusion in reactor systems, numerical solution of three-dimensional equations for, 21:31689
diffusion in reactor systems, synthesis of three-dimensional flux shapes using trial functions for, 21:30191
diffusion in reactors, ARC system perturbation modules for, 24:47934 (ANL-7610, pp 465-537)
diffusion in reactors, comparison of computer programs for multigroup analysis of, (T), 24:41062 (RT/FIMA-(69)3)
diffusion in reactors, computer program for solving multigroup, (T), 25:36651 (UARAEE-107)
diffusion in reactors, model of stochastic, 21:30121 (CONF-660206, pp 531-65)
diffusion in reactors, multichannel variational synthesis equations for, 21:17453 (KAPL-M-6588)
diffusion in reactors, nodal method for analysis of, (T), 24:41065
diffusion in reactors, two-point kinetic equation for, 21:40360
diffusion in reflected spherical reactors, adjoint method for solution of multigroup equations for, 24:38626
diffusion in slabs, calculation method for, 22:4383
diffusion in small fast reactor cores, analysis using asymptotic methods, 21:25634 (UCRL-70012)
diffusion in solutions of boric acid, effects of concentrations on, 25:6183
diffusion in sphere shaped heavy water assemblies, effects of buckling calculations on, (E/T), 24:11324
diffusion in spherical geometry, elementary solutions of monoenergetic Boltzmann equation for, (T), 22:11877
diffusion in steady state bare homogeneous reactors, calculation of real eigenvalues for, (T), 23:2109
diffusion in thin critical slabs, angular synthesis approximation applied to, 21:38180
diffusion in three-dimensional geometries, formulation of double P-0 approximation for, (T), 25:23391
diffusion in two-dimensional geometries, computer program for solving few-group equations for, 25:1955 (KFKI-70-13-RPT)
diffusion in two-dimensional media, computer program for calculating, (T), 25:9947 (TRG-Report-1990)
diffusion in water at 18 to 280°C, 24:20306
diffusion in water, cadmium ratio variation with distance, (E), 24:52358 (FMRB-6)
diffusion in water—zirconium lattices, (E), 22:5727
diffusion in water-moderated slab lattices, transport equation solution for, (T), 21:13952 (CEA-R-3014)
diffusion in zirconium hydride, temperature dependence of, (E), 23:28228
diffusion length and streaming factors for water, effects of voids on, (E), 22:11882
diffusion length in biphenyl, HB-40, terphenyl, and water, static measurements of, (E/T), 23:15683
diffusion length in concrete, measurement by foil activation, 21:21366 (AD-646630)
diffusion length in finite slab, analysis of energy dependent, (T), 23:2111
diffusion length in heterogeneous non-multiplying assembly, integral transport equation solution for, (T), 23:24005
diffusion length measurements in aluminum—water lattices of exponential piles, 22:33010
diffusion length measurements in parallel-plate uranium—water lattices, results of, 23:28627
diffusion length measurements in water, effects of source arrangement on foil activation for, (E), 25:6182
diffusion lengths for graphite-absorber mixtures at 200 to 2000°K, (T), 23:21227
diffusion lengths in graphite, (E), 21:35437(R) (EANDC(E)-76(U))
diffusion measurements using modulated sources, (T), 22:3594
diffusion of pulsed, effects of time-of-flight on decay constant for, (E/T), 21:35394 (UJV-1720)
diffusion of pulsed, in graphite, (E), 21:5477
diffusion of pulsed, in heavy-water-moderated enriched-uranium lattices, (E/T), 21:33858 (MIT-2344-07)
diffusion of, dispersion relations for, 24:28675 (ORNL-TM-2942)
diffusion of, eigenvalue methods for time-dependent, (T), 24:47559
diffusion of, eigenvalues of flux synthesis equations for, (T), 25:41166
diffusion of, empirical equation from design-of-experiments method for, (T), 25:45877
diffusion of, ETC program for calculating multigroup P(0) and P(1) elastic transfer coefficients for, 21:29838 (WANL-TME-1577)
diffusion of, finite element treatment of, (T), 25:41165
diffusion of, geometric analysis of trajectories in, (T), 21:5466(T) (ORNL-tr-1379)
diffusion of, space synthesis with energy group collapsing for few-group, 24:40541 (WAPD-TM-959)
diffusion of, variational principle for determining pseudofundamental decay eigenvalues for, 21:38209
diffusion operations for, comparison of alternating-direction implicit time-differencing methods for solution of, (T), 23:47320
diffusion parameters for graphite with cylindrical channels, measurement using pulsed-source technique, (E), 22:13902 (IAE-1363)
diffusion parameters for graphite, (E), 22:7618
diffusion parameters for graphite, measurements using pulsed-source technique, (E), 23:19137
diffusion parameters for heavy water spheres, die-away measurements of, (E), 24:22061
diffusion parameters for hydrogenous media, pulsed-source technique for, (E), 22:39559
diffusion parameters for ice and water at -19 and 1.0°C, (E), 21:15474
diffusion parameters for poisoned water moderator, use of pulsed neutron source variable buckling technique for, 23:37760
diffusion parameters for polyethylene and water, (T), 22:29868
diffusion parameters for polyethylene, measurement using pulsed source technique, (E), 22:9765
diffusion parameters for water at bucklings of 0.60 to 1.80 cm^{-1}, measurements using pulsed-source technique, (E), 23:3905
diffusion parameters for, measurement and analysis using homogeneous moderator—detector, (E/T), 22:5728
diffusion parameters for, use of empirical functions to determine, (E/T), 22:11894
diffusion parameters in graphite with channels, measurement using pulsed source method, (E), 22:29889
diffusion parameters in heavy water spheres, determination using pulsed source technique, (E), 25:5485
diffusion parameters in water moderator, 23:15752
diffusion parameters in zirconium hydrides, temperature dependence of slow, (E/T), 25:48002
diffusion parameters of carbon black, measurement using pulsed-neutron technique, (E), 21:7678
diffusion properties of polyethylene and water, measurement using pulsed neutron techniques, 23:49307
diffusion theory calculations for reactor and shielding analysis, transport-corrected boundary conditions for, (T), 23:5752 (UCRL-50443)
diffusion theory computer code MAGOG, 22:3926 (AEEW-R-531)
diffusion theory constant calculations, computer program for fitted, 22:7616 (WAPD-TM-671)
diffusion theory for adjacent finite media, testing by pulsed neutron measurements, 21:25419
diffusion theory for homogenization of Wigner-Seitz cell, description of two group, (T), 22:35659 (AEEW-R-594)
diffusion theory for plane, cylindrical, and spherical geometries, computer program for one-dimensional multigroup, (T), 22:7610 (ANL-7319)
diffusion theory for reactor, transport effects in, 22:6158
diffusion theory for thin slabs, formulation using Markov matrix method, 21:21385
diffusion theory for transient spectra in beryllium, (T), 22:24798
diffusion theory for two-region reactors, two-group, 21:7666
diffusion theory for, albedo calculations using generalized endpoint method, 21:42533
diffusion theory for, classical-mechanical analogy of time-dependent, 21:21380
diffusion theory for, complementary variational principles in, 21:21395
diffusion theory for, extensions of asymptotic, (T), 22:24802
diffusion theory for, minimum principles in multigroup, 21:5471
diffusion theory for, Monte Carlo program for time-dependent, 21:25670
diffusion theory for, reciprocity properties of adjoint kernels in multigroup and age model, (T), 22:24808
diffusion theory for, survey of methods in, 22:48141
diffusion theory for, synthesis approximation model for detailed three-dimensional space-time problems in, 22:16325 (WAPD-TM-736)
diffusion theory for, testing by pulse decay experiments, (E), 22:26783
diffusion theory for, variational principles for, 21:7621 (AD-638024)
diffusion theory for, variational principles in, 21:38210
diffusion theory of, iterative method for determination of minimal eigenvalue in, (T), 22:32472
diffusion theory of, use for reactor kinetics calculations, 21:35772 (AD-650529)
diffusion theory of, variational methods in, 21:35607
diffusion theory parameters from solution of transport equation for, computer program for calculating, 21:33845 (AAEC/E-174)
diffusion theory with anisotropic scattering for cylindrical and slab geometry, 21:17273
diffusion theory with space-dependent Doppler effect, 21:7672
diffusion through non-hydrogenous shielding, calculation of, 21:15789
diffusion wave reflection and refraction at interface between two semi-infinite media, (T), 22:32473
diffusion—transport approximation for, improved parameters for, (T), 23:39917
diffusion-length calculations for slab geometry using one-speed transport theory in rectangular coordinates, (T), 23:5757
dipole moment of, production of ultracold neutrons for measuring, (E), 24:1727
disadvantage factors for reactors, calculation from transport theory with linearly anisotropic scattering of, 23:4417
discrimination with respect to gamma radiation, design and performance of NE 213 scintillation detector for, 21:45363 (LYCEN-6738, pp 176-9)
dispersion in uranium—heavy water system, measurements using neutron wave technique, (E), 23:44811
dispersion law for deuterium oxide—uranium carbide systems, 22:32993
dispersion law for monoenergetic, in die-away experiment, 23:37699
dispersion law for, comparison of calculated and experimental data for beryllium and graphite for, 23:33111
dispersion law for, multigroup transport approximations for, 22:33086 (ANL-7310, pp 431-511)
dispersion law parameters, summary of experimental techniques for measuring, 22:32995
dispersion relations for pulsed, expansion of Cauchy integrals for, (T), 23:25757 (BNL-13422)
dispersion relations for pulsed, expansion of Cauchy integral for, (T), 24:8803 (ORO-3858-1, pp 76-119a)
dispersion relations for, in terms of reactivity, (T), 22:5723
distribution analysis in semi-infinite and slab geometry by computer program for step and sinusoidal source, 21:42735
distribution approximations for, use of comparison functions for spatial and temporal behavior of, 22:14319
distribution around isotropic point source, calculation of angular and spatial, 21:21399
distribution between two cylindrical moderaters in an interacting assembly, (E/T), 24:22495 (CTH-RF-18)
distribution density in uranium dioxide fuels, exponential pile measurements of, 24:50539
distribution fluctuation analysis in integrated systems of reactors and detectors, adjoint weighting in equations for, 24:11303
distribution from point source in homogeneous medium with spherical surface, (T), 22:41939

distribution in adjacent half infinite media, energy dependent transport theory for, (T), 25:12857
distribution in AGN-201, statistical fitting of, 21:40686
distribution in and around residential structures, effects of altitude of 14-MeV neutron source on, 23:31747 (CEX-65.13)
distribution in boron-containing media, Monte Carlo model for energy, space, and time, 25:4159
distribution in clusters of rod type fuel element assemblies, calculation of first flight collision probabilities for, (T), 25:60235
distribution in copper reflected fast pulsed assemblies, (E/T), 24:43801 (AE-399)
distribution in core-2 seed-1 of Shippingport, comparison of calculated and measured activation, 23:37417
distribution in critical assemblies, Monte Carlo calculation of core heterogeneity effect on, 24:26834
distribution in cylinder shaped reactors, spherical function solution for, (T), 24:20622 (NP-18028)
distribution in empty channel graphite pile, pulsed measurement of, (E/T), 24:20610
distribution in enriched uranium fueled heavy water-moderated reactors of, use of kinetic equations for calculating, 22:24965 (IS-1808)
distribution in fast critical assemblies, heterogeneous effects on, (E/T), 22:7901(T) (ANL-Trans-541)
distribution in fast reactors of, calculation by modal approximation of stationary, 21:46914
distribution in fast reactors, neutron flux factorization for calculation of space and energy, 25:54269
distribution in graphite moderated water cooled coupled core reactors, cross spectral density sink frequency for, (T), 25:10275
distribution in graphite moderated water cooled coupled core reactors, cross spectral density sink frequency for, (E/T), 25:10278
distribution in graphite moderated water cooled coupled core reactors, cross spectral density sink frequency for, (E/T), 25:10279
distribution in heterogeneous reactor lattice near a weak perturbation, (T), 21:35582 (NP-16822)
distribution in hydrogenous medium from Po—Be source, 24:51770
distribution in light water lattices, 21:2879
distribution in multi-zone assembly of, variational method for multi-group calculations of, (T), 22:20966
distribution in multiregion reactor cells, albedo method for calculation of, (T), 24:4132
distribution in neutron-absorbing rods, description using P/sub n/ approximation, (T), 21:9911
distribution in Peach Bottom Reactor core, zero power measurements of, 21:15652 (GAMD-7353)
distribution in Phoebus 2A, (E/T), 24:33464
distribution in power reactors, multidimensional stochastic model analysis for, (T), 23:31150
distribution in reactor core and reflector, effects of control rods on, 21:21658
distribution in reactor fuel assemblies, analysis of integral transport methods for, 22:30390
distribution in reactor of, diffusion equations calculation of control rod effects on, 21:42751
distribution in reactors of, nonlinear parabolic solution to diffusion equations describing, 21:38582
distribution in reactors, algorithms for space-energy and angular, 23:52455(T) (JPRS-48331, pp 106-22)
distribution in reactors, analysis of Shotkin space—time calculation of, (T), 24:11292
distribution in reactors, calculation of optimum and non-optimum space and energy dependent, (T), 23:37709
distribution in reactors, corrections for Shotkin space—time calculation of, (T), 24:11297
distribution in reactors, effects of reactivity on, 22:6139
distribution in reactors, use of degenerate kernel formulation of scattering operator for determination of, 22:27493
distribution in reactors, use of statistical characteristic function for determining probability function for, 23:9232
distribution in rocks of different porosity, Monte Carlo method for calculation of, 24:9514
distribution in rocks of varying porosity, Monte Carlo method for calculation of, 25:4152(T) (CSIRO-Trans-10083)
distribution in sandstone saturated with fresh and salt water, Monte Carlo method for calculation of space-time, 24:9512
distribution in shielding of Prototype Fast Reactor, COMPRASH and ATTOW diffusion programs and MOB Monte Carlo program for calculation of, 23:13469 (AERE-R-5773(Vol.3), pp 802-33)
distribution in slabs, solution to Boltzmann equation for monoenergetic, (T), 25:17670
distribution in soil from californium-252 source, effects of soil depth and type and distance from source on, 24:4376
distribution in source-free infinite cylinder, Fourier series solution of, 21:38175
distribution in sphere with cavity, solution for one-velocity problem, (T), 23:46530
distribution in subcritical reactors, correlation functions with Poisson primary, 23:43209
distribution in surface of heavy nuclei, evidence from mesons (K⁻) capture by emulsion nuclei for, 21:25490
distribution in Thermal Tungsten Nuclear Rocket Critical Experiment, 21:19448 (GA-6942)
distribution in thin homogeneous natural uranium slabs, synthesis solution of multigroup Boltzmann equation for, 25:60214
distribution in time-varying reactors, effects of large step reactivity insertions on, 22:18609
distribution in uniform slabs, computer calculations using S/sub n/ method, 21:35378 (AD-633426)
distribution in uranium oxide (UO_2) reflector for BR-1, analysis of, (E/T), 22:53425
distribution in water moderated thorium oxide fueled, results of measurements of spatial, 24:18783 (WAPD-TM-915)
distribution in water-moderated lattices, calculation using K-7 Thermos code, 21:19362 (KR-113)
distribution in well logging, Monte Carlo calculation of nonstationary, 24:51777
distribution of cosmic, during maximum and minimum solar activity, (E), 22:24068
distribution of cosmic, in the atmosphere with allowance for density variation, (T), 23:20730
distribution of cosmic, near atmosphere—earth interface, 24:17711
distribution of cosmic, near ground level, (T), 22:45979
distribution of ionization induced by, in ionization chambers, 21:8796 (ORNL-4007, pp 171-210)
distribution of monoenergetic, integral transform methods for infinite medium spherically symmetric scattering and isotropic infinite plane pulsed source, (T), 22:37562 (RT/FI-(68)15)
distribution predictions in reactors, time-dependent, 21:35773 (AD-650544)
distribution probabilities for reactors, use of stochastic operator method for determining, 23:13580
distribution without temperature feedback of stationary reactor, analysis of probability, (T), 23:33098 (WAPD-TM-855)
distributions for initial-value transport problems, numerical solutions for time-dependent, 24:7270
distributions for one-mode stochastic reactor model, use of time-dependent computer program for, 22:14307
distributions from cylindrical sources, STOCK-CAR computer program for calculation of dose and flux, 21:11934(T) (ORNL-tr-1372)
distributions from hydrogen-bearing moderating radiators, energy and time, (T), 22:44572(T) (ANL-Trans-638)
distributions from isotropic point sources in air, angular and energy, (T), 21:21020
distributions from pulsed sources in moderators, time-dependent, (T), 22:20417(T) (JPRS-43682, pp 106-22)
distributions in heavy moderators, calculation of pulse width as function of pulse mean energy for determining time and energy, 24:7302
distributions in heavy moderators, use of time response of threshold detector for determining, 23:37761
distributions in heterogeneous lattices, Monte Carlo program MEGMOC for calculating stationary, 21:29846
distributions in lithium, angular, energy, and spatial, (E/T), 25:3538
distributions in moderators, spectrum of relaxation lengths for, (T), 23:15339
distributions in reactors, equations for generating functions for determining, 23:11330 (RCN-98, pp 41-61)
distributions in reactors, neutron conserving Russian Roulette analysis of, (T), 24:33521
distributions in reactors, phase space time evolution method for determining time dependent, 23:37710
distributions in reactors, single-channel flux synthesis for determining static and dynamic, 22:32825
distributions in regular lattices in ANNA reactor, measurements of macroscopic, 23:52409 (INR-1058)
distributions in thermal nonmultiplying polycrystalline media, evaluation of existence theorems for discrete eigenvalues of pulsed, 23:33102
distributions in water from tritium (p,n) reaction source, spatial, (E), 22:1581
diurnal variation of cosmic, position relative to ecliptic plane of source of, (E), 23:46333
Doppler broadening of p-wave and s-wave resonances of, (T), 22:14296 (RPI-328-100, pp 140-87)
Doppler coefficient measurements in SEFOR mockup in ZPR-3, 21:40674 (GEAP-5294)
Doppler coefficients, TRIX-2 computer program for, (T), 23:47333 (CNM-R-2(Vol.3), pp 1473-81)
Doppler effect and depolarization by coherent spin waves in ferrite excited by microwave field, 25:45597
Doppler effect measurements in fast critical assemblies, error analysis and description of activation technique for, 23:37614 (NP-17908)
dose absorption in underground shelters, relation to semi-infinite media, (T), 23:36755 (AD-686691)
dose and dose rate in tissue equivalent spherical phantoms, development of computer programs for calculation of parameters for monoenergetic, 23:48048 (NYO-2740-6, pp 99-106)
dose and fluence measurements of reactor fission foil—Lexan track detector for, 23:31514 (AD-679676)
dose and LET distributions in tissue-equivalent phantom following broad and collimated beam exposure from californium-252 source, Monte-Carlo method for calculating, 25:32420
dose calculation for monoenergetic, as function of LET, 24:48539 (CEA-CONF-1554)
dose calculations for high-energy, 24:44474 (CONF-691101-, pp 146-58)
dose calculations in concretes, 25:49965
dose calculations outside shielding for proton accelerators, 22:20396
dose conversion factor for californium-252, 24:12085
dose conversion factors for isotopic, sources, 23:48058
dose depth distribution in phantoms, experimental and theoretical determination of, 23:16283 (EGG-1183-2165(Rev.))
dose depth distribution in small volumes, technique for determining, 23:16283 (EGG-1183-2165(Rev.))
dose depth distribution measurements in man-equivalent phantoms, 23:11752 (BNWL-481-2, pp 155-200)
dose determination for personnel in graphite critical assembly accidents, 21:3412
dose determinations of high-energy, for radiation protection, depth, (T), 22:31901
dose distribution functions for, in anthropomorphous and tissue-equivalent phantoms, 21:20180 (ORNL-P-2897)
dose distribution in aboveground concrete structures, (T), 24:6606
dose distribution in biological materials, calculations of absorbed, as a function of depth, comparison of methods for, 25:6693 (CONF-691106-, pp 73-94)
dose distribution in cadaver of dogs and in phantom, measurement of, 22:36279
dose distribution in ellipsoidal tissue-equivalent phantoms, calculation of, 24:44478 (EUR-4452, pp 183-92)
dose distribution in human phantoms, determination of, 21:3411
dose distribution in polyethylene, 25:2494
dose distribution in the Tungsten Water-Moderated Reactor critical assembly, (E/T), 23:9212
dose distribution in tissues as function of LET, calculation of 0.025 eV to 10 MeV,, 25:49182
dose distribution in tissues of dogs, phantom study of γ and, 23:14165
dose distribution measurements in air during Operation HENRE, 23:9939 (ORNL-4316, pp 231-69)
dose distribution measurements in betatron radiotherapy room, 24:33076
dose distribution of 0.4- to 2.0-GeV, in phantoms, Monte Carlo calculations of, 23:6484
dose distributions in biological materials in relation to energy, methods for calculations of, 25:6696 (CONF-691106-, pp 129-39)
dose distributions in heterogeneous phantoms, depth, (E/T), 25:32415 (ORNL-TM-3329)
dose distributions in infinite slab of standard man composition, 23:48057
dose distributions in rabbit and rat phantoms following exposure to monoenergetic beams, correlation of LET distributions and, 25:55229
dose equivalent and quality factor measurements in mixed neutron—gamma fields, use of organic scintillation detectors for, 21:45346 (INR-785/XIX/D)
dose equivalent determination for broad energy spectra of, 23:50526
dose equivalent estimation from broad spectra using activation detectors, 23:50140
dose equivalent in mixed radiation fields, use of organic scintillation detectors and tissue-equivalent ionization chambers for determining, 23:4849
dose equivalent in tissues, use of energy deposition measurements to calculate mixed, 24:44481 (EUR-4452, pp 375-400)
dose equivalent measurements around low-energy accelerators, 23:50182
dose equivalent measurements in gamma—neutron fields, use of organic scintillation detectors for, 22:2369
dose equivalent measurements in mixed neutron-gamma fields, method for, 22:16916
dose equivalent measurements in neutron—gamma fields, use of paired ionization chambers for, 22:12659
dose equivalent measurements of, energy absorption spectrum—radiation dose conversion operator for liquid scintillation detectors used in, 22:12658
dose equivalent of, combined with γ radiation, 21:1766
dose equivalent rate in pulsed and steady-state fields, design of portable instruments for measuring, 21:1620
dose equivalent rate measurements near reactors, performance of detectors for, 22:14746 (AERE-M-1848)
dose equivalent rate measurements of, development of dosimeters for, 22:16920
dose equivalent rate measurements of, error evaluation on multidetector methods in, 24:500
dose equivalent rate measurements of, proportional detector with boron-coated cathode for, 23:24430 (SZS-18/68)
dose equivalent rate measurements of, proportional detector with boron-coated cathode for, 23:35467(T) (ORNL-tr-2150)
dose equivalent rate of, use of boron trifluoride proportional and scintillation detectors for evaluation of, 21:8594
dose equivalent rates of, design of moderated spherical helium-3-filled proportional counter for evaluating, 22:43123
dose equivalent rates of, methods for measurement of, for use in health physics, 24:50902
dose equivalent rates of, transmitted through shielding under bombardment by 4- to 5-GeV photons, (T), 23:36772
dose equivelent rates and spectra of, computer program for analysis of, 21:43227 (JAERI-1140)
dose external to fast reactor core, spatial distribution analysis for absorbed, 21:44942 (LA-DC-8538)
dose fields for therapy of malignant tumors, use of linear programming and statistical testing for determining optimum, 22:45534
dose from 35-MeV betatrons used for electron- and x-radiotherapy, 22:51687
dose from reactor after passing through iron filters, 23:49314
dose measurement data from Bonner detectors, multisphere technique for analysis of, 22:36110 (LA-3700)
dose measurement for metals damage tests, using activation detectors, 23:41682(R) (EURAEC-2087)
dose measurements for 35-MeV Asklepitron betatron used for radiotherapy, 22:51688
dose measurements for activated tubular base plate of Fessenheim Power Reactor Unit 1, 24:43603 (CEA-N-1305)
dose measurements for tungsten—water-moderated critical assembly, analysis of, 22:35602 (N-68-10291)
dose measurements in neutron—gamma fields, tissue-equivalent proportional detectors for, 22:36026 (BNWL-SA-1632)
dose measurements of, during run of Kiwi reactor at Nuclear Rocket Development Station, 21:10864 (LA-3622)
dose measurements of, response of copper-63 and phosphorus-31 activation detectors for, 23:47747
dose rate attenuation by iron and lead and by laminar shields of each with polyethylene, (T), 23:16860
dose rate attenuation by iron and lead, (T), 22:31909

dose rate conversion factor, flux, and quality factor, use of maximum exposure dose (MED) to express product of, 23:33706 (ORNL-TM-2574)
dose rate in reprocessed breeder reactor fuel, calculation of, 22:23247(T) (EURFNR-385)
dose rate in shielding materials, method for calculation of, 21:21039
dose rate measurements in AGR, 21:46879
dose rate measurements of, design of moderated scintillation detectors for, 22:43119(P)
dose rate measurements of, logarithmic current amplifiers for rate meter used for, 22:23340(P)
dose rate measurements of, proportional and scintillation detectors for, 22:19161 (SZS-2/68)
dose rate measurements of, review of concepts for, 22:43118
dose rate measurements up to 5 MeV, dosimeter for, 23:45558
dose rate of, design of scintillation detector in moderating sphere for measuring energy-independent, 21:45435 (BNWL-481-4, pp 16-23)
dose rate removal cross sections and buildup factors of, (E/T), 24:12875(T) (ORNL-tr-2247)
dose rate removal cross sections and buildup factors, (E/T), 25:30637
dose rate to human tissues from californium-252 implants, computer program for calculating, 25:49174 (CONF-710402-(Vol.2), pp II.16-21)
dose rates for 3.2 MW VVR-S reactor, 23:19528 (NP-17788)
dose rates for cosmic, at sea level, (E), 25:24928 (HASL-241)
dose rates from plutonium dioxide, 22:31060 (MLM-1460)
dose rates from plutonium dioxide—uranium dioxide fuel rods, method for calculation of, 25:4314
dose rates from tandem van De Graaff accelerators, angular distributions of, 22:1598(R) (COO-1265-49)
dose rates in atmosphere, from cosmic, (E/T), 24:37281 (HASL-228)
dose rates in steel compartments in reactor radiation field, (E/T), 21:7308
dose rates in two-layered slab shields, semi-empirical representation of, 25:59117
dose rates of, operation HENRE measurements of angular distribution of, 23:50478 (CEX-65.11)
dose rates to soft tissue from cosmic, (E), 21:37202
dose to body, whole-body spectrometer for sodium-24 determination for measurement of, 23:38273
dose to bone marrow, 25:44805
dose to dogs following use of plutonium-238 as power source for artificial heart, γ and neutron, 25:4432
dose to dogs from implanted plutonium-238-powered circulatory assist device, 25:26931
dose to human populations exposed to atomic bombing at Hiroshima and Nagasaki, estimation of, 24:39504 (ORNL-4446, pp 225-41)
dose to human skin following contamination by plutonium-238-labeled microspheres, 22:38261(R) (SC-CR-67-2845)
dose to human tissues, use of standard man for calculation of multicollision fluence-to-kerma conversion factors for, 24:39506 (ORNL-TM-2991)
dose to man during criticality accidents, determination of, by phosphorus-32 activation of sulfur in hair, 24:2666
dose to man following accidental exposure, effectiveness of activation and biological detectors for measuring, 25:58019
dose to man following inhalation of plutonium-238-labeled microspheres, 22:38261(R) (SC-CR-67-2845)
dose to man from contaminants of plutonium-238 used as power source in implanted circulatory assist device, 22:31069
dose to man from plutonium-238-powered circulatory assist device, refining methods to reduce, 22:30784
dose to man in Japan from external occupational exposures, estimation of genetically significant equivalent, 25:55230
dose to man, invariant plunging method for evaluation of, 23:39528
dose to man, use of proportional detectors for measuring cosmic, 22:2437
dose to personnel at AB Atomenergi during 1966, 22:31057 (AE-312)
dose to personnel at research reactors, 22:6818
dose to personnel loading plutonium-239 billets in subcritical and critical arrays, neutron-to-gamma dose rate ratio measurements for determining, 23:11866 (UCRL-71328)
dose to polymeric materials, ASTM standard method for calculation of, 25:26535
dose to simulated man, invariant imbedding method for transport equation for, 24:28676(T) (ORNL-tr-2288)
dose to surface of biological materials, computer-based measurement of monoenergetic, 24:50904
dose to thyroid during activation analysis of intrathyroidal iodine content of man, 22:45508(R) (PG-Report-826)
dose to tissue equivalent phantoms, Monte Carlo calculations of absorbed and equivalent 580-MeV, 25:55216
dose-equivalent rate calculations in transverse shielding of 0.5-TeV proton synchrotron, 22:46568 (HASL-199)
dose-equivalent rates of, around high-energy proton accelerators, errors in measurement of, 23:10875 (UCRL-18424)
dose-equivalent rates transmitted through lateral shielding of electron or proton accelerators, barrier factor tables for determining, 23:13146 (HASL-203)
doses in rectangular concrete ducts, semiempirical equations for, (T), 23:7281(R) (ORNL-4280)
doses in single-compartment aboveground concrete structures from thermonuclear explosion 100 m above ground, (T), 25:30633
doses in tissues, flux-to-dose conversion factors for, 21:46643(R) (ORNL-4134)
doses of, effects of fractionated, on mutations in silkworm gonia, 21:20117(R) (NP-16482)
dosimetry after radiation accident, use of whole body counting of sodium-24 in man for, 21:39270 (SZS-7/67)
dosimetry and monitoring of, design of integrating pulse discharge ionization chamber for, 21:4684 (BNL-9593)
dosimetry and quality factor measurements of, equipment for, 22:28181
dosimetry applications, instrumentation, and techniques, research on, 25:8677 (NYO-2740-7, pp 5-51)
dosimetry around medical betatron using uranium-loaded dielectric track detectors, 25:12320
dosimetry at 10 keV and up, design and performance of proportional detector for, 22:28175 (AERE-R-5656)
dosimetry at 10 to 5000 Mrad, performance of lithium fluoride thermoluminescent crystals for, 23:14055
dosimetry at depth in tissues, use of plastic phosphor dosimeter to measure proton recoil dose for, 22:45508(R) (PG-Report-826)
dosimetry at Dounreay Experimental Reactor Establishment, method for, 21:40578 (TRG-Report-1494)
dosimetry at high altitude, design of tissue-equivalent proportional detectors for, 22:4482 (BNWL-SA-1364)
dosimetry at Los Alamos tandem accelerator facility, 21:26412 (LA-3641)
dosimetry at Saclay and Grenoble research reactors, methods for, 23:7801 (CEA-R-3423)
dosimetry behind shielding, response of various dosimeters for, 25:57858
dosimetry during criticality excursions, techniques for, 22:36111 (LA-3910)
dosimetry equipment and methods at irradiated fuel element treatment plants, 21:43290
dosimetry following nuclear accident, development of bare and cadmium-covered gold and copper resonance activation dosimeters for, 23:47844 (K-1763)
dosimetry for accidental exposure, use of activation products in human blood, hair, and nails for, 23:6442(T) (NSJ-tr-118)
dosimetry for Drosophila, effects of cage rotation angle on monoenergetic, 22:49326 (NYO-2740-5, pp 6-200)
dosimetry for Drosophila, mice, and Tradescantia, monoenergetic, 25:8677 (NYO-2740-7, pp 5-51)
dosimetry for in vivo activation analysis, 24:31981 (CEA-N-1245)
dosimetry for intracavity radioapplicators containing californium-252, 24:32015
dosimetry for irradiation of biological materials, 25:55002 (NYO-2740-8, pp 7-146)
dosimetry for mice in vicinity of BNL medical research reactor, background, 22:49326 (NYO-2740-5, pp 6-200)
dosimetry for personnel, survey of developments in, 24:25478 (BNWL-1340)
dosimetry for personnel, use of dielectric track detectors for rapid, 24:41874 (AECL-3430, pp 1-3)
dosimetry for personnel, use of phosphorus and sodium activation in hair and tissues for, 24:21155 (CEA-R-3884)
dosimetry for radiobiological studies on Drosophila in γ fields, 25:29522
dosimetry for RBE determinations in mammals, use of magnesium chloride solution for, 24:23362
dosimetry for therapy, 22:40780
dosimetry for therapy, statistical methods for, 23:33725
dosimetry in accidents, personnel dosimeter for, 25:10881
dosimetry in air during and after excursion in AFRRI-TRIGA, tissue-equivalent kerma in, 24:6039
dosimetry in biological materials, 22:16997
dosimetry in biological materials, absorbed, 24:31975(T) (AD-691153)
dosimetry in biological materials, comparison of activation detectors and ionization chambers for, 21:43389
dosimetry in biological materials, Monte Carlo calculations in, 23:45729 (ANL-7535, pp 134-7)
dosimetry in biological materials, use of computer calculations of charged particle production and nuclear interactions for, 25:6694 (CONF-691106-, pp 95-115)
dosimetry in bone and soft tissue phantoms, use of Monte Carlo method in determination of, 22:8524 (CONF-670305-, pp 306-17)
dosimetry in concrete underground structures, effects of energy spectrum in air on, 21:36580 (RRA-M-65)
dosimetry in critical accidents by gamma counting of fillings in patients' teeth, 21:3410
dosimetry in critical assemblies and reactors, use of calorimetric dosimeters for, 23:2676
dosimetry in criticality accidents, use of body-sodium activation for, 21:43288
dosimetry in criticality accidents, use of manganese-activated $CaSO_4$ thermoluminescence dosimeter for, 25:21718
dosimetry in dogs following implantation of simulated power source for artificial heart, 23:35893
dosimetry in fuel reprocessing plants, radiation detectors for, 25:18800(T) (SC-T-713009)
dosimetry in gamma—neutron fields of reactors, use of polymethylmethacrylate dosimeters for, 22:2434
dosimetry in human arm during radiography, calculations for, 24:44538 (CONF-691101-, pp 843-59)
dosimetry in human phantoms, spatial distribution for, 21:43388
dosimetry in hydrogenous media, 22:24821
dosimetry in implantable nuclear fuel capsules for transplantable hearts, plutonium-238, 23:16419
dosimetry in intense radiation fields, sensitivity of activation detectors for, 22:21363
dosimetry in man, 21:43371 (UR-49-837)
dosimetry in man using activated calcium-49, 24:4619 (BNWL-1159, pp 3-6)
dosimetry in man, activated sodium-24 measurement for, 24:4618 (BNWL-1159, pp 1-2)
dosimetry in man, use of chromosome aberration frequency for, 22:8526 (CONF-670305-, pp 382-90)
dosimetry in man, use of sodium activation for, 21:43292
dosimetry in mixed fields, calibration of chemical dosimeters for, 24:16893
dosimetry in mixed fields, tissue-equivalent proportional counter for, 24:4461 (BNWL-1159, pp 7-30)
dosimetry in mixed gamma field, sensitivity of manganese-doped calcium fluoride thermoluminescent dosimeter for, 25:32282
dosimetry in mixed gamma field, stilbene scintillation detector for, 24:46470 (LNF-70/31)
dosimetry in mixed gamma—neutron field, design of spherical proportional detector composed of tissue-equivalent materials for, 23:13974 (BNWL-715(Pt.2), pp 181-225)
dosimetry in mixed gamma—neutron fields of modified thermal column of WRRR, 22:47028
dosimetry in mixed gamma—neutron fields, design and performance of portable tissue-equivalent proportional detector for, 23:11752 (BNWL-481-2, pp 155-200)
dosimetry in mixed gamma—neutron radiation field, performance of thermoluminescent dosimeters for, 21:19893 (BNWL-339)
dosimetry in mixed γ fields, review of detector performance for, 25:6690 (CONF-691106-, pp 3-11)
dosimetry in mixed neutron field, combination scintillation and ionization detector system for, 25:452(P)
dosimetry in mixed neutron—gamma radiation fields, review of techniques for, 25:23867
dosimetry in mixed radiation field, activation filters—thermoluminescent detector system for, 23:695 (BNWL-SA-1831(Rev.))
dosimetry in mixed radiation fields, dosimeters for, 23:2667
dosimetry in nuclear accidents, activation foil detectors for, 25:10884
dosimetry in nuclear accidents, chemical dosimeter for, 25:10883
dosimetry in nuclear accidents, personal, 21:28471
dosimetry in personnel, in presence of γ rays, performance of photographic film detector for, 22:21516
dosimetry in personnel, use of small proportional counters for, 22:43300 (AERE-PR/HPM-12)
dosimetry in personnel, using fission-fragment tracks in plastic, 25:444
dosimetry in phantoms, calculation of encapsulated californium-252, 25:18990 (ORNL-4584, pp 129-51)
dosimetry in presence of γ radiation in man, 21:45617 (ORAU-101, pp 70-3)
dosimetry in rabbits and rats, development of phantoms for, 25:18990 (ORNL-4584, pp 129-51)
dosimetry in radiation protection, experimental appraisal of validity of theory of, 21:43279
dosimetry in rats, comparison of sodium-24 activity to mortality data for, 22:45523
dosimetry in reactor environment, thermoluminescent detectors for, 24:31748
dosimetry in reactors, use of activation detectors for, 23:11873
dosimetry in relation to criticality accidents, 25:37728(R) (AECL-3860)
dosimetry in slab phantoms for calculation of equivalent doses and quality factors in relation to protection, 25:16191
dosimetry in tissue-equivalent phantom, 21:22772
dosimetry in tissue-equivalent phantom of rabbit eye, 25:4521
dosimetry in tissue-equivalent phantom, calculation of plutonium-238, 24:9595(R) (BNWL-1256)
dosimetry in tissue-equivalent phantoms for calculation of depth-dose curves, high-energy, 23:24668
dosimetry in tissue-equivalent phantoms, effectiveness of cultured Ehrlich ascite cells for, 24:6036
dosimetry in tissues using Rossi proportional detectors, 25:23856 (BNWL-SA-3561)
dosimetry in tissues, analysis of, 23:4969
dosimetry in tissues, computer methods for phantom studies, 21:8796 (ORNL-4007, pp 171-210)
dosimetry in vicinity of Korean TRIGA Mark II reactor, use of Bonner-sphere detector for, 25:34406
dosimetry in water-filled chest phantoms, effects of chlorine and voids on, 25:44817
dosimetry intercomparison for nuclear accidents, 23:9939 (ORNL-4316, pp 231-69)
dosimetry near TRIGA Mark II reactor, activation dosimeter for, 22:19163
dosimetry of 0.025-eV to 15-MeV, calculation of neutron fluence-to-kerma factors for standard man for, 23:50528
dosimetry of 0.5-eV to 10-MeV, performance of lithium fluoride thermoluminescent dosimeter for personnel, 23:2659 (AEEW-M-801)
dosimetry of 1.0- to 14.6-MeV, sensitivity of lithium fluoride and manganese-activated calcium fluoride thermoluminescent dosimeters for, 23:31557 (AD-682721)
dosimetry of 1.0- to 14.6-MeV, sensitivity of silver-activated metaphosphate glass dosimeters for, 23:31557 (AD-682721)
dosimetry of 10- to 500-keV, development of proportional detectors for personnel, 23:22103
dosimetry of 14-MeV, performance of Eastman NTA photographic film for, 21:39277
dosimetry of 400-MeV to 2-GeV, using soft tissue slabs, 23:10432 (ORNL-4316, pp 161-229)
dosimetry of 700-MeV, in phantoms, 22:10759 (JINR-P16-3587)
dosimetry of absorbed, using photographic method, 22:40680
dosimetry of biomedical power sources using plutonium-238, 22:4604 (LA-3696)

dosimetry of californium-252, design and performance of ionization chambers for, 25:8677 (NYO-2740-7, pp 5-51)
dosimetry of cosmic, at sea level and supersonic transport altitudes, 21:8800 (PG-Report-734)
dosimetry of cosmic, on body surface of man, effects of supersonic transport altitudes on, 21:26418(R) (PG-Report-771)
dosimetry of fast, in environs of d—T source, 22:35179
dosimetry of high-level, dielectric track detector with fissionable materials for, 23:26536(P)
dosimetry of low and intermediate energy, outside shields of accelerators, 21:1767
dosimetry of mixed beta, gamma, and neutron radiation, design of personnel dosimeter for, 22:38106(P)
dosimetry of mixed gamma and, thermoluminescent dosimeter for, 25:57849
dosimetry of mixed gamma radiation and, lithium-7 phosphate glass dosimeter for, 23:9771
dosimetry of personnel at AB Atomenergi in Sweden in 1968, 24:2652 (AE-369)
dosimetry of plutonium-238 heat sources, in-phantom, 25:4517
dosimetry of pulsed, design and performance of miniature tissue-equivalent ionization chamber for, 23:31560 (AD-684824)
dosimetry of pulsed, use of energy-independent gold foil activation detectors for, 23:4848
dosimetry of pulsed, use of gold foil activation detectors for, 21:26157 (UCRL-50007-66-2, pp 7-12)
dosimetry of reactor, response of lithium fluoride thermoluminescent dosimeters for, 24:14316
dosimetry of thermal and intermediate, boron foil—plastic track detector with partial cadmium filter for, 23:35528
dosimetry of thermal to 10-MeV, scintillation detector—spherical polyethylene moderator system for, 22:28182
dosimetry of, activation foil methods for, 23:29232 (THAL-AEC-23)
dosimetry of, adiabatic calorimeter for, 24:44334 (SJC-A-70-4)
dosimetry of, adiabatic calorimeter for in-pile, 24:16899
dosimetry of, at energies up to 50 MeV, calibration of spherical dosimeters for, 22:6656
dosimetry of, bibliography on fission foil—dielectric track detectors for, 25:34867 (NP-18849)
dosimetry of, boron-loaded nuclear emulsion in spherical water moderator for, 22:12655
dosimetry of, by fission-fragment method, 21:43284
dosimetry of, calculations for activation detector for, 24:11847 (RFP-1369)
dosimetry of, calibrated uranium—thorium glass track detectors for, 25:44647
dosimetry of, calibration of thermoluminescent lithium fluoride dosimeters for personnel, 23:26586 (RD/B/N-1332)
dosimetry of, calibration of tissue-equivalent ionization chambers for, 23:43605(R) (NYO-3510-10)
dosimetry of, calibration standards for, 22:12491
dosimetry of, calorimeters for in-core, 23:24471 (ZJE-28)
dosimetry of, characteristics of polyethylene-moderated proportional detectors for, 25:57782
dosimetry of, compact silicon detector with lithium-6 foil for personnel, 25:15951 (RFP-794)
dosimetry of, computer calculations for, 21:32631 (ANS-SD-4, pp 47-8)
dosimetry of, computer calculations for, 21:32630 (ANS-SD-4, pp 25-45)
dosimetry of, computer program for analysis of data from four-detector spectrometer for, 24:27434 (RD/B/N-1611)
dosimetry of, correction factors for thermal neutron backscatter and secondary gamma radiation in, 23:35528
dosimetry of, description of fissile radiator—solid-state track detector system for, 22:21358 (ORNL-TM-2120)
dosimetry of, design and performance of boron trifluoride proportional detectors with spherical moderators containing absorbers for, 23:11876
dosimetry of, design and performance of polyethylene-moderated, boron-10-loaded, silver-activated zinc sulfide scintillation detectors for, 23:35518 (JINR-P16-4480)
dosimetry of, design and performance of spherically moderated helium-3-filled proportional detector for, 22:28174 (AERE-R-5131)
dosimetry of, design of dosimeter for, 23:24474(P)
dosimetry of, design of dosimeter using boron-10- or lithium-6-doped nickel oxide as sensing element for, 21:14470(P)
dosimetry of, design of dual boron trifluoride proportional detector system for, 21:26248
dosimetry of, design of europium-activated lithium iodide scintillator for, 22:28178 (NP-17349)
dosimetry of, design of ionization chamber for, 21:28591(R) (NYO-2740-4)
dosimetry of, design of paraffin- or polyethylene-moderated detectors for rem, 22:23331
dosimetry of, design of tissue-equivalent ionization chambers for, 21:43280
dosimetry of, development of activation and fission foil detectors for, 25:49021(R) (UCRL-50007-71-1)
dosimetry of, development of Bonner multisphere detectors for, 25:10811 (CEA-CONF-1685)
dosimetry of, development of boron-10 and lithium-6-enriched nitrocellulose track detectors for, 25:49021(R) (UCRL-50007-71-1)
dosimetry of, development of dielectric track detectors for personnel, 25:10880
dosimetry of, development of fission foil—dielectric track detector for, 25:57856
dosimetry of, development of semiconductor detectors for, 22:38098 (CONF-670545-, pp 200-16)
dosimetry of, development of thermoluminescent alumophosphate glass personnel dosimeters for, 21:333
dosimetry of, development of thermoluminescent and exoelectron dosimeters for personnel, 25:57833
dosimetry of, developments in threshold detectors for personnel, 25:10882
dosimetry of, dielectric track detectors with converter foils for, 23:9720
dosimetry of, energy absorption spectrum operator for liquid scintillation counter for, 23:4838(T) (NSJ-tr-137)
dosimetry of, energy dependence of bare and cadmium-shielded gold activation detectors for personnel albedo, 24:33944 (LA-4341)
dosimetry of, errors in rate meters as function of radiobiological effects table, 22:376 (USNRDL-TR-67-67)
dosimetry of, evaluation of organic phosphors for, 23:9939 (ORNL-4316, pp 231-69)
dosimetry of, evaluation of systems for, 21:1744 (ORNL-P-2377)
dosimetry of, fabrication and performance of silver-activated phosphate glass for, 21:34493 (SFL-A-7)
dosimetry of, fission foil detector and nuclear emulsion for, 22:19168
dosimetry of, fission foil—glass track detector for personnel, 24:7662
dosimetry of, fission foil—Lexan track detector for, 25:44705
dosimetry of, fission foil-dielectric track detectors for, 24:27353
dosimetry of, for residents of Hiroshima and Nagasaki exposed to atomic explosion, effects of shielding on, 21:8796 (ORNL-4007, pp 171-210)
dosimetry of, in man, by measurement of induced sodium-29 activity, 21:10855 (CEA-R-3083)
dosimetry of, in Swedish personnel during 1965, 21:10854 (AE-253)
dosimetry of, instruments and materials for, 24:41720 (ANL-7635, pp 115-53)
dosimetry of, intercomparison of AERE criticality dosimeters for, 23:26583 (AERE-R-6008)
dosimetry of, intercomparison of personnel criticality dosimeters for, 25:4377 (AERE-R-6498)
dosimetry of, latent image fading in personnel monitoring film for, 22:38102 (MLM-1490)
dosimetry of, latent image fading in photographic film for personnel, 23:9753 (MLM-1570)
dosimetry of, lithium fluoride ribbon thermoluminescent dosimeter for personnel, 25:15952 (RFP-1581)
dosimetry of, lithium fluoride thermoluminescent badge for personnel, 25:26524(P)
dosimetry of, lithium fluoride thermoluminescent personnel dosimeter for, 25:21407
dosimetry of, method of exposure-data reporting for, 21:40119
dosimetry of, methods for, 21:6614 (SZS-10/66)
dosimetry of, micro-, 21:41275 (BNWL-SA-1003)
dosimetry of, moderated scintillation detectors for, 25:37654(P)
dosimetry of, multielement lithium fluoride thermoluminescent dosimeter for personnel, 25:46642 (BNWL-SA-3955)
dosimetry of, multifilter rhodium foil—thermoluminescent detector system for personnel, 24:4495 (BNWL-1159, pp 35-49)
dosimetry of, multiple activation detector for accident, 25:57857
dosimetry of, multisphere moderated scintillation detector system using Block—Shon technique for, 22:47384 (UR-49-894)
dosimetry of, multisphere polyethylene-moderated lithium fluoride thermoluminescent dosimeters for, 24:21024 (HASL-223)
dosimetry of, performance of activation detectors for, 21:8796 (ORNL-4007, pp 171-210)
dosimetry of, performance of beryllium oxide thermoluminescent dosimeters for, 23:2658 (AD-670591)
dosimetry of, performance of ferrous sulfate detectors for, 24:2667
dosimetry of, performance of fission foil detectors for, 23:11752 (BNWL-481-2, pp 155-200)
dosimetry of, performance of fission foil detectors for, 21:19893 (BNWL-339)
dosimetry of, performance of fission foil—dielectric track detectors for personnel, 25:57855
dosimetry of, performance of Fricke dosimeter for, 25:57862
dosimetry of, performance of ionization chambers and precision long counters for, 23:11752 (BNWL-481-2, pp 155-200)
dosimetry of, performance of scintillation detector for, 21:1769
dosimetry of, performance of semiconductor detector for, 21:8796 (ORNL-4007, pp 171-210)
dosimetry of, performance of semiconductor detectors and hydrogeneous radiator assembly for, 25:18798 (KFKI-70-29-HP)
dosimetry of, performance of silver-activated lithium borate glass for photoluminescence, 23:9763
dosimetry of, performance of tissue-equivalent proportional detector for, 24:31746
dosimetry of, performance of various detectors for, 23:4839 (ORNL-TM-2334)
dosimetry of, personnel albedo dosimeter using thermoluminescent detectors for, 22:51253 (RD/B/R-828)
dosimetry of, possibilities for using radioinduced electric resistivity in pure metals for, 24:27441
dosimetry of, pulse height-to-clock pulse converter for, 24:11792
dosimetry of, purification and pelletization of sulfur for, 22:12273 (K-1720)
dosimetry of, research on, 24:50899(R) (NYO-3510-16)
dosimetry of, response of hexane-filled ionization chamber for, 21:32492
dosimetry of, response of lithium fluoride thermoluminescent dosimeters for, 23:7839 (CONF-680920-, pp 525-42)
dosimetry of, response of malachite green carbinol in p-chlorostyrene for, 23:35530
dosimetry of, response of manganese-activated lithium borate thermoluminescent dosimeters for, 23:7813 (CONF-680920-, pp 140-7)
dosimetry of, review of instruments and methods for, 25:26534
dosimetry of, review of methods for, 23:47855
dosimetry of, review of methods for, 23:17804 (EGG-1183-2207)
dosimetry of, review on methods for personnel, 22:33673
dosimetry of, rhodium activation detector in spherical moderator for, 24:33945 (SC-DC-70-4660)
dosimetry of, scattering corrections for, 25:26483
dosimetry of, self-powered detector for, 25:57776
dosimetry of, sensitivity of aluminum oxide and tungsten for, 22:38105
dosimetry of, sensitivity of cerium and ferrous sulfate dosimeters for, 21:6312
dosimetry of, sensitivity of fission foil—dielectric track detectors for, 24:9661
dosimetry of, sensitivity of moderated boron trifluoride proportional detectors for, 22:21362
dosimetry of, sensitivity of moderated scintillation detectors for, 22:21362
dosimetry of, sensitivity of pocket ionization chambers for, 21:22170 (NP-16701)
dosimetry of, solid-state particle track detectors for, 22:43050
dosimetry of, spherical proportional detectors for, 24:31744
dosimetry of, standard uranium glasses for fission-track, 25:32280
dosimetry of, thermoluminescent dosimeter for personnel, 24:29587
dosimetry of, tissue-equivalent thermoluminescent dosimeter for, 23:9768(P)
dosimetry of, uranium foil—dielectric track detector for personnel, 25:57854
dosimetry of, uranium- or thorium-doped phosphate glass particle track detector for, 23:47858
dosimetry of, use of boron trifluoride proportional counters in remmeter for, 22:28183
dosimetry of, use of fission foil detector with plastic registration for, 23:11805
dosimetry of, use of low power reactors for calibration of dosimeters for, 22:4489
dosimetry of, use of mica- or plastic-sandwiched fission foil dosimeters for personnel, 21:26255
dosimetry of, use of phosphate glass for, simultaneous with photoluminescent dosimetry of x and gamma radiation, 22:14859
dosimetry of, use of plastic track detectors for, 25:450
dosimetry of, use of proton-recoil samarium-doped calcium sulfate thermoluminescent dosimeters for, 22:30871
dosimetry of, use of proton-recoil semiconductor detectors for, 21:32490
dosimetry of, use of radiation damage in silicon for, 22:12579
dosimetry of, use of spherical tissue-equivalent proportional counters for, 21:19976 (CERN-66-33)
dosimetry of, use of tissue-equivalent proportional detectors for microscopic, 21:12693
dosimetry of, using fissionable substances, 21:334
dosimetry of, using sodium-24 production in sodium chloride solutions, 21:1752
dosimetry on accidents by counting of activated sodium in man, 21:24410 (NIRS-5, pp 1-10)
dosimetry research at Chalk River Nuclear Laboratory, 24:39450(R) (AECL-3451)
dosimetry studies at Chalk River Nuclear Laboratory during 1969, 24:7727 (AECL-3374)
dosimetry studies in EBR-II for radiation effects experiments, use of activation detectors for, 22:4438
dosimetry techniques for fast reactors, 25:44102
dosimetry using film badges, evaluation of, 21:19977 (PPAD-611-E)
dosimetry using in-pile twin-rod conduction colorimeter, 22:6169
dosimetry using plastic foil etched with alkali, 22:2502 (AECL-2665)
dosimetry using tissue-equivalent phantoms, 22:51597
dosimetry using tissue-equivalent wall-less proportional detectors, 25:55002 (NYO-2740-8, pp 7-146)
dosimetry, design of computer program for, 23:2919(R) (ANL-7409)
dosimetry, reference standards for, 22:51586
dosimetry, use of moderator neutron dosimeter for, 23:2827
economy of, in coupled reactors, 21:23671(P)
effect on confinement vessel of thermonuclear reactor, 25:25164
effect on materials for cislunar and deep space use, 21:41175
effectiveness for cancer therapy, review of research on, 25:49254
effects and tensile properties of 212B and 4340 steel, 21:28795(R) (BNWL-CC-510)
effects combined with gamma radiation on visual discrimination conditioned reflexes in monkeys, lethal, 25:21829 (AD-712054)
effects in combination with gamma rays on polytetrafluoroethylene, 21:21996
effects in reactor on hydrochloric acid, 23:31385
effects mixed with gamma radiation on fluorinated liquid and liquid and vaporous hexafluorobenzene, mechanism and yields from, 25:15661(T) (BNL-tr-394)
effects of 14-MeV, on crystalline cesium compounds, reactions of recoil iodine from, 23:35230
effects of 25 MeV, on vision of man, 25:42688
effects of 50-MeV, on molybdenum carbonyl, reactions of recoil molybdenum from, 25:15717

effects of ammonium, potassium, or sodium sulfate, chemical states of recoil sulfur-35 from, 23:37992
effects of combined γ radiation and, on defect production in reactor-irradiated samples, 23:48963 (IAE-1649)
effects of cosmic, on background of thallium-activated sodium iodide γ spectrometers, 23:11444 (BNWL-481-2, pp 1-126)
effects of cosmic, on carbon-14 production in atmosphere, (E), 23:46308
effects of energy group structure on fast breeder reactor fuel cycle, 24:7136
effects of gas of, on formation of nuclei in stars, (T), 25:6926 (NP-18544)
effects of high fluxes of, on properties of aluminum, 25:29905 (ORNL-4630, pp 239-60)
effects of high-energy, on graft polymerization of N-1,3-butadienylphthalimide, 24:11595(P)
effects of mixed gamma radiation and, on crystalline naphthalene and 1-nitronaphthalene, 21:23927
effects of nuclear forces on stars of, (T), 21:46040 (N-67-18354)
effects of photospheric, on heating of corona, 25:33000
effects of photospheric, on heating of corona, (T), 25:13907
effects of prolonged irradiation by, on nickel alloys, 21:20469
effects of pulsed and steady-state mixed γ and, on survival of monkeys and rats, comparison, 25:6802
effects of reactor, on electric conductivity of silicon single crystals, (E), 23:39549
effects of slow, on dislocation mobility in lithium fluoride, 23:25444
effects of slow, on thin layers of reduced nicotinamide-adenine dinucleotide, 23:43372
effects of space and energy dependent, on transients in reactors, 25:48348
effects of whole-body irradiation with, on chloride content of milk of lactating cows, 21:6678
effects of, from nuclear explosions, on electronic equipment performance, 21:10969
effects of, from nuclear explosions, on man, 21:10969
effects of, mixed with γ radiation in inducing chromosome aberrations in atomic bomb survivors, comparison with γ radiation to, 21:8764
effects of, mutagenic, in tobacco plant, 21:16328
effects of, on 1-octene and diisobutylene, 21:10374 (NP-16442)
effects of, on 2,4-pentanedionecobalt, kinetics of annealing of, 21:3083 (AEET-256)
effects of, on activity of cathepsins in rat kidney and liver, 21:11110
effects of, on aluminum—chromium—nickel-base thermocouples in reactors, 21:14861
effects of, on ammonium sulfate, 21:3139
effects of, on bromine—hexane systems, 21:4584
effects of, on carbon tetrachloride in presence of phosphorus-32, yields of labeled compounds in, 21:8334
effects of, on catalytic dehydration of 1-decanol by aluminum oxide, 21:1396
effects of, on chromium and titanium carbides, 21:3561
effects of, on conditioned reflex activity of mice and rats, comparison with gamma radiation and protons, 21:6436
effects of, on corrosion of graphite by carbon dioxide, 21:18352 (NP-16561)
effects of, on dissolution of beryllium oxide in nitric acid, 21:8324 (AAEC/E-154)
effects of, on effciency of metallic oxide catalysts for oxidation of methanol, 21:10391
effects of, on embrittlement of steel, 21:13207(R) (EURAEC-1743)
effects of, on fatigue of A 302 B and A 212 B steels, 21:13208 (IN-1052)
effects of, on formation of ammonia in hydrogen—nitrogen mixtures, 21:10397
effects of, on fracture properties of iron-base—nitrogen—silicon alloys, 21:14818(R) (EURAEC-1773)
effects of, on growth of Euglena cells, 21:11067
effects of, on high-strain fatigue behavior of low-carbon manganese steel and low-alloy steel, 21:16625
effects of, on impact properties of iron-base—nitrogen—titanium alloys, 21:14818(R) (EURAEC-1773)
effects of, on indium complexes with EDTA, 21:4560
effects of, on lithium fluoride monocrystals at —195°C, 21:12445(T) (UCRL-Trans-10085)
effects of, on lubricants, 21:12456
effects of, on magnetic properties of iron-base—silicon alloys, 21:14818(R) (EURAEC-1773)
effects of, on manganese carbonyls, 21:4553
effects of, on mechanical properties of commercial nuclear graphites, 21:13293
effects of, on molybdenum at 60 and 200°C, 21:28808
effects of, on nitrogen compounds to separate nitrogen-15, 21:12517(P)
effects of, on oxygen content, in radiotherapy of neoplasms, 21:14692
effects of, on polycrystalline graphite, method for determining, 21:13295(P)
effects of, on potassium iodide single crystals, 21:15929
effects of, on potassium permanganate solutions, mechanism of stabilizing recoil atoms from manganese-56 in, 21:14272
effects of, on recovery of hematopoiesis of bone marrow of mice, 21:8967
effects of, on reproduction of cultured mammalian cells, effects of oxygen on, 21:13015
effects of, on reproduction of cultured mammalian cells, effects of energy level on, 21:13015
effects of, on silicon, 21:13290 (SC-DC-66-2433)
effects of, on silicon p-i-n junction, 21:13296 (CEA-R-3061)
effects of, on stainless steel-clad plutonium dioxide—uranium dioxide—stainless steel fuel elements, 21:14918
effects of, on stainless steel-clad uranium dioxide—stainless steel fuel elements, 21:14918
effects of, on structure of uranium dioxide fuels, 21:5013 (AECL-2587)
effects of, on substructure of molybdenum, 21:9203 (UCRL-17078)
effects of, on Swedish pressure vessel steels, 21:11270
effects of, on swelling of aluminum—uranium systems, 21:11262 (ORNL-4056)
effects of, on swelling of uranium, 21:13205 (BNWL-SA-154)
effects of, on tensile properties of chromium—nickel austenic steel at high temperatures, 21:11256 (AE-260)
effects of, on tensile properties of Hastelloy N, stainless steel, and steels, 21:13141(R) (GEMP-63)
effects of, on tensile properties of iron-base—titanium alloys, 21:14818(R) (EURAEC-1773)
effects of, on terphenyl, 21:5926
effects of, on thermal conductivity of uranium dioxide, 21:5939
effects of, on thermal conductivity of uranium dioxide, 21:11324 (STI/DOC-10/59)
effects of, on thermal conductivity of uranium dioxide, 21:13294
effects of, on thermal decomposition of gibbsite, 21:4568
effects of, on thermal diffusivity of beryllium oxide and Armco Iron at 300 to 1000°C, 21:13284 (GEMP-452)
effects of, on tin-118-enriched stannic oxide, 21:8359
effects of, on tris(acetylacetone)cobalt(III), annealing of, 21:14274
effects of, on yield behavior on niobium monocrystals, 21:11208 (ANL-7155, pp 167-289)
effects of, on yield stress of low-strength steels, effects of temperature on, 21:13219
effects of, on Zircaloy-4-clad uranium dioxide fuel elements, 21:11263 (WAPD-TM-595)
effects on 1,2-dibromoethane, effects of bromine on isotope effects of recoil bromine atoms produced by, 23:246
effects on 2,3-dichlorobutane, exchange reactions and yields of chlorine-38 recoil atoms in, 21:36042
effects on 2,3-dichlorobutane, reactions of recoil tritium from, 24:13973
effects on 8 percent uranium-235-enriched uranium carbide, 21:24853(R) (EURAEC-1805)
effects on A 302 B and A 542 B low alloy steels, ultrasonic method and equipment for detection of, 23:26478 (BNWL-988)
effects on A 302 B, A 542 B, and 304 steels, ultrasonic method for detection of, 23:26481 (BNWL-SA-2207)
effects on A-286 iron alloy, 21:26866(R) (HW-75500)
effects on A-286 steel, helium bubble production by, 21:43642(R) (GEMP-544)
effects on A212 steel, 21:35701(R) (BNL-50023)
effects on A212-B steel for pressure vessels, 21:20544
effects on A212B and A350LF1 steel, 21:1915 (AD-641283)
effects on A302B pressure-vessel steel, 21:26866(R) (HW-75500)
effects on A302B stainless steel, 21:4978(R) (NRL-Memo-1700)
effects on absorption of uv and visible radiation in hydrogen-impregnated glasses, 24:34977
effects on absorption spectra of fused silica, 24:32893 (N-70-17167)
effects on abundance of leukocytes and lymphocytes in blood of rats, 21:41498
effects on acceleration of climb-controlled creep in materials, (T), 25:13725
effects on acoustic generation of cadmium-sulfide film transducers, 23:6336
effects on acrylonitrile polymers, density changes from, (E), 22:11500
effects on activation of early photographs to produce prints, 21:25921
effects on activation volume of vanadium, relations with strain, 24:1051(R) (ORO-3612-6)
effects on activity of aspartate aminotransferase in brain of rats, effects of corticosteroid content on, 23:20098
effects on activity of ion pumps and permeability of cell wall of Chara, 22:45508(R) (PG-Report-826)
effects on activity of Krebs cycle dehydrogenase in gastrointestinal tract of rats, whole-body mixed γ and, 24:582 (AD-689095)
effects on activity of Krebs cycle dehydrogenases in gastrointestinal tract of rats, 24:9774
effects on activity of phage in Escherichia coli, RBE for 1 to 500 keV, 22:21432
effects on adhesive and bonding properties of polyethylene, 23:41764
effects on adhesives in vacuum at cryotemperatures, 22:11105
effects on adrenal gland function in rats, 21:1831
effects on aging and precipitation in beryllium—copper alloys, 25:55583
effects on aging characteristics of copper-base beryllium alloys, 23:34031
effects on aging of beryllium—copper-base—zinc alloys, 23:41691
effects on albumin content of seeds and yield of maize, effects of seed exposure on, 23:2979
effects on aliphatic acids, effects of carbon tetrachloride on reactions of recoil tritium atoms produced by, 24:44043
effects on alkali metal chloride crystals, chemical states of recoil sulfur-35 from, 24:27135
effects on alkali metal chlorides and oxychlorides, chemical states of recoil sulfur-25 from, 25:13065
effects on alkali metal chlorides, chemical states and photoannealing of recoil phosphorus-32 from, 24:41332
effects on alkali metal halide crystals, electron-microscope study of macrodefects from, 22:46240
effects on alkali metal permanganates, effects of cation on thermal annealing of recoil manganese-56 yields from, 23:40718
effects on alkali metal permanganates, effects of cation and background γ radiation on thermal annealing of recoil manganese-54 and manganese-56 yields from, 24:29327
effects on alkali-metal halide crystals in reactors, spectra of color centers produced in, 24:26301
effects on alkane—alkene mixtures, 21:23984
effects on alkyl iodides, reactions of recoil iodine-128 from, 25:187 (COO-1617-24)
effects on alpha- and beta-cobalt phthalocyanine, behavior of recoil cobalt-60 from, thermal annealing studies on, 25:4130
effects on alpha-iron, computer simulation of annealing of 20-keV spikes in, 23:14861 (BNWL-SA-2124)
effects on aluminum and aluminum alloys at 78°K, 22:49776
effects on aluminum and platinum at low temperatures, effects of defect doping on, (E), 22:3191
effects on aluminum at 78°K, effects of magnesium on annealing of, 23:51762
effects on aluminum oxide crystal growth, 22:775
effects on aluminum oxide crystals, 23:3162
effects on aluminum oxide to induce a molecular ion, 22:14548
effects on aluminum oxide, triplet-state defect from, (E/T), 22:32001
effects on aluminum oxide—chromium oxide—potassium oxide catalyst for conversion of hexane to benzene, 21:23912
effects on aluminum oxide—SAP, 22:19673
effects on aluminum oxides, 24:37003 (ORNL-4586, pp 118-25)
effects on aluminum oxides, influence of sample source on defects from, 21:18800(R) (NYO-2047-38)
effects on aluminum oxides, optical and magnetic properties of molecular ions produced by, (T), 23:7063
effects on aluminum, annealing study of Kohler rule of magnetoresistance after, 23:42467
effects on aluminum, beryllium, magnesium, silicon, and uranium oxides, 22:7070
effects on aluminum, kinetics of recovery at 180 to 263 deg K, (E), 21:2297
effects on aluminum, lattice-parameter changes in defects from, (E), 21:40115
effects on aluminum, nature of recovery Stage III from, 21:28803
effects on aluminum, restoration phenomena following, 22:19594
effects on aluminum, scattering of subthermal neutrons by defects from, (E), 22:31967
effects on aluminum—copper alloys, high-dose, 22:19605
effects on aluminum—europia and aluminum—europium molybdate dispersions, 21:14086 (ORNL-3970, pp 164-78)
effects on aluminum—europium oxide control elements, 22:11091 (ORNL-4199)
effects on aluminum—lithium alloys, nucleation and growth of helium bubbles in, (E), 22:28876
effects on aluminum—magnesium alloys, 23:16503
effects on aluminum—uranium alloys, 22:15135 (IN-1133)
effects on aluminum—zinc alloys, Guinier—Preston zone formation from, 22:11503
effects on aluminum-base fuel plates, 21:13225 (ORNL-3970, pp 103-11)
effects on amine complexes of cobalt, iridium, and rhodium chlorides, recoil zones of chlorine-36 from, 25:32015
effects on amino acid content in plasma and urine of rats, mixed γ, 24:17132 (AD-695770)
effects on ammonium and alkali metal salts of phosphorus oxyacids, distribution of phosphorus-32-labeled anions produced by, 24:13978
effects on ammonium and calcium hypophosphites, chemical effects in, 23:40720
effects on ammonium chromate and potassium chromate, ESR study of, 22:2098 (IFA-ESR-16)
effects on ammonium chromates, ESR studies on mechanism of, 23:13788
effects on ammonium dihydrogen phosphate, distribution of phosphorus-32 recoils in, 23:11537
effects on ammonium hexachloroiridate and anhydrous and hydrated sodium hexachloroiridate, 21:45172
effects on ammonium hypophosphites, 22:42723 (COO-1618-7)
effects on ammonium nitrate, yields of nitrite ions from, 24:13962
effects on ammonium sulfides, sulfates, sulfites, and thiosulfates, chemical states of recoil sulfur-37 from, 25:32024
effects on ammonium, potassium, and sodium indium chlorides, 22:45094 (LFEN-78)
effects on anelastic properties of aluminum, effects of cold-working and annealing on, 25:58338
effects on anelastic properties of graphite, 25:778 (CEA-CONF-1636)
effects on anhydrous, freeze-dried, and dihydrate solid oxalic acid, 25:41868
effects on animals and plants, review of LET and RBE for genetic, 24:48507
effects on animals, description of bone marrow, jejunal, and neural forms of whole-body acute lethal, 25:46983
effects on animals, protective effects of AET, cystamine, and cystaphos against, 24:12110
effects on anisotropic expansion of aluminum nitride, beryllium oxide, and zinc oxide, model for, 24:12490
effects on anisotropic growth of dilute uranium alloys, 23:14376
effects on annealing of interstitial material in graphite at 220°C, 22:47716
effects on annealing of point defects in diamonds, 22:15573(T) (NP-tr-1612)
effects on anomalous infrared attenuation in compound semiconductors, (T), 21:16973
effects on anthracene crystals, 25:8289

effects on anticonvulsant activity of drugs in mice, combined effects of γ-rays on, 23:2917 (AFRRI-SR-68-10)
effects on antifriction properties of cast iron, 22:4843
effects on antifriction properties of niobium, 23:8256
effects on antigenic properties and virulence of bacteria and viruses, 22:52086
effects on antimony- and arsenic-doped germanium, recombination parameters for defects from, (E), 22:37006
effects on aqueous solutions of ammonia, 22:27768
effects on Arabidopsis, effects of dose, LET, and seed exposure on, 24:41823
effects on argon diffusion in ionic crystals, 22:3197
effects on Army SM-1 pressure vessel, 24:34920(R) (AD-703617)
effects on aromatic iodine compounds, Srilard—Chalmers reactions from, 25:15708
effects on aromatic phosphorus compounds in benzene solutions, 23:35137(R) (PRNC-130)
effects on aromatic selenium and tellurium compounds, 23:35137(R) (PRNC-130)
effects on arsonium compounds and pentaphenylarsenic, separation and determination of recoil products from, 23:235
effects on ASTM A302B steel, research program on, 21:14858(R) (GA-7463)
effects on ASTM SA336 steel, testing of, 23:11115 (GEAP-5645)
effects on atom displacements in beryllium oxide, spectral studies on, 21:26865(R) (HW-74679)
effects on atomic structure of germanium, 24:36925
effects on auditory and visual discrimination in monkeys, effects of dose on, 25:16302(R) (AD-709971)
effects on austenitic stainless steels, 21:16630
effects on austenitic steels and nickel alloys in British power reactors, 22:47660 (CONF-671007-2)
effects on α,α,α-trifluorotoluene in acid and alcohol solutions, 24:50417
effects on α-, β-, γ-, delta-benzene hexachloride, yields of recoil chlorine-38 from, 25:41884
effects on B1 center formation in n- and p-type silicon, 21:6372
effects on Bacillus mesentericus in combination with ethylenimine, mutagenic, 24:34796
effects on bacteria, effects of LET and RBE on lethal, 24:44633 (EUR-4452, pp 5-49)
effects on barite crystals, 23:42446
effects on barium and calcium oxides, ESR study of F centers from, (E), 22:17752
effects on barium and lithium bromates, effects of recoil bromine-80m and bromine-82 on thermal annealing after, 23:320
effects on barium chloride doped with potassium chloride, 24:16572
effects on barium fluoride single crystals, effects of color centers induced by, on dislocation etching, (E), 25:22593 (INIS-mf-16)
effects on barium fluoride, ESR study of hole centers formed in, 24:19953
effects on barium fluorides, diffusion of xenon from, (E), 21:29341
effects on barium fluorides, ESR study of, 23:42466
effects on barium oxides and strontium oxides, Faraday rotation studies of F centers from, 22:52886
effects on barium sulfides, ESR studies of color centers in, 23:8681
effects on barium-activated potassium chromates, effects of annealing on recoil atoms produced by, 21:40885
effects on Barkhausen noise in steel, 22:23241
effects on barley and maize seeds, radiosensitivity variations with genetic and physiological factors, 21:3398
effects on barley in comparison to effects of γ radiation, mutagenic, 24:25448
effects on barley seeds in comparison to cobalt-60 γ, methods for determining mutagenic, 24:17165
effects on barley seeds, combined effects of γ, 22:12937 (CONF-660344-1)
effects on barley seeds, effects of seed water content on RBE for, 25:49285(R) (ORO-681)
effects on barley seeds, effects of storage on, 25:49285(R) (ORO-681)
effects on barley seeds, procedures for exposure, cultivation, and measurement for, 23:50937
effects on barley yield, combined effects of EMS on mutagenic, 24:21139
effects on barley, combined effects of EMS, DES, and γ radiation on frequency of mutagenic, 24:21323
effects on barley, distribution of gene loci following mutagenic, 22:51548
effects on barley, mutagenic, 22:51502
effects on barley, mutagenic for eceriferum, 23:38545
effects on base current of p—n transistors, recombination statistics for, 23:17854 (COO-1624-14)
effects on base region of transistors, mathematical model for, 25:21519
effects on bcc alloys and metals, 22:4812(R) (ORNL-4195)
effects on bcc metals, 22:15226 (ORNL-TM-2059)
effects on bcc metals and alloys, 21:26868(R) (HW-77281)
effects on beagle dogs, effects of dose on lethal, 25:26992
effects on beans, effects of seed exposure on, 22:10889
effects on behavior and performance of tasks in monkeys, 24:48674 (AD-698480)
effects on behavior of miniature swine, effects of dose fractionation and time intervals on, 25:16301 (AD-709938)
effects on behavior of monkeys, 24:4679 (AD-690879)
effects on behavior of monkeys, effects of dose and partial shielding on, 25:42642
effects on benzene—bromine system, 24:33742
effects on benzene—bromine systems at 77°K, 23:13800(R) (COO-1617-13)
effects on benzene—hexane—lithium carbonate mixtures, yields from reactions of tritium recoil atoms from, 25:18487
effects on benzene—phosphorus trichloride, effects of diluent on reactions of recoil phosphorus atoms produced by, 23:13770
effects on benzenetricarbonylchromium, 21:30442 (EUR-3282.d)
effects on beryllia, 21:20599
effects on beryllia at high temperatures, 21:14910(R) (GA-7333)
effects on beryllia single crystals, EPR—ENDOR study of F⁺ centers produced in, 24:15389
effects on beryllia, EPR spectra of color centers induced in, 25:52900(T) (JPRS-53800, pp 53-61)
effects on beryllia, magnesia, and alumina, effects of heating on defects produced in, (E), 22:28963
effects on beryllia, review of, 21:14901
effects on beryllium, 21:26868(R) (HW-77281)
effects on beryllium and beryllium oxide, review of, 22:36514
effects on beryllium and stainless steel, 21:23659
effects on beryllium at 77°K, annealing of defects produced in, (E), 22:28866
effects on beryllium at 77°K, annealing of defects produced in, (E), 23:14371(T) (WAPD-Trans-107)
effects on beryllium oxide crystals, decoration of screw dislocations and twin boundaries from, (E), 22:17771
effects on beryllium oxide single crystals, ESR study of defects induced in, 25:11950 (CEA-R-3937)
effects on beryllium oxide-base reactor fuels, 22:774
effects on beryllium oxides, quasi-periodic distribution of defects in, 21:31493
effects on beryllium oxides, radiation resistance at 100°C from, 22:41662
effects on beryllium oxides, x-ray diffraction analysis of, 21:14915
effects on beryllium, production at 4.2°K and recovery up to 350°K of defects from, (E), 23:1530
effects on biaxial stress rupture of ceramic-inner-coated Incoloy 800 tubing, 24:32477
effects on binary mixtures of benzene, iodobenzene, and methanol, chemical effects of activated bromine-82 in, 21:42997
effects on binary organic systems containing bromine, effects of phase homogeneity on organic yields of bromine-80m from, 23:9494
effects on biochemistry of animals and man, review of, 22:19426
effects on biological materials in relation to dosimetry, 24:4560(R) (NYO-910-121)
effects on biological materials, equipment for IRT research reactor studies on, 21:23735
effects on bipolar and FET transistors, tolerance for, (E/T), 23:41187
effects on BISO-coated and Triplex particle-type uranium carbide (UC_2), 23:15600(R) (GA-8860)
effects on black silicon-carbide varistors, 25:55103
effects on blood plasma constituents of monkeys, chemical analysis of mixed γ and, 24:29849 (AD-700235)
effects on blood pressure and heart rate of beagle dogs, effects of pressor drugs on combined γ and, 24:6108 (AD-682904)
effects on blood pressure of monkeys, effects of vasopressor drugs on mixed γ and, 25:37831
effects on body-centered cubic metals, 21:28796(R) (GA-7661)
effects on bone marrow in mice, effects of balneotherapy on pathological, 25:26950
effects on boric acid solutions, 24:33711
effects on boron nitride, EPR studies of, 21:35993
effects on boron-doped nickel alloys, 22:41079
effects on boronated and hafnated graphite, (E), 25:36977(R) (GA-10501)
effects on boronated graphite used as moderator material, 21:15797
effects on braze alloys, 22:8745 (ORNL-4170, pp 238-44)
effects on brittle-ductile transition temperature in pressure vessel steel, 21:26865(R) (HW-74679)
effects on brittleness and microstructure of low-alloy pressure vessel steel, 24:14836
effects on brittleness of A302-B steel, 21:31054(R) (BNWL-CC-1053)
effects on brittleness of A302B steel, 21:28793(R) (BNWL-94)
effects on brittleness of face-centered cubic alloys and metals, 23:34041
effects on brittleness of iron and steel, effects of annealing and nitrogen on, 21:36896
effects on brittleness of oxide films on zirconium, 21:24817
effects on brittleness of PM-2A reactor A350-LF3 steel pressure vessel, destructive testing for, 22:53403
effects on brittleness of PM-2A reactor A350-LF3 steel pressure vessel, destructive testing for, 22:53401
effects on brittleness of steel, 23:47149
effects on brittleness of steel by helium-producing reactions with boron, 25:11456 (AERE-R-5622)
effects on brittleness of Type 316 stainless steel, 24:21396 (BMI-1878, Sect.B)
effects on brittleness of Type A302B steel, relations with energy spectra and flux, 24:14844
effects on bromine or iodine bromides in liquid and solid benzene, isotope effects and labeled organic yields from, 25:18483(R) (COO-1617-27)
effects on bromine—bromobenzene system, 25:18490
effects on bromine—fluoromethane systems, isotope effects on reactions of recoil bromine from, 25:39556
effects on bromine—methane systems, 22:16565 (COO-1617-10, pp 8-36)
effects on bromoalkanes, isotope effects and reactions of bromine-80m and bromine-82 recoil atoms produced by, 24:50410 (CONF-690916-(Vol.2), pp 227-38)
effects on bromobenzoic acid, clathrate chromatographic study of chemical state of recoil bromine-82 from, 23:37994
effects on bromomethane, reactions of recoil bromine-82 from, 24:38908
effects on bubble diffusion in nuclear materials, mechanism of, 23:48577
effects on bubbles and voids in iron, model for studies of, 24:14851
effects on bubbles and voids in solids, model for studies of, 24:14851
effects on building materials and soil, γ doses from, 24:4247
effects on burros and swine following exposure to mixed γ-neutron bomb, late pathological whole-body, 23:10052 (ORO-661, pp 29-46)
effects on burros and swine, long-term, 24:12233 (ORO-672, pp 43-61)
effects on burros following exposure to mixed γ-neutron doses from reactor, late pathological whole-body, 23:10052 (ORO-661, pp 29-46)
effects on burros, whole-body, 22:40829 (ORO-657, pp 18-34)
effects on burst and tensile properties of Incoloy 800 and Inconel 625 tubes at 1100 to 1500°F, 21:36893
effects on butyl and ethyl tellurides, chemical effects from beta decay of tellurium-131 recoil ions in, 21:40772 (IS-1600, Paper 3)
effects on β- and γ-decay characteristics of soils, 22:25800 (UCLA-12-668, pp 37-58)
effects on β-tellurium oxide, formation of highly excited iodine-129 from, 25:46537
effects on cadmium bromate crystals, thermal annealing of, 24:33718
effects on cadmium chloride doped with silver chloride, EPR and optical studies of, 23:31376
effects on cadmium phthalocyanine, chemical behavior of cadmium-115 recoil atoms produced by, 24:46254
effects on cadmium phthalocyanine, study of recoil cadmium-115 from, 23:33218
effects on cadmium telluride crystals, photoelectronic studies of, (E), 22:26531
effects on cadmium, annealing recovery of, 23:30612(R) (ORNL-4408)
effects on calcite containing phosphorous impurities, defect centers induced by, (E), 21:3922
effects on calcium and barium fluoride crystals, analysis of ESR spectra of self-trapped holes from, 22:24483
effects on calcium and potassium cyanoosmate crystals, chemical effects of annealing and nuclear transformations on osmium-191m and -193 produced by, 23:11535
effects on calcium cyanoosmate—calcium ferrocyanide and potassium cyanoosmate—potassium ferrocyanide crystals, chemical effects of annealing and nuclear transformations on osmium-191m and -193 produced by, 23:11535
effects on calcium fluoride crystals at liquid nitrogen temperatures, color center formation in, (E), 22:15630
effects on calcium fluoride monocrystals, microhardness and etch figure star, 24:51807
effects on calcium fluoride single crystals, etching study, (E), 22:26096
effects on calcium oxide single crystals, optical absorption and stress splitting studies of color centers from, 22:24484
effects on calcium tungstate single crystals, paramagnetic centers in, 21:851
effects on calcium tungstates, EPR studies of centers produced in, 24:51814
effects on calibration curves for thermocouples, 21:24278 (RT/ING-(66)14)
effects on calibration of rhenium—tungsten high-temperature thermocouples, 23:11925
effects on capacitors, 21:14923 (SC-TM-66-2625)
effects on carbide precipitates in molybdenum, 23:30099 (GEMP-1010, pp 45-98)
effects on carbide precipitation in commercial-purity uranium, relations with annealing, 23:30193
effects on carbohydrate metabolism in rat brain, combined effects of adrenalectomy, epinephrine, hydrocortisone, and, 25:44937
effects on carbon, 22:19078(R) (TID-11295(Pt.1)(5th Ed.))
effects on carbon and platinum resistance thermometers at liquid hydrogen temperatures, 21:8661 (N-66-23672)
effects on carbon dioxide in BR-2 loop experiment, 21:20549
effects on carbon disulfide—carbon tetrachloride mixture, reactions of sulfur-35 in, 21:32218
effects on carbon steel, 21:28799(R) (HW-79345)
effects on carbon steel, 21:26866(R) (HW-75500)
effects on carbon tetrabromide in ethanol solution, bromine-80 and -82 distribution in organic yield in, 21:42996
effects on carbon tetrabromide—ethanol solutions, retention of recoil bromine-80 and bromine-82 from, 24:41382
effects on carbon tetrachloride and chloroform, formation of charged species in, 23:232
effects on carbon tetrachloride in presence of alcohols, mechanism of formation of phosphorus-32-labeled alkyl phosphates in, 22:30596
effects on carbon tetrachloride, yields of phosphorus-32- and sulfur-35-labeled compounds from, 25:21035
effects on carbon tetrafluoride—charcoal and sulfur hexafluoride—charcoal systems, 22:10265(R) (ORO-3632-1)
effects on cardiovascular response of beagle dogs, effects of shielding on, 25:16300 (AD-709920)
effects on carrier lifetime in antimony- and arsenic-doped germanium, effect of injection level on, 21:6375
effects on carrier lifetime in doped silicon, (E), 22:17826
effects on carrier lifetime in silicon, effects of oxygen and dopant on, 21:6374

effects on carrier lifetime in ultra-pure n-type silicon, (E), 22:15552 (AWRE-O-69/64)
effects on carrier properties of doped silicon crystals at 80°K, 23:42458
effects on carrier properties of graphite, (E/T), 25:36284
effects on carrier properties of silicon, (E), 22:13573
effects on carrier properties of silicon, (E), 22:13572
effects on carrier recombination in semiconductors, 22: 36965 (AD-666220)
effects on carrier removal rates of n- and p-type silicon, 22:29562
effects on carrier-removal in silicon, 23:42457
effects on carriers in silicon, 22:36965 (AD-666220)
effects on cast iron, 22:17149(T) (AD-662789)
effects on catalytic activity of magnesium sulfate at 300 to 420°C, EPR spectral studies on, 24:20828
effects on catalytic activity of nickel in hydrogenation of acetone, 24:20840
effects on catalytic activity of palladium in hydrogenation of butynediol, 25:57448
effects on catalytic and electrochemical properties of platinum, 24:22719
effects on catalytic effects of neodymium oxide on decomposition of 2-propanol, 22:40116
effects on catalytic properties of hydrogen electrodes, 25:54602
effects on cathodic hydrogenation of HY-80 steel, 23: 22591 (BNWL-790, pp 7.1-7)
effects on cattle and swine, pathology reports on, 23: 10054 (ORO-661, pp 58-60)
effects on cavitation in tetrachloroethylene, ultrasonic method for determining bubble dynamics from, 22: 25602
effects on cavitation in tetrachloroethylene, use of ultrasonic equipment for studying, 22:25603
effects on cavitation threshold of bromopropane, 22: 27748
effects on cavity growth in Type 20-25 stainless steel, 24:25752
effects on cell division in Escherichia coli, 25:29490
effects on cell number and somatic aberrations in Tradescantia stamen hairs, RBE for low energy and 0.43 MeV, 25:8756 (NYO-2740-7, pp 154-217)
effects on cell renewal systems in hematopoiesis and intestinal mucosa of rats, lethal, 22:49491 (UCSF-10-P-2-40)
effects on cells in relation to use in radiotherapy, review of, 23:43842
effects on cells, effects of absorbed dose on RBE for, 25: 55206 (NYO-2740-8, pp 147-219)
effects on cementite decomposition in white cast iron, 22:2672
effects on ceramic insulator seals at high fluence levels, 25:42228 (N-71-17325)
effects on cerebral circulation in man, time dependent combined γ and neutron, 25:32462
effects on cerium dioxide, preparation of cerium-141 and carrier-free praseodymium-143 by, 25:46534
effects on cesium iodate and perchlorate, effects of chemical state on iodine isotope distribution in, 21: 36067
effects on cesium iodate, retention of iodine isotopes in, 21:36068
effects on Charpy-V performance and dynamic tear of ASTM A533B steel plates and weld deposits, 25: 55586
effects on chemical and mechanical properties of Czechoslovakia reactor pressure vessel steels, 25:8899 (ZJE-89)
effects on chemical reactions in uranium tetrachloride—methanol system, 22:40110(P)
effects on chemical temperature indicators, 23:35562
effects on chloroindium chlorophthalocyanine, Szilard—Chalmers process from, 25:54680
effects on chloromethane, reactions of recoil chlorine-38 from, 25:54681
effects on chlorophyll of barley plants following seed exposure, mutagenic, 22:15119
effects on cholinesterase activity in liver and skeletal muscles of rats, 22:19296
effects on chromates and dichromates adsorbed on anion exchange resins, 23:9493
effects on chromates at low temperatures, chemical states of recoil chromium-51 from, 24:36302
effects on chromates, determination of recoiling chromium-51 from, by precipitation as lead chromate, 25:189
effects on chromates, reactions of recoil chromium-51 from, 24:33743
effects on chromium and molybdenum carbonyls, 22: 16611
effects on chromium complexes with 2,4-pentanedione, reactions of recoil chromium-51 from, 24:16578
effects on chromium complexes with 2,4-pentanedione, reactions of chromium-51 recoils from, 25:46535
effects on chromium trisacetylacetonate, distribution and isothermal annealing of recoil chromium-51 from, 23: 21750
effects on chromium trisacetylacetone or chromium-51-doped chromium trisacetylacetone, 25:57496
effects on chromium, molybdenum, and chromium hexacarbonyls, effects of thermal annealing on recoil reactions in, 23:21763
effects on chromium—molybdenum—nickel steel, 21: 4978(R) (NRL-Memo-1700)
effects on chromium-51 production in chromium compounds, chemical states of, 21:21963 (BNL-994, pp 3-19)
effects on chromosomes in corneal epithelium of mice, aberrant, 25:11018
effects on chromosomes in cultured human lymphocytes, dose-rate and RBE studies of aberrant, 24:2635
effects on chromosomes in Drosophila melanogaster and lens tissues in mice, effects of energy level on RBE for monoenergetic aberrant, 22:49284 (NYO-2740-5, pp 201-66)
effects on chromosomes in epithelium of cornea and duodenum in mice, aberrant, 22:17007
effects on chromosomes in human leukocytes, additive effects of gamma radiation on aberrant, 25:32591 (CEA-CONF-1723)
effects on chromosomes in leukocytes of personnel, 22: 471
effects on chromosomes in liver cells of mice, recovery from aberrant, 22:43286
effects on chromosomes in lymphocytes of man following exposure at Hiroshima and Nagasaki, aberrant, 24: 34565
effects on chromosomes in lymphocytes of man, aberrant, 22:8526 (CONF-670305-, pp 382-90)
effects on chromosomes in root meristem cells of Vicia faba, effects of mitotic stage on aberrant, 24:17022
effects on chromosomes of barley in comparison to chemical effects, aberrant, 24:19311
effects on chromosomes of Drosophila melanogaster, aberrant, 24:50852
effects on chromosomes of intestinal epithelial cells of mice during mitosis, effects of dose on aberrant, 22: 25817
effects on chromosomes of leukocytes of man, aberrant, 22:36248
effects on chromosomes of man, aberrant, 22:51549
effects on chromosomes of medical personnel, effects of dose and dose fractionation on aberrant, 25:57972
effects on chromosomes of mice, 21:16327
effects on chromosomes of rats, aberrant, 22:8577
effects on chromosomes, review of aberrant, 22:51492 (UCRL-18432)
effects on chronically exposed personnel, 24:903
effects on circuits and semiconductor devices, transient currents from, 21:14520 (SC-DC-66-2443)
effects on circulatory system of monkeys, supralethal dose, 25:49282 (AD-721698)
effects on cis- and trans-dichlorobis(ethylenediamine) chromium nitrate, chemical effects of chromium-51 recoil reactions in, 21:38988
effects on clad uranium nitride fuels, 24:6286 (UCRL-50727)
effects on cladding materials for SNAP 8 fuel elements, 23:8246 (ORNL-4370, pp 198-9)
effects on cleavage of base planes in beryllium oxide frits, 21:22940
effects on closed loop circuitry system, computer method for predicting, 23:17874
effects on coarsening kinetics of γ' particles in Nimonic PE 16 at 600 to 700°C, 25:52411 (TRG-Report-2113)
effects on coated fuel particles, 22:23853 (CONF-660524-, pp 273-92)
effects on coated fuel particles, 21:21919 (ORNL-4076, pp 81-115)
effects on coated-particle fuels, 21:5014 (GA-6356)
effects on coated-particle fuels, 22:26093 (ORNL-4229, pp 125-41)
effects on coaxial cable, currents induced in, 23:754 (BNWL-SA-1658)
effects on cobalt aluminosilicates, preparation of cobalt-60 by, 23:259
effects on cobalt and gadolinium, annealing of, 23:16866 (CEA-CONF-1028)
effects on cobalt and nickel complexes with EDTA, thermal annealing of recoil damage from, 23:21733
effects on cobalt bromide, chloride, iodide, and nitrate complexes with ammonia and ethylenediamine, effects of annealing on, 21:19684
effects on cobalt complex with 2,4-pentanedione, reactions of recoil cobalt-60 produced by, 24:44041
effects on cobalt complexes, 22:21148
effects on cobalt complexes and compounds, effects of pH and solvent on degradation product distribution from, 23:26316
effects on cobalt complexes of ethylenebis[iminoethylenenitrilosalicylaldehyde], effects of oxygen on annealing of recoil damage from, 23: 40726
effects on cobalt complexes with ethylenediamine, thermal annealing of, 21:117
effects on cobalt complexes, annealing of recoil cobalt-60 from, 25:54682
effects on cobalt complexes, effects of oxygen on thermal annealing of recoil damage from, 25:32018
effects on cobalt complexes, isomeric effect in Szilard—Chalmers recoil of cobalt 60m and cobalt-60g from, 24:41333
effects on cobalt complexes, isomeric effect in Szilard—Chalmers recoil of cobalt-60 from, 24:7449
effects on cobalt complexes, isomeric effect of cobalt-60 recoil atoms in, 21:19680
effects on cobalt complexes, isomeric effects on recoil of cobalt-60 from, 25:29170
effects on cobalt nitrate complexes with ethylenediamine, at low temperature, annealing of compounds produced by, 24:27131
effects on cobalt nitrate complexes with ethylenediamine, linear tempering annealing of compounds produced by, 24:27144
effects on cobalt phthalocyanine, thermal annealing of recoils from, 25:32020
effects on cobalt, rhodium, vanadium, and Zircaloy in-core flux monitors, 21:43225 (DPSPU-67-30-5)
effects on cobalt(II) complexes, 25:158
effects on cobalt-base fuel cladding alloys, 22:34077 (BNL-12438)
effects on cold brittleness and mechanical properties of molybdenum, at high-temperatures, 22:52217
effects on colony-forming ability of HeLa cells, RBE for, comparison with x ray, 23:35815(R) (NYO-3267-6)
effects on colony-forming unit content of femurs and spleen of mice, 25:37865 (ANL-7770, pp 26-47)
effects on color and length of Tradescantia stamen hairs, RBE for 80 to 430 keV, 25:47033
effects on color centers in potassium chloride crystals, (T), 22:9440
effects on color of lanthanum hexaboride, 23:36292
effects on compatibility of graphite with beryllium, thorium, and uranium oxides, 21:21919 (ORNL-4076, pp 81-115)
effects on complexes of cobalt chloride or nitrate with ammonia and dimethylglyoxime, 23:241
effects on composites of graphite and pyrocarbon, 23: 8345
effects on compound semiconductors, (E), 21:42160 (USNRDL-TR-67-83)
effects on compounds of cobalt, iron, and tin, 24:9384
effects on conductivity of germanium and silicon, 21: 2290
effects on conductivity of lithium fluoride and potassium chloride, 21:42200
effects on contact melting rate of bismuth, cadmium, and lead pairs with tin, 21:20540
effects on content of chlorophyll in peas, linkage studies of mutagenic, 23:50426
effects on content of chlorophyll in peas, mutagenic, 23: 50425
effects on content of epinephrine and norepinephrine in human urine, combined effects of γ-rays on, 22:36394
effects on content of γ-aminobutyric acid in cerebral cortex of rats, 23:2947
effects on content of hexoses of plasma of mice, 23: 20078 (AD-673529)
effects on content of lactate and propionate in blood serum of sheep, 25:13384
effects on content of protein bound carbohydrates in blood plasma of dogs and mice, 24:39577
effects on content of sialic acids in tissues of rats, 13.5 rad, 24:23124
effects on control systems components and engine of NERVA Reactor, analysis of, 22:35576
effects on conversion from para- to orthohydrogen, 23: 35056 (FZK-351-2)
effects on coolant loss failure of Zircaloy-2 and Zircaloy-4 tubes, 24:22406 (ORNL-TM-2850)
effects on copper and gold, lattice defect clusters induced by, (E), 21:2293
effects on copper and molybdenum at 14 MeV, 22: 34583 (TID-24491, pp 141-50)
effects on copper and nickel, electron microscopy of small-defect clusters in, 23:3551(T) (AERE-Trans-1087)
effects on copper and nickel, electron-microscope study of defects induced in, 21:11715
effects on copper at 4.2°K, recovery from, 22:43614 (ANL-7299, pp 290-308)
effects on copper crystals at 400°C, structure of defects from, (E), 22:41680
effects on copper foils, spatial distribution of damage spots from, 23:22601
effects on copper phthalocyanine, effects of crystal structure and thermal annealing on behavior of copper-64 recoil atom from, 25:190
effects on copper phthalocyanines, reactions of recoil copper-64 from, 24:38911
effects on copper single crystals, 21:26871
effects on copper single crystals, dislocation, (E/T), 21: 7331 (COO-1198-401)
effects on copper single crystals, etch-pitting studies of hardening mechanism from, 21:29355
effects on copper single crystals, formation and structure of slip bands from, (E), 22:17778
effects on copper single crystals, slip-band formation in, 23:3559(T) (WAPD-Trans-0093)
effects on copper single-crystal strengthening, 22:43614 (ANL-7299, pp 290-308)
effects on copper tensile properties, computer analysis of, 22:31431
effects on copper used in superconducting magnets, 23: 42787 (BNL-50155(Pt.3), pp 967-1132)
effects on copper, defect formation in, 22:9472
effects on copper, density and size distribution of defects induced in, 24:47302
effects on copper, electron microscope study of defects induced in, 21:11714
effects on copper, kinetics of dislocation loop and tetrahedra nucleation in, (T), 25:40778
effects on copper, plastic flow of dislocations from, (T), 22:22221
effects on copper—zirconium alloys, 23:6644
effects on corrosion and deposition of stainless steel in sodium, 23:36019
effects on corrosion behavior of zirconium alloys, 21: 20469
effects on corrosion of boron-doped Type 304 stainless steel cladding by boiling nitric acid, 24:36938 (BAW-3809-8)
effects on corrosion of cold-worked Zircaloy-2, 21: 28798(R) (HW-78760)
effects on corrosion of Incoloy 800 by flowing superheated steam at 621°C and 70 atm, (E), 24: 25642
effects on corrosion of mild steel by water, 23:20477
effects on corrosion of niobium—tin—zirconium alloys by steam and water, 22:21730
effects on corrosion of PRTR Zircaloy-2 tubes, 21: 26869(R) (HW-83398)
effects on corrosion of stainless steel by liquid sodium, 21:31054(R) (BNWL-CC-1053)
effects on corrosion of Zircaloy 2 and Zircaloy 4 by water at 350°C, 23:18180(T) (ANL-Trans-703, pp 9-44)
effects on corrosion of Zircaloy in pressurized water reactors, 25:32655
effects on corrosion of Zircaloy-2 and Zircaloy-4 in water at 290°C, 25:32644 (CEA-N-1419, pp 135-213)
effects on corrosion of Zircaloy-2 by high pressure water, 22:21661
effects on corrosion of Zircaloy-2 by steam and water, 21:28799(R) (HW-79345)
effects on corrosion of Zircaloy-2 by steam and water, 22:21730
effects on corrosion of Zircaloy-2 by water, 21:26868(R) (HW-77281)

effects on corrosion of zirconium alloys, 21:31059(R) (HW-84517)
effects on corrosion of zirconium alloys, 21:31054(R) (BNWL-CC-1053)
effects on corrosion of zirconium alloys by pressurized water and steam, 24:46696 (BARC-463)
effects on corrosion of zirconium alloys by water, 22: 34009 (BNWL-SA-1719)
effects on corrosion of zirconium alloys in lithiated water at 530°F, 21:28795(R) (BNWL-CC-510)
effects on corrosion rate of niobium—tin—zirconium alloys, 21:18218
effects on corundum, 24:10198
effects on cotton, mutagenic, 22:49316
effects on creep and defect formation in materials, 25: 22133
effects on creep and fatigue of aluminum, 21:6845
effects on creep and growth in thin cylindrical tubes, calculations of stresses from, 24:27804
effects on creep and stress relaxation in graphite, 24: 14840
effects on creep and swelling in oxides of aluminum, beryllium, magnesium, and uranium, 23:48549
effects on creep and swelling in uranium dioxide fuel pins, 25:4888 (TRG-Report-1937)
effects on creep in alloys and metals, loop unfaulting mechanism for, 25:4830
effects on creep in graphite tubes, 25:52470 (A/CONF.49/P-614)
effects on creep in metals and alloys at 100°C, 22:2670
effects on creep in reactor materials, 25:42900 (AD-719905)
effects on creep in solids, integral-operator method for solving, 21:11271
effects on creep in zirconium-base alloys, 24:6233
effects on creep of annealed type-304 stainless steel, 21: 34929 (BNWL-SA-373)
effects on creep of clad uranium dioxide fuel elements at 1200°C, 24:10202
effects on creep of graphite, 23:14394(R) (GA-8681)
effects on creep of Hastelloy N, 21:13218
effects on creep of Hastelloy N, relations with temperature, 25:2674 (ORNL-4570, pp 136-42)
effects on creep of Incoloy 800 at 500°C, 24:34839(R) (BNWL-1091)
effects on creep of Incoloy 800, Inconel 625, and stainless steel, 24:10122 (KFK-985, pp 313-34)
effects on creep of nonfissile metals, (E/T), 22:28879
effects on creep of rhenium—tungsten alloys, 21: 31054(R) (BNWL-CC-1053)
effects on creep of stainless steel, 21:31054(R) (BNWL-CC-1053)
effects on creep of stainless steel and zirconium alloys, 24:34839(R) (BNWL-1091)
effects on creep of type 304 stainless steel, 21:31059(R) (HW-84517)
effects on creep of Type 316 stainless steel, 24:2973
effects on creep of Type EN58B steel, energy dependence of, 25:16554
effects on creep of Types 304 and 316 stainless steel, energy dependence of, 25:16554
effects on creep of uranium carbide, uranium dioxide, and uranium nitride fuel elements at 400 to 700°C, 25: 24668
effects on creep of uranium carbide, uranium dioxide, and uranium nitride, 25:47185
effects on creep of uranium dioxide, 25:4893
effects on creep of uranium dioxide, 25:45148(T) (AEC-tr-7238)
effects on creep of Zircaloy, 24:25755
effects on creep of Zircaloy, model of, 22:36512 (WAPD-TM-756)
effects on creep of Zircaloy-2, 21:26868(R) (HW-77281)
effects on creep properties of annealed type-304 stainless steel, 21:26861(R) (BNWL-CC-658)
effects on creep rate below 1300°C in uranium dioxide, 23:24991 (KFK-817)
effects on creep rate in zirconium alloys, multiple mechanism for, 24:51188
effects on creep rate of uranium dioxide, 23:14414(T) (EURFNR-467)
effects on creep rupture of Hastelloy N, relations with refractory metal additions, 25:8870 (ORNL-4600, pp 271-81)
effects on creep rupture of molybdenum and tungsten, 21:31059(R) (HW-84517)
effects on creep rupture of molybdenum and tungsten, 21:26868(R) (HW-77281)
effects on creep rupture of standard and modified Hastelloy N, 24:14808(R) (BNWL-1020)
effects on creep rupture of Type-304 stainless steel at 593°C, 23:36150
effects on creep-rupture of 1541 Alloy, Hastelloy R, Hastelloy X, and Incoloy 800, 22:612(R) (GEMP-69)
effects on creep-rupture of Hastelloy N, 23:45984 (ORNL-4396, pp 211-68)
effects on creep-rupture of molybdenum at high temperatures, 22:4821
effects on creep-rupture of Type 316 stainless steel tubes at 550 and 650°C, 23:36074 (TRG-Report-1789)
effects on creep-rupture properties of Hastelloy N at 760°C, 21:26861(R) (BNWL-CC-658)
effects on creep-rupture properties of precipitation-hardened A-286 alloy, effects of boron on, 21:18296 (CONF-660627-14)
effects on creep-rupture properties of titanium-modified Hastelloy N, 23:50977(R) (BNWL-932)
effects on creep-rupture properties of Type 304 stainless steel at 650°C, 21:36889
effects on critical shear stress of aluminum, relation of lattice defects to, 21:2298
effects on critical shear stress of copper and gold single crystals, temperature and strain-rate dependence of, (E), 22:24480
effects on critical shear stress of copper single crystals, data analysis based on multiple spectrum theory, 22: 24481
effects on crop plants, dosimetry for mutagenic, 22: 31047
effects on crushed or γ-irradiated potassium antimony hydroxides, 24:29333
effects on crystal defects in lead nitrate, photoannealing of, 22:30616
effects on crystal lattice and electric conductivity of copper, 24:25750 (ANL-7417, pp 111-24)
effects on crystal lattice defects, model for, 25:4887 (KFK-1215)
effects on crystal lattice parameters of pyrolytic carbon, 23:14394(R) (GA-8681)
effects on crystal phases and mechanical properties of steel, 22:28844 (EURAEC-1751)
effects on crystal structure and density of flake graphite, 23:18269(R) (GA-7519)
effects on crystal structure and dimensions of graphite at 300 to 650°C, 23:12442
effects on crystal structure and electric conductivity of metals at low temperature, 21:31052 (ANL-7185)
effects on crystal structure and physical properties of uranium silicide, 23:36269 (AECL-3295)
effects on crystal structure and properties of chromium, copper, iron, and molybdenum, 24:8163
effects on crystal structure and tensile properties of iron, 21:506(R) (ORNL-4020)
effects on crystal structure and volume of coke, 23: 18269(R) (GA-7519)
effects on crystal structure of beryllium, 21:15797
effects on crystal structure of beryllium, 21:30345(R) (IN-1063)
effects on crystal structure of carbides of chromium and titanium, 24:14971
effects on crystal structure of cobalt, 22:43617 (DP-MS-67-20)
effects on crystal structure of fcc, bcc, and cph metals, 21:18295 (BNWL-361)
effects on crystal structure of graphite, 22:41134
effects on crystal structure of graphite single crystals containing boron, 23:34122
effects on crystal structure of molybdenum, 21:31059(R) (HW-84517)
effects on crystal structure of rhenium rods, 22:31414 (BNWL-532, pp 12.1-88)
effects on crystal structure of tungsten, 22:612(R) (GEMP-69)
effects on crystal structure, computer simulation of displacement spikes from, 21:836
effects on crystal structure, x-ray diffractometer for studying, 22:19200
effects on crystalline alkaline metal bromates, bromine-82g recoil distribution in various bromine oxidation states from, 22:12384
effects on crystalline cesium, lithium, and potassium bromates, chemistry of bromine-82 recoil atoms produced by, 21:45145 (ORNL-4164, pp 35-45)
effects on crystalline potassium chlorate and perchlorate and sodium chlorite, chemistry of chlorine-38g recoil atoms produced by, 21:45145 (ORNL-4164, pp 35-45)
effects on crystalline potassium iodate and periodate, chemistry of iodine-128 and -130 recoil atoms produced by, 21:45145 (ORNL-4164, pp 35-45)
effects on crystalline quartz and synthetic rubies, 23: 44532
effects on crystalline size and density of pyrolytic carbon, effects of annealing on, 21:24832(R) (GA-7827)
effects on crystallite size of pyrolytic carbon, 23: 12410(R) (GA-9099)
effects on crystallite size of pyrolytic carbon, 23: 14394(R) (GA-8681)
effects on crystallization of amorphous germanium, analysis of, 22:31530
effects on crystals of iron-doped trisdipyridylcobalt perchlorate, annealing of, 23:49827
effects on crystals, detection by field ion microscopy, 23:20529
effects on crystals, harmonic focusing of collisions in, (T), 24:8519 (IAE-1772)
effects on cultured cells, effects of dose, LET, and oxygen on californium-252, 24:34566 (BNL-14610)
effects on cultured mammalian and plant cells, comparison of OER and RBE for californium-252 mixed γ and, with radium, 25:8757 (NYO-2740-7, pp 218-56)
effects on current gain in semiconductor transistors, 22: 12724
effects on current gain of bipolar and junction field effect transistors, 22:10671
effects on current-voltage characteristics of silicon p-i-n diodes, 21:1700
effects on cyanides and nitrides, reactions of recoil nitrogen-13 atoms from, 24:18986 (NP-18126)
effects on cyclohexene—lithium carbonate systems, reactions of recoil tritium from, 25:21075
effects on cyclopentadienylhafnium dichloride and cyclopentadienylzirconium dichloride, 22:25391
effects on cyclopentadienylmanganese carbonyls and manganese carbonyls, yields from recoil reactions in, 23:21734
effects on cyclopentadienylmanganese tricarbonyl, 22: 25390
effects on damping capacity and stress relaxation in carbon—iron and iron—nitrogen alloys, 21:26865(R) (HW-74679)
effects on decafluoro-1,4-bis(trifluoromethyl)-cyclohexane, 21:17691
effects on decafluorobis(trifluoromethyl)cyclohexane, yields produced by, 21:35997
effects on decomposition rate of persimmon leaves, mixed γ radiation and, 24:25603
effects on defect clusters and interstitial loops in high-purity molybdenum, 21:26861(R) (BNWL-CC-658)
effects on defect formation in copper, 23:12367(T) (AERE-Trans-1086)
effects on defect mobility in nickel and uranium, 23: 24964 (SRARI-P-28)
effects on defect production in magnesium, 24:42160 (CEA-R-4033)
effects on defect production in polycrystalline boron carbide, 25:55650
effects on defect production in simulated α-iron, γ-iron, and nickel, computer studies on effects of annealing on, 23:51080(R) (ORO-3912-1)
effects on defect structure of mono- and polycrystals of molybdenum, effects of carbon on, 21:28798(R) (HW-78760)
effects on defects and colloidal lithium particles in lithium fluorides, (E), 22:9433
effects on defects in graphite, relations with annealing, 23:30145
effects on defects in magnesia, optical absorption studies of, (E), 21:44190
effects on defects in magnesium oxide, energy release from, 24:23542
effects on defects in nickel and nickel—molybdenum alloys, annealing of, 24:14852
effects on defects in silver, relations with dislocations, 23:34033
effects on defects in solids, 23:48963 (IAE-1649)
effects on defects in vanadium, 23:12260(R) (ORNL-4330)
effects on deformation and stress rupture properties of Inconel, niobium—zirconium alloy, stainless steel, and Zircaloy-2 at high temperatures, 21:26865(R) (HW-74679)
effects on deformation behavior of iron, 21:26861(R) (BNWL-CC-658)
effects on deformation in aluminum, elimination of point defects at 78°K in, 23:10244
effects on deformation in iron, mechanism of, 21: 28794(R) (BNWL-CC-355)
effects on deformation in titanium—vanadium alloys at low temperature, 25:58339
effects on deformation of copper single crystals, 21: 39666
effects on deformation of single-crystal niobium, 21: 4979 (ORNL-TM-1583)
effects on deformation properties of chromium, 21: 31064
effects on deformation properties of iron, 21:28793(R) (BNWL-94)
effects on deformation properties of niobium, 24:32470 (ORNL-4526, pp 17-24)
effects on deformed fcc metals, effects of dislocation resistivity increment on damage rate and stage I recovery of, (T), 25:33420
effects on deformed germanium monocrystals, 22:34124
effects on deformed molybdenum single crystals, annealing of, 22:28848
effects on density and mechanical properties of beryllium at low temperatures, 25:52407(T) (JPRS-53800, pp 258-67)
effects on density and mechanical properties of vitreous silica, 21:22936 (NP-16609)
effects on density and stability of pyrolytic carbon, 25: 2771 (ORNL-4570, pp 161-9)
effects on density of austenitic stainless steel, 23:3095
effects on density of clusters in titanium—vanadium alloy and Vanstar-9 alloy, 23:30099 (GEMP-1010, pp 45-98)
effects on density of Incoloy 800, 23:3095
effects on density of lithium fluoride crystals, 25:38038
effects on density of lithium fluoride crystals, (E), 22: 15580
effects on density of molded Types CHN and H-315-A graphite, 23:14394(R) (GA-8681)
effects on density of needle-coke graphite, 23:51143(R) (GA-9675)
effects on density of pyrolytic carbon, 21:20606
effects on density of pyrolytic carbon, 23:14394(R) (GA-8681)
effects on density of Types CHN and H-315-A graphites, 23:12410(R) (GA-9099)
effects on density of uranium carbide and uranium dioxide at 21°C, 22:4903 (CEA-R-3289)
effects on density of vacancy clusters in Vanstar-9, 23: 30099 (GEMP-1010, pp 45-98)
effects on density of vitreous silica, 23:3564
effects on development and growth of potato tubers, effects of dose on, 24:27718
effects on development of barley seeds, combined effects of oxygen on, 24:23400
effects on development of collateral lymph drainage vessels, 25:21861
effects on devices, method for measuring, 25:26560 (SC-DR-710045)
effects on diameter increase of stainless steel-clad plutonium dioxide—uranium dioxide fuel pins, comparison of calculated and measured, 25:32849
effects on diamond, lattice parameter changes during annealing of, 22:7073(T) (LB/G-2582)
effects on diamonds, (E), 21:25207
effects on dibenzyltoluene, 23:13776
effects on dicyclopentadienyl compounds of osmium and rhenium, 23:35137(R) (PRNC-130)
effects on dicyclopentadienylcobalt and dicyclopentadienylnickel, yields in, 21:42998
effects on dielectric breakdown, 23:14899
effects on dielectric constant and ESR spectra of quartz, 23:46547
effects on dielectric permittivity of quartz plates, 23: 14903
effects on dielectric properties of lead zirconate, 25: 52930
effects on dielectric properties of lithium fluoride monocrystalline strips, (E), 22:36972(T) (UCRL-Trans-10245)
effects on dielectric—semiconductor structures, 25:9566
effects on dielectrics, 22:12364
effects on diethyl-, dimethyl-, and diphenylmercury, chemical effects of mercury-197 and -203 recoil atoms in, 21:40901

effects on diethyl-, dimethyl-, and diphenylmercury, enrichment and retention factors for mercury-197 and -203 recoil atoms in, 21:40902
effects on diffusion in aluminum—copper alloys, mechanism of, 21:28798(R) (HW-78760)
effects on diffusion in iron—nickel alloys, mechanisms for, 23:42420
effects on diffusion of hydrogen in quartz at room temperature, 22:33449
effects on diffusion of impurities in silicon, capacitance monitoring method for determining, 23:42456
effects on diffusion-controlled creep in solids, 23:12381
effects on dimension changes of isotopic and pyrolytic graphite, 23:14394(R) (GA-8681)
effects on dimension changes of Types H-315-A, H-319, NC-8, and needle-coke graphites, 23:12410(R) (GA-9099)
effects on dimension stability of graphite at 400 to 800°C and 4 x 10^{21} nvt, 21:46034 (BNWL-CC-399)
effects on dimensional and property changes of nuclear graphites, 22:52298
effects on dimensional and volume changes in beryllium oxide, effects of grain size on, 21:28730(R) (GEMP-475-A)
effects on dimensional changes and microstructure of uranium oxides (UO_2), (E), 25:39166(R) (WCAP-3017-6094)
effects on dimensional changes in carbon and graphite, 21:24832(R) (GA-7827)
effects on dimensional changes in carbon, relations with graphitization, 25:55645 (CEA-CONF-1821)
effects on dimensional changes in graphite, relations with crystallite size and temperature, 24:23536 (BNWL-1279, pp 7.1-7)
effects on dimensional changes in molded graphite, 23:8338(R) (GA-7000)
effects on dimensional changes in polycrystalline graphite, (T), 21:24858
effects on dimensional changes in pyrolytic carbon, 23:22699
effects on dimensional changes in pyrolytic carbon at 900 to 1300°C, 24:1101 (GA-9600)
effects on dimensional changes in pyrolytic carbon, (E), 22:11097
effects on dimensional changes in pyrolytic carbon at 900 to 1300°C, 23:51143(R) (GA-9675)
effects on dimensional changes of carbon—silicon carbide alloys, (E), 25:48257(R) (GA-10661)
effects on dimensional changes of graphite, 21:20467
effects on dimensional changes of graphite and coatings of pyrolytic carbon, 24:18674(R) (NP-18148)
effects on dimensional stability of boronated and hafnated graphite, (E), 25:28633(R) (GA-10399)
effects on dimensional stability of graphite, 24:10192(R) (GA-9828)
effects on dimensional stability of graphite at 760 to 1250°C, 24:32518 (GA-10001)
effects on dimensional stability of graphite, (E), 25:8050(R) (GA-10288)
effects on dimensional stability of metal fuel elements, BEMOD computer program for, 24:5527 (ANL-7586)
effects on dimensions and properties of graphite, relations with crystallite orientation and size, 25:16615(R) (GA-10433)
effects on dimensions and properties of graphite, relations with original density, 25:16615(R) (GA-10433)
effects on dimensions and properties of monocrystalline graphite at 20 to 1300°C, 24:39729
effects on dimensions and volumes of anisotropic and near-isotropic graphite specimens at 1000 to 1250°C, 23:51143(R) (GA-9675)
effects on dimensions of clad refractory uranium compounds at high temperatures, 23:32068(R) (BMI-1854)
effects on dimensions of graphite specimens, 25:58366 (CEA-CONF-1820)
effects on dimensions of graphites, 23:50978(R) (BNWL-971)
effects on dimensions of pyrolytic carbon, 22:11101(R) (GA-7906)
effects on dimensions of uranium dioxide-silicon dioxide vitroceramics, 25:785
effects on diphenyl arsenic compounds, Szilard—Chalmers processes in, 24:7468
effects on diphenylmercury, production of recoil radiomercury by, 22:30601
effects on diphenyltellurium, 21:17673
effects on dislocation climb-creep of Zircaloy, 24:25757
effects on dislocation climb-creep of Zircaloy, 24:25756
effects on dislocation density in lithium fluorides, temperature effects on, 21:42197
effects on dislocation dynamics of vanadium, relation with interstitial oxygen content, 24:1051(R) (ORO-3612-6)
effects on dislocation loops in copper, 21:39664
effects on dislocation loops in molybdenum, 21:36882 (RCN-77)
effects on dislocation loops in molybdenum, electron microscopic images in, 25:32742
effects on dislocation loops in sapphires, 22:4905
effects on dislocation pile-up in metals, relations with thermal activation, 25:58337
effects on dislocation structure and deformation behavior of copper monocrystals, (E), 22:28872
effects on dislocation velocity in tensile samples of iron, determination using stress relaxation, 22:21748
effects on dislocations in thin foils of fatigue-hardened copper, 23:6710
effects on dispersion clusters of tungsten monocrystals, 24:14819
effects on displacement number of silicon, 21:18357
effects on dissolution of Armco iron in mineral acids, 22:16596
effects on distribution and narcotic effects of barbiturates in monkeys, mixed γ and, 23:33622 (AD-681709)
effects on distribution of defects in barium fluoride, relations with color centers, 25:45568
effects on DNA for hybridization in vitro, 23:2766
effects on dodecafluorobutane and carbon—dodecafluorobutane, 25:4111(R) (ORO-3909-2)
effects on dogs following implantation of plutonium-238 powered blood-cooled heat exchanger, 23:35892
effects on dogs following implantation of simulated power source for artificial heart, 23:35893
effects on dogs, tumorigenic, 25:52211
effects on doped silicon, annealing of, 24:6632
effects on Drosophila melanogaster, genetic, 25:8756 (NYO-2740-7, pp 154-217)
effects on Drosophila, effects of female germ cell exposure on mutagenic, 22:28397 (ANL-7278, pp 144-69)
effects on Drosophila, RBE for mutagenic, 23:16257 (NIRS-7, pp 55-65)
effects on drug toxicity in mice, combined effects of γ on, 23:50855
effects on ductile—brittle transition temperature of steels, stress-wave attenuation method for evaluating, 22:28875
effects on ductile-brittle transition temperature of ferritic steel, model of, 23:22600
effects on ductile-to-brittle transition temperature of thick-wall pressure vessel steels, 25:55588
effects on ductility and strength of Types 304, 304L, 316, and 316L stainless steel at 700 to 830°F, 24:21395(R) (AD-698275)
effects on ductility and strength of vanadium, 23:48498 (IS-2127)
effects on ductility and tensile properties of type 304 stainless steel, 22:34035 (BNL-12439)
effects on ductility of A212B steel, relations with temperature and dose rate, 22:31419 (BNWL-532, pp 11.1-43)
effects on ductility of A302B steel at 50 to 60°C, 22:31419 (BNWL-532, pp 11.1-43)
effects on ductility of chromium, 22:45796
effects on ductility of chromium—nickel steels at high temperatures as function of boron and carbon content and mechanical—heat treatment, 22:8791
effects on ductility of copper, iron, and nickel, 21:31059(R) (HW-84517)
effects on ductility of Incoloy 800, 24:2921 (ORNL-4470, pp 168-80)
effects on ductility of metals, 22:13037 (ORNL-TM-2019)
effects on ductility of nickel, (E), 22:28881
effects on ductility of SM-1A pressure vessel, annealing of, 23:5086
effects on ductility of stainless steels and superalloys, review on, 24:42165 (RN-S-365)
effects on ductility of type 304 stainless steel, 21:31054(R) (BNWL-CC-1053)
effects on ductility of type 304 stainless steel brazes and welds, 21:28794(R) (BNWL-CC-355)
effects on ductility of Type 316 stainless steel, 22:48788
effects on ductility of type A302-B pressure vessel steel, analysis of, (E/T), 22:35413 (AD-661803)
effects on ductility of types 304L and 347 stainless steels, 22:4811(R) (AD-646662)
effects on early transient incapacitation in monkeys, protective effects of antihistamine against mixed γ and, 25:39920
effects on EBR-II fuel jackets, annealing of, 21:32931(R) (BNWL-CC-883)
effects on ecological succession, nuclear reactor, 22:38501
effects on efficiency of IMPATT diodes, 23:41189
effects on elastic constants of sintered beryllia rods, 21:36944 (GEMP-537)
effects on elastic moduli and internal friction of magnesium at 80°K, annealing of, 24:51183 (CEA-CONF-1621)
effects on elastic properties of compression-annealed pyrolytic and monocrystalline graphite, 24:48910
effects on elastic properties of graphite, 22:7072
effects on electric and magnetic properties of graphite, (E), 23:10699 (CEA-CONF-1045)
effects on electric and mechanical properties of insulating materials used in superconducting magnets, 23:42787 (BNL-50155(Pt.3), pp 967-1132)
effects on electric and physical properties of MOS and FET transistors, 23:33581
effects on electric and thermal conductivity of graphite, 25:24666
effects on electric characteristics of silicon power diodes, 23:755 (N-68-26662)
effects on electric characteristics of transistors, 23:38384 (SC-RR-68-225)
effects on electric conductivity and diamagnetic anisotropy of carbon fibers, 25:56282 (CEA-CONF-1822)
effects on electric conductivity and Hall effect of germanium single crystals, 21:7357
effects on electric conductivity and stored energy of pyrographites at 27 and 77°K, 23:8344
effects on electric conductivity and structure of aluminum—copper alloy at 25°C, 21:43643 (JUL-448-RW)
effects on electric conductivity of A-286 alloy containing boron, 24:14808(R) (BNWL-1020)
effects on electric conductivity of A-286 iron alloy, relations with annealing and boron content, 24:14808(R) (BNWL-1020)
effects on electric conductivity of aluminum, copper, gold, and silver at 4.6 to 400°K, (E), 21:24807
effects on electric conductivity of aluminum—copper alloys, 21:26865(R) (HW-74679)
effects on electric conductivity of aluminum—copper alloys, 21:32935(R) (ORO-2891-6)
effects on electric conductivity of aluminum—zinc alloys and pure metals, 21:34941
effects on electric conductivity of α-plutonium at 77°K, 25:1300
effects on electric conductivity of binary uranium alloys, 21:43611
effects on electric conductivity of chromium carbide, 23:36292
effects on electric conductivity of deformed and quenched copper—nickel alloys, effects of annealing on, 21:26869(R) (HW-83398)
effects on electric conductivity of graphite, 21:14911 (NP-16530)
effects on electric conductivity of lithium fluoride crystals, relation of vacancy formation to, (E), 22:46243
effects on electric conductivity of molybdenum and tungsten, 22:612(R) (GEMP-69)
effects on electric conductivity of molybdenum, tungsten, and their alloys, effects of annealing on, 21:28730(R) (GEMP-475-A)
effects on electric conductivity of pyrolytic carbon, 23:14394(R) (GA-8681)
effects on electric conductivity of semiconductors, 22:20086
effects on electric conductivity of tellurium single crystals, (E), 22:29555
effects on electric conductivity of thoria, in-reactor measurements, 24:21442 (BARC-436)
effects on electric conductivity of titanium carbide, 23:36292
effects on electric conductivity of tungsten, 21:28799(R) (HW-79345)
effects on electric conductivity of uranium at 4.6°K, 24:21397 (CONF-680322-5)
effects on electric conductivity of uranium dioxide, 23:14421
effects on electric potential of neodymium oxide pellets at 130 to 400°C, 23:51150
effects on electric properties and internal friction of high purity iron, 23:3102
effects on electric properties of germanium diodes, 22:7071
effects on electric properties of lithium-doped manganese oxide single crystals, 23:1515 (NP-17579, pp III.3-11)
effects on electric properties of n- and p-type silicon, annealing of, 25:19831
effects on electric properties of nickel oxide, 21:33019
effects on electric properties of p-type silicon at 76°K, 22:41651 (SC-DC-68-2328)
effects on electric properties of p-type silicon at 76°K, annealing of, 22:52881
effects on electric properties of silicon diodes, 23:26641
effects on electric properties of silicon Zener diodes at -190° to +90°C, 22:10670 (HMI-B-63)
effects on electric properties of silicon, annealing of, 24:28427
effects on electric properties of sodium-doped lithium fluoride monocrystals, 25:43445
effects on electric properties of transistors, 23:2729 (HMI-B-70)
effects on electric properties of urania—silica mixtures, 25:33460
effects on electric properties of uranium-235-coated silicon and selenium photocells, 25:6597
effects on electric properties of WS_{2-x}, (E), 22:24417
effects on electric resistivity and magnetization properties of superconducting niobium wires, (E), 22:31751
effects on electric resistivity of aluminum and beryllium, recovery from, 22:1306
effects on electrical and magnetic properties at 85 to 280°C of nuclear grade graphite, 23:30194
effects on electrical properties of coaxial cables, (T), 22:49172
effects on electrical resistance of chromium carbide, 21:13291
effects on electrical resistance of titanium carbide, 21:13291
effects on electrochemical behavior of metals in solution, (E), 22:28735 (EURAEC-2010)
effects on electromotive force in uranium dioxide pellets, 22:43669
effects on electron distribution in tris(dipyridyl)-cobalt(III) perchlorate, effects of thermal annealing on, 21:35984 (AEET-271)
effects on electron spin resonance of reactor graphite, 22:28964
effects on electronic and magnetic properties of nuclear graphite and pyrocarbon at 35°C, 24:3046 (CEA-CONF-1356)
effects on electronic circuits, hardening against, 23:35579
effects on electronic circuits, use of equivalent circuits for estimating, 22:10672
effects on electronic components in simulated space flight, 23:45602
effects on electronic properties of graphite, 22:9483
effects on electronic properties of graphite, relations with annealing, 25:56283 (CEA-CONF-1823)
effects on electronic properties of nuclear graphites, 24:19955
effects on electronic properties of semiconductor devices, evaluation of, 25:46662 (SC-DC-713697)
effects on electronics, simulators for studying transient nuclear explosion, 25:29410
effects on electrophysical properties of barium titanate crystals in presence of gamma rays, 22:18845
effects on electrophysical properties of barium titanates, 23:3555(T) (JPRS-45638)
effects on Elodea, physiological, 22:6772 (ORNL-4168, pp 61-118)
effects on embrittlement and fracture of Hastelloy X, Inconel 625, and Inconel 718, 23:34045
effects on embrittlement and notch ductility of pressure vessel steels, effects of temperature on, 21:28798(R) (HW-78760)
effects on embrittlement of A212-B pressure vessel steel, (T), 25:6145 (AD-709898)
effects on embrittlement of A302-B steel, (E/T), 25:44116

effects on embrittlement of A302B steel, damage-function analysis of, 24:2969 (AD-692072)
effects on embrittlement of ASTM A302B, 21:14866
effects on embrittlement of austenitic stainless steel, relations with cold work and thermal treatments, 23:3097
effects on embrittlement of austenitic steels and nickel alloys, 22:13039(T) (CEA-tr-A-1912)
effects on embrittlement of bcc and fcc metals, 25:8898 (SRARI-P-85)
effects on embrittlement of chromium—nickel—niobium steel at 650°C, 21:11267
effects on embrittlement of chromium—niobium—nickel steel, 21:24814
effects on embrittlement of ferrite steel pressure vessels, 22:52225
effects on embrittlement of Ferrovac, 21:26861(R) (BNWL-CC-658)
effects on embrittlement of Incoloy 800, relations with titanium additions, 23:3093
effects on embrittlement of iron and steel, 23:34042
effects on embrittlement of nickel alloys and stainless steel at high temperature, mechanism of, 24:4820
effects on embrittlement of nickel alloys, relations with annealing, 25:22118 (SRARI-P-80)
effects on embrittlement of pressure vessel steel, 25:40067 (IAEA-117, Paper 4-1)
effects on embrittlement of pressure vessel steels, 25:52387 (A/CONF.49/P-393)
effects on embrittlement of pressure vessel steels, 25:40068 (IAEA-117, Paper 4a)
effects on embrittlement of pressure vessel steels, damage threshold for, 25:4832
effects on embrittlement of pressure vessel steels, review of, 23:41684
effects on embrittlement of pressure vessel steels, method for determining, 21:18299(R) (EURAEC-1794)
effects on embrittlement of pressure vessel steels, review of relations of composition and microstructure with, 25:42910
effects on embrittlement of reactor pressure vessels, 25:23277
effects on embrittlement of reactor pressure vessel steels, 25:39143 (IAEA-117, Paper 6)
effects on embrittlement of stainless steel, 21:20469
effects on embrittlement of steel, 25:39351
effects on embrittlement of steel pressure vessels, 23:1011
effects on embrittlement of steel pressure vessels, critical parameters for, 25:22122
effects on embrittlement of steel reactor pressure vessels, discussion of major factors affecting, 25:24606 (NRL-7176)
effects on embrittlement of steel, relations with composition, heat treatment, and microstructure, 22:31441
effects on embrittlement of steels, 21:26868(R) (HW-77281)
effects on embrittlement of titanium-bearing type 304 stainless steel, 21:28794(R) (BNWL-CC-355)
effects on embrittlement of Type 22K steel, (E), 25:8903
effects on embrittlement of Types A302B and A533B steel, relations with impurity copper and phosphorus content, 25:55577 (NRL-7310)
effects on embrittlement of zirconium pressure tubes, 22:21728
effects on embryos of Triturus, effects of age on, 22:10877
effects on emf properties of Alumel/Chromel thermocouples, 21:31056 (EUR-3257.e)
effects on encapsulated liquid plutonium, 21:8045(R) (LA-3625)
effects on energy absorption of small steel specimens undergoing impulse loading, temperature and flux dependence of, 23:27046 (EUR-4101, pp 193-210)
effects on energy storage in beryllium, recovery after, (E), 22:17794
effects on energy transfer to Zircaloy lattices, relations with energy spectra, 24:42159 (CEA-N-1332)
effects on epitaxial gallium arsenide laser diodes at 76 and 300°K, 25:26563
effects on epitaxial Gunn diodes, 25:21512
effects on epitaxial n-type gallium arsenides, electric studies of, (E), 23:36788 (SC-DC-69-1670)
effects on EPR spectra of quartz at 293°K, 24:6293
effects on erythrocyte count in rats in relation to residual stem cell injury, combined effects of γ rays on pathological, 24:19361
effects on erythropoiesis in anemic rats, effects of erythropoietin on combined γ and, 23:41429 (AD-688767)
effects on ESR of carbon black, 25:36341
effects on ESR spectra of carbon blacks, (E), 22:41693
effects on ESR spectra of vanadium ions in calcium tungstate crystals, 22:20052
effects on excretion of deoxycytidine in urine of rats, effects of dose on combined γ and, 23:41430 (AD-688768)
effects on expansion of nuclear-grade graphite, 24:12485 (BNWL-1223, pp 7.1-3)
effects on expansion of quartz, (E/T), 21:5326
effects on eyes of rabbits, effects of dose on cataractogenic, 23:22392 (CEA-CONF-1173)
effects on eyes of rabbits, protective effects of 5-adenylic acid, ATP, cysteamine, serotonin, and vitamin B_6, 22:12875
effects on eyes of rats, pathological, 25:24332 (COO-119-242, pp 122-30)
effects on F center formation in sodium chloride single crystals, 22:7386
effects on faded photographs, tintypes, and glass-plate negatives, 25:26287
effects on failure of flawed Zircaloy-2 pressure tubes, 23:22618
effects on failures in Zircaloy-clad uranium oxide (UO_2) pellet-type fuel elements, analysis of, 23:9177(R) (HPR-103)
effects on Faraday angles in R-like centers of magnesium oxide crystals, 23:22693
effects on fast reactor core structures, streaming, 25:41382
effects on fast reactor fuel element cladding of stainless steel, computer program simulation of, 23:4250
effects on fast reactor fuel materials, 22:27487(R) (LA-3880)
effects on fast reactor fuels, equipment and methods for examination of, 22:6138(R) (LA-3820)
effects on fast reactor materials, assessment of irradiation conditions on, (E/T), 22:30298 (BNWL-SA-1488)
effects on fatigue and tensile properties of Type 347 stainless steel at room temperature, correlation of, 21:36890
effects on fatigue behavior of stainless steel, equation for, 22:26065 (TRG-Report-1353)
effects on fatigue of SA212B and SA302B steels, 21:32931(R) (BNWL-CC-883)
effects on fatigue of stainless steel, 23:8104(R) (GEMP-1006)
effects on fatigue of steels, 21:26866(R) (HW-75500)
effects on FBH 162 integrated circuits, 24:44378 (HMI-B-92)
effects on fcc alloys and metals, 22:21745
effects on fcc metals, review of recovery processes in, 22:28867
effects on fecundity, physiology, and survival of dogs with implanted plutonium-238-powered mechanical heart, 24:17147
effects on ferrite properties, (E), 22:20090
effects on ferrites and permalloy 50 NP and 79 NP, 23:27135
effects on ferroelectric properties of barium titanates, 23:15881
effects on ferromagnetic materials, coupled-measurement studies of, 21:40117
effects on Ferrovac E, 21:31059(R) (HW-84517)
effects on Ferrovac E, 21:31054(R) (BNWL-CC-1053)
effects on Ferrovac iron, 21:23710 (BNL-994, pp 45-69)
effects on fertility of mice, effects of fetal exposure on, 22:6884
effects on FFTF structural materials, methods for correlation of, 22:22803 (BNWL-667)
effects on fission gas bubble distribution in chips of uranium oxide (UO_2), analysis of, 23:11355 (WAPD-T-2067)
effects on fission gas bubbles and sintering pores in uranium dioxide, 23:34124
effects on fission gas release and oxygen distribution in plutonium dioxide—uranium dioxide fuels, 25:19287 (AECL-3690)
effects on fission of naturally occurring uranium-235 in neoplastic and normal tissues of human kidney, interstitial, 25:13361
effects on fission product diffusion from uranium, (E), 24:21398 (PEL-194)
effects on fission product distribution in plutonia—urania pellets, 21:46027(R) (NUMEC-3432-35)
effects on fission track density in obsidian, 22:8212
effects on flax and hemp plants and seeds, 23:12243
effects on flour beetles in comparison to cobalt-60 γ, 23:45877 (ANL-7535, pp 109-12)
effects on fluorescence intensity in serum and urine in rats, relation of dose to combined effects of γ and, 24:9770
effects on fluorocarbons, 21:17690
effects on fluorocarbons, reactions of recoil fluorine-18 from, 25:21068
effects on fluoromethane, density of fluorine-18-labeled yields from, 24:18367(R) (COO-535-603)
effects on FN288 and SU2105 junction field effect devices, 21:18355 (SC-RR-66-2664)
effects on foods, health hazards due to induced radioactivity from, 22:31301
effects on formation and reactions of iodine isotopes and liquid hydrocarbons, 22:30536
effects on formation of colloidal lithium in lithium fluoride crystals, (E), 22:15579
effects on formation of inert gas bubbles in magnesia at 150, 600, and 1000°C, 21:39709
effects on formation of interstitial loops in graphite single crystals, relations with boron content, 23:34120
effects on formation of interstitials and vacancies in graphite, 23:34121
effects on forward gain enhancement of transistors at high frequencies, 25:21527
effects on fracture of iron and steel, review on, 25:27270
effects on fracture of Zircaloy-2, 23:34038
effects on fracture toughness of S-200 grade beryllium at -320°F, 24:14818
effects on fracture toughness of steel, 25:37949 (WAPD-TM-895)
effects on fracture toughness of Zircaloy-2, 22:34038 (BNWL-SA-1805)
effects on free radical production in pyrimidine and purine bases and pyrimidine nucleosides, 22:21126
effects on frequency of chromosome aberrations in man, 21:20226
effects on frequency of nonselective markers in Escherichia coli, donor, 25:35126
effects on frequency vs temperature characteristics of synthetic-quartz AT resonators, 25:57906
effects on fuel cladding materials, ENDF/B data analysis of displacement damage, 23:37748
effects on fuel cladding, review, 22:52126 (BNL-50127)
effects on fuel dispersion plates, 21:18203(R) (IDO-17218)
effects on fuel melting and impinging on cladding through cracks, 21:20595 (CONF-660511-, pp 3.2.1-5)
effects on fulvalenehexacarbonyldimanganese, recoil reactions in, 24:36312
effects on fused uranium dioxide fuel tubes, effects of thermal rating and bulk density on, 21:500 (DP-1060)
effects on gallium arsenide diode oscillators, 25:49069 (SC-DC-70-5386)
effects on gallium arsenide Gunn diodes, 25:21511
effects on gallium arsenide junction field effect transistors, 24:36678
effects on gallium arsenide photoconductivity, 24:51795
effects on gallium arsenides, current oscillations from, 22:41673
effects on gallium arsenides, recombination radiation from, 22:24429
effects on gallium phthalocyanine, Szilard—Chalmers reactions in, 24:4329
effects on gallium-antimonide and gallium-arsenide transport properties, 21:42174
effects on gametes of male mice, effects of stage of spermatogenesis on mutagenic, 23:29449
effects on gas bubble growth in alpha-phase uranium, relations with stress, 23:46100
effects on gas cooled fast breeder reactor fuel elements of plutonium oxide (PuO_2)—uranium oxide (UO_2), 23:45083(R) (GA-9229)
effects on gas production in beryllium oxide and boron carbide powders, 21:41682
effects on gas release from beryllium oxide, 22:49820
effects on gas swelling of uranium during annealing, 25:52405(T) (JPRS-53800, pp 237-44)
effects on gaseous bromine—bromomethane, effects of pressure on organic yields from reactions of recoil bromine-80 or bromine-82 produced from, 25:18483(R) (COO-1617-27)
effects on gases, production of nitrogen oxides and ozone by, 22:42797
effects on gastrointestinal tract of mice, long-term, 22:49549
effects on gastrointestinal tract of mice, protective effects of AET against, 24:51028(T) (ANL-Trans-851)
effects on genetic traits in seed plants, comparison with chemical mutagens, mutagenic, 25:6669 (CONF-691106-, pp 297-312)
effects on genetics of plants, 21:1836 (BNL-10555)
effects on germane and germane—silane mixtures, reactions of recoiling germanium-75 from, 23:19788
effects on germanium and silicon semiconductors, 22:9427 (TID-24201)
effects on germanium and silicon semiconductors, 21:31106(R) (AD-643268)
effects on germanium and silicon, relation of recoil-atom energy partition between atomic and electronic processes to, review, 22:37012
effects on germanium and silicon, use as tool for defect studies, review, 23:1534
effects on germanium crystals, partition of average energy deposited per neutron in, (T), 22:44272
effects on germanium dioxide glasses and crystals, 24:5198
effects on germanium oxide and germanium oxide—alkali metal oxide glasses at 4 to 300°K, ESR studies on, 23:46548
effects on germanium oxide, chemical state of arsenic-77 produced by, 23:21770
effects on germanium oxide, EPR studies on effects of water on, 24:13970
effects on germanium oxide, tin oxide, and titanium oxide crystals, ESR study of paramagnetic defects from, 22:44213 (ORNL-TM-2264)
effects on germanium single crystals, long-wavelength neutron-scattering study of defects induced in, 25:49993
effects on germanium single crystals, use in reversible technique for noise studies, 22:46200
effects on germanium tellurides alloyed with bismuth and copper, 22:46284
effects on germanium tunnel diodes, dislocations from, 23:20074 (IAE-1658)
effects on germanium, resistance changes from, (E), 22:52859
effects on glandular stomach of mice, carcinogenic whole-body, 25:4703
effects on glass, use of, in dosimetry, 22:31072
effects on glasses, suppression by synthesis under high-pressure hydrogen, 21:31114
effects on glassy germanium oxide and alkali metal—germanium oxide mixtures, ESR study of paramagnetic defects from, 22:44213 (ORNL-TM-2264)
effects on gold chloride solutions, effects of acidity on production of gold-198 recoils from, 25:23636
effects on gold crystals, formation of vacancy clusters from, 23:22608
effects on gonads of fruit flies, comparison with effects of γ radiation, 24:32174
effects on grafting of monomers to cellulose of, from spent fuel, 22:33434
effects on grain boundary energy in uranium dioxide, 25:38035 (RD/B/N-1851)
effects on grain boundary migration in copper bicrystals, 24:19472
effects on grain growth and hardness of uranium, 24:19476
effects on grain growth in urania, 21:20580
effects on grain structure of graphite, 25:4880 (CEA-N-1374)
effects on graphite, 22:17193
effects on graphite and pyrolytic carbons at 100 to 2100°C, 22:7061(R) (GA-8202)
effects on graphite creep and dimensional stability, 24:43697(R) (GA-10088)
effects on graphite creep and dimensional stability, 24:18585(R) (GA-9815)
effects on graphite in BR-2 irradiation cycles, 21:18353 (NP-16565)
effects on graphite in DRAGON fuel element assemblies, 21:46963(R) (BNWL-CC-694)
effects on graphite lubricants for high temperature applications, 22:8827
effects on graphite matrix reactor fuel elements, finite element analysis of, (T), 24:36031 (EUR-4472)
effects on graphite moderators, calculation of heating, 23:4403 (BNWL-898)
effects on graphite moderators, reduction of, 24:36019
effects on graphite reactions with oxygen, 22:41140

effects on graphite structural materials in reactors, (T), 25:34439(T) (JPRS-53069, pp 256-62)
effects on graphite structure, 21:43680
effects on graphite structure, annealing effects on x-ray diffraction profiles, 24:30055
effects on graphite, computer program for integration of equations describing defects from, 22:24407 (GAMD-8026)
effects on graphite, ESR studies of, 22:28965
effects on graphite, Japanese studies of, 25:52465 (A/CONF.49/P-245)
effects on graphite, specific heat—magnetic field study of, 25:59148
effects on graphitization, mechanical properties, and microstructure of high-strength magnesium cast iron, 25:708
effects on growth and stability of voids in metals, 24:6242
effects on growth and zinc metabolism in swine, 22:51963
effects on growth of barley roots, effects of oxygen on RBE of, 23:20436
effects on growth of barley, effects of oxygen on, 23:14284
effects on growth of barley, effects of seed exposure on, 24:41949 (ANL-7635, pp 229-91)
effects on growth of bones in rats, effects of age on, 22:8643
effects on growth of tail vertebrae of rats, effects of oxygen on, 24:2808
effects on Guinier—Preston zone structure and precipitation in aluminum—magnesium—zinc and aluminum—silver—zinc alloys, 25:22127
effects on Gunn and IMPATT diodes, dose rate dependence of, 25:44748 (SC-RR-710378)
effects on gypsum crystals, (E), 24:19974
effects on hafnium—2,4-pentanedione complex, study of recoils from, 23:35205
effects on hafnium—N-phenylbenzohydroxamic acid complex, study of recoils from, 23:35196
effects on hafnocene and zirconocene dichlorides, Szilard—Chalmers reactions in, 24:16576
effects on Hall coefficient of aluminum at 4.6°K, 24:45320
effects on halogens and interhalogens in benzene, chemistry of recoils produced in, 24:18985(R) (COO-1617-19)
effects on halomethane—iodine systems, 23:13800(R) (COO-1617-13)
effects on halorhenates and chlororhodates, reactions of recoils from, 24:27105 (JUL-625-RC)
effects on hardening of carbon doped monocrystalline iron, 23:34052
effects on hardening of copper and copper alloy monocrystals, 22:21744
effects on hardening of copper crystals, 23:6708
effects on hardening of iron monocrystals with trace carbon content, 22:41076(T) (ORNL-tr-1932)
effects on hardening of mild steel, relations with interstitial nitrogen, 25:713
effects on hardening of mild steel, relations with interstitial nitrogen, 25:714
effects on hardening of mild steels, relations with interstitial carbon and nitrogen, 24:29991
effects on hardening of polycrystalline iron, relations with annealing and strain-aging, 23:43999
effects on hardening of polyester resins, 25:18443
effects on hardness and tensile properties of Type A533 steel, 24:14835
effects on hardness of aluminum, 21:4980
effects on hardness of aluminum, 24:8042 (AERE-R-5944(Vol.3), pp 682-92)
effects on hardness of aluminum—lithium alloys, 22:11008
effects on hardness of copper, 24:25750 (ANL-7417, pp 111-24)
effects on hardness of dilute aluminum—copper-base alloys, 24:14829
effects on hardness of dilute copper-base—gold alloys, 24:14829
effects on hardness of graphite, 22:28968
effects on hardness of iron and iron—nickel alloys, 24:25753
effects on hardness of molybdenum—uranium alloys, 21:43647
effects on hardness of niobium and its alloys, 23:8256
effects on hardness of pyrolytic carbon at 540 to 1060°C, relations with annealing, 23:51143(R) (GA-9675)
effects on hardness of tungsten at 20 to 1300°C, 22:612(R) (GEMP-69)
effects on Hastelloy N, 21:31054(R) (BNWL-CC-1053)
effects on Hastelloy N at 1200°F in MSRE, 22:12035(R) (ORNL-4191)
effects on Hastelloy X, 21:26866(R) (HW-75500)
effects on Hastelloy X 280 and tungsten, 21:23659
effects on Hastelloy X280, 21:31059(R) (HW-84517)
effects on Hastelloy X280, 21:31054(R) (BNWL-CC-1053)
effects on HBWR mild steel pressure vessel, 22:17146 (HPR-91)
effects on hearing of man, combined effects of γ radiation on pathological, 22:49529
effects on heart of beagle dogs, protective effects of mataraminol, norepinephrine, and phenylephrine on lethal, whole-body, mixed γ and, 25:29565
effects on heating of lithium fluoride crystals, (E), 22:9432
effects on heating of plane bodies, tables for transient temperatures from, 25:56267
effects on heavy-section pressure vessel steel fracture toughness, 23:27124 (BNWL-SA-1992)
effects on HeLa cells and lymphoma cells from mice, RBE for 14 MeV monoenergetic, 22:45430
effects on helium bubble formation in boron—copper alloys, 25:24665
effects on helium formation and diffusion in beryllia, 21:20598
effects on helium production in beryllium oxide during annealing, 25:32862
effects on helium production in stainless steel, relations with energy, 25:32751(R) (HEDL-TME-71-43)
effects on helium release from boron-doped nickel, 25:58335
effects on helium—methane—silane system, reactions of recoil tritium from, 25:54678
effects on hematopoiesis in dogs, in comparison with x and γ rays, 25:8774
effects on hematopoiesis in dogs, recovery from, 24:51026 (AD-703273)
effects on hematopoiesis in polycythemic rats, comparison of x to mixed γ and, 23:26867 (AD-672738)
effects on hematopoiesis in sheep, pulsed, 22:49472 (CONF-680410-, pp 6.1-14)
effects on hemin and hemin complex with pyridine, chemistry of recoil iron isotopes produced by, 24:19003
effects on hepatocytes of mice correlated with effects on blood plasma content of protein-bound hexoses, whole-body mixed γ and, 25:6655
effects on hexaaminecobalt chloride—potassium chromate, retention of recoil chromium-51 from, 25:23637
effects on hexachloroiridate(IV) crystals and solutions, 23:9449
effects on hexamminocobalt(III) nitrate, mechanism of oxygen carriers in reactions of cobalt-60 recoil atoms in, 22:16588
effects on hexaquochromium ions, 21:45169
effects on hexose content of blood plasma of animals, 24:48675 (AD-700236)
effects on HFIR prototype target elements, 21:14087 (ORNL-3970, pp 179-84)
effects on high temperature embrittlement of alloys and metals, 24:10116 (KFK-985, pp 17-34)
effects on high temperature swelling of pellet shaped uranium nitride (UN), 24:7361
effects on high-pressure polymorphs of boron oxide, 25:11474(R) (BNWL-842)
effects on high-purity germanium at 1.9 and 4.2°K, (E), 21:4182
effects on high-purity gold, 23:10242
effects on high-strength pressure vessel steels, 23:34021 (AD-684067)
effects on high-temperature alloys, 21:28799(R) (HW-79345)
effects on high-temperature ductility of aluminum—chromium—iron—yttrium alloys, 21:13214 (ORNL-3970, pp 112-17)
effects on high-temperature mechanical properties of aluminum—chromium—nickel-base—titanium alloys, 25:58295 (FRNC-TH-64)
effects on high-temperature properties of aluminum—copper-base alloys, 24:14831
effects on high-temperature swelling of uranium dioxide—tungsten cermets, 24:23502(R) (BMI-1830)
effects on high-temperature swelling of uranium nitride—tungsten cermets, 24:23502(R) (BMI-1830)
effects on high-temperature tensile properties of Hastelloy N, relations with titanium additions, 24:29993
effects on high-temperature tensile properties of chromium—nickel steel, 22:714 (N-67-22957)
effects on higher aromatic hydrocarbons, 22:35867
effects on highly oriented graphite, 25:2730 (ORNL-4570, pp 44-6)
effects on hollow uranium fuel elements, 22:17153
effects on HTGR fuel particles, 24:41395(R) (ORNL-TM-3088)
effects on human blood plasma, aberrant effects of, on chromosomes of leukocytes cultured from controls, 22:40886
effects on human chromosomes in blood and bone marrow cells 7 to 10 yr following exposure, aberrant, 24:34268
effects on human chromosomes, use of, in dosimetry, 23:12055
effects on human eyes from occupational exposure, 24:23222(T) (AEC-tr-7133)
effects on human populations exposed to atomic bombing at Hiroshima and Nagasaki, RBE for leukemogenic, 24:39504 (ORNL-4446, pp 225-41)
effects on hydrated ammonium iodate, 25:31999
effects on hydrated para-terphenyls, 21:23985
effects on hydraulic fluids, methods of measuring, 23:32073
effects on hydrocarbon—iodine systems, 22:16566 (COO-1617-10, pp 37-55)
effects on hydrocarbon—iodine systems, yields of organic iodine compounds from, 23:13800(R) (COO-1617-13)
effects on hydrocarbon—iodine, yields of organic iodine from, 23:21773
effects on hydrogen content of reactor core graphite, (E), 24:35955(R) (GA-10099)
effects on hydrogen embrittlement in 212-B steel, 21:26861(R) (BNWL-CC-658)
effects on hydrogen embrittlement in types 212-B and 4340 steel, 21:28792 (ANL-7266)
effects on hydrogen embrittlement of A302B, HY80, and A542 carbon steels at 1200°C, analysis of, 22:31416 (BNWL-532, pp 7.1-18)
effects on hydrogen embrittlement of pressure vessel steels, research on, 22:19511 (BNWL-455, Paper 7.1-6)
effects on hydrogen pickup by zirconium alloys in ammonium and lithium hydroxides, 21:32931(R) (BNWL-CC-883)
effects on hydrolysis of plutonium carbide—uranium carbide by hydrochloric acid and water, 24:2231
effects on hydroxydiphenylarsine oxide and triphenylarsine, yields of recoils from, 23:45332
effects on hyperstoichiometric and hypostoichiometric uranium carbide fuel pins, relations of annealing at 1000 to 1800°C with, 24:6215 (AECL-3291)
effects on hypotension in monkeys, protective effects of vasopressor drugs against, 25:16299 (AD-702723)
effects on hypoxanthine content in rat brain, 25:35226
effects on ignition temperature of uranium, 23:1016
effects on ignition temperature of uranium, 23:41534
effects on immune reactions of mice, effects of low dose and sex on, 24:41956 (ANL-7635, pp 1-54)
effects on immune reactions to skin transplants in twin chimeric cattle, whole-body exposure, 25:46969 (COO-1210-67)
effects on impact properties of beryllium, 23:20527
effects on IMPATT diodes, 25:26562
effects on in-pile oxidation of iron, temperature dependence of, 23:46092 (CNM-R-2(Vol.1), pp 298-309)
effects on in-reactor creep of Type 304 stainless steel, 21:28800 (HW-84618)
effects on inactivation of mammalian cells, comparison of RBE of, with γ and x radiation, 24:23377
effects on incidence of dominant lethal mutations in Drosophila, 25:55206 (NYO-2740-8, pp 147-219)
effects on incidence of leukemia in man exposed to atomic bombing in Hiroshima and Nagasaki, RBE for, 25:21923
effects on incidence of mutations in peas following seed exposure, comparison between x-ray effects and, 25:57960
effects on Incoloy 800 and stainless steel, 23:8165 (ORNL-4370, pp 120-4)
effects on Incoloy 800 and stainless steel at 2 x 10^{23} neutrons/cm^2, 22:4832
effects on Incoloy 800 and stainless steel cladding materials, 22:25083(R) (GEAP-5541)
effects on Inconel 600, 21:26866(R) (HW-75500)
effects on Inconel 600, 21:31054(R) (BNWL-CC-1053)
effects on Inconel 625 clad uranium oxide (UO_2) and Incoloy 800 plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel elements, 24:7125
effects on Inconel—Zircaloy-2 joints, 21:20484
effects on increase of internal field emission current in silicon zener diodes, 23:2730 (HMI-B-71)
effects on indocyanine green during cardiovascular function studies in animals, 23:50264
effects on inducing boiling in superheated liquids, (E), 25:34798
effects on induction of chlorophyll mutations in rice, comparison of γ radiation and, 25:29481 (IAEA-R-290-F)
effects on induction of radioactivity in man, feasibility of measuring, 23:11444 (BNWL-481-2, pp 1-126)
effects on infrared absorption spectra of lithium fluoride crystals, 23:7044
effects on infrared absorption spectrum of polyethylene films, 25:31993
effects on inorganic and organic compounds, ESR studies on, 25:34634(R) (COO-1385-37)
effects on inorganic compounds, study of fragments produced by, 23:277
effects on inorganic nitrogen compounds, reactions of recoil nitrogen-13 from, 25:21066
effects on inorganic phosphorus oxyacids, chemical states of recoils from, 25:21073
effects on instrumentation performance on SNAP-10A, 21:10717
effects on integrated circuits, 23:4865 (HMI-B-74)
effects on intergranular cracking of stainless-steel fuel cladding, 22:26027 (GEAP-5495)
effects on intermetallic compound Nb_3Sn used in superconducting magnets, 23:42787 (BNL-50155(Pt.3), pp 967-1132)
effects on intermetallic compound Nb_3Zr used in superconducting magnets, 23:42787 (BNL-50155(Pt.3), pp 967-1132)
effects on internal friction and tensile properties of metals, 22:26068
effects on internal friction and thermoelectric properties of graphite, 23:14420
effects on internal friction in iron and molybdenum, 24:21849 (CEA-CONF-1487)
effects on internal friction in vanadium, 24:17191 (IS-2100, Sect. M)
effects on internal friction of boron—iron alloys, 25:35588
effects on internal friction of carbon and graphite at -180 to 500°C, 24:25777 (CEA-CONF-1490)
effects on internal friction of copper, 22:8799
effects on internal friction of graphite, 22:43667
effects on internal friction of niobium at 100 to 290°K, 21:45973
effects on internal friction of pure metals at low frequencies, 21:9205
effects on interstitial clustering in metals, 21:14865
effects on interstitial recombination around vacancies in aluminum, 22:28868
effects on interstitial trapping in vanadium, relations with annealing, 25:40042
effects on intestinal mucosa of mice and rats in comparison with γ and x, acute, 22:49552
effects on intestines of mice, pathological, 22:49557
effects on iodates, recoil reactions in, 24:36284
effects on iodine and pentane, 1-pentene, or 2-pentene, organic yields from reactions of recoil iodine-128 produced from, 25:18483(R) (COO-1617-27)
effects on iodine or iodine chloride in alkylbenzenes or cyclopentane, distribution of recoil atoms produced in, 24:18985(R) (COO-1617-19)
effects on iodine or iodine chloride in liquid or solid alkylbenzenes, benzene, or cyclopentane, isotope effects and yields from, 25:18483(R) (COO-1617-27)
effects on iodine—methane systems, effects of rare gas and molecular additives on, 23:13800(R) (COO-1617-13)
effects on iodoethane and iodobenzene, formation of charged species in, 23:243
effects on iodomethane and pentane, 1-pentene, or 2-pentene, organic yields from reactions of recoil iodine-128 produced from, 25:18483(R) (COO-1617-27)

effects on ion exchange and thermochemical properties, solubility, and specific surface area of chromium phosphate, 24:46257
effects on ionic single crystals at low temperatures, bleaching of color centers induced in, 25:36290
effects on ionization and conductivity in insulators, 21:6381
effects on iron alloys and steels, 21:22895(R) (EURAEC-1816)
effects on iron and iron alloys, 21:26868(R) (HW-77281)
effects on iron and nickel at low temperatures, 24:3444 (CEA-R-3757)
effects on iron and nickel, point defects induced in, 25:38539 (CEA-R-4144)
effects on iron and steel, relations with annealing, 23:22596 (KAPL-3440)
effects on iron and steel, role of energy in, 21:39665
effects on iron and steels, 21:36878(R) (EURAEC-1864)
effects on iron complexes with cupferron, effects of doping with labeled ferric hydroxide on isochronic annealing reactions, 23:4702
effects on iron solubility in mineral acids, 22:8756
effects on iron, annealing of point defects, (E), 23:16868 (CEA-CONF-1030)
effects on iron, computer simulation of saturation in, 22:17821
effects on iron, interactions of interstitial carbon and nitrogen solutes with defects from, 22:34791
effects on iron, relation to optimum structure for reactor shielding, (T), 21:21038
effects on iron—nickel alloy, magnetic anisotropy study of ordering induced in, (E), 25:36281
effects on iron—nickel alloy, Moessbauer study of ordered domains induced in, 24:47306
effects on iron—nickel single crystals, magnetization measurements of ordering by, 22:15585
effects on iron—nickel thin film magnetic properties, 22:7362
effects on iron-58-labeled potassium ferrocyanide and Prussian Blue, 25:13068
effects on iron-59 uptake by erythrocytes of mice, 22:49577
effects on isomeric transition reactions of iodine-130 in cyclohexane, 21:19649(R) (COO-1617-6)
effects on junction field effect transistors, 25:21516
effects on junction field effect transistors, 25:44745 (SC-DC-713707)
effects on labeled sodium iodate and periodate, Szilard—Chalmers effects in, 21:36066
effects on laminar coated tri-layer pyrolytic carbon-silicon carbide-pyrolytic carbon particle-type uranium oxide (UO_2) fuel elements, 23:9179 (NP-17696)
effects on lattice defects in uranium carbide, uranium dioxide, and uranium nitride, 24:10201
effects on lattice expansion of molybdenum, relations with interstitial clusters, 25:45095
effects on lattice parameter of copper single crystals, annealing of, 22:1359
effects on lattice parameter of lithium fluoride single crystals, annealing of, 25:9565
effects on lattice parameters and density of lithium fluoride crystals, (E), 21:42165
effects on lattice parameters of aluminum at 4.6°K, (E), 21:29351
effects on lattice parameters of uranium, 21:20466
effects on lattice vacancy formation in iron, 21:31059(R) (HW-84517)
effects on layer spacing of laminar pyrolytic carbon, 23:12410(R) (GA-9099)
effects on leaf structure of peas, mutagenic, 24:41843
effects on learned discrimination behavior of monkeys, effects of dose on combined γ and, 23:33822 (AD-681071)
effects on learning behavior of monkeys, combined effects of γ on, 23:35867 (AD-681073)
effects on lens in rat eyes, dose-effect relation of cataractogenic, 21:20315(R) (COO-1024-22)
effects on lens of mammalian eyes, comparison of γ dose with dose for cataractogenic, 25:11284
effects on lens opacification in mice, RBE for monoenergetic, 25:8756 (NYO-2740-7, pp 154-217)
effects on lenses in eyes of children following therapy for retinoblastomas, effects of dose on, 24:27715
effects on lespedeza, for resistance to root-knot nematodes, effects of strain on mutagenic, 24:34284
effects on leukocyte count and survival of mice, 22:4635
effects on Libyan Desert silica glass, EPR studies of, 21:40096
effects on life span and pollinating behavior of honeybees, 23:9904 (ORNL-4316, pp 71-160)
effects on life span of mammals, 22:40881
effects on life span of mice and rats, effects of age and dose fractionation on, 22:8645
effects on life span of mice, effects of dose on, 25:19105
effects on lifetime reduction in silicon and germanium, two-level model for, 22:13575
effects on lighium fluoride crystals, ESR study of tritium centers from, (E), 22:17779
effects on light absorption spectra of dog blood, alone and combined with aqueous solutions of indocyanine green, 23:35631 (AD-681372)
effects on Lingen reactor pressure vessel, 21:12162
effects on liquid alkylbenzene—iodine systems, 23:13800(R) (COO-1617-13)
effects on liquid and solid iodic acid, effects of annealing and pre-exposure to γ radiation on iodine-128 retention in, 24:50409 (CONF-690916-(Vol.2), pp 222-6)
effects on liquid scintillators, induced acoustic cavitation from, 25:23761 (AD-711286)
effects on liquids and solids, review on, 22:50965
effects on lithium bromates, search for bromine-82-labeled perbromate ions from, 23:24266
effects on lithium carbonate—hydrogen hexafluorosilicate, preparation of anhydrous fluorine-18-labeled hydrogen fluoride from, 22:12368
effects on lithium fluoride and lithium hydride single crystals, relation between EPR spectra and exchange interactions of F centers from, (E), 22:37028
effects on lithium fluoride and potassium chloride, color center formation in, 21:42198
effects on lithium fluoride and potassium chloride crystals, macrodefects from, 21:25209
effects on lithium fluoride crystals, 21:29348
effects on lithium fluoride crystals, 21:11708
effects on lithium fluoride crystals, (E), 21:7362
effects on lithium fluoride crystals, color center production in, 23:1524
effects on lithium fluoride crystals, dose dependence of dislocations from, 22:46245
effects on lithium fluoride crystals, effects of annealing on defects from, (E), 21:16994
effects on lithium fluoride crystals, energy of formation of F centers from, 21:25210
effects on lithium fluoride crystals, nature and interconversion of F-aggregate centers from, (E), 22:36968 (COO-1054-40)
effects on lithium fluoride crystals, nature and interconversion of F-aggregate centers from, (E), 23:14872
effects on lithium fluoride crystals, studies of lithium colloids induced in, 24:45315
effects on lithium fluoride crystals, thermal transformation of defects and color centers produced in, 24:45313
effects on lithium fluoride crystals, thermoluminescent, (E), 24:21044(T) (ANL-Trans-813)
effects on lithium fluoride EPR spectra and optical absorption properties, 21:42199
effects on lithium fluoride monocrystals, EPR studies on tritium formation in, 24:36273
effects on lithium fluoride single crystals, small-angle x-ray scattering study of, 24:24129
effects on lithium fluorides, concentration and dimensions of cavities from, (E), 22:36974(T) (UCRL-Trans-10247)
effects on lithium fluorides, lattice defects from, 22:41653(T) (UCRL-Trans-10251)
effects on lithium fluorides, thermoluminescence from, (E), 21:33541
effects on lithium salts of dicarboxylic acids, yields of tritium-labeled hydrocarbons and carbon oxides from, 24:36299
effects on lithium-doped manganese oxides, production and properties of defects from, (E), 22:37018
effects on liver cells in mice, measurement of blood plasma hexoses for determining whole-body, 24:34075 (AD-701755)
effects on locomotion behavior of dogs, 25:580 (AD-708431)
effects on long-term mechanical properties of electric insulating materials, 25:788
effects on long-term rupture properties of metals, research program on, 21:3483(R) (EURAEC-1714)
effects on longevity and physiology of organ systems of burros, 25:49285(R) (ORO-681)
effects on low-temperature dielectric properties of silicon dioxide glass, 22:21765
effects on low-temperature ductility of lithium fluoride crystals, (E), 23:3615
effects on low-temperature heat transfer of silicon and germanium, 22:52849 (CEA-R-3387)
effects on low-temperature properties of molybdenum, niobium, and molybdenum—niobium alloys, 22:688 (AD-646682)
effects on low-temperature specific heat of graphite, 22:52264
effects on lubricant additives, 22:10512
effects on lubricating properties of graphite and molybdenum disulfide, 22:8850
effects on lubricating properties of polyphenyl ethers, 22:8849
effects on luminescence and color centers in pure and uranium-doped lithium fluoride, (E/T), 23:51789
effects on luminescence in uranium-activated lithium fluoride, (E), 22:9434
effects on luminescence of lithium fluoride, 22:4170
effects on lymphocyte chromosomes in dogs following implantation of plutonium-238-powered circulatory assist device, 25:26931
effects on lymphocyte chromosomes in dogs following implantation of simulated plutonium-238 power source for artificial heart, aberrant, 24:46663
effects on macroscopic and lattice growth of ceramics, 21:20600
effects on magnesia crystals, absorption and luminescence spectra of defects produced in, 24:6635
effects on magnesia single crystals, F' and F' centers induced in, (E), 25:25210
effects on magnesia single crystals, optical spectra of color centers produced in, (E), 22:29572
effects on magnesia single crystals, production and annealing of defect cluster centers, (E), 23:44512
effects on magnesia single crystals, studies of defect centers produced in, (E/T), 23:51778
effects on magnesia, Faraday rotation studies of centers produced in, 23:23284
effects on magnesia, luminescent, 24:32895 (ORNL-4526, pp 1-17)
effects on magnesium and sodium chromates, effects of annealing on chemical behavior of chromium-51 recoil atoms produced by, 23:15912
effects on magnesium fluoride single crystals, color centers produced in, 23:25454
effects on magnesium nitride from carbon-14 recoil atoms, effects of acidity and thermal annealing on products from, 24:5693
effects on magnesium nitrides, reactions of recoil carbon-14 in, 23:219(R) (ORO-3602-2)
effects on magnesium oxide crystals, color centers and zero-phonon lines from, (E/T), 22:15643
effects on magnesium oxide crystals, zero-phonon lines produced in, 23:42464
effects on magnesium oxide monocrystals, 22:15266
effects on magnesium oxide, spin-orbit coupling and stress spectra of trigonal color centers from, (E), 22:52892
effects on magnesium oxides, crystal hardening from, (E), 23:32567
effects on magnesium oxides, electron-nuclear double resonance of F centers from, (E), 21:16981
effects on magnesium oxides, evidence for formation of fluorine-containing molecular ions from, (E), 22:34746
effects on magnesium oxides, long-wavelength neutron scattering study of, (E), 22:24474
effects on magnesium oxides, luminescence from, 23:8694
effects on magnesium oxides, negative-ion vacancies from, 22:41675
effects on magnesium oxides, zero-phonon lines from, (E), 23:30629
effects on magnesium, manganese, potassium, and sodium chromates, chemical reactions of chromium-51 recoil atoms produced by, 24:31369
effects on magnesium-doped lithium fluoride crystals, annealing of colloidal centers produced in, 24:12884
effects on magnetic aftereffect of nickel, 22:48168
effects on magnetic anisotropy of iron—nickel alloy films, 24:19966
effects on magnetic anisotropy of Permalloy films, (E), 22:15613
effects on magnetic field anisotropy of annealed Permalloy films, 24:1055
effects on magnetic properties of Armco iron and nickel, 22:44269
effects on magnetic properties of Heusler alloys, 21:3934
effects on magnetic properties of Ni_3Fe, (E), 22:26523
effects on magnetic properties of ordering soft magnetic alloys, 24:10602
effects on magnetic properties of Ultraperm, 21:36878(R) (EURAEC-1864)
effects on magnetic shielding materials of reactor beam holes, 22:12103
effects on magnetic susceptibility of nickel, relaxation of, (E), 21:20542
effects on magnetic thin-film recording systems, 25:57908
effects on magnetization curve of cobalt, 21:3528
effects on magnetization of permalloy, 21:11272
effects on magnetoresistance in graphite, 25:56319
effects on maize and tobacco plants for use for qualitative genetic, 24:34256
effects on mammalian cells, review of effects of LET on repair of, 25:58089
effects on mammals, physical factors affecting, 24:14601
effects on man, biological, 21:32731 (ANS-SD-4, pp 79-81)
effects on man, late neurological syndromes following acute, 23:48249
effects on man, neurocirculatory dystonic syndrome in sickness following, 23:31968 (A-AC.82/G/L-1264, pp 11-30)
effects on man, pathological, 22:40815
effects on man, protective effects of allogenic bone marrow transplants against, 21:34687
effects on man, remote pathogenic, 22:31239
effects on man, synergistic effects of γ radiation on lethal, 21:45781 (ORAU-101, pp 30-4)
effects on manganese carbonyl compounds, effects of organic solvents on retention of manganese-56 recoil atoms in, 21:42995
effects on manganese carbonyls, mechanism and yields of, 22:27753
effects on manganese carbonyls, production of manganese-56 by Szilard—Chalmers reactions from, 25:21062
effects on manganese carbonyls, yields of recoil manganese-56 from, 25:48565
effects on materials at high-pressures, test facility for, 22:37901 (BNWL-613)
effects on materials, conditions and methods for studying, 22:6318(T) (JPRS-43250)
effects on materials, effect of energy on size of defect clusters formed in, (T), 25:52897(T) (JPRS-53800, pp 24-8)
effects on materials, EPR spectrometer for studying, 25:15962 (CEA-R-4022)
effects on materials, exposure unit for measuring, 21:28799(R) (HW-79345)
effects on materials, model using atomic displacement density, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on Matthiessen's rule deviations in copper, 24:28420
effects on meat following exposure to nuclear explosions and reactor accidents, 24:39596(T) (ORNL-tr-2321)
effects on mechanical and physical properties of alkali metal halides, 23:3586
effects on mechanical and physical properties of graphite processed at 700 to 3000°C, 21:46033 (BNWL-502)
effects on mechanical and physical properties of graphite, 21:46032 (BNWL-489)
effects on mechanical and physical properties of graphite, 22:47675 (ORNL-4254, pp 183-240)
effects on mechanical and physical properties of graphite, 21:46964(R) (BNWL-CC-821)
effects on mechanical and physical properties of single crystal niobium, 22:4839
effects on mechanical and physical properties of Type 304 stainless steel at 700 to 910°C, 25:6881 (GEAP-13571)
effects on mechanical and physical properties of urania fuel, 21:46029(T) (UCRL-Trans-10131)
effects on mechanical and thermal properties of Hastelloy X, Incoloy 800, and Type 316 stainless steel, 23:45082(R) (GA-8787)
effects on mechanical behavior of MSBR graphite core components, linear viscoelastic analysis of, (T), 24:1969 (ORNL-TM-2407)
effects on mechanical properties and gas behavior of beryllium at 600°C, 21:18203(R) (IDO-17218)

effects on mechanical properties and microstructure of stainless steel, 21:16626
effects on mechanical properties and microstructure of tungsten, 22:8793
effects on mechanical properties and microstructure of plutonium oxides, 23:10296 (BNWL-SA-1969)
effects on mechanical properties and microstructure of Nimonic PE16 and Types 316 and FV548 stainless steels, relations with neutron dose and temperature, 25:52390 (A/CONF.49/P-499)
effects on mechanical properties and structure of nonmetallic reactor materials, 21:14914
effects on mechanical properties and thermal diffusivity of beryllium oxide, 21:28730(R) (GEMP-475-A)
effects on mechanical properties at 315 and 550°C of type 347 stainless steel, analysis of, 22:31415 (BNWL-532, pp 4.1-5)
effects on mechanical properties of 1,2,4,5-benzenetetracarboxylic 1,2:4,5-diimide polymers with p, p'-oxydiphenylene linkages, 22:25430
effects on mechanical properties of A-286 alloy, 21: 28799(R) (HW-79345)
effects on mechanical properties of A302B steel, effects of substructure on, 21:28797(R) (GA-7895)
effects on mechanical properties of AISI 347 stainless steel, 21:26866(R) (HW-75500)
effects on mechanical properties of aluminum alloys, SAP alloy, and stainless steels, use of cyclotron-injected helium for simulation of, 25:29907 (ORNL-TM-3299)
effects on mechanical properties of aluminum, reactor expansion tests of, 25:8123
effects on mechanical properties of ARBUS Power Reactor fuel elements, analysis of, 22:35478
effects on mechanical properties of Armco iron, 21:3526
effects on mechanical properties of ASTM A302-B steel, 22:19576 (BNWL-455, Paper 6.1-9)
effects on mechanical properties of bcc reactor materials, 21:6837(R) (GA-7436)
effects on mechanical properties of beryllium, 21:20469
effects on mechanical properties of boron-doped Type 304 stainless steel cladding at 70 to 746°C, 24:36938 (BAW-3809-8)
effects on mechanical properties of $CaO—UO_2—ZrO_2$ fuel elements, analysis of, 22:32789(R) (WAPD-MRP-124)
effects on mechanical properties of carbon fibers derived from polyacrylonitrile, relations of boron with, 24: 4860
effects on mechanical properties of carbon steel, 21: 26868(R) (HW-77281)
effects on mechanical properties of carbon steel, effects of grain size on, 21:36897
effects on mechanical properties of carbon—chronium—niobium—nickel—steel, 23:10241
effects on mechanical properties of chromium—molybdenum—nickel maraging steel, relations of temperature with, 24:1050 (NRL-6945)
effects on mechanical properties of chromium—molybdenum—vanadium alloy and Type 304 stainless steel, (T), 21:45970 (EURAEC-1921)
effects on mechanical properties of chromium—molybdenum—nickel—steel maraging plate and cobalt—molybdenum—nickel weld alloy, 24:12432 (AD-696057)
effects on mechanical properties of cold-hardened X18H10T steel, 24:17335
effects on mechanical properties of concrete, 25:6827(R) (RISO-225)
effects on mechanical properties of Croloy 2-1/4, 23: 41679 (AECL-3363)
effects on mechanical properties of diamonds, 22:2711
effects on mechanical properties of Fe Al 40 alloy, (E), 22:28880
effects on mechanical properties of fuel element assemblies, 25:49582
effects on mechanical properties of graphite at 300 to 1500°C, analysis of, 23:4168(R) (GA-7981)
effects on mechanical properties of graphite at 375 to 1250°C, analysis of, 23:4169(R) (GA-8038)
effects on mechanical properties of graphite at 400 to 1500°C, analysis of, 23:4165(R) (GA-7553)
effects on mechanical properties of graphite at 400 to 1500°C, analysis of, 23:4166(R) (GA-7801)
effects on mechanical properties of graphite, viscoelastic analysis of, 25:55646 (EUR-4674)
effects on mechanical properties of Hastelloy N, 22: 47675 (ORNL-4254, pp 183-240)
effects on mechanical properties of Hastelloy N and iron- and nickel-base Russian alloys, 21:32932(R) (EURAEC-1817)
effects on mechanical properties of Hastelloy N at 650 and 760°C, 22:11006 (ORNL-TM-2043)
effects on mechanical properties of Hastelloy N, relations with hafnium, niobium, and titanium additions, 25: 58168 (ORNL-4676, pp 139-233)
effects on mechanical properties of heavy-section steel plates for reactor pressure vessels, evaluation program for determination of, 22:10524(R) (ORNL-4176)
effects on mechanical properties of hot pressed and rolled beryllium, 22:666
effects on mechanical properties of Incoloy 800 and Types 304, 316, 321, and 347 stainless steels, 24: 14810 (GEAP-10066)
effects on mechanical properties of Incoloy 800 and stainless steel tubes, 25:47145
effects on mechanical properties of industrial ML5 steel, 22:8802
effects on mechanical properties of iron alloys, 21: 28799(R) (HW-79345)
effects on mechanical properties of iron and chromium steels, 25:52397(T) (JPRS-53800, pp 113-21)
effects on mechanical properties of iron and iron alloys, 21:28799(R) (HW-79345)
effects on mechanical properties of iron and steel, review of, 23:39006 (BNWL-1045)
effects on mechanical properties of iron at low temperatures, effects of annealing and chromium additions on, 21:26865(R) (HW-74679)
effects on mechanical properties of iron, nickel, and austenitic steel, effects of plastic deformation on, 21: 20541
effects on mechanical properties of low-alloyed steels, effects of low-cycle fatigue on, 21:36883
effects on mechanical properties of magnesium-base ML5 alloys, 23:8257
effects on mechanical properties of manganese steels, performance of equipment for testing, 25:710
effects on mechanical properties of materials, relations with neutron dose, 25:40061 (FEI-192)
effects on mechanical properties of metallic materials and steels, standard method for studying, 25:37989
effects on mechanical properties of metallo—ceramic materials, 25:45151
effects on mechanical properties of metals, 21:18255(R) (EURAEC-1595)
effects on mechanical properties of metals, 21:36879(R) (EURAEC-1881)
effects on mechanical properties of molybdenum, relations with compression and tension, 23:33979
effects on mechanical properties of mono- and polycrystals of rhenium, 25:58342
effects on mechanical properties of nickel, 21:26868(R) (HW-77281)
effects on mechanical properties of nickel-base alloys, relations with heat treatment, 25:22116(T) (AEC-tr-7188)
effects on mechanical properties of nickel-base aluminum alloys, 23:14368
effects on mechanical properties of niobium—tin—zirconium alloys, 22:21730
effects on mechanical properties of PBF type 304 stainless steel-clad calcium oxide (CaO_2)—uranium oxide (UO_2)—zirconium oxide (ZrO_2) fuel elements, measurement of, (E/T), 22:35596(R) (IDO-17260)
effects on mechanical properties of plutonium carbide (PuC)—uranium carbide (UC) and plutonium oxide (PuO_2)—uranium oxide (UO_2), 23:45082(R) (GA-8787)
effects on mechanical properties of plutonium oxide (PuO_2)—stainless steel pin-type fuel elements, 23: 15673(R) (BNWL-541)
effects on mechanical properties of plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel pins, 25:44125 (ORNL-TM-3427)
effects on mechanical properties of polystyrene, 21: 17686
effects on mechanical properties of pressure vessel steels, 23:24965 (ZJE-55)
effects on mechanical properties of pressure vessel steels for Bohunice Power Reactor Unit 1, evaluation of, 22: 50748 (ZJE-27)
effects on mechanical properties of pressure vessel chromium—molybdenum—nickel—steel, 24:29990
effects on mechanical properties of pressure vessel steels, 23:27122 (AD-681020)
effects on mechanical properties of pressure vessel steel, 25:8900 (ZJE-90)
effects on mechanical properties of pressure vessels, 25: 49493
effects on mechanical properties of pyrolytic and single-crystal graphite, 22:13078 (TID-24233)
effects on mechanical properties of reactor fuels, analysis of, 23:11235(R) (BNWL-919)
effects on mechanical properties of reactor pressure vessels, computer predictions of, 25:49481 (AD-721068)
effects on mechanical properties of reactor-grade concrete, 24:30059(T) (ORNL-tr-2309)
effects on mechanical properties of refractory alloys and metals, 21:28730(R) (GEMP-475-A)
effects on mechanical properties of rhenium—tungsten alloys, 21:28795(R) (BNWL-CC-510)
effects on mechanical properties of SAV-1 aluminum alloy, 21:1921
effects on mechanical properties of stainless steels, 21: 46964(R) (BNWL-CC-821)
effects on mechanical properties of stainless steels, 23: 13519(R) (AI-AEC-12721)
effects on mechanical properties of stainless steels, 23: 32040(R) (BNWL-678)
effects on mechanical properties of stainless steels, 21: 26868(R) (HW-77281)
effects on mechanical properties of stainless steel, 22: 19590
effects on mechanical properties of stainless steel, 23: 50986(T) (JPRS-48331, pp 512-52)
effects on mechanical properties of steel pressure vessels, 25:54072 (A/CONF.49/P-548)
effects on mechanical properties of steels, 21:26861(R) (BNWL-CC-658)
effects on mechanical properties of steels and stainless steels, analysis of, 23:11235(R) (BNWL-919)
effects on mechanical properties of steels and uranium oxide (UO_2), 25:54193 (A/CONF.49/P-823)
effects on mechanical properties of structural materials, data compilation on, 22:36511 (N-68-16876)
effects on mechanical properties of thick-section Type A533 pressure vessel steel, 24:19471 (ORNL-4512, pp 70-93)
effects on mechanical properties of thorium—uranium—zirconium fuel elements, 22:30386
effects on mechanical properties of transition joints of Inconel—Zircaloy, 21:20469
effects on mechanical properties of Type 304 stainless steel, 21:32931(R) (BNWL-CC-883)
effects on mechanical properties of Type 304 stainless steel, Hastelloy X, Zircaloy 2, and niobium alloy—zirconium alloy, analysis of, 23:11279 (BNWL-919, pp 12.1-58)
effects on mechanical properties of Type 316 austenitic stainless steel, relations with carbon content, grain size, niobium additions, and temperature, 24:29996
effects on mechanical properties of type 347 stainless steel, 21:28794(R) (BNWL-CC-355)
effects on mechanical properties of type 347 stainless steel, 22:19574 (BNWL-455, Paper 4.1-18)
effects on mechanical properties of Type 348 stainless steel, annealing of, 21:32931(R) (BNWL-CC-883)
effects on mechanical properties of Type A302B steel, relations with energy spectra and temperature, 24: 17328 (CONF-690910-, pp 491-505)
effects on mechanical properties of type-304 stainless steel and Zircaloy-2, 21:28795(R) (BNWL-CC-510)
effects on mechanical properties of types 304 and 348 stainless steels, 22:31414 (BNWL-532, pp 12.1-88)
effects on mechanical properties of Types 304, 316, and 316L stainless steel for use in fast reactors, 24:14809 (GEAP-10062)
effects on mechanical properties of Types 316 and 316L stainless steels with and without titanium, 23:50977(R) (BNWL-932)
effects on mechanical properties of Types 403 and 431 stainless steel, 23:41679 (AECL-3363)
effects on mechanical properties of U.S.S.R. 48 TC steel, 25:53908 (A/CONF.49/P-705)
effects on mechanical properties of uranium, 25: 52403(T) (JPRS-53800, pp 223-30)
effects on mechanical properties of uranium carbide (UC_2) and silicon carbide (SiC)-coated and uncoated uranium oxide (UO_2) fuels, analysis of, 22:42200(R) (ORNL-4200)
effects on mechanical properties of uranium dioxide, 23: 10297 (KAPL-M-6919)
effects on mechanical properties of uranium dioxide, 23: 8302(T) (EURFNR-528)
effects on mechanical properties of uranium oxide (UO_2) and Zircaloy 2, 25:10125(R) (NP-18573)
effects on mechanical properties of uranium-base dilute alloy fuel elements, 23:30100
effects on mechanical properties of vanadium alloys, 23: 50977(R) (BNWL-932)
effects on mechanical properties of vented-type plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel elements, 23:17188(R) (GA-8107)
effects on mechanical properties of Zircaloy clad plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel elements, (E), 24:52916(R) (WCAP-3385-24)
effects on mechanical properties of Zircaloy-2, 22:4823
effects on mechanical properties of Zircaloy-2, 22:21730
effects on mechanical properties of Zircaloy-4 pressure tubes, analysis of, 22:35428 (CVNA-289)
effects on mechanical properties of Zircaloy-4, (E), 24: 36033(R) (WCAP-3385-23)
effects on mechanical properties of zirconium, 25:6191 (RISO-214, pp 255-87)
effects on mechanical properties of zirconium alloys, 21: 20469
effects on melting point of uranium oxide (UO_2), 23: 11351 (BNWL-919, pp 5.1-17)
effects on mercury derivatives of fluorescein, reactions of recoil mercury-197 from, 25:15715
effects on mercury-203 enrichment in diphenylmercury by Szilard—Chalmers effect, 22:42758
effects on metal carbonyls, chemical annealing of, 24: 19012
effects on metal carbonyls, reactions of recoils in, 23: 17474
effects on metal nitrides, yields of carbon-14-labeled compounds from, 24:27004(P)
effects on metal phthalocyanine complexes, reactions of recoils from, 25:21071
effects on metallic reactor materials, review of, 24:46758
effects on metals and solids, role of neutron cross sections in, (T), 23:5787
effects on metals at low temperatures, production of defects from, review, 22:31925 (BNL-50083, pp 204-29)
effects on metals, design and performance of crystat-spectrometer system for measurement of lattice parameters in studying, 24:491
effects on metals, fundamental studies of, 21:28793(R) (BNWL-94)
effects on metals, research progress on computer study of mechanism of, 25:35504(R) (ORO-3912-4)
effects on metals, stress effects on collapse of vacancy cascades initiated by, (E/T), 22:31936 (BNL-50083, pp 389-401)
effects on metals, theory of, 24:6223
effects on metaphase chromosomes in human bone marrow cells, whole-body aberrant, 22:51874 (ORAU-106, pp 5-104)
effects on methane and methane—ethylene, methane—propene, and methane—oxygen systems, 23:24245
effects on methane and methane—hydrocarbon mixtures, 22:25432
effects on methanol solutions of lithium chloride, chemical states of sulfur-35 from, 25:13071
effects on methyl methacrylate polymers, 22:12364
effects on mica, 23:42445
effects on mice and rats in comparison to γ and x, 22: 12908
effects on mice, effects of dose on late neoplastic, 25: 26976
effects on mice, effects of repair mechanisms on frequency of mutagenic, 23:20150 (BNL-50058, pp 179-89)
effects on mice, histological evaluation of balneotherapy for treatment of, 25:4610
effects on mice, leukemogenic, 25:24337(R) (COO-1487-6)
effects on mice, mutagenic, 23:43741
effects on mice, performance of balneotherapy for treatment of, 23:16361
effects on mice, RBE of, 21:45791
effects on mice, relation between aberrant and tumorigenic, 24:34243
effects on mice, use of functional units in small chromosome segments for interpretation of mutagenic, 25:18957

effects on mice, use of tumor induction as measure of mutagenic, 22:49318
effects on microhardness of potassium chloride, 25:27222
effects on microplasticity of uranium dioxide, 21:14867
effects on microstructure and high-temperature tensile properties of aluminum—chromium—iron alloy, relations with yttrium additions, 24:29994
effects on microstructure and tensile properties of pressure vessel steels, 22:17147 (NRL-6649)
effects on microstructure and tensile properties of Zircaloy-2, 24:12434 (BNWL-1223, pp 4.1-107)
effects on microstructure and tensile properties of Type 316 stainless steel, relations with irradiation temperature at 420 to 650°C, 25:19251 (AERE-R-6435)
effects on microstructure and void formation in refractory metals and alloys, 25:58300 (ORNL-TM-3496)
effects on microstructure of A-286 at 540 to 650°C, 21:26865(R) (HW-74679)
effects on microstructure of bcc, fcc, and hcp metals, recovery stages from, 24:14822
effects on microstructure of beryllium and beryllium-base alloys, relations with radioinduced helium bubbles in, 24:14855
effects on microstructure of boron carbide, transmission electron microscopy of, 25:40137
effects on microstructure of carbon-containing molybdenum at 600°C, 21:32931(R) (BNWL-CC-883)
effects on microstructure of dilute boron—zirconium alloy, relations of annealing with, 24:1108
effects on microstructure of graphite, 25:47189
effects on microstructure of graphite, 25:2609 (ORNL-4570, pp 175-90)
effects on microstructure of graphite, effects of pitch-binder content on, 21:24832(R) (GA-7827)
effects on microstructure of Hastelloy N, 25:32765
effects on microstructure of Inor-8, 24:12395
effects on microstructure of metals, 25:29909
effects on microstructure of molybdenum at 60 and 200°C, 22:717
effects on microstructure of molybdenum at 600°C, 22:31414 (BNWL-532, pp 12.1-88)
effects on microstructure of molybdenum at 700 to 1000°C, 24:17338
effects on microstructure of molybdenum crystals, effects of carbon impurities on, 21:26869(R) (HW-83398)
effects on microstructure of plutonium oxide (PuO_2)—uranium oxide (UO_2), analysis of, 22:32743(R) (BNWL-739)
effects on microstructure of pyrolytic-carbon-coated thorium and uranium carbide and oxide fuel particles, 21:22927 (ORNL-TM-1772)
effects on microstructure of sintered uranium dioxide pellets, electron microscopy studies on, 21:26928
effects on microstructure of titanium—vanadium alloys and vanadium, 24:2921 (ORNL-4470, pp 168-80)
effects on microstructure of tungsten, 25:24607
effects on microstructure of tungsten single crystals, annealing of, 25:32762
effects on microstructure of Type 316 stainless steel, electron microscope study of, 25:29902(T) (EURFNR-891)
effects on microstructure of Types CHN and H-315-A graphites, 23:12410(R) (GA-9099)
effects on microstructure of uranium dioxide, role of fission products in, 21:14917
effects on microstructure of uranium silicide, electron micrographic study of, 25:45153
effects on military personnel in trenches following detonation of tactical nuclear weapons, 23:31799 (FMB-68-8)
effects on miniature swine, effects of dose and dose fractionation on lethal, 25:26928
effects on minority carrier lifetime in lithium-diffused n-type silicon, 24:28418
effects on minority carrier recombination in silicon, (E), 23:36790 (SC-DC-69-1703)
effects on mitotic activity of mouse bone marrow cells, effects of local and whole-body exposure on, 21:30916
effects on mixtures of aluminum, chromium, cobalt, iron, or rhodium complexes with 2,4-pentanedione and uranium, fission product reactions in, 23:286
effects on mixtures of hexafluorobenzene with perfluorocyclohexane and perfluorononane, 21:19661
effects on molybdenum, 21:26866(R) (HW-75500)
effects on molybdenum and tungsten single crystals, subgrain angular disorientation from annealing of, (E), 23:48981
effects on molybdenum mechanical properties, 22:1329
effects on molybdenum oxide, development of technetium-99m generator from molybdenum-99 produced by, 23:24246
effects on molybdenum single crystals, relations with crystal characteristics, 22:4818
effects on molybdenum, identification of vacancy and interstitial loops from, (E), 22:20049
effects on molybdenum, relations of pressure with annealing, 22:45791 (BNWL-SA-1835)
effects on molybdenum, relations with carbon content, 23:6705 (GEMP-1004, pp 89-177)
effects on molybdenum, relations with crystal perfection and temperature, 25:24610
effects on molybdenum, role of impurities in, 21:28799(R) (HW-79345)
effects on molybdenum, saturation and recovery of, (E), 23:8695
effects on monkeys when mixed with γ radiation, comparison with x rays, 21:28584 (AFRRI-SP-66-23)
effects on monoclinic—tetragonal phase transition of uranium-doped zirconium oxide, in combination with pressure, 23:50977(R) (BNWL-932)
effects on mortality of chinchillas, effects of dose and combined effects of γ on, 24:9936
effects on MOS transistors, 25:44752
effects on Mylar capacitors, 22:416(R) (AD-648643)
effects on n—p silicon BPY 70 solar cells, 23:4864 (HMI-B-73)
effects on n-type silicon, comparison with other types of radiations, 24:35540
effects on n-type silicon, impurity and irradiation-temperature dependence of formation and annealing of defects from, (E), 22:3203
effects on n-type silicon, production mechanisms and identification of defects from, review, 22:36999
effects on naphthalene and anthracene crystals at 10°K, ESR of paramagnetic centers induced in, 25:36287
effects on naphthalene single crystals at low temperatures, ESR of paramagnetic defects induced in, 25:36277
effects on neoplasms, review of therapeutic, 21:39451
effects on NERVA control drum actuator, 23:52427 (N-69-31870)
effects on Nerva structural materials, 22:4813 (TID-24148)
effects on nerve ganglia of intestines of mice in relation to development of intestinal syndrome, 25:11270
effects on nickel Alloy 600 and type 347 stainless steel, 21:34930 (KAPL-3161)
effects on nickel carbonyl, effects of iron carbonyl or triphenylphosphine on retention of recoil nickel-65 from, 25:15712
effects on nickel foils, electron microscopic study of agglomerated defects, 22:48169
effects on nickel, nature of tetrahedral defects produced in, 23:25455
effects on nickel, stage I annealing of, 23:16867 (CEA-CONF-1029)
effects on nickel-doped magnesia, 25:25225
effects on nil-ductility transition temperature of reactor pressure vessels, surveillance program on, 25:58294 (BAW-10006(Rev.2))
effects on nil-ductility transition temperature of steel pressure vessels, 24:32468 (BAW-10006(Rev.1))
effects on niobium, 21:31054(R) (BNWL-CC-1053)
effects on niobium and niobium alloys, bibliography on, 24:19468 (LA-4387)
effects on niobium and niobium alloys, relations with metal impurities, 22:8801
effects on niobium and tantalum, 22:11017
effects on niobium single-crystal tensile properties, 21:506(R) (ORNL-4020)
effects on niobium superconductors, 22:1070
effects on niobium, changes in superconducting properties from, 23:25239 (BMwF-FBK-68-43)
effects on niobium, dislocation channeling of defects from, (E/T), 23:12982
effects on niobium, effects of interstitial impurities on annealing of, 23:30612(R) (ORNL-4408)
effects on niobium, relations of oxygen with Stage III annealing of, 22:43625
effects on niobium-clad uranium monocarbide fuel pins, 21:36943(R) (EURAEC-1870)
effects on nitrides, chemical states of recoil carbon-14 from, 23:21729(T) (NP-tr-1746)
effects on nitrides, reactions of recoil carbon-14 and nitrogen-13 from, 25:13070
effects on nitrogen—oxygen—sulfur dioxide mixtures, 23:24259
effects on nitrous oxide and its systems with ammonia, ethylene, and ethane, 25:41851 (JAERI-13780)
effects on notch ductility and tensile properties A302-B steel, 21:41627 (NRL-6575)
effects on notch ductility and tensile properties of A302-B steel, 22:8794
effects on notch ductility in Yankee pressure vessel steel, 21:26869(R) (HW-83398)
effects on notch ductility of A 533-B and A 533-C pressure vessel steel plates and welds, 23:27123 (AD-681373)
effects on notch ductility of steels, 21:26866(R) (HW-75500)
effects on notch ductility of structural steels for use in pressure vessels, 21:26869(R) (HW-83398)
effects on notch ductility properties of Type-A212B uranium steel, 21:26869(R) (HW-83398)
effects on nuclear graphite at 1000°C, 23:10308 (BNWL-919, pp 3.1-19)
effects on nuclear structural materials, review on, 24:17333
effects on olefinic groups in butadiene polymers, 22:6345
effects on opacity of lens of mice, effects of dose fractionation on, 25:55206 (NYO-2740-8, pp 147-219)
effects on optical aberrations in lenses, 25:11961
effects on optical absorption in fused silica during TRIGA Reactor pulse irradiation, 22:41648 (N-68-21124)
effects on optical absorption spectra of graphite, 22:11515
effects on optical density of glasses used in photomultipliers, 21:8662
effects on optical properties of gallium arsenide and gallium phosphide, 24:15399
effects on optical spectra of magnesium oxide single crystals, (E), 22:7364
effects on optical-absorption spectrum of magnesium oxide, 23:22694
effects on organic bromine compounds, isotope effect in collection of recoils from, 21:25933
effects on organic compounds, mass spectrometric studies on, 23:31261(R) (SRRC-29/69)
effects on organic coolants at 50°C, 21:17656
effects on organic coolants in ORGEL Reactor, G values for, 21:21628 (CONF-651154-4)
effects on orientation and thermal expansion of pyrolytic carbon, (E), 22:11096
effects on orientation of alpha-uranium, 25:52404(T) (JPRS-53800, pp 231-6)
effects on origin and orientation of interstitial loops in alpha iron, 22:45790
effects on ornamental shrubs, mutagenic, 24:12042 (ORO-672, pp 184-5)
effects on ORNL Research Reactor lattice components, 21:35734
effects on oscillation frequency of quartz crystals, calculations for, 23:4866
effects on overpotential required to insert dissimilar molecules in graphite crystallites, 23:41741
effects on oxalic acid or ammonium oxalate, 22:42763
effects on oxidation of boron carbides, 22:18828
effects on oxidation of graphite by carbon dioxide or oxygen, 25:26286
effects on oxidative phosphorylation in mitochondria of rat tissues, 22:16981
effects on oxide fuels, 21:33015
effects on oxides, Wigner energy storage in, 25:27839 (CEA-N-1171)
effects on p- and n-type silicon solar cells, transient annealing of, (E/T), 22:13577
effects on p—i—n microwave diode switches, permanent, (E), 25:15981 (SC-RR-70-853)
effects on p-dibromobenzene, 21:25909
effects on p-dibromobenzene, effects of thermal annealing on yields from, 23:40716
effects on p-n silicon junction transistors, measurements of, 21:21799(R) (COO-1624-6)
effects on p-type germanium at 14 MeV, 23:20985
effects on p-type silicon, 21:44198
effects on p-type silicon, 23:42461
effects on p-type silicon at 82°K, divacancy formation in annealing of, 23:44508
effects on p-type silicon, effects of metastable charge states on short-term annealing of, 25:22609
effects on p-type silicon, influence of impurities on defects from, (E), 22:36993
effects on p-type silicon, model for short-term annealing of, 25:22610
effects on p-type silicon, photoconductivity studies of defects from, 22:36995
effects on p-type silicon, short-term annealing of, 25:21500
effects on p-type silicon, thermal and injection annealing of, (E), 23:36789 (SC-DC-69-1700)
effects on paramagnetic defect centers in single-crystal calcite, 22:8165
effects on paramagnetic defects associated with hydrogen and deuterium adsorption on calcium and magnesium oxides, 22:45108
effects on particle ejection and dispersal damage in nonfissionable metals, relations with atomic number and crystalline form, 24:32475
effects on particle ejection and dispersion damage in metals, relations with atomic number and crystalline form, 24:32476
effects on pea and spring wheat tissues, effects of dose on, 22:15117
effects on peas, genetic analysis of mutagenic, 23:4918
effects on pellets and shards of plutonium dioxide—uranium dioxide, 24:27031(R) (BAW-3714-16)
effects on perchlorocarbons, reactions of recoil chlorine-34 and chlorine-38 in, 25:21069
effects on perfluoroalkanes, 21:34300
effects on performance of anticonvulsant drugs in mice, combined γ and, 23:8057
effects on performance of dispersion-type fuel plates of chromium—nickel—uranium dioxide, 21:22920
effects on performance of miniature pigs, effects of shielding on mixed γ-, 24:27671 (AD-699129)
effects on performance of monkeys, effects of shielding on mixed γ and, 24:27670 (AD-699127)
effects on performance of pigs, effects of dose fractionation on mixed γ and, 24:29850 (AD-700237)
effects on performance of radioelectric cells, (E/T), 22:47863
effects on performance of uranium dioxide fuel elements with central melting, 21:22937 (TID-23665)
effects on petroleum oils, 23:40707
effects on phase transformations in oxides of aluminum, lithium, magnesium, and silicon, 25:30017
effects on phase transitions of barium titanates, lead titanates, and lead zirconates, 21:40113
effects on phases in dilute uranium-base alloys, 24:14860
effects on phenyl arsenic compounds, 23:276
effects on phenyl selenide, phenyl selenoxide, and phenyl telluride, labeled yields from, 24:27156
effects on phenylarsenic compound, Szilard—Chalmers reactions in, 24:11587
effects on phenylarsenic compounds, Szilard—Chalmers reactions in, 24:9399
effects on phenylmercuric compounds, labeling compounds by, 22:2109
effects on phenyltin compounds, recoil reactions in, 23:35137(R) (PRNC-130)
effects on phospholipids, using Siemens Teaching Reactor for evaluation of, 23:29385
effects on phosphorus compounds, reactions of phosphorus-32 recoils in, 23:328
effects on phosphorus tribromide and phosphorus trichloride, 23:21764
effects on phosphorus-32 production in elementary sulfur, 22:18786
effects on photoconductivity in p-type silicon, 21:31485
effects on photoconductivity spectra of n-type germanium crystals, effects of copper impurities on, 24:16545(R) (AECL-3477)
effects on photoluminescence spectra of phosphate glass dosimeters in comparison with gamma radiation, 23:7838 (CONF-680920-, pp 518-24)
effects on photoperiodic reaction of barley, mutagenic, 23:43740
effects on physical and structural properties of glass at 20°C, 23:10305
effects on physical properties and volume shrinkage rate of graphites at 1200°C, 25:4885 (DP-Report-556(Pt.2))
effects on physical properties of cobalt, 22:43617 (DP-MS-67-20)
effects on physical properties of concrete, 23:21474
effects on physical properties of graphite, 22:17187

effects on physical properties of isostatically pressed and sintered beryllium oxide (BeO)—thorium oxide (ThO_2)—uranium oxide (UO_2) fuel, 23:13503(R) (GA-6532)
effects on physical properties of reactor graphite, review of, 25:51247 (JUL-747-RW)
effects on physical properties of Saxton Power Reactor Core 2 Zircaloy 4 clad plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel elements, 24:3998(R) (WCAP-3385-20)
effects on physical properties of uranium carbide fuel elements, 25:52468 (A/CONF.49/P-454)
effects on physical properties of uranium—molybdenum—niobium and uranium—molybdenum—zirconium alloys, 21:43583 (EUR-3479.i)
effects on physicochemical properties of glasses, 22:12348
effects on physiology of cattle, whole-body exposure, 25:46968(R) (COO-1210-66)
effects on physiology of rhesus monkeys, mixed γ and, 22:49473 (CONF-680410-, pp 8.1-6)
effects on Pisum seeds, mutagenic, 25:35122
effects on plant leaf embryos, effects of dose on mutagenic, 22:49284 (NYO-2740-5, pp 201-66)
effects on plant seeds, international program for reactor, 23:45947 (CNM-R-2(Vol.2), pp 826-40)
effects on plants, agricultural use of, 21:22783
effects on plants, irradiation service program for mutagenic, 24:12043 (ORO-672, pp 186-8)
effects on plants, program for use of reactors for studying, 24:21325
effects on plasma glutamic-oxalacetic transaminase of mice, RBE of, 23:20399
effects on plastic deformation in alpha iron, mechanism of, 21:26869(R) (HW-83398)
effects on plastic deformation in copper, 21:1914 (AD-630923)
effects on plastic deformation in metals, mechanism of, 21:26869(R) (HW-83398)
effects on plastic deformation of iron single crystals, dose and temperature dependence of, (E), 22:13598
effects on plastic deformation of uranium, 21:20466
effects on platinum, Debye—Waller factor in Moessbauer study of defects induced in, 24:45368
effects on platinum, removal of interstitial defects induced in, 21:3928
effects on plutonium carbide (PuC)—uranium carbide (UC) EBR-2 fuel elements, analysis of, 22:50841(R) (LA-3993)
effects on plutonium carbide—uranium carbide at high burnup, 21:33011
effects on plutonium oxide (PuO_2)—uranium oxide (UO_2) microstructure, in-pile, (E), 24:26835(R) (BNWL-1358)
effects on plutonium oxides—uranium oxides—zirconium oxides, 22:19649(R) (NUMEC-3505-30)
effects on plutonium—uranium carbide fuels, 21:33010
effects on plutonium-containing solids, 21:33008
effects on point defect clusters in molybdenum at 77°K, 25:45093
effects on point defects in high-purity nickel, 24:8155 (CEA-R-3772)
effects on pollen and stamen hairs of Tradescantia, RBE for, 25:55206 (NYO-2740-8, pp 147-219)
effects on pollen, mutagenic, 23:50424
effects on polycrystalline molybdenum at 60 and 600°C, 21:43640 (BNWL-SA-1365)
effects on polyethylene, study of EPR spectra and spin—lattice relaxation of, 23:44506
effects on polymerization of 1,3-butadiene with poly(vinyl chlorides), 23:40774(P)
effects on polymerization of alkenes in presence of carbon dioxide, 24:20835(P)
effects on polymerization of benzene or toluene in presence of aluminum nitride, 25:57456
effects on polymerization of ethylene with tetrafluoroethylene, 24:9370(P)
effects on polymerization of hexafluorobenzene with perfluorohexane or perfluorononane, 21:23992
effects on polymerization of vinyl chloride at low temperatures in presence of metal oxide catalysts, 23:33235(P)
effects on polymers, 22:15270
effects on polymers, NMR spectral studies on, 22:48885
effects on polynuclear isolated hydrocarbons, 21:23977
effects on polyphosphates, reactions of recoil phosphorus-32 from, 24:18998
effects on porosity of uranium dioxide, relations with temperature, 24:14969
effects on positron decay in semiconductors, (E), 21:2046
effects on potassium azide, yields of carbon-14-labeled compounds produced from, 24:13872(R) (COO-1620-4)
effects on potassium bromate, high-temperature Szilard—Chalmers annealing of, 24:11591
effects on potassium bromide and sodium chloride at 500 keV, 22:3169(R) (NYO-3822-2)
effects on potassium bromide at 500 keV, thermal stimulation effects on defects from, (E/T), 24:12886
effects on potassium bromide, annealing kinetics of interstitial defects induced in, 25:38542 (NYO-3822-18)
effects on potassium chlorate, potassium chlorite, and potassium perchlorate, distribution of recoil chlorine-38g following, 23:234
effects on potassium chloride and sodium chloride, chemical state of sulfur-35 from, 22:45105
effects on potassium chloride at 50°C, defects and color loss from, (E), 23:39537
effects on potassium chloride crystals, colloid production in, 25:14429
effects on potassium chloride doped with potassium hydroxide, 24:16571
effects on potassium chloride monocrystals, reactions of recoil phosphorus-32 from, 25:39558
effects on potassium chloride single crystals, chemical states of phosphorus-32 from, 24:18992
effects on potassium chloride single crystals, diffusion of argon from, (E), 21:29354
effects on potassium chloride, yields of recoil sulfur-35 from, 25:8312
effects on potassium chlorides and sodium chlorides, change in shear properties from, (E), 22:46205
effects on potassium chlorides, production of sulfur-35 by, 22:35874
effects on potassium chromate and hydrated and nonhydrated sodium chromates, 24:2242
effects on potassium chromate, isochronal and isothermal annealing of recoil chromium-51 ions produced from, 23:40770
effects on potassium chromate, preparation of chromium-51 from, 25:48562
effects on potassium chromates crystals, separation and chemical properties of polynuclear recoil products from, 25:18486
effects on potassium chromates, chromium-51 production by Szilard—Chalmers process in, 23:19770
effects on potassium chromates, effects of electron- and γ-radioinduced thermal annealing on, 22:27827
effects on potassium chromates, effects of oxygen on isothermal and isochronal annealing reactions of chromium-51 recoils from, 25:51541
effects on potassium chromates, ESR studies on mechanism of, 23:13788
effects on potassium chromates, role of recoil reactions in "crossover reaction" on thermal annealing of, 25:54679
effects on potassium cyanides, yields in, 22:45100
effects on potassium dichromate, production of chromium-51 from, 24:29341
effects on potassium iodate crystals, thermal and radiation annealing studies on, 24:19030
effects on potassium iodide single crystals, reactions of recoil iodine isotopes from, 25:32013 (AERE-R-5842)
effects on potassium iridium chlorides, mechanism of thermal annealing of, 24:38940
effects on potassium permanganate, effects of solvent acidity on oxidation states of manganese-54 recoil atoms produced by, 21:43000
effects on potassium rhenium bromide—potassium rhenium chloride mixed crystals, effects of thermal annealing on, 23:2358
effects on potassium rhenium bromide—potassium tin chloride mixed crystals, 23:21730(T) (NP-tr-1751)
effects on potassium trioxalatoferrate crystals, 21:17695
effects on potassium trisoxalato chromate, reactions of recoil chromium-51 from, 25:57490
effects on potatoes for resistance to diseases and pests and yield, mutagenic, 25:16089(R) (EUR-4545)
effects on power reactor control, time integrated method for calculating spatial, 21:38564
effects on power reactor steel pressure vessels, dosimetry techniques for, 25:44117
effects on power transistors, evaluation of, 25:21501
effects on power-reactor pressure vessels, present and proposed ASTM program for surveillance of, 21:21671
effects on precipitation in carbon—iron alloys, 24:51234
effects on precipitation in niobium-stabilized stainless steel, 24:8062
effects on precipitation of carbon in α-iron, 21:24809
effects on precipitation of metallic lithium in lithium fluoride and lithium hydride, 22:35832(T) (UCRL-Trans-10244)
effects on precipitation of nitrides in iron, 21:24810
effects on pregnant rats, effects of, on cardiovascular system of fetuses, 23:22413
effects on pressure vessel steel, relations with solid-solution nitrogen content, 22:11010
effects on pressure vessel steel, surveillance program for, 25:39142 (IAEA-117, Paper 5a)
effects on pressure vessel steels, 21:7898(R) (SwRI-1228-P-4-25)
effects on pressure vessel steels, 21:16627
effects on pressure vessel steels, 21:46970
effects on pressure vessel steels, 21:9199 (GEMP-61, pp 119-32)
effects on pressure vessel steels at 160 to 240°C, 21:43639 (AE-298)
effects on pressure vessel steels, effects of fabrication heat treatments on, 22:33169
effects on pressure vessel steels, relations with heat treatments, 22:19588
effects on pressure-vessel steels, 21:31054(R) (BNWL-CC-1053)
effects on prestressed ferro concrete pressure vessels, 24:11200(T) (JPRS-49481)
effects on production of acicular precipitates in Type 316 stainless steel, 25:2756 (CEA-CONF-1638)
effects on production of dislocation loops in molybdenum, 25:24609
effects on production of displacement spikes in alpha-iron, method for computing, 21:28794(R) (BNWL-CC-355)
effects on production of expanded olefin polymers, 24:16563(P)
effects on production of iodine-125 in xenon fluoride, 22:45156
effects on production of lithium-6 in beryllia and graphite at 1280 to 1500°C and 1 x 10^{21} n/cm^2, 21:46028 (ORNL-TM-1799)
effects on production of magnetic remanence in meteorites and lunar materials, (E), 25:35598
effects on production of sulfur-35-labeled methyl isothiocyanate, 22:45111
effects on properties and structure of beryllium, 23:5076
effects on properties and structure of intermetallic chromium carbide, 21:3560
effects on properties and structure of molybdenum, 21:26868(R) (HW-77281)
effects on properties and structure of molybdenum, nickel, and rhenium, 21:34244(R) (BNWL-228)
effects on properties and structure of titanium carbide, 21:3560
effects on properties of alloys and metals for use as fuel cladding, 25:29916
effects on properties of aluminum oxide, 22:28969
effects on properties of austenitic steels, 23:51077(T) (JPRS-48331, pp 495-511)
effects on properties of beryllium, 23:32024 (ORNL-4421)
effects on properties of beryllium oxide, 22:28969
effects on properties of boride and carbide coatings on molybdenum, niobium, tantalum, and tungsten, 22:34127
effects on properties of chromite concrete shielding, 25:49594
effects on properties of copper—molybdenum—zirconium-base pressure tubes, 25:42929
effects on properties of Elk River reactor pressure vessel steels and welds, (E), 22:30159 (SwRI-1228-P-9-15)
effects on properties of Ferrovac E iron, 21:35701(R) (BNL-50023)
effects on properties of Fortiweld steel, effects of boron isotopes on, 23:18253
effects on properties of graphite, relations with density and crystal orientation, 25:32842(R) (GA-10533)
effects on properties of graphite, research on, 25:6899 (GA-9975)
effects on properties of Hastelloy X280, 21:32930 (BNWL-211)
effects on properties of Incoloy 800 at 650°C, 24:4735 (ORNL-4440, pp 117-42)
effects on properties of iron and steel, review of, 24:17336
effects on properties of magnesium oxide, 22:28969
effects on properties of magnetic alloys, 24:42288
effects on properties of niobium—zirconium and niobium—tin—zirconium alloys, 23:41635
effects on properties of reactor pressure vessel steels, 25:32756
effects on properties of reactor thermal shields, 25:48362
effects on properties of silicon, 23:26641
effects on properties of tantalum fuel cladding, 25:16544 (ANL/EBR-31)
effects on properties of Type 304 stainless steel, 24:34839(R) (BNWL-1091)
effects on properties of Types 304 and 316 stainless steel, 25:22119(R) (WHAN-FR-40-1)
effects on properties of Types A212 and A302B steels, correlations for reactor calculations, 24:2974
effects on properties of uranium dioxide, 23:39065 (BNWL-1058, pp 5.1-58)
effects on properties of vanadium, 25:16398 (IS-2300, pp 101-86)
effects on pulmonary function in sheep when combined with effects of sublethal blast overpressure and unilateral γ exposure, 25:52185(R) (AD-721094)
effects on pulmonary function in sheep with and without blast exposure, combined γ and, 25:37873(R) (DASA-2630)
effects on pure and niobium-doped calcium tungstate crystals, ESR study of, 22:46278
effects on pure metals, annealing recovery of, 23:30612(R) (ORNL-4408)
effects on pyrene compounded with 2,3,5,6-tetrabromo-p-benzoquinone, chemical effects of recoil bromine-82 from, 23:49871
effects on pyroceramics, 21:41680
effects on pyrolysis of terphenyl OM2, 21:25870 (EUR-3287.e)
effects on pyrolytic carbon, 22:11021(R) (GA-7390)
effects on pyrolytic carbon, 22:11089(R) (GA-7100)
effects on pyrolytic carbon and graphite, 22:21777(R) (GA-8376)
effects on pyrolytic carbon-coated fuel particles, P11 experiment on, 21:6892 (GA-7286)
effects on pyrolytic-carbon-coated thorium carbide—uranium carbide fuel particles, 21:21919 (ORNL-4076, pp 81-115)
effects on quantitative characters in winter rye, effects of seed exposure on mutagenic, 22:6788
effects on quartz, mechanism of transformation into amorphous silica by, (E), 21:40107
effects on rabbits, whole-body carcinogenic, 24:6110
effects on racemization of solid potassium chromium oxalate, 24:239
effects on range of leading dislocations of etch-figure stars in alkali metal halide crystals, 24:6628
effects on rate of Guinier—Preston zone formation in aluminum-zinc alloys at 78°K, 22:23850
effects on rats, effects of hot-spring treatment on mixed cesium-137 γ and, 23:16362
effects on rats, review on remote sequelae of, 25:24225(T) (AEC-tr-7195, pp 439-58)
effects on reaction between carbon and carbon dioxide, 22:18809 (NP-17282)
effects on reactions between chloromethanes or cyclohexane and iodine by isomeric transition and (n, γ) processes, organic retentions in, 21:19649(R) (COO-1617-6)
effects on reactions between defects and impurities in high purity iron, review of, 22:43616 (CEA-R-3280)
effects on reactions of beryllium oxide with graphite, 22:11092
effects on reactions of hexane with labeled iodine with and without ethyl or isopropyl iodides, iodine-128- and -130-labeled yields in, 22:101
effects on reactions of labeled iodine with methyl iodide, iodine-128-and -130-labeled organic yields in, 22:100
effects on reactions of recoil tritium atoms in amino acids, 21:116
effects on reactivity in reflected slab reactor, 21:25720 (UCRL-70366)
effects on reactivity of aluminum—hafnium alloys, 21:18301(R) (IN-1048)
effects on reactivity, space-time synthesis of, 21:40560 (KAPL-M-6711)
effects on reactor building materials, 21:28799(R) (HW-79345)

effects on reactor building materials, 21:31059(R) (HW-84517)
effects on reactor building materials, 21:31054(R) (BNWL-CC-1053)
effects on reactor fuel element cladding of metals and metal alloys, analysis of, 22:27492
effects on reactor fuel elements, 21:41679 (BNWL-225)
effects on reactor fuels, 21:7901(R) (WCAP-3269-17)
effects on reactor fuels, description of optical methods for examining, 22:27497
effects on reactor grade graphite at 100 to 2150°C, 22:8853
effects on reactor grade graphite at 100 to 2150°C, 23:3163(T) (NSJ-tr-115)
effects on reactor materials, 22:19676
effects on reactor materials, 22:13040
effects on reactor materials, computer analysis of, 24:6219
effects on reactor materials, model for, 23:48494 (CEA-CONF-1304)
effects on reactor materials, model of, 24:2974
effects on reactor metals and metal alloys, progress during May to July 1967 on, 22:31413(R) (BNWL-532)
effects on reactor pressure vessel steels, relations with dose and spectra, 25:32760
effects on reactor steels, method for correlation of, 23:50978(R) (BNWL-971)
effects on reactor structural materials, 21:26868(R) (HW-77281)
effects on reactor structural materials, 21:28795(R) (BNWL-CC-510)
effects on reactor structural materials, 21:26866(R) (HW-75500)
effects on reactor structural materials, 23:34022(R) (AD-685591)
effects on reactor structural materials, 21:26861(R) (BNWL-CC-658)
effects on reactor structural materials, 22:19575 (BNWL-455. Paper 5.1-10)
effects on reactor-grade graphites at high temperatures, relations with structure, 25:49585
effects on recombination levels in germanium, 22:36965 (AD-666220)
effects on recovery of faded photographs, 24:14191
effects on reflection properties of alumina single crystals, 25:38036
effects on refractory materials, 21:28795(R) (BNWL-CC-510)
effects on refractory metal carbides, 24:37003 (ORNL-4586, pp 118-25)
effects on refractory uranium and zirconium compounds, 22:45829(T) (EURFNR-503)
effects on release of rare gas isotopes from pyrolytic-carbon-coated thorium and uranium carbide and oxide fuel particles, 21:22927 (ORNL-TM-1772)
effects on reliability of electronic components, 21:12737(R) (N-66-24404)
effects on reliability of transistors, 23:41186
effects on Rene' 41, 21:26866(R) (HW-75500)
effects on Rene' 41, 21:26868(R) (HW-77281)
effects on reproductive capacity of HeLa cells, effects of oxygen on, 23:41257
effects on residual stress in Type 304 stainless steel-clad uranium oxide (UO_2) fuel elements, analysis of, 22:50730 (GEAP-4221)
effects on resistance of peppermint plants to Verticillium, mutagenic, 24:41830
effects on resistivity of aluminum at 78°K, 21:41628
effects on response of guinea pigs to insulin and tolbutamide, mixed γ and, 23:26868 (AD-672739)
effects on response of mice to anticonvulsant drugs, mixed γ and, 23:26869 (AD-672740)
effects on response of mice to drugs, mixed γ and, 23:26872 (AD-672895)
effects on response of rats to psychopharmacologic agents, mixed γ and, 23:26870 (AD-672741)
effects on response of rats to tranquilizers following whole-body exposure in mixed γ fields, 25:55325
effects on reverse strain relaxation in iron, 21:26869(R) (HW-83398)
effects on rhenium at 390°K, annealing of, 24:4823
effects on rhenium, stereo-electron microscopy study of defect clusters from, 22:34790
effects on rice from Ceylon, mutagenic, 24:39484
effects on rice in comparison with cobalt-60 γ radiation, EMS, and nitrosomethyl urea, 24:41804
effects on rice, mutagenic, 24:660
effects on rice, mutagenic, 24:50824
effects on RIFT systems, 21:44925(R) (N-67-26294)
effects on rolling texture of copper, 21:28807
effects on room-temperature tensile yield stress of mild steel, 21:6840
effects on rubidium halide single crystals, temperature dependence of diffusion of krypton from, (E), 22:34792
effects on rupture and tensile properties of Inconel 625, 23:34043
effects on rupture of chromium—nickel—titanium alloys and Type 304 stainless steel, (T), 21:45969 (EURAEC-1908)
effects on rupture strength of stainless steel, 21:7856(R) (ANL-7255)
effects on S8DS control components in vacuum- and high-temperature environment, 21:8014 (NAA-SR-12042)
effects on salts of phosphoric esters of fructose, galactose, and glucose, phosphorus-32-labeled recoil products in, 23:256
effects on salts of triethylenediaminecobalt, 21:45167
effects on Santowax OM and Santowax WR, 22:4172
effects on saturated damage state in iron, 21:26869(R) (HW-83398)
effects on Schottky barrier diodes, 23:2734
effects on scintillations in plastic and stilbene phosphors, time dependence of, 22:40415
effects on seedling growth following exposure of barley seeds, 25:27062 (IAEA-R-459)
effects on seeds of barley, oats, and wheat in comparison with other mutagens, mutagenic, 24:12041 (ORO-672, pp 164-6)
effects on seeds of crops, standardization of doses and methods for mutagenic, 22:51512
effects on seeds of maize, in comparison to x radiation, mathematical method for determining effects of dose on, 24:17161
effects on seeds of Phaseolus mungo, mutagenic, 22:21630
effects on seeds of wheat, comparison of mutagenic, with EMS and γ, 22:40634
effects on seeds, conference on, 23:50928 (STI/DOC-10/76)
effects on seeds, development of internationally coordinated research on, 23:50441
effects on seeds, development of program for study of, 24:17160 (STI/DOC-10/92)
effects on seeds, methods for studies of, 24:17167
effects on seeds, mutagenic, 23:50439
effects on seeds, mutagenic, 23:50440
effects on seeds, reaction mechanisms and modifying factors for, 25:52268 (A/CONF.49/P-538)
effects on selenium dioxide, production of krypton-83m by, 21:32197
effects on semiconducting diamonds, 25:19769(T) (LIB/Trans-307)
effects on semiconducting properties of uranium dioxide, (E), 21:42175
effects on semiconductor devices, standard for energy dependence of, 25:44747 (SC-DC-714161)
effects on semiconductors, electron microscope observation of damage clusters from, 22:37007
effects on semiconductors, impurity effects in electrical property changes from, (E), 23:32556 (AD-476458)
effects on semiconductors, model for carrier scattering from cluster defects for, 23:18734
effects on sensitivity of boron trifluoride proportional detector with aluminum cathode, 22:16965 (CEA-R-3343)
effects on serrated yielding in hydrogenated palladium wires, 24:14861
effects on serum proteins of mice, immunoelectrophoretic analysis of whole-body 14 MeV, 22:30960
effects on shear compliance of hot-worked pyrolytic graphite, 22:28966
effects on shear modulus of aluminum, copper, and platinum at 4°K, 25:29912
effects on shear stress of molybdenum single crystals, 24:14808(R) (BNWL-1020)
effects on shear stress of titanium—vanadium-base alloys, 24:1051(R) (ORO-3612-6)
effects on shear stress of vanadium, 24:1051(R) (ORO-3612-6)
effects on shielding properties of boron or rare earth incorporating carbon, 24:39728
effects on shielding properties of concrete aggregate components, 25:19296
effects on shielding, heat generation from, 23:16858
effects on shock-avoidance behavior and survival of miniature swine, effects of partial-body shielding on mixed γ and, 24:25563
effects on short cylindrical fuel elements, 21:41632
effects on shrinkage of graphites at 900 to 1200°C, 25:4885 (DP-Report-556(Pt.2))
effects on sialic acid content of brain, heart, and liver in rats, combined effects of adrenalectomy on low-dose, 25:501
effects on silane, reactions of recoil silicon atoms from, 23:2356
effects on silica and germania, ESR studies of defects induced in, 25:59174
effects on silica gel, ESR studies on, 24:29312
effects on silica glass, comparison with quenching effects, 22:24405(R) (COO-1255-5)
effects on silica glass, specific volume dependence of activation energy for annealing of, (T), 23:42436
effects on silica glass, structure and threshold energies of defects from, (E/T), 21:46426
effects on silicon and germanium, 24:51780 (AD-707080)
effects on silicon and germanium, annealing of damage from, 24:6637
effects on silicon at 60 keV to 50 MeV, energy dependence of, (E/T), 21:6371
effects on silicon at 76°K, growth and annealing of divacancies induced in, 25:56311
effects on silicon carbide single crystals, ESR of centers induced in, 25:9545
effects on silicon crystals at 996 +- 8 keV, (E), 22:5100
effects on silicon crystals, defects and optical transitions in luminescence, 24:51781 (AD-707690)
effects on silicon detectors, absorption spectrum from, 21:17948
effects on silicon devices, hybrid recombination model for, 25:2514 (SC-R-70-4351)
effects on silicon diodes, transient analysis of carrier trapping for studying, 23:17863
effects on silicon dioxide—uranium dioxide fuels, 24:42284 (IFA-MN-11)
effects on silicon foils, use of anomalously wide images in electron microscope studies of defects from, 22:24482
effects on silicon microhardness, 22:41691
effects on silicon monocrystals, energy spectra from, 21:26930
effects on silicon p—n junctions, 22:17723(R) (COO-1624-11)
effects on silicon p—n junctions, 23:17856(R) (COO-1624-20)
effects on silicon p—n junctions, (E/T), 25:55095(R) (COO-1624-41)
effects on silicon p—n junctions, defect clusters from, 23:41182 (COO-1624-17)
effects on silicon p-n junction transistors, generation and recombination lifetimes for, 24:33980
effects on silicon planar power transistors, (E), 21:6897(R) (AD-635218)
effects on silicon planar power transistors, effects of design parameters on, 21:12734(R) (AD-641406)
effects on silicon planar transistors operating in inverse configuration, 23:17855 (COO-1624-15)
effects on silicon power transistors, statistical analysis of gain degradation, 25:21502
effects on silicon solar cell lifetime and stability, 23:41185
effects on silicon solar cells, 23:26627 (AD-676976)
effects on silicon solar cells, 25:42232
effects on silicon solar cells, 24:535(R) (N-69-34379)
effects on silicon solar cells, electron microscopic study of, 25:49976(R) (N-71-16474)
effects on silicon solar cells, lithium precipitation in, 25:49975(R) (N-70-28588)
effects on silicon transistors, 21:9252 (SC-R-66-923)
effects on silicon transistors, 21:39317 (SC-RR-67-312)
effects on silicon transistors, 22:28267
effects on silicon transistors, annealing characteristics for, 23:17864
effects on silicon transistors, characteristics of annealing, 22:13578
effects on silicon transistors, hybrid recombination model for, 25:21520
effects on silicon transistors, rapid annealing of, 23:17871
effects on silicon transistors, recombination statistical model for, 23:17870
effects on silicon transistors, second breakdown and thermal properties of, 23:17865
effects on silicon Zener diodes, 24:25345 (N-70-16345)
effects on silicon, computer program for calculating, 21:31109 (SC-RR-67-122)
effects on silicon, electric conductivity changes from, (E), 22:52860
effects on silicon, EPR spectrum of Si-S1 centers induced in, 25:45567
effects on silicon, for neutron dosimetry, 22:12579
effects on silicon, Hall effect and electrical conductivity measurements of, 23:18732
effects on silicon, impurity analysis from, (E), 23:18717 (AD-664325)
effects on silicon, luminescence from recombination of electrons and holes at defects from, review, 22:37021
effects on silicon, luminescence spectrum induced in, 25:27849
effects on silicon, recombination emission from, (E), 22:24431
effects on silicon, recombination luminescence in, 23:3591
effects on silicon, review of defects produced in, 25:59135
effects on silicon, supercluster calculations for doping dependence of carrier-removal, 25:22614
effects on silicon, symmetry of defect clusters induced in, 24:8524
effects on silicon, threshold energy for spectral effects in, 24:12877 (IAE-1880)
effects on silicon, transmission electron microscopy study of damage from, (E/T), 22:11505
effects on silicon/silicon oxide structures, charges induced in, 25:45557
effects on silkworm gametes, dose rate effects on mutagenic, 24:34259
effects on silkworms, mutagenic, 21:43359
effects on silver-activated phosphate glass, 23:2827
effects on silver-activated zinc sulfide EPR spectra, 21:44204
effects on single crystal iron, 22:34081(T) (ORNL-tr-1930)
effects on single crystal iron, relations with carbon content, 22:34082(T) (ORNL-tr-1931)
effects on single crystals of α-alumina, 21:20602
effects on single crystals of cobalt complexes, oscillating structure in isothermal annealing of, 24:10601
effects on single crystals of germanium oxides, titanium oxides, or tin oxides at 4 to 300°K, ESR studies on, 23:46548
effects on single crystals of lithium fluoride, 22:30600
effects on single-crystal and polycrystalline molybdenum rods, 22:49770 (BNWL-SA-1812)
effects on single-crystal and pyrolytic graphite, 23:8346
effects on single-crystal iron, 22:19592
effects on single-crystal iron, relations with carbon content, 22:19591
effects on skin of mammals, effects of dose fractionation on, 22:49480 (CONF-680410-, pp 21.1-25)
effects on skin of monkeys from fission in point source of uranium-236 carbide, 24:44597
effects on sleep patterns of monkeys, mixed γ and, 23:29727 (AD-675041)
effects on slip band growth in copper crystals, (T), 24:26312
effects on slip deformation mechanism of polycrystalline iron, (E), 22:28873
effects on slip deformation of copper single crystals, active crystal length measurements in, 23:10703(T) (WAPD-Trans-100)
effects on slip in bcc metals, 22:716
effects on slip in vanadium, 22:2667(R) (ORO-3612-4)
effects on slip of single-crystal Ferrovac E iron, 22:43615(R) (BNWL-710)
effects on SM-1 control rod, nondestructive evaluation of, 23:34027 (ORNL-TM-2506)
effects on small intestine mucosa in conventional and germfree mice, mixed γ and, 25:32556
effects on small mammals, fractionation and protraction factors associated with late γ, x, and neutron, 22:49468 (CONF-680410-, pp 2.1-27)
effects on SNAP-8 fuels, radiographic evaluation of, 24:16806 (CONF-690910-, pp 540-50)
effects on sodium and potassium cyanides, reactions of recoil carbon-14 and nitrogen-13 from, 25:13072

effects on sodium bonded plutonium nitride—uranium nitride fuels, 21:22910 (LA-3646)
effects on sodium bromate crystals, reactions of recoils from, 24:50431
effects on sodium bromate—sodium chlorate crystals at -80°C, 21:1970 (AD-633307)
effects on sodium bromates, Szilard—Chalmers reactions in, 23:15885
effects on sodium bromide—sodium chloride mixed crystals, 24:11617
effects on sodium chlorates, chlorides, perchlorates, and pyrophosphates containing metal ions, 22:16613
effects on sodium chloride single crystals, optical bleaching of centers produced in, 24:6622
effects on sodium chloride, chemical behavior of sulfur-35 in, 23:2328
effects on sodium chloroiridates, 21:121
effects on sodium nitrite single crystals, ESR studies, 23:44528
effects on sodium nitrosylferricyanides, reactions of recoil iron in, 24:36292
effects on sodium perxenates, yields of xenon-133-labeled xenon trioxide from, 25:15693
effects on sodium phosphates, trajectories of recoil phosphorus-32 from, 24:27168
effects on sodium tetrametaphosphate, chemistry of recoil phosphorus-32 in, 24:25089
effects on sodium tripolyphosphates, effects of temperature and water on recoil species from, 23:19797
effects on soil behavior, 22:4270 (CEA-R-3298)
effects on soil solutions, sterilizing, 23:38906
effects on solid 1-bromo-4-chlorobenzene and p-dibromobenzene, distribution of recoil bromine-82 from, 25:32026
effects on solid argon at 4.6°K, release of energy stored in, 25:30660
effects on solid bromo-, p-dibromo-, and tribromobenzenes, effects of solvents on distribution of bromine-82 in products produced by, 24:46258
effects on solid crystalline diphenylpicrylhydrazyl at 77°K, 21:17657
effects on solid selenium oxide, chemical nature and retention of selenium recoil atoms in, 21:19679
effects on solid substances, study of radiation and thermal annealing after, 23:4688
effects on solid tetraphenylphosphonium chloride, triphenyl phosphine, and triphenyl phosphine oxide, products from, 23:11532
effects on solid xenon compounds, 21:17672
effects on solids, 21:24859
effects on solids at 1 to 15 MeV, energy dependence of, 25:24611
effects on solids, computer program for primary recoil atom spectra from, 24:28403 (ORNL-TM-2706)
effects on solids, dependence on flux and spectrum, (T), 21:32944
effects on solids, design of EPR spectrometer for studying, in-pile, 21:17943(P)
effects on solids, effects of flux and energy spectrum on damage in, 22:10263 (CEA-R-3228)
effects on solids, ENDF/B calculations of primary-recoil spectra and damage cross sections for, 25:9573
effects on solids, literature survey, 22:43619(T) (JPRS-46209)
effects on solids, method for reporting exposure data for study of, 21:40119
effects on solids, spontaneous recombination of Frenkel pairs in, (T), 21:37569
effects on solubility of crystals of strontium sulfate in water, 22:42775
effects on solubility of manganese, sodium, and zinc in water, 22:12388
effects on solubility of plutonium dioxide—uranium dioxide fuels, 25:46539 (BNWL-1581)
effects on sorption of phosphates by aluminum oxide surfaces, 23:41754
effects on sorptive properties of alkaline earth oxides for oxygen, 22:12370
effects on space charge region of silicon p—n junctions, model for, 25:21522
effects on space flight personnel, factors affecting, 22:6847
effects on spacecraft scientific experiments of, from radioisotope thermoelectric generators, 24:6583
effects on spermatogonial killing in mice, RBE of γ, protons, and x, 21:32738 (ORNL-P-3085)
effects on Spert 4 Capsule Driver Core Zircaloy-2-clad uranium oxide (UO_2) fuel elements, measurement of, (E), 22:35596(R) (IDO-17260)
effects on SPERT IV stainless steel-clad uranium oxide (UO_2) pellet-type fuel elements, measurement of transient, 22:33066
effects on stability of graphite, 25:6915(R) (DP-Report-493)
effects on stability of graphite—oxygen reactions, 23:8347
effects on stability of hematite and Portland concretes, 24:39735
effects on stability of hydrogenated terphenyls, 23:11586
effects on stability of nickel-base alloys, 24:10121 (KFK-985, pp 289-301)
effects on stability of oil paintings, 23:35048
effects on stability of uranium carbide precipitate in uranium, 23:3161
effects on stable elements in bodies of astronauts, 22:19400(R) (BNWL-531-1)
effects on stainless steel, 21:26833(P)
effects on stainless steel, 22:21645(R) (BMI-1826)
effects on stainless steel and steel, 22:23845 (IN-1131, pp 83-90)
effects on stainless steel in reactor environment, method for calculating, 23:51075 (BNWL-1093)
effects on stainless steel mechanical properties and microstructure, in-pile, (E), 24:26691 (WCAP-6088)
effects on stainless steel oxidation by carbon dioxide, 22:19593
effects on stainless steel tubes, 21:4914 (GEAP-5003)
effects on stainless steel welds, relations with heat treatments, 25:49372 (ORNL-TM-3300, pp 145-58)
effects on stainless steel-clad plutonium carbide-uranium carbide pellets, 21:33013
effects on stainless steel-clad uranium dioxide fuel rods in borated PWR environment, 21:36891
effects on stainless steel-urania cermets at 4 to 10 per cent burnup, 21:20597
effects on stainless steels, 21:16627
effects on stainless steels, 21:26866(R) (HW-75500)
effects on stainless steels at high temperatures, studies, 21:13214 (ORNL-3970, pp 112-17)
effects on staminal hair cells of Tradescantia occidentalis, effects of oxygen on mutagenic, 21:41380
effects on stannous oxide, nuclear gamma resonance studies on thermal annealing of, 24:9357
effects on starches, 21:27999
effects on steel embrittlement, method of determining, 22:38591
effects on steel for fuel element cladding, 22:4728 (BMI-X-455(Pt.1))
effects on steel tubes under multiaxial stresses, 21:28799(R) (HW-79345)
effects on steel, effects of spectra on, 21:26861(R) (BNWL-CC-658)
effects on steel, relations with fast and thermal spectra, 24:34839(R) (BNWL-1091)
effects on steel, role of stress in, 21:31059(R) (HW-84517)
effects on steels, 21:31059(R) (HW-84517)
effects on steels, annealing of, 21:28799(R) (HW-79345)
effects on stem cells of intestinal mucosa in mice, comparison of x radiation and 14-MeV, 25:26958
effects on step recovery diode frequency multipliers, 25:29409 (SC-RR-710188)
effects on stereospecificity of recombination reactions in chromium chloride complexes with ethylenediamine, effects of thermal annealing on, 22:45127
effects on sterility in barley in comparison to chemical effects, mutagenic, 24:19311
effects on storage life and wholesomeness of beef and pork, 23:32007
effects on storage life of food, comparison of, with other forms of ionizing radiation, 22:49669
effects on stored energy of aluminum, calorimetric measurement of, 21:21095
effects on stored Wigner energies of graphites, 23:5091 (EUR-4036)
effects on stored-energy release in copper and niobium, (E), 23:51088
effects on strength and ductility of Types 304 stainless steel, (E), 24:38568 (BAW-10008(Pt.1)(Rev.1))
effects on strength of aluminum, copper, and molybdenum single crystals, 21:3527
effects on strength of beryllium—radium neutron sources, 24:5811
effects on strength of brazes in type 304 stainless steel, 21:28794(R) (BNWL-CC-355)
effects on strength of copper single crystals, 24:1051(R) (ORO-3612-6)
effects on strength of monocrystalline gold and silver, 23:34050
effects on strength of poly(methyl methacrylate), 23:309
effects on stress relaxation in copper monocrystals at 77 to 420°K, 21:24812
effects on stress rupture properties of Hastelloy R235, 21:31054(R) (BNWL-CC-1053)
effects on stress-, temperature-, and time-dependent properties of refractory alloys and metals, 21:26861(R) (BNWL-CC-658)
effects on stress-rupture and tensile properties of A-286, Hastelloy X, and Rene-41 at 540 to 870°C, 21:26865(R) (HW-74679)
effects on stress-rupture of Hastelloy N, 22:8696 (ORNL-4170, pp 192-205)
effects on stress-rupture properties of Hastelloy N, 21:13100 (ORNL-3970, pp 193-203)
effects on stress-rupture properties of Hastelloy X at 650°C, 22:48788
effects on stress-rupture properties of Incoloy 800 at 705°C, 22:48788
effects on stress-strain properties of alpha-uranium single crystals with different orientations, 25:52402(T) (JPRS-53800, pp 215-22)
effects on stresses induced by ultraviolet light in glass, 24:10216
effects on strontium oxide, magnetic circular dichroism—ESR study of F^+ center induced in, 25:36291
effects on structural materials for reactors, 25:44093
effects on structure and electrical properties of graphite, 21:18356
effects on structure and properties of uranium oxide (UO_2) powders, 25:54289(T) (JPRS-53800, pp 205-14)
effects on structure of aluminum and magnesium oxides, relations with annealing, 22:772
effects on structure of ammonium hexachloroosmate, 22:23008
effects on structure of austenitic stainless steels, effects of chemical composition and minor alloy constituents on, 21:24804 (BNWL-SA-492)
effects on structure of copper and copper—boron solid solutions, 25:712
effects on structure of dislocation loops in 1100°C annealed tungsten, 23:5085
effects on structure of graphite single crystals at 900 and 1000°C, 24:6216
effects on structure of iron, 23:3103
effects on structure of molybdenum, 21:28806
effects on structure of ordered hexagonal uranium—titanium phase, 25:13726
effects on structure of plutonium oxide (PuO_2)—uranium oxide (UO_2) rods, 25:20836 (WHAN-SA-79)
effects on structure of potassium dihydrogen phosphate single crystals, (E), 21:29364
effects on structure of pyrolytic graphite at high temperatures, 22:38624 (N-68-10216)
effects on structure of quartz, comparison with temperature effects, (E), 21:18813
effects on structure of single-crystal graphite, 21:33006 (EUR-3289.e)
effects on structure of stainless steel-clad uranium fuel elements, 25:52406(T) (JPRS-53800, pp 245-51)
effects on structure of uranium carbide (UC), 25:20791
effects on submicroporosity of GMZ graphite, 24:10197
effects on subsequent thermal decomposition of ammonium perchlorate, 24:13907
effects on substances with high neutron absorption cross sections, production of radioactive materials by, 23:40956(P)
effects on substrate junctions in monolithic microcircuits, 21:6395
effects on sulfur, state of phosphorus-32 produced from, 22:16605
effects on surface and bulk effects in planar semiconductor devices, 22:33705
effects on surface area of corrosion films on zirconium alloys, 23:41685
effects on surface corrosion of pure iron, 22:8796
effects on surface properties of aluminum oxides, 23:1064
effects on surface structure of stainless steels, 21:20546
effects on survival and yield of seed of Gossypium hirsutum, effects of moisture on, 24:17162
effects on survival of beagle dogs, effects of dose on combined γ and, 23:35864 (AD-681037)
effects on survival of burros following exposure to atomic explosion, whole-body, 22:40829 (ORO-657, pp 18-34)
effects on survival of burros, effects of dose on, 25:16313 (ORO-678, pp 36-40)
effects on survival of burros, effects of dose-rate on, 22:49471 (CONF-680410-, pp 5.1-16)
effects on survival of colony-forming units in mouse bone marrow, RBE comparison with γ and x radition for, 25:42601
effects on survival of conventional and germfree mice, mixed γ and, 25:44910
effects on survival of dogs and goats, high-energy, 25:6772 (CONF-691106-, pp 275-9)
effects on survival of dogs, effects of head shielding on supralethal mixed γ and, 23:43786
effects on survival of hamster cells, 22:28621 (ANL-7278, pp 1-94)
effects on survival of hamster cells, effects of dose on RBE for, 25:55207 (NYO-2740-8, pp 220-59)
effects on survival of hematopoietic stem cells in donor mice, use of spleen-colony technique to determine effects of single and fractionated dose, 25:24383
effects on survival of large animals, review of effects of dose-protraction on, 22:49476 (CONF-680410-, pp 12.1-23)
effects on survival of lymphoma and Vicia faba cells, effects of age on lethal, 25:11095 (BNL-50203, pp 308-17)
effects on survival of mice, effects of age, dose rate, and strain on, 22:45684
effects on survival of miniature pigs, pulsed mixed γ, 24:17131 (AD-695769)
effects on survival of monkeys, effects of pulsed, mixed with γ radiation, 23:33824 (AD-682903)
effects on survival of neoplastic cells in relation of cell reoxygenation, 24:2712 (BNL-13981)
effects on survival of sheep, effects of millisecond and microsecond exposures on, 22:49472 (CONF-680410-, pp 6.1-14)
effects on survival of synchronized cultures of Chinese hamster cells, comparison of effects of aeration and hypoxia on californium-252 mixed γ and, 25:8757 (NYO-2740-7, pp 218-56)
effects on survival of Tetrahymena, combined effects of temperature and γ rays on, 23:6558 (AD-671943)
effects on survival of tumor cells, evaluation of therapeutic efficiency of accelerator beams by, 25:32515 (LA-4653)
effects on survival of x virus on potato tubers, effects of dose on, 24:27718
effects on survival time of monkeys, combined effects of γ rays on pulsed, 22:43393 (AFRRI-SR-68-5)
effects on suspensions of carbon in water, 23:349 (NP-17651)
effects on swaged uranium dioxide at burnup of 3000 MWd/t, 22:41135
effects on swelling at 200 to 700°C of alpha uranium, 21:45974
effects on swelling in stainless steel, 25:6880 (CEA-N-1383)
effects on swelling in Type 304 stainless steel, relations with void number density and size, 25:6884 (WHAN-FR-15)
effects on swelling in uranium alloys, 21:46964(R) (BNWL-CC-821)
effects on swelling in uranium silicide (U_3Si) and uranium metals, evaluation of, 23:11353 (BNWL-919, pp 9.1-13)
effects on swelling in uranium silicides, use of 2-MeV argon ions for simulation of, 24:51235
effects on swelling in Zircaloy-2, relations with dose and irradiation temperature, 25:42915
effects on swelling of α-uranium, 22:34085
effects on swelling of copper—uranium carbide alloys at high temperatures, 24:23502(R) (BMI-1830)
effects on swelling of dilute uranium alloys, 23:14375
effects on swelling of fissionable material, 23:48501
effects on swelling of graphite at high exposures in HFIR, 24:2971 (ORNL-4470, pp 182-98)
effects on swelling of metallic fuels, 24:14854
effects on swelling of pressurized water cooled Zircaloy clad uranium oxide (UO_2) rod type fuel elements, 24:7120
effects on swelling of refractory fuel materials at high temperatures, 24:25761(R) (BMI-1823)
effects on swelling of stainless steel, relations of flux level with, 24:6228

effects on swelling of tungsten—uranium nitride cermet fuels, relations with porosity, 23:36171(R) (BMI-1864)
effects on swelling of Types 304 and 316 stainless steel at 630°C, 24:17360(R) (WARD-4135-1)
effects on swelling of uranium, 21:24813
effects on swelling of uranium at 400 to 550°C, 22:34090
effects on swelling of uranium carbide at high temperatures, 24:23502(R) (BMI-1830)
effects on swelling of uranium dioxide, 24:23502(R) (BMI-1830)
effects on swelling of uranium dioxide—tungsten cermets at 1600 to 1700°C, 23:36171(R) (BMI-1864)
effects on swelling of uranium nitride at high temperatures, 24:23502(R) (BMI-1830)
effects on swelling of uranium nitride, relations with grain structure, 23:51147 (UCRL-71703)
effects on swelling of uranium oxide (UO_2), high temperature stress relaxation for, 24:7359
effects on swelling of uranium silicide (U_3Si) fuel elements, 24:7360
effects on swelling of uranium-base alloys, 24:23498(T) (BNWL-tr-46)
effects on swelling of Zircaloy and zirconium alloy—nickel alloy clad hollow and solid uranium silicide (U_3Si) cylinder shaped rod type fuel elements, 23:47338 (AECL-3111)
effects on swine following exposure to atomic explosion, tumorigenic whole-body, 22:40829 (ORO-657, pp 18-34)
effects on swine, pathological, 25:8773
effects on swine, pathological, 21:1834
effects on systems of chlorobenzene with alkanes and alcohols, reactions of recoil chlorine-38 from, 25:21070
effects on Szilard—Chalmers reactions of iodoethane, 25:23638
effects on tangential rupture strength of chromium—titanium—vanadium alloy, 22:48788
effects on tellurium-125 Moessbauer spectrum in lead tellurides, (E), 21:16997
effects on tellurium-127m-labeled sodium tellurates, chemical state of tellurium-127 from, 23:21771
effects on tellurium-doped germanium, 24:19954
effects on tensile and physical properties of 10 nickel-base alloys, 21:36877 (BNWL-SA-1112)
effects on tensile and stress rupture characteristics of iron-base alloys containing chromium and nickel, 23:6707
effects on tensile properties of 300 series stainless steels, 22:34079 (BNWL-SA-1455)
effects on tensile properties of aluminum, 23:24222(R) (ORNL-4376)
effects on tensile properties of aluminum, beryllium, and titanium alloys at 140°R, 24:6240
effects on tensile properties of aluminum—chromium—iron—yttrium alloys, 21:26861(R) (BNWL-CC-658)
effects on tensile properties of aluminum-killed steel, 23:41689
effects on tensile properties of ASTM A-302 steel at -50 to 300°F, 21:26865(R) (HW-74679)
effects on tensile properties of bcc metals, 25:706(R) (ORO-3612-7)
effects on tensile properties of carbon steel, 22:19596
effects on tensile properties of chromium, molybdenum, and nickel steels, 22:718
effects on tensile properties of chromium—molybdenum—nickel steel, effects of nickel content on, 21:26861(R) (BNWL-CC-658)
effects on tensile properties of chromium—nickel austenitic steel at high temperatures, 21:22898
effects on tensile properties of concrete and mortar, relations with temperature, 25:30021 (EUR-4531, pp 179-83)
effects on tensile properties of Hastelloy X 280 and Inconel 600 at 1250°F, 22:34078 (BNWL-SA-1442)
effects on tensile properties of Hastelloy X and type 304 stainless steel at 550°C, 22:30388
effects on tensile properties of heat-resistant alloys, 21:28730(R) (GEMP-475-A)
effects on tensile properties of heat-resisting fuel cladding, 24:25632 (ANL-7417, pp 3-22)
effects on tensile properties of heavy-section Type A533B steel, 25:32752(R) (ORNL-4653)
effects on tensile properties of high-nickel alloys, 21:32933 (GEAP-4812)
effects on tensile properties of Incoloy 800, Inconel 600, and Inconel 625, 21:31059(R) (HW-84517)
effects on tensile properties of iron alloys, 21:20469
effects on tensile properties of molybdenum and tungsten, 21:31054(R) (BNWL-CC-1053)
effects on tensile properties of multiaxially stressed steel tubes, 21:26869(R) (HW-83398)
effects on tensile properties of nickel alloys, 21:34927 (AECL-2677)
effects on tensile properties of nickel-base superalloys at 1300°F, 24:14866(R) (BNWL-658)
effects on tensile properties of niobium, 23:22603
effects on tensile properties of niobium, 22:48788
effects on tensile properties of niobium, relations of temperature and dose with, 22:31419 (BNWL-532, pp 11.1-43)
effects on tensile properties of niobium—zirconium-base alloys, 23:32042 (TRG-Report-1786)
effects on tensile properties of pressure vessel steels, 25:6827(R) (RISO-225)
effects on tensile properties of pyrolytic graphite, 23:30195
effects on tensile properties of type 212-B steel, 21:6841
effects on tensile properties of Type 304 and Type 348 stainless steel, 22:48788
effects on tensile properties of Type 304 stainless steel from EBR II control rod thimble, at 450°C, 23:24943 (BNWL-870, pp 3.1-4)
effects on tensile properties of Type 316 stainless steel, 24:2921 (ORNL-4470, pp 168-80)
effects on tensile properties of Type 347 stainless steel, 21:32931(R) (BNWL-CC-883)
effects on tensile properties of Type A 286 stainless steel irradiated at 17°K, 23:27126 (N-69-14651)
effects on tensile properties of Type A302B steel, 23:41689
effects on tensile properties of Types-304 and -348 stainless steels at room temperature, 21:26869(R) (HW-83398)
effects on tensile properties of vanadium, relations with interstitial oxygen, 25:706(R) (ORO-3612-7)
effects on tensile properties of Zircaloy-2, 23:32042 (TRG-Report-1786)
effects on tensile properties of Zircaloy-4 at 282°C in water, 23:34039
effects on tensile properties of zirconium-base alloys, 24:14817
effects on tensile strain of stainless steel and other alloys, 24:44717
effects on tensile strength of annealed pressure tubes of Zircaloy-2, effects of temperature on, 21:28798(R) (HW-78760)
effects on terphenyl, 22:35769 (AI-AEC-Memo-12688)
effects on terphenyl and its hydrogenated derivatives, 25:172
effects on tetrahydrated cobalt complex with sodium salt of EDTA in aqueous solutions, chemistry of cobalt-60 recoils produced by, 25:2297
effects on tetramethylsilane, chemical processes following, 23:9436
effects on thallium nitrate and perchlorate, production of thallium-204 by, 23:45315
effects on thallium-204 production in thallium salts, effects of annealing on, 21:21963 (BNL-994, pp 3-19)
effects on the dehydrogenation efficiency of oxide catalysts, 22:25384
effects on the dimensions of isotropic carbon at 1250°C, relations with density, 25:16615(R) (GA-10433)
effects on thermal and burnup performance of fast reactor mixed-oxide of smeared density of, 23:4229
effects on thermal conductivity of copper at 4.5 to 100°K, 24:39671
effects on thermal conductivity of graphite, (T), 22:13602
effects on thermal conductivity of isotropic pyrolytic carbon, 23:12410(R) (GA-9099)
effects on thermal conductivity of lithium fluoride crystals, relation to defect formation, (E), 22:46244
effects on thermal conductivity of monocrystalline graphite, 22:13591
effects on thermal conductivity of n-type germanium and silicon at low temperatures, (E), 21:16983
effects on thermal conductivity of oxygen-containing silicon at low temperatures, 22:7389
effects on thermal conductivity of polymer systems, 21:35989(R) (N-67-18125)
effects on thermal conductivity of thorium dioxide—uranium dioxide systems, annealing of, 23:27205
effects on thermal conductivity of uranium dioxide, 21:21919 (ORNL-4076, pp 81-115)
effects on thermal conductivity of uranium dioxide fuels, 24:4819
effects on thermal conductivity of uranium dioxide fuels, 24:51229(T) (BNWL-tr-55)
effects on thermal decomposition induction period in pseudostable inorganic solids, 25:15644
effects on thermal decomposition of polystyrene, 24:16599
effects on thermal decomposition of Santowax OM at 550 and 750°F, 23:7546 (AI-AEC-Memo-12689)
effects on thermal EMF of tungsten—urania matrices, 21:20593 (CONF-660511-, pp 3.10.1-4)
effects on thermal expansion of molded graphite, 23:14394(R) (GA-8681)
effects on thermal expansion of types H-315-A, H-319, and needle-coke graphites, 23:12410(R) (GA-9099)
effects on thermal properties of chromite concretes, 23:46541
effects on thermal stimulation of lithium fluoride crystals, (E), 21:31490
effects on thermally stimulated conductivity in alkali metal halide single crystals, 25:3202
effects on thermally-activated deformation of zirconium and zirconium alloys, 25:42877
effects on thermocouples, 21:20533 (CONF-660511-, pp 7.3.1-5)
effects on thermocouples, 22:4841
effects on thermocouples, 23:8248
effects on thermocouples at high temperature and in high gamma fields, 21:41290 (BNWL-SA-1227)
effects on thermocouples sheathed with Alumel—Chromel, 21:38662 (EUR-3491.e)
effects on thermocouples, transient, 21:6369
effects on thermoelectric properties of cuprous sulfide, 25:11952
effects on thermoelectric properties of doped germanium—silicon alloys and couples, 23:2735
effects on thermoelectric stability of rhenium—tungsten alloys and tungsten for use as thermocouples, 21:28730(R) (GEMP-475-A)
effects on thermoluminescence of lithium hydride phosphors, (E), 21:3916
effects on thermoluminescence of natural calcite, 25:1271
effects on thin-film capacitors, 22:710(R) (AD-648742)
effects on thoria single crystals grown from different fluxes, ESR spectra of centers induced in, 24:51798
effects on thorium dioxide—plutonium dioxide, 22:23904 (CONF-660524-, pp 463-73)
effects on through-thickness ductility of thick steel pressure vessels, (E), 25:41589
effects on tin compounds, Moessbauer studies on, 25:51534
effects on tin compounds, retention of tin-113, tin-117m, and tin-119m in products from, 22:16619
effects on tin dioxide and tin oxide, chemical state of recoil tin-119m produced by, 23:13797
effects on tin dioxide crystals at 200 to 300 eV, tin-119m Moessbauer effect detection of 200- to 300-eV (n,γ), (E), 22:29563
effects on tin monoxide, Moessbauer-effect study of, 23:30659
effects on tin oxide, tin-119m recoils from, 21:35889
effects on tin oxides, annealing of, 24:14985
effects on tin, yields of indium-113m from, 25:15696(P)
effects on tin-118-labeled tin oxides, Moessbauer spectral studies on chemical state of tin in, 23:40630
effects on tissues of mice and rats for whole-body activation autoradiography, 25:13590
effects on tissues, evaluation of, for calculation of LET, 24:48539 (CEA-CONF-1554)
effects on titanium oxide, production and annealing of paramagnetic defects in, 25:27853
effects on titanium, production of scandium-46 from, 24:29354
effects on titanium—uranium alloys, 21:18305
effects on titanium—vanadium alloys, review, 22:52126 (BNL-50127)
effects on tomato pollen, RBE for, 23:9919
effects on toughness of type A302B steel, 22:34088
effects on toxicity of drugs to mice, combined effects of γ-rays on, 23:2918 (AFRRI-SR-68-12)
effects on toxicity of foods, 23:12252(T) (ORNL-IIC-14, pp 67-81)
effects on Tradescantia occidentales, RBE of monoenergetic, 22:43300 (AERE-PR/HPM-12)
effects on Tradescantia occidentalis, effects of air and nitrogen on mutagenic, 21:46999(R) (AERE-PR/HPM-11)
effects on Tradescantia, mutagenic 4.3 keV, 23:48013 (NYO-2740-6, pp 255-68)
effects on trained avoidance behavior of monkeys, combined effects of γ on latent, 23:35863 (AD-680746)
effects on transfer of activity from iron and iron hydroxide to tris(N-nitroso-N-phenylhydroxylaminato) iron, 22:40136
effects on transistors, 21:36475 (NP-16772)
effects on transistors, base region model predictions for, 23:41181 (COO-1624-16)
effects on transistors, current dependence of damage factor for, 25:21518
effects on transistors, method for prediction of gain degradation, 25:21504
effects on transistors, model for computer-aided transient analysis of, 23:17868
effects on transistors, temporary, (E), 21:13303
effects on transistors, transient annealing of, 25:44746 (SC-DC-713804)
effects on transition metals, 22:17139 (GA-7978, pp 133-41)
effects on transition temperature in brittle fracture test of steel pressure vessels, analysis of, 22:27448
effects on transmutations in plutonium-239, analysis of, 22:32893
effects on trapped plasma avalanche triggered transit diodes, 24:16942
effects on Tribolium, monoenergetic lethal, 24:41956 (ANL-7635, pp 1-54)
effects on tribromobenzene isomers, distribution of bromine-82 in products of, 22:47181
effects on tribromobenzene isomers, effects of thermal annealing on products of, 22:47181
effects on triphenylarsenic compounds under various irradiation conditions, yields of recoil products from, 24:20794
effects on tripolyphosphate hexahydrate, effects of radical scavengers on yields from, 25:57495
effects on tris(2,4-pentanedionate)cobalt, effects of pre-heating on thermal annealing after, 23:312
effects on tris(dipyridyl)cobalt(III) perchlorate, annealing of, 21:36025
effects on trisdipyridyl nickel chloride, annealing of cobalt-58 recoil ions from, 24:13892
effects on trisoxinatocobalt, reactions of recoil cobalt-60 from, 25:57493
effects on tritium diffusion from silver—lithium alloy, 24:4824
effects on tube rupture strength of type-304 stainless steel, 21:28795(R) (BNWL-CC-510)
effects on tumors in rats, effects of dose fractionation on, 22:49480 (CONF-680410-, pp 21.1-25)
effects on tumors, evaluation of therapeutic, 22:36299
effects on tungsten crystal vacancies, annealing recovery from, 22:2664(R) (CU-3551-8)
effects on tungsten single crystals, 22:17104 (GA-7978, pp 11-46)
effects on tungsten, field-ion identification of dislocation loop produced in, 24:35547
effects on tungsten, high-temperature recovery of, 23:8683
effects on tungsten, recovery of defects from, 21:33536
effects on tungsten, recovery of point defects from, (E), 23:48969
effects on tungsten, recovery stages from, (E), 22:13042
effects on twin boundaries of nickel crystals, 21:33018
effects on two coupled core reactor kinetics of first-flight, 22:14311
effects on Tyndall-flower nucleation in ice single crystals, 24:21866
effects on type 16/13 steel, relations with annealing and mechanical working, 22:34080(T) (EURFNR-464)
effects on type 16/13 steel, relations with boron and carbon content, 22:34080(T) (EURFNR-464)
effects on Type 304 stainless steel, 24:12435 (BNWL-1223, pp 5.1-40)
effects on Type 304 stainless steel clad plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel elements, 24:7368
effects on Type 304 stainless steel, model for void formation in, 23:50977(R) (BNWL-932)
effects on Type 304L stainless steel-clad plate-shaped europium oxide (Eu_2O_3)—stainless steel control elements, analysis of, 23:13567 (ORNL-TM-2349)
effects on type 316 stainless steel, 22:4844

effects on Type 316 stainless steel and vanadium alloy fuel cladding, 24:29995
effects on type 347 stainless steel, 21:31054(R) (BNWL-CC-1053)
effects on Type A302 steel, damage function calculations for various energy spectra, 24:34839(R) (BNWL-1091)
effects on type A302B pressure vessel steel, 22:13038 (WAPD-TM-471(Add.1))
effects on Type A302B steel, relations with flux and energy, 23:46090 (BNWL-1144, pp 11.1-24)
effects on Types A212B and A302B steel, 23:14377
effects on Types ASTM A302-B, A542-B, and AISI 304 steels, 23:24957 (BNWL-SA-2206)
effects on types X800 and 1100 aluminum alloys, 22:31434
effects on ultrasonic attenuation in quartz, relation of three-phonon scattering mechanism to , (T), 22:34793
effects on ultrasonic wave propagation in Types 304 and 348 stainless steel, 24:32372 (BNWL-1371)
effects on uranium, 23:40873
effects on uranium carbide, 22:19671(R) (EURAEC-1980)
effects on uranium carbide fuel element thermal conductivity, 21:6891 (AECL-2521)
effects on uranium complexes and compounds, physicochemical parameters of, 25:31969 (NP-18785)
effects on uranium dioxide fuel canned in thick Zircaloy tubes, (E), 22:26092 (CEA-R-3358)
effects on uranium dioxide, electron microscopic study of defects produced in, (E), 22:28961
effects on uranium dioxide, knock-out effects in layers from, 24:2266(R) (HMI-B-84)
effects on uranium dioxide—alkali metal fluorides to produce xenon compounds, 23:40775(P)
effects on uranium dioxide—silicon dioxide, correlation of electric conductivity and length changes in, 24:14982
effects on uranium dioxide-filled molybdenum thermionic emitters, 24:3222
effects on uranium emission from sintered uranium oxide pellets, 22:8792
effects on uranium fuel element growth, 23:27138
effects on uranium growth, 22:43590 (ANL-7299, pp 201-19)
effects on uranium monocarbide fuel pins, 21:36942(R) (EURAEC-1869)
effects on uranium oxide (UO_2) and plutonium oxide (PuO_2)—uranium oxide (UO_2) microstructure, (E), 24:43857(R) (BNWL-1442)
effects on uranium oxide (UO_2) microstructure, in-pile, (E), 24:26691 (WCAP-6088)
effects on uranium oxide, production of carrier-free ruthenium-103 and ruthenium-106 from, 23:326
effects on uranium silicide, x ray diffraction study of, 23:22706
effects on uranium silicides, electric conductivity study of relations of annealing with, 25:52479
effects on uranium, review of theories of breakaway swelling in, 22:28877
effects on uranium-235-enriched uranium dioxide, relations of burnup, cracking, fission density, grain growth, and temperature with, 24:1107
effects on uranium-base alloys, 22:23847(T) (AERE-Trans-1093)
effects on uranium-containing nuclear fuels, 21:33008
effects on urinary excretion of ethanolamine, serine, and threonine in rabbits, 24:48394 (CEA-CONF-1559)
effects on urinary excretion of free amino acids in man following accidental exposure, 23:18120 (CEA-CONF-1174)
effects on vacancy and interstitial clusters in nickel at 1 MeV, (T), 21:25190
effects on vanadium, effects of annealing on cylindrical damage shells from, 23:42425
effects on vanadium, nuclear-resonance fluorescence studies of, 21:41631
effects on various elements of the eye, injurious, 25:8609
effects on Vicia faba, mutagenic, 23:26736
effects on viscoelastic properties of graphite, method of estimating, 25:16618
effects on vision of man following exposure of head to 3 and 14 MeV, 25:37895
effects on visual acuity of monkeys, combined effects of γ radiation on latent, 23:35866 (AD-681072)
effects on visual discrimination of monkeys, 23:31896 (AD-679698)
effects on visual discrimination of monkeys, 90 min to 120 hr after exposure, mixed γ radiation and, 24:6109 (AD-691412)
effects on visual discrimination of monkeys, effects of dose and partial shielding on, 25:46965 (AD-718317)
effects on visual sensitivity of rhesus monkeys, effects of supralethal dose on, 24:36820
effects on void annealing in aluminum and Type 8001 aluminum alloy, 23:41683 (ORNL-TM-2645)
effects on void distribution in aluminum, relations with dislocations and impurities, 25:58298 (ORNL-TM-3493)
effects on void formation and stability in aluminum, copper, molybdenum, and nickel, 24:4821
effects on void formation in metals and alloys, 24:10118 (KFK-985, pp 47-69)
effects on void formation in metals, analysis of, 23:27125 (KFK-838)
effects on void formation in metals, comparison with electrons and heavy ions, 25:47142 (BNWL-SA-3966)
effects on void formation in molybdenum, rhenium, and TZM alloy, relations with temperature, 25:49483 (BNWL-SA-3920)
effects on void formation in nickel, relations with subsequent electron irradiation, 25:58333
effects on void formation in stainless steel, relations with particle energy and void diameter, 24:17337
effects on void formations in materials for EBR-II fuel cladding and control rod shrouds, 23:22584 (BNWL-790, pp 3.9-10)
effects on void growth in stainless steel, model for kinetics and mechanism of, 25:42916
effects on void production in stainless steel at 230 to 650°C, 25:22123
effects on void size and volume of Incoloy 800 specimens, 23:41686
effects on void size and volumes of Types 304 and 347 stainless steel specimens, 23:41686
effects on volt—ampere characteristics of silicon diodes, 25:55100
effects on vulgare wheat, mutagenic, 22:51535
effects on water, reactions of recoil oxygen-19 from, 25:32017
effects on water, reactions of recoil oxygen-19 from, 24:22668 (EIR-173)
effects on weld tensile properties of Type 304 stainless steel, 25:703 (BNWL-1349-2, pp 4.1-154)
effects on welds in steel pressure vessels, 25:8901 (ZJE-91)
effects on wheat for resistance to Puccinia graminis and Septoria nodorum, mutagenic, 25:52263
effects on wheat, comparison with aerobic and anaerobic γ, 24:36741
effects on wheat, synergistic effects of EMS on mutagenic, 23:22261
effects on Wigner defects in graphite, 22:2712 (CEA-R-3226)
effects on x-ray diffraction profiles of calcite, 23:48579
effects on x-ray reflection by germanium and silicon crystals, (E), 21:2292
effects on X8001 aluminum sheaths, 22:8744 (ORNL-4170, pp 184-91)
effects on xenon release from cesium halides, 22:16600
effects on xenon trioxide, retention of radioisotopes and isomers of xenon from, 25:15707
effects on xenon-133 diffusion in hyperstoichiometric UC, 23:36231
effects on xenon-133 diffusion in uranium dioxide, dose-rate, 21:18350(R) (EURAEC-1802)
effects on xenon-filled thermionic diodes, 22:38841 (N-68-12718)
effects on yield of recoil chromium-51-enriched chromous ion in chromium compounds, 21:35843 (IAERU-6608)
effects on yield stress in platinum and tungsten, 21:43618 (BNL-11717)
effects on yield stress of solid copper and binary copper alloys at 1 MeV, 23:43993
effects on yield surfaces of polycrystalline copper, 22:2673
effects on yield surfaces of polycrystalline copper, 21:22899
effects on yielding creep of Zircaloy-2, 22:28853
effects on yields from γ-induced formation of sulfur-containing amino acids, 23:47526
effects on yttrium ferrate, $Y_3Fe_5O_{12}$, ferromagnetic relaxation changes from, 22:5451
effects on yttrium oxides and yttrium nitrate catalytic effects on decomposition of 2-propanol, 22:2106
effects on zinc or zinc oxide adsorbed on ion exchange resins, paper chromatographic study of, 23:37990
effects on zinc phthalocyanines, 23:331
effects on zinc sulfide monocrystals, effects of annealing on, 22:4169
effects on zinc sulfide single crystals, annealing response and photosensitivity of color centers from, (E), 21:37548
effects on zinc sulfide thermally stimulated currents, (E/T), 22:13587
effects on zinc sulfide thermally stimulated currents, 22:13588
effects on Zircaloy brazed joints in fuel elements, 21:9076 (AECL-2813)
effects on Zircaloy creep, model of, 23:22613
effects on Zircaloy-2, 21:31055 (BNWL-SA-377)
effects on Zircaloy-2, 21:26866(R) (HW-75500)
effects on Zircaloy-2, 21:28799(R) (HW-79345)
effects on Zircaloy-2, 21:31054(R) (BNWL-CC-1053)
effects on Zircaloy-2 and zirconium—niobium alloys, 22:28855
effects on Zircaloy-2 clad uranium oxide (UO_2) fuel elements, analysis of, 22:16281 (GEAP-5100-K)
effects on Zircaloy-2 corrosion by steam—water mixtures at 250 to 280°C, in-pile, 22:52139
effects on Zircaloy-2-clad and Type 304 stainless steel-clad plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel element, analysis of, 23:7429(R) (EURAEC-2065)
effects on Zircaloy-2-clad hollow-core uranium rods at 260°C, analysis of, 22:33001
effects on Zircaloy-2-clad silicon—uranium system, 21:32929 (AECL-2684)
effects on Zircaloy-4 hydrogen content, γ activity, and mechanical properties, in-pile, (E), 24:26777(R) (WCAP-3385-22)
effects on zirconia films, 21:43679
effects on zirconium and Zircaloy-2, 22:43571 (TID-24570)
effects on zirconium and zirconium alloys, 22:21729
effects on zirconium and zirconium alloys in water-cooled and moderated reactors, 24:27805
effects on zirconium and zirconium alloys, annealing of, 25:41832(R) (AECL-3851)
effects on zirconium, spectral relations model of, 23:46087 (BNWL-1128)
effects with gamma radiation on oxidation of vaporous benzene by molecular oxygen, phenol production by, 25:6355
effffects on hyper- and hypo-stoichiometric plutonium dioxide—uranium dioxide fuel, 21:6893 (GEAP-4897)
efficiency for activation analysis, 22:14469
electric charge distribution of, (T), 24:5435 (AD-690873)
electric charge of, limit of, (E), 21:2390 (TID-23318, pp 1-5)
electric dipole moment in CP-noninvariant and P-conserving electromagnetic interactions, 22:39450 (JINR-E2-3801)
electric dipole moment in V—A exp (iphi) theory of weak interactions, 23:23431
electric dipole moment interactions with external electric field, parity and time reversal violation in, 23:16921 (ORNL-TM-2308)
electric dipole moment of, 23:39768
electric dipole moment of, (E/T), 23:8709 (BNL-12816)
electric dipole moment of, CP violation model for, 23:49192
electric dipole moment of, current algebra for CP violation in, 23:42705
electric dipole moment of, effect of electromagnetic T violation on, 25:1445
electric dipole moment of, experiments for measuring, (E), 22:3746 (BNL-11746)
electric dipole moment of, magnetic resonance measurement of upper limit to, 23:25498
electric dipole moment of, measurement of, 21:21408 (ORNL-TM-1754)
electric dipole moment of, method for investigating existence of, 23:49081
electric dipole moment of, neutron beam magnetic resonance experiment for measuring, 23:16921 (ORNL-TM-2308)
electric dipole moment of, neutron-beam magnetic-resonance measurement of, (E), 23:18786
electric dipole moment of, neutron-beam magnetic-resonance measurement of upper limit of, 22:37110
electric dipole moment of, neutron-beam magnetic-resonance determination of limit to, 21:37658
electric dipole moment of, Nishijima—Swank model for, 23:39771
electric dipole moment of, polarized-beam scattering measurement of upper limit to, 21:37660
electric dipole moment of, proposed experiment using ultracold neutrons for determining, 24:30670
electric dipole moment of, relation between CP-violating parameter and, 24:43001
electric dipole moment of, review on CP violation aspects of, 21:46521
electric dipole moment of, review, (E), 24:19734
electric dipole moment of, search for CP violation from, 24:8696
electric dipole moment of, spectrometer study of upper limit for, (E), 24:45414
electric dipole moment of, theory with CP violation for calculation of, 22:29735
electric dipole moment of, upper limit for, 23:13016 (ORNL-TM-2151)
electric dipole moment of, upper limit for, (E), 22:44375
electric dipole moment of, upper limit for, (E), 24:12920 (IFA-NR-30)
electric dipole moment of, use of current algebra and PCAC hypothesis for model of, 22:3342
electric dipole moment of, use of sideways dispersion relations for order of magnitude of, 24:3560
electric dipole moment, (E), 21:31834(R) (ORNL-4082)
electric form factor from electron elastic scattering by deuterium, (T), 22:44602
electric moment of, model for CP violation for static E1, 22:5536
electric polarizability of, measurement using scattering by lead, (E), 22:20650
electric polarizability of, symmetric quark model for, 25:27983
electric polarization and magnetic moments of, SU(6) predictions for, 21:7533
electric structure factor of, measurement using thermal-neutron scattering by rare gases, (E), 21:2652(R) (ANL-7198)
electromagnetic form factors from deuterium (e,e'p) reactions with quasielastic scattering, (E), 22:13926 (DESY-67/21)
electromagnetic properties of, review of, (E), 24:15581 (JINR-P3-4783)
emission by 16- and 24-W encapsulated plutonium-238 heat sources for artificial heart, 23:9650 (MLM-1556)
emission by cosmic radiation, dose-equivalent rate for, 21:22426
emission by highly excited nuclei, energy and angular correlations of, (T), 25:50807 (JINR-P4-5927)
emission by matter after electron bombardment, (T), 25:7131
emission by plutonium-238-enriched plutonium dioxide, effects of oxygen-16 content on, 22:27629 (MLM-1462)
emission during solar flares, (E/T), 25:24787
emission during solar flares, upper limit for, (E), 24:51346
emission from 10-GeV proton synchrotron concrete shielding, 21:3908 (JINR-P9-2933)
emission from active solar region, improved measurements of energetic, (E/T), 25:30177
emission from cavity pinch discharges in deuterium—tritium plasma, (T), 24:12845 (KFK-992)
emission from cells during proliferation, effects of number of recorded traces on time lapse since cessation of life processes on, 23:35586
emission from coaxial dense plasma focus, analysis of, (E), 23:44458 (AD-686103)
emission from d—d interactions in deuterium plasma, diagnostic use of, 22:26364(T) (LA-tr-67-113)
emission from d—d interactions in deuterium plasma, diagnostic use of, 21:35145 (IPP-1/60)
emission from dense deuterium plasma focus, distributions of, (E), 23:48937
emission from dense plasma focus discharge, parameters of, (E), 25:14355
emission from dense plasma focus, (E), 23:36727 (SC-RR-69-323)
emission from dense plasma focus, mechanism of, (T), 23:32497
emission from deuterium plasma focus discharges, anisotropies in, (E), 23:25386
emission from deuterium Z pinches, electrode metal effects on, (E), 24:6554 (AD-693125)

emission from deuterium—tritium pinch discharges, (T), 24:8486
emission from excited heavy nuclei, competition with fission, (E/T), 21:38301(R) (RLO-1388-13)
emission from fission fragments, indirect measurement of, 22:46805
emission from fission of plutonium-239, -240, -241, uranium-233, -235, 25:10025 (INDC(NDS)-19/N)
emission from focused noncylindrical discharges, (E), 23:20950
emission from focused plasma discharge, energy distribution of, (E), 24:12844 (AD-695456)
emission from focusing coaxial discharges in plasma, 24:47276
emission from hot deuterium plasma, diagnostic use of, 22:1169
emission from importance 1 solar flares, upper limits for, (E), 23:39197
emission from laser-irradiated lithium deuteride surfaces, (E), 23:14829
emission from laser-irradiated solid deuterium, (T), 24:10558
emission from lunar surface due to cosmic-ray interactions, (T), 24:23727
emission from meson (μ^-) capture by calcium, sulfur, and lead at 166 MeV/c, form of weak interactions and nuclear structure from asymmetry and energy spectra in, (E), 23:51841 (NEVIS-172)
emission from meson (μ^-) capture by complex nuclei, resonance mechanism for angular distribution asymmetry and energy spectra for, (T), 23:52169 (JINR-E4-4601)
emission from moon, cosmic-ray-induced, (T), 22:11254
emission from μ^- capture by nuclei at high energies, relativistic effects on, (T), 22:13728
emission from noncylindrical rotating discharges in plasma, 21:29318
emission from noncylindrical z-pinch in deuterium, 22:1280 (LA-3770, Paper C3)
emission from nucleon reactions with aluminum, lead, and oxygen at 750 to 2000 MeV, analytic representation of spectra for, 22:46459 (ORNL-TM-2277)
emission from plasma focus experiment, 22:1279 (LA-3770, Paper C2)
emission from plutonium dioxide heat sources, spectra of, 25:4244
emission from proton reactions with nuclei at 400 to 660 MeV, mean number for secondary evaporation, (E), 22:20127
emission from pulsars, (T), 25:9253 (MPI-PAE/EXTRATERR-47)
emission from shields under 660-MeV proton irradiation, 23:3539(T) (ORNL-tr-1913)
emission from SNAP-19 fuel capsules, measurement using neutron spectrometer, 22:10502 (MND-3607-173)
emission from solar flares of 15- to 150-MeV, search for, (E), 24:10320
emission from stars, (T), 22:5033
emission from stellar interiors, (T), 21:3587
emission from Sun near maximum activity, search for, (E), 25:7062
emission from Sun, (E/T), 25:9098 (MPI-PAE/EXTRATERR-48)
emission from Sun, measurement of, (T), 21:37191 (ESRO-SP-6, Paper 14)
emission from Sun, upper limits for, (E), 23:44118
emission from unstable nuclei in nature, (T), 21:37040
emission in meson (μ^-) capture by calcium-40, resonance mechanism for energy spectra from, (T), 23:52169 (JINR-E4-4601)
emission in meson (μ^-) reactions (μ^-,γn) with oxygen-16, 21:25450
emission in plasma focus experiments, 22:1281 (LA-3770, Paper C6)
emission in polarized meson (μ^-) absorption by nuclei, asymmetry and spectrum of high-energy, 23:42636
emission in solar flares, (T), 23:46204
emission mechanisms from plasma-focus z pinch, (T), 23:32503
emission of solar, search for, (E), 22:875
emission of, by plutonium-238-labeled plutonium dioxide produced from oxygen reduced in masses 17 and 18, 21:5976
emission rate from fast neutron-pulsed moderators, time-focused crystal spectrometer measurements of, 24:48309
emission rate from plutonium dioxide, effects of oxygen-17 and -18 contents on, 25:57655 (MLM-1844)
emission rate measurements in reactors, method for absolute, 21:21810
emission rates and energy spectra of, from plutonium-238-fueled power sources, 22:30783
emission times for, measurement of mean, 22:14258(R) (GA-8304)
energies in shielding walls, calculations and theories of average, (E/T), 24:49680 (KFKI-70-6)
energy and flux measurements of high-energy, fission foil—mica track detectors for, 24:9642 (UCRL-19364)
energy density of gases of, (T), 22:30062
energy deposition in ORGEL type reactor, calculation of fission, (T), 23:21463 (EUR-4208)
energy deposition in shielding of LAMPRE, spatial distribution of, 23:13480 (AERE-R-5773(Vol.5), pp 1322-45)
energy distribution in beryllium and solids, in low-energy pulse experiments, (T), 21:42541
energy distribution in beryllium, transition region function for, (T), 25:56622
energy distribution in JRR-2 fuel elements, activation analysis for, 23:49598
energy distribution in pulsed beryllium oxide (BeO) assemblies, (E/T), 25:54209 (NP-18981)
energy distribution of high-energy, in shielding, (T), 23:5444(T) (ORNL-tr-1911)
energy distribution of high-energy, in shielding, (T), 22:7337 (JINR-P16-3593)
energy distribution of, error calculation for unfolded spectra from foil activation for determining, 23:665
energy distributions from heavy rare-earth metals, effects of crystalline field on, (T), 22:20497(R) (AECL-3009)
energy distributions in AARR HFIR-type core, calculations of group-averaged, 23:49580 (ANL-7410, pp 47-72)
energy distributions in critical and subcritical assemblies, equipment for studying, 22:20423(T) (JPRS-43682, pp 199-222)
energy distributions in finite water media at 20°C, deviation from Maxwellian, (E), 21:29862
energy distributions in reactor cores, effects on heat generation in non-fuel materials from, (E/T), 24:41040 (EUR-4415)
energy distributions in Spanish CORAL-I fast core, 23:21529
energy from antimony-beryllium sources, (E), 21:17286
energy group division on basis of interactions with biological tissues, 22:48433
energy in reactor cores, effects on noise spectra of, (E/T), 25:20832 (ORNL-TM-3245)
energy in reactors, effects on noise spectra of, (E/T), 25:60238
energy levels of, for motion in magnetic fields, (T), 22:5047
energy loss and dE/dx in spherical cavities, computer program for calculating, 23:2661 (ANL-7454)
energy loss by gravitational radiation from stars of, (T), 21:16774
energy losses in phantoms, spectral dependence of, 22:6652 (ORNL-4168, pp 183-230)
energy losses in spherical cavities, computer program for calculating monoenergetic, 23:50535
energy measurement of Maxwellian distribution in reactors, 22:8363(P)
energy measurements of, extension of sensitive range of manganese sulfate activation detectors for, 21:41229
energy measurements using reaction angular parameters, (T), 21:28192 (AERE-M-1850)
energy measurements using time-of-flight techniques, review of, 23:23612
energy release in solids, ARTUS computer program for, 23:10693(T) (ORNL-tr-2044)
energy spectra and flux of cosmic, near top and above atmosphere, (E), 24:5012 (N-69-33438)
energy spectra at ground-level and mountain altitudes of atmospheric, from 80 to 300 MeV, (E), 25:30374
energy spectra in MOATA Reactor, measurement of, 21:35662 (AAEC/E-171)
energy spectra in water and zirconium hydride at room temperature as function of slowing-down time, (E), 22:48412(T) (AERE-Trans-1088)
energy spectra of cosmic, at 500 to 1000 GeV at sea level, differential, (E), 24:21933
energy spectra of cosmic, in atmosphere, (E), 24:30168 (AD-699576)
energy spectra of cosmic, near sea level, (E), 25:50056 (AD-721714)
energy spectra of fast, from cosmic-proton interactions in atmosphere, structure in, (E), 24:6390
energy spectra of leakage, from nuclear weapons, calculation by discrete ordinates method, 25:40729
energy spectrum of, calculation for plutonium-240 fueled reactor thermal, 21:35702 (BNWL-CC-1205)
energy storage in beryllium by, liberation by annealing, 21:39661
energy transfer in liquid dielectrics used in ionization chambers, linear, 22:30824(T) (SLAC-Trans-81)
energy transfer to matter, calculation of thermal to 18 MeV, 23:29515
energy transfer values for, method for determining average linear, 21:26453
engineering significance of, in studies of materials and processes, 21:26036
equation of state of gas of, (T), 23:48619
equivalent dose rate measurements of, use of lithium iodide scintillation detectors and polyethylene spheres for, 21:17882
escape probability in slab geometry, Green's function for, 21:7660
eta values for AARR HFIR-type core, calculations of group-averaged, 23:49580 (ANL-7410, pp 47-72)
evaporation in heavy ion induced reactions, excitation function for, (T), 24:35897 (TID-25391)
evaporation in heavy-ion-induced nuclear reactions, (T), 24:49884
evaporation spectra of, Hauser—Feshbach analysis of effects of spin-dependence parameter on level density of, (T), 25:25827
excess in surface of nuclei, evidence from meson (K^-) capture by emulsion nuclei for, 21:25489
exchange in heavy ion scattering, (T), 21:19328
exposure to cosmic, in supersonic transports, (T), 23:46306
extrapolated endpoint for adjacent half-spaces, analysis of Milne problem, (T), 23:6040
extrapolation distances for small spherical light water reactors, use of pulsed neutron experiment asymptotic decay constant to determine, 22:33154
extrapolation length determinations in moderators with slab geometries for pulsed, development of equations for, 21:23591 (CEA-R-3070)
extrapolation length for black cylinder in absorbing and scattering medium, (T), 22:24820
extrapolation length for infinite black cylinder in absorbing medium with anisotropic scattering, (T), 21:7659
extrapolation length for Milne problem of two media, (T), 22:32456
extrapolation length for monoenergetic, exact calculation of, 21:29854
extrapolation length for water, measurements using pulsed-source technique, (E), 22:32449
extrapolation length in slabs for monoenergetic, variational calculations of, (T), 22:26773
extrapolation length in water, (E), 21:29844
extrapolation lengths for beryllium oxide assemblies, measurements using pulsed-source technique, (E), 23:15343
extrapolation lengths for pulsed small spherical light water systems, calculations of size-dependent, (T), 23:1752 (BNL-12226)
extrapolation lengths in thin slabs, calculations using P/sub N/ approximations, 21:17291
extrapolation lengths with anisotropic scattering in plane geometry, (T), 21:7658
extrapolation lengths, direct calculation by Monte Carlo method, (T), 22:5730
filter assemblies for production of hard resonance spectrum, design of lithium, 25:41591
filters for, single-crystal bismuth and silicon, 25:20238 (UJV-2488-F)
fine structure measurements in fast reactors, method for, 21:35585 (RT/FI-(67)11)
fission density distributions near grey absorber control rods in NORA, comparison of measured and calculated intracell, 23:34927
fission distribution measurements in fast oxide Assembly o of ZPR-6, 23:49581 (ANL-7410, pp 73-227)
fission rate determination in reactors by counting tube signals analysis, (E/T), 24:24919
fission rate measurements in Assemblies 19, 21, and 22 of ZPR-9, uranium-235 radial, 23:49581 (ANL-7410, pp 73-227)
fission rate measurements in ZPR-6 Assembly 5, results of solid state track recorder, 23:49582 (ANL-7410, pp 339-86)
fission rate measurements in ZPR-6 Assembly 6, uranium-235 and uranium-238, 23:49581 (ANL-7410, pp 73-227)
fission rates for uniform and nonuniform lattices, numerical comparison of, 23:49651 (ANL-7410, pp 387-442)
fission rates in homogeneous systems, equations describing temperature dependence of, 22:42382
fission rates in ZPR-6 Assembly 6, comparison of measured and calculated values for uranium-235 and uranium-238, 23:49581 (ANL-7410, pp 73-227)
fission ratio measurements using plutonium recycle fuel elements, 22:25008
fission ratios for clustered fuel elements, 21:44876
fission ratios for uranium-235/238 and plutonium-239/uranium-235, 22:14255 (BNWL-CC-886)
fission yield of, mass dependence of anisotropy of, 22:32959 (ANL-7310, pp 1-30)
fluence and flux in reactors, TIMH computer program for effects of varying power levels on, 24:46014 (BNWL-1492)
fluence determinations in WWR-S, foil activation techniques for, 22:16294 (UJV-1905)
fluence in reactor steel pressure vessel walls, reliability of codes for calculation of, (E/T), 25:44116
fluence measurements in reactors, handbook on activation detectors for, 24:36560 (STI/DOC-10/107)
fluence measurements in reactors, performance of lithium fluoride thermoluminescent dosimeters for, 23:33535 (HASL-206)
fluence measurements in ZED-2, effects of various moderators on, 22:12083 (AECL-2772)
fluence measurements in-core, helium accumulating dosimeter for high, 25:4381
fluence measurements of, cadmium sulfide and cadmium selenide detectors for, 25:57758(P)
fluence measurements of, design and performance of fission foil detector with plastic track registration for, 23:11805
fluence measurements of, development of fast-response autocurrent detector using cobalt-59 emitter for, 24:39214 (CEA-N-1330)
fluence measurements of, neptunium-237 and uranium-238 activation dosimeters for, 24:31717
fluence measurements of, semiconductor detectors using self-activation for, 24:11811
fluence measurements of, uranium- and thorium-doped phosphate glass track detectors for, 25:44593
fluence measurements of, use of EL-X8 computer for evaluating gamma spectra data from activation detectors for, 22:19113
fluence of, detectors and ICRU recommendations for measurements of, 24:36553 (ICRU-13)
fluence of, development of glass- or mica-sandwiched uranium foil detector for measuring, 21:17815 (AECL-2657)
fluence variation in thermal reactor, kinetic equations solution for, 21:42770
fluence variation with depth in human phantom, 21:3411
fluence-to-kerma factors for human body, use of standard man phantom to calculate, 22:31071
fluence-to-kerma factors for, calculation of human body, 22:12846 (ORNL-TM-2079)
flux across interfaces, effects of resonance scattering on multigroup cross sections for calculating, (T), 22:32460
flux analysis in thin critical slabs, angular synthesis method for, 22:12139 (BNWL-472, pp 2.1-3)
flux analysis in zero power reactors, using Kolmogorov's branching theory, 21:17521 (KR-114)
flux analysis of, description of Garelis-Russell, Gozani, and pulsed neutron methods for, (T), 22:35703
flux and dose equivalent calculations for high-energy electron and proton accelerator shielding, 24:45634 (CONF-691101-, pp 253-301)
flux and dose measurements in mixed gamma—neutron fields, evaluation of, 21:43291
flux and energy spectra in atmosphere at solar minimum, latitude variations of, 21:41956
flux and flux transients in fast multizone experiments, tabulation of, 21:35556 (ANL-7320, pp 429-38)

flux and leakage in two-dimensional geometry, calculation using collision probability method, 21:42542
flux and spectral determinations in fast-thermal STARK, 22:16287 (KFK-668)
flux and spectrum parameters from foil data, computer program for deriving, 21:36344 (PEL-148)
flux anisotropy effects on depletion of cylindrical burnable poison pins, (E/T), 24:29001
flux approximation calculation, variational principle for, 21:30091(R) (ANL-7210)
flux at balloon altitudes from cosmic proton interactions, Sept. 3, 1966, (E), 24:47146
flux at deep penetration, effects of cross-section minima on, (T), 23:37077
flux at reactor core—reflector interfaces, measurement of, 21:13943 (AECL-2580)
flux at sea level of cosmic-ray, 11-year variations of, (T), 21:29044
flux at surfaces, computer program for calculating, 24:50562
flux boundary condition matrices in, QUAVER computer code for calculating monopole and dipole, 21:35544 (AEEW-R-515)
flux bounds for reactors, linear programming for calculation of optimum, (T), 25:41613
flux calculation in multizone reactors, method for, (T), 21:21732
flux calculation near neutron generator target, 24:26579
flux calculations and measurements for, methods development for, (E/T), 22:48422(R) (RPI-328-133)
flux calculations for coupled-core reactors, space-time variational method for, 21:40609
flux calculations for DOT program for isoflux lines, FLUXPIT computer program for, 23:43193 (WANL-TME-1813)
flux calculations for fast and thermal systems, iterative techniques for, 23:33113
flux calculations for fast breeder reactors, technique for ultrafine adjoint, 23:49651 (ANL-7410, pp 387-442)
flux calculations for fast pulsed assemblies, model and assumptions for, 23:34936 (RPI-328-156)
flux calculations for fast reactor, comparison of multigroup diffusion analysis and one-dimensional static condition spectrum synthesis method for, (T), 23:13405 (AI-AEC-12721, pp 69-81)
flux calculations for fast reactors, numerical comparison of diffusion and transport programs for, 23:31156 (BNWL-992)
flux calculations for fast, analytic representative for, 22:32884
flux calculations for FRO, computer program for time-dependent S/sub N/, (E/T), 22:35632
flux calculations for FTR split core, 22:22804(R) (BNWL-685)
flux calculations for heavy water moderated critical assembly, 24:5545 (CISE-R-102)
flux calculations for heterogeneous systems using diffusion theory, computer program for, 22:18077 (EIR-126)
flux calculations for HFIR, use of Phoenix fuels in, 22:14289 (BNWL-635)
flux calculations for HWOCR, comparison of eigenvalues for, 22:3813(R) (AI-CE-54)
flux calculations for multiplying and nonmultiplying media using higher harmonics, (T), 22:46696 (FEI-103)
flux calculations for reactor kinetics problems, comparison of time synthesis and modal analysis methods for, 21:10132 (WAPD-TM-641)
flux calculations for reactor, computerized solution to one-group three-dimensional diffusion equation for, 22:1881 (KAPL-P-3381)
flux calculations for reactors, development of synthesis methods for, (T), 25:28808
flux calculations for reactors, effects of cell geometry on, 22:6137 (CONF-670431)
flux calculations for research reactors, P_1 approximation for, 21:30271
flux calculations for two-dimensional geometry, application of integral transport methods to, 25:41181
flux calculations for two-region ZPR-3-48, XMAS-RAUM-PLEASER computer program for, 23:13405 (AI-AEC-12721, pp 69-81)
flux calculations for, computer program for real and adjoint, 24:38062 (RT/FI-(69)42)
flux calculations for, space-energy synthesis of diffusion for interpretation of adjoint, 21:35554 (ANL-7320, pp 439-46)
flux calculations for, space-point approximation for Monte Carlo, 21:38171
flux calculations for, use of multienergy first-collision probability method for simplified, 23:34939
flux calculations in concentric annular boiling reactor lattice cells, three dimensional multigroup P/sub L/ variable parameter theory for, 23:24003
flux calculations in fast reactors, stability and convergence criteria for, 23:31224 (RPI-328-148, pp 27-38)
flux calculations in transverse shielding of 0.5-TeV proton synchrotron, 22:46568 (HASL-199)
flux calculations of 0.0 to 1.68 eV, computer program for, 22:35661 (DLR-FB-66-91)
flux calculations using collapsed group-space synthesis, 21:38205
flux calculations using modified Green's function modes, (T), 21:13784 (KAPL-P-3181)
flux calculations using moments-method solution of one-dimensional transport equation, 21:25398 (UJV-1754)
flux calculations using Monte Carlo method, time-dependent, (T), 22:48432
flux calculations using transport theory with discrete Sn method, anisotropic, (T), 22:15935
flux calculations, computer program using multigroup theory for, 21:30174 (UJV-1753)
flux calculations, method of subgroups for effects of resonance structure of cross sections on, 24:46112
flux calculations, orthonomal set of functions for time and energy dependent, 23:26115
flux changes in activation analysis, 21:19575
flux changes in activation analysis, equipment for compensating for, 22:30433 (NIM-177)
flux characteristics in fast reactors, foil activation methods for, (E/T), 24:47819 (ANL-7629)
flux characteristics in reactors, performance of pulsed neutron source simulator for, (E/T), 25:3932
flux concentration of, device for, 21:1694(P)
flux control in heavy water reactors, analysis of spatial, 23:4190
flux converter system for CP-5 Reactor experimental facilities, installation and performance of combined cryostat—, 23:40401
flux data from experiments with pulsed, space-time solution to one-group diffusion theory interpretation of, 21:40593
flux decay constants in water moderated mixed fuel lattices, pulsed neutron and exponential experiments on, (E/T), 25:41617
flux decay curves for beryllium oxide assemblies, measurements using pulsed-source technique, (E), 23:19131
flux decay following pulses in multiplying media, numerical solution of equations for, (T), 21:9921
flux decay in heterogeneous moderator systems, review of pulsed source measurements on, 25:54280 (A/CONF.49/P-310)
flux decay in moderators, calculation of, (T), 21:46645(T) (BNL-tr-154)
flux decay measurements in subcritical assemblies, description of electronic equipment for, 23:11346 (RCN-98, pp 91-6)
flux densities in EBR-2, use of nickel, iron, and titanium detectors for determining, 23:37639
flux density behavior in pulsed coupled-core reactors, 22:6005
flux density calculations for, cavity boundary conditions and deviations from Lambert's law for, 21:29851
flux density distribution in FRG reactor core, effects of irradiation device on, (E/T), 24:22452
flux density distribution in reactors, activation system for measuring, 22:28116
flux density in LMFBR, hybrid computer simulation of transient, 24:4037 (AD-692446)
flux density in reactor—detector systems, role of adjoint in fluctuation analysis of, (T), 23:46899
flux density measurements of, standards for, 25:25616
flux density measurements of, use of lithium iodide scintillation detectors and polyethylene spheres for, 21:17882
flux density of, development of standards for, 21:1764
flux depression for small samples, calculation of resonance, 21:35683 (ANL-7320, pp 386-92)
flux depression in parallel array of cylindrical absorbers, effects of configuration on, (T), 23:2105 (KAPL-P-3460)
flux depression measurements, foil connections for first-flight, 21:38709
flux detection system in EBR-2, performance of counting-Campbelling, 22:28072
flux determination for wave experiment interpretation, 21:38170
flux determination in fuel plates, method for, 22:30345 (KAPL-M-6914)
flux determination in periodic reactor lattices, use of Boltzmann equation with fluctuating parameters for, 22:30321
flux determination in pure moderator, calculation of discrete eigenvalues for, 22:30371
flux determination of, use of back-to-back fission chamber and activation detector for absolute, 22:28105
flux determination, convergence acceleration for inner integrals in discrete ordinates method for adjoint, 22:37560 (K-DP-3105)
flux determination, use of quantum mechanical perturbation theory for, 21:35781
flux determinations for reactors by adjoint weighting techniques in diffusion theory, 22:16329
flux determinations for reactors, application of Monte Carlo eigenfunction iteration strategies to, 23:37714
flux determinations for reactors, use of Green's function modes and Kantorovich variational method for, 23:34942
flux determinations for reactors, use of stabilized march technique for synthesis, 24:7284
flux determinations in beryllium moderators, use of high and low energy neutron pulses for, 22:30376
flux determinations in reactors, method for approximating adjoint from, 22:33138
flux determinations in Shippingport Core 2 Seed 1, wire irradiations for, 22:14147(R) (WAPD-MRP-122)
flux determinations, space-time synthesis for, 21:38535
flux diffusion theory for, development and accuracy of collided, (T), 22:53464 (WAPD-TM-801)
flux diffusion theory for, development of collided, (T), 25:6171
flux distribution analysis in heterogeneous reactors, three group, 21:44890
flux distribution analysis in homogeneous reactors, one group, 21:44890
flux distribution around target of 14-MeV neutron generator, measurement of, 23:10888
flux distribution calculations for reactor, use of transfer matrix method for, 22:6149
flux distribution calculations for urania fuel rod cluster in PCTR, use of RBU Monte Carlo method for, 21:38707
flux distribution calculations for, multigroup finite-difference method for, 21:23628
flux distribution calculations in reactor fuel rod uniform clusters, Neutron Absorption Synthetic Approach (NASA) method for, 23:21557
flux distribution calculations in rocket reactor shielding, FASTER code for energy dependent, 22:39859(R) (N-68-13509)
flux distribution calculations in rocket reactor shielding, ODD-K code for spatial and energy, 22:39856(R) (N-68-13506)
flux distribution calculations in rocket reactor shielding, DAFT code for angular, spatial, and energy, 22:39858(R) (N-68-13508)
flux distribution calculations in rocket reactor, TAPAT diffusion and transport code for, 22:39853(R) (N-68-13503)
flux distribution calculations in rocket reactors, NAGS code for two-dimensional multi-group, 22:39857(R) (N-68-13507)
flux distribution control in nuclear reactors, analysis of, (T), 22:25138
flux distribution during operational cycles of ETR, effects of core configuration on, 21:46943(R) (IN-1117)
flux distribution flattening in converter reactor core regions, (T), 22:42284
flux distribution for bi-directional reactor refueling, (T), 22:22879
flux distribution for nonequilibrium reactor system, equations for, 22:28846
flux distribution from point source in homogeneous isotropic medium with cylindrical surface, (T), 22:50517
flux distribution in ANNA core with graphite—water moderator, 21:14075 (INR-724/IXA/R)
flux distribution in ATRC, 21:17519 (IN-1053)
flux distribution in boiling heavy water cores, calculations of, 21:19427
flux distribution in boundaries of two-region core lattices, 21:14094
flux distribution in BSR-1, analysis of photon produced, 22:16298(T) (NSJ-tr-93)
flux distribution in clustered fuel elements, equation solution using ZIP ZIP 3 code of, 21:14110 (EUR-3124.i)
flux distribution in concrete shielding, calculation of, 21:15778
flux distribution in convergatron type research reactor, (T), 25:10285
flux distribution in cylinder type reactors, N-SOUSI computer program for, 24:2059 (RISO-M-926)
flux distribution in cylindrical lattice cell, one-group, (T), 21:35380 (AECL-2709)
flux distribution in cylindrical subcritical assemblies, DIFNE code calculations of, 24:33410 (LFEN-NI.-44-a)
flux distribution in cylindrical subcritical assemblies, DIFNE code for, 24:22449 (LFEN-NI.-43-a)
flux distribution in EBR-2 reactor, dosimetry experiment for, 23:11178 (BNWL-919, pp 11.1-38)
flux distribution in ETR, 21:7901(R) (WCAP-3269-17)
flux distribution in fast breeder and thermal reactors, solution of two dimensional few group diffusion equations for, 24:11172
flux distribution in fast breeder reactors, comparison of modal and difference method for, (T), 25:25968
flux distribution in fast reactors, successive space—energy synthesis for, (T), 25:12780
flux distribution in few rod lattice, error analysis of Persson method for, 23:31220 (AECL-2593(Suppl.))
flux distribution in finite multiple concentric shell lattice, PETRAX computer program for axial and radial, 23:23997 (EIR-144)
flux distribution in FTR stainless steel and vanadium alloy clad uranium, uranium—zirconium, molybdenum—uranium, and plutonium—uranium—zirconium fuel elements, measurements of, 22:27458 (BNWL-514)
flux distribution in FTR stainless steel clad uranium carbide (UC) and plutonium carbide (PuC)—uranium carbide (UC) fuel elements, measurements of, 22:27457 (BNWL-513)
flux distribution in gas cooled graphite moderated reactors, adjusted computer program for, (E/T), 25:28654 (CEA-N-1344(2))
flux distribution in graphite-moderated Anna core, 21:14076 (INR-730/IXA/R)
flux distribution in heterogeneous reactor cells, variational-iteration method for calculation of, 25:1963
flux distribution in heterogeneous reactors, approximation methods for calculation of, 25:18236
flux distribution in heterogeneous reactors, calculation of space and time dependent, (T), 25:54274
flux distribution in hexagonal core of gas cooled reactors, GATT computer program for spatial, 23:26028 (GA-8547)
flux distribution in HIFAR fuel element cells, (E/T), 22:14242 (AAEC/TM-408)
flux distribution in homogeneous or multilayer infinite one-dimensional shields for, 4- and 18-group calculations of spherical harmonics for, 22:35675
flux distribution in homogeneous slab reactors, algorithm for optimal control of steady state, (T), 25:39336
flux distribution in infinite moderator, effect of black sphere on, 21:10137
flux distribution in IRT-2000, computer program for, 21:30273
flux distribution in liquid sodium reservoir of Phenix Fast Reactor, calculation of, (E/T), 24:47850(T) (ORNL-tr-2354)
flux distribution in liquid sodium reservoir of Phenix Fast Reactor, (E/T), 24:24818 (CEA-N-1253)
flux distribution in MH-1A, calculations for, 21:12216 (ORNL-TM-1654)
flux distribution in multiblanket cylindrical heterogeneous, use of unreflected end P_1 approximation for, (T), 22:35678
flux distribution in multilayer moderator blocks, effective boundary conditions for, (T), 24:50209
flux distribution in multiregion cylinder shaped reactors, two group diffusion approximation for, (T), 24:4124 (CISE-R-113)

flux distribution in multizone reactor cores, analytical method for, 21:21733
flux distribution in multizone reactor cores, variational method for, (T), 21:21731
flux distribution in non-uniform lattices, nodal integral transport method for calculation of, 25:57156 (CONF-710302-(Vol.2), pp 655-78)
flux distribution in non-uniform reactor lattices, modified collision probability method for calculation of, 25: 57155 (CONF-710302-(Vol.2), pp 644-54)
flux distribution in one dimensional power reactor, D-breakdown method for stability of, (T), 23:43206
flux distribution in organic-cooled in-pile loops, measurement of, 21:14088 (RT/FI-(66)4)
flux distribution in ORGEL-type reactors of, comparison of TRIHET and EQUIPOISE computer programs for, 23:23876 (EUR-4205)
flux distribution in Otto Hahn Reactor, measurement of, (E/T), 22:46988
flux distribution in Peach Bottom HTGR during zero-power experiments, 22:24939 (CONF-660524-, pp 695-715)
flux distribution in plane heterogeneous critical assemblies, exact solution of transport equation for, (T) , 23:33096 (RT/FI-(69)16)
flux distribution in plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel elements, use of transport theory for calculation of, (T), 22:44941
flux distribution in power reactors, hybrid computer solution of space—time, 25:10303 (CEA-CONF-1684)
flux distribution in presence of xenon-135, XEKE computer program for, 21:12257 (LA-3588)
flux distribution in PRO Reactor core, system for mapping, 21:21707
flux distribution in reactor core, one- and two-group model analysis of optimum, (T), 22:53468
flux distribution in reactor cores, effects of cylindrical water cavities on, (T), 25:37117 (UARAEE-58)
flux distribution in reactor cores, iterative behavior of direct search and eigenvalue solutions to, 23:49661
flux distribution in reactor cores, optimization by fuel arrangement, 21:15714(P)
flux distribution in reactor shields, computer program for determination of, 21:46849 (GA-8069)
flux distribution in reactor sub-regions, analysis of multiple collision probabilities for, (T), 25:28805 (EURFNR-898)
flux distribution in reactors with moveable material interfaces, synthesis model for static, 25:8131 (WAPD-TM-978)
flux distribution in reactors, accuracy of anisotropic diffusion theory for, (T), 24:11310
flux distribution in reactors, automatic counting of large sets of activation detectors for evaluating, 21:19966
flux distribution in reactors, comparison of higher order variational principles and iterative processes for calculation of, (T), 24:46116
flux distribution in reactors, control of, (T), 25:48349
flux distribution in reactors, description of multiple-capsule feeder for measurement of, 22:48757(P)
flux distribution in reactors, design and performance of miniature primary emission activation detectors for measuring spatial, 21:19969
flux distribution in reactors, determination of function moments of, (T), 25:57179
flux distribution in reactors, development of device for plotting, 25:26460(P)
flux distribution in reactors, effect of random boiling zones on, (T), 24:4131
flux distribution in reactors, effects of cavities on, (T), 25:26069
flux distribution in reactors, effects of empty cooling channels on, (T), 25:1958
flux distribution in reactors, error analysis for few measured value calculation of, (T), 23:47315 (CNM-R-2(Vol.3), pp 1407-27)
flux distribution in reactors, finite element solution of diffusion and transport equations for calculation of, 25:57159 (CONF-710302-(Vol.2), pp 723-38)
flux distribution in reactors, interface conditions for discontinuous synthesis of, 24:47962
flux distribution in reactors, irreversible process—transport calculations of, 22:14160
flux distribution in reactors, material motion effects on space-time, (T), 25:23405
flux distribution in reactors, methods for optimum control of, 25:46245 (KURRI-TR-75, pp 76-82)
flux distribution in reactors, Monte Carlo calculation of adjoint, 25:57162 (CONF-710302-(Vol.2), pp 803-32)
flux distribution in reactors, multigroup model for spatial, 25:23402
flux distribution in reactors, non-iterative method for calculation of time dependent, 25:57157 (CONF-710302-(Vol.2), pp 679-700)
flux distribution in reactors, nonlinear model of steady-state, 25:44197
flux distribution in reactors, reduction of ray effect in discrete ordinates calculations of, 25:12852
flux distribution in reactors, S/sub n/ programming techniques for calculation of, 25:57148 (CONF-710302-(Vol.2), pp 557-60)
flux distribution in reactors, solution of non-stationary and quasi-critical transport equations for, 25:57186
flux distribution in reactors, spherical harmonic equations for elimination of ray effects in, 25:57151 (CONF-710302-(Vol.2), pp 577-607)
flux distribution in reactors, SYNTH 2 computer programs for calculation of, 25:12844 (TKK-F-A-121)
flux distribution in reactors, synthetic transport theory method for calculation of, 25:57154 (CONF-710302-(Vol.2), pp 625-43)
flux distribution in reactors, time discretization of transport equation for calculation of, 25:57158 (CONF-710302-(Vol.2), pp 701-22)
flux distribution in reactors, variational derivation of discrete ordinate-like approximations for, (T), 25: 12858
flux distribution in reactors, variational treatment of DP-0 method for calculation of, 25:57152 (CONF-710302-(Vol.2), pp 608-16)
flux distribution in reactors, weighted diamond difference approximations for calculation of, 25:57150 (CONF-710302-(Vol.2), pp 565-76)
flux distribution in reflected lattices, analysis by multigroup diffusion theory of, 21:42826
flux distribution in reflected subcritical assemblies, effects of cooling channel diameter on, (E/T), 24:18732
flux distribution in reflectors and radial shield of FTR, two-dimensional diffusion theory calculations of (E/T), 25:8120 (WHAN-FR-12)
flux distribution in rocket reactor core, foil activation methods for, (E/T), 24:46099
flux distribution in Saxton core, effects of chemical shim on, 23:17207 (DOCKET-50146-2)
flux distribution in solving multigroup diffusion equations, use of polynomial expression for, 22:7923
flux distribution in two region reactors, effects of reflector thickness on, (E/T), 24:33496
flux distribution in two-zone reactors, two-point statistical model for, (T), 22:44916(T) (ANL-Trans-651)
flux distribution in unreflected reactor lattices, source-sink theory method for, 25:48339 (EIR-200)
flux distribution in uranium oxide (UO_2) fueled Aquilon 2 Reactor, (E/T), 24:4088 (CISE-R-100)
flux distribution in VVR-S reactor, calculations using S/sub n/ approximation, (T), 23:1771
flux distribution in water moderated enriched uranium fueled assemblies, (E/T), 25:3912
flux distribution in water-moderated reactors, $1^1/_2$ group model calculation of, 21:42736
flux distribution in Windscale AGCR at zero power, (E/T), 21:21683
flux distribution in Windscale AGCR, method for measuring, 21:21684
flux distribution measurements in fast critical assemblies, fine-structure, 21:38683
flux distribution measurements in HTGR at low power, 21:44834 (GA-8117)
flux distribution measurements in large void subcritical assemblies, comparison of homogeneous and heterogeneous methods for analyzing, 23:37764
flux distribution measurements in NORA, 22:16283(R) (IAEA-3498-21)
flux distribution measurements in NPR shield, MAC comparison of, 21:15666
flux distribution measurements in subcritical assemblies, 22:16300
flux distribution near absorbers, VISTA technique for measurements of, 25:20831 (JAERI-Memo-4238)
flux distribution near ends of uranium fuel rods, methods for measuring, 21:21685
flux distribution of monoenergetic, diffusing in an infinite medium, two-sided Laplace integral theory analysis of, 22:35723
flux distribution of reactor, digital computer analytic continuation calculation for, 21:42757
flux distribution of, statistical properties of steady-state, 21:25718 (RT/FI-(66)37)
flux distribution of, zero power measurements for fuel element configurations, 21:23714 (DP-1076)
flux distribution stabilization in ETR, 21:35747
flux distributions during operation of core 1 cycle 1 in Trino Power Reactor, analysis of, 22:39769 (EUR-3932)
flux distributions for plutonium—water lattices, analytical correlation of integral experiment data and calculated, 23:37749
flux distributions from one-dimensional systems, leakage calculations using collision probability method, (T), 21:17273
flux distributions from sources in water-reflected spherical cavities, (E/T), 21:33859 (NASA-CR-72231)
flux distributions in aqueous erbium nitrate solutions, measurement using foil activation, (E), 21:29828(R) (GA-7683)
flux distributions in cluster geometry, collision probabilities calculation for determination of, 24:24906
flux distributions in control absorbers in Candu-type reactors, 21:35539 (AECL-2694)
flux distributions in cylindrical geometry, space-angle-energy description of time-dependent, (T), 23:19121 (RT/FI-(68)38)
flux distributions in EL-4 Reactor, analysis of three-dimensional heterogeneous code for calculating, 22: 22764
flux distributions in fast reactor cells with plate geometry, fine structure of, (E), 25:39237
flux distributions in FFTF, evaluation of postulated effects of skewed, 21:46938(R) (BNWL-501)
flux distributions in heterogeneous media, method for calculating, 22:20413(T) (JPRS-43682, pp 1-42)
flux distributions in heterogeneous systems, method for solving integro-differential Boltsmann equation for monoenergetic, (T), 23:7210 (RT/FI-(68)30)
flux distributions in infinite homogeneous media of, n-th Legendre harmonic formulae for space-energy and space-time, (T), 22:30369
flux distributions in LACBWR, foil irradiations for determining, 22:7786 (ACNP-67533)
flux distributions in low power water cooled reactors, (T) , 25:51049
flux distributions in multiregion reactors, use of transfer matrix method for determining, 24:7303
flux distributions in one-dimensional cells, fine structure of, (E/T), 25:39238
flux distributions in power reactor shield models, (E/T), 21:25648
flux distributions in power reactors, comparison of variational synthesis methods for, (T), 25:3922 (ANL-7696)
flux distributions in pressure-tube reactors, perturbations by fuel loading, (T), 21:25660
flux distributions in pressurized water reactors, analysis of external detector measurements of, 22:27478 (BNL-12390)
flux distributions in reactor lattices, calculations using integral transport methods, 21:33847 (AE-279)
flux distributions in reactors during excursions, (T), 25: 6161
flux distributions in reactors, comparison of models for space correlated, (E/T), 24:24910
flux distributions in reactors, generalized multiple collision probabilities for calculation of, (T), 25:10313
flux distributions in reactors, P, approximation for calculation of, 25:57149 (CONF-710302-(Vol.2), pp 561-4)
flux distributions in RITMO core, 23:26096
flux distributions in SNAP reactors, use of adjoint S/sub n/ calculations for biased, 21:46934 (ORNL-TM-1666)
flux distributions in spheroidal reactors, 21:14034
flux distributions in water, time-of-flight measurements of angle- and energy-dependent, (E), 22:32443
flux distributions of, DLR.A.C. computer program for real and adjoint, 24:26833 (RT/FI-(69)18)
flux distributions of, iterative calculations using multipole source-sink method, (T), 21:17482
flux distributions of, method for measuring, 21:1865
flux during magnetic storms, cosmic, 21:46191
flux effects on reactivity in MTR, determination of cycled, 23:4311 (IN-1254)
flux enhancement in beam hole of Pakistan Research Reactor, 21:40691
flux expansion method for investigation of coupled systems, 21:25716 (KFK-522)
flux expansion models for fast reactor physics calculations, 21:30192
flux expressions for critical assemblies, perturbation theory formulation of bilinear functional, 23:9228(T) (DRP/SETR-66/208)
flux expressions for monoenergetic stationary Boltzmann equation, expansion in Chebychev polynomial series of, 22:53457 (BMwF-FBK-68-17)
flux extrapolation length in bare thermal reactors, second order correction to, 21:15766 (N-66-19220)
flux fine-structure measurements in Agesta, 21:27760
flux flattening by non-uniform fuel distribution in reactors, effect of resonance capture on, (T), 22:7910 (JINR-P4-3581)
flux flattening calculations for heterogeneous reactors, 22:7909 (JINR-P4-3580)
flux flattening in 1000 MW(e) two-zoned fast reactors, effects of fuel enrichment and composition on radial, (E/T), 22:35468 (PNR/SETR-R.-010)
flux flattening in multiregion reactors, analytical method for determining, 22:14171
flux flattening of natural uranium fueled one dimensional homogeneous reactor, two group diffusion approximation for, (T), 24:13633
flux fluctuations in seed-blanket reactor cores, analysis of space-correlated, 22:32877
flux for, ELMOE—SNARG computer program for spatially dependent fine energy detailed, 23:47317 (CNM-R-2(Vol.3), pp 1515-33)
flux from isotropic point source at 15,240 km in atmosphere, time-dependent, (T), 21:44495 (AD-647165)
flux from point source in adjacent dissimilar media, (T), 21:7648
flux from point source, use of transform and iterative techniques for determining, 23:37727
flux from point sources in infinite media, analytic expression for singly scattered, (T), 25:25623
flux from RC-1 thermal column, cadmium ratios and normalization of, (E/T), 21:21773 (RT/ING-(66)19)
flux from solar flares, (T), 25:55761
flux from source in nonhomogeneous medium, mean, (T), 22:44593
flux functions in reactors, use of perturbation theory to calculate variations in, 23:52458(T) (JPRS-48331, pp 147-70)
flux gradients in SEFOR, cyclic and transient power control in steady-state, 21:30139 (GEAP-5036)
flux in ASTRA, use of combination of GAM, TEMPEST-II, and TWENTY GRAND for calculating, 23:37617 (SGAE-R-3/1968)
flux in atmosphere from cosmic-ray interactions, (E), 22: 43948
flux in cells of finite square reactor lattices, source-sink theory analysis of, 25:60228
flux in concrete ducts, albedo calculations for epicadmium, 22:1288 (ORNL-4147)
flux in concrete ducts, from incident epicadmium neutrons, (E/T), 21:29324 (ORNL-TM-1794)
flux in critical assemblies, foil activation techniques for measurement of steady- and decaying-state, 23:21524
flux in cylindrical tubes, (E), 22:50213(R) (EUR-3913)
flux in depleted uranium pulsed assemblies, time-of-flight technique for determining time dependence of, 23: 37752
flux in Dounreay fast reactor, experimental and theoretical evaluation of, 21:21791
flux in fast pulsed assemblies, semianalytic formulism for, 23:37705
flux in fast reactors, analysis and measurement of, 24: 7075
flux in fast reactors, comparison of three dimensional diffusion theory computer programs for, 25:15343 (WHAN-IR-48)
flux in fast reactors, macroscopic cross sections and spectra near 2.85-keV sodium resonance, (T), 25: 45882
flux in fast reactors, multigroup and analytical calculation of, 23:31224 (RPI-328-148, pp 27-38)
flux in finite one-dimensional lattices, multigroup collision method for calculating, 23:28613
flux in GETR core, effects of fuel configuration on, 21: 21759 (CONF-660511-, pp 6.2.1-10)

flux in GETR experimental facilities, description of shield for flattening of, 24:7205
flux in heavy water moderated gas cooled reactors, integral transport theory modifications for, (T), 23: 43098 (ZJE-50)
flux in heavy water moderated natural uranium fuel rod clusters, multigroup collision probability calculations of, 24:31126 (AAEC/E-205)
flux in heterogeneous fuel, spatial depression of resonance, (T), 21:15708
flux in heterogeneous reactors, calculation of space- and time-dependent, 23:15721
flux in hexagon core reactors, CONCORDE synthesis program for axial, (E/T), 25:8130 (CEA-N-1276)
flux in HFIR and ORR, measurements of, 21:39129 (ORNL-4155)
flux in high-altitude equatorial atmosphere, relation to radiation-belt proton flux, (E), 25:35998
flux in infinite homogeneous reactors, Sokolov method for solution of multigroup equations of, 24:36084
flux in infinite homogeneous systems, effects of cavities on distribution of, (T), 25:12851
flux in infinite slab reactors, weighting function choices for spatial, 24:47934 (ANL-7610, pp 465-537)
flux in JRR-2 fuel elements, use of activation analysis for measurement of, 23:49598
flux in KUR irradiation facilities, (E), 24:26808 (KURRI-TR-60)
flux in labyrinth of Princeton Synchrotron from proton reactions with lead at 3 GeV, 23:28076
flux in liquid metal cooled fast breeder reactors, space-energy factorization for diffusion theory calculations of, (T), 25:41401
flux in lunar material, methods for calculating effects of, on astronauts, 24:9833
flux in multiplying assemblies, analysis of time-dependent, 21:14096
flux in multiregion reactors, orthogonal solutions to diffusion approximation of, 22:7911 (KAPL-P-3389)
flux in natural uranium—graphite lattices, comparison of theoretical and experimental values for, 22:33013
flux in nonlinear reactors, cross correlation techniques for dynamics of stability of, (E/T), 23:33110 (KAPL-P-3812)
flux in NRX, energy deposition in graphite and Zircaloy-2 by, 21:14063 (AECL-2632)
flux in one-dimensional reactor cores, equations for, 21: 14010
flux in one-dimensional slab geometry with anisotropic scattering, direct search technique for calculation of directed, (T), 23:17267 (ORNL-TM-2381)
flux in parallel planes, effects of cylindrical absorbers on depression of, 22:33148
flux in plate type reactors, analysis of albedo problem for, (T), 24:26828(T) (ORNL-tr-2036)
flux in point reactors, calculation method for probability distribution of, (T), 24:18767
flux in proposed neutron dosimetry laboratory, calculation of scattered, 24:50500 (PTB-1/70)
flux in PRTR with uranium dioxide—2 percent plutonium dioxide fuel, 22:6125
flux in reactor kinetics, calculations of general and adjoint, 21:25629 (KFK-508)
flux in reactors, hybrid computer system for real-time dynamic display of space-time, 25:41600
flux in reactors, information theory for detector monitoring of, (T), 24:46119
flux in reactors, solution of one-group diffusion equation with angular singularities, (T), 25:18228 (HUX-3971-5)
flux in reactors, temperature feedback effects on fluctuations of, (T), 24:31129
flux in research reactors, use of diamond for measurement of integrated, 25:39236(T) (LB/G-3027)
flux in shielding materials, stochastic process method for calculation of, 23:30599 (AD-674610)
flux in shutdown reactor, method for calculation of, (E/T), 24:38488 (DP-Report-61)
flux in space after polar cap neutron event, 21:36976
flux in spherical cavity regions of reactors, time and space dependent thermal, (E/T), 24:33551
flux in steel pressure vessels, (E/T), 25:6213
flux in supernova shock waves, (T), 21:33037
flux in swimming pool reactors, design of monitor for, 21:12677(P)
flux in two-dimensional geometry during rapid reactor transients, alternating-direction implicit methods for analysis of, 25:31654
flux in upper atmosphere of epithermal albedo, measurement by indium-activation method, (E), 22: 24071
flux in uranium dioxide—water lattices, measurement of effects of voids on, 23:37744
flux in zero power reactors, space-dependent effects on noise and oscillator measurements in, 21:15781
flux intrastructure in plate-type heterogeneous uranium oxide (UO_2)-fueled fast core ZPR-6 Assembly-6, analysis of, 23:4334
flux leakage in small exponential piles, corrections for diffusion theory radial, (T), 23:15718
flux level in radiation target cans, effects of reactor core configuration on, 25:26016 (ANL/EBR-35)
flux level in reactors, design and performance of log n-period converters for, 21:12723
flux levels in Agesta reactor primary shields, comparison of calculated and measured, 23:17174
flux limits for fast reactor core structures and pressure vessel, 25:44167
flux limits for reactors, nonlinear space—time calculations for optimum, (T), 25:41614
flux linear extrapolation distance for convex curved free surfaces, (T), 23:24009
flux mapping at KRB reactor, system description for in-core, 22:12590
flux mapping in EDF-3, use of semiconductor detectors for, 23:1973 (CEA-R-3297)
flux mapping in reactors, activation wire system for, 24: 50568
flux mapping near nuclear explosions, detector energy integration program for, 22:40280 (AD-667933)
flux mapping using fission-foil wire spark chambers, spatially continuous, (E), 23:5793
flux measurement and calculation correlations, 21: 23599(R) (GA-7562)
flux measurement efficiency in pressurized-water reactors, analysis of detector patterns for, 22:30164(R) (WCAP-3703)
flux measurement for cross-section experiments, review of methods for, 23:5789
flux measurement from proton reactions (p,n) with tritium, associated particle method for, 25:18647
flux measurement from reactor cores, design and performance of electron current activation detectors for, 23:41016
flux measurement in reactor cores, development of stable semiconductor detector for, 23:26509 (BMwF-FBK-69-6)
flux measurement in reactor cores, methods for, 21: 23659
flux measurement in reactors, comparison of wide-range nuclear channels for, 22:53488
flux measurement in reactors, current variations from ionization chambers for, 22:25638
flux measurement in reactors, use in kinetic calculations, 21:4414 (TID-23382)
flux measurement of, calculation of optimum efficiency for reactor core detectors for, (T), 22:35677
flux measurement of, compensated boron ionization chamber system for, 23:6300(P)
flux measurement of, fission electric cell for, 22:45289
flux measurement of, standards for biological and physical applications, (E), 25:34879
flux measurements above the atmosphere, (E), 23:1228
flux measurements at 10 to 200 keV, 21:30091(R) (ANL-7210)
flux measurements at uranium carbide fuel surfaces, methods for, 21:14109(R) (EUR-3123.e)
flux measurements by reactivity oscillator method, errors in adjoint, 21:35560 (ANL-7320, pp 688-92)
flux measurements for 6.53 and 9.12 percent enriched uranium-235 cylinder-shaped exponential pile, foil activation method for, 23:4314 (LA-3934)
flux measurements from statistical fluctuations in analog signals from ionization chambers, 21:6218
flux measurements in 5 MW(t) PARR reactor, 22:6097 (PINSTECH/PHY-7)
flux measurements in ALRR, summary of, 23:2066 (IS-1900, Paper 7)
flux measurements in cavity regions of rocket reactors, 22:3881(R) (NASA-CR-72234(Vol.1))
flux measurements in CVTR, 21:40547(R) (CVNA-279)
flux measurements in cylinders of grey and black material, use of Kofink's formulation of P/sub N/ method for extrapolation distance, 22:39932
flux measurements in deuteron reactions (d,n) with beryllium, 21:32935(R) (ORO-2891-6)
flux measurements in deuteron reactions (d,n) with deuterium, 21:21432
flux measurements in DFR, 21:25719 (TRG-Report-1429)
flux measurements in DFR, 22:18522
flux measurements in fast zoned critical assemblies, 21: 38683
flux measurements in fast-thermal critical assembly ERMINE, spectral indices determination from, 22: 20916(T) (ANL-Trans-556)
flux measurements in fast-thermal reactor STARK, 22: 1859 (KFK-592)
flux measurements in Fermi Fast Breeder, summary of uranium-foil, 21:38557
flux measurements in LMFBR, design of miniaturized fissionable material—thermocouple system for, 22: 12571 (ANL-7380, pp 146-7)
flux measurements in MTR beam hole HB-3, 21:27802 (IN-1072)
flux measurements in Pakistan Research Reactor, low-power results of, 21:27805 (PINSTECH/RO-2)
flux measurements in PCTR fast neutron cavity, measurement of, 24:7225
flux measurements in PCTR, use of foil activation techniques for, 22:22804(R) (BNWL-685)
flux measurements in plutonium-enriched subcritical assemblies, 21:38663(R) (GEAP-5486)
flux measurements in PRCF with cadium control rods fully withdrawn, 21:30251 (BNWL-372)
flux measurements in reactor cores, design of detector for, 21:36393
flux measurements in reactor cores, microwave technique for, 25:10326 (RT/FI-(70)7)
flux measurements in reactor cores, use of self-powered detectors for, 25:51160 (JAERI-13612)
flux measurements in reactor fuels, development of equipment for, 23:16005 (CEA-CONF-1121)
flux measurements in reactors for determining period of reactors, 21:7904
flux measurements in reactors using threshold detectors, 21:26865(R) (HW-74679)
flux measurements in reactors, beryllium-9 gas flow activation detector for, 25:18646 (WHAN-SA-73)
flux measurements in reactors, comparison of errors in, 21:31980
flux measurements in reactors, design and performance of miniaturized ADIT fission thermocouples for, 22: 30905
flux measurements in reactors, design of activation detectors based on electron current measurements from beta decay for, 23:649(P)
flux measurements in reactors, design of fission thermocouples for, 22:30838
flux measurements in reactors, design of transistorized log-linear counting rate system for, 21:34481
flux measurements in reactors, fission and ionization chambers for, 22:12568 (AEEW-M-492)
flux measurements in reactors, fission thermocouples for low-temperature, 22:51276(R) (IDO-17269)
flux measurements in reactors, improved techniques for, 23:2042
flux measurements in reactors, pulse-mode boron-10-lined proportional detector system for, 24:41676
flux measurements in reactors, schematics for live-timer corrections for foil-counting data for, 23:49582 (ANL-7410, pp 339-86)
flux measurements in reactors, statistical gamma discrimination method for, 22:35684
flux measurements in reactors, techniques for high-precision, 25:14877
flux measurements in reactors, use of gold activation detectors for, 21:39173 (ABS-THH-1022)
flux measurements in reflected non-uniform lattices, 21: 38742 (EIR-100)
flux measurements in research reactors, methods for, 22: 12108
flux measurements in SHA, comparison of synthesis diffusion calculated values with, 24:7233
flux measurements in Shippingport Seed 1, comparison of calculated values with, 21:40580(R) (WAPD-MRP-121)
flux measurements in sphere of uranium-238, techniques for, 23:24014
flux measurements in STARK, 22:16296(T) (EURFNR-352)
flux measurements in subcritical assemblies, use of differences in detector energy response for determining spectral correction factors for, 23:52474
flux measurements in underground nuclear explosions, methods for, 24:38061 (LA-4095)
flux measurements in VERA, comparison of measured and calculated, 21:35689 (ANL-7320, pp 501-5)
flux measurements in VVR-S following shutdown, 21: 4410
flux measurements in WWR-S reactor beam holes, residual, 22:3911
flux measurements in-core, based on resistivity changes in tungsten, 24:44326 (CEA-N-1288)
flux measurements of 14-MeV, in reactors, use of copper activation detectors for, 22:16857 (CEA-R-3295)
flux measurements of cosmic, during solar eclipse on Nov. 12, 1966, 22:31663(T) (SC-T-68-1516)
flux measurements of MARYLA-2 WWR-SM reactor, calculation methods for, 22:35597 (INR-878/XXI/PR)
flux measurements of medium-energy, use of stilbene scintillators and lithium-6 glasses for, 21:324
flux measurements of reactor, performance of fission foil—mica and polycarbonate track detectors for, 24: 31692
flux measurements of, amplifier for ionization chambers used in, 23:29161
flux measurements of, around high-energy proton accelerators, errors in, 23:10875 (UCRL-18424)
flux measurements of, automatic sample changer for activation detectors for, 24:48297
flux measurements of, by activation of gold foils and spheres, 21:10641
flux measurements of, calculations for fission foil—dielectric track detectors for, 25:44640
flux measurements of, calculations of reactor reactivity by effects of digital Kalman filter on, (E/T), 24:24907
flux measurements of, calibration of proton-recoil proportional detectors for, 25:23774 (ORNL-TM-3347)
flux measurements of, computer program for activation detector calculations for, 24:9636 (GEMP-729)
flux measurements of, description of automatic scanners for, 21:30698 (RT/ING-(66)25)
flux measurements of, design and performance of proton-recoil detector for, 21:45422
flux measurements of, design and performance of uranium—photographic plate fission foil detectors for, 22:38028
flux measurements of, design and use of micro-fission chambers for, 23:26517 (RT/FI-(69)9)
flux measurements of, design of activation foil counting system for, 22:4453(P)
flux measurements of, design of apparatus for, 22: 4449(P)
flux measurements of, design of cobalt-59 containing detector for, 21:26207(P)
flux measurements of, design of equipment for, 24: 9659(P)
flux measurements of, design of fission chamber for in-core, 25:34884(P)
flux measurements of, design of fission chamber for, 25: 34883(P)
flux measurements of, design of ionization chamber for, 23:19965(P)
flux measurements of, design of negative-pressure, rotational, bubble-chamber-type detector for measuring, 22:10560
flux measurements of, development of beta-current activation detector for, 22:21312 (HPR-73)
flux measurements of, development of Bonner multisphere detectors for, 25:10811 (CEA-CONF-1685)
flux measurements of, development of breadboard model of all-pneumatic system for, 23:16088 (N-68-31552)
flux measurements of, development of semiconductor detectors for in-core, 24:44258
flux measurements of, digital counting device for low-level, 22:14872 (CEA-R-3340)
flux measurements of, effect of formic acid on performance of Fricke dosimeter for low, 25:441
flux measurements of, efficiency of solid-state track detectors for, 22:30835
flux measurements of, improvements in boron trifluoride proportional detectors for absolute, 25:39733
flux measurements of, intercalibration factors for foils used in, 21:12653
flux measurements of, lithium-drifted germanium gamma spectroscopy of gold activation foils for determining fast-to-thermal ratios in, 22:38029

flux measurements of, performance of ionization and fission chambers using cross-correlation method for in-core, 24:2476
flux measurements of, performance of silver foil-wrapped Geiger—Mueller detector for, 24:7655 (UCRL-71731)
flux measurements of, preparation of Al_2O_3—CoO and MgO—CoO for high-temperature, 25:57723 (CONF-711002-, pp 82-5)
flux measurements of, preparation of thin activation probes for, 22:2340 (ABS-THH-1033)
flux measurements of, scattering corrections for, 25:26483
flux measurements of, semiconductor detectors with converter foils for, 22:51231
flux measurements of, six boron trifluoride proportional detector system for comparative, 24:29509
flux measurements of, spallation of mercury to terbium-149 for, 21:28216 (UCRL-17505)
flux measurements of, system for calibrating activation foils for in-core, 24:20990(P)
flux measurements of, use of in-core vacuum chamber detectors for, 23:24447
flux measurements of, vitreous composition containing fissile material for, 24:39277(P)
flux measurements on B and W Laboratory multi-rod critical assembly, effects of concrete shielding thickness on, 22:32740(R) (BAW-3647-7)
flux measurements on pulsed, in exponential piles, 22:33011
flux measurements on, detector development for, 22:37340(R) (EANDC(E)-89(U))
flux measurements under adverse conditions, use of fission chambers for, 22:12573 (ANL-7380, pp 165-7)
flux measurements under adverse conditions, use of Campbell's method for, 22:12573 (ANL-7380, pp 165-7)
flux measurements using activation detectors, ASTM standard method for, 25:26476
flux measurements using averaging and rms type radiation detectors, γ discrimination and sensitivities of counting-Campbelling, 22:28084
flux measurements using boron-10 (n,α), helium-3 (n,p), and lithium-6 (n,α) reactions, standard cross sections for, (E), 22:18146
flux measurements using enriched europium-activated lithium iodide detector, 25:39728
flux measurements using gold foils, effects of self-shielding and self-absorption factors on, 22:6597
flux measurements using indium foil activation, computer programs for analyzing, (E), 22:32426 (GA-8556)
flux measurements using uranium foils and fission chambers, effects of system heterogeneity on reaction rates in, (E), 22:35333
flux measurements with indium sandwich activation detectors, 24:50550 (NP-18440)
flux measurements with ionization chambers, compensation of gamma radiation in, 21:8619(P)
flux measurements with resonance effects in fast reactors, computer program for B_1 equations solutions for, 22:35663 (GA-7542(Vol.1))
flux measurements, cobalt self-powered detector for in-core, 25:44583 (KFK-1355)
flux measurements, design of self-powered PENA detector for, 25:32207 (AERE-R-6732)
flux measurements, gamma-compensated fission thermocouple for, 25:26466(P)
flux measurements, handling and readout system for activation detectors for in-core, 25:55008(P)
flux measurements, pulsed ionization chamber technique for wide-range, 25:39731
flux measuring system for reactors, description of closed-circuit multiple valve-regulated tubes in outside-core forced-flow oxygen-containing fluid, 23:2145(P)
flux monitoring at low levels, development of detectors for, 24:20980 (BNWL-946)
flux monitoring devices for, development of, 21:31903(R) (BNWL-CC-500)
flux monitoring for fast reactors, activation methods for, 22:13035 (BNWL-473, pp 11.1-7)
flux monitoring for unattended safeguards applications, dielectric track detector system for, 25:4341
flux monitoring in core, response of self-powered cobalt detector for, 23:40980 (AECL-3368)
flux monitoring in pressurized water reactor cores, all-solid self-powered detectors for, 24:11154 (BAW-10001)
flux monitoring in reactors, comparison circuits for, 21:45487(P)
flux monitoring in reactors, description of single fixed-position fission chamber for, 21:32442
flux monitoring in reactors, design and performance of vanadium beta emission detectors for, 23:38240 (AE-359)
flux monitoring in reactors, design of digital counting system for low-, medium-, and high-level, 23:50118 (NYO-3738-15)
flux monitoring in reactors, development of fast-response miniature fission thermocouple for, 23:38247 (LA-4126)
flux monitoring in reactors, development of regenerative fission chambers for in-core, 22:36025 (BNWL-SA-1621(Rev.))
flux monitoring in reactors, performance of low resistivity silicon detectors for, 21:6254
flux monitoring in reactors, standards for wide-range channels for, 25:44209 (RDT-C-15-2-T)
flux monitoring in reactors, survey of detectors for, 24:44270
flux monitoring in reactors, use of fission chambers, pulse transformers, and balanced cables for, 21:32443
flux monitoring in reactors, use of radiation detectors based on Campbell's theorem for, 21:32441
flux monitoring of, boron-coated proportional detector with low gamma sensitivity for in-core, 25:29324 (AEEW-M-970)
flux monitoring of, Campbell-type circuit for, 25:15883 (CEA-R-4119)
flux monitoring of, comparison of fission and threshold detectors for, 21:31054(R) (BNWL-CC-1053)
flux monitoring of, development of activation detectors for long-term, 24:39207 (IN-1317, pp 233-381)
flux monitoring of, helium-3 ionization detector for in-core, 25:18662
flux monitoring of, ionization chamber for measuring gamma activities of cobalt for, 22:4422 (AERE-R-5179)
flux monitoring of, performance of fission foil—dielectric track detectors for, 25:44644
flux monitoring of, performance of shielded dielectric track detectors with aluminum and carbon converters for, 25:44643
flux monitoring of, silicon nitride with bonded thermocouple for in-core, 25:37594
flux monitoring system for BWR's, development of, 21:27771
flux monitoring system for reactors, design of wide-range Campbelling, 22:303 (ANL-7224)
flux monitoring system, continuous ten decade, 21:40531 (ANL-7290, pp 188-215)
flux monitoring using aluminum-cobalt alloy foils, 22:20497(R) (AECL-3009)
flux monitoring, fabrication of MgO—NiO and MgO—CoO activation detectors for in-core, 25:55019(P)
flux monitoring, fission foil—silicon detector for in-core, 25:4353
flux monitoring, preparation of activation detectors for in-core, 25:57724 (CONF-711002-, pp 86-90)
flux noise in liquid sodium cooled fast breeder reactors, coolant boiling detection by, (T), 25:3864
flux normalization, conference on, 25:53485 (CONF-701002)
flux of atmospheric albedo, (E), 23:1229
flux of cosmic albedo, (E), 22:29311
flux of cosmic, in atmosphere, (E), 24:30168 (AD-699576)
flux of cosmic, temperature effect on, 21:41845
flux of cosmic, underground, surface, and in-the-air, (E), 23:46307
flux of fast critical assemblies, effects of irradiation samples reactivity worths on, (E/T), 25:6117
flux of fast reactors, analytic model for, (T), 25:5954
flux of monoenergetic, at plane black boundary with nonabsorbing medium, 21:25405
flux of reactor, comparison of methods or analysis of fluctuations in, (T), 22:47049
flux of secondary, from 660-MeV proton penetration of shielding, 21:33496 (JINR-P9-3365)
flux of solar, at the Earth, (E), 24:35090
flux of solar, at top of atmosphere, upper limit for, (E), 25:7255
flux of, analysis of conditional variances for Doppler effects on, (T), 24:52998
flux of, definition of, 21:9915
flux of, definition of, 21:9914
flux of, design of compensated parallel-plate boron trifluoride detector for measuring, 23:33390(P)
flux of, use of glass scintillation detectors for determining time dependence of, 21:24192 (CTH-RF-10)
flux on lunar surface induced by solar protons, 21:39767
flux optimization in reactor, 22:6150
flux oscillations in reactors, effects of xenon on induced, 22:27478 (BNL-12390)
flux peaking in 18-element uranium oxide (UO_2) CANDU-BLW rod-type fuel assemblies, effects of configuration and coolant on, 22:44883 (AECL-3143)
flux peaking in fuel elements, methods for calculating, 22:50850
flux perturbation effects of reentrant hole in pulsed-source experiments, method for calculating, 22:32451
flux perturbation in single uranium and uranium—plutonium fuel elements, calculation method for, 22:1874
flux perturbations in 1/v foil detectors, 23:21231
flux perturbations in bare slab reactors, Green's function mode and variational method analysis of, (T), 22:14296 (RPI-328-100, pp 140-87)
flux perturbations in Dragon Reactor, noise analysis at 20 MW(t) for, 22:35420 (AEEW-R-571)
flux perturbations in water, effects of re-entrant hole depths on pulsed, (T), 22:14296 (RPI-328-100, pp 140-87)
flux plane determination in continuous plates, empirical method for natural, 21:5610 (EIR-96)
flux profile analysis in water-cooled reactors, BOLERA code for, 22:18588 (RT/FI-(67)28)
flux profile for B and W Critical Facility, 21:30099(R) (BAW-3647-4)
flux profile for PM-2A pressure vessel, analysis of accumulated, (E/T), 21:21744
flux profile measurements in reactor cores during zero power experiments, small semiconductor detectors for, 22:37989 (CONF-670545, pp 191-9)
flux profiles in KRITO, measurement of, 23:11295 (RCN-98, pp 239-77)
flux profiles in La Crosse Boiling-Water Reactor, measurement of, 22:3805(R) (ACNP-67530)
flux profiles in large one-dimensional core during excursion, 21:40550 (DUN-SA-35)
flux profiles in ORR during April to June 1969, 24:4093(R) (ORNL-TM-2735)
flux profiles in SNEAK-1 and ZPR-3-41, comparison of, 22:6090 (EURFNR-395)
flux profiles in SPR II, 21:32016 (SC-RR-66-2643)
flux ratio calculations using indirect variational method, 23:4445
flux ratio of real and adjoint, computer program for two bilinear and linear functionals, 22:35672 (RT/FI-(68)10)
flux reflection and transmission from a nonabsorbing slab, (T), 25:39339
flux regulation in reactor core by nitrogen-16 activity of coolant, 21:1213(T) (UCRL-Trans-10057)
flux shape for point reactor kinetics equations, description of time dependent function of, (T), 22:18606
flux shape in plutonium lattice experiments, asymptotic theory methods for analysis of, (E/T), 25:31661
flux shape in reactors, metastatic method for calculating space-dependent, 23:33104
flux shapes, WANSY computer program for two dimensional, 23:45128 (WAPD-TM-891)
flux space-time effects in coupled core reactors of, analysis of multimode time synthesis approximation for, (E/T), 22:30351
flux spectra determination by foil activation, iterative computer program for, 24:16830 (AD-821617)
flux spectra determination by foil activation, iterative computer program for, 24:16828 (AD-820556)
flux spectra determination by foil activation, reference computer library for, 24:16829 (AD-821616)
flux spectra determination from activation measurements, method for, 24:39207 (IN-1317, pp 233-381)
flux spectra for gas-fueled reflector-moderated reactors, use of 18 energy groups for calculating, 21:27792
flux spectra from detector activation, variational method for determination of, 24:16859
flux spectra from detector activation, variational method for determination of, 24:16858
flux spectra from fission source in water, S/sub n/ calculations using asymmetrical quadrature sets, (T), 23:8642
flux spectra from multiple foil activation measurements, computer program for determining, 22:48413 (BNWL-855)
flux spectra from reactor lattice cells, TOFFEE code for calculating directed, 23:52441 (AEEW-M-903)
flux spectra from Saclay EL-3 neutron beam tube, 24:11282
flux spectra in Big Rock Point Reactor, measurement of, 24:29998
flux spectra in fast breeder reactors, effects on fuel cycle parameters of, 24:7131
flux spectra in fast reactors, effects core diluents and multigroup cross section averaging on, 23:49581 (ANL-7410, pp 73-227)
flux spectra in fast reactors, variational spectral synthesis methods for space-energy, 25:31656
flux spectra in HERALD Reactor, effects of cryogenic temperatures on, 24:11281
flux spectra in PCTR Fast Neutron Cavity, multiple foil activation measurements of, (E/T), 24:47896 (BNWL-1487)
flux spectra in reactors, integral transport theory calculation of epithermal, 25:37115 (RISO-234)
flux spectra in research reactor target region, computer programs for calculation of, (E/T), 25:26032 (ORNL-TM-3322)
flux spectra in water annulus, calculations in, 23:23746(R) (AECL-3257)
flux spectra measurements in thermal and fast reactors, multiple foil activation iterative method for, (E/T), 23:19560
flux spectra of, variational approach to activation detector calculations for, 25:15887 (TID-25651)
flux spectral shapes, comparison of fast reactor and Watt fission, 22:12091(R) (BNWL-639)
flux spectrum calculation for fuel burnup analysis, 22:14288 (AAEC/E-184)
flux spectrum in PCTR Fast Neutron Cavity, measurement of, 23:13539(R) (BNWL-921)
flux spectrum measurements in uranium dioxide—water lattices, 21:10210
flux spectrum of multiple geometry heterogeneous reactor, use of diffusion theory and heavy gas model for analytical calculation of, (T), 23:9235
flux synthesis approximations for reactors, anomaly arising in flux-weighted collapsed-group, 23:37717
flux synthesis computations for reactors, use of radial trial functions for, 23:4442
flux synthesis for reactor calculations, boundary conditions in variational, 24:47934 (ANL-7610, pp 465-537)
flux synthesis for reactor calculations, functionals for discontinuous trial function, 24:47934 (ANL-7610, pp 465-537)
flux synthesis for reactor calculations, solution of interface overdetermination in spatial, 24:47934 (ANL-7610, pp 465-537)
flux synthesis for reactor calculations, variational models for space-time, (T), 25:44191 (ANL-7710, pp 365-463)
flux synthesis for reactors, use of asymmetric discontinuities in trial function expansions for, 23:4443
flux synthesis in reactors, functionals for discontinuous-trial-function, (T), 25:37130
flux synthesis in reactors, review of methods for, 24:52990 (LA-4472)
flux synthesis in reactors, SYN code for two-dimensional, 25:37112 (GEAP-13672)
flux synthesis in reactors, SYNTRON code for three-dimensional, 25:26062 (RISO-M-1346)
flux synthesis in reactors, variational method for, (T), 22:22653(R) (ANL-7419)
flux synthesis method for calculation of sodium-void effects in fast reactors, 21:38682
flux synthesis methods for, corrections for variational, (T), 25:6170
flux tilting in Fort St. Vrain Power Reactor, analytical and numerical methods for calculating maximum distribution of, 22:22691 (GA-8115)
flux tilting in large graphite-gas reactors, (T), 23:1973 (CEA-R-3297)
flux tilting measurements in two-zone research reactor, 22:16301
flux to kerma factors for inorganic and organic materials, 25:6214
flux transients in power reactors, analysis with no time reversibility for, (T), 25:1959
flux transients in reactors, analysis of kinetics from, (E/T), 25:28755 (CEA-N-1406)

flux up to 100 MeV of cosmic, energy dependence of pressure coefficient of, (E), 25:52701
flux variation due to heterogeneity in SNEAK 3A-1, (E), 22:5923 (EURFNR-402)
flux variations during power reactor transients, effects of xenon-induced spatial, (t), 25:54063
flux variations for reactivity measurement in exponential piles, 23:33109 (CEA-R-3696)
flux variations in HFIR and ORR, effects of coolant flow around control rods on, 22:1860 (ORNL-4149)
flux variations in ORR core from a cadmium—boron neutron filter, (E), 22:20910(R) (ORNL-TM-2147)
flux variations in reactor, descriptions of reactor-noise time-analysis methods for, (T), 23:2103 (BNWL-875)
flux variations in reactors, optimum infinite multiplication factor distribution for minimization of, 25:54266
flux variations in reactors, REDUX computer program for statistical parameters of, 24:4154 (WAPD-TM-811)
flux variations in water-moderated circular lattice uranium oxide (UO_2) fuel rods, analysis of, (E/T), 23:2107 (WAPD-TM-804)
flux, use for calculation of burnup, 21:14109(R) (EUR-3123.e)
flux-to-dose conversion factors for, estimation of, for protection against high energy radiation, 24:27586 (CONF-690540-, pp 586-95)
flux-to-pressure frequency response for molten salt reactors, (E/T), 25:10177
flux-to-pressure frequency response for molten salt reactors, (T), 25:10178
fluxes and adjoints of ZPR-6 and ZPR-9, 21:35684 (ANL-7320, pp 403-20)
fluxes for zoned fast core of ZPR-9 Assembly 18, calculated direct and adjoint, 23:49581 (ANL-7410, pp 73-227)
fluxes from (α,n) and (p,n) reaction, method for measuring, (E), 22:11948(R) (NP-17216)
fluxes from nuclear explosions, computer program for calculation of, 21:17258 (AD-645929)
fluxes in AARR internal thermal column, calculated effects of core size and loading on, 23:49580 (ANL-7410, pp 47-72)
fluxes in Assemblies 19, 21, 22, and 24 of ZPR-9, tabulation of measured and calculated real and adjoint, 23:49581 (ANL-7410, pp 73-227)
fluxes in bare uranium-235 assemblies, comparison of multiple foil and time-of-flight, 24:7221
fluxes in critical multiplying systems, generalized perturbation method for analysis of bi-linear functionals of real and adjoint, 22:6179
fluxes in fast and thermal reactors, reaction coefficient method for determining heterogeneity effects on, 23:52461 (KFK-743)
fluxes in heavy water moderated TOPLESS critical assembly, comparison of measured and calculated, 24:7170 (CISE-R-165)
fluxes in NASA ZPR-1, multigroup transport computer program for real and adjoint, 21:30261 (NASA-TN-D-3990)
fluxes in one-, two-, and three-legged concrete ducts from slowing down of epicadmium neutrons, (E), 21:37539
fluxes in reactor moderators, effects on resonance integral of nonuniformity of, 22:30381
fluxes in reactors, effects of cross section variations on spectral fitting of, 22:50868
fluxes in reactors, use in perturbation theory of importance conservation principle of, 23:11336
fluxes in reactors, uses of high, 21:42817 (PEL-146)
fluxes in swimming-pool reactors, effects of irradiation devices on, 21:14083 (NP-16432)
fluxes of subcadmium, in one-, two-, and three-legged square concrete ducts, (T), 21:7321
fluxes required for activating probe material, 21:30091(R) (ANL-7210)
focusing by conical tubes, calculations for, 23:44815
focussing by inhomogeneous magnetic fields, 23:21609(R) (SRRC-14/67)
form factor effects on cross sections for e + p → e + n + π^+ interactions, charge, (T), 25:33618
form factor from cross section ratios for μ^+ inelastic scattering on carbon, copper, and hydrogen at 12 GeV, (E), 25:12096
form factor from e + d → e + p + n interactions at high energies, (E), 25:27951 (NP-18725)
form factor from e + d elastic interactions, model dependence of electric, 21:25257
form factor from e + d elastic scattering, electric, (T), 25:27980 (DESY-71/7)
form factor from e + d quasi-elastic interactions at high energies, counter telescope, spectrometer, Cherenkov, and shower counter study of magnetic, (E), 22:29614 (DESY-68/14)
form factor from e + p → π^0 + n interactions at threshold, electromagnetic, (E), 25:3244
form factor from quasielastic e + d interactions at q^2 = 18 to 100 fm^{-2}, magnetic, (E), 22:26554
form factor from quasielastic e^- + d interactions, (E), 21:3970(R) (NP-16354)
form factor of, (T), 21:5363 (AD-637210)
form factor of, e + d → e + d interactions at low momentum transfers for neutron-to-proton ratio for electric, (E), 25:12070
form factor of, magnetic, 23:23503
form factors for, meson exchange current contributions to electromagnetic, 21:15296
form factors for, review of, (E/T), 23:49156
form factors for, SU(3) x SU(3) symmetry for, 22:9653
form factors from deuteron electrodisintegration, (E/T), 21:2600 (DESY-66/21)
form factors from deuteron electrodisintegration, low momentum transfer, (T), 21:12088
form factors from diffraction model of p + p and p + n elastic scattering, 22:44383
form factors from e + d → e + d interactions at low momentum transfers, neutron-to-proton ratio for electric, (E), 25:5247 (AD-710385)
form factors from e + d → e + d interactions, (T), 21:13692
form factors from e + d → e + p + n interactions, electromagnetic, (E), 21:46464
form factors from e + d elastic and inelastic scattering, electromagnetic, 22:11611
form factors from e + d quasi-elastic interactions, (E), 22:44357
form factors from e + d, e + t, and e + ^{3}He interactions, electromagnetic, 22:3326
form factors from elastic e + d interactions, electric, (E), 25:50047
form factors from electron inelastic scattering by helium-3 and tritium, (E), 21:2612
form factors from quasi-elastic e + d → e + n + p interactions at q^2 = 0.39 to 0.78 $(GeV/c)^2$, (E), 24:1500
form factors from quasi-elastic e + d interactions at 0.27 to 4.47 $(GeV/c)^2$, (E), 22:50280
form factors from thermal neutron scattering by atomic electrons, electromagnetic, 22:11611
form factors of, 24:15511
form factors of, 24:24284
form factors of, breakdown of scaling law for electromagnetic, 24:18120
form factors of, e + d → e + d interactions for ratio of neutron—proton electric, (E), 25:5246 (AD-709922)
form factors of, electromagnetic, 22:46362
form factors of, electromagnetic, 23:10784
form factors of, electromagnetic, 22:11626
form factors of, from e + n → e + n interactions, 21:29460
form factors of, magnetic spectrometer and scintillation counter study of e + d → e + p + n interactions at momentum transfers 0.39 to 0.78 $(GeV/c)^2$ for, (E), 24:8554 (DESY-69/34)
form factors of, model for electronmagnetic, 24:18122
form factors of, model with linearly rising Regge trajectories for electromagnetic, 24:12971
form factors of, noncompact group SU(2,2) for electromagnetic, 24:12968 (NYO-3829-40)
form factors of, theory and review of, 23:10782
formation near Earth's surface by cosmic radiation, (T), 23:44193(T) (N-69-22324)
generation and transport in SORA, application of TIMOC Monte Carlo code to, 23:15733 (ANS-RPD-1, Paper 5A)
generation time in externally pulsed reactor, GRIPE II computer program for calculating, 21:46942 (IN-1085)
generation time in fast reactors, description of discrete time and discrete state Markov for, (E/T), 22:35545
generation time ratio with delayed neutron fraction in ATR, noise analysis for, 21:18301(R) (IN-1048)
half life of, (T), 22:13127
half-life of free, from n → p + e + $\bar{\nu}$ decay, (E), 25:50054 (RISO-226)
half-life of free, scintillation counter study of, (E), 22:9507
half-life of, production of ultracold neutrons for measuring, (E), 24:1727
hazards of solar-flare, to personnel of supersonic aircraft, 24:23201
heating by, computer program for single-collision model of, 24:37530 (SC-DR-69-318)
imaging methods for, review of progress in, 22:40333
importance function distributions in water moderated reactors, classification scheme for measurements of, (E/T), 25:34436
importance function in fast critical assemblies, (E/T), 24:52961 (KFK-1141)
importance functions in reactors, phase space distribution of, (E/T), 22:18587 (CURL-15)
importance functions in reactors, use of perturbation theory to calculate variations in, 23:52458(T) (JPRS-48331, pp 147-70)
importance in finite one-dimensional lattices, multigroup collision method for calculating, 23:28613
importance measurements in fast reactor test region containing polyethylene test cells, 21:21809
importance spectra of fast reactors, analytic model for, (T), 25:5954
impulse response measurements, pseudo random source excitation technique for, (T), 23:47318 (CNM-R-2(Vol.3), pp 1589-1604)
initial-value problem in coupled-core assembly, method for solution of, (T), 24:20308
intensity at sea level of cosmic, solar diurnal, (E), 22:19804
intensity changes and diurnal variations of cosmic, 21:20791
intensity decrease of cosmic, during magnetic storms, (E), 22:52631
intensity during cosmic-ray bursts, barometric effect of, (T), 22:34314
intensity in atmosphere, cosmic, 21:39846
intensity increase during magnetic storm of Mar. 23-24, 1969, (E/T), 24:51469
intensity increase of cosmic, preceding Forbush decrease, (E), 22:24070
intensity of cosmic, at Chacaltaya, Bolivia during 1968, (E), 23:48756 (AECL-3385)
intensity of cosmic, at sea level and at 260 and 315 millibars, (E), 22:11272
intensity of cosmic, atmospheric oscillations from, (E), 21:642
intensity of cosmic, attenuation coefficients of, (T), 22:5153
intensity of cosmic, Aug. 29 to Sept. 6, 1966 magnetic-storm effects on, 24:12707
intensity of cosmic, barometric coefficient distribution during IQSY as measure of, (E), 22:47852
intensity of cosmic, during magnetic storms, (E), 24:10402
intensity of cosmic, effects of small magnetic storms on diurnal variation of, (E), 25:14074
intensity of cosmic, in atmosphere at 42° latitude, (E), 22:26316
intensity of cosmic, latitude survey in Canada in Dec. 1965, (E), 23:48762
intensity of cosmic, latitude survey in North America during summer 1965, (E), 23:48761
intensity of cosmic, latitude survey in Western USA and Hawaii in summer, 1966, (E), 23:48763
intensity of solar and atmospheric, solar-flare-associated altitude-dependent, (E), 25:33121
intensity variations at Mt. Chacaltaya during 1965—1968, (E), 23:44189 (AD-682341)
intensity variations during cosmic-ray storms, (E), 23:27405
intensity variations during IQSY of cosmic, latitude effects in, (E), 23:48765
intensity variations during polar geomagnetic disturbances, cosmic, 21:29037
intensity variations in cosmic, east—west asymmetry in, (E), 22:21955
intensity variations of cosmic, (E), 23:1224 (AD-671553)
intensity variations of cosmic, annual, (T), 21:31274
intensity variations of cosmic, asymmetric effects in secular, (E), 24:21618
intensity variations of cosmic, at different elevations, diurnal, (E), 24:21623
intensity variations of cosmic, between 20 and 28 hours, 24:17716
intensity variations of cosmic, diurnal, 23:3308
intensity variations of cosmic, effects of meteorological factors on, (E/T), 24:39905
intensity variations of cosmic, effects of solar flares and brightening on, (E), 22:21807
intensity variations of cosmic, for 1966, 21:18470 (AECL-2664)
intensity variations of cosmic, in Eastern USSR during Aug.—Oct. 1966, (E), 22:11270
intensity variations of cosmic, latitude effects on, 21:14993
intensity variations of cosmic, latitudinal distribution of, (E), 22:21954
intensity variations of cosmic, phase jumps of diurnal, (T), 23:46324
intensity variations of cosmic, seasonal changes of solar-diurnal and semidiurnal, 21:39845
intensity variations of cosmic, solar—diurnal, 22:11273
interaction parameters between two cylinder shaped polyethylene disks, (E/T), 24:50255
interactions anti n + n at 6.65 GeV/c, total cross sections for, 25:19907
interactions anti n + n at high energies, asymptotic summation of ladder diagrams for amplitudes of, 21:21208
interactions anti n + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions anti n + n, total cross sections, (E), 25:59275
interactions anti $\bar{\nu}$ + n → Λ + μ^+, U(12) symmetry for total cross section for, 21:33669
interactions anti $\bar{\nu}$ + n → p + μ^-, spin dependence of, (T), 22:11635
interactions anti $\bar{\nu}$ + n → Σ^- + μ^+, U(12) symmetry for total cross section for, 21:33669
interactions anti $\bar{\nu}$ + n, asymptotic equality with $\bar{\nu}$ + n interactions for cross sections for multiple hadron production from, (T), 22:17910 (JINR-P2-3647)
interactions anti $\bar{\nu}$/sub μ/ + n → μ^+ + Σ^- in heavy-liquid bubble chamber, cross sections for, (E), 21:33591 (CERN-67-12)
interactions anti p + n → 2π^- + π^+ + π at rest in deuterium bubble chamber, branching ratios for rho, ω^0, and J = 0 $\pi\pi$(1115) production in, (E), 25:5271
interactions anti p + n → 2π^- + π^+ + π at rest in deuterium bubble chamber, branching ratio for, (E), 25:5271
interactions anti p + n → 2π^- + π^+ + π^0 at 3.5 GeV/c in deuterium bubble chamber, branching ratios for rho and f^0 production and cross sections for, (E), 25:22685
interactions anti p + n → 2π^- + π^+ at 1.0 to 1.6 GeV/c in deuterium bubble chamber, Veneziano model for 3π Dalitz plot structure in, (E/T), 25:3270 (INFN-PD-70/2)
interactions anti p + n → 2π^- + π^+ at 3.5 GeV/c in deuterium bubble chamber, cross sections for, (E), 25:22685
interactions anti p + n → 2π^- + π^+ at rest in deuterium bubble chamber, branching ratio for, (E), 25:5271
interactions anti p + n → 2π^- + π^+ at rest, five-point function in dual model for, (T), 25:59465
interactions anti p + n → 3π at rest, phenomenological validity of amplitude for, 23:46699 (NP-18000)
interactions anti p + n → 3π from πNN and rho$\pi\pi$ coupling constants, 25:1500
interactions anti p + n → 3π, four-point Veneziano amplitude for, 25:33700
interactions anti p + n → 3π, phenomenological consequences of amplitude for, 23:44651
interactions anti p + n → 3π^- + 2π^+ + π^0 at rest in deuterium bubble chamber, production of ω^0 and branching ratio for, (E), 25:14553
interactions anti p + n → 3π^- + 2π^+ at rest in deuterium bubble chamber, production of rho^0 and branching ratio for, (E), 25:14553
interactions anti p + n → anti K^0 + K + π + π at 1.6 to 2.0 GeV/c, evidence for U(2360) production in, (E), 24:30442
interactions anti p + n → anti p + n + π^+ + π^- at 2.8 GeV/c in bubble chamber, OPE model for Δ(1236) production in, (E), 24:45420
interactions anti p + n → anti p + n at 3.5 GeV/c in bubble chamber, differential and total cross sections for, (E), 25:9649

interactions anti p + n → anti p + n at high energies and fixed momentum transfer, asymptotic expansion of amplitudes for polarization in, 22:37143
interactions anti p + n → anti p + n at high energies and small angles, Regge pole eikonal theory for differential cross sections for, 24:10777 (SU-1206-211)
interactions anti p + n → anti p + p + π^- + π^0 at 2.8 GeV/c in bubble chamber, OPE model for Δ(1236) production in, (E), 24:45420
interactions anti p + n → anti p + p + π^- at 1.96 GeV/c, production of N* in, (E/T), 21:33696
interactions anti p + n → anti p + p + π^- at 5.5 GeV/c, cross section for, (E), 24:45419
interactions anti p + n → Δ(1236) + p at 28 GeV/c, differential cross sections and decay angular distributions for, (E/T), 22:3261
interactions anti p + n → K + anti K + π + π + π at rest in deuterium bubble chamber, analysis of, 23:46608
interactions anti p + n → K + anti K + π + π at rest in deuterium bubble chamber, analysis of, 23:46608
interactions anti p + n → K + anti K + π at rest in deuterium bubble chamber, analysis of, (E), 23:46608
interactions anti p + n → K + anti K + π at rest in deuterium bubble chamber, multiple final-state interaction model for analysis of, (E), 24:1508
interactions anti p + n → K + anti K + π at rest, four-point Veneziano functions for mass spectra and angular distributions for, (T), 25:14691
interactions anti p + n → n + anti p, dispersion theoretic calculation of two-π exchange effects on amplitude of forward, 22:39383
interactions anti p + n → ω + 2π^- + π^+ at rest in deuterium bubble chamber, upper limit on ω → π^+ + π^- decay rate from, (E), 25:3269
interactions anti p + n → ω + π^- + π^0 at rest in deuterium bubble chamber, upper limit on ω → π^+ + π^- decay rate from, (E), 25:3269
interactions anti p + n → ω + π^- at rest in deuterium bubble chamber, upper limit on ω → π^+ + π^- decay rate from, (E), 25:3269
interactions anti p + n → π^0 + π^0 + π^-, Veneziano-type parametrization of, 23:46701
interactions anti p + n → π^+ + 2π^- + π^0 at 5.5 GeV/c in deuterium bubble chamber, cross sections and rate for single rho production and upper limit for double rho production in, (E), 25:59276
interactions anti p + n → π^+ + 2π^- at 1.0 to 1.6 GeV/c in deuterium bubble chamber, cross sections and Veneziano model for mass and angular distributions in, (E/T), 25:14548
interactions anti p + n → π^+ + 2π^-, mass and width of rho' in rising phase shift model for, (T), 25:56485 (ORO-3992-66)
interactions anti p + n → π^+ + 2π^-, rising phase shift model for daughters in, (T), 24:37761
interactions anti p + n → π^+ + π^- + π^- + π^0 at rest, final-state mass distribution and resonance production in annihilation, (E), 23:10748
interactions anti p + n → π^- + π^- + π^+ at rest in deuterium bubble chamber, analysis of final state in, (E), 22:17863
interactions anti p + n → π^+ + π^- + π^-, crossing-symmetric Regge-pole model for, 24:28546
interactions anti p + n → π^- + π^- + π^+, dual formula for hole structure in Dalitz plot for, 25:9770
interactions anti p + n → π^+ + π^- + π^-, extension of Veneziano amplitude to, 24:30509 (CONF-690521-, pp 750-8)
interactions anti p + n → π^- + π^- + π^+, mass extrapolation using dual amplitudes in Veneziano model for, 24:1578
interactions anti p + n → π^+ + π^- + π^-, Regge theory for final-state interactions in, (T), 23:8801
interactions anti p + n → π^+ + π^- + π^-, resonance extinction and the effects of driving forces in final state of, (T), 24:10747
interactions anti p + n → π^+ + π^- + π^-, Veneziano model results from isobaric model for, 24:3642
interactions anti p + n → π^+ + π^- + π^-, Veneziano-type parametrization of, 23:46701
interactions anti p + n → W^- → l + anti τ, effects of form factors and polarization on differential and total cross sections of, (T), 22:39388
interactions anti p + n above 2 GeV/c, effect of charge-exchange mechanism on cross sections for, 21:29570
interactions anti p + n at 0.05 to 6.1 GeV, multiplicity distributions of secondaries from, (E), 23:49057
interactions anti p + n at 0.3 to 2.0 GeV/c, s and t channel effects in elastic, 22:50385
interactions anti p + n at 1.23 to 1.65 GeV/c, comparison of dip-bump structure in elastic, 22:50376
interactions anti p + n at 1.25 to 1.67 GeV/c in deuterium bubble chamber, cross sections for hadron production in, (E), 25:14550
interactions anti p + n at 1.50 to 2.00 GeV/c, review of U(2370) production in, (E), 25:17390
interactions anti p + n at 20 to 65 GeV/c, 24:5258
interactions anti p + n at 3 GeV/c in emulsions, cross sections for, (E), 23:5531
interactions anti p + n at 3.5 GeV/c in deuterium bubble chamber, differential cross sections for elastic, (E), 24:30512
interactions anti p + n at 3.5 GeV/c, differential cross section for elastic, (E), 25:3267
interactions anti p + n at high energies, cross sections for elastic, (E), 22:17858
interactions anti p + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions anti p + n at high energies, quark-droplet model for, (E/T), 21:924
interactions anti p + n at rest in deuterium, π, rho, ω, and f^0 production in, (E), 21:15263
interactions anti p + n at rest, quark rearrangement model for annihilation, 21:27360
interactions anti p + n at rest, review on, 23:13085 (ANL/HEP-6812, pp 17-57)
interactions anti p + n at rest, statistical model with SU(3) symmetry for multiple particle production in, 22:32139
interactions anti p + n at rest, SU(3) symmetry for multiple particle production in, 22:41805 (JINR-P2-3879)
interactions anti p + n at rest, tests of SU(6)/sub W/ and SU(3) predictions for annihilation, 22:22390
interactions anti p + n at rest, unitary-symmetrical statistical model for multiple particle production from annihilation, 21:21212 (JINR-P2-3182)
interactions anti p + n in quark model, SU(3) violation in, 24:49464
interactions anti p + n, compilation of cross section variation with incident momentum for, (E), 25:38647 (CERN-HERA-70-3)
interactions anti p + n, current algebra and Regge pole theory for, 21:29522
interactions anti p + n, differential cross sections for elastic, (E), 23:10817
interactions anti p + n, dynamics of, (E), 21:23314 (BNL-994, pp 70-102)
interactions anti p + n, π elementarity in elastic unitarity model for, 22:1428
interactions anti p + n, Regge pole fits to cross sections for, 23:15095
interactions anti p + n, review on, 23:39710
interactions anti p + n, selection rules for, 21:11770
interactions anti p + n, theory of linearly rising trajectories for annihilation, 25:9769
interactions anti p + n, total and elastic cross sections for, 23:23356
interactions at 3.0 to 7.0 GeV/c with large momentum transfer, review of two-body, (E), 22:39268 (CERN-68-7(Vol.1), pp 252-89)
interactions α + n, coupled-channel Schroedinger equation model and phase shifts for, 22:24689
interactions d + n → (nn) + p at 2 to 160 MeV, three-body separable potential for, 25:59510
interactions e + n → e + n, form factors of neutrons from, 21:29460
interactions e + n at very high energies, neutron internal structure determination from, (E/T), 25:36445
interactions e + n in deuterium at 0.27 to 4.47 (GeV/c)$^{-1}$, ratio of e + p interactions to inelastic, (E), 23:42531
interactions e + n in e + d interactions at high energies, cross sections for Δ(1236) production in, (E), 25:56405 (DESY-71/33)
interactions e + n in e + d interactions at high energies, cross sections for inelastic, (E), 25:56405 (DESY-71/33)
interactions e + n, (n - p) mass difference from, (T), 21:29478
interactions e + n, magnetic spectrometer and scintillation counter study of cross sections for, (E), 24:8554 (DESY-69/34)
interactions e + n, parton and quark models for deep inelastic, (T), 25:3310 (DESY-70/50)
interactions e + n, review of neutron electromagnetic properties from, (E), 24:15581 (JINR-P3-4783)
interactions e + n, scattering length and effective potential for, (E), 21:23534(R) (ANL-7246)
interactions e^- + n at low energy, (E), 22:5809(R) (ANL-7354)
interactions e^- + n, form factors from, (E), 21:5348
interactions eta + n → eta + n, scattering length for, (T), 22:22401
interactions γ + n → Δ^0 + π^0 at high energies, models for, (T), 25:27990
interactions γ + n → eta + n at high energies, poles anc cuts in model for, 24:21953 (ITF-70-2)
interactions γ + N → eta(π^0) + N, vector dominance in Regge pole model with SU(3) for, 23:42608
interactions γ + n → eta^0 + n at high energies and small momentum transfers, poles, cuts, and SU(3) symmetry for, 24:21952 (ITF-70-1)
interactions γ + n → γ + n, lower bounds for amplitude of forward Compton, (T), 24:26403
interactions γ + n → γ + n, quark model extension for total and differential cross sections for, (T), 25:59378
interactions γ + n → K^0 + Λ^0 at 1.1 to 1.5 GeV/c in heavy-liquid bubble chamber, cross sections and quark model predictions for, 21:35251
interactions γ + n → K^0 + $\Lambda^0(\Sigma^0)$ below 1.530 GeV in heavy liquid bubble chamber, upper limits for, (E), 22:3245
interactions γ + n → K^0 + $\Lambda^0(\Sigma^0)$ below 1500 MeV in heavy-liquid bubble chamber, upper limits on cross sections for, 21:33588
interactions γ + n → K^0 + Σ^0 at 1.1 to 1.5 GeV in heavy-liquid bubble chamber, cross sections and quark model predictions for, 21:35251
interactions γ + n → K^+ + Σ^- at 11 GeV, cross sections for, (E), 25:25285
interactions γ + n → K^+ + Σ^-(1385) at 11 GeV, cross sections for, (E), 25:25285
interactions γ + n → Λ + K^0 near threshold, cross sections for, (T), 23:7110
interactions γ + n → n + eta at high energies, pole—cut model for, (T), 25:27989
interactions γ + n → n + π^0 at 540 to 830 MeV, analysis of, (E/T), 25:53088
interactions γ + n → n + π^0, angular distributions for, (T), 24:28520
interactions γ + n → n + π^0, current commutators, low-energy theorems, and minimal coupling for π^0 production from, 21:42297
interactions γ + n → n + π^0, low-energy theorems for, 25:9721
interactions γ + n → n + π^+ + π^- + π^- at 4.3 GeV, total and resonance production cross sections for, (E), 25:14521
interactions γ + n → n + π^+ + π^- below 900 MeV in deuterium bubble chamber, total cross sections for, (E), 24:24218
interactions γ + n → ω^0 (rho^0) + Δ^0 at 4.3 GeV in bubble chamber, width of (rho $\pi\gamma$) from upper limit of cross sections for, (E), 24:49301
interactions γ + n → p + π^+ + π^0 below 900 MeV in deuterium bubble chamber, total cross sections for, (E), 24:24218
interactions γ + n → p + π^- + π^0, proposed test for isotensor current from, (E/T), 24:49368 (NYO-4076-8)
interactions γ + n → p + π^- + π^0, test for presence of isotensor current from, 24:49391
interactions γ + n → p + π^+ + π^- + π^- + π^0 at 4.3 GeV, total and resonance production cross sections for, (E), 25:14521
interactions γ + n → p + π^+ + π^- + π^- at 4.3 GeV, total and resonance production cross sections for, (E), 25:14521
interactions γ + n → p + π^+ + π^- + π^-, kinematic-ambiguity-free test for A_1 and B production in, (T), 23:16955
interactions γ + n → p + π^- at 0.2 to 2.0 GeV, total and differential cross sections for, (E), 23:13024
interactions γ + n → p + π^- at 1 GeV in deuterium bubble chamber, total and differential cross sections for, (E), 24:35594 (LNF-70/16)
interactions γ + n → p + π^- at 1 GeV, total and differential cross sections for, (E), 24:35597
interactions γ + n → p + π^- at 250 MeV in nuclei, magnetic spectrometer study of meson (π^-) yield from, (E), 24:18066
interactions γ + n → p + π^- at 352 to 550 MeV, differential asymmetry ratios with polarized photons in, (E), 22:52918
interactions γ + n → p + π^- at 500 to 800 MeV, differential cross sections for π^- production in, (E), 23:5511 (NP-17682)
interactions γ + n → p + π^- at 515 to 714 MeV, plastic scintillation counter and spark chamber study of recoil proton polarization in, (E), 24:42866
interactions γ + n → p + π^- at 540 to 830 MeV, analysis of, (E/T), 25:53088
interactions γ + n → p + π^- at high energies, isotopic structure of N* decay amplitudes from, (T), 25:27990
interactions γ + n → p + π^- at high energies, translation of symmetry properties of helicity amplitudes for polarization in, (E/T), 23:46656
interactions γ + n → p + π^- in first resonance region, parameters for, 23:18850
interactions γ + n → p + π^- in second resonance region, phenomenological analysis of, 24:28520
interactions γ + n → p + π^-, current commutators, low-energy theorems, and minimal coupling for π^- production from, 21:42297
interactions γ + n → p + π^-, isotopic structure of isospin-1/2 N* photoexcitation amplitudes from comparison of proton polarization in γ + p → p + π^0 interactions and, (T), 24:6681
interactions γ + n → p + π^-, low-energy theorems for, 25:9721
interactions γ + n → p + π^-, Regge pole model for invariant functions for differential cross sections of, 24:3565
interactions γ + n → p + π^-, Regge pole model for invariant functions for, 23:51952
interactions γ + n → p + π^-, Regge-pole model for, 23:49088
interactions γ + n → p + π^-, review of coupling parameters for, (E/T), 25:30797
interactions γ + n → p + π^-, test for existence of isotensor electromagnetic current from, (T), 25:19956
interactions γ + n → p + rho$^-$, OPE amplitude and rho$\pi\gamma$ coupling constants from, 25:27990
interactions γ + n → p + rho$^-$, relation of electromagnetic moments of charged rho to, 25:30799
interactions γ + n → π^0 + n at 300 to 850 MeV in first and second resonance region, (T), 21:46520
interactions γ + n → π^0 + n at 4 GeV, cross sections relative to γ + p → π^0 + p interactions, (E), 25:59243
interactions γ + n → π^0 + n at 500 to 900 MeV, Cherenkov detector—spark chamber study of amplitudes for, 24:20272(R) (NP-18091)
interactions γ + n → π^0 + n at 500 to 900 MeV, differential cross sections for, (E), 24:35598
interactions γ + n → π^0 + n at high energies and small momentum transfers, poles, cuts, and SU(3) symmetry for, 24:21952 (ITF-70-1)
interactions γ + n → π^0 + n at high energies, model for, 23:32658
interactions γ + n → π^0 + n at high energies, peripheral model predictions for cross sections of, 23:51878 (DESY-69/31)
interactions γ + n → π^0 + n in symmetric quark model, baryon resonance contribution to differential cross sections for, 23:27779
interactions γ + n → π^0 + n near N(1518) resonance, scintillation and Cherenkov counter study of, (E), 25:1374
interactions γ + n → π^0 + n, differential cross sections at threshold for, 23:39648
interactions γ + n → π^0 + n, peripheral model predictions for cross sections for, 24:1553
interactions γ + n → π^0 + n, quark model calculations of resonance contributions to cross sections for, (T), 24:3580
interactions γ + n → π^0 + n, Regge pole absorption theory for dip structure mechanism for ratio of π^0 production in γ + p → π^0 + p interactions to π^0 production in, (T), 25:53185
interactions γ + n → π^0 + n, Reggeized absorption model fits to, 25:56458
interactions γ + n → $\pi^0(\pi^-)$ + n(p) at 800 to 1200 MeV, amplitude relations of π + N → π(eta) + N interactions with γ + N interactions for angular distribution predictions for, 24:3591
interactions γ + n → π^+ + Δ^-, vector dominance model predictions for Δ(1236) production in, 23:51899

interactions $\gamma + n \rightarrow \pi^+ + N^*$, peripheral model for test of vector dominance in, 24:52012
interactions $\gamma + n \rightarrow \pi^+ + p$ at 180 to 420 MeV, multipole analysis of, 25:45705
interactions $\gamma + n \rightarrow \pi^- + p$ at 2.6 to 6 GeV in deuterium bubble chamber, (E), 22:34827 (DESY-68/22)
interactions $\gamma + n \rightarrow \pi^- + p$ at 3 GeV/c, violation of quark model sum rules in, (T), 22:22363
interactions $\gamma + n \rightarrow \pi^- + p$ at 3.4 GeV, generalized Veneziano model for, 25:33636
interactions $\gamma + n \rightarrow \pi^- + p$ at 3.4 GeV, π^- production amplitudes in, (E/T), 23:13020
interactions $\gamma + n \rightarrow \pi^- + p$ at 3.4 GeV, test of vector dominance model from, (E), 23:5514
interactions $\gamma + n \rightarrow \pi^- + p$ at 300 to 1200 MeV, differential cross sections for, (E), 25:30774 (INSJ-126)
interactions $\gamma + n \rightarrow \pi^- + p$ at 300 to 1200 MeV, differential cross sections for, (E), 25:40859
interactions $\gamma + n \rightarrow \pi^- + p$ at 357 to 555 MeV, production asymmetry in, (E), 24:37603
interactions $\gamma + n \rightarrow \pi^- + p$ at 500 to 800 MeV in deuterium, proposal for scintillation counter study of cross sections for, (E), 22:37069 (NP-17458)
interactions $\gamma + n \rightarrow \pi^- + p$ at 550 to 900 MeV, spark chamber and scintillation counter telescope study of γ reactions (γ,π^-p) with carbon-12 for proton polarization in, (E), 25:38635
interactions $\gamma + n \rightarrow \pi^- + p$ at 600 to 1250 MeV, spectrometer study of N^* production and differential cross sections for, (E), 24:26358
interactions $\gamma + n \rightarrow \pi^- + p$ at high energies, predictions for target asymmetry in, (T), 25:47775 (DESY-71/27)
interactions $\gamma + n \rightarrow \pi^- + p$ at high energies, review on, 23:27767 (SLAC-PUB-589)
interactions $\gamma + n \rightarrow \pi^- + p$ below 500 MeV, differential cross sections, asymmetry ratios, and recoil-nucleon polarization for, (T), 24:37682
interactions $\gamma + n \rightarrow \pi^- + p$ in symmetric quark model, baryon resonance contribution to differential cross section for, 23:27779
interactions $\gamma + n \rightarrow \pi^- + p$ in Veneziano model, cross sections for, 25:9717
interactions $\gamma + n \rightarrow \pi^- + p$ to 1.2 GeV, helicity-amplitude formalism for analysis of, (E/T), 23:42617
interactions $\gamma + n \rightarrow \pi^- + p$ using polarized γ, discrepancy between vector dominance model and π production in, (T), 23:15017
interactions $\gamma + n \rightarrow \pi^- + p$, angular distributions and differential cross sections of $\pi^- + p \rightarrow \gamma + n$ interactions at 1245 and 1337 MeV for test of predictions for, (E), 25:14567
interactions $\gamma + n \rightarrow \pi^- + p$, C-invariance violation in, 25:33792
interactions $\gamma + n \rightarrow \pi^- + p$, current algebra for divergence in, 21:42298
interactions $\gamma + n \rightarrow \pi^- + p$, differential cross sections at threshold for, (T), 23:39648
interactions $\gamma + n \rightarrow \pi^- + p$, differential cross sections of $\pi^- + p \rightarrow \gamma + n$ interactions at 490 MeV/c for Roper resonance production in, (E), 23:49027 (UCLA-34-P-106-42)
interactions $\gamma + n \rightarrow \pi^- + p$, dispersion theory model for analysis of exotic currents in, 25:40934
interactions $\gamma + n \rightarrow \pi^- + p$, octet assignment for N(1470) production in, (E), 24:10657
interactions $\gamma + n \rightarrow \pi^- + p$, production asymmetry for mesons (π^-) in, 23:10961(R) (NP-17704)
interactions $\gamma + n \rightarrow \pi^- + p$, π^-/π^+ cross section ratio in $\gamma + d \rightarrow \pi^-(\pi^+) + 2p(2n)$ interactions at 600 to 1700 MeV for cross sections of, (E), 25:14523
interactions $\gamma + n \rightarrow \pi^- + p$, quark model calculations of resonance contributions to cross sections for, (T), 24:3580
interactions $\gamma + n \rightarrow \pi^- + p$, Regge exchange models for relations among residue functions and differential cross sections for, (T), 25:1461
interactions $\gamma + n \rightarrow \pi^- + p$, Regge pole model for, 21:21165
interactions $\gamma + n \rightarrow \pi^- + p$, Regge pole model with diffractive correction for cross section ratios with $\gamma + p \rightarrow \pi^+ + n$ interactions, 24:1549
interactions $\gamma + n \rightarrow \pi^- + p$, review of experimental data on, 23:10734 (SLAC-PUB-501)
interactions $\gamma + n \rightarrow \pi^- + p$, review of experiments and theory for, 22:11609 (NP-17221)
interactions $\gamma + n \rightarrow \pi^- + p$, review of N^* production in, (E/T), 23:49085
interactions $\gamma + n \rightarrow \pi^- + p$, strong absorptive Regge-cut model for, (T), 25:7597
interactions $\gamma + n \rightarrow \pi^- + p$, time reversal noninvariance in, (T), 25:41046
interactions $\gamma + n \rightarrow \pi^- + p$, vector dominance and quark model relation for polarization in, 22:41769 (DESY-68/33)
interactions $\gamma + n \rightarrow \pi^- + p$, vector dominance discrepancy in relation with $\pi^- + p \rightarrow rho^0 + n$ interactions for, 23:23408
interactions $\gamma + n \rightarrow \pi^- + p$, vector meson dominance in, 24:18137
interactions $\gamma + n \rightarrow \pi^- + p$, Veneziano model for cross sections, asymmetry ratios, and baryon residues in, (T), 25:40926
interactions $\gamma + n \rightarrow \pi^-(\pi^+) + p(n)$ below 1 GeV, review of, (E/T), 23:39598
interactions $\gamma + n \rightarrow rho^- + p$ at threshold to 3.0 GeV, one-vector-meson-exchange model for rho^- electromagnetic moments and cross sections for, 24:12995
interactions $\gamma + n \rightarrow rho^- + p$, rho-exchange contribution to differential cross sections for, 25:59385
interactions $\gamma + n \rightarrow rho^- + p$, vector meson exchange and rho^- magnetic dipole and electric quadrupole moments for, (T), 23:42594
interactions $\gamma + n \rightarrow \Sigma + K$ near threshold, cross sections for, (T), 23:7110
interactions $\gamma + n \rightarrow$ vector mesons + n, test of tensor meson dominance in SU(3)-symmetry breaking from, 25:33607
interactions $\gamma + n$ above 1.2 GeV, data compilation on cross sections for hadron production in, (E), 25:12066 (DESY-HERA-70-1)
interactions $\gamma + n$ above 2 GeV, review of, 24:21963
interactions $\gamma + n$ at 0.7 to 12 GeV in deuterium bubble chamber, isovector—isoscalar interference from partial cross sections for, (E), 25:14519
interactions $\gamma + n$ at 1.15 to 6.25 GeV, scintillation counter study of total cross sections for hadron production from, (E), 24:51890
interactions $\gamma + n$ in e + d interactions at high energies, cross sections for particle production in, (E), 25:56405 (DESY-71/33)
interactions $\gamma + n$ near threshold, π^0 production in, 22:20182
interactions $\gamma + n$, dip structure in π^0 production relative to $\gamma + p$ interactions, (T), 24:35662
interactions $\gamma + n$, fits to differential cross sections for π production in, 25:9727
interactions $\gamma + n$, review of vector dominance model for hadron production in, 23:27764 (DESY-69/10)
interactions $\gamma + n$, scintillation counter study of $\gamma + p$ and $\gamma + d$ interactions at 1.0 to 6.4 GeV for total cross sections of, (E), 24:40226 (DESY-70/17)
interactions $\gamma + n$, total cross sections for $\gamma + p$ and $\gamma + d$ interactions at 3.7 to 17.9 GeV for total cross sections of, (E), 24:45410
interactions in 3n system from $\pi^- + He^3 \rightarrow \pi^+ + 3n$, (E), 24:49703
interactions in lunar surface by cosmic-ray produced, prompt photon spectrum from, (T), 22:15382 (ORNL-TM-2100)
interactions in magnetic fields, bound states in, (T), 21:27511
interactions in matter, quantum-mechanical calculations using field-theoretical formalism, 21:17406
interactions in meson (π^-) reactions with helium-4 at 140 MeV, final-state, (E), 21:42552 (UCRL-17605)
interactions in nuclear emulsions, production of stars, (E), 22:15383
interactions in nuclei, scattering length for, (T), 22:22627
interactions in polyethylene at 0.001 to 1.0 eV, total cross section for, (T), 24:6813
interactions K + n at high energies, 36-plet 2^+ meson exchange for total cross section for, 22:5626
interactions K + n, experimental tests of SU(3) predictions for, (T), 22:7544 (ORO-2504-112)
interactions K + n, three-quark corrections to quark model for deviations from exact exchange degeneracy for total cross sections of, (T), 24:10770
interactions $K^0 + n \rightarrow \Delta^0(1246)$ + eta, $\Delta T = 1/2$ rule for, 21:33703
interactions $K^+ + n \rightarrow p(n) + K^*(K^0) + \pi^-(\pi^+)$ at 9.0 GeV/c in deuterium bubble chamber, production of $K\pi(1750)$ in, (E), 25:43546 (COO-1428-279)
interactions $K^- + (pn) \rightarrow A^0 + n$ in light nuclei, pair absorption model for, 22:29721
interactions $K^- + (pn) \rightarrow \Sigma^- + p$ in light nuclei, pair absorption model for, 22:29721
interactions $K^- + n \rightarrow A_2^- + A$, $A_2 \rightarrow$ rho + π mass spectra from, 24:37763
interactions $K^- + n \rightarrow$ anti $K^0 + \Delta^-$ and $K^+ + p \rightarrow K^0 + \Delta^{++}$ at 3 to 5 GeV/c, test of (rho,A_2) exchange degeneracy in, (E/T), 24:51966
interactions $K^- + n \rightarrow$ anti $K^0 + N^{*-}$ at 3 GeV/c, production and decay characteristics of $K^*(895)$ and $\Delta(1236)$ from, (E), 24:49329
interactions $K^- + n \rightarrow$ anti $K^0 + N^{*-}$ at 3 GeV/c, production and decay of N^{*-} in, (E), 24:15483
interactions $K^- + n \rightarrow$ anti $K^0 + \pi^- + n$ at 4.5 GeV/c in deuterium bubble chamber, production and decay angular distributions of $K^*(890)$ in, (E), 23:42575
interactions $K^- + n \rightarrow$ anti $K^0 + \pi^- + n$ with crossing and charge symmetry, generalized Veneziano model for, 25:1545
interactions $K^- + n \rightarrow$ delta$^-$ + A at 4.5 GeV/c in deuterium bubble chamber, delta$^-$ spin and parity from, (E), 24:18086
interactions $K^+ + n \rightarrow \Delta^+(1246)$ + eta, $\Delta T = 1/2$ rule for, 21:33703
interactions $K^- + n \rightarrow$ eta + $\Sigma^-(1385)$ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow$ hyperon + vector meson at 3 GeV/c, violation of quark model prediction for, (E/T), 25:47891
interactions $K^+ + n \rightarrow K^{*0} + p$ at 2 to 13 GeV/c, Regge-pole analysis of, 23:25622
interactions $K^+ + n \rightarrow K^{*0} + p$ at high energies, quark model predictions for, 23:21106
interactions $K^- + n \rightarrow K^{*-} + n$ at 3 GeV/c, production and decay of $K^*(895)$ in, (E), 24:15483
interactions $K^- + n \rightarrow K^{*-} + n$ at 3 GeV/c, production and decay characteristics of $K^*(895)$ from, (E), 24:49329
interactions $K^- + n \rightarrow K^{*-} + \pi^- + p$ at 4.5 GeV/c in generalized Veneziano model, (E/T), 25:1424
interactions $K^+ + n \rightarrow K^0 + p$ above, cut-corrected exchange degeneracy for, 25:45762
interactions $K^+ + n \rightarrow K^0 + p$ and $K^- + p \rightarrow$ anti $K^0 + n$ at 1 to 5.5 GeV/c, test of rhoA_2 exchange degeneracy, duality, and secondary trajectories from, (E/T), 24:5306
interactions $K^+ + n \rightarrow K^0 + p$ at 0.97 GeV/c in spark chamber with beryllium targets, angular distributions for, (E), 22:50308
interactions $K^+ + n \rightarrow K^0 + p$ at 0.97 GeV/c, angular distribution from, (E), 21:2373 (PPAD-598-F)
interactions $K^+ + n \rightarrow K^0 + p$ at 1.5 to 4 GeV/c, overlap of t and u exchanges in backward, (E/T), 23:44661
interactions $K^+ + n \rightarrow K^0 + p$ at 1.585 GeV/c in deuterium bubble chamber, differential cross sections and amplitude of, (E), 25:33555 (UCRL-20628)
interactions $K^+ + n \rightarrow K^0 + p$ at 12 GeV/c in deuterium bubble chamber, differential cross sections for, (E), 24:49338
interactions $K^+ + n \rightarrow K^0 + p$ at 2.27 GeV/c, differential cross sections for, 21:29570
interactions $K^+ + n \rightarrow K^0 + p$ at 2.3 GeV/c, exchange of rho' trajectory in, 22:3445
interactions $K^+ + n \rightarrow K^0 + p$ at 2.3 GeV/c, rho' Regge trajectory for, 21:35307 (UCRL-17572)
interactions $K^+ + n \rightarrow K^0 + p$ at 2.3 GeV/c, rho' Regge trajectory for, 22:39413
interactions $K^+ + n \rightarrow K^0 + p$ at 270 MeV in nuclear emulsions, angular distributions for, 25:53034
interactions $K^+ + n \rightarrow K^0 + p$ at 3 GeV/c in deuterium bubble chamber, cross sections for, (E), 22:50304
interactions $K^+ + n \rightarrow K^0 + p$ at 3 GeV/c, violation of quark model sum rule in, 22:22363
interactions $K^+ + n \rightarrow K^0 + p$ at 3.0 GeV/c and 5.5 GeV/c, comparison of quark model and experimental cross sections for, 23:36928 (INR-P-1047)
interactions $K^+ + n \rightarrow K^0 + p$ at 5.5 GeV/c, Regge analysis of, (E/T), 25:56506
interactions $K^+ + n \rightarrow K^0 + p$ at 5.5 GeV/c, Reggeized U(6) x U(6) x O(3) and absorptive correction cuts for, 24:28556
interactions $K^+ + n \rightarrow K^0 + p$ at 600 MeV/c in deuterium bubble chamber, K + N phase shifts from K^0 angular distribution and p polarization in, (E), 25:36417
interactions $K^+ + n \rightarrow K^0 + p$ at 865 to 1585 MeV/c, cross sections and angular distributions for, 25:40896
interactions $K^+ + n \rightarrow K^0 + p$ at high energies in O(3, 1) symmetry, differential cross sections for, 23:21105
interactions $K^+ + n \rightarrow K^0 + p$ at high energies, charge exchange in, (E), 21:9701
interactions $K^+ + n \rightarrow K^0 + p$ at high energies, Regge pole theory for, 21:29541
interactions $K^+ + n \rightarrow K^0 + p$ at low-, intermediate, and high energies, Veneziano model for, 25:7656 (IFT-70/5)
interactions $K^+ + n \rightarrow K^0 + p$ below 20 GeV/c, rho' Regge trajectory predictions for, 22:39413
interactions $K^+ + n \rightarrow K^0 + p$ near 600 MeV/c in deuterium bubble chamber, meson (K^*) angular distribution and proton polarization from, (E), 24:6692
interactions $K^+ + n \rightarrow K^0 + p$ on beryllium-9 in spark chamber at 0.970 GeV/c, angular distribution and total cross section for, (E), 22:11598
interactions $K^+ + n \rightarrow K^0 + p$, complex angular momentum method with j-plane branch points for, (E/T), 24:45427 (ITEF-754)
interactions $K^+ + n \rightarrow K^0 + p$, complex angular momentum method with Regge cut contribution to, (E/T), 24:52098
interactions $K^+ + n \rightarrow K^0 + p$, cross sections for, (E), 23:10817
interactions $K^+ + n \rightarrow K^0 + p$, dispersion relation predictions for forward charge-exchange amplitudes of, 21:31601
interactions $K^+ + n \rightarrow K^0 + p$, exchange degeneracy in, (E/T), 24:52092
interactions $K^+ + n \rightarrow K^0 + p$, generalized Veneziano model for, (E/T), 25:1537
interactions $K^+ + n \rightarrow K^0 + p$, Pomeranchon contributions to amplitudes for, 24:13109
interactions $K^+ + n \rightarrow K^0 + p$, quark model predictions for, (E/T), 24:1595
interactions $K^+ + n \rightarrow K^0 + p$, real to imaginary ratio of forward amplitude of, 22:29707
interactions $K^+ + n \rightarrow K^0 + p$, Regge cuts in exchange degenerate trajectories for, 24:3673
interactions $K^+ + n \rightarrow K^0 + p$, Regge quark model for, (T), 25:25450
interactions $K^+ + n \rightarrow K^0 + p$, Regge-pole model with cuts for, (T), 24:49501
interactions $K^+ + n \rightarrow K^0 + p$, secondary Regge contributions in, 25:56508
interactions $K^+ + n \rightarrow K^0 + p$, SU(3) predictions for, 22:46490
interactions $K^+ + n \rightarrow K^0 + p$, test of Regge-pole theory from cross-section relations for, 22:24655
interactions $K^- + n \rightarrow K^0 + \pi^- + n$ interactions at 1.65 GeV/c in deuterium bubble chamber, $K^-(890)$ and $\Delta^0(1236)$ production in, (E), 25:40899
interactions $K^+ + n \rightarrow K^0 + \pi^+ + n$ with crossing and charge symmetry, generalized Veneziano model for, 25:1545
interactions $K^+ + n \rightarrow K^0 + \pi^- + p + \pi^+$ at 9 GeV/c in deuterium bubble chamber, cross sections and K(1758), K(1800), K(2007), and K(2145) production in, (E), 25:47740 (COO-1428-292)
interactions $K^+ + n \rightarrow K^0 + \pi^+ + \pi^- + p$ at 12 GeV/c in deuterium bubble chamber, $K^*(1420)$ production in, (E), 25:1413 (UCRL-20076)
interactions $K^- + n \rightarrow K_1^0 + \pi^- + n$ at 3.9 GeV/c, production of $I = {}^1/_2$ $K\pi(1160)$ enhancement in, (E), 23:16937
interactions $K^- + n \rightarrow K^- + n$ at 1 GeV, cross sections and angular distributions for, (E), 25:38662 (NP-18891)
interactions $K^- + n \rightarrow K^-$ + n at 1860 to 2150 MeV, elasticity of $\Sigma(2030)$ from partial-wave analyses of, (E), 25:9681
interactions $K^+ + n \rightarrow K^+ + n$ at 270 MeV in nuclear emulsions, angular distributions for, 25:53034
interactions $K^- + n \rightarrow K^- + n$ at 3 GeV/c in deuterium bubble chamber, differential cross sections for definite isospin state production in, (E/T), 24:21942
interactions $K^- + n \rightarrow K^- + n$ at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions $K^+ + n \rightarrow K^+ + n$ at 6 to 18 GeV/c, multiple-Regge-pole model for analysis of, 22:50399
interactions $K^- + n \rightarrow K^- + n$ at high energies, constancy of total cross sections for, (T), 25:12210

interactions $K^+ + n \rightarrow K^+ + n$ at high energies, Regge-pole eikonal theory of small-angle, 23:25639
interactions $K^- + n \rightarrow K^- + n$ at high energies, Regge-pole eikonal theory of small-angle, 23:25639
interactions $K^- + n \rightarrow K^- + n$ at high finite energies, Regge pole theory and exchange degeneracy for phases with $K^+ + p \rightarrow K^+ + p$ and $K^- + p \rightarrow K^- + p$ interactions for, 24:10755
interactions $K^- + n \rightarrow K^- + n$ from angular distributions for $K^- + d \rightarrow K^- + d(p + n)$ interactions at 810 to 1110 MeV/c, (E), 25:12108
interactions $K^- + n \rightarrow K^- + n$ from $K^- + d \rightarrow K^- + d$ and $K^- + d \rightarrow K^- + p + n$ interactions at 0.81 to 1.11 GeV/c, (E/T), 24:30460 (UCRL-19359(Add.))
interactions $K^- + n \rightarrow K^- + n$, angular distributions from $K^- + d \rightarrow K^- + d(n + p)$ interactions in bubble chamber for amplitude of, (E), 24:8568 (UCRL-19359)
interactions $K^+ + n \rightarrow K^+ + \pi^- + p$ and $K^+ + n \rightarrow K^+ + \pi^+ + \pi^- + p$ at 9 GeV/c in deuterium bubble chamber, cross sections and mass spectra from, (E), 25:59318
interactions $K^+ + n \rightarrow K^+ + \pi^- + p$ at 12 GeV/c in deuterium bubble chamber, N^*, $K^*(890)$, $K^*(1420)$, $K^*(1250)$ and (1360) enhancement in, (E), 25:1413 (UCRL-20076)
interactions $K^+ + n \rightarrow K^+ + \pi^- + p$ at 12 GeV/c, production of $K^*(1370)$ in, (E), 25:33570
interactions $K^+ + n \rightarrow K^+ + \pi^- + p$ at 12 GeV/c, structure in $K\pi$ mass spectra near 1.85 GeV from, (E), 25:56434
interactions $K^- + n \rightarrow K^- + \pi^- + p$ at 12.6 GeV/c in bubble chamber, $p\pi^-(1400)$ enhancement, cross section for $K^- + \pi^- \rightarrow K^- + \pi^-$ interactions, and cross sections for, (E), 25:9658 (TID-25611)
interactions $K^- + n \rightarrow K^- + \pi^- + p$ at 12.6 GeV/c, $p\pi^-$ (1400) enhancement in, (E), 25:33567
interactions $K^+ + n \rightarrow K^+ + \pi^- + p$ at 3 GeV/c, unitarized Veneziano model for, 25:59478
interactions $K^- + n \rightarrow K^- + \pi^- + p$ at 5.5 GeV/c, double-Regge-pole analysis, (E/T), 25:30747
interactions $K^+ + n \rightarrow K^+ + \pi^- + p$ at 9 GeV/c in deuterium bubble chamber, cross sections and K(1758), K(1880), K(2007), and K(2145) production in, (E), 25:47740 (COO-1428-292)
interactions $K^+ + n \rightarrow K^+ + \pi^- + p$ at 9 GeV/c in, deuterium bubble chamber, K(1420) production, and π exchange mechanism, energy dependence of cross sections, and density matrix elements for K(890) production in, (E), 25:43548 (COO-1428-283)
interactions $K^+ + n \rightarrow K^+ + \pi^- + p$ at 9.1 GeV in deuterium bubble chamber, cross sections, mass, and width for K(890) and K(1420) production and energy dependence of cross sections, density matrix elements, and π-exchange mechanism for K(890) production in, (E), 25:43547 (COO-1428-281)
interactions $K^+ + n \rightarrow K^+ + \pi^- + p$, crossing-symmetric description of, 25:50141
interactions $K^- + n \rightarrow K^- + \pi^- + p$, crossing-symmetric description of, 25:50141
interactions $K^- + n \rightarrow K^- + \pi^+ + \pi^- + n$ at 5.5 and 12.7 GeV/c in hydrogen—neon bubble chamber, coherent $K^-\pi^+\pi^-$ final states in, (E), 22:46333 (BNL-12739)
interactions $K^- + n \rightarrow \Lambda +$ delta$^-$ at 2.11 and 2.65 GeV/c in deuterium bubble chamber, upper limit on cross section for, (E), 22:13662
interactions $K^- + n \rightarrow \Lambda +$ eta$'$ at 3 GeV/c, I = 0 eta$\pi\pi$ and rhoγ enhancements in, (E), 22:29635
interactions $K^- + n \rightarrow \Lambda + \pi + \pi$ at 1.6 to 1.7 GeV, $Y_1^*(1385)$ production in, (E), 21:7465(R) (NYO-3178-3)
interactions $K^- + n \rightarrow \Lambda + \pi^0 + \pi^+ + \pi^- + \pi^-$ at 3.9 GeV/c, eta(550)π enhancement at 980 MeV in, (E), 23:32629
interactions $K^- + n \rightarrow \Lambda + \pi^0$ at 815 to 1105 MeV/c in deuterium bubble chamber, Y_1^* production from, (E), 21:42265 (UCRL-17712)
interactions $K^- + n \rightarrow \Lambda + \pi^-$ + eta at 3.9 GeV/c, eta(550)π enhancement at 980 MeV in, (E), 23:32629
interactions $K^- + n \rightarrow \Lambda + \pi^-$ + neutrals at 3.9 GeV/c, eta(550)π enhancement at 980 MeV in, (E), 23:32629
interactions $K^- + n \rightarrow \Lambda + \pi^- + \pi^0$ at 1600 to 1740 MeV, partial-wave analysis of $\Sigma(1385)$ π state in, (E/T), 23:1602
interactions $K^- + n \rightarrow \Lambda + \pi^- + \pi^0$ at 670 to 910 MeV, cross sections for $\Sigma(1690)$ production in, 22:52939
interactions $K^- + n \rightarrow \Lambda + \pi^+ + \pi^- + \pi^-$ at 3 GeV/c in deuterium bubble chamber, search for $\Sigma(1616)$ production in, (E), 24:15482
interactions $K^- + n \rightarrow \Lambda + \pi^+ + \pi^- + \pi^-$ at 3.9 GeV/c in bubble chamber, evidence for $\Sigma(1619)$ from, (E), 23:32621 (BNL-13681)
interactions $K^- + n \rightarrow \Lambda + \pi^+ + \pi^- + \pi^-$ at 3.9 GeV/c, eta(550)π enhancement at 980 MeV in, (E), 23:32629
interactions $K^- + n \rightarrow \Lambda + \pi^- + \pi^- + \pi^+$ at 3.9 GeV/c, production of $\Sigma(1616)$ in, (E), 22:44335
interactions $K^- + n \rightarrow \Lambda + \pi^+ + \pi^-$ at 3 GeV/c, search for $\Sigma(1616)$ production in, (E), 24:49334
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 1.0 to 1.85 GeV/c, partial-wave analysis of, (T), 25:25435
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 1.590 to 1.740 MeV in deuterium bubble chamber, partial-wave analysis for width and phase of $\Delta(1680)$ in, (E/T), 24:12950
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 1.660 to 1.900 GeV in bubble chamber, resonance production from, (E), 22:13669
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 3 GeV/c, Λ polarization and total and differential cross sections for, (E), 23:21057
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 3 GeV/c, nucleon exchange in, (E/T), 25:19917
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 3.6 and 3.9 GeV/c, exchange degeneracy and backward peak in (E), 24:5254
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 3.9 GeV/c, dip structure in Regge cut models for, (E/T), 24:30531
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 3.9 GeV/c, Toller pole analysis of dip structure in backward, (T), 25:41004
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 4.5 GeV/c, Λ polarization and differential cross section for, (E), 23:25531
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 600 to 1200 MeV/c, energy independent partial-wave analysis of, (E/T), 23:8748
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 670 to 910 MeV/c, $\Sigma(1660)$ production in, (E), 22:29640
interactions $K^- + n \rightarrow \Lambda + \pi^-$ at 815 to 1105 MEV/c in deuterium bubble chamber, Y^* production in, (E), 22:39288
interactions $K^- + n \rightarrow \Lambda + \pi^-$, duality diagrams with exotic t-channel exchanges for, 25:47859 (COO-2009-25)
interactions $K^- + n \rightarrow \Lambda + \pi^-$, AKN coupling constant from backward differential cross sections for, 24:40388
interactions $K^- + n \rightarrow \Lambda + \pi^-$, N and N(1525) trajectories in backward, (T), 25:22821
interactions $K^- + n \rightarrow \Lambda + \pi^-$, Regge pole and absorptive cut models for relation with backward π + N interactions for, (T), 25:25423
interactions $K^- + n \rightarrow \Lambda +$ rho$^0 + \pi^-$ at 3.9 GeV/c, spin—parity analysis, decays, and production of $A_3(1300)$ from, (E), 23:32630
interactions $K^- + n \rightarrow \Lambda\ (\Sigma^0) + \pi^+ + 2\pi^-$, review of $\Sigma(1620)$ production in, (E), 25:25308
interactions $K^- + n \rightarrow \Lambda(1405) + \pi^-$ at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Lambda^0 + A_3^-$ at 4.48 GeV/c, spin and parity of A_3 from production and decay in, (E), 25:9672
interactions $K^- + n \rightarrow \Lambda^0 + \pi^- + \pi^- + \pi^+$ at 4.5 GeV/c, production of $\Sigma(1642)$ in, (E), 24:15480
interactions $K^- + n \rightarrow \Lambda^0 + \pi^-$ at 2.9 to 3.3 GeV/c, duality and Regge cuts for Λ polarization in, 24:1607
interactions $K^- + n \rightarrow \Lambda^0(\Sigma^0) + A_3^-$ at 4.48 GeV/c in deuterium bubble chamber, A_3^- spin, parity, width, and branching ratios in, (E), 24:45424 (COO-1428-227)
interactions $K^- + n \rightarrow n + K^- + \pi^+ + \pi^-$ at 3 GeV/c in deuterium bubble chamber, Δ and anti K^{*0} production and $K^-\pi^-$-decay asymmetry for S-wave in, (E), 24:3549
interactions $K^- + n \rightarrow p + 2\pi^-$ + anti K^0 + MM at 4.48 GeV/c in deuterium bubble chamber, cross sections and K(890) production in, (E), 25:43549 (COO-1428-286)
interactions $K^- + n \rightarrow p + 2\pi^-$ + anti $K^0 + \pi^0$ at 4.48 GeV/c in deuterium bubble chamber, K(890), $\Delta(1236)$, and N(1525) production and cross sections in, (E), 25:43549 (COO-1428-286)
interactions $K^- + n \rightarrow p + 2\pi^-$ + anti K^0 at 4.48 GeV/c in deuterium bubble chamber, K(890), $\Delta(1236)$, N(1525), N(1688), and $\Sigma(1765)$ production and cross sections in, (E), 25:43549 (COO-1428-286)
interactions $K^- + n \rightarrow p + K^- + \pi^-$ at 3 GeV/c, Chew—Low extrapolation of $K\pi$ elastic cross section from, (E/T), 25:3278
interactions $K^+ + n \rightarrow p + K^+ + \pi^-$ at 9.0 GeV/c in deuterium bubble chamber, low-mass $p\pi$ enhancement and K(890) production in, (E), 24:45425 (COO-1428-229)
interactions $K^- + n \rightarrow p(n) + K^-$(anti K^0) at 5.0 to 5.5 GeV/c, data compilation for mass and angular distributions for low-mass Y_0^* production in, (E), 25:25328
interactions $K^- + n \rightarrow \pi^0 + \Sigma^-(1385)$ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow \pi^- + 2\pi^-$ + anti K^0 + MM at 4.48 GeV/c in deuterium bubble chamber, cross sections and K(890) production in, (E), 25:43549 (COO-1428-286)
interactions $K^- + n \rightarrow \pi^- + 2\pi^-$ + anti K^0 + n at 4.48 GeV/c in deuterium bubble chamber, K(890), $\Delta(1236)$, N(1525), and $\Sigma(1765)$ production and cross sections in, (E), 25:43549 (COO-1428-286)
interactions $K^- + n \rightarrow \pi^- + \Lambda$ and $\pi^+ + n \rightarrow K^+ + \Lambda$, duality and exchange degeneracy from finite-energy sum rules for, 25:59501
interactions $K^- + n \rightarrow \pi^- + \Lambda$ and $\pi^- + p \rightarrow K^0 + \Lambda$, complex Regge poles for line reversed, 25:25428
interactions $K^- + n \rightarrow \pi^- + \Lambda$ at 1900 to 2100 MeV, resonance parameters from partial-wave analysis of, (E), 24:51965
interactions $K^- + n \rightarrow \pi^- + \Lambda$ at 4.5 GeV/c in deuterium bubble chamber, preliminary study of Λ polarization in, (E), 22:41736 (COO-1428-81)
interactions $K^- + n \rightarrow \pi^- + \Lambda$ at 4.5 GeV/c in deuterium bubble chamber, Λ polarization and cross sections for, (E), 24:18086
interactions $K^- + n \rightarrow \pi^- + \Lambda$ at 4.5 GeV/c in deuterium bubble chamber, Λ polarization in, (E), 24:18090
interactions $K^- + n \rightarrow \pi^- + \Lambda$ in nuclei, tests of unitary symmetry by, 21:33750
interactions $K^- + n \rightarrow \pi^- + \Lambda$, generalized Veneziano model for, (E/T), 25:1537
interactions $K^- + n \rightarrow \pi^- + \Lambda$, partial wave analysis for, (T), 25:41023
interactions $K^- + n \rightarrow \pi^- + \Lambda(\Sigma^0)$, Reggeized U(6) X U(6) X O(3) absorption peripheral model for, 25:1536
interactions $K^- + n \rightarrow \pi^+ + \pi^- + \Lambda + \pi^0$ at 2.34 GeV/c in bubble chamber, $\Sigma(1385)$ production from, (E), 22:3284
interactions $K^- + n \rightarrow \pi^+ + \pi^- + \Lambda$ at 2.34 GeV/c in bubble chamber, $\Sigma(1385)$ production from, (E), 22:3284
interactions $K^- + n \rightarrow \pi^- + \Sigma^0$ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow \pi^- + \Sigma^0(1385)$ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow \pi^-(980) + \Lambda$ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow$ rho$^- + \Lambda$ at 4.5 GeV/c in deuterium bubble chamber, meson exchange mechanism for, (E), 24:18086
interactions $K^- + n \rightarrow$ rho$^- + \Lambda$ at 4.5 GeV/c in deuterium bubble chamber, peripheral mechanism for, (E), 24:18090
interactions $K^- + n \rightarrow \Sigma + \pi + \pi$ at 0.6 to 1.2 GeV/c, total cross sections for, (E/T), 23:8750
interactions $K^- + n \rightarrow \Sigma(1385)$ + vector meson at 3.0 GeV/c, cross sections and decay angular distributions for, (E/T), 25:40893
interactions $K^- + n \rightarrow \Sigma^0 + A_1^-$ at 4.48 GeV/c, spin and parity of A_1 from production and decay in, (E), 25:9672
interactions $K^- + n \rightarrow \Sigma^0 + \pi^- + \gamma$ at 600 MeV, Σ^0 magnetic moment from, (E), 23:49033
interactions $K^- + n \rightarrow \Sigma^0 + \pi^+ + \pi^- + \pi^-$ at 3 GeV/c in deuterium bubble chamber, production of $\Sigma(1660)$ in, (E), 24:15482
interactions $K^- + n \rightarrow \Sigma^0 + \pi^-$ at 3 GeV/c, baryon exchange in, (E/T), 25:19917
interactions $K^- + n \rightarrow \Sigma^0 + \pi^-$ at 3 GeV/c, total and differential cross sections for, (E), 23:21057
interactions $K^- + n \rightarrow \Sigma^0 + \pi^-$ at 4.5 GeV/c, differential cross sections for, (E/T), 23:25531
interactions $K^- + n \rightarrow \Sigma^-$ + eta at 920 to 1120 MeV/c in deuterium bubble chamber, Σ^- eta enhancement near threshold in, 21:37717
interactions $K^- + n \rightarrow \Sigma^-$ + eta$'^0$ at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-$ + eta^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-$ + f^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-$ + f'^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-$ + ω at 3 GeV/c, differential cross sections for, (E), 25:1423
interactions $K^- + n \rightarrow \Sigma^-$ + phi^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^- + \pi^0$ at 3 GeV/c, total and differential cross sections for, (E), 23:21057
interactions $K^- + n \rightarrow \Sigma^- + \pi^0$ at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^- + \pi^0$ at 2.1 and 2.65 GeV/c in deuterium bubble chamber, H(990) production from, (E), 22:1385 (SLAC-PUB-347)
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^- + \pi^0$ at 2.1 and 2.7 GeV/c in deuterium bubble chamber, search for I = 2 hyperon resonances in, (E), 22:44337
interactions $K^- + n \rightarrow \Sigma^+ + \pi^- + \pi^-$ at 1.6 to 1.7 GeV, $Y_1^*(1660)$ production in, (E), 21:7465(R) (NYO-3178-3)
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^-$ at 1.62 to 1.74 GeV, $\Sigma(1660)$ weak coupling to $A(1405)\pi$ and existance of two distinct $\Sigma(1660)$ in partial wave analysis of, (T), 25:14717
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^-$ at 1.660 to 1.900 GeV, Y^* production from, (E), 22:3280
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^-$ at 1660 to 1900 MeV, production of $Y_0^*(1405)$, $Y_0^*(1520)$, and $Y_1^*(1760)$ in, (E), 21:40150 (UCRL-17089)
interactions $K^- + n \rightarrow \Sigma^- + \pi^+ + \pi^-$ at 2.1 and 2.7 GeV/c in deuterium bubble chamber, search for I = 2 hyperon resonances in, (E), 22:44337
interactions $K^- + n \rightarrow \Sigma^- + \pi^- + \pi^+$ at 838 to 978 MeV/c in bubble chamber, A(1405) and A(1520) production in, (E), 23:21061
interactions $K^- + n \rightarrow \Sigma^-$ + rho^0 at 4.94 GeV/c, cross sections for, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^-(\Sigma^+)$ + mesons at 4.94 GeV/c, cross sections for quasi-two-body production in, (E), 24:15485
interactions $K^- + n \rightarrow \Sigma^+(\Sigma^-)$ + mesons at 4.94 GeV/c, cross sections, four-momentum transfer distributions, and density matrix elements for, (E), 24:49331
interactions $K^- + n \rightarrow \Sigma^-(\Sigma^+) + \pi^+(\pi^-) + \pi^-$ at 670 to 835 MeV/c in deuterium bubble chamber, differential and total cross sections and partial-wave analysis for resonance production in, (E/T), 25:14557 (FSU-HEP-70-3-1)
interactions K^- + n $\rightarrow \Sigma^+(\Sigma^-) + \pi^-(\pi^+) + \pi^-$ at 678 to 835 MeV/c in deuterium bubble chamber, differential and total cross sections and Y^* production in, (E), 25:25322
interactions $K^- + n \rightarrow \Sigma^-(\Sigma^+) + \pi^+(\pi^-)$ at 5.0 to 5.5 GeV/c, data compilation for mass and angular distributions for low-mass Y_0^* production in, (E), 25:25328
interactions $K^- + n \rightarrow V + \pi^-$ at 3 GeV/c, total and differential cross sections for, (E/T), 25:19917
interactions $K^- + n \rightarrow \Xi^- + K^0$ at 1.2 to 2.7 GeV/c in bubble chamber, total cross sections, polarization and partial-wave analysis for baryon exchange and direct-channel Y^* production in, (E), 24:10678 (UCRL-19372)
interactions $K^- + n \rightarrow \Xi^- + K^0$ at 1.2 to 2.7 GeV/c in bubble chamber, total cross sections, polarization, and partial-wave analysis for baryon exchange in, (E/T), 25:5384
interactions $K^- + n \rightarrow Y_0^* + \pi^-$ at 3 GeV/c, Y_0^* properties and $Y_0^*K^-p$ coupling constant from, (T), 25:25327
interactions $K^- + n \rightarrow Y_0^*(1520) + \pi^-$ at 3 GeV/c, production and decay of $Y_0^*(1520)$ in, (E), 23:13041
interactions K^- + n above 2 GeV/c, effect of charge-exchange mechanism on cross sections for, 21:29570
interactions K^+ + n above 3 GeV/c with charge exchange and no strangeness exchange, quark model predictions for pseudoscalar and vector meson production in, (E), 23:34532 (INR-1040)

interactions K^- + n at 0.6 to 4 GeV/c, interference model for total cross sections of, 24:13091
interactions K^- + n at 1.45 and 1.65 GeV/c, cross sections and angular distributions for resonance production in, (E), 25:45679
interactions K^+ + n at 1.96, 2.3, and 3.0 GeV/c, cross sections for inelastic, (E), 22:17873
interactions K^+ + n at 15 to 60 GeV/c, total cross sections for, (E), 25:53014
interactions K^- + n at 20 to 65 GeV/c, total cross sections for, (E), 24:5258
interactions K^- + n at 3 GeV in deuterium bubble chamber, production of K(890), K(1400), and $K\pi\pi$ systems, upper limits for production cross sections of isospin-3/2 K^*, and K + π s-wave interactions in, (E), 25:56426 (FRNC-TH-53)
interactions K^- + n at 3 GeV/c, differential cross sections for two-body, (E), 25:59291
interactions K^- + n at 3.6 and 3.9 GeV/c in bubble chamber, search for I = $^3/_2$ Ξ resonances in, (E), 22:52936 (BNL-12864)
interactions K^- + n at 3.6 and 3.9 GeV/c, production and decay of Ξ(1530) and Ξ(1830) in, (E), 24:28495
interactions K^- + n at 4.48 GeV/c in deuterium bubble chamber, Σ(1640) and A_1 production, and simultaneous production of vector mesons and Σ^-(1385) in Λ and Σ^0 four-body final states in, (E), 25:59280
interactions K^- + n at 800 to 1200 MeV/c, cross sections for, (E), 24:51978
interactions K^- + n at 810 to 1110 MeV, angular distributions for elastic, (E), 25:59302
interactions K^- + n at high energies, compilation of cross sections for, (E), 25:19909 (CERN-HERA-70-6)
interactions K^- + n at high energies, quark model for double-exchange production cross section for, 22:22398
interactions K^+ + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions K^- + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions K^- + n at rest in heavy-liquid bubble chamber, reaction processes from, (E), 22:15683
interactions K^+ + n with charge and no strangeness exchange, quark model predictions for pseudoscalar and vector meson production cross sections for, (T), 24:10773
interactions K^+ + n, compilation of cross section variation with incident momentum for, (E), 25:38658 (CERN-HERA-70-4)
interactions K^+ + n, data compilation of cross sections and charge-exchange angular distributions for, (E), 24:6719 (UCRL-20000-KN)
interactions K^- + n, duality for total cross section relations in quark model for, 24:35653 (ITF-70-24)
interactions K^+ + n, duality for total cross section relations in quark model for, 24:35653 (ITF-70-24)
interactions K^+ + n, forward dispersion relation predictions of differential cross sections for, (E/T), 22:24667
interactions K^- + n, forward dispersion relation predictions of differential cross sections for, (E/T), 22:24667
interactions K^- + n, integrated cross sections for K_1^0 + p → K_1^0 + p interactions for upper bound on Pomeranchuk theorem violation in asymptotic total cross section difference in K^+ + n interactions and, (T), 25:22818
interactions K^+ + n, integrated cross sections for K_2^0 + p → K_2^0 + p interactions for upper bound on Pomeranchuk theorem violation in asymptotic total cross section difference in K^- + n interactions and, (T), 25:22818
interactions K^+ + n, peripheral SU(6)/sub W/ model for resonance polarization from, 21:40261 (NP-16936)
interactions K^+ + n, polarization of resonances in peripheral SU(6)/sub W/ model for, 22:3491
interactions K^- + n, SU(3) assignments for Y_1^* from, 21:952
interactions K^- + n, sum-rule analysis of, 22:7517
interactions K^+ + n, sum-rule analysis of, 22:7517
interactions K^- + n, unsubtracted dispersion sum rule for, (T), 22:39409
interactions K^+ + n, unsubtracted dispersion sum rule for, (T), 22:39409
interactions Λ + n in A = 50 hyperfragments, kinematical calculation of energy spectra of fast proton emission from stimulated, 22:9625
interactions Λ + n in γ + d → K^+ + Λ + n interactions, final-state, (T), 21:19019
interactions Λ + n in Λ-He^4 and Λ-He^3 hyperfragment nonmesic to π^--mesic decay ratios in emulsions, spin dependence of weak, (E), 24:37614
interactions μ^- + n → p + W^- + μ^-, model for W^- production in, 25:14643
interactions n + α in lithium-7 (d,nα) reactions, proximity scattering, 24:1764
interactions n + α, forward dispersion relations for elastic scattering, (T), 24:24502
interactions n + d → ^{3}He + γ, field—current identity for parity—violating internucleon potential from rho, ω and phi exchange in, (T), 23:30770
interactions n + d → ^{3}He + π^- + π^0, possible experiments for test of isospin invariance of, 22:48300
interactions n + d → ^{3}He + π^- + π^0, strong interaction isospin invariance check from, (T), 22:22381 (JINR-P2-3691)
interactions n + d → 2n + p at 13.95 MeV, n—n scattering length from, (E), 21:17047
interactions n + d → 2n + p at 14.1 MeV, n + n scattering length from, (E), 24:28484
interactions n + d → 2n + p, final-state interactions for n + n interactions from, (T), 24:52118
interactions n + d → γ + H^3, parity nonconservation in, (T), 22:53081
interactions n + d → n + d at 66 to 630 MeV Glauber approximation for polarization effects in, 22:26666 (JINR-P2-3778)
interactions n + d → n + d, amplitudes and scattering length relation with triton binding energy in, (T), 25:12227
interactions n + d → n + d, angular distributions and polarizations in three-body, (T), 25:1641 (LYCEN-7046)
interactions n + d → n + d, lectures on forward and partial-wave dispersion relations for, (T), 25:56810 (CERN-71-14, pp 155-228)
interactions n + d → n + d, partial-wave N/D equations for phase shifts, differential cross sections, and triton binding energy from, 24:10787
interactions n + d → n + n + p at 18.5 MeV, double time-of-flight spectrometer study for determining neutron—neutron scattering length from, (E), 24:28478 (DESY-70/7)
interactions n + d → p + 2n at 199 MeV, relative differential cross sections and polarization parameters for, (E), 22:22303
interactions n + d → p + n + n at 14.4 MeV, n—p coincidence measurements from, 24:40253
interactions n + d → t + γ, effects of three-body scattering states in, (T), 22:37288
interactions n + d → t, three-body model vertex part of virtual, (T), 25:28047
interactions n + d above inelastic threshold, Kohn variational principle for calculating elastic amplitude of, (T), 25:14744
interactions n + d at 0.01 to 40 eV using polarized targets, quartet scattering length from, 23:46900
interactions n + d at 0.5 to 70 GeV/c, compilation of cross sections, angular distributions, and polarizations for, (E), 25:19899 (UCRL-20000-NN)
interactions n + d at 10 GeV/c, total cross section for, (E), 22:53086
interactions n + d at 10 to 30 GeV/c, momentum dependence of total cross sections for, (E), 25:50060 (PURC-4159-36)
interactions n + d at 14 to 27 GeV/c, total cross sections for, (E), 22:17861
interactions n + d at 14, proton energy spectra for, (E), 22:26809
interactions n + d at 14.4 MeV, Amado model for proton energy spectra and cross sections for break-up, (T), 24:52116
interactions n + d at 14.4 MeV, elastic scattering cross section for, (E), 23:25806
interactions n + d at 2.25 to 15.0 MeV, total cross sections for, (E/T), 21:31703
interactions n + d at 2.45 and 3.27 MeV, rank-1 separable potential for phase shifts and angular distributions and triton binding energy in, (T), 25:47896
interactions n + d at 4.0 and 5.7 GeV/c, total cross sections for, (E), 24:15473
interactions n + d at 4.0 and 5.7 GeV/c, total cross sections for, (E), 25:7545
interactions n + d at 700 to 2900 MeV/c, direct measurement of total cross sections for, (E), 25:9648
interactions n + d at 700 to 2900 MeV/c, total cross sections for, (E), 24:49315 (PURC-4159-7)
interactions n + d at low energies, coherent scattering amplitude and epithermal cross sections for, (E), 25:50158
interactions n + d at low energies, Coulomb effects and charge symmetry breaking in, 25:50156
interactions n + d at low energies, phase shifts for, 24:24398
interactions n + d at low energy, doublet and quartet scattering lengths for, (E), 23:28231(T) (BNL-tr-263)
interactions n + d at medium energies, survey of research on polarization in, 23:46908 (COO-7-515)
interactions n + d at nonrelativistic energies, variational principle for, 24:8679
interactions n + d at zero energy, scattering length for, (T), 25:7681 (JINR-P4-5000)
interactions n + d below 20 MeV, dpn and tdn coupling constants from forward dispersion relations for, (T), 25:3408
interactions n + d, (T), 21:10124
interactions n + d, Born approximation using tensor term in nucleon-nucleon potential for, (T), 22:26794
interactions n + d, calculation of doublet scattering length using rank-four separable potential, (T), 25:59707
interactions n + d, calculation of doublet scattering length using rank-four separable potentials, (T), 25:36659 (INR-P-1234)
interactions n + d, calculation of scattering length using separable two-particle t-matrix with Hulthen potential, 24:3972
interactions n + d, calculation of scattering length using square-well potential, (T), 24:3973
interactions n + d, calculations for doublet scattering length using separable interaction model, (T), 23:25784
interactions n + d, charge-state oscillations in cross sections for, (E/T), 23:39744 (KFKI-10/1969)
interactions n + d, coherence and Migdal—Watson theory in, 25:17997
interactions n + d, configuration-space method for, 21:37842
interactions n + d, continuum to bound state transitions in, (T), 23:25794
interactions n + d, doublet scattering length for, (T), 23:25782
interactions n + d, dynamical calculations for three-body, (T), 24:52115
interactions n + d, Faddeev equations for doublet and quartet scattering length of, (T), 25:33765 (JINR-E4-5763)
interactions n + d, Faddeev equations for variational bound formulation of, 23:44679
interactions n + d, formulation of Born amplitudes for scattering, (T), 24:20456
interactions n + d, Hilbert—Schmidt expansion and solutions of Faddeev equations with rectangular potential for scattering lengths of, (T), 25:25411
interactions n + d, Hilbert—Schmidt expansion for solution of Faddeev equations with square-well potential for scattering lengths for, 24:26445 (ITF-69-91)
interactions n + d, K-harmonics method in continuous spectrum for, 22:48329
interactions n + d, lower bounds on phase shifts for, 23:18931
interactions n + d, Pade approximants for solving Fadeev equations for, 24:37809
interactions n + d, polarization effects in elastic, (T), 21:10107
interactions n + d, potentials with hard-core repulsion for doublet length for, (T), 25:36536
interactions n + d, realistic potentials for calculation of scattering lengths for, (T), 25:14743
interactions n + d, review of numerical calculations for three-body, 23:32776
interactions n + d, scattering length calculations using Hamada—Johnston potential, (T), 23:17073
interactions n + d, scattering length calculations using realistic potentials, (T), 23:25785
interactions n + d, scattering length calculations using separable T-matrices and Hulthen potential, (T), 23:15353
interactions n + d, scattering length for, (T), 22:20770
interactions n + d, scattering length for, (T), 21:27640
interactions n + d, scattering lengths and s-wave phase shifts for, (E), 21:38215 (LA-DC-8857)
interactions n + d, scattering lengths for, (E), 21:18900
interactions n + d, scattering lengths for, (E), 21:29878
interactions n + d, scattering lengths for, (T), 21:9808
interactions n + d, scattering lengths for, (T), 22:1590
interactions n + d, scattering lengths for, (T), 22:5758
interactions n + d, scattering-length calculations using hard-core separable potential with tensor force, 21:38381
interactions n + d, scattering-length measurements using neutron transmission by polarized deuterium targets, 21:11961 (JINR-E3-3030)
interactions n + d, separable expansion of two-body t-matrix for scattering lengths for, (T), 24:52117
interactions n + d, separable expansion of two-body t matrix for energy of, 23:30763 (ITF-69-8)
interactions n + d, spin dependence of, 21:42531
interactions n + d, tensor force in the separable potential model of, (T), 24:10905
interactions n + d, three-body formalism using tensor forces, (T), 21:19167
interactions n + d, three-body problem with rectangular central potential for scattering lengths for, 23:30764 (ITF-69-19)
interactions n + d, three-nucleon problem with repulsive-core potentials for scattering lengths for, (T), 25:33764 (ITF-70-92-E)
interactions n + d, three-particle-state theory for separable interaction in, (T), 25:33778
interactions n + e from neutron diffraction by tungsten-186, coherent amplitudes for, (E/T), 25:36380 (JINR-E3-5713)
interactions n + e, measurement using thermal-neutron scattering by rare gases, (E), 21:2652(R) (ANL-7198)
interactions n + n at 0 to 330 MeV, scattering length calculation using various equivalent potentials, (T), 24:3848
interactions n + n at 0.5 to 70 GeV/c, compilation of cross sections, angular distributions, and polarizations for, (E), 25:19899 (UCRL-20000-NN)
interactions n + n at 23 to 630 MeV, scattering amplitudes for elastic, (T), 21:7456 (JINR-P-2861)
interactions n + n at high energies, asymptotic summation of ladder diagrams for amplitudes of, 21:21208
interactions n + n at high energies, multiple particle production in, 21:7502
interactions n + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions n + n at low energies, review of phase shifts for, 24:33022
interactions n + n at low energy, scattering experiments using nuclear explosions, (T), 21:23405 (UCRL-70376)
interactions n + n at rest, triton reactions (t,nHe-4) with tritium for determination of scattering length for, (E), 25:59506 (JINR-E15-5905)
interactions n + n at very high energies, unitary symmetry tests from large-angle elastic, 21:25325
interactions n + n below threshold to 27 GeV, multiplicity distribution of charged secondaries from, 23:32619
interactions n + n from deuterium (n,p) reactions, scattering length for, (E), 23:44826
interactions n + n from π^- + d → 2n + γ interactions, scattering length for, (E), 22:44333
interactions n + n from π^- + d → 2n + γ interactions, scattering length for, (E), 22:50300
interactions n + n in dense neutron matter, equation of state for, (T), 24:52151
interactions n + n in deuterium (n,2n) reactions, scattering length from, (E), 24:3841
interactions n + n in deuterium (p,n) reactions, scattering length for, (E), 22:50526
interactions n + n in lithium-7 (t,2α) reactions, scattering length for final-state, (T), 22:22558
interactions n + n, charge asymmetry effects from meson mixing in, (T), 21:37865
interactions n + n, charge independence of, 21:37849
interactions n + n, comprehensive analysis of p + p interactions below 30 MeV for scattering length for, (T), 25:9814
interactions n + n, cross sections for, and comparison with p + p interactions, (T), 25:55777

interactions n + n, determination of effective range parameters from final-state interaction in tritium (d,He-3) reactions, (E), 23:52120 (UCRL-18667, pp 65-132)
interactions n + n, effect of charge asymmetric potentials on scattering length for, (T), 25:59701
interactions n + n, effective range and scattering length from μ^- + d → 2n + τ interactions, (T), 21:37864
interactions n + n, final-state interactions in n + d → 2n + p interactions for, (T), 24:52118
interactions n + n, proposed experiment for measuring cross sections of, 24:42870 (UCRL-50848)
interactions n + n, π instability effects on, (T), 21:37851
interactions n + n, review of experiments yielding scattering lengths for, (E/T), 25:48012
interactions n + n, s-wave scattering length from π^- + d → 2n + γ final-state, (E), 21:37653(R) (UCLA-34-P-106-1)
interactions n + n, scattering length and effective range from muon (μ) capture rate in deuterium, (T), 21:31701 (NP-16819)
interactions n + n, scattering length for, 24:15606
interactions n + n, scattering length for, (E), 21:17296 (UCRL-16864)
interactions n + n, scattering length for, (E), 22:11902
interactions n + n, scattering length for, (E), 23:13198
interactions n + n, scattering length for, (E), 23:3931
interactions n + n, scattering length for, (T), 22:26790
interactions n + n, scattering length from deuterium (t, He-3) reactions and tritium (t,α) reactions, (E), 22:35292 (ORNL-4217, pp 1-81)
interactions n + n, scattering length from final-state, (E), 24:52391
interactions n + n, scattering length from final-state, (E), 25:25724(R) (RLO-1388-121)
interactions n + n, scattering length from n + d → 2n + p interactions at 13.95 MeV, (E), 21:17047
interactions n + n, scattering length from n + d → 2n + p interactions at 14.1 MeV, (E), 24:28484
interactions n + n, scattering length in final-state, (E), 24:47561
interactions n + n, scattering lengths for, (E), 24:40552
interactions n + n, scattering parameters from tritium (t, α) final-state, (E), 23:32893(R) (ORNL-4404)
interactions n + n, test of symmetry of nuclear forces with respect to charge hypothesis from scattering length of, (E/T), 25:43534 (NP-18814)
interactions n + n, time-of-flight spectrometer study of n + d → n + n + p interactions at 18.5 MeV for determining scattering length for, (E), 24:28478 (DESY-70/7)
interactions n + n, use of Faddeev equations to determine low-energy parameters for, (T), 22:20278
interactions n + n, validity of charge independence and charge symmetry for, 23:25647
interactions n + p → 2p + π^- at 2 to 10 GeV/c in propane bubble chamber, estimate of admixture to, (E/T), 24:1505 (JINR-P1-4642)
interactions n + p → 2p + π^- at 2 to 10 GeV/c, peripheral nature, zero-isospin exchange, total cross sections, and production cross sections for Δ(1236), N(1470), and N(1688) production in, (E), 25:14551
interactions n + p → 2p + π^- at 2 to 30 GeV, Reggeized one-pion-exchange model for π exchange and diffraction production of N(1470) and N(1688) in, (T), 25:56521 (JINR-P1-5975)
interactions n + p → 3p + γ, weak-interaction Hamiltonian for photon polarization in, (T), 25:20039
interactions n + p → d + 2γ at 0.025 eV, cross sections and photon angular and spectral distributions for, (T), 25:59527
interactions n + p → d + γ at 160 to 640 MeV, time reversal invariance in γ + d → n + p interactions from study of angular distributions and total cross sections for, (E), 24:1506 (PPAR-20)
interactions n + p → d + γ at 160 to 640 MeV, time reversal invariance in differential and total cross sections, (E), 23:51852
interactions n + p → d + γ at 300 to 700 MeV, time reversal invariance in γ + d → n + p interactions from study of angular distributions from, (E), 24:1507 (UCRL-19350)
interactions n + p → d + γ at 475 to 750 MeV, time reversal invariance in angular distributions for, (E), 25:53016
interactions n + p → d + γ at low energies, parity nonconservation from γ circular polarization in, (E), 24:30443
interactions n + p → d + γ, calculation of cross sections using meson exchange currents, (T), 25:5545
interactions n + p → d + γ, circular polarization of γ from, (T), 25:45717
interactions n + p → d + γ, effects of weak parity-nonconserving potentials in, 23:3758
interactions n + p → d + γ, field—current identity for parity-violating internucleon potential from rho, ω, and phi exchange in, (T), 23:30770
interactions n + p → d + γ, model of intermediate nucleon isobar for, 25:56525
interactions n + p → d + γ, parity violation in, 22:9655
interactions n + p → d + γ, relation of effective Lagrangian for nonleptonic weak interactions with Lagrangian for, (T), 25:59418
interactions n + p → d + γ, test of time reversal invariance in total and differential cross sections for, (E), 25:12238
interactions n + p → d + γ, weak-interaction Hamiltonian for photon polarization in, (T), 25:20039
interactions n + p → d + π, model of intermediate nucleon isobar for, 25:56525
interactions n + p → d + π^0 at 275 to 700 MeV, charge independence in differential and total cross sections for, (E), 24:37628
interactions n + p → d + π^0 at 275 to 700 MeV, test of charge independence in, (E), 24:12933 (PURC-2137-17)
interactions n + p → d + π^0 from threshold through first resonance peak, spark chamber study of charge independence from differential and total cross sections for, (E), 25:14549
interactions n + p → d + π^0 from threshold to 720 MeV, charge independence test for π + N interactions from, (E), 23:42548 (PURC-2137-9)
interactions n + p → d + rho, model of intermediate nucleon isobar for, 25:56525
interactions n + p → d + sigma(310), model of intermediate nucleon isobar for, 25:56525
interactions n + p → γ + d at 300 to 700 MeV, wire spark chamber spectrometer study of angular distribution for, (E), 23:44642(R) (UCLA-34-P-106-38)
interactions n + p → γ + d at 300 to 720 MeV, test of time-reversal invariance from angular distribution for, (E), 25:40868
interactions n + p → γ + d at 300 to 730 MeV, preliminary results on, (E), 22:44297(R) (UCLA-34-P-106-27)
interactions n + p → γ + d, parity-violating internucleon potential for, (T), 25:17545
interactions n + p → γ + d, test of T invariance in, (E), 21:37653(R) (UCLA-34-P-106-1)
interactions n + p → γ + n + p, cross sections and asymmetries for, (T), 25:33615
interactions n + p → n + p + 2π^+ + 2π^- + mπ^0 at 2 to 10 GeV in propane bubble chamber, Δ^{++}(1236) and Δ^-(1236) production in p$\pi\pi$ effective mass distributions in, (E), 22:44319 (JINR-E1-3940)
interactions n + p → n + p + γ at 14 to 208 MeV, cross-section calculations for, (T), 24:24300
interactions n + p → n + p + γ at 208 MeV, bremsstrahlung cross sections for, (E), 24:35607
interactions n + p → n + p + γ at 208 MeV, cross sections for bremsstrahlung production in, 22:22306
interactions n + p → n + p + γ, Bryan—Scott and Hamada—Johnston potentials for, (T), 25:1463
interactions n + p → n + p + γ, off-shell properties of two-nucleon elastic potentials from, (T), 24:15601
interactions n + p → n + p + π^+ + π^- + mπ^0 at 2 to 10 GeV/c, method for separation from channels of n + p → n + p + π^+ + π^- interactions, (E), 25:30726 (JINR-P1-5665)
interactions n + p → n + p + π^+ + π^- at 2 to 10 GeV/c, method for separation from channels of n + p → n + p + π^+ + π^- + mπ^0 interactions, (E), 25:30726 (JINR-P1-5665)
interactions n + p → n + p at 15 MeV, efficiency of time-of-flight spectrometer for studying, 21:41224
interactions n + p → n + p at 15.7 MeV, angular distribution of, (E), 21:44272
interactions n + p → n + p at 152 MeV, differential cross sections and angular distributions for, (E), 25:27956
interactions n + p → n + p at 24.0 MeV, counter telescope study of angular distribution from, (T), 23:36827 (COO-7-506)
interactions n + p → n + p at 3 to 7 GeV/c large angles, eikonal model with soft virtual neutral vector meson exchange for cross sections and angular distributions of, (T), 24:45542 (NYO-2262-TA-223)
interactions n + p → n + p at 4 to 30 GeV/c, differential cross sections for, (E), 25:25303
interactions n + p → n + p at 8 to 30 GeV/c, spark chamber study of cross sections for diffraction, (E), 22:39248 (CERN-68-7(Vol.1), pp 523-36)
interactions n + p → n + p at high energies, relativistic calculations for recoil proton spectrometers, 22:4470 (HASL-186)
interactions n + p → n + p below 750 MeV/c, review of meson resonance coupling to nucleons from on- and off-shell methods for, (T), 25:30903
interactions n + p → n + p, Chou—Yang model in current—current interaction picture for, 24:52401
interactions n + p → n + p, quasipotential model for elastic, (E/T), 24:3518
interactions n + p → p + n + 2π^+ + 2π^- at 2 to 10 GeV in propane bubble chamber, N_3^* production from, (E), 21:44265
interactions n + p → p + n at 1.75 to 7.20 GeV/c, spark chamber and scintillation counter study of differential cross sections for, (E), 25:22681
interactions n + p → p + n at 600 to 2000 MeV/c and 0 to 62°, wire-spark-chamber magnetic spectrometer study of differential cross sections for charge-exchange, (E), 24:3509 (PPAR-10)
interactions n + p → p + n at 600 to 2000 MeV/c, structure in differential cross sections for charge-exchange, (E), 23:44594
interactions n + p → p + n at 8 and 19 GeV/c, spark chamber study of differential cross sections and Δ(1236) and N(1518) production in, (E), 25:56415 (NP-18888)
interactions n + p → p + n at 8 to 24 GeV/c, differential cross section for, (E), 25:25431
interactions n + p → p + n at 8 to 28 GeV/c, spark chamber study of differential cross sections and angular distributions for charge-exchange, (E), 25:50059 (PURC-4159-35)
interactions n + p → p + n at high energies, charge exchange in, (E), 21:9701
interactions n + p → p + n at high energies, one-pion exchange in charge-exchange, 21:29533
interactions n + p → p + n at high energies, Regge conspiracy in, (T), 24:45544
interactions n + p → p + n, Chou—Yang model in current—current interaction picture for, 24:52401
interactions n + p → p + n, differential cross sections for, (T), 22:46430
interactions n + p → p + n, model for Regge cut contributions to, 23:42778
interactions n + p → p + n, Regge cut corrections to Regge pole exchange for forward spikes in, (T), 23:5638 (CALT-68-173)
interactions n + p → p + n, Regge cut corrections to Regge pole exchange for forward spike in, 24:18230
interactions n + p → p + n, Regge pole theory for, 21:29541
interactions n + p → p + n, Regge-pole model for pion-exchange, 22:7494
interactions n + p → p + n, strong absorptive Regge-cut model for, 25:7597
interactions n + p → p + n, Veneziano model for, 24:35667
interactions n + p → p + p + π^-, soft-pion theorem in current algebra for, 23:25657
interactions n + p → p + π^+ + π^+ + π^- + π^- + n + (mπ^0) at 2 to 10 GeV, Δ^{++}(1236) and Δ^-(1236) production in, (E), 23:25517
interactions n + p → π^0 + d at threshold to 720 MeV, test of isospin invariance in, (E), 25:30730
interactions n + p → π^0 + d from threshold to 720 MeV, test of isospin invariance in, (E/T), 25:59268
interactions n + p → π^0 + d up to 720 MeV, spark chamber study of isotopic spin invariance from differential cross sections for, (E), 25:47732
interactions n + p at 0.3 and 400 eV, total cross section for, (E), 21:37689
interactions n + p at 0.3 to 400 eV, scattering and total cross section for, (E), 25:45892
interactions n + p at 0.5 to 21 MeV, singlet effective range for, (E), 25:53511 (CONF-701002-, pp 51-6)
interactions n + p at 0.7 to 32 MeV, time-of-flight spectrometer search for oscillations in total cross sections for, (E), 23:51851
interactions n + p at 1 to 27 GeV/c, data compilation on, 22:52983
interactions n + p at 1 to 27.0 GeV/c, data compilation for, 22:44320 (NP-17578)
interactions n + p at 1 to 450 MeV, scattering matrix from phase shift analysis of, 23:44671
interactions n + p at 1 to 6 GeV, spark chamber study of cross sections for elastic, (E), 22:3263
interactions n + p at 1.0 to 5.5 GeV/c, polarization parameter in backward elastic, (E), 24:28481
interactions n + p at 1.0 to 7.9 MeV, monotonic variation of total cross sections for, (E), 23:49050
interactions n + p at 1.2 to 6.2 MeV, telescope counter search for fluctuating anisotropy in differential cross sections for forward, (E), 23:42552
interactions n + p at 1.5 to 15 MeV, structure in cross sections for, (E), 23:49051
interactions n + p at 10 GeV/c, total cross section for, (E), 25:53086
interactions n + p at 10 to 30 GeV/c, momentum dependence of total cross sections for, (E), 25:50060 (PURC-4159-36)
interactions n + p at 10 to 30 GeV/c, total cross sections for, 25:47734
interactions n + p at 10 to 30 GeV/c, total cross sections for, (E), 25:56421
interactions n + p at 11 to 30 MeV, polarization in, (E), 21:40432 (WASH-1074)
interactions n + p at 14 MeV, anisotropy of diffferential cross section for, (E), 24:45418
interactions n + p at 14 to 27 GeV/c, spark chamber study of total cross sections for, (E), 22:39248 (CERN-68-7(Vol.1), pp 523-36)
interactions n + p at 14 to 27 GeV/c, total cross sections for, (E), 22:17861
interactions n + p at 14.1 MeV, differential cross sections for, (E), 24:20075
interactions n + p at 14.1 MeV, differential cross sections for, (E), 21:17039
interactions n + p at 14.1 MeV, relativistically covariant models for bremsstrahlung cross sections for, (T), 25:56526
interactions n + p at 14.4 MeV with bremsstrahlung production, cross sections for, (E), 25:20257
interactions n + p at 14.4 MeV, elastic scattering cross section for, (E), 23:25806
interactions n + p at 18.2 and 9.9 MeV, simultaneous phase-shift analysis of p + p interactions and, (E/T), 22:11691
interactions n + p at 199 MeV, relative differential cross sections and polarization parameters for, (E), 22:22303
interactions n + p at 2 to 10 GeV in bubble chamber, methods of separation of reaction channels in three- and five-prong, (T), 22:39424 (JINR-P1-3881)
interactions n + p at 2 to 10 GeV in propane bubble chamber, methods for channel separation for, (T), 23:27825
interactions n + p at 2 to 10 GeV, effective cross sections for inelastic, (E), 23:30702
interactions n + p at 2 to 10 GeV, T = 5/2 nucleon isobar production from, (E), 21:17033 (JINR-P1-3146)
interactions n + p at 2 to 10 GeV/c, cross sections of inelastic, (E), 25:30726 (JINR-P1-5665)
interactions n + p at 2 to 20 GeV, methods of separation of reaction channels for, 21:18895 (JINR-P1-3145)
interactions n + p at 2 to 7 GeV/c, differential cross sections for elastic, (E), 24:37626
interactions n + p at 2.5 to 2.8 MeV, differential scattering cross sections for, (E), 23:28236
interactions n + p at 2.5 to 8.8 MeV, survey of angular distribution data for, (E), 23:49042 (KFKI-19/1969)
interactions n + p at 2.6 GeV/c, two-pion-exchange contributions to, 22:46467
interactions n + p at 2.6 MeV, polarization in, (E), 21:21418
interactions n + p at 2.85 GeV, absorption model of charge-exchange, 23:36960
interactions n + p at 20 to 200 MeV, deuteron quadrupole moment from potential, 24:18114 (ITF-69-92)
interactions n + p at 200 MeV, differential cross section and polarization for, (E), 22:53092
interactions n + p at 208 MeV, bremsstrahlung from, (E), 24:52412

interactions n + p at 210 MeV, effect of neutron magnetic moment on, (T), 23:10968
interactions n + p at 210 to 330 MeV, phase shift analysis for, (E), 25:43538
interactions n + p at 23 to 630 MeV, amplitude for elastic, 21:33720
interactions n + p at 23.1 MeV using polarized beam and target, spin correlations of, 21:42259
interactions n + p at 24 MeV, angular distributions for scattering, 24:42873
interactions n + p at 24 MeV, phase-parameter analysis of differential cross sections for, (E/T), 24:3694
interactions n + p at 24.0 MeV, proton recoil angular distributions from elastic, (E), 24:37632
interactions n + p at 25 to 210 MeV, effect of Mott—Schwinger interaction on, (T), 24:24399
interactions n + p at 275 to 1500 MeV, use of on-line computer in wire spark chamber study of elastic, 22:47372 (PPAR-3)
interactions n + p at 3 to 10 GeV, differential cross sections for elastic, (E), 23:10747
interactions n + p at 3 to 12 GeV/c, differential cross sections for charge-exchange, (E), 25:33541
interactions n + p at 3 to 6.8 GeV/c, cross sections for elastic, (E), 22:44325
interactions n + p at 4 to 16 GeV in forward direction, differential cross section for elastic, (E), 23:32613
interactions n + p at 4.0 and 5.7 GeV/c, total cross sections for, (E), 24:15473
interactions n + p at 4.0 and 5.7 GeV/c, total cross sections for, (E), 25:7545
interactions n + p at 40 MeV, differential cross sections for elastic, (E), 21:19173
interactions n + p at 400 and 630 MeV, design of experiments for, 21:25231
interactions n + p at 5 to 30 GeV/c, differential cross sections for, (E), 25:40874
interactions n + p at 50 to 1000 MeV, one-pion exchange amplitude interference in charge-exchange, (T), 24:52120
interactions n + p at 50 to 635 MeV, T-invariance violation in, 25:33773
interactions n + p at 510 and 600 MeV, spark chamber spectrometer study of Wolfenstein triple scattering parameters for, (E), 25:36397
interactions n + p at 510 and 600 MeV, Wolfenstein triple scattering parameters for, (E), 24:30441 (UCRL-19705)
interactions n + p at 525 and 600 MeV at 65 to 180°, transfer depolarization parameter for, (E), 25:19904
interactions n + p at 630 MeV, spin correlation tensor for polarized, (T), 22:11692
interactions n + p at 7 to 15 GeV/c, quark model with Regge pole amplitude for charge-exchange, 21:40200
interactions n + p at 7 to 750 MeV, phase-shift analysis of, 22:50417
interactions n + p at 700 to 2900 MeV/c, direct measurement of total cross sections for, (E), 25:9648
interactions n + p at 700 to 2900 MeV/c, production of D*(2180) and total cross sections for, (E), 24:49315 (PURC-4159-7)
interactions n + p at 735 MeV, phase shift analysis of elastic, 24:3702
interactions n + p at 8 GeV/c, polarization analyzer or polarized beam source from charge-exchange, 21:42389
interactions n + p at 8 to 21 GeV/c, total cross sections for, (E), 24:30446
interactions n + p at 8 to 30 GeV/c, differential cross sections for elastic, (E), 24:10667
interactions n + p at 9.7 to 18.2 MeV, phase-shift analysis for, 21:37848
interactions n + p at 90° at high energies, ratio of cross sections for elastic, (T), 25:47895
interactions n + p at high energies, 22:3371
interactions n + p at high energies, moving two-Reggeon cut contribution to amplitude of charge-exchange, (T), 24:20179
interactions n + p at high energies, polarization experiments for test of long-range meson (π) exchange in charge-exchange, (E), 24:12937
interactions n + p at high energies, Regge-pole eikonal theory for small-angle, 24:37814
interactions n + p at high energies, total cross sections for, (E), 22:22299
interactions n + p at low energies in singlet and triplet states, spherically symmetric potentials for, (T), 25:22854
interactions n + p at low energies, scattering amplitudes for, (E), 25:59696
interactions n + p at low energy, deuteron constraints on scattering parameters for, (T), 24:24394
interactions n + p at low energy, s-d coupling parameter in, (E), 21:23403 (LA-DC-8639)
interactions n + p below 10 GeV in propane bubble chamber, resonances in dibaryon states with S = -1 and S = 0 from, 21:33603
interactions n + p below 10 MeV, analysis of angular distribution data for, 23:21052
interactions n + p below 11 GeV/c in propane bubble chamber, effective mass spectrum for Λp system from, 21:18897 (JINR-P1-3169)
interactions n + p below 30 MeV, P phase for correction at 180° for, (T), 25:53223 (CONF-701002-, pp 27-41)
interactions n + p below 350 MeV, phase shift analysis of, (T), 25:14734
interactions n + p below 350 MeV, potential consistent with boson exchange theory of nuclear forces for, 22:44451
interactions n + p below 400 MeV, one-meson-exchange contributions to, (T), 24:40412
interactions n + p below 8 MeV, fluctuations in energy dependence of cross sections for, (E), 23:21053
interactions n + p from deuterium (n,p2n) reactions at 14.1 MeV, singlet scattering lengths for, (E/T), 25:12367
interactions n + p from p + d interactions at 197 MeV, triplet-scattering parameters for, (E), 21:37693
interactions n + p in d + p → p + p + n interactions at 52 MeV, time-of-flight study of parameters for final-state, (E), 24:3508 (KFK-1012)
interactions n + p in deuterium (p,pn) reactions, final-state, (E), 22:11903
interactions n + p in deuteron breakup by protons, quasifree, (E), 24:15785
interactions n + p in heavy nuclei, (T), 21:4335
interactions n + p in heavy nuclei, (T), 21:4334
interactions n + p in hydrogen (d,2p) reactions at 51 MeV, final-state, (E), 21:33877
interactions n + p in light nuclei, analysis using Green's function, 23:47082
interactions n + p in A-H^3 hyperfragment, effect of Λ + p parameters from tensor, (T), 22:22412
interactions n + p in neutron reactions (n,nnp) with deuterium at 14 MeV, spectrometer study of cross sections and spectra for final-state, (E), 25:43533 (CEA-R-4150)
interactions n + p in nuclear shell-model configurations, (T), 23:52120 (UCRL-18667, pp 65-132)
interactions n + p in nuclei, behavior near critical point, (T), 23:21380 (ZFK-130, pp 184-5)
interactions n + p in nuclei, generalized BCS method for, (T), 23:21379 (ZFK-130, pp 182-3)
interactions n + p in nuclei, residual surface delta, (T), 23:47044 (SGAE-PH-77/1968)
interactions n + p in odd—A nuclei, (T), 21:31842
interactions n + p in organic single crystals, effective cross sections for, (E), 22:9921 (JUL-Conf-1)
interactions n + p in p(d,2p)n and d(p,2p)n reactions, final-state, (E), 24:15783
interactions n + p in triplet-S state, nonrelativistic sum rules for calculating deuteron binding energy from, 21:40235 (LPTHE-TH-209)
interactions n + p in tritium (He-3,np) reactions, final-state, (E), 23:1784
interactions n + p near 25 MeV, phase-shift analysis of, 21:21615
interactions n + p to 350 MeV, phenomenological phase-parameter fits to, 22:15817
interactions n + p up to 200 MeV, variational calculation of S-wave phase shifts and differential cross sections for, (T), 23:46742
interactions n + p up to 750 MeV, phase-shift analysis of, (E/T), 23:19341 (UCRL-71145)
interactions n + p, amplitude of weak, (E), 21:38346
interactions n + p, broken exchange-degenerate Regge-pole model for charge-exchange, 25:7652
interactions n + p, calculation of scattering length using finite square-well potential, 23:15525
interactions n + p, charge-state oscillations in cross sections for, (E/T), 23:39744 (KFKI-10/1969)
interactions n + p, coherent inelastic contributions to absorptive corrections for charge-exchange, 24:37813
interactions n + p, comparison of R-matrix and S-matrix theories for threshold resonances in scattering, (T), 25:1713
interactions n + p, conspiracy among Regge trajectories for forward charge exchange, 21:37776(R) (UCR-34-P-107-49)
interactions n + p, contribution of moving cuts to amplitude for forward charge-exchange, 23:34614
interactions n + p, design of specifying and discriminating experiments for, 21:23307 (JINR-E1-3066)
interactions n + p, deuteron form factor in S-matrix formalism for, 23:25555
interactions n + p, effective range determination from neutron resonance studies below 5 MeV, (E), 23:1796
interactions n + p, eikonal model for large-angle elastic, 25:14737
interactions n + p, electromagnetic and weak, (T), 21:23314 (BNL-994, pp 70-102)
interactions n + p, generalization of determinant method to continuous channels for S-matrix for, 22:20348
interactions n + p, kinematic constraints on Regge-pole residues for charge-exchange, 22:11683
interactions n + p, modification of maximum-likelihood method for handling data from spark chamber study of polarization in, (E), 25:22848
interactions n + p, multiple quark scattering analysis for energy and momentum transfer square dependencies of differential cross sections for charge exchange, (E), 25:43615
interactions n + p, multiple-quark-scattering analysis of charge-exchange, 25:47833
interactions n + p, parity violating effects in, 25:17545
interactions n + p, program for phase shift calculations for real and realistic potentials for, 21:17134 (AECD/TP-15)
interactions n + p, π instability effects on, (T), 21:37851
interactions n + p, review of pion exchange in charge-exchange, 22:24684
interactions n + p, scattering length for, (E), 23:15346(R) (ORO-1316-70)
interactions n + p, scattering length for, (E), 23:39935
interactions n + p, scattering parameters from helium-3 (t,α) final-state, (E), 23:32893(R) (ORNL-4404)
interactions n + p, soft core potential model for fitting $^1S_0$ phase shift data for scattering, 23:49467
interactions n + p, soft-core potential model for, (T), 24:13034
interactions n + p, SU(3) relations between cross sections for Σ^+ + p interactions and, 21:35318
interactions n + p, systematics of residual, 25:34182
interactions n + p, total and differential cross sections for elastic, (E), 23:10817
interactions n + p, uncertainties in theory of liquid mirror determination of coherent scattering length for, 23:42698
interactions n + p, use of sum rules for calculating deuteron binding energy from triplet-S phase-shift in, 22:11689
interactions τ + n → l + p, spectra of heavy leptons from, (T), 22:48277 (IFVE-SEF/STF-68-6-K)
interactions τ + n → e + n + π, S-matrix formulation of current algebra for soft meson (π) production in, 23:39682
interactions τ + n → e^- + p + π^0 at Breit threshold, current algebra prediction for differential cross sections for, 23:39676
interactions τ + n → eta + N^{0*} + μ^-, cross section for, (T), 23:3687
interactions τ + n → l^- + p at high energies, cross sections for, 21:15309
interactions τ + n → μ + p, implications of existence of heavy resonance in, 24:52040
interactions τ + n → μ^- + n + π^+, PCAC hypothesis and Born approximation calculation of cross sections for, 22:11631
interactions τ + n → μ^- + p + eta, effect of second-class currents on, (T), 21:4031
interactions τ + n → μ^- + p + π^0 at Breit threshold, current algebra prediction for differential cross sections for, 23:39676
interactions τ + n → μ^- + p + π^0, PCAC hypothesis and Born approximation calculation of cross sections for, 22:11631
interactions τ + n → μ^- + p + X^0, effect of second-class currents on, (T), 21:4031
interactions τ + n → μ^- + p at 0.5 to 5 GeV, energy dependence of cross section as function of form factors for, (T), 24:52036 (TID-25473(Vol.4), pp 227-30)
interactions τ + n → μ^- + p at high energies in nuclei, W effects in, (T), 22:29669
interactions τ + n → μ^- + p at multi-GeV energies in spark chamber, 21:37670 (NEVIS-158)
interactions τ + n → μ^- + p in Veneziano model, (μ + n) resonance in, 25:59395
interactions τ + n → μ^- + p, Fermi gas model for nuclear effects in, 23:15054
interactions τ + n → μ^- + p, model for, (T), 25:40954
interactions τ + n → μ^- + p, μ^-p and μ^+n resonances and duality in Veneziano model for, (T), 25:45707 (OU-LNS-71-3)
interactions τ + n → μ^- + p, spark-chamber study of, (E), 22:48217
interactions τ + n → μ^- + p, unitarity bound on transverse polarization in, (T), 24:45479
interactions τ + n → μ^- + π^0 + p in propane bubble chamber, axial form factor for, 23:25503 (CERN-69-7, pp 43-59)
interactions τ + n → μ^- + π^0 + p near Δ(1236) resonance, cross sections for, 25:53126
interactions τ + n → μ^- + π^+ + n in propane bubble chamber, axial form factor for, 23:25503 (CERN-69-7, pp 43-59)
interactions τ + n → μ^- + π^- + π^+ + p at 1 to 50 GeV, isobaric model with N(1518) exchange for total and differential cross sections for, 24:13014
interactions τ + n → μ^+ + Σ^-, cross section for, 22:7484
interactions τ + n → n + τ, cross sections for, 24:49428
interactions τ + n → p + e^- at high energies, T violation in, (T), 22:53006
interactions τ + n → p + e^-, heavy e production in, (T), 22:44384 (IFVE-STF-67-57-K)
interactions τ + n → p + l, model for total and differential cross sections for, (T), 25:40954
interactions τ + n → p + l^-, weak boson theory for, 23:5581
interactions τ + n → p + μ^- + ..., form factor effects on total cross section for, 23:25581 (JINR-E2-4370)
interactions τ + n → p + μ^- above 300 MeV/c, spark chamber study of cross section versus momentum transfer for, (E), 23:25515
interactions τ + n → p + μ^- at high energies, search for V + A currents in cross sections for, (E/T), 24:42868
interactions τ + n → p + μ^-, evidence for second-class currents from proton polarization in, (T), 25:56472
interactions τ + n → p + μ^-, form factors for spark chamber study of cross sections for, (E), 24:15457 (CERN-69-28, pp 111-24)
interactions τ + n → p + μ^-, independent-particle models for, 22:48286
interactions τ + n → p + μ^-, production and lower bound for mass of heavy μ in, (T), 22:44384 (IFVE-STF-67-57-K)
interactions τ + n → p + π^0 + l^- at high energies, use of current algebra for, 21:25272
interactions τ + n → rho + μ^- at high energies, radiative corrections to, 22:11642
interactions τ + n at high energies, U(12) symmetry for baryon production in, 21:17152
interactions τ + n, asymptotic equality with anti τ + n interactions for cross sections for multiple hadron production from, (T), 22:17910 (JINR-P2-3647)
interactions τ + n, review of double π production in, (E), 25:25293
interactions τ/sub μ/ + n → μ^- + p in heavy-liquid bubble chamber, nucleon axial-vector form factor and cross sections from, 21:33591 (CERN-67-12)
interactions τ/sub μ/ + n → p + μ^-, spin dependence of, (T), 22:11635
interactions of primary cosmic, in the atmosphere, (T), 22:5176
interactions of unpolarized, with intense electromagnetic waves, (T), 23:1576
interactions p + n → d + γ, total cross section for, (T), 21:42396
interactions p + n → Δ^- + Δ^{++} at 3.7 and 7.0 GeV/c, nonexotic kinematic interpretation of exotic forward Δ^- production in, (T), 24:51949
interactions p + n → Δ^- + p + π^+ at 3.7 and 7.0 GeV/c, nonexotic kinematic interpretation of exotic forward Δ^- production in, (T), 24:51949

interactions p + n → $\Delta^-(1236)$ + $\Delta^{++}(1236)$ at 6.98 GeV/c in deuterium bubble chamber, exotic and double meson exchange in, (E), 24:37630
interactions p + n → $\Delta^+(1246)$ + A, ΔT = 1/2 rule for, 21:33703
interactions p + n → $\Delta^{++}(1236)$ + $\Delta^-(1236)$ at 6.98 GeV/c cross sections and decay correlations for, (E), 25:3265
interactions p + n → μ^+ + μ^- + hadrons, cross sections for, 24:5319
interactions p + n → n + p at 2 to 8 GeV/c, Born approximation for, (E/T), 24:40419
interactions p + n → n + p at 8 GeV/c, Regge-pole model with diffractive correction for, 24:18224
interactions p + n → n + p at high energies and small angles, Regge pole eikonal theory for differential cross sections for, 24:10777 (SU-1206-211)
interactions p + n → n + p at high energies, Regge pole models with branching in j-plane for differential cross sections of, 22:39377
interactions p + n → n + p at high energies, Veneziano model for, (T), 25:1569
interactions p + n → n + p, complex momenta method with branching in j-plane for differential cross sections of, (T), 25:20017(T) (CERN-Trans-70-15)
interactions p + n → n + p, conspiracy of singularities in complex angular momentum plane for, 22:11688
interactions p + n → n + p, differential cross sections for, (T), 23:5615
interactions p + n → n + p, invariant functions in Regge pole model for structure of, 24:3692
interactions p + n → n + p, π conspiracy in, 23:8762 (INP-622(Vol.1), pp 28-38)
interactions p + n → n + p, Regge pole model for invariant functions for, 23:51952
interactions p + n → n + p, Regge-pole analysis of, 22:5603
interactions p + n → n + p, singular Regge pole model for, (T), 23:19995
interactions p + n → p + n + $2\pi^+$ + $2\pi^-$ + π^0 at 2 to 10 GeV in propane bubble chamber, N_1^* production from, (E), 21:44265
interactions p + n → p + n + γ at 197 MeV in deuterium, bremsstrahlung from, (E), 21:27303
interactions p + n → p + n + γ at low energies, cross sections for, (T), 24:40303
interactions p + n → p + n + γ, calculation of cross sections for, 23:25549
interactions p + n → p + n + γ, Kroll—Ruderman theorem for ratio of total cross sections relative to p + p → p + p + γ interactions for, 23:32656
interactions p + n → p + n + γ, potential model calculations of cross sections for, 23:8779
interactions p + n → p + n + γ, relativistic and gauge-invariant calculations of cross sections for, 23:42599
interactions p + n → p + n + π^+ + π^- at 3.7 GeV/c, cross sections for $\Delta(1236)$ production in, (E), 25:1404
interactions p + n → p + n + π^+ + π^- at 3.7 GeV/c, exchange mechanism for Δ^{++} and Δ^- production in, (E), 22:24542
interactions p + n → p + n + π^+ + π^- at 3.7 GeV/c, exchange mechanism, (E), 22:35293(R) (ORNL-4230)
interactions p + n → p + n + π^+ + π^- at 6.98 GeV/c in deuterium bubble chamber, exotic and double meson exchange for $\Delta^-(1236)$ and $\Delta^{++}(1236)$ production in, (E), 24:37630
interactions p + n → p + n + π^+ + π^-, I = 1 meson exchange diagram for rho^0 production in, 25:14741
interactions p + n → p + n at 0.050 to 200 GeV, real part of amplitude of, (T), 22:39403 (JINR-P2-3850)
interactions p + n → p + n at 3 to 10 GeV in propane bubble chamber, differential and total cross sections for, (E), 22:17855
interactions p + n → p + n at high energies and fixed momentum transfer, asymptotic expansion of amplitudes for polarization in, (E), 22:37143
interactions p + n → p + n at high energies and small angles, Regge pole eikonal theory for differential cross sections for, 24:10777 (SU-1206-211)
interactions p + n → p + n at high energies, predictions of quark model for large-angle, 23:21096
interactions p + n → p + n in deuterium target, cross section ratio to p + p → p + p interactions for, (E), 25:25304
interactions p + n → p + n interactions at 612 MeV, spark chamber study of depolarization in, (E), 25:36390 (JINR-P1-5743)
interactions p + n → p + n, comparison of models with conspiracy and cuts for differential cross sections of, (T), 24:13118 (ITF-69-69)
interactions p + n → p + n, final-state interactions in γ + d → p + n interactions for, (T), 24:52118
interactions p + n → p + n, use of Lorentz group in Regge pole analysis of, (T), 22:50321 (UCRL-18377)
interactions p + n → p + p + π^- + π^0 at 3.7 GeV/c, cross section for $\Delta(1236)$ production in, (E), 25:1404
interactions p + n → p + p + π^+ at 3.7 GeV/c, cross sections for $\Delta(1236)$ production in, (E), 25:1404
interactions p + n → p + p + π^- at 7 GeV/c, Pomeron-exchange contribution to, 25:47893
interactions p + n → p + p + π^- near threshold, cross sections for, (T), 23:44675
interactions p + n → p + π^+ + π^- + n in neon—hydrogen bubble chamber, coherent production of p$\pi^+\pi^-$(1470) enhancement in, (E), 22:41729 (BNL-12674)
interactions p + n above 1 GeV, multiplicity distributions of charged secondary particles in, (E), 22:52931 (KFKI-20/1968)
interactions p + n above 2 GeV/c, effect of charge-exchange mechanism on cross sections for, 21:29570
interactions p + n and p + p at 12.4 GeV/c using liquid deuterium target, cross section ratio for elastic, (E), 25:3266
interactions p + n and p + p at 3 to 7 GeV/c, comparison of differential cross sections for elastic, 22:44454
interactions p + n and protons at high energies, quark-droplet model for, (E/T), 21:924
interactions p + n at 0 to 750 MeV, listings of data for, 22:37161 (UCRL-50426)
interactions p + n at 0.5 to 70 GeV/c, compilation of cross sections, angular distributions, and polarizations for, (T), 25:19899 (UCRL-20000-NN)
interactions p + n at 1 GeV, ratio of real to imaginary parts of amplitude for, (E), 23:44595
interactions p + n at 1 to 10 GeV at small angles, tables of differential cross sections for real part of amplitude for, (E), 22:17852 (JINR-P1-3641)
interactions p + n at 1 to 10 GeV, Glauber deuteron model for real part of amplitude of, (T), 22:22411(T) (SLAC-Trans-80)
interactions p + n at 1 to 10 GeV, real part of amplitude of, (E/T), 22:48221
interactions p + n at 100 keV to 1 GeV, bibliography on, (E/T), 22:52937 (LA-4002)
interactions p + n at 147 MeV, effective cross sections for, (E), 21:4058 (JINR-E1-2953)
interactions p + n at 147 MeV, phase analysis of, 21:40242
interactions p + n at 15 to 60 GeV/c, total cross sections for, (E), 25:53014
interactions p + n at 19.8 GeV/c in emulsions, (E), 22:48330
interactions p + n at 19.8 GeV/c in emulsions, N^* production in, (E), 22:39259
interactions p + n at 195 to 215 MeV, review of bremsstrahlung and elastic, 21:37681
interactions p + n at 2 to 10 GeV, neutron spectra and cross sections of inelastic, (E), 23:44590(T) (KFK-tr-287)
interactions p + n at 2 to 10 GeV, neutron spectra and cross sections of inelastic, (E), 22:46323 (JINR-P1-3909)
interactions p + n at 2.0 MeV, phase shift analysis for, 21:35316 (JINR-E2-3345)
interactions p + n at 20.8 GeV/c in emulsions, angular distributions and asymmetry coefficients for, (E), 25:33549
interactions p + n at 215 MeV, multi-element scintillation telescope study of asymmetries from double and triple scattering experiment for, (E), 22:20134
interactions p + n at 22.8 GeV/c, distribution of shower particles from, (E), 25:36392
interactions p + n at 24 GeV in emulsions and hydrogen bubble chamber, energy spectra and transverse-momentum distributions for π and p and baryon resonance production in, (E), 25:5276
interactions p + n at 25 and 140 MeV, phase-shift analysis of elastic, 21:37691
interactions p + n at 25 MeV, review of polarization and spin correlation measurements from, (E), 21:37688
interactions p + n at 28 GeV, production and decay of W boson in, (E), 25:38654
interactions p + n at 310 to 700 MeV, polarization parameter for, (E), 22:5503
interactions p + n at 400 MeV, unambiguous phase shift analysis and phase shift energy dependence for, 22:20271 (JINR-E1-3707)
interactions p + n at 425 MeV, triple scattering parameters for, (E), 23:5533
interactions p + n at 600 MeV, scintillation counter study of differential cross sections for mesons (π^-) and (π^+) production in, (E), 23:51856 (CERN-69-24)
interactions p + n at 605 and 630 MeV, triple scattering parameter, polarization, and phase-shift analysis for, 21:17037
interactions p + n at 605 MeV at 55 to 125°, Wolfenstein parameter and polarization in, (E), 25:17375
interactions p + n at 8 GeV, real part of amplitude for, (E/T), 22:1381
interactions p + n at 8 GeV/c, charge exchange, (E), 21:33806 (RHEL/R-129, pp 11-44)
interactions p + n at 8 to 340 MeV, phenomenological phase-parameter multiple energy fits for, 21:37847
interactions p + n at 9.7 and 18.2 MeV, phase shift analysis of, 21:3978 (JINR-E1-2969)
interactions p + n at 960 to 1065 MeV, differential cross sections for electron pair production in, (T), 24:10785
interactions p + n at 960 to 1065 MeV, differential cross sections for electron pair production in, (T), 24:10785
interactions p + n at 991 MeV, angular distributions and cross sections for elastic and quasi-elastic, (E), 21:27302
interactions p + n at high energies, 36-plet 2$^+$ meson exchange for total cross section for, 22:5626
interactions p + n at high energies, compilation of cross sections for, (E), 25:17369 (CERN-HERA-70-2)
interactions p + n at high energies, cross sections for charge exchange, (E), 22:17858
interactions p + n at high energies, cross sections for elastic, (E), 22:17858
interactions p + n at high energies, differential cross sections for, (E/T), 24:18231
interactions p + n at high energies, multiple particle production in, 21:7502
interactions p + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions p + n at high energies, Regge-pole theory of elastic and charge-exchange, 21:25317
interactions p + n at high momentum transfer, analysis of elastic, 21:27383
interactions p + n at intermediate energies, review of amplitudes for, 21:37683
interactions p + n at low energies, relation between deuteron binding energy and phase shift for, (T), 25:20022
interactions p + n at very high energies, unitary symmetry tests from large-angle elastic and charge-exchange, 21:25325
interactions p + n below 350 MeV, boundary condition model interaction for, 21:37853
interactions p + n below threshold to 72 GeV, multiplicity distribution of charged secondaries from, 23:32619
interactions p + n from p + d → p + p + n interactions at 89 MeV, total cross sections for, (E), 23:18802
interactions p + n in A = 90 to 140 nuclei, effective, (T), 23:17112
interactions p + n in helium-4 (p,He-3) and (p,t) reactions at 156 MeV, final-state, (E), 21:44555
interactions p + n in nuclei, research using odd-odd spherical nuclei, (E/T), 22:1693
interactions p + n in p + d quasi-elastic interactions at 19.2 GeV/c and 0.06 to 1.6 (GeV/c)^2 momentum transfer, differential cross sections for, (E), 24:10670
interactions p + n neutron form factor from diffraction model of elastic, 22:44383
interactions p + n, charge asymmetry effects from meson mixing in, (T), 21:37865
interactions p + n, chiral U(2) x U(2) symmetry for current x current structure of, 24:3686
interactions p + n, contribution of π branching to amplitude of charge-exchange, 23:30769
interactions p + n, current algebra and Regge pole theory for, 21:29522
interactions p + n, determination of coupling constants from π and A + Σ poles in, (T), 22:32154
interactions p + n, effect of double-scattering corrections to Glauber model for p + d interactions on amplitudes for, 24:3693
interactions p + n, effect of π mass differences on phase parameters for, 24:40424
interactions p + n, inelastic, (E/T), 22:39262
interactions p + n, meson exchange theory for, 21:37854
interactions p + n, meson—nucleon coupling constants from forward dispersion relations for, 22:24683
interactions p + n, model with transverse momentum and Mandelstam representation for, 21:4060
interactions p + n, multiple-energy phase-parameter analysis and effective range for charge independence of, (T), 23:42697
interactions p + n, phase shift calculations for effective range parameters for, 21:37835
interactions p + n, Regge pole fits to cross sections for, 23:15095
interactions p + n, Regge pole model of charge-exchange, 23:5605
interactions p + n, Regge pole theory for charge-exchange, 23:5596
interactions p + n, scattering length for final-state, (E), 23:7082
interactions p + n, scattering length for, (E), 22:20443
interactions p + n, scattering lengths for, (E), 24:40552
interactions p + n, scattering matrix for relativistic, (T), 21:4065
interactions p + n, short- and long-range charge independence in, 22:37165
interactions p + n, soft-photon theory of bremsstrahlung production in, 22:37116
interactions p + n, systematic study of p + d → p + p + n interactions for scattering lengths for, (E), 24:37621 (KFK-1172)
interactions p + n, test of charge independence of nuclear forces from, 23:52175
interactions p + n, three-quark corrections to quark model for deviations from exact exchange degeneracy for total cross sections of, (T), 24:10770
interactions p + p, scattering lengths for, (E), 24:40552
interactions π + n above 1 GeV, multiplicity distributions of charged secondary particles in, (E), 22:52931 (KFKI-20/1968)
interactions π + n at 17 GeV in emulsions, angular momentum and momentum transfer squared in inelastic, (E), 22:44324
interactions π + n at high energies, asymptotic summation of ladder diagrams for amplitudes of, 21:21208
interactions π + n in meson (π^-) reactions with nuclei at 60 GeV in emulsions, properties of, (E), 24:10673
interactions π + N, functional methods for infrared divergence in radiative corrections to forward, 23:42726
interactions π + n, phase of scattering amplitude from π + d interactions and Glauber formula, 22:50407
interactions π^0 + n with pseudovector coupling, Green functions in theory of local unrenormalizable, 24:10695
interactions π^+ + 2n → π^- + 2p in helium at 610 MeV, (E/T), 22:32067
interactions π^+ + n → A_1^0 + n, t-channel helicity in, 25:47889
interactions π^+ + n → $\Delta^{++}(1236)$ + π^- at 1.1 to 2.3 GeV/c in deuterium bubble chamber, $\Delta^{++}(1236)$ production and baryon exchange in, (E), 24:1515 (UCRL-19339)
interactions π^+ + n → eta + p at 1.1 to 2.4 GeV/c, Regge parametrization using Veneziano-type residue functions for, (E/T), 24:1523
interactions π^+ + n → eta + p at 930 MeV/c in heavy liquid bubble chamber, (E), 22:48208
interactions π^+ + n → K^0 + π^+ + A at 1.8 to 4.2 GeV/c in bubble chamber, single-meson exchange for forward peaks in differential cross sections for $\Sigma^*(1385)$ production in, (E), 23:42573
interactions π^+ + n → K^0 + Σ^+ at 2.5 GeV/c in deuterium bubble chamber, strange particle production from, 21:35266 (COO-1195-94)
interactions π^+ + n → K^+ + K^- + p at 2.15 GeV/c in deuterium bubble chamber, search for, (E), 23:44602
interactions π^+ + n → K^+ + K^- + p at 2.7 GeV/c, A(1520) production in, (E), 24:12949

interactions $\pi^+ + n \rightarrow K^+ + \Lambda$ and $K^- + n \rightarrow \pi^- + \Lambda$, duality and exchange degeneracy from finite-energy sum rules, 25:59501
interactions $\pi^+ + n \rightarrow K^+ + \Lambda$ at 2.5 GeV/c in deuterium bubble chamber, strange particle production from, 21:35266 (COO-1195-94)
interactions $\pi^+ + n \rightarrow K^+ + \Lambda$ at high energies, exchange-degenerate Regge-cut model for, 25:50143
interactions $\pi^+ + n \rightarrow K^+ + \Lambda$ in nuclei, tests of unitary symmetry by, 21:33750
interactions $\pi^+ + n \rightarrow K^+ + \Sigma^0$ at 2.5 GeV/c in deuterium bubble chamber, strange particle production from, 21:35266 (COO-1195-94)
interactions $\pi^- + n \rightarrow \Lambda^0 + K^0 + \pi^+$ at 7 GeV/c, $K^*(890)$ and $K^*(1420)$ production in, (E), 25:40898
interactions $\pi^- + n \rightarrow \Lambda^0 + K^+ + \pi^0$ at 7 GeV/c, mass spectrum from, (E), 25:40898
interactions $\pi^+ + n \rightarrow \Lambda^0 + K^+$ at 5.1 GeV/c, Λ polarization in, (E), 25:12100 (NP-18629)
interactions $\pi^+ + n \rightarrow n + \pi^+ + \pi^+ + \pi^-$ at 11.7 GeV/c, helicity conservation in, (E/T), 25:53032
interactions $\pi^+ + n \rightarrow N^+ + \pi^+ + \pi^-$ at 5.0 and 9.0 GeV/c, longitudinal phase space analysis of, (E/T), 25:25449
interactions $\pi^- + n \rightarrow \omega + p$ above 3 GeV/c, ω production and decay in, (T), 21:4052
interactions $\pi^+ + n \rightarrow \omega + p$ at high energies, Lorentz pole in O(3,1) symmetry for, 24:18215
interactions $\pi^+ + n \rightarrow \omega + p$ at high energies, quark model predictions for, 23:21106
interactions $\pi^+ + n \rightarrow \omega + p$, absorption corrections and B-exchange for secondary contribution to, (E/T), 25:41010
interactions $\pi^+ + n \rightarrow \omega + p$, Regge pole model with cuts generated by absorption for, (T), 23:8812
interactions $\pi^+ + n \rightarrow \omega + p$, Regge-pole model with L—S coupling for, 22:20264
interactions $\pi^+ + n \rightarrow \omega$(rho) + p interactions at 2.7 GeV/c in bubble chamber, (E), 24:12951
interactions $\pi^+ + n \rightarrow \omega^0 + p$ at 4.19 GeV/c, differential cross sections for, (E), 23:46614
interactions $\pi^+ + n \rightarrow p +$ eta' at 1.1 to 2.4 GeV/c in deuterium bubble chamber, cross sections and angular distributions for, (E), 25:19923
interactions $\pi^+ + n \rightarrow p +$ eta' at 1.1 to 2.4 GeV/c in deuterium bubble chamber, cross sections and production of eta' in, (E), 24:18078 (UCRL-19431)
interactions $\pi^+ + n \rightarrow p +$ eta at 1.40 to 1.65 GeV in deuterium bubble chamber, cross sections for N(1680) and N(1688) production in, (E), 23:46617
interactions $\pi^+ + n \rightarrow p +$ eta', Regge pole model for coupling constant ratio with $\pi + N \rightarrow N +$ eta interactions for eta—eta' mixing angle in, 24:37778 (COO-1428-214)
interactions $\pi^+ + n \rightarrow p +$ f at 5.1 GeV/c, cross sections and spin-density matrix elements for, (E), 24:15490
interactions $\pi^+ + n \rightarrow p +$ g at 5.1 GeV/c, cross sections and spin-density matrix elements for, (E), 24:15490
interactions $\pi^+ + n \rightarrow p + K^+ + K^-$ at 1.1 to 2.4 GeV/c in deuterium bubble chamber, Λ(1520) production and angular distributions for phi(1020) production in, (E), 23:46613 (UCRL-19263)
interactions $\pi^+ + n \rightarrow p + K^+ + K^-$ at 1.1 to 2.4 GeV/c, Λ(1520) production in, (E), 24:45408
interactions $\pi^+ + n \rightarrow p + K^+ + K^-$ at 5.4 GeV/c, cross sections for resonance production in, (E), 25:33566
interactions $\pi^- + n \rightarrow p + k\pi$, proton momentum spectra from duality diagrams for, 25:53193
interactions $\pi^+ + n \rightarrow p +$ meson resonance at 5.1 GeV/c in deuterium bubble chamber, quasi two-body process in, (E), 22:39275 (CERN-68-7(Vol.2), pp 135-49)
interactions $\pi^+ + n \rightarrow p + m\gamma$ at 2.15 GeV/c in deuterium bubble chamber, $2\pi^0$ final state, eta, ω, and eta' production and s-wave $\pi + \pi$ interactions in, (E), 25:43562
interactions $\pi^+ + n \rightarrow p +$ neutrals at 1.1 to 2.3 GeV/c in deuterium bubble chamber, search for epsilon^0(730) in, (E), 24:1515 (UCRL-19339)
interactions $\pi^+ + n \rightarrow p + \omega$ at 5.1 GeV/c, cross sections and spin-density matrix elements for, (E), 24:15490
interactions $\pi^- + n \rightarrow p + \pi^0 + \pi^0$ at 2 GeV/c, $\pi^0\pi^0$ mass spectrum from, (E), 23:42561
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^- + \pi^0$ at 1.83 to 2.33 GeV/c in deuterium bubble chamber, baryon exchange and ω^0, eta^0, and $\pi^+\pi^-\pi^0$(1050) production in, (E), 25:43556
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^- + \pi^0$ at 2.15 GeV/c in deuterium bubble chamber, baryon exchange and resonance production in, (E), 23:44602
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^- + \pi^0$ at 3.29 GeV/c in deuterium bubble chamber, properties of neutral A mesons from, 21:23311
interactions $\pi^- + n \rightarrow p + \pi^+ + \pi^- + \pi^0$ at 5 GeV/c, $p\pi^-$ enhancements in, (E), 22:29633
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^- + \pi^0$ at 5 GeV/c, $p\pi\pi$ enhancements in, (E), 22:29632
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^- + \pi^0$ at 5.4 GeV/c, cross sections for A_1^+, eta^0, ω^0, rho^0, and Δ(1236) production in, (E), 25:33566
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^- + \pi^0$ at 6.95 GeV/c in deuterium bubble chamber, differential cross sections and density matrix elements for ω production in, (E), 25:17395
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^- + \pi^0$ at 9 GeV/c in deuterium bubble chamber, A_1^0, A_3^0, and P resonant state in (rho π)^0 system in, (E), 24:47386
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^+ + \pi^- + \pi^- + \pi^0$ at 7 GeV/c in deuterium bubble chamber, search for I = 2 multipion resonances in, (E), 22:52938
interactions $\pi^- + n \rightarrow p + \pi^+ + \pi^+ + \pi^+ + \pi^-$ at 7 GeV/c in deuterium bubble chamber, search for I = 2 multipion resonances in, (E), 22:52938
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^-$ at 1.40 to 1.65 GeV in deuterium bubble chamber, cross sections for N(1470) and N(1518) production in, (E), 23:46617
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^-$ at 1.83 to 2.33 GeV/c in deuterium bubble chamber, baryon exchange and rho^0 production in backward, (E), 25:43556
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^-$ at 2 GeV/c, delta^0 $\pi^+\pi^-$ phase shifts from, (E), 23:42561
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^-$ at 2.15 GeV/c in deuterium bubble chamber, baryon exchange and resonance production in, (E), 23:44602
interactions $\pi^- + n \rightarrow p + \pi^- + \pi^-$ at 2.26 GeV/c, N(1667) production and decay in, (E), 24:12958
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^-$ at 5.1 and 9.0 GeV/c, longitudinal phase space analysis of, (E/T), 25:25449
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^-$ at 5.4 GeV/c, cross sections for rho^0 and f^0 production in, (E), 25:33566
interactions $\pi^+ + n \rightarrow p + \pi^+ + \pi^-$, Veneziano amplitude for neutral dipion distributions in, 24:37779 (COO-1428-219)
interactions $\pi^+ + n \rightarrow p +$ rho at 5.1 GeV/c, cross sections and spin-density matrix elements for, (E), 24:15490
interactions $\pi^+ + n \rightarrow p + S^0$, elimination of background for, (T), 25:20009
interactions $\pi^+ + n \rightarrow p + x^0$, $\pi^0\pi^0$ effective mass distribution effects on observation of S^0 production in, (T), 23:36930 (KFKI-13/1969)
interactions $\pi^+ + n \rightarrow \pi^0 + p$, ratio of amplitudes with $\gamma + p$ amplitudes for, 21:37747
interactions $\pi^+ + n \rightarrow \pi^0 + \pi^0 + p$ at 2.34 GeV/c in xenon bubble chamber, search for ($\pi^0\pi$pi^0) resonance in, (E), 23:42564
interactions $\pi^+ + n \rightarrow \pi^0 + \pi^0 + p$ at 2.34 GeV/c, ($\pi^0\pi^0$) effective mass spectrum in, (E), 25:7556
interactions $\pi^+ + n \rightarrow \pi^0 + \pi^0 + \pi^+ + n$ at 2.34 GeV/c, ($\pi^0\pi^0$) effective mass spectrum in, (E), 25:7556
interactions $\pi^+ + n \rightarrow \pi^- + \Delta^{++}$(1236), rescattering model for angular distributions of, 24:24369
interactions $\pi^- + n \rightarrow \pi^- + n + 2\gamma$ at high energies, bremsstrahlung amplitudes for, (T), 23:39644 (ITF-69-38)
interactions $\pi^+ + n \rightarrow \pi^+ + n + 2\gamma$ at high energies, bremsstrahlung amplitudes for, (T), 23:39644 (ITF-69-38)
interactions $\pi^- + n \rightarrow \pi^- + n + \gamma$ at high energies, method for determining properties of effective space—time regions of, (E), 23:39644 (ITF-69-38)
interactions $\pi^+ + n \rightarrow \pi^+ + n + \gamma$ at high energies, method for determining properties of effective space—time regions of, (E), 23:39644 (ITF-69-38)
interactions $\pi^+ + n \rightarrow \pi^+ + n + \gamma$, possibility of experimental data on asymptotic behavior of effective space—time domain of, 22:26649 (JINR-P2-3590, pp 158-68)
interactions $\pi^- + n \rightarrow \pi^- + n + \gamma$, possibility of experimental data on asymptotic behavior of effective space—time domain of, 22:26649 (JINR-P2-3590, pp 158-68)
interactions $\pi^- + n \rightarrow \pi^- + n$ at 1.38 to 4.05 GeV/c, spark chamber study of cross sections for backward elastic, (E), 22:13659
interactions $\pi^- + n \rightarrow \pi^- + n$ at 1.5 to 3.8 GeV/c, spark chamber study of angular distribution and energy dependence of differential cross sections for backward, (E), 23:36833 (ITEF-638)
interactions $\pi^+ + n \rightarrow \pi^+ + n$, ratio of amplitudes with $\gamma + p$ amplitudes for, 21:37747
interactions $\pi^+ + n \rightarrow \pi^- + \pi^+ + p$ at 1.8 to 4.2 GeV/c in bubble chamber, single-meson exchange for forward peaks in differential cross sections for Δ(1236) production in, (E), 23:42573
interactions $\pi^+ + n \rightarrow \pi^+ + \pi^- + p$ at 13.1 GeV/c in deuterium bubble chamber, diffractive $\pi + \pi$ interactions in, (E), 25:56425 (COO-1428-294)
interactions $\pi^+ + n \rightarrow \pi^+ + \pi^- + p$, breakdown of charge symmetry from ω—rho mixing in, 25:53183 (UCRL-20655, pp 250a-76)
interactions $\pi^+ + n \rightarrow \pi^+ + \pi^- + \pi^0 + p$ at 1.1 to 2.4 GeV/c in deuterium bubble chamber, angular distributions and cross sections for eta and ω production in, (E), 23:51860 (UCRL-19275)
interactions $\pi^+ + n \rightarrow$ rho$^0 + p$ at 7 GeV/c in bubble chamber, angular distributions from, (E), 25:59286
interactions $\pi^+ + n \rightarrow$ rho^0(f^0) + n, differential cross sections for, 23:10817
interactions $\pi^+ + n \rightarrow$ rho^0(ω) + p, differential cross sections for, 23:10817
interactions $\pi^- + n \rightarrow$ rho$^- + \pi^- + p$, Reggeized charge-exchange Deck mechanism for analysis of rhoπ system in, 25:45751
interactions $\pi^+ + n \rightarrow \Sigma^+ + K^0$ at 1.1 GeV/c in nuclear emulsions, Σ^+ polarization from, (E), 22:1390
interactions $\pi^- + n \rightarrow \Sigma^- + K^0$ at 1220 MeV/c, Σ^- decay asymmetry from, (E/T), 21:46475
interactions $\pi^+ + n \rightarrow X + p$ at 2.34 GeV/c, neutral boson production from, (E), 21:17043 (JINR-E1-3100)
interactions $\pi^+ + n \rightarrow Y^{*+} + K^0$ at 2 to 4 GeV/c, angular distributions for Σ(1385) production in, (E), 23:14984
interactions $\pi^- + n$ at 1.5 to 3.8 GeV/c in spark chamber cross sections and angular distributions for backward elastic, (E), 23:30713
interactions $\pi^- + n$ at 1.5 to 3.8 GeV/c, differential cross sections of backward elastic, (E), 23:7094
interactions $\pi^+ + n$ at 1.7 GeV/c in deuterium bubble chamber, single and multiple π production in, (E), 21:33618
interactions $\pi^+ + n$ at 15 to 61 GeV/c, total cross sections for, (E), 25:53014
interactions $\pi^- + n$ at 17.2 GeV/c in emulsions, proton momentum spectrum from, (E), 25:14564
interactions $\pi^+ + n$ at 2.34 GeV/c in xenon bubble chamber, neutral boson, π^+ and γ production in, (E), 25:14560 (JINR-E1-5349)
interactions $\pi^+ + n$ at 2.5 GeV/c in deuterium bubble chamber, strange particle production in, (E), 22:29639
interactions $\pi^- + n$ at 20 to 65 GeV/c, total cross sections for, (E), 24:5258
interactions $\pi^+ + n$ at 3 to 4 GeV/c, evidence for existence of H meson from analysis of, 22:46423 (UCRL-18271)
interactions $\pi^+ + n$ at 3.29 GeV/c in deuterium bubble chamber, resonance production in 4π and 5π systems from, (E), 22:41749
interactions $\pi^+ + n$ at 3.29 GeV/c, with 4π and 5π production, (E), 21:31834(R) (ORNL-4082)
interactions $\pi^- + n$ at 5.1 GeV/c in propane bubble chamber, cross sections for, (E), 24:24256
interactions $\pi^+ + n$ at 5.1 GeV/c, associated production of K anti K and YK, resonance production from two-body and quasi-two-body final states, and cross sections for two-, three-, four-, and five-body final states in, (E), 25:12100 (NP-18629)
interactions $\pi^- + n$ at 60 GeV/c, multiplicity distributions of secondaries from, (E), 23:49057
interactions $\pi^+ + n$ at 930 MeV/c in freon bubble chamber, search for eta$^0 \rightarrow \pi^0 + e^+ + e^-$ decay mode from, (E), 21:46461
interactions π^- + n at high energies, multiple particle production in, 21:7502
interactions π^- + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions π^+ + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions π^+ + n at high energies, review of peripheral model for origin of dips and spikes in differential cross sections for exchange, (T), 24:52099
interactions π^+ + n at low energies, ω and rho production from, (E), 21:23314 (BNL-994, pp 70-102)
interactions π^+ + n below threshold to 72 GeV, multiplicity distribution of charged secondaries from, 23:32619
interactions π^- + n below threshold to 72 GeV, multiplicity distribution of charged secondaries from, 23:32619
interactions π^+ + n in Regge pole model, relative phase of rho and ω production in, 25:5374 (DNPL/R-7, pp 207-13)
interactions π^+ + n, compilation of cross section variation with incident momentum for, (E), 25:38659 (CERN-HERA-70-5)
interactions π^- + n, compilation of cross sections for, 25:30735 (CERN-HERA-70-7)
interactions π^- + p $\rightarrow \pi^0$ + n at 5.9 to 18.2 GeV, heavy-plate spark chamber study of differential cross sections for, (E), 22:20135 (CEA-R-3209)
interactions $\Sigma^+ + n \rightarrow \Lambda + p$ near threshold from $K^- + d \rightarrow \pi^- + \Sigma^+ +$ n interactions, (E), 22:34845
interactions Σ^- + n, bound singlet state in, 21:35318
interactions with Bloch walls, 24:52377
interactions with charged particles in deuterium bubble chambers kinematical fitting of, 23:43597
interactions with electromagnetic waves, Compton scattering in, (T), 21:33875
interactions with electrons in neutron-irradiated lithium fluoride containing color centers, possibility of neutron binding in, (T), 24:19961
interactions with electrons, capture cross sections for, 21:3684
interactions with magnons involving orbital transitions, (T), 21:38167
interactions with matter, principles of, 22:28178 (NP-17349)
interactions with matter, textbook on, 23:52318
interactions with neutral mesons, Green function in theory of local unrenormalizable, 24:10695
interactions with neutrinos, magnetic-field effects on, (T), 24:28062
interactions with polarized nuclei, review on polarized, 25:53843
interactions with positrons, magnetic-field effects on, 24:28062
interactions with vector mesons and gravitons in neutron star collapse, 22:43762
interactions, SOLRF program for computation of, according to solid-angle method of spacing, 25:56271
kerma at boundary of semi-infinite concrete medium, 22:46195 (ORNL-TM-2284)
kerma factors for 0.023-eV to 19.2-MeV, computer program for calculation of, 23:29502 (ORNL-TM-2558)
kerma of, detectors and ICRU recommendations for measurements of, 24:36553 (ICRU-13)
kinetic behavior in a multiplying medium, (T), 25:12341 (LFEN-NI.-46-a)
kinetic equations for, thermal fission based tables of coefficients and roots for, 23:47324
kinetic parameters for slab fueled power reactor, partial differential equations solution for, 23:24004
kinetics equations for multiregion reactor, analytic solution to time linearized, 22:6145
kinetics equations for semi-infinite medium and infinite slab, formulation using telegraphers equation, (T), 22:39558
kinetics in cylindrical-cavity reactors, 22:6167
kinetics in delayed-critical assembly cores, space-independent equations for, 21:38692
kinetics in point two-zone reactor systems, model for, 21:5701 (JINR-P-2828)
kinetics in reactors, computer simulation of, 21:31986
kinetics in reflected pulsed reactors, model of, 21:14102
kinetics in thermal reactors, system-modeling characteristics of discrete sequential estimator for studying, 21:34172
kinetics of finite heterogeneous systems, general transport theory of, 21:23592 (CEA-R-3080)
kinetics of pulses of, in depleted uranium spheres, (E), 21:38186

leakage analysis in bare spheres of monoenergetic, description of Expected Leakage Probability, (T), 22: 20951
leakage at core—reflector interfaces, effects on multigroup cross section averaging, 25:31183
leakage delay time distribution for fast critical assemblies, integro-differential kinetics equation calculations of, 23:21556
leakage determinations in reactors, use of Eigenvalue bias method to compare age measurements with age calculations for, 22:32991
leakage effects from seed-blanket assembly on fast advantage factor for, thoria element, 21:44878
leakage effects on fast advantage factor in seed-blanket reactors, 21:25638 (WAPD-TM-638)
leakage effects on space-time reactor coupling coefficients of, nodal calculation of, 21:38563
leakage from graphite systems with cylindrical voids, pulsed source measurements on, (E/T), 25:57190
leakage from small multiplying assemblies, Monte Carlo method for calculation of, 25:57163 (CONF-710302-(Vol.2), pp 857-70)
leakage from water-moderated tanks, escape fractions and reflection coefficients for, (E/T), 25:36653
leakage from weapons exploded at Hiroshima and Nagasaki, effects of shielding materials on, 24:39504 (ORNL-4446, pp 225-41)
leakage rates in high-temperature gas-cooled reactor, effects of size on, 21:40553 (GA-6881)
leakage spectra for, error estimation for calculations by method of expected leakage probability, 23:25766
leakage spectra scattering kernel measurements in hydrogenous media, 21:30193
leakage—time distributions from various moderators, (E), 23:8916
lifetime calculations for, 21:27737
lifetime determination in reactors by counting tube signals analysis, (E/T), 24:24919
lifetime determinations for scattering materials, comparison of bilinear weighting and other collapsing techniques for, 23:28599 (EURFNR-612)
lifetime in critical assemblies, method for calculation of, 24:3827
lifetime in ROSPO, use of Rossi-α technique for measurement of mean, 21:46956
lifetime in subcritical reactors, determination of, 21: 15765 (CONF-661019-10)
lifetime measurements in cavity regions of rocket reactors, use of pulse-technique for, 22:3881(R) (NASA-CR-72234(Vol.1))
lifetime measurements in SUAK, comparison of calculated values with, 23:34926
lifetime measurements in UHTREX, use of rod-drop technique for, 22:12029(R) (LA-3835)
lifetime measurements on 710 Critical Experiment coupled-system configuration by Rossi-α method, 23: 11282 (GEMP-281)
lifetime of LOFT reactor, calculation of effective, 21: 30146(R) (IDO-17213)
lifetimes of, variational calculation of group constants for, (T), 24:33106
linear energy transfer in liquid dielectrics used in ionization chambers, 22:16879
Lorentz invariance for, from nuclear magnetic resonance in carbon-13, range of validity of, 23:32782
magnetic charge of, (T), 22:45916
magnetic moment in SU(3), sum rule for, 21:29609
magnetic moment in U(6,6), 22:9665
magnetic moment of, current algebra for ratio for proton and neutron, 22:3490
magnetic moment of, near equality of electron anomalous magnetic moment and anomalous, 24:12969
magnetic moment of, nonrelativistic quark model for ratio of proton-to-neutron, 23:30733
magnetic moment of, quark model for exchange contribution to, 22:5531
magnetic moment relative to hyperons (A) in broken SU(3), 21:33758
magnetic moment relative to hyperons (Ξ^-) in broken SU(3), 21:33758
magnetic moment relative to protons, [U(6) x U(6)]/sub β/ representation mixing for, 23:46782
magnetic moments for, algorithms for zero-momentum vertex parts for, (T), 25:22749
magnetic moments from current commutation relations in representation mixing, sum rules for, 21:17154
magnetic moments in strong coupling meson theory, 23: 39654
magnetic moments of, review of, (E/T), 23:49156
magnetic monopole moment of, use of superconducting quantum interferometer for determination of, (E), 22: 50282
magnetic scattering in ferromagnetic alloys, diffuse, 22: 26782
magnetic susceptibility of gas of, at zero temperature, (T) , 24:10256
mass difference (K^+ - K^0)/(n - p) ratio, field algebra for electromagnetic, 22:26602
mass difference (n - p) and transition matrix elements for, electromagnetic, 25:14617
mass difference (n - p) for, solutions of model field theoretic equation for, 22:29712
mass difference (n - p) from bootstrap model, effect of electromagnetic corrections to, 23:10791
mass difference (n - p) from inelastic e + p interactions, 22:11611
mass difference (n - p) from $N^*(1400)$ mass splitting and πNN and πNN^* coupling constants, 24:1537
mass difference (n - p) from partial-wave amplitudes for anti N + N → γ + γ interactions, 23:18865
mass difference (n - p) from Veneziano model expressions for forward Compton scattering, 24:13010
mass difference (n - p) in dispersion theory, 24:18133
mass difference (n - p) in γ + π + N → γ + π + N interactions, field-theoretic method for feedback in calculations of, 24:26402
mass difference (n - p) in nonlocal field theory, electromagnetic, 24:35635
mass difference (n - p) in static model, low-order contribution to, 21:37748
mass difference (n - p) in SU(2) bootstrap model, 21: 25260
mass difference (n - p), (T), 22:13707
mass difference (n - p), (T), 24:20115
mass difference (n - p), analytic continuation of divergent integrals for electromagnetic, 22:50364
mass difference (n - p), bootstrap theory of symmetry breaking for, 21:29591
mass difference (n - p), calculation using generalized superconvergence relation, 22:11612
mass difference (n - p), contribution of A_2 Regge pole to, 23:10790
mass difference (n - p), contribution of Born term to electromagnetic, 25:12154
mass difference (n - p), contribution of $N^*(1238)$ mass splittings to, 21:2426
mass difference (n - p), current algebra for electromagnetic, 21:29478
mass difference (n - p), dispersion relation treatment of perturbation effects on, 22:15732
mass difference (n - p), dispersion relations and sum rule for, 24:32999
mass difference (n - p), dispersion relations for, 21: 29489
mass difference (n - p), dispersion sum rule for calculation of, 23:36942
mass difference (n - p), effect of strong interaction on electromagnetic, 22:46359
mass difference (n - p), feedback mechanism for, 21: 9748
mass difference (n - p), field-theoretic calculation of, 22: 11616
mass difference (n - p), finite-energy sum rule for calculation of, 24:37719
mass difference (n - p), high- and low-energy contributions to, 23:34560
mass difference (n - p), indefinite metric for electromagnetic, (T), 25:56547 (NYO-1932(2)-200)
mass difference (n - p), inelastic contribution in Cottingham formula for, 22:44363
mass difference (n - p), inelastic model of, 21:15284
mass difference (n - p), inelastic model of, 22:11615
mass difference (n - p), magnetic contribution to, (T), 21:23323
mass difference (n - p), model with SU(3) symmetric gauge invariant Lagrangian for electromagnetic, 24: 1546
mass difference (n - p), N^* exchange in Bethe-Salpeter-equation model for, 21:37823
mass difference (n - p), nonleptonic weak decay relation with I = 1 electromagnetic, 23:39665
mass difference (n - p), off-shell reciprocal bootstrap model for electromagnetic, 23:32661
mass difference (n - p), quark model for electromagnetic, 21:4020
mass difference (n - p), radiative corrections to πNN vertex determining, (T), 25:17435
mass difference (n - p), Reggeized tadpole model for, 23:39646
mass difference (n - p), relation with e + N inelastic interactions, 24:12993
mass difference (n - p), S—matrix method for calculation of, 24:18219
mass difference (n - p), sidewise dispersion relations for, 22:52958
mass difference (n - p), single-particle elastic contribution to electromagnetic mass shift for, 23:39665
mass difference (n - p), use of gravitational Ward—Takahashi identity for, 23:32668
mass difference (n—p) in model of higher baryon couplings, 24:47452
mass difference (p - n), ghost scalar meson in model for, 21:2419
mass differences (n - p) in Feynman—Speisman model, 24:49397
mass energy transfer coefficients for inorganic and organic materials, 25:6214
mass formula (Σ^+ - Σ^-) - (p - n) - (Ξ^0 - Ξ^-) = 0, corrections to Coleman—Glashow, 23:5579
mass of, formulas for relation with gravitational constant for, (T), 25:9878
mass relative to protons, superconvergent dispersion relations for, 21:9750
measurement techniques for, comparison between pseudorandom-impulse-response and pulsed, 21:30127 (CONF-660206, pp 333-42)
measurement using boron fluoride proportional counters, temperature effect on, 21:28250
measurements in beam holes of Soviet SM-2 reactor, 21: 38673
mesons (μ) production at sea level by cosmic, (E/T), 25:4974 (AD-710278)
mesons (μ) production by cosmic, at sea level, (E), 25: 14063
migration area in reflected cylinder shaped reactors, pulsed neutron technique for determination of, 25: 51228 (JAERI-13711)
migration areas for Pathfinder superheater and boiler, calculation of, 21:40615
migration in water moderated aluminum slab lattices of anisotropic, analysis of, (E/T), 22:22869
Milne problem for, solution using eigenfunction expansion method for one-speed, (T), 23:42846
Milne problem for, transform technique for spherical, 24:8823 (ORO-3858-1, pp 653-67)
moderation by aluminum—water and iron—water lattices, effects of lattice heterogeneity on, (E), 21: 21782
moderation in fast reactors of, continuous slowing down theory for elastic, (T), 24:46018
moderation in fast reactors of, continuous slowing down theory for anisotropic elastic, (T), 24:46115
moderation in fast reactors, asymptotic slowing down equations for inelastic, 24:47934 (ANL-7610, pp 465-537)
moderation in heavy element accelerator target assemblies, optimization of, 22:35285(R) (AERE-PR/NP-13)
moderation in light elements, calculations using inelastic scattering data, (T), 23:32892
moderation of resonance, in matter of arbitrary composition, (T), 24:43098
moderation of resonance, steady-state and nonstationary spatially homogeneous problems in, 24:43099
moderation of, preparation of poly(quaternary ammonium)-borohydrides for, 22:18740 (RMD-5097-F)
moderation using finite cylindrical cadmium filters, cutoff energies with finite-size detectors for, 22:10544 (WAPD-TM-670)
moderator systems for increasing low energy, design for DIDO, 21:35545 (AERE-R-4289)
monitor data for cosmic, (Jan.—Apr. 1967) at Canadian stations, 21:35037 (AECL-2703)
monitor data for cosmic, Canadian stations (Sept.-Dec. 1967), (E), 22:26267 (AECL-3064)
monitor for, design of digital ratemeter for, 21:22161
monitoring at Canadian stations of cosmic, data for May—Aug., 1968, (E), 23:6896 (AECL-3161)
monitoring at Canadian stations of cosmic, diurnal vectors in, (E), 24:12658 (AECL-3479)
monitoring at Canadian stations of cosmic, for Jan. 19, 1968 to Jan. 3, 1969, (E), 24:12657 (AECL-3473)
monitoring at Canadian stations of cosmic, Jan.-Apr. 1970, (E), 24:45063 (AECL-3659)
monitoring at Kula, Hawaii for Aug. 1966 to Dec. 1967, (E), 23:12595 (AECL-3051)
monitoring at Syowa, Antarctica, 1967-68, (E), 25: 16864
monitoring at Van de Graaff accelerator, boron trifluoride proportional counter system for, 22:47315 (BNWL-715(Pt.1), pp 54-60)
monitoring at Van de Graaff accelerator, proportional detector system for, 25:10824
monitoring by polyethylene-moderated boron trifluoride proportional detectors in facility radiation and contamination alarm system, 21:22132 (ORNL-TM-1767)
monitoring cosmic, at Canadian stations during Jan.-Apr. 1969, (E), 23:46293 (AECL-3378)
monitoring for ground-level proton-flare event of July 7, 1966, (E), 23:22808
monitoring in environs of Lawrence Radiation Laboratory, Berkeley, 24:41870
monitoring in reactor buildings, survey of instrumentation for, 23:29506(R) (THAI.-AEC-21)
monitoring in reactors, design of comparator circuit for, 22:23392(P)
monitoring in transuranium processing plant, solid-state device for, 21:34519 (ORNL-4091, pp 49-67)
monitoring near 5.5 MeV Van de Graaff accelerator, design and performance of paraffin-moderated boron trifluoride proportional detector for, 21:26192
monitoring near 5-MeV Van de Graaff accelerator, 21: 34519 (ORNL-4091, pp 49-67)
monitoring of 0.3 eV to 300 keV, detector systems for, 23:47770
monitoring of cosmic, at Canadian stations (May - Aug., 1966), (E), 21:23025 (AECL-2663)
monitoring of cosmic, at Canadian stations during Sept.—Dec., 1970, (E), 25:30303 (AECL-3856)
monitoring of cosmic, at Canadian stations for May to August 1969, (E), 24:8358 (AECL-3454)
monitoring of cosmic, at Canadian stations, May to Aug., 1969, (E), 24:30169 (AECL-3454(Rev.))
monitoring of cosmic, at Canadian stations, Sept. to Dec., 1969, (E), 24:30170 (AECL-3560)
monitoring of cosmic, at Canadian, Kula, and Chacaltaya stations from Jan. 20, 1966 to to Jan. 5, 1967, (E), 24: 28121 (AECL-3561)
monitoring of cosmic, at Chacaltaya, Bolivia during 1969, (E), 24:42539 (AECL-3657)
monitoring of cosmic, at Kula, Hawaii, (E), 25:40397 (AECL-3906)
monitoring of cosmic, at Kula, Hawaii, Jan. to Dec., 1969, (E), 24:28122 (AECL-3562)
monitoring of cosmic, at Mawson Station, Antarctica for 1968, (E), 25:49767 (NP-18962)
monitoring of cosmic, at Wilkes for 1968, (E), 25:49765 (NP-18959)
monitoring of cosmic, barometric effect in presence of background, (E), 24:21619
monitoring of cosmic, by Canadian stations for May—Aug. 1970, (E), 25:4975 (AECL-3736)
monitoring of cosmic, calculation of altitude-dependent barometric coefficient in neutron monitors for, (E/T), 24:45066
monitoring of cosmic, data for Deep River station, (E), 22:9118 (AECL-2789)
monitoring of cosmic, data from Canadian stations for Jan. 20, 1966 to Jan. 5, 1967 from, (E), 24:5009 (AECL-3425)
monitoring of cosmic, data from Canadian stations for Jan.—Apr. 1971, (E), 25:55893 (AECL-3971)
monitoring of cosmic, directions of viewing in ground-based, (T), 22:13264
monitoring of cosmic, for 1968 from Kula, Hawaii, (E), 23:34287 (AECL-3282)
monitoring of cosmic, for Canadian stations for Sept.-Dec. 1968, (E), 23:32197 (AECL-3283)
monitoring of cosmic, for solar rotations 1826 to 1839, (E), 24:39893 (AECL-3608)
monitoring of cosmic, for solar rotations 1840 to 1852, (E), 24:39894 (AECL-3651)
monitoring of cosmic, for solar rotations 1853 to 1866, (E), 24:39895 (AECL-3658)
monitoring of cosmic, from 1953 to 1969, for studying diurnal variations, (E/T), 24:45065

monitoring of cosmic, from Jan. to April, 1968, 22: 43944 (AECL-3140)
monitoring of cosmic, meteorological effects in, (T), 25: 14066
monitoring of cosmic, multiplicity, (E), 24:6389
monitoring of cosmic, periodicities in, (E), 25:45316
monitoring of cosmic, Wilkes data for 1967, (E), 25: 7194 (NP-18515)
monitoring of intensity enhancements during new solar cycle, (E), 21:36974 (NP-16935)
monitoring of natural background, 24:39254
monitoring of Shippingport Pressurized-Water Reactor core 2, 22:16163 (WAPD-PWR-TE-204)
monitoring of, conference on, 21:43231 (STI/PUB-136)
monitoring of, design of film badge for, 23:12121
monitoring of, effects of snow on performance of proportional detectors used for, 22:45308
monitoring of, outside shielding of accelerators and reactors, 21:6540
monitoring of, polyethylene-moderated boron trifluoride proportional detector system using self-auditing circuits for, 25:8501
monitoring of, spherical water-moderated boron-loaded nuclear emulsions for, 24:25273
monitoring of, Thorium—Uranium Recycle Facility alarm system for, 23:19937 (ORNL-TM-2464)
monitoring simulation of rocket reactor, use of computers for, 21:40653 (NP-16954)
monitoring system for, 21:14436 (ORNL-TM-1669)
monitoring system for cosmic, development of multiplicity, 22:308(R) (N-67-19359)
monitoring system for ORNL 5-MV Van de Graaff accelerator, operation and maintenance of, 22:25632 (ORNL-TM-2137)
monitors for, method of comparing performance of, 23: 24446
monochromatization of, multiple Bragg reflections for high-resolution, 21:23711(R) (BNWL-340)
monochromatization of, use of multiple Bragg reflection for high-resolution, 22:14251(R) (BNWL-534)
motion in magnetic fields, radiations from, (T), 22:5047
motion in moderating and multiplying systems, review of approximation techniques in thermalization and transport theory calculations, 22:6177
multigroup theory calculations for, application of Lie series to, 21:25654
multiplication coefficients, Monte Carlo method computer program for, 23:43190 (CEA-R-3798)
multiplication constant measurements in heavy water-moderated uranium oxide (UO_2)-fueled lattices, (E/T), 22:32976(R) (MIT-2344-12)
multiplication effects in active interrogation methods, 24:18901(R) (LA-4320)
multiplication factor calculations for Phoenix fuels for marine reactors, 22:14289 (BNWL-635)
multiplication factor calculations for plutonium recycle reactors, computer programs for, 22:24955 (EUR-3891)
multiplication factor determination in water-moderated plutonium oxide (PuO_2)—uranium oxide (UO_2) lattices, 22:53454 (BNWL-828)
multiplication factor determinations in plutonium oxide (PuO_2)—uranium oxide (UO_2) graphite lattices, 22: 12085 (BNWL-472, pp 3.1-33)
multiplication factor determinations using S_n transport theory, comparison of asymptotic diffusion theory methods with, 22:33108
multiplication factor for uranium tetrafluoride—paraffin mixtures, infinite-medium, 23:4449
multiplication factor for uranium—lithium supercell in PCTR, determination of infinite medium, (E/T), 22: 27459 (BNWL-634, pp 3.1-27)
multiplication factor in vectors, EINDIF computer program for, 24:11317 (FMRB-28/69)
multiplication factor measurements in exponential piles, comparison of Monte Carlo calculations with, 22: 33000
multiplication factor measurements in heterogeneous exponential piles, 22:32999
multiplication factor measurements in plutonium-aluminum alloy fueled PCTR, 21:35703 (BNWL-SA-769)
multiplication factor measurements in plutonium-fueled MTR-core mockup, analytical techniques for evaluating, 23:37634
multiplication factor measurements in subcritical lattices, use of pulsed-source technique for, 21:38718
multiplication factors for bare plutonium spheres, collision probability method calculation of, (T), 25: 12849
multiplication factors for BWR and PWR, effects of use of plutonium fuel on, 22:22658 (BNWL-475)
multiplication factors for fast reactor lattices, 22: 7892(R) (DPST-67-83-10)
multiplication factors for Pioneer and Transit fuel capsules, 25:44544(R) (MLM-1817)
multiplication factors for plutonium, use of 05R Monte Carlo code for calculation of, 22:33056
multiplication factors for plutonium—water lattices, analytical correlation of integral experiment data and calculated, 23:37749
multiplication factors for Spanish fast CORAL-I, calculation of, 23:21529
multiplication factors for thick graphite-reflected uranium, Monte Carlo calculations of, 22:33054
multiplication factors for two-core delayed critical assemblies, use of Monte Carlo method for, 23:4339
multiplication factors for UHTREX, effects of perturbations on effective, 22:12029(R) (LA-3835)
multiplication factors for, description of collision probability method for calculating, 23:19569 (CONF-680909-, pp 28-9)
multiplication factors for, PERC code for calculating effects of reactor system changes on, 22:7908 (ANL-7304)
multiplication factors for, use of collision probability technique for calculating, 23:37725
multiplication factors in boiling water reactors, effects of temperature and density on effective, 23:37467
multiplication factors in HFIR-type cores, calculation for AARR, 23:49580 (ANL-7410, pp 47-72)
multiplication factors in natural uranium—graphite lattices, comparison of theoretical and experimental values for, 22:33013
multiplication factors in Physical Constants Testing Reactor, poisoned and unpoisoned techniques for measurement of, 24:7168(R) (BNWL-1240)
multiplication factors in SUAK, comparison of measured and calculated, 23:34926
multiplication factors in unmoderated and unreflected one-dimensional lattices, multigroup version of successive generations method for calculation of, (T), 23:13575 (RFP-1186)
multiplication factors of bare homogeneous assemblies, collision probabilities method for calculation of, (E/T), 24:36090
multiplication in denitration of uranium-235-enriched uranyl nitrate, calculation of, 24:43999
multiplication in enriched uranium metal, calculation using one-velocity Monte Carlo method, 22:7919 (ORNL-P-2033)
multiplication in liquid moderated uranium-fueled lattices, calculation from neutron buckling measurements, 21:35707 (CNEA-184)
multiplication in one-dimensional rod, (T), 21:5473
multiplication in reactors, automatic readout circuits for reciprocal, 23:35550 (RFP-925)
multiplication in uranium-235—graphite critical experiments, 22:6113
multiplication in zero-power reactors, correlation theory on basis of stochastic point processes of, 21:19484
multiplication measurements in Connecticut Yankee Power Reactor, inverse, 22:22708 (NYO-3250-11)
multiplication measurements in enriched uranium heavy water moderated exponential piles, 21:38717
multiplication measurements in planar plutonia arrays, 21:30257 (MLM-1395)
multiplication measurements in plutonium-238 heat sources, 22:2307 (MLM-1416(DEL-1))
multiplication measurements in RB-1, facility for heavy water lattice, 21:35709 (EUR-3484.e)
multiplication of external source, calculation of negative reactivity from one-point reactor kinetic model by, (T), 23:11343
multiplication of, time-dependent number probability in, (T), 22:44590
multiplication processes of, variational principle for calculation of, 21:32025
multiplicities in monitors for cosmic, barometric coefficients of, (T), 23:5260
multiplicity of cosmic, recorded at Oulu, Finland, Nov. 5, 1965 by super neutron monitor, 22:41395
multiplicity of primary cosmic, and relation to modulation spectrum, mean, (E), 25:40401
multiplying systems of, harmonic analysis of, 21:35608
N^* resonance admixtures to ^3S_a p—n system, (T), 24: 15605
noise analyses for reactors, description of NOISY1 space dependent auto and cross spectral density, 23:40431 (CONF-690401-, pp 193-207)
noise analysis detection of pre-burnout boiling in swimming-pool reactors, 23:23956 (CEA-R-3686)
noise analysis for fast reactor, probability distribution for p-method, (E/T), 22:35705
noise analysis for FMRB, (E/T), 24:13600 (FMRB-13/69)
noise analysis for homogeneous and heterogeneous reactors, comparison of, 22:1783
noise analysis for reactors, modal effects in triple-correlation, (T), 22:35704
noise analysis for reactors, review of techniques for at-power, 23:19479
noise analysis for reactors, use of pulse-type detectors for, 21:38531
noise analysis for two group space independent reactor model, use of Langevin's technique for, 23:13577
noise analysis for, design of computer system for on-line, 23:41147
noise analysis in coupled fast—thermal STARK core, 21:42814 (KFK-542)
noise analysis in fast reactors using on-line computer, 21:38530
noise analysis in fast-thermal STARK, probability distribution method of, 22:12095(T) (EURFNR-285)
noise analysis in low-power reactors, application and accuracy of autocorrelation and cross-correlation function method for, (E/T), 23:21560 (RCN-101)
noise analysis in reactors using probability generating function, 21:40701
noise analysis in reactors, development of Rossi-α measurement methods for, 22:47044(T) (LA-tr-68-39)
noise analysis in reactors, instrumentation for accurate, 23:28624
noise analysis in reactors, Rossi-α experiment comparison by, 21:25658
noise analysis in reactors,theory of, 24:24812 (JAERI-1187)
noise analysis of power reactor shutdown, use of Cherenkov detector for optimum, 23:4196 (RISO-M-793)
noise analysis techniques for reactors, review of, 25: 39333
noise calculations for reactors, mathematical systems for, 21:34136
noise detection methods for boiling in reactors, development of, 25:60181
noise in Argonaut type reactors, measurement of spatially dependent, (E), 24:52971
noise in reactors, comparison of methods for analysis of, (T), 22:47049
noise in reactors, methods for analysis of, 24:38495
noise in thermal reactors, Pal-Bell equation analysis of Rossi-α data on, 23:31227
noise measurements and calculations for ATR, comparison of low power, 23:19527 (IN-1260)
noise measurements during initial operation of Peach Bottom reactor, 21:38452 (GA-8025)
noise measurements for transfer function calculations, 21:30120 (CONF-660206, pp 285-314)
noise measurements for, calculation of coupled core reactor eigenvalue separation from time domain, (E/T), 24:20604 (KAPL-P-3873)
noise measurements in Brookhaven Beam Research Reactor, startup, 21:38724
noise measurements in exponential piles and fast reactors, cross-spectral density technique for, 21: 45345(R) (IDO-17234)
noise measurements in FRG-0, time-dependent count rate method for, 22:12099
noise measurements in Garigliano Power Reactor, use of cross correlation and filter techniques for, 22:25002
noise measurements in LMFBR, analysis of, 21:25632 (ORNL-P-2979)
noise measurements in NORA, 21:30123 (CONF-660206, pp 503-30)
noise measurements in NORA, 22:16356 (KR-116)
noise measurements in reactors, comparison of autocorrelation and crosscorrelation techniques for, 23:34941
noise measurements in reactors, use of autocorrelation function for, 22:3909
noise measurements in reflected plutonium assemblies, 21:30124 (CONF-660206, pp 381-98)
noise measurements in ZED-2, description of, 23:37632
noise measurements of, use in determining reactor control system transfer functions, 21:30129 (CONF-660206, pp 439-53)
noise power spectral density in reactors with external control loops, (T), 22:35724
noise spectra in at-power reactors, Markoffian description of, 23:31228
noise spectra in reactors, use of Fokker—Planck equation for describing density probability function for calculation of, 24:18777
noise spectrum from, equations for calculation of, 21: 30194
noise spectrum measurements in Kyoto Research Reactor, analysis of, 21:35752
noise theory in a reactor system involving linear reactivity feedback, 22:27460 (BNWL-634, pp 4.1-55)
nuclear experiments using, review of, 21:44521 (CONF-660925, pp 819-34)
nuclear optical-model potential for, symmetry in, (E/T), 22:27278
nuclear orientation experiments using low-energy, 23: 17066
pairing in lead, nickel, and tin isotopes, equilibrium, (T), 25:59833 (JINR-E4-5907)
pairing with protons in N not equal to Z light nuclei, T = 0 correlations for, (T), 24:35907
penetration calculations for shields, angle-dependent importance function for adjoint solution in, (T), 23: 7281(R) (ORNL-4280)
penetration calculations using Monte Carlo method, angular biasing techniques for three-dimensional, (T), 23:7281(R) (ORNL-4280)
penetration in carbon shielding, angular, energy, and spatial distribution of, (E/T), 23:46537
penetration in graphite, polythene, and sodium, comparison of spectra calculated by discrete ordinates methods with time-of-flight measurements on, 23: 12944 (AERE-R-5773(Vol.1), pp 298-318)
penetration in heat-resistant shielding materials, with boron additions, 23:46543
penetration in hydrogenous media, direct forward approximation of, (T), 23:46539
penetration in lead, oxygen, and water, role of importance in calculations for, (T), 23:17051
penetration in polyethylene cylindrical layers, Monte Carlo calculation of, 24:32891
penetration in shielding, biasing system for Monte Carlo calculation of, 25:38841 (CEA-CONF-1755)
penetration of concretes, effect of boron additions on, 23:46544
penetration through off-set cylindrical ducts in water, parametric study, (E/T), 23:44491
performance in radiographic diagnostics of heat pipe operation, 22:4375
performance in radiography of boron cermets, 22:4374
photoinduced beta decay in stellar interiors, (T), 25: 45167 (AD-718320)
photoproduction and decay in beryllium following uranium-235 fission, (E/T), 23:10912(T) (ORNL-tr-2046)
photoproduction by bremsstrahlung from electron reactions with tungsten, 25:12496
photoproduction by bremsstrahlung from electron reactions with thick targets at 10 to 30 MeV, calculations for, 23:10889
photoproduction by uranium-235 fission products in heavy water, 21:5834 (IA-1082, pp 77-202)
photoproduction calculations for heavy water moderated 19-rod fuel clusters in PRTR, 22:12085 (BNWL-472, pp 3.1-33)
photoproduction from 34- and 100-MeV electron reactions with natural uranium and uranium-235, 21: 25544
photoproduction from bismuth-208 in electric dipole giant resonance region, spectra from, 21:35456 (AD-651111)
photoproduction from sulfur-32 at 20 to 32 MeV, cross sections for, (E/T), 22:9830
photoproduction from uranium-235 fission fragments in heavy water, delayed, (E), 22:37374
photoproduction in beryllium and tantalum, following electron bombardment, (T), 24:12873 (ORNL-TM-2751)
photoproduction in beryllium-reflected SNAP reactors, analysis of decay sets from, 21:38631

photoproduction in determination of deuterium in water, 22:30434(T) (ORNL-tr-1925)
photoproduction in heavy water, measurement of water displacement in soils by, 25:18523
photoproduction in Texas A and M reactor core following shutdown, (E), 24:2030 (DOCKET-50128-18)
photoproduction in uranium-235 thermal neutron fission, decay of, (E), 23:42914(T) (ORNL-tr-2043)
photoproduction in water moderated pool type reactor cores following shutdown, (E), 24:2027 (DOCKET-50128-15)
photoproduction of, effects of precursor buildup in SNAP reactors on, 22:16251
photoproduction of, spectral measurements using time-of-flight method, 24:20304
photoproduction of, spectral studies on, 24:49862(R) (RPI-328-187)
photoproduction on copper and lead at 5 to 6 GeV, 21:27228(T) (ORNL-tr-1534)
photoproduction on giant resonance nuclei, polarization in, (E), 21:27525 (MIT-2098-307)
photoproduction on silicon-28 below 36 MeV, cross sections for, (E), 21:9964
photoproduction on Z = 28 to 50 nuclei, angular distributions from, (E), 21:44642
photoproduction yields from gamma reactions (γ,n) with carbon-13, detection system for measuring, 22:19110
photoproduction, counting of, in activation analysis, 22:24788 (IA-1128, pp 55-77)
photoproduction, monitor for locating fuel element failures by detection of, 21:5723(P)
photoproduction, use in determination of deuterium in water, 21:38886
physical characteristics of, in relation to biological effects, 25:44805
physics of, international co-operation in reactor research on, 22:29843
physics parameters for lattice cell with anisotropic scattering, (T), 21:44534
poisoning and wave problems for, observable and pseudo-modes in Boltzmann operator for, (T), 24:8801 (ORO-3858-1, pp 1-35)
polarimeter for, using (n,α) scattering as polarization analyzer, 22:45363
polarizability of, SU(3) and SU(6) symmetry relations for electric and magnetic, 21:4089 (JINR-P-2894)
polarization analyzer for, design and performance of liquid-helium scintillator as, 21:19929
polarization and depolarization in partially saturated ferromagnets, 22:15937
polarization distributions from deuteron reactions (d,n) with beryllium-9 at 0.9 to 2.48 MeV, (E), 24:35819
polarization from (d,n) reactions with nitrogen-15 at 2.5 MeV, (E), 21:19927
polarization from (d,n) reactions with tritium and boron-11 at 3.0 MeV, (E), 21:19927
polarization from boron-11 (p,n) reactions at 5.4 MeV, angular distribution of, (E), 21:21427
polarization from carbon-12 (d,n) reactions at 2.0 to 4.0 MeV, angular distributions of, (E), 21:21460
polarization from deuterium (d,n) reactions at 1.0 to 3.7 MeV, (E), 21:21433
polarization from deuterium (d,n) reactions at 57 to 117 keV, (E), 21:21429
polarization from deuterium (d,n) reactions at 92 to 173 keV, (E), 23:39939
polarization from elastic scattering by A = 6 to 240 nuclei, calculations using local optical-model potential, (T), 22:16013 (LA-3788)
polarization from elastic scattering by iron, polyethylene, and zirconium, (E), 21:21418
polarization from elastic scattering by lanthanum-139, (E), 21:21494
polarization from γ + p → π⁺ + n interactions at 390 MeV, (E), 22:26555
polarization from inelastic scattering by iron-56, (E), 21:21494
polarization from lithium-7 (p,n) reactions, (E), 21:21430
polarization from proton reactions with platinum at 3 GeV, 24:40257
polarization in e + d → p + n + e backward interactions at very low momentum transfers, formalism for, 22:29619
polarization in electric fields, 23:40092 (KURRI-TR-12)
polarization in π⁻ + p → eta + n interactions, 22:50398
polarization in π⁻ + p → π⁰ + n interactions at 310 MeV, (E), 24:49328
polarization in π⁻ + p → π⁰ + n interactions at high energies, rho hypothesis in Regge pole models for, 23:39730
polarization in π⁻ + p → π⁰ + n interactions at high energies, two Regge trajectories for predictions of, 23:34600
polarization of 14-MeV, during scattering experiments, design of gas polarimeters for measurement of, 23:47887
polarization of resonance, design of crystal spectrometer for, 21:19905 (UJV-1562)
polarization of resonance, use of crystal spectrometers for, 21:22217
polarization of, analysis using resonance spin-flip in magnetic fields, (E), 22:22536
polarization of, description of cobalt mirrors for, 21:6359
polarization of, design and performance of high-energy resolution polarimeter for, 22:40484 (INR-P-897)
polarization of, design of polariscope for measuring, 22:6692
polarization of, development of liquid helium time-of-flight polarimeter for measuring, 21:10711
polarization of, effects of spin correlation and magnetic short-range order on, 24:26325
polarization of, gas-recoil polarimeter for measuring, 23:11914
polarization of, measurement using aluminum and carbon spark chamber plates, 22:35285(R) (AERE-PR/NP-13)
polarization of, performance of polarized proton target for, 24:13214(T) (BNL-tr-295)
polarization of, review of methods for production and measurement of, 22:26781
polarization of, scattering method for absolute measurement of, 24:5386
polarization of, use of carbon recoil detection method for, 21:21449
polarization of, using polarized proton target, 21:42531
polarization using double transmission method, (E), 22:44591
polarization using polarized proton target, 24:15728
population distribution functions, Kolmogorov—Smirnov test for similarity of two, 23:52477 (AAEC/TM-504)
population fluctuations of, effects on kinetic properties of steady-state reactors of, (T), 22:6191
populations in reactor systems, P-zero condition in Rossi-α experiments on, (E/T), 22:26776
populations in reactors, Monte Carlo and experimental analyses of fluctuations in, 22:33124
populations in reactors, stochastic moments for use in reactor kinetic equations of, 23:15724
potential for, energy dependence of nonlocal optical-model, (T), 21:23579
potentials in nuclei in isotopic sequence, (T), 21:1136
precession of, design of solenoid for, 22:32961 (ANL-7310, pp 377-430)
precipitation to 100 km in auroral zone, ground-based observations of, (E), 25:33155
precursor populations in periodically pulsed fast reactors, formulation of discrete kinetic difference expressions for, 23:37696
probability distribution of prompt, in an infinite homogeneous multiplying medium, (T), 24:40545
probability distribution of prompt, in an infinite homogeneous medium due to a uniformly distributed source, (T), 24:40544
production and scattering of cascade, in shields of proton accelerators, 21:983 (CEA-R-2975)
production at Earth's surface by cosmic radiation, (E), 23:12599
production by accelerators, design of high-power windowless gas targets for, 21:38113
production by accelerators, development of long-lived targets of endothermic materials for, 22:5690
production by bremsstrahlung reactions with heavy water, 23:28719(R) (GA-9331)
production by cosmic particles in atmosphere, (T), 22:19808
production by deuteron and triton reactions with copper, manganese, nickel, and titanium, relative yields from, 22:20370 (KN-67-655(R))
production by deuteron reactions (d,n) with deuterium, polarization measurements of, 22:28230
production by deuteron—deuteron interactions in Burnout magnetic mirrors, 21:31473
production by electronuclear method, review of possibilities for, (T), 25:17607 (JINR-P9-5285)
production by laser irradiation of lithium deuteride, 24:10560
production by natural radioactivity in soils, 22:30705
production by nuclear reactions of accelerated ions, for shielding experiments, 21:27226(T) (ORNL-tr-1528)
production by small electrostatic accelerators for use in radiography, 24:398
production by T³(d,n)He⁴ reaction, design of equipment for, 22:14614
production during helium-shell flash burning in stars, (T), 24:23562
production from anti N + N annihilation from meteor interactions in atmosphere, (E), 21:9699
production from bremsstrahlung reactions with copper from electrons incident at 50 to 400 MeV, analytic representation of differential yields for, 23:49073 (ORNL-4442)
production from cosmic meson (μ) reactions at 110 GeV and large zenith angles at 150 mwe underground, (E), 25:7538
production from deuteron reactions (d,n) with tritium, alpha counting technique for determining 14-MeV yields in, 22:23292
production from lead by protons at 1 GeV, (E), 21:4316
production from μ⁻ + p → n + τ interactions in meson (μ⁻) capture by nuclei, asymmetry in, (T), 22:13716
production from nuclear explosions for time-of-flight measurements, cost of, 25:37511
production from proton reactions with nuclei at 63 MeV, angular distributions, energy, and yield in, 22:6652 (ORNL-4168, pp 183-230)
production from Σ⁻ → n + e⁻ + τ, computer program for Lorentz transformation for probability densities for energy and momentum for, 22:15736 (ORO-2504-111)
production in (d,n) reactions with deuterated polyphenyl, design and testing of targets for, 23:21217
production in 24-BeV proton interactions in emulsion, 22:2831
production in alpha reaction with beryllium at 42 MeV, quality of, 22:1572
production in atmosphere by cosmic rays, (E), 23:1229
production in atmosphere, by cosmic rays, 22:38821 (AD-668483)
production in beryllium and heavy water by fission product gamma radiation for fuel burnup scanning, 23:45217
production in cosmic meson (μ) reactions with nuclei at 40 GeV, counter array study of cross sections for, (E), 22:34866
production in cosmic μ reactions with aluminum, cadmium, iron, and lead at high energies at depths of 40 and 80 mwe, multiplicity and velocity for, (T), 25:38645
production in cosmic μ⁻ reactions with aluminum, cadmium, iron, and lead at low energies at depths of 40 and 80 mwe, velocities for, (T), 25:38645
production in cosmic-ray reactions with lead and paraffin, (E), 24:8364
production in dense plasma focus experiment, 22:34727 (LA-DC-9327)
production in deuteron and proton reactions with deuterium and tritium, calculations of, 22:32479 (BNL-50083, pp 179-91)
production in deuteron reaction with beryllium at 21 MeV, quality of, 22:1572
production in deuteron reactions (d,n) with deuterium, coincidence system for measuring polarization in, 23:14103
production in electromagnetic cascades in copper, lead, and heavy concrete, angular distribution and attenuation from, 21:42239
production in electron reactions with beryllium at 10 and 16 GeV range, (E), 23:25496
production in fast neutron fission reactions, integral method for measurement of effective, 25:23338(T) (JPRS-52290, pp 103-8)
production in γ + p → π⁺ + n and γ + p → π⁺ + π⁰ + n interactions at 140 to 700 MeV, (E), 21:2351
production in laser beam irradiation with lithium deuterides, 23:7027(T) (UCRL-Trans-10287)
production in Λ⁰ → n + π⁰ decays, polyethylene-loaded spark chamber for detecting, 23:22094
production in μ reactions with lead at high energies for determining photonuclear cross section, (E/T), 23:10759
production in photosphere, mechanisms for, (T), 25:33000
production in plutonium—uranium alloys, equivalent sample method for oscillation experiments on, 25:34402 (CEA-R-4152)
production in proton interactions in graphite at 24 GeV/c, (E), 22:26559
production in proton reactions (p,n) with tritium at 3.19 MeV, associated particle method for determining 1-MeV flux in, 23:19106
production in proton reactions with lead—water system at 400, 500, and 660 MeV, yields of, 23:21233
production in proton reactions with steel at 10 and 20 GeV/c, 21:13618
production in π⁻ + d interactions at 3.15 GeV/c in deuterium bubble chamber, cross sections for, (E), 25:19922
production in π⁻ + p → 2π⁰ + n interactions at 447 MeV, spectrometer and spark chamber study of differential cross sections and angular distributions for, (E), 25:36405 (JINR-P1-5781)
production in π⁻ + p → π⁻ + N + π⁻ + nπ interactions at 10 GeV/c in hydrogen bubble chamber, comparison of proton and neutron momentum spectra for, (E), 24:10812
production in solar cosmic-ray increase of January 28, 1967, multiple, 21:41840
production in solar flares, (E), 21:6914
production in stellar thermal relaxation cycles, (T), 22:11150
production in the atmosphere by primary cosmic rays, (T), 22:2858
production of (Σ⁻n) bound state from meson (K⁻) reactions with nuclei at rest in emulsions, (E), 22:7450
production of 14-MeV, for use in activation analysis, 24:11471
production of 14-MeV, instruments and test conditions for tritiated titanium targets for, 23:37037 (EUR-4286(Pt.1))
production of bound state Ξ⁻—n in K⁻ + d interactions at 1.3 and 2.0 GeV/c, cross section for, (T), 22:11693
production of cascades of, from proton reactions in shielding materials, 21:11686
production of fission spectrum, description of CP-5 cryogenic facility for, 22:20919
production of high flux densities of, use of high-energy accelerator with liquid bismuth—lead targets for, 21:46621
production of monochromatic polarized beams of slow, using nonuniform magnetic fields, 23:13181 (JINR-P3-4087)
production of monochromatic, bibliography on methods for, 22:20041 (NP-17314)
production of monoenergetic, using particle accelerators, (E/T), 22:5752
production of polarized, from polarized deuteron reactions (d,n) with tritium, (E), 24:52413
production of polarized, in tritium (d,n) reactions, design and performance of polarized deuteron source for, 23:49279
production of pulsed beams of 14-MeV, from d + d → n + ³He interactions, 22:32388
production of pulsed, for nuclear safeguards research, 24:18901(R) (LA-4320)
production of radioactivity at sea level by cosmic, (T), 23:14650 (INSJ-110)
production of secondary, in atmosphere by primary cosmic particles, (T), 23:46305
production of Σ⁻n and Σ⁻nn bound states in K⁻ + ⁴He interactions at rest in bubble chamber, (E), 23:18820
production of, design of 100-200 kV pulsed accelerator for, 21:42488
production of, design of charged-particle accelerator tube for, 21:31678(P)
production of, design of equipment for, 21:32302(P)
production of, design of generator for, 21:39096(P)
production of, design of high-speed rotating vacuum seals for targets used for, 22:15898
production of, development of electrostatic generators for, 21:38011
production of, development of rotating radiation targets for, 21:21324 (UCRL-70183)
production of, device for cooling accelerator targets for, 22:11855(P)
production of, fabrication and testing of deuterated and tritiated polyphenyl targets for, 23:37036 (EUR-4276)
production of, fabrication of solid tritium and deuterium targets for, 21:34378(P)

production of, in proton reactions (p,n) with lithium-7, (T), 21:1382(T) (ORNL-tr-1246)
production of, operation of positive ion Van de Graaff accelerator for, 22:13887
production of, use of accelerators for, 22:11859(P)
production of, use of electron linacs for, 23:39859 (CONF-681064-3)
production over losses ratio for integral reactor characteristic, derivation of, 25:60227
production rates in gas cooled reactor fuel elements, 25: 25985 (RD/B/N-1887)
production rates of, from alpha reactions (α,n) with materials in earth's crust, 23:817 (ANL-7360, pp 1-67)
propagation in air, Bren Tower measurements of, 22: 4391
propagation in cylinders and spheres, computer program using Monte-Carlo method for calculating, (T), 25: 9941 (CEA-N-1361)
propagation in cylindrical and spherical geometries, ELF-NEUTRON-CODE for study of, 24:22053 (CEA-N-1255)
propagation in graphite, effects of transverse boundaries on, (E/T), 24:7079
propagation in interference layers, 25:17682
propagation in matter, computer program using age theory, 21:7641(T) (ORNL-tr-1377)
propagation in media with isotropic scattering, transverse, (T), 25:9961
propagation in reinforced plastics, (T), 22:29842
propagation in shields, effect of anisotropic scattering on, (T), 22:32441
propagation in spherical geometry by straight line attenuation, computer program for study of, (T), 25: 3525 (CEA-N-1312)
propagation in uranium dioxide, measurements on, (E), 23:1765
propagation of waves, effects of an interface on, (T), 22: 5724
propagation of, at energies less than 500 MeV, for determining effective transverse shielding in high-energy accelerators, 22:17717
propagation of, direct determination of continuum mode contamination in, (T), 24:7314
propagation of, ELF computer program for Monte Carlo calculation of, 24:52355 (CEA-CONF-1565)
propagation of, use in determining effective shielding of high-energy accelerators, 21:27497
propagation through large thickness of iron, transport codes for, (E), 25:9536 (CEA-CONF-1669)
properties of stars of, (T), 22:924
protection against, book on, 21:28507
pulse buildup tests in ACPR, 22:48737 (SC-DR-68-501)
pulse decay constants for blocks of graphite with bucklings of 0.0064 to 0.020 cm^{-2}, (E), 23:3904
pulse decay constants in moderating media, (T), 21: 23395 (EUR-3275.e)
pulse decay in fast multiplying assemblies and thermal moderating assemblies, analysis using variational methods, (T), 22:29854
pulse decay in multiplying assemblies, scattering kernel for calculation of, (T), 25:46333
pulse decay in nonmultiplying crystalline media, multigroup calculation of, 21:42754
pulse decay measurements in reactors, description of instrumentation, gate widths, and time variables for, 24:16163 (KFKI-31/1969)
pulse decay rates in heavy water with non-1/v poisoning, (E), 23:7208 (EIR-139)
pulse propagation in assemblies of TRIGA type fuel elements, (E/T), 24:11283
pulse propagation in beryllium, interpretation of numerical diffusion calculations for, (T), 23:1769
pulse propagation in finite moderator, transport formalism for, (T), 23:1756 (EUR-4071)
pulse propagation in heterogeneous subcritical assemblies, 22:7903
pulse propagation in moderators, discussion of experimental techniques for, 22:33157
pulse propagation in reactor materials, research summaries on, (E/T), 23:5749 (KURRI-TR-40)
pulse propagation in reactors, 1965 to 1970 research in Japan on, 25:3927 (JAERI-Memo-4109)
pulse propagation in subcritical uranium—graphite systems, dispersion law for, (E/T), 24:47972 (CONF-680980-, pp 363-77)
pulse propagation in uranium oxide (UO_2) fueled water moderated assemblies, effects of reactivity variations on, (E/T), 24:7202
pulse propagation in uranium oxide (UO_2) fueled water moderated cylinder shaped assemblies, analysis of axial, (E/T), 24:7315
pulse propagation velocity in multiplying media, effects of neutron multiplication factor on, 22:32994
pulse transmission in slab geometry, calculations using reciprocity principle, (T), 21:7669
pulse wave velocity for, calculation using dispersion laws, (T), 21:21382
pulse width measurements for reactor moderators, use of linear accelerator for, 23:26121 (IN-1218, pp 57-72)
pulsed source experiments, relationship between neutron wave experiments and, 21:38656 (BNL-11556)
pulses in reactors, effects of boundary conditions on one-velocity time-dependent approximation to transport equations describing, 23:11339
pulses of, data-acquisition system for pseudorandom, 21: 30125 (CONF-660206, pp 315-32)
pulses of, use in physics measurements in subcritical systems, 21:30125 (CONF-660206, pp 315-32)
pulses of, use in reactor kinetics analysis, 21:30112 (CONF-660206, pp 1-19)
quality factor in mixed field of gamma rays and, use of hexane-filled ionization chamber for determining, 21: 32404
quality factor in mixed radiation fields, use of organic scintillation detectors and tissue-equivalent ionization chambers for determining, 23:4849
quality factor measurements in gamma—neutron fields, use of organic scintillation detectors for, 22:2369
quality factor of 700-MeV, in phantoms, 22:10759 (JINR-P16-3587)
radius difference (n - p) from model of meson (π) production by protons reactions with nuclei, 23:23495
range in matter, calculation using free-nucleon target model, (T), 24:6603
reaction (n,2n) with bromine-81 in bromoethane—hydrogen bromide mixture, yield of recoil products from, 23:37993
reaction (n,f) with curium-244, -245, -246, -247, and -248 at 20 eV to 3 MeV, cross section for, (E), 25: 38987 (LA-4566)
reaction (n,γ) with nuclei, design of large magnetic spectrometer for internal conversion electrons emitted during, 23:43590
reaction (n,p) with sulfur-32, formation of phosphorus-32 in, 21:19718
reaction rate integrals in reactor systems, optimized dual perturbation method for evaluation of, 23:47309 (CNM-R-2(Vol.2), pp 1121-35)
reaction rate measurements in DIMPLE, 22:3885 (AEEW-R-502)
reaction rate with Maxwellian distribution of nuclei, (T), 21:11954
reaction rates for a slab in an infinite medium, first-flight collision probability determination of, 21:23720 (KFK-507)
reaction rates in AGR-type lattices, measurement of manganese, 25:28816 (RD/B/N-1518)
reaction rates in Dounreay Fast Reactor Section A of Run 59/1 core, calculation of, 24:5505 (TRG-Report-1844)
reaction rates in fast reactor cells, methods for measurement of, 24:47891 (ANL-7610, pp 369-464)
reaction rates in heterogeneous reactor lattices, foil perturbation effects on, (E/T), 25:31659
reaction rates in reactors, application and difficulties of Monte Carlo adjoint sampling for determination of, 23:15730 (ANS-RPD-1, Paper 3A)
reaction rates in systems with thermal resonance absorbers, correlation method for spectral indexes for evaluating, (E/T), 24:22499
reaction rates of Dounreay Fast Reactor Run 55 core, calculation of, 24:5506 (TRG-Report-1845)
reaction rates of Dounreay Fast Reactor Run 59/1 core, calculation of, 24:5504 (TRG-Report-1843)
reaction rates with uranium in steam cooled fast reactors, comparison of calculated and measured, 24:4146
reaction ratios in ZPR-3 Assembly 48, comparison of measured and calculated central, 23:37652
reaction with carbon, silicon, lead, and bismuth at 130 eV, total cross sections and coherent scattering lengths, 25:39043
reaction-rates in ZPR-6 and ZPR-9 fast assemblies, measurement of, 24:7226
reactions (n,^{4}He) with boron, effects in stainless steel, 21:16630
reactions (n,2α) with nitrogen-14, sequential mechanism of, (E/T), 21:44575 (ZFK-122, pp 305-10)
reactions (n,2n) and (n,3n) with curium-244, plutonium-238, and plutonium-242, product-nucleus decay constants for, 21:46722 (NAA-SR-12271(Suppl.1))
reactions (n,2n) and (n,3n) with fissionable materials, cross sections for, (E), 25:15111
reactions (n,2n) and (n,α) with molybdenum-92 and -100 at 14.1 MeV, activation cross sections for, (E), 22: 1689
reactions (n,2n) and (n,γ) with bromine in bromoethane, 21:17674
reactions (n,2n) with A = 39 to 232 nuclei, empirical formula for cross sections for, (E), 25:34075 (KFKI-71-8)
reactions (n,2n) with americium-243, production of isomeric americium-242 by, (E), 22:27198
reactions (n,2n) with beryllium and beryllium oxide, fast fission factor for, (E/T), 25:37110
reactions (n,2n) with beryllium-9 at 2 to 11 MeV, cross sections for, (E), 22:24833
reactions (n,2n) with beryllium-9, computer program for, 21:21440 (UCID-15095)
reactions (n,2n) with beryllium-9, cross sections for, (E), 25:20269 (N-70-37365)
reactions (n,2n) with bromine-81 in bromine—bromoethane mixture, effects of pressure and temperature on yields of bromine-80m from, 23:7557
reactions (n,2n) with chlorine-35 and potassium-39, analysis for role of isospin in, 25:38966
reactions (n,2n) with chlorine-35 at 14.8 MeV, production of isomeric chlorine-34 in, (E), 21:12007
reactions (n,2n) with chromium-52, cross sections for, (T), 21:5524
reactions (n,2n) with copper, iron, and niobium at 14.4 MeV, differential cross sections, second-neutron spectra, and nuclear-level density parameters for, (E), 25:56684 (FEI-216)
reactions (n,2n) with copper-63, use for beam centering in accelerator-based neutron sources, 22:15890
reactions (n,2n) with deuterium at 14.1 MeV, neutron—neutron coincidence spectra from, (E), 22:7633
reactions (n,2n) with deuterium at 18.5 MeV, neutron—neutron scattering length in, 25:14887
reactions (n,2n) with fluorine-19 at 14.2 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,2n) with fluorine-19 in fluorobenzene, 23: 334
reactions (n,2n) with fluorine-19 in xenon difluoride and xenon tetrafluoride, reactions of recoil fluorine-18 from, 22:40118
reactions (n,2n) with fluorine-19, fission-spectrum-averaged cross sections for, (E), 25:14968
reactions (n,2n) with heavy nuclei at low energies, T-matrix method for calculating, (T), 25:31394 (ITF-70-95-E)
reactions (n,2n) with heavy nuclei, calculation of amplitudes for, (T), 25:50811 (ORO-3992-47)
reactions (n,2n) with heavy nuclei, calculations of amplitudes and final-state-interaction effects in, (T), 25:39116
reactions (n,2n) with heavy nuclei, statistical model for excitation functions for, (T), 24:40598 (AAEC/TM-522)
reactions (n,2n) with indium-113 and -115 at 14.7 MeV, cross sections for isomer and ground-state production in, (E), 22:20590
reactions (n,2n) with indium-115 at 14.2 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,2n) with indium-115 at 14.8 MeV, production of isomeric indium-114 in, (E), 21:12007
reactions (n,2n) with manganese-55 and sodium-23, differential cross sections for threshold, (E), 21:21503
reactions (n,2n) with nickel-58, cross section of, (E/T), 21:2673
reactions (n,2n) with nitrogen-14 in potassium or sodium cyanides, chemical state of nitrogen-13 from, 24:256
reactions (n,2n) with nitrogen-14, lithium-7 energies from, (E), 21:19188
reactions (n,2n) with nuclei at 14 MeV, lack of shell effects in, (E), 22:7672
reactions (n,2n) with nuclei of A < 100, cross sections, (E/T), 21:2673
reactions (n,2n) with nuclei with A = 20 to 100, cross sections for, 21:5510
reactions (n,2n) with nuclei with neutron numbers near 50, cross sections for, (E), 21:2671
reactions (n,2n) with nuclei, analysis using Fermi gas model, (T), 25:50861
reactions (n,2n) with nuclei, cross-section formula for, (T), 21:1149
reactions (n,2n) with nuclei, shell effects in cross sections for, (T), 23:11058
reactions (n,2n) with nuclei, shell effects in, (T), 24: 18455
reactions (n,2n) with nuclides, Monte Carlo scatter corrections for cross sections of, 22:14788
reactions (n,2n) with osmium-192 and platinum-198 at 14.7 MeV, total cross sections and isomeric yield ratios for, (E), 25:12618
reactions (n,2n) with palladium-110 at 14.7 MeV, isomeric cross section ratio for, (E), 22:1672
reactions (n,2n) with thorium foil or thorium nitrate, production by thorium-231 by, 23:45345
reactions (n,2n) with uranium-238 in uranium sulfate, oxidation states of products from, 23:7562
reactions (n,2n) with uranium-238, cross sections for, (E) , 25:15111
reactions (n,2np) with deuterium at 14 MeV, design and performance of double time-of-flight spectrometer for studying, 23:24457 (CEA-CONF-1250)
reactions (n,α) and (n,2n) with beryllium, effects on neutron multiplication factor in beryllium-moderated and -reflected assemblies, (T), 21:19183
reactions (n,α) and (n,2n) with beryllium-9 in reactors, helium-4 production by, (E), 21:21436 (CONF-651154-2)
reactions (n,α) and (n,γ) with nitrogen-14 in atmosphere, 21:8796 (ORNL-4007, pp 171-210)
reactions (n,α) and (n,γ) with resonance excitation, analysis of α and γ decays in, (T), 25:34186
reactions (n,α) and (n,p) with aluminum-27, excitation functions for measuring fission-neutron spectra, 21: 44645
reactions (n,α) and (n,p) with nuclei (A = 28 to 210) at 14 MeV, analysis of statistical spectra from, (T), 22: 3782
reactions (n,α) in NE 213 liquid scintillator, cross sections for, 21:43256
reactions (n,α) in stainless steel, helium production by, (T), 22:3641 (BNWL-SA-639)
reactions (n,α) on type-304 stainless steel in ATR and FFTF, calculations on helium production by, 21: 26861(R) (BNWL-CC-658)
reactions (n,α) with aluminum-27, activation cross sections for, 21:26865(R) (HW-74679)
reactions (n,α) with aluminum-27, average cross section for, (E), 22:32524
reactions (n,α) with aluminum-27, cross-section calculations using statistical theory, (T), 21:9976
reactions (n,α) with boron-10 at 0 to 1 MeV, compilation of cross sections and branching ratios for, 22:39579 (EUR-3950)
reactions (n,α) with boron-10 at 1 to 1000 keV, cross section for, (E), 22:18146
reactions (n,α) with boron-10 at 50 keV to 5 MeV and at 14.8 MeV, gamma yields from, (E), 24:35830
reactions (n,α) with boron-10 in sulfuric acid solutions of cerium, effects of thallium on reduction yield of tetravalent cerium from recoils of, 23:2341
reactions (n,α) with boron-10 up to 200 keV, cross section for, (E), 25:20288
reactions (n,α) with boron-10, determination of rates in EBR-II and FFTF, 25:32751(R) (HEDL-TME-71-43)
reactions (n,α) with boron-10, γ spectra from, 23:21278 (ZFK-130, pp 226-31)
reactions (n,α) with boron-10, use to enhance laser performance, 25:42229
reactions (n,α) with chlorine-35, effects of thermal annealing on valence distribution in potassium chloride single crystals of phosphorus-32 from, 22:18831
reactions (n,α) with chlorine-35, valence distribution of phosphorus-32 produced by, 22:18830
reactions (n,α) with copper-63, differential cross sections for threshold, (E), 21:21503
reactions (n,α) with elements in Type 304 stainless steel, cross sections for, 24:39598(R) (AI-AEC-12948)
reactions (n,α) with hafnium-177 at 1.09 to 8.87 eV, α widths of levels in search for, (E), 25:56686 (JINR-P3-5875)
reactions (n,α) with lithium-6 at 1 to 600 keV, CCDN data evaluation for, 23:3937 (CCDN-NW-3)
reactions (n,α) with lithium-6 at 10 eV to 8 keV, ratio of cross section to boron-10 (n,α) cross section, (E), 25: 20288

reactions (n,α) with lithium-6 at 10 to 1000 keV, cross section for, (E), 22:18146
reactions (n,α) with lithium-6 at 25 to 150 keV, evaluated cross sections for, 25:53602 (CONF-701002-, pp 331-40)
reactions (n,α) with lithium-6 at 40 to 500 keV, cross section for, (E), 23:5833
reactions (n,α) with lithium-6, Q-value for, (E), 22:45093 (COO-1618-9)
reactions (n,α) with lithium-6, use of, for determination of lithium in aqueous solutions, 21:34221
reactions (n,α) with metals, helium production from, 25:25659 (AE-410, pp 83-9)
reactions (n,α) with molybdenum-95, palladium-105, tellurium-123, and xenon-129, resonance, (E), 23:40089
reactions (n,α) with molybdenum-99, neodymium-143, neodymium-145, samarium-147, samarium-149, and tellurium-123 at resonance energies, α widths and resonance spin assignments for, (E/T), 25:56754(T) (UCRL-Trans-10541)
reactions (n,α) with neodymium isotopes up to 400 eV, resonances in, (E), 21:17348 (JINR-P3-3104)
reactions (n,α) with neodymium-143, neodymium-145, samarium-147, and samarium-149, α widths for, (E), 22:27204
reactions (n,α) with neodymium-143, neodymium-145, samarium-147, and samarium-149, alpha-particle widths for, (E), 21:9998 (JINR-E3-3029)
reactions (n,α) with neodymium-143, samarium-147, and samarium-149, alpha widths of resonance, (E/T), 25:15097
reactions (n,α) with neodymium-145 at resonance energies, α spectra from, (E), 25:53785
reactions (n,α) with nitrogen-14 at 14 MeV, angular distributions from, (E), 21:17340(R) (AEET-267)
reactions (n,α) with nitrogen-14 at 14.1 MeV, angular distributions for, (E), 22:46721
reactions (n,α) with nuclei as tool for studying neutron resonances, 25:28345 (JINR-E3-5483)
reactions (n,α) with nuclei at low energies, direct mechanisms in, (E/T), 23:49443 (INR-970)
reactions (n,α) with nuclei, analysis for α-cluster probability by, (T), 25:50854
reactions (n,α) with nuclei, analysis for cluster structure in nuclear surface by, (T), 25:1736(R) (INR-1197)
reactions (n,α) with nuclei, cross sections for, (T), 22:11985
reactions (n,α) with nuclei, design of 40-cm-diameter Wilson cloud chamber for studying, 23:26520
reactions (n,α) with nuclei, DWBA analysis of, (T), 21:15616 (LYCEN-6638)
reactions (n,α) with nuclei, multiple wire proportional detector for measuring rate of, 25:23825
reactions (n,α) with osmium-192, tungsten-189 production by, (E), 21:27563 (CNEA-175)
reactions (n,α) with oxygen-16 at 14.1 MeV, alpha-particle angular distributions from, (E/T), 22:3633
reactions (n,α) with oxygen-16, cross sections from carbon-13 (α,n) reactions, (E), 21:4231
reactions (n,α) with oxygen-16, DWBA analysis of, (T), 21:15616 (LYCEN-6638)
reactions (n,α) with oxygen-16, integrated cross section for, (E/T), 21:7722(R) (AEET-254)
reactions (n,α) with rhodium-103 and indium-115 at 14 MeV, energy and angular distribution of alpha particles from, (E), 22:20617
reactions (n,α) with samarium-147, α spectra and widths for, (E), 22:9853 (JINR-P6-3605)
reactions (n,α) with samarium-147, α spectra from, (E), 25:28347 (JINR-P3-5553)
reactions (n,α) with samarium-149, cross sections for, (E), 21:25539
reactions (n,α) with selenium-82 at 14 MeV, production of germanium-79 in, 23:21775 (CEA-R-3678)
reactions (n,α) with stainless steel to produce helium, effects of spectrum on, 24:17325 (CONF-690910-, pp 3-23)
reactions (n,α) with tellurium-122, terbium-159, and thulium-169 at 14.2 MeV, energy spectra of alpha particles from, (E), 22:20619
reactions (n,α) with terbium-159 and tellurium-128, alpha spectra from, (E), 24:45780
reactions (n,α) with tungsten-186, nuclear properties of hafnium-183 from, (E), 21:14930(R) (ORO-3235-12)
reactions (n,α) with vanadium-51, mean reactor cross section for, (E), 23:44865
reactions (n,α) with ytterbium-176 at 14.8 MeV, production of erbium-173 by, (E), 22:16019
reactions (n,α) with ytterbium-176, production of erbium-173 by, (E), 21:14930(R) (ORO-3235-12)
reactions (n,α) with zinc-64 at 281 and 2637 eV, α widths of levels in search for, (E), 25:56686 (JINR-P3-5875)
reactions (n,α) with zinc-67 at 1548 eV, (E), 25:56686 (JINR-P3-5875)
reactions (n,α), (n,2n), and (n,p) with A = 14 to 41 nuclei, cross sections for, (E), 21:7715
reactions (n,α), (n,2n), and (n,p) with medium-weight nuclei, cross sections for, (E), 21:27550
reactions (n,α), (n,d), (n,p), (n,t), and (n,He-3) with nuclei, survey of research on, (E), 22:14077 (NYO-1082-10)
reactions (n,α), (n,n'), and (n,p) with nuclei, computer program for calculating compound-nucleus cross sections and angular distributions for, 23:37283 (AD-682921)
reactions (n,α), (n,n'), and (n,p) with oxygen-16 in atmosphere, 21:8796 (ORNL-4007, pp 171-210)
reactions (n,α_0) at 2.90 and 3.28 MeV, angular distributions from, (E), 22:20554
reactions (n,d) and (n,α) with silicon-28 at 14 to 22 MeV, angular distributions from, (E), 22:26967
reactions (n,d) and (n,p) with helium-3 at 0 to 10 MeV, cross-section data compilation for, (E), 21:46659 (CCDN-NW-6)
reactions (n,d) and (n,p) with osmium-190, production of rhenium-189 and isomeric rhenium-190 by, (E), 21:27563 (CNEA-175)
reactions (n,d) with sulfur-32 and -34 at 14 MeV, phosphorus-31 and -33 energy levels from, (E), 22:20528
reactions (n,d) with tritium at 14.1 MeV, deuteron spectra from, (E), 22:32484
reactions (n,d) with tritium at 15.1 MeV, neutron—neutron scattering length from, (E), 22:15942
reactions (n,f) and (n,γ) with plutonium-239 at 0.02 eV to 30 keV, cross sections for, (E), 25:46061
reactions (n,f) and (n,γ) with uranium-233, cross sections and resonance parameters for, (E), 21:27568 (LA-3676)
reactions (n,f) wih uranium-232, -233, -235, -236, and -237, plutonium-238 and -242, americium-243, and -243, cross section for, (E), 24:43316 (LA-4420)
reactions (n,f) wih uranium-233 at 0.4 to 2000 eV, ionization detector for cross section measurements of, 25:4333
reactions (n,f) with plutonium-239, analysis of intermediate structure in cross section for, (T), 24:33159
reactions (n,f) with A = 232 through 241 nuclei, double barrier description of angular anisotopy of, (E/T), 25:39007
reactions (n,f) with A = 232 to 242 nuclei, angular distributions of fragments from, (E), 24:30787
reactions (n,f) with A = 232 to 243 nuclei at epicadmium energies, rates for, (E), 24:33153
reactions (n,f) with A = 233 through 242 nuclei up to 1 MeV, spacing of class II resonances in, (T), 25:50786
reactions (n,f) with actinide nuclei, intermediate structure effects in, (E), 25:14997
reactions (n,f) with alpha-emitting and spontaneously fissioning isotopes, method for measuring cross sections of, (E/T), 22:20571 (LA-DC-9188)
reactions (n,f) with americium isotopes, plutonium isotopes, and uranium isotopes at 20 eV to 1 MeV, cross sections for, (E), 21:10004 (LA-3586)
reactions (n,f) with americium-241 and -242 at 20 eV to 1 MeV, cross sections for, (E), 21:23487
reactions (n,f) with americium-241 at 0.02 to 50 eV, cross section and resonance widths for, (E), 22:18292
reactions (n,f) with americium-241 at 0.02 to 50 eV, cross sections for, (E), 21:10068
reactions (n,f) with americium-241 at subthreshold energies, cross section for, (E), 24:20410
reactions (n,f) with americium-241, fission-fragment angular distribution from, (E), 21:10013
reactions (n,f) with americium-241, neptunium-237, and protactinium-231, characteristics for s- and p-neutrons, (T), 23:28317
reactions (n,f) with californium-249 at 15 eV to 3 MeV, cross section for, (E), 25:48069 (BNL-50276)
reactions (n,f) with californium-252 and uranium-235, average neutron yields from, (E), 21:4323
reactions (n,f) with californium-252 at 20 eV to 5 MeV, cross sections and resonance parameters for, (E), 25:48078
reactions (n,f) with californium-252 at 20 to 300 keV, cross sections for, (E), 25:15090
reactions (n,f) with curium, cross sections for, (E), 25:15090
reactions (n,f) with curium-244 at 20 eV to 2 MeV, cross section and threshold for, (E), 23:5926
reactions (n,f) with curium-244 at 20 eV to 2 MeV, cross section for, (E), 24:40550 (WASH-1136)
reactions (n,f) with curium-244, -245, -246, -247, and -248 at 20 eV to 3 MeV, cross sections and resonance parameters for, (E), 25:34098
reactions (n,f) with fissionable materials from thermal energies to 15 MeV, review of mean prompt neutron production from, 25:15119
reactions (n,f) with heavy nuclei at low energies, resonance parameters in, (E), 22:18258
reactions (n,f) with heavy nuclei, experimental facilities and methods for studying, 21:44660 (CONF-660925, pp 789-818)
reactions (n,f) with heavy nuclei, fragment kinetic energies from, (E), 21:30007
reactions (n,f) with isomeric americium-242 at 0 to 4 eV, cross section and resonance parameters for, (E), 22:20578 (WASH-1079)
reactions (n,f) with isomeric americium-242 at 0.02 eV to 6 MeV, cross sections for, (E), 22:18226
reactions (n,f) with isomeric americium-242 at 0.02 eV to 6 MeV, cross sections for, (E), 21:12027(R) (UCRL-50001-66-2)
reactions (n,f) with isomeric americium-242 at 0.02 eV to 6 MeV, cross sections and resonance integrals for, (E), 22:22615
reactions (n,f) with isomeric americium-242 at 0.02 to 6 MeV, cross sections for, (E), 21:7773 (UCID-15036)
reactions (n,f) with lead at depths of 0 to 1000 mwe, velocity of, (T), 25:38645
reactions (n,f) with neptunium-237 and plutonium-239 at resonance energies, intermediate structure in cross sections for, (E/T), 24:30781
reactions (n,f) with neptunium-237 at 0.01 to 1000 eV, cross sections and resonance fission widths of, (E), 24:43330
reactions (n,f) with neptunium-237 at 0.032 to 2.2 keV and 0.1 to 2.8 MeV in Pommard underground nuclear explosion, cross sections for, (E), 25:17926
reactions (n,f) with neptunium-237 at 32 eV to 2.8 MeV, cross sections for, 24:40615 (LA-4372)
reactions (n,f) with neptunium-237 at epicadmium energies, mass yields from, (E), 24:15915
reactions (n,f) with neptunium-237 below threshold, intermediate structure in cross section for resonance, (E), 22:32607
reactions (n,f) with neptunium-237 in reactor spectrum, yields of iodine isotopes, tellurium-132, and xenon-135 in, (E), 21:42656
reactions (n,f) with neptunium-237 in reactor spectrum, yields of A = 141 to 153, fission products in, (E), 21:42655
reactions (n,f) with neptunium-237 in reactor spectrum, yields of molybdenum-99, zirconium-95, and zirconium-97 in, (E), 21:42657
reactions (n,f) with neptunium-237, cadmium-115 and silver-111 yields from, 23:47030
reactions (n,f) with neptunium-237, plutonium isotopes, and uranium isotopes, cross sections relative to uranium-235, (E/T), 21:40420 (AEEW-R-526)
reactions (n,f) with neptunium-237, plutonium-240, thorium-232, uranium-236, and uranium-238, energy integral tests of cross sections for, (E/T), 25:5773
reactions (n,f) with neptunium-237, thorium-232, and uranium-238 up to 20 MeV, statistical analysis of cross section data on, 25:48092
reactions (n,f) with neptunium-237, uranium-233, and uranium-235 using oriented targets, analysis of angular distributions for slow, 25:56749 (RCN-142)
reactions (n,f) with neptunium-237, uranium-235, and uranium-238, excitation functions for measuring fission-neutron spectra, (E), 21:44645
reactions (n,f) with nuclei at 10 eV to 20 keV, average cross sections from SCISRS data tapes for, 23:49381 (AERE-M-2157(Rev.))
reactions (n,f) with nuclei at low energy, cross-section interpretation for, (T), 22:18349
reactions (n,f) with nuclei at low energy, review of theoretical and experimental research on, 23:31054 (IN-1222)
reactions (n,f) with nuclei, calculation using two-bump barrier, (T), 24:8939
reactions (n,f) with nuclei, computer library of product yields from, (E), 25:23016 (AERE-R-6642)
reactions (n,f) with nuclei, description of near-barrier, 25:5850
reactions (n,f) with nuclei, double-humped barrier in quasi-classical approximation for, (T), 25:23058(T) (LA-4386-TR)
reactions (n,f) with nuclei, effect of optical-model parameters on channel analysis of, (T), 23:42955(T) (BNL-tr-273)
reactions (n,f) with nuclei, excitation characteristics in, (T), 24:5437(T) (BNL-tr-169)
reactions (n,f) with nuclei, intermediate structure effects in cross sections of, (T), 24:1884
reactions (n,f) with nuclei, quasiclassical approximation for double barrier in, (T), 24:22192(T) (BNL-tr-311)
reactions (n,f) with nuclei, quasiclassical correlation for angular anisotropy in, (T), 22:9926(T) (ANL-Trans-548)
reactions (n,f) with nuclei, quasiclassical relation for angular anisotropy in, (T), 22:5903
reactions (n,f) with nuclei, structure in subthreshold, (T), 23:19320 (AERE-R-5891)
reactions (n,f) with oriented uranium-235 at 0.3 to 175 eV, effective K quantum numbers in, (E), 24:30782
reactions (n,f) with plutonium and uranium at 0.02 to 10 eV, yields of high-kinetic-energy fragments from, (E), 21:31807
reactions (n,f) with plutonium isotopes, review of, (E/T), 22:3738
reactions (n,f) with plutonium, thorium, and uranium, neutron yields from, (E), 21:7765 (AERE-NP/R-1912)
reactions (n,f) with plutonium, thorium, and uranium isotopes at thermal energies to 14 MeV, calculations of total energy released during, (T), 25:43885 (ANL-7748)
reactions (n,f) with plutonium, thorium, and uranium isotopes at thermal to 15 MeV, number of neutrons per fission from, (E/T), 25:39055
reactions (n,f) with plutonium-238 at 0.02 to 100 eV, cross section and resonance widths for, (E), 22:18292
reactions (n,f) with plutonium-238 at 0.02 to 400 eV, cross sections for, (E), 21:10068
reactions (n,f) with plutonium-238 at 15 to 500 eV, cross section for, (E), 25:14982 (NCSAC-31)
reactions (n,f) with plutonium-238 at 15 to 500 eV, resonance structure in cross section for, (E), 25:48073 (IN-1407, pp 1-82)
reactions (n,f) with plutonium-238 at 18 eV to 1 MeV, total cross section and resonance parameters for, (E), 22:20578 (WASH-1079)
reactions (n,f) with plutonium-238 at 18 eV to 3 MeV, tables of cross sections for, (E), 25:41227 (LA-4674)
reactions (n,f) with plutonium-238 at 18 eV to 3 MeV, cross sections and resonance integrals for, (E), 23:28304 (WASH-1124)
reactions (n,f) with plutonium-238 at 2 to 300 eV, cross sections for resonance, (E), 21:19275
reactions (n,f) with plutonium-238 at 2.5 keV to 2.5 MeV, cross sections for, (E), 25:20444
reactions (n,f) with plutonium-238, uranium-234, and uranium-236, angular distributions and excitation functions for, (T), 21:40503
reactions (n,f) with plutonium-239 and -241 at 0.016 to 0.55 eV, cross sections for, (E), 21:4320
reactions (n,f) with plutonium-239 and plutonium-240 at 5 to 150 keV, cross sections for, (E), 21:17350 (KFK-450)
reactions (n,f) with plutonium-239 and uranium-233, cross sections and anti ν values for, (E), 23:1882 (WASH-1093)
reactions (n,f) with plutonium-239 and uranium-233 at 0.04 to 11 eV, neutron production in, (E), 21:17341 (AERE-M-1709)
reactions (n,f) with plutonium-239 and uranium-235, delayed γ energy spectra from, (E), 22:37337 (AD-801007)
reactions (n,f) with plutonium-239 and uranium-235 at 0 to 25 keV, Doppler effect on, (E/T), 21:10014
reactions (n,f) with plutonium-239 and uranium-235, analysis of serial correlation coefficients using distribution-free statistics, (T), 25:46134

reactions (n,f) with plutonium-239 and uranium-235 at 0 to 70 keV, mean prompt neutron production from, (E), 25:15113
reactions (n,f) with plutonium-239 and uranium-235, delayed gamma emission in, (E), 21:25518 (WASH-1071)
reactions (n,f) with plutonium-239 and uranium-235, shielding effects of uranium-238 resonances on, (E), 21:42659
reactions (n,f) with plutonium-239 and uranium-235, review of cross section data for, 24:15868 (KFK-966)
reactions (n,f) with plutonium-239 and uranium-235, average level spacing of intermediate subthreshold structure in cross sections for, (T), 24:43474
reactions (n,f) with plutonium-239 and uranium-235, statistical analysis of intermediate structure in, (T), 24:30780
reactions (n,f) with plutonium-239 and uranium-235, energy and spin dependence of fission widths for, (T), 22:20655
reactions (n,f) with plutonium-239 and uranium-235 at 0.01 to 1 MeV, mean number of prompt neutrons and cross section for, (E), 25:15116
reactions (n,f) with plutonium-239 and uranium-235, average neutron production by resonance, (E), 25:20364(T) (BNL-tr-401)
reactions (n,f) with plutonium-239 and uranium-235, intermediate structure in cross sections for, 23:37240
reactions (n,f) with plutonium-239 and uranium-235, determination of cross sections using calculated spectrum of NRU reactor, 24:49849 (AECL-3519)
reactions (n,f) with plutonium-239 and uranium-235 at 35 and 400 keV, prompt-neutron spectra and relative yields from, (E), 25:39052
reactions (n,f) with plutonium-239 at 0.001 to 1.0 eV, effect of plutonium-240 compound nucleus state on fragment mass and kinetic energy distributions from, (E), 25:50730
reactions (n,f) with plutonium-239 at 0.002 to 10 keV, cross sections and self-shielding factors for, (E), 21:21527
reactions (n,f) with plutonium-239 at 0.004 to 6 keV, cross section and resonance parameters for, (E), 22:18296
reactions (n,f) with plutonium-239 at 0.01 eV to 10 keV, average τ measurements and resonance spin assignments for, (E), 22:48423 (RPI-328-133, pp 1-34)
reactions (n,f) with plutonium-239 at 0.01 eV to 30 keV, cross section for, (E), 23:7281(R) (ORNL-4280)
reactions (n,f) with plutonium-239 at 0.01 to 1.0 eV, cross section measurement using correlation technique, 24:39207 (IN-1317, pp 233-381)
reactions (n,f) with plutonium-239 at 0.010 to 30 keV, cross sections and resonance parameters for, (E/T), 25:15089
reactions (n,f) with plutonium-239 at 0.016 to 35 keV, time-of-flight measurement of cross section for, (E), 23:8996
reactions (n,f) with plutonium-239 at 0.02 eV to 30 keV, cross section for, (E), 24:35868
reactions (n,f) with plutonium-239 at 0.02 to 30 keV, cross sections for, (E), 25:56746 (ORNL-4707)
reactions (n,f) with plutonium-239 at 0.05 to 7.20 MeV, angular anisotropy and nucleon-pairing effects in, (E), 25:56736 (FEI-233)
reactions (n,f) with plutonium-239 at 0.1 to 30 keV, ratio of cross sections for radiative capture and, (E), 25:56734(T) (BNL-tr-446)
reactions (n,f) with plutonium-239 at 0.275 to 2.035 keV, statistical construction of resonance structure for calculating cross sections and α valves for, (T), 25:46046
reactions (n,f) with plutonium-239 at 14 to 90 eV, resonance parameters from multilevel analysis of cross section for, (E), 22:14048
reactions (n,f) with plutonium-239 at 50 eV to 5.7 keV, correlation analysis of, (T), 24:30785
reactions (n,f) with plutonium-239 at 50 keV to 7.2 MeV, analysis for nucleon pairing effects in, (E), 25:53796
reactions (n,f) with plutonium-239 below 20 eV, correlation of resonance parameters and interpretation of eta/τ in, (E/T), 22:5825
reactions (n,f) with plutonium-239 in light and heavy water, short-lived delayed neutron and photoneutron groups from, (E), 25:25728 (TID-25643)
reactions (n,f) with plutonium-239 in resonance region, ternary fission in, (E), 21:15548 (CONF-660221-, pp 33-7)
reactions (n,f) with plutonium-239 up to 30 keV, cross sections for, (E), 23:1882 (WASH-1093)
reactions (n,f) with plutonium-239 up to 5.5 MeV, effect of excitation energy on fragment kinetic energies and yields from, (E), 25:36754
reactions (n,f) with plutonium-239, and uranium-235, neutron yields and fragment energy spectra from, (T), 24:38211 (JINR-P3-5081)
reactions (n,f) with plutonium-239, angular anisotropy of, (E/T), 22:14095
reactions (n,f) with plutonium-239, design of gaseous scintillation detector operating at 77°K for measuring cross section of, 23:47765
reactions (n,f) with plutonium-239, fragment deformation and kinetic energies from, (T), 21:13905
reactions (n,f) with plutonium-239, fragment energies and yields from, (E), 22:5817(R) (NYO-GEN-72-28)
reactions (n,f) with plutonium-239, gas release curves from, (T), 25:14989 (UCRL-50656(Suppl.))
reactions (n,f) with plutonium-239, mass and energy distributions of fragments from, (E), 23:49393(R) (NYO-72-227)
reactions (n,f) with plutonium-239, neutron yield from, (E), 25:48069 (BNL-50276)
reactions (n,f) with plutonium-239, neutron yields from, (E), 21:7766 (AERE-RP/R-1655)
reactions (n,f) with plutonium-239, plutonium-241, uranium-233, and uranium-235, prompt neutron yield from, (E), 25:56743 (NP-18966)
reactions (n,f) with plutonium-239, plutonium-241, uranium-233, and uranium-235, fission parameters for, 22:22612
reactions (n,f) with plutonium-239, plutonium-241, and uranium-233, iodine-135 yields and fission-product absorption cross sections in, (E), 22:16045
reactions (n,f) with plutonium-239, plutonium-242, uranium-233, and uranium-235 at thermal to 3.1 MeV energies, delayed neutron yields from, (E), 25:5769
reactions (n,f) with plutonium-239, resonance fission integral for, (E), 21:17370
reactions (n,f) with plutonium-239, resonance spin correlation with average neutron number in, (E), 23:28304 (WASH-1124)
reactions (n,f) with plutonium-239, thorium-232, uranium-235, and uranium-238 at 0 to 6 MeV, energy dependence of mean prompt neutron production from, (E), 25:15117
reactions (n,f) with plutonium-239, uranium-233, and uranium-235, interference effects in average cross sections for, (T), 25:12608
reactions (n,f) with plutonium-239, uranium-233, and uranium-235, energy dependence of angular anisotropy in, (T), 21:35499 (FEI-67)
reactions (n,f) with plutonium-239, uranium-233, and uranium-235 at thermal to 2 MeV energies, energy dependence of prompt neutron yields from, (E), 25:59810
reactions (n,f) with plutonium-239, uranium-233, and uranium-235, prompt neutron emission probability from, (T), 25:18239
reactions (n,f) with plutonium-239, uranium-233, and uranium-235 at resonance energies, neutron yields from, (E), 24:47646
reactions (n,f) with plutonium-239, uranium-233, and uranium-235, fission-fragment yield dependence on neutron energy, (E), 21:7769 (IN-1033)
reactions (n,f) with plutonium-239, uranium-233, and uranium-235, effects of nucleon pairing correlations on angular anisotropy of, (T), 22:14080(T) (ANL-Trans-550)
reactions (n,f) with plutonium-239, uranium-235, and uranium-238 at 0.0001 to 20 MeV, evaluation of cross sections for, (E/T), 25:15127
reactions (n,f) with plutonium-239, yields and recoil ranges of products from, (E), 24:30803
reactions (n,f) with plutonium-240, interpretation of subthreshold cross section for, (T), 22:42064
reactions (n,f) with plutonium-241 and uranium-235 at 0.005 to 1 MeV, ratio of cross sections for, (E), 25:15107
reactions (n,f) with plutonium-241 at 0 to 2000°C, g-factors for cross sections of, 21:31803
reactions (n,f) with plutonium-241 at 0.001 to 3 keV, cross sections for, (E/T), 25:15086
reactions (n,f) with plutonium-242 and -244 at 20 eV and 10 MeV, cross sections and resonance parameters from, (E), 25:50750
reactions (n,f) with plutonium-242 and -244 at 20 eV to 8 MeV, cross sections for, (E), 25:48069 (BNL-50276)
reactions (n,f) with radium-223 in reactors, (E), 21:12038
reactions (n,f) with thorium-229 at resonance energies, cross section for, (E), 25:48069 (BNL-50276)
reactions (n,f) with thorium-229 up to 50 eV, cross section and resonance parameters for, (E), 25:53750(R) (NYO-73-340)
reactions (n,f) with thorium-230 and uranium-234, fission barriers and compound-nucleus quasistable states in, (T), 22:44711
reactions (n,f) with thorium-230, dependence of channel width on excitation energy, (T), 21:19277
reactions (n,f) with thorium-232 above 0.6 MeV, relative cross sections for, (E), 22:18259
reactions (n,f) with thorium-232 and uranium and plutonium isotopes at 0.001 to 10 MeV, cross sections for, 21:2732
reactions (n,f) with thorium-232 and uranium-235, energy dependence of the mean number of secondary neutrons from, (E), 21:7812
reactions (n,f) with thorium-232 at low energy, fine structure in cumulative mass yield curve in symmetric region, (T), 23:13303
reactions (n,f) with thorium-232 near threshold energy, nuclear temperature and moments of inertia in, 24:10984 (IAE-1806)
reactions (n,f) with thorium-232, uranium-233, uranium-235, uranium-238, and plutonium-239, palladium-111 isomeric yields in, (E), 23:37227
reactions (n,f) with thorium-232, uranium-233, uranium-235, and uranium-238, relative probability of ternary fission in slow, (E), 23:5883
reactions (n,f) with uranium, yields of delayed-neutron emitting rare gases in, (E), 23:40054
reactions (n,f) with uranium-232 at 0.004 to 2 keV, cross sections for, (E), 21:12027(R) (UCRL-50001-66-2)
reactions (n,f) with uranium-232 at 0.004 to 2 keV, cross sections for, (E), 21:7773 (UCID-15036)
reactions (n,f) with uranium-232 at 0.004 to 2.0 keV, cross sections for, (E), 21:25518 (WASH-1071)
reactions (n,f) with uranium-232 at 4 to 400 eV, cross sections and resonances of, (E), 21:1069 (AERE-M-1231)
reactions (n,f) with uranium-233 and -235 at 10 to 40 keV, cross section for, (E), 25:53750(R) (NYO-73-340)
reactions (n,f) with uranium-233 and -235 below 1 MeV, fine structure of energy dependence of mean number of secondary neutrons in, (E), 24:26626(T) (ANL-Trans-808)
reactions (n,f) with uranium-233 and uranium-235 up to 1 MeV, secondary neutron emission in, (E), 21:4319
reactions (n,f) with uranium-233 and uranium-235, multilevel analysis of cross sections for, 25:15130
reactions (n,f) with uranium-233 and uranium-235, measurement of eta for, (E), 21:7767 (CF-60-2-84)
reactions (n,f) with uranium-233 at 0.01 to 0.5 eV, cross sections for, (E), 21:25518 (WASH-1071)
reactions (n,f) with uranium-233 at 0.018 eV to 1.2 keV, cross section for, (E), 24:40625
reactions (n,f) with uranium-233 at 0.02 to 1 eV, cross section for, (E), 25:25722(R) (ORNL-4592)
reactions (n,f) with uranium-233 at 0.02 to 1 eV, cross section for, (E), 25:5702
reactions (n,f) with uranium-233 at 0.02 to 1 eV, cross section for, (E), 23:23675 (ORNL-TM-2353)
reactions (n,f) with uranium-233 at 0.02 to 4 eV, cross section for, (E), 23:7281(R) (ORNL-4280)
reactions (n,f) with uranium-233 at 0.4 and 2.6 MeV, fragment kinetic energies and yields from, (E), 22:5857
reactions (n,f) with uranium-233 at 0.4 to 1000 eV, cross sections for, (E), 21:38305
reactions (n,f) with uranium-233 at 0.4 to 1000 eV, cross sections for, (E), 21:25515 (ORNL-TM-1751)
reactions (n,f) with uranium-233 at 0.4 to 1000 eV, cross sections and resonance integrals for, (E), 22:14001 (RPI-328-100, pp 1-56)
reactions (n,f) with uranium-233 at 20 eV to 1 MeV, cross sections for, (E), 22:39652
reactions (n,f) with uranium-233 at 20 eV to 1 MeV, cross sections for, (E), 22:18230
reactions (n,f) with uranium-233 below 60 eV, Adler—Adler multilevel formalism for cross sections for, 24:10986 (ORNL-TM-2745)
reactions (n,f) with uranium-233 up to 15 MeV, evaluation of cross sections for, 24:6920
reactions (n,f) with uranium-233, -235, and -238 up to 7 MeV, delayed neutron yield from, (E), 25:48069 (BNL-50276)
reactions (n,f) with uranium-233, energy spectra of A = 2 to 10 nuclei from, (E), 24:6890
reactions (n,f) with uranium-233, neutron spectrum from slow, 24:6913
reactions (n,f) with uranium-233, uranium-235, uranium-238, plutonium-239, plutonium-240, and plutonium-242, EBR-II integral measurements of, 25:56982 (ANL-7791)
reactions (n,f) with uranium-233, uranium-239, and plutonium-239 in thermal and resonance regions, neutron multiplicity measurements for, (E), 24:30790
reactions (n,f) with uranium-234 and uranium-236, analysis in terms of K states, (T), 21:1125 (RLO-1388-10)
reactions (n,f) with uranium-234 at 0.004 to 20 keV, cross sections and resonance widths for, (E), 22:50634
reactions (n,f) with uranium-235 and plutonium-239, cross sections for, (E), 24:38210 (JINR-P3-4992)
reactions (n,f) with uranium-235 and plutonium-239 at low energies, precise cross sections for, 25:53731 (CONF-701002-, pp 221-45)
reactions (n,f) with uranium-235 at 0 to 0.6 MeV, kinetic energy of fragments from, (E), 24:22186
reactions (n,f) with uranium-235 at 0 to 20 keV, cross section and resonance integral for, (E), 22:18298
reactions (n,f) with uranium-235 at 0.0004 to 3 keV, cross section for, (E), 22:3699 (ORNL-TM-1804)
reactions (n,f) with uranium-235 at 0.006 to 20 eV, variation of fragment kinetic energies in, (E), 24:30789
reactions (n,f) with uranium-235 at 0.006 to 20 eV, kinetic energy variation of fragments from, (E), 23:8975 (JINR-P3-4110)
reactions (n,f) with uranium-235 at 0.01 to 2.0 eV, anti τ values for, (E), 22:20578 (WASH-1079)
reactions (n,f) with uranium-235 at 0.01 to 21 eV, cross section and resonance integral for, (E), 23:5917
reactions (n,f) with uranium-235 at 0.01 to 40 eV, average number anti τ of fission neutrons from, (E), 23:5931
reactions (n,f) with uranium-235 at 0.012 to 2.0 eV, neutron emission in, (E), 22:14001 (RPI-328-100, pp 1-56)
reactions (n,f) with uranium-235 at 0.017 to 30 keV, cross sections for, (E/T), 25:15086
reactions (n,f) with uranium-235 at 0.08 to 6 MeV, angular distributions from, (E), 21:10066
reactions (n,f) with uranium-235 at 0.46 eV to 2.1 keV, self-shielding factors for, (E), 23:19129
reactions (n,f) with uranium-235 at 0.5 to 2000 eV, resonance integral for, (E), 23:1882 (WASH-1093)
reactions (n,f) with uranium-235 at 0.8 to 170 eV, cross section for, (E), 22:18206 (IAE-1302)
reactions (n,f) with uranium-235 at 1.5 to 500 keV, high-resolution cross section for, (E), 24:38218 (UCRL-72472)
reactions (n,f) with uranium-235 at 12.5 to 350 keV, structure in the cross section for, (E), 25:36739 (UCRL-73090)
reactions (n,f) with uranium-235 at 2.5 and 7 MeV, fragment kinetic energies and yields from, (E), 22:5857
reactions (n,f) with uranium-235 at 25 keV to 1 MeV, evaluated cross sections for, 25:53602 (CONF-701002-, pp 331-40)
reactions (n,f) with uranium-235 at 4.7 to 300 eV, cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions (n,f) with uranium-235 at thermal and epicadmium energies, density ratio for, (E), 24:15907
reactions (n,f) with uranium-235 at thermal energies to 2 MeV, fission fragment energy distribution from, (E), 22:7569(R) (BARC-291)
reactions (n,f) with uranium-235 below 2 MeV, energy dependence of prompt neutron yield in, (E), 25:5755
reactions (n,f) with uranium-235 from 0.009 to 24 eV, cross-sections for resonance, (E), 25:5738
reactions (n,f) with uranium-235 from thermal energies to 1.7 GeV, dynamic-model calculations of heavy-fragment kinetic-energy and mass distributions for, (T), 25:50769

reactions (n,f) with uranium-235 near threshold energy, width for, (E/T), 22:53185
reactions (n,f) with uranium-235 systems, delayed neutron and photoneutron parameters for, (E/T), 25:18242
reactions (n,f) with uranium-235, angular and energy distributions in, 21:19276
reactions (n,f) with uranium-235, angular anisotropy of γ rays from slow, (E), 25:31369
reactions (n,f) with uranium-235, anisotropy of γ emission in, (E), 22:48555
reactions (n,f) with uranium-235, cluster-model analysis of charge distributions in, (T), 21:1145
reactions (n,f) with uranium-235, correlation between neutron and fission widths and compound nucleus spin in, (T), 22:5904
reactions (n,f) with uranium-235, cross section calculations using quasi-resonance parameters, (T), 24:6919
reactions (n,f) with uranium-235, cross sections for, (E/T), 25:23029(T) (JPRS-52290, pp 109-24)
reactions (n,f) with uranium-235, cross sections for, 22:1873
reactions (n,f) with uranium-235, description using sudden model, (T), 25:15024
reactions (n,f) with uranium-235, Doppler broadening of cross section for, (T), 21:4273 (GA-7391)
reactions (n,f) with uranium-235, fission-fragment kinetic energy and mass distributions for, (E), 22:22604
reactions (n,f) with uranium-235, fragment deformation and kinetic energies from, (T), 21:13905
reactions (n,f) with uranium-235, gamma spectra from resonance, (E), 24:47643
reactions (n,f) with uranium-235, identification of short-lived fragments from, (E), 21:31793
reactions (n,f) with uranium-235, neutron angular distribution from ternary fission, (E), 21:25536
reactions (n,f) with uranium-235, periodic antocorrelation effects in cross section for, (E/T), 22:50625
reactions (n,f) with uranium-235, primary charge distribution in, (E), 22:11874(R) (JUL-463-NP)
reactions (n,f) with uranium-235, prompt gamma emission in, (E), 22:9921 (JUL-Conf-1)
reactions (n,f) with uranium-235, rate measurement using radiochemical techniques, (E), 21:12073
reactions (n,f) with uranium-235, ratio of epithermal to thermal, (E/T), 24:22501
reactions (n,f) with uranium-235, structure of energy dependence of neutron yields from, (T), 25:53773
reactions (n,f) with uranium-235, widths of resonances in, (T), 24:13433
reactions (n,f) with uranium-235, yields of cesium-138, -139, -141, -142, -143, and -145 in, (E), 25:28307 (CERN-70-30(Vol.1), pp 589-99)
reactions (n,f) with uranium-236, mean primary charge distribution from, (T), 21:2802
reactions (n,f) with uranium-238 and plutonium-239, cross section calculation in the unresolved resonance region, (T), 24:22205
reactions (n,f) with uranium-238 below threshold, width and cross sections for, (E), 25:46074
reactions (n,f) with uranium-238, ENDF/B cross sections for, 25:38998 (WARD-4181-1)
reactions (n,f) with Z = 90 to 95 nuclei, epicadmium energy integral fission rates for, (E/T), 25:17915
reactions (n,f) wth thorium-232, uranium-238, uranium-233, uranium-235, plutonium-239, and plutonium-241, fragment yields from, (E/T), 25:23017 (ANL-7749)
reactions (n,γ) and (n,p) with phosphorus-sulfur compounds, production of recoil phosphorus-32 by, 25:26318
reactions (n,γ) or (n,2n) with bromine—bromoethane, 23:49834
reactions (n,γ) with actinide isotopes in molecular sieves, isotope enrichment by, 25:54718 (ORNL-4682, pp 168-81)
reactions (n,γ) with americium-241 in Belgian Reactor-2, production of curium-244 by, 22:2097 (EUR-3560)
reactions (n,γ) with argon-40 in atmosphere, 21:8796 (ORNL-4007, pp 171-210)
reactions (n,γ) with bromine isotopes in carbon tetrachloride and C_6-alkanes, 21:24058
reactions (n,γ) with bromine-79 in bromates, chemical state of recoil bromine atoms in, 21:36064
reactions (n,γ) with bromine-79 in bromates, recoil effects in, 23:296
reactions (n,γ) with bromine-81 in antimony tribromide and antimony tribromide—benzene intermolecular compound, yields of bromine-82 from, 24:36322
reactions (n,γ) with bromine-81 in bromates, chemical state of recoil bromine atoms in, 21:36064
reactions (n,γ) with bromine-81 in bromobenzene, chemical effects from, 22:16641
reactions (n,γ) with bromine-81 in potassium rhenium bromide—potassium rhenium chloride mixed crystals, 24:219
reactions (n,γ) with chlorine-35 in chlororhenates and chlororhodates, yields of chlorine-36 from, 24:19029
reactions (n,γ) with chlorine-35 in silver chloride, chemical effects of, 21:24051
reactions (n,γ) with cobalt in complexes, Szilard-Chalmers recoil of cobalt-60m and cobalt-60g from, 21:10407
reactions (n,γ) with cobalt-59, direct capture process in, (E), 21:4242
reactions (n,γ) with cobalt-60, cross sections and resonance integrals for isomer activation, (E), 21:4235 (IN-1024)
reactions (n,γ) with copper-63 and copper-65 at 10 to 60 keV, averaged intensities of primary gamma rays from, (E), 22:29944
reactions (n,γ) with copper-63, 2DB code for calculation of spectral-averaged cross sections for, 25:11474(R) (BNWL-842)
reactions (n,γ) with copper-63, study of impurities in copper-64 produced by, 23:315
reactions (n,γ) with curium at 20 eV to 3 MeV, cross sections and resonance parameters for, (E), 25:34098
reactions (n,γ) with fission products at 0.215 eV to 10 MeV, cross sections and multigroup constants for, (E), 25:31304 (JAERI-Memo-4251)
reactions (n,γ) with fission products at 1 keV to 10 MeV, cross sections for, (E/T), 21:7811
reactions (n,γ) with gadolinium-156, cross sections for, (E), 21:2725
reactions (n,γ) with gold-197, preparation of gold-198 free of gold-199 by, 24:46247(T) (ORNL-tr-2311)
reactions (n,γ) with hafnium-179, cross sections for, 22:33225
reactions (n,γ) with inorganic osmium compounds, chemical states of radioactive osmium from, 23:9471
reactions (n,γ) with inorganic rhenium compounds, chemical states of radioactive rhenium from, 23:9471
reactions (n,γ) with iodine atoms in potassium iodide single crystals, 21:15929
reactions (n,γ) with iodine-127 in alkyl halide-hydrocarbon mixtures, reactions of recoil iodine-128 from, 25:192
reactions (n,γ) with iodine-129 in iodine—polyhalomethane system, iodine organic yields from, 23:9495
reactions (n,γ) with iridium-191 and -193 in sodium chloroiridates, recoil products of, 21:121
reactions (n,γ) with iron, absolute gamma ray intensities from, 23:24426 (IN-1218, pp 181-316)
reactions (n,γ) with iron, nitrogen, and oxygen up to 15 MeV, linac facility for measuring cross sections for, 23:3872
reactions (n,γ) with iron-54 and mercury-199, gamma energies from, (E), 21:4233(R) (AECL-2610)
reactions (n,γ) with iron-58 in potassium ferrocyanide, thermal annealing processes after, 23:2362
reactions (n,γ) with iron-58 in potassium ferrocyanide, chemical species in products from, 23:2362
reactions (n,γ) with manganese-55, potassium-45, and resonance integrals for, (E), 21:29937
reactions (n,γ) with molybdenum carbonyls, preparation of carrier-free molybdenum-99 by, 24:2235
reactions (n,γ) with neptunium-237 and uranium-235, production of plutonium-238 by, 22:18851
reactions (n,γ) with nickel in cladding materials, helium production by, 25:58336
reactions (n,γ) with nuclei with 23 less than or equal to A less than or equal to 64 in the keV range, cross sections for, (E), 21:1046 (RPI-328-70)
reactions (n,γ) with nuclei with 51 less than or equal to A less than or equal to 205, resonance parameters from, 21:7819 (FEI-36)
reactions (n,γ) with nuclei with 51 less than or equal to A less than or equal to 205 below 50 keV, level densities from, (E/T), 21:2684
reactions (n,γ) with nuclei, crystal spectrometers for measurements in, 21:12627 (BNL-10994)
reactions (n,γ) with nuclei, energy levels from, 21:15606 (BNL-10992)
reactions (n,γ) with nuclei, energy levels from, 21:15607 (BNL-10995)
reactions (n,γ) with nuclei, energy levels from, 21:15608 (BNL-10996)
reactions (n,γ) with nuclei, flat-crystal gamma spectrometer for studying, 23:11824
reactions (n,γ) with nuclei, gamma spectra from, 21:2729
reactions (n,γ) with nuclei, scintillation detectors for measuring total number of resonance captures in, 22:19095 (IAE-1349)
reactions (n,γ) with nuclei, scintillation detectors for measuring total number of resonance captures in, 23:4801(T) (ANL-Trans-642)
reactions (n,γ) with nuclei, survey of gamma spectra from, 21:21571
reactions (n,γ) with nuclei, tables of gamma peaks and specific activity of radioisotopes from, 21:11922 (EUR-3154.e)
reactions (n,γ) with nuclei, use of lithium-drifted germanium gamma spectrometer for measurement of, 22:354
reactions (n,γ) with organic compounds, 22:23481(R) (PRNC-102)
reactions (n,γ) with phenylphosphorus compounds, reactions of recoil phosphorus-32 in, 23:37991
reactions (n,γ) with potassium-39, Moessbauer measurements on potassium-40 from, 22:39204
reactions (n,γ) with rhenium-185, chemical effects in mixed crystals from, 21:45157
reactions (n,γ) with rhodium-103, flat-crystal gamma spectrometer for studying spectra from, (E), 23:11824
reactions (n,γ) with ruthenium-103, ruthenium-104, gamma-ray multiplicites, and isomeric cross section ratios from, (T), 21:2736
reactions (n,γ) with shields, energy effects on gamma dose calculations, 22:31894
reactions (n,γ) with silicon-30 in tetramethylsilane, recoil products and reactions from, 21:10402
reactions (n,γ) with strontium-90 for pile neutrons, cross section for, (E), 21:2726
reactions (n,γ) with tellurium isotopes, cross sections and gamma spectra for, 21:13864
reactions (n,γ) with tellurium-128 and tellurium-130 in telluric acid, 23:11589
reactions (n,γ) with tellurium-129-, tellurium-131-, and tellurium-131m-labeled telluric acid, 23:2354
reactions (n,γ) with tin isotopes, oxidation states of tin-121, -123, and -125 produced by, 23:19810
reactions (n,γ) with tin-118, 22:10517
reactions (n,γ) with tin-118 in tin oxide, stabilization of recoil atoms of tin-119m from, 21:8393
reactions (n,γ) with tungsten isotopes, gamma spectra from, (E), 21:23521
reactions (n,γ) with uranium-238 in uranium sulfate, oxidation states of products from, 23:7562
reactions (n,γ) with xenon isotopes, 21:17672
reactions (n,γ) with zinc phthalocyanine, effects of crystal structure and isotope effects on behavior of recoil atoms from, 24:2243
reactions (n,γ), (n,2n), and (n,np) with nuclei, computer program for calculating cross sections for, (T), 25:28218 (NP-18674)
reactions (n,γf) with uranium-235, relative prompt-gamma yields from resonance, (E), 25:53755
reactions (n,He-3) with chlorine-37, production of phosphorus-35 by, (E), 21:14930(R) (ORO-3235-12)
reactions (n,n) and (n,p) with iron-56, cross sections and energy levels of iron-56 and manganese-56 from, (T), 25:28218 (NP-18674)
reactions (n,n'), (n,p), and (n,α) with nuclei, use for measuring neutron spectra, 23:2558 (KURRI-TR-27)
reactions (n,n'γ) with germanium-74, excitation function for gamma ray production in, 22:32959 (ANL-7310, pp 1-30)
reactions (n,np) with sulfur-36, production of phosphorus-35 by, (E), 21:14930(R) (ORO-3235-12)
reactions (n,np) with sulfur-36, production of phosphorus-35 by, (E), 21:14930(R) (ORO-3235-12)
reactions (n,p) and (n,α) with nuclei, compound-nucleus calculations of cross sections for low-energy, 25:15207
reactions (n,p) and (n,α) with nuclei, use for determining composition of lunar surface by, 22:4545
reactions (n,p) and (n,d) with fluorine-19 at 14.1 MeV, compound nucleus and direct effects in, (E/T), 22:26844
reactions (n,p) of cosmic, with sulfur-32, production of phosphorus-32 by, (E/T), 21:14930(R) (ORO-3235-12)
reactions (n,p) with aluminum-27, cobalt-59, copper-63, and iron-54, compound and precompound decay probabilities for, (T), 22:27070
reactions (n,p) with aluminum-27, copper-65, iron-56, magnesium-24, and phosphorus-31, cross sections for, 21:14930(R) (ORO-3235-12)
reactions (n,p) with carbon-12 at 14.5 to 22 MeV, resonances in, (E), 22:15962
reactions (n,p) with chlorine-35 in alkyl chlorides, 22:16612
reactions (n,p) with chlorine-37 in solid lithium chloride, chemical state of sulfur-37 produced from, 21:28044
reactions (n,p) with chlorine-37, chemical forms of sulfur-37 produced in, 21:25915
reactions (n,p) with copper-63 at 14.3 and 16.6 MeV, proton energy spectra from, (E), 22:11941
reactions (n,p) with copper-64, iron-56, magnesium-24, and zinc-64, fission-spectrum-averaged activation cross sections for, (E), 25:14968
reactions (n,p) with deuterons, neutron—neutron scattering length from, (T), 21:40373
reactions (n,p) with helium-3 at 0.3 to 1.0 GeV/c, testing elementary-particle treatment of complex nuclei by, (T), 22:11897
reactions (n,p) with helium-3 at 4 to 1000 keV, cross section for, (E), 22:18146
reactions (n,p) with helium-3 at 80 to 500 keV, cross section for, (E), 25:48069 (BNL-50276)
reactions (n,p) with helium-3, cross sections for, (E), 21:23314 (BNL-994, pp 70-102)
reactions (n,p) with helium-3, data analysis for unpolarized, (T), 21:29867
reactions (n,p) with helium-3, review of experiments on, 25:53514 (CONF-701002-, pp 74-9)
reactions (n,p) with helium-3, theoretical analysis of experimental data on, (T), 21:42550 (INFN/BE-67/1)
reactions (n,p) with helium-3, use of Feynman diagrams to determine position of resonances in, (T), 22:18337
reactions (n,p) with iron oxide, preparation of manganese-54 by, 22:2104
reactions (n,p) with iron-54 and nickel-58, cross sections for, 21:26865(R) (HW-74679)
reactions (n,p) with iron-54, 2DB code for calculation of spectral-averaged cross sections for, 25:11474(R) (BNWL-842)
reactions (n,p) with iron-54, nickel-58, and titanium-46, use for EBR-II cross section spectrum corrections, 24:34839(R) (BNWL-1091)
reactions (n,p) with iron-56 and phosphorus-31, excitation functions for measuring fission-neutron spectra, (E), 21:44645
reactions (n,p) with lithium-6, analysis using impulse approximation, (T), 23:49342
reactions (n,p) with lithium-6, data acquisition and processing system for analyzing, 23:47896
reactions (n,p) with magnesium nitride, chemical state of carbon-14 recoil produced by, 22:10264(R) (ORO-3602-1)
reactions (n,p) with magnesium-24, cross-section calculations using statistical theory, (T), 21:9976
reactions (n,p) with medium-weight nuclei, compound and precompound decay states in, (E/T), 22:16078
reactions (n,p) with molybdenum-96, -97, -98, and -100 at 14.1 MeV, activation cross sections for, (E), 22:1689
reactions (n,p) with nickel-58 and sulfur-32, activation cross sections for, 21:26865(R) (HW-74679)
reactions (n,p) with nickel-60, differential cross sections for threshold, (E), 21:21503
reactions (n,p) with nitrogen-14 in metallic nitrides, chemical forms of carbon-14 produced by, 23:4646
reactions (n,p) with nitrogen-14 in nitrides, production of carbon-14 by, 22:4183
reactions (n,p) with nitrogen-14 near sea level, carbon-14 production in cosmic, (E), 22:15964
reactions (n,p) with normal and isomeric nuclei near A = 45 and 90, cross-section calculations using statistical theory, (T), 22:20677 (UCRL-50359)
reactions (n,p) with nuclei with A = 14 to 190, cross sections for, (E), 21:4212
reactions (n,p) with nuclei with analog-dipole excitation, collective theory for, 25:36835
reactions (n,p) with nuclei, statistical-model calculations using shell-independent parameters, (T), 25:50813

reactions (n,p) with palladium-110 at 14 MeV, production of isomeric rhodium-110 from, (E), 25: 23032(T) (ORNL-tr-2405)
reactions (n,p) with phenylsulfur compounds, reactions of recoil phosphorus-32 with compounds produced by, 23:43375
reactions (n,p) with phosphorus-31, measurement of neutron yields from deuteron reaction (d,n) on deuterium using, 21:38264
reactions (n,p) with potassium-39, production of argon-39 in, 21:25911
reactions (n,p) with sulfur, production of phosphorus-32 in, 21:1407
reactions (n,p) with sulfur-32 in sulfur compounds, oxidation states of phosphorus-32 produced by, 22:111
reactions (n,p) with sulfur-32, analysis for use in threshold detectors, 21:3269
reactions (n,p) with sulfur-32, chemical states of phosphorus-32 from, (E), 21:24049
reactions (n,p) with sulfur-32, yields of phosphorus from, 21:30489
reactions (n,p) with sulfur-33 to produce phosphorus-33, 21:19714(P)
reactions (n,p) with sulfur-33, production of phosphorus-33 in, (T), 21:1382(T) (ORNL-tr-1246)
reactions (n,p) with titanium-46, -47, and -48 in reactor spectrum, cross sections for, (E), 21:44656
reactions (n,p) with tritium at 14, 18, and 22 MeV, proton energy spectra for, (E), 22:9771
reactions (n,p) with tritium, cross section for, (T), 22: 50528
reactions (n,p) with zinc oxides, preparation of copper-67 by, 22:2104
reactions (n,p) with zinc-64, preparation of copper-64—copper-67 by, 23:13749
reactions (n,p) with zinc-64, production of copper-64 from, 23:2335
reactions (n,p), (n,α), and (n,2n) with nuclei in the range A = 24 to 48 at 14.2 MeV, statistical-model calculations of cross sections for, (T), 22:20686
reactions (n,p)2n with deuterium at 200 MeV, differential cross section and polarization for, (E), 22:53092
reactions (n,pd) with helium-3, p-d coincidence spectra from, (E), 24:52396
reactions (n,pγ) with potassium-39 at 1.82 to 3.96 MeV, differential cross sections for, (E), 22:20556
reactions (n,t) with lithium-6 in uranium slabs for neutron spectroscopy, 21:15460 (CEA-R-3038)
reactions (n,t) with lithium-6, analysis of wide near-threshold resonances in, (T), 23:23789
reactions (n,t) with nitrogen-14, production of tritium in, 21:5834 (IA-1082, pp 77-202)
reactions (n,t) with tritium at 14.1 MeV, triton angular distribution and spectra from, (E), 22:32484
reactions (n,xγ) with nuclei, linac experimental facility for measuring gamma spectra in, (E), 23:44769
reactions (n,z) with nuclei, survey of research on, 24: 28713
reactions and inelastic scattering on light nuclei, cross-section relations using charge-independent forces, (T), 21:23413 (UCRL-50197)
reactions for nucleogenesis in stars and thermonuclear explosions, cross sections for, (T), 21:12030
reactions for secondary γ radiation yield, POPOP 4 data library for, 25:9942 (CTC-42)
reactions in air with plutonium nitrate or uranyl nitrate solutions contained in cylindrical vessels, 24:22924 (CEA-R-3946)
reactions in chondrites of solar, (T), 21:23030
reactions in chondrites, (T), 21:28876
reactions in chromium-50, chromium-52, chromium-53, chromium-54, nickel-60, and vanadium at 0.1 to 350 keV, transmission cross sections for, (E), 25:34047
reactions in light water-moderated uranium dioxide assemblies, fast fission ratio for, (E), 22:39651
reactions in lunar surface materials, (E), 24:30130
reactions in meteorites, (E/T), 25:4922
reactions in non-fuel materials in critical assemblies, comparison of diffusion theory calculations with calorimetric measurements of heating rates for, 23: 2129 (WAPD-T-2111)
reactions in red giants and supernovas, (T), 22:5033
reactions in steel shields of 14 and 2.5 MeV, (E), 22: 1286 (FOA-4-4320-23)
reactions in tungsten and depleted uranium, GAROL calculation of multigroup resonance cross sections, (E), 24:6910
reactions in uranium carbide at 0.006 to 4.5 eV, total cross section for, 24:47557
reactions in zirconium hydride at 0.009 to 1.415 eV, total cross sections for, (E), 24:26573(R) (GA-9753)
reactions n + d at low energies, contributions of first two diagrams to amplitude of three-body inelastic, (T), 25:20027
reactions of 14-MeV, with silicon transistors, determination of response from, 23:35575
reactions of cosmic, with iron at 100 to 1000 GeV, cross sections for, (E), 22:21911
reactions of slow, with protactinium-231, calculations on production of thorium-228 and uranium-232 from, 25: 15699
reactions of, preparation of activated semiconductor materials by, 21:38991
reactions of, target orientation by excitation from, 24: 13235
reactions of, with bismuth—magnesium alloy to produce polonium-210 alpha source, 21:15966(P)
reactions of, with lanthanum-139, production of cerium-141 in, 21:15939
reactions of, with lithium carbonate to produce carrier-free fluorine-18, 21:10393
reactions of, with magnesium, production of sodium-24 in, 21:14254
reactions of, with praseodymium, production of cerium-141 in, 21:15939
reactions to produce bromine-82-labeled Bromophos, 23: 45328
reactions to produce hydrogen in steel, flux requirements for, 21:28800 (HW-84618)
reactions with 48 A = 7 to 239 nuclei at 0.047 to 14.8 MeV, differential and integrated cross sections for, (E), 25:41204 (ORO-2791-32)
reactions with A = 2 to 260 nuclei, tables of threshold energies for, 21:29966 (UCRL-14000)
reactions with A = 2 to 48 nuclei, Q-values for three-particle, (T), 22:24888 (BMwF-FBK-67-91)
reactions with A = 45 to 61 nuclei at 10 to 250 keV, total cross sections and resonance parameters for, (E/T), 25:28279
reactions with A = 50 to 200 nuclei, strength functions and scattering radii for, (E), 22:18285
reactions with A = 51 to 209 nuclei, total cross sections and resonance parameters for, (E), 23:5854
reactions with A = 60 to 247 nuclei, analysis of radiative widths of resonances in, (E/T), 25:34045
reactions with A = absorption by A = 242 to 252 nuclei in thermalized reactor spectrum, cross sections for, (E), 22:20566 (DP-MS-67-111)
reactions with actinide elements, method for calculation of resonance self-shielding factors for, 24:28807
reactions with actinides at thermal energies to 10 MeV, evaluation of data on, (T), 25:15128
reactions with air and tungsten, effect of cross-section resolution on transport and secondary gamma calculations, 22:31897
reactions with aluminum at 10 to 30 GeV/c, total cross sections for, 25:47734
reactions with aluminum at 10 to 30 GeV/c, total cross sections for, (E), 25:56421
reactions with aluminum at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with aluminum manganese and sodium in beach sand, gamma radiation from, 22:35938 (AD-663103)
reactions with aluminum, calcium, and magnesium, fluctuations in total cross sections for, (T), 22:7637(R) (COO-1573-33)
reactions with aluminum, lead, and oxygen at 1 GeV, intranuclear-cascade calculations for, (T), 22:7526 (ORNL-TM-1996)
reactions with aluminum, lead, and oxygen at 750 to 2000 MeV, analytic representation of nucleon and pion emission spectra from, 22:46459 (ORNL-TM-2277)
reactions with aluminum, production of silicon by, 25: 2816 (ORNL-4570, pp 16-19)
reactions with aluminum—lithium alloys, helium bubble behavior from, 21:9204
reactions with aluminum-27, copper-65, lead-207, oxygen-16, and ruthenium-100 at 500 to 3000 MeV, calculations using intranuclear-cascade model, (T), 25: 45941
reactions with aluminum-27, magnesium-24, sulfur-32, and zinc-64, cross sections for, 24:22665(R) (AECL-3521)
reactions with americium in production of californium-252, 23:35168
reactions with americium-241 to produce 100-Ci amounts of curium-242, 23:9442
reactions with americium-241 to produce curium-242, 23:40675 (ANL-7569)
reactions with americium-241, gamma dose rate from production of curium-242 by, 25:38975 (EUR-4612, pp 353-62)
reactions with americium-241, production of curium-242 by, 22:47152 (BMwF-FBK-68-10)
reactions with americium-241, production of other transuranium elements by, 23:19771
reactions with americium-243 at 0.01 eV to 1 keV, total cross section for, (E), 25:48073 (IN-1407, pp 1-82)
reactions with ammonia, methane, and hydrogen chloride, rotational correlation functions in, 22:38797
reactions with anthracene, scintillation response anisotropy to recoil protons and carbon ions generated by, 22:40418
reactions with antimony at 6 to 250 eV, resonance parameters for, (E), 23:5898
reactions with antimony, molybdenum, praseodymium, and tellurium at 6 eV to 250 keV, total cross sections for, (E), 22:18225
reactions with antimony-121 and -123 at 6.24 to 29.7 eV, resonance parameters for, (E), 22:32599
reactions with argon-40 and sulfur-34 at 30 to 600 keV, 22:22560(R) (ORO-1067-2)
reactions with barium and copper at 0 to 1 keV, resonance parameters for, (E), 21:25464 (CEA-R-3128)
reactions with barium, chlorine, copper, and neodymium, spin and resonance parameters for, (E), 23:44878
reactions with barium-130 in barium carbonate, production of cesium-131 by, 25:41876 (CONF-680986-2)
reactions with barium-140, niobium-93, and niobium-94, resonance integrals for, (E), 21:46723 (ORNL-4164, pp 1-23)
reactions with beryllia, graphite, and molybdenum, energy storage from, 21:14912
reactions with beryllium at 10 to 30 GeV/c, total cross sections for, (E), 25:56421
reactions with beryllium at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with beryllium to form helium, calculation of gas evolution from, 24:12436 (CEA-R-3273)
reactions with beryllium-9, boron-10, and carbon-12, disintegration cross sections for, (T), 23:37311
reactions with beryllium-9, compilation and evaluation of nineteen-group cross sections for, 21:11968 (GEMP-470)
reactions with binel and copper, absorption cross sections for, (E), 25:38959
reactions with bismuth, production of polonium-210 in, 24:27189(R) (MLM-1612)
reactions with bismuth-209, resonance density functions for, (E), 22:9887
reactions with blood sodium in man for use in dosimetry following accidents, 22:6799 (LA-3721)
reactions with boron in A-286 iron alloy, use in determining boron content, 22:2669
reactions with boron-10 at 0.0001 to 15 MeV, cross sections for, (E/T), 22:3607 (ORNL-TM-1872)
reactions with boron-10 at 10 to 500 keV, cross sections for, (E), 21:23534(R) (ANL-7246)
reactions with boron-10 at 100 eV to 10 MeV, total cross sections for, (E), 22:37289 (AERE-R-5224)
reactions with bromine—bromoethane mixture, effects of deuterium on formation of bromine-80m and bromine-82 in, 21:24053
reactions with bromocyclopropane and bromine—cyclopropane, reactions of recoil bromine-80m from, 25:54690
reactions with bromoethane—bromine mixture, formation of bromine-80m and bromine-82, 21:24054
reactions with cadmium at 0.001 eV to 15 MeV, evaluated cross sections and group constants for, 24: 28770 (EURFNR-749)
reactions with cadmium at 0.01 to 10 eV, total cross sections for, (E), 22:46763 (EIR-134)
reactions with cadmium at 0.01 to 10 eV, total cross section for, (E), 23:5881
reactions with cadmium at 10 to 30 GeV/c, total cross sections for, (E), 25:56421
reactions with cadmium at 18 to 214 eV, resonance parameters for, (E), 23:5898
reactions with cadmium at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with cadmium isotopes up to 1 keV, resonance level parameters for, (E), 21:7816
reactions with cadmium isotopes, parameters for resonances in, 21:21523(T) (BNL-tr-126)
reactions with cadmium-111, -112, -114, and -116, total cross sections for, (E), 24:35859(T) (BNL-tr-323)
reactions with calcium, chlorine, magnesium, potassium, and sodium-23, cross sections for, 22:37306 (AD-665359)
reactions with calcium, cross sections for, 22:37311 (AD-665364)
reactions with calcium, gadolinium, and potassium, total cross sections for, (E), 23:37134 (AD-681890)
reactions with calcium-40 and oxygen-16, total cross sections for, 23:43291(R) (MLM-1603)
reactions with californium to produce einsteinium, 23: 24222(R) (ORNL-4376)
reactions with californium-252, production of einsteinium-253 by, 24:213 (ORNL-4422, pp 154-82)
reactions with californium-252, resonance integrals for, 23:32925 (CONF-681032-, pp 23-130)
reactions with californium-252, review of experimental data for, 23:17104 (BNL-13251)
reactions with carbon and oxygen at 14 MeV, 24:24297
reactions with carbon at 0.070 to 100 keV, total cross section for, (E), 22:35285(R) (AERE-PR/NP-13)
reactions with carbon at 0.3 and 400 eV, total cross sections for, (E), 21:37689
reactions with carbon at 10 to 30 GeV/c, total cross sections for, (E), 25:56421
reactions with carbon at 10 to 30 GeV/c, total cross sections for, 25:47734
reactions with carbon at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with carbon at 7.5 GeV/c in propane bubble chamber, search for B = 2,3 and S = 0, -1, -2 baryon resonances in Ap, AA, pp, and ppA systems in, (E), 25:50057 (JINR-E1-5935)
reactions with carbon nuclei at 100 GeV, cross section for inelastic, (E), 22:21912
reactions with carbon, deuterium, hydrogen, and oxygen, evaluation ENDF/B cross sections for, 24:38056 (AI-AEC-Memo-12915)
reactions with cerium, cesium iodide, gadolinium, holmium, mercury, neodymium, potassium chloride, rubidium bromide, samarium, selenium, and terbium at 30 to 650 keV, total cross sections for, (E), 22:20578 (WASH-1079)
reactions with cerium, cesium iodide, gadolinium, holmium, mercury, neodymium, potassium chloride, rubidium bromide, samarium, selenium, terbium, and vanadium at 30 to 650 keV, (E), 22:22560(R) (ORO-1067-2)
reactions with cesium, concentration of recoil cesium-132 from, 24:19028
reactions with chlorine, cross sections for, 22:37309 (AD-665362)
reactions with chlorofluoromethanes, replacement reactions of recoil chlorine-38 from, 25:54688
reactions with chromium at 0.010 to 60 keV, resonance parameters for, (E), 23:28304 (WASH-1124)
reactions with chromium-52 up to 200 keV, total cross section for, (E), 25:14982 (NCSAC-31)
reactions with chromium-52, iron-56, lithium-7, nitrogen-14, potassium-39, and zirconium-90 using plutonium—beryllium source, gamma production cross sections for, (E), 25:5582
reactions with chromium-53 and titanium-49 at 17 to 250 keV, strength function and total cross section for, (E/T), 24:49779(T) (EURFNR-741)
reactions with chromium-53 and titanium-49 at 17 to 250 keV, determination of resonance parameters and strength functions from total cross section for, (E), 25: 23012
reactions with cobalt-59 and manganese-55 at 0.3 to 41 keV, total cross sections and resonance parameters for, (E), 22:27066
reactions with cobalt-59 at 0 to 16 MeV, strength of tensor spin—spin potential in, (T), 25:53670
reactions with cobalt-59, activation cross section for, (E), 22:53160
reactions with concretes in 3-GeV proton accelerator, residual-photon dose rate from, (T), 24:6780
reactions with conduction electrons in quantizing magnetic fields, 21:42203
reactions with copper at 10 to 30 GeV/c, total cross sections for, 25:47734

reactions with copper at 10 to 30 GeV/c, total cross sections for, (E), 25:56421
reactions with copper at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with copper single crystals at 9 to 3000 eV, effects of chemical binding on cross sections for, (E/T), 22:1567
reactions with copper single crystals, crystal binding effects on total cross section for, (E), 21:1058
reactions with copper, copper-63, and copper-65 at 0.001 eV to 15 MeV, evaluated cross sections for, 23:13223 (AI-AEC-12741)
reactions with crystallo-hydrates, investigation of water molecule dynamics by, 22:38719 (INP-601/PS)
reactions with curium-243, -245, and -246 at 0.01 to 10 eV, resonance parameters and total cross sections for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with curium-244, -245, and -246, resonance integrals for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with curium-244, production of berkelium-249 in, 24:245
reactions with deformed rare-earth nuclei, resonance densities in, (T), 22:42015 (JINR-P4-3925)
reactions with deuterium at 0.0001 eV to 20 MeV, data compilation for cross sections of, (E/T), 22:48446
reactions with deuterium at 0.0001 eV to 20 MeV, evaluated cross-section data for, 22:29894 (LA-3271)
reactions with deuterium at 10 to 30 GeV/c, total cross sections for, (E), 25:56421
reactions with dysprosium isotopes and erbium isotopes, resonance parameters for, (E), 22:27220
reactions with dysprosium, iridium, and lutetium at 0.01 to 10 eV, total cross section and resonance parameters for, (E), 22:18282
reactions with dysprosium, iridium, and lutetium at 0.01 to 10 eV, use of time-of-flight spectrometer for measuring total cross sections of, 21:39180 (EIR-123)
reactions with dysprosium-156, -158, and -160 at 3 to 1000 eV, strength functions and widths for resonances in, (E), 24:24562
reactions with dysprosium-156, dysprosium-158, dysprosium-160, gadolinium-152, and gadolinium-154 below 1000 eV, resonance parameters for, 23:23684
reactions with earth-crust nuclei in nuclear explosions, calculation of radionuclides from, (T), 22:21225 (HNS-1229-54)
reactions with elements of 33 less than or equal to Z less than or equal to 93, resonance integrals for, 21:18301(R) (IN-1048)
reactions with erbium isotopes and neodymium isotopes, resonance parameters for, (E), 22:27219
reactions with erbium isotopes, resonance parameters for, 21:17347 (JINR-P3-3097)
reactions with erbium isotopes, resonance parameters for, (E), 22:24868
reactions with erbium to produce thulium-171, 23:35129 (DP-1183)
reactions with erbium, holmium, lutetium, thulium, and ytterbium at 0.001 to 1.0 eV, total cross sections for, (E), 21:15583
reactions with erbium, holmium-165, lutetium, praseodymium-141, thulium-169, and ytterbium at 0.001 to 1.0 eV, total cross sections for, (E), 22:18281
reactions with erbium-162, -164, -166, -167, and -168, resonance parameters and strength functions for, (E), 21:46759
reactions with erbium-164 at 8 to 225 eV, resonance parameters for, (E), 23:3996 (CONF-670653-1)
reactions with erbium-164, -168, and -170 at 0.030 to 4.245 keV, resonance parameters for, (E), 21:40432 (WASH-1074)
reactions with erbium-166, at 0.01 to 2.89 keV, resonance parameters for, (E), 21:40432 (WASH-1074)
reactions with europium at 0.025 to 1.5 keV, total cross section for, (E), 22:22585 (LA-DC-9182)
reactions with europium-151 to produce gadolinium-153, 23:2337
reactions with even-even nuclei with collective excitation, square-well optical-model potential for, (T), 22:18352
reactions with even-odd nuclei at low energy, total cross sections for, (E), 21:2661
reactions with fissile isotopes at resonance energies, computer program for generating Reich and Moore parameters for multilevel unresolved resonances in, 24:49865 (WAPD-TM-935)
reactions with fissile nuclei in resonance region, survey on, (E/T), 23:5916
reactions with fissile nuclei, effect of level interference on cross sections for slow, (T), 25:59879
reactions with fissile nuclei, multilevel effects in cross sections for, (T), 25:25722(R) (ORNL-4592)
reactions with fissile nuclei, statistical properties of resonance parameters for, (T), 24:6963
reactions with fission product isotopes, total cross sections and resonance parameters for, (E), 25:15098
reactions with fissionable material, measurements using nuclear explosion sources, 24:41533 (CONF-700101-(Vol.2), pp 1253-6)
reactions with fissionable materials above resonance energies, review of data on, 25:15112
reactions with fissionable nuclei below 37 eV, multilevel analysis of cross sections for, (T), 21:4278 (TID-23396)
reactions with fissionable nuclei, correlations of resonance parameters for, (T), 22:18214(T) (BNL-tr-187)
reactions with fissionable nuclei, methods for determining resonance spins in, (E), 22:18294
reactions with fluorine-19 in sulfur hexafluoride, reactions of tetrafluoroethylene with recoil fluorine-18 from, 24:46281
reactions with gadolinium, sodium-23, and xenon, total cross sections and resonance parameters for, (E), 22:18192
reactions with gadolinium-152, -154, -155, -156, -157, -158, and -160 at epithermal to intermediate energies, resonance parameters for, (E), 24:22134(T) (BNL-tr-322)
reactions with gadolinium-155 and -157 at 2 to 200 eV, resonance parameters for, (E), 24:6906
reactions with gadolinium-155 and -157 up to 150 eV, γ intensities from transitions of resonances in, 24:28799
reactions with gas-filled spheres at 0.5 and 2 MeV, track-length distributions in, 25:19757 (ORNL-4584, pp 58-73)
reactions with germanium-70, -72, -73, -74, and -76, cross sections and strength functions for, (E), 22:5786 (JINR-P3-3456)
reactions with germanium-70, -72, -73, -74, and -76, cross sections and resonance parameters for, (E), 22:27069
reactions with glassy carbon at 0.001 to 0.1 eV, total cross section for, (E), 23:8920
reactions with gold-197 and indium using iron-filtered beams, analysis of resonance cross sections for, 25:56795
reactions with gold-197 and silver-109, resonance parameters for, (E), 21:15565 (CONF-660221-, pp 273-8)
reactions with gold-197 at 1 to 2.1 keV, resonance parameters and total cross section for, (E), 23:40082
reactions with gold-197 at 22 to 515°C, resonance integral, self-shielding factors, and Doppler coefficients for, (E), 21:44669 (NAA-SR-12499)
reactions with gold-197, holmium-165, silver-109, and tantalum-181, resonance parameters for, (E), 21:17340(R) (AEET-267)
reactions with gold-197, tungsten, tungsten-182, tungsten-183, tungsten-184, and tungsten-186, effective resonance integrals for, (E), 22:18270
reactions with graphite and tantalum-181 at 2 keV and 0 to 700°C, total cross sections for, (E), 22:20578 (WASH-1079)
reactions with gross fission products at 1 to 1000 eV, total cross sections for, (T), 24:38170
reactions with hafnium and hafnium isotopes at 0 to 15 MeV, evaluated cross sections for, 22:16012 (KAPL-3327)
reactions with hafnium-176, hafnium-177, hafnium-178, hafnium-179, and hafnium-180 at 0.01 to 1 eV, total cross sections for, (E), 23:1882 (WASH-1093)
reactions with heavy even-even nuclei, effects of nuclear deformation on strength functions for, (T), 22:18211 (NAA-SR-Memo-12538)
reactions with heavy nuclei, distributions of average resonance spacings in, (E/T), 21:42612 (NP-16816)
reactions with heavy nuclei, spin-dependent optical-model potential for, (E/T), 21:17383
reactions with helium at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with helium-3, reactions with propene of recoil tritium from, 25:32014
reactions with holmium-165 at 0.005 to 1.7 keV, total cross sections, transmission curves, strength functions, and level parameters from, (E), 25:10022 (CEA-N-1338)
reactions with holmium-165, resonance parameters for, (E), 21:21567
reactions with holmium-165, total cross section and resonance parameters for, (E/T), 22:20563 (BNL-12269)
reactions with holmium-165, total cross section for, (T), 22:39627 (BNL-50082, pp 19-24)
reactions with holmium-165, use of polarized target for determining level spins from, 21:42531
reactions with hydrogen and deuterium in normal and deuterium-substituted niobium hydride at 0.06 to 0.5 eV, total cross sections for, (E), 23:7212
reactions with hydrogen and deuterium in uranium hydride and uranium deuteride at 0.05 to 0.5 eV, total cross sections for, (E), 23:7211
reactions with hydrogen at 0.0001 eV to 20 MeV, cross sections for, (E/T), 21:21410
reactions with hydrogen at 10^{-5} to 10^{7} eV, total cross section evaluation for ENDF/B, 25:36660 (LA-4574)
reactions with hydrogen in acetic acid, benzene, dioxane, methanol, and water at 0.04 to 0.3 eV, cross sections for, (E), 25:25635
reactions with $I = {}^{1}/_{2}$ and ${}^{3}/_{2}$ nuclei at 1 to 5000 eV, s-wave resonance parameters for, (E/T), 22:53166 (CEA-R-3385)
reactions with indium-116, measurement of resonance parameters using monoenergetic neutron activation technique, (E), 24:33160
reactions with iodine in thyroid gland, 22:10706
reactions with iodine pentoxide, chemical state of xenon-128 from, 24:1(T) (ANL-Trans-783)
reactions with iodine, production of xenon-128 by, 25:6379 (DUN-SA-145)
reactions with iodine-127 in pentane and pentenes, yields and product distribution from, 25:54705
reactions with iridium-191, molybdenum-98, and rhodium-103, resonance activation integrals for, (E), 24:3932
reactions with iron and iron-57 at 20 to 250 keV, total cross sections for, (E), 21:17351 (KFK-452)
reactions with iron at 0.5 to 1.5 MeV, single and multi-level analysis of resonances in total cross section for, (T), 23:1860
reactions with iron at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with iron shielding, cascade propagation from, (E/T), 22:31904
reactions with iron, cross section evaluation for ENDF/B, 24:52476 (ORNL-TM-2891)
reactions with iron, evaluation of cross sections for ENDF/B material 1124, 25:41216
reactions with iron, evaluation of total cross section data for, 24:6863
reactions with iron, lead, oxygen, and sodium, transmission of fission spectra through thick samples for evaluation of minima in total cross sections for, (E), 25:56650 (COO-2049-5)
reactions with iron, proton-recoil spark chamber neutron spectrometer study of cascade, 23:22078
reactions with iron, re-evaluated ENDF/B γ production cross sections for, 25:38927 (ORNL-4617)
reactions with iron, re-evaluated ENDF/B total cross section for, 25:38927 (ORNL-4617)
reactions with iron-54, radiochemical yields from, 24:38949
reactions with iron-57 at 3 to 250 keV, resonance parameters and total cross section for, 23:46961
reactions with isomeric promethium-148 at 0.01 to 400 eV, total cross section for, (E), 23:13265 (RPI-328-142, pp 1-67)
reactions with isotopes in organic compounds, recoil reactions from, 21:32214(R) (PRNC-101)
reactions with lanthanum at 0.1 to 1000 eV, total cross sections and resonance parameters for, (E), 21:38361
reactions with lead at 10 to 30 GeV/c, total cross sections for, (E), 25:56421
reactions with lead at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with lead below 100 keV, index of data on total cross section for, 25:38919 (CCDN-NW-10)
reactions with lead, high-energy neutron detection from Δ(1236) Coulomb production from, (T), 24:21955 (UR-875-295)
reactions with lead, natural uranium, and poisoned and pure water, pulsed, (E), 25:28161
reactions with lead-204 and lead-208, total cross sections for, (E), 21:13867
reactions with lead-207 and -208 at 14 MeV, cross sections for, (E), 25:48086
reactions with light and medium-weight nuclei, computer program for cross-section calculations using spherical optical model, 22:1562 (NAA-SR-Memo-12531)
reactions with liquid biphenyl, total cross section for, (E), 23:1882 (WASH-1093)
reactions with lithium carbonate, production of fluorine-18 in, 23:40721
reactions with lithium fluorides, tritium release following, (E), 21:2295
reactions with lithium in aluminum—lithium alloys, helium bubble production by, 22:715(T) (UCRL-Trans-10135)
reactions with lithium, lithium-6, and lithium-7 at 10 to 1236 keV, transmission measurements of total cross sections for, (E), 23:5831
reactions with lithium-6 and -7, cross-section data in ENDF/B format, 21:33884 (LA-3695)
reactions with lithium-6 at 50 to 650 keV, total cross section for, (E), 23:5833
reactions with lithium-6 at 70 eV to 7 MeV, total cross sections for, (E), 22:35285(R) (AERE-PR/NP-13)
reactions with magnesium, cross sections for, 22:37308 (AD-665361)
reactions with manganese-55 and vanadium-51 at 20 to 250 keV, resonance parameters and total cross sections for, (E), 21:17351 (KFK-452)
reactions with manganese-55 and vanadium-51 up to 200 keV, resonances in total cross sections for, (E), 22:1626
reactions with manganese-55 at 0.01 eV to 50 keV, Breit-Wigner multilevel analysis of total cross sections for, (T), 22:32550
reactions with manganese-55 at 0.01 eV to 50 keV, total cross section for, (T), 21:38268
reactions with manganese-55, activation resonance integral for, (E), 23:42879
reactions with manganese-55, resonance activation integral for, (E), 24:28751
reactions with matter, 05R Monte Carlo program description for, 21:5467(T) (ORNL-tr-1380)
reactions with matter, experimental facilities using electron linear accelerators, 21:40366
reactions with matter, lectures on measurement techniques for, 23:24431 (TUBIK-9)
reactions with matter, principles of, 21:45528
reactions with medium and heavy elements at 2 to 10 MeV, total cross sections for, (E), 22:11936
reactions with medium and heavy elements at 4.5 to 7.5 MeV, total cross sections for, (E), 22:9842
reactions with medium and heavy nuclei, strength functions of resonances in, (T), 21:10071
reactions with medium-weight and heavy nuclei, strength functions for, (T), 22:16017(T) (BNL-tr-189)
reactions with meteorites, exposure ages from, 21:549
reactions with mixed curium isotopes at 10 to 200 eV, total cross section for, (E), 25:48073 (IN-1407, pp 1-82)
reactions with moderating and shielding materials at 0.22 eV to 10 MeV, heat generation by, (T), 25:47604
reactions with molecular gases, rotational correlation functions in, 22:38797
reactions with molecules of solids, liquids, and gases, molecular dynamics studies by, 23:27691 (INP-600/PS)
reactions with molybdenum oxides, production of technetium-99m from, 21:36015
reactions with molybdenum to produce technetium-99m, 22:35857(P)
reactions with molybdenum, design and performance of detector for measuring cross sections of radiative capture, 21:26174
reactions with molybdenum-98, -100, niobium-93, plutonium-239, rhodium-103, thorium-232, and uranium-233, -235, -238 at 100 eV to 1 MeV, total cross sections and resonance parameters for, (E), 22:18283
reactions with molybdenum-98, activation resonance integral for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions with moon, prompt photon spectrum from secondary, (T), 24:30179

reactions with multiplying media, GIARA computer code for, 21:25416
reactions with natural calcium, concentration of recoil calcium-47 from, 24:19028
reactions with natural iron, nickel, and titanium at 200 eV to 200 keV, R-matrix analysis of total cross sections for, (E/T), 25:43874
reactions with neodymium isotopes, total cross sections and S-wave strength functions for, (E), 25:39059
reactions with neptunium-237 in thermal reactors, buildup of radioactive products from, 23:7547 (ANL-7484)
reactions with neptunium-237 to produce plutonium-238, effects of purity and target density on economics of, 24:4849(R) (BNWL-1177)
reactions with neptunium-237, calculation of plutonium-236 formation in production of plutonium-238 by, 25:39552
reactions with neptunium-237, ENDF/B evaluated data for, 23:37188 (IN-1182)
reactions with neptunium-237, production of plutonium-238 by, 24:31422
reactions with nickel alloys and stainless steel, review of effects of (n,α) and (n,p), 24:6246
reactions with nickel, properties of defect clusters from, 21:33529
reactions with niobium-93 at 0 to 15 MeV, ENDF/B cross sections for, 22:16002 (GA-8133)
reactions with nitrogen and oxygen, cross sections for, (E), 24:33121
reactions with nitrogen, error analysis of cross sections for, (T), 22:32448
reactions with nitrogen-14 in potassium azide, distribution of recoil carbon-14 from, 25:54687
reactions with nuclei at 1 to 3500 MeV, computer program for intranuclear-cascade calculations of, (T), 25:36733 (ORNL-4564)
reactions with nuclei at 10 and 27 GeV/c, total cross sections for, (E), 23:10817
reactions with nuclei at 10 to 30 GeV/c, momentum dependence of total cross sections for, (E), 25:50060 (PURC-4159-36)
reactions with nuclei at 14 MeV, design of proportional detector—semiconductor detector telescope for detection of charged particles produced in, 23:26510 (CEA-R-3624)
reactions with nuclei at 14.2 MeV, isospin dependence of optical potential from total cross section data for, (E/T), 22:14057
reactions with nuclei at 2.062 to 2.573 GeV/c in propane bubble chamber, Λp resonances in, (E), 22:46322 (JINR-E1-4022)
reactions with nuclei at 27 GeV/c, spark chamber study of total cross sections for, (E), 22:39248 (CERN-68-7(Vol.1), pp 523-36)
reactions with nuclei at 5 to 21 GeV/c, total cross sections for, (T), 25:1560
reactions with nuclei at 5.7 GeV/c, total cross sections for, (E), 25:7545
reactions with nuclei at 600 MeV, magnetic spectrometer study of π^+ and π^- production in, (E), 22:34842(T) (ORNL-tr-1924)
reactions with nuclei at 600 MeV, magnetic spectrometer study of π^+ and π^- production in, (E), 22:37078
reactions with nuclei at 600 MeV, π^- and π^+ production in, (E), 24:40249(T) (ORNL-tr-2347)
reactions with nuclei at 8 to 21 GeV/c, total cross sections for, 25:47909
reactions with nuclei at A > 220, evaluation of data on resonance, 25:15094
reactions with nuclei at A < 220, evaluation of thermal and resonance cross sections for, 25:15101
reactions with nuclei at A < 220, neutron-spectroscopy analysis of resonance, 25:15095
reactions with nuclei at high energies in emulsions, neutron spectrum determination from grey prongs in stars from, (E), 21:28213 (UCRL-17063)
reactions with nuclei at high energies, Regge pole model for, 22:1450 (AD-648017)
reactions with nuclei at low energies, computer program for cross sections of resonance, (T), 25:56814 (COO-2022-7)
reactions with nuclei at low energy, theory of radiative channels in, (T), 23:4081
reactions with nuclei below 10 MeV, doorway state theory of, (T), 22:46848
reactions with nuclei in fission spectrum, rates for, 23:49301
reactions with nuclei in tissue-equivalent phantom, dose equivalent distribution for recoil nuclei following monoenergetic, 25:32421
reactions with nuclei in unresolved resonance region, method for calculation of cross sections for, (T), 25:56870
reactions with nuclei with A < 220, activation resonance integrals for, (E/T), 25:15124
reactions with nuclei with A < 220, evaluation of data above resonance region, 25:15123
reactions with nuclei with strong and weak absorption, resonance parameters for, (T), 23:1882 (WASH-1093)
reactions with nuclei, (E/T), 25:9948
reactions with nuclei, analysis of resonance structure using distribution-free statistics, (T), 25:46134
reactions with nuclei, bibliography of experimental data on, 25:25611 (UCRL-50400(Vol.2))
reactions with nuclei, chemical binding effects on cross sections for, (T), 21:31840
reactions with nuclei, coincidence counter arrangement for detection of charged particles from, 21:30716
reactions with nuclei, computer program for calculating resonance integrals and Doppler coefficients for, 21:42522 (NAA-SR-12509(Vol.1))
reactions with nuclei, computer program for generating cross sections and resonance shielding parameters for, 24:30866 (AAEC/TM-520)
reactions with nuclei, corrections for self-indication method for determining resonance parameters for, (T), 22:24911
reactions with nuclei, correlation of resonance energies in time-of-flight measurements of, (E), 21:29845
reactions with nuclei, correlations between reduced neutron widths and partial radiative widths of resonances in, (T), 25:46094(T) (BNL-tr-417)
reactions with nuclei, correlations of resonance parameters for, (T), 22:14066
reactions with nuclei, counter telescope for measuring angular distribution and energy of charged particles produced in, 22:6638
reactions with nuclei, cross section measurements for, 25:43834(R) (RPI-328-209)
reactions with nuclei, cross sections and resonance parameters for, 21:25399(T) (ANL-Trans-168)
reactions with nuclei, descriptions for use in macroscopic studies, 23:52171(T) (JPRS-48331, pp 74-81)
reactions with nuclei, effect of mutual shielding of resonances of different isotopes on, (T), 22:7766
reactions with nuclei, effect of nonuniform targets on total cross section measurements for, 25:36811
reactions with nuclei, effect of nonuniform targets on transmission measurements of total cross sections for, 25:31173(R) (RPI-328-200)
reactions with nuclei, energy dependence of average radiation widths for, (T), 25:15209
reactions with nuclei, energy dependence of energy level density from, (T), 25:15208
reactions with nuclei, generalized Porter—Thomas distributions for resonance widths in, (T), 24:13433
reactions with nuclei, γ production cross sections and spectra for, (T), 22:30067
reactions with nuclei, index to data in Experimental Cross Section Information Library, 25:28356 (UCRL-50400(Vol.3))
reactions with nuclei, infinitely dilute resonance integrals in continuum region, (T), 21:40458
reactions with nuclei, lectures on cross-section calculation methods, (T), 25:7883 (BARC/I-36)
reactions with nuclei, method for determining spin of resonances of, (E), 24:38250
reactions with nuclei, motion-induced, temperature-independent effects on, (E), 25:34109
reactions with nuclei, multi-element activation detector for measuring resonance integrals for, 22:16901
reactions with nuclei, multiple scattering corrections for cross section measurements for, 25:34143
reactions with nuclei, position-sensitive telescope detector for studying, 24:20996
reactions with nuclei, resolution of photopeaks in gamma spectra from, 21:34029 (NIM-80)
reactions with nuclei, resonance Doppler broadening in, (T), 21:42638
reactions with nuclei, resonance Doppler broadening in, (T), 21:42526 (RPI-328-97, pp 131-43)
reactions with nuclei, review of theories of, 21:40482
reactions with nuclei, role of special motion states in, 25:15206
reactions with nuclei, S-wave strength functions for, 21:21591
reactions with nuclei, self-indication method for determining resonance parameters for, (T), 22:24912
reactions with nuclei, statistical estimation of average resonance spacing in, 24:15946 (AAEC/TM-515)
reactions with nuclei, survey of cross-section definitions for, 23:49301
reactions with nuclei, tables of thresholds for, (E), 25:20237 (UCRL-50400(Vol.9))
reactions with nuclei, telescopic arrangement of detectors for charged particles from, 22:43033
reactions with nuclei, two-channel model for comparison of Hauser-Feshbach and Moldauer theories of, (T), 22:44775
reactions with nucleus-plus-one-neutron systems, theoretical analysis of, (T), 25:34155 (ITF-70-97-P)
reactions with oriented nuclei, black nucleus model for total cross sections for, 21:31886
reactions with osmium-187, -188, and -189 at 0.006 to 150 eV, total cross sections for, (E), 24:26651
reactions with osmium-192, 22:18738(R) (MLM-1417)
reactions with palladium at 0.005 to 10 eV, total cross section for, (E), 21:44724
reactions with phantoms at 15.09 MeV, calculation of spectra of recoil heavy particles from, 23:9939 (ORNL-4316, pp 231-69)
reactions with phantoms at 2.95 MeV, gamma and fast neutron dose distribution measurements from, 23:4958
reactions with phenyl sulfide, phenyl sulfone, and phenyl sulfoxide, phosphorus-32 and sulfur-35 products from, 23:47573
reactions with phosphorus in DNA and nucleotides, 22:462
reactions with platinum complexes to produce platinum-197g, 23:9425 (TID-24870)
reactions with platinum, activation in, 25:41920
reactions with platinum, platinum-195, silver-107, silver-109, and thulium-169 at 1 to 800 eV, resonance parameters for, (E), 21:35458 (CEA-R-3077)
reactions with platinum, production of carrier-free platinum-197 by, 24:16592
reactions with plutonium, 22:3737
reactions with plutonium isotopes, review of, (E/T), 22:3738
reactions with plutonium—aluminum lattices in heavy water, buckling, eigenvalues, plutonium-239 and -240 resonance integrals, and spectra from, (E/T), 25:31661
reactions with plutonium-238 at 0.002 to 5.0 keV, resonance parameters and total cross sections for, (E), 21:25518 (WASH-1071)
reactions with plutonium-238 at 0.008 to 6500 eV, total cross sections and resonance parameters for, (E), 21:29960 (IN-1026)
reactions with plutonium-238 at 0.008 to 6500 eV, total cross section and resonance parameters for, (E), 22:3710
reactions with plutonium-239 and plutonium-240, resonance parameters for, 22:37277 (AI-AEC-Memo-12645)
reactions with plutonium-239 and uranium isotopes, yields of spontaneously fissioning isomers from, (E), 25:15031
reactions with plutonium-239 and uranium-233 and -235 at 5 keV to 1 MeV, fission cross sections of, (E), 24:43321
reactions with plutonium-239 and uranium-233, resonance-integral calculations using two-level resonance formula, (T), 23:49390(T) (EURFNR-638)
reactions with plutonium-239 and uranium-235, effects of resonance self-shielding on cross sections for, (T), 22:32626
reactions with plutonium-239 and uranium-238 at 4 to 244 eV, statistical frequency function for distance between resonances in, (T), 24:3933
reactions with plutonium-239 and uranium-238 at 4 to 244 eV, resonance interaction effects in, (T), 23:19244 (AE-344)
reactions with plutonium-239 at 0.01 to 30 keV, cross sections and eta values for, (E), 22:18291
reactions with plutonium-239 at 0.014 to 1000 keV, fission, capture, scattering, and total cross sections for, (E), 25:15091
reactions with plutonium-239 at 0.02 eV to 30 keV, absorption and fission cross sections for, (E), 24:3924 (ORNL-TM-2598)
reactions with plutonium-239 at 10 to 600 keV, instrumentation for measuring capture-to-fission cross sections for, 22:6601
reactions with plutonium-239 at 100 to 300 eV, comparison of single-level and multilevel resonance integrals for, (T), 23:49315 (ANL-7410, pp 1-46)
reactions with plutonium-239 at 4 to 700 eV, total cross section and resonance parameters for, (E), 22:18296
reactions with plutonium-239 at 5 to 200 eV, multilevel analysis of total cross section for, (E/T), 23:7281(R) (ORNL-4280)
reactions with plutonium-239 at 5.7 to 160 eV, simultaneous analysis of total and fission cross sections for, (E/T), 25:15087
reactions with plutonium-239 at 50 eV to 5.7 keV, correlation analysis of total cross section for, (T), 24:30785
reactions with plutonium-239 at 8 to 300 eV, resonance spins and widths for, (E), 22:18295
reactions with plutonium-239 from thermal energies to 15 MeV, cross sections for, (E), 25:41225 (EURFNR-912)
reactions with plutonium-239 up to 15 keV, review of data on capture-to-fission ratio for, 25:59812
reactions with plutonium-239, -240, and -241 at 0.025 eV and reactor spectrum, cross sections for, 21:5538
reactions with plutonium-239, cross sections and resonance parameters for, 22:35295 (TPM-RFR-682)
reactions with plutonium-239, cross-section calculations using fission widths from channel fission theory, (T), 22:1655 (NAA-SR-12515)
reactions with plutonium-239, plutonium-240, and americium-241, accumulation of transplutonium isotopes from, 25:15691
reactions with plutonium-239, plutonium-240, uranium-235, and uranium-238, comparison of calculations and integral measurements of cross sections for, 24:6885 (LA-3529)
reactions with plutonium-239, plutonium-240, uranium-235, and uranium-238, group-averaged cross sections and resonance parameters for, (E/T), 25:17862 (JAERI-1199)
reactions with plutonium-239, plutonium-241, uranium-233, and uranium-235, accuracy of dg/dT data for, 24:49673 (AECL-3605)
reactions with plutonium-239, resonance parameters for, (T), 24:52577
reactions with plutonium-239, statistical analysis of resonances in, (T), 25:50787
reactions with plutonium-239, thorium-232, uranium-235, and uranium-238, cross sections and resonance parameters for, 21:35457 (AEET-272)
reactions with plutonium-240 at 0.8 to 5 keV, resonance parameters for, (E), 22:18293
reactions with plutonium-240 at 1 eV, resonance parameters for, (E), 25:15092
reactions with plutonium-240 at 20 to 500 eV, resonance parameters for, (E), 25:25726 (RPI-328-223)
reactions with plutonium-240 at 20 to 800 eV, total cross section and resonance parameters for, (E), 22:18293
reactions with plutonium-240 at less than 1 MeV, cross sections and resonance parameters for, (E), 25:10021 (CEA-N-1273)
reactions with plutonium-240, -241, and -242 at 0.01 eV to 15 MeV, nuclear data evaluation for, 22:22578 (IA-1152)
reactions with plutonium-240, plutonium-241, and plutonium-242 at 0.001 to 15 MeV, cross sections for, 21:9996 (IA-1094)
reactions with plutonium-240, plutonium-241, and plutonium-242, evaluated cross sections and resonance parameters for, 22:35347
reactions with plutonium-240, thorium-232, and uranium-238, effective resonance integrals and Doppler coefficients for, (T), 21:33953 (AAEC/E-168)
reactions with plutonium-241 at 0.002 to 0.1 eV, total cross section for, (E), 23:1882 (WASH-1093)
reactions with plutonium-241 at 0.0253 eV, total cross section for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with plutonium-241 at 10^{-7} to 1 keV, cross sections for, 21:21515 (AEEW-M-714)
reactions with plutonium-241, eta value for, 23:26086 (IN-1218, pp 1-56)
reactions with plutonium-242 at 0.0015 to 1.0 eV, total cross sections for, (E), 25:34105
reactions with plutonium-242 at 0.0015 to 8000 eV, total cross sections for, (E), 24:43323

reactions with plutonium-242 at 0.008 to 3000 eV, total cross section and resonance parameters for, (E), 22: 37341 (IN-1132)
reactions with plutonium-242 at 0.008 to 8000 eV, total cross section and resonance parameters for, (E), 22: 20578 (WASH-1079)
reactions with plutonium-242 at 0.0253 eV, absorption cross sections for, (E), 25:34105
reactions with plutonium-242 at 12 MeV to 1 eV, total cross section for, (E), 25:48073 (IN-1407, pp 1-82)
reactions with plutonium-242 up to 1 eV, total cross section for, (E), 25:14982 (NCSAC-31)
reactions with polarized and unpolarized holmium-165, spin-spin interaction in, (E), 21:17383
reactions with polarized heavy nuclei, resonance spin assignments for, (E), 21:23466
reactions with Portland cements, activation, 24:51236 (AD-708024)
reactions with potassium, cross sections for, 22:37310 (AD-665363)
reactions with promethium-147 and promethium-148 at 0.001 to 2 keV, total cross sections for, (E), 21: 17270(R) (RPI-328-71)
reactions with promethium-147 and samarium-147 at 65 to 250 eV, resonance parameters for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with promethium-147 at 0.008 to 200 eV, total cross section and resonance parameters for, (E), 23: 5902
reactions with promethium-147 at 0.008 to 200 eV, total cross sections and resonance parameters for, (E), 23: 1882 (WASH-1093)
reactions with promethium-147 at 0.008 to 200 eV, total cross section and resonance parameters for, (E), 22: 39637 (RPI-328-123, pp 1-17)
reactions with promethium-147 at 0.01 to 1000 eV, total cross sections and resonance parameters for, (E), 25: 12550
reactions with promethium-147 at 0.01 to 70 eV, total cross section for, (E), 23:28304 (WASH-1124)
reactions with promethium-147 at 1.6 to 200 eV, total cross section and resonance parameters for, (E), 22: 14001 (RPI-328-100, pp 1-56)
reactions with promethium-147 at 1.6 to 200 eV, total cross section and resonance parameters for, (E), 22: 20578 (WASH-1079)
reactions with promethium-147 at 15 to 65 eV, resonance parameters for, (E), 22:20578 (WASH-1079)
reactions with protactinium-231, protactinium-233, and uranium-232 at 0.001 eV at 15 MeV, cross sections and resonance parameters for, 22:16001 (GA-7462)
reactions with protactinium-233 at 0.01 to 10,000 eV, resonance parameters and total cross sections for, (E), 21:21525
reactions with protactinium-233, uranium-234, and uranium-236, evaluated cross section data for, 21:5528 (AEET-257)
reactions with radium-226 to produce actinium-227 and thorium-228, 23:214 (NP-17579, pp II.1-5)
reactions with radium-226, actinium-227 production by, 22:18738(R) (MLM-1417)
reactions with radium-226, production of actinium-227 by, 23:37998
reactions with reactor control materials at 0.007 to 10 eV, energy dependence of cross sections for, (E/T), 25:15096
reactions with reactor materials, conference on basic data for, 25:14987 (STI/PUB-259(Vol.1))
reactions with reactor materials, conference on basic data for, 25:14988 (STI/PUB-259(Vol.2))
reactions with reactor shielding, cross-section requirements for, 24:6577
reactions with resonance absorbers in homogeneous reactors, computer program for calculating cross sections, resonance integrals, and Doppler coefficients for, 21:38295 (AAEC/E-164)
reactions with rhenium, rhenium-185, and rhenium-187, resonance parameters for, (E), 22:20578 (WASH-1079)
reactions with rhenium-185 and -187 at 0.01 to 10 eV, total cross sections for, (E), 22:3689(R) (GA-7820)
reactions with rhenium-185 and -187 at 1 to 100 eV, resonance parameters for, (E), 22:3689(R) (GA-7820)
reactions with rhenium-185 and rhenium-187, cross sections and resonance parameters for, 22:20568 (GEMP-587)
reactions with rhodium-103 up to 4 keV, resonance parameters and cross sections from, (E), 24:30833
reactions with rubidium-85 and -87 up to about 20 keV, resonance parameters and average strength functions for, (E), 23:25851 (JINR-P3-4357)
reactions with samarium at 0.06 to 1 eV, total cross sections and resonance parameters for, (E), 22:46762 (CNAEM-52)
reactions with samarium-147 and -149, resonance parameters for, (E), 25:31305 (JINR-P3-5655)
reactions with samarium-149 at 0.099 eV, resonance parameters for, (E), 23:21338
reactions with scandium-45 at 0.02 to 8000 eV, total cross section for, (E), 21:40432 (WASH-1074)
reactions with scandium-45, titanium-47 and -49, chromium-53, and nickel-61 at 10 to 250 MeV, total cross sections and resonance parameters for, (E), 24: 49780 (EURFNR-808)
reactions with selenium in Lecythis ollaria, 22:30469
reactions with selenium isotopes up to 20 keV, total cross sections for, (E), 23:40026
reactions with semiconductors, transmutation doping from, 21:36438
reactions with shielding layers of iron and borated polyethylene at 14.6 MeV, gamma production in, (E/T), 22:5403
reactions with shielding, cross section theory for, 24: 6580
reactions with shielding, secondary gamma radiation from, 25:56277
reactions with shielding, secondary gamma transport from, 22:5402
reactions with shielding, Spinney's method for secondary gamma-ray calculations from, 22:5401
reactions with silver-107 and -109, thulium-169, and platinum, resonance parameters for, (E), 23:40080
reactions with sodium, ENDF/B cross sections for gamma production in, 22:13904 (LA-3801)
reactions with sodium-23 at 0.2 to 100 keV, total cross section and resonance parameters for, (E), 22:18193
reactions with sodium-23 at 10^{-4} eV to 15 MeV, ENDF/B evaluated cross sections for, (E), 22:46730 (APDA-217)
reactions with sodium-23 at 100 eV to 15 MeV, ENDF/B evaluation of total cross section for, (E), 25: 36693 (WARD-4181-2)
reactions with sodium-23, cross sections for, 22:37307 (AD-665360)
reactions with soil, calculation of long-lived radioisotope production in, 24:47545
reactions with soils, γ emission from, 21:2280 (HN-186)
reactions with stable tellurium isotopes, cross sections and resonance parameters for, (E), 24:26629 (CEA-N-1268)
reactions with steel-covered concrete slabs, secondary gamma-ray differential number albedos from, (T), 24: 28386 (AD-697914)
reactions with strontium-90, cross sections for, (E), 21: 2726
reactions with sulfur at 0.0022 to 0.266 eV, total cross section for, (E), 22:20548
reactions with sulfur, production of phosphorus-32 by, 24:22695
reactions with tantalum at 0.002 to 0.2 eV, total cross sections for, (E), 21:31797
reactions with tantalum-181 and tungsten isotopes, evaluated cross section data for, 21:4274 (GEMP-448)
reactions with tantalum-181 at 0.0001 eV to 15 MeV, cross sections for, 22:20561 (AHSB(S)R-141)
reactions with tantalum-182 at 0.01 to 1000 eV, total cross section and strength function for, (E), 22:37372
reactions with tantalum-182 at 5 to 1000 eV, total cross section and resonance parameters for, (E), 22:20578 (WASH-1079)
reactions with technetium-99 at 0.01 to 1000 eV, total cross section and resonance parameters for, (E), 23: 28304 (WASH-1124)
reactions with technetium-99 from 0.01 to 1000 eV, total cross section for, (E), 24:43329
reactions with tellurium in tellurium dioxide, yields of iodine-131 from, 24:36301(P)
reactions with tellurium in tellurium trioxide, production of iodine-131 by, 25:183
reactions with tellurium isotopes, S-wave strength functions for resonance, (E), 25:7847 (ORNL-4513)
reactions with tellurium-128 in tellurium—oxygen compounds, iodine-129 Moessbauer studies of recoil tellurium-129 reactions from, 25:54704
reactions with thallium compounds, production of oxidized recoil atoms from, 21:24055
reactions with thallium-204 at 0.2 to 1000 eV, total cross sections and resonance parameters for, (E), 23:5896
reactions with thallium-204 at 0.2 to 1000 eV, total cross section and resonance parameters for, (E), 23:1882 (WASH-1093)
reactions with thorium to produce uranium-233, 21: 31938 (IN-1101)
reactions with thorium, production of protactinium-231 by, 23:31392
reactions with thorium, recoil of protactinium-233 from, 22:48895 (CEA-R-3493)
reactions with thorium-228, total cross sections for, (E), 21:12015 (IN-1040)
reactions with thorium-230 and thorium-232, production of protactinium-231 and uranium-232 by, 25:57479 (BMBW-FBK-71-6)
reactions with thorium-230 at 0.02 to 50 eV, total cross sections for, (E), 21:7815
reactions with thorium-230 at 0.05 to 500 eV, total cross section and resonance parameters for, (E), 23:15444
reactions with thorium-230 at 0.05 to 500 eV, total cross section and resonance parameters for, (E), 23:28304 (WASH-1124)
reactions with thorium-230 up to 600 eV, total cross section and resonance integrals for, (E), 23:44922
reactions with thorium-230—thorium-232 mixture to produce uranium-232, 22:45091 (BMwF-FBK-68-09)
reactions with thorium-232 and uranium-234, analysis of neutron widths using distribution-free statistics, (T), 25:46134
reactions with thorium-232 to produce protactinium-233 and uranium-233, 21:31060(R) (IN-1105)
reactions with thorium-232 up to 10 keV, total cross section for, (E), 25:53750(R) (NYO-73-340)
reactions with thorium-232 up to 300 keV, calculation and measurement of resonance integral for, (E/T), 24: 8890 (RISO-M-966)
reactions with thorium-232, integral test of cross-section sets for, 25:41237
reactions with threshold detectors, fission-spectrum-averaged activation cross sections for, (E), 25:14968
reactions with thulium-169 to produce thulium-170 and -171, 23:11541(P)
reactions with thulium-170 at 0.01 to 1000 eV, total cross section for, (E), 23:28304 (WASH-1124)
reactions with tissues, 21:22611
reactions with tissues, production of carbon, hydrogen, nitrogen, and oxygen recoil nuclei by low energy, 25: 6633 (CONF-691106-, pp 46-72)
reactions with trace elements in hair of man, 22:6740
reactions with trace materials in concretes to produce long-lived radioactivity, 21:45280 (N-67-24400)
reactions with transactinium isotopes, microscopic nuclear data and five-group cross sections for, (E/T), 25:23019 (EURFNR-862)
reactions with tritium at 0.007 to 5 eV, total cross sections for, (E), 22:11896
reactions with tritium at 14.1 MeV, (E), 22:5761
reactions with tungsten at 10 to 30 GeV/c, total cross sections for, (E), 25:56421
reactions with tungsten at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with tungsten, resonance integrals for, (E/T), 21:25513 (NASA-TN-D-3957)
reactions with tungsten-183, capture cross section and transmission parameters for, 23:15729 (ANS-RPD-1, Paper 3)
reactions with tungsten-186, production of rhenium in, 21:28743(P)
reactions with tungsten-186, resonance integral and Doppler coefficients for, (E), 22:7693 (NAA-SR-12500)
reactions with type 304 stainless steel, helium production by, 21:6847
reactions with type-II superconductors, polarized, (E), 22:26338
reactions with uranium at 5.7 GeV/c, total cross sections for, (E), 24:15474
reactions with uranium carbide (UC_2) at 0.0038 to 10 eV, total cross section for, (E), 23:7209 (GA-8782)
reactions with uranium carbides UC_2 at 0.001 to 10 eV, total cross section for, (E), 22:48414(R) (GA-8773)
reactions with uranium carbides, uranium deuterides, uranium hydrides, and uranium dioxides at 0.02 to 0.50 eV, total cross sections for, (E), 25:43930
reactions with uranium dioxide, reactions of metal—2,4-pentanedione complex and recoil atoms from, 23: 38005
reactions with uranium-232 at 0.01 to 10,000 eV, total cross sections for, (E), 21:12014 (IN-1015)
reactions with uranium-232 at 0.01 to 10,000 eV, total cross section and resonance parameters for, (E), 21: 42621
reactions with uranium-232 at 0.01 to 30 eV, total cross sections for, (E), 21:25518 (WASH-1071)
reactions with uranium-233 and uranium-235, statistical distribution of Kapur-Peierls-type resonance parameters for, 25:15130
reactions with uranium-233 at 0 to 11 eV, resonance parameters for, (T), 22:7708
reactions with uranium-233 at 0.0001 eV to 15 MeV, cross sections and resonance parameters for, 23:10998 (GA-8854)
reactions with uranium-233 at 0.01 to 60 eV, multilevel analysis of cross sections for, (E/T), 23:7281(R) (ORNL-4280)
reactions with uranium-233 at 0.4 to 100 eV, cross sections for fission, 22:18298
reactions with uranium-233 at 10 to 600 keV, instrumentation for measuring capture-to-fission cross sections for, 22:6601
reactions with uranium-233 solution, 21:23711(R) (BNWL-340)
reactions with uranium-233, analysis of Doppler broadening of cross sections using single and multilevel resonance parameters, 24:6909
reactions with uranium-233, analyzed cross sections for, 21:2706 (GA-7076)
reactions with uranium-233, cross-section evaluation for, 21:38307
reactions with uranium-233, cross-section measurements using nuclear explosions, 21:38306
reactions with uranium-233, measurements using nuclear explosions, (E), 21:25511 (LA-DC-8640)
reactions with uranium-233, probability of unresolved resonances in, (T), 23:7356
reactions with uranium-233, uranium-235, and plutonium-239, total cross sections for, (E), 24:38210 (JINR-P3-4992)
reactions with uranium-234 and uranium-236 at 0.001 eV to 15 MeV, cross sections and resonance parameters for, 22:16003 (GA-8135)
reactions with uranium-234 at 1 eV to 35 keV, resonance parameters and total cross sections for, (E), 24:10989
reactions with uranium-235 above 62 eV, single level fit to resonances in, 24:49864(R) (WANL-TME-1953)
reactions with uranium-235 and -238 and plutonium-239 at 130 to 1400, ratio of capture and fission cross sections for, (E), 24:43322
reactions with uranium-235 and -238 and plutonium-239 and -290 below 150 eV, effects of mutual shielding on resonance integrals for, (E), 23:28318
reactions with uranium-235 and -238, total γ spectrum above 1 MeV from, (E), 25:56745 (ORNL-4691)
reactions with uranium-235 and 15 keV to 15 MeV, evaluation of cross section data on, 24:43310 (AI-AEC-Memo-12916)
reactions with uranium-235 at 0.035 to 100 eV, multilevel analysis of cross sections for, (E/T), 23: 7281(R) (ORNL-4280)
reactions with uranium-235 at 0.075 to 2.04 eV, spin dependence of total cross section for, (E), 22:18255
reactions with uranium-235 at 10 to 600 keV, instrumentation for measuring capture-to-fission cross sections for, 22:6601
reactions with uranium-235 at 8.8 and 12.4 eV, resonance spins and widths for, (E), 22:18297
reactions with uranium-235 in resonance region, statistical analysis of resonance parameters for, (T), 24:52634
reactions with uranium-235 single-level cross-section analysis for resonance parameters, (T), 22:18299
reactions with uranium-235 to produce xenon-135, 23: 19758
reactions with uranium-235, derivation of R-matrix parameters for cross sections for, 25:15131
reactions with uranium-235, mass-angle-energy determinations from fission, 22:30118 (ANL-7438)
reactions with uranium-236 up to 400 eV, resonance parameters for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with uranium-236, resonance parameters for, (E), 23:1882 (WASH-1093)
reactions with uranium-238 at 0 to 200 eV, p-wave resonance parameters for, (E), 22:42036

reactions with uranium-238 at 0.00001 eV to 15 MeV, evaluation of cross sections for, 25:15126
reactions with uranium-238 at 0.0001 eV to 15 MeV, cross-section data evaluation for, 23:5891
reactions with uranium-238 at 0.075 to 15 MeV, optical-model analysis of, (T), 25:28403
reactions with uranium-238 at 1 to 100 keV, temperature dependence of total cross section and resonance parameters for, (E/T), 25:15093
reactions with uranium-238 in uranyl compounds to produce neptunium-239, 22:18841
reactions with uranium-238 in water moderated uranium oxide (UO_2) lattices, capture and fission, (E/T), 25:48297 (BNWL-1589)
reactions with uranium-238 up to 10 keV, total cross section and resonance parameters for, (E), 25:53750(R) (NYO-73-340)
reactions with uranium-238, ENDF/B partial and total cross sections for, 25:38998 (WARD-4181-1)
reactions with uranium-238, flux-perturbation measurement of cross sections for, (E), 25:48074 (JAERI-13491)
reactions with uranium-238—plutonium-239 mixtures in statistical resonance region, influence of resonance interactions on effective cross sections for, (T), 25:39000
reactions with various nuclei over different energies, 21:19403
reactions with water at 0.0025 to 10 eV, time-of-flight measurements of total cross section of, (E), 22:41924
reactions with water at 0.01 to 15 eV, cross section for, (E), 22:7612 (GA-7581)
reactions with ytterbium-170, -171, -172, -173, -174, and -176, cross sections and resonance parameters for, (E), 22:53192
reactions with Z = 1 to 20 nuclei, compilation of angular distributions and cross sections for, 25:5549 (BNL-400(3rd Ed.)(Vol.1))
reactions with Z = 25 to 90 nuclei, resonance integrals for, 21:17288
reactions with z = 26 to 79 nuclei, resonance parameters, radiative widths, spins, and level spacings for resonances in, (E), 24:8861(T) (UCRL-Trans-10397)
reactions with Z = 42 to 92 nuclei, cross sections and strength functions for, (E/T), 22:35337
reactions with zinc, production of zinc-65 by, 25:15698
reactions with zinc-68 and zinc-70, excitation curves for, 24:22665(R) (AECL-3521)
reactions with zirconium and stable zirconium isotopes at resonance energies, method for evaluation of cross section data for, 23:49294 (AEEW-M-921)
reactions with zirconium hydride at 0.0094 to 1.415 eV, total cross section for, (E), 23:23603(R) (GA-9194)
reactions with zirconium-91 at 239 to 1537 eV, resonance parameters for, (E), 22:3689(R) (GA-7820)
reactions with zirconium-91 at 240 to 1537 eV, resonance parameters for, (E), 22:20578 (WASH-1079)
reactions, equations for economics of radioisotope production by, 21:36001
reflection and transmission in shielding, Monte Carlo calculation of, 24:47295(T) (ORNL-tr-2366)
reflection by concrete and iron, one-dimensional S/sub n/ calculations of spectra of, (T), 25:14865 (COO-2049-2)
reflection by concrete, albedo for, (E), 25:14394 (CEA-N-1382)
reflection by concrete, doubly differential current albedos for, 21:21025
reflection by semi-infinite halfspace, solution for albedo problem of, 23:30608
reflection by semi-infinite medium, boundary sources in, 25:25200
reflection by shielding materials, angular and energy distribution of, (T), 23:46538
reflection by shielding, angular distribution of, (E), 24:45304
reflection by single crystals, intensity variations from coherent extinction in, (T), 21:25413
reflection coefficients for, angular dependence of mirror, (T), 22:11484 (JINR-P4-3614)
reflection factor determination for phantoms, 23:20249
reflection from CoFe monocrystals at 0.05 to 10 eV, (E/T), 21:23255 (UJV-1627)
reflection from concrete and iron slabs, analysis using discrete ordinates method, (T), 24:33092
reflection from moon, simulation experiment, (E), 23:27326 (N-69-19320)
reflection from single crystals of aluminum, copper, germanium, and lead, (E), 21:1012
reflection from steel-covered concrete slabs, calculation methods for, 24:28380 (AD-697908)
reflection from steel-covered concrete slabs, doubly differential albedos for, (T), 24:28381 (AD-697909)
reflection from steel-covered concrete slabs, doubly differential albedos for, (T), 24:28382 (AD-697910)
reflection from steel-covered concrete slabs, doubly differential albedos for, (T), 24:28383 (AD-697911)
reflection from steel-covered concrete slabs, doubly differential albedos for, (T), 24:28384 (AD-697912)
reflection from steel-covered concrete slabs, doubly differential albedos for, (T), 24:28385 (AD-697913)
reflection function of reactor, calculation of, (E/T), 24:4144
reflection functions for semi-infinite medium with isotropic scattering, analytic approximations for, (T), 21:11957
reflection in mosaic crystals, multiple Bragg, (T), 21:18833
reflectors for, effects on Sandia Pulsed Reactor of, 22:10065 (SC-RR-67-802)
regeneration factor measurements in heterogeneous exponential piles, 22:32999
relaxation length calculations for, use of multigroup transport theory for complex, 21:30114 (CONF-660206, pp 55-68)
relaxation length in water, (T), 24:52384
relaxation lengths in water and terphenyl, calculations of effects of transport equation and scattering kernel approximations on, 23:28628
relaxation lengths in water, (E/T), 23:34705 (IAE-1612)
removal by shielding, improvement of diffusion theory for, 23:23233
removal-diffusion concepts in iron/water arrangements, (T), 23:23234
research at CEA in France during October 1969 to December 1970, 25:55203(R) (CEA-N-1449)
resonance absorption by absorber or moderator nuclei, revisions to HRG code for analysis of, 23:47339(R) (BNWL-1106)
resonance absorption in fast critical assemblies, RABBLE code modification for, 24:47934 (ANL-7610, pp 465-537)
resonance absorption in fuels, effects of nonmoderating collisions in cladding on, (T), 24:50230
resonance absorption in heterogeneous reactors, first collision probability method for calculation of surface, 24:4125 (CISE-R-125)
resonance absorption in multi-composition lattice, RABBLE computer program for, (T), 23:47316 (CNM-R-2(Vol.3), pp 1495-1514)
resonance absorption in plate type lattices, integral transport methods in calculations of, 24:47934 (ANL-7610, pp 465-537)
resonance absorption in reactors, approximate Monte Carlo method for, (T), 25:41606
resonance absorption in reactors, characteristics of, 24:46013 (BNL-50205, pp 1-15)
resonance absorption in reactors, method for intermediate treatment of, (T), 25:51233 (JAERI-13700)
resonance absorption in unresolved region, statistical methods for determining, 23:15727 (ANS-RPD-1, Paper 2)
resonance absorption integrals for fuel rods in lattices, Dancoff corrections for, (T), 23:19553
resonance absorption of reactor fuels, method of calculating effects of grain structure on, 23:4409
resonance absorption of, method for calculation of J-function in, 24:47934 (ANL-7610, pp 465-537)
resonance equivalence procedure for dissimilar fuel element assemblies, (T), 23:43187 (AEEW-M-892)
resonance escape probabilities for repetitive lattices, calculations of, 23:33100
resonance escape probabilities from Galerkin method solution of neutron slowing down equations, (T), 25:5479
resonance escape probability determination for uranium-238, 22:53454 (BNWL-828)
resonance escape probability for heavy water moderated reactors, (E/T), 24:16166
resonance escape probability from reactor cores, measurement of, 21:14082 (NP-16426)
resonance escape probability measurements in thorium-water lattices, 22:3902 (TID-24101)
resonance escape probabilityu≡n complex geometries, MOCUP computer program for, 23:21546 (AEEW-R-243)
resonance integral calculations for reactor fuels, accuracy of approximations in, 24:33553
resonance integral calculations for reactors, method for approximating J-function for, 23:52466 (WAPD-TM-893)
resonance integral calculations for uranium oxide (UO_2) fueled exponential piles, effects of resonance overlap on uranium-238, 22:33009
resonance integral calculations in double heterogeneous assemblies of spherical fuel elements, (T), 22:35721
resonance integral calculations treating overlap and interference, (T), 22:5714
resonance integral calculations using trial operators in iterative solutions, 23:43189 (BNL-50149, pp 1-14)
resonance integral calculations, fuel-cluster effective surface area determination for, 22:3924 (AECL-2775)
resonance integral determinations in reactors, use of adjoints in Monte Carlo analysis of, 23:47310 (CNM-R-2(Vol.2), pp 1136-40)
resonance integral equation for, correction factor for, (T), 21:9908
resonance integral equivalence relation between heterogeneous and homogeneous reactor systems, 23:31229
resonance integral for shielded foils in plate-type lattices, derivation of expression for space-dependent effective, 23:37745
resonance integral for uranium carbide, 21:32038
resonance integral for uranium-238 in uranium dioxide, crystal binding effects on effective, (T), 24:28684
resonance integral for uranium-238, effects of lattice geometry and temperature on, (T), 24:13634
resonance integral for vanadium-51, (E), 22:11925
resonance integral for, calculation of interference scattering contribution to, 25:12840
resonance integral in heterogeneous reactors, calculation of effective, 23:49664
resonance integral of uranium 238, RESAB computer program calculation of effective, 23:28622 (RISO-M-865)
resonance integral of, calculation method for non-narrow resonance moderator and intermediate, (E/T), 22:30357
resonance integrals and multigroup cross sections in reactor systems, computer program for evaluation of, 23:32886 (WAPD-TM-768)
resonance integrals for cylindrical heterogeneous reactors, use of neutron penetrability factors for calculating, 24:2061
resonance integrals for hexagonal or square reactor lattices, IRESINT computer program for, 24:50215 (NP-18281)
resonance integrals for multiple heterogeneous arrangements, (T), 23:19118 (JUL-551-RG)
resonance integrals for positive and negative energy levels, analytic formulation for infinitely dilute, (T), 22:41932
resonance integrals for reactor materials, effective, (T), 22:24794
resonance integrals for reactor physics calculations, method for approximating, 23:37722
resonance integrals for slab type critical assemblies, extended equivalence principle for heterogeneous and homogeneous, (T), 24:47818 (ANL-7610, pp 61-258)
resonance integrals for spherical 20 μ diameter gold particles, measurement in graphite and lead diluents of effective, 22:3903 (TID-24121)
resonance integrals for thorium oxide (ThO_2) rods, (E/T), 25:6205
resonance integrals for uranium-235 absorption and fission, computer programs for, 22:39897 (EUR-3936)
resonance integrals for uranium-238 in uranium metal and uranium oxide (UO_2) rods, (E/T), 24:22501
resonance integrals for zirconium-94 and -96, (E), 25:20392
resonance integrals for, calculation of infinite-dilution, 22:7788(R) (ANL-7382)
resonance integrals for, method for calculation of, (T), 23:42986
resonance integrals for, source distribution effects on calculations of, 22:12102
resonance integrals for, tabulation of values for, 23:15727 (ANS-RPD-1, Paper 2)
resonance integrals for, use of adjoints in Monte Carlo calculation of, (T), 21:44524 (NAA-SR-12494)
resonance integrals in cylindrical reactor fuel rods, effects of nonuniformities on, (T), 23:19561
resonance integrals in fast reactor fuels, use of simple equivalence principle and extended equivalence principle for calculation of effective, 24:7236
resonance integrals in reactors, effects of inelastic collisions on effective, (T), 25:48331 (RT/FI-(70)46)
resonance integrals in reactors, numerical and semi-analytical calculations of, 25:37115 (RISO-234)
resonance integrals in square lattice cells, MCSUP code for, 24:50217 (RISO-M-1257)
resonance integrals in two-dimensional systems of fuel, cladding, and water with reflecting boundaries, RESQ2 computer code for calculating, (T), 22:1587
resonance integrals in uranium oxide (UO_2) fueled heavy water cooled and moderated lattices, (T), 23:31127 (PINSTECH/RT-1)
resonance integrals, TRIX-2 computer program for, (T), 23:47333 (CNM-R-2(Vol.3), pp 1473-81)
resonance interaction in reactor fuels, symmetric resonance line shape function calculation of, (T), 23:24006
resonance parameters and spacings for interference resonance effects on Monte Carlo calculations of, 23:15734 (ANS-RPD-1, Paper 6)
resonance parameters for fast reactors, effects on Doppler coefficient of statistical selection of, 23:37700
resonance parameters for fissile nuclei, computer program for converting R-matrix to Kapur—Peierls formalism, 23:42913 (ORNL-TM-2599)
resonance parameters for multiple energy group, calculation of average, (T), 22:3814 (BNWL-SA-1334)
resonance parameters for s-wave, methods for numerical calculations from transmission time-of-flight measurements, 23:25937 (CEA-R-3236)
resonance parameters for, calculation of group-averaged, (T), 22:5717
resonance parameters from transmission data, computer program for least squares area analysis, 21:11923 (GA-6906)
resonance reactions in reactor periodic lattice cell structures, heterogeneity effects on, (T), 23:52447(T) (EURFNR-613)
resonance reactions in thermal reactors, RESAB program system for, 25:48330 (RISO-M-1378)
resonance scattering effects in unresolved region on reactor calculations, comparison of measurement and calculations of, 23:15726 (ANS-RPD-1, Paper 1)
resonance self-shielding factors for plutonium and uranium at high temperature, (T), 22:35348
resonance self-shielding, calculation method for homogeneous infinite media, (T), 23:9234
resonance self-shielding, calculation of uranium-238 4.65 to 2150 eV, 23:9234
resonance spacing of, use of synthetic kernel method for analysis of, (T), 22:30362
resonances in uranium-238 in uranium dioxide, crystal binding effects on Doppler broadening of, (T), 23:46894(R) (GA-9489)
resonances in uranium-238, calculation of Doppler coefficient for, (T), 23:49385 (BNL-50185)
retention in gamma-irradiated lithium-7 fluoride crystals, search for, 24:32762 (ORNL-4526, pp 76-83)
rethermalization by graphite at 20 to 450°C, (E), 24:45720
rethermalization cross sections for, calculation using velocity-dependent cross section with free-gas scattering kernel, (T), 22:22535
rethermalization in heavy gas, (T), 22:35206
rethermalization lengths in graphite and water, (T), 23:34706 (IAE-1613)
rethermalization near terphenyl-water discontinuity in FiR-1 test facilities, measurement of, 23:28628
role in nucleosynthesis and stellar evolution, (T), 23:1143
scattering amplitude for potassium, coherent, (E), 22:53074
scattering amplitudes for deuterium and tungsten atoms, small-angle scattering measurements of coherent, (E), 23:10924
scattering amplitudes for deuterium, fluorine, and mercury, measurements by mirror reflection for coherent, (E), 22:48431
scattering amplitudes for nuclei, real part of forward, (T), 22:20668 (LA-DC-9179)

scattering amplitudes for powders of elements, Christiansen-filter measurements of small-angle coherent, 25:38849
scattering and anisotropy in fast critical assemblies, calculations of elastic, 21:35677 (ANL-7320, pp 278-97)
scattering and polarization in a diffusion cloud chamber from deuterium (d,n) reactions, design of detector for, (E), 22:44577 (NP-17572)
scattering and thermalization in benzene, calculation of slow, 21:35389 (GA-7898, App.)
scattering and total cross sections for gadolinium-155 and -157 up to 200 eV, (E), 24:22135 (CEA-N-1149)
scattering and total cross sections for rhodium-103, thorium-232, and xenon up to 4 keV, (E), 24:22135 (CEA-N-1149)
scattering and transmission in benzene, (E/T), 22: 11873(R) (GA-8085)
scattering and transmission measurements on cadmium and rhodium-103 at 0.03 to 1.5 keV, resonance, (E), 23:5900
scattering and transport in condensed matter, (T), 25: 59673 (LFEN-NL-51-a)
scattering angle in energy-dependent problems, average, (T), 22:48426 (RPI-328-133, pp 60-100)
scattering angle in energy-dependent problems, average, (T), 23:13576 (RPI-328-142, pp 132-51)
scattering angles in energy-dependent problems, average, (T), 22:39551 (RPI-328-123, pp 39-52)
scattering angular distributions for, computer programs for analysis of, (T), 22:3745 (AFL-7306)
scattering at low energies, lithium-6 glass—liquid scintillator detector system for measuring resonance, 21:28237
scattering at low energy, research progress on inelastic, (E/T), 22:39550 (RPI-328-123, pp 32-8)
scattering at low energy, theory of multiple, (T), 22: 32478
scattering by 2s1d-shell nuclei, DWBA analysis using SU(3) model for inelastic, (T), 22:20497(R) (AECL-3009)
scattering by acetic acid and methanol, study of transport properties by, (E), 22:13919
scattering by acoustic vibrations in paramagnets in strong magnetic fields, (T), 23:28225
scattering by air, angular distribution of, 25:30639
scattering by alkali halide crystals, analysis of asymmetries in, (T), 24:40547
scattering by alloys, dielectrics, and metals, lattice dynamics from, 23:36801
scattering by alpha-cobalt, magnon dispersion relations from inelastic, 22:48150 (INP-610)
scattering by aluminum, iron, molybdenum, and zirconium, testing optical model by elastic, (E/T), 21: 17422
scattering by aluminum-27 and bismuth-209, calculations of cross sections for total coherent, (T), 25:9958
scattering by aluminum-27, copper, iron, lead, and nickel, analysis of secondary γ-ray spectra from inelastic, (E/T), 24:49778 (CTC-20)
scattering by aluminum-27, phosphorus-31, silicon, and sulfur at 5.95 MeV, differential cross sections for elastic and inelastic, (E/T), 22:32526
scattering by aluminum-27, statistical calculation of neutron spectra from inelastic, (T), 25:17958 (N-70-38168)
scattering by ammonium compounds, temperature effects on slow, (E), 22:5817(R) (NYO-GEN-72-28)
scattering by anharmonic crystals, dissertation summary of research on, (T), 22:39561
scattering by anharmonic crystals, theory for asymmetries in, (T), 24:40547
scattering by anharmonic molecular crystal, peak displacement and width in coherent one-phonon, (T), 23:10919
scattering by antiferromagnetic and ferromagnetic materials near transition temperature, (E), 21:17267 (JAERI-1113, pp 122-6)
scattering by antiferromagnetic and ferromagnetic materials, critical magnetic, (T), 21:7645
scattering by antiferromagnetic materials in strong magnetic fields, (T), 22:29840
scattering by antiferromagnetic materials, cross section calculations for slow polarized, 21:44529
scattering by aqueous sodium chloride and water, quasi-elastic, 21:11436
scattering by arbitrary systems at low energies, quasi-classical theory of, (T), 23:39913
scattering by atomic systems at low energies, analysis using space-time pair correlation functions, (T), 21: 40489
scattering by atoms dissolved in ferromagnetic iron and nickel, (E), 22:24809
scattering by atoms, analysis of many-particle distribution functions in Sunakawa model for elastic multiple, (T), 25:56637
scattering by barium-130 and -132 at 3 to 1000 eV, time-of-flight spectra from resonance, (E), 24:8914
scattering by bcc iron, calculation of amplitudes for, 21: 44175
scattering by benzene, cross sections for, (E/T), 22: 53072
scattering by beryllia, calculations, 22:44208 (GA-8758)
scattering by beryllium and graphite, coherent inelastic, (T), 22:48414(R) (GA-8773)
scattering by beryllium and graphite, inelastic, 21: 1017(R) (WANL-TME-1492)
scattering by beryllium single crystal, differential cross section for, (E/T), 23:23603(R) (GA-9194)
scattering by beryllium, beryllium oxide, and graphite, computer program for cross sections of coherent elastic, 24:28672 (AEEW-M-954)
scattering by biphenyl, (T), 22:11873(R) (GA-8085)
scattering by bismuth and lead, temperature dependence of coherent amplitude for forward, (E), 22:11893
scattering by boron-10 and boron-11 at 0.075 to 0.50 MeV, differential cross sections and polarizations for, (E), 21:23534(R) (ANL-7246)
scattering by boron-10 at 0.075 to 2.2 MeV, R-matrix analysis of differential cross sections and polarizations from elastic, (E/T), 25:50657
scattering by boron-10 at 0.2 to 80 keV, cross section for, (E), 22:35285(R) (AERE-PR/NP-13)
scattering by bound sulfur atoms, amplitude of coherent, 25:38850
scattering by cadmium sulfide crystals, anomalous transmission from suppression of (n,γ) reaction in resonant, 25:56627
scattering by calcium, optical overall model potential for analysis of, 23:52106
scattering by calcium-40 at 0.55 to 2.0 MeV, differential cross sections for, (E), 25:14939
scattering by calcium-40 or carbon-12, angular momentum method for studies on elastic, (T), 24: 52717
scattering by carbon dioxide, energy for ion pair production in, 21:22007 (AERE-R-5130)
scattering by carbon in graphite, γ flux calculations using Monte Carlo method, 21:42530
scattering by carbon in uranium carbide (UC) at 0.034 to 0.18 eV, chemical binding effects on cross section for, (E), 23:8919
scattering by carbon, aluminum, iron, and bismuth, cross sections for inelastic, (T), 22:11922
scattering by carbon-12 and oxygen-16, coupled-channel cross-section calculations for elastic, (T), 21:25432 (KAPL-P-3329)
scattering by carbon-12 at 0 to 5 MeV, coupled-channel calculations for, (T), 23:42853 (KAPL-P-3834)
scattering by carbon-12 at 1.0 and 2.0 MeV, computer program for finite-geometry and polarized multiple-scattering corrections to polarized data from, 22:7625
scattering by carbon-12 at 4.4 MeV, modified model of complex momenta for parity of carbon-13 excited levels from, (T), 25:23102
scattering by carbon-12 at low energy, calculations using coupled-channel formalism, 21:38377(R) (PUC-937-260)
scattering by carbon-12 at low energy, calculations using coupled-channel formalism for resonance, (T), 21: 42722
scattering by carbon-12 at low energy, calculations using coupled-channel formalism, 21:38413
scattering by carbon-12, analysis using coupled-channel theory and collective models, (T), 25:38903
scattering by carbon-12, elastic, (T), 21:7702
scattering by carbon-12, R-matrix analysis with nuclear-structure considerations, (T), 24:11050
scattering by cerium, iron, lanthanum, thulium, and yttrium at 2.75 MeV, gamma energies and intensities from inelastic, (E), 23:40029
scattering by cerium-140 at 1.64 to 1.87 MeV, angular distribution of gamma rays from inelastic, (E), 22: 27037
scattering by chromium, critical magnetic, (E/T), 22: 24814
scattering by chromium-50, -52, -53, and -54, nickel-60, and natural vanadium at 0.1 to 300 keV, resonance parameters, strength functions, potential scattering radii, and resonance absorption integrals from resonance, (E), 24:52478 (RPI-328-199)
scattering by chromium-52, angular distribution of 1.4-MeV gamma from inelastic, (E/T), 22:35182
scattering by classical liquids at low energies, effective-field approximations in coherent, (T), 23:34708
scattering by coal, gamma spectroscopy using coincidence/anticoincidence methods for, 21:36435
scattering by cobalt fluoride crystals, magnetic excitations in, (E), 21:7721(R) (AECL-2611)
scattering by cobalt fluorides at 39.5, 42, and 45.3°K, critical, (E), 23:23746(R) (AECL-3257)
scattering by cobalt fluorides, magnetic, (E), 22: 11944(R) (AECL-2780)
scattering by cobalt, temperature dependence of magnetic, (E), 22:1569
scattering by cobalt—iron alloys, spin-wave, (E), 21: 18805
scattering by cobalt-59, iron-56, and niobium-93, gamma spectra from inelastic, (E), 21:3245 (ORO-2791-19, pp 1-31)
scattering by cold-worked copper, small-angle, (E), 22: 9921 (JUL-Conf-1)
scattering by collinear magnetic materials, systematic extinction of reflections in coherent, (T), 21:42161
scattering by compound nucleus single resonance level at low energies, wave packets in theory for, 21:27441
scattering by condensed matter, Fourier transforms in inelastic, 23:16896
scattering by construction materials, calibration of radiometric hygrometers by, 21:10688
scattering by copper and germanium single crystals of, effects of pressure on, 25:37671 (KURRI-TR-85)
scattering by copper, effects of grain size on, (E), 22: 11874(R) (JUL-463-NP)
scattering by copper, iron, and niobium at 14.4 MeV, differential cross sections, nuclear-level density parameters, and contribution of direct processes for inelastic, (E), 25:56684 (FEI-216)
scattering by Coulomb potential, cross section for, 21: 33650
scattering by crystalline polymers, cross-section calculations using amplitude-weighted directional frequency functions, (T), 23:7213
scattering by crystalline, amorphous, and liquid selenium, (E), 22:11874(R) (JUL-463-NP)
scattering by crystals and liquids, dynamics from inelastic, (T), 22:15930
scattering by crystals of polyethylene, cross sections for multiphonon, (T), 22:29837
scattering by crystals, anharmonic effects in, (T), 21: 27503 (AE-274)
scattering by crystals, anharmonic interference effects in, (T), 23:23746(R) (AECL-3257)
scattering by crystals, design and performance of high-pressure vessel for measuring phonon energy shifts from inelastic, 21:831
scattering by crystals, determination of thermal vibration spectrum from, 21:31481
scattering by crystals, effects of temperature variation of resonance level parameters on, (T), 21:18826
scattering by crystals, lattice models for, (T), 23: 23603(R) (GA-9194)
scattering by crystals, method for improving resolution in measurements of 1 phonon resonances in inelastic, 22: 28223
scattering by crystals, phase-transition research using, 21:16964 (JAERI-1113, pp 81-3)
scattering by crystals, program for computing dynamical matrix, phonon dispersion relations, and structure factors for inelastic, 22:1294 (IN-1125)
scattering by crystals, review, 23:21005
scattering by crystals, review of inelastic spin-wave, 21: 17266 (JAERI-1113, pp 91-8)
scattering by crystals, use in defect studies, (T), 23:3584
scattering by cubic diatomic crystals containing impurities, cross sections for inelastic, 25:5491
scattering by defects in crystalline solids, (T), 21:21070
scattering by deformed A less than or equal to 40 nuclei, elastic and inelastic, (T), 22:37340(R) (EANDC(E)-89(U))
scattering by deformed even-even nuclei, intermediate resonances in, (T), 21:21596
scattering by deformed nickel polycrystals, small-angle magnetic, 21:9661
scattering by deformed polycrystalline copper of subthermal, small-angle, 22:48435
scattering by dense materials, detection and measurement for flaw determination, 22:33619(P)
scattering by deuterium at 14.3 MeV, differential cross sections for elastic, (E), 22:18121
scattering by deuterium up to 100 MeV, Levinson's theorem in s-wave, (T), 25:22968
scattering by deuterium, Born approximation using tensor term in nucleon-nucleon potential for elastic, (T), 22: 26794
scattering by deuterium, cross sections for inelastic, (E), 25:38865
scattering by deuterium, dispersion relations for unphysical cuts in nuclear structure studies of elastic, (T), 25:59691 (LA-DC-12958)
scattering by deuterium, phase analysis of elastic, (E/T), 22:11895
scattering by deuterium, three-body formalism using tensor forces, (T), 21:19167
scattering by deuterium, wave function calculations using weak interaction for elastic, (T), 23:13203
scattering by deuterons near threshold, on-shell two-body approach to elastic, (T), 23:37103
scattering by dilute lanthanum—terbium alloys, magnetic, 23:10720
scattering by dilute polymer solutions, quasi-elastic, (T), 21:19156
scattering by disordered crystals, (E), 21:16962 (JAERI-1113, pp 51-4)
scattering by doubly closed-shell nuclei, elastic, (E), 22: 20578 (WASH-1079)
scattering by electrons in substances, small-angle magnetic, (T), 24:30673
scattering by erbium at 4.2°K, observation of spin waves by, (E), 21:44163
scattering by erbium isotopes at 0.007 to 1 eV, cross sections for, (E), 22:11958
scattering by erbium-168, cross section for paramagnetic, (E), 21:46759
scattering by ethylene absorbed on activated charcoal, (E), 21:27008
scattering by ethylene adsorbed on activated charcoal, slow, (E), 22:11218
scattering by ethylene and methane at 0.025 eV, effect of spectrometer resolution on doubly differential cross sections for, (E), 23:15331
scattering by even—even nonspherical nuclei, analysis using optical model and statistical theory, (T), 23: 25954
scattering by even-even nuclei, effects of pairing correlations on inelastic, (T), 21:34053
scattering by even-even rotational nuclei, computer program using coupled-channel formalism, 21:35503 (RT/FI-(67)10)
scattering by ferrites, parametric ferromagnetic resonance excited spin wave, 21:37560
scattering by ferroelectric crystals, cross section for one-phonon inelastic, (T), 24:1485
scattering by ferroelectric materials, phase-transition research using inelastic, 21:16963 (JAERI-1113, pp 76-80)
scattering by ferromagnetic alloys, second-order effects in elastic, (T), 22:44596
scattering by ferromagnetic crystals, effects of fluctuations near critical point on slow, (T), 23:44507
scattering by ferromagnetic materials, spin-flip and spin-wave contributions to inelastic, (E), 22:18088
scattering by ferromagnetic metals at low temperatures, multiband theory, 23:27705
scattering by ferromagnetic metals, effects of magnetic transformations on, 25:25244
scattering by ferromagnets, critical fluctuations from, (E/T), 23:7049
scattering by field-induced diamagnetic currents in atoms, (T), 24:38068
scattering by fluctuations in condensed matter, review, 24:3832
scattering by fluids, high-density corrections for, (T), 22: 41933
scattering by fluorine-19, description of intermediate-structure resonances using shell model with Feshbach formalism, (T), 22:3616

scattering by fully deuterated liquid methane at 95°K, 21:40352
scattering by gaseous and liquid methane, calculation of second-order corrections for inelastic, 25:56628
scattering by gaseous and solid methane, relation of molecular dynamics to inelastic, (E), 22:41287 (INP-608)
scattering by gaseous methane at low energy, non-quasi-ideal corrections to, (T), 23:17068
scattering by gaseous methane, molecular interaction effect in, (T), 25:1704
scattering by gaseous methane, spectra from, (E), 22:31635
scattering by gases, mirror techniques for measuring cross sections for coherent, 23:28304 (WASH-1124)
scattering by germanium crystals below 100 keV, recoil atom energy losses in inelastic, (E), 21:14966
scattering by germanium isotopes at 3 to 1000 eV, cross sections for potential, (T), 23:10962(T) (NP-tr-1719)
scattering by gold-197 and rhodium-103 at 40 to 700 eV, cross sections and resonance parameters for, (E), 22:16000 (CEA-R-3360)
scattering by gold-197 at 0.13 to 1.50 MeV, differential cross sections and time-of-flight spectra for, (E), 22:9872
scattering by graphite and heavy water at low energies, (E/T), 21:40342(R) (GA-7959)
scattering by graphite at 15, 490, 1000, and 1370°C, doubly differential cross sections for inelastic, (E), 22:20416(T) (JPRS-43682, pp 81-105)
scattering by graphite, approximate dispersion relations for total cross sections for coherent inelastic, (E), 24:22082
scattering by ground, iron, and water, scintillation spectrometer for determining angular distribution in, 21:41218
scattering by harmonic oscillator, validity of quasiclassical method of calculation of, (T), 23:34709
scattering by heavy nuclei at 0.05 to 2.0 MeV, empirical penetrability coefficients for inelastic, (E), 25:25775
scattering by heavy nuclei, calculation technique for multigroup transfer matrices for elastic, (T), 25:23046
scattering by heavy nuclei, effects of long-range interactions in, (T), 21:23534(R) (ANL-7246)
scattering by heavy nuclei, effects of nuclear surface in, (T), 25:1767
scattering by heavy nuclei, imaginary part of optical potential for, (T), 22:30069
scattering by heavy nuclei, performance of time-of-flight spectrometer for inelastic, 22:10591
scattering by heavy nuclei, survey of data on electric polarization in elastic, 23:40031 (KURRI-TR-12, pp 3-17)
scattering by heavy water and water at low energies, kernels for, (T), 21:19148 (IN-1065)
scattering by heavy water at low energy, coherent, (T), 22:20431
scattering by heavy water, computer program for double differential cross sections, scattering matrix, and integrated cross sections for, (T), 25:59671 (IFA-DNBR-3)
scattering by heavy water, differential cross sections for, (E), 21:29827(R) (GA-7439)
scattering by Heisenberg ferromagnets, phenomenology, (T), 23:10920
scattering by Heisenberg antiferromagnet with negative impurity—host exchange coupling, cross section for inelastic, (T), 23:15341
scattering by helium for polarization measurements, Monte Carlo technique for corrections for, 24:30674
scattering by helium-3 and tritium, theoretical analysis of experimental data on, (T), 21:42550 (INFN/BE-67/1)
scattering by helium-3 and tritons, data analysis for unpolarized, (T), 21:29867
scattering by helium-3 at low energies, phase-shift analysis of differential cross sections for elastic, (T), 25:53526
scattering by helium-3, use of Feynman diagrams to determine position of resonances in elastic, (T), 22:18337
scattering by helium-4 and oxygen-16 at low energy, single-particle wave functions for elastic, (T), 21:19299
scattering by helium-4 at 0 to 20 MeV, energy-dependent phase-shift analysis of elastic, (T), 24:38082
scattering by helium-4 below 22 MeV, phase shifts calculated from one-term nonlocal separable potentials for elastic, (T), 25:20261
scattering by helium-4 below 50 MeV, analysis using nonlocal separable potential, (T), 25:56852
scattering by helium-4, analysis of resonances in elastic, (T), 24:45727
scattering by helium-4, analysis using separable nonlocal potential, (T), 25:56642 (LYCEN-7104, C5.1-15)
scattering by helium-4, forward dispersion relations for elastic, (T), 22:53085
scattering by helium-4, high-energy, (T), 25:40510
scattering by helium-4, lectures on forward dispersion relations for elastic, (T), 25:56810 (CERN-71-14, pp 155-228)
scattering by helium-4, model for, (T), 21:2611
scattering by helium-4, phase-shift analysis for polarization, (T), 21:21423
scattering by helium-4, s-state n-α potential with Pauli barrier for, (T), 21:35408
scattering by helium-4, single-particle wave functions using nonlocal optical-model potentials for elastic, (T), 21:12106
scattering by helium-4, theory for elastic, 25:17697
scattering by helium-4, unified nuclear reaction theory for elastic, (T), 25:5870
scattering by holmium powders and single crystals, paramagnetic, (E), 21:33954(R) (AECL-2687)
scattering by holmium-165 at 35 to 750 eV, spins and parameters of resonances in elastic, (E), 22:16048
scattering by hydrides of cerium, thorium, and uranium, lattice dynamics from cold inelastic, (E/T), 22:5440
scattering by hydrogen and deuterium in uranium hydride and uranium deuteride at 0.05 to 0.5 eV, cross sections for, (E), 23:7211
scattering by hydrogen at 10 to 700 keV, cross section for, (E), 22:18146
scattering by hydrogen at 10^{-3} to 10^{7} eV, evaluation of elastic total cross section and angular distributions for ENDF/B, 25:36660 (LA-4574)
scattering by hydrogen in hydrogen-bonded ferroelectrics above the Curie point, differential cross sections for inelastic, (E), 25:36668
scattering by hydrogenous incoherent liquids, quasielastic, (T), 23:1772
scattering by hydrogenous liquids at 0.009 to 0.0013 eV, cross sections for, (E), 22:24811
scattering by hydrogenous liquids, cross section for quasielastic, (T), 21:2028
scattering by hydrogenous liquids, quasi-elastic, (T), 21:11914 (AE-259)
scattering by ice lattice, inelastic, 25:17680
scattering by indium-115, fission-spectrum-averaged activation cross sections for inelastic, (E), 25:14968
scattering by iron and nickel, spin correlation in critical magnetic, (T), 22:1568
scattering by iron and nickel, spin-wave effects in critical, (T), 23:36797
scattering by iron and zirconium, depolarization in, (E), 21:21433
scattering by iron at 0.8 to 15 MeV, gated photomultiplier for scintillation detector measurements on inelastic, 24:14294 (RPI-328-176)
scattering by iron at 1 to 2 MeV, resonance, (E), 22:11924
scattering by iron at 1 to 500 keV, neutron spectra from elastic, (E), 24:28738(R) (RPI-328-171)
scattering by iron at Curie point, angular position of side maximum in, 23:49309
scattering by iron with high temperature stability, small-angle critical magnetic, (E), 23:42485
scattering by iron, critical, (E), 23:46895
scattering by iron, re-evaluated ENDF/B cross sections for elastic and inelastic, 25:38927 (ORNL-4617)
scattering by iron, temperature dependence of small-angle critical, 23:15337
scattering by iron-54 and silicon-28, doorway-state effects in elastic, (T), 24:38310
scattering by iron-56 and lead-206, doorway states in elastic, (T), 24:1874
scattering by iron-56 and nickel-60, cross section calculations using quasi-compound nucleus theory, (T), 23:40004
scattering by iron-56 at 0.87 to 0.95 MeV, angular distribution of gamma rays from inelastic, (E), 22:27037
scattering by iron-56 at 1 to 7.6 MeV, cross sections for gamma production and elastic and inelastic, (T), 24:43187
scattering by iron-56, angular distribution of 0.84-MeV gamma from inelastic, (E/T), 22:35182
scattering by iron-56, calculation of γ production cross sections for inelastic, (T), 24:33134
scattering by iron-57 in keV region, γ spectra for inelastic, (E), 23:46961
scattering by Ising ferromagnet, cross section for inelastic, (T), 23:15334
scattering by Ising magnet, frequency and temperature dependence of inelastic, (T), 22:29852
scattering by lattice vibrations in deuterated ammonium chloride at 85°K, inelastic, 25:36322
scattering by lead at 0 to 26 keV, polarization in, (E), 21:2722
scattering by lead-206 and -207, calculation of differential inelastic cross sections from Hauser—Feshbach theory, (T), 23:34791
scattering by lead-206, width-fluctuation effects in cross section for inelastic, (T), 23:19267
scattering by lead-207, cross-section calculations using random phase approximation with continuum coupling, (T), 23:21355
scattering by lead-208 and oxygen-16, comparison of R-matrix and S-matrix theories for threshold resonances in, (T), 25:1713
scattering by lead-208, nonlocal optical potential for elastic, (T), 21:44682
scattering by light and heavy water mixtures at 0.404 eV, differential cross sections for, (E/T), 22:7611(R) (GA-7105)
scattering by light and heavy water, effective width model for, (T), 23:28220
scattering by light nuclei, spin-spin interactions in, (T), 21:4324 (JINR-P-2881)
scattering by light water, comparison of scattering law data and calculations for, 21:7632 (KAPL-P-3179)
scattering by liquid and solid lead, analysis using polycrystalline and hydrodynamic models for coherent slow, (E/T), 23:28213 (JINR-P14-4355)
scattering by liquid and solid lead, Brillouin, (E), 22:13921
scattering by liquid argon at 94°K, quasielastic, (E/T), 22:1575
scattering by liquid argon, studies of atomic motion from, 21:39821
scattering by liquid argon-36 and argon-36—argon-40, spectra of inelastic, 24:40181 (IN-1317, pp 153-208)
scattering by liquid bismuth, cesium, and sodium, coherent, (E), 21:2586(T) (NP-tr-1417)
scattering by liquid helium, 24:10478
scattering by liquid helium, fluctuations in energy widths of neutron groups from inelastic, (T), 24:5381
scattering by liquid helium, inelastic, (E), 22:20497(R) (AECL-3009)
scattering by liquid helium, inelastic, (E/T), 21:17265 (JAERI-1113, pp 32-5)
scattering by liquid helium, momentum transfer in inelastic, (E), 21:18587
scattering by liquid helium, temperature dependence of, (E), 22:48437
scattering by liquid helium-4 at high energies, (T), 21:1025
scattering by liquid lead, sodium, and tin at low energy, coherent and incoherent, (E/T), 23:10906 (AERE-R-5867)
scattering by liquid metals up to 900°C, design of target heater assembly for, 22:20381
scattering by liquid parahydrogen at 0.217 and 0.366 eV, differential cross sections for, (E), 22:7611(R) (GA-7105)
scattering by liquid parahydrogen, differential cross sections for, (E), 21:29827(R) (GA-7439)
scattering by liquid potassium, (E), 21:4233(R) (AECL-2610)
scattering by liquids and solids, conference on inelastic, 22:41918 (JAERI-1157)
scattering by liquids at high pressures, design of sample container for studying inelastic, 22:1576
scattering by liquids at low energy, research progress on theory of inelastic, (T), 22:35201(R) (NYO-3326-22)
scattering by liquids, convolution approximation in theory of coherent, (T), 22:35203
scattering by liquids, correlation with infrared and Raman spectra of, (E/T), 21:12011 (AECL-2639)
scattering by liquids, relaxation phenomena in, (E/T), 22:32004
scattering by liquids, study of structure and transport properties by, (T), 22:13920
scattering by liquids, time-of-flight method for studying diffusive motion by, 25:56634
scattering by lithium fluorides and sodium chlorides, inelastic, (E), 22:9921 (JUL-Conf-1)
scattering by lithium-6 at 4.83, 5.74, and 7.5 MeV, differential cross sections for elastic and inelastic, (E), 22:7645
scattering by lithium-7 at 3.35, 4.83, 5.74, and 7.5 MeV, differential cross sections for elastic and inelastic, (E), 22:7645
scattering by localized vibrations of interstitial hydrogen atoms in vanadium crystal, inelastic, (T), 23:23602 (EUR-4216)
scattering by magnetic crystals containing impurities, 23:1512 (INP-617)
scattering by magnetic ions in crystals, (T), 23:42483
scattering by magnetic ions, matrix elements and cross section for, (T), 23:25769
scattering by magnetic materials, 25:7475(R) (RISO-215)
scattering by magnetic materials, review, 23:16893
scattering by magnetic materials, use to study structure and dynamics, 22:46215
scattering by magnetic metals and alloys, lectures on, 23:32579 (KR-132)
scattering by magnetic metals, review of spin-wave studies using inelastic, 21:25172 (BNL-11281)
scattering by magnetic systems and high polymers, conference on inelastic, Tokai, Japan, 12/69, 25:14436 (JAERI-1197)
scattering by magnetite below 119°K, (E), 22:24815
scattering by magnetite below 119°K, search for spin-wave excitation energy changes in, (E), 22:15924 (KR-122)
scattering by magnetized crystals, wave-mechanical calculation of, 22:9429(T) (AERE-Trans-1075)
scattering by magnons and phonons in crystals, group theoretical selection rules in inelastic, 21:44170
scattering by manganese difluoride near the critical point, magnetic, (E), 22:24812
scattering by manganese fluoride of slow, measurements of inelastic, 21:11707
scattering by manganese oxides, gaussian approximation method for analysis of inelastic, 23:17055
scattering by manganese-55 and vanadium-51 at 1.0 to 3.1 MeV, energy levels from inelastic, (E), 22:7673
scattering by manganese-55 at low energies, total and coherent cross sections and resonance integral for, (T), 22:32550
scattering by medium and heavy nuclei, analysis using quasi-compound nucleus theory for inelastic, (T), 23:40004
scattering by medium-weight and heavy nuclei, optical-model analysis of elastic, (T), 22:18300
scattering by medium-weight nuclei at 2.8 MeV, optical-model analysis of elastic, (T), 22:24917
scattering by metallic crystals, phonon dispersion relations from inelastic, (E), 21:16961 (JAERI-1113, pp 36-50)
scattering by metals in magnetic fields, (T), 22:32512(R) (AECL-3108)
scattering by metals, conference on magnetic and inelastic, 23:19135
scattering by methane, correlation with infrared band shapes, (T), 21:18448
scattering by mixed magnetic systems, cross section for diffuse elastic, (T), 22:22539
scattering by moderators with long-range Coulomb interaction, computer program for calculating, (T), 23:23604 (IN-1280)
scattering by molecular hydrogen, multiple, (T), 21:21431
scattering by molecular systems, general phonon-type expansion for cross sections of, (T), 25:41159
scattering by molecules in gases, liquids, and solids, review, 23:17058
scattering by molecules of gaseous oxygen, magnetic contribution to cross section for inelastic, (T), 22:44584
scattering by molecules trapped in molecular sieves, 23:15862
scattering by molecules, effects of spin—orbit interaction on, (T), 21:4186
scattering by molecules, quasiclassical computation of cross sections for, 21:33151
scattering by molybdenum (110) single crystal, inelastic, 23:16873
scattering by monatomic gaseous multiplying media, at low energy, (T), 21:21406

scattering by monatomic gases or liquid, cross sections for incoherent, (T), 22:32512(R) (AECL-3108)
scattering by monatomic gases, expansion coefficients of cross section for, (T), 23:37071
scattering by monatomic liquids, law for diffusive, 24:30666 (DP-1224)
scattering by monoatomic fluids, model for, 24:1726
scattering by MOSEL reactor materials, (E), 21:46856 (JUL-419-RG)
scattering by natural carbon at 0 to 2 MeV, angular distributions and total cross sections from elastic, (E), 25:12379 (KAPL-P-3901)
scattering by neptunium-237, ENDF/B evaluated data for, 23:37188 (IN-1182)
scattering by neutrons at low energies, model analysis of inelastic, (E/T), 23:30912 (RPI-328-148, pp 39-47)
scattering by nickel and zirconium at 14 MeV, angular distributions for elastic and inelastic, (E), 21:15533
scattering by nickel single crystals and polycrystals, correlation range of spin fluctuations in, (E), 24:22058 (JUL-602-FN)
scattering by nickel single crystals and polycrystals, critical magnetic, 24:51818
scattering by nickel up to 1420°K, magnetic, (E/T), 22:24805
scattering by nickel, (E), 22:11874(R) (JUL-463-NP)
scattering by nickel, correction of GAM cross-section library for elastic, 21:33905 (WANL-TME-1334)
scattering by nickel, Kocinski's spin correlation function from critical magnetic, (E/T), 21:31687
scattering by niobium hydride, titanium hydride, zirconium hydride, and uranium carbide at low energy, differential cross sections for, (E), 22:3592 (RPI-328-101)
scattering by niobium hydrides and zirconium hydrides, differential cross sections for inelastic, (E), 21:40432 (WASH-1074)
scattering by niobium hydrides, polyethylene, uranium dioxide, and zirconium hydrides at low energy, inelastic, (E), 21:17270(R) (RPI-328-71)
scattering by niobium hydrides, thorium hydrides, and zirconium hydrides at low energy, inelastic, (E/T), 22:13908 (RPI-328-100, pp 120-39)
scattering by niobium hydrides, thorium hydrides, titanium hydrides, uranium carbide, uranium dioxide, and zirconium hydrides, doubly differential cross sections for inelastic, (E), 22:29864
scattering by niobium-93 up to 20 MeV, gamma-ray production probabilities for, (T), 25:46044
scattering by nitrogen and oxygen at 11 MeV, neutron spectra from, (E), 25:48069 (BNL-50276)
scattering by nitrogen-14, Chew—Frautschi plot for elastic, (T), 23:39967
scattering by nitrogen-14, Regge trajectory for elastic, (T), 23:13330
scattering by nitrogen-15 in continuum region, description using shell model, (T), 21:21443
scattering by nitrogen-15 in continuum region, shell-model description of inelastic, 21:31852
scattering by nitrogen-15, analysis using field theory, 24:8954
scattering by nitrogen-15, particle—hole excitations in elastic and inelastic, (T), 23:4074
scattering by nitrogen-15, shell-model calculations for bound and resonance states in inelastic, (T), 23:21286
scattering by nitrogen-15, shell-model calculations using truncated Hilbert space, (T), 23:7343
scattering by normal and deuterated polyethylene, directional frequency functions for calculating cross sections for, (T), 22:18098
scattering by nuclear Hartree-Fock field, potential, (T), 22:29941 (IPNO/TH-118)
scattering by nuclear square-well potential, theory using solutions of time-dependent Schroedinger equation, 22:12000
scattering by nuclei at 0.037 eV to 18 MeV, angular distributions for, 21:27579 (UNC-5099)
scattering by nuclei at 10 GeV/c, Glauber model calculations for total cross sections for, 24:3698
scattering by nuclei at 4 MeV, optical-model analysis of elastic, (T), 22:24918
scattering by nuclei at low energies, analysis using attractive square-well potential, (E), 25:31415
scattering by nuclei at resonance energies, analysis of unbound levels using method of Weinberg quasiparticles, (T), 25:43988
scattering by nuclei below 2 MeV, optical model parameters for, (T), 25:50858
scattering by nuclei near excitation threshold of lower level, gamma spectrometer system for measuring, 23:41055
scattering by nuclei with 2 less than or equal to A less than or equal to 244 at 0.01 to 15 MeV, evaluated angular distributions for elastic, 21:31736 (NAA-SR-11980(Vol.4))
scattering by nuclei with A > 40 at energies less than 50 MeV, optical-model parameters for elastic, (T), 24:6975
scattering by nuclei, analysis of velocity-dependent potentials for, (T), 25:46118
scattering by nuclei, analytic solution using Woods—Saxon potential for S-wave, (T), 23:9057
scattering by nuclei, analytical evaluation of large time contribution to cross sections for, 21:38150 (BNWL-SA-1085)
scattering by nuclei, calculation of inelastic cross sections and gamma angular distributions for, 21:40412
scattering by nuclei, computer codes for calculating cross sections for inelastic, 21:35527
scattering by nuclei, computer program for calculating elastic and inelastic cross sections using optical model and Moldauer theory, 24:49926 (JAERI-1191)
scattering by nuclei, computer program for elastic and inelastic, (T), 21:4371
scattering by nuclei, computer program for gamma angular distributions from inelastic, 21:12082 (ORO-2791-20)
scattering by nuclei, connection of (n,2n) reaction mechanism with inelastic, (E), 22:13966
scattering by nuclei, correction for multiple scattering processes in measurement of differential cross sections for elastic and inelastic, (T), 25:15150
scattering by nuclei, criterion for weak perturbing systems for elastic, (T), 22:13865
scattering by nuclei, description for single-level inelastic, (T), 24:33171
scattering by nuclei, design and performance of 4π neutron source for measuring cross sections for, 21:40359
scattering by nuclei, design of lithium-drifted germanium spectrometer for studying inelastic, 23:47798
scattering by nuclei, effects of 2p-1h states on cross sections for, (T), 22:53243
scattering by nuclei, effects of 2p-1h states on elastic cross sections for, (T), 22:46820 (UCSD-10-P-11-75)
scattering by nuclei, electromagnetic and weak interaction contribution to potential for, (T), 25:1773
scattering by nuclei, gamma emission in inelastic, (T), 21:4325 (ORO-2791-19, pp 75-135)
scattering by nuclei, gamma spectrometer for studying inelastic, 21:316
scattering by nuclei, gamma spectroscopy of inelastic, 24:27394
scattering by nuclei, giant-resonance effects on total cross sections for, (T), 21:31848
scattering by nuclei, Hauser—Feshbach analysis of inelastic, (T), 25:3712 (AAEC/TM-545)
scattering by nuclei, inelastic, (E/T), 21:17262 (JAERI-1113)
scattering by nuclei, influence of magnetic moment interaction with Coulomb field on, (T), 23:25953
scattering by nuclei, isotopic dependence of optical model parameters for, 24:18462
scattering by nuclei, lectures on cross sections and polarization from elastic, (T), 25:12624 (ANU-P-497)
scattering by nuclei, lifetime measurements for nanosecond excited states using intense pulsed beams, 22:32728
scattering by nuclei, method for imposing conditions of experimental resolution broadening on theoretical models for, 25:50833
scattering by nuclei, method for measuring excitation functions for inelastic, 23:42974
scattering by nuclei, multilevel formalism for elastic, (T), 25:15161
scattering by nuclei, nonlocal optical-model potential for elastic, (T), 21:44756
scattering by nuclei, polarization in elastic, (T), 21:42713
scattering by nuclei, polarization phenomena in, (E/T), 21:12094
scattering by nuclei, quasi-compound nucleus theory for inelastic, (T), 23:40149
scattering by nuclei, review of research on inelastic, 24:28750
scattering by nuclei, spin-spin interaction effects on elastic, (T), 21:13914
scattering by nuclei, statistical analysis of inelastic, (T), 25:31436
scattering by nuclei, statistical theory for energy spectra from inelastic, 25:17958 (N-70-38168)
scattering by nuclei, statistics in time-of-flight measurements of inelastic, (T), 25:46025
scattering by nuclei, time-dependent wave formalism for elastic, (T), 22:3772
scattering by nuclei, time-of-flight techniques in inelastic, (E), 22:15968
scattering by nuclei, use of analytical and Monte Carlo methods for determining multiple scattering corrections in analysis of, 22:1579
scattering by nuclei, use of organic scintillators for determining neutron intensity in elastic, 21:16185
scattering by nuclei, width-fluctuation corrections for inelastic, (T), 21:42614(R) (ORO-2791-26)
scattering by nuclei, widths of intermediate resonances in, (T), 22:27372
scattering by organic molecules in molecular spectroscopy, inelastic, 24:40181 (IN-1317, pp 153-208)
scattering by oriented nuclei using polarized beams, cross section and spin-flip probability for, (T), 22:44791
scattering by ortho-hydrogen below lambda point, differential cross sections for, (T), 24:30677
scattering by orthohydrogen at 0 to 100 MeV, calculation of differential and total cross sections for, (T), 24:52357 (EUR-4496)
scattering by osmium-190, activation cross section for inelastic, (E), 22:20578 (WASH-1079)
scattering by oxygen-16 in plane layer of matter, polarization and angular distribution from spin—orbit interactions in, 24:20108
scattering by oxygen-16, cross-section calculations using Feshbach formalism for elastic, (T), 22:3620
scattering by oxygen-16, effects of exchange and Pauli principle on elastic, (T), 22:5896
scattering by oxygen-16, elastic phase-shift calculations using two-body forces, (T), 25:28198
scattering by oxygen-16, R-matrix shell-model calculations of cross sections for (T), 25:12423
scattering by para- and ortho-liquid deuterium, 21:17648
scattering by paramagnetic crystalline erbium and holmium, energy distribution from, (E), 22:24817
scattering by paramagnetic materials at high temperature, calculations using Ising model, 21:23272
scattering by paramagnetic materials, (T), 22:13915
scattering by paramagnetic materials, calculations using Ising model, (T), 22:13916
scattering by paramagnetic materials, calculations using cluster model and Heisenberg model, (T), 22:18084
scattering by paramagnetic materials, frequency transform of time-dependent two-spin autocorrelation function for, (T), 23:10927
scattering by paramagnetic materials, gaussian approximation method for analysis of inelastic, (T), 23:17055
scattering by paramagnetic nickel, orbital contribution to magnetic cross section for, (T), 25:56354
scattering by paramagnetic terbium at 660°K, energy distributions in, 22:24786 (CONF-670502-, pp 297-306)
scattering by particles moving in an electromagnetic wave, (T), 25:20243
scattering by pentane and n-propyl alcohol, (E/T), 21:2029
scattering by phonons in crystals, 21:35234
scattering by phonons in perfect crystals, dynamical theory of, 21:44168
scattering by phonons in potassium at 299°K, 21:7721(R) (AECL-2611)
scattering by phonons of holmium, inelastic, 25:17301
scattering by phosphorus-31 at 14.5 MeV, gamma spectra from, (E), 23:47798
scattering by plane and cylindrical surfaces, N-SAP program for calculating dose rates from, 21:29326 (WANL-TME-1273(Rev.A))
scattering by plane layer of matter, polarization from spin—orbit interactions with nuclei in, 24:20108
scattering by plane layers, angular distribution of, (T), 21:21737
scattering by plane thick layer, particle distribution in multiple, (T), 22:39303
scattering by platinum and copper—platinum alloys, lattice vibrations from inelastic, (E), 22:26764 (SGAE-PH-60/1967)
scattering by plutonium-239 at 0 to 660 eV, spin of resonances induced by, (E/T), 25:15088
scattering by plutonium-239 at 14.7 to 300 eV, resonance parameters and spins from, (E), 21:31785
scattering by plutonium-239 at low energy, (E), 22:48423 (RPI-328-133, pp 1-34)
scattering by plutonium-239, uranium-233, and uranium-235 at 1 to 100 eV, cross sections for, (E), 21:17270(R) (RPI-328-71)
scattering by plutonium-239, uranium-233, and uranium-235, interference effects in average cross section for resonance, (T), 25:12608
scattering by plutonium-239, uranium-233, and uranium-235, cross sections and resonance spin assignments for, (E), 23:28304 (WASH-1124)
scattering by plutonium-241 and uranium-233, cross sections for, (E), 21:12027(R) (UCRL-50001-66-2)
scattering by point defects in relaxed lattice, calculation of cross sections for, (T), 25:31163 (AERE-R-5682)
scattering by polarized nuclei of polarized, separation of coherent and incoherent components of inelastic, (T), 25:14869
scattering by polarized nuclei, magnetic, (T), 21:27636
scattering by polarized nuclei, measurement of scattering lengths from elastic, (T), 25:12533 (TKK-F-A-123)
scattering by polycrystalline graphite, coherent one-phonon, (T), 22:5747
scattering by polycrystalline zirconium hydride, cross section calculations for elastic and inelastic coherent, (T), 25:5499
scattering by polycrystals, cross sections for inelastic, 23:10918
scattering by polyethylene at 0 to 0.6 eV, differential cross sections for, (E), 21:25518 (WASH-1071)
scattering by polyethylene at 0.01 to 1.68 eV, differential cross sections for, (E), 21:25518 (WASH-1071)
scattering by polyethylene at 0.16 to 1 eV, doubly differential cross sections for inelastic, (E), 22:13908 (RPI-328-100, pp 120-39)
scattering by polyethylene, (T), 21:42151
scattering by polyethylene, doubly differential cross sections for, (T), 22:39541(R) (GA-8626)
scattering by polyethylene, effects of crystal vibrations on inelastic, (T), 21:38163
scattering by polyethylene, model for, (T), 22:48414(R) (GA-8773)
scattering by polyethylene, scattering law and cross section for, (T), 23:28229
scattering by potassium acid phosphate, evidence for proton tunneling from elastic and inelastic, 23:21004
scattering by potassium diphosphate, calculations for incoherent inelastic, (T), 23:28218
scattering by potassium-39 and -41 at 1.82 to 3.96 MeV, differential cross sections for elastic, (E), 22:20556
scattering by praseodymium chalcogenides and pnictides, inelastic, 25:27893
scattering by protons in single crystals of potassium acid phosphates, interference effects in elastic and incoherent, (E), 23:5756
scattering by protons in zirconium hydrides at 40 MeV to 1.5 eV, calculation of angular distributions and energy spectra from inelastic, (T), 25:33959
scattering by pyrolytic graphite at 0.0015 to 0.200 eV, filtering properties from total cross sections for, 21:21388
scattering by quantum fluid in Boltzmann statistics for temperature Green functions, (T), 25:36373
scattering by quasicrystalline liquid lead, Debye formula for cross section for, (T), 23:28230
scattering by radioinduced defects in beryllia, cross sections for, 21:20601
scattering by rare earth ions, magnetic form factor calculations for, 24:49262
scattering by rare earths, calculation of selection rules for, 21:21089
scattering by reactor-grade graphite, differential cross sections for, (E), 21:29827(R) (GA-7439)
scattering by real gases at low energy, first-order non-quasi-ideal corrections to, (T), 23:17067
scattering by rhodium at low energy, resonance, (E), 21:40432 (WASH-1074)
scattering by rhodium-103 at 125 to 450 eV, resonance, (E), 22:20578 (WASH-1079)
scattering by rhodium-104 at low energy, resonance, (E), 21:19152(R) (TID-23685)

scattering by rubidium manganese fluoride near the Neel point, inelastic magnetic, (E), 22:24818
scattering by rutile crystals, selection rules for inelastic, 23:51793
scattering by shielding, calculation by Monte Carlo method, 24:49231(T) (ORNL-tr-2360)
scattering by short-range ordered paramagnetic materials, 23:42450
scattering by silver at 5 MeV, calculations of spectra using Griffin model, (E/T), 23:13305(R) (COO-1573-48)
scattering by simple dense fluids, 23:52105
scattering by simple liquids, stochastic model for, 24:24496
scattering by single crystals of beryllium, harmonic approximation calculations of cross section for two-phonon coherent, (T), 23:19114 (CONF-680501-6)
scattering by single crystals of cobalt-doped manganese fluoride, inelastic, (E), 22:20497(R) (AECL-3009)
scattering by single crystals of magnesium oxide, differential cross section for coherent inelastic, (E/T), 22:53067
scattering by single crystals of paramagnetic holmium, (E), 22:20497(R) (AECL-3009)
scattering by single phonons of hydrogen in titanium hydride at 0.05 to 0.2 eV, cross sections for inelastic, 25:3536
scattering by solids, experimental facilities and methods for structure research using inelastic, 21:44520 (CONF-660925, pp 763-87)
scattering by solids, structure analysis from, 21:2315
scattering by spherical even—even nuclei, collective effects in inelastic, (T), 23:7358
scattering by spherical optical potential, computer program for calculating elastic and inelastic, (T), 25:59842 (RT/FI-(71)6)
scattering by spin fluctuations in paramagnetic materials, 22:24806
scattering by spin waves in ferromagnetic 3d metals and alloys, review of inelastic, 23:18726
scattering by spin waves in ferromagnetic metals with multiple bands, (T), 23:3569
scattering by spin waves in metals, review, 24:10628
scattering by stretch-oriented polyethylene, doubly differential cross sections for inelastic, (E), 23:1882 (WASH-1093)
scattering by symmetric molecules, rotational correlation functions for, (T), 24:30676
scattering by tellurium, (E), 22:11874(R) (JUL-463-NP)
scattering by terbium crystals, inelastic, 25:22640
scattering by terbium, critical, (E/T), 22:24813
scattering by terbium, inelastic critical, 23:46896
scattering by thin films, magnetic, (T), 23:15340
scattering by Ti_2O_3 and V_2O_3, (E), 22:24810
scattering by tritium at 0.007 to 5 eV, cross sections for, (E), 22:11896
scattering by tritium at 14.1 MeV, (E), 22:5761
scattering by tritium at 14.1 MeV, neutron angular distributions from elastic, (E), 22:32484
scattering by tritium, microscopic analysis using soft-core potential, (T), 25:31193
scattering by tungsten at low energies, performance of detector system for measuring resonance, 21:28237
scattering by tungsten isotopes, method for determining amplitudes of, (E), 24:1853
scattering by tungsten-186, n + e interactions from, (E/T), 25:36380 (JINR-E3-5713)
scattering by two-species quantum fluids, Born approximation to cross sections for, 25:13965
scattering by uranium 235 and uranium 238, angular distribution of, 21:30284(R) (GA-7673)
scattering by uranium at 14.7 MeV, differential cross sections for elastic, (E), 23:5909
scattering by uranium carbide (UC_2) at 0.0038 to 1 eV, cross section for, (E), 23:7209 (GA-8782)
scattering by uranium carbide and uranium dioxide at 0.134 eV, doubly differential cross sections for inelastic, (E), 22:13908 (RPI-328-100, pp 120-39)
scattering by uranium carbide, vanadium, and water, evaluation of double-differential, (E/T), 25:20235 (RPI-328-211)
scattering by uranium dioxide, calculation in incoherent approximation using lattice dynamical model, (T), 24:3831
scattering by uranium-233 at 0 to 22 eV, excitation functions for, (E), 21:25518 (WASH-1071)
scattering by uranium-235, multilevel analysis of cross section data for, (T), 25:59828 (COO-2022-10)
scattering by uranium-238 at 0.075 to 15 MeV, optical potentials for elastic, (T), 25:12510(T) (BNL-tr-366)
scattering by uranium-238, ENDF/B cross sections for elastic and inelastic, 25:38998 (WARD-4181-1)
scattering by vanadium and niobium nydrides and deuterides, inelastic, 24:28434
scattering by vanadium at low temperatures with and without magnetic fields, 23:44364
scattering by vanadium, density of phonon eigenstates and cross sections from inelastic, (T), 25:5230
scattering by vanadium, inelastic, 23:14898
scattering by vibrating lattices with Debye spectra, double-differential cross sections for, (T), 25:5494
scattering by virtual magnon states in dilute alloys, incoherent inelastic, (E/T), 22:24804
scattering by water and heavy water at low energy, (T), 22:7622
scattering by water at 0.006 to 10 eV, differential cross section for, (E), 22:13910
scattering by water at 0.04 to 0.632 eV at 27 to 270 C, differential cross sections for inelastic, (E/T), 25:59685
scattering by water at 0.04 to 0.632 MeV and 27 to 270°C, double differential cross section for inelastic, (E), 25:12342 (RPI-328-210)
scattering by water at 0.101 and 0.213 eV, doubly differential cross sections for inelastic, (E), 22:39557
scattering by water at 0.23, 0.33, 0.50, and 0.63 eV, doubly differential cross sections for inelastic, (E), 22:13908 (RPI-328-100, pp 120-39)
scattering by water at 27, 170, and 270°C, inelastic, (E/T), 22:48425 (RPI-328-133, pp 56-9)
scattering by water at high temperature, research program on doubly differential cross sections for, (E/T), 22:39550 (RPI-328-123, pp 32-8)
scattering by water at low energies, double differential cross sections for inelastic, (E), 21:40348 (RPI-328-87, pp 73-85)
scattering by water at low energy, model development for inelastic, (T), 23:13185 (RPI-328-142, pp 123-31)
scattering by water at room temperature, multiple scattering corrections to double-differential cross sections for, 21:7651
scattering by water, calculation of cross sections for, (T), 24:22057 (JUL-587-FN)
scattering by water, calculations of differential cross sections using modified Nelkin model with hindered rotations, (T), 22:53073
scattering by water, molecular force constants in model for, (T), 23:28211(R) (GA-9036)
scattering by water, water-d_2, and graphite at 0.004 to 0.12 eV, scattering transport lengths from, (E), 25:5502
scattering by Z = 11 through 26 nuclei, optical model calculation of γ ray production cross sections for inelastic, (T), 23:37132 (AD-679574)
scattering by zirconium hydride at 0.008 to 1.0 eV and 296 and 700°K, differential cross section for, (E), 22:15918 (GA-8345)
scattering by zirconium hydride at 0.019 to 0.822 eV, cross section for, (E/T), 23:23609
scattering by zirconium hydride at elevated temperatures, (E/T), 22:11873(R) (GA-8085)
scattering by zirconium hydride at high temperature, differential cross sections for, (E), 21:38198
scattering by zirconium hydride, calculation of double differential cross sections for, 21:35388(R) (GA-7898)
scattering by zirconium hydride, crystal binding effects on, (T), 21:17260 (BMwF-FBK-66-40)
scattering by zirconium hydride, effects of stoichiometry on structure in down-, 25:56343
scattering calculations in slab geometry, recursion formulas for semi-analytical multiple, (T), 22:29846
scattering correction for, analytical method for, 24:13261
scattering correction for, determination of multiple, 21:30091(R) (ANL-7210)
scattering cross section calculations for point defects in relaxed lattice, 23:3550 (AERE-R-5841)
scattering cross section for zirconium hydride, calculations using central force model, (T), 22:20409(R) (GA-8449)
scattering cross section measurements for, design and performance of boron-10-loaded liquid scintillation detectors for elastic, 23:38284
scattering cross section measurements, time-of-flight spectrometer for, 24:27395
scattering cross sections and resonance parameters for plutonium-241, uranium-233, and uranium-235 at 1 to 30 eV, (E), 22:20577 (UCRL-70826)
scattering cross sections for ferromagnetic materials, magnon dispersion relations and, (T), 21:46648
scattering cross sections for liquid Santowax-R, total, (T), 21:21384
scattering cross sections for magnetic impurity in Heisenberg ferromagnet, inelastic, (T), 21:46647
scattering cross sections for paramagnetic materials, temperature dependence of, (T), 21:44537
scattering cross sections for paramagnetic materials, temperature dependence of, (T), 21:40473(R) (PR-P-74)
scattering cross sections for stretch-oriented polyethylene, (E/T), 21:19163
scattering cross sections for water and zirconium hydride, multiple-scattering corrections to double differential, (T), 21:38157 (GA-8052)
scattering data files for, computer program for loading 360 GYMEA, 24:8795 (AAEC/TM-517)
scattering data for, computer program for Monte Carlo calculations of correction factors for multiple, (T), 22:39550 (RPI-328-123, pp 32-8)
scattering data for, computer program for reduction of inelastic, 24:5379 (KAPL-3356)
scattering data for, finite sample corrections to, 24:38073
scattering effects in generic thermionic reactor, analysis of inelastic, 22:22791 (GA-8309)
scattering effects on two-region heterogeneous cell one-speed transport theory disadvantage factor calculation, analysis of linearly anisotropic, (T), 23:15717
scattering elastically and inelastically by calcium-40 and vanadium-51, analysis using optical model program in direct reaction theory, (T), 24:20333
scattering experiments on critical phenomena, lectures on, 23:16892
scattering experiments with, on-line CDC-8090 computer-based data acquisition system for, 23:41114 (EUR-4289, pp 299-304)
scattering for 300 MW(e) liquid sodium-cooled fast reactors, KFK-NAP group set analysis of elastic, 23:9131(T) (EURFNR-533)
scattering from antiferromagnetic manganese(II) fluoride and rubidium manganese fluoride, inelastic, 25:14471
scattering from chromium tribromide, paramagnetic, (E), 22:26463
scattering from concrete shielding after 660-MeV proton bombardment, (E/T), 22:3149 (JINR-P16-3514)
scattering from concrete, doubly differential current albedos for, (T), 23:7281(R) (ORNL-4280)
scattering from crystal lattice vibrations, cross sections for, (T), 25:5483
scattering from cylindrical targets, multiple scattering correction for inelastic, 24:30893
scattering from edge-type dislocation rings in metals, theory of small-angle, 22:23817
scattering from elements of intermediate weight, elastic, 21:30091(R) (ANL-7210)
scattering from fluids near critical point, asymptotic form of radial distribution function for small-angle, 22:20096 (TP-210)
scattering from iron, analysis of data on magnetic critical, 24:49268
scattering from KH_2PO_4 crystals, total cross section measurements, (E), 21:16986
scattering from lanthanum dihydride and trihydride, inelastic, 25:30677
scattering from liquid argon at elevated temperatures, (E), 22:21891
scattering from magnesium and silicon, elastic, 21:30091(R) (ANL-7210)
scattering from magnetic crystals, structure factors from, 24:42812 (CEA-CONF-1515)
scattering from molecular liquids, effects of rotational motions on spectrum of, (T), 25:17681
scattering from phonons in solid helium, theory of inelastic coherent, (T), 25:9964
scattering from polycrystalline graphite, calculation of coherent, 23:39059
scattering from rigid diatomic rotor molecule, sum rule for interference, (T), 24:38070
scattering from uranium-235, energy from inelastic, (E/T), 21:8071
scattering from vanadium, time widths of elastic, 24:9681
scattering function calculation for hydrogen jump diffusion in interstitial-site lattices in bcc metals, 25:22954
scattering in air, method for analysis of, (T), 25:1706
scattering in antiferromagnets in magnetic field using polarized beams, cross section for slow, (E), 24:24492
scattering in argon single crystal, determination of structure by, (E), 21:13633
scattering in beryllium single-crystal, angular cross section for, (E/T), 24:26573(R) (GA-9753)
scattering in Bramblett—Bonner polyethylene spheres, multigroup theory for, 25:381
scattering in cobalt—iron crystals, polarization from, (E), 24:15760(T) (UCRL-Trans-10423)
scattering in cross section measurements, computer program for calculating multiple, (E), 25:31172 (NBS-TN-499)
scattering in crystals using polarized beams, method for analysis, (T), 23:39909
scattering in crystals, deconvolution of resolution function for critical slow, 25:20241
scattering in crystals, measurement of exchange integrals by, 23:36796
scattering in disordered solid solutions, cross sections for, (T), 22:22207
scattering in fast critical assemblies, calculations of inelastic, 21:35677 (ANL-7320, pp 278-97)
scattering in ferroelectrics, energy distribution in one-phonon coherent, (T), 21:25203
scattering in ferromagnetic crystal containing impurities with negative exchange coupling, theory, 21:21080
scattering in ferromagnetic materials, corrections to magnon dispersion relations from, 25:3218
scattering in ferromagnetic materials, excitation of spin waves in, (T), 21:13634
scattering in ferromagnets, model for critical polarized, (T), 24:10902
scattering in gaseous methane, effect of molecular interaction on, (T), 24:10895 (INP-677)
scattering in graphite at 1800°K, inelastic, 24:10622
scattering in graphite moderators, effects of temperature on inelastic, 22:30377
scattering in Heisenberg antiferromagnets, cross section for critical, (T), 23:25768
scattering in Heisenberg ferromagnets, intensity of single spin-wave cross sections for, (T), 24:26577
scattering in hexagonal and square lattices, calculation of first-flight, 21:14077 (JAERI-1072)
scattering in hydrogen gas, determination of time eigenvalues and analytic error estimates for, 23:4408
scattering in intermediate polystyrene solution, coherent, (E), 24:20309
scattering in iron, temperature variation of small-angle, (E), 21:11925 (IFA-FN-28)
scattering in lattices with Leibfried-Brenig spectrum, analysis using classical limit of pair self-correlation function, (T), 24:26581
scattering in light and heavy water, calculations using itinerant oscillator model for slow, (T), 25:53504
scattering in liquid argon, study of atomic motion by inelastic, (E), 21:11387 (FFN-60)
scattering in liquid sodium at 102°C, inelastic, 24:10901
scattering in liquids and solids, rotating crystal spectrometer for measuring slow, 22:12145
scattering in liquids, comparison of spectrometers for studying, 25:15923
scattering in liquids, sum rule criterion in coherent slow, (T), 21:41809
scattering in lithium-6-loaded scintillation detectors, Monte Carlo study of multiple, 25:2456
scattering in magnetic materials, design and performance of beam scattering apparatus for, 22:45346 (AERE-R-5698)
scattering in magnetic materials, spin densities from elastic, (T), 21:31476 (BNL-11473)
scattering in magnetized crystals, diffraction polarization in, (T), 25:59681
scattering in media, adjoint formulation for calculation of multiple, (T), 25:38858
scattering in metals, calculation of lattice dynamics using quasi-ion approximation, (T), 24:3824 (EUR-3621(Pt.2))
scattering in metals, quasi-ion approximation for, 21:46396 (EUR-3621.e(Pt.1))
scattering in mixed magnetic systems, temperature dependence of elastic diffuse, (T), 21:832

scattering in organic moderators, Horowitz operators for, (T), 25:31657
scattering in organic scintillators, calculation of delayed coincidence line shapes for pulse height distributions from elastic monoenergetic, 21:10628
scattering in plane geometry, solution of one-speed transport problems in, 21:25397 (NP-16508)
scattering in plane vanadium slabs, incoherent multiple, (E/T), 24:49687
scattering in plate crystal, coherent double, (T), 25:9963
scattering in plate-type water-moderated thermal reactors, calculations of anisotropic effects in, 24:7305
scattering in polarized targets at low energies, effects of polarization on incoherent, (T), 21:19149 (JINR-P4-3158)
scattering in polycrystalline beryllium, scattering law for coherent, (T), 24:26573(R) (GA-9753)
scattering in polyethylene up to 1 eV, cross-section calculations using improved orientation averaging, 24:15758 (KAPL-P-3860)
scattering in polyphenyls, sensitivity of model parameters for, (T), 23:42836
scattering in potassium bromide crystals, interference between one- and multiphonon processes in, (E), 23:51792
scattering in reactors, equations for biased adjoint determination for adjoint Monte Carlo calculations of, 23:15730 (ANS-RPD-1, Paper 3A)
scattering in reactors, two sided Laplace integral method transport theory for anisotropy of, (T), 24:20630
scattering in scandium, determination of crystal lattice dynamics from inelastic, 23:48458 (IS-T-322)
scattering in SEFOR core and materials, distribution of macroscopic cross sections for, 22:1763(R) (GEAP-5533)
scattering in shielding, calculation methods for, 22:48142
scattering in slab geometry, resonance, (T), 21:11944
scattering in slab of finite thickness, quantal formalism for multiple, (T), 23:19122 (RT/FI-(68)40)
scattering in slabs with absorbing spacers, multiple scattering corrections to double differential measurements on, (T), 23:21223
scattering in slabs, computer program for calculating second-order corrections to double, (T), 25:33948 (ANL-7780)
scattering in slabs, quantal approach to multiple, (T), 24:1728
scattering in slabs, variation of Green's functions, 21:4131
scattering in SNAP reactor, 05R Monte Carlo code for analysis of anisotropic elastic and inelastic, 21:46934 (ORNL-TM-1666)
scattering in solids, (E), 21:42278 (IS-1600, Paper 6)
scattering in solids, research at Ames Laboratory, July 1967 to June 1968, 23:1580 (IS-1900, Paper 6)
scattering in solids, theory of magnetic and electrostatic interactions in, 24:10636
scattering in spin-wave resonances in semiconductor antiferromagnets, (T), 25:14488
scattering in study of random motions in solids, review, 25:36313
scattering in tantalum hydride at 0.07 to 0.7 eV, total cross section for, (E), 24:6803
scattering in tantalum—niobium alloy, inelastic, 24:10616
scattering in terbium above Neel temperature, critical inelastic, 24:10630
scattering in thick slabs, Chandrasekhar's X and Y functions for isotropic, (T), 23:44490
scattering in uranium carbide, double differential cross section and scattering law for slow, (E), 24:47557
scattering in vanadium alloys, inelastic, 24:10618
scattering in vanadium alloys, inelastic, 24:10617
scattering in vanadium silicides, absence of paramagnetic, 22:37035
scattering in water, simplified anisotropic treatment of slow, (T), 24:3829
scattering inelastically by nitrogen-15, analysis using Weinberg treatment with surface-delta interaction, 24:22091
scattering inelastically in air, water, and nuclear emulsions of cosmic, cross sections for, (T), 22:22299
scattering inelastically in crystals, structure factors for, (T), 22:15558 (IN-1147)
scattering kernel and law for liquid biphenyl, calculations using harmonic oscillator molecule model, (T), 23:8911
scattering kernel determination for fast reactors, application of pulse propagation techniques to integral measurements for, 21:35561 (ANL-7320, pp 714-23)
scattering kernel for biphenyl, (T), 22:32436
scattering kernel for, formulation using secondary model of scattering, (T), 22:44578
scattering kernel in transport theory, spherical harmonics method for anisotropic corrections to, 24:3830
scattering kernels and cross sections for polycrystalline moderators, computer program for calculation of, 25:31168 (INR-1260)
scattering kernels for analysis of wave propagation experiments, (T), 23:3901
scattering kernels for analysis of wave propagation experiments, (T), 23:3926
scattering kernels for solid moderators, computer program for calculating effective temperature using Debye model for determining, 22:24413 (WANL-TME-1666)
scattering kernels for transport equation with isotropic scattering, temperature effects on, (T), 22:29863
scattering kernels for uranium dioxide, formulation of, (T), 22:48414(R) (GA-8773)
scattering kernels for, mathematical models for, 21:46859 (KFK-602)
scattering kernels in solids, use of time-dependent transport equation for determination of elastic and inelastic, 22:30372
scattering law data for moderators at various temperatures, compilation of, 22:48411 (AERE-R-5778)
scattering law data for zirconium, (E), 24:40539 (IN-1317, pp 65-8)
scattering law data for, Monte Carlo program for multiple scattering corrections to, (T), 22:48425 (RPI-328-133, pp 56-9)
scattering law data for, multiple scattering corrections to doubly differential, (T), 22:48414(R) (GA-8773)
scattering law for asymmetric-top molecules, (T), 23:28219
scattering law for benzene at 296 to 1000°K, (T), 22:20409(R) (GA-8449)
scattering law for beryllium oxide, incoherent approximation for, (T), 22:48414(R) (GA-8773)
scattering law for beryllium, calculation for coherent, (T), 23:28211(R) (GA-9036)
scattering law for beryllium, computer program for calculating one-phonon inelastic, (T), 23:23603(R) (GA-9194)
scattering law for biphenyl, (T), 22:20409(R) (GA-8449)
scattering law for deuterated, (T), 24:47556
scattering law for gases and liquids, high-density corrections to, (T), 22:41933
scattering law for graphite, (E), 22:9921 (JUL-Conf-1)
scattering law for heavy water, (E/T), 22:22522 (GA-8283)
scattering law for hydrogenous incoherent liquids, (T), 23:1772
scattering law for liquid heavy water at 0.157, 0.206, 0.304, 0.370, and 0.404 eV, (E/T), 22:7611(R) (GA-7105)
scattering law for liquid heavy water at 300°K, (E), 22:41925
scattering law for mixture of light and heavy water, (E), 22:53064 (AERE-R-5832)
scattering law for moderators, effects of incident energy broadening on, 23:44808
scattering law for molecular gases, effects of two-quantum vibrational excitations on, (T), 22:29870
scattering law for polycrystalline beryllium, 23:46894(R) (GA-9489)
scattering law for polycrystalline beryllium, calculation of coherent one-phonon, 25:3533
scattering law for polycrystalline beryllium, coherent, (T), 25:17665 (GA-9364)
scattering law for polyethylene, calculations using incoherent approximation, (T), 22:39541(R) (GA-8626)
scattering law for reactor-grade graphite and heavy water, (E/T), 21:5459(R) (GA-7287)
scattering law for reactor-grade graphite, (E/T), 21:38193
scattering law for solid orthohydrogen at low energies, (T), 25:31169 (JUL-724-FF)
scattering law for solids with layer and linear lattices, calculation by summing multiphonon processes, (T), 22:24797
scattering law for uranium carbide using non-central force model, inelastic, (T), 23:13185 (RPI-328-142, pp 123-31)
scattering law for uranium carbides, (E/T), 22:48425 (RPI-328-133, pp 56-9)
scattering law for uranium dioxide and zirconium hydride, (E), 21:38147 (AECL-2915)
scattering law for water at 0.05 eV, (E), 22:41926
scattering law for water at 16°C, (E/T), 22:37279 (IN-1141)
scattering law for water, calculations using exact formalism and short collision approximation, (T), 22:39541(R) (GA-8626)
scattering law for water, calculations using generalized frequency spectrum, (T), 23:28211(R) (GA-9036)
scattering law for water, comparison of exact and short collision calculations of, (T), 23:28211(R) (GA-9036)
scattering law for water, correction for multiple scattering, (E), 22:1583
scattering law for water, with multiple scattering corrections, 21:7650
scattering law for zirconium hydride at 296 to 1000°K, (T), 22:20409(R) (GA-8449)
scattering law for zirconium hydride, (T), 22:13908 (RPI-328-100, pp 120-39)
scattering law for, computer program for multiple scattering corrections using Monte Carlo method, (T), 22:22528 (RPI-328-112, pp 104-19)
scattering law model for, short time approximation for evaluating Egelstaff—Schofield, 22:22804(R) (BNWL-685)
scattering laws for beryllium oxide, water, and heavy water, (T), 21:7628(R) (GA-7283)
scattering laws for uranium carbide, uranium dioxide, and zirconium hydride, (T), 22:29864
scattering lengths for bismuth, bromine, carbon, and chlorine, coherent, (E), 22:37340(R) (EANDC(E)-89(U))
scattering measurements at sample temperatures of 800°C, vacuum furnace for, 23:46888
scattering measurements for, collimation corrections in small-angle, 24:49685 (RT/FIMA-(69)5)
scattering measurements in heavy and light water moderators, neutron spectral density determination from inelastic, 22:30378
scattering model for polyphenyls, (T), 22:32437
scattering near thermal region, resonance, (T), 21:9917
scattering of A > 40 nuclei at E < 50 MeV, optical model parameters for, 23:52168 (COO-1265-59)
scattering of long wavelength, by defects in solids, (T), 22:1291 (AERE-R-5479)
scattering of low-energy, single particle wave functions for elastic, 21:30103(R) (BNWL-400)
scattering of monoenergetic, system of integral equations for, 23:30918
scattering of monoenergetic, system of integral equations for, 23:30919
scattering of polarized, by ferromagnetic materials in high-intensity magnetic fields, (E/T), 22:9921 (JUL-Conf-1)
scattering of polarized, by magnetic compounds with noncollinear structure, (T), 21:25192
scattering of polarized, processing of data from, 23:49304
scattering of polarized, use in studies of magnetic form factors and magnetization densities of materials, 25:38586
scattering of pulsed, from hydrogeous compounds, 25:58384
scattering of S-wave, Legendre moments of cross section for elastic, (T), 24:33542
scattering of slow, by coherent parametrically excited spin waves, (E), 22:44258
scattering of slow, by imperfect ferromagnets with impurity, inelastic, (T), 23:7214
scattering of slow, by protons in hydrogen bonds, elastic and inelastic cross section calculations using double-potential-well model, 22:46280
scattering of slow, by surface spin waves in antiferromagnets, (T), 25:50014
scattering of slow, exchange corrections in partition function of Boltzmann distribution for, (T), 23:25767
scattering of slow, in ferromagnetic and antiferromagnetic crystals, (T), 22:26467
scattering of slow, symmetry laws of, 24:15770
scattering of slow, theory of elastic and inelastic, 23:19134
scattering of solar and atmospheric, on protons, (E/T), 21:24945
scattering of, bibliography on small-angle, 25:33457
scattering of, by cements and concretes, determination of water content by, 21:4459
scattering of, calibration of solenoid for elastic, 22:32961 (ANL-7310, pp 377-430)
scattering of, closure relations for eigenfunctions of one-speed transport equation for, (T), 21:33576
scattering of, collimation corrections in small-angle, (T), 25:28144 (RT/FIMA-69-5)
scattering of, computer program for generating constrained Legendre moments for angular distributions for, 23:10911 (KAPL-M-6923)
scattering of, continuous flow cryostat for measuring, 22:46055
scattering of, correction of time-of-flight data for multiple, (T), 21:46643(R) (ORNL-4134)
scattering of, corrections for multiple, (T), 22:9921 (JUL-Conf-1)
scattering of, crystal structure analysis using anomalous, (T), 23:46560
scattering of, design and fabrication of triple-axis spectrometer for studying inelastic, 22:28140
scattering of, design and performance of array of position-resolving boron trifluoride proportional detectors for experiments involving, 23:35460 (JUL-582-ZE)
scattering of, design of facility for studying inelastic, 22:24408 (IA-1128, pp 21-54)
scattering of, design of time-of-flight instrumentation for measurement of quasi-elastic, 23:41038 (EUR-4289, pp 111-17)
scattering of, diagram technique for theory of multiple, (T), 23:3898
scattering of, effects of spin-wave interactions on inelastic, (T), 23:1517 (RLO-1388-540)
scattering of, efficiency of NM-64 monitor for precision measurements of, 22:45295
scattering of, efficiency of semiconductor detectors for studying inelastic, 22:36090
scattering of, energy distribution for one-quantum coherent, (T), 22:5713
scattering of, exclusion principle and equivalent potentials for, 22:50268
scattering of, fluctuation-dissipation theory of, (T), 21:17268 (JAERI-1113, pp 128-30)
scattering of, influence of chemical binding on cross sections for coherent, (T), 21:29840
scattering of, Legendre expansion coefficients for angular distributions for elastic, (T), 22:22523 (NAA-SR-12533)
scattering of, O6R-D computer program for discrete angle, 24:52370 (ORNL-TM-3031)
scattering of, polarization measurements in elastic, 22:32959 (ANL-7310, pp 1-30)
scattering of, relationship between NMR and incoherent, 24:20002
scattering of, research progress on, 25:39521(R) (HMI-B-107)
scattering of, short-range-order parameters for statistical correlations in, 24:15430
scattering of, theory of velocity focusing instrument for small angle, 25:23918
scattering of, thermistor and thermocouple devices for controlling temperature of targets for, 22:2473
scattering of, use for analysis of carbon in iron ore sinter mix, 23:709
scattering of, use for measurement of the evapotranspiration of crops, 21:12757
scattering of, use to study "hot" phonons of coherent inelastic, 25:45593
scattering on crystals, observation of magnetic surface modes by inelastic, (T), 25:38576 (JINR-E2-5766)
scattering on defects in neutron-irradiated graphite, temperature effects on, (E), 21:33534
scattering on domain walls of ferromagnetic materials, elastic, (T), 21:42204
scattering on electrostatic ion oscillations in plasma, cross sections for, (T), 24:35438
scattering on fluids, collective effects and hydrodynamic approximation in, (T), 21:34057
scattering on graphite, determination of crystal ordering by inelastic, 25:2810
scattering on hydrogen in Vanadium and niobium, inelastic, 24:10620

scattering on iron, Fisher correlation function from critical, 22:22251
scattering on manganese impurities in iron, virtual magnon, 21:13638
scattering on polarized crystals, magnetic field effects on polarized, 21:5328
scattering on polycrystalline rubidium manganese fluoride, energy distribution of, (T), 21:7361
scattering on polymers, analysis of low-frequency motions from, (E/T), 22:24472
scattering on potassium manganese fluorides, critical magnetic, (T), 21:6974 (BNL-9615)
scattering on rare earths in paramagnetic phase, crystal field effects on inelastic, 22:41661
scattering on selenium and tellurium, spectra from inelastic, 21:15231
scattering on spherical-top molecules, rotational—vibrational, (T), 22:15346
scattering on targets, sample holder corrections for, 24:40520
scattering on terbium above Neel temperature, critical inelastic, 21:40077
scattering parameters for deuterium, relation to triton binding energy, (T), 23:13201
scattering radius and s-wave strength function for nuclei, calculations using optical model, 21:23546
scattering research, conference on instruments for inelastic, 25:15918 (STI/PUB-275)
scattering resonance effects on flux distributions, (T), 21:9906
scattering resonance integral for holmium-165, (T), 22:39627 (BNL-50082, pp 19-24)
scattering resonances in heavy elements, effects on fast spectra and Doppler coefficients, (T), 22:5715
scattering resonances in reactor materials, parameters and properties of interfering poles for, 23:15731 (ANS-RPD-1, Paper 4)
scattering resonances in reactor materials, s-matrix and statistical model calculations for, 23:15731 (ANS-RPD-1, Paper 4)
scattering spectra for, method for calculating, (T), 22:15936
scattering spectra of iron single crystals, 24:9686
scattering spectra of vanadium, 24:9688
scattering studies of atomic motions in liquids, review of theory of, 23:17059
scattering system for time-of-flight studies, design of, 22:32453
scattering trajectories for Monte Carlo calculations, method for selecting, (T), 23:1779
scattering transfer kernel for, discrete ordinates quadrature method representations of, 23:47306 (CNM-R-2(Vol.2), pp 1086-98)
scattering, asymptotic solution to Milne problem, 21:7572
scattering, computer program SURF for conical and plane surface, 22:17714 (GEMP-582)
scattering, one-speed transport-theory solution for complete back, 25:38856
scattering, relation of critical magnetic phonon scattering to, 21:29361
scattering, transport theory for, (T), 22:44288
scattering, use of traces of spin operator products in problems of magnetic inelastic, (T), 23:33124 (AERE-R-5958)
screen for, cadmium containing, 21:336(P)
self-shielding factors for fast reactors, heterogeneity effects on, (T), 24:22489
shielding against, by steel compartments in reactor radiation field, (E), 21:7308
shielding against, COHORT-II Monte Carlo general purpose code for, 23:39523 (CONF-690401-, pp 676-85)
shielding against, development of high-temperature materials for, 24:30033
shielding against, effectiveness of mineral-containing concretes for, 25:49595
shielding against, effects of boron and water on properties of concrete for, (E), 21:21044
shielding against, effects of spectrum in air on dose in underground concrete structure for, (T), 21:7307
shielding against, fabrication of coated dense plates for, 23:18265(P)
shielding against, in chemistry cells, 21:40936 (UCRL-70493)
shielding against, properties of rare earth carbonates for, 24:44765(P)
shielding against, RSC-2D code for, 24:15382
shielding against, use of rotatable slats of shielding materials for, 21:6126(P)
shielding against, using boron-impregnated ligneous materials, 21:39094(P)
shielding analysis for, basic concepts of, 24:35518 (DASA-1892-5)
shielding at NRL 60-MeV linear accelerator, calculations for determining, 21:17245
shielding by concrete, effect of bulk density on, 21:30598(T) (ORNL-tr-1614)
shielding by lithium hydride—heavy metal, (E), 21:7316
shielding by soils, effects of soil properties on, 21:2280 (HN-186)
shielding calculations for high temperature 1000 MW(e) gas-cooled reactor on-line "A" loading machine, 23:26052 (GA-8639)
shielding calculations for water-cooled quench tanks for Frascati linear accelerator, 21:13771(T) (SLAC-Trans-60)
shielding calculations for, instructions for computer programs for, 21:18790(T) (ORNL-tr-1515)
shielding calculations up to 400 MeV using discrete ordinates method, (T), 23:23228
shielding calculations using discrete ordinates method, computer programs for, 21:46643(R) (ORNL-4134)
shielding calculations using steady-state transport equation, computer program for, 23:20977
shielding calculations, SABINE computer program for, 22:26444
shielding design for californium-252, modular, 22:31886 (UCRL-18093)
shielding design for, computer program for, 22:3148 (EUR-3636)
shielding factor calculation for grains in coated-particle fuels, 25:53494
shielding flux calculations for sodium and stainless steel layers, 24:6589
shielding for AGR, design of, 21:46879
shielding for tandem Van de Graaff accelerators, efficiency of, 21:33834
shielding for water-cooled reactors, interfacial energy distribution measurements for, 21:33503(T) (AEC-tr-6719, pp 19-22)
shielding for, comparison of computer programs for calculation of, 23:49586(R) (EUR-4230)
shielding for, design of layered plate, 23:9688(P)
shielding for, development of gypsum board for, 23:41763(P)
shielding for, preparation of moldable materials for, 24:48914(P)
shielding from, view factor calculations for, 21:3907 (GAMD-6775)
shielding fundamentals and methods for, review of, 23:16851
shielding in fast reactors, effects of liquid sodium on, 22:18503
shielding in FFTF of, development program for, 24:26804 (BNWL-1333)
shielding in reactor ducts and slots, methods for calculation of, (E/T), 24:1982
shielding materials for, properties of, 22:7340
shielding materials testing by monodirectional beam hole measurements, 21:42737
shielding measurements in concrete, low- and high-energy, 21:3911(T) (ORNL-tr-1411)
shielding of reactor, use of lithium fluoride thermoluminescent dosimeters for evaluation of, 21:19979
shielding of, age equation for plane cosine source, 21:33504(T) (AEC-tr-6719, pp 23-8)
shielding of, computer program user guide for calculating, 23:3538(T) (ORNL-tr-1878)
shielding of, mean free path model for, 24:45309
shielding of, multigroup calculation methods for, 24:36077
shielding of, performance of Type 304 and Type 316 stainless steel, 24:26803 (BNWL-1328)
shielding of, properties of Chemtree products for, 25:54962 (CONF-710401-, pp 307-10)
shielding of, SUNCYL and SUNSPHER computer programs for multilayer, 23:26033 (UJV-2125-R)
shielding of, use of general-purpose computer programs for evaluating, 21:23235 (LA-3573)
shielding problems for gamma spectrometers for space use, 23:41046 (ORNL-TM-2675)
shielding requirements for gas cooled power reactor, 25:5888
shielding requirements for water cooled power reactors, 25:5977
shielding requirements for ZPPR, mockup of FTR, 25:6124
shields for protection against, design data for, 21:30232
shock waves in high-density stellar plasma of, (T), 22:2738
simulation of pulsed-sources of, by analog computers, 21:38678
slowdown in graphite at low temperatures, heating up and, (T), 25:38857
slowdown in graphite, water, heavy water, aluminum-water, iron-water, and zirconium-water systems, Monte Carlo calculations for, 24:38056 (AI-AEC-Memo-12915)
slowdown in heavy moderators, calculations for space- and time-dependent, 25:41194
slowdown in infinite homogeneous medium, improved Goertzel-Greuling approximation for, (T), 25:31179
slowdown in infinite multicomponent medium, method for treatment of, (T), 25:48005
slowdown in semi-infinite medium from point source, (T), 24:49235
slowdown in uniform media, computer programs for studying, 24:49862(R) (RPI-328-187)
slowdown of, computer programs for calculating spectra and cross sections for, (T), 25:25622
slowdown theory for fast reactor, derivation of elastic, (T), 25:44191 (ANL-7710, pp 365-463)
slowdown with inelastic scattering, 25:33367 (CONF-710107-, pp 83-95)
slowing down and thermalization in zirconium hydride, time dependence of, (T), 22:29879
slowing down buildup effects on reactor shield design calculations, 23:23885
slowing down by elastic scattering in infinite absorbing one-isotope medium, Placzek-type oscillations in, (T), 22:41935
slowing down by inelastic scattering, (T), 21:7667
slowing down calculations for, time moments in space-time, 22:6159
slowing down density in lead, effects of small absorbing samples on, (E/T), 22:29845
slowing down equation for, exact solution of, (T), 24:46117
slowing down equations for heterogeneous reactor systems, PEARLS code for solution of, 25:39332 (AAEC/E-213)
slowing down equations for, test of GGC-3 and GGC-4 computer codes for solution of, 23:44806 (WANL-TME-1933)
slowing down equations for, use of time moments in space-time, 23:37083
slowing down in absorbing medium, (T), 22:32467
slowing down in aluminum—water plate lattices, anisotropy of, (E), 22:32475
slowing down in aluminum—water slab systems, 21:35701(R) (BNL-50023)
slowing down in aluminum—water slab systems, Monte Carlo calculations of anisotropy of, (T), 22:32474
slowing down in beryllium and beryllium oxides from monoenergetic sources, age and fast effect for, (T), 21:27505 (UCRL-50229)
slowing down in fast and thermal reactors, calculational models for, (T), 25:18227 (EURFNR-864)
slowing down in finite moderating media, in pulse experiments, (T), 21:42548
slowing down in graphite, (E/T), 25:6160
slowing down in heavy elements, time moments of, (T), 22:48426 (RPI-328-133, pp 60-100)
slowing down in homogeneous isotropic medium with cylindrical surface, (T), 22:50517
slowing down in homogeneous media, analysis using Green's function method, (T), 25:5484
slowing down in homogeneous media, mathematical development of discrete stochastic model for calculations of, 23:33103
slowing down in homogeneous reactors, in narrow resonances, (T), 21:17282
slowing down in hydrocarbons, use in determining carbon—hydrogen ratios, 21:39136
slowing down in hydrogen, calculations of spatially dependent, 22:6160
slowing down in hydrogenous mixtures, effects of heavy nuclei on, (T), 21:33867
slowing down in hydrogenous rocks, differential equations for, 22:33563
slowing down in infinite media, transient solutions of equation for time-dependent, 24:11307
slowing down in lead, mean free path for, (E), 22:29851
slowing down in lead, research using pulsed-source technique, (E), 22:39539 (AEET/NP-16)
slowing down in nonhydrogenous infinite homogeneous media of, solution of differential equations for, (T), 22:25149
slowing down in nonmultiplying media, approximate theory for, 21:29847
slowing down in plane geometry exponential piles, multigroup transport equations for, (T), 25:54273
slowing down in rocks, (T), 21:25400(T) (UCRL-Trans-10087)
slowing down in scattering resonance mixtures of fast reactor flux spectra, (T), 24:7080
slowing down in thorium oxide (ThO_2)—water—heavy water lattices, (E/T), 24:33488 (WAPD-T-2346)
slowing down in thorium-water lattices, (E/T), 24:33538
slowing down in zirconium hydride, (T), 21:11951
slowing down in zirconium-water lattice assembly, measurements using accelerator sources, (E), 22:5710 (WAPD-T-2015)
slowing down interval curtailment in multigroup calculations, (T), 22:35699
slowing down kernel for, space—time dependent deviation using Fourier—Laplace transforms for, 22:1783
slowing down of pulsed, analysis of physical behavior for asymptotic, (T), 22:35710
slowing down of, normal mode expansion with a simple scattering kernel for, (T), 25:28152
slowing down of, quasi-diffusion method for, (T), 24:52360 (IAE-1875)
slowing down of, space-independent, (T), 21:31698
slowing down over energy range with many resonances in two-region lattice, computer program for calculating, 23:13180 (JAERI-1170)
slowing down parameters in homogeneous medium, calculations as Markov process, (T), 22:50520
slowing down problems for, numerical method for solution of, (T), 24:24492
slowing down process description for, (T), 22:27500
slowing down theory for fast reactor, formulation of separable kernel, (T), 24:50225
slowing down theory for, eigendistributions in, (T), 22:15928
slowing down theory, comparison of analytical and RBU Monte Carlo calculations, 21:9905 (BNWL-307)
slowing down time in graphite, (E), 23:37091
slowing down time in graphite, chemical binding effects on, (E), 21:27508
slowing down time measurements in graphite piles, use of resonance filter method for, 22:3908
slowing down times in moderators, effects neutron pulse shapes on, (T), 25:60232
slowing down with epithermal neutron scattering by bound protons, calculations using Monte Carlo method, 21:11933 (WAPD-TM-617)
slowing-down and heating-up relaxation time constants for graphite, (T), 22:44579
slowing-down distributions for, accuracy of methods for calculating space-dependent, (T), 23:3925
slowing-down equation for weakly absorbing mixtures, analytic solution for, (T), 23:21228
slowing-down equation for, angular density and area formulation of, (T), 22:50513
slowing-down equation for, exact solution using synthetic kernels, (T), 21:9903 (AAEC/E-155)
slowing-down equation for, solution of, (T), 21:11929 (NP-16445)
slowing-down equation with anisotropic scattering, solution using multiple collision method, 21:25408
slowing-down equations for homogeneous media, solution of, (T), 21:2582 (IN-1021)
slowing-down equations for homogeneous medium, formulation and solutions of, (T), 22:50514
slowing-down equations for, iterative solution of, (T), 21:13795
slowing-down equations for, non-multigroup adjoint Monte Carlo technique for, (T), 23:39903 (CONF-690401-, pp 633-49)
slowing-down equations for, solution using Laguerre polynomials and associated functions, 22:20419(T) (JPRS-43682, pp 137-49)
slowing-down equations for, transient solutions of, (T), 23:37080

slowing-down in metal-water systems, Monte Carlo anisotropy calculations for, 21:38549
slowing-down of, positive difference schemes in spectral codes based on Greuling—Goertzel approximation for, (T), 25:48000 (INR-P-1278)
slowing-down parameters for, measurement using pulsed source techniques, 21:25418
slowing-down parameters for, pulsed source method for determination of, (E/T), 23:49671
slowing-down relaxation times in beryllium oxide assemblies, (T), 23:1764
slowing-down sources for, computer programs for calculating, (T), 22:32426 (GA-8556)
slowing-down spectra for, HRG 3 computer program for P_1 or B_1 approximation of, 24:52353 (BNWL-1432)
slowing-down spectra in lithium hydrides, (E/T), 21: 11952
slowing-down theory using discrete ordinates representations for scattering transfer kernels, (T), 22: 9762 (NAA-SR-12493)
slowing-down time in graphite, measurements using capture γ-ray detection, (E), 23:21235
slowing-down time to plutonium-239 resonance in beryllium oxide, (E), 22:29878
slowing-down times in water and zirconium hydride at room temperature, measurement using pulsed source technique, (E), 22:48412(T) (AERE-Trans-1088)
slowing-down times of, energy correlation method for measurement of, (T), 21:7671
sources for, description of, 22:3913
spallation cross sections for nuclei with 9 less than or equal to A less than or equal to 32, (E/T), 21:25443
spectra above shielding of accelerators, dose conversion from, (T), 22:31905
spectra across Triga fuel element in cadmium-bearing heavy water, (E), 22:39541(R) (GA-8626)
spectra analyses using fast Fourier algorithms, description of technique for, 22:33166
spectra analysis for, mean emission time correction for time-of-flight, (T), 22:20934(R) (GA-8462)
spectra analysis in enriched plutonium—water lattices, resonance absorption measurements for, (E/T), 22: 30329
spectra analysis in fast reactors by scattering process technique, 23:4404 (KURRI-TR-35)
spectra and density distribution in homogeneous accelerated medium, calculations for, (T), 24:10896
spectra and thick-target yields from 7.5-MeV deuteron, 14.5-MeV proton, and 20-MeV helium-3 reactions with beryllium, 23:25748
spectra around beam stop irradiated with protons at 19.2 GeV/c, 24:35728 (CERN-70-16)
spectra at sea level of 0.4- to 1.2-GeV cosmic, (E), 25: 38181
spectra calculation by heavy water and water moderator spectral effects, 21:44829 (EUR-3610.f)
spectra calculation of fast reactor, GAF, GAND, and GAR computer programs for, 22:10077 (GA-7920)
spectra calculation of, by moderator temperature gradient, (T), 21:21742
spectra calculations for helical duct in water slab, 23: 48955 (N-69-31986)
spectra calculations for water-moderated thermal reactor, use of computer codes for, 22:46904(T) (N-68-24779)
spectra calculations for, space, time, and energy dependence of, 24:49862(R) (RPI-328-187)
spectra density measurement in ISPRA-1 (CP-S type), noise power, 21:42820
spectra density measurements in reactors, auto and cross, 21:40685
spectra density rms amplitude in ISPRA-1 (CP-S type), measurement of noise power, 21:42820
spectra determination using plutonium recycle fuel elements, 22:25008
spectra determinations for STSF-1, 22:30302(R) (GA-8377)
spectra distribution in fast reactors, analysis of energy and spatial, (T), 22:30155(R) (NAA-SR-12296)
spectra distribution in heterogeneous reactors, determination of resonance, 22:44894 (IFA-FR-69)
spectra distribution in large graphite-moderated reactors, simple-point kinetics analysis of, (E/T), 23:2013
spectra effects in natural uranium and graphite lattices, zero reactivity method for calculating, (E/T), 22: 10074 (EUR-3637)
spectra emerging from cooled light water and heavy-light water mixtures in cylindrical geometries, energy distribution measurements of, 21:23738
spectra emerging from fast pulsed moderators, time-focused crystal spectrometer technique for measurement of, 25:6186
spectra evaluation using activation measurements of spectral indices, methods for, 23:25761 (RT/FI-(68) 49)
spectra for fast critical assemblies, comparison of DS-8 and JEN calculations of, 23:21530
spectra for fast reactor, modal method for calculation of, (T), 24:33486(R) (RLO-2058-1)
spectra for fast reactor, modal method for calculation of, (T), 24:33487 (RLO-2058-2)
spectra for fast reactors, analytical representation of, (T), 24:33246
spectra for fast reactors, one group cross section set for calculation of, (T), 25:41406
spectra for large distance from source, biasing and weighting of Monte Carlo Method for calculation of, (T), 23:49657(T) (ORNL-tr-2213)
spectra for power reactors, review of calculational methods for determining, 22:14175
spectra for pulsed polarized, design and performance of correlation-type time-of-flight spectrometer for measuring, 22:12602
spectra for reactors, XSDRN discrete ordinates code for computation of, 23:40444 (ORNL-TM-2500)
spectra for soft-spectrum fast core assemblies, analysis of, 23:4335
spectra for zoned fast core for ZPR-9 Assembly 18, calculated direct and adjoint, 23:49581 (ANL-7410, pp 73-227)
spectra formulation for fast reactors, derivation of approximate form for, 22:42285
spectra from americium—beryllium, plutonium—beryllium, and polonium—beryllium sources, measurement using NE-213 scintillator, (E), 21: 46643(R) (ORNL-4134)
spectra from americium—beryllium, polonium—beryllium, and plutonium—beryllium sources behind hydrogen-bearing shielding, (E), 22:39563
spectra from fast burst reactors, measurement of time-dependent, 24:11252 (CONF-690102-, pp 469-77)
spectra from fission source in graphite, (E), 23:8918
spectra from moderated and unmoderated proton synchrocyclotron targets, (E), 22:35285(R) (AERE-PR/NP-13)
spectra from outputs of detectors with energy-dependent response, computer program for unfolding, 22:48421 (RHEL/M-135)
spectra from plutonium dioxide isotopic heat sources, 22:8304
spectra from plutonium—beryllium and polonium—beryllium sources, measurement from nuclear emulsions, 22:22553
spectra from plutonium-238 in metal and oxide, 22: 25440(R) (MLM-1443)
spectra from reactor beam tube hot source moderator blocks, (E/T), 25:34405
spectra from reflection between parallel concrete slabs, (T), 21:46643(R) (ORNL-4134)
spectra from sources, iterative technique for unfolding, 23:3922
spectra from stilbene scintillation detector, computer program for unfolding, 21:41198 (AD-645283)
spectra in AFPR and ZPR-III reactors, use of lithium-6 sandwiched semiconductor detectors, 21:32365 (ANS-SD-2, Paper 3)
spectra in air from uranium-235—copper critical assemblies, (E), 23:5798
spectra in air, (T), 23:30603 (ORNL-RSIC-25)
spectra in an infinite homogeneous absorber, solution of time- and energy-dependent, by singular eigenfunctions method, (T), 22:11889
spectra in aqueous erbium nitrate solutions, (E), 21: 29828(R) (GA-7683)
spectra in aqueous erbium nitrate, (E/T), 24:52376
spectra in ASTRA, use of combination of GAM, TEMPEST-II, and TWENTY GRAND for calculating, 23:37617 (SGAE-R-3/1968)
spectra in beryllium at 77.4°K, (E), 21:38197
spectra in beryllium oxide (BeO) moderated system, time-of-flight method for measurement of, (E/T), 25: 28769
spectra in beryllium oxide assemblies, calculations of time-dependent, (T), 23:1764
spectra in beryllium oxide, time and space dependent calculations for, (T), 25:20239
spectra in beryllium oxide, time-dependent, (E), 24: 20302
spectra in beryllium, time-dependent, (T), 21:35400
spectra in center lattice cells of fast critical assemblies, heterogeneity effects on, (E/T), 25:18190
spectra in concrete, measurement by foil activation, 21: 21366 (AD-646630)
spectra in coolant and structural material of sodium-cooled reactors, (E), 22:30155(R) (NAA-SR-12296)
spectra in critical assemblies, effects of fuel-moderator ratios on, 22:7897 (LA-DC-9110)
spectra in depleted slabs of uranium, spatially dependent resonance, (E/T), 22:5739
spectra in depleted uranium, 21:30091(R) (ANL-7210)
spectra in EBR-2, comparison of Monte Carlo and discrete ordinate methods for calculation of, 24:29050 (GEMP-742)
spectra in EBR-2, description of computer corrected foil data analysis of, 22:32741 (BNWL-532, pp 3.1-17)
spectra in EBR-II, calculation of, 24:34839(R) (BNWL-1091)
spectra in EBR-II, transport calculations for, 24: 14808(R) (BNWL-1020)
spectra in erbium nitrate, 21:30138(R) (GA-7934)
spectra in fast reactor core mockups, time-of-flight measurements of, (E/T), 24:33409 (GA-9946)
spectra in fast reactors, approximate formula for homogeneous mixture of fast elements for describing, 24:7300
spectra in fast reactors, comparison of multigroup and analytic methods for calculating, 24:7301
spectra in fast reactors, comparison of theoretical and experimental, 21:35687 (ANL-7320, pp 481-5)
spectra in fast reactors, effects of anisotropic elastic scattering on, (T), 25:39340
spectra in fast reactors, effects of iterating on elastic removal cross sections on calculated, 22:6013
spectra in fast reactors, evaluation of feasibility of two-dimensional analysis of time-of-flight, 23:37462(R) (GA-9386)
spectra in fast reactors, lead slowing-down-time spectrometer for production of standard, 25:15921
spectra in fast reactors, model for analytic representation of flux and importance, 25:60211 (RPI-328-189)
spectra in fast reactors, multigroup and analytical calculation of, 23:31224 (RPI-328-148, pp 27-38)
spectra in fast reactors, multigroup synthesis methods for, (T), 25:5961
spectra in fast reactors, resonance absorbers for measurement of 0.001 to 10 keV, (E/T), 25:28656(T) (EURFNR-842)
spectra in fast reactors, synthesis of 50 energy-group, 25:60215
spectra in fast reactors, threshold detector method for reconstruction of, (T), 25:23403
spectra in fast STSF assembly, analysis of, 24:7224
spectra in fast subcritical assemblies, time-of-flight measurements of, 25:15388(R) (GULF-RT-10421)
spectra in fast zero-power reactors, use of time-of-flight and proton-recoil methods for measurement of, 22: 6101
spectra in Fermi Fast Breeder Reactor, accuracy of threshold-type reaction rate measurements of, (E/T), 24:8965 (APDA-NTS-19)
spectra in flux distributions in complicated reactor cells, integral transport theory method for, 24:50218 (RISO-M-1289)
spectra in graphite, measurement by time-of-flight method, 21:41690
spectra in graphite, time-of-flight measurement of angular-flux, 21:7315
spectra in graphite- and beryllium oxide-moderated assemblies fueled with plutonium and enriched uranium, (E/T), 22:30326
spectra in heavy water, time-dependent, (E/T), 21:9910
spectra in heavy water, time-dependent, (T), 21:25406
spectra in heterogeneous reactor cells with different moderators, analytical method using generalized heavy gas model for calculation of space and energy dependent, 23:9225 (BMwF-FBK-68-32)
spectra in high temperature gas cooled reactors, effects of fuel burnup on, (T), 24:41060 (DP-Report-155)
spectra in hollow aluminum clad aluminum—uranium alloy fuel elements, GYMEA and WDSN computer programs for, 24:24874 (AAEC/TM-509)
spectra in hydrogenous media, deviation from 1/E, 22: 24821
spectra in infinite homogeneous moderators with E-0.5 absorption, method for calculating, (T), 21:11918 (BMwF-FBK-66-21)
spectra in iron and iron/paraffin shield assemblies, 23: 48956 (N-69-32341)
spectra in iron filters, 23:49314
spectra in iron spherical assembly, 23:42376 (CONF-690609-7)
spectra in iron, (E), 24:40607 (IN-1317, pp 1-63)
spectra in iron, (E), 25:48069 (BNL-50276)
spectra in iron, for assessment of data files, (E), 25:5495
spectra in iron-water shielding, from monoenergetic sources, (T), 21:11685
spectra in KUR irradiation facilities, (E), 24:26808 (KURRI-TR-60)
spectra in lead—bismuth cooled CANDU-type fuel element bundles, (E), 24:13540 (AECL-3192)
spectra in liquid hydrogen, (E/T), 21:15466 (GA-7309)
spectra in liquid hydrogen, reevaluation of data on, 24: 20299 (N-70-12216)
spectra in liquid sodium, measurement of, 24:24784(R) (NAA-SR-12570)
spectra in lithium hydride and lithium hydride/tungsten shields at 6 eV to 12 MeV, (E/T), 23:36779
spectra in MOATA reactor over thermal to 500 eV energy range, (E/T), 24:9139 (AAEC/TM-501)
spectra in moderating materials, time-dependent, 21: 19152(R) (TID-23685)
spectra in moderator and poison media, data tabulation, 21:2581 (GA-5319)
spectra in MSRE core, calculation using GAM-II and Thermos codes, 21:35583(R) (ORNL-4119)
spectra in multiplying media, position-dependent, (T), 22:11891
spectra in natural granites, calculation of, 25:4374
spectra in nonmultiplying materials, measurement of, 25: 9956
spectra in Northrop Reactor exposure facility, 21:14084 (NSL-64-187-1964)
spectra in one-dimensional polyethylene and graphite spheres, discrete ordinates calculations of angle-dependent, (T), 23:7281(R) (ORNL-4280)
spectra in ORGEL-type fuel clusters, 21:30268
spectra in PBF, effects of titanium hydride on energy, 21:19464(R) (IDO-17207)
spectra in pebble bed reactors, effects of fuel distribution in fuel elements on, 25:46264 (EUR-4339)
spectra in plane water—iron—water shields, position-dependent, (T), 22:20424(T) (ORNL-tr-1849)
spectra in plutonium—water lattices, comparison of measured and calculated values for, 23:37751
spectra in plutonium-water lattices, study of spatially dependent, 21:23599(R) (GA-7562)
spectra in poison-bearing hydrogenous solutions, (E/T), 21:31695
spectra in poison-bearing water at 30 to 320°C, (E/T), 21:25409
spectra in polyethylene, solid anhydrous ammonia, and solid methane following fast pulses, time-dependent, 25:56629
spectra in polyethylene, time-dependent, (E), 21:7670
spectra in polystyrene sulfonic acid, time-of-flight, (E), 22:11874(R) (JUL-463-NP)
spectra in proton accelerator shielding, calculation of distribution of, 23:23579 (JINR-P16-4304)
spectra in pulsed homogeneous exponential piles, time dependent, (T), 24:29083
spectra in pulsed reactors, half-width calculation approximation for, 21:30195
spectra in pulsed subcritical reactors, TEDDI-T code for time- and space-dependent, 25:1936 (RCN-122, pp 147-56)
spectra in pulsed systems, space, time, and energy separability in, (T), 22:11879
spectra in pure and boron, cadmium, and gadolinium poisoned water, (E), 24:52380
spectra in pure and poisoned water, time-of-flight measurements of pulsed, 24:15766
spectra in reactor beams, use of 1/v attenuation curves for energy, 24:33429
spectra in reactors with respect to detector activity, minimax formalism of risk function for determination of, 24:36088
spectra in reactors, activation data unfolding by RF01 and RF07 codes for determination of, (T), 25:31648 (KFKI-70-30-RPT)
spectra in reactors, activation methods for determining, 25:23799

spectra in reactors, data tabulations on isotopes for multifoil activation measurements of, 22:47318 (EURFNR-527)
spectra in reactors, effects and measurement of, 21: 23659
spectra in reactors, measurement using neutron resonance detectors, 21:2687
spectra in reactors, measurement using scintillation counters, (E), 22:7619
spectra in reactors, measurement using transmission method, (E/T), 21:15462 (CONF-660221-, pp 268-72)
spectra in reactors, measurements in the keV range using resonance foils, (E/T), 22:5737
spectra in reactors, performance of Au—Co—La—Mn sandwiched activation detectors for measuring, 21: 30689 (CEA-R-3200)
spectra in reactors, resolution analysis of time-of-flight measurements of, 23:37733
spectra in reactors, temperature effects on, (T), 25: 28814
spectra in reactors, transmission method for measuring, 22:23288
spectra in reactors, two-dimensional few-group transport theory calculations of, 24:7272
spectra in resonance poison-bearing moderators, calculations and time-of-flight measurements of, (E/T), 23:10917
spectra in shielding materials, use of time-of-flight method for measuring, 21:32364 (ANS-SD-2, Paper 2)
spectra in shielding, (T), 22:50213(R) (EUR-3913)
spectra in slabs of water, time-dependent, (E), 22: 22525(R) (RPI-328-112)
spectra in SLEEP Reactor moderator assemblies, measurement by time-of-flight method, 21:42821
spectra in soft spectrum fast reactors, measurement of, 24:47818 (ANL-7610, pp 61-258)
spectra in solids, temperature transformations for calculating, 21:42543
spectra in spacecraft radioisotope heat source, Monte Carlo calculation of, 25:4242
spectra in sphere shaped water moderated assemblies, (T) , 24:33502
spectra in spheres of uranium-235 and uranium-238, (E), 22:20409(R) (GA-8449)
spectra in spherical iron assemblies at 0.5 to 15 MeV, (E/T), 23:36780
spectra in standard shield geometrics, comparison of discrete ordinates calculations with, 22:53063 (AD-672225)
spectra in STARK and SUR reactors, parameter determinations from, 21:23630
spectra in Stark reactor core, evaluation of, 21:17520 (KFK-482)
spectra in steel pressure vessels, (E/T), 25:6213
spectra in STSF-3, comparisons of measured and calculated, 23:37462(R) (GA-9386)
spectra in SUAK subcritical assemblies, effects of core composition and configuration on, 24:22457
spectra in the presence of plutonium, estimation of, 21: 21371 (RT/FI-(66)28)
spectra in thermal reactors, hardening for fast fuel irradiation, 21:27674 (GEAP-5035)
spectra in thin polyethylene slabs, (E/T), 22:15932
spectra in tightly packed lattices, experimental facility for measurement of, 21:29828(R) (GA-7683)
spectra in undermoderated beryllium and graphite exponential piles, time-of-flight method for measuring, 21:19960
spectra in uranium fueled multiplying lattices, correlation method for analysis of, (E/T), 24:41067 (RT/FI-(69) 54)
spectra in uranium oxide (UO_2)—water lattices, use of gold—manganese—nickel alloy foils in measurements of, 22:1868
spectra in uranium—deuterium oxide lattices, fine-structure, 23:4454
spectra in uranium—water lattices, activation measurement of position dependent, 23:37753
spectra in uranium-238 slabs surrounded by borated polyethylene, (E/T), 22:11873(R) (GA-8085)
spectra in VERA critical assembly, methods for measuring, 21:19964
spectra in water cooled graphite moderated exponential piles, effects of temperature on, (E/T), 23:43164
spectra in water moderated plutonium recycle fuel lattices, (E/T), 24:43856
spectra in water moderated slightly enriched uranium rod type and natural uranium slab type lattices, Monte Carlo program calculations for, (E/T), 24:38607 (WAPD-TM-931)
spectra in water moderated uranium fueled lattices, (E/T), 24:22501
spectra in water near absorbing plane cadmium surface, anisotropy of, (E), 22:44573(T) (ANL-Trans-648)
spectra in water near plane cadmium surface, anisotropy of, (E), 22:20411 (IAE-1216)
spectra in water near plane cadmium surface, anisotropy of, (E), 22:20415(T) (JPRS-43682, pp 63-80)
spectra in water near plane cadmium surface, anisotropy of, (E/T), 22:29876
spectra in water, chopper for measuring time-dependent, 22:13907 (RPI-328-100, pp 113-19)
spectra in water, time-dependent, (E), 21:19152(R) (TID-23685)
spectra in water, time-dependent, (E), 21:17270(R) (RPI-328-71)
spectra in water, time-dependent, (E/T), 24:10898
spectra in water, time-dependent, (E/T), 25:5489
spectra in water, time-dependent, (E/T), 24:22059 (RPI-328-174)
spectra in water/iron/water shielding, (T), 21:40053
spectra in water-moderated reactors, development of METHUSELAH II code for, 21:30087 (AEEW-R-397)
spectra in water-moderated urania cores, methods of measuring, 21:25712(R) (BAW-3647-3)
spectra in weakly multiplying media, relaxation length of asymptotic, (T), 21:21780
spectra in Zebra, WINTOF code for calculation of, 23: 52398 (AEEW-M-897)
spectra in zirconium hydride, time-dependent, (T), 22: 29879
spectra in zirconium hydride-moderated reactors, calculation of, 21:40700
spectra in ZPR-3 Assembly 48 and ZPR-6 Assembly 42, analysis of, (E/T), 23:15673(R) (BNWL-541)
spectra in ZPR-6 Assembly 6, use of proton-recoil proportional counter for in-core measurement of, 23: 49581 (ANL-7410, pp 73-227)
spectra measurement from 50 to 500 keV in VERA for uranium-235—graphite lattices, 21:40671(R) (AWRE-R-4/63)
spectra measurement from pulsed sources, 21:23711(R) (BNWL-340)
spectra measurement in uranium-238 slabs, comparison of S_4 transport theory with spatially dependent, 22: 22871
spectra measurements around accelerators, Bonner spectrometer for, 24:50567
spectra measurements at 1 eV to 10 keV, performance of multifoil activation detectors for, 25:8481 (KFK-1233)
spectra measurements at HENRE accelerator, foil activation method for, 24:44292 (CONF-691101-, pp 566-85)
spectra measurements for pulsed reactors, use of time-focused crystal spectrometer for, 23:37637
spectra measurements for variable multi-rod core of Modified Critical Facility, analysis of, (E/T), 22:32969 (GA-8468)
spectra measurements for, effects of cross section errors on, 21:13947(R) (ANL-7286)
spectra measurements in Army Materials Research Reactor, 21:30248 (AMRA-TR-67-05)
spectra measurements in dilute plutonium fueled ZPR-3 Assembly 48, 21:35675 (ANL-7320, pp 205-14)
spectra measurements in EBR-2, Monte Carlo calculations of threshold detector data from, 23:37639
spectra measurements in fast part of coupled fast-thermal MSCA core, 21:35712 (GEAP-4680)
spectra measurements in fast subcritical facility SUAK, 21:35690 (ANL-7320, pp 506-22)
spectra measurements in heavy water lattices, 21:38655 (AECL-2707)
spectra measurements in IBR, use of time-of-flight method for, 21:34165
spectra measurements in natural uranium oxide (UO_2)—water lattices, 22:14268
spectra measurements in reactors, 21:46957
spectra measurements in reactors, efficiency of semiconductor detectors for measuring, 22:36090
spectra measurements in reactors, use of lithium-6(n,α)t reaction for in-core, (E), 25:28753 (BLG-450)
spectra measurements in reflectors of Melusine and Triton, 21:38443 (CEA-R-3180)
spectra measurements in sodium and stainless steel, 23: 4448
spectra measurements in sodium coolant for FFTF program, use of proton-recoil technique for, 23: 37461(R) (AI-AEC-12815)
spectra measurements in sodium, calibration of proton-recoil detector for, 21:40564(R) (NAA-SR-12395)
spectra measurements in sodium, development of proton-recoil spectrometer for, 23:13440 (AI-AEC-12721, pp 47-59)
spectra measurements in standard neutron irradiation facility, use of fission track recorders for, 24:41689
spectra measurements in STSF, use of time-of-flight techniques for, 23:37635
spectra measurements in water moderated plutonium lattices, use of time-of-flight technique for position dependent, 23:37636
spectra measurements in water-moderated lattices, (E/T), 21:19355(R) (GA-7378)
spectra measurements in ZPR-III assemblies 47 and 48, analysis of, 22:30303 (GEAP-5271)
spectra measurements of, calibration of boron-covered polyethylene-moderated multisphere indium activation detectors for, 25:32260
spectra measurements of, characteristics of threshold activation and fission foil detectors for, 25:13210 (JINR-P3-5421)
spectra measurements of, computer method for data analysis of threshold detectors for, 25:2439
spectra measurements of, computer program for unfolding data from activation detectors for, 25:57725 (KFKI-71-22)
spectra measurements of, effects of amplifier overloading on spectrum distortion in proton-recoil proportional detectors used for, 23:29217
spectra measurements of, fission foil—dielectric track detector for in-core, 25:10836
spectra measurements of, semi-automatic system for analyzing nuclear emulsion particle tracks for, 25:2433 (CEA-R-4063)
spectra measurements using proton-recoil spectrometers, wall-effect corrections for, 21:34464 (ANL-7320, pp 490-500)
spectra measurements with proton-recoil detectors, Monte Carlo program for analysis of, 23:26512 (KFK-860)
spectra near large pulsed accelerators, 21:31648 (ANS-SD-3, Session 2, Paper 4)
spectra near synchrocyclotron, use of nuclear emulsions for measuring scattered, 22:33653
spectra of 0.05- to 2.0-MeV cosmic, at sea level, (E), 23:46308
spectra of 1-eV to 1-MeV, from spheres pulsed with 14-MeV source, time-of-flight, 25:40752
spectra of air-scattered, from iron-shielded source, (E), 21:21047
spectra of deep penetration, weighting and bias in Monte Carlo calculation of, (T), 24:52356 (CEA-CONF-1567)
spectra of EBR-II core, 24:12435 (BNWL-1223, pp 5.1-40)
spectra of fast cosmic ray, measurement of energy, 22: 33087 (ANL-7310, pp 513-22)
spectra of fast pulsed assemblies, Monte Carlo method analysis of multiple, (E/T), 23:13572 (EUR-4087)
spectra of fast reactors, (T), 25:6178
spectra of high-energy, use of nuclear emulsions for determining, 21:28213 (UCRL-17063)
spectra of leakage, from accelerator shielding, (E), 21: 7325
spectra of solar, energy, (T), 21:3573
spectra of space-dependent fluxes of, in reactor noise calculations, 21:15705
spectra of, calculation from activation measurements, 21:29856
spectra of, corrections for mean emission time to time-of-flight measurements of, (T), 22:32458
spectra of, correlation method for time-of-flight measurement of, (T), 21:283
spectra of, data analysis for foil activation measurements, 21:19958
spectra of, data unfolding method for multiple foil activation detector for determining, 24:31718
spectra of, detectors and ICRU recommendations for measurements of, 24:36553 (ICRU-13)
spectra of, determination from reaction rate measurements, (T), 23:10926
spectra of, development of multi-element activation detector for measuring resonance, 22:16901
spectra of, effects of ionization chamber parameters on statistical fluctuations in, 21:12673
spectra of, energy resolution in time-of-flight measurements, (T), 21:25414
spectra of, least-squares method for unfolding proton-recoil, 22:33662
spectra of, measurement using foil activation, 21:36346 (SC-DC-67-1572)
spectra of, measurement using lithium-6 (n,t) reaction with semiconductor detection of tritons, (E), 22:35243
spectra of, measurement using time-of-flight methods, 21:31710 (RHEL/R-136, pp 52-88)
spectra of, measurement using time-of-flight method with pulsed source, 22:35207
spectra of, method for analysis of, 25:56620 (RT/FI-(70) 53)
spectra of, methods development for measuring, 21: 40363
spectra of, outside shields of synchrotrons, 21:21012
spectra of, resolution function in pulsed-source time-of-flight measurements, (T), 21:21397
spectra of, semiconductor detectors with converter foils for measuring, 22:51231
spectra of, use of fission chamber for measuring, 21: 30700 (UCID-15055)
spectra perturbation in fuel lattices, measurement of effects of beam extraction hole on, 23:4450
spectra perturbations by radial reentrant hole in cylindrical fuel rod cells, (E), 22:44920(R) (GA-8622)
spectra shift in heavy water-moderated reactors, method for, 22:7906(P)
spectra unfolding for, theory and application of generalized computer program for, 24:39319 (SC-RR-70-251)
spectra variations in large reactors, spatial effects on, (T), 22:50879
spectra with upscattering in reactor fuel elements, comparison of calculation and measurement, 22:30320
spectral calculation of asymptotic and transient, in incoherent solid moderators, 21:13791
spectral calculations for, use of multienergy first-collision probability method for simplified, 23:34939
spectral density in NORA, measurement of, 21:8042(R) (IAEA-3498-12)
spectral density in reactors, relations with reactor power, 21:34079 (BNWL-SA-1111)
spectral description of intermediate energy, indices for, (T), 21:9919
spectral determination of, using stacked foil activation technique, 24:33104
spectral determinations in pulsed reactors, simplified mathematical model for, 22:14309
spectral distribution behind a curved totally reflecting collimator slit, (T), 21:46649
spectral estimation for, performance statistics for, (T), 21:7646
spectral indices in uranium—deuterium oxide lattices, measurement of, 23:4454
spectral indices of RITMO core, 23:26096
spectral measurements and calculations for pulsed, re-entrant hole effects in, 24:10900
spectral measurements at Halden, 21:31943(R) (NP-16803)
spectral measurements in RITMO and RANA reactors, calculation of, 21:42818 (RT/FI-(67)15)
spectral measurements in RRR, use of activation foils for integral, 22:18564
spectral measurements in zoned- and homogeneous-cores in fast critical assemblies, 21:38687
spectral measurements in ZPR-3, comparison of proton-recoil proportional counter and time-of-flight, 24:7230
spectral measurements of, by lithium-6 (n,t) reactions using nuclear emulsions and surface-barrier detectors, 22:40363
spectral measurements of, standards for biological and physical applications, (E), 25:34879
spectral measurements using resonance absorbers, (E/T), 22:9768
spectral perturbation from reentrant holes, (E), 22: 20934(R) (GA-8462)
spectral-index measurements using activation methods, review of, 22:29873
spectrum for reactors, CAESAR, AILMOE, and GRISM computer program linking for single-run calculation of region-dependent, 23:13403 (AI-AEC-12721, pp 43-5)
spectrum in dilute uranium-carbide fast reactor, energy, 21:30091(R) (ANL-7210)

spectrum in HIFAR fuel element cells, (E/T), 22:14242 (AAEC/TM-408)
spectrum in one-dimensional reactor, successive approximation method for calculation of eigenvalue and eigenfunction, 23:19550 (FEI-118)
spectrum in upper atmosphere during solar eclipse of Nov. 12, 1966, (E), 22:24067(T) (SC-T-68-1514)
spectrum in water moderated natural uranium exponential piles, foil activation analysis method for, (E/T), 24:11278
spectrum index measurements in NORA, 22:16283(R) (IAEA-3498-21)
spectrum measurements by multiple-foil activation method, comparison with reactor physics calculations and time-of-flight measurements, 22:4434
spectrum measurements in fast plutonium assembly in ZPR-III, 21:27798 (GEAP-5340)
spectrum measurements in ZPR, use of proton-recoil proportional detectors for, 22:4433
spectrum measurements in ZPR-3 using proton recoil spectrometer, 21:35688 (ANL-7320, pp 486-9)
spectrum measurements in ZPR-3, plutonium-fueled fast reactor, 21:35686 (ANL-7320, pp 477-80)
spectrum measurements of, effect of scattered neutrons from photomultipliers on efficiency of lithium-6 glass scintillation detectors for, 23:642
spectrum of cosmic, at sea level of 20 to 4000 GeV, (E/T), 22:24084
spectrum of fast reactor, space-energy synthesis method for calculation of, (T), 24:11290
spectrum of UA-RR-1 reflector, modified Perkins' method for calculation of, 23:31226
spectrum of, graphical method for analysis of recoil-proton proportional counter data for determination of, 23:43531
spectrum-dependent quantities of, effects of GODIVA I inelastic scattering models on, (E/T), 21:8071
spin of, anti τ momentum correlation in n → p + e + anti τ decay for, (E), 25:7543
spin precession during interferometry of unpolarized, phase factor associated with rotations through 2π radians, 21:29849
spin precession of, design and performance of magnets for, 23:49233 (KFK-891)
stopping power, semiclassical estimation of, 25:38530
streaming effects in cylinders and flat guides of, one-group diffusion approximation for analysis of, (T), 22:27503
streaming effects on coolant-void reactivities in fast reactors, 21:34135
streaming from void tubes in uranyl fluoride solution reactors, multigroup method analysis of, (E/T), 22:16288 (NASA-TN-D-4270)
streaming in cylindrical channels, Wiener—Hopf solution for integral equation describing, (T), 22:27495
streaming in hemispherical ducts, Monte Carlo calculations of, 24:28396 (N-70-20619)
streaming in liquid sodium cooled fast reactors, design requirements for, 25:5976
streaming in moderators, effects of anisotropic hole systems on, (T), 23:24002
streaming in reactor channels, (T), 21:25724
streaming in reactor core voids, effects on criticality of, (T), 24:46113
streaming in reactor cores, methods for measuring effects of voids on diffusion coefficient, migration area, and reactivity, (E), 25:46331
streaming in shielding ducts, iterative transport method for, 25:40741
streaming in shielding ducts, transmission probability for, (E/T), 24:24105
streaming through coolant ducts in space nuclear shields, (E/T), 25:46308 (GULF-RT-10577)
streaming through cylindrical ducts in shielding, ray analysis method for, 21:16960
streaming through ducts, analytical solution, 24:3442
streaming through two-legged concrete ducts with baffles, (E), 25:14391 (AD-710963)
streaming through two-legged, thick-wall steel duct, (E/T), 22:34730 (AD-663563)
strength functions in nuclei statistical analysis of spin dependence of, (T), 24:28825(T) (KFK-tr-308)
structure determination from e + n interactions at very high energies, internal, (E/T), 25:36445
structure functions for, quark—parton-model inequalities for inelastic, 25:38705
structure functions for, scale-invariant light-cone SU(3) x SU(3) current commutators for, (T), 25:5328
structure functions of, quark—parton model inequalities for inelastic, (T), 25:33731 (SU-1206-244)
structure of, electron inelastic scattering data for, (T), 21:1015 (AD-634756)
structure of, review of, (E/T), 23:49156
superconductivity of, in neutron stars, 24:15049
superfluidity in gas of, (T), 24:26103
surface multiplication of, comparison of calculated and measured, (E/T), 24:11321
temperature distribution in TRIGA Mk II research reactor, measurement of, 21:27821
temperature distribution of TRIGA Mark 2, effects of power pulse on, (E/T), 23:4380
temperature in natural uranium fueled graphite moderated reactors, measurement of effective, 25:34413
temperature measurement by transmission methods, cadmium correction factor for, (T), 21:2588
temperature measurements in fuel element assemblies in ZEEP with different coolants, 21:10201 (AECL-2626)
temperature measurements in fuel rods, method for integral, (E/T), 22:32976(R) (MIT-2344-12)
temperature measurements in reactor by reactivity coefficient method, 23:47277
temperature measurements in urania—water lattices, 22:1868
temperature measurements in ZED-2 reflectors, 21:10201 (AECL-2626)
theory as composite particles, 22:17966
theory for Sakata triplet (p, n, A), Lagrangian in SU(3) symmetry for, 22:17994
theory of stars of, 22:7123
thermal disadvantage and fast advantage factors in seed-blanket assemblies, 21:44877
thermal disadvantage factor for, Multiple Sauer method for calculation of, (T), 23:47323
thermal utilization factor in slab lattices, multiple collision method for, 24:24912
thermal utilization in noncylindrical reactor fuel assembly with cylindrical fuel rod, use of generalized P/sub N/ method for calculating, 23:11338
thermal-group constants calculations for, use of computer codes for, 21:34133
thermalization at low temperature, reactor cryogenic facility for studying, 22:47037
thermalization calculations for reactors, degenerate kernel expansion method for, 25:54267
thermalization calculations for, comparison of results from single cell RBU Monte Carlo, THERMOS, and Program S-XIII, 21:23711(R) (BNWL-340)
thermalization calculations for, summation of series in, 21:29843
thermalization calculations for, time-dependent Monte Carlo, 21:29857
thermalization from nonstationary source in nonmultiplying systems, research review for, (E/T), 22:29881
thermalization in benzene, beryllium, beryllium oxides, heavy water, polyethylene, water, and zirconium hydrides, (E/T), 21:23393(R) (GA-7480)
thermalization in benzene, model of molecular dynamics for, (E/T), 22:53072
thermalization in beryllium and graphite, time-dependent, (E/T), 22:26765(T) (AERE-Trans-1084)
thermalization in beryllium oxide, measurements using spectral indicators, (E), 22:29878
thermalization in beryllium, calculations using eigenvalue-eigenfunction method, (T), 21:25410
thermalization in beryllium, effects of coherent scattering on, (E), 21:17292
thermalization in beryllium, transient spectra for, (T), 22:24798
thermalization in biphenyl, scattering model for, (T), 21:38156 (GA-8050)
thermalization in blocks of beryllium, (E/T), 22:3598
thermalization in crystalline moderators, variational method for pulsed-neutron, (T), 25:31175
thermalization in finite media, (T), 22:5748
thermalization in finite media, solution of Boltzmann equation for time-dependent nonhomogeneous, (T), 25:5478
thermalization in finite media, time-dependent, (T), 21:46639 (BNL-11680)
thermalization in graphite, Boltzmann calculation for, 23:39525
thermalization in graphite, calculations using multigroup diffusion theory, (T), 23:39912
thermalization in graphite, time-dependent, (T), 22:44579
thermalization in heavy water, steady-state and time-dependent spectra for, (E), 23:10909 (EIR-137)
thermalization in heavy water—uranium lattice with the presence of plutonium isotopes, integral method calculation of epithermal cross sections for, 23:15712
thermalization in heavy water—uranium lattices with plutonium, simplfied integral method for calculation of, (T), 23:11344
thermalization in heterogeneous and homogeneous media, 21:27782
thermalization in heterogeneous media, time-dependent, (T), 23:42838
thermalization in ice and zirconium hydride, time-dependent, (E/T), 22:29887
thermalization in infinite crystal, continuous eigenvalues of Boltzmann operator for, 24:6806
thermalization in infinite medium, asymptotic properties of energy distribution during, (T), 22:5711
thermalization in infinite slab, transport theory using eigenfunction method, 21:38190
thermalization in lead, research using pulsed neutron source, (E), 22:29849
thermalization in liquid sodium and water, degenerate-kernel calculation of time eigenvalues in, (T), 25:22958
thermalization in liquids, use of plutonium-239 and uranium-235 fission chambers for measuring, 21:19961
thermalization in materials, (E), 21:40347 (RPI-328-87, pp 60-72)
thermalization in moderator with nonuniform temperature distribution, calculations using heavy-gas model, (T), 22:11887
thermalization in moderators, neutron nonisotropic scattering kernel for, (T), 23:42833
thermalization in monatomic gases, computer program for calculating transfer matrices for, (T), 22:13909 (WANL-TME-1617)
thermalization in nonuniform medium, transport operator for time-dependent, (T), 22:5750
thermalization in one-dimensional heterogeneous reactors, DEMETRA code for quasi-diffusion method calculations of, 25:44195 (IAE-2010)
thermalization in one-dimensional lattice with periodic temperature distribution, (T), 24:4138
thermalization in organic moderators of, Monte Carlo analyses of time-dependent, 22:30382
thermalization in plutonia—urania—water lattices, calculation using CADILHAC code, (T), 21:19353(R) (EURAEC-1774)
thermalization in polycrystalline beryllium, Monte Carlo method for calculating, (T), 25:56619 (RT/FI-(70)49)
thermalization in pulsed gadolinium poisoned assemblies, 24:7215
thermalization in pulsed media, few-pole expansion formalism for, (T), 22:29835
thermalization in reactor lattice cells, (E/T), 21:19474 (STI/DOC-10/68)
thermalization in reactor materials, review of, (E/T), 25:37118 (UARAEE-62)
thermalization in reactor moderators, development of scattering kernels for, (T), 25:34423(R) (GULF-RT-10469)
thermalization in reactors, calculations, 21:2864(R) (KR-109)
thermalization in slab and spherical geometry, decay constants for, (T), 21:44498 (BNL-11707)
thermalization in small crystalline moderators, analysis of pseudo-mode in space-dependent, (T), 25:23408
thermalization in solids, Einstein model for time-dependent, 25:17679
thermalization in spheres of water, (T), 21:27574(R) (NYO-GEN-72-132)
thermalization in spherical water systems of, analysis of, 22:39875 (BNL-50082, pp 1-18)
thermalization in two-media reactor cells, diffusion theory calculation of, 21:13949 (BMwF-FBK-66-20)
thermalization in two-temperature light water, pulsed experiments on, 24:8796 (CISE-R-103)
thermalization in two-temperature moderator, pulsed experiments on, 24:8796 (CISE-R-103)
thermalization in water at 318 and 77°K, (E), 25:31170(T) (KAPL-Trans-4)
thermalization in water spheres, (E/T), 22:11892
thermalization in water, measurements using pulsed source technique, (E), 22:50516
thermalization in water, modified Nelkin model with hindered rotations for, (T), 22:53073
thermalization in water, research progress on, (E), 22:39549 (RPI-328-123, pp 26-31)
thermalization in water, time constants for, (E), 21:38196
thermalization in water, time-dependent, (E), 22:20421(T) (JPRS-43682, pp 165-78)
thermalization in water, time-dependent, (E), 22:29888
thermalization in water, time-dependent, (E), 22:32459
thermalization in water, time-dependent, (E/T), 23:13184 (RPI-328-142, pp 117-31)
thermalization in zirconium hydride, analytic scattering model for time-dependent, (E/T), 25:37132
thermalization in zirconium hydride, Einstein model of, (T), 25:20242
thermalization in zirconium hydride, Einstein model for time-dependent, 25:17679
thermalization integrals for, development of, 21:30103(R) (BNWL-400)
thermalization measurement in reactor moderators, use of time of flight diffraction techniques for, 24:16314
thermalization measurements in graphite using pulsed source with reaction rate method, (E), 22:29883
thermalization measurements in water and zirconium hydride in FiR-1 research reactor, 22:30383
thermalization measurements on graphite using pulsed-source technique, (E), 23:21219
thermalization near black absorbers in homogeneous supercells, (T), 21:19463(R) (IAEA-3498-16)
thermalization of pulsed, analysis using few-pole expansion method, (T), 24:1722
thermalization of slow, in reactor moderators, (T), 25:46332
thermalization of, analysis of pulse, wave, and poisoning experiments on, 23:43189 (BNL-50149, pp 1-14)
thermalization of, asymptotic behavior of generalized Cadilhac model for, (T), 25:5487
thermalization of, collision and quasi-diffusion methods for solving problems in, (T), 22:29859
thermalization of, computer codes for, 21:17536(R) (EURAEC-1742)
thermalization of, conference on, 21:25392 (BNL-50004(Add.))
thermalization of, conference on, 22:29856 (STI/PUB-160(Vol.1))
thermalization of, conference on, (E/T), 22:29872 (STI/PUB-160(Vol.2))
thermalization of, corrections to Green-type scattering kernel in model for, (T), 25:5488
thermalization of, degenerate kernel technique for calculation of, 25:56630
thermalization of, degenerate-kernel formalism for, (T), 25:22958
thermalization of, derivation of non-equilibrium thermodynamic laws for, (T), 22:27502
thermalization of, development of concept of, 23:19130
thermalization of, development of time-of-flight system for integral experiments using pulsed sources, 22:37281(R) (NYO-72-191)
thermalization of, dispersion relations for, 24:28675 (ORNL-TM-2942)
thermalization of, effect of 1/v and non-1/v capture cross section on, (E), 22:37281(R) (NYO-72-191)
thermalization of, eigenvalue treatment of theory of, 22:30370
thermalization of, initial-value problem for time-dependent, 21:29853
thermalization of, model for, (T), 21:33850 (CONF-670707-2)
thermalization of, nonisotropic scattering kernels for calculations of time-dependent, (T), 23:1757 (INR-P-925)
thermalization of, numerical methods in theory of, (T), 22:20414(T) (JPRS-43682, pp 43-62)
thermalization of, numerical solution to Boltzmann equation for, 21:30115 (CONF-660206, pp 99-104)
thermalization of, research on differential, (E/T), 22:22522 (GA-8283)
thermalization of, research program and progress on integral, (E/T), 22:26758(R) (GA-8280)
thermalization of, research progress on, 21:42523(R) (RPI-328-97)
thermalization of, research progress on integral, 22:48414(R) (GA-8773)
thermalization of, research progress on integral, (E/T), 23:23603(R) (GA-9194)
thermalization of, research progress on integral, (E/T), 22:39541(R) (GA-8626)

thermalization of, research progress on integral, (E/T), 22:20409(R) (GA-8449)
thermalization of, research progress on, (E), 22:13907 (RPI-328-100, pp 113-19)
thermalization of, research progress on, (E/T), 22: 3587(R) (GA-7647)
thermalization of, research progress on, (E/T), 22: 22525(R) (RPI-328-112)
thermalization of, research progress on, (E/T), 21: 7628(R) (GA-7283)
thermalization of, Saclay Nuclear Center data libraries and methods for calculation of, 24:16275 (CEA-N-1243)
thermalization of, scattering model for, (T), 21:29864
thermalization of, scattering moments, infinite-medium Green's functions, and solutions to Boltzmann transport equation in, (T), 25:9962
thermalization of, secondary model for time eigenvalue spectrum in, (T), 22:11881
thermalization of, spectral calculations using Laguerre polymonials and associated functions, 22:20419(T) (JPRS-43682, pp 137-49)
thermalization of, stochastic simulation of, (T), 24:33087
thermalization of, survey on, (E/T), 22:15929
thermalization of, symposium on, 22:20412(T) (JPRS-43682)
thermalization of, time and space eigenvalues of the Boltzmann equation with a synthetic kernal for, 21: 5474
thermalization of, time eigenvalues and degenerate kernels in, (T), 21:2596
thermalization of, time-dependent, (T), 22:41929
thermalization of, time-eigenvalue problems in, (T), 21: 9920
thermalization parameter measurements in water by pulsed source and non 1/v absorber method, 22:35697
thermalization parameters for graphite, (E), 22:29890
thermalization parameters for poison-bearing water, non-1/v, (T), 23:1762
thermalization parameters in water, (E), 23:37091
thermalization power of Miramid plastic for, pulsed-source measurements of, (E), 22:53068
thermalization studies of, energy mesh selection in benchmark calculations, 24:33080(R) (GA-9901)
thermalization studies of, progress report on integral, 24: 38059(R) (GA-10060)
thermalization studies on, 25:9943(R) (GA-10223)
thermalization time constant for water, measurement using pulsed source, (E), 24:47554
thermalization time in graphite, determination using frequency characteristic method, (E/T), 22:29891
thermalization with isotropic scattering, solution of initial-value problem for, (T), 23:15338
time distribution measurements in pulsed experiments, design of multichannel pulse analyzer for, 23:47876(T) (NSJ-tr-150)
time distribution of coupling, mathematical models for describing, 21:34132
time distributions in reactor moderators, calculation of, 23:26121 (IN-1218, pp 57-72)
time-of-flight experiments with, on-line CAE 510 computer-based data acquisition system for, 23:47905
transfer equations for, using lethargy sub-groups, (T), 21: 21735
transfer in heavy-ion reactions, (T), 24:49740
transient behavior in multiplying medium of pulsed, use of Fredholm integral for defining contribution of continuum to, 23:4452
transmission and albedo data for borated polyethylene, 23:12939 (AERE-R-5773(Vol.1), pp 172-204)
transmission and self-indication ratio for tantalum at 250 eV to 100 keV, (E), 24:49862(R) (RPI-328-187)
transmission by plutonium-240 to 1 keV, (E), 24: 49862(R) (RPI-328-187)
transmission by tin-116 at 20 to 10,000 eV, (E), 25:7847 (ORNL-4513)
transmission by tungsten at 0.002 to 2 MeV, temperature dependence of average, (E/T), 23:5786
transmission coefficients for heavy nuclei at 0.05 to 2 MeV, empirical, (E), 25:10020(T) (BNL-tr-379)
transmission function of reactor, calculation of, (E/T), 24:4144
transmission functions for uranium-238, effects of temperature on, (E/T), 25:23028(T) (JPRS-52290, pp 66-83)
transmission in accelerator shielding of aluminum and iron, calculations for, 23:28066
transmission in access tunnels to CERN proton synchrotron, computer calculation of, 22:48392(T) (ORNL-tr-1989)
transmission in chromium isotopes, nickel-60, and vanadium up to 300 keV, 25:43857
transmission in helium-3-loaded zirconium and ZrT_3, 21: 44530
transmission in holmium-165, design of Stanford cryogenic oriented target for studying, 22:35166(R) (AD-663169)
transmission in thin slabs, dependence of multiple collision probabilities on incident angular distribution, (T), 21:15465 (CONF-660221-, pp 300-2)
transmission of polarized, by polarized erbium-167, spins of resonances and hyperfine coupling constants for, (E) , 25:15003
transmission of pulses and waves in graphite, (E), 21: 1014
transmission of slow, in multiple-segment ducts in water shield, 25:36252 (UARAEE-104)
transmission probabilities for one dimensional lattices, derivation of, 23:19570 (CONF-680909-, pp 30-41)
transmission through cadmium filters, for proportional detectors of cylindrical geometry, 21:36358
transmission through ferromagnets and antiferromagnets, analysis of depolarization in, (T), 25:31181
transmission through large concrete-walled rectangular ducts, (T), 22:5751
transmission through multilayer shielding, calculation of multigroup spectra for, 25:25196 (KFKI-70-37-RPT)
transmission through multilayer shields, (E/T), 21: 11678(R) (JAERI-4038)
transmission through multiplying media, (T), 21:17295
transmission through polarized holmium-165, resonance spin determination by, (E), 21:25509 (JINR-P3-3208)
transmission through rectangular concrete ducts, computer code for calculating, 21:35210 (ORNL-3964)
transmission through transverse shield of AGS, relaxation length for, (T), 21:21361
transport analysis for, Monte Carlo technique for static eigenvalue problems in Boltzmann, (T), 23:2110
transport analysis of diffusion equations for, invariant-embedding, 21:35771 (AD-650428)
transport analysis of, cylindrical and spherical geometries for, (T), 22:18658
transport analysis of, description of stationary-medium equation for, (T), 22:20966
transport and diffusion equations, finite-element techniques for numerical solution of, 25:33374 (CONF-710107-, pp 258-85)
transport approximation for analyzing exponential piles, using one-dimensional S/sub N/ code, (T), 22:32457
transport approximations for wave propagation through interfaces, (T), 23:3896
transport below 3.5 GeV, computer program for, (T), 25:1530 (ORNL-4606)
transport calculations for air-to-ground geometries, from nuclear weapons, 24:6609
transport calculations for bare sphere using j/sub N/ method with multiple collisions, (T), 22:18599
transport calculations for bare spheres and infinite homogeneous slabs, j/sub N/ method for time-dependent, 23:47305 (CNM-R-2(Vol.2), pp 1059-85)
transport calculations for cylindrical graphite-natural uranium lattice cell, mesh requirements for, 21:44497 (AEEW-M-760)
transport calculations for fast exponential system, use of C/sub N/ method in, 25:41183
transport calculations for helical tubular void region, method of determining flight-path intersections with walls for, (T), 22:41919 (N-68-18541)
transport calculations for lithium hydride, (E/T), 23: 36756 (AD-822964)
transport calculations for monoenergetic neutrons in slab geometry, using transfer-matrix method, (T), 21:21374
transport calculations for shielding against, adjoint and importance in Monte Carlo method for, 21:21009
transport calculations for three-dimensional geometry using Monte Carlo method, computer program for, (T), 22:32427 (IN-1109)
transport calculations for, computer program for integrating LASL NGM differential flux output, 23: 5442 (AD-671688)
transport calculations for, description of MORSE Monte Carlo computer code for, 24:7268
transport calculations for, for design of shield of 200-MeV proton accelerator, 23:8868 (ORNL-4336)
transport calculations for, multitable treatment of anisotropic scattering in S/sub N/ multigroup, 21: 29842
transport calculations for, UNC SAM-3 code for, 24: 35797 (AD-701758)
transport calculations for, user's guide to NSP Kernel-Diffusion codes for, 23:42830 (GESP-226)
transport calculations for, using moments methods, 23: 36783
transport calculations in fast critical assemblies, cross section averaging schemes for group collapsing and cell homogenization in, 24:47934 (ANL-7610, pp 465-537)
transport calculations in rocket reactor shielding, evaluation of methods for, 22:39851(R) (N-68-13501)
transport calculations using Monte Carlo method with track-length stretching, (T), 21:7319
transport calculations using Monte Carlo method, coupled sampling technique for, (T), 24:20315
transport calculations using Monte Carlo method, variance of flux estimators in, (T), 21:21373
transport calculations using Monte Carlo methods, discussion of, 22:33133
transport calculations using multiple scaling, (T), 21: 7653
transport calculations, comparison of discrete-angular-grid Monte Carlo, with other methods and experiment, 25:14404
transport calculations, energy representations in, 25: 5141
transport code for, revised cross-section module for Monte Carlo multigroup, 25:56263 (ORNL-4716)
transport equation for absorbing medium, solution for Milne problem using variational methods, 21:40364
transport equation for anisotropic scattering, solution using Papmehl method, (T), 24:33084
transport equation for cylindrical geometry, C/sub n/ approximation method for Boltzmann, (T), 22:24820
transport equation for cylindrical geometry, FORTRAN IV program for solution of, 21:33846 (AAEC/TM-370)
transport equation for heavy gas, solution for energy moments of angle-dependent flux, (T), 22:35206
transport equation for heterogeneous lattices, numerical method for solution of, 21:29837 (UJV-1721)
transport equation for homogeneous slabs with anisotropic scattering, SP/sub N/-P/sub L/ method for solution of, 25:39331
transport equation for infinite homogeneous slab with uniform source, space—angle synthesis approximation of, 22:27481 (BNWL-634, pp 2.1-8)
transport equation for isotropic scattering in plane geometry, calculations using Case method for multigroup treatment of, (T), 22:46705
transport equation for moderating media, dispersion law from, (T), 21:11953
transport equation for moderating slab, solution of time-dependent, (T), 21:9918
transport equation for monoenergetic, correlation of Case method with Chandrasekhar theory of radiative transfer, (T), 22:50511
transport equation for monoenergetic, endomorphism of Lebesgue space in three-dimensional problem in, 24: 40540 (RT/FI-(70)6)
transport equation for monoenergetic, in cylindrical geometry, solution of time-dependent Boltzmann, (T), 22:3593
transport equation for monoenergetic, in heterogeneous systems, method for solving integro-differential, (T), 23:7210 (RT/FI-(68)30)
transport equation for monoenergetic, method for exact solution of three-dimensional, (T), 23:19123 (RT/FI-(68)43)
transport equation for monoenergetic, semi-analytical method for solution in plane geometry, (T), 22:44574 (EIR-105)
transport equation for monoenergetic, solution for semi-infinite aluminum—water slab lattices, (T), 22:44586
transport equation for monoenergetic, solution for spherical geometry, (T), 22:44600
transport equation for monoenergetic, solution using spherical harmonics method, (T), 22:1584
transport equation for multi-region r-geometry reactor cell, computer program for solution of time-independent, 21:29824 (EIR-110)
transport equation for one-dimensional geometries, method for numerical solution of, (T), 22:1577
transport equation for plane and spherical geometry, solution using moments method, 21:25398 (UJV-1754)
transport equation for plane geometry, disappearance of discrete eigenvalues in, 21:40355
transport equation for plane geometry, energy-dependent, (T), 21:19159
transport equation for plane geometry, method for approximating Boltzmann, (T), 22:24819
transport equation for plane geometry, solution for Milne problem using Case's method, (T), 21:19161
transport equation for plane slab with anisotropic scattering, solution for Milne problem, 21:40356
transport equation for plane symmetry, solution of one-group, (T), 21:42547
transport equation for pulsed source in nonmultiplying medium, discrete decay constant in solution of, (T), 23:15333
transport equation for slab and spherical geometry, method for solving integral, 21:38202
transport equation for slab geometry with anisotropic scattering, solution using generating functions for time-dependent, (T), 23:17061
transport equation for slab geometry with isotropic scattering, eigenfunctions and eigenvalues of, (T), 22: 18091
transport equation for slab geometry, generating functions for exact solution of, (T), 23:1774
transport equation for slab geometry, method for solution of, 21:27510
transport equation for slab geometry, numerical solution of integral, 21:27574(R) (NYO-GEN-72-132)
transport equation for slab geometry, relaxation lengths in, (T), 21:13793
transport equation for slab geometry, solution using completely degenerate energy transfer kernel, (T), 25: 20236 (TID-25648)
transport equation for slab with infinite reflectors, solution using Case method, 24:8812 (ORO-3858-1, pp 289-323)
transport equation for spherical geometry, fundamental operator mode for, (T), 21:42537
transport equation for spherical geometry, NIOBE computer code for solution of, 21:19153(T) (ORNL-tr-1378)
transport equation for spherical geometry, solution using eigenfunction-expansion technique, (T), 24:28685
transport equation for spherical reactor criticality, use of spherical harmonics approximation of monoenergetic Botzmann, 22:20949
transport equation for thin embedded homogeneous layer, solution of energy-independent, (T), 22:3589 (JUL-484-RE)
transport equation for three-dimensional geometry, computer program for solution of one-group, 21: 5465(T) (ORNL-tr-1371)
transport equation for Wigner—Seitz lattice cell, polynomial approximation for integral, (T), 23:25764
transport equation for, angular slowing-down density formulation for, (T), 22:50513
transport equation for, approximate methods for integral, 25:41184
transport equation for, asymptotic P/sub n/ and double P/sub n/ approximations to monoenergetic, (T), 25: 22952
transport equation for, biorthogonal angular polynomial expansions of two-dimensional, 21:27504 (LA-DC-8478)
transport equation for, biorthogonal angular polynomial expansions of, (T), 21:11927 (LA-3617)
transport equation for, biorthogonal angular polynominal expansion of two-dimensional, 21:38172
transport equation for, biorthogonal angular polynomial expansion of two-dimensional, (T), 22:24800
transport equation for, C/sub n/ method for approximation of, (T), 22:39540 (CEA-R-3170)
transport equation for, completeness of solutions of one-dimensional, (T), 21:11948
transport equation for, computer program for discrete ordinates solution of two-dimensional, 22:24792 (WANL-TME-1680)
transport equation for, computer program for numerical solution of energy-dependent one-dimensional, 21: 44523 (JUL-444-MA)
transport equation for, computer program for solution of, 23:20977
transport equation for, computer program for solution of linear two-dimensional, 24:38066 (WANL-TME-1982)

transport equation for, computer program using coupled sampling with Monte Carlo method for adjoint, (T), 25:31171 (LA-4488)
transport equation for, computerized solution to the multigroup discrete S/sub n/ approximation to Boltzmann, 22:3925 (AEEW-R-498)
transport equation for, conversion from energy- and space-dependent form into energy-dependent form for calculation of thermal group constants, (T), 22:48419 (RCN-95)
transport equation for, density scaling of, (T), 23:17065
transport equation for, effective isotropic scattering kernel for multigroup, 24:28681
transport equation for, eigenvalues for, (T), 24:33081 (JUL-632-MA)
transport equation for, exact solution in plane geometry for isotropic half-space multigroup, (T), 23:28217
transport equation for, existence and uniqueness of nonnegative eigen-functions of Boltzmann operator, (T) , 22:32464
transport equation for, finite difference techniques for, (T), 24:8809 (ORO-3858-1, pp 221-58)
transport equation for, formulation of two-dimensional singular integral, 24:8818 (ORO-3858-1, pp 530-41B)
transport equation for, fundamental eigenvalues of linear, 25:59683
transport equation for, general purpose Monte Carlo code for stationary and time-dependent, 25:31167 (EUR-4519)
transport equation for, Green's function for multidimensional, 24:8819 (ORO-3858-1, pp 542-86)
transport equation for, inner iteration convergence acceleration in discrete ordinates solutions of, (T), 22: 32440
transport equation for, iterative method for fitting absorption cross sections to fixed-source, (T), 22: 18096
transport equation for, iterative method for solution of two-dimensional, (T), 24:35805
transport equation for, method for solution of energy-dependent three-dimensional, (T), 21:19158
transport equation for, method of matched asymptotic expansions for linear, 24:30681
transport equation for, modal approximations in time-dependent, (T), 25:17674
transport equation for, moments solution of time-independent, (T), 22:37281(R) (NYO-72-191)
transport equation for, Monte Carlo integration of adjoint, (T), 23:44820
transport equation for, numerical method for solution of linear Boltzmann, (T), 22:24796
transport equation for, numerical method for solution of time-independent, (T), 25:56616 (JUL-764-RG)
transport equation for, numerical solution in finite cylindrical geometry for Boltzmann, (T), 23:49306
transport equation for, numerical solution of, 24:8811 (ORO-3858-1, pp 277-88)
transport equation for, numerical solution of, (T), 24: 18353
transport equation for, numerical solutions of, (T), 25: 43773
transport equation for, quantum corrections to, (T), 23: 46897
transport equation for, quantum-mechanical derivation of, (T), 22:20425
transport equation for, S/sub n/ approximation for reactor kinetic calculations, (T), 23:1761
transport equation for, semianalytical solution of energy-dependent Boltzmann, (T), 24:33086
transport equation for, SNARC1D code for solution of one-dimensional multi-group, 25:31651 (ANL-7717)
transport equation for, SNARG-1D computer program for solution of one-dimensional, (T), 21:15459 (ANL-7221)
transport equation for, solution for calculation of derivative functionals by Monte Carlo method, (T), 22:5712
transport equation for, solution for two-dimensional quarter-space geometry, 24:8821 (ORO-3858-1, pp 607-39)
transport equation for, solution of adjoint, by Monte Carlo technique using ANTE 2 FORTRAN code, 24: 28390 (AD-700920)
transport equation for, solution of Boltzmann, with respect to position, angle, and energy, 25:56617 (JUL-765-RG)
transport equation for, solution of energy-dependent multidimensional, (T), 21:17274
transport equation for, solution of integral, (T), 25: 22950 (RT/FI-(70)27)
transport equation for, solution of spherically symmetric, (T), 24:33082 (JUL-634-MA)
transport equation for, solution using Case's method for one-dimensional two-group, 21:31697
transport equation for, solution using diffusion approximation with spherical harmonics method, (T), 22:24791 (TRG-Report-1568)
transport equation for, solution using ergodic theory of semigroups for time-dependent, (T), 21:44528
transport equation for, solution using variational methods, 21:40365
transport equation for, space-angle synthesis using trial functions with known spatial functions and unknown angular mixing functions, (T), 22:32434
transport equation for, time-dependent Green's function of, (T), 22:13912
transport equation for, transfer matrix method for solution of, 25:28798 (NYU-4090-1)
transport equation for, truncation of spherical harmonic expansion of, (T), 22:1582
transport equation for, with isotropic one-term degenerate thermalization kernel, (T), 22:29857
transport equation in an infinite cylindrical reactor, computer method for solving, (T), 25:17671
transport equation in arbitrary convex geometry, analytical solutions of, (T), 23:34712
transport equation in diffusion and P_1 approximation, properties of multigroup, (T), 24:8825 (SRRC-35/69)
transport equation in doubly-periodic lattices of fuel elements, PL/K method for solution of one-velocity, 25:1961
transport equation in doubly-periodic lattices of fuel elements, PL/K method for solution of one-velocity, 25:1962
transport equation in finite cylindrical geometry, computer program for solution using discrete S/sub n/ method, 22:15926 (TIM-847)
transport equation in one-dimensional cylindrical geometry, polynomial approximation and linear anisotropic diffusion for integral, 25:28145 (EIR-188)
transport equation in P/sub L/ approximation with anisotropic scattering for plane layers, computer program for numerical solution of, (T), 22:39546(T) (ORNL-tr-1952)
transport equation in P/sub N/ approximation for r-theta geometry, solution using Kofink's method, 21:29825 (EIR-115)
transport equation in P/sub n/ approximation, numerical integration technique for, (T), 23:15332
transport equation in plane geometry, singular eigenfunction method for solution of two-group, (T), 23:1775
transport equation in plane geometry, solution of time-dependent, (T), 25:14873
transport equation in reactors, method for solution of linear time-dependent, 25:41593
transport equation in S/sub infinity/ approximation for plane geometry with isotropic scattering, method solving, (T), 22:18093
transport equation in S/sub n/ approximation, solution using synthetic method, (T), 23:3911
transport equation in slab geometry, computer code for multigroup solution of, 25:3529 (KFKI-70-14-RPT)
transport equation in slab geometry, consistency of approximate solutions to, (T), 23:25763
transport equation in slab geometry, numerical integration of integral, (T), 22:37281(R) (NYO-72-191)
transport equation in tensor form, finite differencing of, 25:23390
transport equation including collective effects, ergodicity of, (T), 21:21405
transport equation numerical solution by Carlson S/sub n/-method, 23:4402 (AEEW-M-677)
transport equation solution by discrete ordinates method, reduction of ray effect in, 25:12852
transport equation solutions by numerical methods, (T), 22:46702
transport equation solutions by Stabilized March Technique, one-dimensional one-velocity, (T), 22: 46704
transport equation solutions with anisotropic scattering, monoenergetic, 25:12055
transport equation using one-collision operator for delayed neutrons, two-time doublet, (T), 22:44585
transport equation with anisotropic scattering for plane geometry, solution for Milne problem in P/sub L/ approximation, (T), 21:11917 (BMwF-FBK-66-18)
transport equation with anisotropic scattering for slab geometry, solution of, (T), 22:41922
transport equation with anisotropic scattering in spherical geometry for monoenergetic, eigenvalues for, (T), 22: 29848
transport equation with anisotropic scattering of, particular of monoenergetic, (T), 25:17262
transport equation with anisotropic scattering, (T), 21: 21381
transport equation with anisotropic scattering, computer program for discrete-ordinates solution of one-dimensional, (T), 21:21370 (K-1693)
transport equation with anisotropic scattering, discrete eigenvalues and eigenfunctions of stationary and time-dependent, 24:33085
transport equation with anisotropic scattering, iterative method for solution of, (T), 21:7663
transport equation with anisotropic scattering, iterative method for solution of, (T), 21:7682
transport equation with anisotropic scattering, method for solution of (T), 21:11942
transport equation with anisotropic scattering, solution for Milne problem, (T), 22:3595
transport equation with arbitrary adjoint source for monoenergetic, extremum variational principles for, (T) , 23:19133
transport equation with fission and slowing-down kernels, solution to Milne problem for, 22:30374
transport equation with forward and isotropic scattering, iterative method for solving two-dimensional multigroup, 21:40344 (KAPL-P-3365)
transport equation with forward and isotropic scattering, iterative solution of two-dimensional multigroup, 21: 38204
transport equation with isotropic and anisotropic scattering for plane geometry, solution for Milne problem, 21:23399
transport equation with isotropic elastic scattering, time-dependent, (R), 21:46641 (INR-805/XXI/TH)
transport equation with isotropic scattering cast in form for numerical calculations, two-group one-dimensional, 22:46707
transport equation with isotropic scattering for monoenergetic, elementary solutions of reduced time-independent three-dimensional, (T), 23:21225
transport equation with isotropic scattering, new approach to solution of, (T), 24:49684 (RT/FI-(69)45)
transport equation with proton gas model of scattering, time and space eigenvalues of, (T), 22:41927
transport equation with spherical symmetry, computer program for solution of stationary, 25:28147 (JUL-683-MA)
transport equation, method for combining lower- and higher-order discrete-ordinate approximation, 25: 59680
transport equation, numerical solution to space-, angle-, energy-dependent integral, (T), 25:36266
transport equation, time-dependent, (T), 25:33383 (CONF-710107-, pp 519-32)
transport equations for critical slab, solution using perturbation method with Green function formalism, (T), 23:10925
transport equations for criticality calculations, iterative method for solution of integral, 21:23400
transport equations for cylinders and spheres, solution using double-P/sub N/ approximation, (T), 21:7655
transport equations for cylindrical reactors, use of system of linear equations for spherical harmonics moments of angular flux in approximating multigroup integral, 23: 37687 (EIR-147)
transport equations for fast pulsed assembly, numerical solution to time dependent DP/sub L/ approximation of, 23:37691 (RPI-328-157)
transport equations for fast reactors, numerical solution of time-dependent monoenergetic DP/sub L/, 23: 37712
transport equations for half-space problems with anisotropic scattering, exact solution of, (T), 23:19124 (RT/FI-(68)44)
transport equations for homogeneous medium, solutions of energy- and time-dependent, (T), 22:50514
transport equations for infinite cylinder, Fourier series solution to, 23:2116
transport equations for linear systems, modal-expansion method of obtaining approximate, 21:31684
transport equations for mono-energetic, eigenfunction expansions for space-time-dependent, (T), 22:39553 (RT/FI-(68)14)
transport equations for monoenergetic critical configurations with finite reflectors, derivation of Fredholm integral for solution to, 23:43198
transport equations for monoenergetic, exact solutions for, 21:4180
transport equations for monoenergetic, exact solutions for, 21:4181
transport equations for monoenergetic, resolution by solution kernels of, (T), 23:37074
transport equations for monoenergetic, solution for two-region spheres using method of singular integral equations, (T), 22:41937
transport equations for monoenergetic, solution using synthetic kernels, (T), 24:15764
transport equations for multiple slab problems, iterative method for solving, (T), 23:19138
transport equations for multiplying media, 21:42762
transport equations for multiplying media, solution of time-dependent, (T), 22:50515
transport equations for multiplying slabs solved by Laplace transformation, (T), 22:44598
transport equations for multiregion region reactors, method for solving multigroup, 21:38165
transport equations for plane geometry, solutions of energy-dependent, 21:31683
transport equations for plate-type fast assemblies, use of bilinear weighting of cross sections for variational synthesis solutions to, 24:7273
transport equations for reactor, method for numerical solution to singular integral equations in, 23:37721
transport equations for reactors, application of synthetic kernel technique to solution of, 23:33106
transport equations for reactors, assembly language version of GRIND subroutine for two-dimensional discrete ordinates, 23:40448 (WANL-TME-1809)
transport equations for reactors, development of bounded Monte Carlo flux estimator for rapid convergence of solutions to, 23:37715
transport equations for reactors, non-multigroup adjoint Monte Carlo technique based on variance reduction method for solution to, 23:37697
transport equations for reactors, solution by transformation of integrodifferential form into singular integral equation for, 22:3932 (TID-24099)
transport equations for reactors, use of coupled sampling Monte Carlo computer program for solving multi-generation time-dependent, 24:7271
transport equations for slab and spherical geometry, energy-, space-, and time-dependent, (T), 21:44498 (BNL-11707)
transport equations for slab geometry, nonhomogeneous boundary-value problem for linear, (T), 25:56621
transport equations for slab geometry, solution by direct integration with discrete ordinates method, (T), 22: 44589
transport equations for spherical geometry reactors, operational characteristics of NIOBE-code for solving, 23:37616(T) (ORNL-tr-3026)
transport equations for stability analysis of periodically oscillating compressible fissile media, 21:44541
transport equations for supercritical reactor with external source, solution using source iteration method, 21: 44536
transport equations for two adjacent half-spaces with anisotropic scattering, solution using continuity boundary conditions, 24:3835
transport equations for weapons shielding calculations, methods for solving, (T), 22:32424 (DASA-1892-3)
transport equations for, alternate-direction method for solution of two-dimensional, (T), 25:41177
transport equations for, alternating form of iteration for combining discrete ordinates solution to, 23:31222 (LA-4072)
transport equations for, analysis of physical significance of eigenfunctions of adjoint integral, 23:28616
transport equations for, angle-collapse synthesis for solution of discrete-ordinate, (T), 25:41179
transport equations for, application of Lommel's function to time-dependent, (T), 23:32887 (WAPD-TM-856)
transport equations for, Benchmark Problem Book for solutions of, (T), 22:46693 (ANL-7416)
transport equations for, Case eigenfunction expansion for invariant imbedding, 24:8813 (ORO-3858-1, pp 324-30)

transport equations for, comparison of solutions of one-speed, (T), 24:29085
transport equations for, complementary variational principles for solving, (T), 22:35202
transport equations for, computer program for discrete-ordinates solution of two-dimensional, (T), 22:53065 (ANL-7426)
transport equations for, computer program for solution of adjoint, 23:46893 (AD-686075)
transport equations for, computer program for solving two-dimensional, 23:19119 (LA-4058)
transport equations for, development of zero-variance and coupled sampling procedures for adjoint Monte Carlo solutions to, 23:19548 (CONF-680909-, pp 12-17)
transport equations for, discrete ordinate-numerical integration method for solution of, (T), 23:39919
transport equations for, discrete-ordinate solution of one- and two-dimensional, (T), 21:44525 (WAPD-T-2028)
transport equations for, expository derivation of, (T), 25:38860
transport equations for, extrapolation distance for Milne problem, (T), 23:37072
transport equations for, formulation and solution using finite difference techniques, (T), 23:3893 (LA-4016)
transport equations for, general solution of multigroup, 21:4179
transport equations for, Green function formulation of source term for, (T), 22:50512
transport equations for, harmonic solutions of, 24:8806 (ORO-3858-1, pp 159-77)
transport equations for, illustration of equivalence of integral transform and spatial spherical harmonics methods for solution to, 23:28615
transport equations for, integral formulation of multigroup, (T), 22:29841
transport equations for, integral transformation method for solution of, (T), 24:38064 (SRARI-P-57)
transport equations for, J/sub N/ method for solution to space-angle energy-time dependent, 23:2115
transport equations for, Legendre formulation of neutron flux expression for, 24:7266
transport equations for, material—geometrical buckling factor method for solution of, (T), 23:5799
transport equations for, method for solution of anisotropic multigroup, (T), 24:1729
transport equations for, methods for solution of two- and three-dimensional, 24:8817 (ORO-3858-1, pp 498-529)
transport equations for, Monte Carlo eigenfunction iteration strategies for, 24:5565 (WAPD-TM-878)
transport equations for, nonlinear integral, (T), 23:39914
transport equations for, one-group time-independent half-space, (T), 21:2592
transport equations for, orthogonality of polynomials in spherical-harmonics, 24:30682
transport equations for, quantum corrections to, (T), 23:7216
transport equations for, reduction to coupled one-dimensional equations of two-dimensional, (T), 25:41176
transport equations for, relaxation lengths in P/sub L/, double P/sub L/, and angle—space synthesis-type approximations, 21:31686
transport equations for, revised P_1 approximation, (T), 24:52362 (KAPL-P-3892)
transport equations for, semigroup method for, (T), 23:37069
transport equations for, solution by S/sub n/ approximation, bibliography on, 21:32033 (IFA-FR-56)
transport equations for, solution for albedo and Milne problems using Case method, (T), 22:18092
transport equations for, solution for half-space problems, (T), 22:50511
transport equations for, solution in S/sub n/ approximation for VVR-S flux distribution, (T), 23:1771
transport equations for, solution of nonstationary integro-differential, 24:28673(T) (ANL-Trans-806)
transport equations for, solution of time-dependent, (T), 25:41180
transport equations for, solution using discrete ordinates S/sub n/ method, (T), 22:22524 (ORNL-RSIC-19)
transport equations for, solution using discrete S/sub n/ and collision probability methods, (T), 24:3823 (AAEC/E-199)
transport equations for, solution using invariant imbedding and Case eigenfunctions, (T), 23:32891
transport equations for, solution using S/sub N/ method, (T), 21:7654
transport equations for, stochastic formulation and interpretation of, (T), 23:1778
transport equations for, synthetic method for two-dimensional discrete-ordinate, (T), 23:42844
transport equations for, techniques for solution to, 22:14172
transport equations for, use of kernels in Monte Carlo solution of, (T), 24:15765
transport equations for, use of Neumann series expansion for solution to Fredholm form of, 23:4415
transport equations for, use of quadrature for solving directly the singular integral form of one-velocity, 22:33141
transport equations for, use of reflection-transmission matrix methods for, 22:33140
transport equations for, use of stabilized march technique for solutions to inhomogeneous, 23:37730
transport equations for, use of variational principles with arbitrary adjoint source for solution to monoenergetic Boltzmann, 22:33139
transport equations for, user's manual to DOT2DB code for multigroup, 24:22054 (GEAP-13537)
transport equations for, variational rebalancing method for linear iterative convergence schemes of, 24:11308
transport equations in P/sub n/ approximation, methods for solving, (T), 23:23611
transport equations in slab geometry with degenerate energy transfer kernel, analytic solution of time-dependent, (T), 23:28224
transport equations in slab geometry, MS/sub n/ and double MS/sub n/ methods for solving, (T), 22:48439
transport equations in the S/sub N/ formulation, analytical solution of energy-dependent, 21:29823 (EIR-98)
transport equations in two- and three-dimensional systems, approximate solution of, 21:31691
transport equations with degenerate scattering indicatrices, method for solving multigroup, 22:20420(T) (JPRS-43682, pp 150-64)
transport equations with degenerate scattering indicatrices, methods for solving, (T), 22:29860
transport equations with delayed, analysis of initial value problem for, 22:33130
transport equations, variational variable boundary functionals for approximation methods for, 25:59677
transport flux analysis for Air Force Nuclear Engineering Test Reactor, computer program for, 21:14060 (AD-634563)
transport from nuclear explosions in air, angular, dose, energy, and flux distributions for, (T), 21:21376
transport from point source in two adjacent dissimilar semi-infinite media, (T), 21:38168
transport in a finite cylinder, asymptotic distribution in, (T), 25:25626
transport in a finite sphere, solution to the Boltzmann equation for, (T), 25:25610 (RT/FI-(70)40)
transport in a homogeneous slab, j/sub N/ multigroup calculations of, (T), 22:1560 (EUR-3620)
transport in a pulsed multiplying medium, time- and energy-dependent, (T), 24:15762
transport in a slab with linearly anisotropic scattering, (T), 24:38071
transport in absorbing media, statistical model for, (T), 21:7622 (AECD/EP-13)
transport in air, analytic space—energy—time kernels for, (T), 23:7281(R) (ORNL-4280)
transport in air, calculations for, 23:30604 (ORNL-TM-2499)
transport in air, calculations using data for nitrogen and oxygen, 24:33107
transport in air, Compton current from, (T), 23:36776
transport in air, effects of cross-section uncertainties on multitable S/sub n/ solutions for, (T), 23:3895
transport in air, parametric model for calculation of, 25:40757
transport in air, slowing-down model for, 23:36767
transport in air, survey on, 24:49682 (ORNL-TM-3065)
transport in air, time-dependent, (T), 24:30376 (ORNL-TM-2781)
transport in air, time-dependent, (T), 21:46643(R) (ORNL-4134)
transport in air, use of kernels with Monte Carlo technique for, (T), 23:32885 (ORNL-TM-2508)
transport in air-over-ground geometry, Monte Carlo calculation of time-dependent, 22:50214 (ORNL-4289(Vol.2))
transport in air-over-ground geometry, time-dependent, (T), 22:31898
transport in an infinite plate, spherical-harmonics solution of, (T), 21:4177 (BMwF-FBK-66-19)
transport in an infinite two-dimensional doubly periodic lattice with line sinks, periodic solutions of monoenergetic Boltzmann equation for, 21:38178
transport in arbitrary convex geometry, solution of one-group integral equation for, 24:8820 (ORO-3858-1, pp 587-606)
transport in arbitrary finite body, invariant imbedding as generalization of resolvent equation for, 22:20345
transport in atmosphere from nuclear explosions, air-density transformations for, (T), 21:35401
transport in atmosphere, analytical method for describing, 25:29247
transport in atmosphere, calculations using two-dimensional discrete ordinates code with anisotropic scattering, (T), 23:7281(R) (ORNL-4280)
transport in atmosphere, effect of ground on, (T), 23:36764
transport in atmosphere, status of research on, 24:31514
transport in bounded media, boundary-sources method for solving Boltzmann's equation for, (T), 25:28160
transport in bulk media, integral tests and evaluation of cross-section data from, (T), 25:25609 (RPI-328-225)
transport in concrete shielding, calculations for high-energy photon-induced, 23:27676
transport in concrete slabs, adjoint S/sub n/ calculations of coupled secondary gamma—, 24:32880
transport in concrete, formulas and parameters for analytical calculations of, 24:10596
transport in coupled multiplying slabs, application of j/sub N/ method to, 25:34428
transport in critical slab with anisotropic scattering, methods for solving equation for, 22:18090
transport in criticality or shielding problems, MORSE Monte Carlo code for, 24:49228 (ORNL-4585)
transport in cylindrical and spherical geometry, improvements in ELF code for Monte Carlo calculations of, (T), 25:20233(T) (ORNL-tr-2409)
transport in cylindrical rods, (T), 22:7613 (ITEF-482)
transport in ducts and shields, comparison of Monte Carlo and discrete ordinates calculations with measurements of, 23:13473 (AERE-R-5773(Vol.4), pp 935-88)
transport in ducts, analysis of results, (E/T), 25:38529
transport in fast media, spectral functions for, 25:3535
transport in fast pulsed assemblies, (T), 24:46118
transport in finite homogeneous moderators, Laplace-transform solution of eigenvalue problem for, (T), 25:45876
transport in finite homogeneous slabs and spheres, kernel transformations and matrix definitions for equations describing, 23:28614
transport in finite media, exact analytic solutions for, (T), 25:27948
transport in finite slab with infinite reflectors, time-dependent monoenergetic, (T), 24:51762 (N-70-25328)
transport in finite slab with infinite reflectors, time-dependent monoenergetic, (T), 25:5498
transport in finite spheres, solutions involving the integral Boltzmann equation for, 21:38177
transport in fissionable media, maximum eigenvalue of operator for, (T), 25:25624
transport in fuel-moderator slabs with anisotropic scattering, disadvantage factor for, 24:30683
transport in generalized geometries, Boltzmann equation solution for, (T), 23:42840
transport in graphite and water, density decay in, (E/T), 21:21387
transport in graphite and water, rethermalization lengths for, (T), 24:52383
transport in graphite cylinders, discrete-ordinates leakage tracing in, (T), 23:36782
transport in graphite systems with voids, pulsed-source measurements on, (E/T), 25:57189
transport in helical ducts, 24:6605
transport in hemispherical ducts, Monte Carlo calculations of, 23:36785
transport in heterogeneous and thick shields in plane geometry, calculations using invariant imbedding, (T), 21:21002
transport in heterogeneous media with sources, calculations using collision-probability method for, (T), 25:12347
transport in heterogeneous medium, semigraphical method for P/sub infinity/ solution of, (T), 25:34430
transport in heterogeneous systems, solutions for, (T), 23:36758
transport in homogeneous media from a point source, Green's function for, (T), 23:37089
transport in homogeneous media, relationships between collision probabilities in, (T), 21:40362
transport in homogeneous nonconcave media, solution of integral equation for, (T), 25:28159
transport in homogeneous slabs, comparison of diffusion and transport theory for, 25:56613 (AD-715563)
transport in hydrogenous chain-reacting system, solution of Boltzmann equation for, (T), 23:44810
transport in infinite and semi-infinite pillars, spatial distribution of flux near boundaries in, (T), 25:45879
transport in infinite homogeneous media, thermalization model for calculation of, (T), 23:42827 (BMwF-FBK-69-17)
transport in infinite medium with isotropic scattering, solution for, (T), 23:28226
transport in infinite medium, age-dependent branching analysis of, (T), 23:24012
transport in infinite medium, spectrum of transport operator for monoenergetic, (T), 24:1724
transport in infinite two-dimensional lattices of absorption lines, one-velocity flux distribution for, (T), 25:36654
transport in infinite, periodic, plane lattice of, perturbation method for calculating, (T), 22:20930 (AEEW-R-219)
transport in inhomogeneous media, numerical solution using a linear differential equation for scalar flux, 22:37622
transport in iron and water shields in slab geometry, calculations using P_1 approximation, (T), 21:21377
transport in iron, (E/T), 22:5726
transport in iron, analysis of spectra from, (E/T), 25:25609 (RPI-328-225)
transport in iron, measurements and calculations for, (E/T), 24:33091
transport in iron, sodium, and iron—sodium shields, (E/T), 24:50097(R) (ORNL-TM-2896)
transport in lattices of fuel rods and liquid coolant, anisotropic, (E/T), 25:31660
transport in liquid oxygen, cross sections for calculating, (T), 21:38201
transport in low-power reactors by branching processes, (T), 21:44886
transport in magnetic materials analysis of, (T), 24:8824 (ORO-3858-1, pp 668-75)
transport in matter, Monte Carlo calculation of long-range, (T), 25:36648 (CEA-R-4145)
transport in matter, Monte Carlo technique for simulation of, 24:47292 (N-70-20031)
transport in media, computer program for calculating collapsed cross sections and transfer matrices for, (T), 25:36649 (CONF-710302-11)
transport in media, diffusion and P_1 approximations for multigroup, (T), 25:12345
transport in media, generalization of nodal approximations to linear Boltzmann equation for, (T), 25:17669
transport in moderating and multiplying media, nonstationary kinetic equation for, (T), 23:25762 (SRARI-P-22)
transport in moderators, bounds of integral operators in Hilbert space for, (T), 25:37129
transport in moderators, few-speed model for effects of thermal moderator motion on, (T), 23:37079
transport in moving water medium, (E), 25:5486
transport in multidimensional heterogeneous reactor configurations, approximate procedures for numerical solution of, (T), 25:36647 (ANL-7779)
transport in multilayer plane and spherically symmetric systems, solutions of equations for, (E), 25:31184
transport in multilayer shields, (T), 23:20974 (NP-17789)
transport in multiplying media, equation for, 21:21781
transport in nitrogen and air, sensitivity to cross sections in Monte Carlo calculations for, (T), 25:38845 (UCRL-51031)
transport in nonmultiplying media with spherical symmetry, (T), 21:21400
transport in nonuniform medium with anisotropic scattering, constant relaxation of average flux, (T), 25:56635

transport in nonuniform slab with generalized boundary conditions, existence and uniqueness of solution of initial-value problem for, 24:30678
transport in nuclear media, steady-state equation solution for, 21:21730
transport in nuclear rockets, calculations using Monte Carlo method, 21:20999 (N-66-27941)
transport in one-dimensional finite systems, anisotropic source—flux iteration technique for calculation of, 25:14406
transport in plane and cylindrical geometry, Gegenbauer polynominal solutions of Boltzmann equation for, (T), 22:11880
transport in plane and spherical geometry, two-group analysis of critical problem for, (T), 25:14867
transport in plane heterogenous reactors, 24:36080 (RT/FI-(69)46)
transport in plane multilayer systems, calculation of, 21:23401
transport in plane slabs, computer program for solution of inhomogeneous multigroup equation for, 23:46891 (AAEC/TM-505)
transport in pulsed source measurements, separation and continuation in, (T), 24:33534
transport in quarter space, treatment of two-dimensional, (T), 25:53505
transport in reactor cores, equation for, 21:13995
transport in reactor cores, multigroup method for, 21:21656
transport in reactor materials, research on, 25:43834(R) (RPI-328-209)
transport in reactors, integral transform method for, (T), 24:24909
transport in reactors, low order discrete ordinates model for analysis of three dimensional, (E/T), 24:33499
transport in reactors, numerical solution of linear integral Boltzmann equation for, (T), 25:18231
transport in reactors, point source Green's function for, (T), 24:24908
transport in reactors, use of optimum biasing function for calculation of Monte Carlo, 22:6147
transport in shielding, 22:34733
transport in shielding materials use of transmission matrix method for, (T), 23:32554
transport in shielding materials, accuracy of two-dimensional discrete ordinates code for calculation of, 22:36960 (K-DP-3106)
transport in shielding materials, comparison of calculations and experiments on, 22:7338 (ORNL-TM-1965)
transport in shielding, calculations for high-energy, 21:37526
transport in shielding, computer program for, 22:41637 (ORNL-4181)
transport in shielding, Monte Carlo program SOBER for complex geometries, 22:9408 (DAC-60659)
transport in shielding, S/sub n/ discrete ordinate sets for deep-penetration, 25:57153 (CONF-710302-(Vol.2), pp 617-24)
transport in shielding, solution by method of characteristics of equation for, 23:46531
transport in shielding, use of Markov transition matrices to calculate time dependence of, 22:31899
transport in shields and tunnels of NIMROD 7-GeV proton synchrotron, 21:21359
transport in slab geometries, Green function for, (T), 23:36759
transport in slab geometry with delayed neutron production, analytic treatment of one-velocity equation for, 24:8808 (ORO-3858-1, pp 206-20)
transport in slab geometry with reflection boundary conditions, solution of initial value problem for, 24:49689
transport in slab geometry, calculations using invariant imbedding, 21:35404
transport in slab geometry, improved S/sub N/ calculations of, (T), 22:1588
transport in slab geometry, moments of first-passage distributions for, (T), 23:32881 (ANL-7519)
transport in slab geometry, one-speed, (T), 21:40353
transport in slab geometry, properties of spectral radius in equation for, (T), 24:3825 (ORNL-TM-2740)
transport in slab geometry, reflection and transmission coefficients for, (T), 25:50617
transport in slab geometry, solution for neutron distribution for, 24:47560
transport in slab geometry, solution of boundary value problem for, 24:47560
transport in slab geometry, solutions to time-dependent monoenergetic Boltzmann equation for, (T), 23:17276
transport in slab geometry, subcriticality for multiplying, (T), 25:41173
transport in slab geometry, time-dependent, (T), 24:26575 (TID-25310)
transport in slab, albedo problem for, 25:33381 (CONF-710107-, pp 464-88)
transport in slab, Green functions for multidimensional, 24:26288
transport in slab, Green's functions for multidimensional, 25:3184
transport in slabs of iron, calculations of, (T), 22:37281(R) (NYO-72-191)
transport in slabs with anisotropic scattering, calculations by transfer-matrix method of one-speed, (T), 25:17668
transport in slabs, criticality for energy-dependent, (T), 25:9960
transport in slabs, singular-eigenfunction calculation of, (T), 25:33951
transport in slabs, use of variational methods in, 25:5135 (AAEC/TM-554)
transport in spheres and slabs, computer program for solution by j/sub n/ method, 25:28146 (EUR-4601)
transport in spheres and slabs, Fourier transform of product of spherical Bessel functions for, (T), 24:35798
transport in spheres, cylinders, and planes, computer program for solving one-dimensional Boltzmann equation for, (T), 25:28149(T) (ORNL-tr-2419)
transport in spheres, cylinders, and planes, computer program for solving one-dimensional Boltzmann equation for, (T), 25:14863 (CEA-N-1358)
transport in spheres, time-eigenvalue of space-energy dependent equation for, 21:2594
transport in spherical assemblies, fundamental mode decay constant for, 22:20036
transport in spherical geometry, Green's function for one-speed, 22:29538
transport in spherical geometry, Monte Carlo method for, (T), 24:15379(T) (NP-tr-1864)
transport in spherical geometry, numerical analysis using invariant imbedding technique, 24:52352 (AD-705150)
transport in the atmosphere, calculations for point sources at air-ground interface, 22:4281
transport in thick and thin slabs, calculation of energy-dependent, (T), 25:56632
transport in thick iron and sodium, calculation of spectra from, (T), 25:45883
transport in thick iron slabs, Legendre plynomial expansion of scattering integral in Boltzmann equation for, (T), 22:22519 (BNL-12322)
transport in thick slabs of iron, (T), 21:37540
transport in thin slabs, inverse albedo problem for, 22:50217
transport in three-dimensional geometries, computer generation of Monte Carlo sampling functions for, 25:57160 (CONF-710302-(Vol.2), pp 771-81)
transport in tungsten and depleted uranium, multigroup capture and cross sections for, (T), 24:35522 (N-70-18127)
transport in two half-spaces with different media, Milne-problem solutions of, (T), 21:4177 (BMwF-FBK-66-19)
transport in two half-spaces, effects of anisotropic scattering on, (T), 22:32456
transport in two-dimensional quarter space, one-speed, (T), 25:41160
transport in two-dimensional slab geometry, integral methods for, 24:20311
transport in two-dimensional slabs by invariant imbedding, 25:5143
transport in two-dimensional spherical geometry, computer program for solving Boltzmann equation for, (T), 25:14866 (LA-4567)
transport in two-region slab cells, moments matching spectral method for, 23:47307 (CNM-R-2(Vol.2), pp 1099-1108)
transport in variable density atmosphere and ground, computer program for, 22:39146 (UNC-5179)
transport in variable phase-space, analysis of, (T), 25:3532
transport in various geometrics, methods for calculation of collision probabilities in, (T), 23:46902
transport in various moderator configurations, 24:18901(R) (LA-4320)
transport in water/iron/water shielding assembly, (T), 21:33495 (EUR-3472.d)
transport kernals for a finite spherical region containing a central black zone, first-flight, (T), 22:44599
transport kernel for spherical geometry, calculation using first-flight collision probability method, (T), 22:13914
transport kinetics in one and three dimensions, effective solutions for time-dependent equations for, (T), 23:25760 (RT/FI-(68)32)
transport measurements in BR-5, comparisons with calculated data, 23:37659
transport model for, using branching process, (T), 24:8826
transport near a temperature discontinuity, energy-dependent, (T), 21:38174
transport of epicadmium, in anisotropic moderators, (E), 21:23398 (NP-16622)
transport of formulation of distribution function in plane geometry using Gegenbauer polynomials, 24:52382
transport of leakage, from nuclear weapons, calculation by discrete ordinates method, 25:40729
transport of monoenergetic, Green's function for cylindrically symmetrical problem of, 24:43096
transport of polyenergetic, in spheres and planes, computer program for calculating, (T), 25:14864 (CEA-N-1388)
transport of pulsed, integration and moment methods for determining decay constants for, 21:33851 (CTH-RF-11)
transport of pulses of, time eigenvalues and anisotropic disturbances in, (T), 24:40542
transport of solar, in Earth atmosphere, 22:31662 (ORNL-TM-2194)
transport of waves of, in heterogeneous media, (T), 24:43097
transport of, adjoint difference method for deep penetration problems in, 25:41185
transport of, adjoint Monte Carlo calculations for, 23:36784
transport of, ANDY1G2 and ANDY1R2 computer programs for time dependent monoenergetic, 24:52364 (LA-4410)
transport of, application of Chandrasekhar's method to, 25:9951
transport of, application of variational synthesis to multidimensional, 25:43772
transport of, computer program for analyzing Legendre expansions of angular distributions for negative regions, 25:5476 (ORNL-TM-2903)
transport of, computer program for solution of integral equation for, (T), 25:43771 (EIR-189)
transport of, computer program for solving steady-state integral equation for, (T), 25:20246
transport of, discrete SN numerical method for solving Boltzmann equation for, (T), 25:59675
transport of, EMPIR computer program using ENDF/B library for multi-group slab, 23:26114 (WAPD-TM-822)
transport of, error minimization in transfer-scattering matrix methods for, (T), 25:41175
transport of, Green's function approach for boundary-value problems in, (T), 25:9952
transport of, Green's function for solution of time—energy-dependent, (T), 25:28154
transport of, methods in JOSHUA system for integral, 25:41182
transport of, Monte Carlo digital simulation for planar region, (T), 24:36081 (RT/FIMA-(69)6)
transport of, numerical calculation of Milne problem extrapolation length for, (T), 25:3540
transport of, quantum correction for calculations of, (T), 25:6167
transport of, reactor beam hole guide tubes for, 25:18185
transport of, research at Israel AEC, Jan.—Dec. 1967, 22:48806(R) (IA-1168)
transport of, solution of Boltzmann equation in plane geometry, (T), 25:12340 (KFK-1223)
transport of, solution of equations for time—energy-dependent, (T), 25:28156
transport of, solution of initial-value problem for slab with infinite reflectors using normal-mode expansions, (T), 25:5501
transport of, SORS Monte Carlo program for, 23:19126 (UCRL-50532)
transport of, spin polarization effects in, (T), 25:56633
transport of, variational synthesis method for analysis of multidimensional, (T), 25:34427 (ORNL-TM-3200)
transport of, weighting and biasing of Monte Carlo calculation for, (T), 25:45883
transport operator spectrum in spherical geometry with anisotropic scattering for monoenergetic, (T), 23:10913 (SRARI-P-8)
transport operators for, derivation using generalized Riccati transformation, (T), 23:3909
transport problem for anisotropic scattering in adjacent half-spaces, solution using eigenfunction expansion method, (T), 23:42843
transport problem for, solution by analytic continuation for initial-value, (T), 24:8802 (ORO-3858-1, pp 36-75)
transport problems for, analysis of variational formulation of S/sub N/ method for solution of, 22:39936
transport problems for, computer solution of time-dependent, 21:38179
transport problems for, multichannel spatial synthesis method for solution of, (T), 25:41178
transport problems for, review on methods for treatment of stationary, 25:28151 (TUBIK-21)
transport problems for, transfer matrix approach to, 24:8814 (ORO-3858-1, pp 331-55)
transport problems in multilayer slabs with anisotropic scattering, j/sub N/ method for solution of space-angle energy-time-dependent, 24:7306
transport problems, numerical methods for, 25:59684
transport solution for quarter-space problem, (T), 23:36760
transport spectrum analysis for, model for time dependent, (T), 22:14296 (RPI-328-100, pp 140-87)
transport studies, (E/T), 25:56255(R) (AD-721388)
transport theory and nongrey radioactive transfer, equivalence of models in, 22:46301
transport theory calculations for reactor, polynomial flux approximations for integral, 22:6154
transport theory equations for multiregion reactors, variational synthesis techniques for determining eigenvalues for, 24:18763 (KAPL-P-3869)
transport theory equations for reactors, use of overlapping group method for solution to, 23:37472
transport theory equations, development of asymptotic P_1 formulation for diffusion approximations to, 23:4413
transport theory for calculating Doppler effect for systems with anisotropic scattering and nonuniform temperature distributions, (T), 22:7627
transport theory for coupled reactors, (T), 22:3599
transport theory for curved geometries, invariant imbedding technique in, 24:8822 (ORO-3858-1, pp 640-52)
transport theory for cylindrical and spherical geometry, double spherical harmonics approximation for, (T), 22:41938
transport theory for finite body with generalized boundary conditions, initial-value problem for, 25:25612
transport theory for infinite homogeneous media, two-group, (T), 23:21234
transport theory for monoenergetic, 21:31688
transport theory for monoenergetic, at boundaries of dissimilar media, time-dependent, 21:25401
transport theory for monoenergetic, at boundaries of dissimilar media, time-dependent, 21:25402
transport theory for monoenergetic, effective source strength for anisotropic scattering in homogeneous infinite medium, (T), 22:48438
transport theory for monoenergetic, in infinite slab with delayed neutron production, initial-value problem for, (T), 21:46646
transport theory for monoenergetic, in inhomogeneous media, 21:33870
transport theory for monoenergetic, in slab geometry with anisotropic scattering, (T), 22:9767
transport theory for monoenergetic, in slab geometry, using invariant imbedding, 21:25403
transport theory for monoenergetic, point-source Green's functions for, 23:39923
transport theory for moving medium, (T), 22:35209
transport theory for multilayer systems and associated shielding problems, monoenergetic, 23:34489 (RT/FI-(69)17)
transport theory for multiplying assemblies, characterization of criticality for one-dimensional, (T), 22:32463
transport theory for noncylindrical cell containing cylindrical fuel rod, 21:7656

transport theory for plane geometry in P/sub L/ approximations, formalism using blackness theory, (T), 22:1561 (KAPL-P-3391)
transport theory for plane geometry, effects of anisotropic scattering in, 21:21378
transport theory for pulsed, coupled space-time effects in, 24:47558
transport theory for reactors, numerical solutions in terms of orthogonal series expansions for albedo operators for, 22:1789
transport theory for regions with steep flux gradients, diffusion approximation to, (T), 22:20424(T) (ORNL-tr-1849)
transport theory for slab geometry, albedo problem in, (T), 22:24795
transport theory for slab geometry, formalism using invariant imbedding for energy- and time-dependent, 21:35403
transport theory for slab geometry, formalism using time moments of neutron density, 21:42525 (RPI-328-97, pp 96-130)
transport theory for synthetic scattering kernel for, (T), 22:44578
transport theory for, adjoint Boltzmann equation and its Monte Carlo simulation for, 25:48003
transport theory for, analytic method in multigroup, 24:26576
transport theory for, angle-space synthesis of, 21:29841
transport theory for, bibliography on, 21:29829 (IFA-FR-51)
transport theory for, Boltzmann equation in, 21:5479
transport theory for, Boltzmann equation solution using Jacobi polynomials, (T), 23:37070
transport theory for, calculation of anisotropic neutron flux using discrete S/sub n/ method, (T), 22:15935
transport theory for, canonical and involutory transformations for variational problems in, 21:38208
transport theory for, Case eigenfunctions and orthogonal polynomials in, 24:8807 (ORO-3858-1, pp 178-205)
transport theory for, cavity and vacuum boundary conditions for P/sub N/ approximations in, 21:11958
transport theory for, coarse-graining of Hamiltonian for, (T), 22:35547
transport theory for, connection between absorption and anisotropic scattering in, (T), 22:11884
transport theory for, convergence problems with the Jacobi polynomial method, 21:33865
transport theory for, convergency of spherical harmonics method and its connection with the normal mode approach, 21:29852
transport theory for, development of correlation equations of, 21:23713 (CEA-R-3102)
transport theory for, diffusion length and criticality problems in two- and three-dimensional one-speed, (T), 23:5757
transport theory for, discrete angular grid and angular-biased Monte Carlo in, 24:28398 (ORNL-TM-2890)
transport theory for, discrete energy formulation of S/sub n/, 25:41187
transport theory for, eigenfunction expansion in anisotropic, 21:2589
transport theory for, energy-dependent Milne problem with absorption, 21:11943
transport theory for, ergodic formalism for, (T), 22:37273 (AD-664026)
transport theory for, exact solution of Milne problem with general scattering law in, (T), 22:22263
transport theory for, formulation in Monte Carlo terms of, 22:3941
transport theory for, formulation of discrete ordinates method in, 24:8810 (ORO-3858-1, pp 259-76)
transport theory for, formulation of energy-dependent, (T), 23:1763
transport theory for, generalized and extended angular density representation in, 24:47553
transport theory for, generating functions in, 24:8805 (ORO-3858-1, pp 137-58)
transport theory for, gross leakage effects in fine-structure cell calculations in, 21:17277
transport theory for, in plane geometry, 23:39922
transport theory for, lectures on, (T), 22:20402 (AEEW-M-676)
transport theory for, linear integral equations for H-functions in, 25:9953
transport theory for, macroscopic formulation using reflection and transmission matrices, (T), 23:3923
transport theory for, matrix Riemann—Hilbert problems related to, (T), 25:50622
transport theory for, method for solving Fredholm equations for initial-value problems in, (T), 22:53071
transport theory for, models for anisotropic weighting spectra in, 25:41192
transport theory for, numerical solution to time-dependent equations in, 24:15763
transport theory for, reciprocity theorems for time- and velocity-dependent, 21:13794
transport theory for, relation of variational principle to pseudoentropy production, (T), 22:7626
transport theory for, relaxation problems in, 24:8816 (ORO-3858-1, pp 380-414)
transport theory for, review of stochastic, 21:25395 (LA-DC-8706)
transport theory for, semi-analytic Monte Carlo method in linear, 25:14871
transport theory for, sequent correlations in evolutionary stochastic point processes in, 22:15712
transport theory for, solution of Riemann—Hilbert boundary value problem in, 23:44818
transport theory for, solution of time-dependent integro-differential equation in, (T), 25:17672
transport theory for, space-energy flux distribution in, 21:21404
transport theory for, space-time flux distribution in, 21:11940
transport theory for, stability of synthetic method in, 25:41171
transport theory for, unification of, 21:46655
transport theory for, use of Fourier integral techniques in, 21:38176
transport theory for, use of generating functions and reflection and transmission functions in, 21:33862
transport theory for, use of semigroup generator in, 24:49688
transport theory for, vacuum boundary conditions for P/sub N/ approximation, 21:7657
transport theory for, vacuum boundary conditions for multidimensional spherical harmonics method, 21:17275
transport theory for, variational method for, 21:17281
transport theory for, variational methods in, 21:21383
transport theory in asymptotic P/sub N/ approximation, (T), 22:20427
transport theory in circular cylindrical geometry, one-speed, (T), 23:5758
transport theory in discrete ordinates approximations, ray effects in, (T), 22:32476
transport theory in infinite homogeneous media with anisotropic scattering, two-group, 24:43095
transport theory in P/sub N/ approximations for plane geometry, matrix formulation of blackness conditions for, (T), 22:41940
transport theory in plane geometry, analysis of multi-group, (T), 25:22951 (TID-25644)
transport theory in plane geometry, eigenfunction expansion method in two-group, 22:35695
transport theory in plane geometry, energy-dependent, 21:2590
transport theory in plane geometry, energy-dependent, 21:2591
transport theory in plane geometry, semianalytical methods for, (T), 22:11883
transport theory in plane geometry, two-group, 24:15761
transport theory in R-Z geometry for reactors, use of Green's function for determining boundary conditions for, 23:37723
transport theory near temperature discontinuity, energy-dependent, 21:46653
transport theory of, adjoint Boltzmann equation and its simulation by Monte Carlo in, 24:28674 (ORNL-TM-2879)
transport theory of, branching processes in, 21:4175 (AD-632534)
transport theory of, comparison of two exact methods of, 24:6814
transport theory of, discussion of quantum-mechanical derivation of Boltzmann equation for, (T), 22:46706
transport theory of, geometrical interpretation of functions in, (T), 24:52372
transport theory of, integral stability of nonlinear, 21:5470
transport theory of, multigroup perturbation computer program for, 21:4176 (AWRE-O-40/66)
transport theory of, outer iteration scaling in, 24:28682
transport theory of, phase space time evolution method for, 25:5139
transport theory of, solution of infinite-medium and half-space multigroup problems with anisotropic transfer in, 23:39905 (TW-63)
transport theory of, solution of the equation by the Monte Carlo method, 23:44814
transport theory of, stochastic problems in, 21:23392 (ANL-7131)
transport theory of, structure of isotropic transport operators in three independent space variables for solution of problems in, 21:35385 (ANL-7328)
transport theory using canonical and involutory transformations for variational formulations, 21:25404
transport theory using central limit theorem, 21:11941
transport theory using invariant embedding, (T), 22:29858
transport theory using invariant imbedding, bibliography on, 21:31680 (IFA-FR-57)
transport theory using Monte Carlo method, 21:21386
transport theory using space-angle synthesis approximation, 21:38203
transport theory with anisotropic scattering for plane geometry, absorption effects on extrapolation length in, 21:35399
transport theory with anisotropic scattering in double P/sub l/ approximation, formulation using anisotropy functions, (T), 22:41934
transport theory with anisotropic scattering, space-time, 21:17279
transport theory with arbitrary anisotropy, P/sub L/ approximation for monoenergetic, 25:41172
transport theory with energy-dependent branching processes, (T), 22:35196 (EIR-133)
transport theory with isotropic scattering for plane geometry, time-dependent, 21:25417
transport theory with isotropic scattering, one-group, 21:9912
transport theory with isotropic scattering, transfer matrix formalism for, 21:7665
transport theory with separable scattering kernel, correspondence with nongrey radiative transfer, 21:5468
transport theory with separable scattering kernel, half-range orthogonality relations for, 21:7647
transport theory, analytical methods in, 25:59682
transport theory, problems in two-dimensional, 25:33376 (CONF-710107-, pp 305-24)
transport through boiling water reactor cooling channels, stochastic theory of, 23:34904
transport through cavities, mean-square passage lengths for, 21:33866
transport through concrete shielding, Monte Carlo calculations for, (T), 24:32872 (AAEC/TM-531)
transport through concrete slabs, adjoint S(sub n) calculations of, 25:47606
transport through ducts and cavities, modeling relationships in, 22:36958(R) (AD-663570)
transport through labyrinth of experimental facilities of 3.0-GeV proton accelerator, 23:44765
transport through liquid nitrogen from (d,t) source, calculation of, (T), 24:52371 (UCRL-50856)
transport through matter, description of UNC-SAM-2 Monte Carlo code for calculating, 21:21372 (UNC-5157)
transport through multilayer shielding, finite-difference method for calculation of, 21:21032
transport through plane parallel multilayer slabs, (T), 23:3542(T) (ORNL-tr-2021)
transport through space vehicle shielding, high-energy, 21:21008
transport through W/^{6}LiH shielding, (T), 23:30601 (N-69-15375)
transport with fission, solution of general anisotropic energy-dependent equation for, (T), 25:28155
transport, Monte-Carlo and shielding calculations for, 21:18787 (RISO-136)
transport, solving half-space problems for, with anisotropic scattering, 21:7570
transport, streaming through concrete ducts, (E/T), 22:31902
use for activation analysis of trace elements in animals, plants, and soils, 22:17049
use for biomedical radiography, clinical diagnostic possibilities of, 25:49249
use for determining ash content of carbon, 22:51272
use for diagnosis of thyroid disorders caused by radiation sickness in rats, 25:13497
use for measurement of film accumulation in water purification, 23:4528
use for molecular spectroscopy of glycine, 24:39537 (IN-1317, pp 209-31)
use for radiographic materials testing, 23:538
use for radiographic visualization of wet tissues, evaluation of, 22:40759
use for seed irradiation studies in barley, effectiveness of scandium-filtered beam source for, 24:39537 (IN-1317, pp 209-31)
use for therapy for neoplasms, combined effects of hyperbaric oxygen on, 23:38615
use for therapy of human tumors, evaluation of, 23:31874
use for therapy of neoplasms, effects of cellular anoxia on, 24:32135
use for therapy of rhabdomyosarcoma in rats, effects of dose fractionation on RBE for x, 24:32232
use for tumor therapy, methods for improving, 24:34531
use in crystal structure research, (E/T), 22:15921 (JUL-Conf-1(Suppl.))
use in crystal structure studies, (E/T), 22:15923 (JUL-CONF-1(Suppl.), Paper 3)
use in industrial radiography to produce visible image, 23:11735(P)
use in nuclear physics experiments, review of, 21:44501 (CONF-660925, pp 47-88)
use in radiography, 23:26485 (KURRI-TR-30)
use in radiography, 25:42575
use in radiography for inspection of reactor material, 23:26489
use in radiometric prospecting, 23:9543
use in well logging method for petroleum exploration, 23:2415
use of epithermal and thermal, for treatment of neoplasms, 23:35815(R) (NYO-3267-6)
use of pulsed, for reactivity measurements in NORA, 21:35716(R) (IAEA-3498-18)
use of pulsed, in reactor reactivity determinations, (E/T), 21:7928
use of pulsed, in reflected AGN type reactor reactivity measurements, 21:40689
use of pulsed, method for reactivity measurements, 21:12236(R) (IDO-17202)
use of reactor, in medicine, 22:43364
use of resonance, in activation analysis, 22:6261
use to determine soil moisture, bibliography on, 22:42862
use to measure soil moisture, 22:23131 (CONF-680112-1)
use to study crystal lattice structure and dynamics, review of Polish, 24:51844
uses in chemistry, 22:22955
uses in geophysics, 23:35328
uses in high-resolution radiography, 22:4373
uses in natural gas industry, review of, 22:25621
uses in nuclear well logging, review of, 24:314
uses in process control industry, review of, 25:13177
uses in radiography, 22:4369
uses in radiography, 22:4376
uses in radiography, design of equipment for, 25:54931(P)
uses in radiography, review on, 25:18615
uses in studies of condensed matter, 21:44500 (CONF-660925, pp 11-45)
uses in studies of condensed matter, review of, (E/T), 22:1570
variation method for measuring reactor power, use of space-dependent, 21:38532
velocity distribution in homogeneous media, computer program for calculating, 25:53490 (IAE-1969)
velocity in reactor cores, determination of most probable, 23:8217
vertex functions for npd, effect of N*N form factor on, 23:13111
wave analysis of, 21:30091(R) (ANL-7210)
wave and pulse propagation in research reactors, experimental techniques for measuring, 22:32996
wave experiment interpretation, velocity- and time-dependent method for, 21:38170
wave experiments in finite media, analysis using energy-dependent diffusion theory, 24:20301
wave experiments in hydrogenous systems, use of Boltzmann transport equation for, (E/T), 23:7422
wave experiments, relationship between neutron pulsed source experiments and, 21:38656 (BNL-11556)
wave field of, dispersion relations for, 24:28675 (ORNL-TM-2942)

wave function renormalization constant for, dispersion relation for, (T), 23:13127
wave propagation and reflection in water moderated assemblies, (E/T), 25:54277
wave propagation determination in moderating media by eigenfunction expansion method, (T), 21:44887
wave propagation experiments in polycrystalline media, elastic continuum in, (T), 22:32465
wave propagation experiments on, effects of cold neutrons in, (E/T), 23:5748 (KURRI-TR-36)
wave propagation experiments on, pulsed-source design using positive-ion electrostatic accelerators for, 23:10922
wave propagation experiments on, research summaries on, (E/T), 23:5749 (KURRI-TR-40)
wave propagation in beryllium and graphite, two-group study of, 23:44819
wave propagation in beryllium, calculations using multigroup diffusion theory, (T), 22:18094
wave propagation in bounded plane geometry, 25:59679
wave propagation in Bragg continuum, pseudo-discrete eigenvalues for, (T), 24:47936 (CONF-680980-, pp 379-96)
wave propagation in continuum region, (T), 23:3907
wave propagation in critical assemblies, effects of fuel rod arrangements on, (E/T), 25:26044
wave propagation in crystalline media, limiting critical frequency for, (T), 23:17054
wave propagation in crystalline media, limiting critical frequency for, (T), 23:17053
wave propagation in fast multiplying media, use of multigroup transport theory for analyzing, 23:49651 (ANL-7410, pp 387-442)
wave propagation in finite systems, dispersion relation for, (T), 22:18080
wave propagation in graphite, (T), 25:53500
wave propagation in graphite, analysis using multigroup theory, (T), 23:46906
wave propagation in graphite, Bragg cut-off effects on, (T), 21:27507
wave propagation in graphite, continuum modes of eigenvalues in, (T), 25:33952
wave propagation in graphite, diffusion approximation to Boltzmann equation for, (T), 22:48440
wave propagation in graphite, effects of Bragg continuum on, (E/T), 24:47972 (CONF-680980-, pp 363-77)
wave propagation in graphite—methacrylate and graphite—paraffin systems, (E), 23:49305
wave propagation in heterogeneous plane lattices, diffusion parameters for, (E/T), 24:47937 (CONF-680980-, pp 397-412)
wave propagation in heterogeneous reactors, multigroup diffusion theory analysis of, (T), 23:2120
wave propagation in heterogenous media, axial, (T), 23:42839
wave propagation in ice, calculations using multigroup diffusion theory, (T), 23:8913
wave propagation in infinite medium, analysis using energy-dependent transport theory, (T), 22:41936
wave propagation in lead, (E), 25:53499
wave propagation in moderators from modulated thermal source, interpretation of, (T), 23:21220
wave propagation in moderators, pseudo-mode analysis of, (T), 23:17056
wave propagation in multiplying and non-multiplying homogeneous medium, solution of Telegrapher's Equation for, 23:7423
wave propagation in multiplying media, (E/T), 23:5794
wave propagation in nonmultiplying media, theory of, (T), 23:3926
wave propagation in nonmultiplying media, theory of, (T), 23:3901
wave propagation in polycrystalline reactor moderators, velocity-dependent transport theory analysis of, (E/T), 22:35714
wave propagation in reactors, solution of the telegrapher's equation for arbitrary infinite plane source of, 23:47322
wave propagation in semi-infinite medium, analysis using invariant embedding, (T), 22:29858
wave propagation in water and graphite, calculations using Fourier transforms, (T), 23:37092
wave propagation in water and heavy water, eigenvalue structure and eigenfunctions for, (E/T), 25:1964
wave propagation of, analysis for surface and volume sources, 21:38184
wave propagation of, analysis using energy-dependent diffusion theory, 24:20312
wave propagation of, analysis using Fourier transform methods, 21:38183
wave propagation of, analysis using Laguerre polynomial solution of energy-dependent transport equation, (T), 23:19132
wave propagation of, calculations for three-dimensional system using Wiener—Hopf technique, (T), 24:10904
wave propagation of, convergence of eigenfunction expansion for, (T), 22:48428
wave propagation of, eigenfunction expansion method for, (T), 24:24489
wave propagation of, relation to sound wave propagation, (T), 23:28221
wave propagation of, simple model for, 21:38182
wave propagation of, transfer matrix for analysis of, 24:8815 (ORO-3858-1, pp 356-79)
wave propagation problem for, convergence of eigenfunction expansion method for solution of, (T), 22:32446
wave propagation through an interface, analysis using various diffusion and transport models, 24:28686
wave propagation through an interface, calculations using diffusion and transport theory for monoenergetic, (T), 23:21222
wave propagation through interfaces, analysis using four models, (T), 23:34710
wave propagation through interfaces, diffusion and transport approximations for, (T), 23:3896
wave propagation through interfaces, energy-dependent, (T), 22:32445
wave propagations in infinite medium, Fourier transform method for, (T), 23:37095
wave techniques for heterogeneous effects in reactor kinetics, (T), 24:7316
wave transport theory for solids, continuous eigenvalue spectrum in, 21:35402
wavelength determination by diffraction from static and rotating single crystals of sodium chloride, (E), 22:46709
waves in multiplying systems, analysis of source-transient region of, (T), 24:50220
waves of, use in reactor kinetics analysis, 21:30112 (CONF-660206, pp 1-19)
yield from 660-MeV protons on concrete, 22:34736
yield in deuteron reactions with deuterium and heavy ice, 23:42811
yield of tritiated titanium targets, rate of decrease of, 23:21184(T) (NP-tr-1731)
yields from deuteron reaction (d,n) with deuterium, use of neutron reaction (n,p) with phosphorus-31 as standard for measuring, 21:38264
yields from electron reactions with thick tantalum targets at 30 to 200 MeV, 21:12031
yields from fluorine-19 (α,n) reactions, 21:31777(R) (MLM-1388)
yields from mixtures of beryllium powder and polonium-impregnated microspheres, 21:36586
yields from plutonium carbides and oxides, 25:39562(R) (HEDL-TME-71-55)
yields from primary cosmic proton scattering in atmosphere, (E), 21:24942(R) (BSR-2018)
yields of accelerator sources, manganese bath activation detector for determining, 22:36037
NEUTRONS (anti n)
see also Neutron Beams (anti n)
detection of 2- to 4-GeV/c, design and performance of scintillation detectors for, 22:372
interactions anti n + d at 6.65 GeV/c, total cross sections for, 25:19907
interactions anti n + d, total cross sections for, (E), 25:59275
interactions anti N + N $\rightarrow \gamma + \gamma$, (n - p) mass difference from partial-wave amplitudes for, 23:18865
interactions anti n + n at 6.65 GeV/c, total cross sections for, 25:19907
interactions anti n + n at high energies, asymptotic summation of ladder diagrams for amplitudes of, 21:21208
interactions anti n + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions anti n + n, superconvergence relation for backward, (T), 21:44358
interactions anti n + n, total cross sections, (E), 25:59275
interactions anti n + p at 0.5 to 2.5 GeV/c, total and elastic cross sections for, (E), 24:3511
interactions anti n + p at 6.65 GeV/c, total cross sections for, 25:19907
interactions anti n + p at high energies, effective Lagrangians for, 23:15077
interactions anti n + p at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions anti n + p, quark additive model for sum rules for meson (π) multiple production from, 23:51928
interactions anti n + p, total cross sections for, (E), 25:59275
interactions $\gamma + n \rightarrow \pi^- + p$, strong-absorption Regge-cut model for, 25:47783
interactions n + p, conspiracy among Regge trajectories for forward charge exchange, 21:37776(R) (UCR-34-P-107-49)
production in anti p interactions in nuclear emulsions at 5 GeV/c, (E), 23:42555
production in $\gamma + p \rightarrow$ anti n + d interactions at 4.6 to 5.7 GeV, upper limit on cross section for, (E), 21:44247
NEUTRONS, COLD
(Neutrons of less velocity than thermal neutrons; at 15°C their energy is below 0.01 eV.)
attenuation by boron-loaded concrete, 24:34952
book: Low-energy Neutron Physics, 22:50519
capture by molecular hydrogen, γ spectra from, (E), 24:3839
deflection of, performance of curved total-reflecting collimator for, 21:26295
detection of ultracold, from pulsed fast reactor, (E), 23:10910 (JINR-P3-4127)
detection of, activation—scintillation techniques for, 22:12586
detection of, design of hexapole-magnet spectrometers for, 25:15935
effects on liquids and solids, equipment for measurement of, 22:12122
effects on reactor materials, equipment and programs for determining, 23:14374
effects on thermal neutron diffusion-length measurements in graphite, (E/T), 21:9913
electric dipole moment of, proposed experiment for determining, 24:30670
energy spectra, diffusion parameters, and storage times of ultracold, (E), 25:22956
energy-loss scattering experiments using time-of-flight method with research reactors, (T), 22:44594
filters for, effectiveness of polycrystalline and single crystal, 22:12144
filters for, performance of doubly bent total reflecting tube as, 21:11938
flux for hydrogenous reactor moderators, measurement of leakage, (E/T), 25:6203
penetration in graphite, Bragg cut-off effects on wave propagation, (T), 21:27507
production at FiR 1 facility using Triga Mark II, 21:7644
production at VVR—S reactor, design of curved-slit chopper for, 21:35761
production by filtering reactor spectra, techniques for, 22:7623
production by slowing-down in cold, solid hydrogenous moderators, temperatures and spectra from, (E/T), 25:12351
production from stationary reactors, diffusion length, spectra, and storage time from, (E), 25:20232 (JINR-P3-5392)
production of beams of, mechanical generator for, 25:43774
production of pulsed beams of, design of chopper-monochromator with curved slits for, 21:3346
production of trapped gas of, 24:18352
production of ultracold, 24:1727
production of, description of reactor supercooled and superheated gas loop for, 24:16170(P)
production of, design of facilities for, 24:1730(P)
production of, using moving reflectors, 23:37075
production using in-pile liquid hydrogen loops in DIDO reactors, 21:21753 (AERE-R-5168)
pulse shapes from injection of fast bursts into moderator configurations, 23:19115 (EUR-4081)
reactions (n,f) with plutonium-239, R-matrix calculation of cross section for, (T), 24:18414
reactions with aluminum-27 and gold-197 at 0.1 to 60 μeV, total cross sections for, (E), 23:23660
reactions with benzene, diphenyl, and terphenyl at -60 to +180 deg C, total cross sections for, (E), 21:5478
reactions with cadmium at 8 μeV, total cross section measurements by Doppler chopper method, (E), 22:53190
reactions with dysprosium, erbium, holmium-165, lutetium, terbium-159, and thulium-169, total cross sections for, (E), 23:49332(R) (EANDC(E)-115(U))
reactions with liquid sulfur, total cross sections, 25:38850
reactions with polyethylene and polystyrene at low temperature, total cross sections for, (E), 21:27513
reactions with tantalum-181, cross sections for, 22:20561 (AHSB(S)R-141)
reactions with terbium-159, dysprosium, holmium-165, erbium, thulium-169, and lutetium at 0.1 to 3 MeV, cross sections for, total, (E), 24:38257
reactions with uranium-235, mass yields from fission, 24:29308(R) (BMBW-FBK-70-4)
reflection in magnetic neutron guides, description of asymmetries using spin-orbit effect, (T), 24:35804
scattering below 10^{-5} eV, spectrometer for total cross-section measurements of, 24:46510
scattering by acetic acid, benzene, dioxane, ethylene glycol, naphthalene, and water, (E), 22:32429(T) (KFK-tr-235)
scattering by ammonium carbonate, ammonium citrate, and ammonium acetate, energy spectra in, 21:31479
scattering by amorphous and crystalline selenium, spectra of inelastic, 21:46416
scattering by barium, lead, and strontium titanates, (E), 21:13360
scattering by benzene and water, inelastic, (E/T), 22:29871
scattering by beryllium single crystals, single differential cross sections for, (E/T), 23:37064(R) (GA-9326)
scattering by bismuth and lead, cross sections for incoherent, (E), 23:17062
scattering by bismuth—gallium, bismuth—zinc, and gallium—lead alloys, temperature dependence of critical opalescence in, (E), 22:44595
scattering by bismuth-209 and lead at 0.4 to 1.3 MeV, cross sections for incoherent, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by bismuth-209, decay constants and diffusion lengths for pulsed, (T), 25:36655
scattering by carbon dioxide and carbon disulfide near critical point, coherent, (E), 22:32431 (KFKI-10/1968)
scattering by crystal lattices, frequency spectra from inelastic, (E/T), 21:21398
scattering by crystals, cross section for inelastic, (T), 21:44540
scattering by cubic-structure metals, lattice vibrational spectra and physical characteristics from, 25:36319
scattering by cyclic hydrocarbons, rotating-crystal spectrometer for analysis of, 22:45329
scattering by defects in neutron-irradiated aluminum, (E), 22:31967
scattering by deuterated and natural glycerol, 23:26214 (IFA-FN-35)
scattering by deuterated glycerine, quasi-elastic, (E), 23:1776
scattering by deuterated liquid methane, (E), 21:17340(R) (AEET-267)
scattering by deuterium-substituted methane, (E), 22:24835(R) (BARC-305)
scattering by dysprosium-160, dysprosium-161, dysprosium-162, dysprosium-163, and dysprosium-164 at 1.08A, amplitudes and cross sections for coherent, (E), 22:53211
scattering by ferromagnetic and paramagnetic materials, inelastic, (T), 21:38352
scattering by gaseous ammonia and methane, inelastic, (E), 22:18086
scattering by gaseous argon-36 near condensation point, cross section for inelastic, (E), 23:21230
scattering by graphite and nickel, small-angle, (E), 22:29850
scattering by hydrogen in hydrides, localized vibration modes from inelastic, 21:29362
scattering by ice and water, inelastic, (E), 22:35205
scattering by incoherent liquids, phenomenological models of quasi-elastic, (T), 25:7798
scattering by iron near Curie point, critical, (E), 22:22520 (CEA-R-3317)
scattering by iron near Curie temperature, inelastic, (E), 22:32430 (KFKI-8/1968)
scattering by iron, temperature dependence of small-angle critical magnetic, (E), 22:13918

scattering by liquid and solid deuterium and hydrogen, (T), 21:19157
scattering by liquid argon, temperature dependence of quasielastic, (E), 22:24785 (BNL-12372)
scattering by liquid bismuth—zinc alloys, critical inelastic, (E), 22:13896 (AERE-R-5627)
scattering by liquid gallium, cross section for, (E/T), 22:26780
scattering by liquid helium near lambda point, (E), 21:17318(R) (AECL-2659)
scattering by liquid helium, (E), 21:40473(R) (PR-P-74)
scattering by liquid helium, inelastic, (E), 22:32512(R) (AECL-3108)
scattering by liquid lead, sodium, and tin, (E), 24:24495
scattering by liquid methane, (E), 21:17340(R) (AEET-267)
scattering by liquid methane, correlation with infrared and Raman spectra, (T), 21:11935
scattering by liquid methane, cross section calculations for, (T), 23:44813
scattering by liquid methane, differential cross section for, (T), 21:44538
scattering by liquid tetra-deuterated methane, determination of molecular dynamics from, (E/T), 24:4991 (BARC-286)
scattering by liquid—gas systems near critical point, coherent, (E), 22:32431 (KFKI-10/1968)
scattering by liquids and solids, (T), 21:25183
scattering by liquids, calculation of time-of-flight spectra for, (T), 23:15329 (AECL-3189)
scattering by local vibrations in crystals, coherent effects in, (T), 24:49679 (ITF-70-30)
scattering by magnesium oxide, dosage effects on cross section for, (E), 24:35801
scattering by magnetic and nonmagnetic materials, (T), 22:20428
scattering by metallic erbium powders, (E), 21:12011 (AECL-2639)
scattering by molecular liquids, (T), 21:2651(R) (AECL-2612)
scattering by molecular liquids, cross section calculations for, (T), 23:44813
scattering by molecules of the point group C/sub 3v/, cross sections for, (T), 22:48429
scattering by n-propyl alcohol at -120 to +50°C, (E/T), 21:12013(R) (EANDC(OR)-44(L))
scattering by niobium and thorium hydrides, 24:46746
scattering by ordinary and deuterated ethanol and methanol, total cross sections for, (E), 25:5500
scattering by oxygen-17, length for coherent, (E), 25:14862 (AERE-R-5770)
scattering by parahydrogen at 4 to 5 MeV, coherent scattering lengths and total cross sections for elastic, (E), 25:38853
scattering by paramagnetic manganese oxide, 23:42450
scattering by polycrystals of tin, inelastic, (E), 22:13923
scattering by potassium acid phosphates, quasi-elastic, (E), 22:7378
scattering by rubidium, amplitude and cross section of coherent, (E), 24:43101
scattering by solid and liquid hydrogen, inelastic, (E), 24:10899
scattering by solid methane and ammonium iodide, (E), 21:4185
scattering by tungsten-186, amplitudes for coherent elastic, (E), 25:10026 (JINR-E3-5371)
scattering by uranium and yttrium hydrides, vibration-spectra measurement using, 21:3677
scattering by uranium carbide and uranium dioxide, coherent elastic, (T), 23:37064(R) (GA-9326)
scattering by zirconium hydride, total cross section for, (E), 25:56623
scattering cross sections for vanadium, inelastic, 21:38283
scattering from adsorbed molecules, (E), 22:1012
scattering from paramagnetic chromium halides, 22:13604
scattering in ferromagnets, theory of fluctuations and, 21:21097
scattering in liquid cyclohexanol, incoherent quasi-elastic, 25:3534
scattering in liquid methane, multiple scattering effect in, 25:41189
scattering inelastically on solid benzene at 77 to 298°K, (E), 22:5408 (IFA-FN-29)
scattering law for graphite at 533°K, (E), 21:35437(R) (EANDC(E)-76(U))
scattering law for polycrystalline beryllium, (T), 23:37064(R) (GA-9326)
scattering length for bound bismuth atoms, (E), 23:49302
scattering of ultra-, features of magnetic, (T), 25:38851
scattering of, by hydrated salts of transition metals, 21:10331
scattering of, multiple inelastic, (T), 21:17318(R) (AECL-2659)
scattering on dicalcium strontium salt of propionic acid, (E), 21:37617
scattering on liquid lead, collective motions in, 23:25428 (IN-1218, pp 141-79)
scattering on nuclei, fast Fourier transformation of time-of-flight spectra for obtaining intermediate scattering functions for, 25:32267
scattering spectra from polycrystalline and liquid aluminum, (E), 21:9307
source of, description of FR2 reactor R3 horizontal hole facility for helium-cooled, 23:7402 (KFK-818)
sources for high flux reactor cores, testing of liquid hydrogen and liquid deuterium, 23:31196 (CEA-R-3505)
spectra measurements of, methods for, 24:21010
spectra of, transmission functions of neutron choppers with circular slits for measuring, 25:15932
spectroscopy of, improvement in time-of-flight techniques for, (E), 22:26778
transmission through simple bent conducting tubes, calculation of, 25:20245
transport in graphite, description using two-group theory, (T), 23:37066 (KURRI-TR-26)
transport in materials with Bragg cutoff, description using two-group theory, (T), 23:37066 (KURRI-TR-26)
use to study matter, lecture on, 21:46640 (BNL-50059)
wave propagation experiments on, interpretation of, (E/T), 23:5748 (KURRI-TR-36)
wave propagation in graphite, (T), 22:22532
wave propagation in graphite, effects of Bragg cut-off on, (E/T), 22:41928
NEUTRONS, DELAYED
(Neutrons emitted within several seconds following fission of a nucleus.)
abundance and half-lives of 14.7-MeV fission, 25:23755(R) (LA-4605)
abundances and half-lives of groups of, from californium-252 spontaneous fission, (E), 24:5433
abundances and periods of, from 14-MeV neutron fission, 24:18901(R) (LA-4320)
abundances in fission reactions, comparison of calculated fission yields of neutron precursors with, (E/T), 22:29994
age to thermal energy in water, for paraffin—uranium fluoride UF, assemblies, 23:7281(R) (ORNL-4280)
bibliography, 21:35461 (LS-174)
calculation of pulsed neutron source exponential pile, methods for, (T), 23:17275
conference on, Vienna, April 24 to 27, 1967, 24:30760 (STI/PUB-176)
decay rates in NRX reactor, comparison of calculated and measured, 22:6081
delay times for, calculation using multigroup theory, 21:40616
detection and measurement for DMTR boiling water loop, testing of equipment for, 21:34159 (TRG-Report-1416)
detection and measurement of, use in control of nuclear materials, 22:6206 (LA-3741)
detection and use in analysis of fissionable material in recovery cans, 24:39172(R) (LA-4457)
detection and use in analysis of fissionable materials, 25:356(R) (LA-4523)
detection for analysis of uranium scrap, detector array arrangement for, 25:8447(R) (BHO-65-1)
detection in fuel element claddings, design and performance of boron-lined proportional detector for, 23:17545
detection in reactor cooling systems, use for measurement of fission product distribution of, 23:40362
detector response for, two stage Monte Carlo calculations for, (T), 25:6151
distribution in fast reactor systems, comparison of prompt neutron, (T), 24:7319
distribution in heavy water moderated reactors, performance of improved rod-drop method for measurement of, (E/T), 23:47185
distribution without temperature feedback of stationary reactor, analysis of probability, (T), 23:33098 (WAPD-TM-855)
effective fraction in fast reactors, LAMB code for calculation of, 23:21550 (WCAP-7082)
effective fraction of, in a uranium—water lattice, (E/T), 22:25104
effects on autonomous nonlinear power oscillations in reactors, (T), 24:50228
effects on excursions with ramp reactivity insertion in reactors, 24:22486
effects on interpretation of pulsed-source experiments, analysis of, 21:40596
effects on reactivity and control rod drop measurements in heavy water moderated assemblies, 22:27472
effects on reactivity during fuel density oscillations in reactors, (T), 25:10305 (IAE-1955)
effects on reactivity in UTR-Kinki, 23:31204
effects on reactor dynamics of, integrodifferential equations for, (T), 23:24001
effects on reactor stability, (T), 24:4141
effects on stability of linear two-temperature reactor model, 21:38565
effects on stability of reactors, 21:31948 (TID-23844)
effects on stability of two-temperature reactor model, 21:8076
emission and precursors of, studies of, (E/T), 22:29949
emission by separated short-lived fission products, (E), 21:23478 (IS-1413)
emission from fission fragments, mass and time dependence of, (E), 24:30768
emission from fission fragments, theory for, 25:5851
emission from fission products, Bandsaw technique for studies of, 24:30775
emission from fission products, calculations for, (T), 24:30909
emission from fission products, experimental techniques for studies of, 24:30769
emission from gaseous fission products, isotope separator for use on-line with Ames Research Reactor for analysis of, 21:42813 (IS-1600, Paper 7)
emission from products of high-energy nuclear reactions, review of research on, 24:30771
emission from products of uranium-235 thermal neutron fission, predictions for, (T), 24:30767
emission from separated isotopes of gaseous uranium-235 fission products, (E), 21:33960 (IS-1567)
emission from tellurium-134 following antimony-134 beta decay, (E), 22:5852
emission from uranium-233 and -235 neutron fission, relative abundances and half-lives of groups of, (E), 25:5689
emission in decays of short-lived separated isotopes of gaseous fission products, correction to mass-formula predictions for, (T), 24:40644
emission in thermal neutron reactions (n,f) with uranium-235, mass and time distribution of, (E), 24:28776(T) (LA-4176-tr)
emission in thermal-neutron fission of uranium-235, (E), 21:15590
emission measurements in krypton-92 and krypton-93 fission products, use of on-line isotope separator system, 21:42278 (IS-1600, Paper 6)
emission of, energy spectra and probabilities for, (T), 25:3713 (CEA-N-1333)
emission of, fragment mass and time dependence of, (E), 23:15491
emission of, review of data on, 24:30874
emission probabilities for cesium and rubidium precursors, (E), 23:17111
emission probabilities of precursors, semi-empirical treatment of, 24:22106
energy spectra from uranium neutron fission, (E), 25:41244
energy spectra from uranium-235 fission, fast separation of bromine precursors for study of, 25:57504
energy spectra from uranium-235 neutron fission, (E), 24:30774
energy spectra of, automatic system for measurement by time-of-flight method, 21:42642
energy spectra of, multiplication effects in measurement of, 25:5774
energy spectra of, progress report on measurement of, 24:38216(R) (RLO-2215-1)
experimental data on, summary of, 24:30776
flux distribution near reactor control rod channels, (T), 21:17471 (UJV-1616)
fraction calculations for seed-blanket reactors, BE-21 computer program for, 24:28998 (WAPD-TM-941)
fraction effects on few group space—time analysis of neutron flux distribution in water cooled breeder reactors, 24:28997 (WAPD-TM-938)
fraction for in-core thermionic thermal reactors, effective, (T), 25:20825
fraction in fast critical assemblies, calculation method for effective, (E/T), 24:31127 (SRARI-P-53)
fraction in LOFT, calculation of effective, 21:30146(R) (IDO-17213)
fraction in MSRE, use of neutron fluctuation analysis for measuring, 21:34523 (ORNL-4091, pp 136-82)
fraction in plutonium fueled water moderated lattices, ratio of prompt neutron lifetime to effective, (E/T), 25:23413
fraction in pressure tube type heavy water reactors, effects of photonuclear reactions on, (T), 25:51045 (JAERI-13699)
fraction measurements for fast reactors, effects of neutron spectra on, (E/T), 24:47818 (ANL-7610, pp 61-258)
fraction measurements in critical assemblies, use of statistical methods for, 23:11294 (RCN-98, pp 229-38)
fraction measurements in fast critical assemblies, methods for effective, 24:47891 (ANL-7610, pp 369-464)
fraction measurements in pulsed ZPR-3 Assemblies 53 and 54, 24:47818 (ANL-7610, pp 61-258)
fraction of, semi-statistical method for measuring effective, 21:19279
fraction ratio with effective neutron generation time, noise analysis for, 21:18301(R) (IN-1048)
group theory description of, coupled-core reactor model and computer code based on, 21:40617
group-collapsing method for, description of, 22:39876 (CEA-R-3375)
groups from alpha and helium-3 fission of bismuth-209, thorium-232, and uranium-238 and spontaneous fission of californium-252, half-lives of, (E), 25:10056
half-life determination of, design of spectrum multiscale system for, 21:42813 (IS-1600, Paper 7)
half-lives and abundance in thermal neutron fission of plutonium-239, uranium-233, and uranium-235, (E), 23:37231
half-lives and abundances in plutonium-242 fast neutron fission, (E), 25:5775
kinetic response of, mathematical simulation of, 24:18901(R) (LA-4320)
kinetics of heavy-water reactor, parameters of, 21:8080
life spans in Triga reactor of, digital computer analysis of noise for, 21:44951
measurement in safeguards system, 24:39197 (WASH-1147, pp 145-52)
measurement of AFSR-type reactor, use of bandsaw shaped foil tape for, (T), 23:47237 (CNM-R-2(Vol.1), pp 310-18)
measurements in ZPR-3 and ZPPR, evaluation of errors in effective, 24:7239
monitoring for determination of fissionable material in fuel reprocessing steps, 22:12225 (ORNL-4135)
monitoring for liquid metal cooled fast breeder reactor fuel element failure detection system, 25:57055 (JAERI-Memo-4157, pp 84-8)
monitoring for water cooled research reactor fuel element failure detection system, 25:57119 (JAERI-Memo-4157, pp 51-65)
monitoring of, equipment design for operation in gamma field for, 22:12404 (ORNL-4094, pp 19-27)
monitoring of, use for detection of failure of liquid metal cooled fast breeder power reactor fuel elements of, 23:31179 (ANL-7533)
multiplication factor of reflected subcritical assembly using, new method for calculating, (T), 21:44867
multiplication in far-subcritical fissionable materials samples, (E/T), 24:2434
multiplication in thin samples of uranium-235 and uranium-238, calculations using zero prompt lifetime approximation, (T), 23:30911 (LA-DC-9762)
multiplication in thin subcritical systems, calculation of, 23:4361
noise analysis in reactor external control loop, (T), 23:13573 (KFK-786)
precursors of, data tables of properties of, 23:44932
production by deuterium (γ,n) reactions in heavy water reactors, (E), 22:24824
reaction rate data for, effects on gas cooled fast reactors of uncertainties in, 23:37463
relative value in reactors, calculation of, (T), 22:32470

release from fuel cladding, detection system for, 22: 10110(P)
research on, survey of, 24:30796
spectra from neutron-induced and spontaneous fission, review of, 25:20362 (ANL-7747)
spectra in few-group reactor kinetics calculations, relative importance of, 24:16277 (IN-1356)
spectra measurements of, development of equipment for, 24:48302(R) (RLO-2225-T-17-1)
spectra of, design of special purpose discriminator for measuring, 21:16248
spectra of, effects on fast reactor dynamics of, (T), 24: 31045
spectra of, effects on fast reactor physics and design of, 24:31044
spectra uncertainty effects on fast reactor dynamics and stability, 23:4439
spectral measurements in Ames Research Reactor of, design of pulse risetime discriminator for, 21:42813 (IS-1600, Paper 7)
spectrum of, in 4.1-second nitrogen-17 decay, 21:5834 (IA-1082, pp 77-202)
theory for, 25:23015 (AERE-R-6596)
transport equation using one-collision operator for, two-time doublet, (T), 22:44585
use for determination of uranium in borehole samples, 25:29202(T) (CEA-tr-R-1978)
uses in analysis of fissionable materials, 25:37570
yield following oxygen-17(n,p) reactions, 24:6834
yield in uranium-235 thermal neutron fission, 24:30797
yield of, ratio of prompt generation time to total, 21: 35648 (NAA-SR-11850)
yields from bromine and iodine isotopes, 24:30770
yields from fast neutron fission of thorium-232 and uranium-238, 24:11549 (IA-1190, pp 93-122)
yields from fast-neutron fission of thorium-232 and uranium-238, 24:30770
yields from fission of thorium-232 and uranium-238 with 14-MeV neutrons, 24:29308(R) (BMBW-FBK-70-4)
yields from neutron fission of plutonium-239, thorium-232, uranium-233, uranium-235, and uranium-238 at 5 to 8 MeV, (E), 24:30772
yields from neutron fission of thorium-232, uranium-235, and uranium-238 at 3 and 14 MeV, (E), 22:24859 (LA-DC-9403)
yields from neutron fission of thorium-232, uranium-235, and uranium-238 at 3 and 14 MeV, absolute, (E), 22: 32591
yields from neutron fission of thorium-232, uranium-233, uranium-235, and uranium-238 at 3.1 and 14.9 MeV, absolute, (E), 23:31026
yields from neutron fission of uranium-235 and -238 at 15 to 21 MeV, (E), 24:30773
yields from photofission for isotopic analysis, 23:4018
yields from photofission of plutonium-239, uranium-235, and uranium-238, (E/T), 23:10997 (GA-8812)
yields from thermal neutron fission of plutonium-239, uranium-233, and uranium-235, 24:11549 (IA-1190, pp 93-122)
yields from thorium-232 (n,f) reactions at 1.7 to 3.0 MeV, (E), 25:53739 (FEI-195)
yields from thorium-232, uranium-235, and uranium-238 fast neutron fission, 24:47637 (ANL-7610, pp 1-59)
yields from uranium-235 and -238 photofission, time-dependent, (E), 24:18417
yields from uranium-235 thermal neutron fission, (E), 24:18406 (CONF-680461-6)
yields from uranium-238 proton fission at 150 MeV, (E), 24:30771
yields in pressure tube type heavy water reactors, effects of photo-reactions on effective, (T), 25:18118
yields in protactinium-231 neutron fission, 24:52614
yields of, measurements of absolute, 24:18901(R) (LA-4320)
NEUTRONS, EPITHERMAL
(Neutrons of greater velocity than thermal neutrons; at 15°C their energy is 0.1 to 100 eV.)
absorbed dose in air, concrete, and water, (T), 21:18792
absorption and spectra of, computer program for, 21: 7624 (AECL-1996(Suppl.))
absorption at isolated resonances, (T), 22:44581
absorption by 1/v absorbers in a 1/E flux, (E), 25:17667
absorption by cesium-133, resonance parameters for, (E), 23:42942
absorption by europium, cross section evaluation for use as plutonium simulator and spectral index, (E), 23: 37067 (RT/FI-(68)52)
absorption by plutonium-239, cross section for, (E), 23: 7281(R) (ORNL-4280)
absorption by silver in reactor spectrum, cross section and resonance integral for, (E), 22:44745
absorption by uranium-235 up to 100 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
absorption by uranium-238, flat-flux approximation for resonance, 22:18607
absorption by uranium-238, measurement of epicadmium to subcadmium ratios, 21:19466 (INR-748/IXA/PR)
absorption cross sections and resonance integrals for ytterbium-168, -170, -171, -172, -173, -174, and -176, (E), 22:20562 (BNL-12263)
absorption cross sections for lead and uranium-238 at 30 keV, (E), 21:25505 (EURFNR-299-F)
absorption cross sections for plutonium-239, (E), 23: 37234
absorption cross sections for, design of reactor oscillator for, 21:40358
absorption in cluster of plutonium recycle fuel elements, ratio of unit slowing-down density to, (E/T), 24: 53001(R) (MIT-3944-4)
absorption in fissile and fertile materials, use of local pile oscillator for measurement of resonance, 24:47910
absorption in heterogeneous systems, calculation of materials constants for resonance, 22:44901 (UJV-2010)
absorption in indium, resonance parameters for, (E), 24: 3947
absorption in lanthanum and nitrogen, spin dependence of, 23:46900
absorption in reactor fuel elements, ratio of unit slowing-down density to, (E/T), 24:53000(R) (MIT-3944-1)
absorption material for, description of multi-layer concentric cylinder, 22:14283(P)
absorption parameters for reactor fission product buildup, use of Nephew's principle for determining, 24:5560 (CISE-R-111)
absorption resonance integral for californium-252, (E), 23:1882 (WASH-1093)
attenuation factors for gold-197, (E), 21:44669 (NAA-SR-12499)
attenuation in shielding assemblies of BR-5 Reactor (USSR), analysis of, 22:18565
beams of, production of, for use in therapy of human malignancies, 21:6576
calculation in uranium—heavy water lattices with the presence of plutonium isotopes, 23:15712
capture and distribution in fuel elements, computer analysis of, 21:5615 (GEAP-4973)
capture and transmission by gadolinium isotopes, resonance parameters for, (E), 23:40053
capture by A = 115 to 197 nuclei, cross-section data evaluation for activation detectors, 23:3995 (BLG-421)
capture by aluminum, iron, nickel, and sodium at 1 to 100 keV, resonance, (E), 21:40432 (WASH-1074)
capture by aluminum, iron, nickel, and sodium, resonances in, (E), 21:31834(R) (ORNL-4082)
capture by aluminum-27, γ spectra for, (E), 23:34735 (ANL-7282, pp 14-18)
capture by americium-241 and -243 at 0.2 to 20 eV with fission isomer excitation, cross section and prompt-to-isomer fission ratio in, (E), 25:20412
capture by antimony, γ spectra from, 24:6899
capture by antimony-121 and antimony-123, cross sections for, (E), 23:13273
capture by arsenic-75, high-energy gamma spectra from, (E), 23:37161
capture by barium-135 and praseodymium-141, γ spectra for, (E), 23:40073
capture by cesium-133, γ spectra for resonance, (E), 23: 15450
capture by cesium-133, γ spectra from, (E), 23:49386(T) (BNL-tr-284)
capture by chlorine-35, copper, iron, manganese-55, mercury, and thulium-196, γ spectra for, 23:52128
capture by cobalt, determination of resonance integral for, 23:37612 (EUR-4227)
capture by cobalt, gold, platinum, tin, and tungsten, γ spectra for, (E), 23:42909 (CEA-R-3776)
capture by cobalt-59 and gold-197, γ spectra and cross sections for, (E), 23:37141
capture by cobalt-59, activation cross sections for, (E), 22:50558 (AEEW-R-597)
capture by cobalt-59, copper-63, and manganese-55, search for direct, (E), 23:17085 (UCRL-50504)
capture by cobalt-59, direct component in cross sections for, (E), 23:34745 (ANL-7282, pp 483-91)
capture by cobalt-59, γ spectra and direct mechanism for, (E), 23:15388
capture by cobalt-59, partial radiative widths for, (E), 23:5901
capture by copper-63, copper-65, and iron-56, γ spectra from, (E), 22:35285(R) (AERE-PR/NP-13)
capture by dysprosium-163, gadolinium-155, gadolinium-157, and samarium-147, γ spectra from resonance, (E), 23:25901 (IN-1218, pp 73-138)
capture by erbium-167 up to 30 eV, γ spectra from resonance, (E), 23:23687
capture by erbium-167, average γ spectra from resonance, (E), 22:42049
capture by erbium-167, γ resonance, (E), 22:27087(R) (ANL-7405)
capture by europium-151 at 0.02 to 0.75 eV, total and activation cross sections for, (E), 25:50736
capture by europium-151 at 0.321 and 0.460 eV, activation cross section and isomeric cross-section ratio for, (E), 23:5895
capture by gadolinium at 0 to 100 eV, cross section for, (E), 22:29830 (GA-8602)
capture by gadolinium, gadolinium-152, and -154, transmission measurement of resonances in, 23:47013
capture by gadolinium-155 and -157 up to 90 eV, cross sections and resonances in, (E), 24:38230
capture by gadolinium-155 at 0.02 to 63 eV, γ spectra for resonance, (E), 22:46764 (IAE :443)
capture by germanium-74, germanium-76, selenium-80, strontium-84, and zinc-68, isomeric cross-section ratios for, (E), 22:15977
capture by gold-197 and thulium-169, γ spectra from, (E), 22:3686 (BNL-11903)
capture by gold-197 and tungsten-186, measurements of γ spectra using liquid scintillator for resonance, (E), 22:48423 (RPI-328-133, pp 1-34)
capture by gold-197, motion-induced, temperature-independent effects on, (E), 25:34109
capture by gold-197, platinum-195, and tungsten-183 in resonance region, partial radiative widths for, (E), 23: 5901
capture by hafnium at 1 to 10 eV, γ spectra for, (E), 23: 34782 (ANL-7282, pp 514-22)
capture by hafnium-177 up to 8.8 MeV, γ singles and coincidence spectra for, (E), 23:13288
capture by hafnium-177, γ spectra for, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by hafnium-177, molybdenum-95, molybdenum-96, palladium-105, ruthenium-99, and ruthenium-101, cross sections and resonance spin assignments for, (E), 22:48554
capture by hafnium-178 and hafnium-180, γ spectra from resonance, (E), 23:1882 (WASH-1093)
capture by heavy nuclei, cross-section ratios and gamma spectra from cascade theory, (T), 25:12626 (FMRB-33/70)
capture by holmium-165 at 18 to 86 eV, gamma spectra and resonance spins of, (E), 24:52596
capture by holmium-165 at 18 to 86 eV, gamma spectra from, (E), 24:24553 (RPI-328-186)
capture by indium-115 and rhodium-103, isomeric cross section ratios for, (T), 23:19266
capture by indium-115, γ-ray energies and intensities for, 23:44848(R) (AECL-3333)
capture by iridium-191 and iridium-193, γ spectra from, (E), 25:46039
capture by iron at 4 to 50 eV, search for resonances in, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by iron-56, partial cross sections for, (E), 23: 1882 (WASH-1093)
capture by iron-56, sodium-23, and thorium-232, γ spectra and radiative widths for, (E), 22:20498 (BNL-12268)
capture by lutetium-175, mechanism and resonance parameters for, (E), 25:20476
capture by lutetium-175, resonance spin assignments for, (E), 25:14982 (NCSAC-31)
capture by manganese-55, cobalt-59, niobium-93, tantalum-181, uranium-236, neptunium-237, americium isotopes, and curium isotopes, effective resonance integrals for, (E), 23:37189 (IN-1296)
capture by manganese-55, indium-115, antimony-121, antimony-123, and lanthanum-139, resonance integrals for, (E), 22:46758
capture by molybdenum-95, molybdenum-96, and rhodium-103, γ spectra from resonance, (E), 23:1882 (WASH-1093)
capture by natural neodymium and neodymium isotopes, γ spectra and resonance parameters for, (E), 23:8981
capture by neptunium-237 at 37 to 42 eV with excitation of fission resonances, γ spectra from, (E), 24:15944
capture by niobium-93, resonance parameters and γ spectra for, (E), 22:53194
capture by niobium-93, resonance spin assignments and radiative widths for, (E), 23:17103(R) (ANL-7481)
capture by nuclei, level parameters from gamma spectra from, 24:30684 (BNL-14468)
capture by nuclei, mechanism of, 21:42717
capture by nuclei, spectroscopic techniques and measurements for, 24:6908
capture by nuclei, use of γ-ray spectroscopy for, 24: 18405 (BNL-14200)
capture by oxygen-15, particle—hole calculation of cross section for, (T), 23:19185
capture by platinum, silver-107, silver-109, and thulium-169, γ spectra and resonance parameters for, (E), 24: 52639
capture by platinum-195 at 12, 20, and 67 eV, gamma spectra from resonance, (E), 21:25518 (WASH-1071)
capture by platinum-195, interference effects in resonances of, (E), 23:34780 (ANL-7282, pp 501-6)
capture by platinum-195, radiative widths for resonance, (E), 23:5880
capture by plutonium-240 in 1.056-eV resonance, pseudo-resonance escape probability for, (E), 24:52574
capture by plutonium-240, radiative widths for resonance, (E), 22:32598
capture by plutonium-240, resonance radiative widths for, (E), 23:5924
capture by praseodymium-141, fluctuation of partial radiative widths in, (E/T), 23:49396 (UJV-2228-R)
capture by rhenium-185 and rhenium-187, cross sections and resonance parameters for, (E), 22:30014
capture by rhenium-187 at 4.41 eV, γ spectra from, (E), 23:23686
capture by silver-109, γ spectra for, (E), 23:34800
capture by tantalum-181 at less than 350 eV, cross section and Q value for, (E), 23:37229
capture by thorium-232 at 0.1 to 3.4 eV, cross section and resonance parameters for, (E), 22:35343
capture by thulium-169, γ spectra for, (E), 23:34779 (ANL-7282, pp 473-82)
capture by thulium-169, partial radiative widths for, (E), 22:53206
capture by tin isotopes, partial widths for, (E), 23:8995
capture by tin-117, cross section for, (E), 23:47024
capture by tin-118, p-wave, (E), 22:3686 (BNL-11903)
capture by tin-118, tin-122, and tin-124, γ ray angular distributions for, (E), 23:34772 (ANL-7282, pp 290-5)
capture by tungsten, calculation of gamma yields using cascade model, (T), 23:37235
capture by tungsten, γ spectra for, 23:49398 (WASH-1127)
capture by tungsten, γ spectra for, (E), 23:34778 (ANL-7282, pp 459-72)
capture by tungsten, γ spectra from, (E), 23:5912
capture by tungsten, partial widths for, (E), 23:13285
capture by tungsten-182, -183, -184, and -186, resonances in, (E), 22:22592 (RPI-328-112, pp 1-15)
capture by tungsten-183 at 7.6 eV, γ—γ coincidence spectra for, (E), 23:7304
capture by tungsten-183, γ spectra for, (E), 23:34777 (ANL-7282, pp 440-8)
capture by tungsten-183, resonance widths for, (E), 23: 13285
capture by tungsten-186, γ spectra for, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by uranium-233 at 20 to 63 eV, cross section for, (E), 22:39652
capture by uranium-233 below 4 eV, cross section for, (E), 23:7281(R) (ORNL-4280)
capture by uranium-233 up to 1 eV, cross section for, (E) , 23:37242
capture by uranium-233 up to 60 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
capture by uranium-233, cross section for, (E), 22:29986 (ORNL-TM-2140)
capture by uranium-233, cross section for, (E), 22:20576 (ORNL-TM-2159)
capture by uranium-233, cross section for, (E), 23:1882 (WASH-1093)
capture by uranium-233, measurements of cross sections for, (E), 22:48558
capture by uranium-233, review of resonance integral measurements for, (E), 23:15484

capture by uranium-235 up to 100 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
capture by uranium-235, resonance spin assignments by capture gamma-ray multiplicity measurements, (E), 24: 43319 (UCRL-50881)
capture by uranium-235, temperature dependence in uranium dioxide rods, (E), 23:49413
capture by uranium-238 above 6 eV, γ spectra from, (E), 25:5776
capture by uranium-238 at 2 to 20 eV, direct mechanism of, (T), 21:42649
capture by uranium-238, measurement of, cross section for using time-of-flight methd with nuclear explosion, (E), 22:22584 (LA-DC-9181)
capture by xenon-131 at 14.1 eV, gamma spectra from, (E), 25:34100
capture by zirconium at 0.01 to 1.0 eV, cross section for, (E), 22:24853 (GA-8557)
capture in enriched uranium oxide (UO_2) fuel elements, measurement of Doppler effect on, 23:33114
capture in plate lattice, partial separation of variables for calculation of efficiency of, (T), 25:5490
capture in thick samples of uranium-238 at 3 to 11 eV, relative rate for, (E), 23:37076
capture in uranium-238, ratio of thermal to, 23: 15738(R) (BNWL-963)
capture of epicadmium, spatial distribution in thoria pellets, 21:17533 (WAPD-TM-615)
capture of resonance, gamma rays from, 24:6574(T) (UCRL-Trans-10393)
capture of, use in research on nuclear parameters and reactions, (E), 22:3686 (BNL-11903)
capture rate in hafnium control rods, effects of new cross section data on, 22:33147
capture rates in MCR shield materials, determination of radiative, (E), 22:32928 (NDA-2143-9)
capture resonance integral for uranium-237, (E), 23: 1879 (ORNL-4306, pp 1-21)
capture resonance integrals for uranium-233, review of measurements of, 23:11004 (WAPD-TM-760)
capture-to-fission ratio and fission integral for uranium-235, variation from 293 to 1100°K, (E/T), 22:5824
capture-to-fission ratio for plutonium-239, (E), 23:1881 (ORNL-TM-2364)
capture-to-fission ratio for plutonium-239, (E), 22:48423 (RPI-328-133, pp 1-34)
capture-to-fission ratio for plutonium-239, data evaluation for, (T), 22:53168 (JAERI-1162)
capture-to-fission ratio for plutonium-239, measurements of, (E), 23:13265 (RPI-328-142, pp 1-67)
capture-to-fission ratio for plutonium-239, method for measuring, (E), 22:35345
capture-to-fission ratio for uranium-233, -235 and plutonium-239, -241, (E), 25:31353
capture-to-fission ratio for uranium-233, review of integral data on, 23:11004 (WAPD-TM-760)
capture-to-fission ratios and resonance integrals for uranium-233 and uranium-235, (E), 21:35488
capture-to-fission ratios for plutonium-239 and uranium-235, measurements using time-of-flight method, (E), 22:37364
capture-to-fission ratios for plutonium-239, plutonium-241, uranium-233, and uranium-235, resonance, 22: 42016 (KAPL-P-3438)
capture-to-fission ratios for uranium-233 and -235, integral measurements of, (E), 22:5819 (WAPD-TM-613)
cross section for removal from NORA core, measurement of, (E/T), 21:19463(R) (IAEA-3498-16)
detection and measurement of, equipment design for, 21:3306
detection during well logging, design of scintillation detectors for, 22:40477
detection of, design of scintillation detector for, 22: 38013(P)
detection of, development of high-temperature helium-3 activation detectors for, 21:32451
detection of, performance of multifoil activation detector for, 25:39716
detection of, well logging system for, 23:650(P)
detection of, well logging system with sandwich-type detector for, 23:22109(P)
detection of, well-logging scintillator-sandwiched indium system for, 23:7769(P)
diffusion in uranium-238 slabs at 6.7 eV, computer calculations of, 21:35388(R) (GA-7898)
distribution in cylindrical reactor of, effect of nonsymmetrically arranged control elements on, 21: 44871
distribution in homogeneous water-bearing sandstone, Monte Carlo calculation of, 24:36388
distribution in two-layered medium with cylindrical boundary, (T), 24:10597
distribution in two-layered medium with cylindrical boundary, (T), 25:7431(T) (CSIRO-Trans-10069)
distribution in uranium-fueled water-moderated lattice, analysis of, (E/T), 22:35592 (CNAEM-47)
dose of scattered charged particles from, in tissue equivalent phantoms, Monte Carlo calculation of, 21: 6535
dose rate equivalent measurement in Hungarian WWR-S reactor, 22:6130
dose rate of, design of scintillation detector in moderating sphere for measuring, 21:45435 (BNWL-481-4, pp 16-23)
dose-equivalent measurements of, with personnel dosimeters, 21:43286
dosimetry as function of energy, 24:12068 (RHEL/M-149)
dosimetry for personnel, survey of developments in, 24: 25478 (BNWL-1340)
dosimetry in human phantoms, Monte Carlo calculation of, 22:28456 (ORNL-P-3048)
dosimetry of, design of personnel photodosimeter combined with resonance detector for, 21:1647
dosimetry of, proportional detector for personnel, 23: 26557
dosimetry of, thermoluminescent dosimeters for, 24: 16901(P)
dosimetry of, use of niobium-93 activation foils for, 22: 28177 (FFN-74)
dosimetry with proton-recoil, boron-trifluoride, and rem detectors, 21:43289
effects of, on optical absorption of lead borate glass, 21: 14263
effects on anomalous helium production in nickel, 25: 4821
effects on chromosomes and fertility of Drosophila, 22: 19315
effects on hardening and tensile properties of vanadium wires, relations of annealing at 102 to 605°C with, 24: 21404
effects on infrared absorption spectra of silicon and germanium, 24:12889
effects on plutonium—uranium carbides, nitrides, and carbonitrides, 21:34973 (CEA-R-3223)
effects on Shigella flexneri, protective effects of anoxia and glycerol against, 22:6929
evaluation for brain tumor therapy, dosimetric, 22:31068
fission rates in enriched uranium oxide (UO_2) fuel elements, measurement of Doppler effects on, 23: 33114
flux angular components of, direct measurement of, (E), 22:5721
flux calculations for thermal reactors, approximation method for, 21:38431 (AECL-2708)
flux calculations for, analysis of mismatch of thermal flux calculations and, 21:40594
flux determinations in Harwell research reactors, 22: 16264 (AERE-M-1870)
flux distribution in heterogeneous reactor lattices, LASER program analysis of, 21:21689
flux distribution in lithium hydride, 21:27785(R) (NAA-SR-12316)
flux distribution in radially reflected reactor, effects of partially inserted control rods on, (T), 25:37131
flux distribution in slab type reactors, solution of Boltzmann equation in P/sub n/ approximation for, (T) , 24:24911
flux distribution in WWR-SM reactor, (E/T), 23:45106 (INR-968)
flux distribution measurements in Shippingport Pressurized-Water Reactor Core 2, 22:20824 (WAPD-MRP-123)
flux distribution of, effects of multiple control rods on, (E/T), 23:40456
flux distributions for bursts in reactors, (T), 24:33508
flux distributions in water for Am—Be sources enclosed in beryllium spheres, (E/T), 25:31223
flux in reactors, superimposed activation foils technique for measurement of, 24:43722
flux in Swedish Reactor (R-3) primary shielding, analysis of, (E/T), 22:44805 (AE-325)
flux intensity measurement in research reactors, 1 keV two phosphorus-copper detector method for, (E/T), 23:2125 (CEA-R-3441)
flux measurement in RA research reactor for bulk shield removal age-diffusion multigroup program, 22:12113
flux measurement in reactor shielding mock-ups, methods for, 21:17478(T) (ORNL-tr-1519)
flux measurement of, standards for biological and physical applications, (E), 25:34879
flux measurements at high temperatures, use of gadolinium filter for, (E), 25:1941
flux measurements for calibration of film badges, use of gold activation detectors for, 21:43241
flux measurements for reactor, methods of, 23:4470
flux measurements in BBRR beam, 21:25714 (BNL-11245)
flux measurements in FRG, 22:3904(T) (ORNL-tr-1522)
flux measurements in radial and tangential test facilities of ZR-3, 22:18605
flux measurements in research reactors, dosimetry methods for, 22:12110
flux measurements in Semi-Homogeneous Experiments critical assembly, 21:40683
flux measurements of KIWI-Transient Nuclear Test effluent, analysis of, 22:39849 (LA-3449)
flux measurements using gold activation foils for calibrating film badges, 25:32275(T) (SC-T-713011)
flux spectra in reactors, plural foil technique for measuring, 23:39910
fluxes of, activation resonance integrals and self-shielding factors for measuring, (E), 22:16011 (JUL-503-RX)
intensity of, in iron meteorites, 21:12534
reactions (n,2n) with beryllium-9 at 1.4 eV, cross sections and spectra from, (E), 25:31223
reactions (n,α) with samarium-147, α spectra from resonance, (E), 22:32659
reactions (n,f) and (n,γ) with plutonium-239 and uranium-235, cross sections and resonance integrals for, (E), 22:42011(T) (BNL-tr-219)
reactions (n,f) and (n,γ) with uranium-233 and -235 at 0.4 to 30 eV, cross-section analysis using multilevel formalism, 21:46643(R) (ORNL-4134)
reactions (n,f) with aligned uranium-235 at 0.2 to 2000 eV, fragment anisotropy from, (E), 25:34108
reactions (n,f) with plutonium-238 at 50 to 400 eV, cross section for, (E), 23:49398 (WASH-1127)
reactions (n,f) with plutonium-238, cross sections for, (E) , 23:32931 (LA-4108)
reactions (n,f) with plutonium-239 at 14.3 to 100 eV, fission-neutron multiplicities for, (E), 25:36734 (ORNL-TM-3331)
reactions (n,f) with plutonium-239 at 20 to 100 eV, resonance spin correlation with neutron multiplicity in, (E), 23:13290
reactions (n,f) with plutonium-239 at 20 to 100 eV, resonance spin correlation with neutron multiplicity in, (E), 23:13265 (RPI-328-142, pp 1-67)
reactions (n,f) with plutonium-239 at 40 to 100 eV, resonance parameters for, (E/T), 24:40550 (WASH-1136)
reactions (n,f) with plutonium-239 at 40 to 100 eV, Adler—Adler calculation of multilevel parameters for, (T), 24:47637 (ANL-7610, pp 1-59)
reactions (n,f) with plutonium-239 at 40 to 100 eV, Adler—Adler calculation of multilevel parameters for, (T), 24:35867
reactions (n,f) with plutonium-239 at 40 to 150 eV, multilevel analysis of cross section for, (T), 23:28304 (WASH-1124)
reactions (n,f) with plutonium-239 at 89 to 100 eV, R-matrix single-level parameters for, (T), 24:47637 (ANL-7610, pp 1-59)
reactions (n,f) with plutonium-239 near 83 eV, cross-section analysis using multilevel formalism, (T), 22: 30012
reactions (n,f) with plutonium-239, correlation analysis of cross section for, (E/T), 23:11012
reactions (n,f) with plutonium-239, cross section for, (E), 23:37234
reactions (n,f) with plutonium-239, cross section for, (E), 23:7281(R) (ORNL-4280)
reactions (n,f) with plutonium-239, cross section and resonance parameters for, (E), 22:24863(T) (BNL-tr-197)
reactions (n,f) with plutonium-239, cross section for, (E), 23:8996
reactions (n,f) with plutonium-239, fission yields from, (E), 24:20389
reactions (n,f) with plutonium-239, fission-fragment mass distributions from, (E), 23:1882 (WASH-1093)
reactions (n,f) with plutonium-241, absolut eta value for neutron emission in, (E), 23:1882 (WASH-1093)
reactions (n,f) with plutonium-242, cross section and resonance width for, (E), 23:9003
reactions (n,f) with uranium-232 at 5 to 1900 eV, cross section for, (E), 22:27105
reactions (n,f) with uranium-232 at 65 to 165 eV, cross section for, (E), 23:49398 (WASH-1127)
reactions (n,f) with uranium-233 and -235, plutonium-239 and -241, and americium-241, resonance integrals for, (E), 24:43332
reactions (n,f) with uranium-233 at 15 to 30 eV, cross section for, (E), 25:53750(R) (NYO-73-340)
reactions (n,f) with uranium-233 at 20 to 63 eV, cross section for, (E), 22:39652
reactions (n,f) with uranium-233 below 4 eV, cross section for, (E), 23:7281(R) (ORNL-4280)
reactions (n,f) with uranium-233 up to 1 eV, cross section for, 23:37242
reactions (n,f) with uranium-233 up to 60 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
reactions (n,f) with uranium-233, cross section for, (E), 22:20576 (ORNL-TM-2159)
reactions (n,f) with uranium-233, cross section for, (E), 23:1882 (WASH-1093)
reactions (n,f) with uranium-233, cross section for, (E), 22:29986 (ORNL-TM-2140)
reactions (n,f) with uranium-233, resonance integrals for, 23:11004 (WAPD-TM-760)
reactions (n,f) with uranium-233, review of resonance integral measurements for, (E), 23:15464
reactions (n,f) with uranium-235 at 0.2 to 20 eV, fission-fragment kinetic energy in resonance, (E), 22:39672
reactions (n,f) with uranium-235 at 1 to 37 eV, cross sections and resonance parameters for, (T), 21:46716 (BNL-50045)
reactions (n,f) with uranium-235 at 17 to 22 eV, cross section for, (E), 25:53750(R) (NYO-73-340)
reactions (n,f) with uranium-235 at 17 to 70 eV, resonance parameters for, (E), 23:19303
reactions (n,f) with uranium-235 at 2.5 to 9.0 eV, neutron emission in, (E), 21:17270(R) (RPI-328-71)
reactions (n,f) with uranium-235 at 2.5 to 9.0 eV, neutron emission in, (E), 21:25518 (WASH-1071)
reactions (n,f) with uranium-235 at 20 to 60 eV, symmetry of, (E), 24:43312 (CONF-700101-(Vol.2), pp 1306-14)
reactions (n,f) with uranium-235 in the low resonance region, cross-section measurement and normalization for, (E), 25:53775
reactions (n,f) with uranium-235 in uranium dioxide, temperature dependence of, (E), 21:38319
reactions (n,f) with uranium-235 in uranium-dioxide rods, temperature dependence of resonance, (E), 21:33962 (KAPL-P-3342)
reactions (n,f) with uranium-235 up to 100 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
reactions (n,f) with uranium-235 up to 20 eV, kinetic energy variation of fission fragments from, (E), 23: 8975 (JINR-P3-4110)
reactions (n,f) with uranium-235, cross section and resonance parameters for, (E), 22:30005
reactions (n,f) with uranium-235, cross section and resonance parameters for, (E), 23:5918
reactions (n,f) with uranium-235, cross section and resonance integral for, (E), 23:19129
reactions (n,f) with uranium-235, ratio of binary to ternary fission in, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,f) with uranium-235, reactivity measurement method for determination of, 25:28817
reactions (n,f) with uranium-235, statistical analysis of, (T), 24:52634
reactions (n,f) with uranium-235, symmetry of, (E), 25: 14999
reactions (n,f) with uranium-235, temperature dependence in uranium dioxide, 23:49413
reactions (n,f) with uranium-238, fractional cummulative yield of niobium-99m from, (E), 25:20406
reactions (n,f) with uranium-238, mass yields from, (E), 24:18416
reactions (n,γ) with mercury-198 at 23 and 90 eV, mercury-199 energy levels from, (E), 21:23529
reactions (n,γ) with nuclei, gamma spectra from, (E), 22:5830

transport in nonuniform slab with generalized boundary conditions, existence and uniqueness of solution of initial-value problem for, 24:30678
transport in nuclear media, steady-state equation solution for, 21:21730
transport in nuclear rockets, calculations using Monte Carlo method, 21:20999 (N-66-27941)
transport in one-dimensional finite systems, anisotropic source—flux iteration technique for calculation of, 25:14406
transport in plane and cylindrical geometry, Gegenbauer polynominal solutions of Boltzmann equation for, (T), 22:11880
transport in plane and spherical geometry, two-group analysis of critical problem for, (T), 25:14867
transport in plane heterogenous reactors, 24:36080 (RT/FI-(69)46)
transport in plane multilayer systems, calculation of, 21:23401
transport in plane slabs, computer program for solution of inhomogeneous multigroup equation for, 23:46891 (AAEC/TM-505)
transport in pulsed source measurements, separation and continuation in, (T), 24:33534
transport in quarter space, treatment of two-dimensional, (T), 25:53505
transport in reactor cores, equation for, 21:13995
transport in reactor cores, multigroup method for, 21:21656
transport in reactor materials, research on, 25:43834(R) (RPI-328-209)
transport in reactors, integral transform method for, (T), 24:24909
transport in reactors, low order discrete ordinates model for analysis of three dimensional, (E/T), 24:33499
transport in reactors, numerical solution of linear integral Boltzmann equation for, (T), 25:18231
transport in reactors, point source Green's function for, (T), 24:24908
transport in reactors, use of optimum biasing function for calculation of Monte Carlo, 22:6147
transport in shielding, 22:34733
transport in shielding materials use of transmission matrix method for, (T), 23:32554
transport in shielding materials, accuracy of two-dimensional discrete ordinates code for calculation of, 22:36960 (K-DP-3106)
transport in shielding materials, comparison of calculations and experiments on, 22:7338 (ORNL-TM-1965)
transport in shielding, calculations for high-energy, 21:37526
transport in shielding, computer program for, 22:41637 (ORNL-4181)
transport in shielding, Monte Carlo program SOBER for complex geometries, 22:9408 (DAC-60659)
transport in shielding, S/sub n/ discrete ordinate sets for deep-penetration, 25:57153 (CONF-710302-(Vol.2), pp 617-24)
transport in shielding, solution by method of characteristics of equation for, 23:46531
transport in shielding, use of Markov transition matrices to calculate time dependence of, 22:31899
transport in shields and tunnels of NIMROD 7-GeV proton synchrotron, 21:21359
transport in slab geometries, Green function for, (T), 23:36759
transport in slab geometry with delayed neutron production, analytic treatment of one-velocity equation for, 24:8808 (ORO-3858-1, pp 206-20)
transport in slab geometry with reflection boundary conditions, solution of initial value problem for, 24:49689
transport in slab geometry, calculations using invariant imbedding, 21:35404
transport in slab geometry, improved S/sub N/ calculations of, (T), 22:1588
transport in slab geometry, moments of first-passage distributions for, (T), 23:32881 (ANL-7519)
transport in slab geometry, one-speed, (T), 21:40353
transport in slab geometry, properties of spectral radius in equation for, (T), 24:3825 (ORNL-TM-2740)
transport in slab geometry, reflection and transmission coefficients for, (T), 25:50617
transport in slab geometry, solution for neutron distribution for, 24:47560
transport in slab geometry, solution of boundary value problem for, 24:47560
transport in slab geometry, solutions to time-dependent monoenergetic Boltzmann equation for, (T), 23:17276
transport in slab geometry, subcriticality for multiplying, (T), 25:41173
transport in slab geometry, time-dependent, (T), 24:26575 (TID-25310)
transport in slab, albedo problem for, 25:33381 (CONF-710107-, pp 464-88)
transport in slab, Green functions for multidimensional, 24:26288
transport in slab, Green's functions for multidimensional, 25:3184
transport in slabs of iron, calculations of, (T), 22:37281(R) (NYO-72-191)
transport in slabs with anisotropic scattering, calculations by transfer-matrix method of one-speed, (T), 25:17668
transport in slabs, criticality for energy-dependent, (T), 25:9960
transport in slabs, singular-eigenfunction calculation of, (T), 25:33951
transport in slabs, use of variational methods in, 25:5135 (AAEC/TM-554)
transport in spheres and slabs, computer program for solution by j/sub n/ method, 25:28146 (EUR-4601)
transport in spheres and slabs, Fourier transform of product of spherical Bessel functions for, (T), 24:35798
transport in spheres, cylinders, and planes, computer program for solving one-dimensional Boltzmann equation for, (T), 25:28149(T) (ORNL-tr-2419)
transport in spheres, cylinders, and planes, computer program for solving one-dimensional Boltzmann equation for, (T), 25:14863 (CEA-N-1358)
transport in spheres, time-eigenvalue of space-energy dependent equation for, 21:2594
transport in spherical assemblies, fundamental mode decay constant for, 22:20036
transport in spherical geometry, Green's function for one-speed, 22:29538
transport in spherical geometry, Monte Carlo method for, (T), 24:15379(T) (NP-tr-1864)
transport in spherical geometry, numerical analysis using invariant imbedding technique, 24:52352 (AD-705150)
transport in the atmosphere, calculations for point sources at air-ground interface, 22:4281
transport in thick and thin slabs, calculation of energy-dependent, (T), 25:56632
transport in thick iron and sodium, calculation of spectra from, (T), 25:45883
transport in thick iron slabs, Legendre plynomial expansion of scattering integral in Boltzmann equation for, (T), 22:22519 (BNL-12322)
transport in thick slabs of iron, (T), 21:37540
transport in thin slabs, inverse albedo problem for, 22:50217
transport in three-dimensional geometries, computer generation of Monte Carlo sampling functions for, 25:57160 (CONF-710302-(Vol.2), pp 771-81)
transport in tungsten and depleted uranium, multigroup capture and cross sections for, (T), 24:35522 (N-70-18127)
transport in two half-spaces with different media, Milne-problem solutions of, (T), 21:4177 (BMwF-FBK-66-19)
transport in two half-spaces, effects of anisotropic scattering on, (T), 22:32456
transport in two-dimensional quarter space, one-speed, (T), 25:41160
transport in two-dimensional slab geometry, integral methods for, 24:20311
transport in two-dimensional slabs by invariant imbedding, 25:5143
transport in two-dimensional spherical geometry, computer program for solving Boltzmann equation for, (T), 25:14866 (LA-4567)
transport in two-region slab cells, moments matching spectral method for, 23:47307 (CNM-R-2(Vol.2), pp 1099-1108)
transport in variable density atmosphere and ground, computer program for, 22:39146 (UNC-5179)
transport in variable phase-space, analysis of, (T), 25:3532
transport in various geometrics, methods for calculation of collision probabilities in, (T), 23:46902
transport in various moderator configurations, 24:18901(R) (LA-4320)
transport in water/iron/water shielding assembly, (T), 21:33495 (EUR-3472.d)
transport kernals for a finite spherical region containing a central black zone, first-flight, (T), 22:44599
transport kernel for spherical geometry, calculation using first-flight collision probability method, (T), 22:13914
transport kinetics in one and three dimensions, effective solutions for time-dependent equations for, (T), 23:25760 (RT/FI-(68)32)
transport measurements in BR-5, comparisons with calculated data, 23:37659
transport model for, using branching process, (T), 24:8826
transport near a temperature discontinuity, energy-dependent, (T), 21:38174
transport of epicadmium, in anisotropic moderators, (E), 21:23398 (NP-16622)
transport of formulation of distribution function in plane geometry using Gegenbauer polynomials, 24:52382
transport of leakage, from nuclear weapons, calculation by discrete ordinates method, 25:40729
transport of monoenergetic, Green's function for cylindrically symmetrical problem of, 24:43096
transport of polyenergetic, in spheres and planes, computer program for calculating, (T), 25:14864 (CEA-N-1388)
transport of pulsed, integration and moment methods for determining decay constants for, 21:33851 (CTH-RF-11)
transport of pulses of, time eigenvalues and anisotropic disturbances in, (T), 24:40542
transport of solar, in Earth atmosphere, 22:31662 (ORNL-TM-2194)
transport of waves of, in heterogeneous media, (T), 24:43097
transport of, adjoint difference method for deep penetration problems in, 25:41185
transport of, adjoint Monte Carlo calculations for, 23:36784
transport of, ANDY1G2 and ANDY1R2 computer programs for time dependent monoenergetic, 24:52364 (LA-4410)
transport of, application of Chandrasekhar's method to, 25:9951
transport of, application of variational synthesis to multidimensional, 25:43772
transport of, computer program for analyzing Legendre expansions of angular distributions for negative regions, 25:5476 (ORNL-TM-2903)
transport of, computer program for solution of integral equation for, (T), 25:43771 (EIR-189)
transport of, computer program for solving steady-state integral equation for, (T), 25:20246
transport of, discrete SN numerical method for solving Boltzmann equation for, (T), 25:59675
transport of, EMPIR computer program using ENDF/B library for multi-group slab, 23:26114 (WAPD-TM-822)
transport of, error minimization in transfer-scattering matrix methods for, (T), 25:41175
transport of, Green's function approach for boundary-value problems in, (T), 25:9952
transport of, Green's function for solution of time—energy-dependent, (T), 25:28154
transport of, methods in JOSHUA system for integral, 25:41182
transport of, Monte Carlo digital simulation for planar region, (T), 24:36081 (RT/FIMA-(69)6)
transport of, numerical calculation of Milne problem extrapolation length for, (T), 25:3540
transport of, quantum correction for calculations of, (T), 25:6167
transport of, reactor beam hole guide tubes for, 25:18185
transport of, research at Israel AEC, Jan.—Dec. 1967, 22:48806(R) (IA-1168)
transport of, solution of Boltzmann equation in plane geometry, (T), 25:12340 (KFK-1223)
transport of, solution of equations for time—energy-dependent, (T), 25:28156
transport of, solution of initial-value problem for slab with infinite reflectors using normal-mode expansions, (T), 25:5501
transport of, SORS Monte Carlo program for, 23:19126 (UCRL-50532)
transport of, spin polarization effects in, (T), 25:56633
transport of, variational synthesis method for analysis of multidimensional, (T), 25:34427 (ORNL-TM-3200)
transport of, weighting and biasing of Monte Carlo calculation for, (T), 25:45883
transport operator spectrum in spherical geometry with anisotropic scattering for monoenergetic, (T), 23:10913 (SRARI-P-8)
transport operators for, derivation using generalized Riccati transformation, (T), 23:3909
transport problem for anisotropic scattering in adjacent half-spaces, solution using eigenfunction expansion method, (T), 23:42843
transport problem for, solution by analytic continuation for initial-value, (T), 24:8802 (ORO-3858-1, pp 36-75)
transport problems for, analysis of variational formulation of S/sub N/ method for solution of, 22:39936
transport problems for, computer solution of time-dependent, 21:38179
transport problems for, multichannel spatial synthesis method for solution of, (T), 25:41178
transport problems for, review on methods for treatment of stationary, 25:28151 (TUBIK-21)
transport problems for, transfer matrix approach to, 24:8814 (ORO-3858-1, pp 331-55)
transport problems in multilayer slabs with anisotropic scattering, j/sub N/ method for solution of space-angle energy-time-dependent, 24:7306
transport problems, numerical methods for, 25:59684
transport solution for quarter-space problem, (T), 23:36760
transport spectrum analysis for, model for time dependent, (T), 22:14296 (RPI-328-100, pp 140-87)
transport studies, (E/T), 25:56255(R) (AD-721388)
transport theory and nongrey radioactive transfer, equivalence of models in, 22:46301
transport theory calculations for reactor, polynomial flux approximations for integral, 22:6154
transport theory equations for multiregion reactors, variational synthesis techniques for determining eigenvalues for, 24:18763 (KAPL-P-3869)
transport theory equations for reactors, use of overlapping group method for solution to, 23:37472
transport theory equations, development of asymptotic P_3 formulation for diffusion approximations to, 23:4413
transport theory for calculating Doppler effect for systems with anisotropic scattering and nonuniform temperature distributions, (T), 22:7627
transport theory for coupled reactors, (T), 22:3599
transport theory for curved geometries, invariant imbedding technique in, 24:8822 (ORO-3858-1, pp 640-52)
transport theory for cylindrical and spherical geometry, double spherical harmonics approximation for, (T), 22:41938
transport theory for finite body with generalized boundary conditions, initial-value problem for, 25:25612
transport theory for infinite homogeneous media, two-group, (T), 23:21234
transport theory for monoenergetic, 21:31688
transport theory for monoenergetic, at boundaries of dissimilar media, time-dependent, 21:25401
transport theory for monoenergetic, at boundaries of dissimilar media, time-dependent, 21:25402
transport theory for monoenergetic, effective source strength for anisotropic scattering in homogeneous infinite medium, (T), 22:48438
transport theory for monoenergetic, in infinite slab with delayed neutron production, initial-value problem for, (T), 21:46646
transport theory for monoenergetic, in inhomogeneous media, 21:33870
transport theory for monoenergetic, in slab geometry with anisotropic scattering, (T), 22:9767
transport theory for monoenergetic, in slab geometry, using invariant imbedding, 21:25403
transport theory for monoenergetic, point-source Green's functions for, 23:39923
transport theory for moving medium, (T), 22:35209
transport theory for multilayer systems and associated shielding problems, monoenergetic, 23:34489 (RT/FI-(69)17)
transport theory for multiplying assemblies, characterization of criticality for one-dimensional, (T), 22:32463
transport theory for noncylindrical cell containing cylindrical fuel rod, 21:7656

transport theory for plane geometry in P/sub L/ approximations, formalism using blackness theory, (T), 22:1561 (KAPL-P-3391)
transport theory for plane geometry, effects of anisotropic scattering in, 21:21378
transport theory for pulsed, coupled space-time effects in, 24:47558
transport theory for reactors, numerical solutions in terms of orthogonal series expansions for albedo operators for, 22:1789
transport theory for regions with steep flux gradients, diffusion approximation to, (T), 22:20424(T) (ORNL-tr-1849)
transport theory for slab geometry, albedo problem in, (T), 22:24795
transport theory for slab geometry, formalism using invariant imbedding for energy- and time-dependent, 21:35403
transport theory for slab geometry, formalism using time moments of neutron density, 21:42525 (RPI-328-97, pp 96-130)
transport theory for synthetic scattering kernel for, (T), 22:44578
transport theory for, adjoint Boltzmann equation and its Monte Carlo simulation for, 25:48003
transport theory for, analytic method in multigroup, 24:26576
transport theory for, angle-space synthesis of, 21:29841
transport theory for, bibliography on, 21:29829 (IFA-FR-51)
transport theory for, Boltzmann equation in, 21:5479
transport theory for, Boltzmann equation solution using Jacobi polynomials, (T), 23:37070
transport theory for, calculation of anisotropic neutron flux using discrete S/sub n/ method, (T), 22:15935
transport theory for, canonical and involutory transformations for variational problems in, 21:38208
transport theory for, Case eigenfunctions and orthogonal polynomials in, 24:8807 (ORO-3858-1, pp 178-205)
transport theory for, cavity and vacuum boundary conditions for P/sub N/ approximations in, 21:11958
transport theory for, coarse-graining of Hamiltonian for, (T), 22:35547
transport theory for, connection between absorption and anisotropic scattering in, (T), 22:11884
transport theory for, convergence problems with the Jacobi polynomial method, 21:33865
transport theory for, convergency of spherical harmonics method and its connection with the normal mode approach, 21:29852
transport theory for, development of correlation equations of, 21:23713 (CEA-R-3102)
transport theory for, diffusion length and criticality problems in two- and three-dimensional one-speed, (T), 23:5757
transport theory for, discrete angular grid and angular-biased Monte Carlo in, 24:28398 (ORNL-TM-2890)
transport theory for, discrete energy formulation of S/sub n/, 25:41187
transport theory for, eigenfunction expansion in anisotropic, 21:2589
transport theory for, energy-dependent Milne problem with absorption, 21:11943
transport theory for, ergodic formalism for, (T), 22:37273 (AD-664026)
transport theory for, exact solution of Milne problem with general scattering law in, (T), 22:22263
transport theory for, formulation in Monte Carlo terms of, 22:3941
transport theory for, formulation of discrete ordinates method in, 24:8810 (ORO-3858-1, pp 259-76)
transport theory for, formulation of energy-dependent, (T), 23:1763
transport theory for, generalized and extended angular density representation in, 24:47553
transport theory for, generating functions in, 24:8805 (ORO-3858-1, pp 137-58)
transport theory for, gross leakage effects in fine-structure cell calculations in, 21:17277
transport theory for, in plane geometry, 23:39922
transport theory for, lectures on, (T), 22:20402 (AEEW-M-676)
transport theory for, linear integral equations for H-functions in, 25:9953
transport theory for, macroscopic formulation using reflection and transmission matrices, (T), 23:3923
transport theory for, matrix Riemann—Hilbert problems related to, (T), 25:50622
transport theory for, method for solving Fredholm equations for initial-value problems in, (T), 22:53071
transport theory for, models for anisotropic weighting spectra in, 25:41192
transport theory for, numerical solution to time-dependent equations in, 24:15763
transport theory for, reciprocity theorems for time- and velocity-dependent, 21:13794
transport theory for, relation of variational principle to pseudoentropy production, (T), 22:7626
transport theory for, relaxation problems in, 24:8816 (ORO-3858-1, pp 380-414)
transport theory for, review of stochastic, 21:25395 (LA-DC-8706)
transport theory for, semi-analytic Monte Carlo method in linear, 25:14871
transport theory for, sequent correlations in evolutionary stochastic point processes in, 22:15712
transport theory for, solution of Riemann—Hilbert boundary value problem in, 23:44818
transport theory for, solution of time-dependent integro-differential equation in, (T), 25:17672
transport theory for, space-energy flux distribution in, 21:21404
transport theory for, space-time flux distribution in, 21:11940
transport theory for, stability of synthetic method in, 25:41171
transport theory for, unification of, 21:46655
transport theory for, use of Fourier integral techniques in, 21:38176
transport theory for, use of generating functions and reflection and transmission functions in, 21:33862
transport theory for, use of semigroup generator in, 24:49688
transport theory for, vacuum boundary conditions for P/sub N/ approximation, 21:7657
transport theory for, vacuum boundary conditions for multidimensional spherical harmonics method, 21:17275
transport theory for, variational method for, 21:17281
transport theory for, variational methods in, 21:21383
transport theory in asymptotic P/sub N/ approximation, (T), 22:20427
transport theory in circular cylindrical geometry, one-speed, (T), 23:5758
transport theory in discrete ordinates approximations, ray effects in, (T), 22:32476
transport theory in infinite homogeneous media with anisotropic scattering, two-group, 24:43095
transport theory in P/sub N/ approximations for plane geometry, matrix formulation of blackness conditions for, (T), 22:41940
transport theory in plane geometry, analysis of multi-group, (T), 25:22951 (TID-25644)
transport theory in plane geometry, eigenfunction expansion method in two-group, 22:35695
transport theory in plane geometry, energy-dependent, 21:2590
transport theory in plane geometry, energy-dependent, 21:2591
transport theory in plane geometry, semianalytical methods for, (T), 22:11883
transport theory in plane geometry, two-group, 24:15761
transport theory in R-Z geometry for reactors, use of Green's function for determining boundary conditions for, 23:37723
transport theory near temperature discontinuity, energy-dependent, 21:46653
transport theory of, adjoint Boltzmann equation and its simulation by Monte Carlo in, 24:28674 (ORNL-TM-2879)
transport theory of, branching processes in, 21:4175 (AD-632534)
transport theory of, comparison of two exact methods of, 24:6814
transport theory of, discussion of quantum-mechanical derivation of Boltzmann equation for, (T), 22:46706
transport theory of, geometrical interpretation of functions in, (T), 24:52372
transport theory of, integral stability of nonlinear, 21:5470
transport theory of, multigroup perturbation computer program for, 21:4176 (AWRE-O-40/66)
transport theory of, outer iteration scaling in, 24:28682
transport theory of, phase space time evolution method for, 25:5139
transport theory of, solution of infinite-medium and half-space multigroup problems with anisotropic transfer in, 23:39905 (TW-63)
transport theory of, solution of the equation by the Monte Carlo method, 23:44814
transport theory of, stochastic problems in, 21:23392 (ANL-7131)
transport theory of, structure of isotropic transport operators in three independent space variables for solution of problems in, 21:35385 (ANL-7328)
transport theory using canonical and involutory transformations for variational formulations, 21:25404
transport theory using central limit theorem, 21:11941
transport theory using invariant embedding, (T), 22:29858
transport theory using invariant imbedding, bibliography on, 21:31680 (IFA-FR-57)
transport theory using Monte Carlo method, 21:21386
transport theory using space-angle synthesis approximation, 21:38203
transport theory with anisotropic scattering for plane geometry, absorption effects on extrapolation length in, 21:35399
transport theory with anisotropic scattering in double P/sub l/ approximation, formulation using anisotropy functions, (T), 22:41934
transport theory with anisotropic scattering, space-time, 21:17279
transport theory with arbitrary anisotropy, P/sub L/ approximation for monoenergetic, 25:41172
transport theory with energy-dependent branching processes, (T), 22:35196 (EIR-133)
transport theory with isotropic scattering for plane geometry, time-dependent, 21:25417
transport theory with isotropic scattering, one-group, 21:9912
transport theory with isotropic scattering, transfer matrix formalism for, 21:7665
transport theory with separable scattering kernel, correspondence with nongrey radiative transfer, 21:5468
transport theory with separable scattering kernel, half-range orthogonality relations for, 21:7647
transport theory, analytical methods in, 25:59682
transport theory, problems in two-dimensional, 25:33376 (CONF-710107-, pp 305-24)
transport through boiling water reactor cooling channels, stochastic theory of, 23:34904
transport through cavities, mean-square passage lengths for, 21:33866
transport through concrete shielding, Monte Carlo calculations for, (T), 24:32872 (AAEC/TM-531)
transport through concrete slabs, adjoint S(sub n) calculations of, 25:47606
transport through ducts and cavities, modeling relationships in, 22:36958(R) (AD-663570)
transport through labyrinth of experimental facilities of 3.0-GeV proton accelerator, 23:44765
transport through liquid nitrogen from (d,t) source, calculation of, (T), 24:52371 (UCRL-50856)
transport through matter, description of UNC-SAM-2 Monte Carlo code for calculating, 21:21372 (UNC-5157)
transport through multilayer shielding, finite-difference method for calculation of, 21:21032
transport through plane parallel multilayer slabs, (T), 23:3542(T) (ORNL-tr-2021)
transport through space vehicle shielding, high-energy, 21:21008
transport through W/^{6}LiH shielding, (T), 23:30601 (N-69-15375)
transport with fission, solution of general anisotropic energy-dependent equation for, (T), 25:28155
transport, Monte-Carlo and shielding calculations for, 21:18787 (RISO-136)
transport, solving half-space problems for, with anisotropic scattering, 21:7570
transport, streaming through concrete ducts, (E/T), 22:31902
use for activation analysis of trace elements in animals, plants, and soils, 22:17049
use for biomedical radiography, clinical diagnostic possibilities of, 25:49249
use for determining ash content of carbon, 22:51272
use for diagnosis of thyroid disorders caused by radiation sickness in rats, 25:13497
use for measurement of film accumulation in water purification, 23:4528
use for molecular spectroscopy of glycine, 24:39537 (IN-1317, pp 209-31)
use for radiographic materials testing, 23:538
use for radiographic visualization of wet tissues, evaluation of, 22:40759
use for seed irradiation studies in barley, effectiveness of scandium-filtered beam source for, 24:39537 (IN-1317, pp 209-31)
use for therapy for neoplasms, combined effects of hyperbaric oxygen on, 23:38615
use for therapy of human tumors, evaluation of, 23:31874
use for therapy of neoplasms, effects of cellular anoxia on, 24:32135
use for therapy of rhabdomyosarcoma in rats, effects of dose fractionation on RBE for x, 24:32232
use for tumor therapy, methods for improving, 24:34531
use in crystal structure research, (E/T), 22:15921 (JUL-Conf-1(Suppl.))
use in crystal structure studies, (E/T), 22:15923 (JUL-CONF-1(Suppl.), Paper 3)
use in industrial radiography to produce visible image, 23:11735(P)
use in nuclear physics experiments, review of, 21:44501 (CONF-660925, pp 47-88)
use in radiography, 23:26485 (KURRI-TR-30)
use in radiography, 25:42575
use in radiography for inspection of reactor material, 23:26489
use in radiometric prospecting, 23:9543
use in well logging method for petroleum exploration, 23:2415
use of epithermal and thermal, for treatment of neoplasms, 23:35815(R) (NYO-3267-6)
use of pulsed, for reactivity measurements in NORA, 21:35716(R) (IAEA-3498-18)
use of pulsed, in reactor reactivity determinations, (E/T), 21:7928
use of pulsed, in reflected AGN type reactor reactivity measurements, 21:40689
use of pulsed, method for reactivity measurements, 21:12236(R) (IDO-17202)
use of reactor, in medicine, 22:43364
use of resonance, in activation analysis, 22:6261
use to determine soil moisture, bibliography on, 22:42862
use to measure soil moisture, 22:23131 (CONF-680112-1)
use to study crystal lattice structure and dynamics, review of Polish, 24:51844
uses in chemistry, 22:22955
uses in geophysics, 23:35328
uses in high-resolution radiography, 22:4373
uses in natural gas industry, review of, 22:25621
uses in nuclear well logging, review of, 24:314
uses in process control industry, review of, 25:13177
uses in radiography, 22:4369
uses in radiography, 22:4376
uses in radiography, design of equipment for, 25:54931(P)
uses in radiography, review on, 25:18615
uses in studies of condensed matter, 21:44500 (CONF-660925, pp 11-45)
uses in studies of condensed matter, review of, (E/T), 22:1570
variation method for measuring reactor power, use of space-dependent, 21:38532
velocity distribution in homogeneous media, computer program for calculating, 25:53490 (IAE-1969)
velocity in reactor cores, determination of most probable, 23:8217
vertex functions for npd, effect of NπN form factor on, 23:13111
wave analysis of, 21:30091(R) (ANL-7210)
wave and pulse propagation in research reactors, experimental techniques for measuring, 22:32996
wave experiment interpretation, velocity- and time-dependent method for, 21:38170
wave experiments in finite media, analysis using energy-dependent diffusion theory, 24:20301
wave experiments in hydrogenous systems, use of Boltzmann transport equation for, (E/T), 23:7422
wave experiments, relationship between neutron pulsed source experiments and, 21:38656 (BNL-11556)
wave field of, dispersion relations for, 24:28675 (ORNL-TM-2942)

wave function renormalization constant for, dispersion relation for, (T), 23:13127
wave propagation and reflection in water moderated assemblies, (E/T), 25:54277
wave propagation determination in moderating media by eigenfunction expansion method, (T), 21:44887
wave propagation experiments in polycrystalline media, elastic continuum in, (T), 22:32465
wave propagation experiments on, effects of cold neutrons in, (E/T), 23:5748 (KURRI-TR-36)
wave propagation experiments on, pulsed-source design using positive-ion electrostatic accelerators for, 23:10922
wave propagation experiments on, research summaries on, (E/T), 23:5749 (KURRI-TR-40)
wave propagation in beryllium and graphite, two-group study of, 23:44819
wave propagation in beryllium, calculations using multigroup diffusion theory, (T), 22:18094
wave propagation in bounded plane geometry, 25:59679
wave propagation in Bragg continuum, pseudo-discrete eigenvalues for, (T), 24:47936 (CONF-680980-, pp 379-96)
wave propagation in continuum region, (T), 23:3907
wave propagation in critical assemblies, effects of fuel rod arrangements on, (E/T), 25:26044
wave propagation in crystalline media, limiting critical frequency for, (T), 23:17054
wave propagation in crystalline media, limiting critical frequency for, (T), 23:17053
wave propagation in fast multiplying media, use of multigroup transport theory for analyzing, 23:49651 (ANL-7410, pp 387-442)
wave propagation in finite systems, dispersion relation for, (T), 22:18080
wave propagation in graphite, (T), 25:53500
wave propagation in graphite, analysis using multigroup theory, (T), 23:46906
wave propagation in graphite, Bragg cut-off effects on, (T), 21:27507
wave propagation in graphite, continuum modes of eigenvalues in, (T), 25:33952
wave propagation in graphite, diffusion approximation to Boltzmann equation for, (T), 22:48440
wave propagation in graphite, effects of Bragg continuum on, (E/T), 24:47972 (CONF-680980-, pp 363-77)
wave propagation in graphite—methacrylate and graphite—paraffin systems, (E), 23:49305
wave propagation in heterogeneous plane lattices, diffusion parameters for, (E/T), 24:47937 (CONF-680980-, pp 397-412)
wave propagation in heterogeneous reactors, multigroup diffusion theory analysis of, (T), 23:2120
wave propagation in heterogenous media, axial, (T), 23:42839
wave propagation in ice, calculations using multigroup diffusion theory, (T), 23:8913
wave propagation in infinite medium, analysis using energy-dependent transport theory, (T), 22:41936
wave propagation in lead, (E), 25:53499
wave propagation in moderators from modulated thermal source, interpretation of, (T), 23:21220
wave propagation in moderators, pseudo-mode analysis of, (T), 23:17056
wave propagation in multiplying and non-multiplying homogeneous medium, solution of Telegrapher's Equation for, 23:7423
wave propagation in multiplying media, (E/T), 23:5794
wave propagation in nonmultiplying media, theory of, (T), 23:3926
wave propagation in nonmultiplying media, theory of, (T), 23:3901
wave propagation in polycrystalline reactor moderators, velocity-dependent transport theory analysis of, (E/T), 22:35714
wave propagation in reactors, solution of the telegrapher's equation for arbitrary infinite plane source of, 23:47322
wave propagation in semi-infinite medium, analysis using invariant embedding, (T), 22:29858
wave propagation in water and graphite, calculations using Fourier transforms, (T), 23:37092
wave propagation in water and heavy water, eigenvalue structure and eigenfunctions for, (E/T), 25:1964
wave propagation of, analysis for surface and volume sources, 21:38184
wave propagation of, analysis using energy-dependent diffusion theory, 24:20312
wave propagation of, analysis using Fourier transform methods, 21:38183
wave propagation of, analysis using Laguerre polynomial solution of energy-dependent transport equation, (T), 23:19132
wave propagation of, calculations for three-dimensional system using Wiener—Hopf technique, (T), 24:10904
wave propagation of, convergence of eigenfunction expansion for, (T), 22:48428
wave propagation of, eigenfunction expansion method for, (T), 24:24489
wave propagation of, relation to sound wave propagation, (T), 23:28221
wave propagation of, simple model for, 21:38182
wave propagation of, transfer matrix for analysis of, 24:8815 (ORO-3858-1, pp 356-79)
wave propagation problem for, convergence of eigenfunction expansion method for solution of, (T), 22:32446
wave propagation through an interface, analysis using various diffusion and transport models, 24:28686
wave propagation through an interface, calculations using diffusion and transport theory for monoenergetic, (T), 23:21222
wave propagation through interfaces, analysis using four models, (T), 23:34710
wave propagation through interfaces, diffusion and transport approximations for, (T), 23:3896
wave propagation through interfaces, energy-dependent, (T), 22:32445
wave propagations in infinite medium, Fourier transform method for, (T), 23:37095
wave techniques for heterogeneous effects in reactor kinetics, (T), 24:7316
wave transport theory for solids, continuous eigenvalue spectrum in, 21:35402
wavelength determination by diffraction from static and rotating single crystals of sodium chloride, (E), 22:46709
waves in multiplying systems, analysis of source-transient region of, (T), 24:50220
waves of, use in reactor kinetics analysis, 21:30112 (CONF-660206, pp 1-19)
yield from 660-MeV protons on concrete, 22:34736
yield in deuteron reactions with deuterium and heavy ice, 23:42811
yield of tritiated titanium targets, rate of decrease of, 23:21184(T) (NP-tr-1731)
yields from deuteron reaction (d,n) with deuterium, use of neutron reaction (n,p) with phosphorus-31 as standard for measuring, 21:38264
yields from electron reactions with thick tantalum targets at 30 to 200 MeV, 21:12031
yields from fluorine-19 (α,n) reactions, 21:31777(R) (MLM-1388)
yields from mixtures of beryllium powder and polonium-impregnated microspheres, 21:36586
yields from plutonium carbides and oxides, 25:39562(R) (HEDL-TME-71-55)
yields from primary cosmic proton scattering in atmosphere, (E), 21:24942(R) (BSR-2018)
yields of accelerator sources, manganese bath activation detector for determining, 22:36037

NEUTRONS (anti n)
see also Neutron Beams (anti n)
detection of 2- to 4-GeV/c, design and performance of scintillation detectors for, 22:372
interactions anti n + d at 6.65 GeV/c, total cross sections for, 25:19907
interactions anti n + d, total cross sections for, (E), 25:59275
interactions anti N + N → γ + γ, (n - p) mass difference from partial-wave amplitudes for, 23:18865
interactions anti n + n at 6.65 GeV/c, total cross sections for, 25:19907
interactions anti n + n at high energies, asymptotic summation of ladder diagrams for amplitudes of, 21:21208
interactions anti n + n at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions anti n + n, superconvergence relation for backward, (T), 21:44358
interactions anti n + n, total cross sections, (E), 25:59275
interactions anti n + p at 0.5 to 2.5 GeV/c, total and elastic cross sections for, (E), 24:3511
interactions anti n + p at 6.65 GeV/c, total cross sections for, 25:19907
interactions anti n + p at high energies, effective Lagrangians for, 23:15077
interactions anti n + p at high energies, quark three-body forces for, 21:35296 (JINR-P2-3359)
interactions anti n + p, quark additive model for sum rules for meson (π) multiple production from, 23:51928
interactions anti n + p, total cross sections for, (E), 25:59275
interactions γ + n → π⁻ + p, strong-absorption Regge-cut model for, 25:47783
interactions n + p, conspiracy among Regge trajectories for forward charge exchange, 21:37776(R) (UCR-34-P-107-49)
production in anti p interactions in nuclear emulsions at 5 GeV/c, (E), 23:42555
production in γ + p → anti n + d interactions at 4.6 to 5.7 GeV, upper limit on cross section for, (E), 21:44247

NEUTRONS, COLD
(Neutrons of less velocity than thermal neutrons; at 15°C their energy is below 0.01 eV.)
attenuation by boron-loaded concrete, 24:34952
book: Low-energy Neutron Physics, 22:50519
capture by molecular hydrogen, γ spectra from, (E), 24:3839
deflection of, performance of curved total-reflecting collimator for, 21:26295
detection of ultracold, from pulsed fast reactor, (E), 23:10910 (JINR-P3-4127)
detection of, activation—scintillation techniques for, 22:12586
detection of, design of hexapole-magnet spectrometers for, 25:15935
effects on liquids and solids, equipment for measurement of, 22:12122
effects on reactor materials, equipment and programs for determining, 23:14374
effects on thermal neutron diffusion-length measurements in graphite, (E/T), 21:9913
electric dipole moment of, proposed experiment for determining, 24:30670
energy spectra, diffusion parameters, and storage times of ultracold, (E), 25:22956
energy-loss scattering experiments using time-of-flight method with research reactors, (T), 22:44594
filters for, effectiveness of polycrystalline and single crystal, 22:12144
filters for, performance of doubly bent total reflecting tube as, 21:11938
flux for hydrogenous reactor moderators, measurement of leakage, (E/T), 25:6203
penetration in graphite, Bragg cut-off effects on wave propagation, (T), 21:27507
production at FiR 1 facility using Triga Mark II, 21:7644
production at VVR—S reactor, design of curved-slit chopper for, 21:35761
production by filtering reactor spectra, techniques for, 22:7623
production by slowing-down in cold, solid hydrogenous moderators, temperatures and spectra from, (E/T), 25:12351
production from stationary reactors, diffusion length, spectra, and storage time from, (E), 25:20232 (JINR-P3-5392)
production of beams of, mechanical generator for, 25:43774
production of pulsed beams of, design of chopper-monochromator with curved slits for, 21:3346
production of trapped gas of, 24:18352
production of ultracold, 24:1727
production of, description of reactor supercooled and superheated gas loop for, 24:16170(P)
production of, design of facilities for, 24:1730(P)
production of, using moving reflectors, 23:37075
production using in-pile liquid hydrogen loops in DIDO reactors, 21:21753 (AERE-R-5168)
pulse shapes from injection of fast bursts into moderator configurations, 23:19115 (EUR-4081)
reactions (n,f) with plutonium-239, R-matrix calculation of cross section for, (T), 24:18414
reactions with aluminum-27 and gold-197 at 0.1 to 60 μeV, total cross sections for, (E), 23:23660
reactions with benzene, diphenyl, and terphenyl at -60 to +180 deg C, total cross sections for, (E), 21:5478
reactions with cadmium at 8 μeV, total cross section measurements by Doppler chopper method, (E), 22:53190
reactions with dysprosium, erbium, holmium-165, lutetium, terbium-159, and thulium-169, total cross sections for, (E), 23:49332(R) (EANDC(E)-115(U))
reactions with liquid sulfur, total cross sections, 25:38850
reactions with polyethylene and polystyrene at low temperature, total cross sections for, (E), 21:27513
reactions with tantalum-181, cross sections for, 22:20561 (AHSB(S)R-141)
reactions with terbium-159, dysprosium, holmium-165, erbium, thulium-169, and lutetium at 0.1 to 3 MeV, cross sections for, total, (E), 24:38257
reactions with uranium-235, mass yields from fission, 24:29308(R) (BMBW-FBK-70-4)
reflection in magnetic neutron guides, description of asymmetries using spin-orbit effect, (T), 24:35804
scattering below 10^{-3} eV, spectrometer for total cross-section measurements of, 24:46510
scattering by acetic acid, benzene, dioxane, ethylene glycol, naphthalene, and water, (E), 22:32429(T) (KFK-tr-235)
scattering by ammonium carbonate, ammonium citrate, and ammonium acetate, energy spectra in, 21:31479
scattering by amorphous and crystalline selenium, spectra of inelastic, 21:46416
scattering by barium, lead, and strontium titanates, (E), 21:13360
scattering by benzene and water, inelastic, (E/T), 22:29871
scattering by beryllium single crystals, single differential cross sections for, (E/T), 23:37064(R) (GA-9326)
scattering by bismuth and lead, cross sections for incoherent, (E), 23:17062
scattering by bismuth—gallium, bismuth—zinc, and gallium—lead alloys, temperature dependence of critical opalescence in, (E), 22:44595
scattering by bismuth-209 and lead at 0.4 to 1.3 MeV, cross sections for incoherent, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by bismuth-209, decay constants and diffusion lengths for pulsed, (T), 25:36655
scattering by carbon dioxide and carbon disulfide near critical point, coherent, (E), 22:32431 (KFKI-10/1968)
scattering by crystal lattices, frequency spectra from inelastic, (E/T), 21:21398
scattering by crystals, cross section for inelastic, (T), 21:44540
scattering by cubic-structure metals, lattice vibrational spectra and physical characteristics from, 25:36319
scattering by cyclic hydrocarbons, rotating-crystal spectrometer for analysis of, 22:45329
scattering by defects in neutron-irradiated aluminum, (E), 22:31967
scattering by deuterated and natural glycerol, 23:26214 (IFA-FN-35)
scattering by deuterated glycerine, quasi-elastic, (E), 23:1776
scattering by deuterated liquid methane, (E), 21:17340(R) (AEET-267)
scattering by deuterium-substituted methane, (E), 22:24835(R) (BARC-305)
scattering by dysprosium-160, dysprosium-161, dysprosium-162, dysprosium-163, and dysprosium-164 at 1.08A, amplitudes and cross sections for coherent, (E), 22:53211
scattering by ferromagnetic and paramagnetic materials, inelastic, (T), 21:38352
scattering by gaseous ammonia and methane, inelastic, (E), 22:18086
scattering by gaseous argon-36 near condensation point, cross section for inelastic, (E), 23:21230
scattering by graphite and nickel, small-angle, (E), 22:29850
scattering by hydrogen in hydrides, localized vibration modes from inelastic, 21:29362
scattering by ice and water, inelastic, (E), 22:35205
scattering by incoherent liquids, phenomenological models of quasi-elastic, (T), 25:7798
scattering by iron near Curie point, critical, (E), 22:22520 (CEA-R-3317)
scattering by iron near Curie temperature, inelastic, (E), 22:32430 (KFKI-8/1968)
scattering by iron, temperature dependence of small-angle critical magnetic, (E), 22:13918

scattering by liquid and solid deuterium and hydrogen, (T), 21:19157
scattering by liquid argon, temperature dependence of quasielastic, (E), 22:24785 (BNL-12372)
scattering by liquid bismuth—zinc alloys, critical inelastic, (E), 22:13896 (AERE-R-5627)
scattering by liquid gallium, cross section for, (E/T), 22:26780
scattering by liquid helium near lambda point, (E), 21:17318(R) (AECL-2659)
scattering by liquid helium, (E), 21:40473(R) (PR-P-74)
scattering by liquid helium, inelastic, (E), 22:32512(R) (AECL-3108)
scattering by liquid lead, sodium, and tin, (E), 24:24495
scattering by liquid methane, (E), 21:17340(R) (AEET-267)
scattering by liquid methane, correlation with infrared and Raman spectra, (T), 21:11935
scattering by liquid methane, cross section calculations for, (T), 23:44813
scattering by liquid methane, differential cross section for, (T), 21:44538
scattering by liquid tetra-deuterated methane, determination of molecular dynamics from, (E/T), 24:4991 (BARC-286)
scattering by liquid—gas systems near critical point, coherent, (E), 22:32431 (KFKI-10/1968)
scattering by liquids and solids, (T), 21:25183
scattering by liquids, calculation of time-of-flight spectra for, (T), 23:15329 (AECL-3189)
scattering by local vibrations in crystals, coherent effects in, (T), 24:49679 (ITF-70-30)
scattering by magnesium oxide, dosage effects on cross section for, (E), 24:35801
scattering by magnetic and nonmagnetic materials, (T), 22:20428
scattering by metallic erbium powders, (E), 21:12011 (AECL-2639)
scattering by molecular liquids, (T), 21:2651(R) (AECL-2612)
scattering by molecular liquids, cross section calculations for, (T), 23:44813
scattering by molecules of the point group C/sub 3v/, cross sections for, (T), 22:48429
scattering by n-propyl alcohol at -120 to +50°C, (E/T), 21:12013(R) (EANDC(OR)-44(L))
scattering by niobium and thorium hydrides, 24:46746
scattering by ordinary and deuterated ethanol and methanol, total cross sections for, (E), 25:5500
scattering by oxygen-17, length for coherent, (E), 25:14862 (AERE-R-5770)
scattering by parahydrogen at 4 to 5 MeV, coherent scattering lengths and total cross sections for elastic, (E), 25:38853
scattering by paramagnetic manganese oxide, 23:42450
scattering by polycrystals of tin, inelastic, (E), 22:13923
scattering by potassium acid phosphates, quasi-elastic, (E), 22:7378
scattering by rubidium, amplitude and cross section of coherent, (E), 24:43101
scattering by solid and liquid hydrogen, inelastic, (E), 24:10899
scattering by solid methane and ammonium iodide, (E), 21:4185
scattering by tungsten-186, amplitudes for coherent elastic, (E), 25:10026 (JINR-E3-5371)
scattering by uranium and yttrium hydrides, vibration-spectra measurement using, 21:3677
scattering by uranium carbide and uranium dioxide, coherent elastic, (T), 23:37064(R) (GA-9326)
scattering by zirconium hydride, total cross section for, (E), 25:56623
scattering cross sections for vanadium, inelastic, 21:38283
scattering from adsorbed molecules, (E), 22:1012
scattering from paramagnetic chromium halides, 22:13604
scattering in ferromagnets, theory of fluctuations and, 21:21097
scattering in liquid cyclohexanol, incoherent quasi-elastic, 25:3534
scattering in liquid methane, multiple scattering effect in, 25:41189
scattering inelastically on solid benzene at 77 to 298°K, (E), 22:5408 (IFA-FN-29)
scattering law for graphite at 533°K, (E), 21:35437(R) (EANDC(E)-76(U))
scattering law for polycrystalline beryllium, (T), 23:37064(R) (GA-9326)
scattering length for bound bismuth atoms, (E), 23:49302
scattering of ultra-, features of magnetic, (T), 25:38851
scattering of, by hydrated salts of transition metals, 21:10331
scattering of, multiple inelastic, (T), 21:17318(R) (AECL-2659)
scattering on dicalcium strontium salt of propionic acid, (E), 21:37617
scattering on liquid lead, collective motions in, 23:25428 (IN-1218, pp 141-79)
scattering on nuclei, fast Fourier transformation of time-of-flight spectra for obtaining intermediate scattering functions for, 25:32267
scattering spectra from polycrystalline and liquid aluminum, (E), 21:9307
source of, description of FR2 reactor R3 horizontal hole facility for helium-cooled, 23:7402 (KFK-818)
sources for high flux reactor cores, testing of liquid hydrogen and liquid deuterium, 23:31196 (CEA-R-3505)
spectra measurements of, methods for, 24:21010
spectra of, transmission functions of neutron choppers with circular slits for measuring, 25:15932
spectroscopy of, improvement in time-of-flight techniques for, (E), 22:26778
transmission through simple bent conducting tubes, calculation of, 25:20245
transport in graphite, description using two-group theory, (T), 23:37066 (KURRI-TR-26)
transport in materials with Bragg cutoff, description using two-group theory, (T), 23:37066 (KURRI-TR-26)
use to study matter, lecture on, 21:46640 (BNL-50059)
wave propagation experiments on, interpretation of, (E/T), 23:5748 (KURRI-TR-36)
wave propagation in graphite, (T), 22:22532
wave propagation in graphite, effects of Bragg cut-off on, (E/T), 22:41928
NEUTRONS, DELAYED
(Neutrons emitted within several seconds following fission of a nucleus.)
abundance and half-lives of 14.7-MeV fission, 25:23755(R) (LA-4605)
abundances and half-lives of groups of, from californium-252 spontaneous fission, (E), 24:5433
abundances and periods of, from 14-MeV neutron fission, 24:18901(R) (LA-4320)
abundances in fission reactions, comparison of calculated fission yields of neutron precursors with, (E/T), 22:29994
age to thermal energy in water, for paraffin—uranium fluoride UF, assemblies, 23:7281(R) (ORNL-4280)
bibliography, 21:35461 (LS-174)
calculation of pulsed neutron source exponential pile, methods for, (T), 23:17275
conference on, Vienna, April 24 to 27, 1967, 24:30760 (STI/PUB-176)
decay rates in NRX reactor, comparison of calculated and measured, 22:6081
delay times for, calculation using multigroup theory, 21:40616
detection and measurement for DMTR boiling water loop, testing of equipment for, 21:34159 (TRG-Report-1416)
detection and measurement of, use in control of nuclear materials, 22:6206 (LA-3741)
detection and use in analysis of fissionable material in recovery cans, 24:39172(R) (LA-4457)
detection and use in analysis of fissionable materials, 25:356(R) (LA-4523)
detection for analysis of uranium scrap, detector array arrangement for, 25:8447(R) (BHO-65-1)
detection in fuel element claddings, design and performance of boron-lined proportional detector for, 23:17545
detection in reactor cooling systems, use for measurement of fission product distribution of, 23:40362
detector response for, two stage Monte Carlo calculations for, (T), 25:6151
distribution in fast reactor systems, comparison of prompt neutron, (T), 24:7319
distribution in heavy water moderated reactors, performance of improved rod-drop method for measurement of, (E/T), 23:47185
distribution without temperature feedback of stationary reactor, analysis of probability, (T), 23:33098 (WAPD-TM-855)
effective fraction in fast reactors, LAMB code for calculation of, 23:21550 (WCAP-7082)
effective fraction of, in a uranium—water lattice, (E/T), 22:25104
effects on autonomous nonlinear power oscillations in reactors, (T), 24:50228
effects on excursions with ramp reactivity insertion in reactors, 24:22486
effects on interpretation of pulsed-source experiments, analysis of, 21:40596
effects on reactivity and control rod drop measurements in heavy water moderated assemblies, 22:27472
effects on reactivity during fuel density oscillations in reactors, (T), 25:10305 (IAE-1955)
effects on reactivity in UTR-Kinki, 23:31204
effects on reactor dynamics of, integrodifferential equations for, (T), 23:24001
effects on reactor stability, (T), 24:4141
effects on stability of linear two-temperature reactor model, 21:38565
effects on stability of reactors, 21:31948 (TID-23844)
effects on stability of two-temperature reactor model, 21:8076
emission and precursors of, studies of, (E/T), 22:29949
emission by separated short-lived fission products, (E), 21:23478 (IS-1413)
emission from fission fragments, mass and time dependence of, (E), 24:30768
emission from fission fragments, theory for, 25:5851
emission from fission products, Bandsaw technique for studies of, 24:30775
emission from fission products, calculations for, (T), 24:30909
emission from fission products, experimental techniques for studies of, 24:30769
emission from gaseous fission products, isotope separator for use on-line with Ames Research Reactor for analysis of, 21:42813 (IS-1600, Paper 7)
emission from products of high-energy nuclear reactions, review of research on, 24:30771
emission from products of uranium-235 thermal neutron fission, predictions for, (T), 24:30767
emission from separated isotopes of gaseous uranium-235 fission products, (E), 21:33960 (IS-1567)
emission from tellurium-134 following antimony-134 beta decay, (E), 22:5852
emission from uranium-233 and -235 neutron fission, relative abundances and half-lives of groups of, (E), 25:5689
emission in decays of short-lived separated isotopes of gaseous fission products, correction to mass-formula predictions for, (T), 24:40644
emission in thermal neutron reactions (n,f) with uranium-235, mass and time distribution of, (E), 24:28776(T) (LA-4176-tr)
emission in thermal-neutron fission of uranium-235, (E), 21:15590
emission measurements in krypton-92 and krypton-93 fission products, use of on-line isotope separator system, 21:42278 (IS-1600, Paper 6)
emission of, energy spectra and probabilities for, (T), 25:3713 (CEA-N-1333)
emission of, fragment mass and time dependence of, (E), 23:15491
emission of, review of data on, 24:30874
emission probabilities for cesium and rubidium precursors, (E), 23:17111
emission probabilities of precursors, semi-empirical treatment of, 24:22106
energy spectra from uranium neutron fission, (E), 25:41244
energy spectra from uranium-235 fission, fast separation of bromine precursors for study of, 25:57504
energy spectra from uranium-235 neutron fission, (E), 24:30774
energy spectra of, automatic system for measurement by time-of-flight method, 21:42642
energy spectra of, multiplication effects in measurement of, 25:5774
energy spectra of, progress report on measurement of, 24:38216(R) (RLO-2215-1)
experimental data on, summary of, 24:30776
flux distribution near reactor control rod channels, (T), 21:17471 (UJV-1616)
fraction calculations for seed-blanket reactors, BE-21 computer program for, 24:28998 (WAPD-TM-941)
fraction effects on few group space—time analysis of neutron flux distribution in water cooled breeder reactors, 24:28997 (WAPD-TM-938)
fraction for in-core thermionic thermal reactors, effective, (T), 25:20825
fraction in fast critical assemblies, calculation method for effective, (E/T), 24:31127 (SRARI-P-53)
fraction in LOFT, calculation of effective, 21:30146(R) (IDO-17213)
fraction in MSRE, use of neutron fluctuation analysis for measuring, 21:34523 (ORNL-4091, pp 136-82)
fraction in plutonium fueled water moderated lattices, ratio of prompt neutron lifetime to effective, (E/T), 25:23413
fraction in pressure tube type heavy water reactors, effects of photonuclear reactions on, (T), 25:51045 (JAERI-13699)
fraction measurements for fast reactors, effects of neutron spectra on, (E/T), 24:47818 (ANL-7610, pp 61-258)
fraction measurements in critical assemblies, use of statistical methods for, 23:11294 (RCN-98, pp 229-38)
fraction measurements in fast critical assemblies, methods for effective, 24:47891 (ANL-7610, pp 369-464)
fraction measurements in pulsed ZPR-3 Assemblies 53 and 54, 24:47818 (ANL-7610, pp 61-258)
fraction of, semi-statistical method for measuring effective, 21:19279
fraction ratio with effective neutron generation time, noise analysis for, 21:18301(R) (IN-1048)
group theory description of, coupled-core reactor model and computer code based on, 21:40617
group-collapsing method for, description of, 22:39876 (CEA-R-3375)
groups from alpha and helium-3 fission of bismuth-209, thorium-232, and uranium-238 and spontaneous fission of californium-252, half-lives of, (E), 25:10056
half-life determination of, design of spectrum multiscale system for, 21:42813 (IS-1600, Paper 7)
half-lives and abundance in thermal neutron fission of plutonium-239, uranium-233, and uranium-235, (E), 23:37231
half-lives and abundances in plutonium-242 fast neutron fission, (E), 25:5775
kinetic response of, mathematical simulation of, 24:18901(R) (LA-4320)
kinetics of heavy-water reactor, parameters of, 21:8080
life spans in Triga reactor of, digital computer analysis of noise for, 21:44951
measurement in safeguards system, 24:39197 (WASH-1147, pp 145-52)
measurement of AFSR-type reactor, use of bandsaw shaped foil tape for, (T), 23:47237 (CNM-R-2(Vol.1), pp 310-18)
measurements in ZPR-3 and ZPPR, evaluation of errors in effective, 24:7239
monitoring for determination of fissionable material in fuel reprocessing steps, 22:12225 (ORNL-4135)
monitoring for liquid metal cooled fast breeder reactor fuel element failure detection system, 25:57055 (JAERI-Memo-4157, pp 84-8)
monitoring for water cooled research reactor fuel element failure detection system, 25:57119 (JAERI-Memo-4157, pp 51-65)
monitoring of, equipment design for operation in gamma field for, 22:12404 (ORNL-4094, pp 19-27)
monitoring of, use for detection of failure of liquid metal cooled fast breeder power reactor fuel elements of, 23:31179 (ANL-7533)
multiplication factor of reflected subcritical assembly using, new method for calculating, (T), 21:44867
multiplication in far-subcritical fissionable materials samples, (E/T), 24:2434
multiplication in thin samples of uranium-235 and uranium-238, calculations using zero prompt lifetime approximation, (T), 23:30911 (LA-DC-9762)
multiplication in thin subcritical systems, calculation of, 23:4361
noise analysis in reactor external control loop, (T), 23:13573 (KFK-786)
precursors of, data tables of properties of, 23:44932
production by deuterium (γ,n) reactions in heavy water reactors, (E), 22:24824
reaction rate data for, effects on gas cooled fast reactors of uncertainties in, 23:37463
relative value in reactors, calculation of, (T), 22:32470

release from fuel cladding, detection system for, 22: 10110(P)
research on, survey of, 24:30796
spectra from neutron-induced and spontaneous fission, review of, 25:20362 (ANL-7747)
spectra in few-group reactor kinetics calculations, relative importance of, 24:16277 (IN-1356)
spectra measurements of, development of equipment for, 24:48302(R) (RLO-2225-T-17-1)
spectra of, design of special purpose discriminator for measuring, 21:16248
spectra of, effects on fast reactor dynamics of, (T), 24: 31045
spectra of, effects on fast reactor physics and design of, 24:31044
spectra uncertainty effects on fast reactor dynamics and stability, 23:4439
spectral measurements in Ames Research Reactor of, design of pulse risetime discriminator for, 21:42813 (IS-1600, Paper 7)
spectrum of, in 4.1-second nitrogen-17 decay, 21:5834 (IA-1082, pp 77-202)
theory for, 25:23015 (AERE-R-6596)
transport equation using one-collision operator for, two-time doublet, (T), 22:44585
use for determination of uranium in borehole samples, 25:29202(T) (CEA-tr-R-1978)
uses in analysis of fissionable materials, 25:37570
yield following oxygen-17(n,p) reactions, 24:6834
yield in uranium-235 thermal neutron fission, 24:30797
yield of, ratio of prompt generation time to total, 21: 35648 (NAA-SR-11850)
yields from bromine and iodine isotopes, 24:30770
yields from fast neutron fission of thorium-232 and uranium-238, 24:11549 (IA-1190, pp 93-122)
yields from fast-neutron fission of thorium-232 and uranium-238, 24:30770
yields from fission of thorium-232 and uranium-238 with 14-MeV neutrons, 24:29308(R) (BMBW-FBK-70-4)
yields from neutron fission of plutonium-239, thorium-232, uranium-233, uranium-235, and uranium-238 at 5 to 8 MeV, (E), 24:30772
yields from neutron fission of thorium-232, uranium-235, and uranium-238 at 3 and 14 MeV, (E), 22:24859 (LA-DC-9403)
yields from neutron fission of thorium-232, uranium-235, and uranium-238 at 3 and 14 MeV, absolute, (E), 22: 32591
yields from neutron fission of thorium-232, uranium-233, uranium-235, and uranium-238 at 3.1 and 14.9 MeV, absolute, (E), 23:31026
yields from neutron fission of uranium-235 and -238 at 15 to 21 MeV, (E), 24:30773
yields from photofission for isotopic analysis, 23:4018
yields from photofission of plutonium-239, uranium-235, and uranium-238, (E/T), 23:10997 (GA-8812)
yields from thermal neutron fission of plutonium-239, uranium-233, and uranium-235, 24:11549 (IA-1190, pp 93-122)
yields from thorium-232 (n,f) reactions at 1.7 to 3.0 MeV, (E), 25:53739 (FEI-195)
yields from thorium-232, uranium-235, and uranium-238 fast neutron fission, 24:47637 (ANL-7610, pp 1-59)
yields from uranium-235 and -238 photofission, time-dependent, (E), 24:18417
yields from uranium-235 thermal neutron fission, (E), 24:18406 (CONF-680461-6)
yields from uranium-238 proton fission at 150 MeV, (E), 24:30771
yields in pressure tube type heavy water reactors, effects of photo-reactions on effective, (T), 25:18118
yields in protactinium-231 neutron fission, 24:52614
yields of, measurements of absolute, 24:18901(R) (LA-4320)

NEUTRONS, EPITHERMAL
(Neutrons of greater velocity than thermal neutrons; at 15°C their energy is 0.1 to 100 eV.)
absorbed dose in air, concrete, and water, (T), 21:18792
absorption and spectra of, computer program for, 21: 7624 (AECL-1996(Suppl.))
absorption at isolated resonances, (T), 22:44581
absorption by 1/v absorbers in a 1/E flux, (E), 25:17667
absorption by cesium-133, resonance parameters for, (E), 23:42942
absorption by europium, cross section evaluation for use as plutonium simulator and spectral index, (E), 23: 37067 (RT/FI-(68)52)
absorption by plutonium-239, cross section for, (E), 23: 7281(R) (ORNL-4280)
absorption by silver in reactor spectrum, cross section and resonance integral for, (E), 22:44745
absorption by uranium-235 up to 100 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
absorption by uranium-238, flat-flux approximation for resonance, 22:18607
absorption by uranium-238, measurement of epicadmium to subcadmium ratios, 21:19466 (INR-748/IXA/PR)
absorption cross sections and resonance integrals for ytterbium-168, -170, -171, -172, -173, -174, and -176, (E), 22:20562 (BNL-12263)
absorption cross sections for lead and uranium-238 at 30 keV, (E), 21:25505 (EURFNR-299-F)
absorption cross sections for plutonium-239, (E), 23: 37234
absorption cross sections for, design of reactor oscillator for, 21:40358
absorption in clusters of plutonium recycle fuel elements, ratio of unit slowing-down density to, (E/T), 24: 53001(R) (MIT-3944-4)
absorption in fissile and fertile materials, use of local pile oscillator for measurement of resonance, 24:47910
absorption in heterogeneous systems, calculation of materials constants for resonance, 22:44901 (UJV-2010)
absorption in indium, resonance parameters for, (E), 24: 3947
absorption in lanthanum and nitrogen, spin dependence of, 23:46900
absorption in reactor fuel elements, ratio of unit slowing-down density to, (E/T), 24:53000(R) (MIT-3944-1)
absorption material for, description of multi-layer concentric cylinder, 22:14283(P)
absorption parameters for reactor fission product buildup, use of Nephew's principle for determining, 24:5560 (CISE-R-111)
absorption resonance integral for californium-252, (E), 23:1882 (WASH-1093)
attenuation factors for gold-197, (E), 21:44669 (NAA-SR-12499)
attenuation in shielding assemblies of BR-5 Reactor (USSR), analysis of, 22:18565
beams of, production of, for use in therapy of human malignancies, 21:6576
calculation in uranium—heavy water lattices with the presence of plutonium isotopes, 23:15712
capture and distribution in fuel elements, computer analysis of, 21:5615 (GEAP-4973)
capture and transmission by gadolinium isotopes, resonance parameters for, (E), 23:40053
capture by A = 115 to 197 nuclei, cross-section data evaluation for activation detectors, 23:3995 (BLG-421)
capture by aluminum, iron, nickel, and sodium at 1 to 100 keV, resonance, (E), 21:40432 (WASH-1074)
capture by aluminum, iron, nickel, and sodium, resonances in, (E), 21:31834(R) (ORNL-4082)
capture by aluminum-27, γ spectra for, (E), 23:34735 (ANL-7282, pp 14-18)
capture by americium-241 and -243 at 0.2 to 20 eV with fission isomer excitation, cross section and prompt-to-isomer fission ratio in, (E), 25:20412
capture by antimony, γ spectra from, 24:6899
capture by antimony-121 and antimony-123, cross sections for, (E), 23:13273
capture by arsenic-75, high-energy gamma spectra from, (E), 23:37161
capture by barium-135 and praseodymium-141, γ spectra for, (E), 23:40073
capture by cesium-133, γ spectra for resonance, (E), 23: 15450
capture by cesium-133, γ spectra from, (E), 23:49386(T) (BNL-tr-284)
capture by chlorine-35, copper, iron, manganese-55, mercury, and thulium-196, γ spectra for, 23:52128
capture by cobalt, determination of resonance integral for, 23:37612 (EUR-4227)
capture by cobalt, gold, platinum, tin, and tungsten, γ spectra for, (E), 23:42909 (CEA-R-3776)
capture by cobalt-59 and gold-197, γ spectra and cross sections for, (E), 23:37141
capture by cobalt-59, activation cross sections for, (E), 22:50558 (AEEW-R-597)
capture by cobalt-59, copper-63, and manganese-55, search for direct, (E), 23:17085 (UCRL-50504)
capture by cobalt-59, direct component in cross sections for, (E), 23:34745 (ANL-7282, pp 483-91)
capture by cobalt-59, γ spectra and direct mechanism for, (E), 23:15388
capture by cobalt-59, partial radiative widths for, (E), 23:5901
capture by copper-63, copper-65, and iron-56, γ spectra from, (E), 22:35285(R) (AERE-PR/NP-13)
capture by dysprosium-163, gadolinium-155, gadolinium-157, and samarium-147, γ spectra from resonance, (E), 23:25901 (IN-1218, pp 73-138)
capture by erbium-167 up to 30 eV, γ spectra from resonance, (E), 23:23687
capture by erbium-167, average γ spectra from resonance, (E), 22:42049
capture by erbium-167, γ resonance, (E), 22:27087(R) (ANL-7405)
capture by europium-151 at 0.02 to 0.75 eV, total and activation cross sections for, (E), 25:50736
capture by europium-151 at 0.321 and 0.460 eV, activation cross section and isomeric cross-section ratio for, (E), 23:5895
capture by gadolinium at 0 to 100 eV, cross section for, (E), 22:29830 (GA-8602)
capture by gadolinium, gadolinium-152, and -154, transmission measurement of resonances in, 23:47013
capture by gadolinium-155 and -157 up to 90 eV, cross sections and resonances in, (E), 24:38230
capture by gadolinium-155 at 0.02 to 63 eV, γ spectra for resonance, (E), 22:46764 (IAE-1443)
capture by germanium-74, germanium-76, selenium-80, strontium-84, and zinc-68, isomeric cross-section ratios for, (E), 22:15977
capture by gold-197 and thulium-169, γ spectra from, (E), 22:3686 (BNL-11903)
capture by gold-197 and tungsten-186, measurements of γ spectra using liquid scintillator for resonance, (E), 22:48423 (RPI-328-133, pp 1-34)
capture by gold-197, motion-induced, temperature-independent effects on, (E), 25:34109
capture by gold-197, platinum-195, and tungsten-183 in resonance region, partial radiative widths for, (E), 23: 5901
capture by hafnium at 1 to 10 eV, γ spectra for, (E), 23: 34782 (ANL-7282, pp 514-22)
capture by hafnium-177 up to 8.8 MeV, γ singles and coincidence spectra for, (E), 23:13288
capture by hafnium-177, γ spectra for, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by hafnium-177, molybdenum-95, molybdenum-96, palladium-105, ruthenium-99, and ruthenium-101, cross sections and resonance spin assignments for, (E), 22:48554
capture by hafnium-178 and hafnium-180, γ spectra from resonance, (E), 23:1882 (WASH-1093)
capture by heavy nuclei, cross-section ratios and gamma spectra from cascade theory, (T), 25:12626 (FMRB-33/70)
capture by holmium-165 at 18 to 86 eV, gamma spectra and resonance spins of, (E), 24:52596
capture by holmium-165 at 18 to 86 eV, gamma spectra from, (E), 24:24553 (RPI-328-186)
capture by indium-115 and rhodium-103, isomeric cross section ratios for, (T), 23:19266
capture by indium-115, γ-ray energies and intensities for, 23:44848(R) (AECL-3333)
capture by iridium-191 and iridium-193, γ spectra from, (E), 25:46039
capture by iron at 4 to 50 eV, search for resonances in, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by iron-56, partial cross sections for, (E), 23: 1882 (WASH-1093)
capture by iron-56, sodium-23, and thorium-232, γ spectra and radiative widths for, (E), 22:20498 (BNL-12268)
capture by lutetium-175, mechanism and resonance parameters for, (E), 25:20476
capture by lutetium-175, resonance spin assignments for, (E), 25:14982 (NCSAC-31)
capture by manganese-55, cobalt-59, niobium-93, tantalum-181, uranium-236, neptunium-237, americium isotopes, and curium isotopes, effective resonance integrals for, (E), 23:37189 (IN-1296)
capture by manganese-55, indium-115, antimony-121, antimony-123, and lanthanum-139, resonance integrals for, (E), 22:46758
capture by molybdenum-95, molybdenum-96, and rhodium-103, γ spectra from resonance, (E), 23:1882 (WASH-1093)
capture by natural neodymium and neodymium isotopes, γ spectra and resonance parameters for, (E), 23:8981
capture by neptunium-237 at 37 to 42 eV with excitation of fission resonances, γ spectra from, (E), 24:15944
capture by niobium-93, resonance parameters and γ spectra for, (E), 22:53194
capture by niobium-93, resonance spin assignments and radiative widths for, (E), 23:17103(R) (ANL-7481)
capture by nuclei, level parameters from gamma spectra from, 24:30684 (BNL-14468)
capture by nuclei, mechanism of, 21:42717
capture by nuclei, spectroscopic techniques and measurements for, 24:6908
capture by nuclei, use of γ-ray spectroscopy for, 24: 18405 (BNL-14200)
capture by oxygen-15, particle—hole calculation of cross section for, (T), 23:19185
capture by platinum, silver-107, silver-109, and thulium-169, γ spectra and resonance parameters for, (E), 24: 52639
capture by platinum-195 at 12, 20, and 67 eV, gamma spectra from resonance, (E), 21:25518 (WASH-1071)
capture by platinum-195, interference effects in resonances of, (E), 23:34780 (ANL-7282, pp 501-6)
capture by platinum-195, radiative widths for resonance, (E), 23:5880
capture by plutonium-240 in 1.056-eV resonance, pseudo-resonance escape probability for, (E), 24:52574
capture by plutonium-240, radiative widths for resonance, (E), 22:32598
capture by plutonium-240, resonance radiative widths for, (E), 23:5924
capture by praseodymium-141, fluctuation of partial radiative widths in, (E/T), 23:49396 (UJV-2228-R)
capture by rhenium-185 and rhenium-187, cross sections and resonance parameters for, (E), 22:30014
capture by rhenium-187 at 4.41 eV, γ spectra from, (E), 23:23686
capture by silver-109, γ spectra for, (E), 23:34800
capture by tantalum-181 at less than 350 eV, cross section and Q value for, (E), 23:37229
capture by thorium-232 at 0.1 to 3.4 eV, cross section and resonance parameters for, (E), 22:35343
capture by thulium-169, γ spectra for, (E), 23:34779 (ANL-7282, pp 473-82)
capture by thulium-169, partial radiative widths for, (E), 22:53206
capture by tin isotopes, partial widths for, (E), 23:8995
capture by tin-117, cross section for, (E), 23:47024
capture by tin-118, p-wave, (E), 22:3686 (BNL-11903)
capture by tin-118, tin-122, and tin-124, γ ray angular distributions for, (E), 23:34772 (ANL-7282, pp 290-5)
capture by tungsten, calculation of gamma yields using cascade model, (T), 23:37235
capture by tungsten, γ spectra for, 23:49398 (WASH-1127)
capture by tungsten, γ spectra for, (E), 23:34778 (ANL-7282, pp 459-72)
capture by tungsten, γ spectra from, (E), 23:5912
capture by tungsten, partial widths for, (E), 23:13285
capture by tungsten-182, -183, -184, and -186, resonances in, (E), 22:22592 (RPI-328-112, pp 1-15)
capture by tungsten-183 at 7.6 eV, γ—γ coincidence spectra for, (E), 23:7304
capture by tungsten-183, γ spectra for, (E), 23:34777 (ANL-7282, pp 440-8)
capture by tungsten-183, resonance widths for, (E), 23: 13285
capture by tungsten-186, γ spectra for, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by uranium-233 at 20 to 63 eV, cross section for, (E), 22:39652
capture by uranium-233 below 4 eV, cross section for, (E), 23:7281(R) (ORNL-4280)
capture by uranium-233 up to 1 eV, cross section for, (E) , 23:37242
capture by uranium-233 up to 60 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
capture by uranium-233, cross section for, (E), 22:29986 (ORNL-TM-2140)
capture by uranium-233, cross section for, (E), 22:20576 (ORNL-TM-2159)
capture by uranium-233, cross section for, (E), 23:1882 (WASH-1093)
capture by uranium-233, measurements of cross sections for, (E), 22:48558
capture by uranium-233, review of resonance integral measurements for, (E), 23:15464

capture by uranium-235 up to 100 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
capture by uranium-235, resonance spin assignments by capture gamma-ray multiplicity measurements, (E), 24: 43319 (UCRL-50881)
capture by uranium-235, temperature dependence in uranium dioxide rods, (E), 23:49413
capture by uranium-238 above 6 eV, γ spectra from, (E), 25:5776
capture by uranium-238 at 2 to 20 eV, direct mechanism of, (T), 21:42649
capture by uranium-238, measurement of, cross section for using time-of-flight method with nuclear explosion, (E), 22:22584 (LA-DC-9181)
capture by xenon-131 at 14.1 eV, gamma spectra from, (E), 25:34100
capture by zirconium at 0.01 to 1.0 eV, cross section for, (E), 22:24853 (GA-8557)
capture in enriched uranium oxide (UO_2) fuel elements, measurement of Doppler effect on, 23:33114
capture in plate lattice, partial separation of variables for calculation of efficiency of, (T), 25:5490
capture in thick samples of uranium-238 at 3 to 11 eV, relative rate for, (E), 23:37076
capture in uranium-238, ratio of thermal to, 23: 15738(R) (BNWL-963)
capture of epicadmium, spatial distribution in thoria pellets, 21:17533 (WAPD-TM-615)
capture of resonance, gamma rays from, 24:6574(T) (UCRL-Trans-10393)
capture of, use in research on nuclear parameters and reactions, (E), 22:3686 (BNL-11903)
capture rate in hafnium control rods, effects of new cross section data on, 22:33147
capture rates in MCR shield materials, determination of radiative, (E), 22:32928 (NDA-2143-9)
capture resonance integral for uranium-237, (E), 23: 1879 (ORNL-4306, pp 1-21)
capture resonance integrals for uranium-233, review of measurements of, 23:11004 (WAPD-TM-760)
capture-to-fission ratio and fission integral for uranium-235, variation from 293 to 1100°K, (E/T), 22:5824
capture-to-fission ratio for plutonium-239, (E), 23:1881 (ORNL-TM-2364)
capture-to-fission ratio for plutonium-239, (E), 22:48423 (RPI-328-133, pp 1-34)
capture-to-fission ratio for plutonium-239, data evaluation for, (T), 22:53168 (JAERI-1162)
capture-to-fission ratio for plutonium-239, measurements of, (E), 23:13265 (RPI-328-142, pp 1-67)
capture-to-fission ratio for plutonium-239, method for measuring, (E), 22:35345
capture-to-fission ratio for uranium-233, -235 and plutonium-239, -241, (E), 25:31353
capture-to-fission ratio for uranium-233, review of integral data on, 23:11004 (WAPD-TM-760)
capture-to-fission ratios and resonance integrals for uranium-233 and uranium-235, (E), 21:35488
capture-to-fission ratios for plutonium-239 and uranium-235, measurements using time-of-flight method, (E), 22:37364
capture-to-fission ratios for plutonium-239, plutonium-241, uranium-233, and uranium-235, resonance, 22: 42016 (KAPL-P-3438)
capture-to-fission ratios for uranium-233 and -235, integral measurements of, (E), 22:5819 (WAPD-TM-613)
cross section for removal from NORA core, measurement of, (E/T), 21:19463(R) (IAEA-3498-16)
detection and measurement of, equipment design for, 21:3306
detection during well logging, design of scintillation detectors for, 22:40477
detection of, design of scintillation detector for, 22: 38013(P)
detection of, development of high-temperature helium-3 activation detectors for, 21:32451
detection of, performance of multifoil activation detector for, 25:39716
detection of, well logging system for, 23:650(P)
detection of, well logging system with sandwich-type detector for, 23:22109(P)
detection of, well-logging scintillator-sandwiched indium system for, 23:7769(P)
diffusion in uranium-238 slabs at 6.7 eV, computer calculations of, 21:35388(R) (GA-7898)
distribution in cylindrical reactor of, effect of nonsymmetrically arranged control elements on, 21: 44871
distribution in homogeneous water-bearing sandstone, Monte Carlo calculation of, 24:36388
distribution in two-layered medium with cylindrical boundary, (T), 24:10597
distribution in two-layered medium with cylindrical boundary, (T), 25:7431(T) (CSIRO-Trans-10069)
distribution in uranium-fueled water-moderated lattice, analysis of, (E/T), 22:35592 (CNAEM-47)
dose of scattered charged particles from, in tissue equivalent phantoms, Monte Carlo calculation of, 21: 6535
dose rate equivalent measurement in Hungarian WWR-S reactor, 22:6130
dose rate of, design of scintillation detector in moderating sphere for measuring, 21:45435 (BNWL-481-4, pp 16-23)
dose-equivalent measurements of, with personnel dosimeters, 21:43286
dosimetry as function of energy, 24:12068 (RHEL/M-149)
dosimetry for personnel, survey of developments in, 24: 25478 (BNWL-1340)
dosimetry in human phantoms, Monte Carlo calculation of, 22:28456 (ORNL-P-3048)
dosimetry of, design of personnel photodosimeter combined with resonance detector for, 21:1647
dosimetry of, proportional detector for personnel, 23: 26557
dosimetry of, thermoluminescent dosimeters for, 24: 16901(P)
dosimetry of, use of niobium-93 activation foils for, 22: 28177 (FFN-74)
dosimetry with proton-recoil, boron-trifluoride, and rem detectors, 21:43289
effects of, on optical absorption of lead borate glass, 21: 14263
effects on anomalous helium production in nickel, 25: 4821
effects on chromosomes and fertility of Drosophila, 22: 19315
effects on hardening and tensile properties of vanadium wires, relations of annealing at 102 to 605°C with, 24: 21404
effects on infrared absorption spectra of silicon and germanium, 24:12889
effects on plutonium—uranium carbides, nitrides, and carbonitrides, 21:34973 (CEA-R-3223)
effects on Shigella flexneri, protective effects of anoxia and glycerol against, 22:6929
evaluation for brain tumor therapy, dosimetric, 22:31068
fission rates in enriched uranium oxide (UO_2) fuel elements, measurement of Doppler effects on, 23: 33114
flux angular components of, direct measurement of, (E), 22:5721
flux calculations for thermal reactors, approximation method for, 21:38431 (AECL-2708)
flux calculations for, analysis of mismatch of thermal flux calculations and, 21:40594
flux determinations in Harwell research reactors, 22: 16264 (AERE-M-1870)
flux distribution in heterogeneous reactor lattices, LASER program analysis of, 21:21689
flux distribution in lithium hydride, 21:27785(R) (NAA-SR-12316)
flux distribution in radially reflected reactor, effects of partially inserted control rods on, (T), 25:37131
flux distribution in slab type reactors, solution of Boltzmann equation in P/sub n/ approximation for, (T) , 24:24911
flux distribution in WWR-SM reactor, (E/T), 23:45106 (INR-968)
flux distribution measurements in Shippingport Pressurized-Water Reactor Core 2, 22:20824 (WAPD-MRP-123)
flux distribution of, effects of multiple control rods on, (E/T), 23:40456
flux distributions for bursts in reactors, (T), 24:33508
flux distributions in water for Am—Be sources enclosed in beryllium spheres, (E/T), 25:31223
flux in reactors, superimposed activation foils technique for measurement of, 24:43722
flux in Swedish Reactor (R-3) primary shielding, analysis of, (E/T), 22:44805 (AE-325)
flux intensity measurement in research reactors, 1 keV two phosphorus-copper detector method for, (E/T), 23:2125 (CEA-R-3441)
flux measurement in RA research reactor for bulk shield removal age-diffusion multigroup program, 22:12113
flux measurement in reactor shielding mock-ups, methods for, 21:17478(T) (ORNL-tr-1519)
flux measurement of, standards for biological and physical applications, (E), 25:34879
flux measurements at high temperatures, use of gadolinium filter for, (E), 25:1941
flux measurements for calibration of film badges, use of gold activation detectors for, 21:43241
flux measurements for reactor, methods of, 23:4470
flux measurements in BBRR beam, 21:25714 (BNL-11245)
flux measurements in FRG, 22:3904(T) (ORNL-tr-1522)
flux measurements in radial and tangential test facilities of ZR-3, 22:18605
flux measurements in research reactors, dosimetry methods for, 22:12110
flux measurements in Semi-Homogeneous Experiments critical assembly, 21:40683
flux measurements of KIWI-Transient Nuclear Test effluent, analysis of, 22:39849 (LA-3449)
flux measurements using gold activation foils for calibrating film badges, 25:32275(T) (SC-T-713011)
flux spectra in reactors, plural foil technique for measuring, 23:39910
fluxes of, activation resonance integrals and self-shielding factors for measuring, (E), 22:16011 (JUL-503-RX)
intensity of, in iron meteorites, 21:12534
reactions (n,2n) with beryllium-9 at 1.4 eV, cross sections and spectra from, (E), 25:31223
reactions (n,α) with samarium-147, α spectra from resonance, (E), 22:32659
reactions (n,f) and (n,γ) with plutonium-239 and uranium-235, cross sections and resonance integrals for, (E), 22:42011(T) (BNL-tr-219)
reactions (n,f) and (n,γ) with uranium-233 and -235 at 0.4 to 30 eV, cross-section analysis using multilevel formalism, 21:46643(R) (ORNL-4134)
reactions (n,f) with aligned uranium-235 at 0.2 to 2000 eV, fragment anisotropy from, (E), 25:34108
reactions (n,f) with plutonium-238 at 50 to 400 eV, cross section for, (E), 23:49398 (WASH-1127)
reactions (n,f) with plutonium-238, cross sections for, (E) , 23:32931 (LA-4108)
reactions (n,f) with plutonium-239 at 14.3 to 100 eV, fission-neutron multiplicities for, (E), 25:36734 (ORNL-TM-3331)
reactions (n,f) with plutonium-239 at 20 to 100 eV, resonance spin correlation with neutron multiplicity in, (E), 23:13290
reactions (n,f) with plutonium-239 at 20 to 100 eV, resonance spin correlation with neutron multiplicity in, (E), 23:13265 (RPI-328-142, pp 1-67)
reactions (n,f) with plutonium-239 at 40 to 100 eV, resonance parameters for, (E/T), 24:40550 (WASH-1136)
reactions (n,f) with plutonium-239 at 40 to 100 eV, Adler—Adler calculation of multilevel parameters for, (T), 24:47637 (ANL-7610, pp 1-59)
reactions (n,f) with plutonium-239 at 40 to 100 eV, Adler—Adler calculation of multilevel parameters for, (T), 24:35867
reactions (n,f) with plutonium-239 at 40 to 150 eV, multilevel analysis of cross section for, (T), 23:28304 (WASH-1124)
reactions (n,f) with plutonium-239 at 89 to 100 eV, R-matrix single-level parameters for, (T), 24:47637 (ANL-7610, pp 1-59)
reactions (n,f) with plutonium-239 near 83 eV, cross-section analysis using multilevel formalism, (T), 22: 30012
reactions (n,f) with plutonium-239, correlation analysis of cross section for, (E/T), 23:11012
reactions (n,f) with plutonium-239, cross section for, (E), 23:37234
reactions (n,f) with plutonium-239, cross section for, (E), 23:7281(R) (ORNL-4280)
reactions (n,f) with plutonium-239, cross section and resonance parameters for, (E), 22:24863(T) (BNL-tr-197)
reactions (n,f) with plutonium-239, cross section for, (E), 23:8996
reactions (n,f) with plutonium-239, fission yields from, (E), 24:20389
reactions (n,f) with plutonium-239, fission-fragment mass distributions from, (E), 23:1882 (WASH-1093)
reactions (n,f) with plutonium-241, absolut eta value for neutron emission in, (E), 23:1882 (WASH-1093)
reactions (n,f) with plutonium-242, cross section and resonance width for, (E), 23:9003
reactions (n,f) with uranium-232 at 5 to 1900 eV, cross section for, (E), 22:27105
reactions (n,f) with uranium-232 at 65 to 165 eV, cross section for, (E), 23:49398 (WASH-1127)
reactions (n,f) with uranium-233 and -235, plutonium-239 and -241, and americium-241, resonance integrals for, (E), 24:43332
reactions (n,f) with uranium-233 at 15 to 30 eV, cross section for, (E), 25:53750(R) (NYO-73-340)
reactions (n,f) with uranium-233 at 20 to 63 eV, cross section for, (E), 22:39652
reactions (n,f) with uranium-233 below 4 eV, cross section for, (E), 23:7281(R) (ORNL-4280)
reactions (n,f) with uranium-233 up to 1 eV, cross section for, 23:37242
reactions (n,f) with uranium-233 up to 60 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
reactions (n,f) with uranium-233, cross section for, (E), 22:20576 (ORNL-TM-2159)
reactions (n,f) with uranium-233, cross section for, (E), 23:1882 (WASH-1093)
reactions (n,f) with uranium-233, cross section for, (E), 22:29986 (ORNL-TM-2140)
reactions (n,f) with uranium-233, resonance integrals for, 23:11004 (WAPD-TM-760)
reactions (n,f) with uranium-233, review of resonance integral measurements for, (E), 23:15464
reactions (n,f) with uranium-235 at 0.2 to 20 eV, fission-fragment kinetic energy in resonance, (E), 22:39672
reactions (n,f) with uranium-235 at 1 to 37 eV, cross sections and resonance parameters for, (T), 21:46716 (BNL-50045)
reactions (n,f) with uranium-235 at 17 to 22 eV, cross section for, (E), 25:53750(R) (NYO-73-340)
reactions (n,f) with uranium-235 at 17 to 70 eV, resonance parameters for, (E), 23:19303
reactions (n,f) with uranium-235 at 2.5 to 9.0 eV, neutron emission in, (E), 21:17270(R) (RPI-328-71)
reactions (n,f) with uranium-235 at 2.5 to 9.0 eV, neutron emission in, (E), 21:25518 (WASH-1071)
reactions (n,f) with uranium-235 at 20 to 60 eV, symmetry of, (E), 24:43312 (CONF-700101-(Vol.2), pp 1306-14)
reactions (n,f) with uranium-235 in the low resonance region, cross-section measurement and normalization for, (E), 25:53775
reactions (n,f) with uranium-235 in uranium dioxide, temperature dependence of, (E), 21:38319
reactions (n,f) with uranium-235 in uranium-dioxide rods, temperature dependence of resonance, (E), 21:33962 (KAPL-P-3342)
reactions (n,f) with uranium-235 up to 100 eV, multilevel analysis of cross section for, (E/T), 23:7281(R) (ORNL-4280)
reactions (n,f) with uranium-235 up to 20 eV, kinetic energy variation of fission fragments from, (E), 23: 8975 (JINR-P3-4110)
reactions (n,f) with uranium-235, cross section and resonance parameters for, (E), 22:30005
reactions (n,f) with uranium-235, cross section and resonance parameters for, (E), 23:5918
reactions (n,f) with uranium-235, cross section and resonance integral for, (E), 23:19129
reactions (n,f) with uranium-235, ratio of binary to ternary fission in, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,f) with uranium-235, reactivity measurement method for determination of, 25:28817
reactions (n,f) with uranium-235, statistical analysis of, (T), 24:52634
reactions (n,f) with uranium-235, symmetry of, (E), 25: 14999
reactions (n,f) with uranium-235, temperature dependence in uranium dioxide, 23:49413
reactions (n,f) with uranium-238, fractional cummulative yield of niobium-99m from, (E), 25:20406
reactions (n,f) with uranium-238, mass yields from, (E), 24:18416
reactions (n,γ) with mercury-198 at 23 and 90 eV, mercury-199 energy levels from, (E), 21:23529
reactions (n,γ) with nuclei, gamma spectra from, (E), 22:5830

reactions (n,γ) with samarium-149 at 0.12 to 1.5 eV, interference effects in cross section for, (E), 23:25904 (JINR-P15-4325)
reactions (n,γ) with tungsten-183 at 7.6 and 27.1 eV, tungsten-184 energy levels from, (E), 21:23529
reactions (n,f) with plutonium-239, plutonium-241, uranium-233, and uranium-235, average cross sections and resonance integrals for, 23:30995 (AERE-M-2157)
reactions of, dissertation summary of research on, (E), 22:44588
reactions with aluminum, boron, carbon, fluorine, and oxygen, gamma cross sections for, (E), 22:48463
reactions with americium-243 at 0.4 to 7 eV, resonance parameters for, (E), 23:49398 (WASH-1127)
reactions with americium-243 at 0.4 to 7 eV, resonance parameters for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with americium-243 at 30 to 48 eV, total cross section and resonance parameters for, (E/T), 23:1882 (WASH-1093)
reactions with antimony and cadmium, resonance parameters for, (E), 23:5898
reactions with antimony at 30 to 150 eV, total cross sections for, (E), 24:45785
reactions with antimony-121 and antimony-123, total cross section and resonance parameters for, (E), 23:13273
reactions with antimony-121, Doppler effect and resonance parameters for 6.24 eV resonance in, (E), 25:10041
reactions with arsenic-75, copper-63, gold-197, manganese-55, sodium-23, and tungsten-186, activation resonance integrals and self-shielding factors, (E), 22:16011 (JUL-503-RX)
reactions with barium-138, bromine-81, cerium-140, cesium-142, iodine-127, selenium isotopes, and tellurium-130, activation resonance integrals for, (E), 23:1869
reactions with biological tissues, group division on basis of, 22:48433
reactions with cadmium-111, -112, -114, and -116 up to 9 eV, total cross sections for, (E), 24:28791
reactions with cadmium-shielded indium, corrections for activation, 22:33652
reactions with cadmiun-113 at 0.025 to 1 eV, total cross section for, (E), 21:29971
reactions with cobalt-59 at 132 eV, resonance parameters for, (E), 23:7242 (AAEC/TM-466)
reactions with curium-243, curium-245, and curium-246 at 1 to 10 eV, resonance parameters and total cross section for, 23:37243
reactions with deuterium, lanthanum, and nitrogen, spin dependence in, (E), 23:28231(T) (BNL-tr-263)
reactions with dysprosium-161 and -163 at 1 to 20 eV using polarized beam and target, resonance spin assignments for, (E), 25:39039
reactions with erbium isotopes and ytterbium isotopes, resonance parameters for, (E), 22:37281(R) (NYO-72-191)
reactions with erbium isotopes, resonance parameters for, (E), 22:24868
reactions with erbium-164, resonance parameters for, (E), 23:3996 (CONF-670653-1)
reactions with erbium-167 at 8 to 373 eV, resonance parameters for, (E), 21:40432 (WASH-1074)
reactions with europium-151 and -153, resonance parameters for, (E), 23:49398 (WASH-1127)
reactions with europium-151 at 0.02 to 0.75 eV, total cross section for, (E), 25:50736
reactions with europium-151 at 0.321 and 0.460 eV, total cross sections for, (E), 23:5895
reactions with gadolinium isotopes, resonance parameters for, (E), 23:1873(T) (BNL-tr-222)
reactions with gadolinium isotopes, resonance parameters for, (E), 22:42014 (JINR-P3-3882)
reactions with gadolinium-155 and -157, resonance parameters for, (E), 23:49398 (WASH-1127)
reactions with gadolinium-155 and gadolinium-157 at 3 to 100 eV, resonance parameters for, (E), 23:30997(R) (GA-9275)
reactions with gadolinium-155 and gadolinium-157, resonance parameters for, (E), 23:1882 (WASH-1093)
reactions with gadolinium-155 and gadolinium-157, resonance parameters for, (E), 22:29830 (GA-8602)
reactions with gadolinium-155, gadolinium-156, gadolinium-157, gadolinium-158, and gadolinium-160, resonance parameters for, (E), 23:37268
reactions with gold-197, indium-115, and tungsten-186, activation resonance integrals for, (E), 23:7242 (AAEC/TM-466)
reactions with gross fission products from neutron irradiation of enriched uranium, total cross sections for, (E), 25:28404
reactions with hafnium-177 and uranium-235, resonance spins and widths for, (E), 23:28300 (NP-17819, Chap.3.2)
reactions with helium, neon, argon, and krypton at 0.75 to 6.19 eV, total cross sections for, (E), 23:42852
reactions with hydrogen in niobium, tantalum, titanium, vanadium, and yttrium hydrides at 0.1 to 0.7 eV and deuterium in niobium, tantalum, and vanadium deuterides at 0.1 to 0.4 eV, total cross sections for, (E), 25:25634
reactions with I = $^1/_2$ and $^3/_2$ nuclei, s-wave resonance parameters for, (E/T), 22:53166 (CEA-R-3385)
reactions with indium-115 and iodine-127, average resonance parameters and cross sections for, (E), 23:15462
reactions with iridium at 0.5 to 0.8 eV, calculation and measurement of, (E/T), 24:7645 (IEA-150)
reactions with iron, magnesium, manganese-55, silicon, and sulfur at 14 MeV, γ spectra from, (E), 22:44642
reactions with iron-56 at 1.0 to 7.6 MeV, γ production cross sections for, (E), 22:41979 (ORNL-4249)
reactions with molybdenum isotopes, resonance parameters for, (E), 23:31035
reactions with neptunium-237 at 10 to 100 eV, resonance parameters for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with niobium-94 below 50 eV, resonance parameters for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with palladium-105 and palladium-108 up to 90 eV, resonance parameters for, (E), 23:19256 (RT/FI-(68)37)
reactions with plutonium-239 and uranium-238, resonance interaction effects in, (T), 23:19244 (AE-344)
reactions with plutonium-239 at 0 to 440 eV, total cross section and resonance parameters for, (E), 22:24863(T) (BNL-tr-197)
reactions with plutonium-239 to 100 eV, cross sections and level parameters from, (E), 21:31819
reactions with plutonium-239, capture and fission cross sections for, (E), 23:37236
reactions with plutonium-239, multilevel analysis of total cross section for, (E/T), 23:7281(R) (ORNL-4280)
reactions with plutonium-240 at 20 to 100 eV, total cross section and resonance parameters for, (E), 23:5922
reactions with plutonium-240, -241, and -242, cross sections, resonance parameters, and fission parameters for, 22:22578 (IA-1152)
reactions with plutonium-240, total cross section and resonance parameters for, (E), 22:32597
reactions with plutonium-241 up to 50 eV, single-level resonance parameters for ENDF/B II, 25:48073 (IN-1407, pp 1-82)
reactions with promethium-147 at 6 to 20 eV, resonance parameters for, (E), 21:40675(R) (IN-1083)
reactions with rhenium-185 and -187 at 2 to 99 eV, resonance parameters for, (E), 21:40432 (WASH-1074)
reactions with rhenium-185 and rhenium-187 at 0.01 to 100 eV, total cross sections for, (E), 22:30014
reactions with rhodium-103, parameters for 1.257-eV resonance in, (E), 24:40630
reactions with samarium-149 and thulium-169, resolution corrections to resonance parameters for, (E/T), 22:41917 (CNAEM-51)
reactions with silicon, cross section for, (E/T), 23:37133 (AD-679907)
reactions with tantalum-181, cross sections for, 22:20561 (AHSB(S)R-141)
reactions with tantalum-181, total cross section and strength function for, (E), 22:37372
reactions with thallium-204, total cross section for, (E), 23:5896
reactions with thorium-228 at 1.9 and 7.5 eV, total cross section and resonance parameters for, (E), 21:42622
reactions with thorium-230, total cross section for, (E), 22:37342 (ITEF-546)
reactions with thorium-232, resonance parameters for, (E), 23:1882 (WASH-1093)
reactions with thorium-232, total cross section and resonance parameters for, (E), 23:17103(R) (ANL-7481)
reactions with tin-117, total cross section for, 23:47024
reactions with titanium-46 through -50, total cross sections for, (E), 24:43188
reactions with tungsten at 27 eV, resonance parameters for, (E), 22:22607
reactions with uranium carbides at 0.1 eV, total cross section for, (E), 22:39541(R) (GA-8626)
reactions with uranium-232 at 1 to 31 eV, cross section calculations using ACSAP code, 24:39207 (IN-1317, pp 233-381)
reactions with uranium-232 at 1 to 31 eV, resonance parameters and total cross section for, (E), 23:49398 (WASH-1127)
reactions with uranium-233 at 0.4 to 61.4 eV, single-level analysis of, (E/T), 23:5930
reactions with uranium-233 at 43 to 96 eV, total cross section sor, (E), 23:49332(R) (EANDC(E)-115(U))
reactions with uranium-233, cross sections and resonance parameters for, 22:24861 (WANL-TME-1721)
reactions with uranium-233, measurement capture by uranium-233, measurements of cross sections for, (E), 22:48558
reactions with uranium-233, time-of-flight spectra for resonances in, (E), 23:49393(R) (NYO-72-227)
reactions with uranium-235 at 1 to 37 eV, total cross sections and resonance parameters for, (T), 21:46716 (BNL-50045)
reactions with uranium-235 at 1 to 40 eV, resonance spins for, (E), 22:29992
reactions with uranium-235 at 6 to 40 eV, γ spectra for resonance, (E), 23:49405
reactions with uranium-235 up to 100 eV, multilevel analysis of total cross section for, (E/T), 23:7281(R) (ORNL-4280)
reactions with uranium-235, total cross section for, (E), 23:19129
reactions with uranium-236 at 5 to 400 eV, resonance parameters for, (E), 23:49398 (WASH-1127)
reactions with uranium-238, p-wave resonance parameters for, (E), 22:42036
reactions with uranium-243, -245, and -246 at 1 to 10 eV, resonance parameters for, (E), 23:49398 (WASH-1127)
reactions with ytterbium-170, -171, -172, -173, -174, and -176, total cross sections for, (E), 22:20562 (BNL-12263)
reactions with Z = 17 to 83 nuclei, total cross sections and resonance parameters for, (E), 23:13239
reactions with zircaloy-2 and zirconium, resonance absorption cross sections for, (E), 23:44812
reflection by concrete, doubly differential current albedos for, 21:21025
resonance absorption of, description of pile oscillator technique for measuring Doppler broadening in, 24:18719 (NP-18138)
resonance absorption of, effects of temperature on intermediate, (T), 23:40453
resonance escape probabilities for, comparison of analyses of, 22:3813(R) (AI-CE-54)
resonance integrals for, description of pile oscillator technique for measuring, 24:18719 (NP-18138)
resonance integrals, calculation of, 21:42725(R) (ANL-7357)
resonance parameters of, shape-analysis method for determining, 22:6628
scattering and transmission measurements on cadmium and rhodium-103, resonance, (E), 23:5900
scattering by A = 147 to 193 nuclei at 0.5 to 25 eV, resonance, (E), 21:25561
scattering by ammonia at 295°K, time-of-flight spectra from, (T), 24:47637 (ANL-7610, pp 1-59)
scattering by benzene, polyethylene, and zirconium hydride, differential cross sections for, 21:38154 (GA-8030)
scattering by beryllium oxide at 0.134, 0.165, and 0.257 eV, doubly differential cross sections for, (E), 22:22522 (GA-8283)
scattering by cadmium-111, -112, -114, and -116 at 0.3 to 9 eV, cross sections for, (E), 24:28791
scattering by cadmium-113 in cadmium sulfide crystals at 0.178 eV, reflection and transmission curves and integral reflection coefficients from resonance, (E), 25:5785
scattering by carbon, chlorine, and hydrogen, amplitudes for coherent atomic, 25:59696
scattering by carbon-12, coupled-channel formalism for, 23:15364
scattering by deuterium, coherent amplitude and cross sections for, (E), 25:50158
scattering by dysprosium, holmium-165, and lutetium, time-of-flight measurements of total cross sections for, (E), 22:35340
scattering by erbium-162, -164, -166, -167, -168, and -170, cross-section measurements using time-of-flight method, (E), 22:35339
scattering by gadolinium-155 and -157 up to 240 eV, cross sections and resonances in elastic, (E), 24:38230
scattering by germanium isotopes, cross sections for potential, (E), 23:10962(T) (NP-tr-1719)
scattering by graphite at 0.170 to 0.316 eV, (E/T), 21:23396(R) (GA-6583)
scattering by heavy water at 0.15 to 0.65 eV, doubly differential cross sections for, (E), 22:22522 (GA-8283)
scattering by impurity-bearing ferromagnetic materials, differential cross sections for inelastic, (T), 22:24789 (ITF-67-45)
scattering by lead and zirconium, cross sections for, 22:24862 (WANL-TME-1746)
scattering by liquid methane at 0.250 to 0.306 eV, (E), 21:23396(R) (GA-6583)
scattering by liquid, solid, and heavy water, inelastic, (E), 22:26199 (BNWL-SA-1535)
scattering by niobium hydrides at 0.238 eV, differential cross sections for inelastic, (E), 21:40348 (RPI-328-87, pp 73-85)
scattering by niobium hydrides, thallium hydrides, titantium hydrides, and zirconium hydrides at 0.1 to 1.0 eV, cross sections for inelastic, (E), 22:53076
scattering by oriented polyethylene at 0.234 eV, doubly differential cross sections for inelastic, (E), 22:22528 (RPI-328-112, pp 104-19)
scattering by plutonium-239 at 41 to 90 eV, resonance spin assignments and widths for, (E), 23:13265 (RPI-328-142, pp 1-67)
scattering by plutonium-239, uranium-233, and uranium-235 at 1 to 100 eV, cross sections for, (E), 21:25518 (WASH-1071)
scattering by plutonium-240, cross section and resonance parameters for, (E), 23:5921
scattering by plutonium-241 at 2 to 32 eV, cross section for, (E), 21:7773 (UCID-15036)
scattering by plutonium-241 at 2 to 34 eV, excitation functions for, (E), 21:25518 (WASH-1071)
scattering by plutonium-241 at 4 to 32 eV, cross section and resonance parameters for, (E), 23:1882 (WASH-1093)
scattering by plutonium-241, uranium-233, and uranium-235 at 1 to 30 eV, cross sections for, (E), 22:53193
scattering by plutonium-242 at 1.9 to 2.4 eV, cross sections for resonance, (T), 21:21530
scattering by polyethylene and water, inelastic, (E), 21:2597
scattering by polyethylene at 0.1 to 1 eV, differential cross sections for inelastic, (E), 22:5709 (RPI-328-102)
scattering by polyethylene at 0.167 to 0.499 eV, (E/T), 21:23396(R) (GA-6583)
scattering by polyethylene at 0.33 to 1.02 eV, differential cross sections for, (E), 21:19152(R) (TID-23685)
scattering by polyethylene at 0.33, 0.65, and 1.02 eV, differential cross sections for inelastic, (E), 21:40432 (WASH-1074)
scattering by tungsten at 10 to 300 eV, cross section for, (E), 22:22607
scattering by uranium carbide at 0.134 eV, doubly differential cross section for, (E), 22:32438
scattering by uranium dioxide at 0.134 and 0.332 eV, differential cross sections for inelastic, (E), 21:40348 (RPI-328-87, pp 73-85)
scattering by uranium dioxide at 0.134 and 0.341 eV, differential cross sections for inelastic, (E), 21:40432 (WASH-1074)
scattering by uranium-233 and -235 at 0.5 to 190 eV and plutonium-239 at 2 to 450 eV, resonance cross sections and spins for, (E), 25:23035
scattering by uranium-233 at 1 to 20 eV, cross section for, (E), 21:7773 (UCID-15036)
scattering by uranium-233, cross section for, (E), 23:1882 (WASH-1093)
scattering by uranium-235 at 0.025 to 1 eV, cross section for, (E), 25:15085
scattering by uranium-235 at 1 to 30 eV, cross section for, (E), 23:1882 (WASH-1093)
scattering by uranium-235 at 7 to 60 eV, resonance parameters for, (E), 25:15084

scattering by water and polycrystalline and single-crystal ice, total cross sections for, (E), 23:28212 (IKF-22)
scattering by water at 0.15, 0.23, 0.33, 0.50, and 0.63 eV, differential cross sections for inelastic, (E), 21:40432 (WASH-1074)
scattering by water at 0.304 eV, cross sections for inelastic, (E), 22:20779 (BNWL-624, pp 3.1-159)
scattering by water at 200°C, doubly differential cross sections for inelastic, (E), 22:22528 (RPI-328-112, pp 104-19)
scattering by water at 296°K, differential cross sections for inelastic, (E), 21:33856 (KAPL-P-3338)
scattering by water at 4 to 16 eV, differential cross sections for, (E), 21:40343 (JINR-P3-3413)
scattering by water vapor at 593°K, time-of-flight spectra from, (T), 24:47637 (ANL-7610, pp 1-59)
scattering by yttrium hydride at 0.05 to 0.45 eV, cross section for, (E), 24:8827
scattering by zirconium hydride at 0.238, 0.396, and 0.572 eV, inelastic, (E/T), 21:7680
scattering cross sections for molecules of nitrogen at room temperature, (T), 22:29869
scattering cross sections for plutonium-239, uranium-233, and uranium-235 at 1 to 100 eV, (E), 21:40675(R) (IN-1083)
scattering cross sections for zirconium hydrides at 0.1 to 0.6 eV, differential, (E), 21:25518 (WASH-1071)
scattering cross sections for, bright line technique for measuring, 22:2406
scattering in reactor-grade graphite of .611 eV, analysis of, 22:35717
scattering in water and zirconium hydride, cross sections for, 24:38059(R) (GA-10060)
scattering kernels for reactor moderators, modified FLANGE and FLANGE-II codes calculations of, 24:26825 (GA-9950)
scattering law and cross sections for heavy water at 299°K, (E), 21:33849 (BNWL-436)
scattering law and differential cross sections for water at 268 and 299°K, (E), 21:33849 (BNWL-436)
scattering law for beryllium oxide at 300°K, (E), 22:22522 (GA-8283)
scattering law for heavy water at 0.157 to 0.646 eV, (E/T), 21:38194
scattering law for reactor-grade graphite, (E/T), 22:22522 (GA-8283)
scattering law for water at 0.100 to 0.377 eV and 95°C, (E), 21:42521 (BNWL-345)
scattering law for water at 296°K, (E), 21:33856 (KAPL-P-3338)
scattering of 1-eV, by liquid helium-4, (E), 21:7153
shielding for, testing of various materials for, 22:7925
shielding in concrete ducts, flux determinations in, (E/T), 21:29324 (ORNL-TM-1794)
slowing down in lead, measurements using pulsed source technique, (E), 22:29892
sorption in control rods of, two-group approximation for, 21:44949
spectra calculations in Triga Mark 2 reactor, 23:37612 (EUR-4227)
spectra from isotropic point sources in infinite homogeneous absorbing and scattering media, (T), 21:35395 (USNRDL-TR-67-57)
spectra in aluminum oxide (Al_2O_3)—erbium oxide (Er_2O_3) and aqueous erbium nitrate ($Er(NO_3)_3$), (E/T), 24:26742 (GA-9658(Vol.1))
spectra in beryllium oxide (BeO) moderated slab type multiplying media, (E/T), 23:43143 (AAEC/TM-497)
spectra in cadmium-bearing heavy water, space-dependent, (E/T), 22:29875
spectra in cores 5, 9, and PuB-5 of FRO, performance of resonance sandwich foil detectors for, (E/T), 24:31092 (AE-392)
spectra in FTR shielding, comparison of transmission, (E/T), 24:5542 (BNWL-1197)
spectra in graphite, time-dependent, (E), 22:29892
spectra in heterogeneous highly-enriched-fuel reactors, variational and Bubnov-Galerkin synthesis of spatially dependent, 22:35722
spectra in natural uranium—heavy water lattices, (E/T), 22:30336
spectra in simulated aluminum—plutonium alloy cylinder shaped fuel elements, (E/T), 24:26742 (GA-9658(Vol.1))
spectra in two-dimensional homogeneous reactor cells, (T), 22:29853
spectra in uranium-238 spheres, calculation of, (T), 22:11873(R) (GA-8085)
spectra in water cooled and moderated systems, upscattering corrections for, (T), 23:31236(R) (BNWL-1039)
spectra in water moderated lattices, analytical two-group formalism for, (E/T), 25:10320 (AE-405)
spectra indices for heavy water moderated ECO, effects of voids on, (E), 23:31208
spectra indices for ORGEL-type fuel clusters, 22:16145 (EUR-3736)
spectra measurement in MTR, 21:17527 (WAPD-TM-642)
spectra measurements in depleted borated polyethylene and uranium slabs for 0.001 keV to 2 keV, analysis of time-of-flight method for, (E/T), 22:39930
spectra measurements in fast reactors, use of resonance sandwich detectors for, 21:35691 (ANL-7320, pp 535-9)
spectra measurements in R1 reactor, 21:23742
spectra of MSCA and FR-0, analysis of activation Doppler effect in, (E/T), 23:4297 (AE-331)
spectra of slow (<5 eV), use of foil activations for determining, 21:6252
spectra of, data evaluation for activation detectors for measuring, 23:3995 (BLG-421)
spectra of, description using orthonormal eigenfunction expansions, 21:17293
spectra of, development of reactor in-core techniques for measurement of, 24:20546
spectra of, experimental anisotropic source distributions for calculation of space-dependent, (T), 23:8912
spectra of, magnetic analysis of recoil protons for determining, 22:6652 (ORNL-4168, pp 183-230)
spectra of, measurements for pressurized water reactors, 21:12232(R) (BAW-3647-2)
spectra of, use of activation detectors for measuring, 21:32373(T) (AEC-tr-6719, pp 7-18)
spectra of, use of activation detectors for measuring, 22:8348
spectra of, use of resonance foil sandwich detectors for measuring, 21:19962
spectral indices for, 21:9919
spectral indices in uniform heavy water lattices, (E/T), 22:14270
spectral measurements in R-0, activation techniques for, 21:32021
spectral measurements in uranium oxide (UO_2)—water lattices, use of lutetium and copper foils for, 22:1868
spectral measurements using cadmium-difference method, (E), 22:20426
spectrum determination of, method of treating resonance contributions to energy, 21:23711(R) (BNWL-340)
spectrum in beryllium oxide (BeO) and beryllium oxide (BeO)—thorium oxide (ThO_2) moderated uranium-235 fueled MOATA (Argonaut type) Reactor, effects of core composition on, (E/T), 23:34915 (AAEC/TM-496)
spectrum measurements of, plural-foil activation detector for, 23:2570
spectrum of Democritos Reactor, 24:4101
transmission of, calculation of 1/v absorber, (T), 23:19558
transport in resonance absorbers, spatial capture distribution in, (T), 24:6599
transport of, PIGG computer program for multigroup analysis of one-dimensional P-1 group equations for, 22:48752 (KR-129)
use for partial body in vivo activation analysis, geometrical factors in, 24:50981
use for radioisotope production in control rods,, 22:25176(P)
use in determination of hydrogen content and porosity in well logging, 21:6320
use in method for determination of soil density and water content, 22:23144
use in nondestructive testing of macroscopic bodies containing hydrogen, 21:17801(P)
use in radiobiology, 23:45609 (CNM-R-2(Vol.2), pp 797-825)
uses of, in activation analyses, 21:2954
yields from fission, measurements of absolute, 22:16316(R) (GEAP-5505)
NEUTRONS, FAST
(Neutrons of energy 100 kev and up.)
see also Neutrons, Fission
absorption by europium, cross section evaluation for use as plutonium simulator and spectral index, (E), 23:37067 (RT/FI-(68)52)
absorption by gold-197 and silver, cross section measurement using self-indication method, (E), 22:20578 (WASH-1079)
absorption by lens of eyes of mice in relation to development of injuries, kinetics of, 24:14602
absorption by lithium and lithium-6 at 10 to 100 keV, cross sections for, (E), 22:5809(R) (ANL-7354)
absorption by nuclei Z = less than or equal to 40, calorimetric determination of, 24:33830
absorption by reactor materials, correlation of energy between displaced atoms and heating as function of Z number, 24:14846
absorption by Z = 24 to 94 nuclei at 24 keV, cross section measurement using transmission method in spherical geometry, (E), 22:18288
absorption cross sections for 1- to 100-keV, scandium-filtered beam apparatus for measuring, 22:26766
absorption in biological materials, methods for measurement of dose in, 25:24165
absorption in concrete underground structure and in semi-infinite medium, relation between, (T), 24:19934
absorption in concretes, 24:37528 (JUL-603-ST, pp 213-22)
absorption in heterogeneous model of bone, fat, and muscle, 21:4804
absorption levels in radiation target cans, (E/T), 25:1939 (SRARI-P-69)
absorption material for, description of multi-layer concentric cylinder, 22:14283(P)
absorption of, effects of chemical binding on Doppler widths of resonance, (T), 23:26121 (IN-1218, pp 57-72)
absorption of, integral transport theory analysis of resonance, 25:5959
advantage factor of, leakage effects on blanket-seed assembly, (E/T), 21:7930
age and fast effect in beryllium and beryllium oxide, sensitivity to cross-section data in moments-method calculation of 14-MeV, 25:5496
age in iron, (E), 24:1721(R) (RPI-328-162)
ages in water and tungsten—water mixtures, from d—D and d—T sources, (E/T), 22:48417 (N-68-25058)
angular correlations with gamma radiation, associated gamma-ray time-of-flight scintillation spectrometer for measuring, 23:43535
angular distribution behind iron plates as function of plate thickness and source characteristics, (T), 21:21034
angular distribution behind thin iron shielding in oblique incidence, azimuthal function of, (E/T), 23:46534
angular distribution of, from Phillips Neutron Generator PW 5300, 22:35210
angular distribution, energy, and yield from alpha, deuteron, and proton reactions with lithium, 22:20387
angular distribution, energy, and yield from deuteron reactions (d,n) with thick-target beryllium at 1.0 to 3.0 MeV, 23:16180 (NIRS-7, pp 3-11)
angular distributions from electron reactions with spherical lead targets, (E), 21:19152(R) (TID-23685)
angular distributions from isotropic source beyond lead and iron barriers, Monte Carlo calculations for thickness-dependent, 25:25617
angular distributions in depleted uranium, time-of-flight measurements using pulsed source, (E), 23:5761
attenuation by aluminum slabs at 10 MeV, (E), 21:37542
attenuation by calcium-based concretes at 14 MeV, (E), 25:36260
attenuation by concretes, (E), 23:51747(T) (ORNL-tr-3028)
attenuation by shielding materials, 23:51748
attenuation by shielding materials, monoenergetic-source, (E/T), 25:3173
attenuation by water at 14.7 MeV, removal cross section for, (E), 25:12349
attenuation calculations in rocket reactor shields, KAP-V point kernel code for, 22:39854(R) (N-68-13504)
attenuation constants for air, compounds, concretes, and elements, 21:23626(T) (ORNL-tr-1504)
attenuation in air at 0.3 to 5.0 MeV, cross sections for, (E), 25:5481
attenuation in concrete and iron, 23:16861
attenuation in concrete shielding, effects of iron contents on, (E), 25:57027 (RCN-147)
attenuation in cylinders of aluminum, boron carbide, lead, and lithium hydride, (E), 25:25614
attenuation in hydrogenous shields, tissue-equivalent proportional-counter measurements of, (E), 25:48903 (CONF-710402-(Vol.2), pp I.172-81)
attenuation in layers of water and dense material, ORPHEE IV code for, 24:52993(T) (ORNL-tr-2357)
attenuation in lead at 3 MeV, time response behavior of, (E/T), 25:9995
attenuation in liquid nitrogen at 14 MeV, (E), 21:35393 (UCRL-50259)
attenuation in nonhydrogenous—thin hydrogenous shields, (T), 22:31908
attenuation in polyethylene and steel, measurement of, 23:10697
attenuation in serpentine sand, measurements of, 21:10135
attenuation in shielding materials at 0.5 to 18 MeV, measurements of, 25:17257 (NIRS-9, pp 1-14)
attenuation in thick sheets of lithium hydride, (E), 21:23242
attenuation in uniform media, calculations using solution of inhomogeneous multigroup transport equation by Fourier transform method, (T), 22:26761 (NIJS-R-520)
attenuation in uranium, (E), 21:12013(R) (EANDC(OR)-44(L))
attenuation in water and aluminum—water mixture, (E), 23:28223
attenuation in water and aluminum-water slabs, (E), 22:32447
attenuation in water, relaxation length for 14-MeV, (E), 25:3537
beam spread in shielding at 100 and 400 MeV, 24:47293 (ORNL-TM-3025)
book: Biological Effects of Fast Neutrons, 25:13568
book: Effects of Nuclear Irradiation on the Properties of Metals and Alloys, 23:12386
book: Neutrons in Radiobiological Experiments, 21:38869
buildup factor, dependence on detector and shield position, 21:21004
capture at 0.1 to 2 MeV, integral method of testing cross sections for, (E/T), 23:5775
capture by A = 115 to 238 nuclei at 400 keV, cross sections and spectra from, (E), 25:53743(R) (INR-1318)
capture by A = 23 to 208 nuclei at 13.4 to 15.0 MeV, cross sections for, (E), 21:13839
capture by A = 26 through 138 nuclei at 2.9 MeV, cross sections for, (E), 25:56696
capture by A = 26 to 138 nuclei, cross sections for, (E), 24:26625
capture by A = 27 to 197 nuclei at 3 MeV, cross sections for, (E), 22:3683
capture by A = 27 to 209 nuclei at 14.7 MeV, cross sections for, (E), 21:13839
capture by A = 41 to 176 nuclei at 0.1 to 3 MeV, cross sections for, (E), 22:32596
capture by A = 63 to 186 nuclei, reaction integrals for, (E), 25:5656
capture by A = 63 to 209 nuclei at 3 MeV, cross sections for, (E), 24:38154
capture by A = 70 to 170 nuclei above 1 MeV, statistical analysis of cross sections for, (T), 22:46749
capture by A = 93 to 197 nuclei, cross sections and strength functions for, (E), 22:37340(R) (EANDC(E)-89(U))
capture by aluminum, iron, nickel, and sodium, resonances in, (E), 21:31834(R) (ORNL-4082)
capture by aluminum-27 at 50 MeV, gamma energy and half-life measurements on, 21:38265
capture by aluminum-27, chromium, iron, manganese-55, sulfur and vanadium at 14 MeV, γ spectra and cross sections for, (E), 23:37145
capture by aluminum-27, fluorine-19, iron, lead, magnesium, nickel, and sulfur, resonances in, (E), 22:27068
capture by aluminum-27, iron isotopes, nickel isotopes, and sodium-23 up to 200 keV, radiative widths and resonance parameters for, (E), 23:30975
capture by aluminum-27, iron, nickel, and sodium-23 at 1 to 200 keV, resonance widths for, (E), 22:42004
capture by aluminum-27, iron, nickel, and sodium-23, resonance areas and parameters for, (E), 23:5855
capture by aluminum-27, iron, nickel, and sodium-23, resonance parameters and radiative widths for, (E), 22:44627 (TID-24601)

capture by aluminum-27, iron, nickel, and sodium-23, cross sections and resonance parameters for, (E), 23: 1882 (WASH-1093)
capture by americium-241 at 0.2 to 7.2 MeV, production of spontaneously fissioning isomeric americium-242 by, (E), 22:7691 (JINR-E15-3573)
capture by americium-241 at 0.25 to 7 MeV, measurement of excitation function using lithium-7 (p, n) reactions, (E), 22:37347
capture by americium-241 with excitation of shape isomer, (E/T), 23:46999
capture by americium-243 at 0.3 to 4 MeV with isomeric excitation, excitation function for, (E), 23:49406
capture by antimony, cadmium, chromium, indium, lead, manganese, nickel, niobium, and silver at 5 to 100 keV, cross sections for, (E), 22:11948(R) (NP-17216)
capture by antimony-121, antimony-123, tin-122, and tin-124 at 0.3 to 2.7 MeV, cross sections for, (E), 22: 48535
capture by barium, barium-131, barium-132, and barium-135, γ spectra from resonance, (E), 22:27161
capture by barium-138, lanthanum-139, and praseodymium-141 at 14 MeV, activation cross sections for, (E), 22:9889
capture by beryllium-9, carbon-12, potassium-39, silicon-28, and sodium-23, cross sections for, (E/T), 25: 14920(T) (BNL-tr-380)
capture by beryllium-9, carbon-12, potassium-39, silicon-28, and sodium-23, cross sections for, (E), 23:23626 (NP-17794)
capture by bismuth-209 at 4.7 to 8.3 MeV, cross section for, (E), 23:1863
capture by calcium, magnesium, phosphorus-31, and silicon at 14.1 MeV, γ spectra and cross sections for, (E), 24:8872
capture by calcium-40 and silicon-28 at 14 MeV, calculation of γ spectra using direct-semidirect and statistical models, (T), 25:12472
capture by calcium-40 and silicon-28 at 14 MeV, γ spectra from, (E), 22:5787 (NIJS-R-505)
capture by calcium-40, chromium-52, iron-56, silicon-28, and sulfur-32 at 14 MeV, giant dipole resonance in, (E/T), 22:35251 (NIJS-P-213)
capture by cerium and thallium at 10 to 200 keV, cross sections for, (E), 24:28810
capture by cesium, hafnium, molybdenum, niobium-93, rhenium, tantalum, and tungsten at 10 to 150 keV, cross sections for, (E), 22:3687 (EURFNR-404)
capture by cesium-133, germanium-74, and osmium-192 at 0.2 to 3 MeV, cross sections for, (E), 23:8974(T) (BNL-tr-240)
capture by cesium-133, hafnium, molybdenum, niobium-93, rhenium, tantalum, and tungsten at 10 to 150 keV, cross sections for, (E), 22:35346
capture by chromium and iron up to 400 keV, resonances in, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by chromium, iron, molybdenum, and nickel at 0.01 to 20 MeV, cross sections for, (T), 25:14970
capture by chromium-52, iron-56, and sulfur-32 at 14 MeV, calculations using Woods—Saxon potential for, (T), 23:37148
capture by cobalt-59, niobium-93, and rhodium-103 at 14 MeV, γ spectra and cross sections for, (E), 25:56729
capture by copper-63, copper-69, and tungsten-186 at 0.2 to 3.1 MeV, cross sections for, (E), 23:37164
capture by copper-63, iridium-193, magnesium-26, manganese-55, rubidium-87, and yttrium-89 at 0.15 to 7 MeV, cross sections for, (E), 21:4270
capture by copper-64, calculation for γ spectra using cascade model, (T), 23:30953
capture by dysprosium isotopes, rhenium isotopes, silver isotopes, tantalum isotopes, and tungsten isotopes at 30 to 170 keV, cross sections for, (E), 21:13895
capture by elements found in soils, concretes, and structural materials, gamma spectra from, (E), 24: 52474 (ORNL-4475)
capture by fast reactor materials, measurement program for cross sections for, (E), 22:27086 (ANL-7375, pp 176-7)
capture by fission products, cross sections for, (T), 22: 37340(R) (EANDC(E)-89(U))
capture by fission products, outline of cross section calculations for, 25:7845 (AAEC/TM-549)
capture by fission products, statistical method of calculating cross sections for, (T), 22:50606
capture by gadolinium, gold, molybdenum, rhodium, rhenium, tantalum, tungsten, and uranium-238 at 0.001 to 1 MeV, cross sections for, (E), 25:15121
capture by gadolinium-197 and gold at 1 to 700 keV, cross sections for, (E), 23:30997(R) (GA-9275)
capture by gallium-69, gallium-71, manganese-55, and molybdenum-98 at 0.2 to 3 MeV, cross sections for fast, (E), 24:35856
capture by gold, cross section for, 22:37340(R) (EANDC(E)-89(U))
capture by gold-197 and uranium-238 at 25 to 500 keV, cross sections for, (E), 22:35346
capture by gold-197 and uranium-238 at 25 to 500 keV, cross sections for, (E), 22:3687 (EURFNR-404)
capture by gold-197 at 25 to 500 keV, cross section for, (E), 23:37250
capture by gold-197 at 966 keV, cross section for, (E), 23:37257
capture by gold-197, indium, and tantalum at 3.0 to 6.5 MeV, gamma spectra from, (E), 25:18735 (INR-1224)
capture by holmium-165, indium-115, manganese-55, and sodium-23 at 1 to 20 MeV, activation cross sections for, (E), 22:3743
capture by holmium-165, indium-115, manganese-55, and sodium-23 at 1 to 20 MeV, cross sections for, (E), 22: 3674
capture by hydrogen, proposed experiments to study discrepancies in, (E/T), 25:41195 (NP-18861)
capture by indium-113 at 0.36 to 1.02 MeV, activation cross sections for, (E), 22:14039
capture by indium-115 and rhodium-103 up to 1.7 MeV, isomeric cross section ratios for, (T), 23:19266
capture by indium-115 at 0.36 to 1.02 MeV, activation cross section for, (E), 22:14039
capture by iodine-127 at 14.7 MeV, activation cross section for, (E), 23:1923
capture by iron-56, sodium-23, and thorium-232, γ spectra and radiative widths for, (E), 22:20498 (BNL-12268)
capture by lead-204 up to 130 keV, cross sections and resonance parameters for, (E), 23:37138(R) (RPI-328-160)
capture by lead-206 at 1.5 to 8.5 MeV, cross sections for, (E), 24:47608
capture by lead-206, at 1.5 to 8.5 MeV, gamma spectra and cross section for, (E), 24:52586
capture by lead-208 at 10 to 200 keV, cross section for, (E), 23:42944
capture by lead-208 at 6 to 30 MeV, direct and collective contributions in, (T), 24:38285
capture by lead-208 at 9.2 to 13.2 MeV, compound-nucleus and semidirect-capture analysis of gamma spectra from, 25:53805
capture by lead-208, praseodymium-141, and rubidium-87 at 2.9 MeV, cross sections for, (E), 25:46070
capture by lithium-6 below 1.7 MeV, review of data on cross sections for, 25:53591 (CONF-701002-, pp 80-106)
capture by manganese-55, neptunium-27, potassium-41, and rubidium-85, cross sections for, (E), 21:46683 (ANL-7325, pp 197-200)
capture by medium-weight and heavy nuclei at 1 to 20 MeV, survey of theoretical models and experimental data for, (E/T), 23:25943 (RT/FI-(68)55)
capture by medium-weight and heavy nuclei, research program on, (E/T), 22:39606(T) (LA-tr-68-18)
capture by nickel-58 at 0.9 to 8.3 MeV, cross section for, (E), 23:1863
capture by niobium, rubidium, yttrium, and zirconium at 0.05, 1.0, and 1.5 MeV, gamma spectra from, (E), 21: 33924
capture by niobium-93 up to 15 MeV, cross sections and resonance parameters for, 23:32927 (GA-8133(Add.))
capture by nuclei A = 24 to 138 at 14 MeV, integrated cross sections for, (E), 25:12474
capture by nuclei at 14 MeV with compound nucleus excitation, deexcitation modes in, (E), 24:30748
capture by nuclei at 200 keV, statistical analysis of, (T), 25:50859
capture by nuclei, computer program for cross-section calculations of, 24:49932 (RT/FI-(69)44)
capture by nuclei, energy dependence of radiative strength function for, (T), 23:11041 (AAEC/TM-467)
capture by oxygen-15 up to 10 MeV, particle—hole calculation of cross section for, (T), 23:19185
capture by plutonium-239 and uranium-235, cross sections for, (E), 25:36756
capture by plutonium-240 at 4 to 60 keV, cross section for, (E), 24:33154
capture by protons, $^3S_1$-$^3S_1$ radiative transitions in, 25: 20519
capture by reactor materials, cross-section measurement program on, (E), 22:53165 (ANL-7425, pp 190-2)
capture by rhenium-185, γ spectra for, (E), 23:31010
capture by rhodium-103 up to 1400 keV, isomeric cross section ratio for, (E), 24:47637 (ANL-7610, pp 1-59)
capture by rubidium, silicon, strontium, and yttrium-89 at 14 MeV, γ spectra from, (E), 25:17834
capture by rubidium, silicon, strontium, and yttrium-89 at 14 MeV, γ spectra from, (E), 25:7829
capture by rubidium-85 and yttrium-89 at 100 to 1500 keV, isomeric cross sections for, (E), 24:1775 (ANL-7575, pp 170-6)
capture by rubidium-85, vanadium-51, and yttrium-89, cross sections for, (E), 22:37312 (ANL-7450, pp 105-7)
capture by rubidium-87, strontium-84, strontium-86, and yttrium-89, cross sections for, (E), 22:27086 (ANL-7375, pp 176-7)
capture by rubidium-87, titanium-50, and vanadium-51 at 100 to 1700 keV, cross sections for, (E), 24:1775 (ANL-7575, pp 170-6)
capture by selenium-80, isomeric cross-section ratios for, (E), 22:32560
capture by strontium at 0.05 MeV, gamma spectra from, (E), 21:33924
capture by tantalum-181 at 0.03 to 5.1 MeV, excitation function for, (E), 23:21341
capture by tantalum-181 up to 5 MeV, excitation function for, (E), 23:13286
capture by tellurium-128 and tellurium-130 at 0.2 to 0.3 MeV, cross sections for, (E), 23:37246
capture by titanium-50 and vanadium-51, cross sections for, (E), 23:52125
capture by titanium-50 at 0.10 to 1.7 MeV, cross section for, 23:28270 (ANL-7550, pp 93-6)
capture by uranium-235 at 0.25 to 4 MeV with fission isomer excitation, excitation function for, (E), 25: 56793
capture by uranium-235 at 2 keV to 10 MeV, status of cross section data for, 24:52557 (INDC(NDS)-18/N)
capture by uranium-238 at 1 keV to 15 MeV, evaluated cross-section set for, (E), 24:22174
capture by uranium-238 at 130 to 1400 keV, cross section ratios to uranium-235 and plutonium-239 fission, (E), 24:47637 (ANL-7610, pp 1-59)
capture by uranium-238 at 25 to 500 keV, cross section for, (E), 22:37373
capture by uranium-238 in fast critical assembly, measurements on Doppler effect in, (E), 22:32562 (AE-314)
capture by uranium-238 in reactor spectrum, Doppler effect for, (E), 22:3706
capture by uranium-238, Doppler effects on, (E), 21: 38373
capture by yttrium-89 and rubidium-85 and -87 at 160 keV to 1.5 MeV, cross sections for, (E), 24:49841
capture by yttrium-89 at 0.14 to 1.22 MeV, production of isomeric yttrium-90 in, (E), 21:12000
capture by Z = 24 to 79 nuclei at 100 to 120 keV, cross sections for, (E), 23:7250
capture by Z = 32 through 66 nuclei, cross-section evaluation for, 25:38919 (CCDN-NW-10)
capture cross section for argon-40 at 0.4 to 3.0 and 14 MeV, (E), 21:42614(R) (ORO-2791-26)
capture cross section for gold-197 at 30 keV, (E), 21: 35437(R) (EANDC(E)-76(U))
capture cross sections at 0.001 to 1 MeV, statistical model analysis of, (T), 25:15122
capture cross sections for cobalt-59, for production of isomeric cobalt-60, (E), 21:42603
capture cross sections for iron at 0.8 to 1.4 MeV, (E/T), 21:23443(T) (BNL-tr-50)
capture cross sections for neptunium-237 at 0.15 to 1.5 MeV, (E), 21:40457
capture cross sections for Z = 41 to 75 nuclei at 10 to 150 keV, (E), 21:35437(R) (EANDC(E)-76(U))
capture in fast reactor fuels, integral method for determination of τ effective from, (E/T), 24:50239 (NP-18366)
capture in stainless steel in EBR-2 spectrum, integral cross sections and isotope production rates for, 23: 40337
capture in superheavy elements in stellar interiors, (T), 21:20724
capture of, gamma rays from radiative, 24:6574(T) (UCRL-Trans-10393)
capture rates for tantalum, tungsten, and uranium-238 at 0.2 to 30 keV, temperature-dependent, (E), 22:5811 (EURFNR-400)
capture to fission ratio in plutonium-239 and uranium-235, integral measurements of, (E/T), 25:15348
capture-to-fission ratio for epicadmium, low-flux method for measuring, 21:30091(R) (ANL-7210)
capture-to-fission ratio for plutonium-239 at 20 to 500 keV, (E), 25:12511 (CEA-N-1368)
capture-to-fission ratio for plutonium-239 in PCTR spectrum, integral measurements of, (E), 22:35288 (BNWL-774)
capture-to-fission ratio for plutonium-239, measurements of, (E), 23:23671 (CEA-N-989)
capture-to-fission ratios for plutonium-239 in reactors, methods for measuring, 21:21536
capture-to-fission ratios for plutonium-239, plutonium-240, plutonium-242, uranium-233, uranium-235, and uranium-238 as function of position in EBR-II, (E/T), 22:53165 (ANL-7425, pp 190-2)
capture-to-fission ratios in EBR-II, position-dependent, (E/T), 22:27086 (ANL-7375, pp 176-7)
cavitation by, timing of sonoluminescence flash in, (E), 21:41886
collimation for detectors, (E), 21:7326
collimators for, design of, 25:5477 (UCRL-50857)
columns for fast reactors, description of center-core concentric-cylinder-spaced ring-arranged fuel elements for, 23:15604(P)
conversion factors for calculation of tissue current-to-dose 0.5 to 60 MeV, 21:6513
converter tube for, design for Bureau of Standards Reactor, 21:8083
cross sections for, use of monoenergetic source to determine total, 21:30091(R) (ANL-7210)
current-to-dose conversion factors for phantoms, 23: 7281(R) (ORNL-4280)
decay constants for, variational principle for finding, 21: 40346 (RPI-328-87, pp 22-59)
decay constants in lead, (E), 21:11949
decay constants in nonmultiplying spheres of depleted uranium, (E), 22:24787 (GA-8536)
decay in exponential piles of pulsed, exact elastic slowdown analysis for time behavior of, (T), 24:7313
decay in exponential piles of pulsed, use of general cross sections in analysis of, (T), 24:7320
decay measurements in uranium-238 exponential piles, 22:33016
design of shielding for protection against therapeutic doses of, 22:8551
detection and discrimination at 8 to 10 MeV by large thallium-activated sodium iodide detectors, risetime distributions for, 24:11790
detection and discrimination of high-energy, pulse shape discrimination for cesium iodide detectors for, 25: 48947
detection and measurement at 2- to 17-MeV, design and performance of spectrometer for, 21:28236
detection and measurement from intense plasma discharge, scintillation detector system for, 24:10891 (AD-694513)
detection and measurement in presence of γ rays, 21: 36589
detection and measurement in reactors, development of thick organic scintillator spectrometers for, 21:19963
detection and measurement in water-cooled and water-moderated reactors, performance of threshold detectors for, 23:50144
detection and measurement of atmospheric and solar, balloon-borne scintillation—spark chamber detector system for, 25:6579
detection and measurement of cosmic-ray-produced, equipment for, 22:2425
detection and measurement of TREAT, hodoscope performance for, 21:30093(R) (ANL-7317)
detection and measurement of, at accelerators and reactors, design of portable dosimeter for, 21:36399
detection and measurement of, design of proton-recoil telescope for, 22:39586
detection and measurement of, evaluation of colorimetric method for, 21:6313
detection and measurement of, in environment at ORNL Fast Burst Reactor, effects of distance on, 21:30808 (ORNL-4113)
detection and measurement of, use of fluorocarbons for, 21:32491
detection and measurement using boron-trifluoride counters with hydrogenous moderators, 21:22142

detection and measurement using copper activation, 21: 12635 (NP-16449)
detection and measurement using liquid scintillators, 21: 17886
detection and measurement using proton-recoil scintillation detectors, (E), 21:19152(R) (TID-23685)
detection and measurement using single-crystal scintillation spectrometers, data processing for, 21: 25399(T) (ANL-Trans-168)
detection at 0.1 to 15 MeV, efficiency of NE 214 liquid scintillation detector for, 25:37595
detection at 40 to 400 MeV, efficiency of large liquid scintillation detector for, 25:8512
detection at small angles, design of stilbene scintillation detector for, 25:44659
detection by use of hodoscope, 21:30091(R) (ANL-7210)
detection down to 1 keV, coincidence scintillation detector system with uranium-235 fission foil for, 25: 10845
detection during bursts of several microseconds, performance of scintillation detectors for, 23:13976 (CEA-CONF-1049)
detection in 100-keV region, sodium iodide scintillation detector with boron-10 slab for, 25:51863
detection in coincidence with charged particles, technique for, 21:45415
detection in flux die-away experiments using helium-3(n, p) reactions, solid-state detectors for, 23:13183 (RPI-328-142, pp 68-116)
detection in intense transient gamma fields, detectors for, 22:43053
detection in photoneutron experiments using uranium-235 capture and fission in plastic scintillator, (E), 23: 3940 (UCRL-50501)
detection of 0.2- and 30-MeV, efficiency of plastic scintillators for, 21:8601
detection of 0.2- to 20-MeV, efficiency of NE-213 scintillator for, 23:16086 (EGG-1183-2172)
detection of 1.5- to 15-MeV solar, design of directional scintillation detectors for, 21:32449
detection of 10- to 70-MeV, efficiency of plastic scintillator for, 22:6604
detection of 100-eV to 10-MeV, design of plastic scintillation system for, 22:14748 (GA-8184)
detection of 2.50-MeV pulsed, performance of lead-207 and zirconium-90 activation detectors for, 21:36385
detection of 2.55-MeV, efficiency of plastic scintillation detectors for, 21:3259
detection of 2.7- and 14.5-MeV, efficiency of NE-213 organic scintillator for, 22:23295
detection of 20- to 130-MeV, efficiency of plastic scintillation detectors for, 21:10654
detection of 4- to 30-MeV, rem-responding NE-404 scintillation detector for, 23:2623
detection of 4- to 36-MeV, efficiency of Ne-224 liquid scintillation counter for, 21:37653(R) (UCLA-34-P-106-1)
detection of cosmic, performance of boron-10-loaded emulsions for direction and energy discrimination in, 25:49002
detection of integrated flux of, use of titanium for, 21: 19900 (NP-16620)
detection of solar, in range 20 to 160 MeV, (E), 25: 2861
detection of, activation technique for calibration of long counters for, 24:39209 (AERE-R-6429)
detection of, associated particle measurement of efficiency of lithium-6 glass scintillation detector for, 24:44286
detection of, associated particle method for determining efficiency of plastic scintillation detectors for, 24: 2449(T) (MLM-1681(tr))
detection of, based on induced conductivity in cadmium sulfide from beta decay of activated radioisotopes, 25: 39725
detection of, bibliography on proton-recoil detectors for, 25:23831 (AAEC/LIB/Bib-270)
detection of, calibration and efficiency of liquid and plastic scintillators for, 25:44597
detection of, continuous flow manganese bath system for, 22:7788(R) (ANL-7382)
detection of, corrections for lithium-6 and helium-3 semiconductor spectrometer for, 21:32419
detection of, description of activation detectors for, 25: 23799
detection of, description of organic scintillation detector with gamma discrimination for, 22:36053
detection of, description of rare gas-filled scintillation detector for, 21:34486
detection of, design and performance of associated-particle time-of-flight system for, 25:44660
detection of, design and performance of moderator-enclosed tantalum activation detector for, 21:30702 (UCRL-17051)
detection of, design and performance of phosphorus-diffused silicon diode for, 22:314
detection of, design and performance of proportional detectors for, 22:19112
detection of, design and performance of signal-shape discriminating plastic scintillator for, 21:8592
detection of, design of detector systems for, 24:47891 (ANL-7610, pp 369-464)
detection of, design of organic liquid scintillation detector for, 24:31716
detection of, design of paraffin-moderated boron trifluoride proportional detectors for, 22:33656(P)
detection of, design of resonance-capture activation detector for, 25:39720(P)
detection of, development of polyethylene-moderated zinc sulfide scintillation detectors for, 21:17893(P)
detection of, development of totally depleted dE/dx silicon detectors for, 21:45334 (AECL-2766)
detection of, dissertation summary of research on, (E), 22:44588
detection of, effect of stopping power on threshold sensitivity of nuclear emulsions for, 25:55022
detection of, effects of double scattering on efficiency of stilbene scintillators for, 22:43058
detection of, effects of surrounding gases on multiple-wire spark chambers for, 24:11801
detection of, efficiency calculations for recoil proton counter of Perlow-type with collimator for, 23:7754
detection of, efficiency of cylindrical liquid scintillators for, 21:45415
detection of, efficiency of NE213 organic liquid scintillation detector for, 25:37615
detection of, efficiency of steel sandwich scintillation detector for, (E/T), 25:6546
detection of, efficiency of sulfur-32 activation detectors for, 21:17821 (UJV-1546)
detection of, efficiency of thallium-activated sodium iodide scintillator for, 22:40382
detection of, engineering drawings for proportional counter for, 21:8620
detection of, etching methods for dielectric track detectors for, 25:23826
detection of, gas flow activation detector system for in-core, 25:4355
detection of, geometrically designed moderator with boron trifluoride proportional detector for, 22:23299
detection of, large-volume mineral oil-based liquid scintillation detector for, 25:8547 (PURC-4159-13)
detection of, linear accelerator measurements of response of organic scintillators for, 21:12629 (EGG-1183-2100)
detection of, method based on acoustic detection of cavitation nuclei in liquids for, 23:31524
detection of, multiwire boron trifluoride ionization detector for, 24:11762 (BARC-440)
detection of, performance of argon and helium scintillation detectors for, 23:14008
detection of, performance of gaseous scintillation spectrometers for, 21:325
detection of, performance of iron activation integrator for, 22:23268 (UJV-1885)
detection of, performance of sandwich dielectric track detectors using (n,^{4}He) reactions for, 24:31715
detection of, proton-recoil detector using plastic scatterer for, 22:43068
detection of, pulse risetime analysis of helium-3 proportional detectors for, 25:37596
detection of, pulse-height distribution of recoil proton in organic scintillators used for, 22:14815
detection of, response function calculations for polyethylene-moderated boron carbide fission chambers for, 21:39182 (K-DP-2450)
detection of, response function calculations for polyethylene-moderated boron carbide fission chambers for, 22:4436
detection of, response of NE 218 organic liquid scintillation detector for, 25:6542
detection of, response of plastic phosphors for, 21:14471 (CONF-660221-, pp 339-44)
detection of, response of plastic phosphors for, 22:2407
detection of, response of shielded lithium-drifted germanium detectors for, 24:2466
detection of, response of silicon-diode detectors for, 21: 6189 (AD-641843)
detection of, tentative standard for dielectric track detectors for, 25:51870
detection of, transistorized device for monitoring output pulses of detectors for, 21:17925
detection of, use of thin polyethylene proton radiator with silicon detector for, 22:12587
detection of, use of threshold detectors for, 21:17823(T) (ORNL-tr-1520)
detection of, use of ultrasonic cavitation in water for, 21:39211
detection processes in plastic scintillators, DETEC computer program for simulation of, 21:10653
detection using boron carbide-shielded sodium iodide, 22:22526 (RPI-328-112, pp 16-59)
detection using boron-trifluoride counters with hydrogenous moderators, 21:22162
detection using large scintillators, research on, (E), 22: 37340(R) (EANDC(E)-89(U))
detection using manganese bath and vanadium bath techniques, (E), 23:5792
detection using organic phosphors, response functions for, 23:1821(R) (COO-1549-10)
detection using polyethylene-moderated fission chambers, response functions for, (T), 21:46643(R) (ORNL-4134)
detection with constant efficiency using fissionable material in plastic scintillator shell, 23:1882 (WASH-1093)
detection, discrimination, and dosimetry of, circuit for selection of slow scintillation component of stilbene detectors for, 23:45516
determination of amount of, in fission spectrum, (E), 22: 50620
dieaway measurements in dilute-core oxide-fueled STSF assemblies 3 and 4, 23:21559(R) (GA-9140)
diffusion in borated heavy water and water, spectral index and relaxation-length measurements for, 21: 29822 (DP-MS-67-10)
diffusion in pressurized water reactor cell, synthetic kernel transport approximation for, 24:22483
diffusion in shielding materials, solution of kinetic equations for, 21:33855 (JINR-P2-3315)
diffusion in uranium-238 spheres, (E/T), 21:35388(R) (GA-7898)
diffusion in various media, angular distributions for, (T), 21:21401
diffusion through cylindrical ducts in shields, method for calculating, (T), 23:3543
dispersion in lead prism at 1.68 MeV, 25:41193
distribution behind media with finite transverse dimensions, angular and energy, (E), 25:17261
distribution in core of ATR and ATRC, comparison of, 23:33085 (IN-1228, pp 114-48)
distribution in iron critical assemblies, effects of energy on, 23:31233 (RPI-328-148, pp 18-26)
distribution in NERVA, use of PAX R-1 reactor for simulation of, (E/T), 24:33465
distribution in side shielding of water cooled reactor, ORPHEE D computer program for, 24:43727 (CEA-N-1311)
distribution in slab-type two-dimensional reactor of, multigroup proper function calculation of, 23:15715
distribution of absorbed dose of, in heterogeneous phantoms, 21:4804
distribution of pulses in various moderator configurations at room and liquid nitrogen temperatures, determination of time, 23:2078
distribution of, reconstruction of spatial, from spatial moments, (T), 24:33105
distributions in boron carbide, lithium hydride, tungsten, and water, spatial, angular, and energy, (E/T), 24: 49234
dose albedo on aluminum, concrete, earth, and iron, differential, (T), 23:16850
dose albedo on concrete, metals and soil, 22:4394
dose and dose equivalent calculations up to 3 GeV, 24: 32013
dose and dose equivalent in tissue at 60 to 3000 MeV, calculation of, 25:6704
dose and dose-equivalent distributions for 1.5-MeV, tissue-equivalent proportional-counter measurements of, (E), 25:48903 (CONF-710402-(Vol.2), pp I.172-81)
dose attenuation by lead and polyethylene shields, method for calculating, (T), 23:8643
dose calculations for plutonium-238 heat sources, 23: 38191
dose depth measurements in tissues from accelerators and reactors used in radiotherapy, 23:48046 (NYO-2740-6, pp 32-95)
dose distribution from 14-MeV source above air/ground interface, 24:15378 (EGG-1183-1449)
dose distribution from point isotropic fission source in lithium hydride, (T), 21:46643(R) (ORNL-4134)
dose distribution in cylinders, proportional detector measurement of, 24:44333 (EUR-4452, pp 171-81)
dose distribution in cylindrical tissue-equivalent phantom irradiated with slant beams of, 22:6652 (ORNL-4168, pp 183-230)
dose distribution in human arm during radiography, phantom studies of, 25:49184
dose distribution in phantoms, 23:16180 (NIRS-7, pp 3-11)
dose distribution in shielding materials at 0.5 to 1.5 MeV, 21:33502(T) (AEC-tr-6719, pp 1-6)
dose distribution in swine exposed to 14 MeV, or mixed γ-neutron field, 25:6695 (CONF-691106-, pp 116-28)
dose distribution in tissue-equivalent phantom at 14 MeV, 24:32014
dose distribution in tissues, 25:52152 (UCRL-20836)
dose distribution in tissues from implanted californium-252 point source, (T), 25:19003
dose distribution in water phantoms, 23:22297
dose distribution measurements in phantoms exposed to 2.95-MeV neutrons, 23:4958
dose distribution of, use of tissue-equivalent proportional counter for measuring LET, 22:38054
dose distributions in infinite slab of standard man composition, 23:48057
dose distributions in liquid nitrogen, from 14-MeV source, (E), 22:26759 (GA-8485)
dose equivalent and absorbed dose in tissues at 525 MeV, 24:3803 (ORNL-TM-2722)
dose equivalent of, use of data from proportional detectors for determining, 21:24234
dose estimation following criticality accident, use of neutron capture probability measurements of phantoms for, 23:20253
dose from criticality accidents, performance of activation detectors for measuring, 25:10181
dose in air, effect of air/ground interface on, (E/T), 24: 32884
dose measurement in Phoebus 1B, effects of 360° open-well shield on, 22:48722 (LA-3746)
dose of scattered charged particles from, in tissue equivalent phantoms, Monte Carlo calculation of, 21: 6535
dose rate and quality factor distribution in tissue-equivalent phantoms at energies up to 700 MeV, 22: 14823(T) (LA-tr-68-8)
dose rate and spectra in water and aluminum/water layers, (E), 23:16849
dose rate and spectra in water and in aluminum—water layers, 23:27668 (AD-680949)
dose rate attenuation coefficients for concrete, (E/T), 23:30609
dose rate determination using polonium-beryllium source, 22:40663 (LA-DC-9418)
dose rate equivalent measurement in Hungarian WWR-S reactor, 22:6130
dose rate in biological materials, 25:31174 (UCRL-19715)
dose rate in concrete ducts, albedo calculations for, 22: 1288 (ORNL-4147)
dose rate of, design of scintillation detector in moderating sphere for measuring, 21:45435 (BNWL-481-4, pp 16-23)
dose rates and depth dose characteristics of cyclotron-produced, 23:43605(R) (NYO-3510-10)
dose rates in air at 12 to 15 MeV, discrete-ordinates calculation of, 23:36781
dose rates in concretes, polyethylene, and water from point sources of californium-252 and uranium-235, (T), 22:29839
dose rates in square concrete ducts, Monte Carlo albedo calculations of, 21:21026
dose rates in water, calculation using discrete-ordinates transport theory, 21:7320
dose rates of, use of silicon detectors for measuring, 21: 26193
dose rates transmitted through lithium hydride SNAP shields, results of measurements of, 23:37662 (ORNL-TM-2542)

dose to cultures of HeLa cells from medical therapy beam, 23:31775
dose to deep tissues, effects of target material and thickness on, 25:49173 (CONF-710402-(Vol.2), pp II.7-15)
dose to human eyes and gonads from direct beam of 35 MeV betatron, 24:27587 (CONF-690540-, pp 605-10)
dose to man from cosmic, 25:44949
dose to rats, combined effects of γ rays and dose rate on LD50/30, 23:38764(R) (AD-677185)
dose to rats, use of deoxypyrimidinuria for calculation of absorbed, 24:6035
dose to roots of potted plants, 22:31080
dose to swine, calculations of lethal, 25:6695 (CONF-691106-, pp 116-28)
dose to tissue at .06 to 3 GeV, calculation of, 24:25485 (ORNL-TM-2924)
dose to tissue phantoms, 400 MeV to 2 GeV, 23:45742
dose to tissues, calculation of buildup of, 22:38315
dose transmission of 14-MeV, by concrete, 22:13530
dose-equivalent rates for Hungary WWR-SM reactor, measurement of, 23:21523
doses and spectra from slab shields, angle-dependent, (E), 22:32442
dosimetry and dose transmission factors for concrete, near neutron sources, 21:11936
dosimetry and LET spectra at various distances from HENRE 14-MeV generator, 23:16284 (EGG-1183-2185)
dosimetry and spectroscopy in phantoms by activation analysis method, 23:50191
dosimetry around Nimrod, performance of photographic film and activation detectors for, 23:50178
dosimetry as function of energy, 24:12068 (RHEL/M-149)
dosimetry at 0.5 to 20 MeV, spherical polyethylene-moderated thermoluminescent dosimeters for, 24:21025 (LA-4335)
dosimetry at 10 to 100 MeV, organic liquid scintillation detector and moderated proportional detector for, 24:36630
dosimetry at 10 to 100 MeV, organic scintillation detector for, 24:25306 (DESY-70/5)
dosimetry at 10 to 100 MeV, polyethylene-moderated helium-3 proportional detector for, 24:25306 (DESY-70/5)
dosimetry at 14 MeV, ionization chamber for, 25:51889
dosimetry at 14 MeV, response of various thermoluminescent dosimeters for, 24:25308 (UR-49-1272)
dosimetry at 14.7 MeV, magnesium acetate activation detector for, 24:23028
dosimetry at bone-tissue interface, 22:38314
dosimetry at depth in tissues, 21:26418(R) (PG-Report-771)
dosimetry at tissue contact points of cardiac pacemaker powered by plutonium-236 thermoelectric generator, 21:30807 (NUMEC-3731-5.3-2)
dosimetry by nuclear track registration in solid material, personnel, 22:49348
dosimetry during therapy, method for, 25:52079
dosimetry during use for medical radiography, method using computer calculations for, 25:32495
dosimetry following nuclear accident, development of sulfur and boron-shielded indium activation dosimeters for, 23:47844 (K-1763)
dosimetry following nuclear explosions in Japan, use of cobalt to cobalt-60 ratios for determining, 21:32673
dosimetry for chromosome exchanges in microspores of Tradescantia paludosa, 21:36548
dosimetry for corn embryos, effects of scattering on monoenergetic, 22:49326 (NYO-2740-5, pp 6-200)
dosimetry for determination of depth dose in radiotherapy, use of tissue-equivalent phantom for, 23:933(R) (NIRS-6)
dosimetry for genetic studies in Drosophila, 21:28591(R) (NYO-2740-4)
dosimetry for personal use, evaluation of methods for, 24:29753
dosimetry for radiotherapy, 22:49326 (NYO-2740-5, pp 6-200)
dosimetry for seed irradiation program using threshold detectors, 24:16896
dosimetry for therapy, 25:8677 (NYO-2740-7, pp 5-51)
dosimetry for therapy using betatrons and linear accelerators, 23:9946
dosimetry for therapy using californium-252 implants, 23:29529
dosimetry for therapy, calculations of RBE as a function of dose, dose rate, and tissue type for, 25:6762 (CONF-691106-, pp 244-54)
dosimetry for therapy, calibration of tissue-equivalent ionization chambers for, 25:6691 (CONF-691106-, pp 12-27)
dosimetry for therapy, method for measurement of contribution of scattered γ radiation in, 25:52080
dosimetry for victims of neutron release accident, use of $^{32}S(n,p)^{32}P$ reactions in hair and nails for, 23:933(R) (NIRS-6)
dosimetry in animals, in presence of γ rays, 21:30808 (ORNL-4113)
dosimetry in beryllium oxide mixtures with plutonium oxide, 25:11052 (AERE-R-5069)
dosimetry in biological materials, 23:50440
dosimetry in cylinders exposed during operation Henre, calculation of LET patterns from, 24:39504 (ORNL-4446, pp 225-41)
dosimetry in cylindrical phantoms containing various volume elements, calculation of LET distribution from 2.5 and 14 MeV, 24:39504 (ORNL-4446, pp 225-41)
dosimetry in cylindrical phantoms, 1, 2.5, 5, 7, and 14 MeV, 24:39504 (ORNL-4446, pp 225-41)
dosimetry in facility for evaluating radiaton protection measures, 42 MeV betaton, 25:13450
dosimetry in fast reactors, efficiency of foil activation techniques for, 22:48746
dosimetry in forest trees, 22:6772 (ORNL-4168, pp 61-118)
dosimetry in human phantoms, Monte Carlo calculation of, 22:28456 (ORNL-P-3048)
dosimetry in human phantoms, spatial distribution for, 21:43388
dosimetry in human trunk phantom, effects of depth on LET spectra for, 24:44486 (EUR-4452, pp 813-28)
dosimetry in inflorescenses of Tradescantia, measurement of 0.43 MeV monoenergetic, 23:48047 (NYO-2740-6, pp 96-8)
dosimetry in Janus high flux exposure room, 25:37865 (ANL-7770, pp 26-47)
dosimetry in large and small cylindrical phantoms containing bone and soft tissues, 23:839
dosimetry in LITR, use of iron and nickel wires for, 21:26865(R) (HW-74679)
dosimetry in lucite phantoms using thermoluminescent dosimeters, 25:55319 (UCD-472-118)
dosimetry in mammalian cells at tissue interfaces, effects of tissue composition on, 24:27678 (EUR-4465)
dosimetry in man exposed to high-energy photons, instruments for, 23:11444 (BNWL-481-2, pp 1-126)
dosimetry in man following criticality accident, use of content of copper-64, gold-198, manganese-56, and sodium-24 in silver film badge shield and personal effects for, 22:23504 (HW-76823)
dosimetry in man following criticality accident, use of radiochemical analysis of biological samples for, 22:23504 (HW-76823)
dosimetry in man, design of new film badge for, 23:12122
dosimetry in mixed gamma field, double ionization detector for, 25:42168
dosimetry in mixed gamma field, paired ionization chambers for, 25:26538
dosimetry in mixed gamma field, performance of lithium-7 fluoride thermoluminescent dosimeter for, 25:15954
dosimetry in mixed gamma—neutron field, design of stilbene scintillation detector for, 21:43238
dosimetry in mixed gamma-fast neutron field, use of liquid dielectric filled ionization chamber for, 21:329
dosimetry in mixed neutron field, trans-stilbene scintillation detector for, 25:44699
dosimetry in mixed radiations, photographic film using multiple filters for, 22:19173(P)
dosimetry in phantoms, comparison of tissue-equivalent ionization chambers and silicon diodes for, 25:51905
dosimetry in phantoms, miniature tissue-equivalent proportional detector for, 25:21450
dosimetry in reactors, chemical method for, 21:38753
dosimetry in relation to production of tumors in rats, 22:38483
dosimetry in swimming pool reactor using ionization chambers, semiconductor spectrometry, or threshold detector, 24:16895
dosimetry in tissue at 0.5 to 60 MeV, current-to-dose conversion factors for, 21:20215
dosimetry in tissue equivalent materials, absorbed, 24:31982 (CEA-R-3994)
dosimetry in tissue-equivalent human phantom, 24:41881
dosimetry in tissue-equivalent phantoms following criticality accidents, 25:11057
dosimetry in tissue-equivalent phantoms, californium-252, 23:9955
dosimetry in tissue-equivalent phantoms, effects of energy spectra and location of dosimeters on, 25:55232
dosimetry in tissue-equivalent phantoms, proportional detectors for, 24:27431 (CONF-690540-, pp 576-85)
dosimetry in tissue-equivalent phantoms, variations of OER and RBE in, 24:44479 (EUR-4452, pp 198-218)
dosimetry in tissues exposed in Argonaut reactor, 24:7838
dosimetry in tissues for 0.5 to 400 MeV, absorbed and equivalent, 25:19007 (NCRP-38)
dosimetry in tissues for interstitial or intracavitary therapy, californium-252, 23:31748 (CONF-681032-, pp 277-84)
dosimetry in tissues, effects of energy level on, 21:39462
dosimetry in tissues, Monte Carlo calculations for absorbed and equivalent, 25:24154 (ORNL-TM-3304)
dosimetry of 0.1- to 15-MeV, proton-recoil proportional detector for, 23:47865
dosimetry of 0.3- to 16-MeV, proton-recoil proportional detector with multiple radiators for, 22:45274 (BARC-330)
dosimetry of 0.5 to 60 MeV, conversion of rad to rem for, 21:39402 (ORNL-4032)
dosimetry of 14-MeV, for operation HENRE, 22:6652 (ORNL-4168, pp 183-230)
dosimetry of 14-MeV, isodose curves and LET spectra for, 23:26852 (CONF-661131-)
dosimetry of californium-252, 23:16280 (BNL-13157)
dosimetry of californium-252, using silicon diodes and activation foils, 22:43109 (TID-24609)
dosimetry of cyclotron-generated, for use in therapy, 23:33728
dosimetry of cyclotron-produced, for therapy, use of phantoms for, 24:34354
dosimetry of fabrication of lithium-diffused p—n junction silicon detector for, 24:22995(P)
dosimetry of high-energy, for radiobiological studies, 24:27440
dosimetry of monoenergetic, in corn seed, 21:28591(R) (NYO-2740-4)
dosimetry of recoil protons from, 21:20188
dosimetry of, accuracy of nuclear emulsions for, 23:47856
dosimetry of, automatic counter for proton recoil tracks in nuclear emulsions for, 23:26581 (AERE-R-5876)
dosimetry of, automatic readout system for particle tracks in nuclear emulsions for, 23:31562 (INR-963)
dosimetry of, automatic system for recoil-proton track counting in nuclear emulsions for, 24:16831 (AERE-R-6220)
dosimetry of, beryllium oxide exoelectron dosimeter for, 24:33947
dosimetry of, by Cherenkov effect of induced beta radiation in gamma and activation dosimeters, 21:43285
dosimetry of, by induced manganese-54 activity in steel, 21:26868(R) (HW-77281)
dosimetry of, calibration and readout of Kodak PNM film for personnel, 25:15949 (CLOR-80/D)
dosimetry of, calibration of Kodak film for, 24:29589
dosimetry of, characteristics of polymer—gelatin nuclear emulsions for, 24:19246
dosimetry of, comparison of personnel dosimeters for, 23:11817
dosimetry of, comparison of, in tissue-equivalent phantoms and tumor-bearing mice, 21:8926
dosimetry of, complex dosimeter badge for personnel, 23:17810
dosimetry of, conference on, 23:45758
dosimetry of, design and performance of dosimeter for personnel, 22:43108 (IFA-PN-19)
dosimetry of, design and performance of fissile metal—plastic disk personnel dosimeter for, 23:38325 (EIR-152)
dosimetry of, design and performance of lithium-drifted silicon detectors for, 21:32488
dosimetry of, design and performance of proportional detectors for, 22:19112
dosimetry of, design and performance of proportional counter with digital equipment for, 21:1595
dosimetry of, design and performance of proton-recoil proportional counter for, 21:17899
dosimetry of, design and performance of quasi-adiabatic calorimetric dosimeters for in-pile, 23:26587
dosimetry of, design of combination security credential holder and photographic film dosimeter for personnel, 23:697 (NVO-162-27)
dosimetry of, design of ionization chambers for, 24:16894
dosimetry of, design of silicon diode for, 22:36113(P)
dosimetry of, development of fission foil detectors for, 21:19974(P)
dosimetry of, development of ionization chamber for, 23:14044 (CEA-CONF-1068)
dosimetry of, development of silicon detector for, 23:20009 (CONF-680507-, pp 257-62)
dosimetry of, development of silicon detectors for personnel, 22:38099 (CONF-670545, pp 217-27)
dosimetry of, development of silicon p-i-n diode dosimeters for, 21:6305 (COO-1226-12)
dosimetry of, development possibilities of radioinduced density decrease in quartz for, 24:27442
dosimetry of, edge effects in scanning techniques employed in film, 21:43287
dosimetry of, effects of β, γ, and x radiation on performance of Kodak type A film for, 22:51266
dosimetry of, efficiency of thermoluminescent dosimeters for, 21:43278
dosimetry of, feasibility of phosphor—fissile foil for thermoluminescent, 25:445
dosimetry of, hydrogeneous radiator with semiconductor detector for, 24:33907
dosimetry of, in bone marrow calculated from geometrical bone structure, 21:8828
dosimetry of, in human phantoms, 21:6518
dosimetry of, in man-rated SNAP vehicles, weighting factors for, 21:6512
dosimetry of, in tissue-equivalent phantoms, 21:8839
dosimetry of, in tissue-like materials, 21:6541
dosimetry of, isochronal and isothermal annealing of radiation damage in silicon detectors for, 22:33666 (AD-661323)
dosimetry of, isodose data for, 25:23873
dosimetry of, limitations of ionization methods of, 21:30733
dosimetry of, lithium hydride-doped lithium fluoride thermoluminescent dosimeter for, 25:57831(P)
dosimetry of, lithium-6-sandwich semiconductor detector for, 23:38307
dosimetry of, low-temperature p—n junction silicon detector for, 25:8565(P)
dosimetry of, method based on acoustic detection of cavitation nuclei in liquids for, 23:31524
dosimetry of, methods for, 24:44328 (COO-1105-155)
dosimetry of, new approaches for solid-state, 25:49019 (COO-1105-167)
dosimetry of, performance of anthracene crystals for, 25:51903 (COO-1105-166)
dosimetry of, performance of DK-0.2 ionization detector for personnel, 25:2493
dosimetry of, performance of fission foil, radiophotoluminescence, and thermoluminescence detectors for, 25:6692 (CONF-691106-, pp 30-45)
dosimetry of, performance of polymer gelatin nuclear emulsions for, 25:55057
dosimetry of, performance of scintillation detector for, 21:1769
dosimetry of, performance of semiconductor detectors for, 23:9910(R) (EUR-4080)
dosimetry of, performance of silicon diode for, 23:9755 (AE-339)
dosimetry of, performance of thermoluminescent dosimeters for, 22:23533
dosimetry of, performance of tissue-equivalent-wall proportional counters for, 21:1765
dosimetry of, performance of uranium—mica fission foil dosimeters for, 23:47748
dosimetry of, polyethylene and cellulose diacetate films for colorimetric, 24:503
dosimetry of, processing of triacetic cellulose and polycarbonate track detectors for, 24:36556 (JUL-603-ST, pp 191-4)
dosimetry of, properties of hydrogen-enriched nuclear emulsions for, 21:1646
dosimetry of, radiophotoluminescence of ammonium sulfate complexes for, 21:18268(R) (PB-173549)

dosimetry of, response of aqueous solutions of chloral hydrate for, 23:43607 (UR-49-1135)
dosimetry of, response of conductivity modulated p-n silicon diodes for, 21:3315 (AD-641559)
dosimetry of, response of doped calcium sulfate thermoluminescent dosimeters for, 23:43604 (COO-1105-150)
dosimetry of, response of lithium fluoride thermoluminescent dosimeters for, 23:16164 (RD/B/N-693)
dosimetry of, response of silver phosphate glass dosimeters for, 23:29230 (AD-681891)
dosimetry of, response of thermoluminescent detectors for, 23:694 (BNWL-SA-1830)
dosimetry of, response of thermoluminescent dosimeters for personnel, 23:38322 (BNWL-1080)
dosimetry of, response of thermoluminescent dosimeters for, 24:4496 (BNWL-1159, pp 49-65)
dosimetry of, review of, 21:12861
dosimetry of, sensitivity of manganese-doped calcium fluoride for thermoluminescent, 25:37648 (NP-18864)
dosimetry of, silicon detector for, 23:20021(P)
dosimetry of, simultaneously with gamma radiation using fluorocarbons, 21:8625 (SGAE-CH-40/1966)
dosimetry of, thermoluminescent dosimeters for, 24:16901(P)
dosimetry of, thermoluminescent response of mixtures of manganese-activated calcium fluoride and organic liquids for, 24:4498
dosimetry of, tissue-equivalent plastic calorimeter for, 25:370(R) (NYO-3510-15)
dosimetry of, track analysis in Makrofol polycarbonate foil for, 25:4339
dosimetry of, up to 500 keV, proportional detector for personnel, 23:26557
dosimetry of, use of activation detectors with personnel photographic film badges for, 21:19893 (BNWL-339)
dosimetry of, use of fissile material-mica sandwiched dosimeters for, 21:17894 (NP-16664)
dosimetry of, use of glass photoluminescent dosimeters for, 21:26239 (CONF-650637-, pp 467-81)
dosimetry of, use of Kodak NTA photographic film for personnel, 22:16917
dosimetry of, use of Kodak PNM film type A for, 23:12113
dosimetry of, use of multifoil activation detectors and body sodium activation for personnel, 24:46515 (AHSB(RP)R-100)
dosimetry of, use of nuclear emulsions for personnel, 22:38100 (KFKI-12/1968)
dosimetry of, use of organic polymer solid-state track detectors for, 23:9939 (ORNL-4316, pp 231-69)
dosimetry of, use of photographic film dosimeters for, 22:6653 (RT/PROT-(67)12)
dosimetry of, use of plastic scintillation detectors for, 23:11763
dosimetry of, use of polyethylene moderators in, 25:21443 (EUR-4540)
dosimetry of, use of quality factor and calculations of dose absorbed and depth dose in tissue-equivalent phantoms for, 25:24179
dosimetry of, use of Raman effect and ESR for, 25:51904 (COO-1105-168)
dosimetry of, use of rhodium-103 activation for, 22:6652 (ORNL-4168, pp 183-230)
dosimetry of, use of semiconductor detectors for, 21:43282
dosimetry of, use of silicon detectors for, 21:43283
dosimetry of, use of synthetic hydrophilic polymers for preparation of nuclear emulsions for, 22:16911
dosimetry of, use of ultrasonic cavitation in water for, 21:39211
dosimetry of, using LD 50/30 study of mice, 21:12827(R) (AD-639758)
dosimetry using 100 cc ionization chamber, 21:28585(R) (BNWL-247)
dosimetry using biological dosimeters, 25:52078
dosimetry using integral LET spectra from proportional counter to calculate mean quality factor, 24:27592
dosimetry using isothermal magnetization curves of niobium crystals, integrated, 24:14317(P)
dosimetry using nonphotographic nuclear track registration, personnel, 22:21361
dosimetry using nuclear emulsions, 22:21530
dosimetry using tissue-equivalent ionization chamber, 22:498(T) (NP-tr-1575)
dosimetry with proton-recoil, boron-trifluoride, and rem detectors, 21:43289
effect on brittleness of types 304 and 304L stainless steel at high irradiation temperature, 21:28793(R) (BNWL-94)
effectiveness comparison with gamma and x radiations for therapy, 25:52078
effectiveness comparison with γ and x radiations for therapy of human lung metastases, 25:52162
effectiveness comparison with high-energy x radiation, 25:52160
effectiveness for malignant tumor therapy in man, 25:49251 (CONF-710402-(Vol.2), pp II.1-6)
effectiveness for neoplasm therapy, 25:52164
effectiveness for radiography and transmission scanning for diagnosis of diseases in man, 25:6718 (DP-1231)
effectiveness for therapy, 25:52167
effectiveness for therapy of neoplasms, comparison with x radiation, 25:24286
effectiveness for therapy of neoplasms, evaluation of neoplasm type for, 25:52161
effectiveness for therapy of neoplasms, review of physical characteristics affecting, 25:24285
effectiveness for therapy, effects of oxygen content of neoplastic cells on, 25:52159
effects at 1350°F on tensile properties of Hastelloy X 280, Inconel X750, and Inconel-600, 22:31414 (BNWL-532, pp 12.1-88)
effects at 290°C on tensile properties of types 304 and 348 stainless steels, 22:31414 (BNWL-532, pp 12.1-88)
effects at 4°K on yield stress of copper crystals, 23:34053
effects at 70°C on plasticity of pure monocrystalline iron, 23:34046
effects at 700°C on mechanical properties of austenitic stainless steels, 23:34055
effects at 705°C on creep-rupture and tensile properties of aluminum—chromium—iron alloys, 22:31418 (BNWL-532, pp 10.1-26)
effects at cryogenic temperatures on aluminum—titanium—tin alloys, 22:19604
effects in Ferrovac E iron, study of defect structures resulting from, 21:28793(R) (BNWL-94)
effects in presence of hydrogen at 650 to 775°F, on mechanical properties of Zircaloy-4, 22:4825
effects of 14 MeV, on eyes of rabbits, RBE for cataractogenic, 25:27027
effects of 14.6-MeV, on heavy- and light-water ferrous sulfate solutions, ferric ion yields in, 22:2429
effects of 14-MeV and fission, on silicon, (E), 23:51756
effects of 14-MeV, on reproductive capacity of lymphatic leukemia cells, 21:8926
effects of Armco-iron and steel-45, 23:1015
effects of backscattered, on fast fission ratios, measurements of, (E/T), 21:27834
effects of energy of, on oxygen enhancement ratio in biological systems, 21:10800
effects of lens of mice, derivation of inactivation model to explain RBE for 0.43 MeV and 14.7 MeV, 23:48199 (NYO-2740-6, pp 319-26)
effects of lens of mice, deriviation of inactivation model to explain RBE for 0.43 MeV and 14.7 MeV, 23:48199 (NYO-2740-6, pp 319-26)
effects of mixtures with thermal, on the tensile properties of nickel-base alloys at 704°C, 23:22595 (BNWL-790, pp 12.1-66)
effects of monoenergetic, radiation-chemical, 24:33705(R) (NYO-2807-82)
effects of nutritional elements on germination of seeds exposed to, 21:6720
effects of pre-exposure doses of, on graphite reactions with sodium at 600°C, 22:52300
effects of survival of Tradescantia pollen following exposure of immature buds, effects of dose on 4.3 keV, 23:48013 (NYO-2740-6, pp 255-68)
effects of thermal conductivity of solid beryllium at 20 to 150°C, development of equipment for measuring, 21:31088 (ORNL-4121)
effects of, in inducing skin cysts in rats, 21:12989
effects of, on agricultural plants, mutagenic, 21:8775
effects of, on antimony-doped germanium, annealing of, 21:13212 (N-66-33386)
effects of, on aqueous solutions, 21:5927
effects of, on beryllium oxide single crystals, 21:7885(R) (NAA-SR-12175)
effects of, on bone marrow and intestinal tissue, 21:8987
effects of, on cataract induction in rabbit eyes, 21:431
effects of, on chromosomes in barley and Vicia seeds, modification by 5-fluorodeoxyuridine of, 21:3397
effects of, on chromosomes in Tradescantia microspores, equations for determining, 21:10845
effects of, on corrosion of Zircaloy-2 and zirconium by oxygenated aqueous solutions, 21:11175
effects of, on corrosion of Zircaloy-2 in superheated steam at 360 and 400°C, 21:16624
effects of, on creep behavior of can materials, safety factors in studies on, 21:13216(T) (EURFNR-129-F)
effects of, on cultured human cells, effects of oxygen on, 21:10800
effects of, on decomposition of terphenyls and hydrogenated terphenyls, 21:8325 (AECL-2641)
effects of, on defect recovery and electric conductivity in copper, 21:11208 (ANL-7155, pp 167-289)
effects of, on electric conductivity of aluminum—zinc alloy, 21:11208 (ANL-7155, pp 167-289)
effects of, on electric conductivity of metals at low temperature, 21:11208 (ANL-7155, pp 167-289)
effects of, on embrittlement of ferritic chromium steel, 21:6852
effects of, on fracture mechanics of pressure vessel steels, program for testing, 21:14860(R) (WCAP-3677-1)
effects of, on genetics of wheat, effects of DNA content in cell nuclei on, 21:4788
effects of, on hardening of copper, 21:11208 (ANL-7155, pp 167-289)
effects of, on hardness and tensile properties of refractory alloys and metals, effects of annealing on, 21:13141(R) (GEMP-63)
effects of, on horticultural plants, 21:20321(R) (ORO-653)
effects of, on hydrogen embrittlement in steels, 21:11190 (ANL-7155, pp 1-166)
effects of, on iron and steel, 21:11258(R) (EURAEC-1726)
effects of, on iron and steel, 21:13206(R) (EURAEC-1728)
effects of, on mechanical properties of Aluminum 1099 and titanium alloys at cryogenic temperatures, 21:14859(R) (N-66-39926)
effects of, on mechanical properties of aluminum—iron alloys, effects of nitrogen on, 21:11259(R) (EURAEC-1727)
effects of, on mechanical properties of iron—titanium alloys, 21:11259(R) (EURAEC-1727)
effects of, on mechanical properties of pyrolytic carbon and polycrystalline graphite, 21:9253
effects of, on microstructure of stainless steel, 21:7885(R) (NAA-SR-12175)
effects of, on optical absorption of lead borate glass, 21:14263
effects of, on plasma minerals in burros, 21:8681
effects of, on properties and structure of lanthanum hexaboride, 21:10379
effects of, on pyrolytic-carbon-coated thorium carbides or oxides, 21:11323 (GA-7332)
effects of, on Santowax WR at 300 and 427°C, 21:10373 (MIT-334-70)
effects of, on sodium-24 content in plasma of goats, 21:6434
effects of, on structure of pyrolytic carbon deposited in fluidized bed, 21:1966
effects of, on tensile properties of aluminum—silica fibers, 21:14916
effects of, on tensile properties of austenitic stainless steels, 21:13222
effects of, on tensile properties of cold-worked niobium—zirconium-base pressure tubes at 300°C, role of hydrogen in, 21:11257 (AECL-2625)
effects of, on terphenyl, 21:5926
effects of, on wheat from seeds grown in depleted media or highly fertile soils, 21:4882
effects of, on xenon-133 diffusion in cesium iodide monocrystals, 21:10315(R) (ORO-3508-1)
effects of, on zinc-65 metabolism in red oak seedlings, 21:11134
effects on 220 reflection by silicon plane crystals, (E), 22:34788
effects on 347 stainless steel, 21:447(R) (BMI-1778)
effects on A-212B steel, 21:506(R) (ORNL-4020)
effects on abrasion hardness and cleavage of diamonds, 21:16669
effects on absorption edge in silicon, Franz—Keldysh mechanism in, (T), 23:42471
effects on absorption spectra and photoconductivity of cuprous oxide at 20 to -150°C, (E), 23:36786(T) (AEC-tr-6869/7, pp 1148-52)
effects on accelerated failure of metals under stress, vacancy mechanism explanation for, 21:24816
effects on acid iodates, iodates, and iodine pentoxide, yields of recoil iodine-126 from, 24:20834
effects on activation energy for slip in Ferrovac-E at 77 to 400°F, temperature and thermal stress dependence of, 23:24952 (BNWL-870, pp 5.4-14)
effects on activation volume of vanadium, relations with strain, 24:14864
effects on actuator assemblies for SNAP-8 reactor, 21:12212 (BMI-X-10168)
effects on AG Carb 101 and Carbitex 713 bearing retainers, 24:19523 (RN-S-534)
effects on aging and precipitation in aluminum—magnesium—zinc alloys at 180 to 220°C, relations with Guinier—Preston zone formation, 25:22130
effects on aging in electrolytic chromium, relations with deformation, 25:13730
effects on aging of petroleum oils in contact with structural materials, 22:14524
effects on algae, isotope substitution methods for studying, 25:52255 (JUL-727-BO)
effects on alloys, interaction of coherent precipitates with damage in, 25:59163
effects on Alumel/Chromel thermocouples, 25:15982 (WHAN-SA-10)
effects on Alumel/Chromel thermocouples, 25:21517
effects on Alumel/Chromel thermocouples, 25:35072 (HEDL-SA-152)
effects on alumina—chromium oxide, EPR spectral study of, 25:38572
effects on aluminum and beryllium core components in ORR, 22:24991
effects on aluminum at 78°K, effects of deformation on defects produced in, (E/T), 24:15397
effects on aluminum at 78°K, role of magnesium in annealing, 21:16628
effects on aluminum at low temperatures, electric conductivity study of damage production rate in, 25:36286
effects on aluminum cans, production of sodium-24 by, 23:35235
effects on aluminum oxide, 22:26094 (ORNL-4229, pp 142-5)
effects on aluminum oxide electric insulators, 23:48528 (ORNL-4420, pp 123-30)
effects on aluminum oxides and refractory metal carbides, 24:14968 (ORNL-4400, pp 147-50)
effects on aluminum oxides at 90 to 700°K, 21:42179
effects on aluminum, relations of chromium, copper, and vanadium contents on recovery from, 25:58303
effects on aluminum—lithium alloys, annealing at 78 to 340°K of defects produced by, (E), 22:28865
effects on aluminum-incorporating concrete, 24:14988 (CEA-CONF-1474)
effects on ambipolar carrier mobility in n-type germanium, 23:29289(R) (ORO-3651-3)
effects on amorphization of palladium—silicon alloy, 25:49584
effects on anatomical and physiological processes in Oryza, pathological, 25:6815
effects on animal tissues, effects of LET on RBE for, 23:8059
effects on animals, 22:16997
effects on anisotropic lattice growth of aluminum nitrides, 23:12445
effects on anneal hardening of niobium, 24:44749
effects on annealed tungsten, dislocation voids induced by, (E), 21:11265
effects on annealing of Permalloy, 22:36510(R) (EURAEC-2037)
effects on anomalous helium production in nickel, 25:4821
effects on anthocyanin pigments of Coleus and Poinsettia, mutagenic, 22:40952 (ORO-657, pp 93-120)
effects on antimony—indium, gallium arsenide, and silicon semiconductors, 21:29383
effects on Arabidopsis and Drosophila, lethal and mutagenic, 25:39818
effects on Arabidopsis, maize, and wheat, RBE for mutagenic, 24:34255
effects on artificial graphite, 25:52476(T) (JPRS-53800, pp 292-306)
effects on artificial graphite, 23:51041
effects on ASTM A302-B steel, research program on, 22:19584 (GA-8064)

effects on athermal stress and mechanical properties of Ferrovac E iron, 23:12360
effects on atom ejection from gold, 24:6239
effects on atomic displacement in alpha-iron, computer simulation of annealing of, 23:39008 (BNWL-1058, pp 11.1-43)
effects on austenitic stainless steels and nickel alloys, 21:16631
effects on austenitic steel clad uranium oxide (UO_2)—plutonium oxide (PuO_2), 25:54092 (A/CONF.49/P-609)
effects on austenitic, ferritic, and martensitic stainless steels, 22:19601
effects on axial expansion in plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel elements, 23:37625
effects on axial growth and mechanical properties of Zircaloy-4 fuel element cladding, 24:18511(R) (WCAP-3017-6091)
effects on Bacillus mesentericus, combined effects of ethylenimine on mutagenic, 23:31688
effects on Bacillus mesentericus, comparison of mutagenic ethylenimine uv and, 25:13416
effects on Bacillus, Clostridium, and Pseudomonas strains, mutagenic, 25:52018 (A/CONF.49/P-690)
effects on bacteria, effects of LET and oxygen enhancement ratio on, 22:6928
effects on barley in comparison to effects of fission neutrons and γ radiation, mutagenic for chlorophyll deficiency, 25:16091 (ORO-678, pp 126-34)
effects on barley plants, effects of seed exposure on mutagenic, 22:21490
effects on barley plants, protective effects of ethylenimine treatment of seeds against mutagenic, 22:40772
effects on barley seeds, comparison of mutagenic, to EMS, γ, and x, 22:51498
effects on barley seeds, effects of dose rate, humidity, oxygen, and temperature on 14.7-MeV, 24:12318 (ORO-672, pp 142-56)
effects on barley seeds, effects of dose, hypoxia, moisture content, and presoaking on mutagenic, 24:50806 (CONF-691106-6)
effects on barley seeds, RBE for, 22:31279
effects on barley, effects of ethylenimine on mutagenic, 22:19320
effects on barley, effects of temperature on mutagenic, 22:19321
effects on barley, oats, rice, and wheat, mutagenic, 23:4912
effects on barley, RBE for 14 MeV, 23:26852 (CONF-661131-)
effects on Battelle Research Reactor electrical components, 21:15773
effects on behavior of Type 316 stainless steel-clad sodium-bonded plutonium carbide—uranium carbide fuels and fuel elements, 25:32857
effects on benzene, 21:24044
effects on beryllia crystal structure, 21:532
effects on beryllia single crystals, ESR study of boron centers induced in, 25:5162
effects on beryllium diffusion in beryllium oxides, 22:8797
effects on beryllium in BR-2 in-pile loop, 22:1856 (EUR-3626)
effects on beryllium oxide, relations with heat treatments, 25:4892
effects on beryllium oxides, at high temperatures, dislocation loops from, (E), 22:13550
effects on beryllium reflectors, 24:17330 (IN-1335, pp 1-24)
effects on beryllium targets, analysis of, 21:38815(R) (BNWL-293)
effects on beryllium, electron microscopic study of helium bubbles formed in, (E), 22:28878
effects on biological materials, comparison of 8 MeV x rays to 6 MeV, 23:26852 (CONF-661131-)
effects on biological materials, effects of dose on RBE for low energy, 25:8756 (NYO-2740-7, pp 154-217)
effects on biological materials, RBE of γ and x, 21:6718
effects on biological systems, mechanisms for, 22:40822(T) (JPRS-44070, pp 1-9)
effects on BISO and TRISO coated ceramic particle fuels, 24:28985(R) (GA-8879)
effects on BISO and TRISO coated ceramic particle graphite matrix HTGR type fuel elements, 24:29012 (GA-10012)
effects on BISO and TRISO coated ceramic particle HTGR type fuel elements, testing programs in Peach Bottom Power Reactor Unit 1 for, 24:28857 (GA-10065)
effects on BISO coated ceramic particle fuels, 24:28986(R) (GA-9130)
effects on BISO-coated thorium carbide (ThC_2)—uranium carbide (UC_2) fuel particles, analysis of, 23:4169(R) (GA-8038)
effects on BISO-coated thorium carbide (ThC_2)—uranium carbide (UC_2) fuel particles, analysis of, 23:4170(R) (GA-8270)
effects on BISO-coated thorium carbide (ThC_2)—uranium carbide (UC_2) fuel particles, analysis of, 23:9118(R) (GA-7634)
effects on BISO-coated thorium carbide (THC_2)—uranium carbide (UC_2) fuel particles, analysis of, 23:9117(R) (GA-7453)
effects on blood of chickens, 23:926
effects on blood of rats, protective effects of butanol and DNA against, 25:24206
effects on blood parameters of rats, effects of butyl alcohol and DNA hydrolysates on hematopoiesis following, 24:34676
effects on blue delayed fluorescence of anthracene, (E), 24:42751 (COO-1105-159)
effects on body weight, bone growth, and consumption of food and water by rats following exposure as juveniles, late whole-body, 24:23330 (CONF-690501-, pp 439-47)
effects on bone marrow of mice and rats, 22:40844
effects on bone marrow of mice, effects of dose and LET on protective effects of syngeneic bone marrow transplants on, 24:34709
effects on bone-tissue interface, use of polythene phantom to study, 22:516
effects on boron carbide powders and tantalum rods, 25:40129 (BNWL-CC-2350)
effects on boron-containing A-286 alloy, transmission electron microscopy of, 21:34865(R) (GEMP-67)
effects on bowing and swelling of fast reactor core clamping system, (E), 24:7133
effects on bowing of aluminum—cadmium shim safety rods in ORR, 22:24991
effects on brittleness and hardness of Type A533B steel, 25:32752(R) (ORNL-4653)
effects on brittleness and strength of manganese—molybdenum—nickel steel plates and welds, 25:55585
effects on brittleness of 18-8 stainless steel, 21:28793(R) (BNWL-94)
effects on brittleness of A302B pressure vessel steel, analysis of, 22:53345
effects on brittleness of iron, effects of composition on, (E), 22:28874
effects on brittleness of nickel-base alloys, 24:46761
effects on brittleness of steels and nickel alloys, 22:7027
effects on brittleness of Tenelon stainless steel, 24:46761
effects on brittleness of Type A302B steel, 24:14837
effects on bud frondescence, growth, and rooting ability in dormant buds of black currant cuttings, inhibitory, 21:26669
effects on burnup and density of tantalum-encapsulated boron carbide, 24:23535 (BNWL-1279, pp 6.1-4)
effects on burst properties of type-304L stainless steel fuel cladding, 21:26861(R) (BNWL-CC-658)
effects on cadmium-selenide thin-film transistors, 24:44381
effects on calcia- and magnesia-stabilized zirconia films, 21:26927
effects on calcium and strontium oxide single crystals, F centers from, (E), 22:17770
effects on calcium oxide crystals, absorption spectral study of F—F' center conversion in, 25:47612
effects on calcium oxide F band, (E), 23:1542
effects on calcium oxide single crystals, EPR spectra of, 25:47613
effects on calcium tungstates, oxygen vacancies from, (E), 22:29553
effects on calibration of Alumel/Chromel thermocouples, measurement of, 22:33161
effects on calibration of thermocouples, dose rate dependence of, 23:766
effects on capsaicine and carotenoid production in chilli plants, mutagenic, 25:39837
effects on carbide and nitride fuels, relations with linear power and temperature, 25:52472 (EUR-4347)
effects on carbide and oxide coated particulate fuels, 23:14416 (GAMD-8428)
effects on carbon coating failure on uranium dioxide particles, mathematical model of, 23:8342 (ORNL-TM-2336)
effects on carbon precipitation in iron, 21:26861(R) (BNWL-CC-658)
effects on carbon-coated particles of thorium carbide—uranium carbide, 23:8354
effects on carbon-coated thorium carbide—uranium carbide fuel particles, 23:6761 (GA-7551)
effects on carbon-coated thorium dioxide particles, 23:8341 (ORNL-TM-2278)
effects on carbon-coated thorium dioxide spheres, 23:8276 (ORNL-4370, pp 165-74)
effects on carbon-coated thorium dioxide—uranium dioxide fuel particles, 23:6761 (GA-7551)
effects on carbon-coated uranium dioxide particles, 23:8341 (ORNL-TM-2278)
effects on carbon-containing molybdenum, annealing of, 22:43615(R) (BNWL-710)
effects on cardiovascular system of fetal rats, 14.1 MeV, 24:23321 (CONF-690501-, pp 325-40)
effects on carriers in n-type silicon, annealing of trapping by defect clusters in, (E), 24:47301
effects on castor plants, mutagenic, 25:39838
effects on castor plants, mutagenic, 23:2810
effects on cataract induction in eyes of rabbits, comparison of RBE for gamma radiation and, 25:21862
effects on cathodic hydrogen charging of steel, 22:43618 (IN-1200)
effects on cavities and helium production in stainless steel, 23:51084
effects on cavity distributions in Type 304L stainless steel, 23:11279 (BNWL-919, pp 12.1-58)
effects on cell survival in mouse mammary tumors, effects of hypoxia on, 25:16306 (NIRS-9, pp 55-61)
effects on cells and tissues of rat nervous system, RBE for, 25:52219
effects on ceramic coated particle type fuel elements, for Thorium High Temperature and AVR Reactors, 23:37519
effects on ceramic dielectric and thermionic materials, test preparations for, 23:20559 (ORNL-4350, pp 146-7)
effects on ceramic electric insulators, 25:8954 (ORNL-4600, pp 210-15)
effects on ceramic thermionic fuel rods of, description of EBR-2 assembly for measuring, 22:25090 (LA-DC-9025)
effects on cereals for breeding purposes, frequency of mutagenic, 24:21142
effects on cesium-137 and cobalt-60 cycling in aquatic microcosm, effects of biotic complexity on, 23:12043 (ORNL-4318)
effects on cesium-137 and cobalt-60 kinetics in aquatic microcosm, 23:41275
effects on cesium-137 metabolism in cottonwood saplings, 23:9904 (ORNL-4316, pp 71-160)
effects on characteristics of gallium arsenide p-n junction diodes, 25:484
effects on chemical and physical properties of graphite, 25:48235(R) (BNWL-1522-2)
effects on chemical diffusion in aluminum—magnesium alloy, 24:39667 (CEA-CONF-1527)
effects on chemical diffusion of magnesium in aluminum—magnesium alloy at 180 to 1400°C, 25:16556
effects on chemical properties of fuels, 21:36073(R) (ANL-7350)
effects on chemical properties of Santowax OM and WR of, analysis of, 23:4208
effects on chemical resistance of bis(diphenylpropyl) polycarbonate cellulose acetate, nitrocellulose, and polyethylene terephthalate, 24:41321
effects on chlorophyll and chromosomes in barley seeds, protective effects of anoxia, cysteine, and water against genetic, 25:4604
effects on chlorophyll of barley plants, RBE for latent mutagenic, 22:43296
effects on cholesterol levels in adrenal glands, plasma, and liver of rats, 21:20391
effects on chromium acetylacetonate, distribution of chromium-51 recoils in yields from, 23:13787
effects on chromium—nickel—austenitic stainless steel fuel cladding, 24:18661
effects on chromosome in rye seeds, aberrant, 25:16099
effects on chromosome recombination in Escherichia coli, effects of infrared radiation on 0.2 to 0.4 MeV, 24:23173
effects on chromosome translocations in spermatogonia of mice in relation to radioresistant cell lines, effects of dose fractionation on, 25:42355
effects on chromosomes and fertility of Drosophila, 22:19315
effects on chromosomes and survival of potato seedlings in comparison to γ radiation, 22:19317
effects on chromosomes in animals, microorganisms, and plants, review of aberrant, 25:6670 (CONF-691106-, pp 315-39)
effects on chromosomes in bone marrow and spermatogonia of mice, RBE for aberrant, 22:21478
effects on chromosomes in cultured human lymphocytes, determination of dose effects and RBE for aberrant, 22:28431
effects on chromosomes in Drosophila gametes, aberrant, 22:21483
effects on chromosomes in leukocytes of man, aberrant whole-body, 21:45776 (ORAU-101, pp 8-12)
effects on chromosomes in rat bone marrow, effects of dose on aberrant, 24:6020
effects on chromosomes in seeds of barley, effects of ATP and dinitrophenol on, 21:34642
effects on chromosomes in sperm of mice, persistence of, in embryo fibroblast cultures, 22:17038
effects on chromosomes in swine leukocytes, aberrant, 25:29497
effects on chromosomes in Tradescantia sp., aberrant, 25:6672 (CONF-691106-, pp 349-72)
effects on chromosomes in Vicia faba root cells, aberrant, 25:6672 (CONF-691106-, pp 349-72)
effects on chromosomes in wheat seed, aberrant, 22:482
effects on chromosomes of barley, effects of oxygen abundance and temperature on repair of, 22:14984
effects on chromosomes of Crepis capillaris seed, effects of time of onset of mitosis on frequency of aberrant, 25:57968
effects on chromosomes of Crepis capillaris, effects of water content of seeds on, 23:29447
effects on chromosomes of Crepis capillaris, RBE for aberrant, 22:21488
effects on chromosomes of Crepis, aberrant, 25:26721
effects on chromosomes of human leukocytes, low-dose aberrant, 24:14462
effects on chromosomes of maize following seed exposure, aberrant, 21:36547
effects on chromosomes of plants, aberrant, 21:45596
effects on chromosomes of rat embryos, technique for demonstrating, 23:43871
effects on chromosomes of Tradescantia microspores, effects of dose on aberrant, 22:12830
effects on chromosomes of Tradescantia, saturation in dose-response curve for aberrant, 24:23162
effects on chromosomes of Vicia faba following seed exposure, combined effects of FUDR on aberrant, 22:21466
effects on chromosomes of wheat seeds, comparison of aberrant, to EMS and γ, 22:51500
effects on chrysoberyl, 22:19679
effects on ciliary body in rabbit eyes, electron microscopy of, 22:49595
effects on ciliary body of eyes of rabbits, comparison with effects of x rays, 23:24732
effects on ciliary body of rabbits, comparison of x and, 23:48218
effects on circumferential ductility of Type 347 stainless steel tubes, 23:3099
effects on clad compacts of plutonium dioxide—thorium dioxide compacts, 23:16548 (ORNL-4275, pp 121-34)
effects on clad plutonium dioxide—uranium dioxide compacts, 23:16548 (ORNL-4275, pp 121-34)
effects on clad thorium dioxide—uranium dioxide compacts, 23:16548 (ORNL-4275, pp 121-34)
effects on cladding materials for fast reactors, 23:1008 (BMI-1845, Sect. B)
effects on Clostridium perfringens, serological homogeneity studies of mutagenic, 24:34281
effects on coated ceramic particle fuels, 24:28984(R) (GA-8420)
effects on coated fuel particles, 21:22935 (GA-7171)
effects on coated fuel particles, 23:22690 (GAMD-9245)
effects on coated fuel particles and core graphite, 24:24782(R) (GA-9875)
effects on coated particle fuels, 25:25958(R) (GA-10444)
effects on coated particle fuels, 25:36978(R) (GA-10560)

effects on coated particle fuels, (E), 24:50115 (CONF-700401-, pp 598-609)
effects on coated particle fuels, (E), 25:18099(R) (GA-10313)
effects on coated particle reactor fuels, (E), 24:33229(R) (GA-8725)
effects on coated particle reactor fuels, (E), 24:38481(R) (GA-8600)
effects on coated reactor fuel particles, use of stress calculations for studying, 25:45150 (JUL-749-RW)
effects on coated-particle carbide and oxide fuel materials, 23:14417 (GAMD-8429)
effects on coated-particle fuels of thorium carbide—uranium carbide, 24:14977
effects on coated-particle thorium dioxide—uranium dioxide fuels, 24:14977
effects on cobalt complexes, 21:43001
effects on cobalt-base alloys, 23:20465
effects on coercive force in annealed molybdenum Permalloy, (E), 22:13547
effects on Colletotrichum falcatum, mutagenic, 21:34829
effects on colony-forming ability of bone marrow cells in irradiated recipient mice in comparison to γ radiation, RBE for, 23:43885
effects on color of flesh and skin of roots of sweet potato plants, 0 to 900 rad mutagenic, 24:41828
effects on compressive deformation of niobium single crystals, 22:31430 (ORNL-4246, pp 75-83)
effects on conditioned reflexes of mice, 22:12754(T) (NASA-TT-F-413, pp 146-57)
effects on conditioned reflexes of mice, 22:12753(T) (NASA-TT-F-413, pp 130-45)
effects on conditioned reflexes of rats, comparison of, with γ and protons, 22:12755(T) (NASA-TT-F-413, pp 158-74)
effects on conductance and thermoelectric power of selenium single crystal, (E), 24:8526
effects on conductivity and photoluminescence of crystalline cadmium sulfide and telluride, Szilard—Chalmers effect in, 25:37451
effects on configuration of voids in aluminum, 25:2816 (ORNL-4570, pp 16-19)
effects on content of extractable substances from poplar wood following exposure of scions, 1000 rad, 25:506
effects on content of free radical in blood, liver, and spleen of rats, 500 rad, 24:9760
effects on content of o-oxyphenol in poplar shoots, 1000 R, 25:13598
effects on content of protein-bound carbohydrates in blood plasma of mice, effects of dose on, 23:8063
effects on contraction of graphite, relations with specimen size, 23:39063 (BNWL-1058, pp 3.1-11)
effects on copper at 4.2°K, annealing of, (E/T), 25:5160
effects on copper crystals, 25:33402(R) (ORNL-4669)
effects on copper crystals, 23:30612(R) (ORNL-4408)
effects on copper crystals, anomalous-x-ray-transmission study of defects induced in, (E/T), 25:45564
effects on copper crystals, diffuse x-ray scattering study of defects induced in, 25:17277
effects on copper crystals, dislocation pinning by defects induced in, 25:33402(R) (ORNL-4669)
effects on copper crystals, x-ray diffraction study of, 22:22215
effects on copper single crystals, equilibrium shapes of stressed dislocations pinned by, (E/T), 23:16889
effects on copper, annealing of changes in lattice parameters and residual electric resistivity, 24:24122
effects on copper, defect clusters produced in, 24:32895 (ORNL-4526, pp 1-17)
effects on copper, effects of deformation on stage-I recovery of, (E), 24:8525
effects on copper, gold, and copper-base—gold alloys at 4 to 20°K, influence of cold working and purity on recovery from, (E), 23:32561
effects on copper, recovery of stored energy and electric resistivity during annealing of, 24:15395
effects on copper, sputtering, 24:3453
effects on copper, stored energy of defect clusters induced in, (E/T), 24:45331
effects on copper, study of point-defect clusters produced in, (E), 24:35531
effects on copper-containing germanium and silicon, (E), 23:51769
effects on corn plants, effects of seed exposure on, 22:33980
effects on corn, RBE for cytogenetic, 22:12838
effects on correlation of flow stress and hardness of molybdenum, steels, and tungsten at 100 to 1000°K, 25:40088
effects on corrosion and hydriding of zirconium-base alloys in ammonium hydroxide at 270 to 280°C, relations with surface treatments, 24:34930
effects on corrosion and mechanical properties of zirconium alloy tubes, 25:39294(T) (LB/G-3006)
effects on corrosion by chemicals of Type X5 CrNi 18-8 stainless steel, 23:8113
effects on corrosion of low-carbon steel, 23:41538 (CEA-N-1044, pp 93-137)
effects on corrosion of nickel-free Zircaloy-2, 21:28800 (HW-84618)
effects on corrosion of niobium—tin—zirconium alloys, 21:28800 (HW-84618)
effects on corrosion of Zircaloy and dilute zirconium-base alloys by ammonium hydroxide, 23:6637 (BNWL-SA-1719(Rev.))
effects on corrosion of Zircaloy-2 and Zircaloy-4 by steam at 350°C, 24:12352 (CEA-N-1148, pp 133-66)
effects on corrosion of Zircaloy-2 and Zircaloy-4 by steam at 350°C, 24:23427(T) (ANL-Trans-798)
effects on corrosion of Zircaloy-2 and Zircoloy-4, 21:28800 (HW-84618)
effects on corrosion of Zircaloy-2 by steam at 360 and 400°C, 22:34084(T) (WAPD-Trans-87)
effects on corrosion of Zircaloy-2 by water, 25:49485 (CONF-710520-4)
effects on corrosion of Zircaloy-2 by water vapor at 350°C, 22:26026 (CEA-N-616, pp 106-44)
effects on corrosion of Zircaloy-2, role of hydrogen peroxide in, 21:1867
effects on corrosion of Zircaloys-2 and -4 by superheated steam and water, 21:14798
effects on corrosion of zirconium alloys by ammonium hydroxide and lithium hydroxide at 270 to 280°C, 24:1052
effects on corrosion of zirconium alloys by high-temperature water and superheated steam, 24:1048 (CEA-CONF-1293)
effects on corrosion resistance, mechanical properties, and swelling of Zircaloy-2 pressure tubes, 25:52391 (A/CONF.49/P-502)
effects on corrosion stainless steel by sodium, 25:52300
effects on corrosion-resistant coated steel reinforcing wire, 24:23501
effects on cotton, mutagenic, 23:33684
effects on crack growth in niobium—zirconium-base pressure tubes, relations with hydridation, 23:36064 (BNWL-1076)
effects on crack propagation in Zircaloy-2, 21:28793(R) (BNWL-94)
effects on creep and growth of Zircaloy-2, relations of temperature with, 24:14838
effects on creep and stability of aluminum, 24:14842
effects on creep and tensile properties of 12R72HV stainless steel, comparison of literature data with, 25:47146
effects on creep and tensile properties of aluminum—chromium—iron-base—yttrium alloys at 705°C, 21:34865(R) (GEMP-67)
effects on creep and tensile properties of iron-base 1541 alloy, 22:43615(R) (BNWL-710)
effects on creep and tensile properties of type 304 stainless steel, 21:6849
effects on creep and void formation in austenitic stainless steel, 24:44744
effects on creep and void formation in metals, 24:6241
effects on creep at 650°C of modified Hastelloy N, 23:24961 (ORNL-4390, pp 121-47)
effects on creep at 705°C of Hastelloy X, 23:30099 (GEMP-1010, pp 45-98)
effects on creep behavior of Type 316 stainless steel, 23:46086 (ANL-7520(Pt.1), pp 55-73)
effects on creep deformation of tubes of Zircaloy-2, 24:6234
effects on creep in graphite, 25:777 (BNWL-1349-2, pp 7.1-3)
effects on creep in molybdenum, nickel, Type 316 stainless steel, and Nimonic PE 16 helical springs, 24:12448
effects on creep in stainless steels, uranium oxide (UO_2), and Zircaloy 2, 25:54110
effects on creep in Type 304L stainless steel tubes, 24:32480
effects on creep in Types 304 and 316 stainless steel to 700°F, 24:32478
effects on creep in Types 304, 316, and EN58B stainless steel at 43 to 370°C, 25:16549 (WHAN-FR-30)
effects on creep of austenitic stainless steels, (E/T), 25:51083(R) (GA-10517)
effects on creep of cold-worked niobium—zirconium alloy and Zircaloy-2, continuum mechanics and micromechanisms for studying, (T), 25:22134
effects on creep of fuel particle coating of pyrolytic carbon, 25:35586
effects on creep of Incoloy 800, 23:48499 (ORNL-4420, pp 131-68)
effects on creep of niobium—zirconium alloy and Zircaloy-2 cladding and tubing, review of, 23:50980 (AECL-3365)
effects on creep of niobium—zirconium alloy at 315°C, 23:22595 (BNWL-790, pp 12.1-66)
effects on creep of polycrystalline graphite, 23:41758
effects on creep of pyrolytic carbon in general stress state, model for calculation of, 24:14984
effects on creep of pyrolytic graphite, 23:8338(R) (GA-7000)
effects on creep of reactor-grade graphite, 24:1086(R) (GA-9433)
effects on creep of stainless steels, 25:52399(T) (JPRS-53800, pp 144-63)
effects on creep of Type 304 stainless steel at 450°C, 23:22595 (BNWL-790, pp 12.1-66)
effects on creep of Type-304 stainless steel, model for, 23:36156
effects on creep of Zircaloy-2 at 315°C, 23:22595 (BNWL-790, pp 12.1-66)
effects on creep of Zircaloy-2 tubes, relations with stress, 24:34927
effects on creep of zirconium alloys, relations with dislocation climb, 25:40079
effects on creep properties of cold-worked niobium-zirconium and Zircaloy-2, 21:36884
effects on creep properties of graphite, analysis at 850 to 1200°C of, 23:13412(R) (GA-8530)
effects on creep properties of TMZ, 21:28795(R) (BNWL-CC-510)
effects on creep rupture and fatigue strength of aluminum, 21:45975
effects on creep rupture and microstructure of Incoloy 800, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on creep rupture and microstructure of molybdenum, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on creep rupture of aluminum and aluminum alloys at 50 to 150°C, 25:40087
effects on creep rupture of Hastelloy X and Inconel 625 at 760°C, 24:34839(R) (BNWL-1091)
effects on creep rupture of Inconel 625, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on creep rupture of stainless steel, 24:34839(R) (BNWL-1091)
effects on creep rupture of Type 304 stainless steel at 600°C, 25:8897 (ORNL-TM-3169)
effects on creep rupture of Type 304 stainless steel, 25:8952 (ORNL-4600, pp 81-125)
effects on creep rupture of Type 316 stainless steel at 1000 to 1400°F, 25:40078
effects on creep rupture of Type 348 stainless steel, 24:23497 (BNWL-1279, pp 4.1-117)
effects on creep rupture of Types 304 and 316 stainless steel, 24:34922 (BNWL-1349-1, pp 4.1-97)
effects on creep rupture properties and microstructure of Type 304 stainless steel at 600°C, 25:42922
effects on creep rupture properties of Inconel 625, Inconel 718, and austenitic stainless steel, 24:12442
effects on creep rupture properties of niobium-stabilized stainless steel, relations with heat treatments, cold work conditions, and irradiation temperature, 25:42924
effects on creep rupture properties of tungsten rods, 21:26869(R) (HW-83398)
effects on creep stages of Incoloy 800, 22:31436
effects on creep-rupture and delayed creep of molybdenum and tungsten at 700 and 1100°C, analysis of, 22:31418 (BNWL-532, pp 10.1-26)
effects on creep-rupture and fatigue in A-286, 21:28798(R) (HW-78760)
effects on creep-rupture and tensile properties of Incoloy 800, relations with titanium content, 23:10238 (ORNL-TM-2305)
effects on creep-rupture at 705°C of Incoloy 800, in-pile time dependence of, 23:24954 (BNWL-870, pp 10.1-12)
effects on creep-rupture at 760°C of Inconel 625, 23:30099 (GEMP-1010, pp 45-98)
effects on creep-rupture of A-286 at 650°C, 21:26869(R) (HW-83398)
effects on creep-rupture of aluminum and aluminum alloys, 25:49489 (ORNL-TM-3416, pp 75-108)
effects on creep-rupture of Hastelloy X and Incoloy 800, 24:14808(R) (BNWL-1020)
effects on creep-rupture of Hastelloy X at 540 and 650°C, 23:24958 (GEMP-1008, pp 51-113)
effects on creep-rupture of Hastelloy-X at 540°C, 23:24954 (BNWL-870, pp 10.1-12)
effects on creep-rupture of Incoloy 800 at 540 and 705°C, 23:24958 (GEMP-1008, pp 51-113)
effects on creep-rupture of molybdenum at 1000°C, irradiation temperature dependence of, 23:24954 (BNWL-870, pp 10.1-12)
effects on creep-rupture of polycrystalline molybdenum at 750°C, 24:14853
effects on creep-rupture of rhenium—tungsten alloys, 22:19603
effects on creep-rupture of titanium-modified Types 304 and 304L stainless steel at 704°C, 23:22594 (BNWL-790, pp 11.1-13)
effects on creep-rupture of Type 304 stainless steel at 650°C in air, 23:24956 (BNWL-870, pp 12.1-55)
effects on creep-rupture properties of annealed INOR-8, 21:26861(R) (BNWL-CC-658)
effects on creep-rupture properties of Hastelloy R235 and X, 21:34865(R) (GEMP-67)
effects on creep-rupture properties of Hastelloy X280 and Inconel 600, effects of heat treatment on, 21:26861(R) (BNWL-CC-658)
effects on creep-rupture properties of Incoloy 800 at 540 and 705°C, 23:22593 (BNWL-790, pp 10.1-10)
effects on creep-rupture properties of molybdenum, effects of annealing at 750°C on, 21:34865(R) (GEMP-67)
effects on creep-rupture properties of rhenium—tungsten alloys at 800 to 900°C, 21:28794(R) (BNWL-CC-355)
effects on creep-rupture properties of tungsten, 21:26861(R) (BNWL-CC-658)
effects on creep-rupture properties of tungsten at 900 to 1300°C, 21:34865(R) (GEMP-67)
effects on creep-rupture properties of tungsten at 1100°C, 21:20469
effects on creep-rupture properties of tungsten at 900 to 1900°C, 21:32931(R) (BNWL-CC-883)
effects on creep-rupture properties of tungsten—rhenium alloy, 21:28793(R) (BNWL-94)
effects on cristobalite, 24:8212
effects on critical shear stress of metals, relation to annealing of Seeger's depletion zone, (T), 21:46415
effects on crystal dislocation channeling in niobium, 23:20522 (ORNL-4334, pp 33-63)
effects on crystal lattice of zirconium, relations with in-lattice energy deposition rate, 23:16504
effects on crystal lattices, computer simulation of, 24:14866(R) (BNWL-658)
effects on crystal structure and mechanical properties of tungsten, 23:12378
effects on crystal structure and properties of beryllia, 21:9249 (GEMP-61, pp 157-70)
effects on crystal structure and volume of germanium, 23:42412
effects on crystal structure at 600, 1180, 1330, and 1650°C, 21:41691
effects on crystal structure defects in tungsten wire, 23:51087
effects on crystal structure of glass-forming arsenic—germanium—tellurium chalcogenide, 25:58419
effects on crystal structure of lithium oxide—silicon oxide glass, 23:22701
effects on crystal structure of pure platinum, 22:2663 (CU-3551-7)
effects on crystal structure of silicon carbide, 25:32751(R) (HEDL-TME-71-43)
effects on crystal substructure of tungsten, 23:6705 (GEMP-1004, pp 89-177)
effects on crystalline ammonium iodate, 25:32000
effects on crystalline and dimensional changes in graphite, 23:15600(R) (GA-8860)
effects on crystalline ceramics, x-ray diffraction studies of, 23:6763
effects on crystalline structure of α-alumina at 300 to 600°C, 21:46020
effects on crystallization of amorphous films of germanium and tantalum oxide, 22:33446

effects on cultured cells, comparison of RBE of radium-226 and californium-252 mixed γ and, 25:37809
effects on cultured cells, normal tissues, and tumors of mammals, 22:40869
effects on cultured cells, RBE and oxygen enhancement ratio for 1.5 to 15 MeV, 24:14573
effects on cultured human cells, effects of dose fractionation on recovery from, 23:45864
effects on cultured kidney cells, comparison of acute, to charged particles, 22:49617
effects on cultured T1 cells in relation to LET, 24:14498
effects on current oscillations and photoelectric properties of n-type gallium arsenide, 23:42424
effects on cyclic deformation of single-crystal copper, 22:28852
effects on cylindrical damage shells in vanadium single crystals, 24:14808(R) (BNWL-1020)
effects on cytology of pea seeds, 21:30931
effects on decalibration of Chromel/Alumel thermocouples, 23:24498
effects on defect cluster formation and swelling in Types 304 and 316 stainless steel, 25:703 (BNWL-1349-2, pp 4.1-154)
effects on defect clusters in gold at 0.5 to 100 MeV, 22:21739
effects on defect clusters in Hastelloy X280, annealing of, 21:32931(R) (BNWL-CC-883)
effects on defect clusters in high-purity nickel, 21:26861(R) (BNWL-CC-658)
effects on defect clusters in pure molybdenum, 22:52212 (BNWL-846)
effects on defect formation in beryllium-doped copper, 25:8902
effects on defect formation in Nickel-270 and Type-304 stainless steel at 384 to 525°C, 23:36158
effects on defect formation in titanium and rhenium at absolute melting temperature, 25:58302
effects on defect growth at twin boundaries in nickel during annealing, 25:52394(T) (JPRS-53800, pp 79-86)
effects on defect loop growth in vanadium, 25:22119(R) (WHAN-FR-40-1)
effects on defect production in lithium-doped zinc oxide at 80 to 330°K, (E), 22:17731
effects on defect production in niobium, annealing recovery from, (E), 25:27269
effects on defect recovery in tungsten, relations of rhenium with, 24:21402
effects on defect structure in Types 304 and 316 stainless steel, relations with temperature, 24:32481
effects on defect structure of polycrystalline tungsten, electron microscopy of, 21:32931(R) (BNWL-CC-883)
effects on defects and deformation of niobium—zirconium-base alloy, relations with temperature, 23:34051
effects on defects and hardening of platinum, relations with annealing temperature, 25:16553
effects on defects in aluminum, relations of additive metals with anneal-recovery from, 22:43624
effects on defects in polycrystalline molybdenum and tungsten, annealing recovery stages of, 24:14833
effects on defects in Type 304 stainless steel at 370 to 524°C, 23:24961 (ORNL-4390, pp 121-47)
effects on deformation and expansion of liquid metal cooled fast breeder reactor core components, 25:28685 (BAW-1355)
effects on deformation and tensile properties of Ferrovac iron, 22:38510 (BNL-50082, pp 93-152)
effects on deformation of Ferrovac E iron, 24:14808(R) (BNWL-1020)
effects on deformation of reactor core components, 24:52958 (BNWL-1430)
effects on deformation of single-crystal niobium, 22:43615(R) (BNWL-710)
effects on deformation of stainless steels, 24:14808(R) (BNWL-1020)
effects on deformation yield stress of tungsten single crystals, 25:6882 (JAERI-Memo-4124)
effects on deformed copper single crystals, 23:6709
effects on densities of stainless steel cladding materials, relations with void formation, 25:58306
effects on density and mechanical properties of Type 304 stainless steel, relations with temperature, 25:29904 (ORNL-4630, pp 73-95)
effects on density and void content of Type 304 and titanium-modified Type 304L stainless steels, 24:25758
effects on density of Nickel 200 at 700 to 1400°F, 25:16550 (WHAN-SA-9)
effects on density of pyrolytic carbon, 22:19674
effects on density of Types 304 and 316 stainless steel at 700 to 1400°F, 25:16550 (WHAN-SA-9)
effects on density of Types 347 and 348 stainless steel, 25:40010(R) (BMI-1903)
effects on density, mechanical properties, and microstructure of Types 304 and 316 stainless steel, 24:44742 (ORNL-4560, pp 88-105)
effects on developing embryos and fetuses in rats, teratogenetic, 23:50868
effects on development and peroxidase isozymes in Nicotiana, RBE for, in comparison to x radiation, 24:17169
effects on development of fetuses in pregnant rats, effects of phase of pregnancy on, 23:24747
effects on development of maize plants, effects of seed exposure on, 21:18182
effects on diamond single crystals, 25:34619
effects on diamonds, infrared and ultraviolet spectra after annealing at 1000 to 1800°C of, 21:19685
effects on dielectric properties of aluminum oxide electric insulators, 25:49578 (ORNL-TM-3416, pp 214-15)
effects on dielectric properties of ceramic and polymeric materials, 23:41755
effects on diffusion in aluminum—magnesium alloys at 200 to 440°C, 24:2970 (CEA-R-3906)
effects on diffusion of plutonium and uranium in plutonium dioxide—uranium dioxide fuels, 25:40139
effects on dilute niobium-base—zirconium alloys, 23:1013
effects on dimension of Fort St. Vrain Power Reactor boronated graphite control elements, measurement of, 22:48644 (GAMD-8619)
effects on dimensional change in boron—graphite system, 23:51144 (GAMD-9276)
effects on dimensional changes and creep in spherically restrained and unrestrained isotropic carbon at 600 to 1250°C, 25:35585
effects on dimensional changes and elastic, electric, and thermal properties of graphites, relations with irradiation temperature, 24:44814 (DP-Report-351)
effects on dimensional changes in as-deposited and catalytically graphitized pyrolytic carbons at 600 to 1250°C, 25:38015
effects on dimensional changes in carbon and graphite, 23:22700
effects on dimensional changes in carbons and graphites, 22:28967
effects on dimensional changes in graphite, 24:14866(R) (BNWL-658)
effects on dimensional changes in graphite, 23:23825 (GAMD-8743)
effects on dimensional changes in graphite, 23:45052(R) (GA-9090)
effects on dimensional changes in Peach Bottom Power Reactor Unit 1 fuel elements, 23:33057(R) (GA-9360)
effects on dimensional changes in Peach Bottom Power Reactor Unit 1 boronated graphite control elements, 24:11202(R) (GA-9797)
effects on dimensional changes in pyrolytic carbon, 23:6762 (GA-8888)
effects on dimensional changes in pyrolytic carbon at 900 to 1300°C, 24:27898
effects on dimensional changes in pyrolytic carbon, review of relations of structure with, 25:22184
effects on dimensional changes in Types 304 and 316 stainless steel, 23:33079(R) (BNWL-941)
effects on dimensional changes of beryllium, 23:33117 (IN-1228, pp 1-19)
effects on dimensional changes of graphite at 300 to 1200°C, 23:30196
effects on dimensional stability and mechanical properties of Types 304 and 316 stainless steel, 24:6243
effects on dimensional stability of anisotropic and near-isotropic graphite, 24:1086(R) (GA-9433)
effects on dimensional stability of dense aluminum oxide, 24:17395 (ORNL-4480, pp 188-95)
effects on dimensional stability of graphite, 22:36551 (BNWL-740)
effects on dimensional stability of graphite at high fluxes, 24:34974 (BNWL-1349-1, pp 7.1-10)
effects on dimensional stability of near-isotropic graphite, 23:24989(R) (GA-9239)
effects on dimensional stability of pitch-binder-type graphite, 24:1086(R) (GA-9433)
effects on dimensional stability of rhenium monocrystals, 22:28850
effects on dimensional stability of silicon oxynitride, 24:17395 (ORNL-4480, pp 188-95)
effects on dimensional stability of steel, relations with chromium content, 24:29984 (SC-RR-70-201)
effects on dimensions and properties of graphite, relations with dose and temperature, 24:14980
effects on dimensions of carbon and graphite, 24:23538(R) (GA-9968)
effects on dimensions of codeposited isotropic carbon—silicon coatings, 25:55652
effects on dimensions of graphite at high temperatures, 25:4883 (DP-Report-473)
effects on dimensions of natural and annealed pyrolytic graphite, relations with temperature, 25:49586
effects on dimensions of production-grade graphite at high temperatures, 24:44815 (GA-9973)
effects on dimensions of pyrolytic graphite, relations with annealing, 24:17399
effects on dimensions of refractory carbide specimens, 23:25022 (ORNL-4390, pp 113-14)
effects on dimensions of stainless steel cladding on ceramic fuels, 25:32751(R) (HEDL-TME-71-43)
effects on direct current of silicon mesa-diodes, 23:47915
effects on disilane—phosphine mixtures, reactions of recoil silicon-31 atoms from, 25:2299
effects on dislocation and void formation in Type 304L stainless steel, 24:6231
effects on dislocation channelling in iron, 23:51085
effects on dislocation density in silicon, 22:37032
effects on dislocation density of copper monocrystals in stress-applied and stress-removed states, electron microscope study of, 25:35518
effects on dislocation flow stress of bcc metals and solid solutions, 24:51184 (CONF-700819-3)
effects on dislocation formation in copper single crystals, 21:31061 (ORNL-P-3117)
effects on dislocation halos in boron-10-doped Hastelloy R-235, 22:8787 (GEMP-563)
effects on dislocation loops in copper and nickel, relations with crystal lattice geometry, 25:4834
effects on dislocation loops produced in molybdenum at 1000°C, 24:14808(R) (BNWL-1020)
effects on dislocation mobility in lithium fluoride, 23:25444
effects on dislocation pinning in copper, 24:32470 (ORNL-4526, pp 17-24)
effects on dislocation pinning in sodium chloride single crystals, 25:9547
effects on dislocation structure of iron, electron microscopy of, 21:32931(R) (BNWL-CC-883)
effects on dislocation structures in strained Ferrovac E iron, 24:12440
effects on dislocations in aluminum—aluminum oxide dispersions, 24:14828
effects on dislocations in copper, pinning during thermal annealing of, 24:14824
effects on dislocations in high-purity deformed iron, 24:14866(R) (BNWL-658)
effects on displacement and swelling of FTR core components, 24:18697(R) (BNWL-1304)
effects on displacement cascades in copper—gold alloys, 25:49482 (ANL-ms-1336)
effects on displacement damage in fast reactor core materials, 24:40897 (TRG-Report-1911, pp 377-86)
effects on displacement spike formation in tungsten, 21:32931(R) (BNWL-CC-883)
effects on distribution and rate of damage in zirconium, spectral correlations of, 23:34023 (AECL-3086(Rev.))
effects on DNA of Drosophila melanogaster, mutagenic, 24:50813
effects on DNAase content of urine of rats, diagnostic value of, 22:33919
effects on doped and pure calcium tungstates, ENDOR and ESR studies on paramagnetic centers in, 24:27175
effects on Drosophila melanogaster, RBE for mutagenic, 21:36542
effects on ductile—brittle transition temperature of iron and steel, 24:6235
effects on ductile-brittle transition temperature in SM-1 pressure vessel steel, 21:26869(R) (HW-83398)
effects on ductile-brittle transition temperature of carbon steel, 21:26865(R) (HW-74679)
effects on ductile-brittle transition temperature of ASTM A-212-B steel, effects of dose and temperature on, 21:22896(R) (ORNL-4097)
effects on ductility and strength of beryllium at 140°R, 24:36944
effects on ductility of A-212-B steel, tensile and notch-impact studies of, 22:31422 (ORNL-4246, pp 6-27)
effects on ductility of A-286 alloy, effects of boron on, 21:28793(R) (BNWL-94)
effects on ductility of A533 steel, at 2.3 x 10^{19} flux and 550°F, 22:31417 (BNWL-532, pp 9.1-23)
effects on ductility of chromium—molybdenum—nickel—vanadium steel, 22:31417 (BNWL-532, pp 9.1-23)
effects on ductility of chromium—molybdenum—nickel steel, 22:31417 (BNWL-532, pp 9.1-23)
effects on ductility of dilute beryllium-base—calcium—chromium alloys, 25:29917(P)
effects on ductility of Incoloy 800 at 650°C, 23:24961 (ORNL-4390, pp 121-47)
effects on ductility of Incoloy 800, relations with preaging, 24:17332 (ORNL-4480, pp 70-95)
effects on ductility of pressure vessel steel, 24:42163(R) (EURAEC-2139)
effects on ductility of pressure vessel steel, 24:4817 (GAMD-9393)
effects on ductility of stainless steels and nickel alloys at high temperatures, 25:52396(T) (JPRS-53800, pp 98-112)
effects on ductility of steel, analysis of, 22:42338
effects on ductility of steel, effects of annealing on, 24:21395(R) (AD-698275)
effects on ductility of steels, relations with ferrite grain size, 21:1924
effects on ductility of Type 304 and 304L stainless steel, relations with titanium content, 23:12376 (ORNL-TM-2328)
effects on ductility of Types A302B and A350LF1 steel, 23:1012
effects on ductility of Types A350 and A537B steels, 24:19469 (NRL-7006)
effects on ductility of welds for joining Type A543 steel plate, 23:22592 (BNWL-790, pp 9.1-20)
effects on ductility properties of high-strength steels, 21:505 (NRL-6419)
effects on durum wheat, mutagenic, 22:40619 (RT/BIO-(68)20)
effects on durum wheat, mutagenic, 24:27572
effects on durum wheat, mutagenic, 21:32613
effects on efficiency of silicon mesa diodes, 22:49173
effects on elastic properties of quartz, (E), 21:42162
effects on elastomer-based insulation for electric cables, 24:34983
effects on electric and mechanical properties of annealed and cold-worked Zircaloy-2, 23:16499 (BNWL-746, pp 7.1-34)
effects on electric and mechanical properties of single-crystal aluminum, (E), 23:20528
effects on electric and photoelectric properties of monocrystals of p-type silicon, 22:16618
effects on electric and thermal conductivities of beryllium, 25:33402(R) (ORNL-4669)
effects on electric conductivity and hot hardness of niobium, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on electric conductivity and hot hardness of titanium-base vanadium alloys, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on electric conductivity and internal friction of niobium, relations with annealing, 23:20520 (ORNL-4334, pp 21-9)
effects on electric conductivity and mechanical properties of Type Kh 18N22V2T2 steel, 25:4817
effects on electric conductivity and photoconductivity of selenium single crystals as function of temperature, (E), 22:37046
effects on electric conductivity and thermoelectric power of nonstoichiometric chromium oxide, 23:42438
effects on electric conductivity of A-286 iron alloy, relations with annealing, 23:36167
effects on electric conductivity of A-286 iron alloy, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on electric conductivity of A302B and A350-LF3 pressure vessel steels, 21:32931(R) (BNWL-CC-883)
effects on electric conductivity of beryllium and graphite, 25:28765
effects on electric conductivity of boron-doped A-286 iron alloy, 23:24958 (GEMP-1008, pp 51-113)
effects on electric conductivity of cadmium sulfide at 14 MeV, radioactive decay effects in, (E/T), 23:44510
effects on electric conductivity of $CrNi_3$, 25:55584
effects on electric conductivity of iron and nickel, 21:34937(T) (SC-T-67-0936)

effects on electric conductivity of molybdenum, annealing temperature dependence of, 23:24954 (BNWL-870, pp 10.1-12)
effects on electric conductivity of molybdenum, annealing of 4°K, 22:43626
effects on electric conductivity of molybdenum, tungsten, and their alloys, 21:26869(R) (HW-83398)
effects on electric conductivity of niobium, effects of carbon and oxygen on annealing of, 21:22896(R) (ORNL-4097)
effects on electric conductivity of nitrogen- and oxygen-containing vanadium, relations with annealing, 23: 27132 (ORNL-4369, pp 42-52)
effects on electric conductivity of pure metals, 24:25750 (ANL-7417, pp 111-24)
effects on electric conductivity of pure molybdenum, 22: 52210 (BNWL-844)
effects on electric conductivity of tungsten at 70°C, 23: 30099 (GEMP-1010, pp 45-98)
effects on electric conductivity of uranium, 24:25750 (ANL-7417, pp 111-24)
effects on electric insulators at 400 to 800°C, 25:49575 (ORNL-TM-3300, pp 263-5)
effects on electric insulators of polycrystalline alumina at 60 to 1230°C, 25:32313 (ORNL-4678)
effects on electric parameters of silicon diode dosimeter, 21:20016 (AD-648642)
effects on electric properties of aluminum oxides, (E), 22:39157 (N-68-13368)
effects on electric properties of antimony-containing germanium, annealing of, (E), 21:848
effects on electric properties of doped n-type germanium, annealing of, (E), 21:15218 (N-66-35227)
effects on electric properties of germanium, (E), 25: 45543
effects on electric properties of n-type indium arsenides, 22:15638
effects on electric properties of nickel oxide single crystals, (E), 21:37567
effects on electric properties of silicon, 24:8529
effects on electric properties of silicon oxynitride, 24: 4859 (ORNL-4440, pp 114-16)
effects on electric properties of silicon solar cells, 21: 45488 (HMI-B-60)
effects on electric resistivity and Hall mobility of cadmium sulfide single crystals, (E), 22:41683
effects on electric resistivity and hardness of tungsten, effects of annealing on, 21:31063
effects on electric resistivity of SAP alloys, relations with impurity content, 25:4890
effects on electron density in n-type silicon and germanium, temperature dependence of rate of, 25: 45558
effects on elongation of Type 348 stainless steel, 23: 50978(R) (BNWL-971)
effects on embrittlement and tensile properties of Haynes Stellite No. 25 at 315 to 650°C, 23:36154
effects on embrittlement and tensile properties of Nickel-200 at 315 to 650°C, 23:36154
effects on embrittlement and tensile properties of Tenelon at 315 to 650°C, 23:36154
effects on embrittlement and tensile properties of UMCo-50 at 315 to 650°C, 23:36154
effects on embrittlement of A302-B and A543 steel, 23: 12375 (NRL-6803)
effects on embrittlement of A302B steel, 25:28682 (JAERI-1202)
effects on embrittlement of A350-LF1 steel, relations with annealing, 23:5083 (AD-671807)
effects on embrittlement of aged and quenched niobium—zirconium-base alloys, 23:34035
effects on embrittlement of cladding materials for liquid-metal-cooled fast reactor, at 450, 550 and 650°C, 23: 22585 (BNWL-790, pp 4.1-6)
effects on embrittlement of cladding materials for liquid-metal-cooled fast reactor, at 450, 550, and 650°C, 23: 24946 (BNWL-870, pp 4.1-6)
effects on embrittlement of Cr—Mo—Ni—steel plate, relations with prior heat treatments, 23:22592 (BNWL-790, pp 9.1-20)
effects on embrittlement of ferrite steel pressure vessels, 22:52225
effects on embrittlement of Ferrovac iron at 203, 304, and 523°K, 21:28794(R) (BNWL-CC-355)
effects on embrittlement of high-purity nickel, 23:39005 (BMI-1862, Sect.B)
effects on embrittlement of high-temperature steels, 24: 14839
effects on embrittlement of Incoloy 800 and austenitic and ferritic stainless steels at 700°C, relations of metallurgical properties with, 25:47148
effects on embrittlement of maraging steel, 22:31435
effects on embrittlement of material in and near Type A533B steel plate welds, 23:22592 (BNWL-790, pp 9.1-20)
effects on embrittlement of modified steel, effects of annealing on, 21:28794(R) (BNWL-CC-355)
effects on embrittlement of polycrystalline tungsten, 23: 1009 (N-68-28818)
effects on embrittlement of pressure vessel steels, 21: 31058(R) (EURAEC-1857)
effects on embrittlement of stainless steel, 22:45792 (BNWL-SA-1996)
effects on embrittlement of stainless steel at 750 to 850°C, 23:36166
effects on embrittlement of thick plate steels for pressure vessels, temperature dependence of, 23:24953 (BNWL-870, pp 9.1-19)
effects on embrittlement of Type 316 stainless steel, relations of microstructure with, 24:10111 (BMI-1872, Sect.B)
effects on embrittlement of Type A302B steel at 250 and 550°C, relations of phosphorus and sulfur content with, 25:40082
effects on embrittlement of Type A533B steel electroslag weldments at 550°F, 25:4833
effects on embrittlement of Type A533B steel, relations of control of residual element content on resistance to, 25:42907
effects on embrittlement of Types A302B, A-336, A533B, and A542 steels, evaluation of, 25:42906
effects on embrittlement of welds of Types A533C-class 2 and A533B-class 1 steel, 23:24953 (BNWL-870, pp 9.1-19)
effects on embrittlement of Zircaloy-2, effects of hydrogen on, 21:14868
effects on encapsulated plutonium dioxide—uranium dioxide fuels, 25:8909 (ORNL-4600, pp 3-40)
effects on energy storage by graphite, 22:28960 (BNL-10306)
effects on EPR absorption linewidth of aluminum oxide—chromium oxide crystals, (E/T), 21:33514 (COO-1054-31)
effects on erythropoiesis in mice, RBE for, 24:51030(T) (ANL-Trans-853)
effects on erythropoietic system of rabbits and rats, comparison of RBE of β, x, and, 23:26894
effects on ESR and optical transmission spectra of α-silicon carbide monocrystals, 25:59154
effects on ethylene—phosphine, silane—phosphine, and gaseous phosphine, reactions of recoil silicon-31 from, 23:4685
effects on eyes in rabbits in comparison to gamma radiation, protective effects of adenosine monophosphate, cysteamine, and serotonin against cataract-inducing, 25:27014
effects on eyes of astronauts, light-flash, 25:47015
effects on eyes of mice and rats, factors affecting cataractogenic, 23:29568(R) (COO-1024-33)
effects on eyes of mice, effects of age and dose on RBE for monoenergetic, 23:48198 (NYO-2740-6, pp 235-7)
effects on eyes of mice, effects of dose on cataractogenic, 22:12924
effects on eyes of rabbits, comparison of RBE for cataractogenesis with cobalt-60 γ rays and, 23:33853
effects on eyes of rabbits, effects of dose and LET on RBE for, 25:55317 (CEA-CONF-1744)
effects on eyes of rabbits, protective effects of chemicals against, 24:27610
effects on eyes of rabbits, RBE for pathological, 25: 26945
effects on fast reactor control and structural materials, (E), 24:46081(R) (BNWL-1394)
effects on fast reactor fuel element cladding materials, 23:22548
effects on fast reactor fuels and fuel element cladding, 25:54108
effects on fast reactor mixed oxide fuels, review of results of, 23:31193(R) (BNWL-567)
effects on fast reactor structural materials, design problems from, 24:47897 (BNWL-SA-2954)
effects on fatigue and stress rupture of Type 347 stainless steel at 650°C, 24:6236
effects on fatigue and tensile properties of Incoloy 800 at high temperatures, 25:32751(R) (HEDL-TME-71-43)
effects on fatigue and tensile properties of titanium-modified Type 304 stainless steel, 25:32751(R) (HEDL-TME-71-43)
effects on fatigue and tensile properties of type 347 stainless steel, 22:49775
effects on fatigue and tensile properties of Types 304 and 316 stainless steel, 24:10113 (GEMP-726)
effects on fatigue at 650°C of Types 304 and 316 stainless steels, 23:30099 (GEMP-1010, pp 45-98)
effects on fatigue life of Types 304 and 316 stainless steel, 25:11459 (IN-1437, pp 1-4)
effects on fatigue of aluminum and copper, relations with internal friction, 24:14815
effects on fatigue of Type 304 stainless steel, 24:17330 (IN-1335, pp 1-24)
effects on fatigue of Types 304 and 316 stainless steel, 24:6226
effects on fatigue of Types 304 and 316 stainless steel at 650°C, 24:34839(R) (BNWL-1091)
effects on fatigue properties of carbon steel, 21:28794(R) (BNWL-CC-355)
effects on fatigue properties of carbon steel, 21:28795(R) (BNWL-CC-510)
effects on fatigue properties of SA212B and SA302B steels, 21:18203(R) (IDO-17218)
effects on fatigue strength of nickel, 23:46094
effects on ferroelectric crystals, 25:43442
effects on ferrous sulfate, trivalent iron yields from, (E), 25:51908
effects on fertility of maize, effects of seed exposure on, 24:42030
effects on fertility, growth, and survival of barley and buckwheat following seed exposure, 25:47048
effects on fertility, growth, and survival of seeds of Oryza sp, 24:17024
effects on fission product release in BISO and TRISO coated uranium carbide (UC_2) sphere shaped fuel, 24: 4026(R) (GA-9660)
effects on fission product retention and stability of beryllium oxide-matrix fuels, 23:3158 (GA-8559)
effects on fission product transport in manifold vented gas cooled plutonium oxide (PuO_2)—uranium oxide (UO_2) rod type fuel elements, 24:26771 (GA-9896)
effects on flow stress and strain rate of Ferrovac E iron, 23:41682(R) (EURAEC-2087)
effects on flow stress of Ferrovac E iron and tungsten single crystals, 23:27134
effects on flow stress of niobium single crystals, relations with temperature, 24:17334
effects on fluorescence of anthracene crystals at 2.5 and 14 MeV, 25:51903 (COO-1105-166)
effects on formation of integral pores in nickel foil, 22: 52214 (BNWL-SA-1768(Rev.))
effects on Fort St. Vrain Power Reactor Unit 1 TRISO-coated particle-type thorium carbide (ThC_2)—uranium carbide (UC_2) fuel elements, analysis of, 23:4218 (GA-8467)
effects on fractionation of rat hemoglobin by electrophoresis, comparison with x-ray effects, 24: 16986
effects on fracture and tensile properties of A533B pressure vessel steel, 25:55587
effects on fracture and tensile properties of Type A533B pressure vessel steel, 25:42901 (HEDL-TME-71-76)
effects on fracture of A302-B stainless steel, 21:6843
effects on fracture of carbon—iron alloys, 24:14808(R) (BNWL-1020)
effects on fracture of heavy section pressure vessel steels, (E), 24:36044(R) (BNWL-1315-2)
effects on fracture of heavy section Type A533 steel, 25: 6856 (ORNL-TM-3055)
effects on fracture of heavy section Type A533 steel, 24: 34922 (BNWL-1349-1, pp 4.1-97)
effects on fracture of heavy-section Type A533B steel pressure vessels, 25:32752(R) (ORNL-4653)
effects on fracture of heavy-section Type A543 steel, 25: 32751(R) (HEDL-TME-71-43)
effects on fracture of steel, 24:14808(R) (BNWL-1020)
effects on fracture of Type A543 steel, 24:34839(R) (BNWL-1091)
effects on fracture of Types 316 and 316L titanium-modified stainless steel, 23:24961 (ORNL-4390, pp 121-47)
effects on fracture strength and yield strength of iron, 21:26868(R) (HW-77281)
effects on fracture strength of pressure vessel steels, (E), 24:35955(R) (GA-10099)
effects on fracture surface of Type 347 stainless steel, 21:18308(R) (BMI-1784)
effects on fracture toughness and tensile properties of A 533B and European 1.2MD07 steels, 23:14372(R) (WCAP-3677-9)
effects on fracture toughness of annealed Zircaloy-2, 21: 28795(R) (BNWL-CC-510)
effects on fracture toughness of pressure vessel steels, (E) , 24:52809(R) (GA-10300)
effects on fracture toughness of S-200 grade beryllium at 77 to 300°K, 24:39668 (WANL-TME-1656)
effects on fracture toughness of Zircaloy-2, 21:26861(R) (BNWL-CC-658)
effects on frequency of anaphase chromosome aberrations in liver of mice, effects of dose on, 22: 31049
effects on frequency of sex-linked, lethal, and visible mutations in Drosophila sperm, 25:29499
effects on FTR driver fuel elements, measurement of, 22:30299 (BNWL-SA-1750)
effects on fuel cladding alloys, 21:12231(R) (ANL-7267)
effects on fuel cladding and reactor structural materials, 23:20516 (BMI-1857, Sect.B)
effects on fuel cladding material, 24:14808(R) (BNWL-1020)
effects on fuel cladding materials for LMFBR, evaluation of, 23:48320 (GEMP-573(Rev.))
effects on fuel cladding metals, 23:8265(R) (BMI-1851)
effects on fuel cladding metals at high fluxes, 25:27266 (RD/B/N-1812)
effects on fuel element cladding materials, 21:13946(R) (ANL-7279)
effects on fuel element cladding materials, 21:13947(R) (ANL-7286)
effects on fuel elements for sodium-cooled fast ceramic reactor, 22:7808(R) (GEAP-5522)
effects on fuel jacket materials, 22:647(R) (BNL-50077)
effects on fuel jacket materials, 21:23589(R) (ANL-7308)
effects on fungi, genetic, 21:34640
effects on fused silica in combination with 1.5-MeV electrons, optical absorption induced in, 25:22598 (N-71-10380)
effects on gadolinium, annealing of, 23:16875
effects on gallium arsenide devices, 23:17873
effects on gallium arsenide junction field-effect transistors, improved tolerance to, 25:57905
effects on gallium arsenide photoconductivity, 24:51795
effects on gametes of male mice, effects of stage of spermatogenesis on mutagenic, 23:29449
effects on gamma response of lithium fluoride thermoluminescent dosimeters, 21:36405
effects on gamma response of lithium fluoride thermoluminescent dosimeters, 24:27478 (ANL-7615, pp 201-3)
effects on gas distribution in hot-pressed beryllium, relations with annealing, 23:6706
effects on gas swelling of beryllium, 25:52408(T) (JPRS-53800, pp 268-79)
effects on gastrointestinal tract of mice in comparison to x, 22:40935
effects on gastrointestinal tract of mice, effects of dose fractionation on RBE for, 24:2791
effects on genetics and environmental influences affecting response of dormant seeds, 21:20321(R) (ORO-653)
effects on genetics of chrysanthemum plants, 21:24671
effects on genetics of wheat seeds, 21:20144
effects on geotropic response and statolith sedimentation in barley roots, effects of dose on 14 MeV, 24:19373
effects on germanium and silicon semiconductors, 21: 12736(R) (N-66-19665)
effects on germanium and silicon semiconductors, effects of arsenic and phosphorus on, 21:12738(R) (N-66-24959)
effects on germanium and silicon, use of anomalous x-ray transmission for detection of, 22:46206
effects on germanium at 14 MeV and 77°K, annealing of, 25:17275
effects on germanium hydride, yields of germanium-75-labeled products in, 22:48874(R) (COO-1713-5)
effects on germanium single crystals, 21:510
effects on germanium single crystals, electron microscopic studies on, 23:16506
effects on germanium single crystals, generation—recombination noise from, 23:22148
effects on germanium single crystals, Hall effect and resistivity, 21:31053 (BMwF-FBK-67-27)

effects on germanium single crystals, small-angle x-ray scattering study of spike damage produced in, 22: 48190
effects on germanium, temperature dependence of defects from, (E), 22:13546
effects on germination and seedling height of Brassica and Sesamum, comparison of RBE of γ radiation and, 25:39828
effects on germination and survival of seeds of deciduous trees, 21:39525(R) (ORO-2066-11)
effects on germination of barley seed, effects of caffeine on, 25:47045
effects on germination of deciduous tree seeds, combined effects of γ radiation on, 22:28714
effects on glycogen level in liver of mice, 25:499
effects on gonads in mice, effects of sex on mutagenic, 25:6671 (CONF-691106-, pp 340-8)
effects on gonads of adult and young mice, pathological, 23:6570(T) (NSJ-tr-107)
effects on grain boundary separation in aluminum oxide, 23:25023 (ORNL-4390, pp 115-20)
effects on grain boundary sliding of Type 316 stainless steel, 23:24958 (GEMP-1008, pp 51-113)
effects on grain boundary void stability in nickel, 24: 34922 (BNWL-1349-1, pp 4.1-97)
effects on grain growth and mechanical properties of copper-base—magnesium alloys at 25 to 900°C, 23: 12379
effects on grain growth and mechanical properties of copper-base—aluminum alloys at 25 to 900°C, 23: 12379
effects on grain growth in aluminum-base lithium alloys at 550°C, 24:8162
effects on graphite, 23:6764
effects on graphite at 300 to 1200°C, data tabulations on, 24:1100 (BNWL-1056-B)
effects on graphite dimensional changes, 24:18677 (ORNL-4449, pp 1-38)
effects on graphite dimensions, crystal structure, and properties, 23:34896(R) (GA-8356)
effects on graphite in BR-2 in-pile loop, 22:1856 (EUR-3626)
effects on graphite in reactors, 21:31113
effects on graphite of, analysis of, 23:4366
effects on graphite polycrystals at 500 to 700°C, 21: 36941 (BNWL-380)
effects on graphite properties, relations with pitch-binder content, 25:55653
effects on graphite, annealing of damaging, 21:533
effects on graphite, annealing study of, 25:49994
effects on graphite, comparison dose scale for, 25:3872 (DP-Report-559)
effects on graphites, 23:8258(R) (GA-8538)
effects on graphites and carbons, 23:8259(R) (GA-8852)
effects on graphites, pyrocarbons, and fuel bodies in Dragon reactor at 600 to 1200°C, 25:55651
effects on graphitization of malleable cast iron and cast iron alloys, 25:42904
effects on greases, petroleum, and synthetic lubricants, 23:35437
effects on gross volume gain of monocarbides of niobium, tantalum, titanium, tungsten, and zirconium, 22:48788
effects on ground heating of 12.2- to 15-MeV, at altitude of 50 ft, (T), 23:48957 (ORNL-TM-2587)
effects on ground, induced heat due to 12.2- to 15-MeV source at altitude of 50 feet, (T), 25:7432 (ORNL-4626)
effects on growth and development of wheat in comparison to effects of high temperature, 24:25590
effects on growth and morphology of forest trees, cobalt-60, 24:17016
effects on growth and photosynthesis in seedlings of silver maple and yellow poplar, effects of reduced light on, 25:27076
effects on growth cartilage of rats comparison of x radiation effects to effects of dose fractionation on OER and RBE for, 23:45902
effects on growth in Zircaloy-4, model for, 23:34040
effects on growth of alpha uranium and Zircaloy-4, 23: 16502 (RD/B/N-1216)
effects on growth of barley and rice in comparison with DES, EMS, and γ radiation, 24:41812
effects on growth of barley seedlings, RBE for negative, 23:45946 (ANL-7535, pp 125-7)
effects on growth of cottonwood clones, 22:6772 (ORNL-4168, pp 61-118)
effects on growth of forest trees, comparison of γ radiation with, 23:18128 (CONF-670503-, pp 120-6)
effects on growth of freshwater plants, 24:36852
effects on growth of graphite, comparison of bromination changes to, 22:778
effects on growth of γ-irradiated wheat seedlings, RBE for, 25:8801
effects on growth of injected lymphatic leukemia cells in mice, RBE of x, 21:24628
effects on growth of neoplasms, effects of dose fractionation and oxygen pressure on, 21:22644
effects on growth of rat tissues, 23:50861
effects on growth of silver maple and yellow poplar seedlings, effects of light intensity on, 25:21622 (ORNL-4634, pp 56-70)
effects on growth of vertebral bones in rat tails, effects of oxygen abundance on, 24:4685
effects on growth rate of carrot root phloem, 14-MeV, 25:32620
effects on guinea pigs, mice, and rats in relation to radiation hazards in space, RBE for, 24:848
effects on hair color and organ weight of swine, unilateral, 22:38427(R) (ORO-659)
effects on hardening in bcc metals, 25:35507
effects on hardening in iron, energy dependence of, 25: 40083
effects on hardening of austenitic stainless steel, 22: 36519
effects on hardening of α-iron, relations of carbon with, 25:49492
effects on hardening of carbon steels, 21:20469
effects on hardening of Ferrovac E, microstructure hardness correlation during annealing of, 21:26861(R) (BNWL-CC-658)
effects on hardening of iron, 22:19078(R) (TID-11295(Pt.1)(5th Ed.))
effects on hardening of low-carbon steel, relations with grain size and irradiation temperature, 25:37983 (IAEA-117, Paper 8a)
effects on hardening of molybdenum, relations with original state, 25:52400(T) (JPRS-53800, pp 164-75)
effects on hardening of monocrystalline niobium and polycrystalline iron, 23:34047
effects on hardening of niobium, dose dependence of yield stress in, 24:39669
effects on hardening of pure iron, 24:14832
effects on hardening of vacuum-melted iron, 23:24962 (ORNL-4390, pp 148-56)
effects on hardening of vacuum-melted iron, 21: 28795(R) (BNWL-CC-510)
effects on hardness and microstructure of niobium, 24: 14830
effects on hardness and strength of niobium at 300 and 600°C, 22:31432
effects on hardness and strength of niobium—zirconium alloys at 300 and 600°C, 22:31432
effects on hardness of copper and copper alloys, 22: 43623
effects on hardness of molybdenum and tungsten, 21: 28795(R) (BNWL-CC-510)
effects on hardness of niobium, relations with annealing, 23:20521 (ORNL-4334, pp 29-33)
effects on hardness of polycrystalline molybdenum and molybdenum, rhenium, and tungsten alloys as function of temperature, 21:32931(R) (BNWL-CC-883)
effects on hardness of pure molybdenum, 22:52213 (BNWL-847)
effects on hardness of tungsten monocrystals as function of temperature, 21:32931(R) (BNWL-CC-883)
effects on Hastelloy C at cryogenic temperatures, 22: 19604
effects on Hastelloy X, Inconel 120, and stainless steel, 22:13036 (BNWL-473, pp 7.1-71)
effects on Hastelloy X-clad plutonium oxide (PuO_2)—uranium oxide (UO_2) vented-type fuel elements, 23: 17188(R) (GA-8107)
effects on heat capacity of copper, 24:4825
effects on heat generation in cylinder shaped pressure vessels, (T), 24:20625
effects on heat resisting alloys and metals, 22:19578 (BNWL-455, Paper 10.1-40)
effects on heat-resistant alloys and refractory metals, 23: 50977(R) (BNWL-932)
effects on heavy-section pressure vessel steel, 25:703 (BNWL-1349-2, pp 4.1-154)
effects on heavy-section Type A533B pressure vessel steel, 24:12434 (BNWL-1223, pp 4.1-107)
effects on heavy-section Type A533B steel, 24:23497 (BNWL-1279, pp 4.1-117)
effects on heavy-section Type ASTM A533B steel, 23: 24960 (ORNL-4377, pp 55-96)
effects on HeLa cells, RBE for, 23:31775
effects on helium bubble production and creep in A-286 iron alloy, 22:4836
effects on helium production and distribution in Type 304 stainless steel, 24:21336(R) (AI-AEC-12913)
effects on helium production in reactor cladding and structural material, cyclotron simulation of, 25:16558
effects on helium production in silver foils, 25:58334
effects on helium production in stainless steel, 25:35503 (HEDL-SA-193)
effects on helium production in Types 304 and 316 stainless steel, spectrum averaged cross sections for calculation of, 24:10112 (GEMP-721)
effects on hematology and survival of beagle dogs, RBE for 14.6-MeV, 25:32552
effects on hematopoiesis in mice, comparison of, with effects of γ and x rays, 23:16386
effects on hematopoiesis in mice, effects of splenectomy or thymectomy on, 22:38466
effects on hematopoiesis, intestines, and survival of mice, comparison of protective effects of AET against whole-body x radiation and, 25:19029
effects on hematopoietic system and survival of mice, effects of dose on, 25:6773 (CONF-691106-, pp 435-50)
effects on hematopoietic system of rabbits and rats, RBE for, in comparison to β and x, 22:40822(T) (JPRS-44070, pp 1-9)
effects on heterogeneity of hemoglobin in rats, lethal, 23:45671
effects on heterogeneous amorphous semiconductors, 25: 45536(R) (AD-720754)
effects on heterogeneous void distribution in iron, 24: 42175
effects on high temperature ductility of Type 304 stainless steel, relations with microstructure, 23:24950 (BNWL-870, pp 5.1-2)
effects on high temperature ductility of Type 304 stainless steel, relation with microstructure of, 23: 22589 (BNWL-790, pp 5.4-6)
effects on high-frequency performance of transistors, scattering parameter characterization of, 24:16940 (COO-1624-21)
effects on high-pressure polymorphs of indium telluride, 25:11474(R) (BNWL-842)
effects on high-pressure polymorphs of lead oxide, 25: 11474(R) (BNWL-842)
effects on high-pressure polymorphs of phosphorus, 25: 11474(R) (BNWL-842)
effects on high-pressure polymorphs of silicon oxide, 25: 11474(R) (BNWL-842)
effects on high-pressure polymorphs of zirconium, 25: 11474(R) (BNWL-842)
effects on high-purity alpha-iron, magnetic after-effect study of, 25:36294
effects on high-purity aluminum, large voids produced in, (E), 24:35542
effects on high-purity n- and p-type silicon, 25:38553
effects on high-temperature mechanical properties of austenitic stainless steels, relations of boron with, 24: 10126
effects on high-temperature mechanical properties of refractory metals and alloys, (E/T), 23:10234 (CONF-680419-, pp 225-43)
effects on high-temperature properties of chromium—nickel-base alloys, 24:14831
effects on high-temperature properties of Nimonic, 24: 14831
effects on high-temperature tensile properties of alloys of varying nickel content, 23:50977(R) (BNWL-932)
effects on highly oriented carbon and graphite, 23: 24989(R) (GA-9239)
effects on histology of rat nervous system, RBE for, 25: 42641
effects on hole drift mobility in n-type germanium, 25: 52920
effects on hole drift mobility in n-type germanium, (E/T), 25:7442(R) (ORO-3651-6)
effects on Hordeum seeds, effects of moisture and oxygen content on, 24:17163
effects on hot hardness and tensile properties of tantalum-base tungsten alloys, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on hot hardness of molybdenum single crystals, 24:14808(R) (BNWL-1020)
effects on hot hardness of molybdenum-base titanium alloys, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on hot hardness of tantalum, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on hot hardness of tungsten as function of temperature, 21:34865(R) (GEMP-67)
effects on hot hardness of tungsten single crystals, 21: 28794(R) (BNWL-CC-355)
effects on hot hardness of vanadium, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on hot hardness of vanadium and Vanstar-9, 24: 34839(R) (BNWL-1091)
effects on hot hardness of Vanstar-7 and Vanstar-9, 24: 10114 (GEMP-1012(Pt.1), pp 71-262)
effects on hot microhardness of crystals of molybdenum, 23:24958 (GEMP-1008, pp 51-113)
effects on human eyes, observation of phosphenes during, 24:50710 (UCRL-19868)
effects on human leukocytes following accidental exposure, combined effects of γ rays on cytogenetic, 22:40645
effects on human neoplasms, comparison with x rays, 23:48168
effects on human skin following neutron capture therapy using boron-10, effects of increasing absorbed dose on development of pathological, 24:17156
effects on human skin following tumor therapy, RBE for, 25:49253
effects on human skin following use for therapy of neoplasms, 25:52165
effects on human skin, effects of dose, dose fractionation, and time on pathological, 25:19149
effects on hydrocarbons, estimates of LET in, 22:27807
effects on hydrogen embrittlement of ASTM A302B, A542, and HY-80 steels, 23:33117 (IN-1228, pp 1-19)
effects on hydrogen pickup by Zircaloy-2 in water environment, 21:26869(R) (HW-83398)
effects on ice single crystals, Tyndall flowers induced by infrared at nucleation centers formed by, 24:8535
effects on impact avalanche transit time diodes, 23: 43647
effects on impact properties of mild steel, relations with flux spectra, 24:14845
effects on impact properties of steel, 22:52127(R) (RISO-179)
effects on impact strength and toughness of Inconel 718, 23:6665 (GEMP-1004, pp 275-315)
effects on impact strength of Uddeholm UHB 2103/R3 steel, 22:47692
effects on impact viscosity of weld joints in stainless steels, 25:52401(T) (JPRS-53800, pp 176-9)
effects on impurity segregation in dislocation arrays in tungsten, 23:1010 (RD/B/N-1179)
effects on impurity-conducting n-type germanium, annealing of, 21:9208
effects on incidence of chromosome aberrations in man following accidental exposure, 25:44952
effects on incidence of chromosome aberrations in rye, effects of ploidy on, 21:30798
effects on incidence of opacification in lens of eye of mice, effects of dose fractionation and rate on, 21: 32733 (BNL-11477)
effects on incidence of skin tumors in rats, effects of dose, 21:28598 (USNRDL-TR-67-37)
effects on Incoloy 800, 22:19597
effects on Inconel X-750 and 713°C at cryogenic temperatures, 22:19604
effects on indium antimonide at 50°C, annealing of, 25: 56317
effects on indium antimonides at 100 to 300 deg K, 21: 846
effects on induced radioactivity of transplants following radiosterilization of tissue, 22:8666
effects on infrared absorption in gallium arsenides, (E), 23:39532
effects on initiation of boiling in sodium, 22:52227
effects on injury production in mouse genital organs, 21: 24554
effects on insulating oxide ceramics, literature survey, 22:36553 (N-68-17095)
effects on internal friction and shear modulus of polycrystalline aluminum, relations with temperature, 24:48866
effects on internal friction in magnesium, 24:25721
effects on internal friction of graphite, relations with annealing, 23:36273
effects on internal friction of monocrystalline sodium chloride, relations with strain amplitude, 25:35587

effects on internal friction of vanadium, relations with interstitial impurities, 23:20526 (ORNL-4350, pp 174-225)
effects on internal stresses and refractive index of quartz, 24:23545
effects on interstitial dislocation loops in copper, 21:14862
effects on intestinal mucosa in rats, recovery from, 21:22233 (BNL-994, pp 113-23)
effects on intestinal tissues in mammals, RBE for, 25:24400
effects on intestines of mice, effects of dose and dose fractionation on RBE for traumatic, 24:39419 (NIRS-8, pp 53-61)
effects on intestines of mice, protective effects of MEG against whole-body, 25:19029
effects on iodine pentafluoride, production and retention of fluorine-18 in, 23:15918
effects on iron, 21:31054(R) (BNWL-CC-1053)
effects on iron, 23:50977(R) (BNWL-932)
effects on iron alloys, reactions of carbon and nitrogen with defects from, 22:36510(R) (EURAEC-2037)
effects on iron and platinum, 22:15141 (BNL-50057, pp 79-100)
effects on iron at 4 to 20°K, influence of annealing and cold work on recovery from, (E), 23:32560
effects on iron, number of displacements from, (T), 25:45537 (AERE-R-6092)
effects on iron-doped and pure magnesium oxides, production of F centers from, (E), 21:37589
effects on junction capacitance of silicon n⁺ - p - p⁺ power diode, 25:55097 (N-71-25389)
effects on lattice changes in synthetic mordenite, 23:15892
effects on lattice constants of refractory zirconium and uranium compounds, 22:41132 (KFK-745)
effects on lattice defects and electron mobility in antimony—indium intermetallic compounds, 24:14865
effects on lattice defects in lead nitrate crystals, annealing of, 24:19031
effects on lattice parameter increases in molybdenum, pressure-induced annealing recovery from, 23:36146
effects on lattice parameter of silicon crystals, 23:27680
effects on lattice parameters of germanium and silicon, (E), 22:48193
effects on lattice parameters of nickel, 21:26861(R) (BNWL-CC-658)
effects on lattice parameters of pure molybdenum, 22:52211 (BNWL-845)
effects on lattice stability of silicon carbide, 22:4916
effects on lead nitrate, 22:116
effects on lead titanate and zirconate, thermodynamic properties of defects induced in, 25:36297
effects on lead—nickel alloys, small-angle scattering study of precipitations induced in, 23:3105
effects on leaf size and seedling development in Vicia, effects of seed exposure on, 22:8653
effects on length and structure of molybdenum monocrystals, 21:32931(R) (BNWL-CC-883)
effects on length of single-crystal niobium, 21:28800 (HW-84618)
effects on lens epithelium of mice and rabbits, 22:15063
effects on lens of mice, RBE for opacification, 21:28591(R) (NYO-2740-4)
effects on lens of rabbit eyes, RBE for cataractogenic 14 MeV, 24:25559 (CEA-CONF-1481)
effects on lens of rabbits in comparison to x rays, RBE for, 22:51966
effects on lens of rabbits, effects of dose fractionation on pathological, 22:51964
effects on lens opacity of mice, RBE for 0.43 to 14 MeV, in comparison to 250 kVp x rays, 24:7989 (BNL-14215)
effects on leukemia cells of mice, 23:26852 (CONF-661131-)
effects on leukocytes of swine, comparison of in vitro and in vivo 14.5-MeV, 24:12214 (ORO-672, pp 64-5)
effects on life span of mice, effects of dose rate on RBE of whole-body, 22:36374
effects on light scattering and absorption by quartz, 21:11325
effects on lithium diffusion in silicon, 21:15217 (N-66-34630)
effects on lithium diffusion in silicon, 22:4845
effects on lithium fluoride crystals at 14 MeV, attempts to demonstrate chemically bound neutrons from, 25:6344 (ANL-7729)
effects on lithium fluoride crystals containing defect centers, studies on chemically bound neutron in, 25:17858(R) (COO-1716-11)
effects on lithium mobility in silicon, 22:13010
effects on lithium-drifted germanium detectors, damage from, 23:22147
effects on lithium-drifted germanium semiconductor detectors at 1.10, 5.75, and 16.49 MeV, 22:28264
effects on loach sperm and sperm DNA, RBE for, 21:22755
effects on longevity and pollen collection of honeybees, 23:20329 (ORNL-TM-2466, pp 47-52)
effects on low carbon low nitrogen stainless steel, 23:50977(R) (BNWL-932)
effects on low cycle plastic fatigue of Type 316 stainless steel at 650°C, 23:24954 (BNWL-870, pp 10.1-12)
effects on low-alloy steel welds, 23:8135 (UJV-2055-M)
effects on low-carbon steels and pure iron, effects of nitrogen on, 21:18297(R) (EURAEC-1614)
effects on low-frequency electromagnetic losses in niobium at 40°C, 25:14188
effects on lubricating properties of molybdenum sulfide-base solid lubricants, 23:41753
effects on luminescence and morphology of bone marrow of rats, 23:33866
effects on luminescence of boron nitride at 100 to 500°K, (E), 23:42404
effects on lysosomes in myocardial cells of rat embryos, electron microscopy of, 25:16358
effects on lysosomes, mitochondria, and nuclear membranes of dermal cells in rat embryos, electron microscopy of, 25:16358
effects on lysozyme and RNAase, ESR analysis of, 22:12820
effects on magnesia crystals, luminescence of defects induced in, 25:7458
effects on magnesia, optical absorption studies of color centers produced in, 22:46281
effects on magnesium at 4.2°K, annealing of, (E), 23:3606
effects on magnesium—zirconium alloys in presence of carbon dioxide, 25:6830 (CEA-N-1341, pp 129-220)
effects on magnetic after-effect in ferrites, 24:37544
effects on magnetic permeability of iron—aluminum alloys, 24:45325
effects on magnetic properties of high-permeability iron, nature of defects associated with, 21:40114
effects on magnetic properties of iron-base—silicon alloys, 23:41682(R) (EURAEC-2087)
effects on magnetic properties of magnesium zinc ferrates and nickel zinc ferrates, (E), 23:42405
effects on magnetic properties of nickel-base—iron alloys, 23:41682(R) (EURAEC-2087)
effects on magnetic properties of Permalloy, 22:36510(R) (EURAEC-2037)
effects on magnetic susceptibility of alpha-quartz, 25:38551
effects on magnetoresistance of copper, 25:9571
effects on magnetorestriction of iron—silicon systems, 22:47691
effects on magnets of superconducting accelerators, 23:42787 (BNL-50155(Pt.3), pp 967-1132)
effects on maize, mutagenic, 22:28420
effects on malate dehydrogenase isozyme pattern in soybean seedlings, effects of soybean exposure on, 24:31838 (CONF-691120-1)
effects on malignant tumors in man, use of californium-252 as interstitial source for therapeutic, 22:49375 (BNL-12409)
effects on mammalian cells, depth dose curve relative to γ radiation and x radiation for, 23:48170
effects on mammalian tissues, RBE for, 24:7972
effects on mammals, effects of dose distribution on, 22:12922
effects on man, methods of treatment of accidental, 23:45792
effects on maple and poplar trees, effects of 200 to 400 rad doses and light on, 24:39462 (ORNL-4446, pp 66-75)
effects on martensitic start temperature of β-brass, effects of thermal cycling on, 23:44502
effects on martensitic transformation of beta-1-phase brass, 23:3092
effects on martensitic transformation of β_1-brass, (E), 23:7033
effects on martensitic transformations in beta-phase brass, 22:52218
effects on martensitic transformations in β brass, 22:34066 (ORO-3395-5)
effects on materials for thermal reactors, 23:34036
effects on materials for thermonuclear reactors, 24:2972 (UCRL-71759(Rev.1))
effects on mechanical and physical properties of beryllium, beryllium oxide, graphite, and zirconium hydride at 100 to 1500°C, 25:52467 (A/CONF.49/P-452)
effects on mechanical and physical properties of graphite, 23:8362
effects on mechanical and physical properties of graphite, 25:52469 (A/CONF.49/P-503)
effects on mechanical and physical properties of graphites for MSBR, 23:20524 (ORNL-4344, pp 211-90)
effects on mechanical and physical properties of modified and unmodified Types 304, 316, and 318 stainless steel, design of EBR-II subassembly X-100 for studying, 25:40073 (ORNL-TM-3389)
effects on mechanical and physical properties of plutonium—uranium monocarbide fuel elements, 21:45977(R) (WCAP-3791-8)
effects on mechanical and physical properties of Type 304 and Type 304L stainless steels, 23:6044 (ORNL-TM-2258)
effects on mechanical and thermal properties of concretes and mortars, relations of temperature with, 24:14990 (EUR-4280(Vol.1), pp 43-71)
effects on mechanical properties and microstructure of aluminum—nickel alloy, 24:25759
effects on mechanical properties and microstructure of EBR-II primary system materials, 24:8154 (ANL-7624)
effects on mechanical properties and microstructure of Hastelloy X, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on mechanical properties and microstructure of beryllium, 24:36939 (IN-1397)
effects on mechanical properties and microstructure of Types 304 and 316 stainless steel, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on mechanical properties and microstructure of stainless steel, 25:18180(R) (WHAN-FR-50)
effects on mechanical properties and performance of stainless steel- and Incoloy 800-clad plutonium carbide (PuC)-uranium carbide (UC) pellet-type rod-shaped fuel elements, analysis of, 23:13505 (UNC-5225)
effects on mechanical properties and polishing of diamonds, 21:28871
effects on mechanical properties and structure of reactor-grade graphite at 420 and 500°C, 25:45152
effects on mechanical properties and structure of tungsten, 24:8157 (CONF-670533-, pp 216-29)
effects on mechanical properties and swelling of hot-pressed beryllium, relations with beryllium oxide, 24:42171
effects on mechanical properties and swelling of Incoloy 800 and stainless steel, (E), 25:54096(R) (GEAP-10028-38)
effects on mechanical properties and swelling of stainless steel fuel cladding, (E/T), 24:41017
effects on mechanical properties and swelling of stainless steel fuel element cladding, (E), 25:1888(R) (GEAP-10028-35)
effects on mechanical properties and swelling of stainless steel fuel element cladding, (E), 25:18137(R) (GEAP-10028-36)
effects on mechanical properties and swelling of stainless steel fuel element cladding, (E), 25:28691(R) (GEAP-10028-37)
effects on mechanical properties and swelling of Type 304 and Type 316 stainless steels, 25:39211 (A/CONF.49/P-67)
effects on mechanical properties and swelling of Types 304 and 316 stainless steel, (E/T), 24:41017
effects on mechanical properties of 1100 aluminum, 22:23842 (BMI-1834)
effects on mechanical properties of 1100 H18 aluminum alloy, 22:28843 (DUN-SA-22)
effects on mechanical properties of 347 stainless steel cladding materials, 22:15261(R) (BMI-1819)
effects on mechanical properties of A-533B Class 1 steel plate, 23:30612(R) (ORNL-4408)
effects on mechanical properties of A212B and A533B steel, 23:20526 (ORNL-4350, pp 174-225)
effects on mechanical properties of A302, A517, A543, and chromium—molybdenum—nickel pressure vessel steels, relations with heat treatments, 24:32472
effects on mechanical properties of A302, A533, and A543 pressure vessel steels, relations with irradiation temperature, 24:30000
effects on mechanical properties of A350-LF3 steel pressure vessels for PM-2A reactor, analysis of, 22:42196 (NRL-6739)
effects on mechanical properties of A533 HSST steel plates, 25:34392(R) (ORNL-4647)
effects on mechanical properties of A533 HSST steel plates, 24:22431(R) (ORNL-4511)
effects on mechanical properties of A533 HSST steel plates, 23:33066(R) (ORNL-4374)
effects on mechanical properties of A533B steel plates and welds, 25:701 (AD-706004)
effects on mechanical properties of AISI Type-347 stainless steel, 21:20550(R) (BMI-1791)
effects on mechanical properties of AISI-347 stainless steel, 21:26865(R) (HW-74679)
effects on mechanical properties of aluminum, 23:8245 (ORNL-4370, pp 116-19)
effects on mechanical properties of aluminum alloys, at cryogenic temperatures, 22:19604
effects on mechanical properties of Army reactor pressure vessel steels, 25:32758
effects on mechanical properties of ASTM A212 pressure vessel steel, 24:29992
effects on mechanical properties of ASTM A302, ASTM A533, and HY 80 steels, relations with smelting method, temperature, thickness, and welds, 24:29987
effects on mechanical properties of ASTM A302B, A542, and HY-80 steels, relations of hydrogen with, 24:23499 (IN-1359)
effects on mechanical properties of ASTM A533B and European 1.2 MDO7 forging-grade steels, 24:10125 (WCAP-7328(Rev.))
effects on mechanical properties of austenitic steel, 24:10119 (KFK-985, pp 183-206)
effects on mechanical properties of Avesta 248SV and Bofors 2RMO steels, 24:19473
effects on mechanical properties of beryllium oxide, relations of annealing at 500 to 1400°C on recovery from, 25:52480
effects on mechanical properties of Big Rock Point Reactor A302 steel pressure vessels, 24:29998
effects on mechanical properties of carbon-containing α-iron, relations of annealing at 25 to 500°C with, 24:14862
effects on mechanical properties of carbons, 23:19464(R) (GA-8200)
effects on mechanical properties of Cb-752, 21:28795(R) (BNWL-CC-510)
effects on mechanical properties of chromium—iron—nickel alloys and nickel in water, 25:11466 (SRARI-P-78)
effects on mechanical properties of chromium—molybdenum—nickel maraging steel plate and weldments, relations with heat treatment, 24:32473
effects on mechanical properties of chromum-base and iron-base alloys, 24:988 (GEMP-1012(Pt.2), pp 41-79)
effects on mechanical properties of cobalt-base alloys, 23:41528 (BNL-50149, pp 89-122)
effects on mechanical properties of cold-worked Zircaloy-2 pressure tubes, 24:8148 (AECL-3457)
effects on mechanical properties of cold-worked Zircaloy-2 reactor pressure tubes, 25:42914
effects on mechanical properties of cold-worked Zircaloy-2 reactor pressure tubes, 24:23495 (AECL-3516)
effects on mechanical properties of concrete and steel pressure vessels, 25:52386 (A/CONF.49/P-189)
effects on mechanical properties of concretes, 25:23270 (UJV-2390-RT)
effects on mechanical properties of copper—molybdenum—zirconium-base alloys, relations with annealing, 25:42813
effects on mechanical properties of fast breeder reactor fuels and metal alloys, 25:31568(T) (EURFNR-823)
effects on mechanical properties of fast reactor cladding materials at 400 to 750°C, 23:22583 (BNWL-790, pp 3.1-8)
effects on mechanical properties of fuel element canning materials, 24:24785(R) (RCN-114)
effects on mechanical properties of graphite, 24:40895 (TRG-Report-1911, pp 116-41)
effects on mechanical properties of graphite and Hastelloy N, 23:20524 (ORNL-4344, pp 211-90)
effects on mechanical properties of graphite in one- and two-fluid molten-salt reactors, analysis of, (E/T), 23:15602 (ORNL-TM-2136)

effects on mechanical properties of graphite matrix BISO and TRISO coated thorium carbide (ThC_2)—uranium carbide (UC_2) particle type fuel elements, 24:33230(R) (GA-10010)
effects on mechanical properties of graphite, (E), 25: 20747(R) (NP-18668)
effects on mechanical properties of graphites and pyrolytic carbon, measurement from 600 to 1300°C of, 22:42392(T) (ORNL-tr-1968)
effects on mechanical properties of graphitized pyrolytic carbon, 23:36274
effects on mechanical properties of hafnium, 25:4813 (IN-1440)
effects on mechanical properties of Hastelloy N, relations with hafnium, titanium, and zirconium additions, 25: 16548 (ORNL-TM-3064)
effects on mechanical properties of Hastelloy X, 22: 19597
effects on mechanical properties of Hastelloy X, Incoloy 800, and Inconel 625 at high temperatures, 22:713 (GEAP-4985)
effects on mechanical properties of Hastelloy X- and Type 316 stainless steel-clad plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel elements, analysis of, 22: 42200(R) (ORNL-4200)
effects on mechanical properties of Hastelloy X-280 and Inconel-600, 21:6850
effects on mechanical properties of Haynes 25 alloy, graphite, and stainless steel, 25:23104 (GA-10196)
effects on mechanical properties of heavy-section Type A533B steels for reactor pressure vessels, 24:10123 (ORNL-4463, pp 89-121)
effects on mechanical properties of heavy-section Type A533B steel, 25:13724 (ORNL-4590, pp 100-34)
effects on mechanical properties of high-alloy steel, 25: 6885
effects on mechanical properties of HSST steel plates, 23:17235(R) (ORNL-TM-2479)
effects on mechanical properties of Incoloy 800 fuel cladding and precut sheet, 24:29997
effects on mechanical properties of Incoloy-800, 22: 31437
effects on mechanical properties of Inconel 600, effects of preirradiation treatments on, 21:28793(R) (BNWL-94)
effects on mechanical properties of Inconel 625, effects of irradiation temperature on, 21:28793(R) (BNWL-94)
effects on mechanical properties of Inconel 718 and X 750, 24:34925 (WANL-TME-1922)
effects on mechanical properties of INOR-8, Hastelloy X-280, and Incoloy 800, 21:28793(R) (BNWL-94)
effects on mechanical properties of iron, 22:31419 (BNWL-532, pp 11.1-43)
effects on mechanical properties of iron, 24:14808(R) (BNWL-1020)
effects on mechanical properties of iron and carbon—iron, carbon—iron—manganese, and iron—manganese alloys at 80 to 100°C, relations with composition, 25: 35505 (ZJE-99)
effects on mechanical properties of iron and low-carbon steel, relations with microstructure, 25:42925
effects on mechanical properties of iron, relations with impurities, 23:39009 (BNWL-1058, pp 12.1-79)
effects on mechanical properties of iron, role of interstitials in, 21:31057 (EURAEC-1472)
effects on mechanical properties of isotropic graphite, 23:36295
effects on mechanical properties of Lockalloy at cryogenic temperatures, 24:36941 (WANL-TME-1655)
effects on mechanical properties of materials for pressure tubes, 23:16484 (BNWL-746, pp 12.1-38)
effects on mechanical properties of metal alloys and graphite, 24:46030 (ANL-7682)
effects on mechanical properties of molybdenum, 24: 6237
effects on mechanical properties of molybdenum, 25: 8952 (ORNL-4600, pp 81-125)
effects on mechanical properties of molybdenum, tungsten, and rhenium—tungsten alloys, 21:28800 (HW-84618)
effects on mechanical properties of molybdenum—rhenium alloy, 25:8952 (ORNL-4600, pp 81-125)
effects on mechanical properties of molybdenum—titanium alloy, 25:8952 (ORNL-4600, pp 81-125)
effects on mechanical properties of NERVA materials at -423°F, analysis of, 22:32938
effects on mechanical properties of nickel and iron—chromium—nickel alloys, 25:52398(T) (JPRS-53806, pp 122-43)
effects on mechanical properties of nickel-base alloys at room temperature, 21:26869(R) (HW-83398)
effects on mechanical properties of niobium alloys, stainless steel, steel, and zirconium alloys, relations with environment, 25:35506
effects on mechanical properties of niobium—zirconium alloys, 22:45798
effects on mechanical properties of niobium—zirconium alloy, Zircaloy-2, and Zircaloy-4 cladding at 20 and 300°C, relations with cold work, 25:42913
effects on mechanical properties of Peach Bottom Power Reactor Unit 1 fuel elements, 24:11202(R) (GA-9797)
effects on mechanical properties of PM-2A steel pressure vessels, 24:29989
effects on mechanical properties of prestressed concretes, 25:37007(T) (ORNL-tr-2470)
effects on mechanical properties of pyrolytic graphite, 21:22938
effects on mechanical properties of quenched and tempered steels, 25:42909
effects on mechanical properties of reactor fuels, analysis of, 23:11235(R) (BNWL-919)
effects on mechanical properties of reactor graphite, (E), 22:11098
effects on mechanical properties of reactor pressure vessel steels, 25:32759
effects on mechanical properties of reactor pressure vessel steels, 25:32757
effects on mechanical properties of reactor pressure vessels of carbon steel and low and high alloy steels, relations of fabrication methods with, 24:10127
effects on mechanical properties of reactor structural steels, 23:32040(R) (BNWL-678)
effects on mechanical properties of reactor structural cobalt-base and nickel-base alloys, 23:32040(R) (BNWL-678)
effects on mechanical properties of refractory oxides, (E), 22:28962
effects on mechanical properties of regular and titanium-modified Type 316 stainless steel at 550 to 750°C, 23: 22594 (BNWL-790, pp 11.1-13)
effects on mechanical properties of S-200-grade beryllium at cryogenic temperatures, 24:36941 (WANL-TME-1655)
effects on mechanical properties of Saxton Power Reactor Core 2 rod type fuel elements, 24:11107(R) (WCAP-3385-21)
effects on mechanical properties of silicon carbide (SiC) coatings, analysis of, 23:4459 (GAMD-8415)
effects on mechanical properties of stainless steel and nickel alloy reactor fuel cladding, 25:52389 (A/CONF.49/P-453)
effects on mechanical properties of stainless steel, niobium—zirconium alloys, and Zircaloy-2, 24:40900 (TRG-Report-1911, pp 473-99)
effects on mechanical properties of stainless steel-clad plutonium oxide (PuO_2)—uranium oxide (UO_2), 22: 32970(R) (GEAP-5584)
effects on mechanical properties of stainless steel, 22: 19597
effects on mechanical properties of stainless steel, relations with titanium modifications, 24:34839(R) (BNWL-1091)
effects on mechanical properties of stainless steels at 20 to 800°C, 22:19601
effects on mechanical properties of stainless steel at cryogenic temperatures, 22:19604
effects on mechanical properties of stainless steel, 22: 31437
effects on mechanical properties of steel, effects of neutron spectra on, 21:28794(R) (BNWL-CC-355)
effects on mechanical properties of steels, 24:41012 (TRG-Report-1911, pp 74-81)
effects on mechanical properties of steels, 24:40894 (TRG-Report-1911, pp 36-43)
effects on mechanical properties of steels, 25:53898 (A/CONF.49/P-460)
effects on mechanical properties of thermally insulating concretes, 24:51237 (CEA-CONF-1584)
effects on mechanical properties of titanium-base alloys and aluminum 1099 at cryogenic temperatures, 22: 41075(R) (N-68-13825)
effects on mechanical properties of titanium-modified Type 304 stainless steel, 23:24955 (BNWL-870, pp 11.1-90)
effects on mechanical properties of titanium-stabilized boron-containing stainless steel, relations with thermomechanical pretreatment, 25:47147
effects on mechanical properties of TRISO coated thorium carbide (ThC_2)—uranium carbide (UC_2) particle type fuel, 24:22381(R) (GA-9720)
effects on mechanical properties of tungsten, 21: 28798(R) (HW-78760)
effects on mechanical properties of Type 19-9DL stainless steel at 55 to 413°C, 25:42923
effects on mechanical properties of Type 304 stainless steel, analysis of, (E/T), 23:5084 (BNWL-SA-1876)
effects on mechanical properties of Type 304 stainless steel, 23:3096
effects on mechanical properties of type 304 stainless steel, in-pile measurements of, 21:28793(R) (BNWL-94)
effects on mechanical properties of type 304 stainless steel and Zircaloy-2, 21:28794(R) (BNWL-CC-355)
effects on mechanical properties of Type 304 stainless steel-clad SA-212-B carbon steel pressure vessels, 23: 15625 (ANL-7117(Suppl.))
effects on mechanical properties of Type 316 stainless steel at 1000 to 1400°F, 25:19254 (WHAN-SA-2)
effects on mechanical properties of Type 316 stainless steel, 24:36940 (ORNL-4520, pp 97-133)
effects on mechanical properties of Type 316 stainless steel, 24:26803 (BNWL-1328)
effects on mechanical properties of Type 347 stainless steel, 22:43615(R) (BNWL-710)
effects on mechanical properties of Type 347 stainless steel, 24:10111 (BMI-1872, Sect.B)
effects on mechanical properties of Type 347 stainless steel, 24:34839(R) (BNWL-1091)
effects on mechanical properties of type 347 stainless steel, 22:23842 (BMI-1834)
effects on mechanical properties of type 347 stainless steel, 22:19602
effects on mechanical properties of Type A203 and A353 steel weldments, 25:11454 (AECL-3734)
effects on mechanical properties of Type A302B steel, relations with prior mechanical—thermal treatments, 23:12374 (GA-8629)
effects on mechanical properties of Type-347 stainless steel, 21:28798(R) (HW-78760)
effects on mechanical properties of type-347 stainless steel, 21:28795(R) (BNWL-CC-510)
effects on mechanical properties of Type-347 stainless steel, 21:26869(R) (HW-83398)
effects on mechanical properties of Types 304 nd 316 stainless steel, relations with titanium additions, 25: 49487 (ORNL-TM-3300, pp 97-133)
effects on mechanical properties of Types 304L and 316L stainless steel for cladding of reactor fuel elements, 23:22620(R) (WARD-3791-28).
effects on mechanical properties of Types 316 and 410 stainless steel, 24:14866(R) (BNWL-658)
effects on mechanical properties of Types 347 and 348 stainless steel, 24:34921 (BMI-1882, Sect.B)
effects on mechanical properties of Types 347 and 348 stainless steel at 25 to 750°C, 25:2755 (BMI-1889, Sect.B)
effects on mechanical properties of Types A212B and A533B steel, 25:42905
effects on mechanical properties of TZM, 21:28795(R) (BNWL-CC-510)
effects on mechanical properties of uranium oxide (UO_2), 25:53898 (A/CONF.49/P-460)
effects on mechanical properties of Vanstar-8 and Vanstar-9, 24:29924(R) (WARD-3791-46)
effects on mechanical properties of Waukesha 88 at 355°K, 25:42903 (N-71-14040)
effects on mechanical properties of Zircaloy tubes, 25: 3921 (DUN-SA-144)
effects on mechanical properties of Zircaloy-2, 24:34893
effects on mechanical properties of Zircaloy-2 fuel rod cladding, relations of temperature with, 24:1049(R) (GEAP-10079)
effects on mechanical properties of Zircaloy-2 pressure tubes, in-reactor and test specimen data on, 23:16498 (BNWL-746, pp 6.1-10)
effects on mechanical properties of Zircaloy-2 pressure tubes, relations with hydrogen content, 24:34928
effects on mechanical properties of Zircaloy-4, (E), 25: 39166(R) (WCAP-3017-6094)
effects on mechanical, physical, and thermal properties of shielding concretes, at 150 to 200°C, 25:52486 (A/CONF.49/P-613)
effects on metabolism and seedling growth in barley, studies of nucleic acid and protein synthesis for determining, 24:17164
effects on metal-clad aluminum oxide electric insulators, 24:44819 (ORNL-4560, pp 198-9)
effects on metallurgical properties of cold-worked niobium—zirconium alloy pressure tubes, 25:4825
effects on metals at 77°K, low-temperature microscopic observations of annealing of defects induced in, 25: 9542 (CEA-CONF-1681)
effects on metals at high fluence, heavy-ion accelerators for simulating, 25:43758
effects on mice and rats, effects of treatment with borane compounds on sensitivity to, 21:34785
effects on mice and rats, RBE for, 23:48210
effects on mice in comparison to effects of γ and x rays, effects of dose and dose rate on latent whole-body neoplastic, 24:19360
effects on mice in comparison with radiations of different LET, low-dose tumorigenic, 24:51031 (CONF-691212-, pp 413-24)
effects on mice, carcinogenic, comparison of RBE of, with protons and x radiation, 25:6771 (CONF-691106-, pp 255-67)
effects on mice, combined effects of barenylacetic acid and methyl-o-barencarboxylic acid on, 25:4588
effects on mice, effects of age on pathological, 21:36701
effects on mice, effects of dose fractionation on RBE for lethal, whole-body, 23:41447
effects on mice, effects of dose on lethal, 23:35909
effects on mice, effects of dose on whole-body, 22:31237
effects on mice, effects of radioprotective compounds on, 25:55266
effects on mice, method for estimating RBE of, 22: 36375
effects on mice, methods for testing lethal mutagenic, 25:18956
effects on mice, pathological 14.2 MeV, 22:33940
effects on mice, protective effects of anticancer agents against, 22:31188
effects on mice, RBE compared with 300 kV x ray for, 24:44590 (EUR-4452, pp 761-78)
effects on mice, RBE for, 22:40891
effects on mice, RBE for, 21:36701
effects on mice, RBE for dominant lethal mutagenic, 23: 43731
effects on mice, RBE for dominant lethal mutagenic 14.1 MeV, 22:47501 (NP-17136)
effects on microcircuits, 21:30763 (NP-16719)
effects on Micrococcus glutamicus, review of mutagenic, 25:42349
effects on microcracking of beryllium oxide shapes, 23: 8351
effects on microcracks in beryllium oxide, relations of annealing at 1050 to 1500°C with, 24:4861
effects on microelectronic circuits, 21:9256(R) (AD-642301)
effects on microhardness of niobium and dilute niobium-base alloys, 23:6705 (GEMP-1004, pp 89-177)
effects on microhardness of polycrystalline beryllium oxide, 21:28865
effects on microorganisms, review of improvement in practical applications through mutagenic, 25:42349
effects on microstructurally modified Type 348 stainless steel, 25:22119(R) (WHAN-FR-40-1)
effects on microstructure and mechanical properties of tungsten, 23:3089 (GEMP-581)
effects on microstructure and properties of stainless steel, 23:51078(T) (JPRS-48331, pp 553-75)
effects on microstructure and properties of Type 304, 316, and 348 stainless steel, 25:11474(R) (BNWL-842)
effects on microstructure and tensile properties of Type 304 and Type 316 stainless steels, 25:1851(R) (EURFNR-822)
effects on microstructure and tensile properties of Type-304 stainless steel at 1300°F, 23:36151
effects on microstructure and tensile properties of Type 304 stainless steel, 23:39013
effects on microstructure and thermal properties of graphites, 22:52299
effects on microstructure and void structure in niobium and niobium alloys, 25:32751(R) (HEDL-TME-71-43)
effects on microstructure of aluminum, 24:2941 (ORNL-4470, pp 14-17)

effects on microstructure of annealed Types 304 and 316 stainless steels at 370 to 700°C, 25:19253 (WHAN-FR-16)
effects on microstructure of austenitic stainless steels, relations of boron with, 24:10126
effects on microstructure of carbon-doped molybdenum, 21:28800 (HW-84618)
effects on microstructure of deformed Hastelloy R 235, 22:43615(R) (BNWL-710)
effects on microstructure of fracture surface of A212-B pressure vessel steel, methods for determining, 23:27129 (ORNL-4369, pp 9-16)
effects on microstructure of graphite at high temperatures, 25:16559(R) (NYO-1710-100)
effects on microstructure of hafnium carbide, 25:47179 (GA-10648)
effects on microstructure of high pressure polymorphs of indium telluride, 23:24956 (BNWL-870, pp 12.1-55)
effects on microstructure of high-pressure polymorphs of zirconium, 23:24956 (BNWL-870, pp 12.1-55)
effects on microstructure of high-pressure polymorphs of silicon dioxide, 23:24956 (BNWL-870, pp 12.1-55)
effects on microstructure of high-pressure polymorphs of phosphorus, 23:24956 (BNWL-870, pp 12.1-55)
effects on microstructure of iron, relations with aluminum and nitrogen, 25:42908
effects on microstructure of martensite, 23:46097
effects on microstructure of metal fuel cladding, 25:49490 (RD/B/N-1812)
effects on microstructure of molded graphite bodies, relations of pitch binder content with, 24:10192(R) (GA-9828)
effects on microstructure of molybdenum and molybdenum-base alloys, 25:45101
effects on microstructure of molybdenum at 650°C, 25:58332
effects on microstructure of molybdenum, effects of irradiation temperature on, 24:42784
effects on microstructure of molybdenum, relations with pressure annealing, 24:14823
effects on microstructure of nickel, 25:4811 (BNWL-SA-3300)
effects on microstructure of nickel 270 at 370 to 524°C, 23:24961 (ORNL-4390, pp 121-47)
effects on microstructure of polycrystalline molybdenum at 700 to 1000°C, 23:51076 (GEMP-706)
effects on microstructure of refractory metal and alloys, 25:29904 (ORNL-4630, pp 73-95)
effects on microstructure of rhenium and titanium, 25:22119(R) (WHAN-FR-40-1)
effects on microstructure of single-crystal vanadium, 23:22617
effects on microstructure of sodium environment-irradiated Type 316 stainless steel, test temperature dependence of, 23:24956 (BNWL-870, pp 12.1-55)
effects on microstructure of stainless steel, 25:18136(R) (GA-9838)
effects on microstructure of tantalum and molybdenum foils at 450°C, 24:51186
effects on microstructure of titanium—vanadium-base alloy, electron microscopy of, 23:24944 (BNWL-870, pp 3.4-10)
effects on microstructure of tungsten, 22:31433
effects on microstructure of tungsten and tungsten alloys, 25:32751(R) (HEDL-TME-71-43)
effects on microstructure of tungsten wire, relations with annealing, 23:51086
effects on microstructure of tungsten, effects of annealing on, 21:34865(R) (GEMP-67)
effects on microstructure of Type 304 and 316 stainless steels at 370 to 700°C, relations with fluence, 25:45092
effects on microstructure of Type 304 stainless steel, electron microscopy of, 23:24944 (BNWL-870, pp 3.4-10)
effects on microstructure of Type 304 stainless steel, 22:43615(R) (BNWL-710)
effects on microstructure of Type 304 stainless steel irradiation temperature dependence of, 23:24956 (BNWL-870, pp 12.1-55)
effects on microstructure of Type 304 stainless steel at 370 to 800°C, 24:42164 (ORNL-4580)
effects on microstructure of Type 304 stainless steel at 370 to 800°C, 25:22121
effects on microstructure of Type 304L stainless steel fuel cladding, 24:4822
effects on microstructure of Type 347 stainless steel fuel cladding, 21:32951(R) (BMI-1798)
effects on microstructure of Type 347 stainless steel at 500 to 600°C, relations with embrittlement, 25:22132
effects on microstructure of Type-316 stainless steel at 900°F, 23:36160
effects on microstructure of Types 304 and 316 stainless steel, relations with titanium additions, 25:49487 (ORNL-TM-3300, pp 97-133)
effects on microstructure of Types 304 and 316 stainless steel, 25:32751(R) (HEDL-TME-71-43)
effects on microstructure of vanadium at 600°C, 23:36161
effects on microstructure of vanadium foils, annealing of, 22:43621 (RCN-96)
effects on microstructure of vanadium, relations with annealing, 25:4828
effects on microstructure of vanadium, transmission electron microscopy measurements of, 23:24954 (BNWL-870, pp 10.1-12)
effects on microstructure of Vanstar-7, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on microstructures of metals, 23:50977(R) (BNWL-932)
effects on microstructures of molybdenum and vanadium alloys, 24:34839(R) (BNWL-1091)
effects on miniature avalanche diodes, damage, 25:4408
effects on mitosis in liver of mice, effects of hepatectomy on, 22:28621 (ANL-7278, pp 1-94)
effects on mitosis of corneal epithelium, RBE for, 22:17044
effects on modulation of light reflected by silicon junctions, (E), 21:27243
effects on modulus of rupture of polycrystalline beryllium oxide, relations with heat treatment, 25:8959
effects on molded graphite, 23:24989(R) (GA-9239)
effects on molecular weight distribution of poly(ethylene terephthalate), 21:24028
effects on molecules, theoretical studies on activating, 22:25400
effects on molybdenum and tungsten, annealing recovery of fast-neutron, (E), 23:44517
effects on molybdenum at 14.1 MeV, 21:6846
effects on molybdenum at 40°C, pressure annealing of defect clusters and hardness increase in, 24:15396
effects on molybdenum at 450°C, temperature threshold for void formation from vacancies induced in, (E), 24:47317
effects on molybdenum at 600°C, annealing of defects produced in, (E), 22:28847
effects on molybdenum at high flux, annealing of defects produced in, 24:30389
effects on molybdenum carbonyls, reactions of recoils from, 24:13873 (KFK-1067)
effects on molybdenum single crystals, 21:26862 (BNWL-SA-777)
effects on molybdenum single-crystal lattices, 22:43615(R) (BNWL-710)
effects on molybdenum, annealing of, 21:28795(R) (BNWL-CC-510)
effects on molybdenum, annealing of defects in, 23:27694 (NP-17819, Chap.3.1)
effects on molybdenum, effects of high pressure on annealing recovery of, 23:25460
effects on molybdenum, relations of pressure with annealing of, 24:34839(R) (BNWL-1091)
effects on molybdenum, stage III annealing of, 24:42787
effects on molybdenum, vacancy dislocation loops produced by 1100°C annealing of defects from, (E), 22:26452 (GEMP-594)
effects on monkeys, effects of chronic exposure on pathological, 21:34737(R) (AD-637688)
effects on monocrystalline and polycrystalline beryllium oxide, NMR study of, 24:44826
effects on monocrystals of annealed vanadium, 23:24958 (GEMP-1008, pp 51-113)
effects on monocrystals of iron, review on, 24:17333
effects on morphology and physiology of maple and poplar trees, combined effects of reduced light with, 25:6636 (ORNL-4610)
effects on morphology and physiology of pituitary and thyroid glands in rats, 23:33869
effects on morphology and survival of cells in normal tissues and sarcomas in rats, effects of dose fractionation on RBE for, 22:49419
effects on MOS transistors, mathematical model of, 24:50654 (NP-18443)
effects on MOSFET devices, theoretical and experimental, 23:17867
effects on mouse spermatogonia, estimation of genetic risks from dose required for mutagenic, 25:49194
effects on mutagenesis in mouse spermatogonia, effects of dose rate on yield of, 21:20128
effects on mutation induction in wheat, 21:20142
effects on mutations and translocations in mouse spermatogonia, 25:29487
effects on n- and p-type germanium, annealing of, (E/T), 24:21881
effects on n-type germanium, impurity photoconductivity in, (E), 23:14905
effects on n-type silicon single crystals, annealing of, 21:36949
effects on n-type silicon, structure of defects induced in, 25:27848
effects on narrow-base p—n—p—n devices, 22:2478
effects on neoplasms, effects of oxygen abundance on therapeutic, 22:8485
effects on nichrome and tantalum thin film resistors, 22:33704
effects on nickel alloys, 24:14808(R) (BNWL-1020)
effects on nickel at low temperature, x-ray small-angle scattering study of defects produced in, 24:18020
effects on Nigella damascena, effects of ploidy and seed exposure on mutagenic, 22:21489
effects on niobium, 22:31428 (ORNL-4246, pp 55-66)
effects on niobium carbides, tantalum carbides, titanium carbides, tungsten carbides, and zirconium carbides at 300 to 700°C, 22:21779
effects on niobium nitrides, increase in current-carrying capacity from, (E), 24:51577
effects on niobium nitrides, superconducting property changes from, (E), 23:39440
effects on niobium tensile properties, annealing of, 22:43615(R) (BNWL-710)
effects on niobium, oxygen reactions at point defects induced by, 22:43615(R) (BNWL-710)
effects on niobium, Stage III recovery from, 23:50977(R) (BNWL-932)
effects on niobium, tantalum, titanium, tungsten, and zirconium carbides at 300 to 700°C, 23:12260(R) (ORNL-4330)
effects on nitrogen and oxygen trapping in vanadium, 22:43615(R) (BNWL-710)
effects on normal and tumorous tissues in mice, comparison of fast electrons and, 25:24399
effects on normal tissue and transplanted tumors in relation to x ray effects, 23:26852 (CONF-661131-)
effects on notch ductility and tensile properties of aluminum—chromium—iron—yttrium alloys, 21:28793(R) (BNWL-94)
effects on notch ductility of A350-LF3 steel, annealing of cyclic, 21:32931(R) (BNWL-CC-883)
effects on notch ductility of ASTM A302B and higher strength steels at 200 and 550°F, 21:32931(R) (BNWL-CC-883)
effects on notch ductility of ASTM A533 pressure vessel steel plates and weldments, relations with composition, 24:29988
effects on notch ductility of chromium—molybdenum—nickel steel weldments at 200 and 500°F, 21:32931(R) (BNWL-CC-883)
effects on notch ductility of Types 304L and 347 stainless steel at 250°F, 21:32931(R) (BNWL-CC-883)
effects on notch ductility of Types A350LF2 and A537B steel plates and welds, 24:34839(R) (BNWL-1091)
effects on notch ductility of Types A533-B and A533-C pressure vessel steels, 23:20517 (NRL-6772)
effects on nuclear structural materials, review on, 24:17333
effects on nucleation in acetone, benzene, and water, 23:50030
effects on o- and m-terphenyl at 100 to 450°C, 22:51025
effects on oocytes and oogonia of Drosophila melanogaster, RBE of, 23:2919(R) (ANL-7409)
effects on oocytes and spermatogonia of mice, mutagenic, 25:18949
effects on oocytes in mice, dose rate effects on mutagenic, 24:34259
effects on oocytes of mice, mutagenic, 24:21116
effects on optical absorption in transparent aluminum oxides, beryllium oxides, and silicon oxides, (E), 22:48153 (N-68-23481)
effects on optical absorption in zinc sulfide single crystals, 23:36792
effects on optical attenuation of compound semiconductors, (T), 22:13570
effects on optical rotation of alpha-quartz, 24:23544
effects on optically active sugars, 24:25070
effects on ordering in intermetallic compounds of nickel, iron, and manganese, 21:24815
effects on ordering in Ni_3Mn alloy, 25:52902(T) (JPRS-53800, pp 72-8)
effects on organs of rats, pathological, 22:43468
effects on ornamental plants, effects of dose on, 21:36759
effects on ORR beryllium reflector pieces, damage from, 21:5694(R) (ORNL-TM-1678)
effects on Otto Hahn reactor pressure vessel steel, 22:37508
effects on Ovonic threshold switches, 23:17872
effects on oxidation of Zircaloy-2, 21:39656 (BNWL-463)
effects on oxidation of Zircaloy-2 in lithium hydroxide, 21:26861(R) (BNWL-CC-658)
effects on oxidation of Zircaloy-2, Zircaloy-4, and niobium—zirconium alloys by boiling water or fog, relations of ammonia with, 24:1053
effects on oxidation of zirconium alloys in water, 22:17072 (AECL-2797)
effects on oxidative phosphorylation in mitochondria from brain of mice, effects of substrate on, 22:16994
effects on oxygen content and distribution in hematopoietic tissues of rats, 23:33648
effects on oxygen internal friction peak of niobium, annealing of, 22:31426 (ORNL-4246, pp 42-51)
effects on oxygen—trichloroethylene—water system, mechanism and yields for, 21:38987
effects on p-type germanium at 14 MeV and 77°K, annealing of, 25:56305
effects on paramagnetic point defect (N center) production in calcium oxide, (E), 23:39548
effects on pathomorphology of mouse, rabbit, and rat brain in mixed γ and proton fields, whole-body, 25:29644
effects on pea plants, aberrant and mutagenic, 23:6428
effects on pea plants, effects of seed exposure on, 22:51523
effects on pea plants, effects of seed exposure on mutagenic, 22:51518
effects on pea plants, mutagenic, 22:51523
effects on pea seeds, effects of recessive genes on mutagenic, 22:51513
effects on Peach Bottom Power Reactor Unit 1 failed graphite matrix thorium carbide (ThC_2)—uranium carbide (UC_2) fuel elements, postirradiation examination of, 23:23825 (GAMD-8743)
effects on peas, RBE for, 22:21628
effects on pellet shaped uranium oxide (UO_2) fuels, 24:13525 (RCN-111)
effects on performance of Alumel/Chromel thermocouples, 24:39410 (BNWL-1365)
effects on performance of carbide and oxide fuel elements, 25:49583
effects on performance of clad thorium dioxide—uranium dioxide fuel pins, 23:41759
effects on performance of nickel-free Zircaloy-4 and regular and nickel-free Zircaloy-2 tubes, 23:13506(R) (WCAP-3269-23)
effects on performance of plutonium dioxide—uranium dioxide fuel pins clad with Incoloy 800 or Type 316 or 347 stainless steel, 24:30053 (GEAP-13549)
effects on performance of sodium coolant thermocouples for Fast Test Reactor, 22:40508 (BNWL-SA-1857)
effects on performance of superconducting niobium—zirconium magnet coils, 21:38042
effects on phase stability of high-pressure polymorphs, 23:25443
effects on phase transformation in barium and lead titanates, 23:18284
effects on phase transformations in barium titanate and lead titanate, 24:30056
effects on phosphine mixtures with butadiene, ethylene, and silane, yields of silicon-31-labeled products in, 22:48874(R) (COO-1713-5)
effects on phosphine mixtures with disilane and/or silane, distribution of silicon-31 recoil atoms in products from, 25:188 (COO-1713-16)
effects on phosphine, production of recoil silicon-31 in, 23:24244
effects on phosphorus-32 retention in DNA, effects of exposure time on, 24:2581
effects on photoconductivity of germanium, current oscillations induced in, 25:7452
effects on photocurrent of n-type germanium, 25:56316

effects on physical properties of ATJ graphite, 24: 49973(T) (AVR-34)
effects on physical properties of BISO HTI and BISO LTI coated particle type uranium carbide (UC_2), 23: 45052(R) (GA-9090)
effects on physical properties of bonded bed pyrolytic carbon coated sphere shaped zirconium oxide (ZrO_2), 23:28487 (ORNL-4353, pp 1-109)
effects on physical properties of bonded bed pyrolytic carbon coated uranium oxide (UO_2) and uranium carbide (UC_2) particle type fuel elements, 23:28487 (ORNL-4353, pp 1-109)
effects on physical properties of boronated and hafnated graphite, 24:4026(R) (GA-9660)
effects on physical properties of graphite, 25:4884 (DP-Report-556(Pt.1))
effects on physical properties of hafnium, 24:17330 (IN-1335, pp 1-24)
effects on physical properties of metal-clad helium-bonded plutonium carbide (PuC)—uranium carbide (UC) pellet-type fuel elements, analysis of, 22:39789 (UNC-5198)
effects on physical properties of metal-clad plutonium carbide (PuC)—uranium carbide (UC) pellet-type fuel elements, analysis of, 22:39790(R) (UNC-5201)
effects on physical properties of molybdenum, 24:12449
effects on physical properties of plutonium oxide (PuO_2)—uranium oxide (UO_2) and uranium oxide (UO_2) pellet type fuel elements, 23:28488 (ORNL-4353, pp 111-39)
effects on physical properties of plutonium oxide (PuO_2)—uranium oxide (UO_2) and uranium oxide (UO_2) pellet type fuel elements, 24:24836 (ORNL-4508, pp 71-112)
effects on physical properties of Santowax OM and WR at 300 to 427°C, (E/T), 22:42388 (MIT-334-94)
effects on physical properties of steels, 24:50083
effects on physical properties of TRISO coated thorium carbide (ThC_2)—uranium carbide (UC_2) particle type fuel, 23:47169(R) (GA-9440)
effects on physical properties of Type 304 and Type 316 stainless steels, 23:26069(R) (BNWL-660)
effects on pig skin, effects of dose fractionation on, 23: 26852 (CONF-661131-)
effects on plant chromosomes, effects of physical quality of radiation on, 24:14465
effects on plant seed, 21:32612
effects on plants of Arabidopsis and Nicotiana, effects of seed exposure on, 23:43906 (BNL-13763)
effects on plants, protective effects of catalase, cysteine, kinetin, and hydroxylamine against, 24:6140
effects on plastic deformation and yield strength of polycrystalline and single-crystal niobium, 23:18250 (ORNL-TM-2480)
effects on plastic deformation characteristics of metals, 21:28800 (HW-84618)
effects on plastic deformation of carbon steel, 22:7025
effects on plastic fatigue of Type 316 stainless steel at 650°C, 23:22593 (BNWL-790, pp 10.1-10)
effects on plastic flow at constant stress in sodium chloride single crystals, (E), 21:9664
effects on plastic flow in tungsten, 24:8153 (AERE-R-5944(Vol.3), pp 762-77)
effects on plastic flow of zinc single crystals, 21:41630
effects on plastic properties of iron, 23:32044
effects on plasticity of graphite under stress, 21:22941
effects on platinum, annealing of defects from, (E), 21: 40073
effects on platinum, study of point-defect clusters produced in, (E), 24:35530
effects on plutonium carbide (PuC)—uranium carbide (UC) rod type fuel elements, 24:18726(R) (UNC-5248)
effects on plutonium carbide (PuC)—uranium carbide (UC) rod type fuel elements, 24:18725(R) (UNC-5238)
effects on plutonium carbide (PuC)—uranium carbide (UC) rod type fuel elements, in EBR-2, 24:18724(R) (UNC-5233)
effects on plutonium carbide—uranium carbide fuels, relations with burnup, 22:36509 (CONF-671005-7)
effects on plutonium oxide (PuO_2)—uranium oxide (UO_2) pin type fuel elements, 23:47341 (GEAP-5748)
effects on plutonium oxide (PuO_2)—uranium oxide (UO_2) and stainless steel, 24:46043(R) (GEAP-10028-34)
effects on polycrystalline alumina, 21:20604
effects on polycrystalline aluminum oxide at low temperatures, 22:19681
effects on polycrystalline beryllium oxide at low temperatures, 22:19681
effects on polycrystalline magnesium oxide at low temperatures, 22:19681
effects on polycrystalline rhenium—tungsten alloy, high-temperature recovery from, 24:12443
effects on pool boiling heat transfer to liquid helium, 23: 33327
effects on populations of tomatoes, 25:16089(R) (EUR-4545)
effects on pore growth and swelling of uranium, relations with chemical and mechanical stresses, 23:36168
effects on porosity and swelling of aluminum, 25:2759 (ORNL-4570, pp 152-6)
effects on porosity of beryllium oxides, 24:42290
effects on porosity of beryllium oxides during annealing, 25:52475(T) (JPRS-53800, pp 280-91)
effects on positron annihilation in crystalline and fused quartz, (E/T), 24:39842
effects on potassium bromides, low-temperature annealing of defects from, (E), 23:14873
effects on potassium chromate and tris(ethylenediamine) cobalt nitrate, effects of thermal annealing on, 22: 12362
effects on potassium chromate, annealing of reoils from, 25:21072
effects on potassium niobate crystal, 24:6621
effects on precipitation in aluminum—copper alloys, 22: 36518
effects on precipitation in aluminum—zinc alloys, 22: 43614 (ANL-7299, pp 290-308)
effects on pressure of blood and cerebrospinal fluid in burros, acute, 23:16404
effects on pressure vessel steel, 23:46101
effects on pressure vessel steel, relations with carbon, chromium, manganese, and oxygen contents, 24:32471 (UJV-2314-M)
effects on pressure vessel steels, nondestructive materials testing methods for measuring, 21:26869(R) (HW-83398)
effects on pressure vessel steels, review, 22:19598
effects on pressure-vessel A-212B steel, annealing of, 21: 28795(R) (BNWL-CC-510)
effects on properties aluminum oxide, 23:12260(R) (ORNL-4330)
effects on properties and structure of aluminum, 25: 22119(R) (WHAN-FR-40-1)
effects on properties and structure of molybdenum, 25: 22119(R) (WHAN-FR-40-1)
effects on properties and structure of Types 8000 and 1100 aluminum alloys, 25:22119(R) (WHAN-FR-40-1)
effects on properties of aluminum oxide electric insulators, 24:36998 (ORNL-4520, pp 245-53)
effects on properties of beryllium, 25:32704
effects on properties of beryllium, surveillance program for determination of, 24:10115(R) (IN-1343)
effects on properties of electric insulators, 24:44819 (ORNL-4560, pp 198-9)
effects on properties of electric insulators, 25:30011 (ORNL-4630, pp 226-9)
effects on properties of Ferrovac-E iron, relations with interstitial solutes, 23:20526 (ORNL-4350, pp 174-225)
effects on properties of germanium silicide, 24:35545
effects on properties of graphite, 25:25958(R) (GA-10444)
effects on properties of graphite, 25:36978(R) (GA-10560)
effects on properties of graphite at high temperatures, 21:531 (BNWL-237)
effects on properties of graphite, (E), 24:33229(R) (GA-8725)
effects on properties of graphite, (E), 24:38481(R) (GA-8600)
effects on properties of graphite, (E), 24:45997(R) (GA-10202)
effects on properties of graphite, (E), 25:18099(R) (GA-10313)
effects on properties of highly oriented carbon and graphite, 24:1086(R) (GA-9433)
effects on properties of niobium, relation with annealing and impurity levels, 23:20519 (ORNL-4334, pp 9-20)
effects on properties of pyrolytic carbon fuel particle coating, 24:46814 (DP-Report-422)
effects on properties of pyrolytic silicon carbide, 24: 8210 (GA-9042)
effects on properties of reactor materials, review on, 25: 45102
effects on properties of samarium hexaboride, 25: 52477(T) (JPRS-53800, pp 307-13)
effects on properties of titanium modified Incoloy 800, 25:35510
effects on properties of Type 6061 aluminum alloy, 25: 49488 (ORNL-TM-3300, pp 276-94)
effects on properties of Types 8001 and 1100 aluminum alloys, 25:29905 (ORNL-4630, pp 239-60)
effects on property changes in post-irradiation annealed zone-refined niobium containing impurities, 23:24955 (BNWL-870, pp 11.1-90)
effects on protein synthesis in blood plasma of rats, whole-body, 22:6752
effects on pure aluminum at 78°K, recovery of defects produced in, (E), 22:28869
effects on pyrolytic carbon, 23:18256 (GA-6233)
effects on pyrolytic carbon, 22:8822 (ORNL-4170, pp 163-72)
effects on pyrolytic carbon, 23:6715 (ORNL-4324)
effects on pyrolytic carbon coating on fuel particles, 25: 24621 (JUL-687-RW)
effects on pyrolytic carbon coatings, 24:24835 (ORNL-4508, pp 3-70)
effects on pyrolytic carbon coatings, 24:4060 (ORNL-4424, pp 3-72)
effects on pyrolytic carbon fuel particle coating, 23: 36275
effects on pyrolytic silicon carbide, 23:22640
effects on pyrolytic-carbon-coating of thorium dioxide microspheres, 23:18283 (ORNL-TM-2475)
effects on rabbit lenses, cytological, 24:32219
effects on Raman spectrum of alpha-quartz, 24:47312
effects on rare-gas diffusion characteristics of potassium halide single crystals, 21:44184
effects on rat tissue metabolic processes, 21:4766
effects on rate of Guinier—Preston zone formation in aluminum-zinc alloys at 78°K, 22:23850
effects on rats, carcinogenic, 22:28661
effects on rats, carcinogenic, 23:50861
effects on rats, effects of age at exposure on, 22:40890
effects on rats, effects of age on latent, 22:33896 (AD-662222)
effects on rats, latent neoplastic, 23:43862
effects on reactor alloys, 21:9198 (GEMP-61, pp 33-54)
effects on reactor materials, 22:21734
effects on reactor materials, 23:8104(R) (GEMP-1006)
effects on reactor materials, cyclotron simulation of, 25: 16557
effects on reactor structural materials, review of, 23: 9264
effects on reactor structural materials, review on, 24: 6222
effects on reactor vessel steels, 22:19599
effects on reactor-grade polycrystalline graphite, ESR studies of annealing of, 23:10320
effects on recoil atom behavior in niobium, relations with energy spectra, 25:52414
effects on recovery of point defects in, 23:34054
effects on recovery of preirradiated iron by radiation hardening, 24:34839(R) (BNWL-1091)
effects on reflection spectrum of gallium arsenide, 25: 1276
effects on reflection spectrum of gallium arsenide, 25: 22628
effects on refractory carbide dimensions, 23:20558 (ORNL-4350, pp 139-45)
effects on refractory metal carbides, 22:26094 (ORNL-4229, pp 142-5)
effects on refractory metal carbides, 25:8957 (ORNL-4600, pp 250-1)
effects on refractory metal carbides, 21:21919 (ORNL-4076, pp 81-115)
effects on refractory metal nitrides at 150°C, 22:26094 (ORNL-4229, pp 142-5)
effects on refractory metal silicides at 150°C, 22:26094 (ORNL-4229, pp 142-5)
effects on reinforced glass—polymer bearing retainers, 24:19523 (RN-S-534)
effects on reinforced graphite—polymer bearing materials, 24:19523 (RN-S-534)
effects on reproduction of cells in intestine of rats, effects of dose on, 22:40918
effects on reproduction of cultured mammalian cells, comparison of RBE for, with x radiation, 25:6761 (CONF-691106-, pp 230-43)
effects on reproduction of HeLa cells, RBE for, 25: 26906
effects on reproduction of mammalian cells in cultures, effects of dose, cell type, and oxygen on, 25:6763 (CONF-691106-, pp 483-97)
effects on reproductive capacity of boll weevils, combined effects of apholate on, 24:4707
effects on reproductive capacity of cultured cells from mammals, effects of oxygen on, 22:19370
effects on reproductive capacity of L cells, single or combined x and 14-MeV, 25:32568
effects on reproductive capacity of male Rhodnius, RBE for, 25:49319 (AECL-3961)
effects on reproductive integrity of bone marrow CF cells, RBE for, 22:49583
effects on restrained isotropic graphite, 21:3557 (TRG-Report-1279)
effects on reverse relaxation time of Ferrovac E iron, 21:28793(R) (BNWL-94)
effects on reverse-recovery lifetime of silicon diodes at 58 to 200°C, 21:6368 (AD-642582)
effects on ribosomes in rat liver, repair mechanisms for, 23:9895
effects on rice in India, mutagenic, 24:39487
effects on rice plants, additive effects of gamma radiation on latent mutagenic, 25:24465
effects on rice, mutagenic for chlorophyll, disease resistance, and seed quality, effects of seed exposure on, 24:39490
effects on RNA synthesis in liver in mice following partial hepatectomy, comparison with x radiation, 25: 6635 (CONF-691106-, pp 462-79)
effects on root and seedling growth in Hordeum sp, 24: 17166
effects on root growth of Vicia, oxygen enhancement ratio and RBE in comparison to x radiation for, 24: 6144
effects on sarcoma cells in rats in vitro, effects of dose fractionation on, 25:11240 (BNL-50203, pp 339-52)
effects on seed of wheat, mutagenic, 21:30803
effects on seed, studies of, using TRIGA reactors, 24: 17047
effects on seedling height of wheat following seed exposure, RBE for, 24:51097
effects on seeds of barley and rice, effects of oxygen and water on, 25:16376 (ORO-678, pp 135-51)
effects on seeds of barley, cress, peas, and wheat, genetic, 22:17050(R) (EUR-3606)
effects on seeds of Hordeum vulgare and of Vicia faba and spores of Aspergillus niger and Funaria hygrometrica, effects of dose on, 24:17168
effects on seeds of Oryza sp., combined effects of EMS and MMS on mutagenic, 24:17025
effects on self-bonded porous β-silicon carbide, 21: 20605
effects on semiconductor devices, transient annealing of defects from, 24:48355
effects on semiconductor devices, transient annealing of, 24:36674 (SC-RR-70-397)
effects on semiconductors, annealing of, 23:16219 (SC-DC-69-1615-A)
effects on serrated yielding in copper—nickel alloys, 23: 12382
effects on sheep blood, cerebrospinal fluid, and survival time in comparison with effects of cobalt-60 γ rays, 23:35874
effects on shielding of SNAP-10 test facility, 22:3880 (NAA-SR-12504)
effects on Shigella flexneri, effects of dose rate in relation to oxygen-enhancement ratio on, 22:28712
effects on shoot growth and survival in forest trees, 22: 6772 (ORNL-4168, pp 61-118)
effects on short-term tensile behavior of Types 304 and 316 stainless steel, 24:44745
effects on shrimp, lethal, 25:26917
effects on silica glass, x-ray diffraction study of, 24: 10607
effects on silicon at 78°K, infrared absorption bands induced in, 25:56296
effects on silicon avalanche diodes, 23:17866
effects on silicon carbide (SiC)-coated particle-type thorium carbide (ThC_2)—uranium carbide (UC_2), analysis of, 23:4166(R) (GA-7801)
effects on silicon diodes, 24:19281
effects on silicon dioxide reinforced aluminum composites, 23:16551

effects on silicon doped with cobalt, ^{57}Fe Moessbauer-effect study of, 25:56326
effects on silicon micro-Hall devices, 25:37704
effects on silicon single crystals and surface-barrier junctions, 22:6707 (LYCEN-6756)
effects on silicon single crystals, annealing in, 22:15637
effects on silicon single crystals, recombination emission spectra from, 22:15636
effects on silicon single crystals, x-ray diffuse and small-angle scattering study of, 25:19853
effects on silicon solar cells, annealing of, 25:1287
effects on silicon voltage regulator Zener diodes, 23:26630 (N-69-10250)
effects on silicon, activation energy of defects from, 22:44264
effects on silicon, anisotropy in conductivity changes produced in, 24:21859
effects on silicon, annealing behavior and stress response of defects induced in, (E), 21:9671
effects on silicon, defect correlation with divacancy, 21:7359
effects on silicon, defects induced in, 25:9572
effects on silicon, design curves for predicting fast-neutron-induced resistivity changes from, 23:1535
effects on silicon, divacancy identification in, 25:22613
effects on silicon, effects of A and E centers on electric properties from, 23:1549
effects on silicon, electron-microscope study of defects from, (E), 23:14874
effects on silicon, energy dependence of, (E), 21:11703
effects on silicon, EPR spectra of defects induced in, 25:17285
effects on silicon, EPR study of defects induced in, 25:56324
effects on silicon, luminescence from, 22:39158(R) (N-68-17349)
effects on silicon, luminescence spectra from recombination of defects from, (E), 22:46279
effects on silicon, photomechanical, 22:44224
effects on silicon, properties of defect clusters induced in, 25:14428
effects on silicon, relation of Fermi level to, 22:39186
effects on silicon, use of space-charge limited carrier injection to characterize traps from, 23:42433
effects on silicon, vibration spectra of lattice defect—oxygen complexes formed in, 25:7456
effects on silkworm germ cells, effects of BUDR on mutagenic, 23:43732
effects on silkworm gonial cells, effects of BUDR on mutagenic 14 MeV, 22:47501 (NP-17136)
effects on silkworms in comparison to x radiation, mutagenic 14-MeV, 24:44461
effects on silver, dislocation damping of 2-MeV, 21:35226
effects on single crystals of aluminum, (E), 21:12013(R) (EANDC(OR)-44(L))
effects on single-crystal and polycrystalline molybdenum rods, 22:49770 (BNWL-SA-1812)
effects on single-phase carbons and graphites, 23:18269(R) (GA-7519)
effects on sintered alumina and magnesia, 21:20603
effects on sintered beryllium oxide at 110, 650, and 1100°C, 21:11327
effects on sintering of powders, 23:48578
effects on sintering of silica sand, 22:26090 (BNL-10279)
effects on skin of man, mice, and swine, 23:48169
effects on skin of mice, pigs, and rats, RBE of, 22:8596 (CONF-670305-, pp 128-42)
effects on skin of mice, repair of, 22:12931
effects on skin of rats, combined effects of dose and dose fractionation on pathological, 23:35903
effects on skin of rats, tumorigenic, 22:21576
effects on skin of swine, effects of dose fractionation on, 22:572
effects on skin transplants of rats, 15 MeV, 24:34642
effects on slip activation energy in Ferrovac E iron, 23:30101
effects on slip in deformed foils of iron, 22:43615(R) (BNWL-710)
effects on slip in iron and iron alloys, 22:38595
effects on slip in monocrystalline copper, 23:34049
effects on slip-line structure in single-crystal molybdenum, 21:28800 (HW-84618)
effects on sodium cooled fast reactor core materials, review of data on, (E/T), 24:47830
effects on softening of age-hardened austenitic steel, 23:51083
effects on solid semi-infinite and short cylinders of graphite from, dimensional, 21:41683
effects on somatic changes in sheep fetus, 21:20321(R) (ORO-653)
effects on somatic mutations and loss of reproductive integrity in Tradescantia stamen hairs, RBE for, 25:11313
effects on sorptive properties of synthetic mordenite for krypton, 23:15892
effects on sound velocity in steel, 25:11474(R) (BNWL-842)
effects on sound velocity in Type A533B steel at 503 to 550°F, 25:27268 (WHAN-FR-38)
effects on space-charge-limited currents in silicon at 14 MeV, 25:14426
effects on sperm cells of Drosophila, effect of oxygen on RBE of, 22:40615(R) (EUR-3889)
effects on spermatogenesis in mice, mutagenic, 24:48513
effects on spermatogonia of mice, effects of dose rate and quality factors on RBE for, 22:40912
effects on spermatogonia of mice, effects of dose fractionation on mutagenic, 24:50842
effects on spermatogonia of mice, effects of dose rate on RBE for mutagenic, 23:26725
effects on spermatogonia of, RBE for mutagenic, 22:12839
effects on Sphere-Pac sol-gel derived plutonium oxide (PuO_2)—uranium oxide (UO_2) rod type fuel elements, 24:7373
effects on springs of Rene-41 and Stauffer 880, 21:34934 (NAA-SR-11519)
effects on stability of beryllium oxide, relations with temperature, 25:30016
effects on stability of coated-particle reactor fuels, 22:4915
effects on stability of high-density aluminum oxide at 300 to 600°C, 21:36948
effects on stability of refractory metal carbides at 1000 to 1100°C, 23:36282
effects on stability on bonded bed coated fuel particles, 24:24835 (ORNL-4508, pp 3-70)
effects on Stage I dislocation arrangement of deformed copper monocrystals in stress-applied state, electron microscope study of, 25:35520
effects on Stage II dislocation arrangement of deformed copper monocrystals in stress-applied state, electron microscope study of, 25:35519
effects on stage V recovery in annealing of molybdenum, 25:717
effects on stainless steel fuel element cladding, 25:8896(T) (BNWL-tr-57)
effects on stainless steels in EBR-II, 23:50978(R) (BNWL-971)
effects on stainless steels in EBR-II, 23:50977(R) (BNWL-932)
effects on stainless steels, nickel-base alloys, and zirconium alloys, 21:14788
effects on stamen hairs of Tradescantia, RBE for mutagenic, 24:50822
effects on starch formation in tomato microspores following exposure of buds or seeds, 23:50931
effects on steam corrosion of Zircaloy-2, 21:28800 (HW-84618)
effects on steel in BR-2 in-pile loop at 300°C, 22:1856 (EUR-3626)
effects on steels, spectral effects in, 22:26066 (UJV-1931)
effects on stored energy in graphite, 21:9254
effects on stored energy in metals, 23:1014
effects on strain aging of A-212-B steel, 22:31424 (ORNL-4246, pp 30-5)
effects on strain aging of Zircaloy-2, 22:41078
effects on strain aging of Zircaloy-2, 24:34929
effects on strain gage pressure transducers, 22:4559 (TID-24144)
effects on strain in Zircaloy-2 pressure tubes, relations with annealing, 23:22576 (AECL-3226)
effects on strain relaxation in copper—niobium—zirconium-base alloys, 22:43622 (WAPD-TM-746)
effects on strain relaxation of Zircaloy-4, 22:43622 (WAPD-TM-746)
effects on strain-stress properties of A-212-B steel, annealing of, 22:31423 (ORNL-4246, pp 27-30)
effects on strength of cellulose triacetate polymers, polyethylene terephthalate, and polymethyl methacrylate, 22:33390
effects on Streptocarpus for use in breeding, mutagenic, 24:36739
effects on stress corrosion of Type 316 stainless steel in magnesium chloride, 21:39655 (AERE-M-1899)
effects on stress relaxation in alloys, model for, 25:55579 (WAPD-TM-943)
effects on stress rupture and tensile properties of Hastelloy X 280, effects of thermomechanical treatments on, 21:22893 (BNWL-SA-372)
effects on stress rupture of A-286 alloy, Hastelloy X, and Rene' 41, 21:26868(R) (HW-77281)
effects on stress rupture properties of hydrogenated steel, 24:34839(R) (BNWL-1091)
effects on stress—rupture of Type 316 stainless steel, 24:12434 (BNWL-1223, pp 4.1-107)
effects on stress-relaxation of niobium—zirconium alloys, 22:19597
effects on stress-rupture of boron-containing A-286, 21:32931(R) (BNWL-CC-883)
effects on stress-rupture of Hastelloy N at 650 and 760°C, 21:32931(R) (BNWL-CC-883)
effects on stress-rupture of Incoloy 800, Inconel 625, and stainless steel, 23:10236 (EURFNR-566)
effects on stress-rupture properties of A-286, INOR-8 and Hastelloy N at high temperatures, 21:28794(R) (BNWL-CC-355)
effects on stress-to-rupture in Types 304 and 316 stainless steel, 25:703 (BNWL-1349-2, pp 4.1-154)
effects on stresses in carbon- and silicon carbide-coated fuel microspheres, 25:52481
effects on stresses in EBR-2 drives fuel elements, model analysis for, 23:37530
effects on structural steels, 23:50977(R) (BNWL-932)
effects on structure changes in plutonium oxide (PuO_2)—uranium oxide (UO_2) fuels, (E), 25:18137(R) (GEAP-10028-36)
effects on structure of gallium arsenides, photoelectric studies of, 21:21977
effects on structure of graphite, 22:15265
effects on structure of graphite at 500 to 1060°C, 21:16662
effects on structure of molybdenum and rhenium, recovery processes for, 21:28793(R) (BNWL-94)
effects on structure of molybdenum, nickel, and rhenium crystals, 21:28794(R) (BNWL-CC-355)
effects on structure of platinum and tungsten, 21:31054(R) (BNWL-CC-1053)
effects on structure of precipitation-hardened stainless steels, 25:52395(T) (JPRS-53800, pp 87-97)
effects on structure of SAP, uranium, and uranium dioxide, 21:14885(R) (RISO-139)
effects on structure of tungsten single crystals, 21:28793(R) (BNWL-94)
effects on subspecies of bread wheats, effects of seed exposure on γ, 22:17012
effects on sunflowers, mutagenic and physiologic, 23:9922
effects on superconducting niobium, 24:32762 (ORNL-4526, pp 76-83)
effects on superconducting properties of niobium—titanium—vanadium alloys, 24:1057
effects on superplastic chromium—iron—nickel alloys, 23:50977(R) (BNWL-932)
effects on surface areas of graphite, 23:39064 (BNWL-1058, pp 4.1-6)
effects on surface centers and irreversible absorption of oxygen in calcium oxide, magnesium oxide, and strontium oxide, 21:32198
effects on surface structure of Ferrovac E type iron, (E), 22:19575 (BNWL-455, Paper 5.1-10)
effects on surfaces and swelling of beryllium, 25:11460 (IN-1437, pp 5-12)
effects on survival and weight of duckweed, 22:47636
effects on survival of brine shrimp larvae, 25:16279 (NIRS-9, pp 15-53)
effects on survival of cells in cultures and in neoplastic and normal tissues, comparison between x radiation effects and, 25:52201
effects on survival of cells in mouse bone marrow and intestine and rat skin, comparison between x radiation effects and, 25:52200
effects on survival of cells in neoplastic and normal tissues, effects of dose and dose fractionation on RBE for, 25:52199
effects on survival of cells, effects of oxygen on, 22:33939
effects on survival of cultured cells, effects of oxygen content on, 25:52109
effects on survival of cultured human kidney cells, effects of oxygen on, 22:49211
effects on survival of cultured mammalian cells, relation of LET to, 24:7988 (BNL-14116)
effects on survival of epidermal cells of mice, effects of dose fractionation on RBE for, 25:19092
effects on survival of erythrocytes in rabbits, chromium-51 tracer study of, 23:26903
effects on survival of hamster cells, oxygen enhancement ratio and RBE in comparison to x radiation for, 24:6144
effects on survival of HeLa cells, effects of oxygen content on, during protracted exposure using californium-252 source, 25:8704
effects on survival of human kidney cells, oxygen-enhancement ratio for in vitro, 25:44774
effects on survival of L cells, RBE for 14-MeV, 25:32568
effects on survival of mammalian cell cultures, 22:52013
effects on survival of mammalian cells, RBE for, 25:52174 (A/CONF.49/P-30)
effects on survival of man following accidental exposure, 23:9967
effects on survival of mice, 23:6592
effects on survival of mice and rats, RBE for monoenergetic 14 MeV, 24:51068
effects on survival of mice, additive effects of gamma radiation on, 25:24368
effects on survival of mice, RBE for, 25:24397
effects on survival of mice, RBE for, 25:37865 (ANL-7770, pp 26-47)
effects on survival of mouse osteosarcoma cells in vivo and in vitro, effects of oxygen content on, 25:52198
effects on survival of rats, relation of beam orientation to, 22:40822(T) (JPRS-44070, pp 1-9)
effects on survival of spermatogonia from mice, RBE for 400 MeV, 23:35855
effects on survival of sweet gum, sycamore, walnut, white ash, and white oak trees, combined effects of seed exposure on, 24:36848(R) (ORO-2066-14)
effects on survival of swine, calculation of RBE for effects of depth dose distribution on, 25:16317 (ORO-678, pp 51-7)
effects on survival of synchronized L cells, effects of age on, 25:55309
effects on survival time of erythrocytes of rabbits, protective effects of adenosine against, 25:16221
effects on swelling and embrittlement of stainless steels, 25:54109
effects on swelling and mechanical properties of plutonium oxide (PuO_2)—uranium oxide (UO_2) fuel elements, (E/T), 24:41017
effects on swelling in austenitic stainless steels and Incoloy 800 at 660°C, 23:22610
effects on swelling in EBR-2 drives, fuel elements, 23:37531
effects on swelling in graphite, 23:45053(R) (GA-9372)
effects on swelling in Inconel-600, Nickel-200, and Nickel-270, 23:36159
effects on swelling in metals and alloys at high temperatures, relations with vacancy dislocation loops and voids, 24:27802 (RD/B/N-1584)
effects on swelling in metals, review of model for, 25:42918
effects on swelling in pin-type uranium oxide (UO_2) fuel elements, 23:13506(R) (WCAP-3269-23)
effects on swelling in plutonium dioxide—uranium dioxide fuels, mechanisms of, 24:34972 (BNWL-1349-1, pp 3.1-69)
effects on swelling in stainless steel, 23:37458
effects on swelling in Type 304L stainless steel, analysis of, 23:4248
effects on swelling in Types 304 and 316 stainless steel, relations with carbon, molybdenum, and titanium additions, 25:32751(R) (HEDL-TME-71-43)
effects on swelling in Types 304 and 316 stainless steel, statistical analysis of, 24:23506(R) (WARD-4135-4)
effects on swelling interaction of FTR core components, (T), 24:24875 (BNWL-1286)
effects on swelling of austenitic stainless steels, 24:44739 (GEAP-13517)
effects on swelling of boron carbide, 25:47179 (GA-10648)
effects on swelling of boronated and hafnated graphite, 25:47179 (GA-10648)
effects on swelling of CHN, H-283, H-315-A, and 711-TS-N graphite, 23:19464(R) (GA-8200)

effects on swelling of EBR-2 breeding blanket fuel subassemblies, 24:11186 (ANL-7597)
effects on swelling of EBR-2 plutonium oxide (PuO_2)—uranium oxide (UO_2) pin type fuel elements, 24:7209
effects on swelling of fast reactor core materials, 24:40898 (TRG-Report-1911, pp 402-10)
effects on swelling of graphite, 22:45832
effects on swelling of graphite, 23:47169(R) (GA-9440)
effects on swelling of hafnium shim rods, 25:11460 (IN-1437, pp 5-12)
effects on swelling of Incoloy 800, 24:6230
effects on swelling of Incoloy 800, 24:44739 (GEAP-13517)
effects on swelling of Incoloy 800 and Types-304 and -347 stainless steel, microstructural study of, 23:36148
effects on swelling of liquid metal cooled fast reactor fuel element cladding, 24:24833 (BNWL-1324)
effects on swelling of liquid metal cooled reactor core structure and fuel elements, 25:48256 (CONF-710601-4)
effects on swelling of liquid metal cooled reactor core components, 25:48280 (BAW-1365)
effects on swelling of metal clad plutonium—uranium—zirconium alloy fuel elements, 24:22403 (ANL-7602)
effects on swelling of metals, theoretical model for, 25:55582
effects on swelling of nickel, 25:703 (BNWL-1349-2, pp 4.1-154)
effects on swelling of Nickel 200 and Types 304 and 316 stainless steel, relations with cold working, 25:4824
effects on swelling of plutonium nitride—uranium nitride fuels, model for, 24:34969 (BMI-1882, Sect.A)
effects on swelling of pure metals and Types 304 and 316 stainless steel, relations with dose and temperature, 25:55572 (BLG-457)
effects on swelling of refractory carbides, 24:17397 (ORNL-4480, pp 245-55)
effects on swelling of stainless steel for use in fast breeder reactors, 25:55581
effects on swelling of stainless steel fuel cladding, (E/T), 24:38552
effects on swelling of stainless steel, analysis by Lindhard theory of energy partition of data from, 25:37982 (HEDL-SA-159)
effects on swelling of stainless steels, 24:16235(R) (BNWL-1275)
effects on swelling of tantalum, 24:34973 (BNWL-1349-1, pp 6.1-5)
effects on swelling of tantalum at 1175°F, 25:32751(R) (HEDL-TME-71-43)
effects on swelling of titanium carbide and zirconium carbide, relations with annealing, 24:17397 (ORNL-4480, pp 245-55)
effects on swelling of Type 304 stainless steel, 23:24872(R) (WARD-3791-32)
effects on swelling of Type 304 stainless steel, 23:47342(R) (WARD-3791-37)
effects on swelling of Type 304 stainless steel, 24:34922 (BNWL-1349-1, pp 4.1-97)
effects on swelling of Type 304 stainless steel, 23:46091 (BNWL-1144, pp 12.1-75)
effects on swelling of Type 304 stainless steel, relations with annealing and cold work, 25:49489 (ORNL-TM-3416, pp 75-108)
effects on swelling of Type 304L stainless steel, 23:12383
effects on swelling of Type 316 stainless steel, 23:47151 (ANL-7520(Pt.2), pp 3-19)
effects on swelling of Types 304 and 316 stainless steel, 23:51082(R) (WARD-3791-39)
effects on swelling of Types 304 and 316 stainless steel, relations with in situ annealing, 25:4823
effects on swelling of Types 304, 316, 321, and 347 stainless steel, 24:6230
effects on swelling of Types 4970 and 4988 steel cladding and structural materials, 25:49495
effects on swelling of uncoated and pyrocarbon-coated boron carbide spheres, 23:36290
effects on swelling of Zircaloy clad thorium oxide (ThO_2)—uranium oxide (UO_2) rod type fuel elements, 25:15366 (WAPD-TM-986)
effects on swine, clinical and pathological 14 MeV, 24:12237 (ORO-672, pp 70-2)
effects on tempering in carbon steel, 23:22598
effects on tensile properties and volume of Types 304 and 316 stainless steel, 24:44743
effects on tensile properties of 12-in.-thick specimens of A533-B steel, relations with temperature, 23:27130 (ORNL-4369, pp 16-21)
effects on tensile properties of A-302-B and A-212-B steels, 22:31425 (ORNL-4246, pp 36-7)
effects on tensile properties of A302B steel under multiaxial stress, 21:28798(R) (HW-78760)
effects on tensile properties of AISI 304 stainless steel and ASTM A302B and ASTM A542B steels, ultrasonic method for measurement of, 24:10130
effects on tensile properties of alpha-phase iron, 24:14829
effects on tensile properties of aluminum and titanium alloys at cryogenic temperatures, 21:504
effects on tensile properties of aluminum—copper, aluminum—tin—titanium, and hot-pressed block beryllium, relations of temperature with, 23:51081 (WANL-TME-1943)
effects on tensile properties of aluminum—tin—titanium-base alloys, 23:32043 (WANL-TME-1860)
effects on tensile properties of aluminum—tin—titanium-base alloys at 140°R, 24:36944
effects on tensile properties of aluminum-base—copper alloys at 140°R, 24:36944
effects on tensile properties of aluminum-magnesium alloys, 25:19255
effects on tensile properties of annealed Type 348 stainless steel, test temperature dependence of, 23:22595 (BNWL-790, pp 12.1-66)
effects on tensile properties of ASTM A 533-B steel, 23:24962 (ORNL-4390, pp 148-56)
effects on tensile properties of borated Type 304 stainless steel, Zircaloy-2, and Zircaloy-4 at 70 to 1600°F, 25:42911
effects on tensile properties of carbon- and phosphorus-containing chromium—molybdenum weld metal, relations with copper, manganese, and nickel content, 24:48867
effects on tensile properties of chromium—iron—nickel alloys, 24:42167
effects on tensile properties of chromium—molybdenum—nickel steel, 23:24959 (GEMP-1008, pp 209-27)
effects on tensile properties of chromium—molybdenum—nickel—niobium—steel at 400 to 580°C, 24:32422
effects on tensile properties of chromium—nickel alloys, 21:9207
effects on tensile properties of cobalt—molybdenum—nickel maraging steel weldments, relations with heat treatments, 24:32473
effects on tensile properties of cobalt-base alloys containing titanium, 24:14808(R) (BNWL-1020)
effects on tensile properties of cobalt-base alloys, relations with prior treatment, 24:44654 (BNL-50205, pp 93-133)
effects on tensile properties of cobalt-base alloys and Type 304 stainless steel at 25 to 800°C, 23:22588 (BNWL-790, pp 5.1-4)
effects on tensile properties of double-aged Type AM-350 stainless steel, temperature dependence of, 23:22595 (BNWL-790, pp 12.1-66)
effects on tensile properties of Ferrovac-E at 77 to 400°F, 23:24952 (BNWL-870, pp 5.4-14)
effects on tensile properties of Hastelloy X and Nimonic 80A at 700°C, 24:29996
effects on tensile properties of Hastelloy X, nickel alloys, and Type 316 stainless steel at 600 to 800°C, 23:12369 (CEA-CONF-1050)
effects on tensile properties of Hastelloy X280, 21:28800 (HW-84618)
effects on tensile properties of heat resisting cladding alloys, 24:1047 (BMI-1868, Sect.B)
effects on tensile properties of heavy-section Type A533 steel, 25:2676 (ORNL-4570, pp 170-3)
effects on tensile properties of high-nickel alloys, 21:12141(R) (GEAP-4932)
effects on tensile properties of high-purity nickel, 24:34839(R) (BNWL-1091)
effects on tensile properties of HSST A533 steel, 24:13562(R) (BNWL-1266)
effects on tensile properties of HSST A533 steel, 24:22423(R) (BNWL-1315-1)
effects on tensile properties of HSST steel, 23:52378(R) (BNWL-1187)
effects on tensile properties of hydrogen-charged steels, 23:50977(R) (BNWL-932)
effects on tensile properties of Incoloy 800, 21:11268
effects on tensile properties of Incoloy 800 and Type 304, Type 316, Type 321, and Type 347 stainless steel, analysis of, 22:50732(R) (GEAP-5631)
effects on tensile properties of Incoloy 800 at 650°C, 25:8952 (ORNL-4600, pp 81-125)
effects on tensile properties of Inconel 600 at 1350°F, 21:32931(R) (BNWL-CC-883)
effects on tensile properties of Inconel 718, 23:24959 (GEMP-1008, pp 209-27)
effects on tensile properties of Inconel 718, 21:26861(R) (BNWL-CC-658)
effects on tensile properties of Inconel-120, 22:31414 (BNWL-532, pp 12.1-88)
effects on tensile properties of ingot iron, 21:26865(R) (HW-74679)
effects on tensile properties of iron and steel, influence of nitrogen content on, 21:43641(R) (EURAEC-1919)
effects on tensile properties of iron, flux and temperature dependence of, 23:27131 (ORNL-4369, pp 29-41)
effects on tensile properties of iron—nickel fuel cladding materials, 23:41528 (BNL-50149, pp 89-122)
effects on tensile properties of martensitic Type 410 stainless steel at room temperature and 600°C, flux dependence of, 23:22595 (BNWL-790, pp 12.1-66)
effects on tensile properties of martensitic Type 410 stainless steel, temperature dependence of, 23:22595 (BNWL-790, pp 12.1-66)
effects on tensile properties of molybdenum at 70 to 1000°C, 22:30388
effects on tensile properties of molybdenum—rhenium alloys, annealing of, 21:26861(R) (BNWL-CC-658)
effects on tensile properties of molybdenum—rhenium—tungsten sheets at room temperature, annealing of, 21:32931(R) (BNWL-CC-883)
effects on tensile properties of niobium-base zirconium alloys, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on tensile properties of PH13—8 stainless steel, 23:24959 (GEMP-1008, pp 209-27)
effects on tensile properties of PM-2A pressure vessel steel, 23:22592 (BNWL-790, pp 9.1-20)
effects on tensile properties of PM-2A reactor pressure vessel steel, 23:17263 (AD-672890)
effects on tensile properties of polycrystalline tungsten at 400°C, 21:32931(R) (BNWL-CC-883)
effects on tensile properties of pressure vessel steels, 23:12373(R) (EURAEC-2057)
effects on tensile properties of recrystallized polycrystalline tungsten, 25:16546 (N-70-38376)
effects on tensile properties of regular and titanium-modified Type 316 stainless steel, temperature dependence of, 23:24955 (BNWL-870, pp 11.1-90)
effects on tensile properties of stainless steels, Zircaloy-2, and zirconium alloys at high temperature in contact with water, 21:26865(R) (HW-74679)
effects on tensile properties of superplastic chromium—iron—nickel alloys at 25, 650, and 750°C, 23:24951 (BNWL-870, pp 5.2-4)
effects on tensile properties of tantalum, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on tensile properties of thermomechanically treated stainless steels, 24:34839(R) (BNWL-1091)
effects on tensile properties of thick-section Types A508 and A533B steel, 25:40074 (WCAP-7561)
effects on tensile properties of titanium and aluminum—molybdenum—titanium—vanadium, aluminum—tin—titanium, and aluminum—titanium—vanadium alloys at 17°K, 25:42926
effects on tensile properties of titanium and titanium-base alloys at 17°K, 24:8161 (N-69-37436)
effects on tensile properties of titanium, relations with cryogenic annealing, 23:16501 (N-68-33385)
effects on tensile properties of titanium-modified Incoloy 800, 23:24961 (ORNL-4390, pp 121-47)
effects on tensile properties of tungsten, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
effects on tensile properties of Type 304 and Type 316 stainless steel, 24:13525 (RCN-111)
effects on tensile properties of Type 304 and Type 316 stainless steels, analysis of, 23:11279 (BNWL-919, pp 12.1-58)
effects on tensile properties of type 304 stainless steel, 22:4833
effects on tensile properties of Type 304 stainless steel, 23:46098
effects on tensile properties of Type 304 stainless steel, 25:35509
effects on tensile properties of Type 304 stainless steel, (E), 25:51031(R) (RCN-143)
effects on tensile properties of Type 304 stainless steel at 100°C, 22:38510 (BNL-50082, pp 93-152)
effects on tensile properties of type 304 stainless steel, 22:4834
effects on tensile properties of Type 304, Type 316L, Type 347 stainless steels and Incoloy 800 at 1300°F, measurement of, 22:32970(R) (GEAP-5584)
effects on tensile properties of Type 316 stainless steel, 24:6225
effects on tensile properties of Type 316 stainless steel, 25:32751(R) (HEDL-TME-71-43)
effects on tensile properties of Type 316 stainless steel, 23:33079(R) (BNWL-941)
effects on tensile properties of Type 347 stainless steel, 25:12823 (RCN-125)
effects on tensile properties of Type 347 stainless steel, 23:39005 (BMI-1862, Sect.B)
effects on tensile properties of Type 347 stainless steel, relations with flux and temperature, 24:32482
effects on tensile properties of Type 347 stainless steel, relations with irradiation temperature, 25:42912
effects on tensile properties of Type 347 stainless steel Fermi fuel assembly tubes at 20, 315, and 650°C, 23:24948 (BNWL-870, pp 4.8-10)
effects on tensile properties of Type 348 stainless steel, 24:21396 (BMI-1878, Sect.B)
effects on tensile properties of Type 348 stainless steel, relations with annealing and cold working, 23:3098
effects on tensile properties of Type 348 stainless steel at 20 to 750°C, 23:24956 (BNWL-870, pp 12.1-55)
effects on tensile properties of type 410 stainless steel, 22:4835
effects on tensile properties of type A350-LF3 steel, 22:31417 (BNWL-532, pp 9.1-23)
effects on tensile properties of Type A533B steel, 23:22581 (APED-5490)
effects on tensile properties of Type A543B steel, 25:32751(R) (HEDL-TME-71-43)
effects on tensile properties of Type-316 stainless steel, relations with temperature, 23:36152
effects on tensile properties of Types 304 and 316 stainless steel, method for prediction of, 25:4831
effects on tensile properties of Types 304 and 316 stainless steel, relations with prior treatment, 24:44654 (BNL-50205, pp 93-133)
effects on tensile properties of Types 304 and 348 stainless steel, relations with annealing and cold working, 23:3100
effects on tensile properties of Types 347 and 348 stainless steel, 25:40010(R) (BMI-1903)
effects on tensile properties of types 410 and AM350 stainless steels, 22:31414 (BNWL-532, pp 12.1-88)
effects on tensile properties of Types A302, A533, and A543 steel, 24:19470 (NRL-7011)
effects on tensile properties of Types A302B, A542, and Hy-80 steel, 24:17330 (IN-1335, pp 1-24)
effects on tensile properties of vacuum-melted iron, 21:22896(R) (ORNL-4097)
effects on tensile properties of vanadium, 24:42170
effects on tensile properties of vanadium, 23:962 (IS-1900, Paper 5)
effects on tensile properties of vanadium alloys, (E), 22:19573 (BNWL-455, Paper 3.1-8)
effects on tensile properties of Zircaloy-2, 22:19597
effects on tensile properties of Zircaloy-2, analysis of, 22:35419 (AECL-3126)
effects on tensile properties of Zircaloy-4 and zirconium—niobium—copper alloys, 22:28858
effects on tensile properties of Zircaloy-4 at 55 to 415°C, 22:30388
effects on tensile properties of, Inconel 625, 21:28800 (HW-84618)
effects on tensile strength of type 304 stainless steel, 22:19589
effects on tensile stresses in mixed oxide rod type fuel elements, BRITL computer program for, 24:33483 (GAMD-10007)
effects on tensile test specimens at low temperature, design of device to determine, 23:17655
effects on testes of mice, RBE for mutagenic, 22:19408
effects on the expansion of graphite at 300 to 1200°C, 23:39062 (BNWL-1056-A)
effects on the microstructure of graphite, 24:44813 (DP-Report-254)
effects on thermal conductivity of graphite crystals, 21:33023

effects on thermal conductivity of magnesia single crystals at low temperatures, 25:22629(R) (COO-1629-24)
effects on thermal conductivity of pyrolytic graphite, relations of annealing and temperature with, 24:1106
effects on thermal conductivity of semiconductors at low temperatures, 22:41688
effects on thermal conductivity of silicon at 80°K, (E/T), 24:45316
effects on thermal conductivity of silicon carbide, 23:45052(R) (GA-9090)
effects on thermal electromotive force of molybdenum, 24:4825
effects on thermionic sheath trilayer insulators, 25:55096 (N-71-24635)
effects on thermoelastic materials, 22:6354(P)
effects on thermoelectric properties of n-type germanium silicide, 24:51808
effects on thermoelectric properties of semiconductor thermoelectric materials, 25:45551
effects on thermoluminescence of reactor concretes, (E), 25:47193
effects on thorium carbide (ThC_2)—uranium carbide (UC_2) and uranium carbide (UC_2) coated particles, 25:37018 (JUL-701-RW)
effects on thorium dioxide—uranium dioxide dispersed in beryllium oxide, 22:19587
effects on thorium oxide (ThO_2)—uranium oxide (UO_2) coated particle fuels, 25:5990(R) (ORNL-4589)
effects on through-thickness embrittlement of A302B steel pressure vessel, 21:32931(R) (BNWL-CC-883)
effects on tillering and yield of wheat, mutagenic, 21:39387
effects on tissue-like phantom, 25:1736(R) (INR-1197)
effects on tissues of goats, 23:18102
effects on tolerance to surgical stress in mice, 25:16357
effects on tomato gametes, pollen, and seed, mutagenic, 25:42364
effects on Tradescantia stamen hairs, power relation as expression of RBE for aberrant, 25:44965
effects on Tradescantia, analysis of anaphase bridges for measuring, 21:32796(R) (TID-23842)
effects on Tradescantia, RBE for mutagenic, 24:7797 (BNL-14118)
effects on transition temperatures of A212B, A302B, and A350-LF1 steels, 21:28793(R) (BNWL-94)
effects on transition temperatures of A302B steel, 21:28800 (HW-84618)
effects on transition temperatures of nickel steel, 24:8147 (AECL-3370)
effects on translucent and sintered aluminum oxides at 300 to 600°C, 21:21919 (ORNL-4076, pp 81-115)
effects on transmutations and voids in aluminum, 24:14850
effects on transport of cesium-137 and cobalt-60 in aquatic microcosms, combined effects of biotic complexity on, 23:9904 (ORNL-4316, pp 71-160)
effects on treadmill performance of aging rats, 21:36709
effects on trees, biological, effects of species on, 21:8746 (ORNL-4007, pp 43-119)
effects on trilayer materials incorporating aluminum oxide and metallic thermal conductors, 24:17395 (ORNL-4480, pp 188-95)
effects on Triticum durum, mutagenic, 23:20172
effects on Triticum durum, mutagenic, 25:8641
effects on tritium production in mixed oxide fuels, relations with burnup, 25:58344(R) (LA-4693)
effects on tumor incidence in mice, comparison of latent internal tritiated thymidine and external, 25:42630
effects on tumor incidence in mice, effects of dose on whole-body, 25:42664
effects on tumor volume in mammals, combined effects of x rays on RBE for, 23:14271
effects on tungsten alloys, design of experiments to study, 25:49374 (ORNL-TM-3300, pp 245-62)
effects on tungsten, annealing of defect clusters induced in, 25:38557
effects on tungsten, defects produced in, (E), 22:28864
effects on tungsten, habit plane of vacancy-type dislocation loops induced in, 24:8523
effects on tungsten, Stage IV annealing of damage, 24:34839(R) (BNWL-1091)
effects on twinning in vanadium, relations of annealing with, 24:12444
effects on Type 304 stainless steel and Zircaloy fuel cladding and thorium dioxide—uranium dioxide fuel rods, 24:36994 (BAW-3809-6)
effects on Type 304 stainless steel welds, relations with filler metal composition and welding processes, 25:58296 (HEDL-SA-196)
effects on Type 304 stainless steel, analysis of, 23:4300(R) (BNWL-880)
effects on Type 316 stainless steel clad plutonium carbide (PuC)—uranium carbide (UC) pin type fuel elements, 24:46045 (WARD-3791-33)
effects on Type 316 stainless steel clad plutonium oxide (PuO_2)—uranium oxide (UO_2) and uranium oxide (UO_2) fuel elements, 25:5990(R) (ORNL-4589)
effects on Type 316 stainless steel in flowing sodium, 22:43615(R) (BNWL-710)
effects on type 348 stainless steel, 21:6848
effects on Type A302-B steel, 22:43615(R) (BNWL-710)
effects on type-304 stainless steel, 21:26861(R) (BNWL-CC-658)
effects on Types 304 and 316 stainless steel, relation with 5-MeV copper ions, 25:703 (BNWL-1349-2, pp 4.1-154)
effects on ultrasonic velocities and critical-angle changes in Type 304 stainless steel, temperature dependence of, 23:24402 (BNWL-1012)
effects on uniaxial and biaxial creep-rupture of Type 316 stainless steel, 25:4816 (WHAN-FR-19)
effects on uniaxial fatigue of Types 304, 304L, and 316 stainless steels at 400 to 700°C, 25:42921
effects on uranium nitrides, 23:48575 (ORNL-4420, pp 119-22)
effects on uranium oxide (UO_2) and plutonium oxide (PuO_2)—uranium oxide (UO_2) sealed can type fuel elements, 23:49564(R) (GA-9639)
effects on uranium oxide (UO_2) fuel in BR-2 in-pile loop, at 1000°C, 22:1856 (EUR-3626)
effects on uranium oxide (UO_2) fuel pins, in pile, 25:54086 (A/CONF.49/P-392)
effects on uranium oxide (UO_2)—plutonium oxide (UO_2), fission product vapor pressure from, (E/T), 25:44206 (CEA-R-4181)
effects on vacancies in tungsten crystal lattices, 25:711
effects on vacancy cluster production in Type 304 and Type 316 stainless steel and iron, analysis of, 22:53411 (BNWL-819)
effects on vacancy production in tungsten, stage IV recovery from, 24:12438
effects on vacancy-filled void production at 1000 to 1300°C in tungsten, 23:34025 (GEMP-692)
effects on vacancy-filled void production at 700 to 1000°C in molybdenum, 23:34025 (GEMP-692)
effects on vanadium, 21:41575 (IS-1600, Paper 5)
effects on vanadium alloy cladding, 24:8098
effects on vanadium at 140 and 400°C, electron microscopic study of annealing of, 25:6883 (JAERI-Memo-4149)
effects on vanadium, annealing of defects produced in, 22:52850 (GEMP-612)
effects on vanadium, migration of interstitial impurities to defects during annealing of, 24:14808(R) (BNWL-1020)
effects on vanadium, trapping of oxygen and nitrogen at defects produced by, 22:31427 (ORNL-4246, pp 51-5)
effects on vanadium, trapping of oxygen at defects produced in, 23:30612(R) (ORNL-4408)
effects on vapor-deposited silicon carbide (SiC) coatings for 1000 MW(e) HTGR-type reactor fuels, 23:19464(R) (GA-8200)
effects on vaporization of antimony and arsenic at high temperatures, mechanism of, 25:15645
effects on variability of triplet fertility in Hordeum irregulare, 21:22795
effects on velocity—stress dislocations in niobium single crystals, 22:28849
effects on Vicia sativa in comparison with EMS, ethylenimine, γ, and x rays, mutagenic, 23:16263
effects on void coarsening in high-purity aluminum, relations with postirradiation annealing, 25:45099
effects on void density in Type 304L stainless steel, irradiation temperature and flux dependence of, 23:24955 (BNWL-870, pp 11.1-90)
effects on void density of vanadium, 23:24955 (BNWL-870, pp 11.1-90)
effects on void distribution in iron, 25:2816 (ORNL-4570, pp 16-19)
effects on void distribution in pure nickel at 650 to 1050°C, relations with annealing, 24:23497 (BNWL-1279, pp 4.1-117)
effects on void distribution in Type 304 stainless steel at 300 to 800°C, 25:2758 (ORNL-4570, pp 76-84)
effects on void distribution in vanadium, 25:2758 (ORNL-4570, pp 76-84)
effects on void formation and growth in structural alloys and metals, model of, 23:24945 (BNWL-870, pp 3.10-13)
effects on void formation at grain boundaries in aluminum, 24:34839(R) (BNWL-1091)
effects on void formation in 270-grade nickel, 24:36940 (ORNL-4520, pp 97-133)
effects on void formation in alloys and metals, review of, 25:58305
effects on void formation in aluminum, 24:36940 (ORNL-4520, pp 97-133)
effects on void formation in aluminum and 8001 aluminum alloy, relations of annealing with, 24:21403
effects on void formation in aluminum and copper, 23:46091 (BNWL-1144, pp 12.1-75)
effects on void formation in aluminum at 55°C, electron microscopic studies of, 25:11465 (ORNL-TM-3109)
effects on void formation in aluminum subjected to preinjection of hydrogen, 25:2816 (ORNL-4570, pp 16-19)
effects on void formation in aluminum, copper, and magnesium, 25:58310
effects on void formation in aluminum, copper, and nickel, 23:12384
effects on void formation in aluminum, effects of flux on, 25:40089
effects on void formation in annealed and sputtered nickel foils, 25:6886
effects on void formation in cold worked specimens of stainless steel, 25:47143 (HEDL-SA-150)
effects on void formation in fast breeder reactor materials, 25:34325
effects on void formation in high-purity aluminum, relations with fluence and flux, 25:58311
effects on void formation in iron, 23:46091 (BNWL-1144, pp 12.1-75)
effects on void formation in iron, 24:36940 (ORNL-4520, pp 97-133)
effects on void formation in metals, relations of temperature and impurities with, 25:47141 (BNWL-SA-3921)
effects on void formation in metals, review of, 25:58299 (ORNL-TM-3495)
effects on void formation in microstructure of platinum, 25:32751(R) (HEDL-TME-71-43)
effects on void formation in molybdenum, niobium, and vanadium, relations with irradiation temperature, 25:29914
effects on void formation in molybdenum, niobium, and vanadium at 0.25 to 0.47 T/sub m/, 25:58309
effects on void formation in Nickel 270, 25:37990
effects on void formation in nickel at 50 to 750°C, 24:14821
effects on void formation in nickel, relations with subsequent electron irradiation, 25:58330
effects on void formation in niobium-base—zirconium alloys, 25:49487 (ORNL-TM-3300, pp 97-133)
effects on void formation in preirradiated high-purity aluminum, 25:4818
effects on void formation in pure iron, 24:6217
effects on void formation in refractory metals, 23:46091 (BNWL-1144, pp 12.1-75)
effects on void formation in stainless steel, 24:14848
effects on void formation in stainless steel cladding materials, relations with microstructure, 25:58307
effects on void formation in tantalum and tantalum—tungsten alloys, 25:49489 (ORNL-TM-3416, pp 75-108)
effects on void formation in Type 304 stainless steel at 400 to 600°C, predicted and experimental study of, 25:35516
effects on void formation in Type 304 stainless steel, relations with helium content, 24:36940 (ORNL-4520, pp 97-133)
effects on void formation in Type 304 stainless steel, relations of atomic helium and temperature with, 24:12433 (ANL-7588)
effects on void formation in Type 304 stainless steel, relations with preinjected helium, 25:2761
effects on void formation in Type 304 stainless steel, model for studies of temperature relations in, 24:14849
effects on void formation in Type 304 stainless steel, specimen preparation for evaluation of, 25:45100
effects on void formation in Type-304 stainless steel, relations with temperature, 23:36162
effects on void formation in Types 304 and 316 stainless steel, 24:17332 (ORNL-4480, pp 70-95)
effects on void formation in vacuum arc-cast molybdenum and powder metallurgy tungsten, 24:12445
effects on void formation in vanadium, 24:36940 (ORNL-4520, pp 97-133)
effects on void growth in molybdenum and stainless steel, 24:39673
effects on void growth in solids, model for, 25:35511
effects on void production in aluminum, relations with injected gases, 25:37984
effects on void production in high-purity magnesium, 25:55580
effects on void production in molybdenum and tungsten, 24:14811 (GEMP-1013, pp 167-223)
effects on void production in nickel, 24:12434 (BNWL-1223, pp 4.1-107)
effects on void production in platinum at 450°C, 25:40076
effects on void structure in Nickel 270, 25:8952 (ORNL-4600, pp 81-125)
effects on voids in high-purity nickel, 23:1017
effects on voids in high-purity nickel, relations with annealing, 25:11469
effects on voids in molybdenum and rhenium at 1050 and 1150°C, 24:32483
effects on voids in pure nickel, 24:14808(R) (BNWL-1020)
effects on voids in Type 304 and Type 316 stainless steel, effects of annealing on, 23:49564(R) (GA-9639)
effects on volt—ampere characteristics of black silicon carbide varistors, 25:51956
effects on volume changes of silicon dioxide—uranium dioxide vitro ceramics, annealing effects on, 22:17155
effects on water, charged particle slowdown spectra and energy-loss distribution from, 21:40058
effects on water, microbubble production in, 22:362
effects on water, origin of molecular oxygen release in high LET, 25:21042
effects on weld-heat-affected zones of A212B and A302B steels, 21:28800 (HW-84618)
effects on weldments of stainless steel, 24:34922 (BNWL-1349-1, pp 4.1-97)
effects on welds of Hy 80 steel, 22:34087
effects on welds of Type A533B steel, 25:13724 (ORNL-4590, pp 100-34)
effects on wheat for improved agricultural qualities, mutagenic, 24:31915
effects on wheat in comparison with ethylenimine and γ rays, mutagenic, 23:7979
effects on wheat plants, effects of dose and seed exposure on mutagenic, 22:21494
effects on wheat seed chromosomes, effects of temperature on aberrant, 25:46799
effects on wheat, effects of dose and ploidy on mutagenic, 24:7800
effects on wheat, effects of seed exposure on mutagenic, 23:7991
effects on wheat, mutagenic, 25:26710
effects on wheat, mutagenic, 23:31693
effects on Wigner energy of crystalline aluminum oxide, beryllium oxide, and magnesium oxide and vitreous silicon dioxide, 25:38039
effects on winter rye chromosomes, factors modifying aberrant, 24:48481
effects on work hardening of Ferrovac E iron, 22:41081
effects on x-ray diffuse scattering in copper crystals, 23:30612(R) (ORNL-4408)
effects on xenon-133 diffusion in cesium iodide monocrystals at 200 to 500°C, 22:6315(R) (ORO-3508-3)
effects on yeast, RBE of x, 21:32809
effects on yeasts, protective effects of hydrolysates of nucleic acids against lethal, 23:38621
effects on yield of beans, effects of combined genetic intercrossing on, 21:28367
effects on yield strength of Type 304 stainless steel, absolute damage function for, 24:34923 (BNWL-1349-1, pp 5.1-33)
effects on yield strength of Type 304 stainless steel at 450°C, damage function for, 24:32479
effects on yield strength of Type A302 pressure vessel steel, 24:6238
effects on yield stress in iron, effects of strain rate and temperature on, 21:22896(R) (ORNL-4097)

effects on yield stress of Ferrovac E iron, 21:28800 (HW-84618)
effects on yield stress of Ferrovac iron, 23:8251
effects on yield stress of polycrystalline vanadium, relations of dose and temperature with, 25:52412
effects on yield stress of tungsten single crystals, relations with annealing, 23:22590 (BNWL-790, pp 5.11-13)
effects on yield stresses of iron and niobium, 23: 30612(R) (ORNL-4408)
effects on yield stresses of niobium, flux dependence of, 22:31429 (ORNL-4246, pp 66-75)
effects on zinc diffusion in indium arsenide, 24:25751
effects on zinc diffusion in indium arsenide, 25:7448
effects on zinc oxide crystals, EPR spectra of zinc vacancies induced in, 24:51796
effects on zinc sulfide F-center formation, ESR study of, 22:1330
effects on zinc sulfide single crystals, dose dependence of color centers from, (E), 22:29594
effects on Zircaloy 4 mechanical properties at 130 to 775°F, 22:52221
effects on Zircaloy-2, 22:23845 (IN-1131, pp 83-90)
effects on Zircaloy-2 and Zircaloy-4, 23:46101
effects on Zircaloy-2 and zirconium—niobium alloy pressure tubes, 22:28859
effects on Zircaloy-2 at 300°C, 23:41678 (AECL-3308)
effects on Zircaloy-2 pressure tubes, 21:26868(R) (HW-77281)
effects on Zircaloy-2 tube, 21:18203(R) (IDO-17218)
effects on Zircaloy-4-clad fuel rod containing low-density uranium dioxide pellets, 22:41133 (WAPD-TM-596)
effects on zirconium, 22:34075 (AECL-3086)
effects on zirconium alloy corrosion by high-temperature aqueous media, 23:971
effects on zone-refined nickel, recovery stages in annealing of, (E), 22:28870
effects with gamma radiation on meta- and ortho-terphenyl at 110 to 450°C, mechanism of, 21:17649 (AECL-2655)
elastic and inelastic scattering by thick targets, time-of-flight method for measuring differential cross sections for, 25:37629
emission from clusters of plutonium recycle fuel elements, ratio of thermal neutron absorption to, (E/T), 24:53001(R) (MIT-3944-4)
emission from reactor fuels, ratio of thermal neutron absorption to, (E/T), 24:53000(R) (MIT-3944-1)
emission of solar, experiment to detect, (T), 22:28981(T) (SC-T-68-1518)
emission times in pulsed depleted-uranium assemblies, calculations and time-of-flight measurements of, (E/T), 23:13183 (RPI-328-142, pp 68-116)
energy degradation through (n,γn') process, 21:30091(R) (ANL-7210)
energy deposition in heterogeneous lattice cells, NEVEMOR code for, 24:29080 (AECL-3423)
energy distribution from tritium (d,n) reactions, (E), 21: 31705
energy distribution outside reactor shielding, 23:39526
energy distributions from 1 GeV proton reactions with carbon, 21:46392(R) (N-67-18240)
energy distributions from slab shields of lead and polyethylene, angle-dependent, (E/T), 21:46643(R) (ORNL-4134)
energy losses in silicon crystals at 0.2 to 14 MeV, (E/T), 21:24856
energy measurements using transmission technique, accuracy of, (E), 22:20450 (COO-7-0456)
energy release from, analysis of mass balance in, 22: 37400 (AECL-3109)
energy spectra in concrete, time-dependent, (E), 24: 32885
energy spectra in water from 14-MeV pulses, (E), 23: 37084
energy spectra of, after reflection of fission-source neutrons from steel slab, (E), 24:6598
energy spectrum for VERA 7A critical assembly, time-of-flight analysis of, 23:2080
energy spectrum of, in range 10^3 to 5 x 10^3 GeV at sea level, (E/T), 24:51467
energy spectrum, method for reducing 4π proton-recoil proportional counter data to, 22:49067 (ANL-7394)
energy transfer of, Rossi detector measurement of spectra of linear, 25:8492
escape probability in reactors, methods for analysis of, (T), 21:1190
evaluation for use for radiography, 25:32495
evaluation of californium-252 and accelerator-produced, for use for medical radiography, 25:32494
evaluation of pulsed, for use for radiography, 25:32492
fast fission factors in subcritical slabs and spheres, singular eigenfunction expansions for, (T), 24:52997
fission factor in thermal reactor lattices, multigroup calculation of, 23:9227 (CEA-R-3549)
fission factors of, bibliography on, 21:19360 (IFA-FR-49)
fission ratio for heavy water moderated ECO, effects of voids on, (E), 23:31208
fission ratio in single fuel rods, calibration factor P(t) for, (E/T), 24:50242
fission ratios for, two-group first collision probability determination of, 23:28607
fluence determination in reactors, calculation of equations incorporating multiple-cycle irradiation and daughter burnup for activation detectors used in, 23: 35458 (GEMP-699)
fluence in reactor irradiation experiments, method for standard measurement of, 25:46231
fluence measurements at 14.7 MeV, equations for activation foil method for, 24:11807
fluence measurements of, intercalibration of activation detector counting for, 23:47731 (BNWL-1096)
fluence measurements of, neptunium-237 and uranium-238 fission dosimeters for in-core, 25:37619
fluence measurements of, performance of moderated cobalt-59 activation detectors for, 24:4421 (CEX-65.60)
fluence of 1.0- to 18.0-MeV, use of fission foil—plastic detectors for measuring, 21:8574 (AD-643540)
fluence of, activation of niobium-93 for measuring, 22: 8352
fluence of, use of silicon p-n junctions for measuring, 21: 1631
flux at energies >60 MeV, upper limit on quiet time solar, 21:31333
flux at various depths in atmosphere, (E), 23:3303
flux attenuation by carbon steels, 21:38475(R) (WCAP-3677-4)
flux calculations for burst-type molten-salt reactor, analysis of 2 to 3 x 10^{16} n/cm², (T), 22:39882 (ORNL-TM-2282)
flux calculations for pulsed systems, analytic and numerical methods for, 23:13576 (RPI-328-142, pp 132-51)
flux calculations from Plum Brook HB-6 beamhole, 21: 38665 (NASA-TM-X-1418)
flux calculations in uranium—heavy water lattice, (T), 21:5684 (CEA-R-3048)
flux density in 45 MW core of water cooled and moderated tank type reactor, (E/T), 25:15393 (RCN-119)
flux density in converted thermal test reactor, simple rules for estimating, 23:9214
flux density in depleted uranium, angular, energy, and spatial distribution of, (E), 22:13906 (RPI-328-100, pp 57-112)
flux density in heavy water from plane isotropic fission source, (E), 24:33105
flux density measurement of, energy sensitivity of silver-activated zinc sulfate detectors for, 21:32390
flux density measurement of, performance of polyethylene-moderated boron-trifluoride proportional detectors for, 24:25270
flux determination in Plum Brook Reactor HB-6 facility using sulfur pellets and gold foils, 22:37535 (N-68-15643)
flux determination in reactors, use of molybdenum and tungsten for, 24:50195
flux determination using threshold detectors, approximate quadruture formulas for data analysis for, 22:38025
flux die-away experiments in pulsed depleted-uranium assemblies, (E), 23:13183 (RPI-328-142, pp 68-116)
flux distribution in ATR, comparison of calculated and measured low power, 23:19527 (IN-1260)
flux distribution in depleted uranium, energy, space, and angle dependence of, 23:37138(R) (RPI-328-160)
flux distribution in Geesthacht shielding, 21:21776(T) (ORNL-tr-1513)
flux distribution in heterogeneous reactor lattices, LASER program analysis of, 21:21689
flux distribution in HTR reactor, analysis of, 22:47031
flux distribution in lithium hydride, 21:27785(R) (NAA-SR-12316)
flux distribution in multiregion fast reactors of, use of analog computer for calculation of radial, 22:46956
flux distribution in NERVA reactor, comparison of calculated and measured, 25:39320
flux distribution in NORA light water lattices, (T), 21: 19463(R) (IAEA-3498-16)
flux distribution in PNPF concrete shielding, (T), 24: 38511 (AI-AEC-Memo-12708(Suppl.A))
flux distribution in pool type research reactor experimental facilities, methods for calculation of, 25: 39298(T) (LB/G-3010)
flux distribution in sodium-cooled breeder reactors, analysis of static and dynamic, 21:17454 (KFK-448)
flux distribution in trisected FTR core, measurement of, 22:42164(R) (BNWL-775)
flux distribution in water cooled and moderated tank type reactors, comparison of computer programs for calculating, 25:15391 (JAERI-Memo-4180)
flux distribution in WWR-SM reactor, (E/T), 23:45106 (INR-968)
flux distribution measurements in reactors using nickel and titanium detectors, 23:21304
flux distribution measurements, performance of dielectric track detectors for in-core, 25:44655
flux distribution near reactor control rod channels, (T), 21:17471 (UJV-1616)
flux distribution of HFR, 24:13595 (CONF-671224)
flux distribution on axis of 14-MeV source using tritium targets, (E), 21:42536
flux distributions in depleted uranium assemblies, measurement of, 24:7227
flux distributions in iron, angular, (E/T), 22:22526 (RPI-328-112, pp 16-59)
flux distributions in reactors, re-entrant hole perturbation of, 22:22527 (RPI-328-112, pp 62-103)
flux distributions in reactors, use of solid-state track detectors for determining, 21:30706
flux distributions in thorium blanket of plutonium-239-fueled reactor, (E), 22:44580
flux formulation for, derivation of linear functionals of adjoint, 22:3943
flux in atmosphere during solar minimum, (E), 21:2122
flux in central thimble of TRIGA Mark 2 reactor, 25: 10277
flux in depleted uranium assembly, 25:31173(R) (RPI-328-200)
flux in depleted uranium, time dependence of, 23: 37138(R) (RPI-328-160)
flux in HFIR reflector, threshold detector measurement of differential, 24:13608
flux in irradiation facilities of Soviet SM-2 reactor, (E), 24:13606
flux in JRR-3 research reactor, use of nickel and sulfur threshold detectors for measuring, 21:46948
flux in NASA Research Reactor HB-6 beam hole, 24: 31103 (N-70-19195)
flux in NRX reactors, S/sub N/ transport method analysis of, (E/T), 21:8028
flux in parallel plate reactor core cell, nuclear emulsion method for measuring anisotropy of, (E/T), 24:18739
flux in pool type research reactor experimental facilities, method for measurement of, 25:39295(T) (LB/G-3007)
flux in pool type research reactor experimental facilities, measurement of integrated, 25:39306(T) (LB/G-3023)
flux in pulsed assemblies, energy- space-, and time-dependent, (T), 22:39551 (RPI-328-123, pp 39-52)
flux in reactor pressure tubes and experimental facilities, EPITHET computer program calculation of, 23:15618 (AECL-3167)
flux in space thermionic fast reactors, effect of moderator incorporation on damage, (T), 23:15696
flux in Swedish Reactor (R-3) primary shielding, analysis of, (E/T), 22:44805 (AE-325)
flux in TRIGA Mark-2 reactor, use of coated metallic plate muscovite mica fission track detector for measurement of, 23:40398
flux in water cooled reactor side shielding, ORPHEE 4 computer program for calculation of, 24:24817 (CEA-N-1244)
flux mapping measurements in Fermi reactor, 21:12118 (APDA-NTS-8)
flux measurement at 0.5 to 15 MeV, associated particle method and proton-recoil methods for precise, 25: 51851 (CONF-701002-, pp 343-54)
flux measurement by threshold detectors, 23:43366
flux measurement for (n,p) and (n,α) reactions at 4 to 8 MeV, design and performance of monitor using silicon surface barrier detector for, 21:28229
flux measurement in EBR-2, flux-wire methods for, 24: 4042 (GEAP-5744)
flux measurement in ORR for EBR-II component dosimetry, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
flux measurement in Phoebus 1B, effects of 360° open-well shield on, 22:48722 (LA-3746)
flux measurement in reactor cores, self-powered monitors for, 24:46021
flux measurement in reactors, using track detectors and optical density method, 25:386
flux measurement of, sensitivity of silver-activated zinc sulfide scintillation detector in Plexiglas matrix for, 25: 2443
flux measurement of, silicon p—i—n diodes for, 23: 13977 (CEA-CONF-1067)
flux measurement of, standards for biological and physical applications, (E), 25:34879
flux measurement of, stilbene spectrometer for, 22: 33208(R) (MLM-1456)
flux measurements at 0.3 to 16 MeV, proton-recoil proportional detector with multiple radiators for, 22: 45274 (BARC-330)
flux measurements at 10 keV to 1 MeV, development of detectors for absolute, 25:13216
flux measurements at 10 keV to 1 MeV, performance of manganese sulfate bath method for, 25:6543
flux measurements at 14 MeV, cooling water activation monitor for continuous, 24:41667
flux measurements at 14 MeV, uranium foil—muscovite track detector for, 24:14259
flux measurements for reactors, methods of, 23:4470
flux measurements for, in EBR-II, 21:36886
flux measurements from ORELA, performance of proton recoil monitor using silicon surface barrier detector for, 25:18763
flux measurements in BBRR beam, 21:25714 (BNL-11245)
flux measurements in FRG, 22:3904(T) (ORNL-tr-1522)
flux measurements in Halden reactor core, 24:18675(R) (NP-18149)
flux measurements in iron for 0.01- to 10-MeV, (E), 23: 49293 (AD-689839)
flux measurements in radial and tangential test facilities of ZR-3, 22:18605
flux measurements in reactors using isomer production by inelastic scattering, (E/T), 22:7705
flux measurements in reactors, calibration of activation detectors for, 22:21321(T) (ORNL-tr-1843)
flux measurements in reactors, polynomial method for analysis of data from activation detectors in, 22:2368
flux measurements in reactors, use of activation detectors for, 21:16147 (UJV-1712)
flux measurements in research reactors, dosimetry methods for, 22:12110
flux measurements in research reactors, uranium-238 activation detectors for, 22:40376
flux measurements in TRIGA MARK 2, use of cross sections and threshold reactions for, 24:2041
flux measurements in WR-1, 22:3884 (AECL-2763)
flux measurements of KIWI-Transient Nuclear Test effluent, analysis of, 22:39849 (LA-3449)
flux measurements of, aqueous solution of copper sulfate for activation, 24:39229
flux measurements of, calibration of silver activation detectors for, 22:47349
flux measurements of, counting efficiency of proportional counter for sulfur pellets for activation, 23:9709
flux measurements of, design and response of boron trifluoride proportional detectors for, 23:47753
flux measurements of, design of zinc sulfide—boron oxide scintillation detectors for, 23:9717
flux measurements of, dielectric plastic track detectors with (n,⁴He) converter foils for, 24:39225
flux measurements of, doped metaphosphate glass track detector for in core, 25:48905 (JAERI-Memo-4337)
flux measurements of, fission chamber for local, 22: 49074
flux measurements of, methods for, 22:4428 (NP-17063)
flux measurements of, nickel foil activation detectors for, 24:485
flux measurements of, performance of multiple activation and fission foils for, 24:44272
flux measurements of, proton-recoil semiconductor detector for, 24:48262 (EURFNR-805)

flux measurements of, response of cadmium-shielded paraffin-moderated indium activation detectors for, 25:8495
flux measurements of, spectra analysis of stilbene scintillation detectors for, 25:8509
flux measurements of, technique for increasing efficiency of sulfur activation detectors for, 22:21320(T) (ORNL-tr-1842)
flux measurements of, theory of foil activation detectors for, 25:23776 (RFP-1466)
flux measurements of, thorium-232 fission detector for in-core, 25:6552
flux measurements of, use of plastic particle track detectors for, 22:40364
flux measurements of, vitreous composition containing fissile material for, 24:39277(P)
flux measurements on, by uranium-238 fission and determination of barium-140, standard for, 25:54444
flux measurements using activation technique, cross-section standards for, 23:5859
flux measurements using aluminum activation detectors, ASTM standard method for, 25:26481
flux measurements using fluorine-19 (n,2n) reactions, cross section for, (E), 22:13942
flux measurements using iron activation detectors, ASTM standard method for, 25:26477
flux measurements using neutron activation, nuclear reactions for, 21:14441 (UJV-1601)
flux measurements using neutron elastic scattering cross section of hydrogen as standard, (T), 21:27516 (LA-DC-8781)
flux measurements using nickel activation detectors, ASTM standard method for, 25:26479
flux measurements using rhodium-103 activation by inelastic scattering, (E), 23:5867 (KURRI-TR-42)
flux measurements using rhodium-103 inelastic scattering cross section, 23:52151
flux measurements using sulfur activation detectors, ASTM standard method for, 25:26480
flux measurements using threshold detectors, 21:26865(R) (HW-74679)
flux measurements using threshold detectors, (E), 22:48509(R) (BMwF-FBK-68-22)
flux measurements, moderated uniform-sensitivity proportional detectors for, 22:28118
flux monitoring of, development of aluminum—copper alloy activation detector for, 22:4437
flux monitoring of, spherical paraffin-moderated indium activation detector for, 25:15912
flux monitoring using uranium, effects of uranium-235 and -238 fissions on, 21:28798(R) (HW-78760)
flux monitoring, data processing of titanium-46 activation detectors for, 25:363 (AAEC/TM-550)
flux of accelerated particle-induced, geometry calculation for, 22:49037
flux of atmospheric, determination in quiet-Sun period at 46°N geomagnetic latitude of, 23:46303
flux of, definitions of, 21:9914
flux of, design and performance of cellulose nitrate track detectors for measuring, 21:10630
flux of, methods for counting tracks in solid state detectors for determining, 21:28209 (NORA-Memo-123)
flux of, use of threshold detectors for determination of, 21:17824(T) (ORNL-tr-1521)
flux on NRX reactor midplane, (E/T), 21:8021
flux production in thermal reactor test regions, spectrum-hardening filter for, (E), 22:44907
flux profile in uranium oxide (UO_2) light water-moderated critical assembly, measurement of, (E/T), 22:1875
flux spectra distribution in FMRB, measurement of 1.5 to 8.0 MeV, 24:11264 (FMRB-26/69)
flux spectra from foil activation measurements in reactors, computer program for determining, (T), 25:18641 (IN-1446)
flux spectra in depleted uranium, position-dependent, (E), 22:48424 (RPI-328-133, pp 35-55)
flux spectra in heavy water reactors, measurement using nuclear emulsions, 21:5688 (IS-1448)
flux spectra in heterogeneous lattice cells, NEVEMOR code for, 24:29080 (AECL-3423)
flux spectra in iron and depleted uranium in rectangular geometry, time-of-flight measurements of position-dependent angular, (E), 23:13183 (RPI-328-142, pp 68-116)
flux spectra in iron and depleted uranium, (E), 23:1882 (WASH-1093)
flux spectra in iron, angular, (E), 22:48424 (RPI-328-133, pp 35-55)
flux spectra in iron, calculations using analytical age theory model, (T), 23:3903
flux spectra in iron, time-of-flight measurements of position-dependent, (E), 23:5762
flux spectra in moderators, calculations of effects of re-entrant hole on, 23:13576 (RPI-328-142, pp 132-51)
flux spectra in slabs of iron and depleted uranium, time-of-flight measurements of reentrant hole effects on angular, (E), 23:3914
flux spectrum measurements in slabs of iron and depleted uranium, re-entrant hole effects on, (T), 22:48426 (RPI-328-133, pp 60-100)
flux spectrum measurements using multiple foil activation iterative method, (E/T), 23:5858
flux spectrum measurements using time-of-flight method, models for analyzing, (T), 22:48426 (RPI-328-133, pp 60-100)
flux spectrum synthesis using spatially discontinuous basis spectra, (T), 23:3913
flux values at pressure vessel of terrestrial power reactor, 22:7814(R) (ORNL-4178)
flux values in slightly-enriched water-moderated uranium lattices, measurements and theoretical comparison of, 21:23729 (WAPD-T-1852)
flux variations in water-moderated enriched uranium lattices, 21:14097
flux zones for NERVA, illustration of, 24:7246
fluxes from isotropic point sources in atmosphere, (T), 21:17259 (AD-646458)
fluxes in HFIR, measurement and analyses of differential (>0.5 MeV), 23:31199 (ORNL-TM-2565)
fluxes of, measurement for irradiation calculations, 24:14808(R) (BNWL-1020)
group constants for reactor materials, 24:52361 (JAERI-1195(Pt.1))
hodoscope for TREAT facility, circuit diagrams for amplifier discriminator boards for, 22:32735 (ANL-7310, pp 249-375)
importance function of water-moderated reactor, effects of central water gaps on, 23:39884
intensity of, in iron meteorites, 21:12534
interaction with biological tissues, review of, 23:47967
interactions n + d → n + n + p at 14 MeV, three-parameter system for studying, 23:20057
interactions n + d → n + n + p at 14.5 MeV, final state interaction in, (E), 23:25803
interactions n + d → n + p + n + γ, cross sections and spectra from, (E), 25:43560
interactions n + d at 0.5 to 5.3 MeV, charge-state flipping contribution to cross sections for, (E/T), 22:52930 (KFKI-19/1968)
interactions n + d at 1 to 21 MeV, semiempirical interpolation formula for elastic scattering, (T), 24:38088
interactions n + d at 14 MeV, differential cross section for elastic, (E), 22:53083
interactions n + d at 20 to 60 MeV, convergence of nonrelativistic graphs for elastic scattering, 25:28166
interactions n + p → n + p + γ at 14 MeV, cross section for, (E), 24:52396
interactions n + p → n + p + γ, cross sections and spectra from, (E), 25:43560
interactions n + p at 0.5 to 5.3 MeV, charge-state flipping contribution to cross sections for, (E/T), 22:52930 (KFKI-19/1968)
interactions n + p at 16.2 MeV, polarization in scattering, (E), 25:53530
interactions n + p at 21.6 MeV, polarization in scattering, (E), 25:53531
interactions n + p at 22 MeV, polarization in scattering, (E), 24:40577 (SUNI-10)
interactions n + p at 32 MeV, polarization in scattering, 25:53532
interactions with hydrogen atoms in liver and kidney neoplasms in man and rats, 23:45937
interactions with hydrogen nuclei in liver of rats, effects of beryllium administration on, 23:45914
ionization density distribution in tissues, 23:20080 (CERN-69-1)
ionization polarization curves for, analysis of, 23:20080 (CERN-69-1)
irradiation of small samples with, in nuclear reactors, 21:8510(P)
kerma derivation in relation to specific activity produced in threshold detector, 25:11074(R) (AECL-3777)
kinetic energy release of, calculation of, in tissue-like materials and tissue elements, 21:6541
kinetics for multiplying systems, analysis of pseudo-mode solutions for initial-value, (T), 23:23951 (BNL-13421)
kinetics in uranium-238 spheres, calculation of, (T), 22:11873(R) (GA-8085)
leakage in fast reactors, variations of sodium-void reactivity due to anisotropic, 21:35682 (ANL-7320, pp 377-85)
linear energy transfer in dielectric liquids, (T), 22:38800
linear energy transfer of, in relation to neutron-radiosensitivity of mammalian cells, 22:49365
moderation calculations for, stochastic model for, (T), 22:5729
moderation in materials, measurement of low concentrations of moisture by, 23:29244
moderation of, effect of anisotropic scattering on, 25:38846
moderation of, effects of scattering anisotropy on elastic, (T), 25:6165
moderation of, for absorption by control elements, 21:15811(P)
monitoring by detection of prompt gamma radiation from (n,γ) reactions with hydrogen, paraffin-moderated scintillation detector for, 23:35477
monitoring in reactor buildings, effects of source on efficiency of methods for, 23:29506(R) (THAI.-AEC-21)
monitoring of Carolinas-Virginia Tube Reactor coolant, 21:40548 (CVNA-284)
monitoring of, design and performance of portable dose-equivalent meter for, 22:2371
monitoring of, design of proton-recoil proportional detector for, 22:6570
monitoring of, use of helium production in neutron reactions (n,2n) and (n,α) with beryllium for, 21:19967
monitoring of, using iron activation, 21:6304 (AERE-M-1778)
monitoring system for, design of, 22:8358
monitoring using titanium-46 (n,p) reactions, scandium-46 burnout in, (T), 22:44674
nonleakage probability from bare enriched uranium—graphite assemblies, calculation of, 23:4383
penetration in cylindrical channels in shielding, (T), 23:46540
penetration in iron, calculations using analytical age theory model, (T), 23:3903
penetration in lithium hydride and paraffin, (E/T), 25:38538
penetration in shielding materials of, angular and energy distribution of, (T), 23:46535
penetration of iron and lead barriers, angular distribution after, (T), 24:45311
penetration through homogeneous and multilayer shields, slowing-down spectra from, (E/T), 23:13475 (AERE-R-5773(Vol.4), pp 1152-72)
penetration through slabs of lithium hydride below TSF-SNAP reactor, (T), 23:7281(R) (ORNL-4280)
phase space distribution in reactor flux of, analysis of adjoint function, (E/T), 22:1833
photoproduction from Z = 28 to 50 nuclei, angular distributions for, (E), 21:44642
photoproduction on chromium and lead at 22 to 32 MeV, (E), 23:3988
polarization analyzing powers for scattering on aluminum-27, magnesium, silicon, and sulfur, (E), 23:19215
polarization data for, Monte Carlo computer code for correcting, 24:8797 (CTC-9)
polarization data on, correction for finite geometry and polarized multiple scattering, 21:21619
polarization from deuterium (d,n) and tritium (d,n) and (p,n) reactions, review of, 21:38159 (LA-DC-8858)
polarization from deuterium (d,n) reactions, (E), 23:15355
polarization from scattering, intermediate structure in energy dependence of, (E), 21:21549
polarization from tritium (d,n) reactions, (E), 23:10961(R) (NP-17704)
polarization of 2- to 20-MeV, calculation of analyzing power of liquid helium polarimeter for measuring, 22:28259
polarization of 2- to 20-MeV, design and performance of liquid helium polarimeter for measuring, 22:28230
polarization of, design and performance of counter telescope for measurement of, 21:19927
production by $^{9}Be(^{3}He,n)^{11}C$ reaction in cyclotron, evaluation of therapeutic use of, 22:19370
production by cyclotrons, for use in therapy, 22:12878
production by deuterium (p,n) reactions, cross sections for forward, (B), 21:27517
production by deuterium-tritium reaction for use in therapy, 22:43351
production by deuteron reactions (d,n) with tritium, time-of-flight spectrometer for measuring spectra of, 22:19137
production by reactions of 10 MeV deuterons with heavy water targets in comparison with beryllium targets for radiotherapy, 25:16265
production by reactions of 20-MeV helium-3 ions, 14-MeV protons, and 7.5-MeV deuterons with beryllium target, 24:50
production for cross section determinations, 21:30284(R) (GA-7673)
production for use in therapy, design criteria of facility for, 25:26883
production in 86-in. cyclotron, 22:14433 (ORNL-4196, pp 66-89)
production in atmosphere, solar-cycle modulation of, (E/T), 25:14064
production in fast research reactor boosters using Linac electrons, 21:30252 (GA-7381)
production in tritium (d,n) reactions at 220 keV, spectra and absolute energies of, (E), 25:9968 (NP-18488)
production of 14-MeV, preparation of tritiated polyphenyl accelerator targets for, 21:35360 (EUR-3474.f)
production of 14-MeV, preparation of tritiated polyphenyl accelerator targets for, 24:25068(T) (SC-T-70-4014)
production of beams of, from light elements, cross sections and spectra for, (E), 25:45874
production of collimated monoenergetic beams, using associated-particle technique, (E), 23:3897
production of polarized, using deuterium (t,n) and tritium (d,n) reactions, (T), 22:9777
production of, description of copper reflected fast source reactor for, 22:12134
production of, design of lead—tantalum composite target for, 22:32375
production of, development of tritiated target for, (E), 25:5503(P)
production of, nuclear reactions for, 25:19007 (NCRP-38)
propagation in iron, pulse, (E), 23:37078
propagation in iron, space—time—energy behavior of monoenergetic pulsed, (E/T), 25:45881
propagation in non-moderating assemblies, operational B/sup N//sub L/ technique for analysis of, (T), 22:53077
propagation in nonmoderating assemblies, nonelastic cross section measurement by, 21:30119 (CONF-660206, pp 187-93)
protection against 0.5 to 400-MeV, National Council on Radiation Protection recommendations for, 25:19007 (NCRP-38)
pulse decay and distribution in reactor moderators, effects of inelastic scattering on, (T), 25:10315
pulse-height response in anthracene, direction sensitive effects in, 23:39941(R) (NP-17890)
quality factor for 15 MeV, development of method for determining, using gas delivering device, spectrometer, and tissue equivalent counter, 24:34335
quality factors at 0.1 to 18 MeV, (E), 25:48903 (CONF-710402-(Vol.2), pp 1.172-81)
radiation effects on behavior and survival of honey bees, effects of dose on, 23:18086
radiation effects on crystal structure and properties of pyrolytic silicon carbide, 23:51148
radiation effects on fracture toughness of welds on pressure vessel steels, 24:44741 (NRL-7095)
reaction with Z = 1 to 94 nuclei at 2.5 to 15 MeV, total cross sections for, (E), 25:28170
reactions (n, charged particle) with nuclei, telescope arrangement of radiation detectors for charged particles from, 22:43065
reactions (n,2α) and (n,t) with nitrogen-14 at 14.1 and 15.7 MeV, cross sections for, (E), 21:44579
reactions (n,2α) with neon-20 at 14.2 MeV, (E), 21:4251
reactions (n,2α) with neon-20 at 14.3 MeV, cross section and Q-value for, (E), 25:56717
reactions (n,2α) with nitrogen-14 at 14.1 MeV, α spectra and cross section for, (E), 23:21266 (ZFK-130, pp 162-4)

reactions (n,2α) with nitrogen-14 at 14.1 MeV, intermediate structure in cross section for, (E), 25: 56680
reactions (n,2α) with potassium-39 at 14 MeV, effective cross section for, (E), 22:50579
reactions (n,2n) and (n,3n) with boron-10, boron-11, copper, helium-3, lead, lithium-6, lithium-7, tritium, uranium-238, and yttrium-89 at 14 MeV, cross sections for, (E), 24:3836 (AWRE-O-47/69)
reactions (n,2n) at 14.8 MeV with A = 85 to 204 nuclei, cross sections and gamma spectra from, (E), 25:59797
reactions (n,2n) in gadolinium-156 at 14 to 15 MeV, 31-ms isomeric activity in gadolinium-155 from, (E), 24: 28778 (NP-18191)
reactions (n,2n) with A = 134 to 208 nuclei at 14 MeV, spin cut-off parameters for, (T), 22:39701
reactions (n,2n) with A = 140 to 204 nuclei at 14.7 MeV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,2n) with A = 140 to 204 nuclei at 14.7 MeV, cross sections for, (E), 24:26667
reactions (n,2n) with A = 140 to 204 nuclei at 14.7 MeV, cross sections for, (E), 22:50649
reactions (n,2n) with A = 19 to 141 nuclei at 14.2 and 14.8 MeV, cross sections for, (E), 25:38925 (NP-18712, pp 19-34)
reactions (n,2n) with A = 35 to 204 nuclei, cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions (n,2n) with A = 85 to 109 nuclei at 14.7 MeV, isomeric cross-section ratio and spin-cutoff parameters for, (E), 22:50583
reactions (n,2n) with A = 85 to 204 nuclei at 14.8 MeV cross sections for, (E), 25:53743(R) (INR-1318)
reactions (n,2n) with americium-243 at 8.0 to 14.4 MeV, production of spontaneously fissioning isomeric americium-242 by, (E), 21:23509
reactions (n,2n) with antimony-121 and rubidium-85 at 12.6 to 19.6 MeV, isomeric cross-section ratios for, (E), 22:42006
reactions (n,2n) with antimony-121 at 13 to 15 MeV, isomeric cross-section ratios for, (E), 22:16051
reactions (n,2n) with antimony-121, antimony-123, cadmium-106, holmium-165, praseodymium-141, samarium-144, tantalum-181, and tin-112 at 13 to 20 MeV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,2n) with antimony-121, antimony-123, indium-113, and indium-115, at 14.7 MeV, isomeric cross-section ratios for, (E), 23:1914
reactions (n,2n) with antimony-121, arsenic-75, cadmium-106, cerium-140, cerium-142, chromium-52, holmium-165, praseodymium-141, rubidium-85, samarium-144, tantalum-181, and tin-112 at 12.6 to 19.6 MeV, (E), 22:42006
reactions (n,2n) with antimony-123 and samarium-144 at 14 MeV, isomeric cross-section ratios for, (E), 22: 42006
reactions (n,2n) with antimony-123, barium-138, erbium-168, hafnium-180, and selenium-78 at 14.5 MeV, cross sections and gamma spectra from, (E), 25:20435
reactions (n,2n) with antimony-123, barium-138, erbium-168, hafnium-180, and selenium-78 at 14.5 MeV, isomeric cross sections for, (E), 25:1736(R) (INR-1197)
reactions (n,2n) with arsenic-75 at 14 MeV, cross section for, (E), 21:2675
reactions (n,2n) with arsenic-75, gallium-71, selenium-80 and -82, and tin-118 at 13.02 to 17.78 MeV, excitation functions for, (E), 25:53743(R) (INR-1318)
reactions (n,2n) with barium-138, cerium-140, neodymium-142, and samarium-144 at 14.5 MeV with isomeric excitation, cross sections for, (E), 24:35880
reactions (n,2n) with barium-138, cerium-140, neodymium-142, praseodymium-141, and samarium-144 at 14 MeV, activation cross sections for, (E), 22: 9889
reactions (n,2n) with beryllium-9 at 14 MeV, angular distributions from, (E), 21:7719
reactions (n,2n) with beryllium-9 at 14 MeV, two-body interactions in, (T), 21:9932 (CEA-R-2985)
reactions (n,2n) with beryllium-9 at 15 MeV, neutron energy spectrum from, (E), 21:44574 (ZFK-122, pp 299-304)
reactions (n,2n) with beryllium-9 at 2 to 15 MeV, calculations of neutron angular and energy distributions from, (T), 23:13206 (UCRL-50520)
reactions (n,2n) with beryllium-9 at 2.0 to 6.4 MeV, cross section of, (E), 23:28255
reactions (n,2n) with beryllium-9, bismuth-209, and iodine-127 at 14 MeV, angular correlations for, 23: 46935
reactions (n,2n) with beryllium-9, iodine-127, lead, and bismuth-209 at 14 MeV, mechanism of, (E), 24:13387
reactions (n,2n) with bismuth-209 and lead at 14 MeV, neutron—neutron angular correlations from, (E), 23: 47017
reactions (n,2n) with bismuth-209 and lead-208 at 14 MeV, DWBA analysis assuming direct mechanism, (T), 24:30815
reactions (n,2n) with bismuth-209 and lead-208 at 14 MeV, angular correlations for, (E), 23:19291
reactions (n,2n) with bismuth-209 at 14 MeV, cross section and neutron energy for, (E), 21:40443
reactions (n,2n) with bismuth-209 at 14 MeV, cross section for isomer production in, (E), 23:25880
reactions (n,2n) with bismuth-209 at 14.3 MeV, production of isomeric bismuth-208 in, (E), 21:4293
reactions (n,2n) with bromine-79 and -81 at 14.7 MeV, cross sections for, (E), 21:38272
reactions (n,2n) with bromine-79 and germanium-72 at 14.8 MeV, isomeric cross sections for, (E), 25:12430 (INR-P-1091)
reactions (n,2n) with bromine-79 and germanium-73 at 14.8 MeV, isomeric cross sections for, (E), 24:47627
reactions (n,2n) with bromine-79 in bromates, recoil effects in, 23:296
reactions (n,2n) with bromine-81 at 13.39 to 14.96 MeV, production of isomeric bromine-80 in, (E), 21:7724
reactions (n,2n) with bromine-81 at 14.7 MeV, isomeric cross-section ratio for, (E), 24:28763
reactions (n,2n) with bromine-81, indium-113, molybdenum-92, and samarium-144, isomeric cross-section ratios for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,2n) with bromine-81, indium-113, molybdenum-92, and samarium-144 at 14 and 15 MeV, isomeric cross-section ratios for, (E), 22:24872
reactions (n,2n) with cadmium-106 at 14.4 MeV, cross section for, (E), 24:1846
reactions (n,2n) with cadmium-112 and nickel-58 at 2.2 to 3.5 and 13.7 to 14.8 MeV, activation cross sections for, (E), 22:24842
reactions (n,2n) with calcium-40 at 14.7 MeV, cross section for, (E), 22:41998
reactions (n,2n) with calcium-48 and potassium-39 at 14.2 MeV, activation cross sections for, (E), 22:18180
reactions (n,2n) with calcium-48 and scandium-45 at 14 MeV, cross sections for, (E), 21:15508 (CONF-660221-, pp 60-4)
reactions (n,2n) with cerium-140 and cerium-142 at 14.8 MeV, cross sections for, (E), 22:48559
reactions (n,2n) with cesium-133 at 14.2 and 14.6 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,2n) with chlorine-35 and potassium-39 at 15 MeV, isomeric cross-section ratios for, (E), 23:7253
reactions (n,2n) with chlorine-35 and potassium-39 at 15 MeV, cross sections for, (E), 22:39622
reactions (n,2n) with chlorine-35, molybdenum-92, and scandium-45 at 14.8 MeV, isomeric cross-section ratios for, (E), 22:32539
reactions (n,2n) with chromium-52 at 14 MeV, cross section of, (E), 21:2674
reactions (n,2n) with cobalt-59 and molybdenum-92, isomer ratios and cross sections for, (E), 22:27055
reactions (n,2n) with cobalt-59 at 12 to 18 MeV, excitation function and isomeric cross-section ratio for, (E), 22:26934
reactions (n,2n) with cobalt-59 at 12.6 to 18.3 MeV, cobalt-58 isomer production in, (E/T), 21:44607 (ZFK-122, pp 289-92)
reactions (n,2n) with cobalt-59 at 13.39 to 14.96 MeV, production of isomeric cobalt-58 in, (E), 21:7724
reactions (n,2n) with cobaltammine bromide, effects of ligand on behavior of bromine-78 from, 21:24057
reactions (n,2n) with copper and iron-56 at 14.4 MeV, differential cross sections and spectra from, (E), 25: 25685
reactions (n,2n) with copper-63 and -65 at 14.7 MeV, cross sections for, (E/T), 22:7683
reactions (n,2n) with copper-63 and copper-65 up to 20 MeV, cross-section standards for, 23:5859
reactions (n,2n) with copper-63 and iron-54 at 13.9 to 17.4 MeV, excitation functions for, (E), 22:35281
reactions (n,2n) with copper-63 at 13.5 to 14.9 MeV, energy dependence of cross sections for, (E), 24:33124
reactions (n,2n) with copper-63, -65, manganese-55, zinc-64, and -66 at 14 to 18 MeV, cross sections for, (E), 23:49332(R) (EANDC(E)-115(U))
reactions (n,2n) with copper-63, copper-65, and molybdenum-92 at 14.7 and 14.8 MeV, activation cross sections for, (E), 23:10980
reactions (n,2n) with copper-63, copper-65, silver-107, and silver-109 at 13.7 to 14.7 MeV, activation cross sections for, (E), 22:22573
reactions (n,2n) with copper-63, excitation functions for measuring fission-neutron spectra, (E), 21:44645
reactions (n,2n) with copper-63, fluorine-19, gallium-69, silver-107, and zinc-64 at 14.8 MeV, cross sections for, (E), 22:24835(R) (BARC-305)
reactions (n,2n) with copper-63, fluorine-19, gallium-69, silver-107, and zinc-64 at 14.8 MeV, cross sections for, (E), 22:32536
reactions (n,2n) with copper-63, fluorine-19, gallium-69, silver-107, and zinc-64 at 14.8 MeV, cross sections for, (E), 21:15509 (CONF-660221-, pp 66-8)
reactions (n,2n) with copper-63, fluorine-19, gallium-69, silver-107, and zinc-64 at 14.8 MeV, cross sections for, (E), 21:17340(R) (AEET-267)
reactions (n,2n) with copper-63, gold-197, thallium-203, thorium-232, and uranium-238 below (n,3n) thresholds, cross-section calculations using Hauser—Feshback theory, (T), 25:3591 (AAEC/TM-542)
reactions (n,2n) with copper-65 and fluorine-19 at 14 MeV, cross-section fluctuations in, (E), 22:1607
reactions (n,2n) with copper-65, fluorine-19, gold-197, indium-115, silver-107, and tantalum-181 at 13.5 to 14.7 MeV, excitation functions for, (E), 23:5823
reactions (n,2n) with copper-65, fluorine-19, gold-197, indium-115, silver-107, and tantalum-181 at 13.5 to 14.7 MeV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,2n) with copper-68, fluorine-19, gallium-69, and molybdenum-92 near 14 MeV, excitation functions for, (E), 25:50662
reactions (n,2n) with deuterium at 14 MeV, neutron time-of-flight spectra from, (E), 21:44556
reactions (n,2n) with deuterium at 14 MeV, neutron scattering length from, (E), 24:3841
reactions (n,2n) with deuterium at 14.1 MeV, differential cross sections for, (E), 22:48445
reactions (n,2n) with deuterium at 14.1 MeV, neutron spectra and differential cross sections for, (E), 24:1731 (NP-18029)
reactions (n,2n) with deuterium at 14.1 MeV, spectra from neutron—neutron quasi-free scattering in, (E), 25:38865
reactions (n,2n) with deuterium at 14.4 MeV, numerical calculations for three separable potential models, (T), 25:25633
reactions (n,2n) with deuterium at 14.5 MeV, final-state interaction in, (E), 23:25803
reactions (n,2n) with deuterium at 14.5 MeV, Monte Carlo analysis of final-state interaction in, (E/T), 23: 42847 (CEA-R-3726)
reactions (n,2n) with deuterium at 14.5 MeV, Monte Carlo simulation of cross sections from, (E/T), 25: 9968 (NP-18488)
reactions (n,2n) with deuterium at 18.5 MeV, n—n scattering length from, (E), 23:13198
reactions (n,2n) with deuterium at 4.0 to 6.5 MeV, cross section of, (E), 23:28234
reactions (n,2n) with deuterium at high energies, theory of, 23:42851
reactions (n,2n) with erbium-162 and europium-153 at 14.2 MeV, cross sections for, (E), 23:15468
reactions (n,2n) with europium-153, gadolinium-160, neodymium-142, and terbium-159 at 14.2 MeV, cross sections for, (E), 22:32638
reactions (n,2n) with even krypton and xenon isotopes at 14 MeV, activation cross sections for, (E), 23:3973
reactions (n,2n) with even-A tellurium isotopes at 15 MeV, activation cross sections for, (E), 23:10965
reactions (n,2n) with fluorine-19 at 13.5 to 14.8 MeV, cross section for, (E), 22:13942
reactions (n,2n) with fluorine-19 at 13.5 to 14.9 MeV, slope of excitation function at 14.5 MeV from, (E), 25:46075
reactions (n,2n) with fluorine-19, holmium-165, indium-115, manganese-55, and sodium-23 at 12.7 to 19.5 MeV, activation cross section for, (E), 22:3743
reactions (n,2n) with fluorine-19, holmium-165, indium-115, manganese-55, and sodium-23 at 12.7 to 19.4 MeV, activation cross sections for, (E), 22:3624
reactions (n,2n) with fluorine-19, holmium-165, indium-115, manganese-55, and sodium-23, activation cross sections for, (E), 21:25518 (WASH-1071)
reactions (n,2n) with gallium-69, phosphorus-31, silver-107, and zinc-64 at 14.8 MeV, cross sections for, (E), 22:29973
reactions (n,2n) with germanium-70 and germanium-76 at 14.4 MeV, cross sections for, (E), 21:19223
reactions (n,2n) with germanium-76 and holmium-165 at 12.5 to 18.5 MeV, cross sections and isomeric cross section ratios for, (E), 24:18391
reactions (n,2n) with germanium-76 at 13.39 to 14.96 MeV, production of isomeric germanium-75 in, (E), 21:7724
reactions (n,2n) with germanium-76, selenium-82, and zinc-70 at 14.7 MeV, isomer ratios in, (E), 25:59766
reactions (n,2n) with germanium-76, tellurium isotopes, and tin-118 at 14 MeV, spin cutoff parameters for, (E/T), 23:15419
reactions (n,2n) with gold-197 at 10 to 20 MeV, statistical-model calculation of excitation functions and isomer ratios for, (T), 25:39048
reactions (n,2n) with hafnium-174 and hafnium-176 at 14 MeV, cross sections for, (E), 21:25518 (WASH-1071)
reactions (n,2n) with hafnium-174 and hafnium-176 at 14.5 MeV, cross sections for, (E), 23:19263
reactions (n,2n) with heavy nuclei at 14 MeV, DWBA analysis assuming direct mechanism, 24:30815
reactions (n,2n) with indium-113 and -115 at 13.1 to 18.2 MeV, isomeric cross section ratios for, (E), 25: 1736(R) (INR-1197)
reactions (n,2n) with indium-113 and -115 at 13.1 to 18.2 MeV, excitation functions and isomeric cross-section ratios for, (E), 25:5763
reactions (n,2n) with indium-113 and indium-115 at 14.7 MeV, cross sections for, (E), 23:21335 (ZFK-130, pp 233-8)
reactions (n,2n) with indium-113 and indium-115 at 15 MeV, effective cross sections and isomeric cross-section ratios for, (E), 23:7289
reactions (n,2n) with indium-113 and indium-115 at 14.7 MeV, isomeric cross-section ratios for, (E), 22:30003
reactions (n,2n) with indium-113 and molybdenum-92 at 14.8 MeV, cross sections and isomer ratios for, (E), 21:15545 (CONF-660221)
reactions (n,2n) with indium-115 at 14 MeV, cross section for isomer production in, (E), 23:25880
reactions (n,2n) with indium-115, iodine-127, manganese-55, and nickel-58 at 14.8 MeV, cross sections for, (E), 24:8871
reactions (n,2n) with lead-204 at 13 to 18 MeV, cross sections for, (E), 25:1736(R) (INR-1197)
reactions (n,2n) with lead-204, lead-208, mercury-204, thallium-203, and zirconium-91, statistical model interpretation of cross sections for, (E/T), 23:11037
reactions (n,2n) with lead-206 at 14 MeV, cross section for isomer production in, (E), 23:25880
reactions (n,2n) with light- and medium-weight nuclei at 3 MeV above threshold, effects of direct inelastic scattering on cross sections for, (E), 21:31743
reactions (n,2n) with manganese-55, copper-63 and -65, and zinc-64 and -67 at 13 to 18 MeV, excitation functions for, (E), 23:34756
reactions (n,2n) with medium-weight and heavy nuclei, analysis of single-particle effects in, (E/T), 23:17098
reactions (n,2n) with medium-weight nuclei at 14.7 MeV, cross sections for, (E), 21:31743
reactions (n,2n) with mercury-196, mercury-198, mercury-200, and mercury-204 at 14 MeV, activation cross sections for, (E), 23:31016
reactions (n,2n) with molybdenum-92 and -94 at 13 to 15 MeV, excitation functions for, (E), 25:25778
reactions (n,2n) with molybdenum-92 at 14.8 MeV, production of isomeric molybdenum-91 in, (E), 21: 12007
reactions (n,2n) with molybdenum-92, selenium-74, and zirconium-90 at 12 to 18 MeV, isomeric ratios and excitation functions in total cross sections of, (E), 24: 30722 (INR-P-1105)
reactions (n,2n) with natural and radiogenic lead at 15.5 MeV, γ spectra and cross-section limits for, (E), 25: 46091
reactions (n,2n) with neodymium-142, -148, and -150 at 14 MeV, activation cross sections for, (E), 24:38297

reactions (n,2n) with neptunium-237, uranium-233, and uranium-235, cross sections for, (E), 23:1879 (ORNL-4306, pp 1-21)
reactions (n,2n) with niobium-93 at 14 MeV, cross section for, (E), 25:43897
reactions (n,2n) with nitrogen-14 at 14.7 MeV, cross section for, (E), 25:3576
reactions (n,2n) with nuclei at 12 to 18 MeV, total cross sections and isomeric cross-section ratios for, (E), 25:17946
reactions (n,2n) with nuclei at 14 MeV, isomeric cross-section ratios for, 25:15182
reactions (n,2n) with nuclei at 14.5 MeV, computer code for cross-section calculations for, 24:10946 (UCRL-50736)
reactions (n,2n) with nuclei, analysis using free Fermi gas model, (T), 24:30882
reactions (n,2n) with nuclei, single particle effects in, (T), 24:15995
reactions (n,2n) with odd-proton nuclei at 14.7 MeV, cross sections for, (E/T), 25:23018 (AWRE-O-76/66)
reactions (n,2n) with potassium-39 at 14.2 MeV, cross section for, (E), 22:32530
reactions (n,2n) with potassium-39 at 14.7 MeV, isomeric cross-section ratio for, 25:20312
reactions (n,2n) with rare earth isotopes at 14.5 MeV, activation cross sections for, 21:10254(R) (TEES-2671-5)
reactions (n,2n) with rare-earth nuclei at 14.5 MeV, cross sections for, (E), 21:30011
reactions (n,2n) with rubidium-85 and -87 at 14 MeV, gamma spectra from, (E), 24:22109
reactions (n,2n) with rubidium-85 at 14 MeV, isomeric cross section ratio for, (E), 23:52130
reactions (n,2n) with scandium-45 at 14 MeV, isomer production ratios for, (E), 21:19233
reactions (n,2n) with scandium-45 at 14 MeV, production of isomeric scandium-44 in, (E), 21:17340(R) (AEET-267)
reactions (n,2n) with scandium-45 at 14.8 MeV, production of isomeric scandium-44 in, (E), 21:12007
reactions (n,2n) with selenium-74, selenium-76, and selenium-82 at 14.7 MeV, cross sections for, (E), 21:33929
reactions (n,2n) with selenium-74, selenium-80, and selenium-82 at 14.4 MeV, cross sections for, (E), 21:19221
reactions (n,2n) with selenium-74, zirconium-90, and molybdenum-92 at 12 to 18 MeV, excitation functions and isomeric cross-section ratios for, (E), 24:10971
reactions (n,2n) with selenium-76 at 14 MeV, cross section for, (E), 21:2675
reactions (n,2n) with selenium-82 at 14.7 MeV, cross section for, (E), 23:25854
reactions (n,2n) with selenium-82 at 15 MeV, calculation for isomer ratio in, (T), 23:30965(R) (RPI-3947-2)
reactions (n,2n) with strontium-88 at 14 MeV, use for enrichment of isomeric strontium-87 by recoil effect in gelatine, (E), 21:35442
reactions (n,2n) with tantalum-181 at 12 to 18 MeV, cross section for production of isomeric tantalum-180 by, (E), 21:44666 (INR-795/1/PL)
reactions (n,2n) with tellurium-120, tellurium-122, tellurium-128, and tellurium-130 at 14.8 MeV, isomeric cross-section ratios for, (E), 22:42058
reactions (n,2n) with tellurium-130 at 14 MeV, γ spectra from, (E), 22:39671
reactions (n,2n) with thallium-203 at 14 MeV, isomeric cross-section ratio for, (E), 22:48545
reactions (n,2n) with thallium-203 at 14.1 MeV, isomer ratios of thallium-202 in, (E), 21:46737
reactions (n,2n) with titanium-46 and fluorine-19 at 14.7 MeV, cross sections for, (E), 24:20350
reactions (n,2n) with uranium-238, effective cross section for, (E), 22:40376
reactions (n,2n) with vanadium-51 at 14 MeV, cross section for, (E), 21:1061
reactions (n,2n) with yttrium-89 at 13.29 to 17.58 MeV, statistical-model analysis of excitation function for, (E/T), 25:59768
reactions (n,2n) with yttrium-89 at 13.3 to 17.6 MeV, cross sections for, (E), 24:30721 (INR-1147)
reactions (n,2n) with yttrium-89 at 14 MeV, cross section for isomer production in, (E), 23:25880
reactions (n,2n) with Z = 17 to 82 nuclei at 15 MeV, isomeric cross-section ratios and spin cut-off parameters for, (E/T), 23:7265
reactions (n,2n) with Z = 4 to 82 nuclei at 14.8 MeV, neutron time-of-flight spectra from, (E), 24:13303
reactions (n,2n) with Z = 40 to 60 nuclei at 14.4 MeV, activation cross sections for, (E), 24:24575
reactions (n,2n) with zinc-70 at 14.4 MeV, activation cross section for, (E), 23:8967
reactions (n,2n), (n,α) and (n,p) with copper-65 at 14.4 to 16.7 MeV, cross sections for, (E), 24:26621
reactions (n,2n), (n,α), and (n,p) with A = 142 to 165 nuclei at 14 MeV, cross sections for, (E), 24:15890
reactions (n,2n)2α with beryllium-9 at 14 MeV, two-body final-state interactions in, (E), 21:21435 (CEA-R-2986)
reactions (n,2n)2α with beryllium-9, effective cross section for, (E), 22:18129
reactions (n,2p) with A = 41 to 139 nuclei at 14.6 MeV, cross sections for, (E), 25:7828
reactions (n,2p), (n,He-3) and (n,n'α) with rhodium-103 at 15 MeV, activation cross sections for, (E), 23:10965
reactions (n,3n) with cesium-133, iodine-127, niobium-93, and rhodium-103 at 19.5 MeV, statistical analysis of cross sections for, (E/T), 22:50642
reactions (n,3n) with indium-113, praseodymium-141, and silver-107 at 18.2 to 19.5 MeV, statistical analysis of cross sections for, (E/T), 22:50642
reactions (n,α) and (n,2n) in beryllium, helium production by, 21:25451
reactions (n,α) and (n,d) with calcium-44 at 14 MeV, cross sections for, (E), 21:15508 (CONF-660221-, pp 60-4)
reactions (n,α) and (n,He-6) with beryllium-9 at 14.4 MeV, differential cross sections for, (E), 21:23420
reactions (n,α) and (n,n') with carbon-12 in stilbene at 14.0 MeV, sum of cross sections and alpha and p—α-coincidence spectra from, (E), 25:32265
reactions (n,α) and (n,np) with argon-40 at 14 to 15 MeV, cross sections for, (E), 21:14930(R) (ORO-3235-12)
reactions (n,α) and (n,p) in cesium iodide at 12 to 22 MeV, analysis for pre-equilibrium emission mechanism in, (E/T), 25:59826
reactions (n,α) and (n,p) with aluminum-27 at 12 to 15 MeV, cross sections for, (E), 21:21481 (USNRDL-TR-67-21)
reactions (n,α) and (n,p) with aluminum-27 at 12 to 15 MeV, total cross sections for, (E), 21:29925
reactions (n,α) and (n,p) with bromine-81 at 14.7 MeV, cross sections for, (E), 21:38272
reactions (n,α) and (n,p) with copper isotopes, gallium isotopes, germanium isotopes, and zinc isotopes at 14.8 MeV, cross sections for, (E), 21:33942
reactions (n,α) and (n,p) with iodine, indium, nickel, niobium, silver, tin, titanium, vanadium, and zirconium isotopes at 14.8 MeV, cross sections for, (E), 23:46967
reactions (n,α) and (n,p) with manganese-55 at 14.7 MeV, cross sections for, (E), 21:13825
reactions (n,α) and (n,p) with neon-20 at 14.3 MeV, spectra and cross sections for, (E), 25:56717
reactions (n,α) and (n,p) with nitrogen-14 at 5.8 to 8.6 MeV, differential cross sections and γ spectra for, (E), 22:20576 (ORNL-TM-2159)
reactions (n,α) and (n,p) with nitrogen-14 at 5.8 to 8.6 MeV, γ production cross sections for, (E), 23:1882 (WASH-1093)
reactions (n,α) and (n,p) with nitrogen-14 at 5.8 to 8.6 MeV, γ spectra and production cross sections for, (E), 22:37291 (ORNL-TM-2267)
reactions (n,α) and (n,p) with nuclei, cross sections for radioisotope production in, (E), 25:36686 (CONF-680986-1)
reactions (n,α) and (n,p) with potassium-39 at 2.46 MeV, absolute cross sections for, (E), 21:13844
reactions (n,α) and (n,p) with potassium-41 at 14.2 MeV, cross sections for, (E), 22:32530
reactions (n,α) and (n,p) with silicon at 6.7 to 13.4 MeV, fluctuation analysis of, (E/T), 23:44881
reactions (n,α) and (n,p) with silicon-28 at 12.80 to 16.24 MeV, excitation functions and spectra from, (E), 25:45978
reactions (n,α) and (n,p) with silicon-28 at 7.3 to 16.4 MeV, cross sections for, (E), 21:7762
reactions (n,α) and (n,p) with Z = 16 to 58 nuclei at 14.8 MeV, cross sections for, (E), 22:48499
reactions (n,α) and (n,p) with Z = 8 to 25 nuclei at 14 MeV, cross sections for, (E), 21:17340(R) (AEET-267)
reactions (n,α) and (n,t) with nitrogen-14 at 2.5 MeV and 4.0 to 6.4 MeV, cross sections for, (E), 21:2641
reactions (n,α) with A = 12 to 142 nuclei, angular distributions and analyzing powers for, (E), 25:7806(R) (BMBW-FBK-70-14)
reactions (n,α) with A = 122 to 169 nuclei at 14.2 MeV, presence of direct effects in spectra from, (E/T), 25:59802
reactions (n,α) with A = 41 to 142 nuclei at 15 MeV, absolute cross sections for, (E), 23:5844
reactions (n,α) with A = 47 through 64 nuclei at 14.6 MeV, α spectra and cross sections for, (E), 23:21324
reactions (n,α) with aluminum-27 and arsenic-75 at 13.5 to 14.9 MeV, excitation functions for, (E), 24:24522
reactions (n,α) with aluminum-27 and arsenic-75 at 13.6 to 14.8 MeV, excitation functions for, (E), 24:40550 (WASH-1136)
reactions (n,α) with aluminum-27 and cobalt-59 at 5 to 20 MeV, intercalibrated cross sections for, (E), 24:35838
reactions (n,α) with aluminum-27 and vanadium-51 at 13.5 to 14.7 MeV, excitation functions for, (E), 23:5823
reactions (n,α) with aluminum-27 at 13.5 to 14.7 MeV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,α) with aluminum-27 at 13.7 to 14.7 MeV, activation cross sections for, (E), 22:22573
reactions (n,α) with aluminum-27 at 13.8 to 14.8 MeV, total cross section for, (E), 23:19214
reactions (n,α) with aluminum-27 at 14 MeV, cross section for isomer production in, (E), 23:25880
reactions (n,α) with aluminum-27 at 14 MeV, cross section for, (E), 22:32517
reactions (n,α) with aluminum-27 at 14 MeV, cross-section fluctuations in, (E), 22:1607
reactions (n,α) with aluminum-27 at 14.43 MeV, cross sections for, (E), 25:5641
reactions (n,α) with aluminum-27 at 14.7 MeV, activation cross section for, (E), 23:10980
reactions (n,α) with aluminum-27 at 14.7 MeV, cross section for, (E), 24:22126
reactions (n,α) with aluminum-27 at 14.8 MeV, cross section for, (E), 24:8871
reactions (n,α) with aluminum-27 at 14.8 MeV, production cross section for, (E), 25:45981
reactions (n,α) with aluminum-27 at 6 to 20 MeV, activation cross section for, (E), 22:3624
reactions (n,α) with aluminum-27 at 6 to 20 MeV, activation cross section for, (E), 22:3743
reactions (n,α) with aluminum-27 at 6 to 20 MeV, activation cross sections for, (E), 21:25518 (WASH-1071)
reactions (n,α) with aluminum-27 up to 20 MeV, cross-section standards for, 23:5859
reactions (n,α) with aluminum-27, cobalt-59, and copper-63 at 6.0 to 8.3 MeV, cross sections for, (E), 21:4259
reactions (n,α) with aluminum-27, cross sections for, (E), 25:36688(R) (N-70-43042)
reactions (n,α) with aluminum-27, multiple foil activation iterative method for evaluating differential cross sections for, (E/T), 23:5858
reactions (n,α) with argon-40 and carbon-12 at 14 MeV, cross sections for, (E), 25:17818
reactions (n,α) with argon-40 at 14.4 MeV, α spectra, cross sections, and Q-value for, (E), 25:56718
reactions (n,α) with argon-40, carbon-12, and neon-20 at 14 MeV, cross sections for, 24:47574(R) (NYO-3417-12)
reactions (n,α) with arsenic-75, magnesium-26, and rubidium-85 at 13 to 19 MeV, cross sections for, (E), 21:7764
reactions (n,α) with barium-138 at 14 MeV, activation cross sections for, (E), 22:9889
reactions (n,α) with barium-138, cerium-140, and neodymium-142 at 15 MeV, differential and total cross sections for, (E), 21:21529
reactions (n,α) with beryllium-9 at 8 to 30 MeV, angular distributions and excitation functions for, (E), 25:3564 (KFK-1190)
reactions (n,α) with boron-10 at 0.3, 0.4, and 0.5 MeV, gamma production cross sections for, (E), 21:42614(R) (ORO-2791-26)
reactions (n,α) with boron-10 at 1 to 5 MeV, γ production cross sections for, (E), 23:5813(R) (TID-24763)
reactions (n,α) with boron-10 at 14.4 MeV, differential cross sections for, (E), 24:10933
reactions (n,α) with boron-10 at 30 to 500 keV, cross section for, (E), 22:13946
reactions (n,α) with boron-10 at 300, 400, and 500 keV, γ production cross sections for, (E), 22:20578 (WASH-1079)
reactions (n,α) with boron-10 at 45 keV to 14.8 MeV, gamma production cross sections for, (E), 25:53597 (CONF-701002-, pp 141-50)
reactions (n,α) with boron-10 at 98 to 505 keV, cross sections for, (E), 21:40432 (WASH-1074)
reactions (n,α) with boron-10 below 200 keV, recommended values of, 25:53598 (CONF-701002-, pp 151-65)
reactions (n,α) with boron-10 in HeLa cells, RBE for α particles and lithium ion recoil in relation to cell survival following, 25:8745
reactions (n,α) with boron-10 up to 2 MeV, R-matrix evaluation of, 25:53592 (CONF-701002-, pp 107-20)
reactions (n,α) with boron-10 up to 800 keV, cross sections for, (E), 23:17074 (N-68-33763)
reactions (n,α) with boron-10 up to 800 keV, relative cross sections for, (E), 23:19178
reactions (n,α) with boron-10, data evaluation for cross sections and branching ratios of, 22:39579 (EUR-3950)
reactions (n,α) with boron-10, gamma emission in, (E), 21:4277 (ORO-2791-19, pp 32-74)
reactions (n,α) with boron-11 at 15.5 to 19 MeV, cross section for, (E), 25:14895
reactions (n,α) with bromine and silver in nuclear emulsions at 15.1 and 21.8 MeV, angular distributions and energy spectra from, (E), 21:31767
reactions (n,α) with bromine-79 at 14.7 MeV, cross sections for, (E), 21:38272
reactions (n,α) with bromine-81, cross section for, (E), 23:1850
reactions (n,α) with calcium-40 and sulfur-32, differential cross sections for, (T), 21:46685 (LYCEN-6746)
reactions (n,α) with calcium-40 at 2.9 to 5.1 MeV, differential cross sections and α spectra for, (E), 22:7659 (LYCEN-6755)
reactions (n,α) with calcium-40 at 5.13 MeV, α angular distribution and spectra for, (E), 22:15975
reactions (n,α) with calcium-44 and potassium-41 at 14.2 MeV, activation cross sections for, (E), 22:18180
reactions (n,α) with carbon-12 and fluorine-19 at 14 MeV, cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions (n,α) with carbon-12 at 14 and 16 MeV, differential cross section for, (E), 22:50540
reactions (n,α) with carbon-12 at 14 MeV, angular distributions for, (E), 23:19163
reactions (n,α) with carbon-12 at 14 MeV, cross sections and spectra from, (E), 25:44673
reactions (n,α) with carbon-12 at 14 MeV, DWBA analysis of, (E/T), 23:19170
reactions (n,α) with carbon-12 at 14 MeV, DWBA calculation of angular distributions for, (T), 23:39943
reactions (n,α) with carbon-12 at 14.1 MeV, α spectra and angular distributions for, (E), 24:8850
reactions (n,α) with carbon-12 at 14.3 MeV, cross sections for, (E), 23:46942(R) (NYO-3417-11)
reactions (n,α) with carbon-12 in stilbene crystals at 14 MeV, differential cross sections for, (E), 21:44573 (ZFK-122, pp 293-8)
reactions (n,α) with cesium-133 in reactor spectrum, cross section for, (E), 22:24837 (KR-123)
reactions (n,α) with chlorine-35 at 14.6 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,α) with chlorine-37 at 13 to 16 MeV, cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions (n,α) with chromium-54 at 14.8 MeV, activation cross section for, (E), 22:1616
reactions (n,α) with copper-63 at 0.1 to 18 MeV, excitation functions for, (E), 25:36741 (WHAN-SA-107)
reactions (n,α) with copper-63 at 13 and 14.5 MeV, cross section calculations using composite nuclear level-density formula, 21:38386
reactions (n,α) with copper-63 at 6 to 20 MeV, cross sections for, (E), 21:40403
reactions (n,α) with copper-63 at 8 and 15 MeV, cross sections for production of isomeric cobalt-60 by, (E), 21:42603
reactions (n,α) with dysprosium-160, -161, -163, and -164 at 14.2 MeV, energy spectra from, (E), 25:53742 (INR-1275)

reactions (n,α) with dysprosium-160, -162, and -164 and europium-153 at 14.2 MeV, statistical analysis of energy spectra from, (E), 25:53743(R) (INR-1318)
reactions (n,α) with dysprosium-161, -163, and -164 at 14.2 MeV, α spectra from, (E), 25:1736(R) (INR-1197)
reactions (n,α) with erbium-166 and -168 at 14.2 MeV, alpha spectra from, (E), 24:43315 (INR-1175)
reactions (n,α) with europium-151, gadolinium-158, holmium-165, and neodymium-144 at 14.2 MeV, cross section for, (E), 23:15468
reactions (n,α) with fluorine-19 at 4.7 MeV, cross section for, (E), 21:7722(R) (AEET-254)
reactions (n,α) with fluorine-19, cross sections for, 21:10262
reactions (n,α) with fluorine-19, oxygen-16 energy level at 6.130 keV from, (E), 22:29930
reactions (n,α) with gadolinium-158 at 14.2 MeV, cross section for, (E), 22:32638
reactions (n,α) with germanium-72 and germanium-74 at 14.5 MeV, isomeric cross-section ratios for, (E), 23:3969
reactions (n,α) with germanium-72 and germanium-74 at 14.4 MeV, cross sections for, (E), 21:19223
reactions (n,α) with hafnium-180 at 14 MeV, cross sections for, (E), 21:25518 (WASH-1071)
reactions (n,α) with hafnium-180 at 14.5 MeV, cross section for, (E), 23:19263
reactions (n,α) with indium-115 at 14.6 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,α) with iron-54 up to 14 MeV, Hauser—Feshbach analysis of excitation functions for, (E/T), 25:20346
reactions (n,α) with iron-54, selenium-78, and selenium-80 at 14.4 MeV, cross sections for, (E), 21:19221
reactions (n,α) with krypton-86 at 14 MeV, activation cross sections for, (E), 23:3973
reactions (n,α) with lanthanum-139 at 16 MeV, using polarized beams, asymmetry of, (E), 22:42073
reactions (n,α) with lithium-6 at 1.5 to 700 keV, preliminary measurements of the cross section for, (E), 25:53593 (CONF-701002-, pp 121-4)
reactions (n,α) with lithium-6 at 10 to 600 keV, parasitic effects in cross-section measurements, (E/T), 25:53596 (CONF-701002-, pp 136-40)
reactions (n,α) with lithium-6 at 100 to 400 keV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,α) with lithium-6 at 100 to 500 keV, cross section for, (E), 25:14913
reactions (n,α) with lithium-6 at 150 to 280 keV, cross-section measurement using associated-particle method, (E), 22:18147
reactions (n,α) with lithium-6 at 9 to 342 keV, cross sections for, (E), 21:25518 (WASH-1071)
reactions (n,α) with lithium-6 below 1.7 MeV, review of data on cross sections for, 25:53591 (CONF-701002-, pp 80-106)
reactions (n,α) with lithium-6, CCDN cross-section data evaluation for, 23:3937 (CCDN-NW-3)
reactions (n,α) with mercury-200 at 14 MeV, activation cross section for, (E), 23:31016
reactions (n,α) with neodymium-146 and -148 at 14 MeV, activation cross sections for, (E), 24:38297
reactions (n,α) with neon-20 at 3 to 6 MeV, cross section for, (E), 23:49346
reactions (n,α) with neon-20 at 3184 keV, n-p singlet effective range from, (E), 23:1796
reactions (n,α) with nickel and nickel-58 in reactor spectrum, cross sections for helium production by, (E), 23:5860
reactions (n,α) with nickel-64 at 14.8 MeV, iron-61 beta decay scheme from, (E), 22:1618
reactions (n,α) with niobium-93, oxygen-16, rhodium-103, and silver-107 at 14 MeV, angular distributions for, (E), 23:49332(R) (EANDC(E)-115(U))
reactions (n,α) with nitrogen-14 and oxygen-16 at 15 MeV, angular distributions for, (E), 22:44626
reactions (n,α) with nitrogen-14 and zirconium at 14 MeV, angular correlations and energy spectra for, (E), 22:35261
reactions (n,α) with nitrogen-14 at 14 MeV, angular distributions for, (E), 21:15485 (CONF-660221-, pp 56-9)
reactions (n,α) with nitrogen-14 at 14 MeV, α angular and energy distributions for, (E), 23:1813
reactions (n,α) with nitrogen-14 at 14 MeV, α angular and energy distributions for, (E), 23:7227
reactions (n,α) with nitrogen-14 at 14 MeV, differential cross sections and spectra for, (E), 22:20454
reactions (n,α) with nitrogen-14 at 6.0 to 8.4 MeV, γ spectra for, (E), 22:20578 (WASH-1079)
reactions (n,α) with nuclei, use of ionization chambers with scintillation detectors for measurements in, 22:38009
reactions (n,α) with osmium-190 at 14.6 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,α) with oxygen-16 at 13.9 MeV, alpha spectrum from, 24:29560
reactions (n,α) with oxygen-16 at 13.9 MeV, differential cross sections for, (E), 25:45928
reactions (n,α) with oxygen-16 at 14 MeV, alpha angular and energy distributions from, (E), 21:33888
reactions (n,α) with oxygen-16 at 14 MeV, angular distributions for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,α) with oxygen-16 at 14 MeV, carbon-13 energy levels from, (E), 21:19180
reactions (n,α) with oxygen-16 at 14 MeV, cross-section calculations using distorted-wave Born approximation, (T), 21:34064
reactions (n,α) with oxygen-16 at 14 MeV, differential cross sections and spectra for, (E), 22:20457
reactions (n,α) with oxygen-16 at 14 MeV, low-background telescope detector system for spectrum and angular distribution measurements of, 24:21013
reactions (n,α) with oxygen-16 at 14.1 MeV, angular distributions for, (E), 23:21265 (ZFK-130, pp 148-51)
reactions (n,α) with oxygen-16 at 14.8 to 18.8 MeV, angular distributions of differential cross sections for, (E), 22:46720
reactions (n,α) with oxygen-16 at 3.9 to 6.5 MeV, cross sections from carbon-13 (α,n) reactions, (E), 21:17340(R) (AEET-267)
reactions (n,α) with oxygen-16 at 3.95 to 6.50 MeV, total cross sections for, (E), 21:15486 (CONF-660221-, pp 93-7)
reactions (n,α) with oxygen-16 at 8 to 12 MeV, cross section for, (E), 23:1794
reactions (n,α) with oxygen-18 at 7.5 to 8.6 MeV, cross sections for, (E), 22:11912
reactions (n,α) with palladium-108 and tellurium-124, -126, -128, and -130 at 14.8 MeV, cross sections for, (E), 25:53786
reactions (n,α) with potassium-39 at 4 to 8 MeV, chlorine-36 energy-level spins and transitions from, (E), 21:13835
reactions (n,α) with potassium-41 in reactor spectrum, cross section for, (E), 22:41997
reactions (n,α) with promethium-141, holmium-165, lutetium-175, tantalum-181, and gold-197 at 15.1 MeV, alpha spectra from, (E), 24:43327
reactions (n,α) with ruthenium-102 and ruthenium-104 at 14.8 MeV, activation cross sections for, (E), 21:14930(R) (ORO-3235-12)
reactions (n,α) with selenium-80 at 14.7 MeV, cross section for, (E), 21:40405
reactions (n,α) with sodium-23 at 15 MeV, cross sections for, (E), 22:53123
reactions (n,α) with sulfur-32 at 3.2 to 5.2 MeV, differential cross sections and α spectra for, (E), 21:46684 (LYCEN-6741)
reactions (n,α) with sulfur-32 at 4.0 and 5.1 MeV, angular distributions for, (E), 21:13837
reactions (n,α) with tantalum-181 at 14.8 Mev, cross sections for lutetium-178 production in, (E), 21:1105
reactions (n,α) with tellurium-122 and thulium-169 at 14 MeV, α spectra from, (E), 22:3692 (INR-814/1/PL)
reactions (n,α) with tellurium-124, -125, -126, and -128 at 14 MeV, α spectra and cross sections for, (E), 24:30865
reactions (n,α) with ten A = 122 to 169 nuclei at 14.2 MeV, level-density parameters and spectra from, (E), 25:43886 (INR-1268)
reactions (n,α) with thallium-205 at 15 MeV, gold-202 production by, (E), 22:11969
reactions (n,α) with Type 304 stainless steel to produce helium, 24:46759
reactions (n,α) with vanadium-51 at 13.5 to 14.7 MeV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,α) with vanadium-51 at 14.7 MeV, cross sections for, (E), 24:20350
reactions (n,α) with xenon at 12.5 to 18.0 MeV, cross-section excitation function and α spectra for, (E), 22:3713
reactions (n,α) with zinc-64 at 14.9 MeV, angular distributions for, (E), 24:26620
reactions (n,α), (n,2α), (n,d), and (n,p) with neon-20 at 14.3 MeV, cross sections for, (E), 23:46942(R) (NYO-3417-11)
reactions (n,α), (n,2α), and (n,p) with neon-20 at 14 MeV, cross sections for, (E), 25:17818
reactions (n,α), (n,2n) and (n,p) with A = 75 to 165 nuclei at 14.2 MeV, cross sections for, (E), 24:26596(R) (BARC-401)
reactions (n,α), (n,2n), and (n,p) with A = 28 to 136 nuclei at 14.4 MeV, cross sections for, (E), 24:26596(R) (BARC-401)
reactions (n,α), (n,2n), and (n,p) with arsenic-75 at 14.2 MeV, cross sections and reaction mechanisms for, (E), 24:6870
reactions (n,α), (n,2n), and (n,p) with intermediate-weight nuclei at 14.5 MeV, cross section systematics for, (E), 24:26668
reactions (n,α), (n,2n), and (n,p) with medium and heavy nuclei at 14.1 MeV, total cross sections for, (E), 21:46776
reactions (n,α), (n,2n), and (n,p) with rubidium, strontium, zirconium, and niobium at 14.8 MeV, activation cross sections of, (E), 24:38162
reactions (n,α), (n,2n), and (n,p) with selenium-78 and selenium-80 at 14.7 MeV, isomeric cross-section ratios for, 21:33929
reactions (n,α), (n,d), (n,γ), (n,p), (n,2n), and (n,n'γ) with nuclei at 3 and 14 MeV cross sections, threshold energies, half-lives, and gamma energies from, (E), 25:5685 (KFKI-70-18-NAC)
reactions (n,α), (n,d), (n,p), and (n,t) with fluorine-19 at 14.4 MeV, angular distributions for, (E), 22:44614
reactions (n,α), (n,γ), and (n,2n) at 14.8 MeV, cross sections for, (E), 21:15557 (CONF-660221-, pp 209-13)
reactions (n,α), (n,p), and (n,2n) with A = 15 to 200 nuclei, relative cross sections at 13.5 and 15 MeV for, (E), 25:46075
reactions (n,α), (n,p), and (n,2n) with A = 75 to 88 nuclei, activation cross sections for, (E), 25:28282
reactions (n,α), (n,p), and (n,2n) with medium-weight nuclei at 14.5 MeV, systematics of cross sections for, (E/T), 25:3643
reactions (n,α), (n,p), and (n,np) + (n,pn) + (n,d) with Z = 40 to 58 nuclei at 14.4 MeV, activation cross sections for, (E), 24:24574
reactions (n,α), (n,p), and (n,np) with nickel-64 at 14.8 MeV, (E), 21:21507
reactions (n,α), (n,p), and (n,np) with nitrogen-14 at 14.7 MeV, (E/T), 21:9952
reactions (n,αγ) and (n,pγ) at 5.8 to 8.6 MeV, γ spectra and cross sections for, (E), 23:37114
reactions (n,αγ) with oxygen-16 at 6.7 to 11 MeV, γ production cross sections for, (E), 24:35826
reactions (n,d) and (n,np) with selenium-77 at 14.7 MeV, cross sections for, (E), 21:40405
reactions (n,d) and (n,p) with helium-3 at 14.4 MeV, angular distributions for, (E), 23:21240 (ZFK-130, pp 211-12)
reactions (n,d) and (n,p) with helium-3 at 14.4 MeV, angular distributions for, (E), 21:38226
reactions (n,d) and (n,p) with helium-3 at 14.4 MeV, angular distributions for, (E), 22:26821
reactions (n,d) and (n,t) with lithium-7, cross sections and angular distributions for, (E), 24:49771
reactions (n,d) and (n,t) with nitrogen-14 at 14 MeV, angular distributions for, (E/T), 21:35428
reactions (n,d) with aluminum-27 at 14.1 MeV, energy spectra and DWBA analysis of angular distributions from, (E/T), 25:5662
reactions (n,d) with arsenic-75, calcium-40, chlorine-35, nitrogen-14, and potassium-39 at 14.4 MeV, differential cross sections for, (E), 22:5798
reactions (n,d) with beryllium-9 at 16.3 to 18.7 MeV, cross section for, (E), 23:46934
reactions (n,d) with boron-10 at 14 MeV, differential cross sections for, (E/T), 21:44568 (ZFK-122, pp 201-6)
reactions (n,d) with boron-11 at 14.4 MeV, ground-state angular distribution for, (E), 23:1802
reactions (n,d) with calcium-43 and -44 at 14.2 MeV, activation cross sections for, (E), 22:18180
reactions (n,d) with chlorine-35 at 14 MeV, deuteron angular distributions and spectra from, (E), 22:3684
reactions (n,d) with copper-63, nickel-58, and zinc-64 at 14 MeV, deuteron spectra from, (E), 21:19234
reactions (n,d) with copper-65, zinc-66, and zinc-68 at 14 MeV, deuteron energy spectra and angular distributions for, (E), 23:23647 (INFN/BE-66/9)
reactions (n,d) with copper-65, zinc-66, and zinc-68 at 14.1 MeV, deuteron angular distributions and spectra from, (E/T), 21:7729
reactions (n,d) with fluorine-19 at 14 MeV, DWBA analysis of differential cross sections, l transfers, and spectra from, (E), 25:41202 (BARC-526)
reactions (n,d) with fluorine-19 at 14 MeV, DWBA analysis of differential cross sections for, (E), 25:48989
reactions (n,d) with helium-3 and tritium at 14.4 MeV, angular distributions for, (E), 25:36738(R) (UCLA-10-P-18-23)
reactions (n,d) with helium-3 at 14.4 MeV, analysis of deuteron spectra from, (E), 21:2604
reactions (n,d) with hydrogen at 14.4 MeV, cross sections and spectra for, (E), 21:5484
reactions (n,d) with nitrogen-14 at 14.7 MeV, angular distributions from, (E), 21:31727
reactions (n,d) with nitrogen-15 at 14 and 15 MeV, angular distributions for, (E/T), 21:35428
reactions (n,d) with sulfur-32 and sulfur-34 at 14.1 MeV, angular distributions and spectra from, (E/T), 21:13851
reactions (n,d) with sulfur-32 and sulfur-34 at 14 MeV, angular distributions and yields for, (E), 22:29978
reactions (n,d), (n,n), (n,p), and (n,t) at 14.4 MeV, differential cross sections for, (E), 21:2604
reactions (n,d), (n,p), and (n,2n) at 13 to 15 MeV, cross sections for, (E), 22:20578 (WASH-1079)
reactions (n,d), (n,p), and (n,t) with light nuclei at 14 MeV, use of semiconductor coincidence detectors for studying, 21:45366 (LYCEN-6738, pp 201-4)
reactions (n,d), (n,p), and (n,t) with tritium at 15 MeV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,d)αn with lithium-6 at 14.4 MeV, differential cross sections and spectra, (E), 21:27536
reactions (n,f) (n,n'f), and (n,2n'f) with uranium-238 at 12.2 to 18.2 MeV, angular distribution of products from, (E), 25:17949
reactions (n,f) in cluster lattices, effects of, (T), 21:27564 (EIR-104)
reactions (n,f) with A = 231 to 243 nuclei, cross-section calculations using Hauser—Feshbach theory and (t,pf) data, (T), 24:40550 (WASH-1136)
reactions (n,f) with actinide elements at 14.1 MeV, cross sections for, (E), 25:50790
reactions (n,f) with americium-241 and neptunium-237 at 0.3 to 7.2 MeV, angular distributions of fragments from, 25:1760
reactions (n,f) with americium-241 at 0.3 to 7.2 MeV, fragment angular distributions from, (E), 23:32940
reactions (n,f) with americium-241, neptunium-237, plutonium-238, plutonium-240, plutonium-242, thorium-232, and uranium-238 at 0.5 to 3 MeV, angular distribution of fragments from, (E), 24:49860(T) (LA-4369-TR)
reactions (n,f) with americium-243 at 0.3 to 4 MeV, cross section for, (E), 23:49406
reactions (n,f) with berkelium-249 at 0.2 to 5 MeV, cross section for, (E), 24:13384
reactions (n,f) with berkelium-249 at 0.6 to 4.6 MeV, cross sections and fragment angular distributions for, (E), 25:3665
reactions (n,f) with curium isotopes, techniques for cross-section measurements in, (E), 23:37244
reactions (n,f) with curium-244 and plutonium-238 at 1.0, 1.5, 3.0, and 14.9 MeV, cross sections for, (E), 22:20571 (LA-DC-9188)
reactions (n,f) with curium-244 at 1.0, 1.5, 3.0, and 14.9 MeV, cross sections for, (E), 23:1882 (WASH-1093)
reactions (n,f) with heavy elements at 1 keV to 10 MeV, cross sections for, (E), 22:24873
reactions (n,f) with heavy nuclei, mass and charge distributions from, 22:20975(R) (BMwF-FBK-67-89)
reactions (n,f) with isomeric americium-242 at 0.02 to 6 MeV, cross sections for, (E), 21:25518 (WASH-1071)
reactions (n,f) with neptunium, plutonium, and uranium isotopes at 2 to 20 MeV, cross sections for, (E), 25:39055
reactions (n,f) with neptunium-237 and protactinium-231, yields of rare earths in, (E), 23:1893
reactions (n,f) with neptunium-237 at 0.4, 0.6, 1.0 and 1.3 MeV, mean kinetic energy of fission fragments in, (E), 22:44693

reactions (n,f) with neptunium-237 at 0.5 MeV with fission isomer excitation, (E), 25:17857 (CEA-N-1339)
reactions (n,f) with neptunium-237 at 0.7 to 5.4 MeV, mass and energy distributions of fragments from, (E), 24:33148
reactions (n,f) with neptunium-237 at 12.5 to 17.5 MeV, cross-section measurement using fission-foil detector, (E), 22:30013
reactions (n,f) with neptunium-237, plutonium-239, -240, -241, and uranium-233, -234, -236, -238 at 1 to 14 MeV, cross sections for, (E), 21:42636
reactions (n,f) with neptunium-237, uranium-233, and uranium-238 at 14 MeV, proton and triton yields and long-range particle spectra for, (E), 23:37213
reactions (n,f) with neptunium-237, uranium-235, and uranium-238 at 1 to 5 MeV, cross sections for, (E), 22:18287
reactions (n,f) with neptunium-237, uranium-235, uranium-236, and uranium-238 at 1 to 5 MeV, relative cross sections for, (E), 22:20572 (LA-DC-9205)
reactions (n,f) with neptunium-237, uranium-235, uranium-236, and uranium-238 at 1 to 5 MeV, cross sections, 21:25518 (WASH-1071)
reactions (n,f) with nuclei at 14 MeV, dielectric track detector measurement of cross sections for, 24:31723
reactions (n,f) with nuclei, delayed neutron emission from fission products from, (T), 25:23015 (AERE-R-6596)
reactions (n,f) with plutonium, short-lived gamma spectra and fragment yields from, (E), 25:17899
reactions (n,f) with plutonium-235 and uranium-235, cross sections for, (E), 25:36756
reactions (n,f) with plutonium-238 and -242 and americium-241, cross sections and angular distributions from, (E), 24:11020
reactions (n,f) with plutonium-238 at 0.06 to 7.2 MeV, angular distribution of fragments in, (E), 23:40040
reactions (n,f) with plutonium-238 at 0.5 to 17 MeV, cross sections for, (E), 23:32923(T) (BNL-tr-265)
reactions (n,f) with plutonium-238 at 1.0, 1.5, 3.0, and 15 MeV, cross sections for, (E), 21:46752
reactions (n,f) with plutonium-238 up to 1 MeV, widths for s- and p-wave, (E/T), 23:44892
reactions (n,f) with plutonium-238 up to 3 MeV, cross sections for, (E), 23:32931 (LA-4108)
reactions (n,f) with plutonium-238 up to 5 MeV, angular distributions of fragments from, (E), 23:19300
reactions (n,f) with plutonium-238, cross section for, (E), 23:37247
reactions (n,f) with plutonium-238, uranium-235, and uranium-238 at 1.5 to 15 MeV, energy dependence of prompt neutron yields for, (E), 23:42925
reactions (n,f) with plutonium-239 and -240 at 0.1 to 1.5 MeV, angular distributions of fragments from, (E), 25:15051
reactions (n,f) with plutonium-239 and -240 at 5 to 150 keV, cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions (n,f) with plutonium-239 and -240, cross sections relative to uranium-235 for, (E), 25:17920
reactions (n,f) with plutonium-239 and -241 at 0.5 to 14.8 MeV, prompt neutron emission in, (E), 22:14029
reactions (n,f) with plutonium-239 and uranium-233 up to 1 MeV, relative cross sections for, (E), 23:49332(R) (EANDC(E)-115(U))
reactions (n,f) with plutonium-239 and uranium-235 at 130 to 1400 keV, cross section ratios to uranium-238 capture, (E), 24:47637 (ANL-7610, pp 1-59)
reactions (n,f) with plutonium-239 and uranium-235 and -238 at 1.0 MeV, rate of disintegration of fission products from, (T), 25:7846 (CEA-N-1370)
reactions (n,f) with plutonium-239 and uranium-235, delayed γ spectra for, (E), 23:31015
reactions (n,f) with plutonium-239 and uranium-235, fission yields for, (E), 25:5765
reactions (n,f) with plutonium-239 and uranium-235, neutron energy dependence of yields from, (E), 25:41241
reactions (n,f) with plutonium-239 and uranium-235 at 0.3 to 1.4 MeV, mean prompt neutron production and relative cross sections for, (E), 25:15114
reactions (n,f) with plutonium-239 and uranium-235 at 150 to 1400 keV, cross-section ratio for, (E), 24:6914
reactions (n,f) with plutonium-239 and uranium-235 at 130 to 1400 keV, cross section ratio for, (E), 24:47637 (ANL-7610, pp 1-59)
reactions (n,f) with plutonium-239 and uranium-235 at 0.025 to 1 MeV, total cross section for, (E), 25:15068
reactions (n,f) with plutonium-239 at 0.15 to 1.2 MeV in monoenergetic beams, fission-fragment angular distributions for, (E), 23:5928
reactions (n,f) with plutonium-239 at 0.15 to 1.5 MeV, fission-fragment angular distributions in, (E), 22:53209
reactions (n,f) with plutonium-239 at 0.7 to 4 MeV, cross sections for, (E), 21:42658
reactions (n,f) with plutonium-239 at 40 keV to 1.2 MeV, average number of prompt neutrons in, (E), 24:49850 (AWRE-O-42/70)
reactions (n,f) with plutonium-239 up to 1.5 MeV, cross sections for, (E), 23:28304 (WASH-1124)
reactions (n,f) with plutonium-239, delayed γ spectra and isotope yields from, (E), 24:6886 (LA-4257)
reactions (n,f) with plutonium-239, fission product yields from, (T), 25:20819 (JAERI-Memo-4165)
reactions (n,f) with plutonium-239, molybdenum-99 and barium-140 yields in, (E), 24:33151
reactions (n,f) with plutonium-239, plutonium-241, uranium-233, uranium-235, and uranium-238, tritium yields in, (T), 22:53165 (ANL-7425, pp 190-2)
reactions (n,f) with plutonium-239, plutonium-241, thorium-232, uranium-233, uranium-235, and uranium-238, fission yields for, 22:20559 (AERE-R-5086)
reactions (n,f) with plutonium-239, plutonium-242, uranium-233, and uranium-235 at 0.1 to 1.8 MeV, energy dependence of delayed neutron yield from, (E), 25:5770
reactions (n,f) with plutonium-239, product decay from, (E/T), 22:5827
reactions (n,f) with plutonium-239, protactinium-231, and thorium-230 and -232 at 0.1 to 3.0 MeV, power-series fits to fragment angular distributions from, (T), 25:43888 (LA-4648)
reactions (n,f) with plutonium-239, thorium-232, uranium-233, uranium-235, and uranium-238 at 5 to 8 MeV, delayed neutron yields from, (E), 24:30772
reactions (n,f) with plutonium-239, thorium-232, uranium-233, and uranium-235 at 2 MeV, neutron spectra for, (E), 22:11948(R) (NP-17216)
reactions (n,f) with plutonium-239, thorium-232, uranium-233, uranium-235, and uranium-238 at 3.1 and 14.9 MeV, delayed neutron yields for, (E), 23:31026
reactions (n,f) with plutonium-239, uranium-233, and uranium-235 at 14 MeV, fission-product activities for, (T), 22:20569 (HNS-1229-77)
reactions (n,f) with plutonium-239, uranium-233, and uranium-235 at 0.3 to 2.5 MeV, relative cross sections for, (E), 22:32621
reactions (n,f) with plutonium-239, uranium-233, and uranium-235 at 0 to 0.7 MeV, angular anisotropy of fission fragments in, (E), 24:52576
reactions (n,f) with plutonium-239, uranium-235, and uranium-238, fission yields from, (E), 25:28354 (NP-18723)
reactions (n,f) with plutonium-239, uranium-235, and uranium-238 at 1.5 to 15 MeV, prompt neutron emission in, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,f) with plutonium-240, uranium-239, and uranium-235 at 0.6 to 5 MeV, mean prompt neutron production from, (E), 25:15115
reactions (n,f) with plutonium-241, neutron emission in, (E), 21:12013(R) (EANDC(OR)-44(L))
reactions (n,f) with plutonium-242 at 0.5 to 1.2 MeV, angular distribution of fragments from, (E), 24:38228
reactions (n,f) with plutonium-242 at 0.5 to 1.2 MeV, angular distribution of fragments from, (E), 24:40617(R) (NYO-3938-3)
reactions (n,f) with plutonium-242 at 14.7 MeV, delayed-neutron abundances and half-lives for, (E), 25:5775
reactions (n,f) with protactinium-231 at 14.7 Mev, mass yields from, (E), 21:1111
reactions (n,f) with protactinium-231 at 15 MeV, A = 131 through 135 mass yields for, 24:1845
reactions (n,f) with protactinium-231 at 3 and 14.8 MeV, cross section and fragment cumulative yields from, (E), 23:40052
reactions (n,f) with protactinium-231, thorium-232, and uranium-238, at 14.8 MeV, delayed neutron yields from, (E), 25:34150
reactions (n,f) with protactium-231 at 140 to 1300 keV, angular distribution of fragments from, (E), 24:8901
reactions (n,f) with radium-226 at 12.6 to 19.5 MeV, fragment angular distribution from, (E), 24:38241
reactions (n,f) with radium-226 at 3 to 15 MeV, cross section and fission-fragment angular distribution for, (E), 22:24870
reactions (n,f) with radium-226 at 3.5 to 9 MeV, analysis for transition state structure in cross section for, (T), 25:38996(R) (RLO-2227-T-7-1)
reactions (n,f) with radium-226 in threshold region, analysis of cross section for, (E/T), 24:1852
reactions (n,f) with thorium and uranium at 15 MeV, fragment spectra from, (E), 22:1665
reactions (n,f) with thorium-230 at 0.69 to 1.23 MeV, fission-fragment angular distributions from, (E/T), 21:17375
reactions (n,f) with thorium-230 at 682 to 1000 keV, fragment angular distributions and excitation functions for, (E), 25:41230(R) (NYO-3938-4)
reactions (n,f) with thorium-232 and uranium-233, -235, -238 at 14 MeV, gamma angular distribution and anisotropy from, (E), 24:22155
reactions (n,f) with thorium-232 and uranium-235 and -238 at energies up to 6 MeV, energy-balance analysis of dependence of number of prompt neutrons on bombarding energy for, (T), 25:20440
reactions (n,f) with thorium-232 and uranium-238 at 14 MeV, liquid-drop-model calculations of heavy-fragment masses in, (T), 25:56787
reactions (n,f) with thorium-232 and uranium-238 at 14.1 MeV, angular distributions for, (E), 25:56804
reactions (n,f) with thorium-232 and uranium-238 at 2.9 MeV, ternary fission in, (E), 21:44665 (INP-547/PL)
reactions (n,f) with thorium-232 and uranium-238 at 3 and 14.8 MeV, mass yields in A = 131 to 135 region from, (E), 23:44930
reactions (n,f) with thorium-232 and uranium-238 at 2.9 MeV, mass and energy distribution of fragments from ternary, (E), 23:25926
reactions (n,f) with thorium-232 and uranium-238 at 14.8 MeV, production of isomeric molybdenum-103 by, (E), 21:2713
reactions (n,f) with thorium-232 and uranium-238 at 14 MeV, cumulative yields in the symmetric region, (E), 24:30825
reactions (n,f) with thorium-232 and uranium-238 at 14 MeV, delayed neutron yields for, 24:30770
reactions (n,f) with thorium-232 and uranium-238 at 15 MeV, fission-product yields in, (E), 23:17116
reactions (n,f) with thorium-232 and uranium-238 at 14.8 MeV, yields of molybdenum isotopes from, (E), 21:5556
reactions (n,f) with thorium-232 and uranium-238 at 14.8 MeV, low-mass fission yields in, (E), 25:28385
reactions (n,f) with thorium-232 and uranium-238 at threshold to 2.4 MeV, delayed neutron yields from, (E), 24:47637 (ANL-7610, pp 1-59)
reactions (n,f) with thorium-232 and uranium-238, mass, energy, and angular distributions of fragments from, (E), 25:7806(R) (BMBW-FBK-70-14)
reactions (n,f) with thorium-232 and uranium-238, delayed neutron yields from, 24:11549 (IA-1190, pp 93-122)
reactions (n,f) with thorium-232 at 0.5 to 1.2 MeV, differential and integral cross sections for, (E/T), 22:16053
reactions (n,f) with thorium-232 at 0.6 to 3.0 MeV, cross sections for, (E), 21:17373
reactions (n,f) with thorium-232 at 0.95 to 2.3 MeV, channel analysis of fragment angular distributions and cross sections for, (E), 25:3680
reactions (n,f) with thorium-232 at 1 to 6 MeV, fission-fragment energy and mass distributions in, (E), 22:35360
reactions (n,f) with thorium-232 at 1.2, 1.4 and 1.6 MeV, fission-fragment angular distributions and cross sections for, (E), 22:50651
reactions (n,f) with thorium-232 at 1.2, 1.4, and 1.6 MeV, fission-fragment angular distributions and cross sections for, (E), 22:39635(R) (NYO-3938-1)
reactions (n,f) with thorium-232 at 1.3 to 1.8 MeV, angular distributions of fragments for, (E), 22:50646
reactions (n,f) with thorium-232 at 1.5 to 3.3 MeV, measurements of anti τ for prompt neutron emission in, (E), 22:42017(T) (LA-tr-68-20)
reactions (n,f) with thorium-232 at 1.5 to 3.3 MeV, average number of prompt neutrons from, (E), 22:39643
reactions (n,f) with thorium-232 at 1.6 MeV, angular distribution of fragments from, (E), 21:12029(T) (ANL-Trans-407)
reactions (n,f) with thorium-232 at 1.60 MeV, fragment angular distributions from, (E), 21:15587
reactions (n,f) with thorium-232 at 1.7 to 3.0 MeV, delayed-neutron yields from, (E), 25:53739 (FEI-195)
reactions (n,f) with thorium-232 at 1.7 to 5.3 MeV, fission-fragment angular distributions from, (E), 21:23488
reactions (n,f) with thorium-232 at 12 to 18 MeV, cross section for, (E), 21:40432 (WASH-1074)
reactions (n,f) with thorium-232 at 12.5 to 18 MeV, cross-section measurements using fission-fragment tracks in Lexan, (E), 21:27603
reactions (n,f) with thorium-232 at 14 MeV with long-range particle emission, calculation of probability for, (T), 25:15018
reactions (n,f) with thorium-232 at 14 MeV, fragment energies and ternary to binary ratio for, (E), 24:11011
reactions (n,f) with thorium-232 at 14.0 MeV, fragment mass—energy distributions and mass yields from, (E), 25:17901
reactions (n,f) with thorium-232 at 14.8 MeV, mass distribution in, (E), 22:44704
reactions (n,f) with thorium-232 at 14.8 MeV, mass distribution of fission fragments for, (E), 22:53216
reactions (n,f) with thorium-232 at 14.8 MeV, yields in symmetric, (E), 22:20598
reactions (n,f) with thorium-232 at 15 MeV, cumulative fission yields for, (E), 23:13278
reactions (n,f) with thorium-232 at 3 and 14.7 MeV, chain yields for asymmetric fission in, (E), 23:4007
reactions (n,f) with thorium-232 at 4.8 MeV, fragment mass—energy distributions, mass yields, and anisotropies from, (E), 25:17901
reactions (n,f) with thorium-232 at 5.0 to 7.8 MeV, delayed neutron yields in, (E), 21:21562
reactions (n,f) with thorium-232, fission-fragment angular anisotropy and mass asymmetry in, (E), 22:35286(T) (ANL-Trans-611)
reactions (n,f) with thorium-232, fission-product yields from, 21:30000
reactions (n,f) with thorium-232, uranium-233, -234, -235, -236, and -238, neptunium-237, and plutonium-240, -241, and -242 at 1 keV to 15 MeV, evaluated cross sections for, 23:40030 (AHSB(S)R-169)
reactions (n,f) with thorium-232, uranium-233, uranium-235, and uranium-238 at 2.5 and 14 MeV, ternary fission in, (E), 21:27609
reactions (n,f) with thorium-232, uranium-233, uranium-235, and uranium-238 at 2.5 and 14 MeV, relative probability of ternary fission in, (E), 23:5883
reactions (n,f) with thorium-232, uranium-235, and uranium-238 at 3 and 14 MeV, absolute delayed neutron yields from, (E), 22:32591
reactions (n,f) with thorium-232, uranium-235, and uranium-238 at 3 and 14 MeV, delayed neutron emission in, (E), 22:20578 (WASH-1079)
reactions (n,f) with thorium-232, uranium-235, and uranium-238, energy dependence of delayed neutron yield from, (E), 23:49315 (ANL-7410, pp 1-46)
reactions (n,f) with thorium-232, uranium-235, and uranium-238 at 3 and 14 MeV, delayed neutron yields from, (E), 22:24859 (LA-DC-9403)
reactions (n,f) with thorium-232, uranium-235, and uranium-238 at 14.8 MeV, low-yield products from, (E), 24:6936
reactions (n,f) with thorium-232, uranium-235, and uranium-238 at 5 to 8 MeV, delayed neutron emission in, (E), 21:40433(T) (LA-tr-67-16)
reactions (n,f) with uranium isotopes, cross sections for, (E), 21:21526
reactions (n,f) with uranium-232 at 0.1 to 1.5 MeV, cross section and fragment angular distributions for, (E), 25:15019
reactions (n,f) with uranium-233 and -235 at 0.5 to 1.5 MeV, cross-section ratio for, (E), 25:43884 (ANL-7710, pp 1-52)
reactions (n,f) with uranium-233 and -235 at 1.5 MeV, mean kinetic energy of fission fragments in, (E), 22:14063
reactions (n,f) with uranium-233 and -235 at 15 to 21 MeV, delayed neutron yields from, (E), 24:30773
reactions (n,f) with uranium-233 and -235 at 500 to 1500 keV, cross-section ratio for, 25:14982 (NCSAC-31)
reactions (n,f) with uranium-233 and plutonium-239 at 18 to 21 MeV, variations of ratios of fragment yields preceding the delayed neutrons in, (E), 25:34134
reactions (n,f) with uranium-233 and plutonium-239 at 0.08 to 1.5 MeV, angular distributions from, (E), 21:10066

reactions (n,f) with uranium-233 and uranium-235, at 0.1 to 2.0 MeV, average kinetic energy of fission fragments in, (E/T), 22:46766(T) (LA-tr-68-19)
reactions (n,f) with uranium-233 at 0.43, 0.63, and 1.10 MeV, fragment energy and mass distributions in, (E), 22:14064
reactions (n,f) with uranium-233 at 14.8 MeV, fragment mass distribution in, (E), 23:40065
reactions (n,f) with uranium-233 at 14.8 MeV, yields of products from, (E), 25:7870
reactions (n,f) with uranium-233 at 15 MeV, mass yields for, (E), 23:11007
reactions (n,f) with uranium-233 at 5.5 to 7.5 MeV, delayed neutron yields in, (E), 21:40445
reactions (n,f) with uranium-233, -235, and -238 at 0 to 7 MeV, fission-fragment energy and yield in, (E/T), 22:18348
reactions (n,f) with uranium-233, fission-fragment energy and mass distributions from, (E), 21:21559
reactions (n,f) with uranium-233, yield of stable tin isotopes in, 23:40077
reactions (n,f) with uranium-234 at 0.2 to 1.2 MeV, fission-fragment angular distributions for, (E), 22:42029
reactions (n,f) with uranium-234 at 0.2 to 1.2 MeV, fission-fragment angular distributions for, (E), 22:27231
reactions (n,f) with uranium-234 at 0.2 to 1.2 MeV, fission-fragment angular distributions for, (E), 22:39635(R) (NYO-3938-1)
reactions (n,f) with uranium-234 at 0.82 to 22.9 MeV, (E), 25:7847 (ORNL-4513)
reactions (n,f) with uranium-234 at 200 to 843 keV, fission-fragment angular distributions from, (E), 21:33994
reactions (n,f) with uranium-235 and -238 and plutonium-239 at 1 MeV, fragment yields from, (T), 24:49852 (CEA-N-1309)
reactions (n,f) with uranium-235 and -238 and plutonium-239 and -241 at 14 MeV, compilation of fragment yields and charge distributions from, 23:34784 (APED-5398-A(Rev.))
reactions (n,f) with uranium-235 and -238 at 14 MeV, angular anisotropy of fragments from ternary, (E), 25:36759
reactions (n,f) with uranium-235 and -238 at 14 MeV, fragment angular anisotropy from binary and ternary, (E), 24:49910
reactions (n,f) with uranium-235 and -238 at 1400 and 1500 keV, cross-section ratio for, (E), 25:14982 (NCSAC-31)
reactions (n,f) with uranium-235 and -238, barium-140 cumulative yields from, (E), 25:50733
reactions (n,f) with uranium-235 and -238, gamma dose rates from fission products, (T), 21:40438
reactions (n,f) with uranium-235 and -238, time dependence of fission-product γ spectra from, (E), 21:42623
reactions (n,f) with uranium-235 and plutonium-239, tabulation of prompt and delayed product yields from, (T), 25:17855 (ANL-7678)
reactions (n,f) with uranium-235 and plutonium-239 at 0.3 to 1.4 MeV, relative cross sections and number of prompt neutrons for, 25:20373(T) (LIB/Trans-300)
reactions (n,f) with uranium-235 and uranium-238 at 5 to 9 MeV, mean kinetic energy of fission fragments in, (E), 22:44714
reactions (n,f) with uranium-235 and uranium-238 at 14 MeV, fission-product charge distributions and yields from, (E), 22:46761 (APED-5398)
reactions (n,f) with uranium-235 and uranium-238 in reactor spectra, effects of system heterogeneity on rate of, (E), 22:35333
reactions (n,f) with uranium-235 and uranium-238 up to 6 MeV, mass—energy distributions for, (E), 23:25906
reactions (n,f) with uranium-235 and uranium-238, gamma spectra of fission products from, (E), 21:5526 (AD-642319)
reactions (n,f) with uranium-235 and uranium-238, barium-140 yields from, (E), 22:22618
reactions (n,f) with uranium-235 and uranium-238, fission-product gamma dose rates from, (T), 21:10880 (USNRDL-TR-1106)
reactions (n,f) with uranium-235 at 0.04 to 1.0 MeV, prompt neutron emission in, (E), 21:31798
reactions (n,f) with uranium-235 at 0.1 to 1.5 MeV, cross section for, (E), 23:5920
reactions (n,f) with uranium-235 at 0.1 to 1.5 MeV, prompt-neutron yields from, (E/T), 25:36786
reactions (n,f) with uranium-235 at 0.10, 0.26, 0.70, and 1.30 MeV, fragment energy and mass distributions in, (E), 22:14064
reactions (n,f) with uranium-235 at 0.12, 0.5, and 6.0 MeV, mass—energy distributions for, (E), 23:28304 (WASH-1124)
reactions (n,f) with uranium-235 at 0.15 to 1.68 MeV, variation in kinetic energy of fragments from, (E), 24:22142 (JINR-P3-4873)
reactions (n,f) with uranium-235 at 0.2 to 16 MeV using monoenergetic beams, fission-fragment energy and mass distributions from, (E), 22:48561
reactions (n,f) with uranium-235 at 0.4 to 3.3 MeV, average number of prompt neutrons from, (E), 22:39643
reactions (n,f) with uranium-235 at 0.4 to 3.3 MeV, measurements of anti ν for prompt neutron emission in, (E), 22:42017(T) (LA-tr-68-20)
reactions (n,f) with uranium-235 at 14 MeV, angular distribution of γ rays from, (E), 24:30795
reactions (n,f) with uranium-235 at 14 MeV, charged-particle emission in, (E), 22:14023
reactions (n,f) with uranium-235 at 14 MeV, γ angular distribution from, (E), 22:46810
reactions (n,f) with uranium-235 at 14.8 MeV, mass yields from, (E), 24:33149
reactions (n,f) with uranium-235 at 14.8 MeV, mass distribution of fragments from, (E), 23:19292
reactions (n,f) with uranium-235 at 14.9 MeV, fission-fragment energy distribution in, (E), 21:21561
reactions (n,f) with uranium-235 at 15.5 MeV, barrier parameters for, (T), 25:28504
reactions (n,f) with uranium-235 at 2 and 15 MeV, mass chain yield for, (T), 25:56816 (JAERI-Memo-4383)
reactions (n,f) with uranium-235 at 2 to 21 MeV, cross sections for, (E), 21:40432 (WASH-1074)
reactions (n,f) with uranium-235 at 2.5 and 14 MeV, angular anisotropy of fission fragments from ternary, (E), 23:11010
reactions (n,f) with uranium-235 at 200 to 900 keV, fragment total kinetic energy from, (E), 24:24548 (AAEC/TM-526)
reactions (n,f) with uranium-235 at 250 to 1500 keV, delayed neutron yield from, (E), 24:47637 (ANL-7610, pp 1-59)
reactions (n,f) with uranium-235 at 3 MeV, angular anisotropy of fragments from, (E), 24:8902
reactions (n,f) with uranium-235 at 3 MeV, angular anisotropy of fission fragments in binary and ternary, (E), 22:32630
reactions (n,f) with uranium-235 at 3 MeV, angular anisotropy of fission fragments in binary and ternary, (E), 22:29979 (BARC-318)
reactions (n,f) with uranium-235 at 3 MeV, fission-fragment angular distributions in binary and ternary, (E), 21:15549 (CONF-660221-, pp 38-42)
reactions (n,f) with uranium-235 at 3 MeV, fission-fragment angular anisotropy in ternary, (E), 22:27099
reactions (n,f) with uranium-235 at 3 MeV, fission-fragment angular distributions from, (E), 21:17340(R) (AEET-267)
reactions (n,f) with uranium-235 at 3 MeV, fragment angular anisotropy from binary and ternary fission, (E), 22:7569(R) (BARC-291)
reactions (n,f) with uranium-235 at 30 and 64 keV, cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions (n,f) with uranium-235 at 440 and 530 keV, cross sections for, (E), 25:23020 (EURFNR-880)
reactions (n,f) with uranium-235 at 552 and 644 keV, cross section for, (E), 25:53734 (CONF-701002-, pp 281-4)
reactions (n,f) with uranium-235 at 6 MeV, fission-fragment energy and mass distributions in, (E), 22:20578 (WASH-1079)
reactions (n,f) with uranium-235 at 7 to 14 MeV, neutron emission in, (E), 21:35437(R) (EANDC(E)-76(U))
reactions (n,f) with uranium-235 below 3 MeV, effect of fission fragment mass distribution on total kinetic energy in, (E), 22:32563(T) (ANL-Trans-606)
reactions (n,f) with uranium-235 in fast critical assembly, measurements on Doppler effect in, (E), 22:32562 (AE-314)
reactions (n,f) with uranium-235 in reactor spectrum, Doppler effect for, (E), 22:3706
reactions (n,f) with uranium-235 in the keV and MeV range, effects of fluctuations on cross section measurements, 25:53732 (CONF-701002-, pp 246-56)
reactions (n,f) with uranium-235 up to 1.5 MeV, angular distributions of fragments from, (E), 24:15891
reactions (n,f) with uranium-235, cross sections for, (E), 23:1882 (WASH-1093)
reactions (n,f) with uranium-235, cross sections for, (E/T), 25:15398
reactions (n,f) with uranium-235, Doppler effects on, (E), 21:38373
reactions (n,f) with uranium-235, fission-fragment energy and mass distributions in, (E), 22:32631
reactions (n,f) with uranium-235, fission-fragment energy distribution from, (E), 21:17340(R) (AEET-267)
reactions (n,f) with uranium-235, plutonium-239, and plutonium-241 at 17 keV to 1 MeV, absolute cross section for, (E), 25:53733 (CONF-701002-, pp 257-71)
reactions (n,f) with uranium-235, resonance parameters from multilevel analysis using R-matrix theory, (T), 22:48522 (LA-3917)
reactions (n,f) with uranium-235, variations in fragment kinetic energy with excitation energy in, (E), 23:37194(T) (LIB/Trans-199)
reactions (n,f) with uranium-236 at 0.4 to 1.1 keV, channel analysis of, (E/T), 24:30786
reactions (n,f) with uranium-236 at 0.5 to 8 MeV, cross section for, (E), 25:53752(R) (ORNL-4659)
reactions (n,f) with uranium-236 at 0.8 to 6.7 MeV, energy dependence of prompt neutron yield from, (E), 25:59806
reactions (n,f) with uranium-236, cross sections for, (E), 23:37211
reactions (n,f) with uranium-238 at 0.5 to 15 MeV, intercalibrated cross sections for, (E), 24:35838
reactions (n,f) with uranium-238 at 0.8 to 3.4 MeV, angular anisotropy of, (E), 23:7316
reactions (n,f) with uranium-238 at 1 to 15 MeV, evaluation of ν-bar for, (E), 25:53730 (AWRE-O-44/71)
reactions (n,f) with uranium-238 at 1 to 23 MeV, cross sections for, (E), 21:40432 (WASH-1074)
reactions (n,f) with uranium-238 at 1.2 to 2.66 MeV, fragment angular distributions from, (E), 24:49908
reactions (n,f) with uranium-238 at 1.20 to 2.66 MeV, fragment angular distributions from, (T), 25:20393
reactions (n,f) with uranium-238 at 1.3 to 6.9 MeV, statistical analysis of mass and energy distribution of fragments from, (E/T), 23:25908
reactions (n,f) with uranium-238 at 1.35 and 2.02 MeV, neutron spectra from, (E), 25:15109
reactions (n,f) with uranium-238 at 1.4, 1.6, 1.9, 5.0, 5.5, and 6.9 MeV, fission-fragment energy and mass distributions in, (E), 22:42018(T) (LA-tr-68-21)
reactions (n,f) with uranium-238 at 1.5 and 5.6 MeV, correlation of mass, energy, and angle in, (E), 23:49315 (ANL-7410, pp 1-46)
reactions (n,f) with uranium-238 at 1.5 and 5.6 MeV, fission-fragment angle, energy, and mass distributions for, (E), 23:1882 (WASH-1093)
reactions (n,f) with uranium-238 at 1.5 and 5.6 MeV, mass—energy distributions for, (E), 23:28304 (WASH-1124)
reactions (n,f) with uranium-238 at 1.5 to 18 MeV, fission-fragment mass distributions from, (E), 22:1668
reactions (n,f) with uranium-238 at 1.5 to 18 MeV, cross sections for symmetrical, 21:7814
reactions (n,f) with uranium-238 at 1.5 to 5.5 MeV, neutron spectra and angular distributions for, (E), 25:43898
reactions (n,f) with uranium-238 at 1.6 MeV, angular anisotropy of fragments from, (E), 24:8902
reactions (n,f) with uranium-238 at 14 MeV, angular anisotropy of fission fragments from ternary, (E), 23:11010
reactions (n,f) with uranium-238 at 14 MeV, asymmetry of angular distribution for, (E), 22:35261
reactions (n,f) with uranium-238 at 14 MeV, cumulative yields of isotopes in, (E), 22:35325
reactions (n,f) with uranium-238 at 14 MeV, gamma spectra from technetium products of, (E), 25:28326 (CERN-70-30(Vol.2), pp 985-1000)
reactions (n,f) with uranium-238 at 14 MeV, mass distribution of fragments from, (E), 24:15887
reactions (n,f) with uranium-238 at 14 MeV, production of palladium-113, -115, and -116 from, (E), 25:5740
reactions (n,f) with uranium-238 at 14.7 MeV, angular-distribution measurements using glass track detectors, 21:31799
reactions (n,f) with uranium-238 at 14.7 MeV, xenon isotope relative yields in, (E), 24:43460
reactions (n,f) with uranium-238 at 18 to 21 MeV, delayed neutron yields in, (E), 22:24869
reactions (n,f) with uranium-238 at 2.5 MeV, cross section for, 25:34113
reactions (n,f) with uranium-238 at 2.5, 7.6, and 14 MeV with long-range particle emission, calculation of probability for, (T), 25:15018
reactions (n,f) with uranium-238 at 3 MeV, cumulative mass yields from, (E), 24:49898
reactions (n,f) with uranium-238 at 3 MeV, lifetime of compound nucleus in, (E), 25:1758
reactions (n,f) with uranium-238 at 4.65 and 15.3 MeV, fission fragment track analysis in solid-state detectors for, 22:14792
reactions (n,f) with uranium-238 at 5.5 to 7 MeV, analysis of charge distributions using expansion of delayed neutron decay curves, (E/T), 24:15869(T) (LA-tr-69-3(Draft))
reactions (n,f) with uranium-238 at 5.6 MeV, mass-energy-angle correlations for, 22:22653(R) (ANL-7419)
reactions (n,f) with uranium-238 at 6 to 9 MeV, fission-fragment kinetic energy from, (E), 22:22603
reactions (n,f) with uranium-238, barium-140 yield in, (E), 24:5415 (CISE-R-171)
reactions (n,f) with uranium-238, calculation of mass yields using potential energy surface and renormalized Fermi gas model, (T), 25:50788
reactions (n,f) with uranium-238, correction factor for, (E), 23:37219
reactions (n,f) with uranium-238, energy ranges of fission fragments produced by, 21:10254(R) (TEES-2671-5)
reactions (n,f) with uranium-238, evaluation of average neutron yield from, 25:59775 (AWRE-O-44/71)
reactions (n,f) with uranium-238, probability for long-range α-particle emission in, 24:35886
reactions (n,γ) and (n,2n) with rhenium-185 and rhenium-187, cross sections for, (E), 21:17379
reactions (n,γ) and (n,n'γ) with nuclei, multiparameter analyzer for studying, 24:27382 (CEA-R-3981)
reactions (n,γ) with bromine-79 at 2.5 MeV, isomeric cross-section ratio for, (E), 24:28763
reactions (n,γ) with dysprosium-161 at 1 MeV, gamma spectra from, (E), 23:49436
reactions (n,γ) with molybdenum-92 at 2.5 and 3.0 MeV, cross sections for, (E), 25:25778
reactions (n,γ) with nuclei at 14-MeV, Monte Carlo study of moon surface analysis from, 21:25779
reactions (n,γ) with yttrium-89 at 0.16 to 3.6 MeV, cross sections for, (E), 21:11993
reactions (n,He-3) with rhodium-103 at 14.7 MeV, cross sections for, (E/T), 21:12072
reactions (n,He-3), (n,n'α), and (n,2p) with rhodium-103 at 14.8 MeV, cross sections for, (E), 23:7326
reactions (n,n') and (n,2n) with nuclei at 15 MeV, statistical model interpretation of ratio of cross sections for, (E/T), 23:11037
reactions (n,n) with deuterium at 14.5 MeV, comparison with (n,p) reactions from total (n,nnp) reactions for, (E), 24:28690 (CEA-CONF-1485)
reactions (n,n)3α with carbon-12 at 14.1 MeV, neutron polarization detection from, (E), 21:21449
reactions (n,n3α) with carbon-12 at 14.1 MeV, angular distributions and cross sections for, (E), 24:22079
reactions (n,nf) with thorium-232 and uranium-238 at 5.00 to 7.75 MeV, delayed neutron yields in, (E), 21:15604
reactions (n,n'γ) with nuclei at 1.25 to 1.68 MeV, spectra from, (E), 21:4701
reactions (n,nnp) with deuterium at 14.5 MeV, cross sections for, (E), 24:28690 (CEA-CONF-1485)
reactions (n,np) with chromium-53 at 14.8 MeV, activation cross section for, (E), 22:1616
reactions (n,np) with deuterium at 14 MeV, three-parameter system for studying, 23:20057
reactions (n,np) with selenium-80 at 13.36 to 17.78 MeV, excitation function for, (E), 25:53743(R) (INR-1318)
reactions (n,p) 3n with tritium at 30 and 50 MeV, possible broad 3-neutron resonance in, (T), 25:25636
reactions (n,p) and (n,2n) with deuterium at 14 MeV, final-state interactions in, (E), 22:37340(R) (EANDC(E)-89(U))

reactions (n,p) and (n,2n) with selenium-74 at 14.7 MeV, cross sections for, (E), 23:25854
reactions (n,p) and (n,2n) with tantalum-181 at 12 to 18 MeV, excitation functions for, (E), 23:13286
reactions (n,p) and (n,2n) with tin isotopes at 14.4 MeV, activation cross sections for, (E), 23:1904
reactions (n,p) and (n,2n) with zinc-64 and zinc-66 at 14.4 MeV, activation cross sections for, (E), 23:8967
reactions (n,p) and (n,α) with aluminum-27 up to 14 MeV, Hauser—Feshbach analysis of excitation functions for, (E/T), 25:20346
reactions (n,p) and (n,α) with argon, chromium, and tellurium isotopes at 15 MeV, activation cross sections for, (E), 23:10965
reactions (n,p) and (n,α) with argon-40 at 14.4 MeV, activation cross sections for, (E), 23:23659
reactions (n,p) and (n,α) with arsenic, bromine, and selenium isotopes at 14.8 MeV, absolute cross sections for, (E), 21:44628
reactions (n,p) and (n,α) with nuclei at 14 MeV, shell efects in cross sections for, (E), 25:31362
reactions (n,p) and (n,α) with selenium-74 at 14.7 MeV, cross sections for, (E), 23:25854
reactions (n,p) and (n,α) with silicon-28 at 6.7 to 13.4 MeV, fluctuation analysis of cross sections for, (E/T), 23:15425
reactions (n,p) and (n,α) with silicon-28, -29, and -30 at 14.5 MeV, cross sections for, (E), 25:25664 (N-70-40560)
reactions (n,p) and (n,α) with silicon-30 and zinc-68 at 14.4 MeV, activation cross sections for, (E), 23:8967
reactions (n,p) and (n,d) with helium-3 at 14.4 MeV, angular distributions for, (E), 23:25802
reactions (n,p) and (n,d) with light-weight nuclei at 152 MeV, differential cross sections for, (E), 21:44593
reactions (n,p) and (n,n'γ) with osmium-190 at 14.8 MeV, gamma spectra from, (E), 25:53743(R) (INR-1318)
reactions (n,p) and (n,np) with nitrogen-14 at 14 MeV, cross sections for, (E), 22:35261
reactions (n,p) and (n,np) with titanium isotopes at 13.6 to 19.5 MeV, cross sections for, (E), 21:2689
reactions (n,p) and (n,np) with zinc-64 and zinc-66 at 14 MeV, angular distributions and cross sections for, (E), 23:3979
reactions (n,p) and (n,np) with zinc-64 at 14 MeV, proton angular and energy distributions from, (E/T), 22:22561(T) (ORNL-tr-1850)
reactions (n,p) and (n,t) with praseodymium-141 at 14.8 MeV, cross sections for, (E), 22:48559
reactions (n,p) and (n,t) with tritium at 15.2 MeV, differential cross sections for, (E), 21:21411
reactions (n,p) with 45 A = 6 to 167 nuclei at 14.8 MeV, cross sections for, (E), 25:38963
reactions (n,p) with 6 less than or equal to Z less than or equal to 50 nuclei at 14.5 MeV, cross sections for, (T), 21:23556
reactions (n,p) with A = 19 to 190 nuclei at 14 MeV, cross sections for, (E), 22:35261
reactions (n,p) with A = 32 to 139 nuclei at 15 MeV, absolute cross sections for, (E), 23:5844
reactions (n,p) with aluminum-27 and arsenic-75 at 14.2 MeV, cross sections for, (E), 22:32638
reactions (n,p) with aluminum-27 and iron-56 at 13.7 to 14.7 MeV, activation cross sections for, (E), 22:22573
reactions (n,p) with aluminum-27 and magnesium-24, cross sections for, (E), 25:36688(R) (N-70-43042)
reactions (n,p) with aluminum-27 at 13.5 to 14.9 MeV, energy dependence of cross sections for, (E), 24:33124
reactions (n,p) with aluminum-27 at 14 MeV, cross sections for, (E), 21:13850
reactions (n,p) with aluminum-27 at 50 MeV, gamma energy and half-life measurements on, 21:38265
reactions (n,p) with aluminum-27 at 8 MeV, proton angular distributions and spectra from, (E), 21:40408
reactions (n,p) with aluminum-27, calcium-42, calcium-43, calcium-44, and potassium-41 at 14.2 MeV, activation cross sections for, (E), 22:18180
reactions (n,p) with aluminum-27, calcium-42, calcium-43, and calcium-44 at 14 MeV, cross sections for, (E), 21:15508 (CONF-660221-, pp 60-4)
reactions (n,p) with aluminum-27, silicon-28, and silicon-29 at 14.4 MeV, activation cross sections for, (E), 23:8967
reactions (n,p) with antimony isotopes, palladium isotopes, and tellurium isotopes at 14.8 MeV, cross sections for, (E), 25:53786
reactions (n,p) with argon-38 at 14 to 15 MeV, cross sections for, (E), 21:14930(R) (ORO-3235-12)
reactions (n,p) with argon-38 at 14.8 MeV, activation cross section for, (E), 22:20511
reactions (n,p) with argon-40 at 14 MeV, proton angular and energy distributions from, (E), 22:32541
reactions (n,p) with argon-40 at 17 MeV, production of isomeric chlorine-40 by, (E), 22:22564
reactions (n,p) with arsenic-75 at 13 to 17 MeV, cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions (n,p) with arsenic-75 at 13.39 to 14.96 MeV, production of isomeric germanium-75 in, (E), 21:7724
reactions (n,p) with arsenic-75 at 14.3 to 14.7 MeV, isomeric cross-section ratio for, (E), 24:3881
reactions (n,p) with arsenic-75, chlorine-37, and copper-65 at 14.8 MeV, cross sections for, (E), 22:24835(R) (BARC-305)
reactions (n,p) with arsenic-75, gallium-71, and tin-117 at 13.02 to 16.51 MeV, excitation functions for, (E), 25:53743(R) (INR-1318)
reactions (n,p) with arsenic-75, magnesium-25, nickel-58, oxygen-16, rubidium-85, selenium-74, and sulfur-34 at 13 to 19 MeV, cross sections for, (E), 21:7764
reactions (n,p) with barium-138, cerium-140, lanthanum-139, neodymium-142, and praseodymium-141 at 14 MeV, activation cross sections for, (E), 22:9889
reactions (n,p) with boron-11 and sodium-23 at 15 MeV, cross sections for, (E), 22:53123
reactions (n,p) with boron-11 at 14.5 MeV, cross section for, (E), 22:11910
reactions (n,p) with boron-11 at 14.5 MeV, cross section for, (E), 22:26932(R) (NP-17434)
reactions (n,p) with boron-11 at 14.7 to 16.9 MeV, cross sections for, (E), 21:21461
reactions (n,p) with bromine-81 and cadmium-106 in reactor spectrum, cross sections for, (E), 22:24837 (KR-123)
reactions (n,p) with cadmium-106 at 13 to 20 MeV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,p) with calcium-42 at 14.6 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,p) with calcium-43 at 14.6 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,p) with calcium-44 at 14.7 MeV, cross section for, (E), 22:41998
reactions (n,p) with chlorine-35 at 14.6 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,p) with chromium-52, -53, and -54 at 14.8 MeV, activation cross sections for, 22:1616
reactions (n,p) with chromium-52, magnesium-24, zinc-66, and zinc-68 at 14.4 to 16.7 MeV, cross sections for, (E), 24:26621
reactions (n,p) with cobalt-59 at 6.3 MeV, proton spectra and angular distributions for, (E), 24:35854
reactions (n,p) with cobalt-59, excitation function for, 25:45998
reactions (n,p) with copper-63 at 16 to 18 MeV, excitation function for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions (n,p) with deuterium at 14 MeV, differential cross section for, (E), 23:3934
reactions (n,p) with deuterium at 14 MeV, neutron-neutron angular correlation in, (E), 22:35215
reactions (n,p) with deuterium at 14.4 MeV, proton spectra for three separable-potential models of, (T), 25:5531
reactions (n,p) with deuterium at 14.5 MeV, comparison with (n,n) reactions from total (n,nnp) reactions, (E), 24:28690 (CEA-CONF-1485)
reactions (n,p) with deuterium at 14.5 MeV, pole-diagram analysis of cross section for, (E/T), 25:12369
reactions (n,p) with deuterium at 8 to 28 MeV, cross sections and n—n scattering length for, (E), 23:1788
reactions (n,p) with deuterium at 8 to 28 MeV, proton spectra for, (E), 23:44826
reactions (n,p) with even krypton and xenon isotopes at 14 MeV, activation cross sections for, (E), 23:3973
reactions (n,p) with gallium-69 and gallium-71 at 14.5 MeV, isomeric cross-section ratios for, (E), 23:3969
reactions (n,p) with germanium-72, germanium-73, and germanium-74 at 14.4 MeV, cross sections for, (E), 21:19223
reactions (n,p) with hafnium-178 at 14.8 Mev, cross sections for lutetium-178 production in, (E), 21:1105
reactions (n,p) with hafnium-180 at 14.8 MeV, production of lutetium-180 in, (E), 25:20426
reactions (n,p) with helium-3 above 600 keV, cross section for, (E), 23:28304 (WASH-1124)
reactions (n,p) with helium-3 at 0.3 to 1.16 MeV, cross section for, (E), 24:26586
reactions (n,p) with helium-3 at 0.3 to 1.2 MeV, cross sections for, (E), 23:30997(R) (GA-9275)
reactions (n,p) with helium-3 at 0.3 to 1.2 MeV, cross sections for, (E), 23:49398 (WASH-1127)
reactions (n,p) with helium-3 at 1, 3.6, and 6 MeV, cluster-model analysis of, (T), 25:28167
reactions (n,p) with helium-4 at 152 MeV, proton spectra from, (E), 21:38223
reactions (n,p) with iron, nickel, titanium, and zinc at 14 MeV, proton spectra from, (E), 21:25495
reactions (n,p) with iron-54 and nickel-58, multiple foil activation iterative method for evaluating differential cross sections for, (E/T), 23:5858
reactions (n,p) with iron-54, activation cross sections relative to nickel-58 for, 21:21504
reactions (n,p) with iron-54, iron-56, nickel-58, and sulfur-32 at 14.8 MeV, cross sections for, (E), 24:8871
reactions (n,p) with iron-54, selenium-74, and selenium-76 at 14.4 MeV, cross sections for, (E), 21:19221
reactions (n,p) with iron-56 at 5 to 20 MeV, statistical-model calculation of excitation functions and isomer ratios for, (T), 25:39048
reactions (n,p) with iron-56 up to 20 MeV, cross section standards for, 23:5859
reactions (n,p) with iron-56, magnesium-24, and nickel-60 at 6.0 to 8.3 MeV, cross sections for, (E), 21:4259
reactions (n,p) with iron-56, magnesium-24, and titanium-48 at 13.5 to 14.7 MeV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,p) with iron-56, magnesium-24, and titanium-48 at 13.5 to 14.7 MeV, excitation functions for, (E), 23:5823
reactions (n,p) with iron-59, iron-56, magnesium-24, and nickel-58 at 1 to 20 MeV, intercalibrated cross sections for, (E), 24:35838
reactions (n,p) with lead-208 and strontium-88 at 14 MeV, cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,p) with lithium-6 at 14 MeV, data acquisition system for, 25:49036 (FRNC-TH-47)
reactions (n,p) with lithium-6 at 3 to 9 MeV, cross section for, (E), 23:25826
reactions (n,p) with lithium-6 at 3 to 9 MeV, excitation function for, 23:49332(R) (EANDC(E)-115(U))
reactions (n,p) with lithium-6 at 3.1 to 9.0 MeV, excitation function for, (E), 23:37116
reactions (n,p) with magnesium-24 at 12 to 15 MeV, total cross sections for, (E), 21:29925
reactions (n,p) with magnesium-24 at 12 to 15 MeV, cross sections for, (E), 21:21481 (USNRDL-TR-67-21)
reactions (n,p) with magnesium-24 at 14 MeV, cross section for isomer production in, (E), 23:25880
reactions (n,p) with magnesium-24 at 14 MeV, cross section for, (E), 22:32517
reactions (n,p) with magnesium-24 at 14.8 MeV, isomeric production cross section for, (E), 25:45981
reactions (n,p) with mercury-198, mercury-199, and mercury-201 at 14 MeV, activation cross sections for, (E), 23:31016
reactions (n,p) with mercury-202 at 15 MeV, gold-202 production by, (E), 22:11969
reactions (n,p) with mercury-204 at 15 MeV, gold-204 production by, (E), 22:11969
reactions (n,p) with molybdenum-98 at 14.3 MeV, production and decay of isomeric niobium-98 from, (E), 21:31818
reactions (n,p) with neodymium-142, -143, -144, -145, -146, and -148 at 14 MeV, activation cross sections for, (E), 24:38297
reactions (n,p) with neon-22 at 14.3 MeV, cross sections for, (E), 23:46942(R) (NYO-3417-11)
reactions (n,p) with nickel-58 at 13.2 to 17.2 MeV, cobalt-58 isomer production in, (E/T), 21:44607 (ZFK-122, pp 289-92)
reactions (n,p) with nickel-58 at 13.39 to 14.96 MeV, production of isomeric cobalt-58 in, (E), 21:7724
reactions (n,p) with nickel-58 at 14.8 and 22 MeV, collective treatment of analog-dipole excitations in, (T), 25:36835
reactions (n,p) with nickel-58 at 14.8 MeV, analysis of proton angular distributions from, (T), 25:5638
reactions (n,p) with nickel-58 at 15 MeV, isobaric analog resonances in, (E), 22:27054
reactions (n,p) with nickel-58 at 2 to 18 MeV, excitation function and isomeric cross-section ratio for, (E), 22:26934
reactions (n,p) with nickel-58 at 2.2 to 3.5 and 13.7 to 14.8 MeV, activation cross sections for, (E), 22:24842
reactions (n,p) with nickel-58 up to 14 MeV, Hauser—Feshbach analysis of excitation functions for, (E/T), 25:20346
reactions (n,p) with nickel-58, isomer ratio and cross section for, (E), 22:27055
reactions (n,p) with nickel-60 at 6 to 20 MeV, cross sections for, (E), 21:40403
reactions (n,p) with nickel-60 at 8 and 15 MeV, cross sections for production of isomeric cobalt-60 by, (E), 21:42603
reactions (n,p) with nitrogen-14 at 493 keV, n-p singlet effective range from, (E), 23:1796
reactions (n,p) with nitrogen-14 at 5 to 13 MeV, cross sections for, (E), 21:7773 (UCID-15036)
reactions (n,p) with nitrogen-14 at 5 to 13 MeV, cross sections for, (E), 21:12027(R) (UCRL-50001-66-2)
reactions (n,p) with nitrogen-14 at 5 to 9 MeV, cross sections for, (E), 21:25518 (WASH-1071)
reactions (n,p) with nuclei at 14 MeV, shape analysis of proton spectra from, (E/T), 24:15833
reactions (n,p) with nuclei at 5.3 to 20 MeV, DWBA calculation with exchange interactions and finite range, 24:15957
reactions (n,p) with nuclei at 5.3 to 20 MeV, effects of finite range and exchange interaction in, (T), 24:20374
reactions (n,p) with osmium-188 at 14.6 MeV, cross sections for, (E), 21:33964 (NP-16748)
reactions (n,p) with oxygen-17 at 14.1 MeV, cross section for the delayed-neutron yield from, (E), 24:22081
reactions (n,p) with palladium-108 at 14 MeV, beta and gamma spectra from, (E), 23:46996
reactions (n,p) with platinum-196 at 14 MeV, iridium-196 decay scheme from, (E), 21:2693
reactions (n,p) with platinum-196 at 14 MeV, iridium-196 production by, (E), 21:2727
reactions (n,p) with potassium-39 at 4 to 8 MeV, argon-39 energy-level spins and transitions from, (E), 21:13835
reactions (n,p) with potassium-39 at 5.4 and 7.0 MeV, proton—gamma coincidence spectra from, (E), 23:37146
reactions (n,p) with potassium-41 and zinc-64 at 14 to 18 MeV, cross sections for, (E), 23:49332(R) (EANDC(E)-115(U))
reactions (n,p) with potassium-41 and zinc-64 at 13 to 18 MeV, excitation functions for, (E), 23:34756
reactions (n,p) with samarium-148 at 14.2 MeV, cross sections for, (E), 23:15468
reactions (n,p) with scandium-44, scandium-46, yttrium-88, and zirconium-90 at 0.1 to 1.0 MeV, cross-section calculations using statistical theory, (T), 22:20677 (UCRL-50359)
reactions (n,p) with selenium-74 at 14 MeV, cross section for, (E), 21:2675
reactions (n,p) with selenium-74, selenium-76, and selenium-78 at 14.7 MeV, angular and energy distributions for, (E), 21:12008
reactions (n,p) with selenium-76 at 14.7 MeV, cross section for, (E), 21:40405
reactions (n,p) with selenium-76 at 14.7 MeV, cross sections for, (E), 21:33929
reactions (n,p) with silicon-28 at 14 MeV, calculations using finite-range distorted-wave Born approximation, (T), 21:13796(R) (ORO-2972-25)
reactions (n,p) with silicon-28 at 14 MeV, cross-section calculations using finite-range distorted-wave Born approximation, (T), 22:11949(R) (ORO-2972-47)
reactions (n,p) with silicon-28 at 21.3 MeV, ionization defect of aluminum-27 recoils from, 22:22569
reactions (n,p) with silicon-28 at 8 to 9 MeV, proton angular distributions and spectra from, (E), 21:40408
reactions (n,p) with silicon-28, titanium-48, and vanadium-51 at 14.7 MeV, cross sections for, (E), 24:20350
reactions (n,p) with silicon-30 at 15 MeV, cross section for, (E), 25:36715
reactions (n,p) with sodium-23 at 8 to 9 MeV, analysis of measurements on, (E), 23:7272
reactions (n,p) with sulfur-32 at 2.17 to 2.88 and 12.5 to 17.5 MeV, cross sections for, (E), 22:30013
reactions (n,p) with sulfur-32, activation cross section for, 22:24862 (WANL-TME-1746)
reactions (n,p) with sulfur-33, cross section for, (E), 22:5790(T) (CEA-tr-A-1898)

reactions (n,p) with tantalum-181 at 13 to 17.5 MeV, excitation function for, (E), 23:21340
reactions (n,p) with tellurium-126, and tellurium-128 at 14.8 MeV, isomeric cross-section ratios for, (E), 22:42058
reactions (n,p) with titanium-46 and -48 at 4.91 to 7.04 MeV, cross sections for, (E), 25:12504
reactions (n,p) with titanium-46 and titanium-48 at 4.8 to 7.1 MeV, cross sections for, 23:37163
reactions (n,p) with titanium-46 at 4.1 to 6.1 MeV, cross sections for, (E), 25:59755
reactions (n,p) with titanium-46, -47, -48, -49, and -50 at 13.6 to 19.5 MeV, cross sections for, (E/T), 22:32552
reactions (n,p) with titanium-47 at 3.4 to 6.1 MeV, cross sections for, (E), 25:59755
reactions (n,p) with titanium-48 at 6.1 MeV, cross section for, (E), 25:59755
reactions (n,p) with tritium at 14, 18, and 21.5 MeV, proton spectra and cross section for, (E), 23:25804
reactions (n,p) with ytterbium-174 at 14.8 MeV, cross sections for, (E), 21:17340(R) (AEET-267)
reactions (n,p) with ytterbium-174 at 15 MeV, cross section for, (E), 22:24885
reactions (n,p) with ytterbium-176 at 15 MeV, cross section for, (E), 22:24886
reactions (n,p) with Z = 12 to 52 nuclei at 14 MeV, analysis for compound and direct parts in, (E), 23:19209
reactions (n,p) with Z = 3 through 68 nuclei, cross sections for, (E), 25:50661
reactions (n,p) with Z = 8 to 33 nuclei at 14 MeV, cross sections for, (E/T), 22:32729
reactions (n,p) with zinc-64, cross sections for, 24:22665(R) (AECL-3521)
reactions (n,p) with zirconium-90 at 150 MeV, cross-section calculations using impulse approximation, (T), 24:8917
reactions (n,p), (n,α), (n,2n), and (n,3n) with iodine-127 at 14.7 MeV, activation cross sections for, (E), 23:1923
reactions (n,p), (n,α), (n,np), (n,nα) with calcium-40 at 14.6 MeV, cross sections and nuclear temperatures for, (E), 23:23666
reactions (n,p), (n,α), and (n,2n) with nuclei, cross sections for, (E), 25:28273
reactions (n,p), (n,d), (n,t), and (n,α) at 14.4 MeV, angular distributions and energy spectra for, (E), 23:21285
reactions (n,p), (n,pn), and (n,α) with uranium-238 at 15 MeV, cross sections for, (E), 23:42927
reactions (n,p2n) with deuterium at 14.1 MeV, cross sections, neutron spectra, and n—p scattering lengths from, (E/T), 25:12367
reactions (n,pn) and (n,d) with cadmium-106 at 14.4 MeV, total cross section for, (E), 24:1846
reactions (n,pn) with tellurium-128 and -130 at 14.8 MeV, cross sections for, (E), 25:53786
reactions (n,pn), (n,np) and (n,d) at 14.8 MeV, total cross section for, 24:8871
reactions (n,π) with selenium-80 at 14.7 MeV, cross section for, (E), 23:25854
reactions (n,t) with bismuth-209 at 14.8 MeV, cross section for, (E), 22:53216
reactions (n,t) with boron-11 at 14.4 MeV, angular distributions for, (E), 25:20285
reactions (n,t) with calcium-40 and sulfur-32 at 14.8 MeV, cross section for, (E), 21:2672
reactions (n,t) with calcium-40 and sulfur-32 at 13 to 19 MeV, cross sections for, (E), 21:7764
reactions (n,t) with calcium-40 and sulfur-32 at 15 MeV, cross sections for, (E), 23:7252
reactions (n,t) with calcium-40 at 14 MeV, cross sections for, (E), 21:15508 (CONF-660221-, pp 60-4)
reactions (n,t) with calcium-40 at 14.2 MeV, activation cross section for, (E), 22:18180
reactions (n,t) with fluorine-19 at nitrogen-14 at 14.4 MeV, angular distributions for, (E), 23:25825
reactions (n,t) with fluorine-19, helium-3, and nitrogen-14 at 14.4 MeV, angular distributions for, (E), 23:13211
reactions (n,t) with lithium-6 above few keV, measurement of neutron spectra by, 21:21469
reactions (n,t) with lithium-6 at 2.7 and 14.4 MeV, angular distributions for, (E), 23:21263 (ZFK-130, pp 143-4)
reactions (n,t) with lithium-6 at 2.7 and 14.4 MeV, angular distributions for, (E), 23:25825
reactions (n,t) with lithium-6 at 2.7 and 14.4 MeV, angular distributions for, (E), 23:13211
reactions (n,t) with nitrogen-14 at 14.4 MeV, (E/T), 21:7709
reactions (n,t) with nitrogen-14 at 14.7 MeV, angular distributions from, (E), 21:31727
reactions (n,t) with zinc 64 at 14.7 MeV, cross section for, (E), 22:48504
reactions (n,t)2α with boron-10 at 14.4 MeV, differential cross sections and spectra for, (E), 21:27536
reactions (n,t)αn with lithium-7 at 14.4 MeV, differential cross sections and spectra for, (E), 21:27536
reactions (n,x) with sodium-23 at 12.65 to 18.25 MeV, particle spectra from, (E), 24:52492
reactions (n,xγ) with aluminum at 5.3 to 9.0 MeV, gamma production cross sections for, (E), 25:17775 (ORNL-TM-3284)
reactions (n,xγ) with nitrogen-14 at 8.5 to 11 MeV, differential cross sections for, (E), 24:35827
reactions (n,xγ) with nuclei at 14 MeV, cross sections and gamma spectra from, (E/T), 25:14920(T) (BNL-tr-380)
reactions (n,xγ) with nuclei, cross section measurements with pulsed Van de Graaff and electron linac, 24:35774
reactions (n,xγ) with oxygen-16 at 6.7 to 11 MeV, γ spectra for, (E), 24:3953(R) (ORNL-4433)
reactions (n,xγ) with silicon-28, -29, and -30 at 5.3 to 9 MeV, γ spectra from, (E), 24:28737 (ORNL-TM-2883)
reactions (n,xγ) with silicon-28, silicon-29, and silicon-30 at 5.3 to 9.0 MeV, gamma production cross sections and spectra for, (E), 24:52507
reactions (n,xγ) with uranium-235 at 4.0 to 7.5 MeV, inelastic scattering cross section for, (E), 23:46991
reactions (nα) with tellurium-126 and tellurium-128 at 14.8 MeV, isomeric cross-section ratio for, (E), 22:42058
reactions at 14 MeV, for use in automated activation analysis, 21:10254(R) (TEES-2671-5)
reactions at bone—tissue interface, dosimetry of recoil protons following, 25:49183
reactions for activation analysis of steelworks materials, 21:19537 (MG/D-329/65)
reactions in phantoms at 3.0- to 15.0-MeV, proton-recoil spectra from, (E), 21:43319 (ORNL-TM-1927)
reactions of 14-MeV, with fluorine-19, trace analysis for fluorides by, 21:12371
reactions of polarized, with polarized cobalt-59 at 1 MeV, spin—spin effect in total cross section for, (E), 23:49354 (ISSP-A-371)
reactions of, with magnesium, production of carrier-free sodium-24 in, 21:15916 (EUR-3258.e)
reactions with 1p- and 2s1d-shell nuclei, γ spectra and cross sections for, (E), 23:23626 (NP-17794)
reactions with A = 28 to 205 nuclei at 14.4 MeV, activation cross sections for, (E), 22:22589 (ORO-3346-18)
reactions with A = 51 to 209 nuclei at 3.2 to 5.2 MeV, fluctuation analysis of total cross sections for, (E), 23:1839
reactions with A = 9 to 127 nuclei at 14.5 MeV, total cross sections for, (E), 24:38104
reactions with A greater than 26 nuclei at 0.5 to 42 MeV, expression for total cross sections for, (E), 25:48113
reactions with A greater than or equal to 20 nuclei at 4 to 14 MeV, formula for gamma production cross sections for, (T), 21:11992 (UCRL-50185)
reactions with aligned and unaligned holmium-165 at 2 to 120 MeV, total cross sections for, (E), 22:35285(R) (AERE-PR/NP-13)
reactions with aluminum, beryllium, carbon, copper, and lead at 8 to 21 GeV/c, scintillation counter and spectrometer study of total cross sections for, (E), 24:51940
reactions with aluminum, carbon, copper, and lead at 3.8 GeV/c, total cross sections for, (E), 24:30466
reactions with aluminum, copper, and lead at 370 MeV, cross sections for, (E), 21:4205 (ORNL-3884)
reactions with aluminum-27 at 0.756 MeV, total cross section for, (E), 21:7720 (AECD/EP-15)
reactions with aluminum-27 at 14 MeV, total cross-section fluctuation for, (E), 21:31692
reactions with aluminum-27 at 4, 6, and 7.5 MeV, γ production cross sections for, (E), 24:40550 (WASH-1136)
reactions with aluminum-27, beryllium-9, carbon, copper, iron, lead, tungsten, and uranium at 27 GeV/c, total cross sections for, (E), 22:44619
reactions with aluminum-27, beryllium-9, carbon, copper, helium, iron, lead, and lithium at 10 GeV/c, total cross sections for, (E), 23:5829
reactions with aluminum-27, beryllium-9, chromium-52, cobalt-59, gallium-69, nickel-58, uranium-238, and vanadium-51 at 3 MeV, total cross sections for, (E), 21:35416 (CEA-R-3124)
reactions with aluminum-27, bismuth-209, calcium, carbon, iron, oxygen, sodium-23, sulfur, and thallium at 0.5 to 30 MeV, total cross sections for, (E), 23:5826
reactions with aluminum-27, bismuth-209, calcium, carbon, iron, oxygen, sodium-23, sulfur, and thallium at 0.5 to 32 MeV, total cross sections for, 23:13204 (EURFNR-591)
reactions with aluminum-27, bismuth-209, carbon-12, and iron-56 at 5, 6.6, and 8.7 MeV, γ production cross sections for (E), 24:5388 (CEA-R-3808)
reactions with aluminum-27, cadmium, copper, lead, and uranium-238 at 100 to 150 MeV, total cross sections for, (E), 22:53140
reactions with aluminum-27, cadmium, copper, lead, and uranium at 100 to 150 MeV, optical-model analysis of, total cross sections for, (E/T), 25:17914
reactions with aluminum-27, calcium, and magnesium, fluctuations in total cross sections for, (E), 22:20578 (WASH-1079)
reactions with aluminum-27, chromium, cobalt-59, fluorine-19, iron, lead, manganese-55, nickel, phosphorus-31, silicon, and vanadium-51 at 0.4 to 1.2 MeV, total cross sections for, (E), 22:39575 (CEA-R-3279)
reactions with aluminum-27, copper, iron, titanium and zinc at 1 to 14 MeV, γ production cross sections for, (E), 24:33135
reactions with aluminum-27, gold-197, nickel, thorium-232, titanium, and zinc, activation cross sections for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with aluminum-27, iron-56, lead, nitrogen-14, and oxygen-16 at 14 MeV, recoil spectra for, (E), 23:52111 (CEA-R-3807)
reactions with americium-241 and -243 at 14.5 MeV, cross sections and fission-fragment angular isotropy for, (E), 21:31825
reactions with antimony, indium, iodine, mercury, and rhenium, analysis of total cross sections for strength functions, (E/T), 22:30015
reactions with argon-40, calcium-48, and sulfur-34, total cross sections for, (E), 22:20578 (WASH-1079)
reactions with argon-40, calcium-48, and sulfur-34 up to 650 keV, total cross sections and resonance parameters for, (E), 23:19254(R) (ORO-3624-7)
reactions with argon-40, calcium-48, and sulfur-34, total cross sections for, (E), 23:1882 (WASH-1093)
reactions with argon-40, calcium-48, and sulfur-34, total cross sections and resonance parameters for, (E), 23:28304 (WASH-1124)
reactions with argon-40, calcium-48, and sulfur-34 up to 650 keV, R-matrix multilevel fit to total cross sections for, (E/T), 24:3884
reactions with arsenic-75 and chromium at 3.2 to 5.2 MeV, effective total sections for, (E), 23:3992
reactions with arsenic-75, manganese-55, and scandium-45 up to 650 keV, total cross sections for, (E), 23:19254(R) (ORO-3624-7)
reactions with arsenic-75, manganese-55, and scandium-45, total cross sections for, (E), 23:1882 (WASH-1093)
reactions with beryllium and sodium in tissue equivalent phantoms, 22:25961(R) (BNWL-531-2)
reactions with beryllium-9 at 1 to 4.8 MeV, total cross section for, (E), 25:41161
reactions with beryllium-9 at 1.9 to 4.6 MeV, total cross section for, (E), 22:20449 (CONF-680307-15)
reactions with beryllium-9 at 14.8 MeV, γ production cross sections for, (E), 24:40550 (WASH-1136)
reactions with beryllium-9 at 2.3 to 5.2 MeV, spherical-shell transmission measurements of nonelastic cross sections for, (E), 23:5832
reactions with beryllium-9, carbon, and fluorine-19 at 13.7 to 14.6 MeV, total cross sections for, (E), 23:1804
reactions with biological tissues, group division on basis of, 22:48433
reactions with bismuth-209 and calcium-48 at 100 to 600 keV, total cross sections for, (E), 22:22560(R) (ORO-1067-2)
reactions with bismuth-209 at 0.2 to 1.4 MeV, total cross sections for, (E), 24:38243
reactions with bismuth-209 at 0.2 to 1.4 MeV, total cross section for, (E), 24:22133 (ANL-7636)
reactions with bismuth-209 at 0.2 to 1.5 MeV, total cross section for, (E), 23:49315 (ANL-7410, pp 1-46)
reactions with bismuth-209, calcium, carbon, iron, oxygen, sulfur, and thallium at 0.3 to 30 MeV, total cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with bismuth-209, carbon, gadolinium, holmium-165, molybdenum-100, and samarium at 0.1 to 1.6 MeV, total cross sections for, (E), 24:47637 (ANL-7610, pp 1-59)
reactions with bismuth-209, iron, lead, and nickel at 15 MeV, γ spectra and γ production cross sections for, (E), 24:10978
reactions with boron-10 at 14 to 21 MeV, total elastic and nonelastic cross sections for, (E), 22:11949(R) (ORO-2972-47)
reactions with boron-10 up to 2 MeV, R-matrix evaluation of total cross section for, 25:53592 (CONF-701002-, pp 107-20)
reactions with boron-10 up to 5 MeV and at 14.8 MeV, γ-ray yields from, (E), 24:3852 (ORO-2791-29)
reactions with boron-10, total cross section for, (E), 22:37289 (AERE-R-5224)
reactions with boron-containing A-286 iron alloy, relations of heat treatments with size of induced helium bubbles in, 23:12377
reactions with cadmium, copper, and lead at 10 to 125 MeV, calculations using optical potential, 23:25968
reactions with cadmium, erbium, hafnium, iron, lead, neodymium, palladium, samarium, and tantalum at 14 MeV, total cross sections for, (E), 22:35338
reactions with calcium and potassium at 1.8 to 8.3 MeV, total cross sections for, (E), 22:3653
reactions with calcium and potassium at 1.8 to 8.3 MeV, total cross sections for, (E/T), 25:17816
reactions with calcium and potassium at 2.4 to 16 MeV, total cross sections for, (E), 21:25475
reactions with calcium and sodium-23 at 0.28 to 1.2 MeV, total cross sections and resonance parameters for, (T), 25:14969
reactions with calcium and thorium-232 at 0.1 to 0.65 MeV, total cross sections for, (E), 23:1882 (WASH-1093)
reactions with calcium isotopes and potassium isotopes at 14 MeV, cross sections for, (E), 21:13850
reactions with calcium isotopes at 14 MeV, cross sections for, (E), 21:17340(R) (AEET-267)
reactions with calcium, hafnium, and lithium-7 at 100 to 650 keV, total cross sections for, (E), 23:49315 (ANL-7410, pp 1-46)
reactions with calcium, hafnium, lead, and titanium at 650 to 1500 keV, total cross sections for, (E), 24:47637 (ANL-7610, pp 1-59)
reactions with calcium, potassium, and sodium at 14.7 MeV, total cross sections for, (E), 22:13987
reactions with calcium-40 at 0.8 to 1.8 MeV, total cross sections for, (E), 23:25813 (ORNL-TM-2543)
reactions with calcium-40 at 0.8 to 1.8 MeV, total cross section for, (E), 23:49398 (WASH-1127)
reactions with calcium-40 at 0.8 to 2.1 MeV, total cross section for, (E), 23:9511(R) (MLM-1520)
reactions with calcium-40 at 0.82 to 1.8 MeV, total cross section for, (E), 23:39976(R) (ORNL-4395)
reactions with calcium-40 at 1 to 2 MeV, resonance parameters and total cross section for, (E), 21:40432 (WASH-1074)
reactions with calcium-40 at 1.0 to 2.1 MeV, total cross sections for, (E), 21:25518 (WASH-1071)
reactions with calcium-40 at 1.0 to 2.1 MeV, total cross sections and resonance parameters for, (E), 21:31834(R) (ORNL-4082)
reactions with calcium-40 at 5, 10, and 20 MeV, calculations using optical model, (T), 21:33946
reactions with calcium-48 and bismuth-209 at 100 to 600 keV, total cross sections for, (E), 21:40432 (WASH-1074)
reactions with calcium-48 at 0.1 to 1 MeV, total cross section for, (E), 22:22560(R) (ORO-1067-2)
reactions with calcium-49 in human cadavers or phantoms, 22:36192
reactions with carbon and chromium at 5 and 14.8 MeV, γ production cross sections for, (E), 24:40550 (WASH-1136)

reactions with carbon and lead at 5.3 to 6.3 MeV, total cross sections for, (E), 23:25836
reactions with carbon and lithium-7 at 100 to 1500 keV, resonance parameters and total cross sections for, (E), 24:43125
reactions with carbon and nitrogen, sphere transmission experiments on cross sections for, (E), 23:17057
reactions with carbon and oxygen at 1 to 7 MeV, total cross sections for, (E), 25:5598
reactions with carbon and sodium-23 at 0.5 to 40 MeV, total cross sections for, (E), 25:48069 (BNL-50276)
reactions with carbon at 0.07 to 1500 keV, total cross sections for, (E/T), 25:14912
reactions with carbon at 0.1 to 1.5 MeV, total cross section for, (E), 24:40550 (WASH-1136)
reactions with carbon at 0.5 to 15 MeV, total cross section for, (E), 25:14982 (NCSAC-31)
reactions with carbon at 0.5 to 30 MeV, measurement and analysis of the total cross section for, (E), 25:53599 (CONF-701002-, pp 190-200)
reactions with carbon at 2 to 3.4 MeV, total cross section for, (E), 24:6835
reactions with carbon at 2.05 to 3.4 MeV, linac time-of-flight system for cross section measurements of fast, 24:13249
reactions with carbon at 2.05 to 3.4 MeV, time-of-flight measurement of total cross sections for, 23:37035 (EGG-1183-2211)
reactions with carbon at 7 to 8 MeV, total cross section for, (E), 22:20450 (COO-7-0456)
reactions with carbon at 70 eV to 1.5 MeV, measurement and analysis of the total cross section for, (E), 25:53600 (CONF-701002-, pp 201-7)
reactions with carbon, lithium-7, and uranium at 650 to 1500 keV, total cross sections for, (E), 23:49315 (ANL-7410, pp 1-46)
reactions with carbon, nickel, uranium-235, uranium-238, and plutonium-239 at 0.1 to 6 MeV, total cross sections for, (E), 25:15103
reactions with carbon, tantalum, tungsten-182, tungsten-184, and tungsten-186 at 0.4 to 20 MeV, total cross sections for, (E), 21:25518 (WASH-1071)
reactions with carbon, zirconium, and zirconium-90 at 0.433 to 2.37 MeV, total cross sections for, (E), 25:36740 (WAPD-T-2411)
reactions with carbon-12 and nitrogen-14 at 13 to 15 MeV, nonelastic cross sections for, (E), 22:20578 (WASH-1079)
reactions with carbon-12 and nitrogen-14 at 15 MeV, cross sections for, (E), 23:1882 (WASH-1093)
reactions with carbon-12 and nitrogen-14 at 15.3 MeV, cross sections for, (E), 23:5830
reactions with carbon-12 and oxygen-16 at 3 to 8 MeV, total cross sections for, (E), 23:49346
reactions with carbon-12 at 0.7 to 4.0 MeV, total cross section for, (E), 22:20578 (WASH-1079)
reactions with carbon-12 at 14 to 25 MeV, cross sections for, (E), 22:53111
reactions with carbon-12, iron, oxygen-16, and uranium-235 at 5.8 to 7.5 MeV, γ production cross sections for, (E), 23:49398 (WASH-1127)
reactions with cerium and strontium at 14.2 MeV, neutron spectra from, (E), 25:53807
reactions with cerium at 0.8 to 2.1 MeV, γ spectra for, (E), 22:20578 (WASH-1079)
reactions with cerium, lanthanum, oxygen, and praseodymium-141 at 3.2 to 5.2 MeV, total cross sections for, (E), 23:4033
reactions with cerium-142 at 1.0, 1.5, and 1.75 MeV, γ angular distributions for, (E), 22:20578 (WASH-1079)
reactions with cesium at 14.8 MeV, 25:10472(R) (BMBW-FBK-70-19)
reactions with cesium iodide scintillation detectors at 13 to 15 MeV, pulse-shape discrimination study of, 24:16857
reactions with cesium, cross sections for, 24:29308(R) (BMBW-FBK-70-4)
reactions with cesium-133 at 14.8 MeV, activation cross sections and isomer ratios for, (E), 24:47650
reactions with chlorine, magnesium, and potassium at 5.0 to 8.5 MeV, total cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with chromium and nickel at 0.1 to 4.0 MeV, total cross sections for, (T), 21:17340(R) (AEET-267)
reactions with chromium, nickel, and silicon at 0.4 to 32 MeV, total cross sections for, (E), 25:38921 (EURFNR-591(Suppl.1))
reactions with chromium-53 and titanium-49 at 17 to 250 keV, total cross sections, resonance parameters, and strength functions for, (E), 24:30723 (KFK-1114)
reactions with chromium-53, copper-63, copper-65, and titanium-49, total cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with cobalt-59 at 0.3 to 1.8 MeV using polarized target, nuclear deformation effect on total cross section for, (E), 25:53709
reactions with cobalt-59 at 1.1 and 1.4 MeV, spin—spin effect in total cross section for, (E), 23:46972
reactions with cobalt-59 up to 500 keV, total cross sections for, (E), 21:46692
reactions with cobalt-59, chlorine, manganese-55, potassium, sodium-23, and vanadium at 0.3 to 32 MeV, total cross sections for, (E), 25:38922 (EURFNR-591(Suppl.2))
reactions with copper, lead, and uranium at 4 MeV, total cross sections for, (E), 21:46747
reactions with copper, lead, and uranium at 4 MeV, total cross sections for, (E), 22:20549
reactions with copper, lithium-6, molybdenum-98, palladium, plutonium-240, thorium-232, and titanium up to 1.5 MeV, total cross sections for, (E), 25:43884 (ANL-7710, pp 1-52)
reactions with curium-242 and -244 at 14.5 MeV, cross sections and fission-fragment angular isotropy for, (E), 21:31825
reactions with deuterium and hydrogen at 10 GeV/c, total cross sections for, (E), 22:53086
reactions with deuterium at 1.5 to 27.5 MeV, total cross section for, (E), 25:45894
reactions with dysprosium, erbium, holmium, lutetium, terbium, and thulium at 0.14 to 3 MeV, total cross sections for, 21:35437(R) (EANDC(E)-76(U))
reactions with elements in concretes, soils, and structural materials, γ spectra from,, 25:7440
reactions with elements in soil, effects of, on integral dose to roots, 22:31080
reactions with eleven nuclides at 14.7 MeV, cross sections for, (E), 24:40624
reactions with fast reactor materials, integral measurements of cross sections for, (E/T), 25:15349
reactions with fertile and fissionable nuclei, review of data on, 25:15102
reactions with fluorine-19 and aluminum-27 at 0.45 to 1.20 MeV, total cross sections for, (E), 21:25485
reactions with gadolinium and holmium-165 at 100 to 650 keV, total cross sections for, (E), 23:28304 (WASH-1124)
reactions with gadolinium at 1 to 2 MeV, total cross section for, (E), 23:19306
reactions with gadolinium at 16 to 19 MeV, total cross section for, (E), 23:25921
reactions with germanium at 14.4 MeV, activation cross sections for, (E), 21:19223
reactions with gold polycrystals and monocrystals, atomic sputtering, (E), 25:14414
reactions with gold single crystals, radiation sputtering in, (E), 22:44237
reactions with gold-197, molybdenum, silver, and tin, total cross sections for, (E), 22:20578 (WASH-1079)
reactions with ground from source altitude of 50 ft, heating in, (T), 24:6593
reactions with hafnium, gadolinium, and samarium at 0.3 to 1.5 MeV, total cross sections for, (E), 23:49383 (ANL-7567)
reactions with helium, ENDF/B data compilation on cross sections for, 23:17070 (ANL-7462)
reactions with helium-3 at 0.1 to 20 MeV, total cross sections for, (E), 21:46659 (CCDN-NW-6)
reactions with helium-4 at 20 MeV, optical-model analysis of, (T), 21:21413
reactions with holmium-165 at 0.1 to 1.5 MeV, total cross sections for, (E), 25:31350
reactions with holmium-165 at 0.4 and 1.0 MeV, spin—spin effect in total cross sections for, (E), 23:32935
reactions with holmium-165 at 0.92 MeV, spin-spin interaction in, (E/T), 21:13863
reactions with holmium-165 at 8 and 15 MeV, total cross sections for, (E), 21:46774
reactions with holmium-165 at 8 and 15 MeV, total cross sections and angular distributions for, (E/T), 21:31816
reactions with hydrogen at 0.5 to 20 MeV, total cross sections for, (E), 25:25628 (RPI-328-221)
reactions with hydrogen at 0.5 to 20 MeV, total cross sections for, (E), 25:48036(R) (RPI-328-218)
reactions with hydrogen at 0.5 to 21 MeV, total cross sections for, (E), 25:53511 (CONF-701002-, pp 51-6)
reactions with hydrogen at 1.5 to 27.5 MeV, total cross sections for, (E), 25:53510 (CONF-701002-, pp 42-50)
reactions with hydrogen at 25 to 60 MeV, total cross sections for, (E), 25:17694
reactions with hydrogen at 500 keV to 21 MeV, total cross section for, (E), 25:20258
reactions with hydrogen below 30 MeV, search for structure in the total cross section for, (E), 25:53512 (CONF-701002-, pp 57-62)
reactions with indium-113, indium-115, iridium-191, and iridium-193 at 14 MeV, activation cross sections for, (E), 24:40550 (WASH-1136)
reactions with iron and nickel at 0.5 to 10 MeV, total cross sections for, (E), 23:49349 (AD-689840)
reactions with iron and nitrogen at 0.5 to 9.0 MeV, high-resolution measurement of total cross sections for, (E), 24:49764
reactions with iron and selenium at 14.4 MeV, activation cross sections for, (E), 21:19221
reactions with iron and sulfur at 1.8 to 2.6 MeV, total cross sections for, (E), 22:48488
reactions with iron at 0.3 to 1.5 MeV, total cross section for, (E), 22:18194
reactions with iron at 0.3 to 1.5 MeV, total cross section for, (E), 23:8955 (PEL-180)
reactions with iron at 0.7 to 1 MeV, total cross section for, (E), 23:49398 (WASH-1127)
reactions with iron at 1 to 2 MeV, total cross sections for, (E), 25:53702
reactions with iron, magnesium, manganese-55, silicon, and sulfur at 14 MeV, γ spectra from, (E), 22:44642
reactions with iron, production of carrier-free manganese-54 by, 24:36283
reactions with lead at 0.5 to 20 MeV, total cross sections for, (E), 25:48069 (BNL-50276)
reactions with lead-206, interpretation of fine structure in total cross section as doorway state, (T), 22:1671
reactions with lead-208 at 7 MeV, calculations using optical model, (T), 21:33946
reactions with lead-208, niobium-93, plutonium-239, and uranium-235 at 1 to 10 MeV, cross-section calculations using local spherical optical model, (T), 22:35349
reactions with light nuclei, analysis for reaction mechanisms in, (E), 25:14898
reactions with liquid nitrogen, neutron and secondary γ-ray spectra as function of distance for 14-MeV, (E), 24:6596
reactions with liquid nitrogen, secondary gamma production and transport after, (E/T), 25:9950
reactions with liquid nitrogen, secondary gamma ray spectra from, 25:39746
reactions with lithium and lithium-6 at 10 to 900 keV, total cross sections for, (E), 22:5809(R) (ANL-7354)
reactions with lithium, lithium-6, and lithium-7, total cross sections for, (E), 23:5831
reactions with lithium-6 below 1.7 MeV, review of data on total cross sections for, 25:53591 (CONF-701002-, pp 80-106)
reactions with lithium-6, total cross section for, (E), 23:5833
reactions with lithium-7 at 1.12 to 2.30 MeV, total cross section for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with lithium-7 at 100 to 650 keV, total cross section and resonance parameters for, (E), 23:28304 (WASH-1124)
reactions with lithium-7 at 125 keV to 2 MeV, total cross section for, (E), 25:31173(R) (RPI-328-200)
reactions with lithium-7 at 125 keV to 2 MeV, total cross section for, (E), 25:48069 (BNL-50276)
reactions with lithium-7 at 14 to 19 MeV, upper limit to cross section for trineutron production for, (E), 22:41955
reactions with lithium-7 at 19 MeV, trineutron production cross section for, (E), 25:22972(R) (COO-1573-71)
reactions with lithium-7, search for bound trineutron in, (E), 24:13311(R) (COO-1573-63)
reactions with magnesium, production of sodium-25 in, 21:34311(R) (NYO-1396-103)
reactions with manganese-55 at 53 to 208 keV, total cross sections and resonance parameters for, (E), 21:35437(R) (EANDC(E)-76(U))
reactions with many nuclei at 14 to 15 MeV, tables of cross sections for, 25:12353 (NP-18616)
reactions with medium-Z nuclei at 14.4 MeV, model analysis of activation cross sections for, (E/T), 25:43951
reactions with mercury-196, -198, -199, and -200 at 14 MeV, activation cross sections for, (E), 23:49398 (WASH-1127)
reactions with molybdenum, silver, and tin at 0.1 to 0.5 MeV, total cross sections for, (T), 21:10042
reactions with neodymium-142, -144, -146, and -148, up to 200 keV, total cross sections for, (E), 23:19254(R) (ORO-3624-7)
reactions with nickel and zirconium at 4 MeV, γ production cross sections for, (E), 24:40550 (WASH-1136)
reactions with nickel foil, mechanisms of void production by, 23:1018
reactions with nickel-58, phosphorus-31, sulfur-32, and zinc-64 at 1.0 to 2.2 MeV, cross sections for, (E), 22:18195
reactions with nickel-60 at 0.5 to 2 MeV, total cross sections for, (E), 25:25628 (RPI-328-221)
reactions with nickel-60 at 0.5 to 26 MeV, total cross sections for, (E), 25:48036(R) (RPI-328-218)
reactions with nickel-64 at 15 to 19 MeV, production of iron-61 from, (E), 21:44630
reactions with niobium-93 at 0.7 to 1.9 MeV, γ production cross sections for, (E), 24:40550 (WASH-1136)
reactions with niobium-93, plutonium-239, silicon, and tungsten at 4 to 7.5 MeV, γ production cross sections for, (E), 23:28304 (WASH-1124)
reactions with nitrogen and oxygen at energies up to 14 MeV, gamma-ray production cross section measurements for, (E), 23:49322 (AD-689388)
reactions with nitrogen and proteins in mice, analytical use of, 24:9736
reactions with nitrogen at 0.5 to 25 MeV, total cross section for, (E), 25:14982 (NCSAC-31)
reactions with nitrogen at 1 to 2.5 MeV, total cross section for, (E), 23:49398 (WASH-1127)
reactions with nitrogen at 14 MeV, secondary γ transport from, 24:6571 (AD-693618)
reactions with nitrogen at 2.0 to 4.2 MeV, total cross sections for, (E), 21:25518 (WASH-1071)
reactions with nitrogen-14 at 2.0 to 4.2 MeV, total cross sections and resonance parameters for, (E), 21:31834(R) (ORNL-4082)
reactions with nitrogen-14 at 2.0 to 4.2 MeV, total cross section for, (E), 22:20449 (CONF-680307-15)
reactions with nitrogen-14 at 4 to 7 and 14 to 21 MeV, total elastic and nonelastic cross sections for, (E), 22:11949(R) (ORO-2972-47)
reactions with nitrogen-15 at 0.1 to 12 MeV, coupled-channels analysis of total cross sections for, (T), 25:36683
reactions with nitrogen-15 at 0.9 to 32 MeV, R-matrix analysis of reactions with, (E), 25:36684
reactions with nitrogen-15 at 3.4 to 6.5 MeV, total cross section for, (E), 21:9945
reactions with nuclei at 0.1 to 10.0 MeV, intermediate structure in total cross sections for, (E/T), 25:20445
reactions with nuclei at 14 MeV, mass dependence of total cross sections for, (T), 25:12344
reactions with nuclei at 14.4 MeV, neutron-charged particle coincidence measurements for, 24:5908
reactions with nuclei at 14.4 MeV, time-of-flight hodoscope system for measurement of charged particle spectra from, 24:5924
reactions with nuclei at 14.7 MeV, equipment and method for studying isomers produced in, 25:48982
reactions with nuclei at 14-MeV, ΔE—E semiconductor telescope detector for studying, 22:23263 (CEA-R-3378)
reactions with nuclei at 25 to 400 MeV, nonelastic cross sections and particle emission spectra from, (T), 21:37529
reactions with nuclei at 4 to 15 MeV, method for calculating γ production cross sections and spectra for, (T), 23:5765
reactions with nuclei at 600 MeV, cross sections for π^+ production in, (E), 21:40144 (JINR-P1-3400)
reactions with nuclei at 600 MeV, meson (π^-) and (π^+) production from, (E), 21:40143 (JINR-P1-3399)
reactions with nuclei at 8.1 and 13 to 21 MeV, cross sections for nonelastic, (E), 21:13849
reactions with nuclei having neutron numbers close to 28, total cross sections at 0.5 to 1.2 MeV, (E), 21:42596
reactions with nuclei in nuclear emulsions, neutron spectroscopy by measurement of star production in, 24:16837 (UCRL-19389)

reactions with nuclei in thin targets, computer program for calculation of activities produced from, (T), 25: 23063 (NP-18649)
reactions with nuclei near 14 MeV, statistical analysis of shell effects in, (T), 25:56869
reactions with nuclei with compound nucleus excitation, unified model for analysis of, 24:52640 (AI-AEC-12931)
reactions with nuclei, coincidence detectors for analysis of, 23:4818
reactions with nuclei, cross sections for threshold, 21: 26866(R) (HW-75500)
reactions with nuclei, cross-section measurements for nonelastic, 21:15461 (CONF-660221-, pp 69-73)
reactions with nuclei, cross-section studies at Georgia Institute of Technology, 25:25668(R) (ORO-3346-65)
reactions with nuclei, detector shielding for measuring total cross sections for, 25:6551
reactions with nuclei, direct excitation of fission degrees of freedom in, 21:31888
reactions with nuclei, energy dependence of cross sections for, (T), 22:20667 (INR-830/I/PL)
reactions with nuclei, method of calculating activation cross sections for, (T), 21:42716
reactions with nuclei, research program on, 21:27566 (INR-776/I/PL)
reactions with nuclei, research program on, (E/T), 21: 5552
reactions with nuclei, review of data and measuring techniques for, 24:49923 (EURFNR-786)
reactions with nuclei, status of cross-section measurement programs on, 23:5776
reactions with nuclei, use for nuclear structure research, 23:47069
reactions with oriented holmium-165 at 0.33 to 5.6 MeV, deformation effect in total cross section for, (E), 22: 18243
reactions with oriented holmium-165 at 2 to 135 MeV, total cross section for, (E), 25:12565
reactions with oriented holmium-165 at 2 to 135 MeV, total cross section for, (E), 22:18216
reactions with osmium-192 at 14 MeV, gamma spectra from, (E), 25:28326 (CERN-70-30(Vol.2), pp 985-1000)
reactions with oxygen at 0.25 to 2.5 MeV, total cross section for, (T), 22:1581
reactions with oxygen at 2.37 MeV, feasibility study on measurement of total cross section for, 22:37281(R) (NYO-72-191)
reactions with oxygen, total cross section for, (E), 22: 20450 (COO-7-0456)
reactions with oxygen-16 at 1 to 4 MeV, total cross section and resonance parameters for, (E), 22: 35293(R) (ORNL-4230)
reactions with oxygen-16 at 1.1 to 3.7 MeV, total cross section and resonance parameters for, (E), 22: 42019(R) (MLM-1494)
reactions with oxygen-16 at 1.6 to 3.4 MeV, total cross section and resonance parameters for, (E), 23:1881 (ORNL-TM-2364)
reactions with oxygen-16 at 1.6 to 3.5 MeV, total cross section and resonance parameters for, (E), 23:28304 (WASH-1124)
reactions with oxygen-16 at 1.7 to 3.7 MeV, total cross section and resonance parameters for, (E), 23:1882 (WASH-1093)
reactions with oxygen-16 at 1.7 to 4.4 MeV, total cross section for, (E), 25:53752(R) (ORNL-4659)
reactions with oxygen-16 at 1.75 to 4.35 MeV, total cross section for, (E), 25:48069 (BNL-50276)
reactions with oxygen-16 at 1.8 to 3.7 MeV, total cross section for, (E), 22:20576 (ORNL-TM-2159)
reactions with oxygen-16 at 1.8 to 3.7 MeV, total cross section for, (E), 22:20449 (CONF-680307-15)
reactions with oxygen-16 at 1.8 to 3.7 MeV, total cross section for, (E), 23:9511(R) (MLM-1520)
reactions with oxygen-16 at 3 MeV, total cross section for, (E), 23:39976(R) (ORNL-4395)
reactions with oxygen-16 at 3.685 to 4.340 MeV, total cross sections for, (E), 25:7847 (ORNL-4513)
reactions with oxygen-16 at 6.4 to 16.5 MeV, γ production cross sections for, (E), 25:12406
reactions with phantoms, spectra of recoil particles from, 22:6652 (ORNL-4168, pp 183-230)
reactions with plane polyethylene slabs, thermal neutron yields and pulse shapes from, 23:39924
reactions with plutonium dioxide—uranium dioxide fuels, composition of solids from, 23:12444
reactions with plutonium-238 and -242 at 14.5 MeV, cross sections and fission-fragment angular isotropy for, (E), 21:31825
reactions with plutonium-239 and plutonium-240, data compilation on cross sections for, 22:50599 (LA-3528)
reactions with plutonium-239, plutonium-240, plutonium-241, and uranium-238 at 0.01 to 15 MeV, cross sections for, (T), 25:15133
reactions with plutonium-239, uranium-233, and uranium-235, cross-section data evaluation scheme for, (T), 23:5893
reactions with plutonium-239, uranium-233, and uranium-235, total cross section and resonance parameters for, (E), 25:36756
reactions with plutonium-240 at 0.001 to 1 MeV, cross sections for, (T), 25:15129
reactions with plutonium-240 at 0.1 to 1.5 MeV, total cross section for, (E), 25:48069 (BNL-50276)
reactions with plutonium-240, -241, and -242, cross sections, resonance parameters, and fission parameters for, 22:22578 (IA-1152)
reactions with polarized cobalt-59 at 0.3 to 3.3 MeV, spin—spin effect in total cross section for, (E), 24: 40578
reactions with polarized cobalt-59 at 7.9 MeV using polarized beams, spin—spin interaction in, (E), 23: 25888
reactions with praseodymium-141 at 1 to 18 MeV, total cross section for, (E), 25:59811
reactions with reactor and shielding materials, gamma production by, (E), 22:5829
reactions with reactor materials, total cross sections for, (E), 24:43105
reactions with rhenium at 0.5 to 1.5 MeV, total cross section for, (E), 22:5810 (ANL-7363)
reactions with rhodium-103 at 100 to 650 keV, total cross section for, (E), 24:47637 (ANL-7610, pp 1-59)
reactions with scandium-45 at 0.2 to 1.4 MeV, total cross section for, (E), 25:45967
reactions with shielding materials at 1 to 11 MeV, minima in total cross sections for, (E), 23:1766
reactions with silicon and tungsten at 5 to 11 MeV, gamma production cross sections for, (E), 24:13310 (AD-694999)
reactions with silicon at 400 to 1200 keV, total cross section and resonance parameters for, (E), 22: 37340(R) (EANDC(E)-89(U))
reactions with silicon at 6.7 to 13.4 MeV, fluctuation analysis of total cross section for, (E/T), 23:44881
reactions with silicon at 6.7 to 13.4 MeV, total cross section for, (E), 23:15425
reactions with silicon, cross section for, (E/T), 23:37133 (AD-679907)
reactions with sodium-23 and calcium, total cross sections and resonance parameters for, (E), 24:38136 (EURFNR-776)
reactions with sodium-23 at 0.5 to 40 MeV, total cross sections for, (E), 25:48036(R) (RPI-328-218)
reactions with sodium-23 at 0.8 to 1.8 MeV and at 4 MeV, γ spectra for, (E), 22:20578 (WASH-1079)
reactions with sodium-23 at 1 to 18 MeV, total cross sections for, (E), 25:25628 (RPI-328-221)
reactions with sodium-23 at 1.5 to 6.4 MeV, total cross section for, (E), 23:15412
reactions with sodium-23, analysis of cross sections using optical model and Hauser—Feshbach theory, (T), 22: 46748
reactions with stainless steel, distribution of helium from, 24:21396 (BMI-1878, Sect.B)
reactions with stilbene crystals at 14 MeV, pulse height distribution from, 21:39252
reactions with sulfur and tungsten at 5.3 to 6.3 MeV, total cross sections for, (E), 22:20523
reactions with sulfur-32 at 160 to 400 keV, total cross sections for, (E), 21:11882
reactions with sulfur-32, production of phosphorus-32 in meteorites by, (E), 21:6913
reactions with tantalum at 0.1 to 0.7 MeV, total cross section for, (E), 22:5810 (ANL-7363)
reactions with tantalum at high energies, upper limit for cross sections for recoil nuclei in, (E), 25:50718 (JINR-E7-5887)
reactions with tantalum-18, tungsten, tungsten-182, tungsten-184, and tungsten-186 at 0.6 to 25 MeV, total cross sections for, (E/T), 22:32648
reactions with tantalum-181, cross sections for, 22: 20561 (AHSB(S)R-141)
reactions with tellurium at 14 MeV, short-lived γ activities from, (E), 22:39671
reactions with thorium-232 and uranium-238 at 14 MeV, yields of delayed neutrons from fission, 24:29308(R) (BMBW-FBK-70-4)
reactions with thorium-232 and uranium-238 at 14.7 MeV, statistical model analysis of, (E/T), 23:19299
reactions with thorium-232 at 1.5 to 8.5 MeV, total cross section for, (E), 24:49904
reactions with tissues at 15.09 MeV, calculation of energy deposited by heavy recoil particles in, 25:2568
reactions with tissues to 400 MeV, 25:19007 (NCRP-38)
reactions with titanium at 150 to 1200 keV, intermediate structure in total cross section for, (E), 25:17839
reactions with titanium at 300 to 1200 keV, total cross section for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with tungsten and uranium-238 at 0.3 and 1.0 MeV, γ production cross sections for, (E), 24:40550 (WASH-1136)
reactions with tungsten isotopes 182, 184, and 186, 21: 30091(R) (ANL-7210)
reactions with Type 304 stainless steel, behavior of bubbles from, 23:3094
reactions with uranium at 0.5 to 4.35 MeV, total cross sections for, (E), 25:15104
reactions with uranium at 0.5 to 4.35 MeV, total cross reaction for, (E), 24:38205 (EURFNR-777)
reactions with uranium at 14 MeV, solid-state track detectors for studying fission fragments from, 22: 25642
reactions with uranium nitride to produce helium, 24: 4858 (ORNL-4440, pp 111-13)
reactions with uranium-233, cross sections and resonance parameters for, 22:24861 (WANL-TME-1721)
reactions with uranium-235 and -238 at 14 MeV, detection of spontaneously fissioning isomer states from, (E), 23:44947
reactions with uranium-235 and uranium-238, data compilation on cross sections for, 22:50598 (LA-3527)
reactions with uranium-235, heterogeneity and surface-to- mass effects on fission, (E/T), 21:8061
reactions with uranium-238 and uranium-235, capture to fission ratio for, 23:37241
reactions with uranium-238 at 0.05 to 15 MeV, generalized optical model analysis of cross sections for, (T), 22:50605
reactions with uranium-238 at 14 MeV, total cross section for, (E), 22:53167 (CEA-R-3503)
reactions with uranium-238 at 6 MeV, nuclear temperature after neutron evaporation from residual nucleus in, (E), 23:1916
reactions with uranium-238 up to 10 MeV, optical-model analysis of total cross section for, (E/T), 25:43884 (ANL-7710, pp 1-52)
reactions with uranium-238, use of foils for determining fission factor for, 22:10565
reactions with vanadium at 0.1 to 1.5 MeV, total cross sections for, (E), 24:24544
reactions with vanadium at 0.1 to 1.5 MeV, total cross sections for, (E), 23:1882 (WASH-1093)
reactions with vanadium at 0.1 to 1.5 MeV, total cross section for, (E), 24:8857 (ANL-7564)
reactions with vanadium-51 at 4 to 153 keV, total cross sections and resonance parameters for, (E), 21: 35437(R) (EANDC(E)-76(U))
reactions with water at 14 MeV, fast neutron spectra from pulsed, 25:59674
reactions with water at 14.7 MeV, total cross section for, (E), 22:44649
reactions with water, determination of cavitation threshold from, 23:19898
reactions with water, LET for, 23:8006 (ZFK-128)
reactions with Z = 1 to 94 nuclei, effect of nuclear deformation on total cross sections for, (E/T), 23: 10934
reactions with Z = 1 to 94 nuclei, effects of nuclear deformation on total cross sections for, (T), 25:28169
reactions with Z = 12 to 83 nuclei, fluctuations in total cross sections for, (E), 21:35451
reactions with Z = 12 to 83 nuclei, search for intermediate structure in total cross sections for, (E), 22:20537
reactions with Z = 16 to 80 nuclei, total cross sections for, (E), 25:53728 (AECD/EP-18)
reactions with Z = 21 to 80 nuclei at 100 to 650 keV, optical model analysis of average total cross sections for, 25:43908
reactions with Z = 4 through 53 nuclei at 14.5 MeV, deviations of total cross sections from black nuclear formula, (E), 23:23639
reactions with Z = 6 to 26 and 82 nuclei at 15 MeV, γ production cross sections for, (E), 21:42570
reactions with Z = 6 to 82 nuclei at 14.7 MeV, differential gamma production cross sections for, 21: 25518 (WASH-1071)
reactions with Z = 6 to 82 nuclei at 14.7 MeV, total cross sections for, (E), 22:44649
reactions with zirconium-90, -92, -94, and -96 at 2 to 60 keV, total cross sections and resonance parameters for, (E), 22:14043
reactions with, carbon, iron, and lead at 0.7 to 4 MeV, total cross sections for, (E), 23:5828
reflection albedo for concrete, (E), 21:7317
reflection and transmission by graphite at 3.3 to 8.0 MeV, calculations using Monte Carlo method, (T), 21: 29863
reflection by concrete, doubly differential current albedos for, 21:21025
reflection by shielding, (T), 24:21846
reflection by steel slab, orders-of-scattering calculation for collimated polyenergetic, 25:56257 (COO-2049-8)
reflection from concrete slab, measured spectra after, 23: 3544
reflection from iron, soil, water, and polyethylene, energy distribution measurements for, 21:17542
reflection from thick steel slab, orders-of-scattering calculations for, 25:41186
removal cross section for, in lead slab shields with polyethylene layers, (T), 22:39555 (WAPD-TM-662)
scattering and fission reactions on plutonium-239 and uranium-235 at 2, 3, and 4 MeV, secondary neutron spectra for, (E), 23:52141 (AWRE-O-55/69)
scattering at air-ground interface, differential measurements of, (E), 25:30635
scattering bismuth-209, boron-11, lithium-7, phosphorus-31, and yttrium-89 at 2.8 MeV, γ-ray production cross sections for inelastic, (E), 23:49398 (WASH-1127)
scattering by A = 12 to 60 nuclei at 2.3 MeV using polarized beams, multiple scattering corrections to cross sections for elastic and inelastic, (E), 23: 13305(R) (COO-1573-48)
scattering by A = 23 to 238 nuclei at 1.5 MeV, optical-model analysis of elastic, (E/T), 22:24840
scattering by A = 23 to 240 nuclei, Legendre expansion coefficients for angular distributions of elastic, (T), 22: 22523 (NAA-SR-12533)
scattering by A = 27 to 209 nuclei at 6, 7, and 8 MeV, optical-model potential for elastic, (E/T), 22:27278
scattering by A = 48 through 123 nuclei at 0.85 MeV, optical model analysis of polarization in elastic, (E/T), 23:49315 (ANL-7410, pp 1-46)
scattering by A = 48 to 238 nuclei at 0.7 to 1.2 MeV, polarization in elastic, (E), 25:53706
scattering by A = 48 to 238 nuclei at 0.8 to 1 MeV, differential cross sections and polarization for elastic, (E), 23:28304 (WASH-1124)
scattering by A = 48 to 238 nuclei at 1 MeV, effects of compound-nucleus structure on elastic and inelastic, (T), 22:27379
scattering by A = 59 to 209 nuclei at 4 MeV, differential cross sections and polarizations for elastic, (T), 21:23442(T) (ANL-Trans-462)
scattering by A = 65 to 160 nuclei at 0.5 to 15 MeV, cross section calculations using the optical model, 24: 43461 (AAEC/TM-536)
scattering by A = 9 to 239 nuclei at 4 to 7.7 MeV, γ production cross sections for inelastic, (E), 24:35823
scattering by alpha particles, design of fast-neutron polarimeter utilizing, 22:2467
scattering by aluminum and iron barriers, (T), 24:51767
scattering by aluminum and Perspex, energy distribution from back-, (E), 24:32889
scattering by aluminum at 0.5 to 10 MeV, differential cross sections for, (E/T), 21:29328
scattering by aluminum, bismuth, iron, manganese, niobium, and vanadium at 2 to 4.5 MeV, cross sections for inelastic, (E/T), 25:14966
scattering by aluminum, calcium, cobalt, silicon, sodium, vanadium, and yttrium at 5 MeV, differential cross sections for inelastic, (E), 21:46643(R) (ORNL-4134)
scattering by aluminum, chromium, iron, nickel-58, nickel-60, potassium, and sodium at 7 MeV, neutron spectra from inelastic, (E), 21:33912

scattering by aluminum, cobalt, sulfur, and vanadium at 3.15 MeV, differential cross sections for, (E), 21: 17336
scattering by aluminum, comparison of calculated and measured spectra for fast, 24:49862(R) (RPI-328-187)
scattering by aluminum, copper, and zinc at 1 to 8 MeV, width fluctuation and resonance interference effects in cross sections for, (E/T), 25:14962
scattering by aluminum, silicon, sulfur, and zinc at 4.5 to 8 MeV, cross sections for elastic and inelastic, (E/T), 25:14963
scattering by aluminum-27 and arsenic-75 at 14 MeV, γ spectra from, (E), 22:20497(R) (AECL-3009)
scattering by aluminum-27 and iron at 1 to 16 MeV, γ production cross sections for inelastic, (E), 25:48069 (BNL-50276)
scattering by aluminum-27 and iron-56 at 1 to 4 MeV, cross-section calculations using six-parameter optical model for inelastic, (T), 22:3658
scattering by aluminum-27 and iron-56 at 2.97 MeV, Hauser—Feshbach analysis of cross sections for inelastic, (E/T), 25:17813
scattering by aluminum-27 and sulfur at 60 to 226 keV, angular distributions for elastic, (E), 22:11948(R) (NP-17216)
scattering by aluminum-27 at 2 to 20 MeV, γ production cross section for inelastic, (E), 23:49398 (WASH-1127)
scattering by aluminum-27 at 3.5 MeV, γ angular distributions and spectra for inelastic, (E), 22:42005
scattering by aluminum-27 at 3.5 MeV, neutron and gamma angular distributions from inelastic, (E/T), 25: 17815
scattering by aluminum-27 at 4.19 to 8.56 MeV, differential cross sections for elastic and inelastic, (E), 24:52475 (ORNL-4516)
scattering by aluminum-27 up to 20 MeV, γ spectra for inelastic, (E), 23:37138(R) (RPI-328-160)
scattering by aluminum-27, beryllium-9, and sodium-23 at 0.3 to 1.5 MeV, elastic and inelastic, (E), 21:13817
scattering by aluminum-27, beryllium-9, calcium-40, potassium-39, and silicon-28 at 14 MeV, optical-model analysis of differential cross sections for elastic, (E/T), 25:14920(T) (BNL-tr-380)
scattering by aluminum-27, beryllium-9, potassium-39, and silicon-28 at 14 MeV, differential cross sections for elastic, (E/T), 23:23626 (NP-17794)
scattering by aluminum-27, bismuth-209, cobalt-59, copper-63, and copper-65 at 1.36 MeV using polarized beams, depolarization parameter for elastic, (E), 25: 53708
scattering by aluminum-27, bismuth-209, cobalt-59, copper-63, copper-65, and nickel at 1.36 MeV using polarized beams, angular distributions of depolarization in elastic, (E), 24:33125
scattering by aluminum-27, bismuth-209, cobalt-59, copper-63, copper-65, and nickel at 1.36 MeV, depolarization parameter for elastic, (E), 24:10980
scattering by aluminum-27, bismuth-209, cobalt-59, copper-63, and copper-65 at 1.4 MeV using polarized beams, spin—spin interaction in elastic, (E), 24:20343 (JAERI-1184, pp 62-5)
scattering by aluminum-27, bismuth-209, iron, lead-207, niobium-93, tungsten, and yttrium-89 at 3.5 to 4.2 MeV, cross sections and γ spectra for inelastic, (E), 23:1882 (WASH-1093)
scattering by aluminum-27, carbon-12, cobalt-59, magnesium-24, silicon-28, and sulfur-32 at 7.6 MeV, differential cross sections for elastic and inelastic, (E), 22:20578 (WASH-1079)
scattering by aluminum-27, carbon-12, cobalt-59, magnesium-24, silicon-28, and sulfur-32 at 7.6 MeV, differential cross sections for elastic and inelastic, (E), 21:46643(R) (ORNL-4134)
scattering by aluminum-27, carbon-12, iron, niobium-93, oxygen, plutonium-239, silicon, tungsten, and uranium-235, γ production cross sections for inelastic, (E), 22: 18287
scattering by aluminum-27, carbon-12, iron-56, lead-208, and oxygen-16 at 14 MeV, angular distributions and cross sections for elastic and inelastic, (E), 24:33112
scattering by aluminum-27, chlorine, magnesium, sodium-23, and sulfur at 2.8 MeV, γ angular distributions from inelastic, (E), 22:35249 (AD-663112)
scattering by aluminum-27, chlorine-35, magnesium-24, sodium-23, and sulfur-32 at 2.8 MeV, inelastic, (E), 22:20578 (WASH-1079)
scattering by aluminum-27, chromium-52, oxygen-16, zinc-64, zinc-66, and zinc-68 at 14.5 MeV, cross sections for inelastic, (E), 23:39950
scattering by aluminum-27, copper, fluorine-19, iron, and lead at 2.8 MeV, cross sections for, (E), 24:8844
scattering by aluminum-27, copper, molybdenum, selenium, silicon, sulfur, tin, and yttrium-89 at 0.4 to 1.5 MeV, elastic, (E), 22:20578 (WASH-1079)
scattering by aluminum-27, copper-63, copper-65, and iron-56 at 2.9 MeV, differential cross sections for inelastic, (E), 22:35260
scattering by aluminum-27, iron, nitrogen, and oxygen at 14 MeV, γ production cross sections for inelastic, (E), 24:30695
scattering by aluminum-27, iron-56, and zirconium-90, Hauser—Feshback calculations of cross sections for inelastic, (T), 23:1833
scattering by aluminum-27, magnesium, and silicon at 1.5 MeV using polarized beams, differential cross sections for, (E), 23:13235
scattering by aluminum-27, magnesium, silicon, and sulfur at 3.25 MeV, polarization analyzing power for, (E), 23:19215
scattering by antimony, cadmium, iron, niobium, titanium, and zirconium at 0.8 to 1.0 MeV, differential cross sections and polarizations for elastic, (E), 23: 1882 (WASH-1093)
scattering by antimony, cobalt-59, fluorine-19, and tantalum-181, γ spectra and γ production cross sections for inelastic, (E), 24:8839 (FEI-155)
scattering by antimony, molybdenum, tellurium, and tin at 0.3 to 1.5 MeV, elastic and inelastic, (E/T), 21: 10048
scattering by antimony, molybdenum, tellurium, and tin at 0.3 to 1.5 MeV, differential cross sections for, (E), 21:17342 (ANL-7274)
scattering by antimony-121 and -123 at 1.0 and 1.5 MeV, gamma angular distributions and spectra from, (E), 21:42614(R) (ORO-2791-26)
scattering by antimony-121 and antimony-123, γ and neutron spectra from inelastic, (E), 22:27153
scattering by argon-40 at 14.1 MeV, differential and total cross sections for elastic, (E), 21:35433
scattering by arsenic, cerium, chromium, cobalt, iron, and yttrium at 6 MeV, elastic and inelastic, (E), 22: 35285(R) (AERE-PR/NP-13)
scattering by arsenic-75 at 14 MeV, cross section for isomer excitation in inelastic, (E), 23:25880
scattering by arsenic-75, carbon, copper, sodium-23 and uranium-238 up to 1.5 MeV, γ spectra from inelastic, (E), 25:43884 (ANL-7710, pp 1-52)
scattering by arsenic-75, holmium-165, iodine-127, and lanthanum at 14 MeV, inelastic, (E), 22:32512(R) (AECL-3108)
scattering by atmosphere at 5 MeV, neutron fluence from, (E), 22:29836
scattering by barium-135, barium-137, gold-197, indium-115, iridium-191, and mercury-199, activation cross sections for inelastic, (E), 22:48560
scattering by barium-137, erbium-167, and selenium-77 at 14.5 MeV, cross sections and gamma spectra from inelastic, (E), 25:20435
scattering by barium-137, erbium-167, and selenium-77 at 14.5 MeV, isomeric cross sections for inelastic, (E), 25:1736(R) (INR-1197)
scattering by barium-138, iron-56, and titanium-48, optical-model analysis using pole representation, (T), 22:32711
scattering by beryllium-9 and carbon-12 at 14 MeV, differential cross sections for inelastic, (E/T), 25: 14920(T) (BNL-tr-380)
scattering by beryllium-9 and carbon-12 at 14 MeV, differential cross sections for inelastic, (E/T), 23: 23626 (NP-17794)
scattering by beryllium-9 and carbon-12 at 14.6 MeV, angular distributions from elastic, (E), 25:9995
scattering by beryllium-9 at 14 MeV, differential cross sections for elastic and inelastic, (E), 21:4230
scattering by beryllium-9 at 2.6 to 2.77 MeV, polarization in, (E), 21:44564 (ZFK-122, pp 156-60)
scattering by beryllium-9, bismuth-209, cadmium-114, carbon-12, cobalt-59, indium-115, iodine-127, lead, nickel-62, niobium-93, and tin-118 at 4 MeV, elastic, (E), 22:14019
scattering by bismuth, chromium, lead, silicon, and zirconium at 0.3 MeV, angular distributions for elastic, (E), 23:10957(T) (BNL-tr-228)
scattering by bismuth, copper, indium, lead, tin, and uranium at 4 MeV, differential cross sections for small-angle, (E), 21:19264
scattering by bismuth, indium, lead, tin, and uranium at 4 MeV, polarizing ability and optical-model analysis of differential cross sections for elastic, (E), 25:41226 (IAE-1962)
scattering by bismuth, indium, lead, tin, and uranium at 4 MeV, differential cross sections and polarizing abilities at 150 to 180° from elastic, (E), 25:5762
scattering by bismuth, lead, mercury, and thallium, intermediate structure in elastic, (E), 21:17386
scattering by bismuth-209 and lead at 1.1 MeV, optical model analysis of polarization in elastic, (E/T), 24: 47637 (ANL-7610, pp 1-59)
scattering by bismuth-209 and molybdenum-100 at 0.1 to 1.6 MeV, cross sections for elastic, (E), 24:47637 (ANL-7610, pp 1-59)
scattering by bismuth-209 and palladium at 0.2 to 1.5 MeV, cross section for elastic, (E), 23:49315 (ANL-7410, pp 1-46)
scattering by bismuth-209 and thalium, γ spectra from inelastic, (E), 25:46036
scattering by bismuth-209 at 0.3 to 1.5 MeV, differential cross sections for elastic and inelastic, (E), 24:38243
scattering by bismuth-209 at 0.3 to 1.5 MeV, differential cross section for, (E), 24:22133 (ANL-7636)
scattering by bismuth-209 at 0.9 to 2.0 MeV, γ angular distributions for inelastic, (E), 22:27208
scattering by bismuth-209 at 1 to 1.5 MeV, cross section for 896-keV state excitation, (E), 24:22133 (ANL-7636)
scattering by bismuth-209 at 1.04 MeV, γ angular distributions for inelastic, (E/T), 22:42071
scattering by bismuth-209 at 1.76 MeV, gamma angular distributions and spectra from inelastic, (E), 21: 42614(R) (ORO-2791-26)
scattering by bismuth-209, antimony-121, and antimony-123, γ angular distributions and spectra for inelastic, (E), 22:20578 (WASH-1079)
scattering by bismuth-209, calcium-40, carbon-12, chromium-52, copper-63, and nickel-60 at 6.8 MeV, calculation using Wigner method for collision times of elastic, (T), 23:19183
scattering by bismuth-209, copper, indium, lead, tin, and uranium at 4 MeV using polarized beams, differential cross sections, and analyzing power for elastic, (E), 23:13232
scattering by bismuth-209, copper, indium, lead, tin, and uranium at 4 MeV using polarized beams, cross sections for, (E), 24:3879 (IAE-1653)
scattering by bismuth-209, indium, lead, and tin at 4 MeV near 180° using polarized beams, differential cross sections and polarizations from elastic, (E), 25: 12509(T) (ANL-Trans-855)
scattering by bismuth-209, lead-206, -207, and -208 at 0.5, 1.0, and 2.5 MeV, optical model analysis of elastic, (T), 23:52142 (BNL-50151)
scattering by bismuth-209, lead-206, lead-207, lead-208, and lead-209, differential cross sections and spectra for, (E), 21:38355
scattering by boron and boron-10 at 5 MeV, γ spectra from inelastic, (E), 23:1882 (WASH-1093)
scattering by boron, calcium, carbon, and potassium at 14 MeV, cross sections for, (E), 21:2644
scattering by boron-10 and -11 at 0.50 to 2.24 MeV, differential cross sections and polarizations for, (E), 22:5809(R) (ANL-7354)
scattering by boron-10 and -11 at 2 to 4.8 MeV, angular distributions for elastic and inelastic, (E), 25:3559 (AWRE-O-45/70)
scattering by boron-10 and -11 at 7 MeV, cross sections for elastic and inelastic, (E), 23:49398 (WASH-1127)
scattering by boron-10 and -11 at 9.7 MeV, differential cross sections for elastic and inelastic, (E), 24:40564
scattering by boron-10 at 1 to 5 MeV, γ production cross sections for inelastic, (E), 23:5813(R) (TID-24763)
scattering by boron-10 at 14.1 MeV, differential cross sections for elastic and inelastic, (E), 24:28709
scattering by boron-10 up to 120 keV, differential cross sections for, (E), 24:49709
scattering by boron-10 up to 2 MeV, R-matrix evaluation of elastic, 25:53592 (CONF-701002-, pp 107-20)
scattering by boron-10, boron-11, and germanium at 7.55 MeV, cross sections for, (E), 23:1882 (WASH-1093)
scattering by boron-10, boron-11, germanium, and niobium-93 at 6.0 to 7.6 MeV, differential cross sections for elastic and inelastic, (E), 23:37113
scattering by boron-10, iron, and tungsten at 8.7 MeV, spectrometry of photons from inelastic, (E), 24:47579
scattering by boron-11 at 0.075 to 2.24 MeV, R-matrix analysis of differential cross sections and polarization for, (E/T), 23:17103(R) (ANL-7481)
scattering by boron-11 at 14.1 MeV, angular distributions of differential and integrated cross sections for, 24: 52454
scattering by boron-11 at 14.1 MeV, coupled-channels calculation of angular distributions from elastic and inelastic, (T), 25:59720
scattering by boron-11 at 4.8 to 9.7 MeV, γ-ray angular distributions and excitation functions for inelastic, (E), 25:17749
scattering by boron-11 up to 2.2 MeV, polarization and differential cross sections for elastic, (E), 25:7814
scattering by bromine-79 and gold-197 at 13 to 16 MeV, cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
scattering by bromine-79 at 14.8 MeV, isomeric cross section for inelastic, (E), 24:47627
scattering by bromine-79 at 14.8 MeV, isomeric cross section for inelastic, (E), 25:12430 (INR-P-1091)
scattering by bromine-79, gold-197, ytterbium-176, and yttrium-89 at 15 MeV, cross sections for isomer production in, (E), 23:7249
scattering by cadmium, gold, lead, thorium, tungsten, and uranium at 0.6 to 1.6 MeV, differential cross sections and polarization for small-angle elastic, (E), 23:15442
scattering by cadmium, gold-197, lead, thorium-232, tungsten, and uranium at 0.6 to 1.6 MeV, differential cross sections and polarizations for elastic, (E), 23: 1882 (WASH-1093)
scattering by cadmium, gold-197, lead, thorium-232, tungsten, and uranium at 0.6 to 1.6 MeV, differential cross sections and polarizations for elastic, (E), 23: 17103(R) (ANL-7481)
scattering by cadmium-111 at 2.2 to 14.8 MeV, production of isomeric cadmium-111 by, (E), 21: 25518 (WASH-1071)
scattering by cadmium-111 at 2.2 to 3.5 and 13.7 to 14.8 MeV, activation cross sections for inelastic, (E), 22: 24842
scattering by cadmium-111, osmium-190, and yttrium-89 at 14.8 Mev, cross sections for inelastic, (E), 25: 53743(R) (INR-1318)
scattering by cadmium-111, osmium-190, and yttrium-89 at 14.8 MeV, cross sections and gamma spectra from inelastic, (E), 25:59797
scattering by calcium and potassium at 2 to 8 MeV, differential cross sections for elastic, (E), 22:3653
scattering by calcium and potassium at 2.06 to 7.91 MeV, optical-model analysis including Hauser—Feshbach formalism of differential cross sections from elastic, (E/T), 25:17816
scattering by calcium at 4.0 to 8.5 MeV, cross sections for elastic and inelastic, (E), 24:28734 (ORNL-4519)
scattering by calcium-40 at 0.8 to 1.0 MeV and 45, 90, and 150°, R-matrix theory for differential cross sections for elastic, (T), 24:52470 (KFK-1069)
scattering by calcium-40 at 2.76 MeV, angular distributions for elastic, (E), 21:21509
scattering by calcium-40 at 2.76 MeV, cross sections and spectra for elastic, (E), 21:15528
scattering by calcium-40, iron-56, and lead-208 at 15 MeV, cross-section calculations using nonlocal optical potential, (T), 23:30969
scattering by calcium-40, nickel, and zinc at 14 MeV, effects of exchange interaction on inelastic, (T), 22: 44675
scattering by carbon at 0.5 to 10 MeV, differential cross sections for, (E/T), 21:29328
scattering by carbon at 0.5 to 2 MeV, differential cross section angular distributions for elastic, (E/T), 25: 14911
scattering by carbon at 0.5 to 2 MeV, differential cross sections for elastic, (E), 25:20267 (EUR-4538)
scattering by carbon at 0.50 to 2.00 MeV, differential cross sections for elastic, (E), 25:53601 (CONF-701002-, pp 208-17)
scattering by carbon at 1 to 10 MeV, angular distributions for, (E), 21:25518 (WASH-1071)
scattering by carbon at 4.5 to 8.5 MeV, differential cross sections for elastic and inelastic, (E), 24:13280 (ORNL-4441)

scattering by carbon at 4.5, 5.0, and 5.6 MeV, differential cross section for inelastic, (E), 21:46643(R) (ORNL-4134)
scattering by carbon at 5.7 to 7.7 MeV, γ and neutron angular distributions for elastic and inelastic, (E), 22: 20578 (WASH-1079)
scattering by carbon-12 and nitrogen-14 at 13 to 15 MeV, cross sections for inelastic, (E), 22:20578 (WASH-1079)
scattering by carbon-12 and nitrogen-14 at 15.3 MeV, cross sections for inelastic, (E), 23:5830
scattering by carbon-12 and oxygen-16 at 0.5 to 4 MeV, R-matrix analysis of resonances in elastic, (T), 25: 50846
scattering by carbon-12 and oxygen-16 at 14 MeV, optical-model analysis of elastic, (E), 25:17740
scattering by carbon-12 at 0.1 to 2 MeV, polarization and differential cross sections for elastic, (E), 24: 15800
scattering by carbon-12 at 0.5 to 2.0 MeV, differential cross sections and polarization for, (E), 23:17103(R) (ANL-7481)
scattering by carbon-12 at 0.5 to 2.0 MeV, differential cross section and polarization for elastic, (E), 22: 20578 (WASH-1079)
scattering by carbon-12 at 1.06 to 2.24 MeV, polarization angular distributions from, (E), 21:33881 (AE-282)
scattering by carbon-12 at 1.062 to 2.243 MeV using polarized beams, polarization angular distributions for elastic, (E), 23:13209
scattering by carbon-12 at 1.9 to 5.2 MeV, cross sections and polarization for elastic, (E), 25:53608(R) (NP-18698)
scattering by carbon-12 at 1.9 to 8.7 MeV, review of polarization measurements from elastic, (E), 25:45884
scattering by carbon-12 at 13 to 21 MeV, cross sections for elastic and inelastic, (E), 22:39586
scattering by carbon-12 at 14 MeV, description using collective model with coupled-channel formalism for elastic and inelastic, (T), 21:46681
scattering by carbon-12 at 14 MeV, differential cross sections and spectra for elastic and inelastic, (E), 21: 42561
scattering by carbon-12 at 14 MeV, recoil spectra for inelastic, (E), 23:52111 (CEA-R-3807)
scattering by carbon-12 at 14 MeV, spectra of inelastic, 22:19137
scattering by carbon-12 at 14 to 20 MeV, cross sections for elastic and inelastic, (E), 25:17745
scattering by carbon-12 at 14 to 21 MeV, differential cross sections for elastic, (E), 22:11949(R) (ORO-2972-47)
scattering by carbon-12 at 14 to 25 MeV, differential cross sections for elastic and inelastic, (E), 22:53111
scattering by carbon-12 at 14.1 MeV using polarized beam, angular distributions for elastic and inelastic, (E) , 25:53637
scattering by carbon-12 at 14.1 MeV, angular distributions and cross sections for elastic and inelastic, (E), 24:22079
scattering by carbon-12 at 14.6 MeV, differential cross sections for inelastic, (E), 21:27534
scattering by carbon-12 at 14.7 MeV, angular distribution of polarization in, (E), 22:32365 (MIT-2098-422, pp 13-21)
scattering by carbon-12 at 14.7 MeV, n-γ angular correlations from inelastic, (E), 21:23421
scattering by carbon-12 at 14.7 MeV, polarization angular distributions in elastic and inelastic, (E), 21: 27569 (MIT-2098-299, pp 19-34)
scattering by carbon-12 at 142 MeV, optical-model calculations for elastic, 21:30057
scattering by carbon-12 at 15 MeV, n-γ angular correlations from inelastic, (E), 22:29933
scattering by carbon-12 at 15 MeV, neutron—gamma angular correlations in inelastic, (E), 25:20281
scattering by carbon-12 at 15 to 20 MeV, angular distributions for elastic and inelastic, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by carbon-12 at 15.85 MeV, angular distribution of neutron polarization in elastic, (E), 22: 35225
scattering by carbon-12 at 15.85 MeV, asymmetry and polarization angular distributions for elastic and inelastic, (E), 22:5773
scattering by carbon-12 at 15.85 MeV, using polarized neutrons, asymmetry coefficients for inelastic, (E), 22: 35225
scattering by carbon-12 at 15.9 MeV using polarized beam, asymmetry in elastic and inelastic, (E), 25: 53638
scattering by carbon-12 at 17 to 20.5 MeV, cross sections for elastic and inelastic, (E), 24:49766
scattering by carbon-12 at 2 to 3 MeV, polarization asymmetries from elastic double, (E), 24:30710
scattering by carbon-12 at 2 to 4.4 MeV, R-matrix analysis of elastic, (T), 25:25722(R) (ORNL-4592)
scattering by carbon-12 at 2 to 6 MeV, spin-parity assignments for resonances in elastic, (E), 24:49928 (KFK-1189)
scattering by carbon-12 at 2.7 to 2.9 MeV, asymmetry in polarized elastic, (E), 25:25637
scattering by carbon-12 at 2077 keV, n-p singlet effective range from, (E), 23:1796
scattering by carbon-12 at 22 MeV with alpha decay, α spectra from inelastic, (E), 24:40577 (SUNI-10)
scattering by carbon-12 at 22 MeV with subsequent α decay, n-α coincidence spectra from inelastic, (E), 25: 56752(R) (SUNI-14)
scattering by carbon-12 at 3 to 7 MeV, polarization in elastic, 25:53636
scattering by carbon-12 at 3.03 to 6.94 MeV, differential cross sections for inelastic, (E/T), 25:12401
scattering by carbon-12 at 3.03 to 6.94 MeV, phase-shift analysis of differential cross sections for elastic, (E/T), 25:12401
scattering by carbon-12 at 3.2 to 4.2 MeV using polarized beams, polarization from elastic, (E), 23: 15384
scattering by carbon-12 at 5 to 74 MeV, use of elastic approximation in analysis of, (T), 23:34812
scattering by carbon-12 at 6.0, 7.0, and 7.5 MeV, differential cross sections for inelastic, (E), 21:25518 (WASH-1071)
scattering by carbon-12 in cylindrical geometry, multiple scattering corrections to elastic and inelastic, (T), 23: 19139
scattering by carbon-12 up to 5 MeV, coupled-channel formalism for, (T), 23:15364
scattering by carbon-12, asymmetry measurements using recoil method for elastic and inelastic, (E), 22:35224
scattering by carbon-12, copper-65, iron-54, iron-56, nickel-58, and nickel-60 at 2.33 MeV, elastic and inelastic, (E), 22:20578 (WASH-1079)
scattering by carbon-12, copper-65, iron-54, iron-56, nickel-58, and nickel-60 at 2.33 MeV using polarized beams, cross sections and polarization for elastic and inelastic, (E), 23:1811
scattering by carbon-12, copper-65, iron-54, iron-56, and nickel-58 at 2.3 MeV, cross-section and polarization angular distributions, (E), 22:7637(R) (COO-1573-33)
scattering by carbon-12, γ production cross section for, (E), 23:1882 (WASH-1093)
scattering by carbon-12, iron-54, iron-56, nickel-58, and nickel-60 at 4.0 to 5.6 MeV, angular distributions and cross sections for, (E/T), 25:20338
scattering by carbon-12, polarization in elastic and inelastic, (E), 25:7806(R) (BMBW-FBK-70-14)
scattering by cerium at 0.8 to 2.1 MeV, gamma angular distributions and spectra from, (E), 21:42614(R) (ORO-2791-26)
scattering by cerium at 3 to 5 MeV, differential γ production cross sections for inelastic, (E), 23:5813(R) (TID-24763)
scattering by cerium isotopes, gamma emission in inelastic, (E), 21:4277 (ORO-2791-19, pp 32-74)
scattering by cerium-140 at 1.64 to 1.87 MeV, γ angular distributions for inelastic, (E/T), 22:42071
scattering by cerium-140 at 3.25 MeV, γ angular distributions for, (E), 23:5813(R) (TID-24763)
scattering by cesium-133 and praseodymium-141 at 0.2 to 2.2 MeV, γ production cross sections for inelastic, (E), 24:26664
scattering by cesium-133 at 0.2 to 2.2 MeV, γ spectra from inelastic, (E), 25:5751
scattering by cesium-133 at 0.5 to 1.2 MeV, gamma spectra and angular distributions from, (E), 25:50728
scattering by chlorine-35 and -37 at 2.54, 3.09, and 4.03 MeV, cross sections for inelastic, (E), 25:17814
scattering by chlorine-35 and -37 at 3.05 and 4.23 MeV, cross sections and gamma angular distributions from inelastic, (E), 25:17814
scattering by chlorine-35 and chlorine-37 at 2.5 to 4.2-MeV, inelastic, (E), 21:2659
scattering by chromium and nickel at 0.1 to 4.0 MeV, angular distributions for elastic and inelastic, (T), 21: 17340(R) (AEET-267)
scattering by chromium and silicon at 0.3, 0.5, and 0.8 MeV, angular distributions for elastic, (E), 23: 10957(T) (BNL-tr-228)
scattering by chromium and titanium at 0.3 to 4.5 MeV, optical model analysis of elastic, (E/T), 24:38159
scattering by chromium and titanium at 2.9 MeV, cross sections for elastic and inelastic, (E), 24:24526
scattering by chromium at 0.3 to 1.0 MeV, phase-shift analysis of, (E/T), 22:5809(R) (ANL-7354)
scattering by chromium at 0.35 to 0.965 MeV, differential cross section and polarization for, (E), 21: 40432 (WASH-1074)
scattering by chromium, cobalt, copper, iron, nickel, and titanium at 1.5 MeV, angular distributions and differential cross sections for elastic, (E), 22:53154
scattering by chromium, copper, iron, titanium, zinc, and zirconium at 3.25 MeV using polarized beams, polarization angular distributions for elastic, (E), 23: 19217
scattering by chromium, holmium-165, iron, and terbium-159 at 0.3 to 1.5 MeV, differential cross sections and polarizations for, (E), 21:23534(R) (ANL-7246)
scattering by chromium, iron, and nickel at 1.77 to 2.76 MeV, angular distributions for, (E), 24:28725 (AE-385)
scattering by chromium, iron, nickel, and vanadium at 1.8 to 8.1 MeV, cross sections for elastic, (E/T), 25: 14964
scattering by chromium, nickel, tungsten, yttrium, and zirconium at 14.4 MeV, cross sections for inelastic, (E) , 25:14967
scattering by chromium-52 at 2.9 MeV, Hauser—Feshbach analysis of angular distributions from, (E/T), 25:38939
scattering by chromium-52, iron-54, iron-56, silicon-28, titanium-48, and titanium-50 at 2.8 MeV, γ production cross section for inelastic, (E), 23:28304 (WASH-1124)
scattering by cobalt and copper at 1.5 to 8.1 MeV, angular distributions of differential cross sections for, (E/T), 22:13954 (AE-303)
scattering by cobalt and titanium at 0.3, 0.5, and 0.8 MeV, angular distributions for, (E), 21:12009
scattering by cobalt at 1.5 to 4.6 MeV, elastic, (E), 21: 12013(R) (EANDC(OR)-44(L))
scattering by cobalt, copper, indium, iron, and nickel at 1.5 to 7.0 MeV, optical-model analysis of elastic, (E/T) , 21:29911 (AE-270)
scattering by cobalt, copper, iron, and nickel at 1.5 to 4.6 MeV, elastic, (E/T), 21:4370
scattering by cobalt, fluorine, iron, nickel, and tantalum, cross sections for inelastic, (E), 25:14960
scattering by cobalt-59 at 0.5 and 0.8 MeV, angular distributions for elastic, (E), 23:10956(T) (BNL-tr-227)
scattering by cobalt-59 at 1.1 and 1.4 MeV using polarized target and beam, spin-spin effect in, (E), 24: 38176
scattering by cobalt-59 at 4.1 to 4.5 MeV, γ angular distributions and production cross sections for, (E), 23:5813(R) (TID-24763)
scattering by cobalt-59 at 4.2 to 8.6 MeV, cross sections for elastic and inelastic, (E), 24:38143 (ORNL-4549)
scattering by cobalt-59 at 4.9 MeV, neutron angular distributions and spectra for, (E), 22:7637(R) (COO-1573-33)
scattering by cobalt-59, copper-63, copper-65, lanthanum-139, manganese-55, and praseodymium-141 at 2.9 MeV, γ spectra from inelastic, (E), 22:50643
scattering by cobalt-59, differential cross sections for elastic and inelastic, 23:13305(R) (COO-1573-48)
scattering by cobalt-60 at 4.7 MeV, elastic and inelastic, (E), 23:28304 (WASH-1124)
scattering by concretes at 0.5 to 10 MeV, differential cross sections for, (E/T), 21:29328
scattering by copper and lead at 1.33 to 8.4 MeV, optical-model analysis of angular distributions from elastic, (E/T), 25:25771
scattering by copper and lead at 1.4 to 10° at 3.5 MeV, differential cross sections for small-angle elastic, (E), 25:44659
scattering by copper at 1.0 to 4.2 MeV, gamma angular distributions and spectra from inelastic, (E), 21: 42614(R) (ORO-2791-26)
scattering by copper at 1.5 to 4.6 MeV, angular distributions for elastic, (E/T), 21:9960
scattering by copper, iron-56, and niobium-93 at 14.4 MeV, angular distributions and spectra from inelastic, (E), 25:25685
scattering by copper, lead, and uranium at 4 MeV, effects of neutron polarization on Coulomb, (E), 21: 46747
scattering by copper, lead, and uranium at 4 MeV, polarization effects in Coulomb, (E), 21:7776(T) (ANL-Trans-371)
scattering by copper, lead, and uranium at 4 MeV, polarization effects on Coulomb, (E), 22:20549
scattering by copper-63 and -65 at 2.9 MeV, gamma angular distributions from, (E), 24:49829
scattering by copper-63 and copper-65 at 0.7 to 1.4 MeV, cross sections and γ spectra for inelastic, (E), 22:18182
scattering by copper-63, copper-65, gold-197, holmium-165, molybdenum, niobium-93, rhenium, sodium-23, tantalum, uranium, and zirconium at 0.3 to 1.5 MeV, inelastic, (E), 22:18194
scattering by copper-65, iron-54, iron-56, and nickel-160 at 2.2 MeV, elastic and inelastic, (E), 21:15489(R) (COO-1573-7)
scattering by copper-65, iron-54, iron-56, and nickel-60 at 2.2 MeV, polarization in elastic and inelastic, (E), 21:25518 (WASH-1071)
scattering by deformed even—even rare-earth nuclei, elastic and inelastic, (E), 23:1882 (WASH-1093)
scattering by deformed rare-earth nuclei, level density parameters from inelastic, (E), 22:27104
scattering by deuterated benzene liquid scintillator at 1.2 MeV, polarization of elastic, 24:52381
scattering by deuterium and hydrogen at 36 and 46 MeV, differential cross sections for elastic, (E), 25: 22971
scattering by deuterium and oxygen-16 at 14.1 MeV using polarized beam, angular distributions for elastic, (E), 25:53637
scattering by deuterium and tritium at 22.1 MeV using polarized beams and liquid targets, asymmetries in elastic, 25:53548
scattering by deuterium and tritium at 5.6 to 23 MeV, cross sections for, (E), 23:25801
scattering by deuterium and tritium at 6 to 23 MeV, angular distributions and polarization for elastic, (E), 22:20578 (WASH-1079)
scattering by deuterium and tritium at 6 to 23 MeV, differential cross sections for elastic, (E), 21:40432 (WASH-1074)
scattering by deuterium at 0.5 to 49.4 MeV, mixing parameters and phase shifts for elastic, (E), 25:12359
scattering by deuterium at 1 to 10 MeV, phase-shift analysis of elastic, (T), 25:53536
scattering by deuterium at 14 MeV, differential cross sections for inelastic, (E), 21:44551
scattering by deuterium at 14 MeV, differential cross section for elastic, (E), 22:53083
scattering by deuterium at 14 MeV, differential cross sections for elastic and inelastic, (E), 23:3934
scattering by deuterium at 14 MeV, recoil deuteron angular distribution for elastic, (E), 22:26809
scattering by deuterium at 2.6 MeV, angular dependence of neutron polarization in elastic, (E), 25:53537
scattering by deuterium at 2.7 to 14 MeV, resolution correction for scintillation detection of recoil deuterons from, 22:16864
scattering by deuterium at 28 MeV, differential cross sections for elastic, (E/T), 24:52388 (LYCEN-7026)
scattering by deuterium at 36 and 46 MeV, differential cross sections for elastic, (E), 25:7804
scattering by deuterium at 4.65 to 6.16 MeV, differential cross sections for, (E), 25:25630
scattering by deuterium at 5.6, 7.0, 8.0, and 9.0 MeV, differential cross section for elastic, (E), 22:18287
scattering by deuterium at 5.64, 7.01, and 9.04 MeV, differential cross sections for, (E), 23:23619
scattering by deuterium at 6, 7, 8, and 9 MeV, differential cross sections for elastic, (E), 21:25518 (WASH-1071)
scattering by deuterium at 7.8 MeV, polarization in, (E), 24:35812
scattering by deuterium at 7.89 MeV using polarized beam, analyzing power for elastic, (E), 25:53536
scattering by deuterium at 8 MeV using polarized beams, asymmetry measurements on, (E), 23:19254(R) (ORO-3624-7)

scattering by deuterium, hydrogen, and tritium at 14.4 MeV, differential cross sections for, (E), 23:25806
scattering by deuterium, polarization measurements on elastic, (E), 23:1882 (WASH-1093)
scattering by deuterons at 28 MeV, differential cross section for elastic, (E), 24:38080
scattering by even-even Z = 10 to 94 nuclei at 7 to 14 MeV, inelastic, (T), 21:21441 (UCRL-50181)
scattering by first excited state of carbon-12, DWBA analysis with and without spin-orbit coupling, (E/T), 22:26853
scattering by fission products, outline of cross section calculations for, 25:7845 (AAEC/TM-549)
scattering by fluorine-19 at 0.2 to 2.2 MeV, differential cross sections and polarizations for, (T), 21:23534(R) (ANL-7246)
scattering by fluorine-19 at 0.2 to 2.2 MeV, doorway states in, (E), 21:9930(R) (ANL-7247)
scattering by fluorine-19 at 0.2 to 2.2 MeV, resonances in, (E), 21:13811
scattering by fluorine-19 at 0.3 to 1.5 MeV, differential cross sections for elastic and inelastic, (E), 22:20578 (WASH-1079)
scattering by fluorine-19 at 0.5 to 2.2 MeV, phase-shift analysis of, (E/T), 22:5809(R) (ANL-7354)
scattering by fluorine-19 at 14 MeV, (E), 21:12011 (AECL-2639)
scattering by fluorine-19 at 14 MeV, elastic and inelastic, (E), 21:2651(R) (AECL-2612)
scattering by fluorine-19 at 14.1 MeV, angular distributions and cross sections for, (E), 24:38128
scattering by fluorine-19 at 14.2 MeV, differential cross sections for elastic and inelastic, (E), 21:4224
scattering by fluorine-19 at 570 and 850 keV, germanium detector for measuring gamma spectra from inelastic, 22:10553
scattering by fluorine-19, gamma spectra from, (E), 22:29930
scattering by gadolinium and holmium-165 at 0.1 to 1.6 MeV, total cross sections for elastic and inelastic, (E), 24:47637 (ANL-7610, pp 1-59)
scattering by gadolinium, hafnium, and samarium at 0.3 to 1.5 MeV, cross sections for elastic and inelastic, (E), 24:15905
scattering by gadolinium, hafnium, and samarium, cross sections for elastic and inelastic, (E), 24:30846
scattering by gallium-69 and -71 at 0.6 to 2.5 MeV, γ spectra, angular distributions, and cross sections for inelastic, (E), 24:18372
scattering by gallium-69 and gallium-71 at 0.4 to 2.5 MeV, γ spectra and angular distributions for inelastic, (E), 23:30987
scattering by germanium and niobium-93 at 7.5 MeV, cross sections for, (E), 23:49398 (WASH-1127)
scattering by germanium at 0.3 to 1.5 MeV, cross sections for elastic and inelastic, (E), 23:52136
scattering by germanium at 0.3 to 1.5 MeV, differential cross sections for elastic and inelastic, (E), 22:20578 (WASH-1079)
scattering by germanium-70, -72, -74, and -76 at 0.5 to 2.55 MeV, gamma excitation functions and Wolfenstein—Hauser—Feshbach analysis of neutron differential cross sections from inelastic, (E/T), 25:17815
scattering by germanium-70, -72, -74, and -76, excitation functions for 2⁺ levels in, (E), 25:31244
scattering by germanium-73, γ spectra from inelastic, (E), 22:3660
scattering by gold, scandium, silver, tantalum, and thallium at 1 MeV, gamma spectra from, (E), 21:42614(R) (ORO-2791-26)
scattering by gold-197 and iron-56 at 2.5 and 14 MeV, γ angular distributions from, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by gold-197 and yttrium-89, isomer production in inelastic, (E), 21:7754
scattering by gold-197 at 0.2 to 1.6 MeV, differential cross sections for, (E), 22:27151
scattering by gold-197 at 0.2 to 2.2 MeV, gamma spectra from inelastic, (E), 25:34152
scattering by gold-197 at 0.2 to 2.2 MeV, γ production cross section for inelastic, (E), 24:30858
scattering by gold-197 at 0.4 to 1.3 MeV, gamma spectra from inelastic, (E), 25:34145
scattering by gold-197, lead, thorium-232, tungsten, and uranium at 0.6 to 1.2 Mev, differential cross sections and polarization for elastic, (E), 22:20578 (WASH-1079)
scattering by gold-197, lead-207, and zirconium-90 at 15 MeV, statistical model interpretation of cross sections for inelastic, (E/T), 23:11037
scattering by gold-197, nitrogen-14, oxygen-16, and scandium-45 at 5, 6.6, and 8.7 MeV, cross sections, energy spectra, excitation functions, and angular distributions for, (E), 25:5551 (CEA-R-4047)
scattering by gold-197, thorium-232, tin, titanium, tungsten, and uranium at 0.9 MeV, optical model analysis of polarization in elastic, (E/T), 24:47637 (ANL-7610, pp 1-59)
scattering by hafnium, gadolinium, and samarium at 0.3 to 1.5 MeV, cross sections for elastic and inelastic, 23:49383 (ANL-7567)
scattering by hafnium, gadolinium, samarium, and vanadium at 0.4 to 1.6 MeV, cross sections for elastic, (E), 23:49315 (ANL-7410, pp 1-46)
scattering by hafnium-180 at 14 MeV, cross sections for inelastic, (E), 21:25518 (WASH-1071)
scattering by hafnium-180 at 14.5 MeV, cross section for inelastic, (E), 23:19263
scattering by heavy elements of 0.5 to 2.7 MeV, system for studying small-angle, 22:5809(R) (ANL-7354)
scattering by heavy nuclei at small angles, analysis of reported anomalies in elastic, (T), 25:28500
scattering by heavy nuclei, research using time-of-flight method with Van de Graaff accelerator, 21:31770 (BMwF-FBK-67-04)
scattering by helium at 0.2 to 7.0 MeV, neutron and recoil angular distributions for, (E), 22:26797
scattering by helium at 0.2 to 7.0 MeV, phase-shift analysis of differential cross sections for, (E), 22:39587
scattering by helium at 1 keV to 100 MeV, cross section for elastic, (T), 23:49315 (ANL-7410, pp 1-46)
scattering by helium at 1.01 and 2.44 MeV using polarized neutrons, angular distributions of asymmetry in, (E), 22:26798
scattering by helium, angular distributions and Legendre coefficients for elastic, 23:17070 (ANL-7462)
scattering by helium-3 and tritium at 14.4 MeV, angular distributions for elastic, (E), 22:26821
scattering by helium-3 and tritium at 6 MeV, cross sections for elastic, (E/T), 25:17971
scattering by helium-3 at 0.1 to 20 MeV, cross-section data compilation for, (E), 21:46659 (CCDN-NW-6)
scattering by helium-3 at 1 to 17.5 MeV, phase shift analysis of elastic, (E), 23:25792
scattering by helium-3 at 1, 3.6, and 6 MeV, cluster-model analysis of elastic, (T), 25:28167
scattering by helium-3 at 12 and 16 MeV using polarized beams, asymmetry in elastic, (E), 23:30924
scattering by helium-3 at 12 and 16 MeV, asymmetry measurements on, (E), 22:48202(R) (BMwF-FBK-68-01)
scattering by helium-3 at 14.4 MeV, angular distributions for, (E), 23:21240 (ZFK-130, pp 211-12)
scattering by helium-3 at 14.4 MeV, differential corss sections for, (E), 21:38226
scattering by helium-3 at 14.4 MeV, recoil spectra for elastic, (E), 23:25802
scattering by helium-3 up to 3.4 MeV, polarization in elastic, (T), 25:53549
scattering by helium-4 at 0.2 to 7 MeV, angular distributions for elastic, (E), 25:12360
scattering by helium-4 at 0.5 to 18 MeV, analyzing power from phase-shift data on, 25:53575
scattering by helium-4 at 0.55 to 0.84 MeV, differential cross sections for, (E), 23:44827
scattering by helium-4 at 1 to 18 MeV, phase shifts and effective potentials from resonating-group study of elastic, (T), 25:12363
scattering by helium-4 at 1 to 34 MeV, calculation of cross-section and polarization angular distributions using nonlocal separable potentials for elastic, (T), 25:31186 (LYCEN-7089)
scattering by helium-4 at 1.0 and 2.4 MeV, angular distributions for polarized, (E), 21:35415
scattering by helium-4 at 1.0 to 2.4 MeV, polarization in, (E), 21:25518 (WASH-1071)
scattering by helium-4 at 11.0 to 30.3 MeV, phase-shift analysis of polarization angular distributions from elastic, (E/T), 25:25627 (LA-4596)
scattering by helium-4 at 17.6 to 23.7 MeV, differential cross sections for elastic, (E/T), 25:45904
scattering by helium-4 at 17.6, 20.9, and 23.7 MeV, cross sections and phase shifts for elastic, (E), 25:5508 (LA-4465, pp 1.1-2)
scattering by helium-4 at 17.6, 20.9, and 23.7 MeV, phase shifts for elastic, (E), 25:53576
scattering by helium-4 at 20 to 100 MeV, effects of exchange processes in resonating-group calculations of differential cross sections for elastic, (T), 25:50634
scattering by helium-4 at 25 and 28 MeV, phase shifts for, (E/T), 21:42553
scattering by helium-4 at 27.3 and 30.3 MeV using polarized beams, asymmetry in elastic, (E), 25:5523 (LA-4465, pp 30.1-2)
scattering by helium-4 at 27.3 and 30.3 MeV using polarized beam, asymmetries for elastic, (E), 25:53577
scattering by helium-4 at 32 MeV using polarized beams, polarization in, (E), 23:10961(R) (NP-17704)
scattering by helium-4 at 8 MeV using polarized beams, asymmetry and analyzing power for, (E), 23:19254(R) (ORO-3624-7)
scattering by helium-4 below 22 MeV, phase-shift analysis by nonlocal potentials of elastic, (T), 24:28826 (LYCEN-7015)
scattering by helium-4, resonating-group calculations of phase shifts and effective potentials for elastic, (T), 25:14880 (COO-1764-105)
scattering by holmium-165 at 0.3 to 1.5 MeV, differential cross sections for elastic and inelastic, (E), 25:31350
scattering by holmium-165 at 3.0 to 7.5 MeV, angular distributions for elastic and inelastic, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by holmium-165 at 3.0 to 7.5 MeV, differential elastic, inelastic, and total cross sections for, (E), 23:44937
scattering by holmium-165 at 8 and 15 MeV, differential cross sections for, (E), 21:46774
scattering by hydrogen at 0.1 to 30.0 MeV, total and differential cross sections and polarizations for elastic, (T), 25:43798
scattering by hydrogen at 1 to 20 MeV, phase-shift calculations of elastic, 21:46660 (LA-DC-8878)
scattering by hydrogen at 1.5 to 15 MeV, cross section for, (E), 24:40550 (WASH-1136)
scattering by hydrogen at 11.0 to 29.6 MeV, polarizations and asymmetries from polarized, (E), 25:45901
scattering by hydrogen at 200 MeV, differential cross section and polarization for, (E), 22:53092
scattering by hydrogen at 22.5 to 400 MeV, least-squares fit to differential cross sections for elastic, (E), 25:36661 (UCRL-20295)
scattering by hydrogen at 24 to 60 MeV, cross section for, (E), 25:25629(R) (UCD-CNL-125)
scattering by hydrogen at 24.0 MeV, phase-shift analysis of differential cross sections for elastic, (E/T), 25:5540
scattering by hydrogen at 29 MeV, angular distribution for, (E), 25:53513 (CONF-701002-, pp 63-73)
scattering by hydrogen, deuterium, and tritium at 14.4 MeV, differential cross sections for elastic, (E), 23:21246
scattering by hydrogen-free plane shielding, (E), 25:3171
scattering by indium at 1.0 and 1.5 MeV, gamma spectra from, (E), 21:42614(R) (ORO-2791-26)
scattering by indium at 1.5 MeV, γ production cross sections for inelastic, (E), 22:20578 (WASH-1079)
scattering by indium, iron, lead, silicon, tungsten, and uranium at 1 MeV, gamma spectra from, (E), 21:42614(R) (ORO-2791-26)
scattering by indium-113 at 0.36 to 1.02 MeV, activation cross section for inelastic, (E), 22:14039
scattering by indium-113 at 14.7 MeV, isomeric cross section for inelastic, (E), 23:21335 (ZFK-130, pp 233-8)
scattering by indium-113, indium-115, and lead-204 at 13 to 18 MeV, cross sections for inelastic, (E), 25:1736(R) (INR-1197)
scattering by indium-115 at 0.36 to 1.02 MeV, activation cross section for inelastic, (E), 22:14039
scattering by indium-115 at 1 to 20 MeV, activation cross section for inelastic, (E), 22:3624
scattering by indium-115 at 1 to 20 MeV, activation cross section for, (E), 22:3743
scattering by indium-115 at 1 to 20 MeV, activation cross sections for, (E), 21:25518 (WASH-1071)
scattering by indium-115 at 14.6 MeV, cross sections for isomer excitation by inelastic, (E), 21:33964 (NP-16748)
scattering by indium-115 at 14.8 MeV, cross section for inelastic, (E), 24:8871
scattering by indium-115 at 15 MeV with isomeric excitation, effective cross section for inelastic, (E), 23:7289
scattering by indium-45 at 0.4 to 15 MeV, intercalibrated cross sections for inelastic, (E), 24:35838
scattering by iodine-127 at 0.06 to 0.9 MeV, cross sections for inelastic, (E), 22:5842
scattering by iodine-127 at 0.2 to 0.8 MeV, resonance-theory calculations of excitation functions for inelastic, (T), 25:43914
scattering by iodine-127 at 4.0 MeV, optical-model analysis of elastic, (T), 25:43914
scattering by iodine-127 at 50 to 50 keV, cross sections for inelastic, (E), 22:26932(R) (NP-17434)
scattering by iodine-127 at 570 and 850 keV, germanium detector for measuring gamma spectra from inelastic, 22:10553
scattering by iodine-127 up to 500 keV, cross section for inelastic, (E), 23:19313
scattering by iodine-127, gamma spectra from, (E), 25:31352
scattering by iron at 0.3 to 1 MeV, fine and intermediate structure in, (E), 23:17103(R) (ANL-7481)
scattering by iron at 0.3 to 1.5 MeV, cross section for elastic, (E), 22:18194
scattering by iron at 0.3 to 1.5 MeV, cross sections for elastic and inelastic, (E), 23:8955 (PEL-180)
scattering by iron at 0.3 to 1.5 MeV, differential cross sections for elastic and inelastic, (E), 22:50585
scattering by iron at 0.35 to 0.97 MeV, fine and intermediate structure resonances in, (E), 22:29962
scattering by iron at 0.35 to 0.97 MeV, relation between fine and intermediate resonance structure in, (E), 23:1882 (WASH-1093)
scattering by iron at 0.5 to 10 MeV, differential cross sections for, (E/T), 21:29328
scattering by iron at 0.8 to 13 MeV, γ spectra from inelastic, (E), 23:5912
scattering by iron at 1 to 2 MeV, angular distribution for resonance elastic, (E), 21:17326
scattering by iron at 1.43 to 2.15 MeV, cross sections for elastic and inelastic, (E), 25:14961
scattering by iron at 14 MeV, energy spectra and angular distributions from inelastic, (E), 25:5639
scattering by iron at 2 to 4 MeV, γ spectra for inelastic, (E), 23:13265 (RPI-328-142, pp 1-67)
scattering by iron at 2 to 4 MeV, γ spectra from inelastic, (E), 23:28304 (WASH-1124)
scattering by iron at 3 to 8 MeV, time-of-flight measurements of angular distributions for elastic, (E), 23:7243 (AE-337)
scattering by iron, differential albedo of thin beam, (T), 24:49242
scattering by iron, nickel, and tungsten at 1.0 to 4.5 MeV, differential cross sections for elastic and inelastic, (E), 22:27067
scattering by iron, nickel, and tungsten, angular distributions and excitation functions for elastic and inelastic, (E), 23:17097
scattering by iron-54 at 1.8 to 5.3 MeV, γ angular distributions from, (E), 22:3668
scattering by iron-54 at 1.8 to 5.3 MeV, γ angular distributions and production cross sections for inelastic, (E), 23:5813(R) (TID-24763)
scattering by iron-54 at 1.81 to 5.25 MeV, inelastic, (E), 21:4238 (ORO-2791-19, Paper 2)
scattering by iron-54 at 4 to 5.6 MeV, neutron time-of-flight spectra from elastic and inelastic, (E), 24:13311(R) (COO-1573-63)
scattering by iron-56 and magnesium-29, with fluctuation effects on n—γ angular correlations for inelastic, (T), 23:32913
scattering by iron-56 and phosphorus-31 at 4.7 and 5.5 MeV, γ spectra from inelastic, (E), 22:35285(R) (AERE-PR/NP-13)
scattering by iron-56 and uranium-238, cross-section calculations using HELENE and JULIE codes for inelastic, 24:3953(R) (ORNL-4433)
scattering by iron-56 at 0.3 to 1.3 MeV, optical-model analysis of elastic and inelastic, (E/T), 23:1860
scattering by iron-56 at 0.35 to 0.96 MeV, doorway-state interpretation of cross sections and polarization for elastic, (E/T), 23:8973
scattering by iron-56 at 0.35 to 0.97 MeV, differential cross section and polarization for elastic, (E), 22:20578 (WASH-1079)
scattering by iron-56 at 0.4 to 1.2 MeV, angular distributions for elastic, (E), 22:39575 (CEA-R-3279)

scattering by iron-56 at 0.6 to 1.0 MeV, angular distributions for elastic, (E), 21:35437(R) (EANDC(E)-76(U))
scattering by iron-56 at 0.87 to 0.99 MeV, γ angular distributions for inelastic, (E/T), 22:42071
scattering by iron-56 at 0.9 to 16 MeV, high-resolution cross section for inelastic, (E), 25:5657
scattering by iron-56 at 1 to 1.5 MeV, resonance structure in inelastic, (E), 21:4269
scattering by iron-56 at 1.0 to 7.6 MeV, cross sections for inelastic, (T), 22:20576 (ORNL-TM-2159)
scattering by iron-56 at 1.0 to 7.6 MeV, differential cross sections for elastic and inelastic, (E), 22:41979 (ORNL-4249)
scattering by iron-56 at 1.0 to 7.6 MeV, local optical-model and Hauser—Feshbach analyses of elastic and inelastic, (T), 23:1882 (WASH-1093)
scattering by iron-56 at 14 MeV, cross section for inelastic, (E), 23:8961
scattering by iron-56 at 14 MeV, vibrating-model analysis of differential cross sections for elastic and inelastic, (E), 25:56707
scattering by iron-56 at 4.0 to 7.6 MeV, cross sections for elastic, (T), 22:20576 (ORNL-TM-2159)
scattering by iron-56 at 4.2 to 7.6 MeV calculation of gamma yields using cascade model for inelastic, (T), 23:37235
scattering by iron-56 at 4.2 to 8.6 MeV, cross sections for elastic and inelastic, (E), 24:40574 (ORNL-4515)
scattering by iron-56 at 4.3 to 5.3 MeV, gamma energies and relative intensities from, (E), 23:42902
scattering by iron-56 at 4.5 to 7.6 MeV, differential cross sections for elastic and inelastic, (E), 21:46643(R) (ORNL-4134)
scattering by iron-56 at 4.56 MeV, differential cross sections for inelastic, (E), 21:12013(R) (EANDC(OR)-44(L))
scattering by iron-56 at 4.6 to 7.6 MeV, cross sections for elastic and inelastic, (E), 22:20578 (WASH-1079)
scattering by iron-56 at 4.6 to 7.6 MeV, differential cross sections for elastic and inelastic, (E), 22:11918 (ORNL-TM-2052)
scattering by iron-56 at 4.6 to 7.6 MeV, optical and statistical model analysis of cross sections for elastic and inelastic, (E/T), 23:10983
scattering by iron-56 at 4.60 to 7.55 MeV, total cross sections for elastic and inelastic, (E), 21:44600(R) (ORNL-TM-1991)
scattering by iron-56, nickel-58, -60, -62, niobium-93, and tantalum-181 at threshold to 1.8 MeV, gamma-ray production cross sections for, (E), 25:53693
scattering by iron-56, niobium-93, and tantalum-181 at 0.24 to 1.79 MeV, cross sections for inelastic, (E), 24:6865
scattering by iron-56,, lead-206, magnesium-24, and manganese-55 at 2.9 MeV, γ-ray differential cross sections for inelastic, (E), 25:20329
scattering by iron-57 below 1 MeV, Hauser—Feshbach calculations with and without Moldauer corrections for inelastic, (T), 23:5746 (AEEW-M-790)
scattering by lanthanum and praseodymium-141 at 8 MeV, differential cross sections and time-of-flight spectra for elastic, (E), 22:20564 (CONF-680307-13)
scattering by lanthanum-139 and praseodymium-141 at 0.2 to 2.6 MeV, angular distribution and excitation functions for elastic and inelastic, (E), 23:13301
scattering by lanthanum-139 and praseodymium-141 at 0.5 to 2.3 MeV, γ spectra from inelastic, (E), 22:26932(R) (NP-17434)
scattering by lanthanum-139 and praseodymium-141 at 0.2 to 2.5 MeV, differential cross sections for elastic and inelastic, (E), 22:11948(R) (NP-17216)
scattering by lanthanum-139 and praseodymium-141 at 0.2 to 2.5 MeV, differential cross sections for elastic and inelastic, (E), 22:27218
scattering by lanthanum-139 and praseodymium-141 at 0.5 to 2.3 MeV, γ spectra for inelastic, (E), 23:15481
scattering by lead at 4.56 MeV, differential cross section for elastic, (E), 22:50630
scattering by lead, magnesium, silicon, sulfur, and zinc at 14 MeV, generalized optical model for inelastic, (T), 22:44772
scattering by lead-204 at 14.7 MeV, cross sections for inelastic, (E), 21:31743
scattering by lead-206 at 1 to 5 MeV, γ spectra and production cross sections for inelastic, (E), 23:28304 (WASH-1124)
scattering by lead-207 at 1.5 to 7 MeV, RPA calculation of cross sections for elastic and inelastic, (T), 23:52164
scattering by lead-207, role of continuum in RPA calculations for elastic, (T), 24:43455
scattering by lead-208 at 15 MeV, diffraction model for elastic, (T), 21:40468 (LYCEN-6729)
scattering by lead-208 at 3 to 5 MeV, γ angular distributions for inelastic, (E), 23:5813(R) (TID-24763)
scattering by lead-208 at 3.0 MeV, gamma emission in, (T), 21:4325 (ORO-2791-19, pp 75-135)
scattering by light nuclei, analysis for reaction mechanisms in elastic and inelastic, (E), 25:14898
scattering by light nuclei, optical-model analysis of elastic, (T), 22:30051
scattering by light-weight elements at 7.6 MeV, differential cross sections for inelastic, (E), 21:44600(R) (ORNL-TM-1991)
scattering by liquid ^{4}He, interference and temperature effects in, (T), 25:3049
scattering by liquid argon and oxygen at 14.0 MeV, differential cross sections for elastic, (E), 21:29909
scattering by liquid deuterium and tritium at 16.5 and 22.1 MeV, polarization in, (E), 25:12354
scattering by liquid deuterium and tritium at 16.5 and 22.1 MeV, polarization in elastic, (E), 24:15773 (LA-4334)
scattering by liquid helium, impulse approximation for, (T), 23:23746(R) (AECL-3257)
scattering by liquid helium-4, cross section for inelastic, (T), 24:38078 (RLO-1388-566)
scattering by liquid tritium at 22 MeV, polarization in elastic, (E), 24:15790
scattering by lithium hydrides at 0.5 to 10 MeV, differential cross sections for, (E/T), 21:29328
scattering by lithium-6 and -7 at 1.0 to 2.3 MeV, differential cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
scattering by lithium-6 and lithium-7 at 10 MeV, differential cross sections for elastic and inelastic, 21:5496
scattering by lithium-6 and lithium-7 at 14 MeV, inelastic, (E), 21:4230
scattering by lithium-6 and lithium-7 at 4.4 MeV, polarization angular distributions in elastic, (E), 21:21457
scattering by lithium-6 at 1.0 to 2.3 MeV, angular distributions of differential cross sections for, (E), 21:29881 (EUR-3454.e)
scattering by lithium-6 at 1.0 to 2.3 MeV, integrated cross section for elastic, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by lithium-6 at 14.2 MeV, differential cross sections for elastic and inelastic, (E), 24:30705
scattering by lithium-6 at 4 to 12 MeV, differential cross sections for inelastic, (E), 21:35437(R) (EANDC(E)-76(U))
scattering by lithium-6 at 4 to 6 MeV, cross section for inelastic, (E), 23:25826
scattering by lithium-6 at 4 to 7 MeV, excitation function for inelastic, (E), 23:49332(R) (EANDC(E)-115(U))
scattering by lithium-6 at 4.1 MeV, angular distribution and optical-model parameters for elastic, (E/T), 25:53608(R) (NP-18698)
scattering by lithium-6 at 4.1 to 7.0 MeV, excitation function for inelastic, (E), 23:37116
scattering by lithium-6 at 4.8, 5.7, and 7.5 MeV, differential cross sections for elastic and inelastic, (E), 22:7639 (LA-3765)
scattering by lithium-6 at 5 to 7 MeV, cross sections for inelastic, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by lithium-6 below 1.7 MeV, review of data on cross sections for elastic, 25:53591 (CONF-701002-, pp 80-106)
scattering by lithium-6, analysis using Wheeler group model, 25:31221
scattering by lithium-7 at 0.9 to 6.0 MeV, differential cross sections for elastic and inelastic, (E), 21:35437(R) (EANDC(E)-76(U))
scattering by lithium-7 at 1.1 to 2.3 MeV, angular distributions for elastic and inelastic, (E), 23:5824
scattering by lithium-7 at 1.12 to 2.30 MeV, differential cross sections for elastic and inelastic, (E), 22:29904 (EUR-3903)
scattering by lithium-7 at 1.12 to 2.30 MeV, integrated cross section for inelastic, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by lithium-7 at 14 MeV, n-γ coincidence spectra for inelastic, (E), 23:49332(R) (EANDC(E)-115(U))
scattering by lithium-7 at 14 MeV, neutron spectra from inelastic, (E), 24:52471 (NP-18361)
scattering by lithium-7 at 14 MeV, neutron time-of-flight spectra from inelastic, (E), 22:15960
scattering by lithium-7 at 3.3, 4.8, 5.7, and 7.5 MeV, differential cross sections for elastic and inelastic, (E), 22:7639 (LA-3765)
scattering by magnesium and silicon at 3.24 MeV, cross sections for, (E), 24:49706 (RT/FI-(70)18)
scattering by magnesium at 4.2 to 8.6 MeV, cross sections for elastic and inelastic, (E), 24:38144 (ORNL-4550)
scattering by magnesium-24 at 14.2 MeV, cross sections and neutron spectra from, (E), 25:28265
scattering by magnesium-24 at 2.86 MeV, differential cross sections for elastic and inelastic, (E), 25:34018
scattering by manganese-55 and vanadium-51, γ angular distributions and production cross sections for inelastic, (E), 22:20578 (WASH-1079)
scattering by manganese-55 at 1.76 and 1.81 MeV, gamma angular distributions and spectra from, (E), 21:42614(R) (ORO-2791-26)
scattering by manganese-55 at 2.21 MeV, Hauser—Feshbach analysis of cross sections for inelastic, (E/T), 25:17813
scattering by medium- and heavy-weight nuclei at 4 MeV using polarized beam, cross sections for elastic, 25:53707
scattering by medium- and heavy-weight nuclei at 4 MeV, optical-model calculations for elastic polarized, 21:42648
scattering by molecules, theory of, 21:25411
scattering by molybdenum at 1.0 to 5.0 MeV, differential cross sections and excitation functions for elastic and inelastic, (E), 25:31299 (AWRE-O-89/70)
scattering by molybdenum-98, plutonium-240, and titanium up to 1.5 MeV, cross sections for, (E), 25:43884 (ANL-7710, pp 1-52)
scattering by natural aluminum, phosphorus, and sulfur at 7.96 and 9.05 MeV, cross sections for elastic and inelastic, (E/T), 25:59770
scattering by natural germanium, holmium-165, and tantalum-181 at 14 MeV, neutron spectra and level-density parameters from inelastic, (E), 25:12536
scattering by natural magnesium at 7.97 MeV, cross sections for elastic and inelastic, (E/T), 25:59770
scattering by natural silicon at 7.71 to 9.05 MeV, cross sections for elastic and inelastic, (E/T), 25:59770
scattering by nickel and zinc at 0.50 to 1.75 MeV, angular distributions for elastic, (E), 22:26932(R) (NP-17434)
scattering by nickel at 3.0 to 8.1 MeV, angular distributions of differential cross section for elastic, (E/T), 22:13954 (AE-303)
scattering by nickel-58 and -60 up to 2.20 MeV, cross sections for inelastic, (E), 25:25682
scattering by nickel-58 and nickel-60 at 1.3 to 4.0 MeV, inelastic, (E), 21:4268
scattering by nickel-58, nickel-60, and nickel-62 at 1.5 to 2.4 MeV, cross sections for inelastic, (E), 22:26932(R) (NP-17434)
scattering by nickel-60 at 6.5 to 8.5 MeV, angular distributions and cross sections for elastic and inelastic, (E), 24:28735 (ORNL-4523)
scattering by niobium-93 and tantalum-181 at 1 to 2 MeV, γ spectra from inelastic, (E), 22:27158
scattering by niobium-93 at 0.45 to 1.79 MeV, excitation function for, (E), 24:35870
scattering by niobium-93 at 1 to 5 MeV and 15 MeV, gamma production cross sections for, (E), 21:25518 (WASH-1071)
scattering by niobium-93 at 1.0 to 4.2 MeV, gamma angular distributions and spectra from inelastic, (E), 21:42614(R) (ORO-2791-26)
scattering by niobium-93 at 1.2 MeV, γ spectra from inelastic, (E), 24:33144
scattering by niobium-93 at 160 MeV, γ spectra from inelastic, (E), 22:27159
scattering by niobium-93 at 2.5 to 3.1 MeV, cross sections and gamma spectra from inelastic, (E), 25:17902
scattering by niobium-93 at 3 to 5.5 MeV, γ spectra from inelastic, (E), 23:28304 (WASH-1124)
scattering by niobium-93 at 6.0 and 7.5 MeV, differential cross sections for elastic and inelastic, (E), 22:20578 (WASH-1079)
scattering by niobium-93 at 6.0 to 7.5 MeV, differential cross sections for elastic and inelastic, (E), 23:1882 (WASH-1093)
scattering by niobium-93, gamma emission in inelastic, (E), 21:4277 (ORO-2791-19, pp 32-74)
scattering by nitrogen at 4.5, 6, and 7 MeV, γ spectra and differential production cross sections for inelastic, (E), 23:5827
scattering by nitrogen at 6.8 to 14 MeV, differential cross sections for elastic, (E), 21:19296 (UCRL-50001-66-1, pp 1-40)
scattering by nitrogen-14 and oxygen-16 at 14.8 MeV, differential cross sections for elastic, (E), 22:18141
scattering by nitrogen-14 and oxygen-16 at 16 MeV, γ-ray production cross sections for inelastic, (E), 23:49398 (WASH-1127)
scattering by nitrogen-14 at 14.1 MeV, differential and total cross sections for elastic, (E), 21:35433
scattering by nitrogen-14 at 4.0 to 6.5 MeV, resonances in elastic and inelastic, (E), 22:53125
scattering by nitrogen-14 at 5.8 to 8.6 MeV, differential cross sections and γ spectra for inelastic, (E), 22:20576 (ORNL-TM-2159)
scattering by nitrogen-14 at 5.8 to 8.6 MeV, differential cross sections for inelastic, (E), 23:1882 (WASH-1093)
scattering by nitrogen-14 at 5.8 to 8.6 MeV, γ spectra and cross sections for, (E), 23:37114
scattering by nitrogen-14 at 5.8 to 8.6 MeV, γ spectra and differential production cross sections for inelastic, (E), 23:5825
scattering by nitrogen-14 at 5.8 to 8.6 MeV, γ spectra and production cross sections for inelastic, (E), 22:37291 (ORNL-TM-2267)
scattering by nitrogen-14 at 6.0 to 8.4, γ spectra for inelastic, (E), 22:20578 (WASH-1079)
scattering by nitrogen-14 at 7 to 14 MeV, differential cross sections for elastic, (E/T), 21:9948
scattering by nitrogen-14 at 8 MeV, gamma spectrum from, (E), 21:44600(R) (ORNL-TM-1991)
scattering by nitrogen-15 at 0.8 to 3.1 MeV, phase-shift analysis of cross-section and polarization angular distributions and excitation functions for elastic, (E), 25:36684
scattering by nitrogen-15 at 1.94 to 2.64 MeV of polarized, analyzing power from elastic, (E), 25:36684
scattering by nitrogen-15 at 2 to 3 MeV, coupled-channels analysis of differential cross sections for elastic, (T), 25:36683
scattering by nuclei at 0.4 to 4.6 MeV, analysis of optical model using pole representations for elastic, (T), 22:32712
scattering by nuclei at 1 to 24 MeV, electromagnetic interaction contribution to cross sections for, (T), 23:10968
scattering by nuclei at 1.5 to 8.1 MeV, dissertation summary on elastic, (E), 23:17050 (NP-17773)
scattering by nuclei at 14.5 MeV, optical-model analysis of elastic, (E/T), 23:42998
scattering by nuclei at 14.8 MeV, cross sections for inelastic, (E), 21:44594
scattering by nuclei at 2.75 MeV, method for studying gamma spectra from inelastic, (E), 22:32561
scattering by nuclei at 24 MeV, calculations using optical model, (T), 21:4343
scattering by nuclei at 25 and 96 MeV, optical-model potentials for elastic, (T), 21:44764
scattering by nuclei at 3.4 MeV, optical-model analysis of polarized elastic, 21:44619
scattering by nuclei at 6 to 24 MeV, optical-model analysis of elastic, 21:34071
scattering by nuclei at 8 MeV, cross sections for elastic, (E/T), 25:14965
scattering by nuclei with A = 9 to 201 at 14 MeV, inelastic, (E), 21:12063
scattering by nuclei, analysis for spin and parity of resonances in elastic, 24:49928 (KFK-1189)
scattering by nuclei, corrections due to finite volume of scatterer for differential cross sections from elastic and inelastic, (T), 25:5504
scattering by nuclei, cross sections for inelastic, (T), 21:19296 (UCRL-50001-66-1, pp 1-40)
scattering by nuclei, cross-section standards and related problems for measurement of elastic and inelastic, 25:53487 (CONF-701002-, pp 410-14)

scattering by nuclei, double-scattering corrections to angular distributions for, (T), 21:38382
scattering by nuclei, Monte Carlo computer program for finite-geometry and polarized mutliple-scattering corrections to polarization data from, 22:7625
scattering by nuclei, multi-angle time-of-flight system for, 21:26175
scattering by nuclei, resonance interference in, (T), 22:50657 (ANL-7467)
scattering by organic scintillators, absolute normalization of cross sections for, 24:47563
scattering by oxygen-16 and -18 at 14 MeV, angular distributions and differential cross sections for elastic and inelastic, (E), 24:1749
scattering by oxygen-16 at 1.833 to 3.4413 MeV, differential cross sections for, (E), 25:7847 (ORNL-4513)
scattering by oxygen-16 at 1312 keV, n-p singlet effective range from elastic, (E), 23:1796
scattering by oxygen-16 at 14 and 19 MeV, total cross section for, (E), 24:38112
scattering by oxygen-16 at 14.1 MeV, differential and total cross sections for elastic, (E), 21:35433
scattering by oxygen-16 at 2.2 to 4.2 MeV, differential cross sections for, (E), 21:46676
scattering by oxygen-16 at 6.7 to 11 MeV, γ production cross sections for inelastic, (E), 24:35826
scattering by oxygen-16 at narrow levels in oxygen-17, differential cross sections for, (E), 25:12404
scattering by oxygen-16 up to 8.2 MeV, γ spectra, differential cross sections, and resonance spin assignments for inelastic, (E), 25:45944
scattering by oxygen-16, resonances in elastic, (T), 22:37281(R) (NYO-72-191)
scattering by oxygen-17 and 3.2 and 3.4 MeV, differential cross sections for, (E), 23:25813 (ORNL-TM-2543)
scattering by palladium at 0.3 to 1.5 MeV, angular distributions for elastic and inelastic, (E), 22:20578 (WASH-1079)
scattering by phosphorus-31 and sulfur-32 at 14 MeV, differential cross sections for inelastic, (E), 25:3612
scattering by phosphorus-31 and sulfur-32 at 14.2 MeV, angular distributions for inelastic, (E), 24:15824
scattering by phosphorus-31 and yttrium-89 at 7 MeV, analysis for spin—spin interactions in elastic, (T), 23:40131
scattering by phosphorus-31 at 14 MeV, double-scattering corrections to angular distributions for, (T), 21:38382
scattering by platinum, rhenium, and tantalum at 0.3 to 1.5 MeV, angular distributions for elastic and inelastic, (E), 22:27109
scattering by platinum, rhenium, and tantalum at 0.3 to 1.5 MeV, differential cross sections for elastic and inelastic, (E/T), 22:5810 (ANL-7363)
scattering by platinum, rhenium, and tantalum, angular distributions for elastic and inelastic, (E), 22:20578 (WASH-1079)
scattering by plutonium-239 at 0.19 to 0.38 MeV, angular distributions and cross sections for elastic, (E), 24:1840
scattering by plutonium-239 at 0.2 to 5.5 MeV, angular distributions in, (E/T), 25:15134
scattering by plutonium-239 at 0.2, 0.3, and 0.4 MeV, angular distributions for, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by plutonium-239 at 0.3 to 1.5 MeV, differential cross sections for elastic, (E), 21:25518 (WASH-1071)
scattering by plutonium-239 at 1.5 to 5.5 MeV, angular distributions and differential cross sections for elastic and inelastic, (E), 24:22183
scattering by plutonium-239 at 14 MeV, cross section for inelastic, (E), 24:49853 (CEA-R-3936)
scattering by plutonium-239, uranium-235, and uranium-238 at 1.0 to 14.8 MeV, gamma emission in, (E), 21:4277 (ORO-2791-19, pp 32-74)
scattering by plutonium-239, uranium-235, and uranium-238 at 1 MeV, γ spectra from inelastic, (E), 23:5813(R) (TID-24763)
scattering by plutonium-240 at 0.1 to 1.5 MeV, cross section for elastic, (E), 25:48069 (BNL-50276)
scattering by polyethylene at 2.6 MeV, depolarization in, (E), 21:21433
scattering by polyethylene shielding, angular and energy distribution of, (E/T), 23:46536
scattering by potassium-39 and -41 at 1.82 to 3.96 MeV, cross sections for inelastic, (E), 25:17814
scattering by praseodymium-141 at 1.2 to 2.2 MeV, γ spectra from inelastic, (E), 25:5751
scattering by radiogenic and natural lead at 15.5 MeV, γ spectra and cross-section limits for inelastic, (E), 25:46091
scattering by rhodium-103 at 0.18 to 14.8 MeV, activation cross sections for inelastic, (E), 22:24851 (AECL-3043)
scattering by rhodium-103 at 14.2 MeV, cross sections for isomer excitation by inelastic, (E), 21:33964 (NP-16748)
scattering by rhodium-103 at 180 keV to 4.6 MeV, isomeric cross section for inelastic, 23:52151
scattering by rhodium-103 with isomeric activation, cross section for inelastic, (E), 23:5867 (KURRI-TR-42)
scattering by samarium-154 at 1.5 MeV, γ spectra from inelastic, 25:56752(R) (SUNI-14)
scattering by scandium-45 at 0.2 to 1.4 MeV, angular distributions for elastic, (E), 25:45967
scattering by scandium-45 at 0.2 to 1.4 MeV, excitation functions for inelastic, (E), 25:45967
scattering by scandium-45 at 0.45 to 1.8 MeV, excitation functions for inelastic, (E), 24:5408
scattering by silicon at 4, 6, 6.7, and 7.5 MeV, cross sections for, (E), 22:20578 (WASH-1079)
scattering by silicon at 4.0 to 5.8 MeV, differential cross sections for elastic and inelastic, (E), 22:1621
scattering by silicon at 4.0 to 7.5 MeV, angular distributions for elastic and inelastic, (E), 23:23657
scattering by silicon at 4.19 to 8.56 MeV, differential cross sections for elastic and inelastic, (E), 24:38141 (ORNL-4517)
scattering by silicon at 6.7 to 13.4 MeV, fluctuation analysis of elastic, 23:44881
scattering by silicon at 6.7 to 13.4 MeV, fluctuation analysis of cross sections for elastic, (E/T), 23:15425
scattering by silicon at 9 MeV, γ spectra for inelastic, (E), 23:49398 (WASH-1127)
scattering by silicon-28 at 14 MeV, differential cross sections for elastic and inelastic, (E), 21:35437(R) (EANDC(E)-76(U))
scattering by silicon-28 at 14.7 MeV, differential cross sections for elastic and inelastic, (E), 23:49365
scattering by silicon-28 at 14.8 MeV, differential cross sections for elastic and inelastic, (E), 23:21301 (ZFK-130, pp 152-4)
scattering by silicon-29 at 0.57 to 2.28 MeV, energy level excitation by, (E), 22:46743
scattering by sodium at 5.0 MeV, differential and integrated cross sections and spectra from elastic and inelastic, (E), 25:36685 (AWRE-O-3/71)
scattering by sodium iodide at 10 to 150 keV, cross sections and pulse-height spectra for inelastic, (E), 22:11948(R) (NP-17216)
scattering by sodium-23 at 0.80 to 1.75 and 4.0 MeV, gamma angular distributions and spectra from, (E/T), 21:42614(R) (ORO-2791-26)
scattering by sodium-23 at 1.5 to 6.4 MeV, cross sections for elastic and inelastic, (E), 23:15412
scattering by sodium-23 at 1.5 to 6.5 MeV, cross sections for elastic and inelastic, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by sodium-23 at 4 and 5 MeV, γ production cross sections for inelastic, (E), 23:28304 (WASH-1124)
scattering by sodium-23 at 5.4 to 8.5 MeV, cross sections for elastic and inelastic, (E), 24:43185 (ORNL-4518)
scattering by sodium-23 below 2 MeV, optical-model calculation of angular distributions for inelastic, (T), 25:3635
scattering by strontium titanate crystals, excitation of soft optical phonon in inelastic, (E), 23:25765
scattering by strontium-87 at 2 to 15 MeV, activation cross sections for inelastic, (E), 21:40432 (WASH-1074)
scattering by strontium-87 at 2.2 to 3.5 and 13.7 to 14.8 MeV, activation cross sections for inelastic, (E), 22:24842
scattering by sulfur and zinc at 4.5 to 8.0 MeV, differential cross sections for elastic and inelastic, (E), 22:27067
scattering by sulfur at 4 to 8.5 MeV, cross sections for elastic and inelastic, (E), 24:38142 (ORNL-4539)
scattering by sulfur at 5.4 to 8.5 MeV, cross-section calculations for elastic and inelastic, (T), 25:17830
scattering by superfluid helium in impulse approximation, (T), 25:43278
scattering by tantalum-181 at 0.24 to 1.8 MeV, γ spectra and excitation functions for, (E), 24:35881
scattering by tantalum-181 at 2.5 to 8 MeV, analysis of angular distributions for deformation effects in elastic, (E/T), 24:43434
scattering by tantalum-181 at 2.5 to 8.1 MeV, differential cross sections and optical model parameters for, (E), 24:43334
scattering by tantalum-181, tin-120, and zirconium-90 at 7 MeV, S-matrix analysis of differential cross sections for elastic, (T), 25:56789
scattering by terbium-159 at 0.4 to 2.2 MeV, γ spectra from, (E), 23:47029
scattering by thallium-203 and -205 at 0.6 to 1.6 MeV, γ spectra from inelastic, (E), 25:5798
scattering by thorium-232 and uranium-238 at 15 MeV, optical-model analysis including deformations of differential cross sections for elastic, (T), 25:53754
scattering by thorium-232 at 1.0 to 2.2 MeV, excitation functions for inelastic, 23:23680
scattering by thorium-232 at 750 to 1535 keV, γ spectra for inelastic, (E), 23:39941(R) (NP-17890)
scattering by thorium-232, rotational-optical model analysis of, (T), 21:4304
scattering by tin at 0.3 to 1.5 MeV, differential cross section for elastic, (E), 22:18194
scattering by tin-117 at 13.36 to 15.36 MeV, excitation function for inelastic, (E), 25:53743(R) (INR-1318)
scattering by titanium at 0.3 and 0.5 MeV, angular distributions for elastic, (E), 23:10956(T) (BNL-tr-227)
scattering by titanium at 150 to 1200 keV, intermediate structure in cross section for elastic, (E), 25:17839
scattering by tritium at 0.75 to 10.58 MeV, resonating-group calculations of differential cross sections for elastic, (T), 25:43797
scattering by tritium at 1 to 14 MeV, effects of approximate wave functions on phase-shift analysis of, (T), 25:43971
scattering by tritium at 14 and 18 MeV, cross section for elastic, (E), 23:25804
scattering by tritium at 22.1 MeV, polarization in elastic, (E), 25:5516 (LA-4465, pp 15.1-2)
scattering by tungsten and uranium-238 at 1 MeV, x-ray and low-energy γ spectra from, (E), 24:40550 (WASH-1136)
scattering by tungsten at 1 MeV, γ production cross sections for inelastic, (E), 22:20578 (WASH-1079)
scattering by tungsten at 8 MeV, γ spectra for inelastic, (E), 23:49398 (WASH-1127)
scattering by tungsten-182, -184, and -186 at 0.3 to 1.5 MeV, differential cross sections for, (E), 21:46753
scattering by tungsten-182, tungsten-184, and tungsten-186 at 0.3 to 1.5 MeV, differential cross sections for elastic and inelastic, (E), 21:27561 (ANL-7288)
scattering by tungsten-182, tungsten-184, and tungsten-186 at 0.3 to 1.5 MeV, differential cross sections for elastic and inelastic, (E), 21:25518 (WASH-1071)
scattering by tungsten-182, tungsten-184, and tungsten-186 at 1 MeV, γ production cross sections for inelastic, (E), 23:28304 (WASH-1124)
scattering by tungsten-186 at 0.3 to 1.5 MeV, excitation cross section for inelastic, (E), 22:18194
scattering by uranium at 0.575 to 8.4 MeV, optical-model analysis of angular distributions from elastic, (E/T), 25:25771
scattering by uranium at 0.83 MeV, polarization in small-angle, (E), 21:21548
scattering by uranium at 4 MeV near 180° of polarized, differential cross sections from elastic, (E), 25:12509(T) (ANL-Trans-855)
scattering by uranium-235 and -238 at 14 MeV, differential cross sections and energy spectra from inelastic, (E), 25:41224 (CEA-R-4132)
scattering by uranium-235 at 0.1 to 1.8 MeV, cross sections and spectra for inelastic, (E), 22:18286
scattering by uranium-238 at 0.05 to 15 MeV, cross sections for inelastic, (E), 25:15135
scattering by uranium-238 at 0.08 to 6 MeV, differential cross sections for elastic and inelastic, (T), 21:25517 (RFR-191)
scattering by uranium-238 at 0.83 MeV, differential cross sections and polarizations for, (E/T), 21:23534(R) (ANL-7246)
scattering by uranium-238 at 1.5 to 5.5 MeV, angular distributions for elastic and inelastic, (E), 25:43898
scattering by uranium-238 at 14 MeV, cross sections for elastic and inelastic, (E), 22:53167 (CEA-R-3503)
scattering by uranium-238 at 14.7 MeV, analysis of small-angle elastic, (E/T), 23:21343
scattering by uranium-238 at 2.5 to 14 MeV, calculations using collective model with nonspherical optical-model potential and spherical spin—orbit coupling, (T), 23:5890
scattering by uranium-238 at 850 to 1487 keV, γ spectra for inelastic, (E), 23:39941(R) (NP-17890)
scattering by uranium-238 below 1.2 MeV, cross sections for inelastic, (E), 25:15110
scattering by uranium-238 up to 10 MeV, optical-model analysis of, (E/T), 25:43884 (ANL-7710, pp 1-52)
scattering by uranium-238, adiabatic coupled-channel calculations of cross sections for, (T), 22:37340(R) (EANDC(E)-89(U))
scattering by uranium-238, adiabatic coupled-channel calculations for, (T), 22:27209
scattering by uranium-238, anisotropy of differential cross section for elastic, (E), 23:5761
scattering by uranium-238, calculations using collective model with deformed optical potential for elastic and inelastic, (T), 23:31004
scattering by uranium-238, cross sections for elastic and inelastic direct, (T), 24:28766(T) (BNL-tr-318)
scattering by uranium-238, elastic and inelastic, (T), 22:18204 (BMwF-FBK-67-90)
scattering by vanadium at 0.3 to 1.5 MeV, angular distributions for elastic and inelastic, (E), 24:8857 (ANL-7564)
scattering by vanadium at 0.3 to 1.5 MeV, cross sections for elastic and inelastic, (E), 24:24544
scattering by vanadium at 4.2 to 8.6 MeV, cross sections for elastic and inelastic, (E), 25:3595 (ORNL-4551)
scattering by vanadium, differential cross sections for elastic and inelastic, (E), 22:20578 (WASH-1079)
scattering by vanadium-51 and yttrium-89 at 0.3 to 4 MeV, gamma spectra and excitation functions at 100° for inelastic, (E), 25:14919 (AWRE-O-78/70)
scattering by vanadium-51 at 0.4 to 1.0 MeV, γ angular distributions and yields for inelastic, (E), 22:26941
scattering by vanadium-51 at 0.8 to 2.1 MeV, gamma angular distributions and spectra for inelastic, (E), 21:42614(R) (ORO-2791-26)
scattering by vanadium-51 at 1.0 to 3.8 MeV, angular distributions and excitation functions for inelastic, (E), 22:48495
scattering by vanadium-51 at 1.5 to 8.1 MeV, differential cross sections and optical-model parameters for elastic and inelastic, (E/T), 24:38189
scattering by vanadium-51 at 2.8 MeV, γ spectra from inelastic, (E), 24:40577 (SUNI-10)
scattering by various nuclei at 1.45 to 8.05 MeV, experimental data and optical model calculation for cross sections of elastic, (E/T), 23:52119 (AE-366)
scattering by water and polycrystalline and single-crystal ice up to 2 MeV, total cross sections for, (E), 23:28212 (IKF-22)
scattering by yttrium at 7.6 MeV, differential cross section for elastic, (E), 21:46643(R) (ORNL-4134)
scattering by yttrium hydrides at 0.178 and 0.193 MeV, differential cross sections for, (E), 21:23396(R) (GA-6583)
scattering by yttrium-89 at 1.6 to 3.8 MeV, angular distributions for elastic and inelastic, (E), 23:37149
scattering by yttrium-89 at 15 MeV, cross section for, (E), 23:11037
scattering by yttrium-89 at 2.69 to 18.07 MeV, statistical-model analysis of excitation function for inelastic, (E/T), 25:59768
scattering by yttrium-89 at 2.7 to 18.1 MeV, cross sections for inelastic, (E), 24:30721 (INR-1147)
scattering by yttrium-89 at 3.0 to 4.5 MeV, gamma angular distributions and spectra from, (E), 21:35476
scattering by yttrium-89 at 3.0 to 4.5 MeV, inelastic, (E), 21:4237 (ORO-2791-19, Paper 1)
scattering by yttrium-89 at 3.5 to 5 MeV, γ spectra and angular distributions for, (E), 25:23005
scattering by yttrium-89 at 4 MeV, γ production cross sections for inelastic, (E), 23:28304 (WASH-1124)
scattering by yttrium-89 at 4.19 to 8.56 MeV, differential cross sections for elastic and inelastic, (E), 25:9999 (ORNL-4552)
scattering by yttrium-89 in reactor spectrum, activation cross sections for inelastic, (E), 22:50586

scattering by ytttrium-89 at 1.7 to 4.5 MeV, γ angular distributions and production cross sections for inelastic, (E), 23:5813(R) (TID-24763)
scattering by Z = 11 to 80 nuclei at 0.3 MeV, angular distributions for elastic, (E), 23:10958(T) (BNL-tr-232)
scattering by Z = 11 to 82 nuclei, γ energies from inelastic, (E), 25:20356
scattering by Z = 13 to 82 nuclei at 0.65 MeV, angular distributions for elastic, (E), 23:10959(T) (BNL-tr-242)
scattering by Z = 13 to 83 nuclei at 1.5 to 8.0 MeV, optical-model analysis of angular distributions for elastic, (E/T), 23:5853
scattering by Z = 13 to 83 nuclei at 1.5 to 8.1 MeV, optical-model analysis and time-of-flight measurements for, (E/T), 23:19206
scattering by Z = 22 to 40 nuclei at 3.2 MeV using polarized beam, optical-model analysis of elastic, (T), 25:28248
scattering by Z = 22 to 83 nuclei at 4.4, 5.0, and 5.5 MeV, polarization in, (E), 21:13840
scattering by Z = 4 to 82 nuclei at 14 MeV, strong absorption model analysis of elastic and inelastic, (T), 23:1949
scattering by Z = 4 to 82 nuclei at 14.8 MeV, neutron-time-of-flight spectra from inelastic, (E), 24:13303
scattering by Z = 4 to 82 nuclei at 15 MeV, differential cross sections for inelastic, (E), 21:17338 (AD-647225)
scattering by zinc at 2.5 to 8.1 MeV, time-of-flight measurements of angular distributions for elastic, (E), 23:7243 (AE-337)
scattering by zinc-64, zinc-66, and zinc-68 at 1.2 to 2.2 MeV, cross sections for inelastic, 22:26932(R) (NP-17434)
scattering by zirconium-90 at 2 to 6 MeV, γ-ray production cross sections for inelastic, (E), 24:6916
scattering by zirconium-90 at 2.1 and 5.17 MeV, differential cross sections for elastic, (E), 25:36740 (WAPD-T-2411)
scattering by zirconium-92 and -94 at 0.9 to 2.7 MeV, γ-ray excitation functions for inelastic, (E), 25:7877
scattering by, lithium-6, lithium-7, niobium-93, and silicon-28 at 3 to 8 MeV, differential cross sections for elastic and inelastic, (E), 22:18287
scattering cross section for uranium-238, testing by pulse decay experiments, (E), 22:24787 (GA-8536)
scattering cross section for zirconium-90 at 1.8 to 3.6 MeV, calculations using energy-dependent potentials, (T), 22:32435
scattering cross sections for heavy even-even nuclei, computer program for calculation using deformed-nucleus optical model, (T), 22:1563 (NAA-SR-Memo-12532)
scattering cross sections for oxygen-16 at 3 to 4 MeV, differential, (E), 21:25518 (WASH-1071)
scattering cross sections for, calculation of inelastic, (T), 22:18081
scattering cross sections for, calculation using optical model, (T), 21:4365
scattering cross sections for, on-line computer system for evaluation of inelastic, 23:5763
scattering elastically by carbon-12, analysis using extended R-matrix theory, (T), 25:5581
scattering elastically by deuterium at 14, 50, and 100 MeV, analysis using separable spin-dependent two-body potential, (T), 24:10910
scattering elastically by deuterium at 60, 95, and 146 MeV, analysis considering exchange collision possibility, (T), 24:33109
scattering elastically by deuterons below 15 MeV, analysis using soft-core potential, (T), 24:30691
scattering experiments at 14 MeV, time-of-flight system for, 22:44597
scattering experiments at 4.5 to 11 MeV, research summary on ORNL, (E), 23:7281(R) (ORNL-4280)
scattering experiments in cylindrical geometry, Monte Carlo calculations of multiple scattering corrections for, (T), 23:19139
scattering experiments using, design of shadow bar for, 22:322
scattering from nuclei in mass region A = 95—130, 21:30091(R) (ANL-7210)
scattering from plutonium-239, 21:30091(R) (ANL-7210)
scattering in air at 12.2 to 15 MeV, effects of emission angle on secondary gamma-ray dose from inelastic, (T), 24:38069
scattering in cesium iodide, potassium chloride, and rubidium bromide at 100 to 650 keV, optical model analysis of average total cross section for, (E/T), 25:43908
scattering in free-air environment hot cell, 24:5934(R) (UCRL-50007-69-2)
scattering in lithium-6-bearing glass phosphor, multiple, (T), 21:3291
scattering in small depleted uranium samples, spectrum measurements for checking scattering cross sections, (E), 24:33099
scattering in soils, moisture determination from, 22:6666
scattering in two-bend rectangular concrete ducts, LCDUCT calculation of, 23:48954 (GESP-295)
scattering in uranium-238 exponential piles, measurement of inelastic, 22:33016
scattering inelastically by A = 12 through 209 nuclei at 14 MeV, optical-model analysis using Woods—Saxon potential, (T), 24:8845
scattering measurements in aluminum, 22:5916 (AEEW-R-551)
scattering of polarized and unpolarized, from polarized cobalt-59, design of target for, 24:26558
scattering of polarized, by polarized cobalt-59 targets for spin—spin interaction studies, 24:13250
scattering of polarized, structural studies on magnetic materials by, 24:51815 (CONF-690916-(Vol.1), pp 98-103)
scattering of, calculation of finite-geometry and polarized multiple-scattering corrections to, 21:35379 (AE-284)
scattering of, dissertation summary of research on, (E), 22:44588
scattering of, measurement of air—ground interface effects on, (E), 24:8514 (AD-694434)
scattering of, model for inelastic, 21:31694
scattering of, model for inelastic, (T), 22:35211
scattering of, time-of-flight system for measurements of multi-angle, 21:30091(R) (ANL-7210)
scattering on aluminum, boron, carbon, fluorine, and oxygen, gamma cross sections for, (E), 22:48463
scattering on carbon-12 at 14 MeV, time-of-flight arrangement for measurement of differential cross sections for backward, 25:2468
scattering on iron, photomultiplier gating circuits for measurement of inelastic, 24:11814
scattering on iron-56 at 1.0 to 7.6 MeV, γ production cross sections for, (E), 22:41979 (ORNL-4249)
scattering studies on, 21:30091(R) (ANL-7210)
shielding against, DAGMAR calculations for disk-shaped sources for, 21:19477(T) (ORNL-tr-1512)
shielding against, from underground nuclear explosions, Monte Carlo study of optimum moderator-to-absorber ratio, 25:38537
shielding against, preparation of graphite-base, 24:4833(P)
shielding by concrete ducts, energy spectra in, 21:29323 (NP-16792)
shielding calculations for Aircraft Nuclear Propulsion reactor, use of computer programs for, 22:50782 (APEX-918)
shielding calculations for cyclotrons, 25:41149 (JUL-751-PC)
shielding calculations for Fort St. Vrain Power Reactor, computer programs for, 22:14136 (GA-8065)
shielding calculations for Otto Hahn Reactor, analysis of, (E/T), 22:46991
shielding calculations for silicon dioxide at 50 to 400 MeV, 23:44756
shielding design for reactor, 21:17477(T) (ORNL-tr-1509)
shielding for 6.6-GeV, properties of concrete, (E), 24:45714
shielding for, calculation of optimum configuration for 2.2 MW(t) nuclear auxiliary power system of, 24:2043 (N-69-35817)
shielding for, testing of various materials for, 22:7925
shielding in plutonium chemical plant, 23:50552 (RFP-1254)
shielding measurements for NERVA reactor, analysis of, 22:32942
shielding methods for 15-MeV, 23:30610
shielding of, attenuation characteristics of materials for, 25:53496
shielding synchrotron tunnels against, computer programs for, 23:10694(T) (ORNL-tr-2045)
shielding, Monte Carlo analysis of properties of compound cubical and spherical, 21:9639 (ORNL-4009)
slowdown in a finite hydrogenous medium, time dependent solution of pulsed, (T), 22:14296 (RPI-328-100, pp 140-87)
slowdown in water at 5.5 MeV, effects of decay-constant variations and trapping on cross-sections for, (E/T), 25:25606 (INIS-mf-30)
slowdown time in water, 14.1-MeV, (E/T), 21:40059
slowing down in air at 14 MeV, measurement of gamma spectra from, 24:30671
slowing down in beryllium and graphite, (E/T), 22:26765(T) (AERE-Trans-1084)
slowing down in graphite, (E), 25:14870
slowing down in heavy materials, (T), 22:22527 (RPI-328-112, pp 62-103)
slowing down in heavy media, time moments of, (T), 22:39551 (RPI-328-123, pp 39-52)
slowing down in hydrogen and nonhydrogenous moderators, space and time dependent, (E/T), 24:29086
slowing down in infinite homogeneous media, formalism using transport theory, 21:29826 (EUR-3457.e)
slowing down in infinite homogeneous medium, numerical method for, (T), 24:24490
slowing down in infinite, homogeneous, and weakly absorbing mixtures of elements, approximate solution for asymptotic, (T), 24:29082
slowing down in light water, numerical calculation of, (T), 24:24490
slowing down in paraffin from americium-241—beryllium source, anomalous, (E), 23:17064
slowing down in pulsed media, few-pole expansion formalism for, (T), 22:29835
slowing down in thin hydrogenous moderators, measurements and Monte Carlo calculations for, (E/T), 23:49308
slowing down in water from tritium (p,n) reaction source, (E), 22:1581
slowing down in water, spatial distribution for, (E/T), 25:34437
slowing down of, continuous model for inelastic, (T), 22:35211
slowing down time in thin slabs of hydrogenous material, (E), 22:37340(R) (EANDC(E)-89(U))
slowing down times in ice, paraffin, santowax, and water, (E), 24:13265
slowing down with elastic and inelastic scattering, (T), 21:17276
slowing-down density of cylindrical reactor, Fermi age-diffusion heterogeneous kernel for, (T), 23:7416 (UJV-2072-R)
slowing-down in graphite, analysis of, (E/T), 25:33950
slowing-down spectrum and leakage in moderators, calculations using DTF-IV transport code, 23:30910 (LA-DC-9756)
slowing-down times in graphite, measurement using resonance filter method, (E), 22:29890
slowing-down times in ice, paraffin, santowax-R, and water, (E), 23:19116 (JAERI-1168)
slowing-down times in thin slabs of hydrogenous materials, (E), 23:10908 (CEA-R-3489)
sorption in tissues during therapy, equation for effects of depth on, 24:34342
spectra across material interfaces in aluminum and iron assemblies, (E), 25:41407
spectra analysis in ZPR-6, ELMOE code for, 21:12247
spectra and slowing-down time in beryllium, (E), 21:15473
spectra behind iron plates as function of plate thickness and source characteristics, (T), 21:21034
spectra calculations for Fast Test Reactor tube sheet, description of, 23:4300(R) (BNWL-880)
spectra calculations for higher energy, use of associated Laguerre polynomials for, 22:30373
spectra calculations for Subcritical Time-of-Flight Spectrum Facility, 22:7894(R) (GA-8191)
spectra determination from experimental activations of threshold detectors, (E/T), 22:26779
spectra determination from star production in nuclear emulsions, 24:16837 (UCRL-19389)
spectra determination in 0.01 to 1.5 MeV range, use of low pressure cloud chamber for, 24:9145 (JUL-599-RX)
spectra determination of, semi-analytical method for, (T), 23:42841
spectra distribution in pool type reactors, use of proton-recoil detectors for measurement of, 25:26037
spectra emerging from spherical shells of graphite, polyethylene, sodium, and natural uranium, measurements using time-of-flight method, (T), 22:37276 (AERE-R-5364)
spectra for Army Materials Research Reactor 5 to 9.4 MeV, effects of core configuration on, 23:4388
spectra for fast reactors, improvements in analytical methods for calculation of, (T), 24:16285 (RPI-328-165)
spectra for, model for correlation of integral experiments and, 22:50833
spectra for, performance of threshold detectors for measurement of, (T), 24:41063 (TRG-Report-1911, pp 411-29)
spectra from (d,n) and (p,n) reactions, measurement using time-of-flight method, 21:38160 (ORNL-P-3206)
spectra from HENRE targets, energy and angular, 24:33096
spectra from lithium-7 (p,n) reactions at 8.3 to 9.1 MeV, (E), 22:37347
spectra from moderated californium-252 source, computer code for calculation of, 25:16143(R) (UCRL-50007-70-2)
spectra from nitrogen and oxygen, time-of-flight measurements using sphere transmission technique, (E), 23:28304 (WASH-1124)
spectra from plutonium-238 fluoride, (E), 22:32461
spectra from plutonium-239—beryllium sources of different sizes, variations of, (E), 23:3900
spectra from proton reactions (p,xn) with uranium-238 at 750 MeV, unfolding capability for, (E), 25:55038 (LA-DC-12314)
spectra from spheres of Z = 4 to 92 materials, (E), 24:33094
spectra in aluminum, measurement of position dependent, 23:37138(R) (RPI-328-160)
spectra in aluminum, time-of-flight measurement of, (E), 24:6811
spectra in assemblies of sodium and iron—nickel, sodium, and stainless steel, effects of composition and thickness on, 23:23949 (AI-AEC-12744, pp 15-26)
spectra in beam port of Triga Mark-II, use of nuclear emulsion for measurement of, 22:30332
spectra in bulk aluminum assemblies, 25:31173(R) (RPI-328-200)
spectra in bulk media, reentrant hole perturbation effects on, (E/T), 24:33548
spectra in bulk media, research progress on, (E/T), 23:13183 (RPI-328-142, pp 68-116)
spectra in central thimble of TRIGA Mark 2 reactor, 25:10277
spectra in core and blanket of Fermi fast breeder reactor, 21:21687
spectra in depleted uranium assembly, analysis of, 25:31173(R) (RPI-328-200)
spectra in depleted uranium, (E), 21:42524 (RPI-328-97, pp 35-95)
spectra in depleted uranium, time-of-flight measurements of position-dependent, (E), 22:39548 (RPI-328-123, pp 18-25)
spectra in ECEL Core 17, 23:23949 (AI-AEC-12744, pp 15-26)
spectra in ECEL Core 17 and Core 17P, comparison of calculated and measured, 23:47231 (AI-AEC-12855)
spectra in fast central test region of critical assemblies, measurement of differential, (E/T), 24:33430
spectra in fast critical assemblies, contributions of (n,γn') and fission reactions to low-energy, (T), 23:5781
spectra in Fast Neutron Cavity of PCTR, measurement of GCFBR and FTR lattices, 24:31041(R) (BNWL-1381-1)
spectra in Fast Neutron Cavity of Physical Constants Testing Reactor, 24:7168(R) (BNWL-1240)
spectra in fast reactor core mockups in STSF, (E/T), 23:43147(R) (GA-9259)
spectra in fast reactors, analytic method for calculating, 22:22527 (RPI-328-112, pp 62-103)
spectra in fast reactors, calculations of energy and spatial distribution of, 21:40564(R) (NAA-SR-12395)
spectra in fast reactors, use of threshold detector data for reconstruction of, (E/T), 24:50210
spectra in fast sodium cooled reactors, review of determination techniques and data on, (E/T), 24:47830
spectra in fast subcritical assemblies, 24:50185(R) (GA-10280)

spectra in fast subcritical assemblies, (E), 23:52404(R) (GA-9669)
spectra in fast subcritical assemblies, (E/T), 25:48306(R) (GULF-RT-10655)
spectra in fast uranium- and plutonium-fueled FRO assembly, measurement of, 24:7232
spectra in FRG reactor, calculation of, 21:29855
spectra in FTR shielding, comparison of transmission, (E/T), 24:5542 (BNWL-1197)
spectra in graphite and water at 2 and 12 MeV, 21:14027
spectra in graphite and water, (E), 22:26787
spectra in graphite and water, (E), 24:10894 (IFA-FR-77)
spectra in graphite and water, calculation using NIOBE code, 21:14027
spectra in graphite, (T), 23:30603 (ORNL-RSIC-25)
spectra in graphite, iron, and lead, (T), 22:29841
spectra in graphite, iron, and water slabs calculations of, (T), 22:44589
spectra in Hanford Production Reactors, 21:26867(R) (HW-76635)
spectra in heavy water reactors, use of helium-3 solid state spectrometer for measurement of, 25:26038
spectra in heterogeneous assemblies, space-time development of, (T), 21:42524 (RPI-328-97, pp 35-95)
spectra in homogeneous infinite cylindrical and spherical shields of paraffin, (E/T), 21:38200
spectra in iron and depleted uranium, position-dependent, (E/T), 22:22526 (RPI-328-112, pp 16-59)
spectra in iron and depleted uranium, position-dependent, (E), 22:20578 (WASH-1079)
spectra in iron and lead, calculation and measurement of, 21:21035
spectra in iron assemblies of, analysis of cross section sets for, (E/T), 25:31658
spectra in iron assemblies, (E), 21:40346 (RPI-328-87, pp 22-59)
spectra in iron at 1 keV to 10 MeV, (E), 24:33090
spectra in iron at 10 keV to 10 MeV, (E), 24:33089
spectra in iron, (E), 24:6810
spectra in iron, analysis of space-dependent, 22:39875 (BNL-50082, pp 1-18)
spectra in iron, lead, and water, (E), 21:21036
spectra in iron, measurement using time-of-flight method, 21:40432 (WASH-1074)
spectra in iron, measurement using time-of-flight method, (E), 22:13906 (RPI-328-100, pp 57-112)
spectra in iron, position-dependent, (E), 22:39548 (RPI-328-123, pp 18-25)
spectra in iron, space-dependent, (E), 21:42524 (RPI-328-97, pp 35-95)
spectra in iron, time-of-flight measurements of, (E), 22:5738
spectra in iron—water slab shields, (T), 22:44589
spectra in irradiation cells of General Electric Test Reactor, effects of core changes on, 21:21779
spectra in IRT (Sofia) Reactor beam channel, 22:24821
spectra in large carbide and oxide fast reactor cores, evaluation of adjoint, (T), 22:14296 (RPI-328-100, pp 140-87)
spectra in liquid hydrogen, (E/T), 21:15466 (GA-7309)
spectra in liquid metal cooled reactor, distribution of, (E/T), 25:20803
spectra in liquid nitrogen, (E), 24:20298 (AD-696226)
spectra in liquid nitrogen, (E), 24:33095
spectra in liquid nitrogen, from 14-MeV source, (E), 22:26759 (GA-8485)
spectra in liquid nitrogen, measurement using threshold detectors, (E), 23:39907
spectra in liquid sodium and steel, effects of shield configuration on, 24:4039(R) (AI-AEC-12857)
spectra in nitrogen and oxygen, 24:33107
spectra in paraffin shields, comparison of discrete-ordinates and Monte Carlo calculations with measurements of, 24:8515 (AD-815658)
spectra in plutonium fueled fast assemblies, electronic systems for proton recoil counter measurements of, 24:47891 (ANL-7610, pp 369-464)
spectra in plutonium fueled fast critical assembly, 25:6105
spectra in pulsed aluminum assembly, (E/T), 25:6106
spectra in pulsed fast exponential piles, bounds on continuous, 24:33433
spectra in reactor shielding materials, (E), 24:36015
spectra in reactors, threshold detector measurements of, (T), 25:37109 (UJV-2423-RF)
spectra in reactors, use of threshold detectors for measurement of, (T), 24:16312
spectra in reentrant holes of reactor experimental facilities, (E/T), 24:11277
spectra in reflector of swimming pool reactor, effects of metal slabs on perturbations in, (E/T), 25:37057 (CEA-R-3799)
spectra in shielding layers, use of lithium-6-sandwiched surface barrier detectors for measuring, 22:38064 (CONF-670545, pp 185-90)
spectra in spheres of depleted and enriched uranium, measurements using pulsed source technique, (E), 22:29829 (GA-8551)
spectra in spherical critical assemblies, average cross-section ratios for, (E), 21:4276 (LA-DC-7851)
spectra in STSF-1A, effects of detector efficiency on time-of-flight, (E/T), 24:36064(R) (GA-10146)
spectra in STSF-1A, time-of-flight and proton recoil analysis of, (E/T), 24:36064(R) (GA-10146)
spectra in subcritical assemblies, data analysis for, 22:20410 (GA-8466)
spectra in subcritical assemblies, time-of-flight measurements of, (E/T), 25:60156(R) (GULF-RT-A-10800)
spectra in thermal reactors, determination using semiconductors, 21:5679 (AERE-R-5183)
spectra in upper atmosphere, in 2 to 60 MeV range, 25:25722(R) (ORNL-4592)
spectra in upper atmosphere, spectrometer system for studying, 23:7281(R) (ORNL-4280)
spectra in uranium metal, (E/T), 24:47818 (ANL-7610, pp 61-258)
spectra in uranium oxide (UO_2) core, (E), 25:44096 (ANL-7710, pp 53-262)
spectra in uranium-235 and -238 mixtures, Doppler effect on, 21:35678 (ANL-7320, pp 319-33)
spectra in uranium-235 fueled fast reactors, comparison of proton recoil counter and time-of-flight, (E), 24:47891 (ANL-7610, pp 369-464)
spectra in vicinity of major sodium resonance, 23:37138(R) (RPI-328-160)
spectra in water from 14.7-MeV sources, measurement using threshold detectors, (E), 21:17287
spectra in ZEBRA Reactor, use of proton recoil proportional counters for analysis of 3 keV to 1 MeV, 24:22445 (AEEW-R-651)
spectra in ZEBRA, techniques for measuring, 21:21792
spectra in ZPR III, use of nuclear emulsions for analysis of, 21:21790
spectra measurement in ZPR-6, 21:12247
spectra measurements for irradiation facility of Livermore Pool-Type Reactor, use of activation and fission foils for, 23:31540 (UCRL-50007-68-3, pp 21-5)
spectra measurements for IRT-2000 research reactor, description of, 23:4379
spectra measurements for, description of, 23:2069 (NP-17579, pp I.1-60)
spectra measurements in 2MW(t) UA-RR-1 reactor, use of activation detectors for, 22:42370
spectra measurements in bulk paraffin shields, comparison of Monte Carlo and discrete-ordinate calculations with, 23:12942 (AERE-R-5773(Vol.1), pp 241-60)
spectra measurements in depleted-uranium sphere, 21:38211
spectra measurements in dilute-core oxide-fueled STSF assemblies 3 and 4, 23:21559(R) (GA-9140)
spectra measurements in fast assemblies, proposed standard assembly for, 25:12816 (EACRP-L-74)
spectra measurements in high gamma fluxes using nuclear emulsions, 23:33398
spectra measurements in reactors, computer program for analyzing data from proton-recoil proportional detectors for, 22:25631 (AWRE-O-9/68)
spectra measurements in reactors, lithium-6-sandwiched semiconductor detectors for, 22:36055
spectra measurements in STSF critical assembly, analysis of, 22:47008(R) (GA-8715)
spectra measurements in Thermionic Critical Experiment, 23:37650
spectra measurements in VERA and VIPER, accuracy of time-of-flight method for, 22:35653
spectra measurements in VERA assembly 19A, 22:35653
spectra measurements in ZPR-3 assembly-51, analysis of, 22:33031
spectra measurements of liquid metal cooled fast reactor, activated foils dosimetry techniques for, 25:12773 (BNWL-1403)
spectra measurements of, calculations for activation detectors for, 25:57775
spectra measurements of, calibration of large proton recoil organic scintillation counters for, 21:6256
spectra measurements of, computer program, P/sub n/-approximation, and S/sub N/-method for, (E/T), 22:35707
spectra measurements of, data processing methods for activation detectors for, 25:42100
spectra measurements of, description of time-of-flight equipment for, 23:52030 (AEEW-M-896)
spectra measurements of, efficiency of lithium-6 glass scintillation detector for in-core, 25:18637 (AEEW-M-898)
spectra measurements of, performance of activation detectors for, 24:7641
spectra measurements of, performance of foil activation methods for in-core, 25:4357
spectra measurements of, performance of NE-213 liquid organic scintillation detector for, 25:15880 (ANL-7760(Pt.1), pp 67-73)
spectra measurements of, performance of nuclear emulsions and Bonner multisphere thermoluminescent spectrometers for, 24:4421 (CEX-65.60)
spectra measurements of, rapid method for reconstruction of, (T), 25:48009
spectra measurements of, set of seven activation detectors for, 24:27384 (IJS-570)
spectra measurements of, use of activation detectors for, 22:8339 (JUL-414-RX)
spectra measurements using fission foil—dielectric track detectors, 25:44654
spectra measurements with activation detectors, mathematical method for, 24:14298
spectra measurements with activation detectors, polynomial approximation for, 25:2442
spectra measurements with lithium-6 spectrometer, analysis of, 21:13947(R) (ANL-7286)
spectra measurements with proton recoil counters, effects of geometrical distortions on, 24:47891 (ANL-7610, pp 369-464)
spectra of 0.2- to 1-MeV, sealed helium-3 gas scintillation detector for measuring, 22:47329
spectra of 0.4 to 1.5 MeV, from TSR-II beam hole, (E), 24:46089 (ORNL-TM-3098)
spectra of accelerator-produced, spectrometer for measuring, 22:4456 (JUL-499-RX)
spectra of atmospheric, measurement in quiet-Sun period at 46°N geomagnetic latitude of, 23:46303
spectra of cosmic, near sea level, (E), 22:15386
spectra of fast reactor, model analysis for flux and importance, (T), 24:31042 (RPI-328-189)
spectra of FRO, measurement of Doppler effect and fission product cross sections in, 24:22456
spectra of MSCA and FR-0, analysis of activation Doppler effect in, (E/T), 23:4297 (AE-331)
spectra of, activation detector calculations for measurement of, 25:46629 (JUL-726-RX)
spectra of, collimation, geometrical efficiency, and spatial resolution in measurements of, (T), 22:13906 (RPI-328-100, pp 57-112)
spectra of, computer program for analyzing scintillation pulse-height, 22:19135 (ORNL-TM-2112)
spectra of, computer program for processing activation data for determining, 22:30834
spectra of, computer programs for calculating, 21:26866(R) (HW-75500)
spectra of, computer programs for calculation of, (E), 21:19152(R) (TID-23685)
spectra of, continuous slowing down models for, (T), 25:5955
spectra of, corrections to time-of-flight measurements for detector efficiency, 21:42524 (RPI-328-97, pp 35-95)
spectra of, development of detectors for measuring, 22:48424 (RPI-328-133, pp 35-55)
spectra of, development of reactor in-core techniques for measurement of, 24:20546
spectra of, effects of target material and thickness on, 25:49173 (CONF-710402-(Vol.2), pp II.7-15)
spectra of, efficiency of proton-recoil and boron-10-vaseline detectors for measuring, 23:13183 (RPI-328-142, pp 68-116)
spectra of, GAF computer program for calculating, 21:33854 (GA-7169)
spectra of, measurement using proton recoil track in nuclear emulsions, 22:16898
spectra of, measurement using proton-recoil proportional counters, 21:10638
spectra of, measurement using pulsed-source time-of-flight method, 21:1010 (GA-7427)
spectra of, measurement using pulsed-source time-of-flight method, (E), 21:1013
spectra of, measurement using sandwich foil activation, (E/T), 22:20403 (CONF-680307-14)
spectra of, measurement using scintillation detectors with stilbene crystals, 21:31777(R) (MLM-1388)
spectra of, measurement using sector-focused cyclotron with time-of-flight spectrometer, 21:44513 (CONF-660925, pp 589-98)
spectra of, measurement using threshold detectors, 21:3269
spectra of, measurement using time-of-flight method with boron-10-sodium iodide detector, 21:42524 (RPI-328-97, pp 35-95)
spectra of, measurement using time-of-flight method, (E/T), 22:13906 (RPI-328-100, pp 57-112)
spectra of, measurement using time-of-flight method with associated-particle technique, 22:9758 (CEA-R-3254)
spectra of, measurement using time-of-flight method, 22:9802(R) (NYO-1082-9)
spectra of, measurements with NE-213 spectrometer, (E), 21:7317
spectra of, methods development for calculating, 21:42524 (RPI-328-97, pp 35-95)
spectra of, methods development for calculating, (T), 22:13906 (RPI-328-100, pp 57-112)
spectra of, methods development for reduction of time-of-flight data, 22:39548 (RPI-328-123, pp 18-25)
spectra of, methods for measurement of standard, 24:33088
spectra of, photographic scanning technique for measurement of proton tracks in nuclear emulsions used for determining, 22:36082
spectra of, research program on, (E), 21:19152(R) (TID-23685)
spectra of, Rossi detector measurement of LET, 24:44331 (EUR-4452, pp 137-52)
spectra of, triton energy response function from neutron reactions (n,t) with lithium-6—semiconductor sandwich spectrometers for determining, 23:2629 (AERE-M-2009)
spectra of, use of silicon detectors for measuring, 21:10660
spectra of, use of threshold reaction foils for measuring, 23:2558 (KURRI-TR-27)
spectra transmission through iron slabs, spectrometer for measurement of, (E), 25:44205
spectra, effect of anisotropic scattering in center-of-mass system on, 25:38535
spectral analysis of, development of semiconductor detectors and fission chambers for, 21:6201 (RT/FI-(66)17)
spectral analysis of, group constant preparation for, 23:52104 (RPI-328-167)
spectral determination in DAPHNE, 21:30247 (AERE-R-5347)
spectral determination of reactor, equations for, 22:16309 (CEA-R-3351)
spectral measurements in aluminum assembly, (E), 24:1721(R) (RPI-328-162)
spectral measurements in homogeneous uranium-235—polyethylene assemblies, use of pulsed source time-of-flight technique for, 23:33112
spectroscopy of, use of threshold detectors for, 21:17823(T) (ORNL-tr-1520)
spectrum between 1 and 10 MeV of cosmic-ray-produced, (E), 21:16843
spectrum in critical assemblies, performance of helium-3 proportional counter for measurement of, (E/T), 25:34409
spectrum in homogeneous medium, calculation using direct operational method, (T), 24:26578
spectrum in light water system, calculation using direct operational method, (T), 24:26578
spectrum in plutonium oxide (PuO_2)—uranium oxide (UO_2) core, (E), 25:44096 (ANL-7710, pp 53-262)
spectrum measurements for fast reactors, time-of-flight methods for, (E/T), 25:36991(R) (GULF-RT-10523)
spectrum measurements from SNEAK and SUAK, use of proton-recoil, lithium-6-sandwiched, and time-of-flight spectrometers for, 22:4432
spectrum measurements of, multiple foil activation detector for, 24:25294 (KURRI-TR-61)

spectrum measurements of, use of nuclear emulsions for, 22:4435
spectrum of Democritos Reactor, 24:4101
spectrum of, energy, 21:30091(R) (ANL-7210)
spectrum stability for in-core thermionic space application reactor, analysis of, (T), 23:4397
streaming doses in two-legged concrete ducts, (E/T), 23:1507
streaming in annular ducts, shielding analysis for, (T), 22:42534
streaming in fast test reactor grid-plate shielding, effects of sodium coolant holes configuration on, (E), 25:60158 (ORNL-TM-3514)
streaming through concrete ducts, calculations using albedo concept, (E/T), 22:34731 (AD-665003)
thermalization for cross section determinations, 21:30284(R) (GA-7673)
thermalization in graphite by the reaction rate method, (E), 25:14874
thermalization in shielding cavity walls discrete S/sub n/ method for, (T), 24:24104 (UCRL-19345)
thermalization in silicate ore boreholes, effects of moisture on, 25:13109
thermalization of 14.7-MeV, tests of moderators for, 24:26572 (CEA-N-1117)
thermalization of, adaptation of dispersion law to fast subcritical assemblies for describing, 23:4327
time-of-flight measurements of, experimental facility of Cadarache pulsed Van de Graaff accelerator for, 23:49259
transmission by polarized cobalt-59 at 1.19 MeV, spin-spin interaction in, (E), 22:27024
transmission by polyethylene slabs, dose-rate angular distributions for, (T), 21:20999 (N-66-27941)
transmission experiments on carbon and nitrogen in spherical geometry, time-of-flight spectra for, (E), 23:17057
transmission in filters of pyrolytic graphite, characteristics of, 25:12352
transmission in reactor core and shielding materials, (E/T), 25:34333(R) (COO-2049-4)
transmission measurements for reactor core and shielding materials, 24:30375(R) (COO-2049-1)
transmission through iron at 4 to 200 MeV, measured and calculated linear, (E/T), 22:50518
transmission through paraffin and iron-bearing concrete at 14 MeV, spectral variations in, (E), 21:19160
transmission through rectangular slots in shielding, (E/T), 24:51771
transmission through slabs of lithium hydride and water, angular distributions for, (E), 21:23241
transmission through SNAP-2 lithium hydride shield, (E/T), 23:13553 (ORNL-TM-2423)
transport approximations for use above 0.8 MeV, numerical comparison of, (T), 22:29833 (WAPD-TM-690)
transport buildup and corrections for exponential atmosphere, 24:6594
transport calculations for 14-MeV source in 5000-m radius cylinder of air, overlap conditions for sequential discrete ordinates, 25:43419 (ORNL-TM-3269)
transport equation in plane geometry, solution by Fourier transform method of inhomogeneous multigroup, (T), 22:26761 (NIJS-R-520)
transport equation with anisotropic elastic scattering, solution for shielding calculations, (T), 22:50510
transport equations for, determination of scalar flux from isotropic source by Fourier transform of multigroup, 23:11341
transport equations for, using continuous energy formulation, (T), 23:3899
transport in air at 10 keV to 14.1 MeV, calculation of the energy and spatial distributions from, (T), 23:28215 (UCRL-50570)
transport in air from fission and 14-MeV point sources, (T), 21:1011 (ORNL-TM-1547)
transport in air, (T), 24:24101 (ORNL-4464)
transport in air, effects of nitrogen neutron cross sections on, (T), 22:7614 (LA-3810)
transport in atmosphere at 8,000 to 50,000 ft, Compton electron currents from photons from 14-MeV, (T), 25:5497
transport in concrete shields, secondary gamma-ray production in, (E), 24:6597
transport in concrete slabs at 50 to 350 MeV, spherical harmonics calculation of, 24:24099 (HASL-221)
transport in concrete, (E), 25:17253 (AD-711839)
transport in concrete, (E), 25:17254 (AD-711840)
transport in exponential atmosphere, energy flux from point source of, (T), 24:6595
transport in hydrogenous media, methods for calculating, (T), 21:29859
transport in iron, (E/T), 25:56618 (RPI-328-230)
transport in iron, analysis of semi-monoenergetic pulsed, (E/T), 24:33097
transport in iron, calculations for, (T), 24:33093
transport in lithium hydride shield, 22:31911
transport in missile launch tube, albedo Monte Carlo analysis of, 22:31900
transport in shielding slabs, orders-of-scattering method for, 25:56258 (COO-2049-9)
transport in silicon dioxide, flux distribution and dose equivalent calculations for, 25:12332
transport in the atmosphere from 1.9- and 4.2-MeV sources, (E), 21:21403
transport in water shields in slab geometry, spectral intensities in, (E/T), 21:21375
transport of 14-MeV, calculation for air-ground interface, 22:4280
transport theory calculations in ZPR-3 fast assembly for heterogeneity effects on reactivity, 21:44851 (ORNL-P-3158)
transport theory for shielding, two-dimensional discrete ordinates, (E/T), 24:51761 (CTC-INF-952)
transport theory for, asymptotic behavior of functions related by Ramanujan identity in, 24:20310
transport theory for, numerical comparison of diffusion-like approximations for, (T), 22:48802
transport through soft tissue slab, free-nucleon target model calculation of, 24:35525
transport through spherical boron-carbide shells, flux calculations using Monte Carlo method, 21:31835 (ORNL-TM-1816)
use for activation analysis of blood and thyroid gland, 22:17049
use for measurement of water content in soils, 22:25511
use for partial body in vivo activation analysis, geometrical factors in, 24:50981
use for radiography at CENG, research on, 22:51222 (TID-24730)
use for radioisotope production in control rods,, 22:25176(P)
use for radiotherapy of human cancer, 25:49265
use for radiotherapy, comparison with cobalt-60 gamma beam, 25:26879
use for therapy, comparison of effectiveness of 14 MeV, with γ or x radiation, 25:6749 (CONF-691106-, pp 508-19)
use for therapy, considerations for clinical trials of, 25:52166
use for therapy, evaluation of dose modifying factors for, 25:6748 (CONF-691106-, pp 498-507)
use for therapy, review of status of, 25:52148 (A/CONF.49/P-508)
use for tumor therapy in man, RBE and treatment regimen for, 25:49253
use for tumor therapy, effectiveness of, 25:2582 (CONF-700322-, pp 393-406)
use for tumor therapy, RBE for, 25:52174 (A/CONF.49/P-30)
use in activation analysis of hydrogenous materials, 22:11948(R) (NP-17216)
use in defectoscopy, design and performance of equipment for, 25:34825
use in nuclear physics research, survey of, 22:39565
use in radiobiology, 23:45609 (CNM-R-2(Vol.2), pp 797-825)
use in radiotherapy, conference on, 25:52158
use of 25 keV, with iron filter for biomedical research, 24:39537 (IN-1317, pp 209-31)
use of cyclotron-generated, in therapy, 23:33728
uses in radiography, 22:4372
uses in radiography of objects in hot cells, 22:4371
wave propagation in fast nonmultiplying media, formulation of dispersion law for, 24:7352
wave propagation in nonmultiplying media, 21:30116 (CONF-660206, pp 105-15)
yields from fission, use of depleted uranium-238 for, 22:16316(R) (GEAP-5505)
yields of 14-MeV, from deuteron reactions with tritium, (T), 22:7630 (SC-RR-67-346)
effects on embrittlement of chromium—molybdenum—nickel-steel maraging plate, conditioning-temperature dependence of, 23:24953 (BNWL-870, pp 9.1-19)
NEUTRONS, FISSION
(Neutrons produced in the fission of a nucleus.)
absorbed dose ratios in underground structures, (T), 25:40758
age and fast effect in beryllium and beryllium oxides, (T), 21:31696
age and fast effect in beryllium and beryllium oxide, sensitivity to cross-section data in moments-method calculation of, 25:5496
age-to-indium resonance in light and heavy water-moderated thorium dioxide assemblies, (E), 22:11885
angular distribution of, produced in BREN operation, 21:20164 (CEX-62.12)
attenuation in lithium-6, natural lithium hydrides, and tungsten, calculation of, 23:1758 (N-68-30001)
attenuation in water and aluminum-water slabs, (E), 22:32447
capture by americium-241, cross section for, (E), 25:50738
capture by gold-197 and indium-115, average cross section for, (E), 22:32524
capture by zinc-68, production of isomeric zinc-69 by, (E), 23:3994
capture cross sections for, testing by integral measurements, (E/T), 23:5775
detection and discrimination of, coincidence system for, 25:54995 (EUR-4611)
detection and ratio measurements of, fission foil—dielectric track detectors for, 24:31684
detection in kidneys of man and rats by autoradiography of nuclear reactions, 23:24620
detection of, characteristics of dielectric track detectors for, 25:44641
detection of, efficiency corrections for loaded scintillation detector for, 24:29527
detection of, fast digital timing circuit for, 23:16079 (CEA-CONF-1181)
detection of, multiwire boron trifluoride ionization detector for, 24:11762 (BARC-440)
diffusion in heavy water, age and fast-effect in, (T), 22:11878
distribution of importance-function, in ZPR, (E/T), 21:8077
distribution of, measurement of spatial importance, 21:30091(R) (ANL-7210)
dose distribution in human arm during radiography, phantom studies of, 25:49184
dose distribution in swine, or mixed γ-neutron field, 25:6695 (CONF-691106-, pp 116-28)
dose measurements of, using damage track detectors, 25:11074(R) (AECL-3777)
dose rate from plutonium-238 in relation to biomedical applications, 24:14506
dose to human intestines from plutonium-238-powered mechanical heart implant, 24:6033 (DUN-SA-115)
dose to Japanese atom bomb survivors, comparison of RBE of, with weapons γ, 25:6760 (CONF-691106-, pp 547-79)
dose to personnel from transplutonium elements, 23:16317
dose to swine, calculations of lethal, 25:6695 (CONF-691106-, pp 116-28)
dose to tissues during interstitial therapy of tumors, determination of LET, OER, and RBE for absorbed californium-252, 23:31859 (CONF-681032-, pp 285-302)
dose-rate attenuation in lithium hydride, (T), 21:35397
dosimetry in man, use of chromosome aberrations in leukocytes of circulating blood for, 22:23536
dosimetry in personnel using etched fission tracks in plastic foils, 23:31751 (NP-17848)
dosimetry in phantoms, conversion factors for depth, 21:41428
dosimetry in tissue equivalent materials, fluence-dose conversion factors for, 22:43309(T) (ORNL-tr-1963)
dosimetry in tissue equivalent small animal phantoms in relation to LET, Monte Carlo sampling method for, 25:8685
dosimetry in tissue-equivalent human phantom, 24:41881
dosimetry method for californium-252 line-source, in tissue-equivalent material, 25:42445
dosimetry of californium-252 spontaneous, in phantoms, 22:30866 (BNL-12452)
dosimetry of plutonium-238 heat source in relation to circulatory support system, use of phantoms for, 25:6688 (BNWL-1489)
dosimetry of point source, equation for biological, 24:48562
dosimetry of, produced by atomic bomb explosions in Hiroshima and Nagasaki, 21:14668
effectiveness as mutagen for barley and cotton seeds, 24:12040 (ORO-672, pp 157-63)
effects of pulsed, on radiolysis of biochemical systems, 24:11259 (CONF-690102-, pp 595-605)
effects of, on erythropoietic stem cells in mice, whole-body exposure, 21:8909 (AD-640316)
effects of, on weight of bursa of Fabricius and thymus in chickens, protective effects of AET on, 21:1771 (CONF-650560-19)
effects on aluminum—uranium intermetallic compounds, 24:17392 (IN-1335, pp 25-82)
effects on animals and plants in agriculture, 23:10048(R) (ORO-661)
effects on Arabidopsis, maize, and wheat, RBE for mutagenic, 24:34255
effects on barley in comparison to effects of fast neutrons and γ radiation, 25:16091 (ORO-678, pp 126-34)
effects on barley plants, effects of seed exposure on, 25:6810 (CONF-691106-, pp 520-30)
effects on barley seeds, effects of boron on, 22:52024
effects on barley seeds, effects of oxygen, packaging materials, and water on, 25:16376 (ORO-678, pp 135-51)
effects on barley, oat, and wheat plants following seed exposure, mutagenic, 23:10111 (ORO-661, pp 103-27)
effects on biological materials, interpretation of nuclear tracts observed following, 24:44616
effects on blood of monkeys, 23:20340 (AD-673352)
effects on blood sugar content of guinea pigs, protective effects of chemicals against, 23:18079
effects on body and organ weight and calcium and zinc metabolism in swine, unilateral, 23:35888
effects on bubble nucleation and re-solution in uranium dioxide at high temperatures, 25:55649
effects on chlorogenic acid in vitro, effects of dose on, 23:10111 (ORO-661, pp 103-27)
effects on choline content of liver of rats, effects of dose on, 22:47490
effects on chromosomes and seedling height of barley, effects of 5-bromouracil and EMS on, 25:16091 (ORO-678, pp 126-34)
effects on chromosomes in bone marrow cells of mice in relation to aging syndrome, latent aberrant, 23:29732 (BNL-13581)
effects on chromosomes of Nigella, effects of seed exposure on aberrant, 24:25462
effects on chromosomes of Nigella, RBE for aberrant in comparison to alpha, γ, proton, 24:4598
effects on chromosomes of Nigella, RBE for aberrant, 24:9809 (BNL-14197)
effects on content of choline in liver of rats, effects of dose on, 22:21434
effects on content of IAA-oxidase in garden pea seeds and sunflower fruits, 23:10111 (ORO-661, pp 103-27)
effects on crystal structure of uranium ceramics, relations with annealing, 25:4887 (KFK-1215)
effects on cultured cells in comparison to γ radiation, RBE for californium-252, 24:34566 (BNL-14610)
effects on cultured Chinese hamster cells, effects of cell cycle stage on, 24:14572
effects on cultured HeLa cells, RBE for californium-252, in comparison with acute x-rays and radium, 24:12220
effects on cultures of asynchronous and synchronous hamster cells, effects of dose on, 25:37865 (ANL-7770, pp 26-47)
effects on deformation behavior of mild steel, 25:24612
effects on epithelial cells of cornea of mice, physiological regeneration following, 22:25802(T) (JPRS-42635, pp 65-71)
effects on epithelium of cornea and intestines in mice, effects of dose fractionation on genetic, 22:21594
effects on erythropoietic stem cells of mice, effect of dose fractionation on, 22:577
effects on germanium and silicon crystals, evaluation of damaged regions produced by, 24:43934(R) (AECL-3556)
effects on gonads and intestines of rats, RBE for, 21:36685 (BNWL-SA-1156)
effects on ground, induced heat from point source at altitude of 50 ft, (T), 25:7432 (ORNL-4626)
effects on growth and survival of soybeans, RBE for, 25:21622 (ORNL-4634, pp 56-70)
effects on growth of barley seedlings, RBE for negative, 23:45946 (ANL-7535, pp 125-7)

effects on growth of black-eyed peas, effects of seed exposure on, 22:21638
effects on growth of summer barley, protective effects of gibberellic acid against inhibitory, 23:29902
effects on helium production in chromium, copper, iron, nickel, and titanium, 25:4822
effects on helium production in reactor cladding, coolants, and fuels, 24:21401
effects on hematopoiesis in mice, effects of dose fractionation on, 22:28621 (ANL-7278, pp 1-94)
effects on hematopoietic system and survival of mice, effects of dose on, 25:6773 (CONF-691106-, pp 435-50)
effects on histamine content of rat tissues, effects of dose on, 22:25726
effects on human chromosomes, aberrant, 22:38246
effects on hybrid cotton seeds, use of marker traits to determine effects of seed moisture content on mutagenics, 22:40952 (ORO-657, pp 93-120)
effects on immune reactions in mice, effects of dose and dose rate on, 25:26679
effects on incidence of carcinomas in rat adrenal glands, mixed whole-body γ and, 25:13564
effects on intermetallic UAl_3 dispersed in stainless steel, 24:17392 (IN-1335, pp 25-82)
effects on intestinal mucosa of sheep, unilateral lethal pulsed mixed γ and, 25:29656
effects on intestine of guinea pigs, acute pathological, 22:49553
effects on intestine of mice, comparison of, with γ, 22:49551
effects on ir absorption of polished gallium arsenide, spectral studies on, (E/T), 25:59155
effects on kinetics of erythropoiesis in rats, effects of dose on, 23:26911
effects on learning behavior of monkeys, combined effects of γ on effects of dose and dose rate for head or trunk exposure, 23:35862 (AD-680740)
effects on lens of eyes in goats, whole-body, 22:19415
effects on leukocytes of man and swine in vitro, 25:16315 (ORO-678, pp 47-8)
effects on lithium-diffused n-type silicon, defects induced in, 25:56309
effects on lithium-doped silicon solar cells at 30 MeV and 77 to 400°K, 24:51239(R) (N-70-25471)
effects on mammary gland neoplasms in rats in comparison to γ and x radiation, 23:48205
effects on mammary glands of rats, neoplastic, 22:28621 (ANL-7278, pp 1-94)
effects on mice, RBE for whole-body, 21:8943
effects on mice, review of factors affecting mutagenic, 23:20164
effects on miniature swine, combined effects of γ rays on acute lethal pulsed, 24:19357
effects on mortality in young chickens, protective effects of AET against, 22:8591
effects on oocytes and spermatogonia of mice, RBE for mutagenic, 24:9810 (CONF-690303-, pp 255-67)
effects on Oryza japonica seeds in comparison to x radiation, mutagenic, 24:17023
effects on oxidation of stainless steels, 22:4842
effects on oxygen enhancement ratio in Vicia seedlings, combined effects of γ from californium-252 source on, 24:23398
effects on p-type silicon, photoconductivity spectral study of annealing of, 24:30390
effects on personnel in nuclear industry, methods for evaluation of, 22:31268
effects on plant seeds, combined effects of dose, genotype, and moisture content on RBE for, 24:8014 (BNL-14117)
effects on plants of barley, cotton, oats, soybeans, and wheat, effects of seed exposure on, 22:38427(R) (ORO-659)
effects on plants, RBE for, 22:19456
effects on plants, RBE for, 23:26960
effects on rabbits, RBE for, 22:582
effects on rare-gas release from Moon rocks, (E), 25:16737 (UCB-34-P-32-0-3)
effects on rats, carcinogenic, comparison with γ and x, 25:6770 (CONF-691106-, pp 207-29)
effects on reactivity of thermal reactors, 22:30161 (WAPD-T-1950)
effects on rice seeds, effects of dose rate, oxygen, storage, and water content on, 25:27070
effects on seeds and spores, cooperative use of irradiation facilities to determine latent, 23:10111 (ORO-661, pp 103-27)
effects on seeds of barley, oats, and wheat, mutagenic, 22:40952 (ORO-657, pp 93-120)
effects on seeds, mutagenic, 23:50440
effects on serum enzyme release by sheep, mechanism for effects of LET on, 22:21427
effects on silicon and germanium, crystallinity and damaged regions in, (E/T), 25:59140
effects on silicon solar cells, 25:21485(R) (N-70-43156)
effects on silicon solar cells, 25:481(R) (N-70-33998)
effects on silicon, behavior of 11.6-μ absorption band of oxygen-associated defect induced in, 24:1474
effects on silicon, ir studies on, 24:22665(R) (AECL-3521)
effects on silicon, production and annealing of defects from, (E), 22:37041
effects on silicon, temperature dependence of divacancy production rate in, 24:26303
effects on skin of swine, effects of dose on pathological, 25:21843
effects on skin of swine, effects of dose on recovery from, 21:22477 (BNL-994, pp 124-39)
effects on sodium content in rats, effects of diet on, 21:45782 (ORAU-101, pp 34-6)
effects on sodium-24 excretion in rats, 22:51874 (ORAU-106, pp 5-104)
effects on solids, use of underground nuclear explosions for studies of, 24:17329 (CONF-690910-, pp 506-15)
effects on soybean seedlings in comparison to effects of cobalt-60 γ rays and strontium-90 and yttrium-90 β particles, 25:11312
effects on surface-barrier silicon detectors, 23:14115 (INR-942)
effects on survival and yield of soybean seedlings following seed exposure, field studies of, 23:10111 (ORO-661, pp 103-27)
effects on survival of HeLa cells, effects of boron-10 concentration on RBE for, 25:8745
effects on survival of mice, protective effects of preirradiation treatment with AET, MEA, and serotonin mixture and postirradiation treatment with bone marrow and streptomycin against supralethal whole-body, 23:35773
effects on survival of sheep, RBE for LD-50/5 dose for unilateral pulsed mixed γ and, 25:29656
effects on survival of swine, calculation of RBE for effects of depth dose distribution on, 25:16317 (ORO-678, pp 51-7)
effects on swine following bilateral and unilateral exposures, LD-50 for lethal, 25:55334
effects on tensile properties of Nimonic PE 16, relations with dose and temperature, 25:11455 (AERE-R-4982)
effects on testicular weight loss in mice in comparison with effects of x radiation, 22:28621 (ANL-7278, pp 1-94)
effects on thermal diffusivity of uranium dioxide, 24:17396 (ORNL-4480, pp 209-12)
effects on transistors, rapid annealing of, 25:21523
effects on void formation in nickel, relations with tensile stress, 25:58308
effects on weight of testes of mice, RBE for, 23:31818 (AD-677924)
effects on weight of testes of mice, RBE of, 22:28274 (ANL-7278, pp 250-82)
effects on wheat, effects of oxygen on mutagenic, 23:38547
effects on yield stress of mild steel, 25:718
effects on zinc-65 metabolism in swine, 25:52210
emission in neutron absorption by uranium-233 at 0.02 to 1 eV, average number (eta) for, (E), 23:23675 (ORNL-TM-2353)
emission in plutonium-241 neutron fission, measurements of absolute anti τ value using manganese bath method, (E), 23:5927
emission in ternary fission, average number for, (E), 23:15432(R) (ORO-2843-13)
emission in thermal and resonance fission of plutonium-239 and uranium-233, anti τ values for, (E), 23:1882 (WASH-1093)
emission in uranium-235 fast neutron capture, integral method for determination of effective, (E/T), 24:50239 (NP-18366)
emission of, dependence of anisotropy on fragment kinetic energy, (T), 25:1777
emission of, method for determining average number anti τ as function of incident neutron energy, (E), 23:5931
emission probabilities and kinetic energies of, calculations of, (T), 25:25798 (NRCN-252)
emission systematics, (T), 21:7803
energy of, produced in BREN operation, 21:20164 (CEX-62.12)
energy spectrum of slowing down, method for calculating, 22:14166
fluence distributions in Phoebus 1B facility shield, (E/T), 24:5555 (LA-4166)
flux distribution in sodium sphere, from point source at center, 25:9944 (ORNL-TM-3156)
flux distribution measurements in Phoebus 1B shield, 22:6084
flux spectra in water from point source, measurements of angular, (E), 23:1751(R) (AD-671617)
importance determinations in fast critical assemblies, use of californium-252 source for spatially dependent, 23:37743
importance in fast reactors, spatial distribution of, (E/T), 21:7922
ionization density distribution in tissues, 23:20080 (CERN-69-1)
ionization polarization curves for, analysis of, 23:20080 (CERN-69-1)
monitoring in vertical biological chamber of VVR-M reactor, method for, 23:24618
multiplicities from plutonium-239 fission at 14.3 to 200 eV, (E), 25:36734 (ORNL-TM-3331)
production of, effects on physics parameters of fast reactors, 21:7927
production probability of, adjoint flux determination by use of, 21:40598
propagation in atmosphere, research program on, (E), 22:26759 (GA-8485)
radioactivity produced by, graphical technique for estimating, 22:18724
reactions (n,2n) with beryllium-9, cross section for, (E), 22:22546 (WAPD-TM-667)
reactions (n,2n) with beryllium-9, cross section for, (E), 21:38237
reactions (n,2n) with carbon-12, fluorine-19, and iodine-127, average cross sections and thresholds for, 23:15402
reactions (n,2n) with neptunium-237, uranium-233, and uranium-235, cross sections for, (E), 23:1879 (ORNL-4306, pp 1-21)
reactions (n,3n) with nuclei, cross sections for, (T), 22:3596
reactions (n,α) with aluminum-27 and phosphorus-31, average cross sections and thresholds for, 23:15402
reactions (n,α) with cobalt-59, cross sections for, (E), 21:35489
reactions (n,α) with nickel and nickel-58, cross sections for helium production by, (E), 23:5860
reactions (n,α) with nickel, iron, chromium, and molybdenum, cross sections for, (E), 24:18389
reactions (n,f) with plutonium-239, fission-product decay chains and yields from, 21:44671 (UCRL-50243(Vol.1))
reactions (n,f) with plutonium-239, fission-product decay chains and yields from, 21:44672 (UCRL-50243(Vol.2))
reactions (n,f) with plutonium-239, fission-product decay chains and yields from, (T), 21:46727 (UCRL-50243(Vol.3))
reactions (n,f) with plutonium-239, uranium-233, and uranium-235, fission-product activities for, (T), 22:20569 (HNS-1229-77)
reactions (n,f) with plutonium-239, uranium-235, and uranium-238, fission-product charge distributions and yields from, (E), 22:46761 (APED-5398)
reactions (n,f) with protactinium-233, cross sections for, (E), 21:12047
reactions (n,f) with thorium-232 in reactor spectrum, kinetic energy distribution in, (E), 23:23716
reactions (n,f) with uranium-235 and -238 and plutonium-239, abundances of long-lived delayed neutron groups in, (E), 23:34768 (AERE-M-2199)
reactions (n,f) with uranium-235 and -238 and plutonium-239 and -241, compilation of fragment yields and charge distributions from, 23:34784 (APED-5398-A(Rev.))
reactions (n,f) with uranium-235 and uranium-238, average cross sections for, (E), 23:5775
reactions (n,f) with uranium-238, effective energy release in, (E), 24:11012
reactions (n,p) and (n,2n) with iodine-127, cross sections for, (E), 23:1912
reactions (n,p) and (n,α) with scandium-45, average cross sections for, (E), 23:13234
reactions (n,p) with barium-132, production of carrier-free cesium-132 by, 25:32010
reactions (n,p) with barium-136 and (n,α) with lanthanum-139, production of cesium-136 by, 25:32010
reactions (n,p) with cobalt-59, molybdenum-92, nickel-58, and vanadium-51, average cross sections and effective thresholds for, 23:15402
reactions (n,p) with gallium-69, cross section for, (E), 23:3994
reactions (n,p) with iron-54, iron-56, magnesium-24, molybdenum-92, nickel-58, and titanium-48, cross sections for, (E), 21:35489
reactions (n,p) with rhodium-103, average cross section for, (E), 22:35300
reactions (n,p) with selenium-74, -76, and -78, cross sections for, (E), 21:38270
reactions (n,p) with silicon-28 and -29, average cross sections for, (E), 25:12460
reactions (n,p) with strontium-84, cross sections for rubidium-84 production in, 21:28018
reactions (n,p) with sulfur-32, average cross section for, (E), 22:32524
reactions (n,p) with titanium-46, titanium-47, and titanium-48 in Triga Mark II spectrum, cross sections for, (E), 23:21304
reactions (n,p) with zinc-67 in reactor spectrum, cross section for, (E), 23:15398
reactions (n,p) with zirconium-90, cross section for, (E), 23:23705
reactions with beryllium-9 in beryllium oxide, (E), 22:9921 (JUL-Conf-1)
reactions with carbon, lead, and water at 1 to 9 MeV, total cross sections for, (E), 22:7619
reactions with plutonium-238, resonance parameter determination using area analysis technique, 23:26086 (IN-1218, pp 1-56)
reactions with sodium in rat tissues, 21:45782 (ORAU-101, pp 34-6)
reactions with thorium-232, integral measurement of total cross section for, (E), 24:6915
reflection from 6-in.-thick steel slab, fast-neutron spectra after, (E), 24:6598
scattering by indium-115, average cross section for excitation of the metastable state, (E), 22:32524
scattering by indium-115, cross sections for inelastic, (E), 21:35489
scattering by metals, cross sections for gamma yields from inelastic, (E), 25:17842
scattering by rhodium-103 with isomeric activation, cross section for inelastic, (E), 23:5867 (KURRI-TR-42)
scattering in graphite, Monte Carlo calculations using S/sub n/ adjoint biasing, 24:6590
shielding against, from underground nuclear explosions, Monte Carlo study of optimum moderator-to-absorber ratio, 25:38537
slowing down by transition metal hydrides, 22:19528
slowing down in lithium hydride, space-independent, (T), 22:9762 (NAA-SR-12493)
slowing down in polyethylene and water, analysis of ages to indium resonance from, (E), 25:28157
slowing down in slab geometry, neutron angular distributions from, (E/T), 21:11684
slowing-down ages and spectra in concrete, (E), 22:39567
spectra from californium-252, transmission measurements of, (E), 23:4015
spectra from multiple foil activation measurements, SAND-II representation of, (T), 23:15330 (BNWL-SA-1794)
spectra from thermal neutron fission of plutonium-239, uranium-233, and uranium-235, measurement using high-energy activation detectors, (E), 22:16046
spectra from uranium-233 slow-neutron fission, evaluation of, 24:6913
spectra from uranium-235 fission, comparison of data sets on, 24:6917
spectra in thermal reactors, effects on kinetics, (E/T), 21:7915
spectra measurements of, using fission foil—dielectric track detector system, 25:44645
spectra of californium-252, at 0.003 to 15.0 MeV, 21:30091(R) (ANL-7210)
spectra of, errors from tabular representation of, (T), 23:5746 (AEEW-M-790)

spectra of, macroscopic and integral results on measurements of, 25:53488 (CONF-701002-, pp 417-36)
spectra of, measurement using activation detectors, 21:44645
spectra of, methods for calculating, (T), 23:13306 (FOA-4-4237)
spectra of, review of measurements of microscopic, 25:53489 (CONF-701002-, pp 437-51)
spectra of, SAND-II calculations using activated foil data, 25:11474(R) (BNWL-842)
spectra of, use of aluminum-27 and gold-198 activation detectors for determining, 22:14804
spectral characteristics of SEFOR, integrated, 22:16191
spectrum at 6 to 20 MeV from uranium-235 fission, (E), 22:5828
spectrum calculations for, computer program for, 24:5436 (AERE-M-2248)
spectrum from californium-252 spontaneous fission, background effects on measurement of Maxwellian temperature of, (E), 25:36728 (KFKI-71-9)
spectrum from uranium-235, analysis of various proposed nuclear data sets for, 24:18410 (WAPD-T-2292)
spectrum imitation using polonium—beryllium source in iron or graphite spheres, (E), 24:1725
spectrum in hydrogen-moderated reactors, effects of physical parameters on fission peak shape in, 21:38459 (KAPL-M-6714)
spectrum of, calculation using Terrell equation, (T), 24:8928 (UCRL-50755)
spectrum, design of irradiation facility using, 21:28800 (HW-84618)
transmission through thick samples of nitrogen and oxygen without collisions, spectra from, (E), 21:21442
transport calculations for infinite medium of oxygen, effects of cross-section sets on, (T), 22:39545 (ORNL-TM-2252)
transport calculations for oxygen from isotropic point source, sensitivity to cross-section sets, (T), 23:3919
transport in air, (T), 24:24101 (ORNL-4464)
transport in atmosphere, effects of air-ground interface on, (T), 22:3591 (ORNL-TM-1819)
transport through spherical boron-carbide shells, flux calculations using Monte Carlo method, 21:31835 (ORNL-TM-1816)
use for inelastic scattering studies, 25:46002
yield in heavy ion fission of gold-197, bismuth-209, and uranium-238, (E), 24:33147
yield in neutron absorption by uranium-233 at 0.025 eV, measurement of eta value for, (E), 23:4004 (WAPD-TM-772)
yield in spontaneous fission of californium-252, direct and absolute measurements of average, 21:30091(R) (ANL-7210)
yield in thermal fission of uranium-235, direct and absolute measurements of average, 21:30091(R) (ANL-7210)
yields for thermal neutron fission of uranium-233, using RECAP 4C Monte Carlo calculations of, 22:32590
yields of plutonium-239, summary of, (E), 25:20363 (AWRE-O-86/70)
yields of, measurement using manganese bath technique with absolute β-γ coincidence counting, 21:19281
yields of, methods for measuring, 23:5791
yields of, variation with fragment mass, (T), 22:35394
yields relative to neutron absorption from thermal-neutron reactions with plutonium-239 and uranium-233 and -235, (E), 25:34093

NEUTRONS, FUSION
(Neutrons produced in the fusion of two nuclei.)
acceleration mechanisms in plasma focus and z-pinch discharges, (T), 24:51721
detection from dense plasma focus, (E), 25:38495 (CONF-710607-37)
detection of, characteristics of dielectric track detectors for, 25:44641
effects in fusion reactors, facility for duplicating 14-Mev, 25:45503 (LA-4709)
effects on activity and decay power of niobium structure in fusion reactor blankets, 24:40121 (ORNL-TM-3094)
emission from anisotropic deuterium plasmas, ion velocity distribution determination from, 25:33218(T) (ORNL-tr-2429)
emission from dense plasma focus, time correlation with x-ray emission, 25:52855
emission from deuterium-filled shock tubes, 24:45285
emission from laser irradiated deuterated polyethylene, 25:56219
energy spectra from deuterium plasma, velocity distribution studies from, (E), 25:47504
energy spectra from hot deuterium—tritium plasmas, 24:51711 (IPP-1/107)
production by enhanced resistivity in plasma focus, 24:42718
production by laser irradiation of solid deuterium targets, 25:36203
production in dense deuterium focus discharges, model for, 25:17205 (AD-712692)
production in dense deuterium noncylindrical z pinch, (E), 25:14359
production in dense plasma focus, enhancement by electron beam interactions, (E), 25:52857
production in focus discharges in deuterium, (E), 25:27799
production in non-cylindrical z-pinches, 25:5116(T) (SC-T-70-4046)
production mechanism in dense plasma focus, (E), 25:52856
reactions (n,f) with uranium-238, fission-product activities for, (T), 22:20569 (HNS-1229-77)
reactions with lithium-6, lithium-7, and niobium at 3 to 15 MeV, total cross sections for, 24:45272(T) (ANL-Trans-842)
transport calculations for fusion reactor blankets, 25:38509 (CONF-710607-135)

NEUTRONS, INTERMEDIATE
(neutrons of energy 100 eV to 100 keV)
absorption by cesium-133 up to 400 eV, resonance parameters for, (E), 23:42942
absorption by europium, cross section evaluation for use as plutonium simulator and spectral index, (E), 23:37067 (RT/FI-(68)52)
absorption by lead and uranium-238 at 7.5 and 30 keV, effective cross sections for, (E), 21:19244 (KFK-451)
absorption by lithium-6 at 10.7 to 102 keV, cross-section measurement using shell transmission method, (E), 21:31720
absorption by nuclei, generalized intermediate resonance method for resonance integral calculations, 24:26653
absorption by plutonium-239 and uranium-235 at 2 keV, eta values for, (E), 24:33155
absorption by plutonium-239 up to 30 keV, cross section for, (E), 23:7281(R) (ORNL-4280)
absorption by plutonium-240 at 0.7 to 100 keV, activity from, (E), 24:1721(R) (RPI-328-162)
absorption by uranium-238, calculation of resonance integrals using generalized intermediate resonance method, 24:26653
absorption cross sections for plutonium-239, (E), 23:37234
absorption in concretes, 24:37528 (JUL-603-ST, pp 213-22)
absorption of, spectral indices for, 24:1723
absorption rate measurements on thorium—heavy water lattices in Siemens-Argonaut reactor, comparison of theoretical calculations and, 23:34928
attenuation in two-component retarding medium at 28 keV, nonasymptotic structure of spectrum near intermediate resonances, (T), 25:5505
capture and transmission by chromium, nickel, and vanadium at 0.1 to 400 keV, (E), 24:49862(R) (RPI-328-187)
capture and transmission by gadolinium isotopes, resonance parameters for, (E), 23:40053
capture and transmission measurements on tungsten and zirconium isotopes in the keV region, resonance parameters and strength functions from, (E), 23:37197
capture by A = 103 to 238 nuclei at 1 to 100 keV, cross sections and resonance parameters for, (E), 23:1877 (NP-17644)
capture by A = 23 to 205 nuclei at 24 keV, activation cross reactions and average level spacings for, (E/T), 23:8969
capture by A = 40 to 70 nuclei, γ spectra from, (E), 24:8855 (AAEC/E-200)
capture by A = 41 to 176 nuclei at 5 to 100 keV, cross sections for, (E), 22:32596
capture by A = 45 to 204 nuclei, cross sections and resonance parameters for, (T), 25:14979 (AAEC/E-198(Suppl.1))
capture by A = 55 through 232 nuclei at 24 keV, cross-section calculations for, (T), 23:49371
capture by A = 60 to 203 nuclei at 30 keV, cross sections for, (T), 25:25703 (AAEC/E-211)
capture by A = 93 to 197 nuclei, cross sections and strength functions for, (E), 22:37340(R) (EANDC(E)-89(U))
capture by aluminum-27, fluorine-19, magnesium-24, phosphorus-31, and natural silicon and sulfur, cross sections for, 25:5603 (FOA-4-4440)
capture by aluminum-27, γ spectra for, (E), 23:34735 (ANL-7282, pp 14-18)
capture by aluminum-27, iron isotopes, nickel isotopes, and sodium-23, radiative widths and resonance parameters for, (E), 23:30975
capture by aluminum-27, iron, nickel, and sodium-23, resonance areas and parameters for, (E), 23:5855
capture by aluminum-27, iron, nickel, and sodium-23, cross sections and resonance parameters for, (E), 23:1882 (WASH-1093)
capture by aluminum-27, iron, nickel, and sodium-23, resonance parameters and radiative widths for, (E), 22:44627 (TID-24601)
capture by aluminum-27, iron, nickel, and sodium-23 at 1 to 200 keV, resonance widths for, (E), 22:42004
capture by antimony-121 and antimony-123, cross sections for, (E), 23:13273
capture by antimony-121, antimony-123, indium-115, lanthanum-139, and manganese-55, resonance integrals for, (E), 22:46758
capture by boron-11 at 10 to 50 keV, cross section for, (E), 23:30945
capture by bromine-79, germanium-76, indium-115, rhodium-103, selenium-80, tellurium-130, and zinc-68 at 24 keV, isomeric cross-section ratios for, (T), 22:32537
capture by bromine-79, indium-115, selenium-80, tellurium-130, and zinc-68 at 24 keV, model analysis of spin cutoff factors for, (E/T), 24:22113
capture by cesium-133 up to 3 keV, γ spectra for resonance, (E), 23:15450
capture by cesium-133 up to 3 keV, γ spectra from, (E), 23:49386(T) (BNL-tr-284)
capture by cesium-133, hafnium, molybdenum, niobium-93, rhenium, tantalum, and tungsten at 10 to 150 keV, cross sections for, (E), 22:35346
capture by chlorine-35, copper, iron, manganese-55, mercury, and thulium-196, γ spectra for, 23:52128
capture by chromium and iron, resonances in, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by chromium-53 at 2 keV, gamma spectra from, (E), 25:25672
capture by cobalt, gold, platinum, tin, and tungsten up to 700 eV, γ spectra for, (E), 23:42909 (CEA-R-3776)
capture by cobalt-59 and gold-197 up to 300 eV, γ spectra and cross sections for, (E), 23:37141
capture by cobalt-59 and manganese-55, γ spectra for, 23:34746 (ANL-7282, pp 492-500)
capture by cobalt-59 up to 1500 eV, γ spectra and direct cross section for, (E), 23:15388
capture by cobalt-59 up to 300 eV, direct component in cross sections for, (E), 23:34745 (ANL-7282, pp 483-91)
capture by cobalt-59, copper-63, and manganese-55 up to 10 keV, search for direct, (E), 23:17085 (UCRL-50504)
capture by cobalt-59, partial radiative widths for, (E), 23:5901
capture by cobalt-59, width for 132-keV resonance in, (E), 24:43303
capture by copper at 0.2 to 16.5 keV, resonance parameters for, (E), 22:39625
capture by copper at 0.2 to 16.5 keV, resonances in, (E), 23:5924
capture by copper at 2 keV, γ spectra from, (E), 25:48035 (IN-1407, pp 97-154)
capture by copper at 2 keV, γ spectra from, (E), 25:48069 (BNL-50276)
capture by copper-63, copper-65, and iron-56, γ spectra from, (E), 22:35285(R) (AERE-PR/NP-13)
capture by copper-63, gold-197, iridium-191, iridium-193, and rhenium-185 at 25 keV, activation cross sections for, (E), 25:48073 (IN-1407, pp 1-82)
capture by copper-65 at 229 eV, transmission measurement of, (E), 24:28738(R) (RPI-328-171)
capture by dysprosium-164, germanium-76, palladium-108, and tellurium-130 at 24 keV, cross sections and spin-cutoff parameters for, (E/T), 22:48498
capture by erbium-167, average γ spectra from resonance, (E), 22:42049
capture by europium, europium-151, and holmium-165 at 200 eV to 12 keV, cross section and resonance integral for, (E), 24:22151 (UCRL-50804)
capture by fission products, cross sections for, (T), 22:37340(R) (EANDC(E)-89(U))
capture by fission products, statistical method of calculating cross sections for, (T), 22:50606
capture by fluorine, lead, lead-204, lead-206, lead-207, magnesium, and sulfur at 1 to 100 keV, resonance widths for, (E), 21:42615 (RPI-328-97, pp 1-34)
capture by fluorine-19, magnesium, and sulfur at 10 to 130 keV, radiative widths of resonances in, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by gadolinium, gadolinium-152, and -154, transmission measurement of resonances in, 23:47013
capture by germanium-73, γ spectra from, (E), 23:49398 (WASH-1127)
capture by gold at 24 keV, shell transmission method corrections for determining absolute cross sections for, (T), 24:52555 (EURFNR-806)
capture by gold, cross section for, 22:37340(R) (EANDC(E)-89(U))
capture by gold-197 and platinum-195, resonance, (E), 22:37340(R) (EANDC(E)-89(U))
capture by gold-197 and tungsten-186, measurements of γ spectra using liquid scintillator for resonance, (E), 22:48423 (RPI-328-133, pp 1-34)
capture by gold-197 and uranium-238 at 25 to 500 keV, cross sections for, (E), 22:35346
capture by gold-197 at 10 to 60 keV, resonance averaged γ spectra for, (E), 22:50617
capture by gold-197 at 24 keV, cross section calculation using spin-dependent s-wave statistics, (T), 23:44887 (N-69-24826)
capture by gold-197, platinum-195, and tungsten-183 in resonance region, partial radiative widths for, (E), 23:5901
capture by gold-197, rhodium-103, and tantalum-181, gamma spectra from, (E), 25:28437
capture by hafnium-177 up to 300 eV, spectra for, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by hafnium-177, molybdenum-95, molybdenum-96, palladium-105, ruthenium-99, and ruthenium-101, cross sections and resonance spin assignments for, (E), 22:48554
capture by indium-115 and rhodium-103, isomeric cross section ratios for, (T), 23:19266
capture by indium-115 and tellurium-130 at 25 keV, cross sections for, (E), 23:19268
capture by indium-115 at 24 keV, cross section for, (E), 24:15886
capture by indium-115, rhodium-103, and zinc-68 at 25 keV, isomeric activation cross sections for, (E), 25:48073 (IN-1407, pp 1-82)
capture by iron and titanium, measurements of γ spectra using lithium-drifted germanium detectors, (E), 23:1830
capture by iron at 10 to 100 keV, resonance widths for, (E), 21:42615 (RPI-328-97, pp 1-34)
capture by iron at 15 to 80 keV, resonances in, (E), 23:1866
capture by iron-54 and iron-56 at 15 to 80 keV, γ spectra and radiative widths for, (E), 23:1866
capture by iron-56 and nickel-58, p-wave strength function for, (E), 22:39637 (RPI-328-123, pp 1-17)
capture by iron-56, partial cross sections for, (E), 23:1882 (WASH-1093)
capture by iron-56, temperature dependence of 1.15 keV resonance in, (E), 24:1721(R) (RPI-328-162)
capture by lead and lead-207 at 15 to 60 keV, cross sections for, (E), 23:5905
capture by lead and uranium-238 at 7.5 and 30 keV, effective cross sections for, (E), 21:13884
capture by lead-20 at 41 keV, gamma spectra from, (E), 25:12539
capture by lead-204 and -207 at 2 keV, γ spectra from, (E), 25:48073 (IN-1407, pp 1-82)
capture by lead-204 at 1 to 32 keV, Monte Carlo calculation of cross section and resonance parameters for, (E), 23:49398 (WASH-1127)
capture by lead-204 at 2 keV, γ energies and intensities and partial cross sections for, (E), 25:48069 (BNL-50276)
capture by lead-204, cross sections and resonance parameters for, (E), 23:37138(R) (RPI-328-160)
capture by lead-208, activation cross section for, (E), 23:1881 (ORNL-TM-2364)

capture by magnesium, phosphorus, magnesium, silicon, and sulfur at 10 to 75 keV, γ spectra from, (E), 25: 46015
capture by manganese-55 and tantalum-181 at 2 keV, γ spectra from, (E), 24:6860
capture by manganese-55 and tantalum-181 at 2 keV, γ spectra from, (E), 24:40608 (IN-1317, pp 69-151)
capture by molybdenum, resonance, (E), 22:37340(R) (EANDC(E)-89(U))
capture by natural neodymium and neodymium isotopes, γ spectra and resonance parameters for, (E), 23:8981
capture by natural zinc, cross sections and spectra from, (E), 25:41201 (AAEC/TM-573)
capture by neodymium at 120 to 600 eV, time-of-flight spectra from, (E), 23:49332(R) (EANDC(E)-115(U))
capture by nickel-58, nickel-60, and nickel-62 at 10 to 95 keV, γ spectra for, (E), 23:7266
capture by nickel-60 and vanadium-51, resonance energies and yields for, (E), 24:1721(R) (RPI-328-162)
capture by nickel-62 at 4.6 keV, radiative width for resonance, (E), 22:39637 (RPI-328-123, pp 1-17)
capture by niobium-93 at 1 to 100 keV, cross sections and resonance parameters for, 23:32927 (GA-8133(Add.))
capture by niobium-93, γ spectra from, (E), 23:49398 (WASH-1127)
capture by niobium-93, resonance parameters and γ spectra for, (E), 22:53194
capture by nuclei at 2 keV, gamma spectra from, (E), 24:47614
capture by nuclei at 24 keV, p-wave cross section for, (T), 24:15993
capture by nuclei in mass region A = 40 to 70 at 10 to 100 keV, gamma spectra from, (E/T), 24:47611
capture by nuclei, nuclear structure research using gamma spectroscopy of, 24:1778 (BNL-13884)
capture by oxygen-15, particle—hole calculation of cross section for, (T), 23:19185
capture by platinum, silver-107, silver-109, and thulium-169 up to 830 eV, γ spectra and resonance parameters for, (E), 24:52639
capture by platinum-195 and tungsten-182, average γ spectra for, (E), 23:34783 (ANL-7282, pp 523-31)
capture by platinum-195, radiative widths for resonance, (E), 23:5880
capture by plutonium isotopes and uranium isotopes near 20 keV, cross sections for, (E), 23:13302
capture by plutonium-239 at 10 to 100 keV, single-level and multilevel calculations of resonance integrals for, (T), 23:17108
capture by plutonium-239 at 100 eV to 30 keV, ratio to fission cross section, (E), 24:38229
capture by plutonium-240 at 1 to 30 keV, cross section for, (E), 25:48069 (BNL-50276)
capture by plutonium-240 at 38 to 820 eV, radiative widths for resonance, (E), 22:32598
capture by plutonium-240 at 4 to 60 keV, average cross section for, (E), 25:14982 (NCSAC-31)
capture by plutonium-240 at 4 to 60 keV, cross section for, (E), 24:33154
capture by plutonium-240 at 4 to 60 keV, cross sections for, 24:49862(R) (RPI-328-187)
capture by plutonium-240, resonance radiative widths for, (E), 23:5924
capture by rhenium-185 and rhenium-187, cross sections and resonance parameters for, (E), 22:30014
capture by rhodium-103 at 20 to 100 keV, isomeric cross section ratio for, (E), 24:47637 (ANL-7610, pp 1-59)
capture by several medium and heavy nuclei at 10 to 150 keV, cross sections and p- and d-wave strength functions for, (E/T), 23:44876
capture by sodium-23 at 2 to 4 keV, radiative width of 2.85-keV resonance in, (E), 22:26930 (GA-8496)
capture by sodium-23 at 2 to 4 keV, width for 2.85-keV resonance in, (E), 24:28739 (RPI-328-185)
capture by sodium-23, cross section for, (E), 24:33133
capture by tantalum-181 at 2 keV, γ spectra from, (E), 25:43935
capture by tantalum-181, excitation function for, (E), 23:13286
capture by tantalum-181, excitation function for, (E), 23:21341
capture by thorium-232 at 20 to 30 keV, disagreement of cross sections with Porter—Thomas postulate, (E), 25: 43911
capture by thulium-169, correlations of partial widths in, (E), 23:28304 (WASH-1124)
capture by tin-116, tin-119, tin-122, and tin-124, γ spectra for, (E), 23:34781 (ANL-7282, pp 507-13)
capture by tin-117, cross section for, (E), 23:47024
capture by tin-118, tin-122, and tin-124, γ ray angular distributions for, (E), 23:34772 (ANL-7282, pp 290-5)
capture by titanium-48 at 20 to 100 keV, evidence for d-wave resonance in, (E), 24:43245
capture by tungsten at 0.1 to 4 keV, average cross section for, (E), 23:5899
capture by tungsten below 500 eV, γ spectra from, (E), 23:5912
capture by tungsten up to 218 eV, γ spectra for, (E), 23: 34778 (ANL-7282, pp 459-72)
capture by tungsten up to 360 eV, partial widths for, (E), 23:13285
capture by tungsten, calculation of gamma yields using cascade model, (T), 23:37235
capture by tungsten, tungsten-182, tungsten-183, tungsten-184, and tungsten-186, average cross sections for, (E), 22:39637 (RPI-328-123, pp 1-17)
capture by tungsten, tungsten-182, tungsten-183, tungsten-184, and tungsten-186 at 1 to 100 keV, average cross sections for, (E), 23:1882 (WASH-1093)
capture by tungsten-182, tungsten-183, tungsten-184, and tungsten-186, cross sections and resonance parameters for, (E), 23:5899
capture by tungsten-183 up to 360 eV, resonance widths for, (E), 23:13285
capture by tungsten-186 up to 603 eV, γ spectra for, (E), 23:13265 (RPI-328-142, pp 1-67)
capture by uranium-233, cross section for, (E), 22:29986 (ORNL-TM-2140)
capture by uranium-233, measurements of cross sections for, (E), 22:48558
capture by uranium-238 at 0.05 to 1 keV, resonance parameters from radiative, (E), 25:15081
capture by uranium-238 at 0.5 to 100 keV, cross section for, (E), 25:5771
capture by uranium-238 at 0.5 to 100 keV, cross section for, (E), 25:48069 (BNL-50276)
capture by uranium-238 at 10 to 100 keV, cross-section calculation using Monte Carlo code, (E/T), 23:49315 (ANL-7410, pp 1-46)
capture by uranium-238 at 23 keV, Monte Carlo interpretation of spherical shell transmission data for cross section of, (E/T), 23:15438
capture by uranium-238 at 4 to 80 keV, calculations of cross sections for s- and p-wave, (T), 23:1938
capture by uranium-238, γ spectra from, (E), 25:5776
capture by ytterbium-171 at 2 keV, γ spectra from, (E), 24:40608 (IN-1317, pp 69-151)
capture by Z = 24 to 79 nuclei at 8 to 100 keV, cross sections for, (E), 23:7250
capture by zinc at 10 to 80 keV, γ spectra from, (E), 25:59759
capture by zirconium-90, zirconium-91, zirconium-92, and zirconium-94, resonance energies and areas for, (E), 23:13265 (RPI-328-142, pp 1-67)
capture of, systematics analysis for direct and collective mechanisms, (E/T), 23:23780
capture to fission ratios for plutonium-239, uranium-235, and uranium-238 at 0.1 to 30 keV, (E/T), 25:41512
capture-to-fission cross section ratio for uranium-235 and plutonium-239, (E), 24:38217 (UCRL-72454)
capture-to-fission ratio for plutonium-239 and uranium-235 at 0.1 to 30 keV, radiative, (E), 25:15075
capture-to-fission ratio for plutonium-239 at 0.01 to 30 keV, (E), 23:1881 (ORNL-TM-2364)
capture-to-fission ratio for plutonium-239 at 0.1 to 30 keV, (E), 25:38989(T) (LB/G-2876)
capture-to-fission ratio for plutonium-239 at 0.1 to 30 keV, (E), 25:50740
capture-to-fission ratio for plutonium-239 at 0.454 to 24.8 keV, measurements using lattice reactivity, (E), 22:32589
capture-to-fission ratio for plutonium-239 at 1 to 20 keV, average characteristics of, (T), 24:52549(T) (BNL-tr-367)
capture-to-fission ratio for plutonium-239 at 20 to 500 keV, (E), 25:12511 (CEA-N-1368)
capture-to-fission ratio for plutonium-239 up to 25 keV, (E), 23:13265 (RPI-328-142, pp 1-67)
capture-to-fission ratio for plutonium-239, (E), 22:48423 (RPI-328-133, pp 1-34)
capture-to-fission ratio for plutonium-239, data evaluation for, (T), 22:53168 (JAERI-1162)
capture-to-fission ratio for plutonium-239, integral measurement of, (E), 25:5772
capture-to-fission ratio for plutonium-239, method for measuring, (E), 22:35345
capture-to-fission ratio for uranium-235 at 0.1 to 100 keV, (E), 25:41242
capture-to-fission ratio for uranium-235 at 0.3 to 5000 eV, method for direct measurement of, 25:15076
capture-to-fission ratio in plutonium-239 at 0.1 to 30 keV, (E), 25:15073
capture-to-fission ratios for plutonium-239 and uranium-235 at 0.1 to 10 keV, (E), 25:15074
capture-to-fission ratios for plutonium-239 and uranium-235 at 0.1 to 30 keV, (E), 24:49856 (JINR-P3-5113)
capture-to-fission ratios for plutonium-239 and uranium-235, measurements using time-of-flight method, (E), 22:37364
capture-to-fission ratios for plutonium-239, plutonium-241, uranium-233, and uranium-235, resonance, (E), 22:42016 (KAPL-P-3438)
detection of 25-keV, review on detectors for, 24:9658
detection of, corona detector in spherical Plexiglas moderator for, 25:32227
detection of, design of resonance-capture activation detector for, 25:39720(P)
dose distribution in human arm during radiography, phantom studies of, 25:49184
dose rate absorption in materials, 24:37532
dose-equivalent rates for Hungary WWR-SM reactor, measurement of, 23:21523
dosimetry in facility for evaluating radiaton protection measures, 42 MeV betaton, 25:13450
dosimetry of, cadmium and tin film badge for, 25:39767
dosimetry of, comparison of equipment and methods for, 25:51913
dosimetry of, conference on, 23:45758
dosimetry of, performance of uranium—mica fission foil dosimeters for, 23:47748
effects on chromosomes in human lymphocytes, comparison of RBE of, with x radiation for aberrant, 25:6803 (CONF-691106-, pp 451-61)
effects on chromosomes of Nigella seeds, RBE for aberrant, 24:12055
effects on graphite of, analysis of, 23:4366
effects on guanidine nucleotides in brain of rats, whole-body, 25:500
effects on lens of mice, derivation of inactivation model to explain RBE for 0.43 MeV and 14.7 MeV, 23: 48199 (NYO-2740-6, pp 319-26)
effects on mechanical properties of graphite in one- and two-fluid molten-salt reactors, analysis of, (E/T), 23: 15602 (ORNL-TM-2136)
effects on sperm of mice, mutagenic effects of, on progeny, 24:4605
effects on Streptomyces aureofaciens, mutagenic, 24: 2622
effects on survival of Tradescantia pollen following exposure of immature buds, effects of dose on 4.3 keV, 23:48013 (NYO-2740-6, pp 255-68)
effects on Tradescantia, mutagenic 4.3 keV, 23:48013 (NYO-2740-6, pp 255-68)
effects on vacancy cluster production in Type 304 and Type 316 stainless steel and iron, analysis of, 22: 53411 (BNWL-819)
energy spectrum for VERA 7A critical assembly, time-of-flight analysis of, 23:2080
flux distribution in heavy water moderated gas cooled reactors, calculation of fine structure, (T), 23:43194 (ZJE-47)
flux measurement of, standards for biological and physical applications, (E), 25:34879
flux measurements for reactors, methods of, 23:4470
flux measurements in iron for 1- to 100-keV, (E), 23: 49293 (AD-689839)
flux measurements of KIWI-Transient Nuclear Test effluent, analysis of, 22:39849 (LA-3449)
flux measurements of, sensitivity of Basson detector containing boron oxide for, 25:2443
flux spectra in iron, time-of-flight measurements of position-dependent, (E), 23:5762
interaction with biological tissues, review of, 23:47967
neutron reactions (n,f) with uranium-235, mean prompt neutron production from, (E/T), 25:15399
reaction with aluminum at 30 to 50 keV, total scattering cross sections for, (E), 23:33485
reactions (n,α) with boron-10 and lithium-6 at 0.01 to 80 keV, cross section ratios for, (E/T), 25:14910
reactions (n,α) with boron-10 below 200 keV, recommended values of, 25:53598 (CONF-701002-, pp 151-65)
reactions (n,α) with boron-10, cross sections for, (E), 23:17074 (N-68-33763)
reactions (n,α) with boron-10, data evaluation for cross sections and branching ratios of, 22:39579 (EUR-3950)
reactions (n,α) with boron-10, relative cross sections for, (E), 23:19178
reactions (n,α) with lithium-6, CCDN cross-section data evaluation for, 23:3937 (CCDN-NW-3)
reactions (n,f) and (n,γ) with plutonium-239 and uranium-235, cross sections and resonance integrals for, (E), 22:42011(T) (BNL-tr-219)
reactions (n,f) and (n,γ) with plutonium-239 and uranium-233, relative cross sections for, (E), 25:46062
reactions (n,f) and (n,γ) with uranium and plutonium at energies between Cd cutoff and 10 keV, cross sections for, (E), 21:5558
reactions (n,f) with aligned uranium-235 at 0.2 to 2000 eV, fragment anisotropy from, (E), 25:34108
reactions (n,f) with nuclei at 10 eV to 20 keV, resonance integrals from SCISRS data tapes for, 23:49381 (AERE-M-2157(Rev.))
reactions (n,f) with plutonium isotopes and uranium isotopes near 20 keV, cross sections for, (E), 23:13302
reactions (n,f) with plutonium-238, cross sections for, (E), 23:32931 (LA-4108)
reactions (n,f) with plutonium-238, widths for s- and p-wave, (E/T), 23:44892
reactions (n,f) with plutonium-239 and uranium-233, relative cross sections for, (E), 23:49332(R) (EANDC(E)-115(U))
reactions (n,f) with plutonium-239 and uranium-233 at 0.24 to 24 keV, cross section ratios to uranium-235, (E), 24:24559
reactions (n,f) with plutonium-239 and uranium-235 at 2 keV, n and α values for, (E), 24:40607 (IN-1317, pp 1-63)
reactions (n,f) with plutonium-239 at 0.1 to 8.0 keV, analysis of intermediate structure in the cross section and resonance parameters for, (E), 25:50716 (ANL-7814)
reactions (n,f) with plutonium-239 at 0.275 to 2.035 keV, statistical calculation of resonance structure in cross section for, (T), 24:33157
reactions (n,f) with plutonium-239 at 0.275 to 2.035 keV, statistical cross-section calculation using artificial resonance structure, (T), 24:15908
reactions (n,f) with plutonium-239 at 1 to 100 keV, evaluation of cross section for, 23:5864 (AERE-M-2065(AMEND.))
reactions (n,f) with plutonium-239 at 10 to 100 keV, single-level and multilevel calculations of resonance integrals for, (T), 23:17108
reactions (n,f) with plutonium-239 at 100 eV to 30 keV, ratio to capture cross section, (E), 24:38229
reactions (n,f) with plutonium-239 at 100 to 200 eV, fission-neutron multiplicities for, (E), 25:36734 (ORNL-TM-3331)
reactions (n,f) with plutonium-239 at 400 to 405 eV, cross section for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,f) with plutonium-239 up to 202 eV, R-matrix single-level parameters for, (T), 24:47637 (ANL-7610, pp 1-59)
reactions (n,f) with plutonium-239 up to 30 keV, cross section for, (E), 23:7281(R) (ORNL-4280)
reactions (n,f) with plutonium-239 up to 30 keV, correlation analysis of cross section for, (E/T), 23: 11012
reactions (n,f) with plutonium-239 up to 35-keV, cross section for, (E), 23:8996
reactions (n,f) with plutonium-239, cross section and resonance parameters for, (E), 22:24863(T) (BNL-tr-197)
reactions (n,f) with plutonium-239, cross sections for, (E), 23:37234
reactions (n,f) with plutonium-239, plutonium-241, uranium-233, and uranium-235 at 2 keV, cross sections for, (E), 22:32588
reactions (n,f) with plutonium-239, plutonium-241, uranium-233, and uranium-235 up to 20 keV, average cross sections and resonance integrals for, 23:30995 (AERE-M-2157)
reactions (n,f) with plutonium-239, plutonium-241, uranium-233, uranium-235 at 2 keV, cross sections for, (E), 23:1882 (WASH-1093)

reactions (n,f) with plutonium-240 at 0.2 to 8 keV, resonance grouping structure in cross section for subthreshold, (E), 23:5923
reactions (n,f) with plutonium-240 at 0.2 to 8 keV, resonance structure and widths for, (E), 22:27095
reactions (n,f) with plutonium-241 at 0.1 to 6.0 keV, analysis of intermediate structure in the cross section and resonance parameters for, (T), 25:50717 (ANL-7815)
reactions (n,f) with plutonium-241 at 2 to 2000 eV, cross section for, (E), 25:15083
reactions (n,f) with plutonium-242 at 50 eV to 5 keV, cross section and fission width for, (E), 25:31385
reactions (n,f) with plutonium-242 up to 35 keV, cross section and resonance width for, (E), 23:9003
reactions (n,f) with uranium-232 at 5 to 1900 eV, cross section for, (E), 22:27105
reactions (n,f) with uranium-233 at 0.018 to 2000 eV, cross section for, (E), 25:15082
reactions (n,f) with uranium-233, cross section for, (E), 22:29986 (ORNL-TM-2140)
reactions (n,f) with uranium-234 at 0.15 to 1.10 keV, channel analysis of, (T), 21:21569
reactions (n,f) with uranium-235 at 0.1 to 100 keV, cross section for, (E), 25:41242
reactions (n,f) with uranium-235 at 2 keV, cross section for, (E), 23:28304 (WASH-1124)
reactions (n,f) with uranium-235 at 20 eV to 1 keV, cross section for, (E), 24:13347 (LA-4285)
reactions (n,f) with uranium-235 at 20 eV to 100 keV, high-resolution cross section for, (E), 25:20418
reactions (n,f) with uranium-235 at 200 to 900 keV, average total kinetic energy of fragments from, (E), 24:35883
reactions (n,f) with uranium-235 at 30 and 64 keV, cross sections for, (E), 21:42635
reactions (n,f) with uranium-235 at 30 keV, time analysis of compound-nucleus decays in, (E), 25:56752(R) (SUNI-14)
reactions (n,f) with uranium-235 at 30 to 100 keV, cross section for, (E), 23:5920
reactions (n,f) with uranium-235 at 50 eV to 30 keV, structure in cross section for, (E), 24:49907
reactions (n,f) with uranium-235 up to 2 keV, cross section and resonance integral for, (E), 23:19129
reactions (n,f) with uranium-235 up to 2 keV, statistical analysis of, (T), 24:52634
reactions (n,f) with uranium-235 up to 3 keV, cross section and resonance parameters for, (E), 23:5918
reactions (n,f) with uranium-235, cross section and resonance parameters for, (E), 22:30005
reactions (n,f) with uranium-235, fission-fragment energy and mass distributions in, (E), 22:32631
reactions (n,f) with uranium-235, plutonium-239, and plutonium-241 at 17 keV to 1 MeV, absolute cross section for, (E), 25:53733 (CONF-701002-, pp 257-71)
reactions (n,f) with uranium-235, resonance parameters from multilevel analysis using R-matrix theory, (T), 22:48522 (LA-3917)
reactions (n,γ) with cobalt-59 at 132 eV, gamma spectra from, (E), 21:23472
reactions (n,γ) with gold at 30 keV, cross section for, (E), 21:17352 (KFK-454)
reactions (n,γ) with gold-197 at 30 and 64 keV, cross sections for, (E), 21:15574
reactions (n,γ) with manganese-55 at 336, 1098, and 2355 eV, gamma spectra from, (E), 21:23472
reactions (n,γ) with tungsten-182 at 114 eV, tungsten-183 energy levels from, (E), 21:23529
reactions (n,t) with lithium-6 at 250 keV, triton energy distributions from, (E), 22:35243
reactions in uranium-238 at 0.47 to 3.95 keV, Doppler broadening effects on effective cross sections for, (T), 24:35879
reactions with A = 23 to 238 nuclei at 2 keV, activation cross sections for, (E), 23:28304 (WASH-1124)
reactions with A = 23 to 238 nuclei at 2 keV, activation cross sections for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with A = 51 to 209 nuclei, resonance parameters and total cross sections for, (E), 23:13226 (CEA-R-3609)
reactions with antimony and cadmium, resonance parameters for, (E), 23:5898
reactions with antimony, indium, iodine, mercury, and rhenium, analysis of total cross sections for strength functions, (E/T), 22:30015
reactions with antimony-121 up to 2533 eV, total cross section and resonance parameters for, (E), 23:13273
reactions with antimony-123 up to 4166 eV, total cross section and resonance parameters for, (E), 23:13273
reactions with argon-40, calcium-48, and sulfur-34 at 30 to 100 keV, R-matrix multilevel fit to total cross sections for, (E/T), 24:3884
reactions with argon-40, calcium-48, and sulfur-34, total cross sections for, (E), 23:19254(R) (ORO-3624-7)
reactions with argon-40, calcium-48, and sulfur-34, total cross sections and resonance parameters for, (E), 23:28304 (WASH-1124)
reactions with argon-40, calcium-48, and sulfur-34, total cross sections for, (E), 23:1882 (WASH-1093)
reactions with arsenic-75, manganese-55, and scandium-45, total cross sections for, (E), 23:19254(R) (ORO-3624-7)
reactions with arsenic-75, manganese-55, and scandium-45, total cross sections for, (E), 23:1882 (WASH-1093)
reactions with biological tissues, group division on basis of, 22:48433
reactions with boron-10, total cross section for, (E), 22:37289 (AERE-R-5224)
reactions with cadmium, plutonium-239, rhodium-103, and tungsten, resonance parameters for, 23:37138(R) (RPI-328-160)
reactions with carbon at 70 eV to 1.5 MeV, measurement and analysis of the total cross section for, (E), 25:53600 (CONF-701002-, pp 201-7)
reactions with chromium-53, copper-63, copper-65, and titanium-49, total cross sections for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with cobalt-59 at 132 eV, resonance parameters for, (E), 24:22127
reactions with copper-63 and copper-65, resonance parameters for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with copper-63, copper-65, lanthanum-139, neodymium-143, neodymium-145, praseodymium-141, and vanadium-51, strength functions and scattering radii for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with erbium isotopes and ytterbium isotopes, resonance parameters for, (E), 22:37281(R) (NYO-72-191)
reactions with erbium-164, resonance parameters for, (E), 23:3996 (CONF-670653-1)
reactions with gadolinium isotopes, resonance parameters for, (E), 22:42014 (JINR-P3-3882)
reactions with gadolinium isotopes, resonance parameters for, (E), 23:1873(T) (BNL-tr-222)
reactions with gadolinium-156, gadolinium-157, gadolinium-158, and gadolinium-160 up to 2.7 keV, resonance parameters for, (E), 23:37268
reactions with gallium and gallium-71 up to 6 keV, resonance parameters and strength functions for, (E), 23:10960 (JINR-P3-4152)
reactions with germanium isotopes, resonance parameters for, (E), 23:10962(T) (NP-tr-1719)
reactions with germanium-70, -72, -73, -74, and -76, cross sections and strength functions for, (E), 22:35258
reactions with gold-197 at 24 keV, Monte Carlo analysis of shell transmission data for cross sections of, (T), 22:32586
reactions with gold-197 at 25 keV, activation cross section for, (E), 25:48069 (BNL-50276)
reactions with helium, ENDF/B compilation of cross sections for, 23:17070 (ANL-7462)
reactions with I = $^1/_2$ and $^3/_2$ nuclei, s-wave resonance parameters for, (E/T), 22:53166 (CEA-R-3385)
reactions with indium-115 and iodine-127, average resonance parameters and cross sections for, (E), 23:15462
reactions with iron-56 at 1.15 keV, resonance orbital angular momentum for, (E), 23:21308
reactions with lithium, lithium-6, and lithium-7, total cross sections for, (E), 23:5831
reactions with lithium-6, total cross section for, (E), 23:5833
reactions with manganese-55 up to 80 keV, total cross sections for, (E), 21:46692
reactions with mercury at 14 MeV, production of 100 μs mercury-201 isomer by, (E), 21:2728
reactions with molybdenum isotopes up to 1.5 keV, resonance parameters for, (E), 23:31035
reactions with neodymium-142, -143, -144, -145, and -146, resonance energies for, (E), 23:49393(R) (NYO-72-227)
reactions with neodymium-142, -144, -146, and -148, total cross sections for, (E), 23:19254(R) (ORO-3624-7)
reactions with plutonium-239 and plutonium-240, data compilation on cross sections for, 22:50599 (LA-3528)
reactions with plutonium-239 and uranium-235 at 0.1 to 30 keV, capture-to-fission ratio in, (E), 25:36748
reactions with plutonium-239 and uranium-235 at 0.1 to 30 keV, strength functions for, 25:53798
reactions with plutonium-239 at 0 to 440 eV, total cross section and resonance parameters for, (E), 22:24863(T) (BNL-tr-197)
reactions with plutonium-239 at 0.1 to 10.0 keV, capture-to-fission cross-section ratios from, (E), 25:34080 (NP-18769)
reactions with plutonium-239 at 0.2 to 25 keV, capture to fission ratios for, (E), 24:1721(R) (RPI-328-162)
reactions with plutonium-239 at 0.3 to 20 keV, resonance parameters for, 23:37237
reactions with plutonium-239 at 2 keV, partial cross sections and α value for, (E), 24:40607 (IN-1317, pp 1-63)
reactions with plutonium-239 below 200 eV, multilevel analysis of cross sections for, (E/T), 23:7281(R) (ORNL-4280)
reactions with plutonium-239, capture and fission cross sections for, (E), 23:37236
reactions with plutonium-239, flux-perturbation measurement of capture-to-fission cross-section ratios for, (E), 25:48074 (JAERI-13491)
reactions with plutonium-239, plutonium-241, uranium-233, and uranium-235 from cadmium cutoff to 10 keV, cross sections and resonance parameters for, 21:29962 (NAA-SR-11980(Vol.5))
reactions with plutonium-239, uranium-233, and uranium-235, cross-section data evaluation scheme for, (T), 23:5893
reactions with plutonium-240 at 0.1 to 5.7 keV, total cross section and resonance parameters for, (E), 23:5922
reactions with plutonium-240 at 20 to 5700 eV, total cross section and resonance parameters for, (E), 22:32597
reactions with scandium-45, total cross section for, (E), 23:49332(R) (EANDC(E)-115(U))
reactions with selenium-74, selenium-76, selenium-77, selenium-78, and selenium-80, total cross sections and resonance parameters for, (E), 22:48479 (JINR-P3-3956)
reactions with silicon, cross section for, (E/T), 23:37133 (AD-679907)
reactions with tantalum at 0.3 to 100 keV at 77 to 1073°K, pseudo-resonance analysis of self-indication ratios and transmission from, (E/T), 25:25727 (RPI-328-224)
reactions with tantalum-181 at 2 keV, temperature dependence of total cross section for, (E), 22:32588
reactions with tantalum-182 at 0.01 to 1000 eV, total cross section and strength function for, (E), 22:37372
reactions with thallium-204 up to 1000 eV, total cross section and resonance parameters for, (E), 23:5896
reactions with tin-117, total cross section for, 23:47024
reactions with uranium-233 at 0.7 to 320 eV, total cross section for, (E), 25:15079
reactions with uranium-233, measurements of cross sections for, (E), 22:48558
reactions with uranium-235 and uranium-238, data compilation on cross sections for, 22:50598 (LA-3527)
reactions with uranium-235 up to 2 keV, total cross section for, (E), 23:19129
reactions with uranium-238 and uranium-235, capture to fission ratio for, 23:37241
reactions with uranium-238 at 0.6 to 14 keV, total cross section for, (E), 25:15080
reactions with uranium-238, p-wave resonance parameters for, (E), 22:42036
reactions with vanadium-51 at 2 to 18 keV, multilevel fit to total cross section for, (T), 24:1721(R) (RPI-328-162)
reactions with vanadium-51 up to 55 keV, total cross section for, (E), 24:43304
reactions with xenon-129 and xenon-130, strength functions for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions with ytterbium and erbium isotopes, resonance parameters for, (E), 24:15870 (NYO-72-190)
reactions with Z = 17 to 83 nuclei, total cross sections and resonance parameters for, (E), 23:13239
reactions with zirconium and zirconium-91 at 181 eV, resonance parameters for, (E), 23:30997(R) (GA-9275)
reactions with zirconium-91 at 159 to 3900 eV, resonance parameters for, (E), 22:24853 (GA-8557)
resonances in uranium-238 at 66.0 to 1197 eV, neutron and radiation widths for, (E), 25:25711 (JINR-P3-5609)
scattering and transmission measurements on cadmium and rhodium-103, resonance, (E), 23:5900
scattering and transmission studies in boron-11, resonances in, (E), 23:30945
scattering by aluminum-27 at 5.9, 35, and 88 keV, resonance, (E), 22:48423 (RPI-328-133, pp 1-34)
scattering by boron-10 above 1 keV, differential cross sections for, (E), 24:49709
scattering by cadmium, plutonium-239, rhodium-103, and tungsten below 1400 eV, resonance parameters and spin assignments for, (E), 24:47660
scattering by carbon-12, coupled-channel formalism for, 23:15364
scattering by germanium isotopes, cross sections for potential, (E), 23:10962(T) (NP-tr-1719)
scattering by germanium-73 at 1 to 1.8 keV, excitation function for inelastic, (E), 25:49962
scattering by helium, angular distributions and Legendre coefficients for elastic, 23:17070 (ANL-7462)
scattering by iron and nickel, cross sections for, 25:48069 (BNL-50276)
scattering by iron-56 at 1.1 to 1.2 keV, partial-wave assignment for resonance in inelastic, (E), 23:28283
scattering by lithium-6 at 1 to 110 keV, cross sections for, (E), 25:14909
scattering by neptunium at 0.1 to 1 keV using moderated bomb source, cross section for elastic, (E), 24:43183 (CONF-700101-(Vol.2), pp 1257-68)
scattering by nuclei at 1 to 40 keV, analysis of angular distributions from elastic, (E/T), 25:3695
scattering by nuclei, resonance interference in, (T), 22:50657 (ANL-7467)
scattering by plutonium-240 up to 2.5 keV, cross section and resonance parameters for, (E), 23:5921
scattering by rhodium at 125 to 450 eV, resonance, (E), 21:42615 (RPI-328-97, pp 1-34)
scattering by rhodium-103, cadmium, and plutonium-239 in the resonance region, cross sections and resonance parameters for elastic, (E), 24:52583
scattering by selenium at 1 to 10 keV using moderated bomb source, cross section for elastic, (E), 24:43183 (CONF-700101-(Vol.2), pp 1257-68)
scattering by sodium at 2.0 to 4.0 keV, radiation width of 2.85-keV resonance from, (E), 24:52482
scattering by tellurium, resonance, (E), 22:37340(R) (EANDC(E)-89(U))
scattering by water and polycrystalline and single-crystal ice, total cross sections for, (E), 23:28212 (IKF-22)
scattering by Z = 38 through 90 nuclei at 1 to 40 keV, angular distributions for, 23:28296 (JINR-P3-4354)
scattering in sodium at 2.85 keV, group structure and group constants for, (T), 25:3928 (JAERI-Memo-4110)
scattering of, theory of multiple, (T), 22:32478
slowing down in fast reactors, improvements in analytical methods for calculation of, (T), 24:16284 (RPI-328-164)
slowing down in pulsed media, few-pole expansion formalism for, (T), 22:29835
spectra emerging from spherical shells of graphite, polyethylene, sodium, and natural uranium, measurements using time-of-flight method, (T), 22:37276 (AERE-R-5364)
spectra for fast reactors, improvements in analytical methods for calculation of, (T), 24:16285 (RPI-328-165)
spectra for heterogeneous reactors, computer program calculation of, 25:57182 (JAERI-Memo-4481)
spectra from photoneutron sources, Monte Carlo program for calculating, (T), 23:5754
spectra in assemblies of sodium and iron—nickel, sodium, and stainless steel, effects of composition and thickness on, 23:23949 (AI-AEC-12744, pp 15-26)
spectra in beryllium oxide (BeO) moderated slab type multiplying media, (E/T), 23:43143 (AAEC/TM-497)
spectra in cores 5, 9, and PuB-5 of FRO, performance of resonance sandwich foil detectors for, (E/T), 24:31092 (AE-392)
spectra in ECEL Core 17, 23:23949 (AI-AEC-12744, pp 15-26)

spectra in ECEL Core 17 and Core 17P, comparison of calculated and measured, 23:47231 (AI-AEC-12855)
spectra in Fast Neutron Cavity of Physical Constants Testing Reactor, 24:7168(R) (BNWL-1240)
spectra in fast subcritical assemblies, time-of-flight measurements of, (E), 22:32452
spectra in FTR shielding, comparison of transmission, (E/T), 24:5542 (BNWL-1197)
spectra in graphite and water, (E), 24:10894 (IFA-FR-77)
spectra in liquid sodium and steel, effects of shield configuration on, 24:4039(R) (AI-AEC-12857)
spectra in plutonium fueled fast critical assembly, 25:6105
spectra measurements in depleted borated polyethylene and uranium slabs for 0.001 keV to 2 keV, analysis of time-of-flight method for, (E/T), 22:39930
spectra measurements in STSF critical assembly, analysis of, 22:47008(R) (GA-8715)
spectra measurements of, description of BR-1 graphite thermal columns spherical-cavity for, (E), 22:35624
spectra of MSCA and FR-0, analysis of activation Doppler effect in, (E/T), 23:4297 (AE-331)
spectra of, development of detectors for measuring, 22:39541(R) (GA-8626)
spectra of, development of lithium glass detectors for measuring, 22:48424 (RPI-328-133, pp 35-55)
spectra of, methods for calculating, (T), 23:5747 (KURRI-TR-20)
spectrum in pool type reactors, quadruple foil method for measurement of, 25:57126
transmission by gold, temperature dependence of, (E), 24:52556 (EURFNR-807)
transmission experiments on uranium-238 at 23 keV using spherical shell technique, Monte Carlo interpretation of, (T), 23:4016
transmission in gold spheres at 24 keV, Monte Carlo analysis using spin-dependent S-wave statistics, (T), 24:18350
transport through shielding nonuniformity, (E/T), 24:32890
NEUTRONS, PILE
(mixed spectrum neutrons present in a reactor core)
absorption by A = 242 through 254 nuclei, cross sections and resonance integrals for, (E), 25:41235
absorption by silver, cross section and resonance integral for, (E), 22:44745
absorption by thulium-169, thulium-170, and thulium-171 in reactor spectrum, cross sections for, (E), 23:1896
absorption resonance integrals for silver and tantalum, measurements using pile oscillator method, (E), 22:50603
capture by A = 147 to 173 nuclei, cross sections and resonance integrals for, (E), 25:36735 (SGAE-PH-104/1971)
capture by A = 6 through 207 nuclei, γ spectra and Q-values for, (E), 23:21284
capture by A = 99 to 169 nuclei, spectrum-averaged cross sections for, (E/T), 25:36720 (CONF-710301-4)
capture by aligned cobalt-59 and samarium-149, anisotropy of γ angular distribution from, (E), 22:37340(R) (EANDC(E)-89(U))
capture by aluminum-27, rhenium-185, rhenium-187, and thorium-232, γ spectra for, (E), 23:28281
capture by erbium-167, γ spectra from resonance, (E), 23:1882 (WASH-1093)
capture by europium-155, cross section for, (E), 25:3667
capture by fermium-255, cross section for, (E), 22:42046
capture by gold-198 in reactor spectrum, cross section for, (E), 23:23718
capture by hydrogen, γ circular polarization from, (E), 24:52501
capture by indium-115, lead, manganese-55, niobium-93, sulfur-32, and zirconium, activation cross sections for, 22:24862 (WANL-TME-1746)
capture by iridium-191, molybdenum-98, and rhodium-103 in FRM spectrum, activation resonance integrals for, (E), 22:37340(R) (EANDC(E)-89(U))
capture by magnesium-25, γ spectra for, (E), 23:34742 (ANL-7282, pp 375-80)
capture by manganese-55, γ spectra from, (E), 23:1825 (NP-17579, pp III.12-17)
capture by molybdenum-95, molybdenum-97, niobium-93, thulium-169, tin-117, and zirconium-91, E1 and M1 widths for resonance, (E), 23:1882 (WASH-1093)
capture by neodymium-142, neodymium-143, neodymium-144, and neodymium-145, cross-section measurements using mass spectrometry, (E), 22:39662
capture by nickel-60, γ spectra from, (E), 23:1825 (NP-17579, pp III.12-17)
capture by oxygen-18, β—γ coincidence spectra from, (E), 25:38893
capture by oxygen-18, cross section and resonance integral for, (E), 25:45947
capture by promethium-147, cross section and resonance integral for, (E), 25:20379
capture by scandium-46 in reactor spectrum, cross section for, (E), 22:41990
capture by thallium-204, cross section for, (E), 23:1879 (ORNL-4306, pp 1-21)
capture by uranium-238 in fast critical assembly, measurements of Doppler effect in, (E), 22:32562 (AE-314)
capture by uranium-238 in NORA critical assembly, methods for measuring rho_{28} ratio for, (E), 22:24858 (KR-124)
capture by uranium-238, gamma spectra from, (E), 25:25776
capture by vanadium-51, γ—γ angular correlations for, (E), 23:34738 (ANL-7282, pp 286-9)
capture cross sections for cobalt-59, iron-54, and nickel-62, (E), 23:28270 (ANL-7550, pp 93-6)
capture cross sections in reactor spectra, cadmium ratio method for determining effective, (T), 23:1777
capture in stainless steel in EBR-2 spectrum, integral cross sections and isotope production rates for, 23:40337
capture rate for uranium-236 in zero-power fast reactor, coincidence measurements of, (E), 22:46809
capture resonance integrals for thorium-232 in homogeneous mixture, effective, (E), 22:48415 (JAERI-1160)
capture-to-fission ratio for plutonium-239 in PCTR spectrum, integral measurements of, (E), 22:35288 (BNWL-774)
detection of, design and performance of activation detectors for, 25:23829
detection of, development of self-powered flux monitors for, 25:15966 (WHAN-SA-23)
effects on biaxial stress rupture of Type 316 stainless steel at 1000 to 1400°F, 25:58297 (HEDL-TME-71-72)
effects on boron carbide-containing boron-10, 24:12484 (BNWL-1223, pp 6.1-3)
effects on brittleness of heavy-section Type A533B steel, relations with copper and phosphorus content, 25:2757 (NRL-7121)
effects on burnup of promethium-146 contained in promethium-147, (E), 24:16785 (BNWL-1270)
effects on clad ceramic fuel rods at 800 W/cm power, 25:16614 (EURAEC-2146)
effects on configuration of melt cavities in uranium dioxide, 24:8209(T) (EURFNR-680)
effects on corrosion and mechanical properties of Hastelloy N, evaluation of, 25:29906 (ORNL-TM-3063)
effects on corrosion of magnesium—zirconium alloys by gaseous mixture from Bugey reactor, 25:49349(T) (ANL-Trans-893)
effects on corrosion of magnesium—zirconium alloys by gaseous mixture from Bugey reactor, 25:32644 (CEA-N-1419, pp 135-213)
effects on corrosion of Zircaloy-2 by steam—water mixtures, 25:4737 (CISE-R-290)
effects on corrosion of zirconium alloys by water, 25:42927
effects on corrosion of zirconium and zirconium alloys, 25:35513
effects on creep in structural materials, equipment for studying, 25:40072(T) (LB/G-3012)
effects on creep of 24.48 percent enriched uranium dioxide at 1000 to 1200°C and 1500 to 4000 psi stress, 25:30009 (BMI-1899)
effects on creep of encapsulated plutonium dioxide—uranium dioxide fuels, 24:10189 (BMI-1872, Sect.C)
effects on creep of metal, 25:22125
effects on creep rate of heat treated niobium—zirconium alloy, relations with stress dependence, 25:2760
effects on creep rupture of Hastelloy N, relations with irradiation temperature, 25:37991
effects on creep rupture of Type 316 stainless steel, post-irradiation evaluation of, 24:6227
effects on creep strain and yield strength of Type 304 stainless steel, 25:4820
effects on creep—rupture of Incoloy 800, relations with grain size and titanium content, 24:46760
effects on defect production in magnesium oxide, relations with dose, 25:52484
effects on defect production in magnesium oxide, relations with pre-irradiation annealing in hydrogen, 25:52483
effects on diffusion in alpha-brass, (E), 24:21854
effects on dimensions and microstructure of refractory fuels, 24:39724(R) (BMI-1884)
effects on displacement cascades in gold, 24:14827
effects on ductility of stainless steel at high temperatures, 25:19250(T) (AEC-tr-7192)
effects on ductility of Types 304 and 316 stainless steel, 24:46762
effects on electrochemical properties of Type 304 stainless steel, 25:16438 (IN-1295)
effects on enriched uranium carbide, 24:14962(R) (EURAEC-2083(Pt.1))
effects on graphite, 25:6879 (CEA-CONF-1523)
effects on immune reactions in mice following injection of sheep erythrocytes, effects of age and sex on, 25:6657 (CONF-691106-, pp 268-74)
effects on infrared absorption bands in oxygen-containing germanium, (E/T), 24:32903
effects on length of Zircaloy-clad thorium dioxide rod-type fuel elements, 24:6288
effects on materials, SOURCE calculations of atomic processes in, 24:51784 (CEA-N-1294)
effects on mechanical and physical properties of graphite, 25:32861
effects on mechanical properties and swelling of steel, 25:6879 (CEA-CONF-1523)
effects on mechanical properties of Hastelloy X 280 at high temperatures, 25:22119(R) (WHAN-FR-40-1)
effects on mechanical properties of Incoloy 800, 25:2758 (ORNL-4570, pp 76-84)
effects on mechanical properties of Incoloy 800 at high temperature, 25:22119(R) (WHAN-FR-40-1)
effects on mechanical properties of Nichrome V at 25 to 900°C, relations with extension rate, 24:42174
effects on mechanical properties of Type A302B steel, 25:35508
effects on mechanical properties of Types 347 and 348 stainless steel at high temperatures, 25:22119(R) (WHAN-FR-40-1)
effects on mechanical properties of welds of austenitic and ferrite—martensite steels at 20 to 650°C, 24:44748
effects on microstructure and tensile properties of solution-treated Type 316 stainless steel, relations of irradiation temperature with, 25:42919
effects on microstructure of Hastelloy N, 24:17331 (ORNL-4449, pp 165-213)
effects on mortar, equipment and methods for studying, 25:30020 (EUR-4531, pp 171-8)
effects on n- and p-type germanium, annealing of, (E/T), 24:21881
effects on nuclear graphite, estimation by measurement of postirradiation energy release at 77 to 570°K, 24:14972
effects on pellets and powders of boron carbide, 25:19289 (WHAN-FR-24)
effects on phase transformations in uranium carbide, 25:24662 (AECL-3679)
effects on phosphorus-containing n-type crystals of silicon, defect formation rate from, 24:19947
effects on plasticity of lithium fluoride crystals, (E), 25:30798
effects on precipitation hardening of aluminum—copper alloys, 25:42902 (JAERI-13692)
effects on properties and stability of polyimides, 24:12497
effects on properties of concrete, 25:30022 (EUR-4531, pp 237-65)
effects on properties of hafnium, surveillance program for determination of, 24:10115(R) (IN-1343)
effects on pure and impure alkali metal halide crystals, annealing of, (E/T), 24:30396
effects on pyrocarbon-coated uranium carbide fuel particles, 25:2812 (DP-Report-320)
effects on pyrolytic carbon and silicon carbide coatings on TRISO fuel particles, 24:8158 (GA-9383)
effects on re-solution of gaseous fission products in uranium dioxide fuels, 25:13780(R) (GEAP-12147)
effects on reactor materials, computer simulation of, 24:14843
effects on stability of Gilsocarbon graphite, relations with temperature, 24:14981
effects on stability of serpentine concrete and serpentine, 25:790
effects on stress relaxation of iron-base alloys and stainless steel, 24:6232
effects on swelling of plutonium dioxide and uranium dioxide fuels, 24:42289
effects on swelling of Types 304 and 316 stainless steel, relations with temperature, 25:4810 (BNWL-SA-3283)
effects on swelling of uranium, 25:2762
effects on tensile properties of Hastelloy N, 24:17331 (ORNL-4449, pp 165-213)
effects on tensile properties of Inconel 625 at high temperatures, 25:22119(R) (WHAN-FR-40-1)
effects on tensile properties of stainless steel in presence of radiolytic hydrogen, 24:12439
effects on tensile properties of Type 304L stainless steel, 24:6224
effects on tensile properties of Type A350 steel, 25:16547 (NRL-7211)
effects on tensile properties of Types 304 and 348 stainless steel, 24:14866(R) (BNWL-658)
effects on thermal conductivity of fissium—uranium fuels, 24:39672
effects on thermal conductivity of sintered uranium dioxide, 25:52478
effects on thermal conductivity of uranium dioxide at 500 to 2500°C, 25:22203 (AE-411)
effects on thermal conductivity of vibratory compacted uranium dioxide fuel pins at 200 to 1500°C, 25:2813 (JAERI-Memo-4128)
effects on thermal performance of plutonium dioxide—uranium dioxide fuels, 24:23537(T) (EURFNR-707)
effects on thermal properties of clad uranium dioxide pellet-type fuels, 25:22204 (RT/ING-(70)15)
effects on thin films of Permalloy, 25:49985
effects on Zircaloy-clad uranium dioxide fuel elements at high burnup, 25:4886(R) (GEAP-10204)
effects on Zircaloy-clad uranium dioxide tubular fuel elements, 24:8169 (DP-997)
flux at in-pile rows 2 and 7 in EBR-II, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
flux distribution along cylindrical cadmium filter, end effect in, (E), 23:15342
flux distributions in aluminum—water slab lattices, (T), 22:44586
flux distributions in thorium blanket of plutonium-239-fueled fast reactor, (E), 22:44580
flux measurements in reactor spectra, cadmium ratio method for effective, (T), 23:1777
flux monitoring of, radiation damage to surface-barrier semiconductor detectors during, 25:13329
flux of, transient response of cobalt self-powered detectors for measurements of, 25:2467
flux spectra in water near fission point source, measurements of angular, (E), 23:1751(R) (AD-671617)
flux spectrum synthesis using spatially discontinuous basis spectra, (T), 23:3913
flux-density distributions in laminated iron/water shielding, (E/T), 25:3174
pulse propagation in multiplying media, analysis using diffusion theory, (E/T), 23:23614
reactions (n,2n) with iron-54, cross section for, (E), 24:49839
reactions (n,2n) with neptunium-237, uranium-233, and uranium-235, cross sections for, (E), 23:1879 (ORNL-4306, pp 1-21)
reactions (n,2n) with sodium-23, manganese-55, arsenic-75, yttrium-89, iodine-127, and rhenium-185, cross sections for, (E), 24:49839
reactions (n,2n) with yttrium-89 in FRM spectrum, average cross section for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions (n,α) with cesium-133, cross section for, (E), 22:24837 (KR-123)
reactions (n,α) with nickel-58 and nickel-62, cross sections for, (E), 24:254
reactions (n,α) with nickel-58, cross section for, (E), 23:28270 (ANL-7550, pp 93-6)
reactions (n,α) with potassium-41, cross section for, (E), 22:41997
reactions (n,α) with tungsten-184 in reactor spectrum, cross section for, (E), 22:35301
reactions (n,α) with Z = 5 to 40 elements and stainless steel, cross sections for, (E), 24:33123

reactions (n,β) with argon-40, use to dope argon crystals with potassium, 24:26309
reactions (n,f) with A = 244 through 253 nuclei, cross sections and resonance integrals for, (E), 25:41235
reactions (n,f) with americium-241, fission-fragment ranges in aluminum from, (E), 23:1891
reactions (n,f) with neptunium-237 and protactinium-231 in reactor spectrum, mass distribution in, (E), 23:1886
reactions (n,f) with plutonium-239 in light and heavy water, short-lived delayed neutron and photoneutron groups from, (E), 24:10997
reactions (n,f) with protactinium-231, delayed neutron yields from, 24:52614
reactions (n,f) with protactinium-231, mass and neutron yields for, (E), 25:3656
reactions (n,f) with thorium-232 in reactor spectrum, kinetic energy distribution in, (E), 23:23716
reactions (n,f) with thorium-232, average cross sections and yields from, (E), 25:28409
reactions (n,f) with thorium-232, fission-fragment ranges in thorium from, (E), 23:1892
reactions (n,f) with thorium-232, range of fission fragments from, (E), 23:19274
reactions (n,f) with thorium-232, uranium-238, and plutonium-240, calculated independent fragment yields from, (T), 23:32922 (AERE-R-6056)
reactions (n,f) with uranium-232, fragment yields from, (E), 25:34148
reactions (n,f) with uranium-233 and -235, half-lives and relative abundances of delayed neutron groups from, (E), 25:5689
reactions (n,f) with uranium-233 and uranium-235 in heavy water, short-lived delayed neutron and photoneutron groups from, (E), 25:25729 (TID-25645)
reactions (n,f) with uranium-233, -235, and -238, delayed neutron energy spectra from, (E), 25:41244
reactions (n,f) with uranium-235 and uranium-235 in fast spectra, effects of system heterogeneity on, (E), 22:35333
reactions (n,f) with uranium-235 in fast critical assembly, measurements of Doppler effect in, (E), 22:32562 (AE-314)
reactions (n,f) with uranium-235, charge, energy, and mass distributions of fragments from, (E), 23:49332(R) (EANDC(E)-115(U))
reactions (n,f) with uranium-235, delayed neutron spectra from, (E), 24:30774
reactions (n,f) with uranium-235, fractional and chain yields for dysprosium-166 in ternary, (E), 24:26669
reactions (n,f) with uranium-235, mass-spectrometric search for argon and neon isotopes in ternary, 25:28419
reactions (n,f) with uranium-237, cross sections for, (E), 23:28304 (WASH-1124)
reactions (n,f) with uranium-238, γ analysis for fission-product yields from, (E), 23:4014
reactions (n,p) with bromine-81 and cadmium-106, cross sections for, (E), 22:24837 (KR-123)
reactions (n,p) with cerium-140 in reactor spectrum, average cross section for, (E), 23:11039
reactions (n,p) with cobalt-59, cross sections for, (E), 24:254
reactions (n,p) with iron-54, nickel-58 and nickel-60, cross sections for, (E), 23:28270 (ANL-7550, pp 93-6)
reactions (n,p) with rhodium-103, average cross section for, (E), 22:35300
reactions (n,p) with sulfur-32, activation cross section for, 22:24862 (WANL-TME-1746)
reactions (n,p) with tungsten-182 and tungsten-183 in reactor spectrum, cross sections for, (E), 22:35301
reactions (n,p), (n,2n), and (n,α) with cobalt-59, iron-54, nickel-58, and yttrium-89 in reactor spectrum, mean cross sections for, (E), 23:10991
reactions (n,t) with lithium-6, measurement of cross section for, (E), 22:37340(R) (EANDC(E)-89(U))
reactions in 304L stainless steel, integral cross-section measurements for, 24:1775 (ANL-7575, pp 170-6)
reactions with chlorine-35 and iodine-127, infinite-dilution resonance integrals for, (E), 24:1798
reactions with reactor-grade titanium, measurement of induced activity by gamma spectrometry, 24:14812 (RD/B/N-1323)
reactions with thorium-232, activation and absorption measurements of infinite-dilution resonance integral for, (E), 24:33142
reactopms (n,t) with lithium-6 at 250 keV, triton energy distributions from, (E), 22:35243
scattering by gold-197 and yttrium-89, isomeric cross sections for inelastic, (E), 23:40058
scattering by yttrium-89 in reactor spectrum, activation cross sections for inelastic, (E), 22:50586
spectra at in-pile rows 2 and 7 in EBR-II, 24:10114 (GEMP-1012(Pt.1), pp 71-262)
spectra in fast critical assemblies, contributions of (n,γn') and fission reactions to low-energy, (T), 23:5781
spectra measurements in fast reactors, data unfolding methods for activation detectors for, 25:13226
spectra of, least-squares method for unfolding proton-recoil data, 22:33662
spectrum of, amount of fast neutrons in, (E), 22:50620
NEUTRONS, PROMPT
(Neutrons emitted within 10^{-8} sec following fission of a nucleus.)
age to thermal energy in water, for paraffin—uranium fluoride UF_4 assemblies, 23:7281(R) (ORNL-4280)
behavior in SORA mockup assembly of, Rossi-α analysis of effects of beryllium and iron reflectors on, 22:35605 (ORNL-4263)
calculation of pulsed neutron source exponential pile, methods for, (T), 23:17275
decay constant for a reflected assembly, (T), 22:5734
decay constant for, (E/T), 22:6111
decay constant for, use of paralyzable gate for high-count-rate Rossi-α measurements of, 23:34940
decay constant in reactors, techniques for determination of, 24:13628 (BARC-431)
decay constant measurement in subcritical enriched uranium oxide (UO_2) water moderated lattices, 24:11316 (EURAEC-2125)
decay constant measurements in SHE, 22:3907
decay constant measurements in slightly enriched critical assemblies, use of zero probability method for, 22:30312
decay constant measurements in unreflected unmoderated enriched uranium subcritical assemblies, use of Rossi-α technique for, 22:33004
decay constant measurements using deadtime first moment method, (T), 23:5755
decay constant measurements, use of transfer functions for, 22:42396(T) (SC-T-68-1532)
decay constant measurements, use of transfer functions for, 21:44823 (CEA-R-3221)
decay constant of, interval distribution technique for measuring NORA critical assembly, 21:42824
decay constants at different bucklings in natural uranium—water assembly, comparison of calculations and measurements of, (E/T), 22:22833
decay constants for fast pulsed subcritical assemblies, use of time moments method for calculating pseudo fundamental, 23:37766
decay constants for light water-moderated enriched-uranium subcritical assemblies, (E), 22:7618
decay constants for, from enriched uranium, (E), 24:52571
decay constants for, in highly enriched uranium metal assemblies, (T), 21:38188
decay constants for, measurement in semi-homogeneous experiment of, 22:1869
decay constants for, reactivity measurement technique using generation time formulation of, 22:20947
decay constants in delayed-critical coupled uranium-metal cylinders, (E), 21:11930 (ORNL-P-2643)
decay constants in reflected and unreflected paraffin-moderated uranium tetrafluoride assemblies, (E), 21:46643(R) (ORNL-4134)
decay constants in reflected fast burst reactors, model for calculation of, (E/T), 25:44198
decay constants in SNEAK-1 and ZPR-3-41, comparison of, 22:6090 (EURFNR-395)
decay constants in SUAK, comparison of measured and calculated, 23:34926
decay constants in subcritical enriched-uranium cylinders, (E), 22:15925 (ORNL-TM-1736)
decay in fast assemblies, comparison of Rossi-alpha and pulsed-neutron techniques for measuring, (E/T), 22:5732
decay in reflected reactors, analysis by two-group time-dependent solution of the diffusion equations, (T), 22:5733
decay in sphere shaped enriched uranium-235 assemblies, analysis of fundamental, (E), 24:7201
decay measurements in delayed-critical assembly cores using Rossi-α technique, 21:38692
decay measurements in SNEAK and STARK, use of polarity correlation of reactor noise in frequency domain for, 24:4151
decay parameters in ROSPO, (E/T), 21:21772 (RT/FI-(66)20)
decay rates in NRX reactor, comparison of calculated and measured, 22:6081
decay, use of count rate after filter dead time for measurement of, 22:6172
decay-constant measurement by Feynman-α experiments, data treatment for, 21:29848
detection in reactor noise studies, Rossi-α experiment for, (E/T), 21:12242
dieaway measurements in ZPR-9 Assemblies 6 and 7, time dependence of, 23:15735
diffusion equations for, solution using STREAK code, 21:23721 (NP-16480)
distribution in fast reactor systems, comparison of delayed neutron, (T), 24:7319
effects on cavitation in tetrachloroethylene, use of ultrasonic equipment for studying, 22:25603
effects on interpretation of pulsed-source experiments, analysis of, 21:40596
effects on survival of burros, combined effects of γ-rays on whole-body, 22:38427(R) (ORO-659)
effects on survival of swine, combined effects of γ-rays on whole-body, 22:38427(R) (ORO-659)
eigenvalue measurements in ROSPO, statistical evaluation of decay, 21:25718 (RT/FI-(66)37)
emission from fission fragments, average number and energy in, (T), 22:35392
emission in californium-252 spontaneous fission, (E), 21:29969(R) (UCRL-17299)
emission in fast neutron fission of plutonium-239, uranium-235, and uranium-238, (E), 22:37340(R) (EANDC(E)-89(U))
emission in fast neutron fission, dependence on fission-fragment energy and yield, (E/T), 22:18348
emission in fast neutron fission, probability of, (E), 22:18290
emission in low-energy fission, (T), 24:18461
emission in neutron fission of uranium-235 at 0.04 to 1.0 MeV, (E), 21:31798
emission in proton fission of uranium-233 and uranium-238 at medium excitation energies, (E), 22:50601 (ORNL-TM-2272)
emission in proton fission of uranium-233, (E), 23:1900
emission in proton fission of uranium-235, (E), 21:31834(R) (ORNL-4082)
emission in thermal neutron-induced fission of plutonium-239, plutonium-241, uranium-233, and uranium-235, (E), 21:29954 (AAEC/E-172)
emission in uranium-235 thermal neutron fission, (E), 22:9899
emission of, dependence on fission product mass, (T), 21:29982
energy in spontaneous and thermal neutron-induced fission, calculation of average, (T), 22:32652
fields in fast pulsed subcritical assemblies, analytical description of asymptotic time decay of, 23:37765
generation time in Spert III E-core, 21:19464(R) (IDO-17207)
generation time of, ratio of total delayed yield to, 21:35648 (NAA-SR-11850)
kinetic parameters of, calculation of, 21:30197
kinetics equations for spherical-cavity reactory, age-diffusion theory approximation of, 21:42755
lifetime calculations for fast reactors, 21:38556
lifetime in BWR and PWR, effects of use of plutonium fuel on, 22:22658 (BNWL-475)
lifetime in deuterium reflectors, 22:6167
lifetime in fast assemblies at delayed critical, (E/T), 23:31206
lifetime in fast critical assemblies, calculation method for mean, (E/T), 24:31127 (SRARI-P-53)
lifetime in fast reactors, LAMB code for calculation of, 23:21550 (WCAP-7082)
lifetime in in-core thermionic thermal reactors, (T), 25:20825
lifetime in plutonium fueled water moderated lattices, ratio of effective delayed neutron fraction to, (E/T), 25:23413
lifetime measurements for ZPR-9 Assemblies 6—9, 21:44930 (ANL-7208)
lifetime measurements in AARR by Rossi—alpha technique, 21:30091(R) (ANL-7210)
lifetime measurements in fast critical assemblies, 21:35699 (ANL-7320, pp 706-13)
lifetime measurements of, in BN-350 type critical assembly, 22:18570
lifetime measurements using statistical and 1/V methods, (E), 23:11293 (RCN-98, pp 219-28)
lifetime of fast reactor, design parameters of Rossi—α time correlator for, 24:16325
lifetime of MOATA (Argonaut-type) reactor, analysis of mean, 23:11268 (AAEC/TM-481)
lifetime of, comparison of definitions for, (T), 25:12856
lifetime of, definition using Fuchs model, (T), 23:13578
lifetime of, effects of moderating materials on, 21:38569
lifetimes in reactors, measurement using Rossi α method, 21:27739
multiplication factor of reflected subcritical assembly using, new method for calculating, (T), 21:44867
multiplication factors for, formulation of correlated neutron triplets for determination of, 23:34938
multiplication measurements using Rossi-α method, correlation term in, (T), 21:40357
noise analysis in reactor external control loop, (T), 23:13573 (KFK-786)
noise for zero power range in Otto Hahn Reactor, calculation of, 22:46986
period calculations of multiple reactor systems and states, count conditional probability methods for, (T), 23:2108
production in neutron fission of plutonium-239 and uranium-235, spectra and relative yields from, (E), 25:39052
reactions (n,f) with uranium-238, production of fermium isotopes by, 21:12440 (LA-DC-8152)
Rossi α measurements using deadtime first moment technique, (T), 23:5755
Rossi-α experiments in light water-moderated natural-uranium subcritical assemblies, space-dependent effects in, (E/T), 23:1770
spectra from meson (μ^-) capture by bismuth-209 and lead-206, (E), 25:33075
spectra from neutron-induced and spontaneous fission, review of, 25:20362 (ANL-7747)
spectra in 2-zone fast subcritical systems, 2-point kinetic model for time-dependent analysis of, (E/T), 24:36070
spectra in fast critical assemblies, effects on MACH-1 code central worth and criticality calculations of, 24:47934 (ANL-7610, pp 465-537)
spectrometer for, design of time-of-flight, 22:21336 (PINSTECH/PHY-6)
time-dependent uncorrelated term, analysis of Rossi-α background count, (E/T), 22:42562
transport between subcritical coupled uranium cylinders, 21:23725 (ORNL-P-2854)
yield dependence on bombarding energy for neutron fission of thorium-232 and uranium-235 and -238 at energies up to 6 MeV, energy-balance analysis of, (T), 25:20440
yield of, effects of fission-delayed gamma rays on scintillation detector measurements of average, 23:16113
yield per fission, cadmium-loaded liquid scintillation detector measurement of average, 24:39218 (JINR-P3-5119)
yields from neutron fission of uranium-235 at 0.1 to 1.5 MeV, (E/T), 25:36786
yields from photofission for isotopic analysis, 23:4018
yields from photofission of plutonium-239, uranium-235, and uranium-238, (E/T), 23:10997 (GA-8812)
yields from uranium-232, plutonium-238, plutonium-241, americium-241, americum-242, curium-243, and curium-245 thermal fission and curium-244 spontaneous fission, 24:38283
yields of plutonium-239, summary of, (E), 25:20363 (AWRE-O-86/70)
NEUTRONS, THERMAL
(Neutrons in equilibrium with the medium through which they are diffusing; at 15°C their energy is 0.01 to 0.1 eV.)
absorbed dose in air, concrete, and water, (T), 21:18792
absorption and capture resonance integrals and self-shielding factors for uranium-236, (T), 22:24876
absorption and fission cross sections and resonance integrals for neptunium-237, plutonium-238, and uranium-235, (E), 22:27089 (DP-MS-67-118)
absorption and fission cross sections for plutonium-239 and plutonium-241, (E), 23:37233
absorption and fission resonance integrals for uranium-236, (E), 22:27089 (DP-MS-67-118)
absorption and multiple scattering in thin targets, Monte Carlo calculation of, 23:30917

absorption by aluminum-27, copper, and Zircaloy-2, cross sections for, (E), 23:8954 (AECL-3073)
absorption by beryllium-9, cross section for, 23:5746 (AEEW-M-790)
absorption by boron, cadmium, and samarium, cross sections for, (E), 23:7208 (EIR-139)
absorption by boron-10 and lithium-6, cross sections for, (E), 24:40550 (WASH-1136)
absorption by boron-10, cross sections for, 21:31723
absorption by cadmium filters for flux spectral hardening, 21:27674 (GEAP-5035)
absorption by cesium-133, resonance parameters for, (E), 23:42942
absorption by cobalt-59, cross section and resonance integral for, (E), 23:7242 (AAEC/TM-466)
absorption by cobalt-59, cross section for, (E), 24:30726
absorption by cobalt-59, cross section for, (E), 22:50558 (AEEW-R-597)
absorption by europium, cross section evaluation for use as plutonium simulator and spectral index, (E), 23:37067 (RT/FI-(68)52)
absorption by fission products, statistical calculation of cross sections and resonance integrals for, (T), 21:7817
absorption by gold foils, internal conversion and gamma corrections for detectors for measuring activation by, 22:21325
absorption by gold-197, indium-115, and rhenium-185, resonance interference in, (E), 21:15599
absorption by gross fission products of uranium-233, uranium-235, and plutonium-239, cross sections for, (E/T), 25:15100
absorption by heavy water, cross section for, (E), 23:21221
absorption by lithium-6 and boron-10, cross sections for, (E), 24:22080
absorption by lithium-6, cross section for, (E), 24:47637 (ANL-7610, pp 1-59)
absorption by manganese-54, cross section for, 25:41215
absorption by natural silicon, cross sections for, (E), 24:28727 (AEEW-M-887)
absorption by niobium-94, cross section for, (E), 25:48073 (IN-1407, pp 1-82)
absorption by nuclei Z = less than or equal to 40, calorimetric determination of, 24:33830
absorption by oxygen, cross sections for, 23:5746 (AEEW-M-790)
absorption by plutonium-239 and uranium-235, γ energies and intensities from, (E), 25:41250
absorption by plutonium-241, measurement of fission neutron number eta for, (E), 23:5927
absorption by plutonium-242, cross section for, (E), 22:37341 (IN-1132)
absorption by silicon-28, silicon-30, and natural silicon, cross sections, resonance integrals, and resonance parameters for, 24:10938 (AEEW-M-933)
absorption by stainless steel control rods, optimum lanthanide content for, 21:26778(P)
absorption by uranium-235, γ energy spectra above 1 MeV from, (E), 24:3953(R) (ORNL-4433)
absorption by uranium-238, cross section for, 23:40076
absorption cross section and diffusion cooling factor for water system with hollow cylindrical channels, (E), 24:18351
absorption cross section and resonance integral for plutonium-238, (E), 22:3710
absorption cross section for heavy water molecules, (E), 23:42842
absorption cross section for scandium-45, (E), 21:40432 (WASH-1074)
absorption cross section measurement using oscillator method, (E/T), 21:17530
absorption cross sections and resonance integrals for ytterbium-168, -170, -171, -172, -173, -174, and -176, (E), 22:20562 (BNL-12263)
absorption cross sections and resonance integrals for americium-243, berkelium-249, californium-250, californium-252, curium-244, curium-245, curium-246, einsteinium-253, and plutonium-242, (E), 22:20567 (DP-MS-67-112)
absorption cross sections for europium, lutetium, and ytterbium, (E), 21:38303
absorption cross sections for fission products in reactor spectra, computer program for, (T), 22:20404 (CONF-680307-16)
absorption cross sections for gross fission products of uranium-235, (T), 25:15099
absorption cross sections for neptunium-238 and uranium-237, (E), 22:27089 (DP-MS-67-118)
absorption cross sections for odd—even nuclei, empirical approach to systematics of, (T), 23:4055 (NRL-6783)
absorption cross sections for plutonium-238, (E), 21:29960 (IN-1026)
absorption cross sections for plutonium-239, (E), 23:37234
absorption cross sections for promethium-149 and promethium-151, (E), 22:20405 (CONF-680307-17)
absorption from mixed radiation field of reactor used as γ irradiation facility, 21:21795(P)
absorption in clusters of plutonium recycle fuel elements, ratio of asymptotic flux at fuel element surfaces to, (E/T), 24:53001(R) (MIT-3944-4)
absorption in clusters of plutonium recycle fuel elements, ratio of fast neutron emission to, (E/T), 24:53001(R) (MIT-3944-4)
absorption in concretes, 24:37528 (JUL-603-ST, pp 213-22)
absorption in cylindrical and spherical neutron sources, computer program for calculation of, (T), 25:48001 (NBS-TN-576)
absorption in lanthanum and nitrogen, spin dependence of, 23:46900
absorption in plutonium and uranium isotopes, accurate g-factors for calculation of, (T), 24:1720 (AECL-3255)
absorption in reactor fuel, ratio of asymptotic flux at fuel element surfaces to, (E/T), 24:53000(R) (MIT-3944-1)
absorption in reactor fuel, ratio of fast neutron emission to, (E/T), 24:53000(R) (MIT-3944-1)
absorption in self-shielded bodies of gadolinium oxide, computer programs for depletion calculations on, (T), 23:1759 (RD/B/N-1042)
absorption in stainless steel, γ spectra for, (E), 23:46943 (ORNL-4382)
absorption in tissue-equivalent phantoms, computer calculation of cross sections for, 25:32493
absorption in uranium, conversion ratio for, (E), 23:40076
absorption in uranium-233, neutron yield from, (E), 25:15071
absorption in uranium-238, γ spectra above 1 MeV from, (E), 24:6911
absorption in water, effects of boric acid on, (E/T), 23:13466 (AERE-R-5773(Vol.3), pp 710-35)
absorption material for, description of multi-layer concentric cylinder, 22:14283(P)
absorption of polarized, nuclear polarization by, 21:4340
absorption of, use for determining cadmium content of ores, 22:4494
absorption parameters for reactor fission product buildup, use of Nephew's principle for determining, 24:5560 (CISE-R-111)
absorption resonance integrals and cross sections for, measurement using oscillation method, (E), 21:4267
absorption resonance integrals for americium-241 and neptunium-237, (E), 25:10019 (BNL-50242)
age determination for, method for, (T), 25:59686
angular distribution behind curved totally reflecting collimator slit, 21:26306
angular distribution in non-isotropic fluxes of, calculations from gold-sphere activation data, 21:30091(R) (ANL-7210)
angular distributions from fission-neutron slowing down in slab geometry, (E/T), 21:11684
anisotropy in inhomogeneous blocks of graphite, (E), 21:13786 (NP-16499)
applications in radiobiology, 23:45609 (CNM-R-2(Vol.2), pp 797-825)
attenuation by plastic—steel layers, effects of hydrogen inclusions and thickness variations on, 22:277
attenuation factors for gold-197, (E), 21:44669 (NAA-SR-12499)
attenuation in cadmium and indium during radiography, 23:50694
attenuation in concrete shielding, effects of iron contents on, (E), 25:57027 (RCN-147)
attenuation in iron layers in water, 21:13617
attenuation in moving media, deformation spectra from, (T), 25:12350
attenuation in serpentine sand, measurements of, 21:10135
attenuation in shielding materials, (E), 25:18171 (CEA-N-1386)
beam density of, corrections in gold-foil activation method for measurement of, 21:26171
beam density of, use of helium-3 proportional counter for measurement of, 21:26170
beam intensity measurements using helium-3 proportional counters and gold foil activation, 22:5708 (RISO-144)
beam production using thermal reactors, physics research using, 21:17278
behavior in ducted shields, 21:11687
bonding to electrons in lithium fluoride crystals, search for chemical, 24:40619(R) (RLO-2060-8)
book: Low-energy Neutron Physics, 22:50519
book: Neutrons in Radiobiological Experiments, 21:38869
book: Polarized Slow Neutrons, 21:29861
book: Scattering of Thermal Neutrons, 23:21232
book: Theory of X-Ray and Thermal Neutron Scattering by Real Crystals, 21:31495
book: Theory of X-Ray and Thermal-Neutron Scattering by Real Crystals, 23:44501
book: Thermal Neutron Diffraction, 24:35799
buckling determination in beryllium oxide (BeO) assemblies, pulsed neutron method for, (T), 22:14273
calculation of parameters in water-moderated reactors for, computer, 21:44829 (EUR-3610.f)
calculation of reactor physics constants for, computer program for, 25:60225 (JAERI-Memo-4394)
capture by 26 elements, gamma yield tables for, 24:49692 (WANL-TME-2713)
capture by 27 elements and isotopes, mean gamma multiplicity from, (E), 24:10983
capture by A = 115 to 197 nuclei, cross-section data evaluation for activation detectors, 23:3995 (BLG-421)
capture by A = 147 to 173 nuclei, cross sections and resonance integrals for, (E), 25:36735 (SGAE-PH-104/1971)
capture by A = 23 to 133 nuclei, activation cross sections and resonance integrals for, (E), 24:28759
capture by A = 23 to 174 nuclei, cross sections and spectra from, (E), 25:43891(T) (RFP-Trans-78)
capture by A = 35 to 201 nuclei, γ spectra from, 24:5399 (CEA-R-3602)
capture by A = 39 to 205 nuclei, γ spectra from, (E), 23:1882 (WASH-1093)
capture by A = 45 to 243 nuclei, cross section calculation using Monte Carlo selection of reduced neutron widths, 22:14026
capture by A = 69 through 198 nuclei, cross sections and resonance integrals for, (E), 25:46000
capture by A = 69 to 86 nuclei, cross sections for, (E), 21:35437(R) (EANDC(E)-76(U))
capture by aligned cobalt-59, gamma spectra from, (E), 23:34755
capture by aligned samarium-149, anisotropy of γ spectra from, (E), 24:3937
capture by aluminum and iron, gamma spectra from, (E/T), 21:46643(R) (ORNL-4134)
capture by aluminum-27 and sodium-23, γ spectra for, 23:34767
capture by aluminum-27, cobalt-59, molybdenum-95, and samarium-149 using polarized beams, γ circular polarization for, (E), 23:10992
capture by aluminum-27, γ spectra for, (E), 23:19225
capture by aluminum-27, γ spectra for, (E), 23:34735 (ANL-7282, pp 14-18)
capture by americium-241 and -243, cross sections and resonance integrals for, (E), 22:14004(T) (BNL-tr-175)
capture by americium-241 with isomeric excitation, cross section for, (E), 23:47021
capture by americium-241, cross section for, (E), 23:28300 (NP-17819, Chap.3.2)
capture by americium-243, berkelium-249, californium isotopes, curium isotopes, and plutonium-242, cross sections and resonance integrals for, 22:39627 (BNL-50082, pp 19-24)
capture by antimony-121 and antimony-123, 25:5724
capture by antimony-121 and antimony-123, γ spectra from, (E), 23:17103(R) (ANL-7481)
capture by antimony-121, antimony-123, copper-63, and copper-65, γ spectra from, (E), 22:5809(R) (ANL-7354)
capture by antimony-123, cross section for production of 60-day antimony-124 isomer by, (E), 21:38316
capture by argon, gamma spectra from, 22:14836
capture by argon, γ spectra from, (E), 22:50564
capture by argon, use of lithium-drifted germanium spectrometers for measuring gamma spectra from, 21:43253
capture by argon-40, activation cross section for, (E), 23:23659
capture by argon-40, gamma spectra from, 21:33925
capture by arsenic-75 and iodine-127, γ singles and coincidence spectra from, (E), 22:50641
capture by arsenic-75, arsenic-76 energy levels from, (E), 22:20557
capture by arsenic-75, gamma spectra from, (E), 22:32547
capture by arsenic-75, γ spectra from, (E), 21:42590
capture by arsenic-75, high-energy gamma spectra from, (E), 23:37161
capture by barium and neodymium isotopes, γ spectra for, (E), 23:11030
capture by barium, calcium, potassium, silicon, and sodium-23, γ spectra for, (E), 23:37162
capture by barium, mercury, palladium, tin, and xenon isotopes, cross sections for, (E), 22:22608
capture by barium-132 and -134, cross sections and gamma spectra from, 25:20439
capture by barium-135, -137, -139 and cerium-139, -141, -143, gamma spectra from, (E), 24:13389
capture by barium-135, barium-137, and barium-138, γ spectra from, (E), 23:1882 (WASH-1093)
capture by barium-135, gamma spectra from, (E), 23:42949
capture by barium-135, xenon-124 and xenon-126, activation cross sections and resonance integrals for, (E), 22:46768 (NYO-3664-6)
capture by barium-135, xenon-124, and xenon-126, activation cross sections and resonance integrals for, (E), 23:13295
capture by barium-137, germanium-73, and tellurium-123, γ spectra from, (E), 23:17103(R) (ANL-7481)
capture by barium-138, cerium-140, or lanthanum-139, gamma spectra from, (E), 24:47592
capture by barium-138, cross section for, (E), 23:28304 (WASH-1124)
capture by barium-138, γ spectra for, (E), 23:37279
capture by beryllium-9 and sodium-23, beryllium-10 and sodium-24 neutron binding energies from, (E), 21:4218
capture by beryllium-9, γ energies in, (E), 21:40675(R) (IN-1083)
capture by beryllium-9, nitrogen-15, and sodium-23, γ spectra for, (E), 23:34719 (ANL-7282, pp 303-11)
capture by bismuth-209, gamma spectra from, (E), 24:47576
capture by boron and cadmium nuclei, measurement of γ-quanta from, 22:6286
capture by boron-10 and nitrogen-14, recoil broadening of secondary transitions in gamma-ray cascades from, (E), 23:42863
capture by boron-10, carbon-12, and carbon-13, γ spectra for, (E), 23:34718 (ANL-7282, pp 84-8)
capture by bromomethanes, yields of bromine-82 and isomeric bromine-80-labeled compounds from, 23:40719
capture by cadmium, cross section for, (E/T), 22:9874
capture by cadmium-113 and samarium-149, γ spectra for, (E), 23:34789
capture by cadmium-113 in cadmium telluride, recoil defects produced by, 24:28416
capture by cadmium-113 using polarized beams, γ asymmetry coefficient for, (E), 24:10985 (KFK-986)
capture by cadmium-113, calcium-40, cobalt-59, lead-207, potassium-39, and titanium-48 using polarized beams, γ circular polarization for, (E), 23:13248
capture by cadmium-113, gamma spectra from, (E), 21:23534(R) (ANL-7246)
capture by cadmium-113, high-energy γ spectra and K-conversion coefficients for, (E), 23:17103(R) (ANL-7481)
capture by cadmium-113, parity nonconservation in gamma asymmetry from, (E), 23:42710
capture by cadmium-113, test of parity violation from asymmetry coefficient in angular distribution of gamma rays from, (E), 23:51971
capture by cadmium-116, cross section for production of isomeric cadmium-117 by, (E), 21:1104
capture by cadmium-133, γ asymmetry in, (E), 22:22591 (RISO-167)
capture by calcium isotopes, cross sections for, (E), 21:7773 (UCID-15036)
capture by calcium, calcium-42, calcium-43, and calcium-44, cross sections for, (E), 21:12027(R) (UCRL-50001-66-2)

capture by calcium, chromium, cobalt, lead, mercury, sulfur, and titanium using polarized beams, γ circular polarization from, (E), 22:37340(R) (EANDC(E)-89(U))
capture by calcium-40 and calcium-46, gamma spectra from, (E), 25:12491
capture by calcium-40, -42, -43, -44, -46, -48, and natural calcium, cross sections for, (E), 25:43835
capture by calcium-40, calcium-41 energy levels from, (E), 21:42592
capture by calcium-40, calcium-42, calcium-43, calcium-44, and calcium-48, gamma spectra from, (E), 24: 47584
capture by calcium-40, gamma spectra and Q-value of, (E), 24:40572 (NP-18290)
capture by calcium-41, calcium-49, chromium-53, and iron-57, cross-section calculation using Saxon—Woods potential for direct, (T), 23:19232
capture by calcium-42 and -43, gamma spectra from, (E), 23:38300 (UCRL-71676)
capture by calcium-42 and -44, gamma spectra from, (E), 25:50667 (UCRL-51060)
capture by calcium-44, calcium-45 energy levels from, 21:42592
capture by calcium-44, gamma spectra and Q-value for, (E), 22:37321
capture by calcium-44, γ—γ angular correlation measurements of, (E), 23:44873
capture by calcium-44, nickel-62, thallium-203, thulium-169, ytterbium-168, and ytterbium-174, cross sections and resonance integrals for, (E), 25:1731
capture by calcium-48, γ spectra for, (E), 24:1811
capture by californium-252 in the FR2 reactor, cross section and resonance integral for, (E), 25:50721 (KFK-1338)
capture by californium-252, cross section and resonance integral for, (E), 23:1880 (ORNL-4306, pp 22-45)
capture by californium-252, cross section and resonance integral for, (E), 23:42935
capture by californium-253, cross sections for, (E), 24: 1823 (ORNL-4437, pp 20-39)
capture by californium-253, cross sections for, (E), 24: 52569
capture by carbon-13, fluorine-19, magnesium-24, magnesium-25, and magnesium-26, γ spectra from, (E), 22:5809(R) (ANL-7354)
capture by cerium-140, gamma spectra from, (E), 25: 12551
capture by cerium-140, γ spectra from, (E), 22:35293(R) (ORNL-4230)
capture by cerium-140, neodymium-143, lanthanum-139, γ circular polarization from thermal, (E), 25:36751
capture by cerium-140, potassium-39, potassium-40, rhenium-185, rhenium-187, thallium-203, thallium-205, tin-112, tin-114, and tin-115, γ spectra from, (E), 22: 20576 (ORNL-TM-2159)
capture by cesium-133 and iodine-127, γ singles and delayed coincidence spectra from, (E), 24:8905
capture by chlorine and cadmium, gamma spectra from, (E), 25:14932
capture by chlorine, γ spectra from, (E), 23:19254(R) (ORO-3624-7)
capture by chlorine, nickel, stainless steel, sulfur, and zinc, γ spectra from, (E), 24:6861
capture by chlorine-35 and silicon-28, γ energies for, (E), 23:34740 (ANL-7282, pp 319-25)
capture by chlorine-35 at 405 eV, gamma spectra from resonance, (E), 21:17323 (UJV-1705)
capture by chlorine-35, chlorine-36 energy levels from, (E), 22:20557
capture by chlorine-35, cobalt-59, copper-63, iron-56, manganese-55, sulfur-32, and titanium-48 using polarized beams, γ circular polarization by, (E), 23: 21316
capture by chlorine-35, copper, iron, manganese-55, mercury, and thulium-196, γ spectra for, 23:52128
capture by chlorine-35, gamma linear polarization and coincidence spectrum from, (E), 25:59745
capture by chlorine-35, gamma spectra from, (E), 25: 10000 (PH-2)
capture by chlorine-35, gamma spectra from, (E), 25: 31280
capture by chlorine-35, γ spectra from, (E), 24:47622
capture by chlorine-35, γ—γ coincidence spectra for, (E), 23:3782
capture by chlorine-35, γ-γ angular correlations from, (E), 22:3644 (IFA-NR-25)
capture by chromium-50 and chromium-53, gamma coincidence, spectra from, (E), 21:21505
capture by chromium-50, -52, and -53 and iron-54 and -56, gamma spectra from, (E), 25:56683 (FEI-205)
capture by chromium-50, -52, and -53, gamma spectra from, (E), 25:34046
capture by chromium-50, gamma energies from, (E), 21: 7721(R) (AECL-2611)
capture by chromium-52, E1 transitions in, (T), 21: 29916
capture by chromium-53, gamma spectra from, (E), 25: 25672
capture by chromium-53, γ spectra for, (E), 23:34739 (ANL-7282, pp 312-18)
capture by chromium-53, γ spectra from, (E), 23:8960
capture by cobalt-58 and iodine-126, cross sections for, 24:47574(R) (NYO-3417-12)
capture by cobalt-59 and copper-63, cross sections for isomer production, (E), 21:35437(R) (EANDC(E)-76(U))
capture by cobalt-59 and deuterium, cross sections for, (E), 22:46729(R) (AECL-3157)
capture by cobalt-59 and gold-197, γ spectra and cross sections for, (E), 23:37141
capture by cobalt-59 and terbium-159, γ directional correlations and spectra from, (E), 22:32629
capture by cobalt-59, activation cross sections for, (E), 22:50558 (AEEW-R-597)
capture by cobalt-59, circular polarization of gamma radiation from polarized, (E), 24:47585
capture by cobalt-59, cross section for, (E), 22:20497(R) (AECL-3009)
capture by cobalt-59, gamma spectra and angular correlations from, (E), 25:34010 (KFKI-71-14)
capture by cobalt-59, γ spectra and direct mechanism for, (E), 23:15388
capture by cobalt-59, γ-γ coincidence spectra from, (E), 24:15827
capture by cobalt-59, iron-56, and scandium-45, γ spectra from, (E), 24:8856 (AAEC/TM-512)
capture by cobalt-59, osmium-184, osmium-190, osmium-192, zinc-64, and zinc-68, cross sections and resonance integrals for, (E), 23:1853
capture by copper, γ spectra from, (E), 25:48069 (BNL-50276)
capture by copper-63 and copper-65, gamma spectra from, (E), 21:23534(R) (ANL-7246)
capture by copper-63 and copper-65, γ spectra from, (E), 22:29955
capture by copper-63, copper-65, and iron-56, γ spectra from, (E), 22:35285(R) (AERE-PR/NP-13)
capture by copper-63, gamma spectra from, (E), 24: 47576
capture by copper-64 and scandium-46, effective cross sections for, (E), 23:3963(T) (BNL-tr-224)
capture by copper-65, copper-66 nuclear properties from thermal, (E), 22:5854
capture by copper-66, gold-198, and nickel-65, average cross sections for, (E), 24:47630
capture by curium-245 and -246, cross sections and resonance integrals for, (E), 24:1823 (ORNL-4437, pp 20-39)
capture by deuterium, analysis using Seagrave—Van Oers pole in effective range approximation, (T), 25:1708
capture by deuterium, cross section calculations using zero-range approximation, (T), 22:32480
capture by deuterium, cross section for, (E), 21:2651(R) (AECL-2612)
capture by deuterium, cross section for, (E), 22: 20497(R) (AECL-3009)
capture by deuterium, effects of parity nonconservation in, 23:18946
capture by deuterium, effects of three-body scattering states on, (T), 22:37288
capture by deuterium, parity nonconservation in, (T), 22:53081
capture by deuterium, radiative transitions in, (T), 22: 26793
capture by deuterium, theory of, (T), 23:25800
capture by dysprosium isotopes, erbium isotopes, gadolinium isotopes, and ytterbium isotopes, nuclear level spacings from, (E), 21:25518 (WASH-1071)
capture by dysprosium-163, dysprosium-164 energy-level spins and transitions from, (E), 21:10036
capture by dysprosium-164, dysprosium-165 energy levels from, (E), 21:7796
capture by dysprosium-164, gamma spectrum from, 22: 14832
capture by dysprosium-164, γ spectra from, (E), 21: 46771
capture by elements, table of analytical sensitivities and gamma energies for, 24:30685
capture by erbium, europium, gadolinium, neodymium, and samarium, γ ray yields from, (E), 24:6912
capture by erbium-166, gamma spectra from, 24:47602
capture by erbium-166, γ singles and coincidence spectra from, (E), 24:30817
capture by erbium-166, γ spectra for, (E), 23:34771 (ANL-7282, pp 78-83)
capture by erbium-166, γ spectra from, (E), 21:46756
capture by erbium-167, energy levels of erbium-168 from, (E), 25:15000
capture by erbium-168, niobium-93, uranium-234, and yttrium-89, γ spectra for, (E), 22:20578 (WASH-1079)
capture by erbium-170, hafnium-174, and ytterbium-172, γ spectra and Q-values for, (E), 25:15059
capture by europium-151 and -153, cross sections and resonance integrals for, (E), 22:1663
capture by europium-151 at 0.0253 eV, activation cross section for, (E), 23:5895
capture by europium-151, conversion electron spectrum from, (E), 25:3698
capture by europium-151, gamma spectra from, (E), 25: 12547
capture by europium-151, internal conversion electron coincidence spectra from, (E), 22:44695
capture by europium-151, total and activation cross sections for, (E), 25:50736
capture by europium-152, γ spectra from, (E), 24:11021
capture by even barium and cerium isotopes, γ spectra from, (E), 24:24550(T) (LA-tr-69-29)
capture by even krypton and xenon isotopes, activation cross sections for, (E), 23:3974
capture by fission products, outline of cross section calculations for, 25:7845 (AAEC/TM-549)
capture by fissionable nuclei, gamma spectrometer development for studies of, 24:47639
capture by fluorine-19, fluorine-20 nuclear properties from polarized, (E), 22:5854
capture by fluorine-19, γ spectra for, 23:34737 (ANL-7282, pp 71-7)
capture by fluorine-19, γ spectra for, (E), 23:8949
capture by gadolinium-155 and samarium-149, γ—conversion electron coincidence spectra for, (E), 23: 17118
capture by gadolinium-155, γ and conversion electron spectra for, (E), 23:15460
capture by gadolinium-157 and samarium-149, conversion electron spectra from, (E), 24:15866(T) (BNL-tr-306)
capture by gadolinium-157 and samarium-149, conversion electron spectra from, (E), 25:25754
capture by gadolinium-157 with internal pair production, conversion positron spectra from, (T), 25:31329
capture by gadolinium-157, conversion electron and gamma spectra from, (E), 24:47596
capture by gadolinium-157, γ spectra from, (E), 23: 25901 (IN-1218, pp 73-138)
capture by gallium-69 and -71, gamma spectra from, (E), 25:34017
capture by gallium-69 and gallium-71, gamma spectra from, (E), 21:23534(R) (ANL-7246)
capture by gallium-69 and gallium-71, γ spectra from, (E), 23:17103(R) (ANL-7481)
capture by gallium-69, gallium-71, and scandium-45, γ spectra from, (E), 22:5809(R) (ANL-7354)
capture by gallium-69, γ spectra from, (E), 25:31290
capture by gallium-71, gallium-72 energy-level transitions from, (E), 21:2652(R) (ANL-7198)
capture by germanium, iridium, and manganese-55, γ spectra from, (E), 22:3660
capture by germanium-70, -72, and -73, γ spectra from, (E), 25:1723
capture by germanium-70, -72, and -74, γ spectra from, (E), 24:38190
capture by germanium-70, -74, -76, selenium-76, -78, -80, -82, strontium-84, and zinc-68, -70, cross sections and isomeric cross-section ratios for, (E), 22:15977
capture by germanium-73, gamma spectrum from, 22: 14832
capture by germanium-73, germanium-74 energy levels from, (E), 21:21480 (KFK-510)
capture by germanium-73, γ spectra for, (E), 23:52138
capture by germanium-73, γ spectra from, (E), 23:49398 (WASH-1127)
capture by germanium-73, Q-value, excitation energies, and energies and intensities of γ rays from, (E), 25: 28258
capture by germanium-75, osmium-190, and platinum-196, determination of cross sections from second-order reaction products, (E), 25:10040
capture by gold-197 high-energy γ spectra from, (E), 24: 52339
capture by gold-197, conversion-electron spectrum from, (E), 21:25551
capture by gold-197, gamma spectra from, (E), 25:48101
capture by gold-197, γ spectra and resonance widths for, (E), 22:50610
capture by gold-197, γ spectra from, (E), 22:50610
capture by gold-197, manganese-55, and even—even A = 152 through 168 nuclei, γ singles and coincidence spectra for, (E), 23:28302 (SGAE-PH-78/1968)
capture by gold-197, manganese-55, tantalum-181, and vanadium-51, γ spectra from, (E), 22:9921 (JUL-Conf-1)
capture by gold-198, cross section for, (E), 23:23718
capture by hafnium-176, -178, and -180, gamma spectra from, (E), 21:35485
capture by hafnium-176, hafnium-178, hafnium-180, tantalum-181, and yttrium-89, γ spectra from, (E), 22: 5809(R) (ANL-7354)
capture by hafnium-177, conversion electron spectra from, (E), 25:31336
capture by hafnium-177, γ and conversion electron spectra from, (E), 25:48108
capture by hafnium-177, γ singles and coincidence spectra for, (E), 23:13288
capture by hafnium-177, hafnium-178 energy-level transitions from, (E), 21:23534(R) (ANL-7246)
capture by hafnium-178 and hafnium-180, γ spectra for, (E), 23:34773 (ANL-7282, pp 341-54)
capture by hafnium-178 and hafnium-180, γ spectra from, (E), 23:1882 (WASH-1093)
capture by hafnium-178 and hafnium-180, hafnium-179 and hafnium-181 energy-level transitions from, (E), 21:23534(R) (ANL-7246)
capture by hafnium-178, hafnium-179 energy levels from, (E), 21:46738
capture by hafnium-179, cross section for production of isomeric hafnium-180, 21:35477
capture by hafnium-179, γ spectra from, (E), 23: 17103(R) (ANL-7481)
capture by hafnium-179, hafnium-180 energy-level transitions from, (E), 21:23534(R) (ANL-7246)
capture by holmium-165, (E), 25:3691
capture by holmium-165, cross section and resonance integral for, (T), 22:39627 (BNL-50082, pp 19-24)
capture by holmium-165, cross section for, (E), 22: 14028
capture by holmium-165, γ spectra for, (E), 23:34774 (ANL-7282, pp 355-74)
capture by hydrogen, computer analysis of gamma spectrum from, 23:50536
capture by hydrogen, effect of form factor in calculation of γ circular polarization from, (T), 25:20423
capture by hydrogen, gamma energy from, (E), 21: 33876
capture by hydrogen, parity nonconservation from γ circular polarization in, (E), 24:30443
capture by hydrogen, test for determination of S-triplet part of, 25:53535
capture by indium, mercury, and platinum, γ spectra from, (E), 23:23746(R) (AECL-3257)
capture by indium-113, isomeric cross-section ratio for, (E), 22:26935
capture by indium-115 and rhodium-103, isomeric cross section ratios for, (T), 23:19266
capture by indium-115, E1 and M1 transitions in, (E), 23:23690
capture by indium-115, gamma spectra from, (E), 24: 47591
capture by individual nuclei, mixtures, and gold ores, gamma spectra from, (E), 25:22992
capture by iodine-127, gamma spectra and Q-value for, (E), 25:25791
capture by iridium-191 and iridium-193, γ spectra from, (E), 25:46039
capture by iridium-193, cross section and γ spectra for, (E), 22:42044
capture by iron and titanium, measurements of γ spectra using lithium-drifted germanium detectors, (E), 23: 1830

capture by iron, excitation of energy levels in 6- to 9-MeV region by gamma rays from, (E), 25:15002
capture by iron, gamma spectra from, (E), 25:36692 (UARAEE-103)
capture by iron, invariant imbedding method for transport equation for γ production and propagation from, 24:28676(T) (ORNL-tr-2288)
capture by iron, invariant plunging method for studying, 23:39528
capture by iron-54, use of lithium-drifted germanium spectrometers for measuring gamma spectra from, 21:43253
capture by iron-56, copper-63, and lead-207, Q-values for, (E), 21:42591
capture by iron-56, gamma spectra from, (E), 25:31270
capture by iron-56, γ spectra from, (E), 22:18168
capture by iron-56, partial cross sections for, (E), 23:1882 (WASH-1093)
capture by iron-56, sodium-23, and thorium-232, γ spectra and radiative widths for, (E), 22:20498 (BNL-12268)
capture by iron-56, zinc-64, and zinc-67, circular polarization of gamma rays from, (E), 22:7671
capture by iron-57 and -58, γ-γ coincidence spectra from, (E), 24:15843
capture by iron-57 and nickel-61, γ spectra from, (E), 22:3698 (KFK-616)
capture by iron-57 and nickel-61, γ spectra from, (E), 22:37340(R) (EANDC(E)-89(U))
capture by iron-57, γ singles and coincidence spectra and angular correlations for, (E), 23:25882
capture by iron-57, γ spectra from, (E), 22:1620
capture by iron-57, γ-γ angular correlations for, (E), 24:1788
capture by isomeric cobalt-58, cross section and resonance integral for, (E), 23:3963(T) (BNL-tr-224)
capture by isomeric cobalt-58, cross section for, (E), 22:44674
capture by krypton and xenon isotopes, cross sections for, (E), 24:26596(R) (BARC-401)
capture by krypton-80, cross section for, (E), 25:56691
capture by lanthanum-139, γ singles and coincidence spectra from, (E), 25:7882
capture by lead-204, lead-205 energy-level spins and transitions from, (E), 21:12059
capture by lead-207, resonance effects in, (T), 25:12562
capture by light nuclei, measurement of Doppler broadening of high energy, γ lines from, (E), 23:17103(R) (ANL-7481)
capture by lithium-6 and boron-10, cross-section measurements using pulsed-beam techniques, (E), 25:53595 (CONF-701002-, pp 129-35)
capture by lithium-6, carbon-12, fluorine-19, and iron-56, gamma spectra and Q-values for, (E), 22:29930
capture by lithium-7, lithium-8 nuclear properties from polarized, (E), 22:5854
capture by lutetium, gamma spectra from, (E), 24:38255
capture by lutetium-175 and -176, γ spectra from, (E), 24:10996
capture by lutetium-175, gamma spectra from, (E), 24:47576
capture by lutetium-175, γ singles and coincidence spectra from, (E), 24:15919
capture by lutetium-176, gamma and conversion-electron spectra from, (E), 25:23037
capture by lutetium-176, gamma and conversion-electron spectra from, (E), 25:56762
capture by lutetium-176, γ spectra from, (E), 25:28424
capture by lutetium-176, motion-induced, temperature-independent effects on, (E), 25:34109
capture by lutetium-176, production of isomeric lutetium-177 in, (E), 21:25556
capture by magnesium isotopes, energy levels from, (E), 21:42591
capture by magnesium stannate, chemical analysis and Moessbauer measurements on, 23:11553
capture by magnesium, γ spectra from, (E), 25:1724
capture by magnesium-24, gamma spectra from, (E), 24:47568
capture by magnesium-25, gamma spectra and Q-value of, (E), 24:10947
capture by manganese-55 and tantalum-181, γ spectra for, (E), 23:49398 (WASH-1127)
capture by manganese-55 and tantalum-181, γ spectra from, (E), 24:40608 (IN-1317, pp 69-151)
capture by manganese-55, direct reaction mechanism in, (E), 22:24843
capture by manganese-55, energy dependence of partial cross sections for resonance, (T), 21:15535
capture by manganese-55, γ spectra and Q-value for, (E), 25:7823
capture by mercury-196 and mercury-202, cross sections and resonance integrals for, (E), 22:27130
capture by mercury-199, gamma spectra from, (E), 21:23516
capture by mercury-199, γ spectra and γ—γ angular correlations for, (E), 23:42940
capture by molecular hydrogen, calculation of cross section for, (T), 24:10912
capture by molybdenum-95 and molybdenum-97, gamma spectra from, (E), 24:47590
capture by molybdenum-95, γ singles and coincidence spectra and angular correlations for, (E), 25:12598
capture by molybdenum-95, molybdenum-97, neodymium-143, and neodymium-145, γ spectra from, (E), 22:46729(R) (AECL-3157)
capture by molybdenum-97, gamma spectra and Q-value for, (E), 25:25792
capture by molybdenum-98, rubidium-85, selenium-74, and zinc-64, cross sections and resonance integrals for, (E), 22:9815
capture by natural argon, gamma spectra from, (E), 25:17850
capture by natural calcium, gamma spectra from, (E), 24:40572 (NP-18290)
capture by natural platinum, γ spectra for, (E), 23:5880
capture by natural selenium and titanium, gamma spectra from polarized, (E), 25:53704
capture by natural titanium, γ spectra for, (E), 22:48476 (IA-1102)
capture by neodymium isotopes with A = 142 through 146, γ spectra for, (E), 23:13276
capture by neodymium isotopes, gamma spectra from, (E), 24:26639(T) (LA-4063-tr)
capture by neodymium-142, neodymium-143, neodymium-144, and neodymium-145, cross-section measurements using mass spectrometry, (E), 22:39662
capture by neodymium-143 and neodymium-145, γ spectra for, (E), 23:19258
capture by neodymium-143, -145, natural neodymium, samarium-147, -152, and natural samarium, gamma spectra from, (E), 25:3651 (NP-18485)
capture by neodymium-143, conversion electron spectra from, (E), 24:30751(T) (ANL-Trans-824)
capture by neodymium-143, conversion electron spectra following, (E), 24:35885
capture by neodymium-145, conversion electron spectra from, (E), 24:30750(T) (ANL-Trans-823)
capture by neon, γ spectra from, (E), 22:29950
capture by neon-20 and -22, cross sections, gamma spectra, and Q values for, (E/T), 25:28257
capture by neon-20 and neon-22, cross sections for, (E), 22:29950
capture by neon-20, -21, and -22 and nitrogen-14, cross sections and Q values for, (E), 25:28275
capture by nickel and nickel isotopes, cross sections and resonance integrals for, 23:5746 (AEEW-M-790)
capture by nickel, sodium, stainless steel, and tantalum, gamma spectra from, (T), 21:21011
capture by nickel-58 and nickel-62, γ spectra from, (E), 23:17103(R) (ANL-7481)
capture by nickel-58, nickel-60, and nickel-62, gamma spectra from, (E), 21:33940
capture by nickel-58, valency-neutron-model calculations of gamma intensities from, (T), 25:53665
capture by nickel-60 and nickel-62, γ spectra from, (E), 22:37340(R) (EANDC(E)-89(U))
capture by nickel-60, gamma spectra from, (E), 24:47586
capture by nickel-61, gamma spectra from, (E), 24:47587
capture by nickel-64 and nickel-65, cross sections for, (E), 23:21756
capture by nickel-64, γ-γ coincidence spectra from, (E), 24:15842
capture by niobium and zirconium, gamma spectra from, (E), 21:38315
capture by niobium-93 and niobium-94, cross sections and resonance integrals for, (E), 23:1879 (ORNL-4306, pp 1-21)
capture by niobium-93, niobium-94 energy levels and configurations from, (E), 22:29999
capture by nitrogen-14, gamma spectra from, (E), 24:47567
capture by nuclei with A = 23 to 127, cross sections for, (E), 21:7759
capture by nuclei with isomeric excitation, relative probabilities for, (T), 22:14113
capture by nuclei with isomeric excitation, relative probabilities for, (T), 22:20666 (FEI-79)
capture by nuclei, analysis of gamma radiation from polarized, (T), 25:43831 (INR-1262)
capture by nuclei, channel theory of resonance, 24:47671
capture by nuclei, circular polarization measurements of gamma rays from, 23:46944 (RCN-105)
capture by nuclei, compilation of γ spectra from, 22:39648
capture by nuclei, cross sections for, (E), 24:50558
capture by nuclei, energy dependence of partial cross sections for, (T), 21:15535
capture by nuclei, experimental arrangement for angular correlation measurements on gamma cascades from, 24:47597
capture by nuclei, for elemental analysis, tables of gamma spectra for radiative, 25:37313
capture by nuclei, gamma resonance scattering from, 21:15510 (CONF-660221-, pp 75-9)
capture by nuclei, γ-γ coincidence methods for studies of, 24:47576
capture by nuclei, instrumentation for measurement of gamma spectra from, 24:47578
capture by nuclei, mechanism of, 21:42717
capture by nuclei, properties of neutron filters for studying, 24:30668 (RT/FI-(69)3)
capture by nuclei, review of experimental methods in, (E), 22:5831
capture by nuclei, statistical-model description of γ-ray intensities from, (T), 25:46110
capture by nuclei, use of lithium-drifted germanium detectors for measuring gamma spectra from, 23:17784 (BLG-425, Paper 4)
capture by nuclei, use of lithium-drifted germanium detectors for studying gamma rays from, 21:34463 (AD-649805)
capture by odd—odd nuclei, transition probabilities for, (E/T), 21:40400 (ZfK-Pha-24)
capture by oriented praseodymium-141, anisotropies of distributions of gamma radiation from, (E), 25:17947
capture by osmium-189, gamma spectra from, (E), 21:29958 (BNL-11426)
capture by osmium-189, gamma spectra from, (E), 24:47599
capture by osmium-189, γ singles and coincidence spectra for, (E), 23:34769 (ANL-7282, pp 19-27)
capture by osmium-190, isomeric cross-section ratio for, (E), 22:44679 (IAN-E-1)
capture by osmium-192, isomeric cross-section ratio for, (E), 23:19312
capture by oxygen-15, particle—hole calculation of cross section for, (T), 23:19185
capture by phosphorus-31 and sodium-23 using polarized beams, γ circular polarization from, (E), 22:39613
capture by phosphorus-31, phosphorus-32 energy levels from, (E), 21:25482
capture by platinum and platinum-195, γ spectra from, (E), 22:27156
capture by platinum in acetylacetonate complexes, isotope effects on recoils from, 25:57489
capture by platinum, γ spectra from, (E), 21:46728(T) (LA-tr-67-80)
capture by platinum-195, γ spectra from, (E), 21:46728(T) (LA-tr-67-80)
capture by plutonium-239 and uranium-233, cross sections for, (E), 23:1882 (WASH-1093)
capture by plutonium-239 and uranium-233, cross sections for, (E), 22:20576 (ORNL-TM-2159)
capture by plutonium-239 and uranium-235, high-energy γ spectra from, (E), 25:15078
capture by plutonium-242, cross section for, (E), 24:26646
capture by polarized terbium-159, angular distribution of γ rays from, (E), 25:5717
capture by potassium-30, gamma spectra from, (E), 25:31292
capture by potassium-39 and potassium-41, gamma spectra from, (E), 24:47569
capture by potassium-39 and potassium-41, γ spectra from, (E), 22:26995
capture by potassium-39, γ spectra from, (E), 24:47624
capture by potassium-39, Moessbauer effect of 29.4-keV γ ray from, (E), 22:5791
capture by potassium-40, γ singles and coincidence spectra from, (E), 25:43845
capture by potassium-41, γ spectra from, (E), 22:35293(R) (ORNL-4230)
capture by praseodymium-141, γ spectra for, (E), 22:50612
capture by praseodymium-141, production cross section for praseodymium-142 from, (E), 21:21538
capture by promethium-147, ground-state and isomeric cross sections for, (E), 25:28373
capture by promethium-148, resonance parameters for, (E), 23:30998 (RPI-328-148, pp 1-17)
capture by prompt- γ rays, review of, 22:4609
capture by protactinium-233, cross section and resonance for, (E), 23:4017
capture by protactinium-233, cross section and resonance integral for, (E), 24:38220 (WAPD-TM-837)
capture by protactinium-233, cross section for, (E), 24:22152 (WAPD-TM-814)
capture by rare-earth isotopes, γ spectra for, (E), 23:37193 (KURRI-TR-10, pp 66-70)
capture by rare-earth isotopes, γ spectra from, (E), 22:50604
capture by rhenium-185 and -187, rhenium-186 and -188 low-lying levels from conversion-electron spectra from, (E), 21:25534
capture by rhenium-185, γ spectra for, (E), 23:31010
capture by rhenium-185, rhenium-187, and tantalum-181, conversion electron spectra from, (E), 23:17103(R) (ANL-7481)
capture by rhenium-187, (E), 21:2751
capture by rhenium-187, conversion-electron spectra from, (E), 22:9895
capture by rhenium-187, γ spectra from, (E), 23:23686
capture by rhodium-103, γ spectra from, (E), 23:1882 (WASH-1093)
capture by rhodium-105, cross section for, (E), 21:35491
capture by rubidium-85, gamma spectra from, (E), 23:42891
capture by rubidium-85, γ spectra and cross section for, (E), 24:18385
capture by rubidium-85, γ spectra from, (E), 23:28304 (WASH-1124)
capture by samarium-147, cross section for, (E), 22:3742
capture by samarium-147, samarium-149, and samarium-152, gamma spectra from, (E), 23:40027
capture by samarium-148, cross section for, (E), 22:44677 (AAEC/TM-443)
capture by samarium-149 and samarium-150, γ spectra from, (E), 23:17103(R) (ANL-7481)
capture by samarium-149 and tantalum-181, conversion-electron spectra from, (E/T), 25:14984 (NP-18536)
capture by samarium-149, conversion electron spectra from, (E), 24:45787
capture by samarium-149, conversion electron spectra from, (E), 23:17103(R) (ANL-7481)
capture by samarium-149, conversion—electron and γ spectra from, (E), 22:30011
capture by samarium-149, γ spectra from, (E), 22:28148
capture by samarium-149, internal conversion electron spectra from, (E), 22:50604
capture by samarium-149, samarium-150 energy levels from, (E), 21:15575
capture by samarium-149, samarium-150, and tellurium-123, γ spectra from, (E), 22:5809(R) (ANL-7354)
capture by samarium-150 and -151, gamma spectra from, (E), 25:53741 (IAE-1976)
capture by samarium-150 and -151, γ spectra from, (E), 25:43892
capture by samarium-152, conversion-electron and γ spectra from, (E), 23:17103(R) (ANL-7481)
capture by samarium-152, cross sections and gamma spectra from, (E), 25:50753
capture by samarium-152, γ and conversion electron spectra from, (E), 24:15927
capture by samarium-152, γ spectra from, (E), 21:40432 (WASH-1074)
capture by scandium-45, gamma spectra from, (E), 24:47576
capture by scandium-45, γ spectra from, (E), 22:26952
capture by scandium-45, γ spectra from, (E), 22:20578 (WASH-1079)
capture by selenium-74 and -76, γ-γ coincidence spectra from, (E), 24:35857
capture by selenium-74, gamma spectra from, (E), 24:43308
capture by selenium-74, selenium-76, and selenium-77, γ spectra for, (E), 23:52121

capture by shielding materials, gamma spectra from, (E), 21:46643(R) (ORNL-4134)
capture by shielding materials, gamma spectra from, (E), 25:3181
capture by silicon, gamma spectra from, (E), 21:25498
capture by silicon-28, silicon-29, or silicon-30, gamma spectra from thermal, 25:17849
capture by silver-107 and -109, γ spectra from, (E), 22:5809(R) (ANL-7354)
capture by silver-107 and silver-109, γ spectra for, (E), 23:34770 (ANL-7282, pp 62-70)
capture by silver-107, silver-108 nuclear properties from polarized, (E), 22:5854
capture by silver-109, gamma spectra from, (E), 21:23534(R) (ANL-7246)
capture by silver-109, γ singles and coincidence spectra for, (E), 23:5869 (ZFK-126)
capture by silver-109, silver-110 conversion-electron spectra from, (E), 22:16024
capture by silver-109, silver-110 nuclear properties from polarized, (E), 22:5854
capture by silver-109, Westcott s/sub O/ factor for, (E), 21:42640
capture by sodium, cross sections for, (E), 24:52482
capture by sodium-22, resonance integrals and cross sections for, (E), 21:19211
capture by sodium-23, aluminum-27, chlorine-37, and vanadium-51 at 0.025 eV, cross sections for, (E), 25:14935
capture by sodium-23, cross section for, (E), 24:33133
capture by sodium-23, cross section for, (E), 24:28739 (RPI-328-185)
capture by strontium carbonate, gamma spectrum from, 22:14832
capture by strontium-86 and -87, gamma energies and intensities from, (E), 24:13314
capture by strontium-87, γ-γ angular correlations from, (E), 22:37340(R) (EANDC(E)-89(U))
capture by strontium-87, strontium-88 γ-γ angular correlations from, (E), 22:3698 (KFK-616)
capture by sulfur, γ spectra from, (E), 24:18394
capture by sulfur-32 and -34, sulfur-33 and -35 energy levels from, (E), 21:23449
capture by sulfur-32, sulfur-33 energy-level spins from, (E), 21:4246
capture by sulfur-34, cross section for, (E), 22:18167
capture by tantalum-181, conversion-electron spectra from, (E), 22:35287(T) (BNL-tr-215)
capture by tantalum-181, energy levels of tantalum-182 from, 24:47615
capture by tantalum-181, gamma spectra from, (E), 21:23534(R) (ANL-7246)
capture by tantalum-181, γ spectra from, (E), 25:43935
capture by tellurium-123, gamma spectra from, (E), 21:27562 (BMwF-FBK-67-20)
capture by tellurium-123, γ spectra for, (E), 23:31034
capture by tellurium-128 with isomeric excitation, activation cross sections and resonance integrals for, (E), 22:32585
capture by tellurium-128, isomeric cross-section ratio and resonance integrals for, (E), 23:8985
capture by thallium-203 and thallium-205, gamma spectra from, (E), 24:47601
capture by thallium-203, cross section and resonance integral for, (E), 23:1879 (ORNL-4306, pp 1-21)
capture by thorium-232, γ energies and intensities for, (E), 25:41249
capture by thulium-169, correlation between reduced neutron and radiative width in, (E/T), 22:20587
capture by thulium-169, γ spectra from, (E), 22:9912
capture by thulium-169, γ spectra from, (E), 22:50604
capture by tin-116, tin-119, tin-122, and tin-124, γ spectra for, (E), 23:34781 (ANL-7282, pp 507-13)
capture by tin-116, tin-119, tin-122, and tin-124, gamma spectra from, (E), 21:31834(R) (ORNL-4082)
capture by tin-118 in tin monoxide, Moessbauer study on, 25:194
capture by tin-118, γ spectra for, (E), 23:39976(R) (ORNL-4395)
capture by tin-122, tin-123 energy levels from, (E), 22:9893
capture by tin-124, tin-125 energy levels from, (E), 22:9893
capture by titanium isotopes, γ spectra from, (E), 22:24854 (IA-1128, pp 12-20)
capture by titanium, gamma spectra from, (E), 24:47583
capture by titanium-46, γ spectra and γ—γ angular correlations for, (E), 23:25875
capture by titanium-47, γ spectra from, (E), 24:15856
capture by titanium-48, (E), 22:20570 (ITEF-52)
capture by titanium-48, γ—γ angular correlations for, (E), 23:1865
capture by titanium-48, titanium-49 energy levels from, (E), 22:9826
capture by titanium-49 and -50, γ spectra and angular correlations from, (E), 25:28284
capture by transradium elements, method for calculating cross sections and resonance integrals for, (T), 22:20565 (CONF-680307-18)
capture by tungsten, calculation of gamma yields using cascade model, (T), 23:37235
capture by tungsten, DUCAL calculation of γ yield from, 24:3953(R) (ORNL-4433)
capture by tungsten, gamma spectra from, (E), 24:47610
capture by tungsten, γ spectra for, 23:49398 (WASH-1127)
capture by tungsten, γ spectra for, (E), 23:13285
capture by tungsten-182, tungsten-184, and tungsten-186, gamma spectra from, (E), 21:31834(R) (ORNL-4082)
capture by tungsten-186, conversion-electron spectra from, (E), 21:44709
capture by tungsten-186, gamma spectra from, (E), 24:47598
capture by tungsten-186, γ spectra from, (E), 25:20324
capture by uranium-233, cross section for, (E), 23:37242
capture by uranium-233, cross section for, (E), 23:7281(R) (ORNL-4280)
capture by uranium-234 and -236, cross sections for, (E), 25:34069 (AERE-R-6761)
capture by uranium-234, gamma spectra from, (E), 24:47641
capture by uranium-235, cross section for production of isomeric uranium-236 relative to fission for, (E), 25:31307 (JINR-P7-5497)
capture by uranium-236, cross section for, (E), 23:28304 (WASH-1124)
capture by uranium-236, cross section for, (E), 23:1882 (WASH-1093)
capture by uranium-237, cross section for, (E), 21:38266
capture by uranium-238 in reactors, methods for measuring neptunium-239 activity from, 22:24858 (KR-124)
capture by uranium-238, cross section for, (E), 24:18432
capture by vanadium-51, γ spectra from, (E), 22:1635
capture by vanadium-51, γ—γ angular correlations for, 23:17095
capture by vanadium-51, vanadium-52 energy levels from, (E), 21:9983
capture by xenon-129 and -131, gamma spectra from, (E), 25:53776
capture by xenon-131, gamma spectra from, (E), 25:34100
capture by ytterbium-168, conversion electron and γ spectra for, (E), 23:31000
capture by ytterbium-168, gamma spectra from, (E/T), 22:46769(T) (ORNL-tr-1954)
capture by ytterbium-168, γ spectra for, (E), 23:1902
capture by ytterbium-168, γ spectra from, (E), 22:37355
capture by ytterbium-170, -172, -174, and natural ytterbium, γ spectra for, 23:52159
capture by ytterbium-171 and -173, γ spectra and Q-values for, (E), 25:59825
capture by ytterbium-174, ytterbium-175 energy levels from, (E), 21:46739
capture by yttrium-89, cross sections for, (E), 21:14452
capture by yttrium-89, γ—γ angular correlations from, (E), 24:5407
capture by Z = 1 to 46 nuclei, compilation of γ spectra from, 22:9820
capture by Z = 13 through 30 and Z = 56 nuclei, γ spectra for, (E), 23:46943 (ORNL-4382)
capture by Z = 17 to 80 nuclei, gamma circular polarization from polarized, (E), 25:59780 (KFK-1401)
capture by Z = 4 to 14 nuclei, gamma spectra from, (E), 21:23534(R) (ANL-7246)
capture by Z = 47 to 67 nuclei, data compilation on, 23:9005
capture by zinc-64, -65, -66, -67, and -68, gamma spectra from, (E), 21:44638
capture by zinc-64, -66, -67, and -68, gamma spectra, Q-value, and gamma-gamma angular correlations from, (E), 25:22999
capture by zinc-64, -66, -67, and -68, gamma spectra from, (E), 24:38160
capture by zinc-67, γ spectra for, (E), 22:13964
capture by zinc-68, γ spectra and isomer yield ratio for, (E), 23:13247
capture by zirconium at 0.01 to 1.0 eV, cross section for, (E), 22:24853 (GA-8557)
capture by zirconium-94 and -96, cross sections for, (E), 25:20392
capture cross section for barium-140, (E), 21:46723 (ORNL-4164, pp 1-23)
capture cross sections and resonance integrals for promethium-147, promethium-148, and samarium-147, (E), 21:42637
capture cross sections and resonance integrals for cerium-140, cerium-142, neodymium-146, neodymium-148, neodymium-150, and terbium-159, (E), 21:42641
capture cross sections for antimony-121 and -123, (E), 21:42643
capture cross sections for calcium, calcium-42, calcium-43, and calcium-44, (E), 21:25518 (WASH-1071)
capture cross sections for deuterium, (E), 21:25429
capture cross sections for niobium-93 and -94, (E), 21:46723 (ORNL-4164, pp 1-23)
capture cross sections for samarium-147, (E), 21:21524
capture in aluminum, copper, and iron, gamma spectra from, (E), 23:3545
capture in aluminum, gamma spectra analysis methods for, 24:44311
capture in ferromagnetic single crystals using polarized beams, anomalous, (T), 23:15335
capture in iron oxalates and potassium iron oxalates, yields of divalent and trivalent iron-59 recoil atoms from, 24:48120
capture in single crystals of ferromagnetic materials using polarized beams, effects of electron structure on, (T), 23:8908 (UJV-2080-F)
capture in uranium-238, ratio of epithermal to, 23:15738(R) (BNWL-963)
capture of, by lanthanum-139 and lanthanum-140, cross sections for, 21:2707 (ORNL-3994, pp 1-26)
capture of, by silver-111, cross sections for, 21:2707 (ORNL-3994, pp 1-26)
capture of, gamma doses and spectra from, (T), 21:15211 (LA-3619)
capture with excitation of isomeric states, relative probabilities for, (T), 22:42095(T) (ANL-Trans-644)
capture-to-fission ratio for plutonium-239, (E), 22:44680(R) (IN-1189)
capture-to-fission ratio for uranium-233, review of integral data on, 23:11004 (WAPD-TM-760)
chemical binding to electrons in lithium fluoride, negative results of search for, 24:21860
chemical bonding to trapped electrons in lithium fluoride, evidence for, from irradiation experiments, (E), 23:51758
chemical bonding to trapped electrons in lithium fluoride, negative results of search for, 24:15387
collimation in rectangular tubes, Monte Carlo study of, 23:20064
collimator for Triga Mark II, design of total-reflecting conical, 22:30324
collimator for, divergent beam radiography, 21:41172
cpature to fission ratios for plutonium-239, uranium-233, and uranium-235, (E), 25:15070
cross section variation with buckling, P1-B1 program for calculation of, 21:30091(R) (ANL-7210)
cross sections in sigma piles, measurement of absolute, 21:14069 (CNAEM-36)
decay constant in nonmultiplying systems, effects of local inhomogeneities on, (E), 24:38634
decay constants and density in finite coherent moderators, from pulsed source, (T), 22:29861
decay constants for cadmium-bearing water, (E), 22:13893 (AE-309)
decay constants for pulsed slab and spherical assemblies, analysis of, (T), 22:35638
decay constants for pulsed spherical geometry water assembly, discrete-ordinates analysis of, (E/T), 22:35711
decay constants for spherical light water systems, effects of scattering anisotropy on, (T), 21:38148 (BNL-11560)
decay constants for water in spherical geometry, effects of scattering anisotropy on, (T), 22:29867
decay constants for, use of sinusoidal neutron source for measurement of, (E/T), 24:7347
decay constants from pulsed-source experiments in poison-bearing water, (E), 22:41931
decay constants in water, measurement using sinusoidal source, (E), 24:20313
decay in exponential piles of pulsed, point spectrum upper limit for, (T), 24:7317
decay n → p + e⁻ + τ in vacuum, proton recoil spectrum from, (E/T), 23:39680
deflection of, performance of curved total-reflecting collimator for, 21:26295
density at various atmospheric depths in years of minimum solar activity, (E), 22:38833
density distribution in reactor cores, two-region spectrum calculations of, 23:21555
density distribution measurements in NORA lattices, 21:2864(R) (KR-109)
density fluctuations of, slowing down kernels for, 21:31961
density in water-moderated reactors, effects of central water gaps on, 22:39884
density ratios for, comparison of calculated and experimental values of, 22:10086
density, flux, and current spectra, computer program for calculating space-dependent, (T), 24:52354 (BNWL-1434)
detection and measurement of integrated fluxes of, design of Geiger—Mueller detector with activable cathodes for, 22:45310
detection and measurement of, in environment at ORNL Fast Burst Reactor, effects of distance on, 21:30808 (ORNL-4113)
detection and measurement of, ionization chambers for, 21:14427 (CEA-R-2962)
detection and measurement using etched tracks in plastics with boron-10 and lithium-6, 24:41671
detection at 0.024 to 0.111 eV, absolute measurement of efficiency of boron trifluoride detectors for, 25:48941
detection during well logging, design of scintillation detectors for, 22:40477
detection in reactors, design and performance of U-234—U-235 coated fission chambers for, 21:36363
detection of high-flux, in reactors, development of regenerative fission-chamber detectors for, 22:304 (BNWL-430)
detection of intense flux of, development of burnup compensated fission chamber for, 21:39195
detection of, activation detector for, 25:57729(P)
detection of, activation—scintillation techniques for, 22:12586
detection of, based on acoustic cavitation in methanol from boron-10 (n,α) rections, 24:33891
detection of, boron trifluoride proportional survey meter for, 24:19225
detection of, cellulose acetate butyrate and cellulose nitrate track detectors with boron-10 or lithium-6 fluoride for, 24:27330 (ANL-7615, pp 198-201)
detection of, description of activation detectors for, 25:23799
detection of, design and operation of helium multiwire detector for, 24:14262
detection of, design and performance of boron trifluoride proportional detectors, 21:26152 (RT/EL-(67)2)
detection of, design and performance of boron-containing liquid scintillation detector for, 25:29337
detection of, design and performance of helium-3-filled ionization chambers for, 23:6285 (RT/EL-(67)15, pp 77-96)
detection of, design and performance of scintillation counter for, 21:289
detection of, design of activation detector for, 22:33643(P)
detection of, design of boron trifluoride proportional detectors for, 22:33656(P)
detection of, development of high-temperature helium-3 activation detectors for, 21:32451
detection of, efficiency of gadolinium with semiconductor detector for measuring internal conversion electrons for, 22:25649
detection of, fabrication of silver-activated zinc sulfide—lithium fluoride scintillation detector for, 24:5911(P)
detection of, integrated analog amplifier with boron-lined proportional counter for, 23:2592
detection of, large liquid scintillation detector for, 25:29336
detection of, liquid scintillator composition for, 25:42069(P)
detection of, liquid scintillator for, 22:28126(P)
detection of, multiwire boron trifluoride ionization detector for, 24:11762 (BARC-440)
detection of, performance of boron and boron trifluoride ionization chamber for, 23:33384 (CEA-CONF-1262)

detection of, performance of dielectric track detectors with boron-10 and lithium-6 fluoride converters for, 25:44656
detection of, performance of dispersed lithium fluoride and silver-activated zinc sulfide scintillator for, 22:47334
detection of, preparation of mixtures of lithium-6 fluorides, ZnS(Ag), and polyethylenes for, 21:32398
detection of, response of europium-activated lithium iodide scintillation detectors for, 25:18661
detection of, response of shielded lithium-drifted germanium detectors for, 24:2466
detection of, secondary emission detector for, 24:14245 (CEA-N-1264)
detection of, sensitivity of spherical polyethylene-moderated scintillation detector for, 24:11781
detection of, survey of boron ionization chambers operating in nonproportional regime for, 23:6283 (CEA-R-3408)
detection of, testing of borazine and borazarene derivatives for use as phosphors for, 22:37974 (CNEA-206)
detection of, track detectors for, 24:41671
detection of, transistorized device for monitoring output pulses of detectors for, 21:17925
detection of, use of vanadium scattering for intercalibration of array of lithium glass scintillation detectors for, 23:26531
detection of, wall effect in helium-3-filled proportional detectors for, 23:33411
detection of, well logging system with sandwich-type detector for, 23:22109(P)
detectors for, flux depression in and around, 21:28197 (BLG-405)
diffraction by germanium single crystals, effects of dislocation density on dynamical, (E/T), 25:25250
diffraction by plane nickel-covered ruled grating, (E), 23:17069
diffraction by quartz crystals vibrating at 40 kc, 21:23262
diffraction by silicon single crystals, effects of oxygen segregations on, (E), 21:46428
diffraction by vibrating quartz crystal, 22:48434
diffraction of, electron linac time-of-flight system for studying, 24:18343
diffraction of, quantum mechanical calculation for, (T), 25:56615 (FMRB-37/71)
diffusion and extrapolation lengths in water, (E), 23:39915
diffusion and rethermalization in Santowax-R and water, (E), 22:29874
diffusion and thermalization parameters for graphite, (E), 22:46700
diffusion and thermalization parameters for graphite, measurement using pulsed source technique, (E), 22:18097
diffusion coefficient in fueled lattices, Monte Carlo calculations of, 24:46110 (RD/B/N-1674)
diffusion coefficient in graphite of, effects of empty channels on, 22:30307 (ORNL-TM-2085)
diffusion coefficient in graphite systems, measurement using pulsed source, (E), 25:20240
diffusion coefficients for heavy water, (E), 22:29884
diffusion coefficients for heavy water, (E), 23:5794
diffusion coefficients for reactors, use of monatomic gas model for predicting, 24:7285
diffusion coefficients for water and heavy water, 22:22521 (DP-1090)
diffusion coefficients for water and heavy water, (E), 22:41923
diffusion constants for heterogeneous graphite—cadmium assemblies, measurement using pulsed source technique, (E), 21:46654
diffusion constants in graphite, (E/T), 21:15472
diffusion constants of, measurement using neutron wave technique, (E/T), 21:15472
diffusion cooling coefficient analysis for beryllium oxide moderator, 21:10206
diffusion in beryllium oxide with empty channels, parameters for, (E/T), 22:26777
diffusion in beryllium oxide, pulsed-source determination of parameters for, (E/T), 22:26772
diffusion in borated heavy water and water, spectral index and relaxation-length measurements for, 21:29822 (DP-MS-67-10)
diffusion in cadmium-poisoned water, multigroup calculation using Nalkin model, (T), 25:53498
diffusion in graphite assemblies, effects of empty channels on, (E), 21:38187
diffusion in heavy and light water of, analysis of, (T), 22:18658
diffusion in hexagonal geometry, two-group calculations of, 21:7623 (AECL-1671)
diffusion in lead, parameters for, (E), 25:31177
diffusion in light water and aqueous salt solutions, (E), 21:23314 (BNL-994, pp 70-102)
diffusion in miniature heavy-water-moderated enriched-uranium lattices, (E/T), 21:29831 (MIT-2344-08)
diffusion in nonmultiplying media, review of calculations of spectra at vacuum interface of, (T), 25:36650 (UARAEE-60)
diffusion in reactor cores, GYMEA multigroup code for, 21:7851 (AAEC/E-147)
diffusion in terphenyl mixture (OM 1) at various temperatures, parameters for, (E), 24:38072
diffusion in water, analysis in ice—water phase transition region, 25:20248
diffusion in water, calculation models for, (T), 25:10301 (AEEW-R-701)
diffusion in water, effects of turbulence on, (E/T), 25:28815(T) (BNWL-tr-66)
diffusion in water, parameters for time-varying sources, (E/T), 21:2587
diffusion length in concrete, (E), 22:39567
diffusion length in media with small absorption, first-order corrections to, (T), 25:28150 (RCN-134)
diffusion length in moderators for, computer program for calculation of, 25:60226 (LFEN-NL-60-a)
diffusion length in water at 24°C, measurements of, (E), 23:3894 (LFEN-86-a)
diffusion lengths for, computer program for calculating, (T), 22:32432 (LA-3893)
diffusion lengths in aqueous absorbing solutions, (E), 23:34711
diffusion lengths in Dowtherm-A at 20 to 220°C, (E/T), 23:37093
diffusion lengths in pure and poison-bearing water, (E), 22:29874
diffusion lengths in Santowax-R, comparison of measured and calculated values for, 23:33115
diffusion parameter measurements in graphite in ANNA reactor, 22:25087 (INR-P-853/IXA/PR)
diffusion parameters for benzene at 20°C, measurement using pulsed source technique, (E), 22:9766
diffusion parameters for beryllium oxide, pulse decay measurements of, (E), 22:44592
diffusion parameters for cylindrical heterogeneous systems and systems with voids, pulsed-source measurements on, (E), 23:13193
diffusion parameters for Dowtherm-A at 20 to 200°C, (E/T), 22:32437
diffusion parameters for epoxy resins, (E), 21:11926 (INR-731/IXA/R)
diffusion parameters for graphite moderated reactors, (E/T), 25:25966 (JUL-690-RG)
diffusion parameters for graphite, measurement using pulsed source technique, (E), 22:3597
diffusion parameters for graphite, measurements using pulse propagation, (E), 22:29890
diffusion parameters for heavy water, measurements using pulsed-source technique, (E), 23:21221
diffusion parameters for ice at -5 to -85°K, measurements using pulsed-source technique, (E), 23:3917
diffusion parameters for lead, (E), 21:17340(R) (AEET-267)
diffusion parameters for paraffin in cylindrical assemblies, (E), 23:8914
diffusion parameters for perfluorodimethylcyclohexane, measurements using two-region pulsed-source technique, (E), 23:7215
diffusion parameters for perfluorodimethylcyclohexane, measurements using two-region pulsed source technique, 22:32450
diffusion parameters for perfluorodimethylcyclohexane, measurements using two-region pulsed-beam technique, (E), 22:50521
diffusion parameters for water at 21.7°C, measurement using pulsed source technique and spherical geometry, (E), 22:1559 (CTH-RF-12)
diffusion parameters for water in spherical geometry, measurements using pulsed source technique, 23:8917
diffusion parameters for water, measurements using pulsed source technique, (E), 22:29886
diffusion parameters in beryllium oxide, analysis of F-coefficient, 21:10206
diffusion parameters in lead, (E), 23:42837
diffusion parameters in Santowax-R, (E), 25:38848
diffusion parameters in water at 22°C by the boron-poisoning method, (E), 25:50621
diffusion parameters in water, determination by pulsed method and spherical geometrics, 22:44201
diffusion parameters in water, pulsed, (E), 24:8798 (IEA-147)
diffusion parameters of heavy and light water mixtures, measurement of pulsed, 22:3933 (TID-24100)
diffusion parameters using time-varying sources, (E/T), 21:2587
diffusion-length measurements in graphite, cold-neutron effects on, (E/T), 21:9913
disadvantage factor for, calculational technique for determining, 21:38545
disadvantage factor for, measurement in Ozenji superheating fuel elements of, 22:10067
disadvantage factor measurements in boron-water lattices, (E/T), 21:12239 (WAPD-T-1943)
disadvantage factors in water moderated natural uranium fueled lattices, Monte Carlo calculation of activation, (E/T), 25:12859
disadvantage factors in water moderated uranium lattices, (E/T), 24:22500
disadvantage factors of, in boron—fuel slab lattices, 21:8070
disadvantage factors of, in NORA, 21:8042(R) (IAEA-3498-12)
dispersion law for, comparison of two-group theory and Fermi age diffusion theory, 21:30117 (CONF-660206, pp 135-59)
distribution and use in organic moderated reactors, codes for, 21:21701
distribution from 14 MeV point source, calculation of, 24:39504 (ORNL-4446, pp 225-41)
distribution function for homogeneous non-absorbing source-free medium, calculation using thermodynamic Green function method, 21:42534
distribution in boron-trifluoride counters with hydrogenous moderators, 21:22162
distribution in cylindrical heterogeneous cells, space and energy, 22:3934 (UJV-1836)
distribution in cylindrical reactor cells, solution of multigroup P3 equations for, (T), 23:17277
distribution in cylindrical reactor of, effect of nonsymmetrically arranged control elements on, 21:44871
distribution in fuel elements, measurement of exact, 21:32024
distribution in graphite—water system of, measurement of space—energy, 22:22828(T) (AERE-Trans-1085)
distribution in Lucite, measurement of, 23:21510 (BNL-13208)
distribution in niobium hydride (NbH) and vanadium hydride (VH) of, 23:26081 (EUR-3940-1, pp 85-128)
distribution in nonuniform lattice boiling water reactors, transport solutions for two-dimensional multigroup, 23:4188
distribution in reactors, effects of moderator cavity shape on surface, (E/T), 24:16311
distribution in slab-type two-dimensional reactor of, multigroup proper function calculation of, 23:15715
distribution in square lattice cells, energy and space, (E/T), 21:19474 (STI/DOC-10/68)
distribution in tissue-like phantoms, quality factor for, 23:29500 (INR-P-965)
distribution in uranium-fueled water-moderated lattice, analysis of, (E/T), 22:35592 (CNAEM-47)
distribution in water, energy-dependent Milne problem for, 21:31690
distributions in hydrogen-containing media, Monte Carlo calculation of, (T), 25:5493
Doppler effect in thorium-232 and uranium-238 foils, effects of surface to mass ratio on, (E), 24:20639 (SU-326-P-9-3)
dose absorbed at embryo of dry rice seed, calculation of, 22:43344
dose distribution in tissues, 25:52152 (UCRL-20836)
dose distributions in infinite slab of standard man composition, 23:48057
dose measurement in Phoebus 1B, effects of 360° open-well shield on, 22:48722 (LA-3746)
dose rate equivalent measurement in Hungarian WWR-S reactor, 22:6130
dose rate of, design of scintillation detector in moderating sphere for measuring, 21:45435 (BNWL-481-4, pp 16-23)
dose to body surface, role of hydrogen-deuterium exchange and surface dose in, 25:8709 (DP-1229)
dose to cultures of HeLa cells from medical therapy beam, 23:31775
dose to human brain in comparison to neutrons from scandium filtered beam and γ rays as function of penetration depth into phantom, 24:39537 (IN-1317, pp 209-31)
dose to laboratory personnel in Poland, use of film monitoring for, 23:12113
dose to lunar astronauts from cosmic ray exposure, use of whole-body counting to determine, 24:27580 (ANL-7615, pp 204-6)
dose to personnel, measurement using electronic computers, 23:12114
dose-equivalent measurements of, with personnel dosimeters, 21:43286
dose-equivalent rates for Hungary WWR-SM reactor, measurement of, 23:21523
dosimetry as function of energy, 24:12068 (RHEL/M-149)
dosimetry at depth in tissue-equivalent phantoms, 21:24415 (PG-Report-774)
dosimetry at low fluxes, using fission fragment etch pits on glass in contact with uranium, 23:39011
dosimetry by nuclear track registration in solid material, personnel, 22:49348
dosimetry following nuclear accident, development of bare and cadmium-covered gold activation dosimeters for, 23:47844 (K-1763)
dosimetry following nuclear explosions in Japan, use of cobalt to cobalt-60 ratios for determining, 21:32673
dosimetry for food processing, performance of semiconductor and thermoluminescent detector for, 22:17050(R) (EUR-3606)
dosimetry for protection of personnel, performance of photographic emulsions for, 22:49350
dosimetry for protection of personnel, performance of photographic emulsions for, 22:49351
dosimetry in cylindrical phantoms, 0.025 eV, 24:39504 (ORNL-4446, pp 225-41)
dosimetry in environment of work areas, 22:21535
dosimetry in facility for evaluating radiaton protection measures, 42 MeV betaton, 25:13450
dosimetry in gamma field with shielded photographic film, correction coefficients for, 25:15950 (CLOR/IBJ-78)
dosimetry in human phantoms, Monte Carlo calculation of, 22:28456 (ORNL-P-3048)
dosimetry in infinite slab of standard man composition, 23:48057
dosimetry in man exposed to high-energy photons, instruments for, 23:11444 (BNWL-481-2, pp 1-126)
dosimetry in man, design of new film badge for, 23:12122
dosimetry in mixed radiations, photographic film using multiple filters for, 22:19173(P)
dosimetry in presence of γ rays, performance of photoluminescent detectors for, 22:21515
dosimetry in skull during therapy of brain tumors, method for calculation of, 21:36601
dosimetry in standard man slab phantom, calculation of fluence-to-dose conversion factors for 15 MeV to, 25:39860
dosimetry in tissue-equivalent human phantom, 24:41881
dosimetry in tissue-equivalent phantoms, 21:20189
dosimetry in tissue-equivalent phantoms, response of ionization chambers for, 23:50536
dosimetry of collimated beam of, in tissue-equivalent human leg and neck phantoms, 23:50536
dosimetry of monoenergetic, in corn seed, 21:28591(R) (NYO-2740-4)
dosimetry of, accuracy of photographic film for, 23:47856
dosimetry of, complex dosimeter badge for personnel, 23:17810
dosimetry of, conference on, 23:45758
dosimetry of, design and performance of dosimeter for personnel, 22:43108 (IFA-PN-19)
dosimetry of, design and performance of fissile metal—plastic disk personnel dosimeter for, 23:38325 (EIR-152)
dosimetry of, design and performance of photographic dosimeter for, 22:43125

dosimetry of, design of combination security credential holder and photographic film dosimeter for personnel, 23:697 (NVO-162-27)
dosimetry of, design of personnel photodosimeter combined with resonance detector for, 21:1647
dosimetry of, development of fission foil detectors for, 21:19974(P)
dosimetry of, development of ionization chamber for, 23:14044 (CEA-CONF-1068)
dosimetry of, development of lithium fluoride thermoluminescent dosimeters for, 22:4486
dosimetry of, development of lithium-7 glass photoluminescent dosimeters for, 23:26588
dosimetry of, development of phosphate glass photoluminescent dosimeters for, 21:39279(P)
dosimetry of, development of phosphate-glass luminescent dosimeters for, 25:35037(P)
dosimetry of, efficiency of silver-activated phosphate glass dosimeters for, 21:36413
dosimetry of, fission foil—polycarbonate track detector for, 25:51911
dosimetry of, in human phantoms, 21:6518
dosimetry of, in human phantoms using thermoluminescent dosimeters, 21:4809
dosimetry of, in tissue-equivalent phantoms, 21:8839
dosimetry of, multifilter photographic film for personnel, 23:47864
dosimetry of, performance of fission foil, radiophotoluminescence, and thermoluminescence detectors for, 25:6692 (CONF-691106-, pp 30-45)
dosimetry of, performance of lithium fluoride for megarad, 21:32484 (USNRDL-TR-67-56)
dosimetry of, performance of uranium—mica fission foil dosimeters for, 23:47748
dosimetry of, preparation of phosphate glass photoluminescent dosimeter for, 23:33541(P)
dosimetry of, properties of lithium fluoride thermoluminescent dosimeters for, 24:27442
dosimetry of, response of aqueous solutions of chloral hydrate for, 23:43607 (UR-49-1135)
dosimetry of, response of calcium sulfate—lithium sulfate thermoluminescent dosimeters for, 25:51906
dosimetry of, response of doped calcium sulfate thermoluminescent dosimeters for, 23:43604 (COO-1105-150)
dosimetry of, response of lithium fluoride thermoluminescent dosimeters for, 25:8567
dosimetry of, response of lithium fluoride thermoluminescent dosimeters for, 23:16164 (RD/B/N-693)
dosimetry of, response of silver-activated phosphate glass photoluminescent dosimeter for, 23:47859
dosimetry of, sensitivity of manganese-doped calcium fluoride for thermoluminescent, 25:37648 (NP-18864)
dosimetry of, silver-activated lithium borate glass dosimeter for, 23:9773
dosimetry of, supralinear response of lithium fluoride thermoluminescent dosimeters for, 22:21357 (COO-1105-129)
dosimetry of, thermoluminescent response of mixtures of manganese-activated calcium fluoride and organic liquids for, 24:4498
dosimetry of, use of activation detectors with personnel photographic film badges for, 21:19893 (BNWL-339)
dosimetry of, use of fissile material-mica sandwiched dosimeters for, 21:17894 (NP-16664)
dosimetry of, use of glass photoluminescent dosimeters for, 21:26239 (CONF-650637-, pp 467-81)
dosimetry of, use of niobium-93 activation foils for, 22:28177 (FFN-74)
dosimetry of, use of photographic film dosimeters for, 22:6653 (RT/PROT-(67)12)
dosimetry of, use of quality factor and calculations of dose absorbed and depth dose in tissue-equivalent phantoms for, 25:24179
dosimetry simultaneous with gamma radiation, use of nitrogen-14- and nitrogen-15-labeled nitrogen oxides for, 21:39271
dosimetry using nonphotographic nuclear track registration, personnel, 22:21361
dosimetry using polymer thermoelectrets, 25:51910
dynamics in heavy water, inelastic, 22:22804(R) (BNWL-685)
dynamics of, effects of accelerated motion of the source on, (T), 21:5472
economy in heterogeneous reactors, albedo method of calculating, 21:30275
effect on brittleness of types 304 and 304L stainless steel at high irradiation temperature, 21:28793(R) (BNWL-94)
effect on creep-rupture of titanium-strengthened Hastelloy N, 23:12260(R) (ORNL-4330)
effects of aqueous solutions of uranium, oxidation states of tin isotopes produced by, 21:40889
effects of Armco-iron and steel-45, 23:1015
effects of flux peaking on thermal stresses in smooth and fin clad rod type fuel elements, (T), 23:24046
effects of mixtures with fast, on the tensile properties of nickel-base alloys at 704°C, 23:22595 (BNWL-790, pp 12.1-66)
effects of, on ammonia and hydrocarbon mixtures, 21:107
effects of, on ammonia—ethylene adsorbed by zeolites, production of carbon-14-labeled products in, 21:4550
effects of, on bromine, 21:5978
effects of, on cotton, 21:11328
effects of, on electric conductivity of alpha-uranium crystals, 21:6817
effects of, on ethylene—nitrogen system, carbon-14 recoil atom reactions during, 21:4549
effects of, on genetic variability in Avena sativa, 21:12812
effects of, on isotopic exchange and yields in nitrogen and its oxides and mixtures, 21:4542(R) (RPI-321-9)
effects of, on nitrogen—rare gas mixtures, isotopic exchange and yields in, 21:4542(R) (RPI-321-9)
effects of, on optical absorption of lead borate glass, 21:14263
effects of, on production of cobalt-60 from cobalt, hyperfine interaction fields in, 21:10392
effects of, on tensile properties of aluminum—silica fibers, 21:14916
effects of, on tensile properties of austenitic stainless steels, 21:13222
effects of, on weight of bursa of Fabricius and thymus in chickens, protective effects of AET on, 21:1771 (CONF-650560-19)
effects of, on Zea mays, mutagenic, 21:12814
effects on 1,2-dibromoethylene, effects of bromine-82 on yields from, 24:11604
effects on 1-bromobutane, 21:28028
effects on 1-bromobutane, effects of aniline and oxygen on yields from, 24:33750
effects on 1000 MW(e) gas-cooled fast breeder reactor Hastelloy X-clad uranium oxide (UO_2) pellet-type fuel elements, 23:7389(R) (GA-7645)
effects on activity and distribution of enzymes in maize shoots grown from irradiated seed, 21:24342
effects on activity of aminotransferases in subcellular fractions of rat brain, effects of dose on, 22:51350
effects on algae, isotope substitution methods for studying, 25:52255 (JUL-727-BO)
effects on alkali metal orthophosphates, 22:42724 (COO-1618-8)
effects on alkaline phosphatase in leukocytes of rabbits, 23:31657
effects on alkaline phosphatase in leukocytes of rats, effects of dose on, 23:41461
effects on alkyl bromides, electrolytic collection of recoil bromine-80 and bromine-80m from, 25:2301
effects on alkyl iodides, effects of Szilard-Chalmers reaction on organic yields of iodine-128 from, 24:19026
effects on aluminum nitride, reactions of recoil carbon-14 from, 24:33715
effects on ammonium and calcium hypophosphites, 21:38960 (COO-1618-4)
effects on ammonium hypophosphite, computer simulation of reactions of recoil phosphorus-32 in, 23:43337 (COO-1618-12)
effects on animal and human neoplasms, combined effects of boron anions on, 22:51673(R) (NYO-3267-5)
effects on anomalous helium production in nickel, 25:4821
effects on aqueous solutions of xenon trioxide, Szilard—Chalmers reactions in, 24:16580
effects on Arabidopsis, mutagenic, 22:23484(R) (COO-1512-5)
effects on atom ejection from gold, 24:6239
effects on α- and β-zinc phthalocyanines, effects of initial retention on recoil energy in, 23:28916
effects on α—β transformation temperature in plutonium, 25:11467
effects on barley and rice seeds, effects of storage on, 23:6426
effects on barley, calculation of RBE for rate of mutagenic, 24:41826
effects on barley, mutagenic, 21:32610
effects on barley, mutagenic, 24:21112
effects on barley, mutagenic, 24:39476 (COO-332-8)
effects on barley, oats, rice, and wheat, mutagenic, 23:4912
effects on barley, study of phenotypic reversions following mutagenic, 24:21138
effects on Battelle Research Reactor electrical components, 21:15773
effects on behavior of Type 316 stainless steel-clad sodium-bonded plutonium carbide—uranium carbide fuels and fuel elements, 25:32857
effects on benzene, reactions of recoil tritium in, 24:33749
effects on benzene—hexane, yields from tritium recoil reactions in, 24:36314
effects on boron carbide, literature review, 22:26091 (BNWL-679)
effects on boron content of boron carbide, 25:49509 (ORNL-TM-3416, pp 166-71)
effects on boron in A-286, Hastelloy R235, and vanadium, 23:30102
effects on boron-10—zinc sulfide scintillation detectors, 25:18880
effects on brittleness of 18-8 stainless steel, 21:28793(R) (BNWL-94)
effects on brittleness of low-boron type 304 stainless steel, 21:28793(R) (BNWL-94)
effects on bromine and tribromomethane mixtures and benzene and bromine mixtures, effects of phase homogeneity on, 22:2141
effects on bromine-80 recoil processes in sodium bromate, effects of crystal defects on thermal annealing of, 22:37794
effects on bromobutane, reactions of recoil bromine from, 25:51542
effects on bromoethane, chemical effects of bromine-79 reactions in, 21:25900
effects on bubble nucleation and re-solution in uranium dioxide at high temperatures, 25:55649
effects on burnup and density of tantalum-encapsulated boron carbide, 24:23535 (BNWL-1279, pp 6.1-4)
effects on C49-2 glass, helium formation and permeability, 23:34119
effects on cadmium at 3.6°K, annealing of, 25:32763
effects on cadmium at low temperatures, mechanism of damage production rate in, 24:49252
effects on cadmium compounds, defects from, 22:24492
effects on cadmium sulfide and cadmium telluride, 22:770 (N-67-26321)
effects on cadmium sulfide and cadmium telluride, (E), 21:25191
effects on cadmium sulfide and telluride, luminescence and electric resistivity study of, 25:56307
effects on cadmium telluride, recoil defect production in, 21:2335
effects on cadmium tellurides, 22:17192
effects on cadmium, annealing recovery of, 24:32895 (ORNL-4526, pp 1-17)
effects on calcite and mica crystals, fission track studies on, 23:39067
effects on calibration of thermocouples, dose rate dependence of, 23:766
effects on carbon tetrachloride—cyclohexane mixtures, yields of labeled compounds from, 21:32219
effects on carrier content, Hall mobility, and photoconductivity of n- and p-type cadmium telluride at 1 MeV, 25:59161
effects on castor plants, mutagenic, 25:39838
effects on catalytic activity of iron in ammonia synthesis, 25:57444
effects on ceramic electric insulating materials, 22:776
effects on characteristics of tomato fruit following seed exposure, 24:9969
effects on chelates of praseodymium with β-diketones, 21:24046
effects on chemical behavior of labeled cobalt(III) and rhodium(III) dichlorotriethylenetetramine complexes, 25:137
effects on chloropentaammine complexes of cobalt, iridium, or rhodium, 24:33738
effects on chlorophyll production and sector size in bean plants, effects of dose on mutagenic, 25:39829
effects on chloroplast pigments in barley, mutagenic, 22:25801(R) (COO-332-2)
effects on chloroplasts of barley, mutagenic, 22:36234
effects on cholesterol levels in adrenal glands, plasma, and liver of rats, 21:20391
effects on cholinesterase activity in liver and muscles of rats, 22:23446
effects on chromium acetylacetonate, distribution of chromium-51 recoils in yields from, 23:13787
effects on chromosomes in animals, microorganisms, and plants, review of aberrant, 25:6670 (CONF-691106-, pp 315-39)
effects on chromosomes of Nigella damascena, RBE for aberrant, 22:45484
effects on chromosomes of Nigella, effects of seed exposure on aberrant, 24:25462
effects on chromosomes of Nigella, RBE for aberrant, 24:9809 (BNL-14197)
effects on chromosomes of pearl millet, effects of seed exposure on mutagenic, 22:23497
effects on chromosomes of sorghum, effects of seed exposure on aberrant, 23:48019
effects on chromosomes of tomatoes, effects of seed exposure on aberrant, 24:14468
effects on chromosomes of Vicia faba during meiosis, RBE for, 24:21131
effects on chromosomes, fertility, and morphology of barley, 23:6613
